Advancing Front Brings More Rain To Crockett Area

3/4 To 2 Inches Moisture Reported From Nighttime Shower

As most of the year's bountiful rainfall has been, that which fell here early Wednesday morning was perfectly timed for maximum benefit to rangeland which, under the impetus of soaking rainfall, is making a gallant comeback from seven to eight years of drouth.

In fact, as one ranchman put it, the rains so far this year have been as good as their lack was bad in the drouth years, beginning with the slow, soaking rains of five-days duration in February which started some weed growth, met the bare ground in the only way it could have been wet, and set the stage for maximum benefit from the recurring rains, light and heavy, which have fallen during April and May, and on into June.

Rains early Wednesday morning, kicked up by an advancing front which produced some violent thunder storms throughout West Texas and the panhandle, covered all of Crockett county, according to best available reports, with reports from .6 to two inches, the heavier fall reported from south of Ozona.

Coming after a week of warm but humid sunny weather, during which weeds and grass made fine growth, the fall Wed. night was an excellent "top dressing" for the recovering pastureland. With the ground now covered almost everywhere with weeds, and grass coming along underneath, the former parched and bare range land is being put in condition by nature to take moisture and make maximum use of it, and minimize the damage and waste from runoff water.

The .82 of an inch fall gauged here Wednesday morning, brought the June total to .96 and the year's total to 13.78. May's total here was an even 7 inches, which was considerably less than in the outlying ranch country, where gauges have measured a total of up to 20 inches so far this year. The rain Wednesday morning was accompanied by some blustery wind which snapped off some small branches on pecan trees, and considerable electrical disturbance but no hail.

One Ozona Golfer 'Beat The Champion' In National Contest

Only one out of 11 Ozona men golfers beat the champion, Dr. Cary Middlecoff, 1956 USGA men's open champion, in the week-end contest which was played on a nationwide scale. No local lady golfers competed against Champion Kathy Cornelius, women's open champion.

The contest was played on a low-handicap basis, each amateur contestant taking advantage of his individual handicap. Charles Williams banged the Ozona course for a net 64 to beat Dr. Middlecoff's par 70 score at the Iverness Club in Toledo, Ohio. He will be awarded a medal engraved, "I Beat The Champion — Cary Middlecoff, 1957."

Other golfers who played the champion, and their net scores were James Scott, 72; Vic Montgomery, 74; Dr. H. B. Tandy, 75; Pete George, 75; Jim Dudley, 72; Jerry Hayes, 71; Floyd Hokit, 71; Sherman Taylor, 73; Buddy Moore, 61; and Dempster Jones, 75.

W.T.U. To Close Local Office On Saturdays

In line with other offices of the company in the West Texas territory, the local office of the West Texas Utilities Co. will be closed every Saturday starting June 22. T. J. Bailey, local manager, announced this week.

The cafe is to be given a complete interior overhaul, including equipment and the management found it necessary to close the business while such work was underway.

BEST CITIZEN award of the Ozona Woman's Forum, presented annually to the Ozona High School student adjudged winner of the award on a point system scored by faculty members, this year went to Jake Young, Jr., a junior the past year and an outstanding high school athlete. He was selected out of fourteen students nominated. Attributes on which the students are judged include honesty, cooperation, dependability, courtesy, obedience, effort and participation, achievements, scholarship, self-reliance and neatness and orderliness.

They are Carolyn Mayfield, Gwynel Walker, Alleane Young, Molly Sue Richardson, Sally Baggett, Anne Davidson, Linda Millspaugh, Mark White, Sandra Whitaker, and Sandra Rathin.

Ten Ozona Students Enroll For McMurry Band, Twirling School

Abilene, (Sp) — Ten Ozona young people have registered for McMurry College's ninth annual summer band and twirling school, to be held here on the McMurry campus July 14-27.

They are Carolyn Mayfield, Gwynel Walker, Alleane Young, Molly Sue Richardson, Sally Baggett, Anne Davidson, Linda Millspaugh, Mark White, Sandra Whitaker, and Sandra Rathin.

Raymond T. Bynum, professor of music and band director at McMurry, is general director of the two-week band and twirling clinic, one of the largest of its kind in the country.

Bynum said that 261 boys and girls from 32 Texas towns and cities had registered for the school through June. He expects final registration to top last year's record enrollment of 404 students.

Participants will be housed in McMurry dormitories and will take their meals in the college dining hall. They will receive instruction in solo, ensemble and concert band, music theory, chorus, twirling, drum majoring and other specialties.

Twelve Texas public school band directors are included on Bynum's staff of about 30 band and twirling teachers. The twirling staff will again be directed by Bill Adkins of Haskell and Mrs. LaGaytha Gothard of El Paso, McMurry graduates who are now public school teachers.

Further information on registration or tuition for the school may be obtained by contacting Professor Bynum at the McMurry College Band Hall, Abilene, Texas.

Taylor Word Awarded 20-Year Tex-N.M. Pin

Taylor Word of Ozona has completed 20 years of service with the Texas-New Mexico Pipeline Co., and this week received a 20-year pin from the company in recognition of his long service record.

Mr. Word is district gauger for the pipeline company in the Vaughn district, making headquarters in Ozona.

Mr. Word is district gauger for the pipeline company in the Vaughn district, making headquarters in Ozona.

IF CARDS FALL RIGHT All Flood Dams Could Be Under Way This Year

If Plans, Easements & Right of Way Cleared, Money May Be Found

If all the cards fall just right, what may be a record for speedy flood control construction that will stand for many years could be accomplished on the Johnson Draw watershed control project, a part of which is now under construction.

Construction is under way on two of the dams, contract has been let on the third and work is scheduled to start on it in a very short time, and work is going forward on ironing out the hundreds of details connected with land easements, right of way, testing and designing on the four remaining dams to be constructed in the watershed control plan of the Soil Conservation Service.

Dogged effort on the part of county and Soil Conservation District officials and others got the plan through the maze of Washington officialdom and the Congress to final approval last year, to gain a full year's start on the project ahead of first estimates.

Now, according to these same officials, the Johnson project is in position to break a speed record in construction, to telescope a projected five-year plan into one, by being forehanded in completing details and ready when government funds are available.

If all easements and rights of way can be secured shortly, and if SCS engineers design section can complete their work, the Johnson project may be so far ahead of other similar undertakings already approved that money which will become available at the start of the government's new fiscal year July 1 will be channeled to it and contracts on all seven dams and the channel improvement work through Ozona can be let within the year 1957 and the entire project virtually completed next year.

Preliminary field notes are to be taken soon and detail stakes set on Dam Site No. 7, which will harness Gurley draw above Ozona. Easements have been signed up on this site and nearly all easements have been secured on property adjacent to the draw through Ozona where the channel improvement work is to be done. A town map has been sent to the SCS engineering headquarters in Brownwood on which the channel project is to be plotted and as soon as this design is completed, county and SCD authorities will ask for a conference with the State Highway Department relative to replacement of the Highway 290 bridge in Ozona, necessary to the most satisfactory channel design.

Conoco Completes Strawn Producer In World Field

Northern Crockett Co. Discovery Rates 449 Barrels Daily

The World, West (Strawn) field of Crockett County gained a producer with completion of Continental Oil Co. No. 20-C C. T. Harris, in 1-BB2-N. A. Miller, 14 miles south of Texon.

It was finalized for a calculated, daily flowing potential of 449 barrels of 48 gravity oil, no water, with gas-oil ratio of 3.716-1. Potential was based on an actual 15-hour flow of 243 barrels of oil through a 23-64-inch choke and perforations between 5,066-090 feet and 5,099-5,102 feet, which had been washed with 500 gallons of mud acid.

Tubing pressure was 800 pounds casing pressure, 1525 pounds.

Mr. and Mrs. Hilary Phillips and Mr. and Mrs. Buddy Phillips left Friday for a trip to Maine and other northeastern states.

FOOT SODA STRAWS — Here Royce Ballinger measures these odd stalactites, thin, round formations designated as soda straws by the explorers. The one Royce is measuring was four feet in length. These spectacular formations, seen in the background, is a giant dome formed by the deposits of the seeping water.

hobby with perhaps more per minute, more ultimate action, and, incidentally, downright hard work could be found that that of the spelunker — explorer of

Drouth-Breaking Rains Have Produced Greatest Weed Profusion In Many Years, Nature's First Step In Restoring Productivity Of Pastureland

By Bob Scott, S. C. S.

Some 15 to 21 inches of rain on most of the Crockett Soil Conservation District has resulted in the greatest profusion of flowering weeds for many years.

Nature abhors a void, and with continued rainfall the drouth-induced bare areas were quickly covered with a multitude of weeds — some good and some bad, but all beneficial in helping to trap the raindrop. Weeds are a part of Nature's plan to cover and protect the good earth, and in the absence of grass they quickly form a protective blanket over the land.

It is very interesting to observe the waves of weeds that have predominated during ever changing cycles since the rains started. Slow February rains started bitweed on a grand scale, along with bluecurl phacelia, verona and a small weed called blunt-leaf pellitory. Englemann daisy dominated the roadsides along with Western Yarrow and an occasional Indian paintbrush.

By the middle of May the pellitory and bluecurl faded and a host of plants came into prominence. Bitterweed, of course, dominated the scene on drought-weakened pastures that were infested with the pest even though few seeds were produced during the past seven years. Tallow weed, Texas filaree, nama, hussache daisy, and a few bluebonnets and other good weeds were present and have made remarkable growth.

During May a host of new plants made their appearance. Yellow flowered plants such as coreopsis, green thread, buffalo bur, Roemer sonna, coneflower and many pink, yellow and white evening primroses, horsemint, American basketflower, prickly poppy, and the thistles were also present.

Many other odd plants have begun to show up. One of these is

Crockett 4-H Grass Judging Team Wins Second In State Meet

Crockett County 4-H Club district champion grass judging team won second place in the state contest at the 4-H Club Round-Up now in progress at A&M College, according to information relayed by telegraph yesterday by County Agent Pete Jacoby, who accompanied the team to the state meet.

Civil Air Patrol Unit Formed Here Plans Expansion

Membership Open, Cadet Group To Be Organized Later

The first official meeting of the Ozona Civil Air Patrol Squadron was held Tuesday night, June 10, at the Crockett County Airport. The meeting was called to order at 8:00 p. m. with Maurice Lemmons acting as temporary chairman.

The following officers were elected by popular acclaim: Maurice Lemmons, Squadron Commander; Walter Cawyer, Executive Officer; and Troy Dale, Chaplain.

Following the business meeting, two films were shown the group. One was a C. A. P. film, and the other an Air Force film. As this was an organizational meeting, the program was short. But there are various programs planned for future meetings which will be of interest to all aviation enthusiasts. The regular meetings will be held the second and last Tuesday nights of each month at the Crockett County Airport.

Those attending this meeting as Seniors Members were W. W. West, Cap West, James Barbee, John L. Henderson, Bob Scott, Gene Williams, Ralph E. Simon, Warren Taliaferro, Charles E. Lilly, James Coker, Helen Coker, John B. Barbee, Pleas Childress, Walter Cawyer and Maurice Lemmons. Anyone over 18 years of age is eligible to join; men or women, pilots or non-pilots. Everyone who is interested in aviation, or civil defense is urged to join the Squadron.

As soon as the Senior Squadron is activated, there are plans to organize a Cadet group here. This group will be open to boys or girls between the ages of 14 and 18. Until the group is organized, all who are interested in joining the Cadets will be welcome at the regular Senior meetings. Two Cadets were present at the meeting Tuesday night: Stanley Williams and Jim Burton.

Anyone wishing information regarding becoming either a Senior member of a Cadet should contact Maurice Lemmons, Walter Cawyer or any member of the Squadron.

Mr. and Mrs. Joe Pierce returned Wednesday from a cattle buying trip to South Texas.

ANOTHER "DAY OF INFAMY"

Those outrages against national honor, tradition and duty known as the Status of Forces agreements and treaties, now in effect with some 50 countries, have been brought into sharp focus for Americans by recent events. One is the charge that the Formosan riot which sacked the US Embassy and the USIA office in Taipei would not have happened if we had had such a treaty with Formosa and had turned over to local justice the fate of the Army sergeant who shot and killed a "peeping tom" spying on his home. Acquittal of the sergeant by an Army court-martial is regarded by irate Formosans, we are told, as a "white-wash."

More significant is the decision by the Commander in Chief, himself, President (and former General) Eisenhower that Sergeant W. S. Girard, of Ottawa, Ill., will be turned over to Japanese courts for "inflicting bodily injury causing the death" of Mrs. Naka Sakai on a firing range last Jan. 30. Sergeant Girard was on duty, guarding U. S. property, Mrs. Sakai, in defiance of posted warnings, was salvaging empty shells fired on the range. Since the incident, the sergeant's case has provided a tug-of-war between the State Department which wanted to turn him over to the importunate Japs, and the Defense Department which

originally did not. But the President, who signed the agreement, decreed Japanese justice for Girard.

All of which should recall the consistent stand of The American Legion against the Status of Forces agreements and its repeated demands for the repeal of these and similar agreements. And the Girard decision returns the spotlight to the telegram of protest sent to the President only a few days ago by National Commander Dan Daniel, of Danville, Va.

"If our Government allows Japanese courts," wired Commander Daniel, "to try and punish Girard for an unfortunate accident that occurred while he was on duty, then the Status of Forces Treaty and similar agreements are an even more inexcusable betrayal of the trust and rights of American servicemen stationed overseas to defend the freedoms which we so proudly proclaim in the Bill of Rights, including the right of trial by jury and the presumption of innocence until proven guilty."

"It is not William Girard who is on trial," the Commander continued. "Rather, it is our government. If our Government abandons Girard to Japanese justice (which it has now done), it will have notified the world that we will defend freedom for everyone except our own military personnel serving abroad."

The President has, by his action, answered Commander Daniel. He has answered the American people. He has answered the armed forces that he once led in the greatest struggle for human justice the world has yet seen. He has answered American youth that must soon be sworn to defend a Constitution that will not defend them.

NOTICE - I have sold my interest in 290 Cafe, Ozona, Texas, to Mrs. Carmen Christian and I will not be responsible for any debts.

Ozonans Attend Red Cross Meet In Angelo

Mr. and Mrs. R. A. Harrell and Mrs. W. H. Chandler attended the program and dinner of the Permian Basin Council of Red Cross chapters held at the San Angelo Country Club Friday night. Paul Hodge, chairman of the Abilene Chapter, discussed the duties of Red Cross Board members.

Another speaker at the 25 chapter meeting was Harvey Lee of Odessa, who discussed intercity disaster emergency.

WASHINGTON SNAPSHOTS - Big Spenders Mount Anti-Economy Drive

The big spenders have mounted a counteroffensive against the "economy bloc" in Congress.

All the tricks of the big spenders are being brought into play. A House official was told that a conference of lesser bureaucrats in the Interior Department was devoted to methods of applying appropriations cuts so as to evoke loudest protest.

The chairman of the House Appropriations Committee says big spenders organized a telephone campaign of federal employees, who have been telephoning members of Congress from many parts of the country protesting economy.

A succession of Administration officials - headed by Secretary of Labor Mitchell - are asking the Senate to restore appropriations reductions made in the House.

Whether this counteroffensive will break the back of the impressive economy drive from "back home" is at present uncertain.

Sen. Edward Martin (R-Pa.) says: "One of the principal reasons for the alarming rise in the cost of government is the constant demand from organized pressure groups..."

Seven Cities Enter Miss Wool Contest; Pageant In August

Seven junior chambers of commerce from leading cities in Texas have agreed to furnish entries in the 1957 Miss Wool Pageant which will be held the last week in August in San Angelo, Texas.

Eleven finalists will be chosen from these and dozens of other applicants from all over Texas. These eleven will be guests of the San Angelo Board of City Development for a week of entertainment, and, of course, the series of contests that will decide the 1957 Miss Wool, the queen of the Wool Industry. The finalists will arrive in San Angelo on Sunday, August 25, and will remain through Friday for the pageant the night of

the 30th. Included in the long list of prizes that the winner will receive will be an all-wool wardrobe valued at approximately \$4,000, numerous expenses paid trips to fashion centers, which will include a stay in New York City, and appearances on various national TV and radio shows.

To be an applicant for the 1957 Miss Wool Pageant, a girl must never have been married, be a resident of Texas, wear a size 12 garment, be between the ages of 18 and 24, and have completed at least one year of college work in between 1955 and 1957.

Applications and further information may be obtained by writing the San Angelo Board of City Development, Box 712, San Angelo, Texas.

Miss Schmeemann, Bride-To-Be, Honored Tea Here Friday In Abe Caruthers Home

Miss Schmeemann, bride-to-be, was honored at a gift luncheon in the home of Abe Caruthers.

The guests at the luncheon were Mrs. Caruthers, Mrs. Paul Ferner, Mrs. John Schriever of San Angelo, Mrs. Susan Parker and Mrs. Roy Schriever, all of the town; Mrs. Max Schmeemann, Jr., of the bride-to-be; Mrs. W. E. Reynolds, of the bridegroom; Mrs. S. J. Sikes, Jr., sister of the bride-to-be; Mrs. Ann of Maria, her niece; Miss Pampaluna, aunt of the bride-to-be; Miss Janice Spencer, Sarah Hicks.

The table was covered with a blue cloth, which overflowed with pink and white carnations and pink and white Spading flowers, complementing the bride's chosen colors. Two silver punch bowls and handshakers holding pink candies were used on the table.

At the gift luncheon were Mrs. Lowell Littleton, Mrs. Ashby McMillan, Mrs. Sid Millspaugh, Jr., Mrs. T. J. Bailey and Mrs. Sonny Henderson. At the bride's book were Mrs. Max Schmeemann, Jr., and Mrs. Bill Schmeemann.

About 165 guests called during the tea hours. Out-of-town guests were here from Amarillo, Pampa, Eldorado, San Angelo, Sonora, Big Lake and Texon.

Ellenburger Wildcat Slated In Crockett

Jake L. Harmon of Midland will drill an 8,500-foot Ellenburger wildcat in Crockett County, nine miles southwest of Big Lake and 2 1/2 miles northeast of the World, West (Strawn) field. It will be the No. 1-G. University.

Location is 660 feet from the north and west lines of 34-7-University.

The project is one mile southeast of Pure Oil Co. No. 1-C University, 8,885-foot failure abandoned Nov. 29, 1956, after failing to develop production in the Ellenburger through perforations between 8,282-406 feet.

Miss Camille Adams, daughter of Mr. and Mrs. Clay Adams, left last week to attend summer camp at Camp Waldemar near Kerrville.

NEW SHIPMENT Tropical Fish, Including such rare specimens as Cardinals, Tetras, Clown Loaches, Bumble Bee Gobies and others.

Also have the usual specimens such as Swords, Moons, Mollies, Angels, etc. Hours, 6 p. m. to 9 p. m. week days, 1 p. m. to 5 p. m. Sundays. Aquarium Pet Shop. Phone 67.

Mr. and Mrs. Clay Adams will leave this week on a fishing trip to Montana.

Mr. and Mrs. Bascomb Co. visited their daughter, Mrs. Ed Szymanski, and family in Dallas this week.

T. A. Kincaid, Jr., president of the Texas Sheep & Goat Raisers Assn., and Mrs. Kincaid will leave this week-end for Salt Lake City to attend a meeting.

Mrs. Lowell Littleton took her mother, Mrs. R. E. Hardberger, to Dallas this week for a medical check-up.

 First House West of N. Elem. School

than four months he arrived early and stayed late at his office, and while the Nation slept, he spent hours in going over the military requests line by line and conducting research into every item. He spent hundreds of hours getting direct testimony from all departments of the military, and in talking with Defense officials from Secretary Charles Wilson on down, asking them to justify requests on the basis of need. At the conclusion of the testimony and research, Mahon felt that our national security would in no way be endangered by the elimination of \$2.5 billion from the Defense request for \$36 billion.

Military Men Appeared who knew about specific portions of the budget, and they were experts in their field. By the time Mahon had heard them all, he had talked to Secretary Wilson and had almost exhausted himself in doing his own investigating. I truly feel that no man in the world was in a better position to know what could and should be done than my fellow Texan from the South Plains.

Once Congress votes funds for the Government agencies, it loses most control over how they are spent. Thus, Mahon reasoned, if the fats, frills and hoes could be eliminated from the budget, the Military would be forced to use the money it did get to the best possible advantage.

The budget requests for the Military were outlined in a complicated document containing thousands of pages. Many sincere persons, who did not have the opportunity to see the budget and could not have the benefit of all facts, recommended that all money the Military asked be granted. But after long talks with Mahon, and knowing how thoroughly he has

gone into the matter, I felt he could give better guidance than any man in the Nation. In many instances Mahon's work may go almost unnoticed, but he certainly did a wise, dedicated job in attempting to provide adequate funds for Defense and at the same time eliminate needless burdening of the tax-payers.

There Has Been much talk in recent days concerning the handing over of the American soldier (Girard) to the Japanese for trial in the courts. Many persons, several Veterans' organizations and others have been disturbed over this action, and I can understand their sentiment. I would not attempt to pass judgment as to whether Girard is guilty of the crime with which he is charged. That is not the issue. The issue is whether American citizens abroad are to be afforded the traditional freedoms guaranteed to us by the Constitution.

The President ordered Girard turned over to the Japanese based on the technicality that he was "at ease" and thus off duty on the Military range. The President stated the action was taken, through his appointed officials, not only with his consent but at his direction. He cited authority granted him under the Constitution as Commander-in-Chief as the basis for his action.

Persons who have strong convictions in this matter should direct their letters and telegrams to the White House. If the mail is directed to the Congress, which had nothing to do with the decision, the President will be unaware of public opinion of the action and might act in a similar manner in future cases.

Although I am a combat-wounded Marine veteran of the Pacific during World War II, and as a consequence admit to some ill-feeling toward Japan that will probably be with me always, I don't base my opposition to the President's actions on emotion. It is a matter of principle, and I would object had the incident occurred in Italy, Switzerland, Mexico, England or any other foreign nation. Girard should be brought up for an accounting of the charges, but only in a Military court made up of Americans.

At the end, I relied heavily on commendations of the very congressman George Mahon of the Lubbock area. Mahon, a member of Congress, is chairman of Military Appropriations subcommittee of the House. He is in a position to know the military financial situation is that man. For more

LAW OF GRAVITY DEFIED — Here is the most spectacular formation ever found in any cave. These giant matted-straw like helictites send fingers in all directions, defying the law of gravity which controls most such cave formations. Many have offered theories as to how they were formed, such as wind currents, but their growth is something of a mystery. The interesting shot, posed by Scotty Moore, was made by Royce Ballinger.

A FEW MILLION YEARS of growth is doubtless represented in this giant dome, the largest the boys encountered in the cave. Note the hanging formations from the ceiling. In the picture are, background, Lanny Brentz, Mills Tandy and R. K. Wimberly, shop teacher in the Ozona High School, who accompanied the boys on one of their trips down under.

Spelunkers —

(Continued from page one)

boys have been helped by other adult spelunkers, including Bill Holmer from the University of Texas Speleological Society, and Bob and Bart Crisman from the Abilene chapter of the N. S. S.

For cave exploring, the boys have assembled the equipment recommended by the NSS, including carbide lights of the type used by miners mounted on helmets, an electric torch, ropes and rope ladders for scaling difficult climbs, picks and other equipment of the type used by mountain climbers. One of the cardinal rules of the cavers, never enter a cave alone, and another, always tell someone where you are going, are strictly observed by these youngsters, as well as other safety rules to make their hobby enjoyable at minimum risk to their personal safety.

Out of the eleven caves the Ozona spelunkers have explored, the largest is one to the east of Ozona which they choose to call the "Secret Cave," its location a closely guarded secret in deference to wishes of the landowner. Most of the pictures on this page were taken in this cave. The Secret cave has in its deep chambers many rare formations and unusual qualities that in many instances surpass the wonders found in the famous Carlsbad Caverns or the more famous Kentucky caves.

The old part of the cave, or upper reaches, had been known for some years and suffered some from careless explorers before it became known to the speleologists. Two years ago a group of amateur spelunkers found a way around the large pit room by a narrow ledge which led to vast new reaches of underground wonders far surpassing anything yet explored. Tight crawlways, sharp drops and difficult climbs and other obstacles challenged the explorer but their pictorial records prove their prowess in overcoming these obstacles to gaze on one of the last remaining frontiers — the underground secrets of the earth.

There are many large formations

GIANT ICE CREAM CONES — Among the outstanding formations in the Secret cave are these giant stalagmites formed on the floor of the cave. This is a time exposure made by Scotty Moore with lights behind the formations to show how light passes through them even as thick as they are. In this expedition were Gwynel Walker, left, and Diane Phillips, right. Spelunker Mills Tandy is in the center background.

of stalagmites and stalactites formed by millions of years of drip-drip-drip of limestone charged water and an underground lake of crystal clear water in which the boys took a dip.

The trip through the cave's so far explored interior requires about nine hours of gruelling travel, covering approximately three miles. There are two large pit rooms, with ceiling estimated at 55 feet in height and some 200 feet across. There are numbers of smaller rooms and openings, all filled with dazzling displays of giant flow formations, rhombohedron and tetrahedron crystals which are orange in color, thin stalagmites which the spelunkers have named soda straws, and huge white stalagmites which look like piles of ice cream, as the boys

describe them. Among the many who have visited this particular cave, the Ozona spelunkers report, all have described it as one of the most beautiful they have ever seen. Meanwhile, the Ozona cavers their collective ears to the ground listening for reports of new and unexplored openings — they already have a few spotted that they are itching to get after — and as they learn more and more about nature's underground secrets and more and more about the best and safest ways to explore them, their horizons of interest broaden and a wonderful hobby and captivating interest consumes their spare time, and these lads, at least, are safe from the influences that reformers charge are responsible for the widespread juvenile delinquency of the day.

CARD OF THANKS

We wish to express our appreciation to all our friends for their many kindnesses and expressions of sympathy during the illness and death of our loved one. The burden of grief was greatly eased by your kindnesses which will be ever grateful.

PERSONALS

I AM NO LONGER RESPONSIBLE FOR MY WIFE'S ACTIONS

(Since she got her new kind of Ford)

"If she is unbelievably happy at 7:00 A. M. every morning, I now hold her 1957 Ford responsible. If she is off for the day at 7:02 A. M., I suspect that it is the power of Ford's Thunderbird V-8 engine. If she appears vastly more style-conscious, it is the longer, lower lines of her new kind of Ford that have made her so.

"If she arrives home remarkably refreshed, I refer you to the lower, more comfortable seats, the wider wrap-around windshield and the other peace-of-mind features of her new 'Inner Ford.' If she's just a bit more spoiled, don't blame her. With optional power steering, power brakes, power windows and seat—who wouldn't be?"

"And if she is constantly raving about the savings her new car brings her, she's merely confirming what I've been telling her about Ford for years! Sure, we're a too-Ford family now. But even having one Ford in the family was more fun than you can imagine! Try a new '57 Ford at your house. It's Terrific!"

Right To The Point

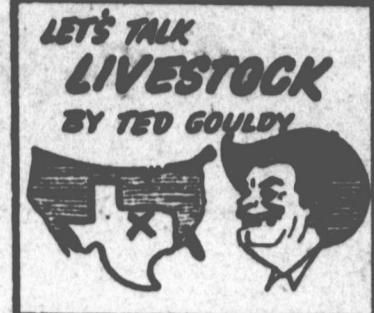

Man Of Tatillags On The Teena
By Sally Baggett

As all of the kids are up and going, and straight to the summer, school is out. One is relaxing and loz-wisdom. Becky Davidson Boy Clayton are going extreme. They had their teeth pulled.
Mr. Barber, One of your judging men goofed. He and his fiancée to pull-weed, only one thing was yellow daisies. A couple of our up and athletes are building up muscles, saving gas, and an eye on their girls at time. How do they do get a bicycle and pack and for awhile and you'll out.
Millspaugh and Camille left for Camp Waldemar morning. Those girls going to be missed. I'm will have fun.
Sixth strange sounds were es, the band is back in after a rest. Kids were and groaning, their lips of shape. I wonder?
Boys! One more girl mark- of your little black book Wanda McCaleb and Don started going steady.
Friend isn't getting his work done at the ranch. be because Joan Bower Clayto?
"thing we will go" is all get out of Gwynel Wal- the two girls visiting her. catch something besides bites.
Sikes' cousin Judy Baker for a few days. Francis and I had a hamburger for her. The couples pre-

sent were: Clayton Friend and Joan Bower, Jess Marley and June Slinger, Johnny Cooper and Dianne Phillips, Jerry Jacobs and Judy Baker, Bobby Sutton and Francis Childress and David Sikes and myself.
Jerry Jacobs left for Mt. Wesley, Monday. Mark White was going to but he caught a bug and didn't get to leave until Tuesday.
What was Diane Phillips beam- ing so about Saturday night? It couldn't have been because Don Powers was home from Sinton, could it, Diane? Gwynel Walker wasn't exactly frowning either. Her date, Curtis Myrick, came with Don. Frank Tank, as he in- troduced himself came also. His date Saturday was Joan Bower.

Twirling tryouts were held May 28th. Our new drum Major is Al- leans Young, head twirler is Car- olyn Mayfield and our twirlers are Nonie Conklin, Molly Sue Rich- ards, Sandra Whitaker, Linda Millspaugh and yours truly.
It is time to close now, but I will be back next week with more news.

Let's start the week off right kids, let's go to the church of our choice Sunday.
Phone News to The Stockman

Cattle Movement Under Way Following Floods

Fort Worth — The arrival of more than 11,000 cattle and calves at Fort Worth Monday signaled the start of the summer shipping season, which has been hampered by rain, mud and flood in recent weeks. The big movement followed the first few days of dry weather following the record breaking rains of April and May.
For the record it was the largest offering in four years and approached the numbers recorded October 21, 1946 before the day

was over.
Grass cattle prices weakened under impact, but strong stocker and feeder demand held the price break to relatively minor proportions. Grainfed steers, yearlings and heifers held steady. Bulls sold 25 cents lower. Cows, slaughter calves and plain to medium grade stockers were around 50 cents lower. Grasser yearlings and heifers shared the 50-cent decline. Good or choice quality stockers and feeders held firm.
Good and choice steers and yearlings bulked at \$19.50 to \$23.50, with a few individual steers \$25. Plain and medium butcher sorts bulked at \$12 to \$18.50. Fat cows drew \$12.50 to \$15.50, and some heiferish cows reached \$16.
Canners and cutters drew \$8.50 to \$12.50. Bulls ruled at \$11 to \$15.50. Good and choice slaughter calves cashed at \$19 to \$21.50, a few to the butcher trade to \$22. Common and medium offerings drew \$13 to \$18.50, while culls bulked at \$10 to \$13. Good and choice steer calves cashed at \$19

to \$25, and stocker steer yearlings bulked at \$21.50 down. Feeder yearling heifers sold from \$19.50 down, and stocker heifer calves ranged from \$20.50 downward. A few replacement cows sold from \$10 to \$14.
Fat Lambs Off 50c; Sheep Sell Steady.

Slaughter lambs averaged a- round 50 cents lower at Fort Worth Monday. Trade was uneven, with some spots off more and o- thers off less. Feeder lambs were around 50 cents lower, with some sales \$1 under last week's best. Slaughter ewes and muttons sold steady.
Good and choice slaughter Spring lambs cashed at \$19.50 to \$21.50 and cull to medium Spring- ers sold from \$14 to \$18.50. Stock- er and feeder lambs sold mostly from \$15 to \$18.50. Shorn old crop fat lambs of good and choice grades cashed at \$16 to \$17.50, while cull to medium grades sold from \$10 to \$15. Slaughter ewes sold from \$6.50 to \$7, aged we-

thers drew \$12 down; and two's sold from \$16 down.

Miss Ann Wicker, Thomas Lee Kincaid Married in San Angelo

Miss Priscilla Ann Wicker, daughter of Mr. and Mrs. Debert William Wicker of San Angelo, became the bride of Thomas Lee Kincaid, son of Mr. and Mrs. T. A. Kincaid, Jr., of Ozona, Saturday morning in Emmanuel Episcopal Church in San Angelo, with the Rev. Morris Elliott, pastor, officiating.

Following a tour of Mexico, including Monterrey, Mexico City and Acapulco, the couple will live in San Marcos, where they will attend Southwest Texas State Teachers College. Both were students at San Angelo College and Mrs. Kincaid was a member of Delta Psi Omega, Phi Theta Kappa, Ramettes, French Club and Little Theatre Club.

She is a graduate of San Angelo High School, and her husband was graduated from Schreiner Institute at Kerrville. At SAC, he belonged to Delta Psi Omega, Little Theatre Club and Concho Aggies. The bride, was given in marriage by her father.

Her gown of tulle and Chantilly lace over white bridal satin was fashioned with long scalloped sleeves re-embroidered with seed pearls. The bodice of lace, in rose-point design, had a bateau neckline of natural scallops outlined with seed pearls. Pannier panels of lace extended into the net overskirt, which was accented with lace appliques at irregular intervals and around the hemline. The skirt fell to a chapel length train.

Mrs. Kincaid wore a fingertip-length double circular veil of French illusion attached to a tiara of pearls and carried a cascade bouquet of white roses and stephanotis surrounding a white orchid. For jewelry, a diamond brooch belonging to the bridegroom's mother, Mrs. T. A. Kincaid, Jr., of Ozona and a single strand of heirloom pearls, gift of the bridegroom.

Bridemaids were Miss Linda Jean Hubbard and Miss Maribel Vogel. Flower girl was Suzanne Arvin, the bride's cousin, and ring-bearer was Cy Baxter of Comanche, the bridegroom's cousin. Groomsman were Pat Wicker and

Joe Wicker, the bride's brothers; Sherrill Arvin, the bride's cousin, and Edward scay of Big Spring, the bridegroom's cousin, seated guests before music by Mrs. Grace Bramel and Mrs. Ray Orrick.

The following reception was in the undercroft of the church.

Ice blue and white decorations were featured on tables Friday night when Mr. and Mrs. Kincaid Jr., the bridegroom's parents, entertained with a rehearsal dinner at the Ranch House.

NEW SHIPMENT Tropical Fish, including such rare specimens as Cardinals, Tetras, Clown Loaches, Bumble Bee Gobies and others. Also have the usual specimens such as Swords, Moons, Molliers, Angels, etc. Hours, 6 p. m. to 9 p. m. week days, 1 p. m. to 5 p. m. Sundays. Aquarium Pet Shop. Phone 67. 1tc

RECREATION NIGHT

Tonight, Thursday, at 8 o'clock, young people of Ozona will gather at the First Baptist Church for recreation night, sponsored by the church. There will be games, entertainment and eats, sponsors promise. All young people are invited.

Esequiel Cervantez, son of Mr. and Mrs. Santos Cervantez, of Ozona, Texas, has enrolled for summer school at the University of Corpus Christi. Summer enrollment has set an all-time high of 244 this year.

New Highway Maps Of Texas Now Available Through Highway Dept.

Austin, Texas — The official highway travel map of Texas, completely redrawn to include 460 towns not shown in previous years, has just been released by the Texas Highway Department, D. C. Greer, State Highway Engineer, announced today. These maps are being dispatched as rapidly as possible to fill a backlog of thousands of requests, and new requests are pouring in daily, Greer said.

Inch for inch, the map — which is possibly one of the most widely known travel guides of the state — gives more travel guidance about the largest state in the Union than any comparable printed matter of such handy size. A new cartographic system employed to produce the 1937 map made possible the addition of thirty per cent more information. Multi-lane highways, farm-to-market highways and state and federal highways are indicated. Key altitudes also are noted, and roadsides parks as well as state parks are indicated. The new map contains more detailed information than its predecessors.

All streams and public lakes of major size are shown, and cities with a population of fifty thousand or more are mapped as a city inset. Color photographs on the back side of the map picture Texas' recreational, industrial and landscape attractions. A running account of Texas history and the state's natural resources, climate, size, recreational facilities and industries are included in the back-side information.

Greer estimated that approximately one-half of the map requests each year come from prospective out-of-state tourists. "Maps are available free," the State Highway Engineer commented, "and they may be secured either by writing direct to the Texas Highway Department, Austin, or to any of the Department's district offices or to the Travel Information Bureaus maintained by the state."

A Tribute . . . To Our Fathers!

There's an old saying that "mother knows best." Well, it seems to us that Father, bless him, should come in for some compliments, too, once in a while. It is true, of course, that upon mother's patient shoulders rests the upbringing of the children. And that is as it should be. But let's not forget that Pa is generally the family breadwinner and it is up to him to pay the bills. When day is done and he comes home, make things as cheery and loving as you can. Have a nice dinner ready. Lay out his slippers and his beloved pipe. Show him how much you love him by being kind and considerate. He may not tell you how he appreciates these attentions. But he will . . . as all good fathers do!

HIGHLIGHTS AND SIDELIGHTS From State Capitol

By Vern Sanford

Texas Press Association

AUSTIN, TEX. — Though still four months off, Gov. Daniel's plan for a special legislative session in the fall is already generating lively discussion around the Capitol.

There is sentiment both for and against.

A "memorandum" was reportedly circulated asking persons to write the governor and ask him not to call the special session. It predicted the bills the governor wants would fare no better than before. A long-time House member was believed to be the author of the memorandum.

But if the session is held, Rep. Tony Koriath of Sherman says he hopes the governor will submit small loan regulation as an emergency measure. Koriath's "loan shark" control bill died in committee last session.

New "States" Formed — While Texas lawmakers take a break, some probable leaders of the future are trying their hands at government in Austin.

They are nearly 1,000 high school students from over Texas who came to the Capital City for Boys State and Girls State. Texas Department of the American Legion and the Legion Auxiliary sponsor the "states" annually as citizenship laboratories for outstanding youngsters.

Participants hear talks by top officials from the governor down, then form political parties, nominate candidates and elect officials of their own.

Aim is to give the students a first-hand understanding of politics and government.

Road Building Speed-Up — Texas State Highway Commission is moving swiftly to take advantage of new laws designed to speed up highway construction.

Weeds Grow —

(Continued from page one)

chickweed, which has leaves covered with minute hooks that sometimes trap small chicks or turkeys.

Many undesirable weeds, in addition to bitterweed have made their appearance in great abundance. Horehound is appearing in record abundance. Sticky floristina, a poisonous plant that seldom gives trouble is also common. Buffalo bur, broomweed, malva centaura and silverleaf nightshade are prevalent.

Many weeds such as bitterweed, tallow weed, and filaree will soon die, and the grass which has been quietly spreading on the moist ground will be much more prominent. Sideoats grama, cane bluestem, green sprangletop and Texas cupgrass is beginning to seed. Curlymesquite, buffalograss, and vine mesquite are working around the clock to cover the ground.

As the summer progresses, with continued moisture, a changing panorama of colorful plants will steadily unfold. Ranchmen should take advantage of this wonderful opportunity to observe and learn their vegetation.

Ozona Lad Takes Six Months Active Service Under New Reserve Law

Fort Leonard Wood, Mo. — Pvt. Augustin D. Luna, Jr., 17, whose father lives in Ozona, Texas, is receiving the second phase of a six-month tour of active duty under the Reserve Forces Act program at Fort Leonard Wood, Mo.

Luna is taking eight weeks of plumber training after having completed basic combat training at Fort Bliss, Texas.

He attended Ozona High School.
