## One Injured In Trucks, Car Accident

The west bound lane of East Hwy 84 was blocked for approximately a hour Wednesday afternoon following a major accident involving two tractortrailer-rigs and a 1976 Ford LTD. According to the investigating Highway Patrolman Bret Harmon, the traffic backed up about a mile.

In Trooper Harmon's reports the 1976 Ford driven by Carlos Rodriguez of Muleshoe was traveling west at a slow rate of speed when Truck Number One, driven by Robert Dennis of Washborn, Ill., an independant truck driver, which was following had no time to take action and hit the Ford in the drivers rear section. The vehicle was then pushed to the right ditch of the roadway.

Truck Number Two, driven by Robert Coats of Houston, also an independant trucker, turned sharply to the left attempting to avoid coliding with Truck Number One. Unable to avoid impact, Truck Number Two hit truck Number One's trailer,

## GTE Will Guarantee Customer Repair Service

"GTE Central Area will guarantee repair service for residential telephone customers in Texas, effective immediatly," said O.D. Hearn, GTE's district manager. "GTE is committing to repair residential customers' telephone service on time as promised, or give the customer credit for one month's local service charges.

"The repair service guarantee program, which will be considered for possible introduction in other GTE service territories, is among the first in the telecommunications industry and represents GTE's ongoing commitment to provide excellent customer service."

The Public Utility Commission (PUC) of Texas has approved GTE's repair service guarantee program. "We want our customers to be satisfied with GTE's repair service, and that's what this guarantee is all about," said Hearn.

"If for any reason the repair is not made on time as promised, all the customer has to do is call GTE's repair center. We'll credit the customer for one month's local service charges," Hearn continued.

The GTE program builds upon a repair guarantee pioneered by Contel Corporation, which recently merged with GTE Telephone Operation's parent company, GTE Corporation, headquartered in Stamford, Connecticut. "The GTE program guarantees the customer's service will be restored by the committed time," said Hearn.

The local service credit covers charges for basic exchange access line service, custom calling features, touch call, Lineskeeper (inside wire maintenance), additional and miscellaneous directory listings, nonlisted service and non-published telephone numbers.

"While the GTE service guarantee is new, our commitment to providing the best possible telephone service is not," Hearn said. "Quality repair service and a satisfied customer have always been our goal. Now, we guarantee it.'

## Zanna Huckaby and Damon Jordan United In Marriage

Vaughn Jordan of Crosbyton were united in marriage in a candle light ceremony at 4 p.m. Saturday June 15 at the Muleshoe Church of Christ. Royce Clay, minister of the Church of Christ in Big Spring, Texas officiated the double ring ceremony.

The guests were registered by Jayna Lennon of Muleshoe. The registration table was covered with a mauve linen cloth and an overlay of white lace. A mauve candle with a burgundy magnolia, mauve ginger and burgundy hearts accentuated the talbe. A backdrop framed with wedding garland displayed pictures of the bride and groom's childhood.

Musical selections of "There is Love", "Battle Hymn of Love", and "Just You and I" were sung while the guests were seated by Duane Shock of Crosbyton and Gary Jones of Tahoka. The ushers were attired in black tuxedos with mauve ties and cumberbunds.

Mr. and Mrs. Henry Louder of Stanton and Mr. and Mrs. Floyd Huckaby of Winters, grandparents of the bride were seated as "Sweet, Sweet, Spirit" was sung.

The "Wind Beneath My Wings" was the setting for the lighting of the brass candelabras which consisted of one fifteen branch and two spirals a total of 45 candles. Elaborately dressed with maple ivy, mauve and burgundy tipped ginger and accented with large mauve bows. A large array of palm trees and scallops of wedding garlands peaked with candlelight "Love Doves" and large mauve bows completed the grouping.

The mothers were escorted in by the fathers to the musical selection of "She Gave Me Love" to light the unity candle. The unity candle, imprinted with the wedding invitation and framed with complementary flowers, was displayed on a brass pedestal draped with a large cascade of maple ivy, a mauve bow, burgundy hearts, and streamers. The parents are Mr. and Mrs. Lyndon Huckaby of Muleshoe and Mr. and Mrs. Jerry Jordan of Crosbyton.

The groom, attired in his official military dress blue uniform entered with the minister to the harmony of "My Only Love", followed by the attendants in pairs. The maid of honor Holly Huckaby, sister of the bride, and bridesmaids Courtney Brown of Lubbock, Sharyn Chmielewski of Dallas, and Sherry Tribble, of College Station were all dressed in identical tea length mauve polished morie dresses with a fitted bodice and dropped waistline. The backs were accented with a deep V-neckline and bows. They each carried arm bouquets of burgundy magnolias, mauve cala lilies, mauve slipper orchids, and mauve with burgundy tipped ginger, flowing with burgundy crystal spray. A mauve bow with burgundy and mauve streamers completed their bouquets.

Jerry Jordan, father of the groom, served as best man and J. Paul Cornelius of Abernathy, Jeff Ratheal of Lubbock and Gary Jones, cousin of the groom of Tahoka, served as groomsmen. They were attired in black tuxedos with mauve ties and cumberbunds, and boutonnieres of burgundy sweetheart roses. The ring bearer Cole Jones of

Zanna Lynelle Huckaby of Tahoka, cousin of the groom Muleshoe and SFC Damon wore identical attire. He carried a white satin heart pillow adorned with lace and the names of the bride and groom and their wedding date embroidered to top. The rings were tied with mauve and burgundy satin ribbons. The pillow was a gift and designed by the bride's

> The flower girls Brandi and Heather Hale of Stanton, cousins of the bride were dressed in identical tea length dresses which were replicas of the bridesmaids. They carried mauve wicker baskets accented with white bows, mauve and burgundy tipped ginger flowers. They dropped love knots of burgundy, white, and mauve satin ribbons to prepare the isle for the bride's entrance.

> As the accapala choir sang "I Can't Help Falling In Love With You" the ribbon was dropped to open the elaborately decorated candlelight isle that had been reserved for the bride's entrance. The candlelight pew markers were embellished with greenery, mauve bows, burgundy hearts, and streamers. The parents pews were marked with flowers in replicas of the bridal bouquet. The bride escorted by her father was adorned in a formal wedding gown of lyrical elegance in white satin. The gown's fitted bodice had a basque waistline, sabrina neckline, and was embellished with hand beaded pearls, iridescent sequins and schiffle embroidery. The leg of mutton sleeves were ornate with iridescent sequins, hand beaded pearls, and schiffle embroidery that came to a delicate point at the wrist. The cathedral length train was accented with a baby ruffle and a sheer illusion of schiffle embroidery. Her full length veil had a delicate pearl band with an elaborate side spray of shoulder length streamers of lilies of the valley and pearls. The iridescent beaded schiffle leaf and pearl filament headpiece adjoined the pearl beaded pouf and lettuce edged and hand beaded pearl illusion.

The bride carried a crescent shaped arm bouquet of mauve slipper orchids, and white cala lilies, accented with mauve and burgundy tipped ginger. White crystal spray with a hint of burgundy flowed throughout giving it a light delicate effect. Exquisite lace and satin ribbons with an array of white and iridescent pearls perfected the bouquet. All floral designs and church decorations were originals by Libby Black.

Following the wedding tradition, the bride wore a German hand crafted sterling silver and amethyst bracelet from her maternal great, great, grandmother. She wore pearl earrings of the groom's paternal grandmother. In each of her satin slippers were pennies minted in the year of the bride and groom's birth. The bride also carried her parents matching wedding bands tied in her bridal bouquet. To complete the tradition she wore a blue garter.

Following the ceremony a reception was held in the fellowship hall of the church. The serving tables were uniquely connected and covered with white linen table cloths. The bride's table was adorned with a four tiered heart shaped cake, atop a flowing fountain lavishly accented with fresh fern and baby's breath, four heart cakes surrounded the larger cake. The top tier was separated with

corinthian pillars and topped was used at the head table for with the miniature bride and groom cake top that was used on the bride's parents' wedding cake. Nestled beneath the corinthian pillars was a smaller heart cake that had two love doves that were used on the bride's paternal grandparents' fiftieth wedding anniversary cake. The groom's table featured a large brass coffee urn, a large two tiered German chocolate cake topped with a bride tugging on the groom's coat tail. The center table was accented with a white satin skirt and was used to serve the burgundy punch, heart and wedding bell mints from crystal appointments.

Serving at the bride's table was Angie Ratheal of Lubbock, and Donae Parker of Canyon. Julie Kirk of Lubbock served the punch. Serving at the groom's table were Dena Perieda, of Crosbyton, sister of the groom and Kimberly Jordan of Ralls, cousin of the groom. Members of the house party were Mr. and Mrs. Jim Foster, Mr. and Mrs. James Brown, Mrs. Cleo Ward, and Mrs. Rich

Out of town guests were Mr. and Mrs. Henry Louder of Stanton, Mr. and Mrs. Floyd Huckaby of Winters, Mr. and Mrs. Stanley Barnes of Stanton, Mr. and Mrs. Darr Huckaby and Jay of Stanton, Mr. and Mrs. Randy Jackaby, Cassie and Zachary of Stanton, Peggy, Brandi, and Heather Hale of Stanton, Dena and Ashley Perieda of Crosbyton, Mr. and Mrs. Tracy Jordan and Cory of Tyler, Mr. and Mrs. Charlie Jordan, Breana and Chance of Levelland, Mr. and Mrs. Preston Langford and children of Hurst, Alta Reed of Ft. Paul Cornelius of Abernathy, Melba Moore of Bovina, Mr. and Mrs. Alvin Gladden, Jaime and Jill of Morton, Mr. and Mrs. Lee Copley of Amarillo.

The bride chose a fitted dress of mauve and burgundy floral design accented with a fabric bustle as her going away dress. The couple spent the weekend in Lubbock and traveled to Washington, D. C. where they will make their home in Laurel, Maryland.

The bride is a graduate of Muleshoe High School and graduated from Texas Tech University in May of 1991. The groom is a graduate of Crosbyton High School and attended Texas Tech University. He is currently a linguist for the United States Army.

A rehearsal dinner catered by Larry and Paula Winkler was hosted by the groom's parents on Friday, June 14 in the fellowship hall of the Muleshoe Church of Christ. The tables were decorated with mauve tablecloths and burgundy napkins. A burgundy centerpiece

injury as a result of a serious car accident.

The accident occurred on June 26. Mrs. Rennels commented on the wonderful ambulance service and staff support of a hospital full of well-trained people here in Muleshoe.

"This served to emphasize the need that Muleshoe has for a local hospital of the quality of ours," Mrs. Rennels said. She commented that here in Muleshoe, she was given permission to stay in the emergency room with her son during the cirsis period. At the University Medical Center she was denied this privilege.

"We were also introduced to the wonderful services of the Ronald McDonald House in Lubbock," said Mrs. Rennels. Parents of children under 18 who are receiving medical care in Lubbock and who live outside of Lubbock County are allowed to stay in the Ronald McDonald House.

Nine family rooms and a lounge are a part of the facility. From 9 a.m. until 9 p.m. volunteers, mostly college and university students, assist the families who are staying at the house while their children are treated.

The Rennels were acquainted with the family who donated the money for the room they stayed in while at the house. The rooms are homey, towels and bedspreads are provided, commented Mrs. Rennels.

Each family has a cleaning job assigned while they stay in the Ronald McDonald House.

Ronald McDonald House," commented Mrs. Rennels. "Our feelings of anxiety were comforted somewhat by being in the Ronald McDonald House environment," she said.

"One of the first things that Gilrobert wanted to do after being released from intensive care was to try to play the piano in the Ronald McDonald Houseto see if he still could play," Mrs. Rennels noted. He realized that he could.

"There is an enormous play room in the House. All kinds of toys for all ages of children are found there. All kinds of canned goods fill the pantry so that families who can't find time to grocery shop can still cook and eat," she said.

"Two churches served dinner on two different nights and Furr's served us another night," Mrs. Rennels said.

"If you are ever in Lubbock and have a few minutes, I suggest that you visit the Ronald McDonald House. They will be more than happy to show you through the facility," she said.

"During our crisis with Gilrobert's accident and resulting critical injury, we spent one night in a motel. The contrast between that night and the other nights we spent at the Ronald McDonald House was tremendous," said Mrs. Rennels.

## Dillman and Deshazo Gear Up

#### Capability With Computer

The instructional computers have been really busy at the Computer Labs at Dillman and Deshazo Elementary schools as approximately 75 future computer whizzes have been involved in summer computer camp activities. Muleshoe I.S.D. sponsored this 4th Annual Summer Computer Camp for students from the 1st through 5th grades to encourage youngsters' interest the use of the computer as a tool in successful academic achievement and personal enjoyment.

The instructors for the camp, Christy Whitt at DeShazo Elementary and Ana Gutierrez at Dillman Elementary, report that the students were enthusiastically involved in the use of different software applications ranging from the use of simple word processing to do creative writing to problems solving activities in game format. The participants were excited about the use of the computer to print pictures to go with their stories.

Students were divided into groups of approximately 20 per session and four sessions were held each day during the week of July 15 through July 19. Refreshments were served and,

for their hard work and participation, each student received a special "Little Bits" t-shirt exclusively designed on the Macintosh by two former Muleshoe High School students.

#### Don't Drown

Each year thousands drown. Sensible precautions could prevent many deaths. The following rules

are proven: 1. Use only super-

vised pools for young children. 2. Stay ashore in

heavy weather.

3. Keep children and non-swimmers out of boats not equipped with life-preservers.

4. Teach children to swim early. 5. Use extreme cau-

tion fishing from a boat after dark. 6. Carry extra life-

preservers in boats. 7. If deathly afraid

of water, stay away from it.

(Remember that one can float indefinitely by holding the head back so only the nose in above water).

## **ASCS Employees Receive**

## Service Awards

the Texas State ASC committee, announced that over 150 Texas employees of the Agriculture Stabilization and Conservation Service (ASCS) were in Washington receiving awards from the administrator of ASCS for outstanding and meritorious service to ASCS and the farmers and ranchers of Texas.

Harris explained that the awards are presented annually by the administrator of ASCS to recognize those employees whose exemplary performance of duties provided outstanding service to ASCS and American agriculture. The Administrator's Award for Service to Agriculture is the highest recognition that ASCS can give any individual or group of individuals:

The group met with members of Congress including Senator Phil Gramm and House Agriculture Committee Chairman Kika de la Garza. Other congressmen addressing the group were Jim Chapman, Larry Combest, Chet Edwards, Greg Laughlin, Bill Sarpalius and Charles Stenholm

Senator Gramm said, "Each year, ASCS employees find their work made more difficult by the increasing complexity of our farm programs. It really says something that 150 of our Texas ASCS employees overcame every hurtle and served the public so efficiently that they received the highest honor ASCS can bestow for excellence in service."

Kika de la Garza, chairman of the House Agriculture Committee, also gave high praise to the

Environmental consciousness is uppermost in the minds of citizens in every corner of the nation and President Bush's American the Beautiful program is designed to help meet these

Americans' concern about global warming, ozone depletion acid rain and loss of biological diversity are driving the current environmental awakening. Society's demands for clean air and water are having an impact in urban areas as well as in the fields and forests and the America the Beautiful program has launched a massive tree planting effort toward confronting these demands.

The America the Beautiful (ATB) grants program was created through bi-partisan effort in the 1990 Farm Bill. The federal dollars are to be used as seed money to help communities establish or strengthen their own tree planting and tree care programs. The grants will leverage other sources of funding for projects like drafting tree protection ordinances, drawing up tree planting plans, or creating public education plans.

Also, grants might be used for start-up funding for staffing or municipalities or non-profit organizations to develop local

tree planting programs. In Texas, the grant program is being administered by the Texas Forest Service. Grant applications are being mailed now and are due back to the State Forester's office in College Station by August 19.

"Unfortunately, the pool of money for this year's grant program is limited to \$200,000 for Texas, and many good proposals may go unfunded this year," according to Bruce Miles, director of the Texas Forest Service.

"The outlook is good for more federal money in the 1992 fiscal year. The President and several influential congressmen and senators support increasing the level of funding for next year, but the budget is still being debated," Miles added.

If a community did not receive a grant application, they should contact the Texas Forest Service at 100 Research Parkway, Suite 200, College Station, 77843-2136, or call 409-845-2641.

Jerry D. Harris, chairman of award recipients. Chariman de la Garza stated "We here in Washington have just honored one group of American heroes returning from the Persian Gulf. Now we honor a group of people who serve in agriculture, America's first line of defense. They have demonstrated superior qualities and as such are held in high esteem for their service to agriculture and their country.

In closing, Senator Gramm commented, "With the continued dedication and diligent effort of these employees, ASCS will continue to administer farm programs that all citizens can be very proud of."

In addition to other employees, the Texas State ASC Committee is being recognized for its management effectiveness and improvements. Chair-

man Jerry D. Harris is a cotton and grain sorghum producer from Lamesa. Other members that make up the committee are Mrs. Hope Huffman of McGregor, Dale Hunt of Garwood, D.V. Guerra Jr. of Edinburg, and Keith Spears of Vernon. The panel oversees activities of the ASCS organization throughout

Harris noted that ASCS provides service to all Americans by administering farm programs that ensure an adequate supply of food and fiber at a reasonable

"Texas ASCS employees are among the best in the Nation. In 1990, over 100 Texas ASCS employees were recognized by the Administration and here again in 1991, over 150 ASCS emlployees are being recognized for their outstanding service to the country," he said.

Harris added that "the Texas State ASC Committee is proud to be part of such a dedicated and professional group and hopes that all Texans will share in the recognition of these

Students net approximately \$1,000 in summer wages after room and board expenses are subtracted.

Now in its fifth year, MHS-SRAP drew 450 applicants for 25 research laboratory positions this summer.

The program received a boost this year with a funding increase from the national Institutes of Health, Funkhouser said. A \$30,000 NIH grant is being supplemented by funds from A&M's colleges of science and of agriculture and life sciences, the Experiment Station, and the U.S. Department of Energy.

Although the program is meant to help identify those with potential in the sciences, it "doesn't mean we admit only superstars," Funkhouser said. Dedication and desire are two characteristics program leaders look for, he said.

The same goes for the Experiment Station Program said Dr. Charles Arntzen, director of the agency and deputy

Arntzen said the Experiment Station expects to fund as many student laboratory apprenticeships as possible at the minimum wage of \$4.25 an hour, paying 50 percent of students' wages with \$35,000 in TAES funds. Those funds are matched by project leaders or departments hiring the students.

Through mid-July, the agency had funded 43 apprenticeships, primarily for blacks and Hispanics. Last summer, the Experiment Station funded 41 apprentices. The Experiment Station has offered apprenticeship programs since the mid-1980s.

The program recently was named after de la Garza, the congressman from Mission who chairs the House Agriculture Committee. First elected to Congress in 1964, de la Garza has actively promoted a range of agricultural programs.

### Cost Of Telephone Service Remains Low According to the U.S. Bureau improvements to the telephone

of Labor Statistics, the costs of basics such as food, clothing and housing have risen notably while telephone costs have remained comparatively low.

Statistics indicate that the Consumer Price Index has increased 55.4 index points since 1985. Food costs have risen 46.5 points, housing costs (rent and mortgage) have escalated 91.2 points, clothing costs have increased 29.6 points, yet telephone costs have risen by only 9.4 points since 1985.

Meanwhile, the telephone industry in Texas continues to play an important role in the state's economic development Wages paid to the industry's 37,000 employees, payment of operating taxes and capital

network add up to dollars that are made in Texas and stay in

Today's customers expect and rely on the services that new innovations in telephone technology have made available, such as computer modems, fax machines, and automatic teller machines. In 1990, the local exchange telephone companies in Texas placed into service approximately \$1.2 billion of new equipment--from cables to microwave towers, fiber optic systems to computerized switches--to meet the demands of the more than 8.8 million access lines served by the Texas telephone industry.

"Availability of reliable, state-of-the-art telecommunications service is significant in any company's search for a good business location," said Tim Raven, president of the Texas Telephone Association. "Most of today's businesses rely on telecommunications to compete, and their success depends on sending and receiving information quickly and efficiently."

These and other vital statistics are published in the 1991 edition of TEXAS PHONE FACTS, a brochure published annually by the Texas Telephone Association. To obtain a copy, contact the TTA at 512-343-0850.

The Texas Telephone Association is a non-profit trade association representing the interests of the 58 local exchange companies operating in Texas.

#### Gary Toombs Volunteer Fireman Attends School

Gary Toombs, volunteer fireman of the Muleshoe Volunteer Fire Department of Muleshoe, Texas is attending the 62nd Annual Texas Fireman's Training School, July 21-26. The school, attended by nearly 2,000 students representing about 750 cities from more than 25 states, is being held on the Texas A&M University campus this

Firemen can choose their course at the school from a list including Fire Fighting, Fire Prevention, Fire Department Officer Training, Fire Department Pump Maintenance, Specialized Fire Protection, and Disaster Rescue Training.

Fireman Toombs is being sponsored by Bailey County Farm Bureau and Texas Farm Bureau Insurance Companies by contributing toward the cost of the school. Since volunteer firemen are interested in attending this school to help do a better job of fire fighting and fire prevention, 100 County Farm Bureaus and the Texas Farm Bureau Insurance Companies in the statewide program have sponsored 100 firemen at the school.

"The Farm Bureau Insurance Companies believe Volunteer Fire Departments have been very effective in reducing the amount of loss involved by fire in rural areas," said President S.M. True, Jr. of Plainview. "It is our hope in sponsoring this program that the fireman will help the Muleshoe Vounteer Department to better serve the residents of Bailey County."

## **High Triglyceride Levels** Increase Risk Of Heart Disease

Following two decades of concentration on cholesterol, an international panel now recommends that physicians and health-conscious citizens not forget about triglycerides, another form of fat in the

"High triglyceride levels are associated with an increased risk for heart disease in many people and can be indicators of other metabolic disorders that also increase heart disease risk," said panel co-chairman Dr. Antonio M. Gotto, Jr. Gotto is scientific director of The DeBakey Heart Center and chairman of medicine at Baylor College of Medicine in Houston.

In a series of papers published in the August 1 American Journal of Cardiology and at a press conference in New York today, the panel says physicians should consider triglyceride levels, as well as total cholesterol, low-density lipoproteins (LDLs) and high-density lipoproteins (HDLs), in evaluting patients for heart disease risk.

"In the late 1950s, there was quite a bit of interest in triglycerides. But in the 1970s and 1980s, the focus shifted to HDL--the 'good' cholesterol-and LDL--the 'bad' cholesterol-and for a period of time triglycerides were on the outs," Gotto said.

"But as we learn more about fat metabolism, we are again seeing evidence of the significance of triglyceride levels. In fact, the effect of high triglycerides may explain why some people with seemingly low cholesterol develop coronary artery disease. The combination of high triglycerides and low HDL may be particularly dangerous."

For most Americans, triglyceride levels below 200 are considered normal. Levels between 200 and 500 are considered borderline high, with levels above 500 judged too high and in need of treatment.

"After three years of reviewing the research evidence, the international panel now recom-

### Anita Gaither **Funeral Services** Held Friday

Services for Anita Marie Gaither, 52, of Floydada were held at 10 a.m. Friday, July 26 in Bible Baptist Church in Floydada with the Rev. Howell Farnsworth, pastor of First Baptist Church, officiating.

Burial was in Floyd County Memorial Park under direction of Moore-Rose-White Funeral Home.

Mrs. Gaither died July 23 in her residence after a lengthy illness.

She was born in Muleshoe and moved to Floyd County from Plainview in 1958. She was a member of Bible Baptist Church. She married Buddy Gaither in 1967 in Floydada.

Survivors include her husband; two daughters, Tanya Pierce of Paris and Angela Dunavant of Rudy, Ark.; five sisters, Betty Tiffee, Patricia Kimbering and Carolyn Nishiyama, all of Amarillo, Geraldine Newman of Hulbert, Oklahoma, and Nell Luper of Glendale, Ariz.; two brothers, Bob Williams of Odessa and Jack Williams of Plainview; and two grandchildren.

mends that levels above 200 mg-dl deserve attention," Gotto

The recommended treatment for high triglycerides is a reduced calorie diet to control excess weight, restriction of alcohol consumption and mild to moderate aerobic exercise such as brisk walking, cycling, and swimming.

No more than 30 percent of total calories in the diet should come from fat, and saturated fats should be limited to less than 10 percent of calories consumed. Carbohydrate intake from high-fiber fruits and vegetables, whole grains and cereals

should be increased to 50 to 60 percent of calories.

Medication such as fibrates or nicotine acid may be prescribed if diet and exercise are not effective.

The DeBakey Heart Center is a joint program of Baylor College of Medicine and The Methodist Hospital in Houston supporting cardiovascular resear ch, treatment and education.

## TOEREE RETTECT

Even a tiny pebble leaves behind an ever-widening circle of ripples when it is cast into the water. Every act of our lives also leaves behind it an ever-widening circle of after-effects in the lives of others. Children are especially subject to the power of others in their tender, formative years, and thus we parents want the best possible influences for them. No child should be without the regular helpful influence of a Sunday School teacher and a minister. Religious training can start an ever-widening circle of good after-effects which will last a lifetime.
