

Western Europe Still Hopeful Of Military Aid

Nations To Press Point With Acheson

WASHINGTON, Feb. 17. (AP)— Western European nations were reported still hopeful today of obtaining American agreement to some open promise of military support in the proposed North Atlantic Security Treaty.

LLOYD WOOTEN... Radio Man

RAY GRIFFIN... Auto Dealer

Two Enter Race For City Board

First 1949 launchings upon the city political scene were made Wednesday when Lloyd Wooten, radio advertising salesman, and Ray Griffin, automobile dealer, announced that they would be candidates for city commission posts in the April 5 election.

Flood Waters Isolate Areas In Storm Belt

Food And Fuel Shortages Add To Misery

By The Associated Press Mountainous snows and flood waters in some areas of the storm-stricken west isolated several communities today, stranding thousands of persons.

Food and fuel shortages in some of the snowbound Wyoming towns became more acute. The misery of ranch families mounted. At least a dozen small towns and several ranches in the Elko, Nev., area were marooned.

Jester Warns Against Adding To Tax Burden

GIANT BOMBERS IN DISPLAY OF AIR MIGHT—Long-range B-36 bombers fly low over Andrews Field, Md., during an Air Force demonstration of its aerial might.

Lawmakers Told Budget Requests Should Be Cut

AUSTIN, Feb. 17. (AP)— Governor Beauford H. Jester today dumped on the legislature the pesky problem of making state spending fit its income, saying he is still a "no-new-tax man."

Officials Study Aggie Station

High officials from the Texas experiment stations and extension service, from the bureau of plant industry in Washington, D. C. and others associated in agricultural work in this area took a look Thursday at the U. S. Experiment Farm here and began studies of the station's future course.

Paul Brown Gets Insurance Plum

AUSTIN, Feb. 17. (AP)— Gov. Beauford H. Jester today appointed Paul M. Brown of Harlingen, former secretary of state, as state fire insurance commissioner.

Cattle Prices Show Strength At Sale

Market was stronger and demand keener in all classes at Wednesday afternoon's cattle sale at the Big Spring Livestock Auction company.

School Buses Get Top Priority In Wichita Strike

WICHITA FALLS, Feb. 17. (AP)— Negotiations to try and get school buses running first in this bus strike-bound city will be resumed today, manager of the Wichita Falls Transit Co. said.

Transit Talk Over Wages Is Ended

PHILADELPHIA, Feb. 17. (AP)— Negotiations broke down today in Philadelphia's week-old transit strike. President Michael J. Quill of the (CIO) Transport Workers Union walked out of a negotiating meeting and declared:

'Axis Sally' Starts Defense

WASHINGTON, Feb. 17. — The defense took over today in the "Axis Sally" treason trial to tell its side of the story.

Kaiser-Frazier Plant Shuts Down 3 Weeks

DETROIT, Feb. 17. (AP)— A shut-down of possibly three weeks at Kaiser-Frazier Corp's Willow Run plant was announced by the management today.

First Of Public Schools Proposals Passes Senate

AUSTIN, Feb. 17. (AP)— The first of the bitterly-fought public school reorganization bills finally passed the Senate and went to the House today by a 16 to 5 vote.

Cochran Is Named Envoy To Pakistan

WASHINGTON, Feb. 17. (AP)— President Truman today nominated H. Merle Cochran, veteran career diplomat, to be ambassador to Pakistan.

Gas Truck Burns, Blocks Highway

SULPHUR SPRINGS, Feb. 17. (AP)— A travel over Highway 76 between Greenville and Sulphur Springs was blocked for several hours today after a big gasoline truck crashed into a concrete bridge near here and burned.

Deathless Days 434 In Big Spring Traffic

The truck was operated by the Ray Smith Transport Co. of Dallas and carried 4,115 gallons of gasoline. It was en route from Dallas to Atlanta, Tex.

Taylor Apologizes For Murphy Attack

AUSTIN, Feb. 17. (AP)— Sen. James Taylor of Kerens today personally apologized to the Senate and to war-decorated Audie Murphy.

Ground Breaking For Dam Hailed As History Making

COLORADO CITY, Feb. 17. — Wednesday was the day speakers called one of the "greatest days in history" for Colorado City, as dirt was turned marking formal start of construction on Lake Colorado City, a reservoir destined to erase water problems that have harassed this city for years.

Chinese Solons Back For Yuan Session

NANKING, Feb. 17. (AP)— War shy legislators crept back to the capital today for a Yuan session later this month.

Area Milk Producers Getting Less Cash

The decline was from \$6.60 cwt to \$6.15. It was more or less anticipated in the reduction of milk prices at retail levels Tuesday.

Chapin Enroute Home

BUDAPEST, Feb. 17. (AP)— United States Minister Selden Chapin left Budapest by plane with his wife today. Declared persona non grata by the Hungarian government, he has been called home by the state department for "consultations."

Hoover Group Would Remove Postal Service From Politics

WASHINGTON, Feb. 17. (AP)— The Hoover Commission said today that the Post Office Department should be taken out of politics.

AT COLORADO CITY

Ground Breaking For Dam Hailed As History Making

COLORADO CITY, Feb. 17. — Wednesday was the day speakers called one of the "greatest days in history" for Colorado City, as dirt was turned marking formal start of construction on Lake Colorado City, a reservoir destined to erase water problems that have harassed this city for years.

FACTS

COLORADO CITY, Feb. 17.— Facts and figures on the Colorado City reservoir project: Location: 4 1/2 miles southwest Colorado City, on Morgan Creek.

The cooperative enterprise which has been evidenced between the municipality and TESCO was lauded by speakers. Actually, work has been under way on the dam project for some time, by Campbell Construction Company of Abilene, and giant power shovels are scooping core trenches and moving earth.

Texas Electric is to install two Westinghouse generators of 20,000 KW each, to provide new power source of 40,000 KW. It will erect a small village at the lakesite, and will employ about 35 people in the power unit.

DEATHLESS DAYS 434

In Big Spring Traffic The truck was operated by the Ray Smith Transport Co. of Dallas and carried 4,115 gallons of gasoline. It was en route from Dallas to Atlanta, Tex.

YOUR DIMES AND DOLLARS WILL HELP

Area Milk Producers Getting Less Cash

The decline was from \$6.60 cwt to \$6.15. It was more or less anticipated in the reduction of milk prices at retail levels Tuesday.

Chapin Enroute Home

BUDAPEST, Feb. 17. (AP)— United States Minister Selden Chapin left Budapest by plane with his wife today.

Hoover Group Would Remove Postal Service From Politics

WASHINGTON, Feb. 17. (AP)— The Hoover Commission said today that the Post Office Department should be taken out of politics.

Control of Department "and can be remedied only by strong and courageous action"

The commission offered these remedies to correct the faults it found: The postmaster general should continue as a cabinet member appointed by the President and confirmed by the Senate, but should not be an official of a political party. (The present postmaster general, Jesse M. Donaldson, is a career postal official and is not head of a political party.)

Methods of Promotion

Methods of budgeting, accounting and appropriation are unsuited to a business of the size and character of the post service.

Recurring annual operating deficits have been caused by circumstances "mostly beyond the control"

of the department "and can be remedied only by strong and courageous action."

Political Appointments

Political appointments of first second and third class postmasters and certain other officials produce inefficiency "and militate against the incentives of promotion."

Methods of Budgeting

Methods of budgeting, accounting and appropriation are unsuited to a business of the size and character of the post service.

Recurring annual operating deficits

have been caused by circumstances "mostly beyond the control" of the department "and can be remedied only by strong and courageous action."

The boll-wool first entered the United States in 1892.

## Facts, Fictions Of Alcohol Told In 'Problem Drinker'

By ALTON L. BLAKESLEE  
AP Science Reporter

NEW YORK, Feb. 15. (AP)—If a snake bites you, don't reach for the whisky bottle. A drink then actually can be harmful, not helpful. It also is bad to drink while you are exposed to the cold. Mixing drinks won't make you

more intoxicated. What counts is the amount of alcohol you drink. Switching drinks may make you feel sick, but this is due chiefly to the flavoring substances in the drinks.

These and other "facts and fictions" about alcohol are discussed in a new book, "The Problem Drinker," (Duell, Sloan & Pierce) by Joseph Hirsh, executive director of the Research Council on Problems of Alcohol, New York City.

They are among the questions asked more frequently by the public, Hirsh says, and the answers are based on the findings, opinions, and experiences of expert scientists:

Is alcohol a stimulant? No, it's a depressant and acts like an anesthetic.

Does it overcome physical fatigue? It overcomes the feeling of fatigue temporarily. Actually, it slows down muscular output and mental reactions, especially when a person is tired.

Is alcohol fattening? It has food-like qualities and the body can use it in place of fats and carbohydrates. The energy from alcohol can't be stored. So your body may use it and store the fat from food.

Is alcohol "warming" during exposure to cold? Yes and no, says Hirsh. Even small amounts make blood vessels of the skin dilate, generating a sense of warmth. But this leads to a loss of body temperature.

On snake bite: Shock, heat exhaustion and snake bite all result

in lowered blood pressure. Alcohol itself lowers blood pressure and thus "is frequently dangerous and harmful if given in more than the smallest quantities in these conditions."

As for diseases: There is no medical evidence to indicate that alcohol causes any diseases of the kidneys, or that it actually causes cirrhosis of the liver. It is in no way a cause of heart disease or high blood pressure.

Is alcohol a poison? "Alcohol is a food, a drug, and like anything else taken to excess—even water—a poison."

What effect does alcohol have on life expectancy? The late Dr. Raymond Pearl found "(1) that moderate drinking does not shorten life—nor, of course, does it prolong life; (2) that heavy drinkers die younger than moderate drinkers and abstainers."

Why do some people become more intoxicated than others? Because of differences in what they drink; how much and how fast; the kind and amount of food eaten while drinking; their state of health; past drinking habits, and body weight.

Can alcoholism be cured? "On the basis of present knowledge, a 'cure' can be accomplished only by breaking the cycle of compulsive drinking and by re-establishing the individual physically, mentally and socially. He cannot, however, become a social drinker again. In this sense problem drinkers are recovered, not cured."

"Problem drinkers" are those who can't stop, Hirsh explains. It is estimated that there are about 750,000 of them in this country. Sixty million Americans drink alcoholic beverages, and some 3,750,000 drink to excess.

Problem drinkers, he stresses, are sick people, and chronic alcoholism is a public health problem, like any other disease, he writes. A few cities and states are starting to tackle it on that basis.

**ELSEWHERE IN SCIENCE**  
SCHENECTADY, (AP)—Records of air roughness, altitude, and operation of a plane's automatic pilot and de-icing equipment are taken automatically by a new flight recorder. Developed by the General Electric Co., it's being tested on a commercial airline to give more information on flight operations, and possibly better control.

PITTSBURGH, (AP)—Being color blind apparently isn't a safety handicap in driving an automobile, says a report in the journal of the American Optometric Association. Standard tests show from four to 10 per cent of all male drivers are red-green color blind. Nevertheless, they still can tell the difference between stop and go traffic lights, writes Edwin D. Fletcher, psychologist and examiner in charge of research, California State Division of Drivers' Licenses.

The reason: Traffic lights are not pure red and pure green. They have a lot of blue and yellow colors, and color blindness to blue and yellow is "quite rare." Fletcher estimates that less than 0 in a million drivers are unable to distinguish between the red and green signals.

### Aerial Picture Of City Appears In ABC Magazine

An aerial photo of Big Spring appears on the cover of the February issue of The Ambic, national publication of the American Business club. The magazine, which begins publication with this issue, is printed in Danville, Ill.

The 1948 national convention of the organization will be staged in Big Spring June 26 through June 29. Local members are expecting upward to 1,000 persons here for the conclave.

A liberal portion of the reading matter in the March issue of The Ambic will be dedicated to Big Spring, according to reports.

F. H. (Doc) Bachman of Champaign, Ill., is national ABC president.

### School Grades Look Better

Returns on grades are being tabulated here as a part of a plan to keep closer watch on progress of Big Spring high school graduates.

Although not yet complete, results on first semester grades are generally good. Administrators are studying how to chart the grades in college and high school to show graphically correlation of the two.

A precursory study of grades from two schools reflect some interesting results. The 15 students from Big Spring in the University of Texas all passed their work during the first semester. They rated eight A grades against three F's. Three courses were dropped or were incomplete. There were two out of 13 at Texas A & M who failed to make the grade. Each of these had four F's to his credit. Even in the face of this, the total A grades on subjects stood at 17 against 13 grades of F. Two courses were incomplete.

Most of the grades followed a reasonable parallel with the student's high school work, although there were exceptions in each direction. Initial studies did not indicate any pattern for freshmen, for work ranged from mediocre to outstanding, with the bulk being about average.

### Girl Lives Week Buried In Coffin

SHANGHAI, Feb. 17. (AP) — The Catholic News Agency Huaming today circulated a story about a six-year-old girl who lived a week after being buried in a coffin. A charity worker, said the agency, heard the child's moans a week after she had been placed in the coffin, which was one of several awaiting burial in Potter's field.

The little girl, suffering from tuberculosis, was removed and lived a week before dying, the agency said.

### 100 Attend Banquet For Cub Scout Pack

Over 100 persons attended the blue and gold banquet for Cub Scout Pack No. 44 Tuesday night at the North Ward school. Jess Slaughter was principal speaker at the event and awards were presented to J. L. Cannon and George Rackley by H. D. Norris, assistant Scout executive.

### Reds Make Advance

MOSCOW, Feb. 17. (AP) — The Russians now have a ball point pen. An announcement said the SACCO and Vanzetti pencil factory already had started production.

### 'Brain Trust' To Speed Aid

PARIS, Feb. 17. (AP) — Western Europe is expected to set up a "brain trust" today to help it speed economic recovery.

Paul-Henri Spaak, Belgium's premier and foreign minister, is slated to head the body. It will include ministers of cabinet rank from Britain, France, Italy, Holland, Sweden, Switzerland and Turkey. The formal name of the group will be the Executive Council of the Organization for European Economic Recovery (OEEC).

### Coast Football Still Inferior, Says Cravath

By HUGH FULLERTON, Jr. NEW YORK, Feb. 17. (AP) — Jeff Cravath, Southern California football coach, figures it will be "at least two years before Coast football catches up with the Big Nine" Jockey Emil Flutie has a law degree but it didn't help him at all when he was called before the Hialeah stewards. Then sentenced him to ten days on the ground for rough riding.

### Record Amount Paid For Market Basket

WASHINGTON, Feb. 17. (AP) — The average family paid a record amount of \$687 for its "market basket" of food in 1948, "market basket" of food in 1948, the agriculture department said today. This is 7 per cent, or \$45, more than it paid in 1947, the previous record year.

The market basket contains quantities of farm food products equal to the 1935-39 average annual purchases per family of three consumers. Marketing charges accounted for \$228 of the \$687 market basket. The farmer got the remaining \$359.

### Record Amount Paid For Market Basket

From a U. of Missouri basketball handout concerning Ed Stroot, hereinafter known as the "Cornstalker Center" and the "South-pole Sliver." "His jump shot is virtually unstopable—he has the soft, accurate touch of Frankie Carle at the keyboard."

### CHANGE OF DIET ENDS IN CAPTURE

NANKING, Feb. 17. (AP) — Communists on the north bank of the Yangtze River used fresh meat for bait and caught an armored government launch.

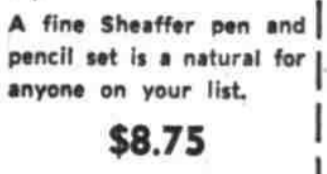

Naval sources here said the launch, on patrol duty, went to the north bank when the captain saw merchants peddling the meat. He wanted a change in diet. The merchants, it developed, were Communist decoys. A guerrilla band disarmed the crew and burned the craft.

## BIG SAVINGS FOR EVERYONE!

FACE TREASON CHARGES

**Bulgaria Sets Date To Try Churchmen**

SOBIA, Bulgaria, Feb. 17. (AP) — Bulgaria has set Feb. 25 as the date for the trial of 15 Protestant leaders on charges of treason, spying and illegal foreign exchange dealings.

The indictment of the 15 was announced a week ago, just after the trial in Hungary of the Roman Catholic, Josef Cardinal Mindszenty, on similar charges. Some of the 15 have been under arrest for more than a month on charges of spying for Britain and the United States.

The defendants are members of the United Evangelical Church which includes the Methodist, Baptist, Congregation and Pentecost denominations.

The four most prominent are Vassil Ziapkov, head of the congregationalist, Yanko Ivanov, supervisor of the Methodist churches in Bulgaria, Nikola Mihailov, head of the Baptist, and Georgi Chernov, head of the Pentecosts. All are members of the Supreme Council of the Evangelical Churches.

The other 11 are Protestant clergymen administering to Bulgaria's 2,000 Protestants.

The indictment charged that the accused had been in touch with 12 British and American church leaders and officials who were declared to be agents of "foreign intelligence and representatives of international reaction."

Details of the charges against the 15 defendants have not been announced. The indictment accused them of organizing a spy network, gathering economic military and political information and delivering it to foreign agents, and spreading rumors of war and atomic bomb attacks.

Some were alleged to have had contacts with the Peasant Party leader, Nikola Petkov, executed in September, 1947 on charges of plotting to overthrow the government, and with Georgi Dimitrov, another opposition leader now in the United States. He is not related to Communist Premier Georgi Dimitrov.

Deputy Foreign Minister Vladimir Topencharov has promised that the trial would be in a regular Sofia district court and would be public.

He also announced that two or three other trials of clergymen would be held in provincial courts.

A report delivered to the Associated Press in New York Tuesday by a responsible person just returned from Europe said between 20 and 40 pastors of the United Evangelical Church have been imprisoned. The informant, who would not permit use of his name or position, said he was given information by reliable sources that a program of "outright persecution" of Protestants in Bulgaria began in January, last year, as the result of secret Communist orders. He said the government in a letter to church leaders ordered them not to criticize the government and to counteract from the pulpit anti-Communist and anti-Russian propaganda.

(The Bulgarian clergy, both of the predominant Greek Orthodox Church and of other religious bodies, is paid by the state.)

**Woodwork Proves Popular At College**

By DON ALEXANDER

Woodworking, one of the oldest arts in civilization, has its modern counterpart in the industrial education department of the Howard County Junior College.

The popularity of this course is, in part, responsible for the phenomenal growth of the Industrial Education department. This division of the college, although the last addition of the curriculum, is now the largest elective branch of the school.

Although the school is equipped to instruct in numerous types of woodwork, only two are being taught this semester: Elementary woodworking and machine woodworking.

The former involves instruction in the use of and care of hand tools such as the plane, trisquare, marking gauge, hand saw, chisel, brace and bits, yankee drills, etc.; the latter the use of the band saw, gig saw, tilting arbor saw, wood lathe, and others.

There are 120 enrolled in these two courses, 75 of whom are terminal students, that is students who plan to step right out of this class and employ their knowledge of this skill. The other students plan to use the credits toward higher education such as engineering degrees and master degrees, or as a hobby.

So complete is the training that graduates may be able to enter almost immediately, several fields such as cabinet making, furniture repair, upholstering or carpentering.

The demand for those courses is not limited to the younger people as is proven by the members. There are several older people enrolled who have earned a living in the various field of woodwork before entering this course. Even the women are represented. Three ladies are taking the course.

One reason for the popularity of the course is the fact that scholastic background and difficult study methods are not needed. Almost

anyone can master the knowledge of this work with a little application and time, according to F. W. Medley, head of the industrial education department, who added "the course affords a chance for nearly all educational brackets to learn a specialized trade."

In addition to the now large number of various courses open in the industrial education branch of the school plans are being made to offer courses in ceramics, plastics, sheetmetal, and leathercraft. Ceramics is a fifty cent word meaning the making of pottery and all its relatives through baking.

**Bankers Attend District Meet**

Several representatives from the State National and First National banks in Big Spring attended the district No. 6 meeting of the Texas Bankers association in San Angelo. They participated as guests since Big Spring is in district No. 5 which holds its convention in Fort Worth Tuesday. Both banks here will be represented at that meet.

At San Angelo bankers were told by Dr. Arthur A. Smith, Dallas, SMU economics professor, that the war stimulated prosperity was fading. He did not foresee any rout of economic conditions, but warned that the peak probably had been passed. Small town bankers were concerned about "exporting" their young people to larger centers.

**New Strauss Works Is In San Antonio**

SAN ANTONIO, Feb. 17. (AP) — New works from the musical genius of Richard Strauss will be introduced in concert here Feb. 26.

The San Antonio Symphony will play the world premiere of "The Legend of Joseph." Max Reiter is the symphony conductor.

**Assistant Attorney**

HOUSTON, Feb. 17. (AP) — Bruce R. Merrill, 33, is a new assistant U. S. attorney here. His appointment was announced by U. S. Atty. Brian S. Odem.

**Two Detroit Plants Back To Normalcy**

DETROIT, Feb. 17 (AP)—After layoffs of 17,000 men, the production forces at two factories returned to normalcy today.

The Hudson Motor Car Co. called back 12,000 men and the U. S. Rubber Co. another 5,000.

Hudson's two-day layoff followed a parts shortage. A strike of 300 truckers over job standards was the cause of U. S. Rubber's tieup.

The slow-growing yew tree is found so often in England because it was once the prized wood used in making bows.

**Teen-Age Group Plans Folk Dance Project**

Teen-Age groups will undertake a project in simple folk dances as a Saturday evening activity at the YMCA.

Jack Thompson is to be instructor of the group, which meets as a supervised unit at the Y, planning its own program with adult supervision.

When Commodore Perry anchored off the Japanese coast in 1853, the great Japanese seaport of Yokohama was but a tiny fishing village.

**Verdict Withheld In Fatal Shooting**

FORT WORTH, Feb. 17 (AP)—Justice of the Peace Whit Boyd is withholding his inquest verdict in the pistol shot death of Mrs. Grace Dent, 30.

Police Detectives O. R. Brown and D. S. Harris believe the shot was fired accidentally.

Mrs. Dent, wife of an encyclopedia salesman, died shortly before noon yesterday.

Dent, 30, told officers the shooting occurred near the Trinity River in a wooded section between Fort Worth and Jacksboro.

Police quoted Dent as saying the gun discharged when he broke open the chamber and snapped it shut. Dent, who was not arrested, drove his wife to a hospital.

**Woman Charged In Murder Is Placed Under Observation**

EL PASO, Feb. 17 (AP)—Mrs. Velma Griggs, 36, charged with slaying her husband, was scheduled today to be under observation of the county psychiatrist.

Dist. Atty. Roy D. Jackson said he asked the psychiatrist to observe Mrs. Griggs for several days.

SELECTED BY ARTISTS—The legs of actress Linda Darnell (left) and the thighs of swimmer Esther Williams (right) were listed among selections of the Artists' League of America in naming the "ten most perfect features in the world" belonging to outstanding women. (AP Wirephoto).

**Taal Volcano Not Expected To Erupt, Reporter Believes**

VOLCANO ISLAND, Lake Taal, Luzon, Feb. 17 (AP)—More than 2,000 Filipinos have fled this island, but volcanologist Arturo Alcaraz says Taal Volcano will not erupt for some time to come.

Steam from the crater set off the exodus of residents.

Taal erupted 38 years ago and killed 1,400.

I went with Alcaraz on an inspection tour of the crater. We found that steam sizzled from the ground in spots when we punched sticks into it. But there was no discernible odor of sulphur or other gasses.

An Old Filipino objected to our probing. He told us in the Tagalog dialect that we would disturb "the one who looks over the volcano" and there would be an eruption.

An Englishman, questing for sulphur long ago, attempted to start a mine on Taal but an eruption destroyed his enterprise.

John Young of Whitestown, N. Y., had Youngstown, Ohio, named after him after he had settled there in 1797.

**Cain's Broadcast To Feature Music**

WASHINGTON, Feb. 17 (AP)—Sen. Cain (R-Wash.), who makes a radio speech to the folks back home every Monday night, is going to give them a musical program next Monday.

This time, Cain told a reporter, he will present records of American folk songs gathered by the congressional library.

Before arranging for the broadcast Cain cleared the idea with James C. Petrillo, president of the American Federation of Musicians.

Cain said his program ("don't call me a disc jockey," he interposed) will include such songs as "Skip To My Lou," "A Railroad For Me," "The Barnyard Song," "Sourwood Mountain" and "The Streets of Laredo."

**Five Men Are Killed In Taxi-Train Crash**

KIRKLAND LAKE, Ont., Feb. 17 (AP)—Five men were killed last night in a crossing collision between a taxicab and a passenger train eight miles east of this northern Ontario gold-mining community. All five were in the taxi.

Georgia Tech, Georgia and Tulane led the Southeastern Conference in total offense during the 1948 football season.

**EAT PLENTY AND TAKE OFF UGLY FAT**

When you buy Barostrate, you buy a preparation for taking off weight. You do not pay for any printed diet or for vitamins to fortify you against weakness while on a starvation diet. You need never know a hungry moment while taking this preparation. Barostrate is the original grapefruit juice recipe for weight reduction.

Just go to your druggist and ask for four ounces of liquid Barostrate. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take just two table-spoonfuls twice a day. That's all there is to it.

If the very first bottle doesn't show you the simple, easy way to take off ugly fat, return the empty bottle for your money back.

**Lost 56 pounds**  
Here is what Mrs. J. J. Bryant, P. O. Box 56, Whitewright, Texas, wrote us: "I want to tell you what Barostrate has done for me. I weighed 365 pounds when I started taking it. I now weigh 211."  
"I have taken my dress size down from size 50 to 44 and never felt better in my life and everybody tells me how much nicer I look than I did."  
"I am still taking Barostrate as I want to get my weight down to 165 or 170 pounds."

**SOVIET SPECULATES Gen. Ike's New Job Puzzles Russians**

MOSCOW, Feb. 17 (AP)—Gen. Dwight D. Eisenhower's appointment as chairman of the joint chiefs of staff is receiving considerable attention from the Soviet Press.

Most newspapers published a dispatch credited to a Washington correspondent of the London Observer, saying the appointment was connected with formation of an American general staff to deal with planning military aid to Europe.

It also is being asserted that Eisenhower will devote his attention to the Mediterranean area. A story from Athens was carried under the headline: "Coming arrival of Eisenhower in Greece."

While interest in Scandinavian developments remain high here, the press also is showing great interest in the Mediterranean and Middle East.

One commentator said the U. S. is seeking to get all the countries of the Middle East as well as Iran, Afghanistan, India and Pakistan into the proposed North Atlantic pact. Another commentator said efforts were in progress to reconcile Italy and other Mediterranean countries with Spain.

**YMCA Will Bar Children During School Hours**

Cooperating with the intent of the Big Spring high school program to attempt to bring up work of falling students, the YMCA has announced no children of school age will be admitted during school hours.

They will be admitted after 3 p. m., provided they are not in the schools list showing they need to be in class from 3 p. m. to 4 p. m. to bring up low work, said Lee Milling, executive secretary of the YMCA.

He said that comparatively few visitors during school hours were in school, but that the step was being taken to strengthen the school's program.

**Scout Committee Meets Tonight**  
Monthly meeting of the Big Spring district Boy Scout committee has been convoked for 5 p. m. Thursday at the chamber of commerce office by Sherman Smith, district chairman. He was anxious that all members and unit leaders attend.

### Cabinet Status For Welfare Body Nears

WASHINGTON, Feb. 17. —The long-talked idea of a federal department of welfare is one step nearer reality.

The way was cleared for the next step — House action — Wednesday when the House Executive Expenditures Committee stamped its okay on an administration bill to create a cabinet-status welfare department.

The department would be the tenth of cabinet rank in the present executive set-up, and the first wholly new department to be established by Congress since the Labor Department was split off from commerce in 1913.

Through unification of the armed services, the military establishment under a secretary of defense was set up two years ago essentially as a re-grouping of existing departments.

Most prominently mentioned as first secretary of welfare is Oscar Ewing, present federal security administrator and good friend of President Truman.

The bill would lump within the new department all functions of public health, education and welfare now performed by a score or more of agencies. In addition to the secretary, there would be an undersecretary and two assistant secretaries.

There was unanimous opposition to the proposal from spokesmen for organized medicine, who objected to lumping public health in with social welfare and security functions under a non-medical administrator.

Dr. Robert E. S. Young of Columbus, O., president of the association of physicians and surgeons, declared "such a department would not be in the public interest."

He urged the committee to postpone any action until the Hoover Commission completes its reports on reorganization of executive agencies. A new welfare department is understood to be one of the commission's likely recommendations.

"The health of the nation," Dr. Young said, "is far too important to be eclipsed or to become embroiled in matters of welfare, education, social security, cash benefits and the like."

### California Pays Off For Antics Of Playful Cow

SACRAMENTO, Calif., Feb. 17. — Such damage as caused by a cow's kicking a car and a bull's goring an airplane, the state of California will pay.

But the state wants more information before it pays for honey eaten by a bear.

Approved yesterday by the state board of control were: \$7.10 for the tail light of a private car kicked by a cow in the Folsom Prison parking lot; \$218 for damage to a plane when a bull wandered onto a California Polytechnic School landing strip.

The Miller Honey Co. wants \$631 for honey it says a bear—a word of the state—ate on a ranch near San Bernardino. The board decided to investigate further.

## Disguise That Leftover Chicken In New Variations Of Good Dishes

By CECILY BROWNSTONE  
Associated Press Food Editor

Here are two new ways to use leftover chicken, turkey or meat. The curry and rice dish calls for a cup each of leftover canned tomatoes and cooked potatoes. The pancake platter makes a delectable supper dish—for the family or company.

**Curry and Rice**  
Ingredients: 1/4 cup fortified margarine, 1 cup chopped onion, 1 pound ground cooked meat or poultry, 1 teaspoon salt, 1 teaspoon sugar, 1 1/2 to 3 teaspoons curry powder, 2 tablespoons flour, 1 cup cooked or canned tomatoes, 1 cup diced cooked potatoes, 1 1/2 cups stock or milk, 1 cup rice.

**Baked Pancake Rolls**  
Ingredients: 8 six-inch pancakes, 1/4 cup fat, 1/4 cup finely diced onion, 1/4 cup flour, 2 cups well-seasoned chicken broth, 2 cups finely diced cooked chicken, 1/4 teaspoon powdered marjoram, 1 three-ounce can sliced broiled mushrooms, 2 tablespoons finely diced green pepper.

rolls lightly with a bit of cooking oil and bake until crisp in moderately hot (375 F.) oven, about 20 minutes. Meanwhile add contents of can of mushrooms and green pepper to remaining sauce. Bring to boil and serve hot over chicken rolls. Garnish platter with crisp green sprays of watercress and carrot flowers, if desired.

### Here's A Recipe For Divinity Fudge That's Easily Made And In Season

February is a party month for grownups and kiddies alike, and this delightful recipe for divinity fudge is designed to please any gay gathering. Your hungry guests will devour platter after platter of this candy treat that's quickly and easily made. Try it soon—and serve it with fresh, assorted nuts.

**PREPARATION:** Assemble ingredients and utensils needed. Separate eggs. Chop nuts coarsely.

**INGREDIENTS:** 2 cups sugar, 1/4 cup light corn syrup, 1/4 cup water, 2 egg whites, 1/4 teaspoon salt, 1 teaspoon vanilla, 1 cup nut meats, coarsely chopped.

**METHOD:** Combine sugar, corn syrup and water in sauce pan. Cook, stirring until sugar dissolves.

Then cook over low heat without stirring to hard ball stage (265F). Test by dropping a few drops in a cup of cold water. Meanwhile, put egg whites and salt into large bowl. Beat until stiff but still moist—about 2 minutes. Slowly pour hot syrup over egg whites while continuing to beat until mixture begins to thicken. Scrape bowl while beating. Add vanilla and nut meats. Beat until mixture will hold its shape. Drop from teaspoon on to waxed paper or spread in a buttered pan. Cool and cut in squares.

**MAKES:** About 2 1/2 dozen pieces. Note: Candy may be varied by the addition of any of the following: chopped, candied cherries, orange peel, figs or coconut.

## Beauty And Flavor Are Characteristics

Every nation in the world has a name for this famous dish created from ground meat, rice and cabbage leaves. Proof enough isn't it that no one should miss having the same—and often. The ingredients are every-day but the finished product is one that goes on the epicurean's list.

**INGREDIENTS:** 1 pound of chopped or ground raw beef, 1 1/4 cups raw rice, 1 medium-sized tomato, 12 to 15 cabbage leaves, salt and pepper to taste, juice of one and one-half lemons.

tucking in the ends securely. Place in a greased baking dish with the smooth part on the top and the tucked-in side at the bottom. Pack the rolls tightly in the baking dish.

Add boiling water to nearly cover the cabbage rolls. Squeeze the lemon juice over the top of the rolls. Cover the baking dish and bake in a moderately slow oven, 325 degrees for about one hour.

The rolls may be cooked in a tomato sauce. So doing, omit the lemon juice and use two cups of strained tomato juice in place of part of the water used to cover the rolls. If you like subtle seasonings, add 1/4 teaspoon allspice to the meat mixture when using the tomato sauce.

### Dies Unexpectedly

ROYSE CITY, Feb. 17. (AP)—Robert Henry Burton, 46, died unexpectedly yesterday at his home at Fate, Burton, merchant at Rockwall and Fate, was a native of Royse City.

## Area Farmer Has Stand Of Clover

Willis Winters, Jr. has five acres of Hubam sweet clover up to a good stand after January rains and snows. Winters, a cooper with the Martin-Howard Soil Conservation District, planted the clover last fall on his farm at Vincent. Very little seed sprouted last fall, Winters said, but he has a good stand now for a soil building crop as part of his coordinated soil conservation program.

Winters had 4 acres of Hubam clover in 1947 which made around 1200 pounds of seed. The clover is a deep rooted legume which builds up the soil by adding nitrogen and organic matter. The crop can also be used for grazing or as a cash crop by harvesting seed.

Terrace construction started on the Smith Bros. Ranch in the County Line soil conservation ranch group last week. The Smith Bros. are building 14 miles of terraces to complete the terracing needed on their farm land. They had the help of the Soil Conservation Service in laying out their terrace system.

L. I. Stewart started building 9 miles of terraces last week on his farm in the Elbow Soil Conservation Group. Stewart is building his terraces to district specifications of 15 inches settled height and 24 feet base width.

E. A. Richters, cooperating with the district on the J. G. Arnett farm one mile east of Big Spring has plowed his maize stubble land leaving the residues on the surface of the soil. Richters put up his land last week with a lister, off-setting the rows slightly so as to leave the stubble on top. Maintaining crop residues on or near the surface of the soil helps control blowing and washing and helps the soil soak up more water.

Terrace lines were run last week on the farms of J. G. West, Bob Middleton, and J. F. Winana in the Vealmoor Soil Conservation group. Terrace construction will start soon on these farms to complete terracing needed to hold water on their land and prevent washing.

H. O. Phillips and Doris Blissard, district cooperators in the Lomax Soil conservation group, had lines run for terraces last week on their farms a mile west of Lomax. Phillips and Blissard are terracing their farms together, building the terraces across two 160 acres fields.

C. S. Denton maintained the terraces on his farm in the Midway soil conservation group last week. Denton plowed his terraces with a mold-board plow to maintain the height and make them wider.

Terraces on the Big Spring State Hospital farm and the Albert Daveston farm north of Big Spring were also maintained last week by building them up with a mold-board breaking plow. Terraces should be maintained by plowing them up every year to keep them from working down and losing their effective height.

## Nine New Board Members For 'Y'

Directors of the YMCA confirmed election of nine new board members, welcomed three others, and laid plans for the annual banquet at the regular monthly board meeting Tuesday evening at the Douglass.

March 15 was set as the date held in the high school building. Program committee will be named soon and a speaker announced.

R. T. Piner, Mr. and Mrs. K. H. McGibbon and Rev. R. Gage Lloyd were named delegates to the area council meeting in Fort Worth Friday and Saturday. They will be accompanied by Lee Milling, executive secretary, and possibly other board members.

Report of the elections committee, headed by John Coffee, chairman, declared Dr. R. B. G. Cowper, Helen Duley, Anne Houser, H. W. Smith, J. Y. Smith, W. T. Alexander, J. D. Jones, Dr. E. O. Ellington and Rev. R. Gage Lloyd elected to three-year terms on the board. They will be installed at the annual meeting with officers. Recognized as new board members were the Rev. L. H. Thompson, Arnold Marshall and Dr. G. H. Wood.

The board also voted to undertake an educational program in conjunction with monthly meetings, members to present five minute talks on the history, objectives, program and services, responsibilities of the board, pattern of organization, how the YMCA works in Big Spring, broad horizons of international service, and an analysis of the program in the local association. One topic will be discussed each month. John Coffee will be the lead-off speaker in April.

Reports on activities showed formation of a Gra-Y (Grammar School) club at College Heights school with 30 enrolled, and organization of a unit at West Ward school in March. Tri-Hi-Y, for girls, has a membership of 15, HI-Y—for boys—12, basketball league with 96 participants, square dance club, 44, teen-age social group 50, women's gym class 12, and junior social group 60. Teen-age drop-ins for five days a week in January amounted to 1,299 and an average of 30 boys participated each Saturday in games and movies.

Friday at 7:30 p. m., said Milling, Mrs. Ruth Burnam is to meet with mothers of the junior group to discuss program and plans for activities. The little theatre guild, inactive for the past year, is to attempt reactivation at a meeting Tuesday at 7:30 p. m. in the Y. The men's gym class, suspended during basketball season, is due to resume operation in March, according to Milling.

Financial statement showed receipts of \$935 (\$916 from the Community Chest) and expenditures of \$778, including \$500 for professional and clerical staff and the balance for program and other operational expenses. This was approximately \$300 under the monthly allotment, but summer months will produce program activities expected to exceed monthly divisions.

**MITCHUM HEADED FOR WORK FARM**—Movie star Robert Mitchum gets his blood pressure checked by head nurse H. E. Bidwell at the county jail as he was certified for transfer to the Los Angeles county's honor farm at Castic. This means he will spend the remainder of his 60-day sentence for a marijuana violation on the business end of a hoe instead of a mop. (AP Wirephoto).

## Bill Proposing Canadian River Project Proposed

WASHINGTON, Feb. 17. (AP)—A bill proposing construction of flood control projects on the Canadian River in the Texas Panhandle has gone to the public lands committee.

Rep. Eugene Worley (D-Tex) introduced the bill into the House Tuesday.

In its present form the proposal does not specify the amount of appropriation for the project. It authorizes an appropriation of sums necessary to complete the proposed work. Worley said cost could not be estimated until after a survey.

The bill would authorize the reclamation project. Included would be one or more dams, canal systems and pumping plants.

The ordinary wart, although conspicuous, is one of the least dangerous of skin afflictions.

# Truman's New Program So Vast Experts See Only Small Start

By CLARKE BEACH AP STAFF  
WASHINGTON, Feb. 17. — President Truman's new program for developing underdeveloped nations is so vast and complex that in the opinion of many U. S. government and United Nations experts he will be able to make no more than a small start on it.

It will take a generation at least, they say, perhaps several generations.

It isn't just a matter of installing industries or teaching new farming methods. It means helping the countries to move their entire economy and culture forward a century or more.

It involves a large part of Latin America, Asia, the Far East, Africa and the Middle East—lands inhabited by 1,650,000,000 persons.

Cost for the first few years will be small, the specialists believe. The first step will be to enlist and train large staffs of scientists, technicians and specialists of all kinds, they say, and the next should be to help the various countries make long-range plans.

Then the spending would begin and if real progress is to be made the cash or credit outlay would be very large in the course of years, according to one high rank-

ing U. S. fiscal official. At the present time, however, the administration has no plans for large scale spending or lending on this project.

The immediate and most urgent need is for food. But there seems to be no quick and easy way to enable the underprivileged peoples to achieve the high farm productivity found in the United States and Western Europe.

They must learn modern agricultural methods. But except in some Latin American countries the people are largely illiterate. The American county agricultural agent system wouldn't work until the people could read and understand simple instructions.

That means education for the masses first.

The countries need fertilizer, but they haven't the money to buy it abroad so they must build power plants and factories themselves.

Millions of people in these countries burn their best fertilizer—animal dung, dried into cakes—as fuel. They are the ones who live in sparsely forested regions. To enable them to save their manure the must be taught reforestation. And forests grow slowly.

They need dams for irrigation. But soil conservation and erosion control would have to start first. One official recalls that the Chinese government a short while ago built a dam which filled with silt in one year, fed by drainage from too much eroded land.

They need credit if they are to construct dams, power or irrigation systems. But before the most liberal banks would give credit, most of them would have to bring order into their chaotic fiscal systems—build up revenue tax systems, curb inflation, plan to get out of debt.

When Chile wanted to borrow from the international bank for hy-

droelectric and agricultural development, the bank found its affairs too messy to warrant a loan. So Chile passed laws, negotiated with creditors and generally straightened things out. Then the bank loaned her \$16 million.

Most of the countries eat little fish although the seas around them swarm with them. Fish would help make up their food shortage, but they know or care little about commercial fishing methods. Most of them rely on hand lines and other primitive fishing tackle.

And to supply fish on a large scale you must have ice.

One of the first things Nelson A. Rockefeller had to do when his private International Basic Economy Corp. began to build up a fishing industry in Venezuela was to install an ice factory.

The Food and Agriculture Organization (FAO) of the UN found that in one seacoast town in Haiti four Greek families were getting rich setting fish. All around them lived Haitians who saw what the Greeks were doing but stuck to their old hand lines and lived on the brink of starvation.

Population is dense in some areas, while much usable land is sparsely settled. Large scale migration and resettlement would correct this. But that involves building highways and railroads, establishment of new communities a long and complicated task.

The Philippines and Indonesia have much sparsely settled territory. Southwest China, according to one official, has unused grasslands as large as New Zealand. But even if you could establish new communities there, you would have to teach the people to raise livestock and then provide them with transportation for their products.

The best way to begin on the whole vast undertaking, in the opinion of many United Nations officials, is to make a modest start at industrialization, along with improvements in agriculture.

Don't try to build steel plants for instance, they say, in areas which are not suited for steel production—rather, build up a few light industries to supply clothing, shoes, furniture and other consumer goods.

That would raise the standard of living, they believe, and provide employment for farm workers idle most of the year. Such "hidden unemployment" in the rice areas of Asia is rated as one important reason for the low standard of living.

There is already too much industrialization in some of the underdeveloped countries, say the experts. They mention the Netherlands Indies. Attempts in the 1920s to establish large-scale manufacturing there failed for lack of markets.

On the other hand, one official recalled that the British a few years ago asked for bids on a new highway across Hong Kong. Engineering companies with modern equipment were underbid by a Chinese firm which depended largely on women laborers equipped with nothing but baskets.

The Chinese firm got the contract and built the road in ample time and in accordance with all specifications.

## Three Texas Cities Above Median For Safest Communities

DALLAS, Feb. 17. (AP)—Three of Texas' major cities were above the median in a list of safest cities in the nation according to population brackets during 1948.

Dallas, the safest city in Texas in 1948, ranked seventh nationally. Houston stood ninth place and Fort Worth stood in fourteenth. Thirty cities were included in the 250,000 to 500,000 population bracket.

San Antonio ranked thirtieth in the group.

Dallas had a death rate of 14.2 per 100,000 population in 1948. Texas as a whole had a rate of 28.1 and the national rate was 21.9.

The figures were released by the National Safety Council in the February issue of its publication, Public Safety.

## Bids For Forson Gym Set Monday

Bids on construction of the Forson gymnasium building will be accepted until 8 p. m. Monday at San Angelo, John G. Baker, architect-engineer of that city, has announced.

He said that 17 bids had been submitted thus far on general contracts, 10 on electrical work and six on plumbing and heating. Specifications and plans may be obtained from Becker's office. Forson last year floated an \$85,000 bond issue for construction of the building.

## Painters Union Banquet Friday

Annual banquet of the painter's union, Local No. 1431, will be staged in the Maverick room of the Douglass hotel at 7:30 o'clock Friday evening.

Union officials anticipate an attendance of 60 to 75, which will rival last year's turnout for the event. Wives and friends of members will be special guests.

Jack Dabney is president of the organization. L. R. Mundt, who will serve as program director, said motion pictures would be shown the gathering.

## Pampa City Manager Resigns His Job

EDINBURG, Feb. 17. (AP)—City Manager W. T. Williamson, formerly city manager of Pampa, has resigned.

Mayor Felix McDonald took over the city manager duties yesterday.

**Five Awards Made To Boy Scouts**

Two advancement awards, one merit badge and two camping awards were presented Wednesday night at a court of honor for Troop No. 14 Boy Scouts at Stanton.

Bobby Shankle was the top award winner, receiving his merit badge in horsemanship, as well as an advancement and camping award. The other camping award went to James McCoy, while Norman Blocker received the other second class advancement.  
Bobby Deavenport is Scoutmaster of Troop No. 14. The unit is sponsored by the Stanton Lions club. H. D. Norris, assistant Scout executive, and Sherman Smith, district committee chairman, attended the court from Big Spring.

**Leonard Is Better**

Arthur Leonard is recovering from an emergency appendectomy he underwent in a local hospital Wednesday. Leonard was stricken while working Wednesday morning.

**OFFICIALS VISIT**

(Continued From Page 1)  
were discussed, along with effect of organic and inorganic fertilizing, availability of moisture, plant disease, etc.

E. J. Hughes, district SCS conservationist, felt there was need for research in crops suitable for organic matter to curb erosion and increase absorption. Some areas in the district were in danger of becoming marginal unless the problem is met, he contended. Others felt that the farm's record indicated no dire outlook for productivity.

Actual transpiration of water through crops was injected into the talks along with relative factors of availability of essential minerals in organic and inorganic states.

Strategic location of the Big Spring station was mentioned by Dr. F. W. Parker, Washington, assistant chief of the plant industry bureau and in charge of soil work in experiment station. He pointed out that the station was the furthest south and was therefore an important anchor point. Dr. S. E. Jones, vice-director of the Texas experiment stations, paid tribute to the land operators of this territory for their industry, tenacity and progressiveness.

Among those attending were Dr. Jones, who presided at the meeting in the Experiment Station office, J. D. Prewitt, College Station, vice-director of the Texas A. & M. extension service and a former agent for this district; Dr. R. E. Patterson, College Station, assistant director of Texas experiment stations; Dr. J. A. Adams, College Station, soils and agronomy director for Texas experiment stations; Dr. E. B. Reynolds, College Station, assistant to Dr. Adams; Dr. J. C. Miller, College Station, head of the Texas station animal husbandry program; J. M. Jones, College Station, assistant to Dr. Miller; Dr. E. W. Parker, Dr. R. T. Parks, Washington, assistant to Dr. Parker; O. R. Matthews, dry lands experiment station director for the department of agriculture; N. R. Ellis, Washington, bureau of animal husbandry; R. E. Dickson, in charge of the Texas experiment station at Spur.

**Funds Are Sought For Border Lake**

WASHINGTON, Feb. 17. (AP)—International Boundary Commissioner Lawrence M. Lawson has asked a House appropriations subcommittee for \$3 1/2 million to finance Rio Grande River work.

Lawson, of El Paso, appeared before the group yesterday. He asked \$1 million to get work started on Falcon Dam near Zapata. The money would be used, he said, as part of the purchase price of land which would be flooded by the proposed international lake.

Lawson said his agency expects to have an unexpended balance of \$7 million from previous appropriations at the beginning of the next fiscal year, July 1.

This money and the new million asked yesterday for Falcon would be used, he told a reporter after the closed hearing, to purchase the land and for initial construction. He estimated total cost of the land at \$2 million.

The United States is to pay about \$39 million, or roughly 60 per cent of the Falcon Dam project cost, and Mexico the difference.

Other projects which Lawson asked money for included: Completion of flood control work along lower reaches of the Rio Grande in Hidalgo and Cameron Counties, \$1,200,000.

Completion of the river rectification project at El Paso, \$100,000. Completion of canalization of 110 miles from El Paso to Elephant Butte Dam in New Mexico, \$200,000.

An investigation fund of \$1 million for detailed surveys in the Big Bend section of West Texas. Lawson said some IBC funds are being used for serial survey work in the Alpine region for small flood control dams.

**\$44 Million Is Voted For Storm Area Loans**

WASHINGTON, Feb. 17. (AP)—The House Agriculture Committee unanimously approved today \$44 million in loan funds for farmers in the blizzard-battered areas of the West and Southwest.

Chairman Cooley (D-NC) announced he will ask immediate passage by the House.

**JESTER TALKS**

(Continued From Page 3)  
came out with a healthy surplus and no debts.

"He noted that this produced an immediate demand for further expansion.

"We should not be critical of genuine, legitimate, defensible demands for participation in the expanded budget of our state," Jester said.

"He said Texas now faces 'The tedious and depressing task of selecting what we can have, and what for the time being, we must forego, or of setting out in quest of new funds.'"

"He said it would take the skill of a financial wizard and the sagacity and ingenuity of a Solomon to adjust spending suggestions to resources 'and satisfy all.'"

"I do not believe that even in Texas can you stretch \$18 million dollars to buy goods and services priced at \$87 million," the governor said.

"He told the legislature state services need to be expanded in many directions.

"There is no one among us—be he the greatest taxpayer of us all or the humble citizen contributing his mite—but who shudders to think of the conditions under which we care for the afflicted and the handicapped of our people," Jester said.

"None, I am quite sure, can walk with me through some of the crumbling institutions of our state, can sit and read with me report after report of totally incapacitated people, without possible recourse, who are in great distress of body and mind; can stand with me and look upon dilapidated disgrace to Texas which we call our prison system; can condense the tragically inadequate effort we are making to develop our youth; can listen to the story of people in the rural areas who can not send their children to school, take their produce to market, receive their mail or go to the family cemetery to bury their dead—all because of the condition of their roads;—no man or woman in Texas regardless of conservatism and caution and care in the expenditure of personal or public funds—no one among us could have seen these experiences and not know deep in his heart that these things are unworthy of Texas."

**TWO ENTER**  
(Continued From Page 3)  
quate water supply on the most economical basis," and to establish adequate park and recreational facilities for the north side of town.

Terms of two present commissioners, Mayor G. W. Dabney and Willard B. Sullivan, expire in April. Three others, H. W. Wright, Jack Y. Smith and Dr. C. W. Dests, have another year to serve on their respective terms.

Neither Dabney nor Sullivan had indicated this morning whether they would seek re-election.

Candidates for commission seats this year have until midnight, March 5, to file announcements. C. R. McClenn, city secretary, advised this morning.

Ballots will be printed in time for absentee voting to begin on March 16.

**MARKETS**

**COTTON**  
NEW YORK, Feb. 17. (AP) — Cotton prices at noon were 20 cents a bale higher to 18 cents lower than the previous close. March 25.34, May 25.19 and July 21.13.

**WALL STREET**  
NEW YORK, Feb. 17. (AP) — Douglas Aircraft raised in front of a generally improved stock market today.

Douglas opened with a gain of 1 1/4 points at 52 1/4 and later extended the advance to around 4 points in active trading.

Elsewhere fractional gains were in a majority but business didn't amount to much.

Demand for Douglas stemmed from news late yesterday that directors had voted an extra dividend of \$2.75 and a quarter.

**Eagles To Meet**

All Eagles are requested to attend the special meeting scheduled for tonight in the Settles hotel at 7:45 p. m.

**Forty-Two Party Plans Are Made By Eager Beavers**

Plans were made for a benefit forty-two party to be held in the Settles Hotel on February 25 when the Eager Beavers met in the home of Mrs. Lois Johnston, 800 10th, Wednesday afternoon. Profit from the affair will go to the March of Dimes campaign.

Handwork and visiting was the entertainment for the afternoon. Those present were: Mrs. Vera Bruton, Mrs. Mary Rupp, Mrs. Lola Mitchell, Mrs. Neva Jones, Mrs. Joy Burnett, Mrs. Sara Findley, Mrs. Virginia Bryant, Mrs. Jenny Barber, Mrs. Evelyn Kendrick, Mrs. Audrey Johnson, Mrs. Cletha Clayton, Mrs. Elsie Billings and Mrs. Lela Tidwell.

**Leisure Bridge Club Has Regular Session**

Mrs. Paul Scherer, 1405 Nolan, entertained the members of the Leisure Bridge club in her home Tuesday evening.

Mrs. Donald Anderson won high score and Mrs. Doe Burnett binged. Refreshments were served by the hostess to Mrs. James Vines, Mrs. Roy Bruce, Mrs. R. H. Moore, Mrs. Charles Pruitt, Mrs. Gene Nabors, Mrs. Joe Brooks, Mrs. Molly Chisholm, Mrs. James Jones, Mrs. J. D. Cagle and the hostess, Mrs. Scherer.

**Mrs. John Mareno Named Honoree At Shower Wednesday**

Mrs. John Mareno was named honoree at a pink and blue shower in the home of Mrs. John Foster, 503 Scurry, Wednesday afternoon. Co-hostesses for the affair were Mrs. M. H. Carroll and Mrs. W. F. Pashall.

The refreshment table was laid in white. The centerpiece was composed of a white cake shaped as a lamb with pink ears and blue eyes and surrounded by an arrangement of pink carnations.

Those attending were Mrs. Ad H. Hoyer, Mrs. F. G. L. Snow, Mrs. W. C. Heckler, Mrs. Gus Oppgard, Mrs. E. L. Bynum, Mrs. Kurt Kowarske, Mrs. Albert Hohertz, Mrs. Keith Rueckert, Mrs. Henry F. Fehler, Mrs. Harold Wakehouse, the hostesses and the honoree.

**City Man Gets Patent For Navy Invention**

A government patent on a cutting torch he invented while on duty with the US Navy has been issued Hartman Hooser, a Big Spring man now attending Baylor University in Waco. Hooser is the son of Mr. and Mrs. Harvey Hooser, Sr. of Big Spring.

The tool is capable of cutting metal from any angle. Hooser brought the torch to the attention of superiors while on duty with a floating dry dock unit in the Marshall Islands in the Southwest Pacific.

**Woman Wins Custody Of Minor Child**

Juanita Cadie was granted custody of a minor child and a division of community property along with marital freedom in a divorce suit heard by Judge Paul Moss in 70th district court here Wednesday.

U. S. Cadie was the defendant in the action.

A decree was also granted Lila Childress in her suit against Raymond Childress. The former name of O'Donnell was granted the plaintiff.

**WEATHER**

BIG SPRING AND VICINITY: Fair and warmer this afternoon. Partly cloudy and warmer tonight and Friday. High today 68, low tonight 46, high tomorrow 70.

Highest temperature this date in 1947: lowest this date, 6 in 1935; maximum rainfall this date, 2.3 in 1931.

Le Sage Co. - Distributors - Odessa - 65% Grain Neutral Spirits

**Live-Water Washing!**

In the Frigidaire Automatic Washer Live-Water action washes your clothes cleaner with rolling currents of water — no pulling or yanking by metal parts—clothes hardly touch even the tub itself!

Frigidaire's Live-Water washing really gets clothes clean. Rolling, penetrating currents of active water carry clothes from top to bottom of the tub time after time, saturating every inch with hot, sudsy water. Clothing floats free— isn't scuffed by rolling or tumbling.

Live-Water washing makes light work of heavy blankets, sheets, gets grimest work-clothes clean, yet gently protects sheersst lingerie. And the same Live-Water action that gets clothes cleaner, rinses them brighter. See a Frigidaire demonstration.

**Only FRIGIDAIRE AUTOMATIC WASHER has all these other features.**

**Do Finger-Tip Washing with the Select-O-Dial**

Set the Select-O-Dial only once. Washer fills, washes clothes, rinses them twice in clear water, spins them damp-dry, cleans itself and shuts off. For special jobs any cycle of washing, rinsing or spinning can be started, stopped, repeated at any time.

**Rapidry-Spin Gets Clothes Pounds Lighter**

The Rapidry-Spin on the Frigidaire Automatic Washer spins more than twice as fast as most other washers—spins clothes so light, so damp-dry there are no messy drippings, no heavy loads to lift and carry. In fact clothes come out so dry some are ready for immediate ironing.

- Vibration-Free—No Boiling Down**  
Your Frigidaire Automatic Washer can be put almost anywhere, is so steady and quiet a glass of water won't spill.
- Soap Dissolved Under the Water**  
Under-water distributor releases soap only after it has changed to active suds. Eliminates possibility of soap spots.
- Loads From Top—No Steeping, Bending**  
Top loading is full width, convenient, labor-saving. Top can be lifted during washing action to add or take out clothes.
- Usable Flat Top—An Extra Work Shelf**  
The Frigidaire Automatic Washer has a usable flat top. It's another shelf in the laundry. Porcelain withstands wear.
- Lifetime Porcelain Inside and Out**  
Frigidaire Automatic Washer is finished in Lifetime Porcelain. Rust-proof, resists scratching. Only Frigidaire has it.
- Ultimate Mechanism—Simple, Dependable**  
Complete mechanism in one piece. No belts, pulleys or extra motors. You get a one-year warranty. Only Frigidaire has it.

**FRIGIDAIRE Automatic Electric CLOTHES DRYER**

Get more freedom from wash-day work with a Frigidaire Clothes Dryer. Fluff-dry a washer-load of clothes in a hurry. Just put in clothes, set the timer... in 15-25 minutes clothing comes out soft, fluffy and sweet-smelling; damp-dry for ironing; or bone-dry for immediate use, as you prefer.

**Frigidaire Electric Ironer**

Irons clothes faster, smoother, easier—all without lifting, backache, physical strain. Full 30-inch open-end roll takes tablecloths, sheets, easily. Presto-Matic Foot Control.

Prove it to yourself

**Three Rivers Soldier Lies In Arlington**

WASHINGTON, Feb. 17 (AP)—Private Felix Z. Longoria of Three Rivers, Tex., lies in his Arlington National Cemetery grave today.  
 Longoria, an oil field truck driver before the war, was killed in the Philippine Islands in 1945.  
 Maj. Gen. Harry Vaughan, aide to President Truman, attended the services. In answer to a question he said, "I came here for the services of that Texas boy who got all the unfavorable publicity due to the stupidity of that undertaker."  
 He said President Truman learned of the case from Sen. Lyndon B. Johnson (D-Tex.).  
 Vaughan was referring to original plans for Longoria's reburial. Latin Americans in South Texas charged the director of a funeral home in Three Rivers declined use of the funeral home chapel for the Longoria. The Latin-American groups charged race prejudice.  
 T. W. Kennedy, Jr., director of the funeral home, denied charges of the Latin-American groups. He said he tried to discourage the Longoria from selecting the chapel in the belief that friction existed between the widow and the dead soldier's parents.  
 A Latin-American organization contacted Johnson and he arranged the Arlington burial.  
 Among those attending the reburial services were the widow, an eight-year-old daughter and his mother.

**SENATOR KEEPS TALKING**—State Senator Rogers Kelley of Edinburg, Tex., is shown above as he conducted his filibuster in Austin Feb. 15 against a bill re-amping central control of the school system. (AP Wirephoto).

**Cotton Acreage Measure Draws Southern Fire**

WASHINGTON, Feb. 17 (AP)—Still opposition has developed to a cotton acreage allotment bill all but passed by Congress.  
 Sen. Eastland (D-Miss.) voiced the opposition by protesting some marginal cotton states would gain acreage at the expense of other southern and western states where cotton is a principal crop.  
 He was joined by other senators and representatives including Sens. Ellender (D-La.) and Anderson (D-NM) and Rep. Gathings (D-Ark.). Purpose of the bill which started by eliminating consideration of 1949 cotton plantings from 1950 quotas was to prevent a planting race this year, Gathings said. He added a planting race might result in a disastrous cotton surplus.  
 Gathings and Rep. Abernethy (D-Miss.) authored the original bill.  
 A House committee headed by Rep. Pace (D-Ga.) inserted a proviso that if a farmer planted no cotton in 1947 and 1948 he should base 1950 cotton acreage on 1942 plantings. That was the last year before acreage restrictions were lifted because of the war.  
 Pace said this was necessary because the law requires planting of cotton in three preceding years before a farmer is eligible for an old-farm allotment.  
 The House passed the bill. The Senate made it include wheat, corn and some other commodities. Senate changes made a joint conference a necessity.  
 Eastland said his state's allotment under the House proviso would be some 240,000 acres under its 1945-48 average, which would be the Mississippi acreage otherwise.

**Draft Board Seeks Four**

Four persons registered with the Howard - Martin - Mitchell county draft board are now listed as missing.  
 They are Melquiades Almazan, last address general delivery, Big Spring; Felipe Alvarado, Juarez, Mexico, last address 601 N. Douglas; David Garcia, last address general delivery, Big Spring; Federico Lugo Riberra, last address general delivery, Big Spring.  
 Joyce Sewell, secretary to the selective service board, said they were presumed to be migrant farm workers, but that they left no forwarding address. Under the law all registrants are required to keep the board with which they are registered, informed at all times of any change in address.  
 She asked that anyone who might have information as to the whereabouts of the missing subjects communicate with her at room 301 Prager building. Unless information as to their whereabouts is secured, the matter will have to be turned over to authorities.

**Officer Exonerated In Negro Shooting**

DALLAS, Feb. 17 (AP)—City Patrolman A. L. Edwards, who shot and killed an escaped Negro convict early Tuesday morning, was exonerated of any improper action by a Dallas County grand jury.  
 The grand jury returned a no-bill for Adams to clear him "without any delay." No charges had been filed against the officer although technically he was subject to a murder charge.  
 Edwards surprised the Negro as he was attempting to break into an elderly widow's residence. When the officer started for the convict he jumped from behind the house with a knife in his hand. Edwards fired and a bullet struck the Negro in the back of his head.

**Bricklayers Will Return To Jobs**

DALLAS, Feb. 17 (AP)—Bricklayers on at least one large Dallas building project were scheduled to return to work today at a bonus wage scale of \$28 daily.  
 The workmen left the job four days ago when the Dallas County said it was eliminating the bonus.

**GLASSCOCK COUNTY SCHOOLS ELECT NEW PRINCIPALS**

GARDEN CITY, Feb. 17—Principals of the Glasscock county schools have been re-elected by the board of trustees, C. G. Parsons, superintendent, has announced.  
 H. L. Lovell, who is in his second year as principal of the high school, was returned, as was Grace Ross, principal of the elementary school. Miss Ross has been a member of the faculty for nine years.  
 The school has added another class for veterans. Parsons said. One was organized this week with Stanley Turner, formerly of Sul Ross, as teacher. The other, under Howard McDaniel, will now concern itself with the farming phase of agriculture in Monday and Wednesday evening classes. Turner's section will deal with ranching and will meet on Tuesday and Thursday evenings in the vocational building. Approximately 18 are in each class.

**Vaccination Space May Be Reduced On Mexican Livestock**

MEXICO CITY, Feb. 17 (AP)—Recent outbreaks of foot and mouth disease may result in shortening the vaccination interval from six to four months.  
 A veterinary scientist of the U. S. Mexico AFTOSA commission said European experience indicates AFTOSA vaccine is good for six to eight months, but the period may be shorter in Mexico.  
 An unauthorized movement of cattle apparently caused the fresh outbreak in two Mexican areas, veterinarians believe.  
 About 1,000 cattle have been slaughtered as a curb measure around Matanzas and Lago Moreno in northern Jalisco. The cattle were slaughtered Feb. 12. There has been no reappearance of the infection there since, the commission said.

**Former Nazis Help Rebuild Reich Industry**

ESSEN, Germany, Feb. 17 (AP)—The keenest production brains of the Nazi Reich are rebuilding Germany west of the Iron Curtain.  
 In Europe's mightiest workshop—the Ruhr—Germans who know best how to dig coal and forge steel are in high authority. Denazification, grandly expounded by military decrees in 1945, was to have turned German society upside down and washed it snow white of the stain of Hitlerism. Thirty million of the 46 million Germans in the western occupation zones were hit by the allies' original definition of a Nazi.  
 But in 1949, most allied officials seem as weary as the Germans of being reminded that the nation was once mobilized in the Nazi Party and its auxiliary formations, which went so far as to include school children in the Hitler Jugend and the Bund Deutscher Maedel. The common attitude is let bygones be bygones.  
 The casual foreign visitor may carry away the impression that West Germany is chiefly inhabited by scrubby urchins begging allied chocolate, Bahnhof frauleins exchanging love for foreign visas, and maimed veterans collecting cigarette butts from the gutter.  
 But here, in the Ruhr, is a different type of German. He is an executive, engineer, scientist or lawyer. In the aggregate, he is the management and technical brains behind what used to be the No. 1 heavy industries of Europe.  
 He has retained his ambition, energy and skill. He belongs mostly to the age group, 40 to 55.  
 You could have put all the Ruhr barons in jail for life, after the war, without affecting industrial output one ounce. It would have been a different story if you had liquidated the production men.  
 Take hard coal. Back in 1945, liberated western European countries needed all the coal they could get, but they got practically nothing from former German sources. Now West Germany is producing at the rate of approximately 100 million tons of hard coal a year, and 21 per cent is marked for export.  
 In the center of bomb-smashed Essen, you find the bustling office of the Deutsche Kohlenbergbau-Verwaltung which is the working boss of the western German coal industry under broad allied directives.  
 Upstairs in a big conference room is Jolly Heinrich Kost, general director of DKBL and principal owner of the Rheinpreussen coal mines.  
 He offers you a good cigar, mentions the excellent hunting that you're welcome to join on his country estate, and awaits the inevitable question: Was he a member of the National Socialist Party?  
 Kost's answer is authenticated by allied intelligence. He was arrested in 1934, he says, for having balked a Nazi membership campaign among his workers. But after the party blood purge that year, he joined but stayed as inconspicuous as possible.  
 In the final war months, he sabotaged the scorched earth order of the Nazis that was to have destroyed all collieries including his own. Deputy Fuehrer Martin Bormann signed his death warrant. American troops captured the Gestapo agent who had been sent to arrest him.  
 When the shooting stopped, the Americans reinstated Kost as president of the Ruhr Chamber of Commerce. The British named him general director of DKBL in 1947.  
 DKBL admits that one-third of executives in the German coal industry belonged to the Nazi Party. More than 90 per cent were
