Flying Twin Plane To the Famous Winnie Mae

By PAUL OSBORNE

Wiley Post, famous globe-girdler and stratosphere aviator, flying as a passenger with Frank Phillips, president of the Phillips Petroleum Corporation, in the Phillips Lockheed Vega plane piloted by Billy Parker, landed briefly at the Midland airport this noon.

Returning to Bartlesville after a fishing trip to the west coast of Mexico, the party set down at Midland to refuel and obtain weather reports while Mr. Phillips visited representatives of the company here. The Phillips Lockheed Vega is almost a twin plane to Post's famous Winnie Mae in which he circled the world alone and in which he has been attempting to set a new stratospheric record flying in the stratosphere. Post today said that he plans another stratosphere attempt in the near future, though he has set no date as yet.

The ship took off from here at 1:15 p. m. bound for Bartlesville, Oklahoma, if weather conditions permit.

SAYS AMERICA IS READY TO ACT ON STABILIZATION

WASHINGTON, May 14. (P).—A notice to the world that "Washington will not be an obstacle" to international currency stabilization was couched by Secretary Morgenthau last night with a warning that this nation will not act singly to peg the dollar.

In a nationwide radio address—awaited intently by business and financial interests as one of the administration's infrequent statements of its money policy—the treasury secretary summed up his argument in these words:

"Why should we be singled out and admonished that the moral duty to restore order is primarily ours? Before we make any commitments, we must be sure that we will not lose what we have just regained."

"We are not unwilling to stabilize. However, if the great trading nations elect to continue under the present absence of rules we are no longer at a disadvantage. We revalued our currency no more than was necessary and we can go either way. Our hands are untied."

RAINS AID RANGES TO SOUTH

Tydings Rakes Long's War Record

Newest of Huey Long's Senate antagonists is Senator Millard E. Tydings, above, Maryland Democrat, who hurled a scorching challenge at the Kingfish to justify his World War record, after the Louisiana had alluded to the war work of President Roosevelt as assistant secretary of the navy at \$10,000 a year. Tydings, a veteran, angrily warned Long that he might face something besides a verbal argument. Long did not serve in a military capacity during the conflict.

Another Shower Hits Midland Vicinity Early Today

Ranch and farm areas principally to the south of Midland received rains early today, touching some sections on which grass and weed growth had been at a standstill for months.

The precipitation at Midland was only .18 of an inch, added to a quarter of an inch which fell Sunday night. The army airways station reported .27 of an inch this morning, added to .02 of an inch Sunday night.

Coming from the south, the shower this morning did not extend far to the north of the city limits, reports said.

On the Midkiff ranch, where the peak of the precipitation apparently was reached, it was reported that from three to five inches fell. The Rutt, Youngblood, Bryant, Brunson and Francis ranches were reported to have had rains of as much as an inch. The draw near the road to the Rutt ranch was reported standing in water.

Farms toward Midland received good showers, the precipitation becoming lighter as it approached the city.

Wink had a shower and Odessa a "good rain," reports to utilities companies said.

The forecast for West Texas, received this morning, was for probable showers tonight and Wednesday.

No rain was reported at Fort Stockton, Rankin or McCamey today. Grand Falls reported a shower sufficient to settle the dust.

OPERETTA AND FOLK DANCES TO BE PRESENTED BY SOUTH WARD SCHOOL

Second in the series of operettas featuring graduation exercises for the city schools, "The Magic Bowl" will be presented by the South Elementary school at the High School auditorium this evening at 8:00 o'clock.

Preceding the operetta will be a group of folk dances by first and second grade pupils at 7:30 o'clock, and a brief program of declamations and music by older children.

Synopsis of the operetta, list of characters, and program will appear in Wednesday's issue of The Reporter-Telegram.

WTCC CONVENTION DISCUSSES FARM PROBLEMS; DIRECTORS ARE ELECTED

PLAINVIEW, May 14. (P).—The West Texas chamber of commerce in convention here Monday vigorously attacked acreage control legislation but endorsed the general purpose of the agricultural adjustment act.

Urged by McDonald, directors of the regional organization approved a resolution urging that acreage control measures be abandoned in favor of Congressman Martin Dies' unlimited domestic allotment plan "enabling cotton farmers to be given a subsidy of at least 10 cents a pound of that portion of their crops consumed domestically and to sell as many bales as they desire on the world market."

J. E. McDonald, state commissioner of agriculture, characterized the Dies plan as one offering the greatest good of any legislation proposed in many years.

Attendees at the conference heard Congressman Dies, who represents the second Texas district, speak from Washington on a radio network. He urged the West Texas chamber to "assume an active and vigorous part in this great movement to prevent an economic dictatorship."

R. C. Hopping of Lubbock, member of the state planning board, discussed what he termed the "inequalities of the Bankhead bill." He said the measure hampered new development by not allowing new land to be put into cultivation. It reduces the cash crop of the diver-

Former Arabian Warrior Injured

WOOL, Eng., May 14. (P).—Col. T. E. Shaw, famed as "Lawrence of Arabia," still was unconscious today as a result of an accident last night in which his motorcycle crashed into another cyclist. Shaw was thrown a hundred feet by the impact.

The celebrated figure of Arabia's wartime history was reported to be "holding his own," but he had a fractured skull and his condition was regarded as "very serious."

Local Home Town Speaker Is "Up"

With 34 of the 58 My-Home-Town speakers eliminated and four of the six finalists selected, C. A. Goldsmith, Midland entrant was scheduled to be in the remaining list of speakers beginning at 2 o'clock this afternoon.

Of the remaining 19 to speak, two were to be selected for the finals. The Midland speaker was pitted against Parson, Tahoka, Quilaca, Ralls, Brownfield, Stamford, Post, Floydada, Lamesa, Pampa, Vernon, Memphis, Olney, Haskell, Crowell, Seagraves, Big Spring, Hamlin, Quanah, Rotan, Sweetwater, Shamrock, Seymour, Santa Anna and Portales, New Mexico.

Towns eliminated up to that time were: Sudan, Lubbock "winner last year," Muleshoe, Lockney, Anton, Tulia, Silverton, Amarillo, Oton, Parson, Tahoka, Quilaca, Ralls, Brownfield, Stamford, Post, Floydada, Lamesa, Pampa, Vernon, Memphis, Olney, Haskell, Crowell, Seagraves, Big Spring, Hamlin, Quanah, Rotan, Sweetwater, Shamrock, Seymour, Santa Anna and Portales, New Mexico.

Grateful Homeland Honors Byrd

Gratitude of the nation to its foremost explorer was expressed in the firm handshake extended to Rear Admiral Richard E. Byrd by President Roosevelt as the intrepid Virginian led his Antarctic crew ashore in Washington at the end of their two-year expedition.

The smile that flashed across Byrd's face reveals his happiness at being "back home."

Resting at the wharf in the Potomac river at Washington, the sturdy old icebreaker Bear of Oakland is shown, with the U. S. marine corps band and a marine detail lined up before her, as Rear Admiral Byrd and his crew came ashore in the capital.

SENATE REFUSES TO INVESTIGATE FARLEY CHARGES

WASHINGTON, May 14. (P).—The senate today refused to investigate Postmaster General Farley, as proposed by Senator Huey Long. The vote against the investigation was 62 to 20.

The Louisiana solon had charged Farley with seven specific acts of alleged wrong doing, including the use of his influence to change government contracts with private firms and of benefiting indirectly through public works jobs.

Chairman McKeller of the post-office committee asserted that Long was "trying to destroy the character of a man who doesn't agree with him."

Geologists Will Hear Dr. Sellards

Dr. E. H. Sellards, of the bureau of economic geology, will be the principal speaker at the monthly meeting of the West Texas Geological society, to be held at the Crystal ball room of Hotel Scharbauer here Saturday night.

Dr. Sellards will present a paper on "Stream Terrace Deposits." Plans for a proposed field trip to the Marathon Uplift region early in June will be discussed. The meeting will be at 7:30 o'clock Saturday evening.

By PAUL OSBORNE

Flush initial production of 563 barrels per day in Maxwell No. 2 Daugherty has extended the southern limit of the Sayre pool another location southward according to reports here.

The new producer is located 930 feet from the south line and 330 feet from the east line of section 11, block 26, public school land, a location west and south of Sayre No. 1. Howe, discovery well of the north Winkler sand pool. The field now has a mile and a half north-south extent and at present is four 330 locations wide, although drilling wells may extend both dimensions.

In northwest Upson county, Baldridge No. 1 Sweetie Peak, wildcat location, was reported drilling this morning at 4,330 feet in anhydrite.

Calles Rules Mexico From Behind Scenes

This is the third of four stories on what's going on in Mexico, written by an American newspaperman with years of intimate knowledge of Mexican affairs, who has just returned from a study of conditions there.

By NEA Service

EL PASO.—President Lazaro Cardenas of Mexico started his term last December in a blaze of glory. His inauguration speech laid down a complete and progressive program. His first important act was to stamp out gambling. In doing it, he closed the huge and enormously profitable casinos generally believed to have been owned by his predecessor, General Abelardo Rodriguez, and General Plutarco Elias Calles and their associates.

For two glorious weeks he was a popular hero. The people were saying, "He will end 'callismo' drive out the old revolutionaries who have betrayed the revolution, will really put into effect the revolutionary program."

But the fire seems to have gone out; the rebellion against Calles to have ended.

There is no doubt as to Cardenas' sincerity, his desire to aid the people but there is considerable question as to his ability to do so.

Now the people are singing a parody of a popular tune which warns "Lazarito" that he "will soon be shown the door by Calles."

"Down with Calles" will find a majority of the country united behind him and against this latest in a long series of dictators who have controlled Mexico.

The Calles group is not unprepared for such eventualities. In Abelardo Rodriguez they have the man who could step in at any time. Hard-boiled and direct in his methods, trained in business in the United States, Rodriguez is the most popular of the group of wealthy generals and politicians headed by Calles.

Rodriguez Has Power

He has frequently reiterated the statement that he does not want anything more to do with politics after his two years as president, but regardless of his desires the politicians and generals are not inclined to let him alone.

He stands the best chance of any one man, in the opinion of political observers, to take over control of the country.

There are two other generals who are probably credited with being powerful enough to overthrow the Calles group if they determined to do so. These are Juan Andres Alamazan, military commander of Nuevo Leon, and Saturnino Cedillo, boss of the state of San Luis Potosi and acknowledged leader of the organized agrarians of the nation.

Reported to be unfriendly to Calles and Cardenas, they are considered enemies of the radical policies of the present government.

FIVE WOUNDED IN GUNSHOT BATTLE WITH TROOPERS

United Workers and New Union Group Begin Clash

WILKES BARRE, Penn., May 14. (P).—Five men were taken to hospitals today suffering from bullet wounds and 15 others were suffering from lacerations and lesser injuries after a mine riot at Nottingham Colliers.

After weeks of comparative quiet, bitterness resulting from the strike called by the United anthracite miners developed into the worst disorder since the new union attempted to throttle operations of mines several months ago.

Five men were shot when state police clashed with a group of several hundred new union pickets who were attempting to prevent members of the United mine workers from entering the mine. Shots were fired by the troopers in self defense.

CHEVROLET AND FISHER STRIKERS RETURN TO WORK

CLEVELAND, May 14. (P).—Union employees of the Fisher Body company's plant here cast a unanimous vote today to return to work and return to work, Oliver Haydenreich, vice president of the union, announced.

Company officials declined to comment on the vote but it was understood they were planning to reopen the plant which normally employs 9,000.

The three week strike of the Chevrolet Auto Co. plant in Toledo was ended today and plant officials moved quickly to return to full speed production. The Fisher plant here had been closed by the company because of shortage of transmissions for Chevrolet automobiles as result of the strike of union workers in the Chevrolet transmission factory at Toledo.

ITALY READY TO TALK SETTLEMENT

ROME, May 14. (P).—Premier Benito Mussolini, in an unexpected speech before the senate on the Ethiopian crisis today, declared Italy is "ready for any eventuality."

LONDON, May 14. (P).—A threatened strain on Britain's and France's relations with Italy as a result of Premier Benito Mussolini's handling of his dispute with Ethiopia apparently was averted late Monday as Italy consented to conciliation.

Fearful lest Emperor Haile Selassie's repeated appeals to the league of nations might force England and France to join unavoidable league censure of Italy's military measures in Africa, officials here openly welcomed the concession at Rome.

They refused to let their optimism that settlement was in sight be dampened by reports from Ankara and Cairo, Egypt, that Ethiopia was seeking Turkish and other Asiatic aid in the event of hostilities with Italy.

A dispatch from Ankara said the arrival of Ato Berhan Markos, Emperor Haile Selassie's former secretary, as Ethiopia's first chargé d'affaires had given rise to rumors that an alliance with Turkey was sought.

This was denied by the Ethiopian foreign minister at Addis Ababa, while informed Italian quarters, in the absence of official comment, said Italy would be quick to resent any Turco-Ethiopian accord.

A SUCKER GETS WISE

The Senate munitions committee has evinced a curiosity about the war-time correspondence that took place between certain United States banking houses and the various allied commissions which attended to purchase of munitions in this country.

Some of the committee members feel that if this correspondence were made public, Americans would get some valuable knowledge about the prelude to their entrance into the World War.

The British government doesn't think the idea is so hot. The British ambassador has protested informally to our State Department, and Stanley Baldwin has remarked that the inquiry might revive "a long since obsolete controversy" and have a bad effect on the present international situation.

All that may be true; yet the American public is coming more and more to feel that someone sold it a gold brick in 1917, and its desire to know more about the transaction is only natural.

If a glance at this correspondence would be enlightening—as it well might—the committee ought to go ahead.

Stuffed Eggs Packed With Energy Value For Entire Family

By MARY E. DAGUE
 NEA Service Staff Writer

Bostonians prefer brown-shelled eggs and New Yorkers white, although the calcium, phosphorus and iron, the A, B and D vitamins, protein and fat are exactly the same; so the smart thing to do is to buy the color that is cheapest.

Much has been learned in the last few years about the vitamin content of eggs, particularly the iron and one noted specialist in nutrition advocates an egg a day along with orange juice, a quart of milk and the usual normal diet suggested for health and growth.

Since eggs are a concentrated food, they must be properly combined with bulkier foods if a well balanced meal is to be served. Plenty of fresh vegetables and cereals or other foodstuffs of high carbohydrate caloric value, are needed.

Safe For Baby
 Properly cooked eggs are easily digested and can be served to an entire family, including baby. This does not mean that a small child may eat "deviled" eggs, or fried eggs or eggs served in any of the highly seasoned sauces. He may have poached eggs, eggs soft cooked in the shell, carefully scrambled eggs, baked omelets and shirred eggs.

Keep in mind that eggs always are best if cooked at a low temperature.

To soft cook an egg in the shell, lower carefully into enough boiling water to cover it, reduce heat and let stand five to eight minutes. Do not let water bubble. To hard cook an egg, let it stand in water just at

The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything.)

I never did have much faith in these restorative claims you read about.

I resign as a rain guesser. I listened with pleasure to the little rain we had Sunday night, felt sorry that it was hardly more than a sprinkle, turned over and went to sleep. Monday morning I made what I thought was a liberal guess of .08 of an inch. When we checked with the official rain measurers we found it was .25.

This morning the rain fell pretty lively for a while. It seemed twice as much as the rain we got Sunday night. Consequently I guessed .48 of an inch. We plopped the ice house, they read the gauge and it was .18 of an inch.

You can't tell from the sound of the drops just what a rain amounts to. Maybe it's just because we are long out of practice.

News item from Denver says a group of insurgents dropped Townsend's name. Is that something about a chain letter or some more about the old age pension plan?

FEMININE FANCIES

BY KATHLEEN EILAND

Habits are queer things. And the forming of them is an even queerer thing. Wonder why it is so hard to form good habits and so easy to form bad ones?

Periodically we sit down and think out a program for a sane and balanced life, resolving that hereafter we'll sleep at least eight hours every night, eat spinach or carrots every day, do exercises religiously, and read the most uplifting books.

We follow that plan for about one day (sometimes, if we're very deeply resolved, for two) and then our determination goes haywire. We decide that life's too short to eat carrots if we don't like them, and that we just must see that new show if we do lose a good two hours of sleep, and we begin to hanker for the most frivolous love story we can find. Our resolutions just naturally emulate the Arabs and silently steal away.

Wonder how it would feel to be one of those oak-and-steel personalities who can keep every resolution he makes?

On second thought, we don't believe we'd like to be that kind of person after all. Most likely we'd be insufferably conceited with that kind of boiler-plate attitude which we particularly hate. We guess we'll choose to be just rank-and-file humanity.

A good many people whose faith in the coming of rain has been faltering will pick up courage again now that we are beginning to have showers round about.

Note for some philosopher to enlarge on: It takes such a very little thing to encourage or discourage the average man or woman.

We have often said that about the only "smart" thing we ever did was in our willingness to take a loss when necessary, to move merchandise that has not sold. We positively will not let it get old, if price will move it.

This May Bargain Festival will offer you very unusual bargain opportunities throughout the store—good merchandise, but things that have worn their welcome out with us.

In addition, we are making these May Dollar Days and Bargain Festival a real bargain opportunity in new, desirable, quality merchandise, under-priced for this special selling event.

FAST COLOR BATISTE 10¢

A few pieces of this yard-wide, fast color soft dainty Batiste for nighties, etc., that we have sold so much of. A real 19¢ value to close at 10¢ the yard, or **\$1.00** TEN YARDS for

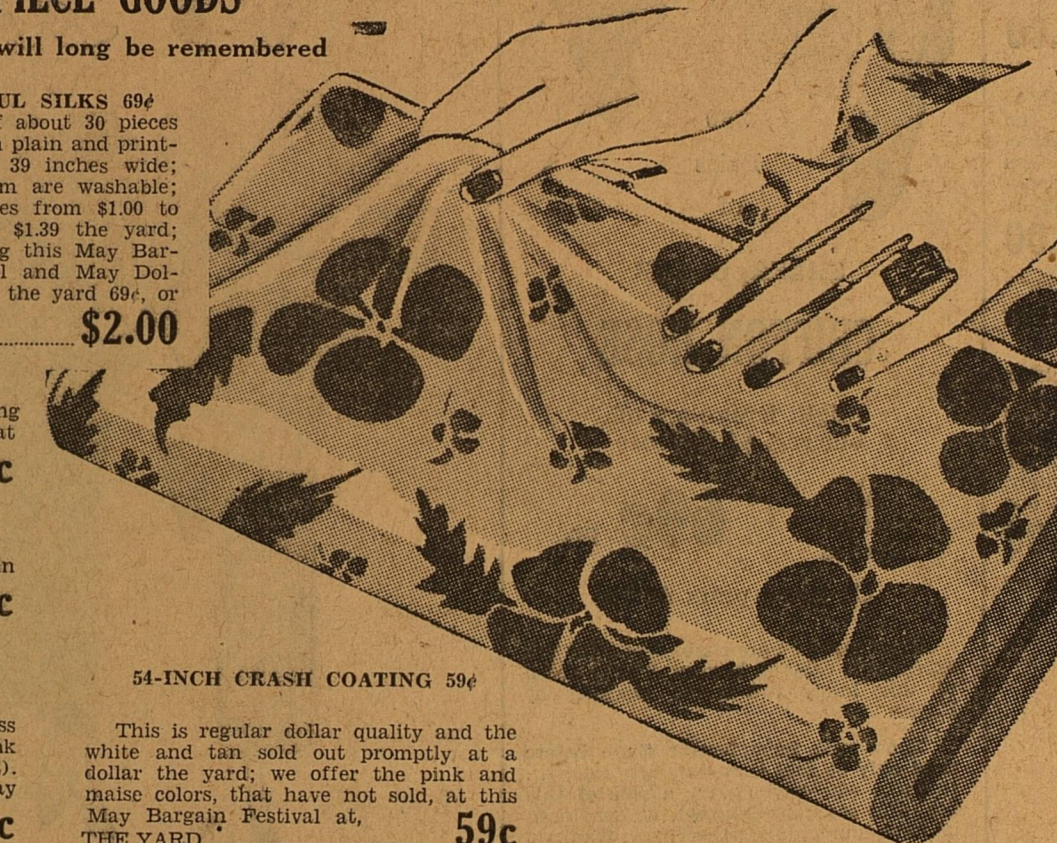

59¢ FELICITY NOVELTY 29¢

This is another beautiful Ratine weave, sheer fabric from A. B. C. that should have sold promptly, but guess this is just another mistake that either we, or Arthur Beir & Co., has made, as it hasn't sold as it should, so we are willing to take our loss right now. **29¢** THE YARD

98¢ DRESS LINEN 69¢

Possibly we were a bit optimistic when this was bought, but the quality is beautiful. Guaranteed fast colors, fully shrunk, in a round thread, mercerized linen in white, maise, rose, green and Copen. Seems that most customers prefer something not quite so high in price, although they all love this quality. For May Dollar Days and May Bargain Festival, we are offering this 98¢ quality for 69¢ the yard or **\$2.00** THREE YARDS for

BEAUTIFUL SILKS 69¢
One lot of about 30 pieces in all of both plain and printed silks, all 39 inches wide; most of them are washable; regular values from \$1.00 to as much as \$1.39 the yard; priced during this May Bargain Festival and May Dollar Days at, the yard 69¢, or **\$2.00** THREE YARDS for

75¢ RAQUET NUB 39¢

We paid 52½¢ the yard for this material from A. B. C. It's a good looking sheer, fast color fabric with a Ratine square, and why it hasn't sold is a mystery, as it is one of the best looking fabrics we have had this season. But it hasn't sold as it should and, after all, that is the ultimate test. Colors are red-white, navy-white, solid blue and solid pink; these were 75¢ the yard, and out they go at this May Bargain Festival at, **39¢** THE YARD

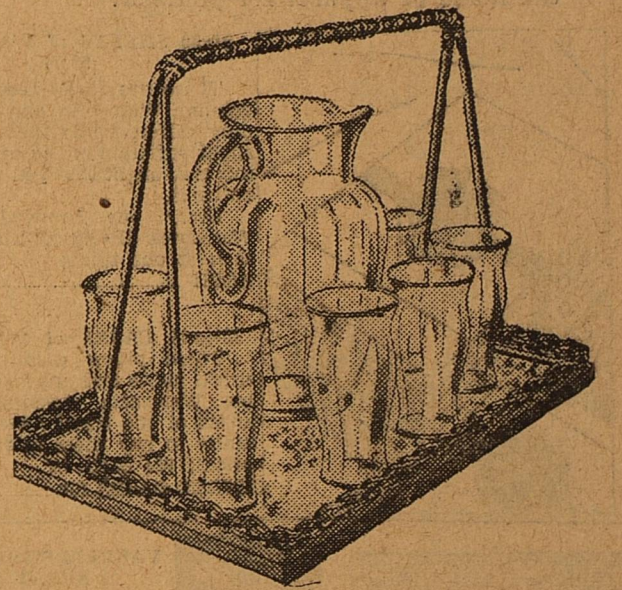

69¢ SHEER 'N' COOL 29¢

Funny about this fabric; it's nice looking, it's serviceable, it's sheer and it's cool and absolutely fast color. The white, pink and blue sold out at once, but for some reason the orchid and Nile color didn't sell so well; too, there is a small piece of maise. It's a Field fabric and absolutely dependable in every way. Was 69¢, but we've had it long enough. Out it goes; **29¢** THE YARD

48¢ TILE PIQUE 29¢

Just four pieces of this splendid A. B. C. fast color novelty Pique that has not moved out as it should and we believe it is folly to keep this any longer; colors are blue, Nile, pink and maise; and you can buy this for quite a bit less than we paid for it. **29¢** THE YARD

drafted policies for next year. Plain-view made preparations to give a rousing welcome to Governor James V. Alfred today. He was the speaker at a general assembly this morning and will remain for a dinner in his honor tonight. Ten district directors were elected. They are: Wilbur Hawk, Amarillo; Clifford B. Jones, Spur; W. B. Hamilton, Wichita Falls; Amon G. Carter, Fort Worth; Milburn McCarty, Eastland; B. Reagan, Big Spring; Hamlin Overstreet, Texico, N. M.; J. E. Casner, Alpine; Clyde E. Hoyt, San Angelo; J. Thomas Davis, Stephenville.

Revue Presented "La Fiesta," a revue composed of numbers by entertainers from eight West Texas towns, was presented last night. The North Texas State Teachers college orchestra furnished the musical background. The Spanish motif predominated the program which included the introduction of Miss Jeanne Shelley Jennings as Miss West Texas. Spon-

sors from 30 towns also were introduced. The chamber directorate voiced a warning to chambers of commerce and civic and agricultural groups "to be alert to recognize and cope with the insidious propaganda of fascism, communism, sovietism and other socialistic agencies, which, under guise of advancement of recovery, are in reality sowing seed of dissension and striking at the very foundation of our democratic form of government."

Another resolution urged that regional and local chambers be made agencies for handling the statewide publicity and advertising for the Texas centennial. Other resolutions approved the action of farmers who went to Washington to urge that the AAA be maintained, and championed the middle class business man, the state planning board, and lump sums for state institutions of higher education.

Mexico--

(Continued from page 1)

ment itself there is growing up a group who call themselves "new revolutionaries" in contrast to the Calles chieftains. Leaders of this group are such men as atheistic, non-drinking, non-smoking Tomas Garrido Canabal, secretary of agriculture, and Ignacio Garcia Tellez, secretary of education.

They have many followers among the younger officials of the government and especially in the National Revolutionary Party. That they have at least the sympathy of Cardenas is evident from their presence in the cabinet, unless, as many think, they were put there by Calles merely to change the lines of an old show.

At any rate, these men stand out as leaders of a growingly important leftist movement. They claim to be in favor of a dictatorship of the proletariat, of the abolition of private property, and similar measures. Partly due to their influence, as well as to repeated declara-

tions of Cardenas in favor of "Nuestros trabajadores" (our workers), labor is regaining its former strong position. This is demonstrated by the increasing number of strikes and by numerous decisions of courts and other official bodies, all favorable to workers.

"Outs" Have Little Hope Followers of these men do not hesitate to attack, in private, the Calles group, whom they call traitors to the revolution, and even though they may have been put in power merely as a diversion, they may surprise the backstage masters by making desperate efforts to remain there.

The "outs" it is generally conceded, have little chance of getting back into power. Chief among the formerly prominent politicians in this category are the three former presidential candidates, Jose Vasconcelos, Gilberto Valenzuela, and Gen. Antonio I. Villarreal. The former two are in exile in the United States and the latter is in hiding in Mexico.

Villarreal is carrying on a somewhat futile "revolution," which has scarcely ruffled the peace of the country, although he proclaimed it more than four months ago. Closely tagged by federal agents and with what forces he has badly scattered, Villarreal's cause is regarded as hopeless.

A famous intellectual widely known in Europe and South America, and a sincere planner for the day of liberation of the Indian races of Mexico and the entire Southern Continent, Vasconcelos has been out of touch with things in Mexico since 1929, when he fled after losing in the presidential elections. Now he is reported to have joined forces with Valenzuela, Villarreal, and other enemies of the regime, but persons acquainted with him believe he has lost his following by his long absence from the country.

NEXT: What has been accomplished by 25 years of revolutionary rule in Mexico, and what is still undone.

Babe Didrikson Barred at Tourney

NEW YORK, May 14. (P)—The United States Golf association, after investigating Babe Didrikson's activities as a professional baseball and basketball player, today advised the Southern Women's Golf association to reject her entry for the southern tournament at Louisville, May 20. The association also revealed that it would not accept the Texas girl's entry in the women's national championship tournament at Minneapolis in August.

MAYTAG BANQUET IS ENTHUSIASTIC

Midland and Maytag dealers of this area were signally honored last night with a visit of Fred Maytag II, grandson of the founder of the Maytag company and son of the president of that organization, and Walter Rogers, president of Maytag-Southwestern company, at a banquet at Hotel Scharbauer. The banquet was given in honor of dealers of this district for selling the greatest number of washers over a given quota.

J. J. Adams, divisional manager, H. H. Keller, representative of D. C. S. corporation of Chicago, Charles Johnson, manager of the Abilene district, and H. A. Schmidt, manager of this district, were other officials present. Lamesa was represented by John Allen, A. L. Standefer, E. N. Standefer and J. P. Newsome; from Big Spring were Frank Spaulding, N. D. Carnet and E. L. Curb; from Snyder came W. L. Roche, F. A. Yoder and J. C. Simpson; Alpine was represented by Charles Chambers, Kelly Vance and Paul Crone.

Colorado representatives were Jerold Riondan, T. J. Taylor and Sam Wood; John Simpson came from Pecos and Ed Sullivan from Monahans. Representatives of the Midland Hardware Co. were J. L. Tidwell, J. L. Coffey, E. L. Tyler, Jerry Phillips, John Benson, Kelso Adams, Newell Beauchamp, R. O. Walker, Lawrence Beauchamp, Wesley Shull and F. J. Reynolds, together with a representative of The Reporter-Telegram.

One feature of the evening was a motion picture of the mammoth Maytag plant at Newton, Iowa, giving much detail of the manufacture of the washer. This picture was personally conceived and filmed by Fred Maytag II. Mr. Maytag made a few brief speeches as honor guest.

President Rogers was the principal speaker of the evening and pointed out the progress of the Southwestern division in the face of state-wide adversity.

The group was entertained by an impromptu quartet composed of Manager Schmidt, President Rogers, Frank Spaulding and James F. Harrison.

HUMBLE PRODUCTS

have won Public Approval

The endorsement of thousands of Texans stands back of this statement

Public-testing of Humble products has been going on for a long time. It is not an advertising "stunt," but a sincere effort to find out what the public needs and to fill that need with the right product at the right price. The results are recorded on thousands of check cards in our files. Now we can tell you that the public definitely approves the motor fuels, motor oils and special products that we ask you, too, to test in actual use. You are also invited to try

Humble service. Humble Stations have been carefully designed and Humble men have been carefully trained to provide you with a service that you'll like—a service which is prompt, helpful, courteous, friendly and efficient. Cleanliness is outstanding; equipment is complete—sanitary restrooms, ice water, first aid kits, fire extinguishers, free air and water. Wherever you see the red, white and blue Humble sign, you can be sure that you will find public-tested products and the service that you want.
