STYLE CREATOR, FRIEND ARE SHOT BY CHAUFFEUR
Quarrel Over Debts Is Given as Reason For Slayings

HOLLYWOOD, Apr. 26. (AP)—The mysterious shooting that brought death to a movie star and his chauffeur and possibly fatal wounds to another in the film capital during the night was reported as murder and suicide today by the sheriff's office.

Deputy O. H. Cloud said that Paul Ivar Wharton, designer of clothes for film actresses, was shot by William Howard, his chauffeur who later shot and critically wounded Henry E. Bolte, law instructor at the University at Los Angeles.

Cloud said that Howard shot and killed himself. The Wharton slaying was the tragic climax to a supper attended by two guests in his Hollywood apartment studio. The other shootings occurred later in an apartment several blocks away.

County Agents Try Soil Erosion Control

AUSTIN, April 26.—Farmers under the direction of county agents, moved quickly over the entire length and breadth of the Texas Panhandle and Plains country last week, bent on controlling wind erosion.

Nature, using the wind as a lash, has assailed Northwest Texas for the last 45 days, whipping soil from the land and carrying it in all directions.

Now, the government will help these dust-clogged farmers by land in an effort to prevent further losses to the elements.

County agents, working with committees in 48 counties, last week were approving a rate of interest which these farmers agree to list their land in return for fuel or feed for tractors or teams, the amount to be determined by the number of acres to be listed.

Results of a survey submitted to the Texas Relief Commission by Dr. O. B. Martin, director of the extension service, under whose supervision the program will be undertaken, contemplate listing of 5,395,000 acres.

E. A. Baugh, assistant director of the Texas Relief Commission, last week announced plans which have been completed whereby farmers may obtain purchase orders by presenting approved contracts to county administrators.

Farmers in the affected area are requested to remember that land to be treated in this program must be selected by the county agents, who are executing the program in all instances. The relief commission acts in a purely advisory, disbursing and accounting capacity.

Purchase orders may be presented for the amount of fuel to be used for in the contract. Cash will not be delivered to the farmer, and no cash will be sent to the counties. All purchases will be paid from the state office of the Texas Relief Commission. This procedure was adopted in order to carry on the program with all possible speed.

Relief officials said they expect supplemental applications for funds from Dr. Martin as a result of completion of his survey in the affected counties. These applications will be granted until the federal allotment of \$750,000 for the program has been exhausted, Baugh said.

A completion date of May 1 has been set in order to assure concerted action in the campaign against the wind.

The relief commission will further cooperate by furnishing budgetary labor and material, where it is needed. Budgetary workers in most cases will be used to drive tractors on large tracts of land where one farmer will be unable to complete the work in the allotted time.

Relief officials announce they had signed contracts with six oil companies for fuel at one cent under the market price and that they had negotiated successfully for exemption from the four-cent state and one cent federal gasoline tax. In addition to the six companies with whom contracts have been signed, relief officials said they would honor purchase orders from any company that files a written quotation in the same amount as that in existing contracts.

Counties in which the program will be carried on are Dallam, Sherman, Hansford, Ochiltree, Lipscomb, Crompton, Roberts, Hutchinson, Moore, Hartley, Oldham, Potter, Carson, Gray, Wheeler, Collingsworth, Donley, Armstrong, Randall, Deaf Smith, Hall, Childress, Motley, Cottle, Foard, Farmer, Castro, Swisher, Briscoe, Bailey, Lamb, Hale, Floyd, Cochran, Hookley, Lubbock, Crosby, Dickens, Yoakum, Terry, Lynn, Garza, Gaines, Dawson, Borden and Clay.

Thief Was Left With Rights

WATERBURY, Conn. (U.P.)—Imagine the disappointment of the thief who stole 55 shoes from William Lipscomb, Providence, R. I., salesman, only to find they were all for the right foot. They were samples, for exhibition purposes.

“Must’a Been Two Other People”

Mae West says it must have been a couple of other girls who married Frank Wallace, Milwaukee, Oct. 1911, because she didn't. Yet here's a picture showing her (left) in a scene from "Diamond Lil" being served by a "singing waiter" named Frank Wallace. She got him the part. To make things more confusing, another Frank Wallace, a vaudeville actor, has been found in New York—he says the screen siren was his bride and divorced him in 1917.

HOPKINS EXPECTED HEAD “DIVISION OF PROGRESS” IN RELIEF SETUP

WASHINGTON, April 26. (AP)—Harry L. Hopkins, hitherto the “mystery man” in the work-relief setup, was generally expected today to be placed in charge of the “division of progress” in administering the \$4,000,000,000 (billions) fund. The division, one of the main cogs in the works program, has charge of the checking up on and the stimulating of activities of the undertaking whereby it is hoped to provide jobs for 3,555,000 jobless.

Hopkins, present relief administrator, will serve as a member of the board which passes on the distribution of the huge work fund to the various projects. The board, composed of 22 members, will be headed by Secretary of the Interior Ickes.

Although the PWA administrator will head the group, it was made clear that Mr. Roosevelt will make the allotments on recommendation of this board. On it will sit the heads of departments and bureaus involved in the undertaking.

In addition to the Government aids there will be representatives of organized labor, of farm organizations and of the American Bankers' association. Two other Cabinet members, beside Ickes, will serve on the board—Secretary of Agriculture Henry Wallace and Secretary of Labor Frances Perkins. On it also will be Frank G. Walker, director of the National Emergency Council.

President Roosevelt today completed his work-relief organization with the appointment of Hopkins as administrator of the progress division and charged the division with the task of making certain that persons employed on projects come from relief rolls.

The United States employment service was given general charge of the reemployment of persons on work relief who desire to return to private employment.

The President has called in his principal aides in the works setup for a general discussion tonight.

ESTIMATED 500 BARREL WELL IN CROCKETT COUNTY

By PAUL OSBORNE
An estimated 500 barrel well was reported this morning for Eppenauer No. 1-C Powell, Crockett county well located in section 53, block BB. The well has been treated with 1,000 gallons of colloid in an attempt to increase the present production.

Production gauge on Magnolia No. 6 Walton, newest and largest producer of the Sayre Pool showed the well is producing 1,500 barrels daily, double the potential rating of any other well yet completed in the field No. 6 Walton is an easternmost well of the field to date.

In Andrews county, Honolulu and Llano No. 1-B Parker, seeking production a half mile southwest of their recent completion, is drilling red beds 1,500 feet, and in the north part of the county, Waldenmaier No. 1 Goehle and Bitler is drilling red beds at 1,255 feet.

Five rotor county wildcat tests reported deeper drilling and interesting depths. Empire No. 1 Cummings is below 3,075 feet in shale; Gulf No. 1 Goldsmith has reached total depth of 2,970 feet, and is underreaming eight inch pipe; Landreth No. 1 Cowden Brothers and Sisters is waiting on cement at total depth of 3,752 feet; Landreth No. 1 Schubarer, connected to the title No. 1-A Schubarer, is at 625 feet in red rock; and Penrose at No. 1 Kloch is drilling lime at 4,227 feet with no shows reported yet.

In Winkler county, Sloci No. 1 Lovett, wildcat located just west of the town of Kermit, has encountered eight million cubic feet of gas which blew tops up the hole and caused a fishing job, and Sid Richardson No. 1 Walton, wildcat northeast of the town, is reported drilling lime at 2,785 feet.

Byrd and Frost No. 1 Boyd, Reagan county wildcat, is shut down in red rock at 2,522 feet, and Baldrige No. 1 Sweetie Peck, Upton county, is underreaming eight inch pipe, with total depth at 3,200 feet.

The Ordovician tests, Gulf No. 103 McElroy, has drilled to 12,441 feet in shale and limestone; Gulf No. 1 Waddell et al is shut down at 4,935 feet in limestone; Humble No. 1 Polk, eastern Upton county, is drilling at 4,817 feet, and John I. Moore No. 1 McDowell, Glasscock county, is shut in but is reported scheduled for deepening in the near future.

Bulletin

WASHINGTON, April 26. (AP)—Chairman Harrison of the Senate Finance Committee today made public a letter from Secretary Morgenthau proposing an inheritance tax system which could be used to cash the bonus, based on progressive rates up to 60 per cent.

Morgenthau estimated that the tax would yield \$300,000,000 next year and might bring double that amount annually thereafter.

JEFFERSON CITY, Mo., April 26. (AP)—Miss Mary McElroy pleaded with Governor Guy Park today to spare the life of Walter H. McGee, leader of the gang which kidnaped her for \$30,000 ransom two years ago. Miss McElroy said that she was pleading “for my own peace of mind.” Governor Park said that he had no idea he would act on the plea.

TEXAS FARMERS EXPERIMENT
PORT NECHES, Tex. (U.P.)—Gulf Coast farmers of this section have undertaken several forage crop experiments to lead development of dairy and livestock pastures by introducing a new legume known as serradella. The legume, said to be almost as nutritious as alfalfa, is particularly adapted to poor soil conditions which prevail generally in this region. Farmers under the leadership of County Agent J. F. Combs, have experimented extensively during the past several years.

DOCTOR NEARS 2,000TH FLIGHT
KANSAS CITY, Mo. (U.P.)—Dr. John D. Brock, who has made a daily airplane flight since No. 16, 1928, will make his 2,000th flight May 7 at Washington, D. C., by special invitation of the National aeronautics association. Dr. Brock will fly to Washington May 6, be guest of the association at a dinner that night, and make his 2,000th flight the next day.

MOTORCYCLE COP IS BOXER
PAINTSVILLE, Ky. (U.P.)—When this little city's only motorcycle patrolman drives up beside a speeding car and shouts, “Where's the fire?” it doesn't call for any wisecrack from persons who know his identity. The motorcycle cop is Ray “Tuffy” Griffith, one of the best boxers to be developed in the Tri-state region in a number of years. “Tuffy” divides his time between the highway and the ring.

FLUSHING, O. (U.P.)—A penny dated 1798 was dug up by Ralph Luchi here as he hoed his garden.

Where Quake Loosed Death

Above: Although many buildings are modern, as are most of those in this street scene from densely settled Formosa, cities are reported to have been hard hit in the quake that wrought havoc in outlying districts. Tens of thousands of homes and buildings were destroyed by the tremor. Left: Rivaling the terrible Japanese earthquake of 1923, tremors rocked the island of Formosa, killed more than 3,000 persons, injured 12,000 and left 250,000 homeless. The area most seriously shaken is shown in black.

CENTENNIAL BILL FINALLY PASSED BY LEGISLATURE

By The Associated Press
AUSTIN, April 26.—A bill to appropriate \$3,000,000 in state aid for Texas' 100th birthday party was on its way to the governor's office tonight after a torturous trail through both houses of the legislature.

Lacks Two-Thirds Vote
The house adopted a conference committee report on the bill 76 to 63 and a few hours later the senate approved it 16 to 12. A movement was started immediately to give the bill immediate effect through adoption of a concurrent resolution by a two-thirds vote. Otherwise the bill would not be effective until 90 days from adjournment of the legislature.

Notes were taken speedily in both houses after the report was called up in contrast to the long harangues that marked previous consideration of the centennial resolution. Opposition to reject the report were quickly rejected by both houses after only brief debate.

1215 Head Yearlings Shipped to Arizona

Shipment of 1215 head of steer and heifer yearlings was made yesterday from Odessa by the McElroy Ranch Co., Crane. The cattle were sold to the Gillespie Cattle Co. of El Paso.

Len McClellan shipped today from Midland seven loads of yearlings to corn belt feeders; it was announced.

Students in the group are Louis Cantloui, Robert Harmon, Charles Patterson, and Woodrow Gwyn.

Catch 283 Ravens in 2 Weeks with Trap

Contrary to reports that it costs \$20 or more to build a raven trap, Elliott F. Cowden built one at his El Paso this summer or fall, it was learned here.

Rep. R. E. Thomason, El Paso, hearing that Secretary Hull expected to go to San Diego to open the international exposition there May 29, invited him to stop over in El Paso and see the river rectification work of the International Boundary commission, connected with his department.

Rep. Thomason also urged him to look over plans for development of power at Caballo Dam.

Rep. Thomason received word that the Secretary hopes to make the stopover if he goes to San Diego.

Possibility that the President himself may go to San Diego this fall asked Rep. Thomason to plan to ask him also to stop at El Paso. That event it would be possible that the President might arrange a meeting at the international bridge with Mexico's president, as was arranged between President Taft and Diaz many years ago.

NATIONAL MUSIC WEEK IS TO BE OBSERVED
AMARILLO, April 26. (AP)—Texas will join the rest of the nation in the twelfth annual observance of National Music Week, May 5-11.

Mrs. T. D. Cole of Amarillo, president of the Texas Federation of Music clubs, announces.

Mrs. Cole issued a proclamation setting music week for Texas on the same dates as the national observance.

“Let us of the state of Texas, in whatever way or ways we may choose to observe the focus of the attention of the public upon the week set aside as National music week and encourage its observance that the cause of music may be recognized and immeasurably advanced,” the proclamation said.

Mrs. Cole said that Mrs. F. E. Carson of San Antonio would be leader of the observance in Texas.

FROM WAR TO WAR

A recent cablegram from Berlin, telling how Germany's new conscript army is being organized, contained this sentence: "The military class of 1914—those entering their 21st year—were expected to be called to the colors for a year's training."

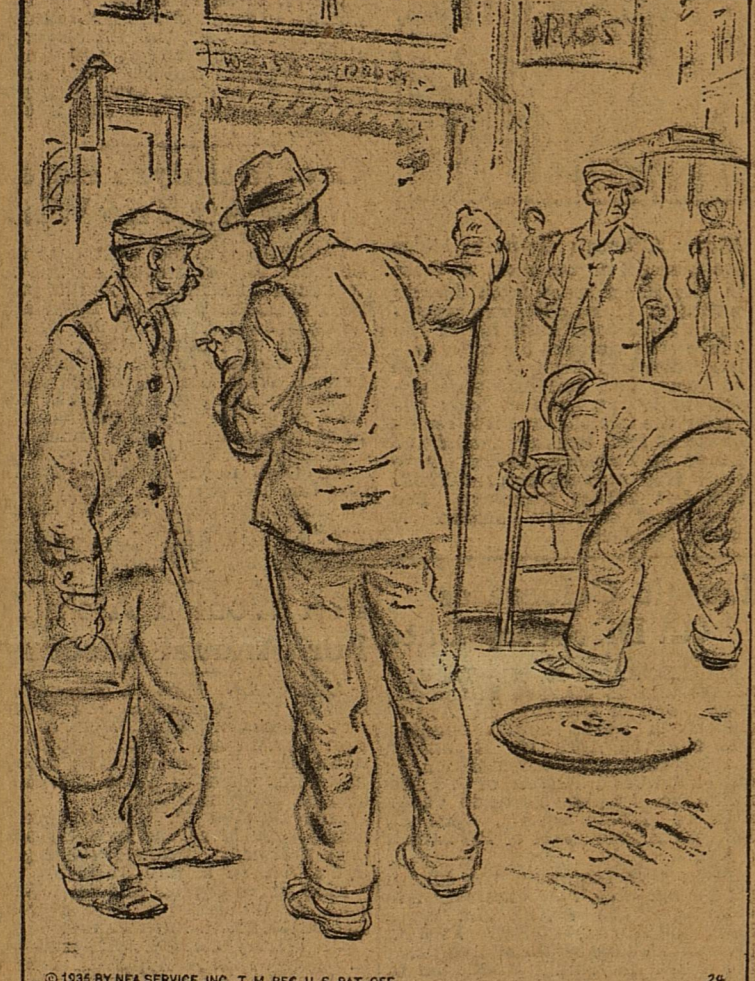

It is impossible to read that sentence without a feeling of very deep melancholy. For 1914 was the year the World War broke out; and this class of 1914 is composed of young men who were born in that year.

What a tragic group of young men! Born in the year the world broke out in flames, many of them made fatherless before they had cut their first teeth, brought painfully through a babyhood rendered difficult by food shortage, blockade, and all the other terrors of the "home front"—and now, reaching manhood, called to the colors to prepare for a new war!

Fate has been more than ordinarily unkind to these men. Fate—and ordinary, every-day human folly.

FEMININE FANCIES

We notice that among the new beauty gadgets are flower holders for small orchid corsages. They are shaped like test tubes, with the top covered with a rubber cap containing a small hole into which the orchid's stem is thrust. Women have always worn flowers but we've never before heard of their wearing the vase as well. Something new under the sun.

Clips are beginning to be doubly efficient according to the following fashion note: In addition to their decorative value, costume jewelry clips have a new use this year. Smart women, long since tired of sewing lingerie collars on dresses, have taken to clipping their neckline accessories in place. You can use two, three and even four small clips to fasten a fresh white collar. If you like, buy them in colors to match the dress itself.

Some one suggested that we should mention in this column how unexpectedly beautiful yesterday afternoon was when the day had such a doubtful beginning. We are grateful for even half-a-day of actual sunshine but we can't resist being human enough to grumble just a little—such weather would come on a day when we couldn't play tennis.

We must admit that men seem capable of more intense concentration than women. At least so far as bridge games go. Our own experience is that men get interested in the game itself while at least a number of women are interested in only as a background for the more fascinating game of casual conversation.

### Mystery Thriller Is Yucca Attraction

"The Casino Murder Case," showing today and tomorrow at the Yucca Theatre, is a picture well worth seeing for many reasons. It is another of those deeply baffling murder mysteries from the

expert pen of S. S. Van Dine. It brings an entirely new type of Philo Vance to the screen in the person of Paul Lukas. Too, it introduces a new leading lady who, if she is to be gauged by her performance in the film, is destined for a brilliant career in pictures. She is Rosalind Russell, prominent player of the Broadway stage, who only recently entered

the films. The mystery story is that of the rich and eccentric Llewellyn family, which seems doomed for extermination by some diabolical poisoner. One member of the family is murdered, another is shot to death and two others are stricken dangerously ill by poison before Philo Vance, ably assisted by the girl friend, Doris, finally solves the "perfect crime," almost at the cost of his own life.

### "Star of Midnight" to Open at Ritz Sunday

Something entirely new in love stories is said to be brought to the screen by William Powell and Ginger Rogers in "Star of Midnight," woven around New York's society and night life showing at the Ritz Sunday, Monday and Tuesday. Romance in this modern, sophisticated drama follows no charted course. The red haired Ginger, in the role of a young society beauty, takes the aggressive, and it's hard to tell whether Powell is a willing victim, or an apprehensive climber to the standard of bachelorhood. In other words, it's the man in the case who keeps the girl and the audience guessing. Stephen Roberts directed "Star of Midnight," which is based on a story by the late Arthur Somers Roche, master of mystery fiction. In the supporting cast are such well known players as Ralph Morgan, Paul Kelly, Leslie Fenton, Vivian Oakland, Gene Lockhart, Russell Hopton and J. Farrell MacDonald.
