Mrs. Couch refused to get out herself and refused to let any of the patients be removed. The police finally took things into their own hands and forcefully removed her. (AP Wirephoto).

Pickets Spread Over Nation As Peace Hope Dims

Dispute Cripples South As Mediation Meeting Breaks Up

CHICAGO, May 15. (AP)—Picketing was spreading in the nation's railroad firemen's strike today and hopes for peace grew dimmer. The strike went into its sixth day with pickets halting or attempting to halt rail operations in widely separated areas of the nation. Effects of the walkout were spreading. Representatives of the National (Railway) Mediation Board held separate conferences throughout yesterday with railroad officials, and heads of the Brotherhood of Locomotive Firemen and Enginemen, who struck to enforce a demand for a second fireman on multiple unit diesel locomotives. The conferences broke up about 11 o'clock last night and Leverett Edwards, a member of the board, said "it looks bad."

BURIED UNDER LANDSLIDE

ISTANBUL, Turkey, May 15. (AP)—Turkish newspapers reported today that President Ismet Inonu's regime had been buried under a sensational landslide of opposition votes apparently stemming from popular resentment against the country's economic ills.

PRESIDENT ISMET INONU. Turkish system makes the presidential term identical with the life of the assembly. In this, it is somewhat similar to the British system, which the prime minister must retain control of parliament to keep his job.

supporters say it will be the biggest political affair ever held outside a national convention. Mr. Truman will speak at 10:30 o'clock tonight with television and nationwide radio broadcasts. After a torchlight parade through the city, Chicago holds strong attachments for Mr. Truman, for it was here in 1944 that he was nominated for vice president. Again in 1948, the city's Democrats put on a big rally which some say marked a turn of the political tide in his favor and helped lead to the presidency.

The Pennsylvania Republican primary tomorrow involves party control in the biggest GOP stronghold in the nation. Leading the intra-party opponents are former Sen. Joseph R. Grundy, veteran political chieftain who swung most of the Pennsylvania delegation to the nomination of Thomas E. Dewey for President in 1948; and Gov. James H. Duff, who led insurgents against Dewey. This time Duff is out for the senatorial nomination, with John S. Fine, former superior court judge, as his galling mate for governor. Running against Duff with Grundy's support is Rep. John C. Kunkel, a six-term in the U. S. House. Grundy also backs Jay Cooke, Philadelphia lawyer against Fine for governor.

Both sides claimed success in advance. Duff campaigned as the champion of "the average guy," Kunkel called for an end to what he called "handout government."

Construction work on four major buildings, roads and streets is scheduled to begin immediately. The construction project will cost approximately \$485,000.

Paonessa hauled him back. The Bell Aircraft Corp. then dispatched Owen Q. Niehaus, 26, and Joseph A. Cannon, 30, in a helicopter.

The pontoon-equipped craft landed on the water near the woman, but nose over. The engine exploded. Niehaus and Cannon were pitched into the river.

Niehaus and Cannon struggled back aboard. The helicopter drifted toward the cataract. It caught on a rock, however, and the men managed to lash Mrs. Bugay to the undercarriage while they awaited help.

The second helicopter arrived lowered low enough to drop one end of a rope ashore, then dropped the other end to the stranded pilot.

Whatever the outcome, Turkey's foreign policy is expected to remain the same, with the country standing solidly on her opposition to Russia and her allegiance to the West.

International loans played no part in the heated campaign. The Democrats' campaign was based chiefly on the government's failure to cure Turkey's economic ills, which have boosted living costs and caused general discontent.

Turkey, along with Greece, was the first to benefit from the Truman doctrine proclaimed by America's President to halt the spread of Communism in Europe and the Middle East.

Commissioners Renew Talks On Drainage Work

County Commissioners today renewed their discussion of proposals to open drainage ditches along the T&P right-of-way east of the city.

Earlier the court had indicated that a verbal agreement had been reached with the city and the T&P on plans for the drainage project. However, commissioners said they had understood that the city and county would share equally in all phases of the project, except actual opening of ditches, which was to be performed by the T&P.

County Judge John Dibrell said city officials had informed him that the agreement had been misunderstood, and that the city planned to assume responsibility of work on the north side of the railroad, while the county would be under similar obligations on the south side.

County commissioners planned to invite city officials to join in a further discussion on the project this afternoon.

Truman Friend Joins Battle Against Civil Rights Issue

CHICAGO, May 15, (AP)—Jonathan Daniels, North Carolina editor and close friend of President Truman, has joined the fight against the administration-backed FEPC bill.

He said he represents the "decent element" in the South opposed to the proposal for a Fair Employment Practices Commission.

He emphasized it's the compulsory feature of the FEPC bill now before the Senate that he dislikes. He called the measure "a faulty device for a free nation."

President Roosevelt's Board said— **NO!**
President Truman's Board said— **NO!**
Still the leaders of the Railroad Firemen's **"STRIKE!"**
Union say—

This ridiculous strike is an affront to every citizen of the nation. It's not for more money. It's not because of hours. It's only for soft feather-bedding spots for additional unnecessary firemen to go along in diesel locomotives just for the ride. A leading liberal newspaper calls the demands of the union leaders "horse-feathers"!

This strike is one of the silliest strikes in history!

What are these reckless union leaders trying to do? They seek to cause thousands of their members to strike, and throw hundreds of thousands of other employees on and off the railroads out of employment, with loss of pay to them and their families, plus a severe blow to industry and the citizens of the nation.

What's the strike all about? If the union has its way—what happens? The present members of the union won't get one cent more pay. They will merely have been assessed for a costly and indefensible drive in an attempt to provide more dues-paying members for the union by creating "feather-bedding" jobs for additional and unnecessary firemen.

This is certainly one of the silliest strikes in history!

The reckless leaders of the firemen's union want to force down the throats of the railroads and the public a ridiculous "make-work" proposal which has been twice ruled out by Presidential Fact Finding Boards duly appointed under the provisions of the Railway Labor Act.

nation for their own selfish purposes.

There is no other possible answer to such a demand but "NO!"

The railroads in making such a reply believe they have the whole-hearted support of the people in whose interest they are willing to fight this out, despite the loss and inconvenience that all will suffer.

It is time to put an end to such un-American demands.

Recent meetings with the National Mediation Board have brought no change in the attitude of the union dictators.

**Scenarist Robbed
By Polite Bandit**

HOLLYWOOD, May 15. (U-P)—Virginia Van Upp, scenarist who wrote and produced "Cover Girl," among other films, and her ex-husband were robbed at gunpoint in her hotel suite by a polite, considerate bandit, she told police. She reported that her former husband, Ralph N. Nelson, a freelance writer, answered a rap on the door last evening to be confronted with a well-dressed man, brandishing a revolver, who said: "You won't be hurt, just don't cry out. I want only your money."

PILOT IS KILLED

Jet Fighter Whips Through Kitchen

AURORA, Colo., May 15. (U-P)—A jet fighter roared out of control yesterday and whipped broadside into a residential sector of this Denver suburb, killing the pilot and cutting a swath of flame and wreckage among four frame houses. A man working in a garden was badly burned by the blast from the tail of the skimming torch. The pilot, 29-year-old Lt. Paul Darling of Estherville, Ia., was catapulted into the kitchen of the home of Mr. and Mrs. Earl Horne where the plane exploded. The house was destroyed by fire and the airman's body charred beyond recognition. Witnesses said the plane took off from Denver's Lowry Air Force Base with another jet and climbed to about 1,000 feet before "something conked out."

**Liberty Bell Ringing Will
Open Campaign**

PHILADELPHIA, May 15. (U-P)—The historic Liberty Bell will ring out again tonight to sound the start of a drive during which the government hopes a billion dollars worth of savings bonds will be sold. The famed bell—capable only of a toneless "boom" because of a crack in its side—will be tapped by U. S. Treasury Secretary John W. Snyder. The sound will be carried cross the nation by radio. After tonight's ceremonies—to be witnessed by descendants of signers of the Declaration of Independence from the 13 original united states—replicas of the Liberty Bell will be taken to all 48 states and the District of Columbia. These bells—cast in France just as was the original—will carry the slogan "save for your independence. Buy U. S. savings bonds."

**Gambling Cuts
Billion Month
On Americans**

NEW YORK, May 15. (U-P)—A new survey on gambling says Americans spend nearly a billion dollars a month on bookmakers, slot machines and policy games. The \$12 billion a year total breaks down into \$8 billion for bookies, \$1 billion for the slots and \$3 billion for the policy or numbers rackets. The survey was made in 17 articles on varying phases of gambling by experts writing in the journal of the American Academy of Political and Social Science. The academy is a private organization founded in Philadelphia in 1889 as a discussion forum. The May issues of the journal, released yesterday, listed these main conclusions: 1. The ordinary gambler is a sucker who must lose in the long run. 2. Big-time gambling can't operate without political or police protection.

The Buffalo Trail Council will be represented by 117 Scouts and leaders at the National Boy Scout Jamboree, which opens June 30 in Valley Forge, Pa. More than 47,000 Scouts and leaders from all parts of the United States and its territories will make the encampment, the largest gathering of youth ever to be held in the Western Hemisphere. President Truman is scheduled to go to Valley Forge to open the Jamboree. The nation's President also is honorary head of the Boy Scouts of America. A three-part commemorative postage stamp honoring Boy Scouts has been authorized by Postmaster General Jesse M. Donaldson. It will be placed on first-day sale at Valley Forge during President Truman's visit.

**Lost Toddler
Returns Safe**

PLEASANTVILLE, Pa., May 15. (U-P)—A two and one-half year old boy, missing since a family picnic yesterday, was found safe today a few miles from the spot where he disappeared. Part of the 800 searchers who spent the night tramping woods and fields, came across little Jackie Copeland at 7 o'clock this morning leaning against a tree. The searching party said the lad, a resident of this northwestern Pennsylvania oil town, apparently had spent the night in a nearby oil well power house. The boy was rushed to a hospital in Titusville for a checkup. The little blonde toddler, who could walk "only good enough to get out of the way," disappeared while playing with four sisters after a picnic lunch on an oil lease yesterday. The child's father, T. W. Copeland, was working around the oil lease in this northwestern Pennsylvania town when his oldest daughter, Nancy Ann, seven, told him her brother, Jackie, was gone.

**CHINA REDS RELEASE
Freed Airmen Get
Big Navy Welcome**

HONG KONG, May 15. (U-P)—Two American airmen released by the Chinese Communists after 18 months in prison were given a rousing welcome back into the U. S. Navy today. The Destroyer Floyd B. Parks made an unannounced run off Hong Kong harbor early today to remove Navy Chief Electrician William C. Smith, Long Beach, Calif., and Marine Master Sgt. Elmer C. Bender, Cincinnati, from the British Coastal Steamer Human. Sailors jammed the destroyer's rails as a whaleboat brought the pair alongside. Smith and Bender, wearing ill-fitting suits they said the Communists gave them, clambered up the ship's ladder. They thanked the Parks' seamen over the ship's loudspeaker for the roaring welcome. Soon afterward they were put aboard the U. S. Navy Station Ship Horace Bass for a brief meeting with newsmen.

**NURSES DEMOTED AFTER APPEARING

GOFFTOWN, N. H., May 15. (U-P)—Two nurses who appeared as defense witnesses for Dr. Hermann N. Sander were demoted to duty after the country physician's acquittal of a murder charge in the death of a cancer patient. One of the nurses, Mrs. Cecelia Smith, said last night she was replaced as head of the women's ward at Hillsborough County General Hospital and later resigned. The other nurse, Mrs. Elicon Moncrieff, reported she was relieved as head of the medical and surgical ward at the same hospital but later was reinstated. Superintendent of Nurses Mrs. Marion Lemy said "it was not because they testified that they were demoted." Mrs. Smith said she resigned, effective last April 4, because "I was told I could not be trusted." "I could have kept on working at

**Cut Race Wire
To Stay Down
Until Orders**

EL PASO, May 15. (U-P)—Western Union officials here are awaiting from higher up before taking any action to restore severed wires serving an Anapra, N. M., race news service. The wires were cut Saturday night at the orders of Sheriff Joe Campbell. "As far as I know the wires are down and will stay down until we get further instructions from Dallas offices of the company," Anapra H. Fisher, El Paso Western Union superintendent said yesterday. "It is a matter our attorneys will have to decide upon." In Dallas, neither company officials nor Company Atty. John W. Miller could be reached late last night. Sheriff Campbell said the wire cutting disrupted Continental Press Service's relay of horse racing news to the West Coast and Mexico. A Federal Communications Commission report says the Silver State News Service at Anapra, about four miles west and slightly north of here acts as a relay station to points west.

**Speech Of U. S.
Official Is Cut
In West Germany**

CHICAGO, May 15. (U-P)—The anti-defamation league of B'Nai B'rith cancelled a speech by the U. S. assistant high commissioner of Germany yesterday because it disagreed with his denazification policies. Benjamin J. Buttenwieser, the assistant commissioner, had been invited to speak at the league's annual meeting on "the reorientation of Germany." The league's 35 member national commission cancelled his speech about three hours before it was to be given. A statement by the national commission, signed by Meyer Steinbrink, chairman and New York Supreme Court justice, said in part: "The speech revealed content and proposals which can only be interpreted as an effort to justify the readmission of former Nazis to positions of importance in the economic, political, social and educational life of Germany."

Die After Try
At Separation**

EDMONTON, Alta., May 15. (U-P)—Canada's Siamese twins—Beverly and Brenda—died on the operating table yesterday, a few minutes after a 12-man surgical team had severed the flesh which linked their vital organs. The babies, who would have been six months old on Wednesday, died after a long, delicate operation during which physicians cut through the wall of flesh connecting their abdomens. Dr. Eardly S. Allan, who headed the surgical team, said Beverly died first one hour and three quarters after the operation started in the Royal Alexandra Hospital. Brenda succumbed 45 minutes later. E. C. (Bud) Townsend, 23-year-old father of the twins, said after it was over: "We firmly believe the medical profession did every thing that was humanly possible under the circumstances."

**Four Amarillo
Persons Die
In Car Wreck**

TULIA, May 15. (U-P)—Four persons were killed and four others injured yesterday in a head-on auto crash near here. All were from Amarillo. Killed were Leon Rusk, radio musician and bank leader; Lloyd Garrett, singer; Wynona Parker; and Mrs. Julian Couch. Injured were Benny Malacare, musician; Linell Brown; Diana Couch Dunn, daughter of Mrs. Couch; and James Leslie Hendricks. None was reported in critical condition. Miss Parker and the musicians were returning to Amarillo from an American Legion dance at Floydada. Mrs. Couch was a passenger in the second car, southbound from Amarillo. Sheriff Hugh White of Tulia said the cars ran together in the center of Highway 87, eight miles south of here. Rusk, Miss Parker and Mrs. Couch were dead when Pleasantville and Tulia ambulances arrived. Garrett died at Swisher County Hospital here.

RIBBON RAMBLINGS
By Mildred Young

You might know that California would "dig up" a report like this one!

Two University of California anthropologists believe man existed in coastal California "more than 4,000 years ago." (Wonder if a couple of Texas anthropologists couldn't prove that man existed in West Texas some 5,000 years ago? At any rate, we think some state department should be organized to work on that idea.)

These Californians are saying that a skull found 27 years ago in an old stream is that old. They have based their conclusion on the geologic age of the gravel bed where the skull was embedded and the changes that the specimen had undergone.

The skull was found in 1922 buried under 20 feet of soil and gravel near Stanford University at Palo Alto, Calif.

Geologists who examined the site ruled out any possibility that the skull had washed down from high levels. They maintained that the specimen not only was full of gravel, but cemented securely in the same mixture.

Other remains of early man have been discovered. Anthropologists Robert F. Heizer and Theodore D. McCown reported, but circumstances surrounding the discoveries made positive age identification doubtful. Until this latest report, there was little evidence that man has existed more than five centuries in California.

Heizer and McCown believe the skull was of a male aboriginal Indian about 28 years old. The skull is now in the Stanford University Geological Museum.
