REICH MAY REGAIN S. W. AFRICA

Allred Refuses Aid; Desperadoes to Die

AUSTIN, May 9, (AP).—Governor James V. Allred today refused to interfere with the execution of Raymond Hamilton and Joe Palmer who are scheduled to die in the electric chair at the Huntsville penitentiary immediately after midnight tonight.

A few minutes before the governor's statement the court of criminal appeals had refused to admit a petition for a writ of habeas corpus on the behalf of Hamilton.

Judges F. P. L. Hawkins and O. S. Lattimore ruled that the petition, presented by Hamilton's attorney, Miss Camille Openshaw, was insufficient.

The action of the court and of Allred apparently shut the door to any further delay in the execution of the two men.

Palmer had been resigned to his fate for several days but Hamilton had been clinging to a small hope for clemency after his mother had made a personal appeal to Allred to save the youthful desperado and had received his promise to fully investigate the charges against Hamilton.

The two men were sentenced to death for their part in an escape plot while members of a prison farm gang. Both the men escaped with the aid of Clyde Barrow and Bonnie Parker, since killed, and in the break Major Crowson, prison farm guard was killed.

Hamilton and Palmer were recaptured and given the death sentence in the death of the guard but made a successful break from the death cell in the penitentiary. Palmer was captured soon afterwards in Kentucky but it was several months before Hamilton was retaken near Fort Worth after leading a life of crime over several southern states.

Both men were resentenced to death last month and requested that they be allowed to die at the same time.

Palmer will go to the chair immediately after midnight tonight and Hamilton will follow him 15 minutes later.

The chief argument advanced in the seeking of clemency was that Hamilton did not fire the particular shot that killed Major Crowson.

"The record shows, however," Governor Allred said, "that Hamilton planned and provided weapons for wholesale delivery from the prison farm which resulted in Crowson's death. The record shows that both Hamilton and Palmer fired on the guards."

"When two men embark upon a career of crime or plan a hi-jacking, and some innocent citizen is killed, and the jury assesses the death penalty for both of them, I see no reason why the governor should set aside the verdict."

"The criminal element may just as well understand that murderers, hi-jackers and bank robbers are going to have to pay the supreme penalty if the jury gives it to them. The law has been rammed under foot long enough and human life and property must be made secure."

AMELIA FINISHES FIRST NON-STOP MEX. N. YORK HOP

NEWARK, N. Y., May 9, (AP).—Amelia Earhart, tired but happy, brought her red monoplane across the 3,100 miles between Mexico, D. F., and Newark airport yesterday, making the first non-stop flight from the Mexican capital to the greater New York area.

14 Hours, 23 Minutes

Her face and hands were dirty, but she grinned as she brought her ship to the ground at 9:28:50 p. m. Eastern Standard Time, 14 hours, 22 minutes and 50 seconds after her perilous takeoff from a three-mile runway.

She landed as one of the greatest crowds ever assembled at Newark airport shouted and screamed their cheers and struggled against an inadequate force of 30 policemen, assigned to the field for the emergency.

So great was the crush, so mad was the enthusiasm of the men and women to catch a glimpse of the woman who has conquered two oceans by air and made numerous cross-country flights, that minutes passed before the police could get her safely to a national guard hangar.

George Palmer Putnam, Miss Earhart's husband, said it was "the worst crowd I've ever seen."

The Eleven Living Past Presidents of the WTCC

Bulletin COLONY READY TO RETURN, REPORTS AT LONDON SAY

AUSTIN, May 9, (AP).—The Texas house of representatives today adopted, by vote of 110 to 22, a resolution to give immediate effect to the bill to appropriate \$3,000,000 of state aid for the Texas Centennial.

Sponsors of the bill expected speedy concurrence in the senate.

LONDON, May 9, (AP).—Authoritative sources said today that the Union of South Africa is ready and willing to have Southwest Africa, formerly owned by Germany, returned to the Reich.

The revelation came as representatives of dominions and colonies resumed conversations with members of the British cabinet on questions of Britain's foreign policy.

Authoritative sources, however, emphasized that there could be no official declaration of policy concerning Southwest Africa, made an integral part of the Union of South Africa in the post-war settlement, until Germany specifically raised the question.

The heavy expense of administration and the fact that the white population of Southwest Africa still is mainly of German descent are some of the reasons why the Union is willing to return the colony to Germany.

PREDICT RECORD BREAKING CROWD AT CONVENTION

STAMFORD, May 9.—In the week preceding the opening of the West Texas Chamber of Commerce general convention, confident estimates are being made of a record-breaking attendance. Plainview, the 1935 host city, is making its plans to that end.

Favorable weather over the weekend is thought to have given the convention its final over-the-top push. Timely rains have fallen with some snow—an unprecedented occurrence in May in West Texas—and people are in a joyful and optimistic frame of mind, and their enthusiasm is expected to be translated in an eager overflow crowd at the convention. Program details are "set" and the various contests are at a new high; the convention work committee is already receiving recommended resolutions from over the territory, and four towns, active in the contest, to be the 1936 host city, are busy lining up support. The competing points are Wichita Falls, Brownwood, Amarillo and Fort Worth. D. Cline, president in the year 1933-34, will be master of ceremonies.

Here is the roll of the past presidents in chronology: that is, the place and year of election, the name, and year of death.

Clifford B. Jones, elected at Ranger, 1921.

C. C. Walsh, Brownwood, 1924.

Arthur P. Duggan, Amarillo, 1926.

R. W. Haynie, Wichita Falls, 1927.

Andy M. Bourland, at Fort Worth, 1928.

W. B. Hamilton, at El Paso, 1929.

Charles E. Coombes, at Abilene, 1930.

Houston Harte, at Lubbock, 1931.

Wilbur C. Hawk, at Sweetwater, 1932.

Walter D. Cline, at Big Spring, 1933.

James D. Hamlin, at San Angelo, 1934.

In its 16 years the West Texas Chamber of Commerce has had four other presidents, who have died. In that roll are the names of C. T. Herring of Amarillo, elected at Mineral Wells in 1919; H. P. Brelsford, elected at Abilene in 1920; A. B. Spencer of Crosbyton (later Fort Worth) elected at Plainview in 1922 and re-elected at San Angelo in 1923; and R. Q. Lee of Cisco, elected at Mineral Wells in 1925.

Funeral services for Miss Mary Margaret Mann, daughter of the Rev. and Mrs. W. R. Mann who was killed in a car accident early Tuesday morning are to be held at the First Baptist church at 4 o'clock this afternoon.

Rev. W. J. Coleman, pastor of the First Presbyterian church will officiate, assisted by other pastors.

The girls' quartet of the High School will sing "Prayer Perfect" by Riley-Sisson, directed by Mrs. DeLo Douglas.

Two numbers will be sung by a men's chorus and a woman's chorus.

Pall bearers will be boys who were friends of Miss Mann. Those named are: Bill Gatlin, Jack Godsey, Roy Peters, Ed Worthington, Horace Stravanti, Ed Wesson, Roy Skipper, and Joe Godsey.

SPAIN ADDS NAME TO ARMAMENT RACE

MADRID, May 9, (AP).—The new government of Premier Alejandro Lerroux won a vote of confidence Wednesday, 189 to 22, shortly after it had formally entered Spain, traditionally neutral, in the European armaments race.

A tense Congress, meeting for the first time since Lerroux's former minority Government resigned to be succeeded by another including five members of the powerful Radical coalition, heard the Premier declare the Government plans to modernize and increase the Nation's military power.

Increased armaments are necessary, Lerroux told the Deputies, so the Nation can maintain a strong and sound position in view of the uncertain European situation.

Plans already prepared call for expenditure of 500,000 pesetas (\$68,000,000) in five years to fortify the Balearic Islands and another 200,000,000 (\$27,000,000) for aviation and other improvements.

Twenty-one youths completed their final tests to be inducted as Eagle Scouts.

GREATEST MASS OCEAN FLIGHT BEGINS

NORTHWEST ECTOR WILDCATS REPORT DEPTH PROGRESS

By PAUL OSBORNE

Northwestern Ector county wildcats continue to hold the spotlight of West Texas oil activity, with advanced drilling depths reported for all. Nearest to a verdict is Gulf No. 1 Goldsmith, which has drilled to 4,016 feet in limestone after a gas blow up. The Gulf test is southwest of the North Cowden Pool.

Landreth No. 1 Cowden Heirs, west of the north Ector pool, is drilling lime at 4,000 feet, having had shows of both oil and gas in the last hundred feet, and Landreth No. 1-A Scharbauer, nearby, is drilling salt and anhydrite at 1,525 feet. Empire No. 1 Cummins is reported to be running eight inch casing at total depth of 3,800 feet.

In Andrews county, Wahlenmaier No. 1 Eicker and Goebel has drilled to 1,400 feet and is underreaming ten inch pipe just above that depth, while Humble No. 4 R. M. Means, edge well of the Means pool, is drilling anhydrite at 3,736 feet.

In northern Crane county, Gulf No. 1 McKnight, is reported drilling at 1,975 feet in anhydrite, while farther south, in Upton county, Gulf No. 103 McElroy, deep Ordovician test, is drilling grey and brown lime at 12,631 feet, by far the deepest operation in the world. In eastern Upton county, Humble No. 1 Pollok, another Ordovician test, is fishing at total depth of 4,943 feet.

Winkler county tests promise interesting results within a short time. Sid Richardson No. 1 Walton, which is reported to have drilled the highest lime in the county, is drilling hard grey lime at 2,810 feet showing some oil through the loaded hole. In southern Winkler county, Sun No. 1 Halley, long delayed with a fishing job, is reported about ready to drill plug at total depth of 2,639 feet.

Total depth is reported at 2,907 feet in Byrd and Frost No. 1 Boyd, Reagan county wildcat, which is fishing.

Machine Gunners Rob N. Y. Bank

NEWBURG, N. Y., May 9, (AP).—Five robbers armed with a machine gun held up the Broadway branch of the Highland Quassak National Bank & Trust Co., today and fled toward Pennsylvania with \$15,000 cash.

HOLD LAST RITES FOR J. R. PRATT

Funeral services for James Reece Pratt Jr., 38, of San Angelo, manager of the Texas Production Credit Association, who died Wednesday morning at a Dallas hospital, will be held this afternoon at 3 o'clock at the Weiland funeral home, Dallas.

His brother, W. I. Pratt of Midland, and Mrs. Pratt have been there practically all of the time since the San Angelo man was taken to Dallas April 28 after becoming suddenly ill from a poisoned blood stream.

Mr. Pratt moved to Fort Worth from Stamford in October, 1933, as secretary-treasurer of the regional Agricultural Association. He served in that capacity until he was promoted to regional president. When he left Fort Worth last October he was secretary-treasurer of the credit association, being named president later.

Mr. Pratt was born in Ferris and was graduated from Southern Methodist University at Dallas in 1918. He lived in Ferris until his family moved to Stamford in 1907. After graduation, Mr. Pratt entered the banking business at Stamford.

Mr. Pratt was a member of the Methodist church, was a Shriner and a Mason. He was active in civic affairs.

Survivors are his widow; his mother, Mrs. J. R. Pratt of Stamford; a son, J. R. Pratt III; two daughters, H. F. Pratt, El Paso, and W. I. Pratt, Midland.

TUBERCULAR-FREE CERTIFICATE IS RECEIVED HERE

Certificate No. 78, sent to the county commissioners' court, declaring Midland county to be a "modified accredited area" in the cattle tuberculosis eradication campaign, was received today.

Signed by J. E. Mohler, chief of the bureau of animal husbandry, United States department of agriculture; Dave Nelson, chairman of the livestock sanitary commission of Texas; T. O. Booth, chief veterinarian, and H. L. Kearby, inspector in charge, the certificate declared:

"This is to certify that Midland county has been declared a modified, tubercular-free accredited area by the United States department of agriculture and the livestock sanitary commission of Texas, cooperating."

This certificate is good for three years from May 1, 1935.

The certificate followed completion of inspection of herds on all ranches and farms of the county.

SECRECY PREVAILS AS MANEUVERS BEGIN ON PACIFIC

HONOLULU, May 9, (AP).—The greatest mass ocean flight ever attempted began today when the first of 48 naval planes roared from Pearl harbor for Midway island. It was expected that two hours would be required to get the entire armada into the air for the 1,300 mile flight.

Warlike secrecy enveloped the movement of the planes as they slid down the ramp into the harbor for the sensational entrance into the greatest maneuvers the United States navy ever staged in the Pacific.

The part the planes will play in the maneuvers or where they will go from the Midway island was not disclosed.

PATMAN SPONSORS REFUSE COMPROMISE

WASHINGTON, May 9, (AP).—While President Roosevelt called in Secretary Morgenthau and Frank T. Hines, veterans' administrators, today to discuss the bonus situation, senate supporters of the Patman bill announced that there would be no compromise and they would submit the inflationary measure to the president as it was passed in the senate Tuesday.

PRESBYTERIAN CLUB TO BANQUET FRIDAY

The Presbyterian Fellowship club will hold its monthly banquet at the church Friday evening at 6:45 o'clock. "Food—fun and fellowship" is the slogan for the evening.

A program of music and readings has been arranged under direction of J. Allen Watts, president.

Women of the church will serve the meal. Plates are 50 cents each.

MORE ROOM FOR PLAY

Importance of playgrounds and other recreation centers in American cities is illustrated by the current report of the National Recreation Association.

This report shows that 5,000,000 children used public playgrounds regularly last summer, and that municipal recreation centers for young people and adults were used by more than 1,600,000 people.

The thing to notice is that the facilities we have are not nearly extensive enough. The association reports that 10,000,000 city children are still without playgrounds, and that neighborhood playing fields are only about 30 per cent adequate.

While we are spending public funds on non-profit-making projects, this great need of playgrounds and recreation facilities must not be overlooked.

Cleveland girl who hiccupped for nearly three weeks straight was advised to drink lots of beer. The object seems to be a hiccup to end all hiccupps.

Side Glances by Clark

"Oh, I don't know why your father thinks those freaks should remember him from last year."

The Greatest Deliberative Body in the World

Bollworm Moths Fly From Mexico to Tex.

WASHINGTON, May (P).—Pink bollworm moths flying into Texas from Mexico, a statement issued by the press service of the United States Department of Agriculture says, have been convicted—on circumstantial evidence—of starting infestations in the cotton fields of West Texas. Recent tests by entomologists of the department suggest that these moths travel at almost unbelievable distances through the air.

Silver Streak Movie Has Thrills, Speed

The hair raising thrillers of the Pearl White and Helen Holmes era pale into significance when compared to the modern thriller of the rails, "The Silver Streak," showing Friday and Saturday at Yucca. It shows a train going at an incredible speed with the engineer at death grips in the cab. Around curves it goes, and through switches that open just in time, missing freight trains by an eyelash, over drawbridges that close in the nick of time.

Historical Ass'n to Meet at Brownwood

BROWNWOOD, Tex. (P).—Program for the eleventh annual meeting of the West Texas Historical Association at Howard Payne College Saturday, May 11, has been announced by T. R. Havins of Brownwood, who is in charge of preparations. Chester Harrison, secretary of Brownwood Chamber of Commerce, will welcome the delegates and Judge C. R. Crane of Sweetwater, president of the association, will respond. Among the speakers will be G. C. Boswell of Abilene who will talk on "Rev. J. A. Hyder, Dean of West Texas Preachers," and Dr. Robert T. Hill of Dallas on "Old Comanche Days."

Irving's Still Pounding Away

Song writers may come and go, but Irving Berlin, famed composer whose works have entertained a generation of Americans, seems to go on forever. In Hollywood, after completing a score for a new musical production, he is shown tapping out another, though the going doesn't seem so easy.

The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything). I recently found a pink ribbon in a frankfurter. Did anybody lose a dog that had a pink ribbon on?

The longest line is that between brave talk and a brave deed. A Midland young man was proposing to a Stanton girl when he said: "I love the very ground you walk on." And she said: "So you are trying to get my farm, are you?" And in such manner did another romance blow up.

Every time I try to run away from trouble it goes the opposite direction, passes around the same block and meets me again. It seems that the only way to get rid of trouble is to meet it face to face, and omit running.

I lie for today: "It has been many days since anybody asked me to buy a ticket to something."

You think you are up-to-date, but thirty years from now people will laugh heartily when they gaze upon your 1935 photograph.

Society and Clubs

Fine Arts Club Observes National Music Week Here for 13th Time

Massed roses and other cut flowers in silver bowls and vases gave added appropriate beauty to the reception rooms of the Shipley home, 1501 W. Illinois, where Mrs. John M. Shipley was hostess to a musical tea for the Fine Arts club Wednesday afternoon. The tea marked the club's thirteenth annual observance of National Music Week.

Mrs. Fred Fuhrman and Mrs. E. H. Ellison were included in the houseparty, assisted in serving by Mrs. Joe Hemphill and Mrs. Geo. Abell.

FEMININE FANCIES

BY KATHLEEN EILAND

Roll call was responded to with the name of each member's favorite American or Texas composer. Miss Lydia G. Watson, president of the club, opened the afternoon's program with a talk on the origin and history of National Music Week. This period of special attention to music was conceived by a group of musicians in Dallas thirteen years ago, who pledged themselves to devote one week a year to music. Since that time the idea has become so popular that it is now a national affair.

As the first musical number, Mrs. Fred Wilcox played two selections, "To A Wild Rose" by McDowell and "Remembrance" by Davies, a Texas composer.

Junior guest artist for the afternoon was Isabel McClinton who played "Rondo Capriccioso Opus 14" by Mendelssohn, followed by "Spring Dawn" by Mason, who is called the father of American church music.

Miss Stella Maye Lanham read "Song of the Traffic" by Margaret Bell Houston, grand-daughter of Sam Houston, and "Little Towns of Texas" by Clyde Walton Hill.

Mrs. Roy Parks, who was to have sung "Mockingbird," was unable, because of illness, to be present.

Leading international scope to the series of composers represented, Miss Watson and Mrs. Wilcox presented a duet, "Lustpiel Overture" by the Hungarian musician, Keler-Bela.

Following the program, a tea plate was served to about 45 women.

Each member of the club was permitted to invite one guest. The following club members were present with their guests:

Miss Watson, Mmes. Abell, Elliott, Barron, Paul Barron, Tom Bobo, Alden Donnelly, Fred Fuhrman, Howard Hodie, Harvey Sison, J. M. White, E. Hazen Woods, R. W. Hamilton, Hemphill, Wilcox, Ellison; Miss Lanham and the hostess.

Club guests were Mrs. Geo. Farley and Mrs. John West.

At tea time a salad plate was served to Mmes. Farley and West and the following club members: Mmes. Allison, Sam Ashley, Hugh Corrigan, Elliott Cowden, F. E. Daniel, Hargrave, H. F. Johnson, J. B. Leonard, Don Sivalls, Marvin Ulmer, J. E. Warren, W. E. Wallace, Fred Wright and the hostess.

Many animals besides the camel carry reserve fats on their backs, but in a long, narrow strip, instead of a hump. A caribou may carry a band of back-fat weighing 50 pounds.

Suomi is the native name for Finland.

AS HEART TO HEART

By Helen Welshmer

I LOVE you, dear, nor can I give a reason; I only know your eyes create a spring Sharp, sweet again with eager, quickened rhythm. When they meet mine in new remembering. We do not know why one heart greets another As though an alchemy had made them one In understanding bright as it is sudden— It had been dusk and then there is the sun!

It is as though some force beyond persuasion Had made us recognize a counterpart Of something each had thought peculiar to us, Held in the answer in each other's heart. I love you, dear—Keep this as proof of Heaven: That swinging somewhere out of time and place We two, who ride today on separate journeys, Must walk together in unending space.

Mrs. John Hills Entertains with Dessert Bridge

Mrs. John M. Hills was hostess at a dessert bridge at her home 403 N. Colorado, Wednesday afternoon.

Guests arrived at 1:30 o'clock and were served a dessert course, after which bridge occupied the afternoon.

Four tables of bridge were played. High score went to Mrs. Bert Hemphill and high cut to Mrs. J. G. Crosskill.

Janice Pope Is Honored with Birthday Party

Honoring her daughter, Janice, on her ninth birthday, Mrs. C. P. Pope entertained with a party at her home, 896 N. Loraine, Wednesday afternoon.

A color scheme of pink and white was carried out in appointments for the party and plate favors were dolls and whistles.

Lawn games were played after which refreshments were served to Lou Nellie, Hudman, Jewelline Francis, Billy Don Quarles, Betty Jo McCarthy, Nellie Brunson, Elaine Hedrick, Otelia Flynn, Dorothy Bewley, Helen Connor, Betty Lou Sims, Billy Brown, Glen Harry, Parrott, Billy Midkiff, Robert Louis Musselwhite, Dick Johnson, Charles Reader, and the honoree.

Ngorongoro, in East Africa, is the world's largest volcanic crater. Fifty thousand wild animals live in the crater, the floor of which covers an area of 110 square miles.

Foundations for Beauty Must Be Laid in Childhood

By ALICIA HART
Written for NEA Service

From the time she is born until she reaches the age when cosmetics intrigue her, a little girl's beauty is her mother's problem.

Small children should be taught to brush their hair as soon as they are old and big enough to hold a hairbrush. Prior to that time, their mothers must do it for them.

Have your child use the best and purest soap you can buy. If, after the night, or even the morning, scrubbing, her skin seems dry, smooth on a bit of good tissue cream, leave it on for a few minutes and then remove with soft tissues.

Teach your daughters and sons to push back the cuticle around their nails each time they dry their hands on a towel. Show them how to brush their teeth up and down as well as across. And make sure that their visits to the dentist are regular.

More than 1500 people have written biographies of Lincoln.

Make a game, not a duty of cleanliness. The child who is taught to enjoy a daily bath and other good-grooming routines will form fine habits that will be invaluable all of his life.

FAMILY VISITS

Mrs. Howard Mays of Denton is visiting her husband, Midland attorney. With her are her son, Glenn Mays, and daughter, Helen Ruth. The party arrived Tuesday night and plan to spend a week or more here.

Wheat Farmers Vote On 4-Year Program

LUBBOCK, May (P).—Wheat farmers of Lubbock and other plains counties will vote Saturday, May 25, on a question of a proposed four-year program for wheat production.

Farmers who signed wheat acreage reduction contracts and others eligible to do so may vote, said C. E. Carter, assistant chief of the wheat section of the Agricultural Adjustment Administration.

"The AAA wants to know what the wheat farmers of this plains country and the nation think of the wheat program of the administration," said Carter, a former University of Missouri agronomist who has been in Washington most of the time since the AAA has been functioning.

"Unless the farmers endorse the wheat program with a clear mandate for continuation the government will probably not continue the wheat adjustment."

"In general the new contract will be similar to that of last year excepting that it will cover a four-year period with an option that it may be discontinued at the end of two years if the farmers decide. There is a proviso that 25 per cent of the farmers of any area can

petition at the end of any year for a referendum and if a majority so decide, do away with the program for that area.

"The reason we have an option at the end of two years is that we want to balance the books at the end of two years and see how we stand and whether the base period, 1928-32 inclusive, is right."

"We are working on a regional contract idea for the new contract. If it can be done the regional contract idea will be incorporated into the new contract."

"The maximum reduction allowed for fall planting will be left to the secretary of agriculture but it will not be more than 25 per cent. The reduction will be determined by the amount of wheat available," he said.

PERSONALS

Mrs. Rolley Williams of Odessa is in town today.

James Kenney is able to be out on crutches after spraining his ankle at the Rotary Round-Up.

Among Odessa people who were in Midland yesterday were: Mmes. Barnard Hendricks, Carl Aiken and

Imogene Mahatka. Mrs. E. G. Rodman of Odessa, her mother, and grandmother were visitors here Wednesday.

Mrs. R. T. Germany and Mrs. Geo. L. Nelson are in town today from Odessa.

Cork legs are made of wood, metal, leather, or strong canvas, not cork; they receive their name from Dr. Cork, inventor.

GAS, INDIGESTION

If you're troubled with stomach distress, gas, and you need redder blood, try Dr. Pierce's Golden Medical Discovery. It is a dependable tonic.

L. F. English of 1537 W. 24th Place, Tulsa (West), Okla., said: "A few years ago my stomach troubled me. After eating, I would belch gas and my food seemed to sour. At times I had cramps in my stomach that made me miserable. I never felt like eating and had no pep. I used Dr. Pierce's Golden Medical Discovery and it certainly did the trick. It rid me of the stomach distress and I felt like eating, for a change."

New size, tablets, 50 cts., liquid, \$1.00. Large size, tabs. or liquid, \$1.35. All druggists.

"Eyelaxation"

WHY THESE LAMPS GIVE YOU BETTER LIGHT . . .

1 Reflector is translucent and lets through the proper amount of soft, glareless light to eliminate eyestrain and make seeing easier.

2 Glass reflector throws light upward and provides a soft general illumination throughout the room to reduce contrasts.

3 New three-way lamp globe with three lighting intensities at the snap of a switch . . . 100, 200 and 300 watts from the same globe.

4 Shade is lined with light-reflecting material to give the maximum illumination for reading or studying.

5 Shade is wide enough to distribute light over the entire working area. You can read normally without leaning to get under the light.

READING STUDY LAMPS \$6.95

Reading-Study lamps are available in several styles, but all have the distinguishing features of a scientifically designed lamp to give adequate illumination and protection from glare. Try one of these lamps tonight and you'll be convinced that they decrease eyestrain.

FLOOR MODELS \$8.95

Floor lamps of similar design also use the same principles of proper lighting. Both indirect and semi-indirect lamps supply a general room illumination and also glareless light for reading or studying.

Science has long recognized the need for better lighting . . . lighting that is adequate to protect the eyesight of every person who does visual work. For years illuminating engineers have designed, tested, experimented with various types of lighting fixtures. Lamp designers worked for many months to build into a single lighting unit all of the sound principles of proper lighting set down by the scientists.

Now . . . they present this revolutionary improvement in lighting . . . a new principle in lamp design that will aid you in caring for your eyesight. Look for the Illuminating Engineering Society's tag of approval which is your assurance that the lamp you buy is up to modern specifications.

TODAY'S NEWS IN PICTURES

Peace and Plenty Prevail in the Rich Matanuska Vale

This Is the 'Bleak' Northland!

'The Mayflower of 1935'

Bountiful crops in shock and stack here attest fertility of the region in which 200 midwestern families hope to find peace and plenty as farmers in the rich

Matanuska valley of Alaska. In the flatlands of this section, in soil of silt, loam and sand, under laid with gravel, grains, vegetables and fruits thrive. Hills which roll

up from the lower-lying farms are covered with birch and spruce timber, and rivers and lakes nearby provide excellent fishing. Each family is given 30 years to pay the

\$3000 cost of its farm to the government. The colonists are from Minnesota, Michigan and Wisconsin.

With flowers blooming in riotous profusion, a bumper crop of vegetables in his garden, and even seedlings taking root on the roof of his snug log cottage, this

colonist must smile at references to "bleak" Alaska. The scene is typical in the district of the Matanuska valley, where sturdy mid-west farmers are "colonizing."

In future years, settlers in the Matanuska valley in Alaska will tell of their voyage to the north-land in the "Mayflower of 1935"—the army transport St. Mihiel,

shown above. The ship was placed at the relief administration's disposal to carry the mid-western colonists to their new land of hope.

Dam Stores Vast Lake on the Upper Pecos

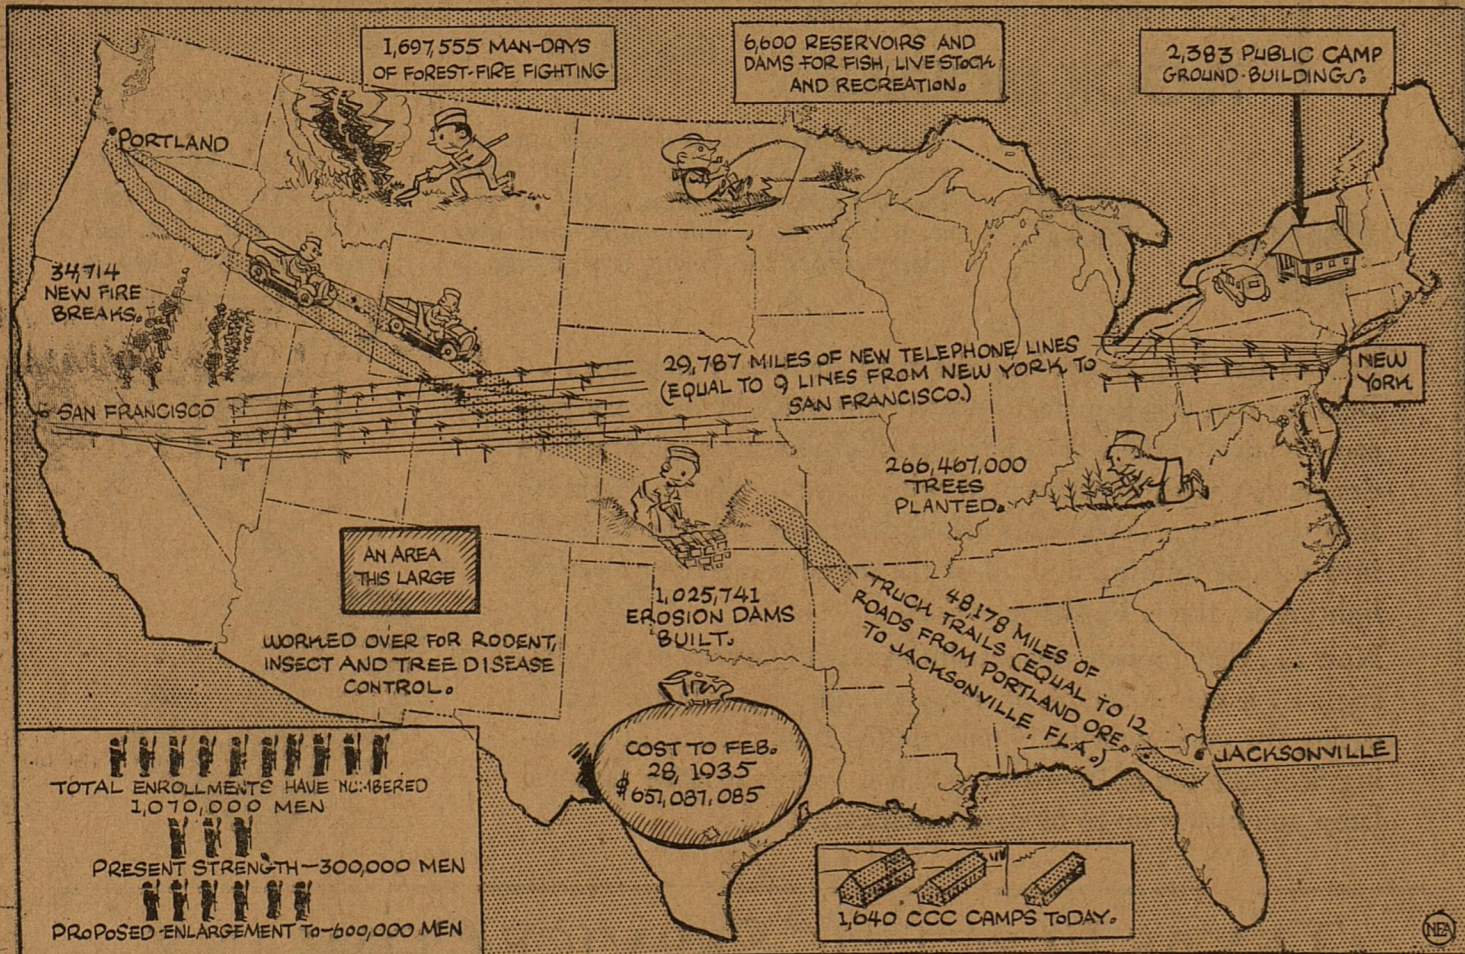

Part of the arid plain of eastern Arizona will have water now that the dam across the Pecos at Fort Sumner has been completed as Works Administration (PWA) vast lake. This unusual type funds, has already stored the waters of the upper Pecos into a

HOW DUST BLOTS OUT WORLD AS INKY PALL ROLLS UP

Black ruin billowing up out of the southwest's great dust bowl here rolls slowly over the Panhandle town of Pampa, Tex., a suffocating wall of dust shutting out daylight and moving on to wreak havoc on the sparse crops remaining in the blighted district. Like an impenetrable screen of smoke it appears in this remarkable picture, with buildings standing out in relief against the inky blackness. Rain has brought some hope to the stricken area, but over a vast zone the pall has left devastation in its wake, with scores of cases of pneumonia aggravated by the choking dust.

WHAT CCC HAS ACHIEVED IN TWO YEARS

Immediate enlargement of the Civilian Conservation Corps (CCC) from 300,000 to 600,000 young men calls attention to accomplishments of the first two years of CCC work. Here, based on official reports of Robert Fechner, director, is a graphic representation of some of the definite things done by the CCC, mostly in the nature of permanent improvements, total value of which Fechner estimates at more than \$335,000,000 to date. In addition, more than 3,000,000 dependents and families of CCC men have benefited by the money sent home by the 1,000,000 CCC men on the job at various times. With two years of "know-how" behind them, Director Fechner believes this summer's 600,000 men will be able to produce works of even greater permanent value.

Child King Is Somber Figure

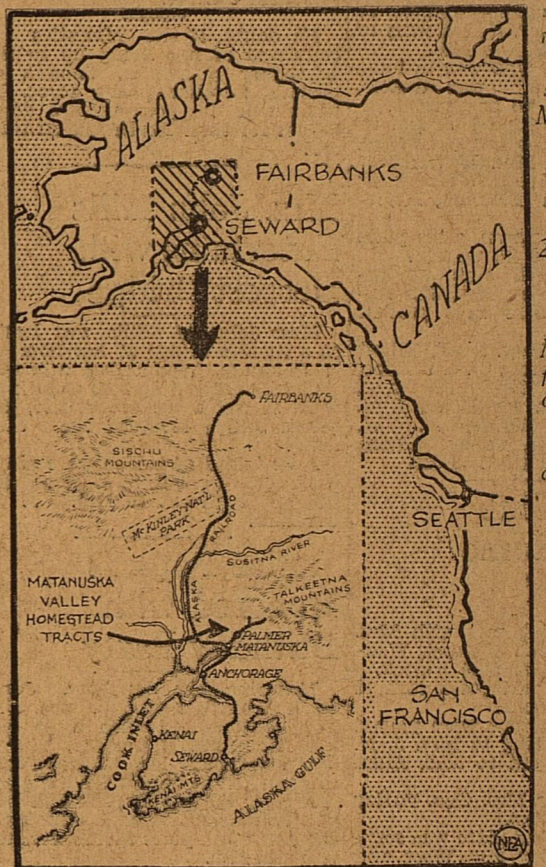

With troubled, wondering eyes, King Peter II of Yugo-Slavia, gazes out from this painting, just hung in the Parliament house at Belgrade, capital of the land over which the 11-year-old lad rules, under a regency. A somber figure despite his boyishness, he stands with sword in hands, his chest ablaze with decorations of royalty.

Shows Job's Toll

On a holiday—but bowed by his official cares, Premier Ramsay MacDonald of England, vacationing at Eastbourne, was caught in this informal pose while out for a stroll. The toll taken of his vitality by years of public service is clearly revealed.

Haven for 200 midwest families making a new start in life, the Matanuska valley, shown on this map, is warmed by the Japanese current and has 20 hours' sunlight daily during the three-month growing season. New Deal plans provide 40 acres of good soil, comfortable house, livestock, tools, and seed for each family. The Alaska railway traverses the whole valley, markets are available for grain and milk products in Anchorage, Seward, and Fairbanks, and no farm is more than seven miles from Palmer, center of the community.

Chief Pilot Mussolini Goes Aloft

Here is another bit of evidence of the versatility of Premier Benito Mussolini of Italy, who holds, in addition to the portfolios of several cabinet posts, the rank of chief pilot of the Italian Air Forces. An expert aviator, he frequently flies unaccompanied. He's pictured above at the controls in flight.

Twins Reunited After 25 Years

Twins separated since a short time after birth, when both their parents died, are reunited here, after 25 years. Henry E. Walter and his sister, now Mrs. Milton Rose, of Cleveland, O., smile their joy over meeting again, after Walter had searched for four years through Humane society files for the name of his sister. They had been adopted by different families.

Hold High Hopes for 1935 Stratoflight

In the hands of this trio lie scientists' hopes for learning new secrets of the stratosphere in the flight to be made in June from the South Dakota Black Hills. Capt. Albert W. Stevens, center, who will command the 1935 flight; his pilot, Capt. Orvil A. Anderson, left; and their ground officer, R. P. Williams, right, are shown at Akron, O., where they are supervising construction of the 3,700-foot bag that will carry the gondola into space.

SOUTHERN ICE TANGLES WITH BIG SPRING TEAM TONIGHT AND GULF AND HARDWARE CLUBS MEET FRI. NIGHT

A. & M. Engineers Day Sat., May 11

COLLEGE STATION, Tex. (U.P.)—A wide variety of spectacular electrical displays, including a miniature volcano in eruption, will feature the annual "Engineers' day" program at Texas A. & M. College Saturday, May 11.

The students also will show the practical side of their work in demonstrations of cloth weaving, soil erosion prevention measures and engineering design. Many commercial firms will have special exhibits.

H. K. White of Eastland, senior mechanical engineering student, is chairman of the general program committee. Other committee members are: J. W. Sorenson of Corpus Christi, agricultural engineering; G. R. Rogers of Hearne, architecture; C. M. Dempwolf of Cleburne, chemical engineering; R. W. Russi of Houston, civil engineering; Richard Roderick of Dood City, electrical engineering; J. M. Wilson of Lubling, petroleum engineering; and G. H. Froebel of San Antonio, textile engineering.

WATCH KIDNEYS SAME AS BOWELS

Wash Out Your 79,200 Feet of Kidney Tubes
 Your bowels contain only 27 feet of intestines, yet the kidneys contain nearly 10 million tiny tubes, each of which would measure 79,200 feet if laid end to end. Therefore, it is just as important to watch the kidneys as the bowels. Kidneys are working all the time and are one of Nature's chief ways of taking the acids and poisonous waste out of the blood.

Healthy persons pass thru the bladder 3 pints a day and get rid of more than 3 pounds of waste matter. If you pass less than this, your 79,200 feet of kidney tubes may be clogged with poisonous waste. This is a danger signal and may be the beginning of nagging backache, leg pains, loss of pep and energy, getting up nights, swollen feet and ankles, rheumatic pains and dizziness.

Kidneys should be watched closely and need cleaning out the same as bowels. Ask your druggist for DOAN'S PILLS, an old prescription, which has been used by millions of kidney sufferers for over 40 years. They give happy relief and will help to wash out your 79,200 feet of kidney tubes. Get Doan's Pills at your druggist. © 1934, Foster-Milburn Co.

Foreign Relations Wins Dallas Race

Foreign Relations, veteran bay gelding from Midland running under the Paul Harvey colors, won the first race on yesterday's program at Fair Park, Dallas, beating a field of ten horses in a seven furlong heat.

Well up from the start, the bay son of Sweep—The Baroness responded well hearing the final quarter, reached the lead in the stretch and finished under good pressure, according to The Dallas News.

The winner's share of the \$500 purse was \$375. He paid \$12.90 on a \$2 ticket in the mutuels and, coupled with Northern Spy in the daily double, paid those fortunate ticket holders \$845.60.

Trained at Cowboy park track here by his owner, Dr. Wm. Bloss, the aged gelding was in his first race at the Dallas meet yesterday. Bull Boy, three year old chestnut colt in the string of five from Midland, owned by John Henry Dean, had run out of the money twice.

Little Micky and Still Better, Paul Harvey geldings and Mr. Goal, Kentucky filly owned by A. C. Francis, had not yet been started by Harvey and Bloss.

Rotarians, Anns, Mothers at Lunch

Rotarians, Rotary Anns and their mothers met informally at a luncheon today in the Crystal ball room of Hotel Midland.

Mrs. Foy Proctor sang a solo dedicated to the mothers, there being no speaking or other numbers on the program.

Resolutions were voted expressing appreciation to Ed R. Bentley and wife of Lakeland, Fla., for their visit to Midland as official representatives of Rotary International during the conference just closed here.

Expressions of regret were voiced on account of the death of J. Reece Pratt, brother of W. I. Pratt, secretary of the Rotary club, and of Mary Margaret Mann, daughter of Rotarian W. R. Mann.

New members and their wives, including Mr. and Mrs. Lester L. Grant, Mr. and Mrs. O. A. Thomas, Mr. and Mrs. Drue Dunn and Mr. and Mrs. O. H. Jones were introduced. Visiting Rotarians present were Pat Patterson of Mexia and Mr. and Mrs. Given Bradley of Gainesville. Other visitors were Mrs. E. Hazen Woods and Miss Phyllis Haag of Midland and Mr. Ross of Abilene.

Mothers of Rotarians or Rotary Anns present included Mrs. W. W. Wimberly, Mrs. J. H. Barron, Mrs. C. R. Fryar and Mrs. Goss.

Mrs. Billy Thompson Leaves for Amarillo

Mrs. Billy Thompson of Odessa, who was injured in a car wreck which took the lives of her husband and Miss Mary Margaret Mann near Midland early Tuesday, left a Midland hospital last night for Amarillo where funeral services for her husband will be held.

Mrs. Thompson made the trip by rail and was accompanied by her mother. Her father and a brother who had also been at her bedside returned to El Paso.

W. D. Ruffian, fourth victim of the accident, but less seriously injured than the others, is still in a hospital here.

197 TOWNS ENTER WTCC DELEGATES

PLAINVIEW, May 9.—Responses from the one hundred and ninety-seven affiliated towns indicate a large and enthusiastic attendance for the seventeenth annual convention of the West Texas Chamber of Commerce, Plainview, May 13-14-15. It was stated today by J. A. Rix, convention manager. Rix has been in Plainview for the past several weeks in charge of the headquarters office for the convention.

At this time, about one week before the convention, delegations are writing in daily requests for reservations, more local directors have been nominated, more bands have reported they will be present, and more entries made in the Foster contest than in previous years.

New entries are coming in by every mail for the "My Home Town", Quartet and Beautification contests, and sponsors to La Fiesta are being named rapidly. It is expected that entries in all these competition features will exceed totals in previous years by convention time.

Already 135 directors have been nominated, and more than sixty have sent in their written acceptances to allow their names to go up for nomination. Fifteen bands have already reported they will be present; thirty-nine towns have entered the Poster contest, and forty-six towns have stated that they would have representatives to the "My Home Town" contest, always a feature of great interest at the convention.

Rix also said that the program is practically complete, with able speakers to discuss the most timely topics of interest at this time in the three group conferences, Agriculture, Taxation, and Territorial Development.

Governor James V. Allred and Judge James D. Hamlin of Farwell, president of the West Texas Chamber of Commerce, will be the speakers at the Tuesday morning assembly. The Governor's visit will be climaxed in the Governors' party Tuesday night, to which Governors Clyde Huxley of New Mexico and E. W. Marland of Oklahoma have been invited. Walter D. Cline of Wichita Falls, past president of the Chamber, and now general chairman of the Central Committee, will be in charge of this party.

Registration Fees
 Registration fees for the convention have been set at \$1.25. It was announced at convention headquarters today. This fee covers admission to six dances, three on each night, Monday and Tuesday; two nights of La Fiesta, Monday and Tuesday; the rabbit and greyhound races two afternoons; the Governors' party on Tuesday night with supper included; general assemblies on Tuesday and Wednesday; and Group Conferences on Monday and Tuesday afternoons.

Wellesley Girl Bought Truck

WELLESLEY, Mass. (U.P.)—Wellesley College officials who passed a regulation permitting seniors to have automobiles during their last term at college, didn't figure on Miss Antoinette (Texas) Sharp of Dallas, Tex., senior. Miss Sharp went out and got herself a truck large enough to carry six horses. She has four horses of her own and personally looks after them daily. "Texas" Sharp plans to drive the van to Dallas after commencement in June.

California Tourists Increase

SAN FRANCISCO, (U.P.)—Automobile tourist arrivals in San Francisco and Northern California have increased for the 19th consecutive month. Californians, Inc., announced. For the first three months of 1935, approximately 97,089 tourists checked here, an increase of 36.5 per cent.

Plans Longest Solo Ocean Hop

A 4500-mile hop from New York's Bennett Field to Kauai, Lithuania—which would be the longest solo flight ever made—is planned by Felix Waitkus, above, 25-year-old Kohler, Wis., aviator. With five years' flying experience, Waitkus intends to take off on the trans-Atlantic "good will" venture in May or June.

NORTH WARD WILL PRESENT PROGRAM

Inaugurating the series of commencement exercises, North Elementary school will present its closing program of folk dances and operetta at the high school auditorium Friday morning and night.

Because of limited seating capacity, the program will be given at 10 o'clock Friday morning for school children. The evening program opening at 7:30 o'clock will be given for all parents and the general public.

Following a varied program of folk dances, the "Honey Pirates" will be presented. The operetta music was composed by G. A. Grant-Schaefer and the Libretto by Theodosia Paynter. Mrs. Van Camp is director.

The most varied costumeing we have ever had" is the way in which Mrs. Alma Thomas, principal of North Elementary school, describes the colorful appointments for the program.

The public is invited to attend the evening presentation.

13 Wimberly Pupils To Present Recital

Thirteen music pupils of Wallace Wimberly will be presented in a recital at the Baptist church this evening at 7:45 o'clock. Those taking part on the program will each play two of the four or more selections which they will play before a national judge in the National Piano-Playing Tournament sponsored by the National Piano-Teachers' Guild Inc. at Abilene Saturday.

Numbers will be given by: Anna Beth Bedford, Nelle Ruth Bedford, Jane Butler, Louise Cox, Jane Hill, Charlotte Kinsey, Frank Nixon, Billy Graves, Noble Joan Proctor, Reynour Schneider, Mary Beth Scruggs, Pady Sue Whitcomb, and Georgene Bullock of Stanton.

Fire Exploded Dynamite

GOLDFIELD, Nev. (U.P.)—George H. Howard, and Noel Kitchen, prospectors, built a fire on a mining claim they had been working to warm themselves. When the flames burned low there was a sudden explosion. Howard lost the sight of both eyes. Kitchen suffered facial injuries. Investigation disclosed they had built the fire over an abandoned dynamite cache.

CWA workers discovered two Indian villages on the shores of dry Buena Vista lake, California; one of the villages is reputed to be 1900 years old.

If she won't give you a hint ... we will ...
A NELLY DON
would be her choice
MOTHERS' DAY GIFT

A special showing of Nelly Don Summer frocks...picked especially for mothers of every size and type.

Above—Young-looking and wearable whether she's a size 16 or 44. Chiffonell, a new Sanforized and crease-resisting sheer with shirred shoulders and bright chiffon belt scarf. Green, brown or navy. \$5.95

Center—Surprise her with a crease-resisting voile. Soft tie and sleeves with touches of white trim. Monotone print in black, green, or navy on white. Sizes 16 to 44 ... \$3.95

Left—If she does on sleeves here's a perfect find ... cool dark dotted voile ... with soft white tie that slips out for washing. Navy, green, brown. Sizes 16 to 44 ... \$2.95

Balmy days are here again

Tune up for Summer driving with Magnolia's famous 7-POINT Service

SUMMER-IZE YOUR CAR NOW

SUMMER is just around the corner ... you can feel it in the air. Now is the time to check up on the things your car needs for smoother, more enjoyable summer driving.

Read the 7 POINTS included in Magnolia "SUMMER-IZE" Service. Notice how thoroughly your car is prepared for hot weather. Visit your neighborhood Magnolia Dealer or Station today. You'll get world-famous Mobil-Products, plus intelligent, friendly service.

Here's what "SUMMER-IZE" Service means ...

- 1 Drain off dirty winter grade oil and refill your crankcase with new SUMMER MOBILLOIL, made by the Clearsol Process.
- 2 Drain off winter transmission lubricant, clean thoroughly, refill with tough, heat-resisting Mobil Gear Oil for summer driving.
- 3 Drain, clean and refill differential with correct chart grade of Mobil Gear Oil.
- 4 Mobilubricate car thoroughly, using special Mobilgreases as approved by your car manufacturer.
- 5 Drain off anti-freeze solution and clean radiator thoroughly, using Mobil Radiator Flush if necessary.
- 6 Check battery and fill with distilled water; remove corrosion and grease terminals.
- 7 Fill gasoline tank with Mobilgas, now adjusted for summer driving.
