

Veal Good Buy Nationwide In Food Stores This Week

By The Associated Press
Veal will be a good buy in many of the nation's food stores this weekend. Also on the feature list: beef and chickens.
There'll be specials in some markets on shoulder veal roast and legs or rumps of veal.
Stores over the country have picked a wide variety of beef cuts as weekend features. You may find lower price tags on chuck roast, pot roast, stewing beef and round, chuck and cube steaks. By and large, prime ribs will cost the same as a week ago.
Chickens will show small price changes either way this weekend. Pork chops will be unchanged to four to six cents a pound higher. One food man suggests taking a look at pork picnics, which don't bound around in price as much as

pork loins.
Butter is headed lower.
Eggs also will be lower in many markets. Reductions will range from two to four cents a dozen on top grade large whites.
Coffee can hardly be described as a bargain. Some chain stores boosted the prices of their own brands a nickel a pound this week while coffee roasters added five to six cents to their wholesale prices.
In the vegetable line, you'll find plentiful supplies of celery, potatoes, onions, cabbage and spinach at reasonable prices.

Florida Baptist Boys To Meet Interracially

DAYTONA BEACH, Fla. (AP) — Negro youths will be invited to attend a Baptist boys' meeting in Tampa this October, the Florida Baptist Women's Missionary Union decided yesterday.
It approved a resolution that the 1954 meeting of its Young Men's Conference be interracial.
Armand Ball of Jacksonville, secretary of the boys' division of the Florida WMU, said delegates will eat, sleep, work and play together at the meeting, which will run two days.

Texas 'Princess' Meets Mrs. Nixon

The Texas Cherry Blossom princess, wearing the ribbon of her state, poses with Mrs. Richard Nixon at the luncheon-fashion show of the National Cherry Blossom festival in Washington. She is Nina Marie Korth of Fort Worth. (AP Photo).

Republican Leaders Afraid Wiretap Bill Fight Is Lost

By B. L. LIVINGSTONE
WASHINGTON (AP)—Republican House leaders waged what looked like a losing battle today to save the administration version of a bill to legalize use of evidence obtained by wiretapping in cases involving national security.
As the House entered the second day of furious debate on the measure, some GOP quarters privately conceded defeat on a showdown vote later in the day over giving the attorney general authority to order wires tapped in national security cases. Most Democrats and some Republicans favor a proposal that would require a court order before wiretapping could be carried out.
However, passage of some form of wiretapping legislation appeared assured. The only important dispute centered on the form it should take. Both versions under consideration would restrict wiretapping to espionage, treason, sedition and seditious conspiracy cases.

The administration-backed version would give the attorney general authority to order wiretapping by FBI and military intelligence agents in specified cases.
A substitute proposal, authored by Rep. Willis (D-La.), would require the attorney general to get a court order in advance of any official eavesdropping.
Brownell has opposed inclusion of the court order requirement as a time-consuming handicap on FBI agents.
Foes of unchecked wiretapping powers denounced the administration bill as "the first step toward making this country a police state," and an invitation to political chicanery.
Rep. Dodd (D-Conn.) declared, "It reposes in one man a police power that the people of the United States have repeatedly refused to grant."
Rep. Keating (R-N.Y.), author of the administration bill, told the House a provision in the bill permitting use of old wiretap information "may very well permit the conviction" of former government girl Judith Coplon and others against whom the government has not been able to use such evidence.

Shout At Car Leads To Driver's Beating

TEMPE, Ariz. (AP)—Jerrell Brooks shouted at a car which had made an illegal turn in front of him.
The car turned around. Four youths inside forced Brooks, an Arizona State College student, off the highway and beat him up.
Then they drove into his car, causing \$85 in damages.

DR. SALK

Polio Scientist Has Lots Of Curiosity

PITTSBURGH (AP)—A family friend tells this story about Dr. Jonas E. Salk:
"Once he saw me sewing a dress and wanted to know every step that went into it. Another time, he admired a dessert and we had to have a scientific discussion of that. Afterward, he told us why a cake is a cake, chemically.
"I think it makes him uneasy not to understand something going on around him."
Another friend, a psychiatrist, explained this way:
"He is one of the clearest, most deliberate thinkers I've ever known. He has great emotional stability. You can bet he won't push his work one second faster than it is absolutely safe to do."
A relative recalls: "Even as a kid, when Jonas said something, you could put it in the bank."

The man they're talking about is the nation's No. 1 medical figure of the moment—the man whose polio vaccine will be given to from half a million to a million youngsters this year, in the hope it will bring a permanent cure to one of history's most dreaded diseases.
If there is a typical researcher, Salk is that man. Only 39, he has been tracking down flu and polio virus and hunting vaccines since before his graduation from medical school in 1939. The hours have been long, sometimes 18 hours a day six days a week, with only Sundays free for his wife and three sons. Money for research wasn't always plentiful. But in his quiet, methodical, careful way he kept going until, almost two years ago, he came up with a vaccine he thought would work on humans.
Then began the first cautious tests. As they showed signs of success—immunization without harm to the patients—they were gradually expanded. Now he's ready for mass inoculations over most of the country.
Deliberate as he is, he is not without emotion. Back in the days before he felt he was ready for mass tests, his own sons were among those getting the vaccines.
"When you inoculate children with a polio vaccine," he said then, "you don't sleep well for two or three weeks."
Now he has full confidence in his method.
"I couldn't do it," he says, "unless I was more critical of myself than others are of me. It is a courage based on confidence, not daring, and it is confidence based on experience."

San Antonio Man's Trial Set In Abilene

ABILENE (AP)—William Estep of San Antonio goes on trial in federal court here Monday on charges of swindling in connection with a device which he is accused of representing as curing cancer and other ailments.
Estep is treasurer of the Atomotor Mfg. Co. Inc., of San Antonio. He was arrested in San Antonio Jan. 26 on a charge of theft over \$50 by fraud in the sale of the device.
In Austin yesterday, Atty. Gen. John Ben Shepperd filed suit to put the firm out of business on grounds it had sold more stock than its charter authorized.
The federal indictments returned in Dallas, on which Estep is to be tried here, accused Estep of swindling by aking fraudulent statements to prospective investors.
Activities by Estep also have been reported in Amarillo, Lubbock, Dallas, Fort Worth, Austin, Abilene and Waco.

Lapland In Midst Of Wedlock Crisis; Girls Want Swedes

KIRUNA, Swedish Lapland (AP)—There's a domestic crisis in this part of Lapland because Lapp girls won't marry Lapp boys.
Some authorities here believe the Lapps, now numbering about 30,000 in Sweden, Norway and Finland, may be a vanishing race if the tendency continues.
"One of the biggest problems in Lapland is for a young man to find a wife," said Erik Thulin, a Swede who has lived with the Lapps in their tent homes to study their ways. "Few of the Lapp girls are willing to marry them. They want to escape the hardships of life here."
When they can, the girls in Swedish Lapland marry Swedes, which insures them a higher living standard. Swedish girls, in return, are unwilling to marry Lapp boys and share their rough, nomadic life.
Since a Lapp boy in Swedish Lapland has almost no hope of marrying at all unless he can find a Lapp bride, the bachelors are already making courting forays among the less numerous Lapps on the border in Finland. That presumably adds to the shortage of brides there too.

TV Set Playing Leads To Trouble

LONG BEACH, Calif. (AP)—Roscoe Tard, was charged by his wife Beatrice with chopping down their television antenna and then chasing her around the house.
"She played the TV all night, your honor," Tard explained. "I couldn't sleep. She just wouldn't turn that thing off."
"I can see that it might make you emotionally disturbed," the judge agreed. Then he sentenced Tard to five days in jail for disorderly conduct.

He's saving money

He'd probably pay more for his cigarettes if it weren't for advertising. The cigarette manufacturers use advertising as their lowest cost way to get across news and information about their products. On the average, advertising for a pack of cigarettes amounts to less than 1/5¢.

Selling goods this way makes mass production possible—which means lower production costs, lower selling costs, lower prices.
Yes, advertising is a low-cost selling method that helps keep your living costs down.

This advertisement prepared by the Advertising Federation of America.

Making The Welkin Ring

Big Spring members of the Society for Preservation and Encouragement of Barber Shop Quartet Singing in America did a little missionary work Monday at Midland. They met at Ricardo's Italian cafe for an evening of song to encourage activities of the Midland group which has a charter application pending. Under direction of Harry Lee Plumley, the local chorus sang many numbers, and three Big Spring quartets, the Southpaws, the King Korders and Mighty Knights gave interpretations of barbershop favorites. The Gold Diggers, quartet from the recently organized Sweet Adelines (SPEASQA auxiliary), also sang. The four gave a 15-minute program over the Odessa radio station.

AVOID INSANITY

Teachers Told Not To Be 'Supermen'

OKLAHOMA CITY (AP)—How can teachers make sure their mischievous charges won't drive them insane?

Dr. Percy Teska, professor of special psychology at the University of Oklahoma, listed three simple rules in an address before the senior high school section of the Oklahoma Education Assn.:

1. Admit to yourself you would like to hit the little demon in the back row with a baseball bat.

2. Don't try to act the role of a superman, with 100 times as much patience as the average human being and 1,000 times as much understanding.

3. Don't feel guilty about disciplining students.

By recognizing that you "really hate" that little terror in the back row, Teska said, you will be less inclined to actually smash his head in.

He said only one in every dozen children that are brought to the University of Oklahoma's psychological clinic can be helped "and we have near ideal conditions for therapy."

Yet, he added, teachers who tried to help these emotionally disturbed youngsters before they were sent to the clinic "have a feeling of guilt because they failed."

The psychologist added the quickest way to the asylum is believing the theory that when a teacher signs a contract she automatically becomes a "superman."

"You have the same fears, doubts, worries, hostilities and feeling you had pre-contract," he warned.

"For every teacher for whom the experience of teaching is an enhancing thing you will find 50 more for whom it is a destroying thing."

The best rule to follow? Realize that teachers are human beings and act—and react—like one.

Physician Thinks Patients Cured Of TB Outlive Those Who Haven't Had Disease

CHICAGO (AP)—Having tuberculosis—and being cured of it—may actually mean a longer life for a person than he would have had if he never suffered TB, an insurance doctor reports.

Dr. Harry E. Ungertfelder of New York said this is one of the indications from one of the most detailed insurance studies ever made of life expectancy among people having physical "impairments" ranging from heart disease down to a history of sun stroke, or heat prostration.

The physician, of the Equitable Life Assurance Society of the United States, told the American College of Physicians that the recent analysis involved studies of the records of 725,000 insured individuals and 18,000 deaths in some 132 "impairment" classifications.

He said the findings are based on the experience of 27 insurance companies.

Concerning tuberculosis, the doctor said the survey showed that if a person survives five years after his TB has been "arrested," the possibility of death is no greater than it would be for the average of people of the same age.

"And 10 years after arrest, mortality becomes appreciably (less) than average," he said. "It appears that the discipline accompanying cure of his disease pays dividends to the tuberculosis individual in training him to safeguard his health in the future."

Regarding diseases of the heart, he said, the study gave additional grounds for "a much more optimistic outlook" on life expectancy.

Fahrenkamp Son's Memory Honored

Memory of Edmund E. Fahrenkamp, son of former Big Spring residents, will be perpetuated by a special award each year in the Arlington Heights School at Fort Worth.

Edmund, the son of Mr. and Mrs. E. E. Fahrenkamp, 204 Virginia Pl., Fort Worth, was killed in a plane crash last July while on a NROTC flight in Florida. He was born in Big Spring and started his school career here. Miss Grace Mann was his aunt, and the late Miss Gertrude MacIntyre his grandmother.

Since he was the first president of the J-Club, an honor organization at Arlington Heights, members of the class of 1931 arranged for the award to go annually to the outstanding boy in the school each year. A decision is reached upon the basis of scholarship, leadership and service. This year's winner was Roland Jary, whose name will head the list to be engraved in subsequent years and displayed in the school's trophy case.

among people with disease of the coronary arteries, one of the major forms of heart ailment.

He said persons who survive without complications a heart attack caused by blocking of a coronary artery have a good chance of getting life insurance, and he added, "This is a concrete indication of our (insurance companies') changing attitude towards coronary disease."

But he declared the findings regarding mortality rates among people who have serious heart "murmurs" justify the present "conservative attitude towards insurability" of such people.

Among other findings: Acute rheumatic fever: life expectancy "far better" than had been supposed a few years ago. Migraine headache: normal life expectancy and, in some categories, even better than normal.

Chronic bronchitis: attended by death rates 50 to 80 per cent above normal.

Stomach ulcers: in the absence of any hemorrhage, mortality rates just about the same as normal.

Dime Ends Worries About Bad Payment

CHAMBERSBURG, Pa. (AP)—Retired storekeeper John F. Bowers received a dime in the mail yesterday from an unidentified Napanee, Ind., woman with this note: "About 10 years ago I gave you a foreign dime in payment of a purchase instead of an American one. It has bothered me ever since. Thus I am going to send you a dime and ask forgiveness."

Defense Continues Angelina Jurist Case

LUFKIN (AP)—The defense today continued its case for Angelina County Judge J. T. Maroney Jr., charged with "murder through accident and mistake" while intoxicated.

The official was involved in an automobile accident last Nov. 7 in which Mrs. Myrtle Louise Davenport was killed.

Six witnesses testified that Maroney was either intoxicated or smelled of alcohol following the accident.

Nine witnesses testified yesterday Maroney had not been drinking.

Ex-Harris Prosecutor Has Trial Date Reset

HOUSTON (AP)—Trial of ex-district attorney William H. Scott on a charge of operating a bawdy house has been reset for June 14.

The postponement came yesterday when two physicians certified he is suffering from a brain illness.

Dr. C. A. Dwyer, Harris County psychiatrist, said the disease is incurable.

KIDNEYS MUST REMOVE EXCESS WASTE

Nagging backache, loss of pep and energy, headache and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday conditions, such as stress and strain, cause this important function to slow down, many folks suffer nagging backache—feel miserable, minor kidney irritations due to cold or wrong diet may come getting up nights or frequent passages.

Don't neglect poor kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 40 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

Flames Gut Stores In Sooner Town

COLBERT, Okla. (AP)—A block of brick buildings—the entire Colbert business district—was reduced to rubble today with the ashes still smoldering. A raging fire burned out of control all last night.

B. M. Leecraft, owner of a building which housed a theater and a grocery store, said the five buildings which were gutted were worth about \$20,000. However, he added, equipment in the structures, which included a bank, would probably put damage near the \$100,000 mark.

There were no reported injuries. "All we could do was let it burn itself out," said Leecraft. The small Bryan County community of about 1,000 population has no public water supply. It also has no fire department.

Trucks were rushed to the scene from Durant, 12 miles to the north, and across the Red River from Perrin Air Force Base and Denison, Tex.

Fire fighters had to flee from the area at one time. Several thousand rounds of ammunition in a hardware store began exploding.

"We couldn't get within three blocks of it when the ammunition was going off," troopers said.

Lt. Floyd Brown of the highway patrol said several hundred volunteers from Denison and Durant fought the flames with "burial sacks and anything they could get their hands on."

Methodist Leader Dies At Age Of 82 After Operation

DALLAS (AP)—Dr. Hubert Delaney Knickerbocker, 82, retired Methodist minister and one of the founders of Southern Methodist University, died at his home last night six weeks after an operation.

First pastor to fill the Trinity Methodist church in Dallas, in 1903, he organized and built fifteen churches, helped build the Methodist hospital, was district superintendent three times and was four times a delegate to the Methodist General Conference.

Born June 25, 1871 in Baton Rouge, La., he had been self-supporting since he was 12 years old and was proud of the fact that he came up the hard way and worked his way through Centenary College, Louisiana, and Birmingham-Southern College.

Nationally known as a money raiser for church work, he was responsible for obtaining millions of dollars for churches, schools, hospitals and homes of old ladies during his long life time. He was a Mason and a Knight of Pythias.

In 1930, he wrote a check for \$500 to provide the salary of a native of India to serve as a missionary there for a year. The gift was a memorial to his son, H. R. Knickerbocker, radio commentator and Pulitzer prize winning reporter who was killed in the crash of an air liner in 1929 near Bombay, India.

In Great Britain with a population of 50 million, more than 23 million are employed.

A "Reel" Antique

Mrs. Earl Bryant Jr. wonders just how one would go about using this antique reel which belongs to the Shine Phillips family and is 100 years old. The reel was displayed Wednesday at the antique and art show and silver tea which was sponsored by the 1905 Hyperion. Proceeds will go to restore Independence Hall in Philadelphia, a federated women's club project.

Articles Of Beauty, Utility Shown At Tea

An article, which might well be on its way back if the drought hangs on much longer, is the "flesh brush" shown at the Antique and Art Show given by the 1905 Hyperion Club Wednesday afternoon at the Episcopal Parish House.

This brush is one that was used by Texas Ranger, James McDowell, brother of the late L. S. McDowell, in the early 70's when there was a very little water available for bathing. A "dry bath" was taken by vigorously rubbing the body with the brush in order to stimulate circulation.

Probably in use about the same time is a fan in the collection of Mrs. Pearl Shannon of Colorado City, sister of Mrs. Jimmie Greene. This was called a Filtration Fan and is equipped with a tiny mirror on the outside. It is between 100 and 200 years old. A Chinese ceremonial fan from Peking added interest but not as much beauty as the bride's fan from Paris.

A set of the Complete Works of Shakespeare, published in 1823 and

displayed by Mrs. K. H. McGibbon, is covered with hand-tooled leather over a wooden base. In this same class is the album belonging to Mrs. Marvin House. It has been in her family for 90 years and was a wedding gift to an ancestor.

Music was played by a Swiss music box dated 1856, which was shown by Mrs. Charles Long. She also displayed a dessert set with ivory handles, circa 1750. Brought from England to this country in the year 1857 was a silver caster, about eighteen inches high. Its six cathedral-like openings were moved by a small knob. Mrs. Bess O'Brien is the owner of this piece.

Marie McDonald showed a large China clock, which was dated 1868, and a group of plates, relish dishes, glass and a vase which has been in her family for over fifty years was displayed by Mrs. Clyde Angel.

A copper cooking utensil which resembles our deep-well cookers was in the group of copper used as early as the 12th century around Cuzco, Peru, the capital of the ancient Incas. The age was established because of the amount of gold mixed with the copper. This is the possession of Mrs. Newton Hagins.

In addition to the antiques, there was a collection of work by local artists—ceramics, portraits, still life, commercial art and floral pictures. Also of local interest was the collection of originals in water colors of the scenes around Big Spring, which were painted by Russell Vernon Hunter to illustrate Margaret Cousins' article, "Big Spring," which appeared in the March issue of "Ford Times."

The tea-table was laid with a heavy ecru lace cloth and centered with an arrangement of pansies and iris flanked by yellow tapers. Club members alternated at the punch bowl.

Floral Pictures To Be At Flower Show

Floral pictures, done by local artists will be displayed by the Big Spring Garden Club during the annual Flower Show to be given in the gym at Howard County Junior College Saturday and Sunday from 4 p. m. to 8 p. m.

Using as the theme, "Through the Garden Gate," members are making every effort to insure the best show given by the club to date. Some of the pictures have been especially painted for showing at this exhibition.

Among the artists having pictures hung are: Mrs. J. Emmette Miller, Mrs. Ira C. Raley, Mrs. Pat R. Patterson, Mrs. Robert E. Lee and Leon Sparkman.

Local Girls Are Accepted By School

COLUMBIA, Mo. (SpI) — Libby Jones and Margy Keaton of Big Spring have been accepted as students at Christian College for the 1934-35 school year.

Miss Jones is the daughter of Mr. and Mrs. Truman Jones, 1204 Douglas, and Miss Keaton is the daughter of Mr. and Mrs. Herbert Keaton, 416 Dallas.

Both girls are seniors at Big Spring High School. Miss Keaton intends to specialize in music and Miss Jones will major in speech and dramatics. Miss Jones is active in Tri-Hi-Y and serves on the annual staff, the student council and school newspaper at the high school.

Local P-TA Delegates Attending Snyder Meet

Mrs. Alton Underwood and Mrs. F. G. Leslie Snow are representing the City Council P-TA conference in Snyder Thursday and Friday. Mrs. W. N. Norred is district president and will preside.

Other local P-TA representatives attending are Mrs. W. C. Vaughn and Mrs. Leon Kinney, Junior High; Mrs. Roy C. Sloan, Mrs. E. P. Driver, Mrs. J. H. Homan and Mrs. Della K. Agnell, Central Ward; Mrs. Woodrow Dowling and Mrs. Leonard Shipman, Washington Place; Mrs. W. S. Goodlett, Mrs. B. S. Hubbard, Mrs. Loy House and Mrs. Mack Alexander, College Heights; Mrs. C. H. Hyden, Mrs. Jack Cook and Mrs. Burt Sammons, South Ward.

Mrs. C. W. Fisher, Mrs. W. C. Bell, Mrs. Eldon Appleton, Mrs. Marion Parkhill, Mrs. A. C. Klover and Mrs. E. L. Powell, East Ward; Mrs. H. W. Kirby and Mrs. Bledsoe O'Brien, West Ward; Mrs. F. A. Gibbs, Mrs. E. L. Fannin, Mrs. R. O. Smith and Mrs. Trinidad Cano, North Ward; Mrs. P. W. Malone and Mrs. T. H. Tarbet, Park Hill and Mrs. A. M. McNary, Mrs. H. H. Rutherford and Mrs. C. T. Earp, Airport.

At a meeting of the council Wednesday Mrs. Elvix McCrary was chosen to receive the state life membership this year.

The devotion was given by Dr. P. D. O'Brien.

It was announced that the council will conduct a school of instruction and joint installation May 5. A covered dish luncheon will be served at noon and installation of officers will be held at 1 p. m. A baby-sitter will be on hand. Place of the meeting will be announced later.

A committee was appointed to make the council's selection for "Woman of the Year." The committee is composed of Mrs. Agnell, Mrs. Homan and Mrs. A. C. Brown. Refreshments were served to 14.

Moth Proofer Is Guaranteed To Be Effective A Year

In the spring, a young woman's fancy lightly turns to thoughts of lightweight clothing. For a wardrobe change, like a weather change, is a tonic for anybody's morale. But morale suffers when the woman begins to wonder about summer storage, how to get complete protection against moths, without odor.

Modern science has helped by providing a spray that is very low in cost, a value in Real-Kill Moth Proofer that requires but a flick of the finger to apply its effective, odorless, stainless mist. The manufacturer guarantees protection against costly moth damage for one full year when used according to directions.

An important ingredient of the product is DDT, which, according to U. S. Army tests, gave woolen garments 100 per cent protection from moth damage for a full year.

This spring, you can store your winter woollens in a closed closet after they've been properly sprayed and forget them until fall. Just remember to spray until moist, and pay particular attention to seams, folds and cuffs.

Protection is available too, with Real-Kill Moth Proofer for draperies, carpets and furniture. Spray carpets in the corners and under furniture. On upholstered furniture, spray in corners and crevices. Don't worry about stains. The better products such as Real-Kill Moth Proofer are odorless and non-staining to even the most delicate fabrics.

Models Pick Soap To Aid Complexion

Those cover-girl models have to cater to their complexions, because their livelihood depends on it. A recent survey revealed that nine out of 10 of America's leading cover-girl models use SweetHeart soap regularly to reveal the true beauty of their skin.

They say that SweetHeart's more luxuriant lather keeps them fresh all day and that regular SweetHeart care brought them new complexion beauty in even one week. They report that this is a soap that agrees with the skin.

The same girls watch their budgets and are able to get SweetHeart on that product's famous 1 cent sale offer. This is a traditional bargain offer that always attracts wide response.

SweetHeart is a hard-milled soap, and this means that all the soap is there. It lasts longer, dissolves more slowly, and is firm down to the last sliver.

There is an opportunity now to insure beauty and budget—with the SweetHeart soap 1 cent sale being featured for a limited time now, at most stores. For just one cent, you get a cake of this fragrant soap when you buy three cakes at the usual price—a saving of nearly 25 per cent. The offer applies to both the regular size cake of SweetHeart and the bath size.

Mrs. Raley To Show Pupils Work At Tea

In a formal tea from 6 p. m. to 9 p. m. at Howard County Junior College Library, Mrs. Ira C. Raley will present the work of her art class on April 13. This is an annual affair and is open to the public.

Mrs. Raley painted her first picture at the age of fourteen and took instruction in the University of Texas. After her marriage, she moved to Abilene, where she studied with Mrs. W. D. Kendall.

She has lived in Big Spring for about ten years and has taught water colors, pastels and oils. She has done Baptists in Big Spring and in Ballinger. Her plans for the near future include a series of pictures based on the life of Christ.

"Kitten" Suits

By CAROL CURTIS

Eight-inch embroidered "kitten heads" form the bibs on these cool summer play suits for the 4, 6 and 8-year olds. The patterns contain a transfer for three heads, tissue pattern for the suits. Easy to make, easy to launder, delightfully amusing!

Send 25 cents for the "KITTEEN HEAD" PLAY SUIT (Pattern No. 120) all instructions, YOUR NAME, ADDRESS, PATTERN NUMBER, SIZE to CAROL CURTIS, Big Spring Herald, Box 229, Madison Square Station, New York 10, N. Y.

Ready now! The brand new, exciting 36-page CAROL CURTIS NEEDLEWORK GUIDE, in color, containing over 150 designs for knitting, crocheting, embroidery, hairpin lace, four "How to Do It" designs, summer fashions, something for every age, every climate. In addition there are TWO FREE patterns for fluttering spring and summer glamour! The NEEDLEWORK GUIDE costs only 25 cents. Order it as you do your needlework patterns!

The Girl's At Ease

Lilli Palmer, a girl who divides her time between pictures, stage and television, gives credit for her boundless energy to a relaxation trick.

HOLLYWOOD BEAUTY

Lilli Palmer Gives Her Method Of Relaxation

By LYDIA LANE

HOLLYWOOD — When Lilli Palmer was in Hollywood recently with her husband, Rex Harrison, she was telling me of her busy days. Looking at her tiny frame as we sat over a tea tray I asked where this dynamo of energy came from.

"It's being able to relax," Miss Palmer explained. "There's nothing so prodigious of energy as tension. When I am working the moment I finish a scene I go to my dressing room and turn to a book. I read a biography of an ancient ruler or something quite remote from our civilization today. I find it very relaxing to escape in this fashion."

"Do you read yourself to sleep?" I asked.

"No, I fall asleep almost as soon as my head hits the pillow," she confessed. "But I always am relaxed when I get into bed. If I come home after an exciting evening I get into my dressing gown and sit or lie comfortably somewhere until I feel my whole body let down. I think if you go to bed keyed up you are liable to lie there and toss."

"I find it helpful to relax by having an image of water," Miss Palmer continued. "I see a deep green pool at the bottom of a dark

mossy well. I start to look down, down down..."

"Where did you hit upon this?" I asked.

"I don't know exactly — it goes

MORE ABOUT NAILS

Try Lilli's suggestion if your nails are brittle. And, if you want more information on care of the nails, you should get a copy of leaflet M-30, "Giving Yourself a Manicure." Included are detailed instructions on equipment, techniques, etc. Added, Rosemary Clooney's "The Way To A Beautiful Skin." Get your copy by sending five cents AND a self-addressed stamped envelope to Lydia Lane, Hollywood Beauty, in care of The Big Spring Herald. Remember to ask for leaflet M-30.

way back," Lilli answered.

Miss Palmer's nails were so long and beautiful that I wanted to know how she kept them from breaking.

"They used to be very brittle and they'd pop when I would hit them against anything. Then a surgeon suggested that I try using lemon on my hands before I washed them. This worked so well that now I carry a small bottle in my purse so that I can put it on my fingers when I wash my hands away from home."

Concordia Ladies Aid Plans Special Easter Activities

Special plans for the Easter services at St. Paul's Lutheran Church were made by Concordia Ladies Aid Society at a meeting Wednesday. A family dinner will be served at noon and an Easter egg hunt is planned for the afternoon.

The group hopes to provide a TV set so that members can view a special Easter program, "This Is the Life" on Easter afternoon.

During the devotion members read from John 17, and Mrs. W. C. Heckler led a discussion on "Prayer." The meeting was opened with prayer by the Rev. A. H. Hoeyer.

The society will be hostesses to the spring rally of Walther Leagues of this zone May 2.

Refreshments were served by Mrs. C. D. Downing to 12 members.

Frances Weeg Editor

ALPINE, Texas — Frances Weeg was recently elected by the student body of Sul Ross to be editor of the "Sage," a magazine put out by the college. Frances is the daughter of Mr. and Mrs. F. H. Weeg of Big Spring and is a freshman, majoring in English.

Miracle Bluing At Low Cost, In Blu-White Flakes

Whether you're a housewife with big washes to handle, or a career girl who does only incidental wash-bowl laundering, you will like the outstanding quality of Blu-White, the flakes that contain miracle bluing. Blu-White is recognized as being easy to use for it blues and washes at the same time. There's no extra bluing rinse needed.

Proper laundering and rinsing methods are shown to be largely responsible for the fragrance of newly-laundered clothes. Blu-White helps to turn out a fresh and snowy wash with no worry about fading colors.

The washday "lift" with Blu-White has a special attraction right now, because of the product's famous 1 cent sale, being offered at stores for a limited time. For only a penny, one can get a regular-size package of Blu-White with the purchase of three regular-size packages at the usual price.

Park Hill P-TA Sees Operetta At Meeting

"The Awakening of the Roses," an operetta, was given by the second grade of Park Hill when the P-TA met Tuesday evening. They were accompanied by Mrs. Bill Griese.

The High School debate team, under the direction of Dell McComb, debated the question, "Should the President of the United States be Elected by Direct Vote?" The second grade won the room count.

Indoor Sports Club

The Indoor Sports Club will meet this evening at 7:30 in the Girl Scout Little House. "The Red Chair Waits," by Alice Margaret Huggins, will be reviewed by Mrs. B. L. LeFever.

Mix a half a cup of powdered sugar and a teaspoon of cinnamon together; sift over the top of a sponge cake.

Texas Prison Escapees Caught Following Louisville Gun Battle

LOUISVILLE, Ky. (AP)—Stupefied by beer and narcotics, five men who engineered a clever Texas prison break were caught here yesterday by police checking a drunken driver report.

They included Vernon Lee Joiner, 32, the convicted murderer described as the brains behind the quintet's escape from the Central Prison Farm near Sugar Land, Tex., during a fog last Saturday.

Lt. Oscar Doering of the Louisville police department said the five told of a series of car thefts and burglaries in Texas, Louisiana and Tennessee before they were caught here.

One of the car thefts netted them a doctor's case containing narcotics and the men took some of the drugs here and spent the day resting and drinking beer, said Doering.

They were in such a stupor when apprehended that it was difficult to get a clear story from them, the officer said.

The car carrying the five overturned at the end of a running gun battle with Louisville police. Three of the convicts were caught at the scene and two were found hiding in a nearby storage shed.

Besides Joiner those caught were:

Virgil T. Winders, 33, serving a 25-year Comal County robbery sentence; Boyce James Wallace, 24,

under a 23-year Dallas County burglary and robbery sentence; Billy Raymond Bedford, 30, under a 7-year Tarrant County burglary sentence; and Robert J. Robins, 36, serving three years from Bexar County for burglary. Joiner was serving a 19-year sentence from Orange County for murder.

Texas prison officials said all but Joiner were in a prison tank or dormitory and sawed their way out, went directly to Joiner who was working in the prison laundry, were supplied with clothes by Joiner, and then scaled the prison wall by ladder during a fog.

Doering said Winders and Bedford admitted smuggling saw blades into their cells. Texas prison officials had said they had no idea where the men got the saws.

Doering gave this account of the men's activities:

"They stole one car near the prison farm, and drove it to Liberty, Tex., where they abandoned it and took another vehicle. They also broke into a dry-cleaning plant there to get clothes to replace their prison garb."

"Another car was stolen in Leesville, La., and driven to some place in Mississippi where they took another auto. They also broke into a grocery and service station in Mississippi. They got \$50 in the service station job."

"They drove to Nashville, Tenn., where they took a 1953 Oldsmobile

which they drove here. A rifle was in the car, and a doctor's case containing a quantity of narcotics.

"The men robbed a service station of \$25 in Nashville, and also broke into another dry-cleaning plant. Clothing taken here included two shirts bearing the insignia of the Tennessee state highway patrol."

"They got here at daybreak yesterday and spent the day resting and drinking beer. They also took some of the drugs found in the auto. They decided not to stay here, and were just leaving when police spotted them."

Butcher Cattle Up At Local Auction

The market remained steady and butcher cattle were stronger at the Big Spring Livestock Auction Company's sale Wednesday.

Bulls sold from 13.00 to 14.50, fat cows up to 12.50, butcher cows from 8.00 to 10.00 and fat yearlings from 17.00 to 19.00. A "w" choice calves brought even better prices.

Stocker steer calves went for 17.00, heifer calves up to 16.00, cows beside calves from 90.00 to 113.00 and hogs from 28.00 to 28.75.

An estimated 300 cattle and 50 hogs were sent through the ring.

There are about 76,764 white people in the Belgian Congo in a population of about 12 million.

Polite Driver Given Scare

DETROIT (AP)—Police went looking for a courteous driver yesterday. They found one—it took a bit of time—and they nearly scared all the courtesy out of him.

Ralph E. Cody, an automobile salesman, was driving along Woodward Avenue. A city truck loaded with workmen and a bubbling cauldron of asphalt was waiting a chance to get on the main drag.

Cody politely paused to let the truck pull out.

Police Inspector James Hoye, head of the traffic division, said, "That's our man."

The inspector pulled abreast of Cody, smiled at him and beckoned

toward the curb. Cody looked startled, but kept on driving.

"But the inspector, who had spent all day looking for a courteous motorist, wasn't going to let this one get away.

"Pull over to the curb," he thundered. Cody did.

"What have I done?" asked Cody. "Not a thing," the inspector grinned.

Cody was the first driver to receive the Courteous Motorist award in a new safety campaign put on by the Automobile Club of Michigan.

IT HAPPENED

Illegal Toll Bridge

DETROIT (AP)—Raymond Ford and Willie Alfred, both 17, tried to make a toll bridge out of a new expressway overpass in Detroit, police said today.

Police said the youths demanded money from school children to permit them to cross the overpass. The youths were held for investigation of robbery not armed.

No Need For Voting

LUSHTON, Neb. (AP)—Lushton, population about 100, was supposed to have an election Tuesday. It didn't. Seemed nobody could get steamed up about anything, so the town just forgot about it. There are no definite plans for holding one later.

Two-For-One Rescue

CHICAGO (AP)—Eugene Calvert, 17, shimmied up a 65-foot tree yesterday to rescue a cat that had been there three days. He was in the tree a half hour before firemen

Take Order Literally

PASADENA, Tex. (AP)—Pick up all the stray dogs, ordered Police Commissioner Ralph A. Davis.

His men did, and one was a large collie.

Davis went down to the dog pound and paid \$5 to get the collie out, because it belongs to Ralph A. Davis Jr.

Anyone Missing Leg?

BOSTON (AP)—A suitcase containing a wooden leg with a black shoe on it was found in bushes at Franklin Park yesterday. Officials are looking for the owner.

Go Some Further

ALBANY, N.Y. (AP)—The State Liquor Authority called its star witness to nail down its charge that a local grocer sold beer to a minor.

The witness, a 13-year-old boy, was asked if he had bought bottled beer at the store.

"No," answered the boy.

The startled S.L.A. attorney asked the boy if he hadn't told investigators earlier he had bought beer at the store.

"Well, yes," said the boy "but you never asked what kind of beer. It was root beer."

Jones Named President Of City Lions Club

The Steamrollers and Streamliners locked horns in a to-the-death struggle Wednesday at the Lions Club, and this time the former largely prevailed.

The "Steamrollers" is the title given by the opposition Streamliners to the nominations returned by past president of the club.

There was lively campaigning, spotlighted by the stirring orations of Gil Jones and Roy Worley, rival presidential candidates. Jones won... but so did Worley. He was a candidate for director on the same ticket with Jones.

Anyway, new officers of the club will be Guilford Jones, president; Larson Lloyd, vice president; Marshall Cauley, second vice president; Carl Smith, third vice president; Fred Stitzel, secretary-treasurer; C. O. Hitt, Liontamer; R. H. Snyder and Cliff Fisher, tail-twisters; Roy Worley and Louis Carothers, directors. The holdover directors are W. O. Underwood and George Melear.

Roxie Dobbins, president, announced that during the first quarter, the regular monthly "sandwich day" plan of the club had yielded \$213 for the crippled children camp sponsored by Lions of Texas.

He asked also for anyone who knew of a crippled child between the ages of 7 and 18, inclusive, to turn in the name before April 20 if the child would like to attend the camp near Kerrville. Only possible charge is transportation to and from camp. Lions contributions provide for lodging, food and all recreation during the two weeks in the camp. Because of limited facilities, totally bedfast or mental cases could not be accepted.

Brady Creek Funds Asked

WASHINGTON (AP)—Sen. Lyndon Johnson (D-Tex) has urged the Senate Appropriations Committee on Agriculture to approve increased funds for upstream flood control work on Brady Creek watershed in Texas.

He said in a statement yesterday he was "encouraged" to believe that an increase would be approved over the \$288,000 recommended in the President's budget for the year starting July 1.

The total cost is the federal government of the project, calling for 47 dams on Brady Creek in three West Texas counties, is estimated at \$4,737,238. An additional \$1,534,000 would be spent on the improvements by farmers in the area.

"I have joined West Texas landowners in urging the economic wisdom of recommending an appropriation of not less than one million dollars in the 1955 budget for this project," Johnson said.

"That would enable work to move forward on the basis of four years of construction."

"This schedule would avert a heavy potential flood damage loss, would reduce administrative costs from perhaps 30 per cent to about 10 per cent, and would get the job done in four years instead of twenty."

The female bullfrog is slightly larger than the male and usually is silent.

No Worries About Model

When developer John L. Tompkins started his Padre Beach resort area on the south tip of Padre Island, he didn't have to worry about hunting a model to point up Padre's resort charms. He simply called on his daughter, Carolyn. Here she is—enjoying the warm weather on Padre's white sand. The Gulf of Mexico is in the background. (AP Photo).

Bracero Labor Could Prove Costly If Jobless Increase

DALLAS (AP)—If the state's unemployment grows it may prove costly for Texas farmers planning to use Mexican bracero labor.

Kerr Plans Efforts To Get Canadian Veteran VA Care

WASHINGTON (AP)—Sen. Kerr (D-Okla.) plans again to accompany before a Senate committee an Oklahoma City mother seeking U. S. government hospitalization for her son who served with the Canadian Air Force in World War II.

mission, called the Texas Cotton Ginners Assn. attention yesterday to certain provisions of the international agreement on use of Mexican national labor. LeBlanc addressed closing sessions of the ginners' convention.

At the same time, the agreement provides that if American citizens are unemployed they get first call on jobs they can handle.

Susan Hayward To Go To Court June 14

BURBANK, Calif. (AP)—Susan Hayward and Jess Barker have been unable to resolve any of their marital disagreements, and Miss Hayward's divorce suit will go to trial June 14.

The date was set yesterday following the failure of a pretrial conference before Superior Judge Herbert Walker.

Russians Might Soon Come Up With Contradictory Trade Plan

By FRANK O'BRIEN
WASHINGTON (AP)—Don't be surprised if Russia soon offers to sell production machinery to the Western world—and, at the same time, to buy production machinery from that same Western world.

Contradictory, yes, but Soviet plans usually are, and U. S. Commerce Department officials analyzing a Russian trade promotion campaign which has been under way for 9 or 10 months believe these points will be part of a proposal they expect Moscow to make soon, a proposal advocating a "return to normal trade relations."

of the world is seriously hurting Russia's attempt to keep her following in neutralist Asia and in nations of delicate political balance, like Italy and France.

4. Economic ties are pipelines of political influence. In any country where Russia can establish trade of any economic importance (for instance, become a main buyer of ships) it immediately expands its political influence because it could cause economic trouble by threatening to withdraw this trade.

ing interpretation of what is and what is not strategic trade. Recent reports from London have spoken of British merchants, back from Moscow with contracts for goods, beseeching the government to put a liberal interpretation on strategic trade lists.

Effectiveness of the West's attempt to contribute nothing to Soviet warmaking ability depends on common action throughout the free world, but Russia's professed new willingness to do business with the West has been tempting.

Traffic Lights Prove Trouble In Nogales

NOGALES, Mexico (AP)—Traffic lights installed in this Mexican border town yesterday, and the result was worse than anything on bull-fight days.

Brakes screeched and traffic piled up as confused motorists plunged through red lights and others skidded to a stop in fright.

A female bullfrog can grow to a length of 10 inches and a weight of 3 1/2 pounds.

Similarity In Names Brings Visit To Aged Texan By Angelo Solon

By **TEX EASLEY**
 WASHINGTON (AP)—O. C. Fisher, 82, retired soldier-lawyer-postal clerk, was fascinated by a similarity in names so he sat down and in a strong, firm hand penned a letter to Rep. O. C. Fisher of San Angelo.

"As the oldest living graduate of the University of Texas (law '86), I naturally am very much interested in anything of value produced by the Lone Star state," he began.

On stationery showing that he is now a resident of the Old Soldiers Home here, he said that while attending a reunion of old grads at Austin last April he had been pleased to learn upon inquiry of Rep. Fisher's "ability and assiduity in office."

Fisher promptly decided to pay the old gentleman a visit. This correspondent went along.

Interrupted at a game of solitaire, the cards spread out on his bed in a sunny ward of an ancient red brick building, the gray-haired old soldier sprang from his chair and stood erect in blue-striped pajamas and lounging robe.

"This is a pleasant surprise," he said.

"I've learned in life that the unexpected pleasures are the ones we appreciate most."

He was born Jan. 10, 1852, and named after his father, Orceus Chase Fisher Jr. He began law practice in Gatesville after graduation from the university in 1886.

"There were too many lawyers there already," he commented with a smile. "So, I went up to Donley County and helped found the town of Clarendon."

He served as assistant county attorney there, then began to real-

ize that a death was coming on which handicapped him in handling witnesses.

"It got to where I couldn't hear them near as well as I can now," he continued.

"I decided to get a job with the government and took a postal clerk examination. I made 82 on it, but a soldier with veterans preference who had made 5 points less got the job."

When this happened again after a second try he decided the way to whip that obstacle was to join the Army. He enlisted at New Orleans, and after two years in the service took a postal examination once more and was promptly hired.

He spent 38 years in the postal system including service at New Orleans, Atlanta and in New Mexico. In the Spanish-American war he took time out for a year to help organize an infantry company and fight with it in Cuba.

Occasionally during the inter-

view he would be seized by a series of pains high in his chest. He startled his visitors, the first time, when he soundly whopped himself several times on the chest with his clenched fist.

"It's all right," he said, when he could speak a moment later. "I've just found that's the best way to get it over."

The rest of his story:

His mother, Mrs. Rebecca Fisher, was an early leader of the temperance movement in Texas and prominent in civic and church activities. Her picture now hangs in the Texas capitol.

She had been brought to Texas with her parents in 1835, and shortly after that both parents were killed by a band of Indians who burned their log cabin and ran off with Rebecca and a 4-year-old brother. The Indians threw the children aside when pursued by white settlers.

His father, a pioneer Methodist minister, served as chaplain of the Congress of Texas when Sam Houston was president of the republic.

Fisher asked if there anything he could do for the older man.

"Not a thing," he replied quickly. "I've got everything I want. I'm comfortable. There's plenty to read, and almost every day some of us go down to the canteen to talk over a glass of beer."

Compromise Set In Case Of Noisy Fan, Angry Jurist

ST. LOUIS (AP)—The noisy exhaust fan that prompted Circuit Judge James F. Nangle to find two city officials in contempt will be shut off while the judge is in his chambers.

Health Commissioner Dr. J. Earl Smith and Hubert W. Guth, superintendent of municipal buildings, agreed to the compromise yesterday and promised to find a way to use the fan on a full-time basis while keeping the judge happy too. Judge Nangle gave them a week to solve it.

They were cited for contempt when they failed to heed Judge Nangle's order to silence the fan March 3.

The fan (it's vital, says Dr. Smith) is atop the Municipal Courts Building and blows fumes from the Health Department laboratory through an exhaust duct. The judge says the fan's hum invades his chambers and is "an obstruction of justice."

Andrews Sets Tour

DALLAS (AP)—Internal Revenue Commissioner T. Coleman Andrews will call on regional offices in Fort Worth, Austin and Houston in May. B. Frank White, regional commissioner for the Southwest at Dallas, said yesterday the government's top tax man will make a number of speeches in the Southwest.

A big oil tanker with 145,000 barrels of fuel oil carries the equivalent of 36,250 tons of coal.

Three Persons Die In Texas Smashup

JOHNSON CITY, Tex. (AP)—Three persons were killed instantly yesterday in an automobile-truck accident two miles south of Johnson City on U.S. Highway 281.

The accident occurred when a truck-tractor being hauled by a truck broke away and plowed into a car following the truck. Highway Patrolman H. H. Frye said.

Dead were Mrs. Joyce Faye Brady, 24, New Braunfels; her year-old son, Daniel Ralph Brady, and Mrs. Ruth Childers, of South Plains, Tex. All were riding in the car driven by Mrs. Brady.

The truck involved was driven by Carroll Schuler of Dallas.

Patrolman Frye said the truck-tractor was being towed with its front wheels chained to the tailgate. He said it came loose as the Brady car approached and the two vehicles collided.

To Administer Oath

HOUSTON (AP)—Federal Judge T. M. Kennedy tomorrow will administer the oath of office to Emmet M. Smith, new U. S. Marshal for the southern district of Texas. Smith, a Houston insurance man, succeeds Clifton C. Carter, Bryan, who was appointed by President Truman in 1948.

Injuries Prove Fatal

HAMILTON (AP)—Injuries suffered Monday in a car-bus collision proved fatal yesterday for Mrs. Ralph Schrank, about 60, of Hamilton. Mrs. Schrank was a passenger in a car involved in a collision with a Jonesboro school bus carrying the school's baseball team to a game site.

Sen Executive Claims Jim Busby Better Than Mantle

Insists Writers Created Myth

By HERB ALTSCHULL
WASHINGTON (AP)—“Mickey Mantle is probably the most overrated player in baseball,” Calvin Griffith said today.

Griffith is executive vice president of the Washington Senators, who own a bit of baseball property named Jim Busby.
“Sure, Mantle’s a good outfielder,” Griffith said in an interview. “But he isn’t as good as Busby.”

Griffith said that if Mantle were playing for anybody but the New York Yankees, “You’d hardly ever hear of him.”

His idea was that the Yankee publicists, a and New York sports writers have built Mantle up into something he is not. “If Busby were playing for the Yankees,” Griffith said, “they’d be calling him another Tris Speaker or something.”

Mantle, the youngster from Commerce, Okla., is out of action as the result of a knee injury and won’t be in the lineup when the Yankees play the Senators on opening day here next Tuesday.

The Yankees’ successor to Joe DiMaggio, he has been billed in many parts as one of the hottest prospects to hit the major leagues in some time. Griffith will remember his power, since it was in the ball park here that Mantle socked a 568-foot home run last year.

Busby, a native of Kennerly, Tex., is at 27 nearly five years older than Mantle. Griffith regards him as one of the most underrated players in the league.

Mantle, considered an expert in grabbing flies, “can’t compare with Busby as a fielder,” Griffith said.

Clark Griffith, 84-year-old owner of the Senators, chimed in: “Bus is one of the best flycatchers I’ve ever seen.”

Then there’s the matter of hitting. Last year Mantle batted .292. Busby’s average was .312.

Mantle batted in 92 runs and Busby 82, but Calvin Griffith noted that a lot more Yankees were on base last season for Mantle to drive home than there were Senators ahead of Busby.

The Yankee centerfielder, considered more of a power hitter than Busby, hit for 229 total bases last season. Busby’s total: 243.

Mantle stole 8 bases, Busby 13. “That enough?” Griffith asked with a wink.

Maroons Upset By West Ward

West Ward handed Kate Morrison his first Ward School softball league defeat in two seasons Wednesday afternoon.

The Cowboys won an 11-7 verdict, thanks to a bases-choked home run by Wesley Rawls in the sixth inning.

The Waddies collected three runs in the first, two in the third and six in the sixth. The Maroons scored two in the third, two in the fourth, two in the fifth and one in the sixth.

Jimmy Martin blasted a round run with one on for the losers.

Longhorn Mound Corps

Pitchers in the Big Spring High School baseball camp are pictured above. Left to right, top row, they are Carlisle (Frosty) Robinson, Frank Long, Ed Faubion, Garland Harrison and Charles Saunders. Front row, David Westfall (no longer with the team), Johnny Hickson, Tom Lynn and Sidney Butler.

10 Big Spring (Texas) Herald, Thurs., April 8, 1954

LOOKING 'EM OVER

With Tommy Hart

How are the Big Spring Broncs set for veteran ball players? Offhand, I'd say as good as the best and better than the rest, at the present time.

Pepper Martin, boss of the local spread, has been wise in lining up two class-man hurlers in Mike Rainey and Larry Cummins who should be able to win in this league plus Julio De la Torre, who always did have power and who likes to hit in this park because it has a very friendly left field fence.

Martin himself hits from the third base side of the plate and should find the left field barrier here very cozy. He clubbed 30 home runs while playing for Big Spring in 1947 and his power and his knowledge of solving the weaknesses of enemy pitching have improved since then.

San Angelo has a problem. At this writing, Manager Hillis Layne had seven veteran players in camp in addition to himself. Of that group, four are pitchers. They are Mario Saldana, Lou Lozano, Marv Christensen and Gil Guerra.

Layne will hit in this league. There's no question about that. Guerra can win as he has proved consistently in the past. But what about Lozano, Saldana and Christensen? John Malgarini and Charley Galina are other veterans with Angelo and neither may be around when the Colts open their campaign on April 20.

Odessa apparently will go with Wayne Batson, Tony DiPrimo, Evelio Ortega and possibly Leo Eastham as its veterans. Ortega, a pitcher, didn't have a very good season last year but he can win in this league. Batson is a reliable first sacker and will hit 300. DiPrimo, a catcher, has a lot of right-handed power. Eastham was way off last year and may be over the hill as a player. I personally think he is not.

Midland has Scooter Hughes, Lou Dawson, Joe Grasso and Manager Rudy Briner around which to build its club. Hughes is an excellent C ball player. Dawson is a better-than-average first baseman and outfielder. Grasso is a pitcher whose talent is unknown here. However, Eddie Jacome may replace him before the season starts.

Briner will hit but he's slow and a year older.

Wichita Falls has as its class-man Catcher Tony Traspuesto, Pitcher Julio Ramos, First Sacker Al McCarty and Outfielder Rex Cluley. Martin thinks he has the Spudders beat for veterans right down the line.

Roswell apparently will go with Joe Bauman, Stubby Greer, Weldon Day as its veterans.

Bauman is a holy terror with the mace but there are those who think he is due a bad year in baseball. He's been in baseball a long, long while and must be thinking of retirement. Greer is brittle. The question is, can he play 140 games?

Stacey is not the ball player he was three or four years ago, for the simple reason his legs are beginning to go back on him. He'll probably hit 300 plus, though. Day? Apparently, he's on the ball club because Greer likes him. Odessa gave him a trial last year and Weldon looked bad at the plate.

Artesia will have Jodie Phipps and Hoot Gibson among the veterans on its roster. Apparently, the Nublexers are awaiting other classmen to be sifted down from Dallas, their parent club.

What about Carisbad?

Last year, Pat McLaughlin won the pennant principally because he had rookies and limited service players who performed like veterans. Most of those boys are gone. He may be resolved to assemble a similar club this year. Right now, Merv Conners is the only veteran of note on the Potasher team.

It wasn't Coach Arnh Phillips' idea to move the important girls' volleyball play game between Big Spring and Lamesa from Odessa to Kermit, although she's not against it.

Lamesa officials requested that the two officials who have been working the crucial series, Floyce Brown of Seminole and Mrs. Lee Shaw of Dwyer City, worked the sugar game.

Since both have their teams in a district tournament at Kermit on Friday, they could not have come to Odessa, so the game was moved to Kermit.

Big Spring officials first suggested that the game be moved to Thursday night in order that it could be held in Odessa but that idea was vetoed when it was learned two of Lamesa's star players, Ann Barr and Estelle Prather, would have to attend a Junior-Senior Prom tonight.

Coach Phillips said she regretted that the game had to be played so far from Big Spring but there was nothing she could do, under the circumstances.

Anna Mae Thorp remains the leading scorer on the local team, with 125 points. Louise Burckett has counted 122. Elouise Carroll and Jan Burns 127 each. Nell Glover 125 and Bernice Bice 84.

Athletic Fund In Good Shape As Of Mar. 31

The Athletic Fund of the Big Spring Independent School District is in its best condition in several years and the most successful football team in the school's history can take much of the credit.

As of March 31, the fund showed a balance of \$6,404.41 and that after \$2,000 had been shifted to the Local Maintenance Fund and another \$9,238.19 had been spent on new equipment.

Receipts from the period starting Sept. 1, 1953, and ending March 31 amounted to \$44,259.24. Of that amount, \$22,151.90 came from out-of-town football games, \$5,225 from the sale of season ducats and another \$9,629.56 from home games.

The Steer football team had a 13-game season, only five games of which were played at home.

Disbursements included \$1,634.04 for game officials, \$4,433.62 for transportation of athletes and etc.

Here is a breakdown on the fund:

Receipts:

Season Tickets	\$ 5,239.00
Football: Home Games	\$ 4,239.56
Out-of-Town Games	\$ 21,912.34
"B" & Jr. High	\$ 22.11
Concessions	1,770.00
Adv. Programs	230.00
From L. M. Fund	2,000.00
Towel Fee	100.00
Refund Field	100.00
Basketball	85.15
Roller Ball	182.00
Miscellaneous	937.87
Totals	\$44,259.24

Disbursements:

Officials	\$ 1,634.04
Meals & Rooms	\$ 1,014.14
Swimming	\$ 431.20
Transportation	\$ 4,433.62
First Aid Supplies	\$ 211.00
Repair Equipment	\$ 1,988.94
Oleum Contract	\$ 1,422.76
Depreciate Machine	\$ 200.00
Electricity	\$ 215.85
Telephone	\$ 214.01
Water	\$ 978.37
Upkeep of Field	\$ 81.31
Laundry	\$ 850.88
Football Insurance	\$ 978.75
Risk Insurance	\$ 102.75
Awards	\$ 438.00
Yell Leaders	\$ 128.46
First Aid	\$ 156.77
Refund to L. M. Fund	\$ 1,000.00
Miscellaneous	\$ 25,577.65
Totals	\$22,151.90

Excess Receipts over Disbursements \$ 6,404.41

Steers, Hawks In Action Here

The Big Spring Steers, winners in two of five exhibition baseball games played to date, face a busy weekend.

Roy Baird's club comes to grips with the Midland Bulldogs in a 4 p.m. exhibition game here Friday, then test the powerful San Angelo Bobcats in a Saturday afternoon conference tilt, their first one of the season.

The Steers have won two games in four starts against Snyder and dropped a home engagement to Lubbock in exhibition tilts.

Carlisle (Frosty) Robinson or Sidney Butler will probably go to the mound against Midland Friday. Frank Long is due to get the starting assignment against San Angelo.

HCJ's Jayhawks also see action here Friday, meeting Frank Phillips of Berger in a double bill starting at 7 p.m. The first game is down for seven innings, the second for five.

The Jayhawks have broken even in conference starts, winning and losing to Clarendon.

In practice tilts, they've beaten San Angelo twice and won one of three games against Odessa.

Archie Moore's Fight Delayed

WASHINGTON (AP)—Light-heavyweight Archie Moore turned up with an ankle with Jimmy Slade, scheduled to be nationally televised next week, was ordered postponed.

Promoter Goldie Ahearn said the Columbia Broadcasting System, which airs the regular Wednesday night boxing shows, will give the April 14 date to Miami. Jake La Motta, former middleweight titleholder, will go 10 rounds against Billy Kilgore of Miami.

Player Is Better

HOUSTON (AP)—Emanuel (Sonny) Senerchia, 23, slugger Houston Buff outfielder hit in the head by a pitched ball Tuesday night, is "going nicely."

HSU Nosed Out

ABILENE (AP)—Texas Christian scored a 4-3 decision over Hardin-Simmons yesterday in a college golf match.

Texas League Teams Make Official Debuts Tonight

The Texas League race, new in more ways than it's just another year, swings open tonight. Dallas is at San Antonio, Oklahoma City at Shreveport, Tulsa at Beaumont and Fort Worth at Houston for the starters.

There are the usual optimistic statements—better attendance and a tighter and more brilliant campaign—and there also is the tendency to ride with the champion.

Dallas, one of the few things that isn't mostly new—the Eagles are standing virtually pat on their 1953 club—is an easy choice of the writers to lead over the full season route.

FOUR TEAMS READY, TWO NEEDED TO FILL OUT SOFTBALL LEAGUE

Efforts are being made to organize a six-team city softball league, which would use the City Park diamond as its base of operations.

Pete Cook, sponsor of the Cook's Appliance Company club, said he would much prefer to play in a local league than in Colorado City, where the team has been active the past couple of years, due to the travel involved.

Two Webb Air Base teams are ready to compete, too, Cook said, along with an aggregation from Vincent.

Cook stated he hoped Coahoma, another Colorado City entry, would see fit to enter a team here and teams would be welcomed from Forson, Stanton and any other surrounding communities.

Those interested can contact Cook by dialing 4-7476 or calling the Daily Herald's sports desk.

Broncs, Wichita Falls Square Off

Seventeen strong, the Big Spring Broncs departed this morning for Wichita Falls where tonight they play the resident Spudders in the first of two exhibition games.

Pepper Martin's team will remain over Friday for another engagement and expect to be back in Big Spring by daylight Saturday.

The Steeds play their next home game Sunday afternoon, at which time they face Midland in a 3 o'clock engagement.

Pitching woes still plagued Martin when he left here but he expects some help in a few days.

Spudders Acquire Francisco Lopez

WICHITA FALLS (SC) — The Wichita Falls Spudders of the Longhorn League have signed Francisco Lopez, a rookie hurler from Colombia, South America.

A righthander, Lopez has been active in winter baseball in Baranquilla in his native country.

Rafael Moya, a shortstop, has been released by the Spudders.

Wichita Falls plays Big Spring exhibition games here Thursday and Friday nights.

Hogan's Record May Be Broken

AUGUSTA, Ga. (AP)—The big boys of the 20th anniversary Masters Golf Tournament showed their hot practice rounds into the backround today and settled down to the deadly serious business of playing under pressure.

With a field of brilliant golfers such as the Masters draws, the pressure is terrific. Sensationally low practice rounds don't mean a thing when they start playing for keeps.

Take it from Ed (Porky) Oliver, the Lemont, Ill. veteran who was runner-up to Ben Hogan in the 1953 Masters. Porky fired a 34-30—70 in practice yesterday, matching the competitive record for the Augusta National course.

It was the lowest tuneup record turned in, but Porky wasn't exactly overjoyed about it.

"I don't like these kind," he said. "They don't count."

He may have remembered last year, when Lloyd Mangrum fired a practice 63 and took a 74 in the opening round.

Low scoring in the warmups may have prompted Hogan's prediction that his record 274 of last year will be broken.

With a record 79 players entered, 78 of the field were pondering pretty much the same question: "Is it possible to beat that little guy Hogan?"

District Meet Starts Tonight

FORSON (SC) — First round play in the Class B district girls' volleyball tournament gets underway in the Forson Gymnasium starting at 6:30 o'clock this evening. It will be continued through Friday.

Six teams are entered. The favorite is Forson, who swept through the single round-robin play without loss of a game.

If some team other than Forson wins the tournament, then it will engage the Buffaloes in a series. A Jay Mattson, another hurler, was due to be sent to the Steeds by Albuquerque but Manager Tom Jordan wanted to take another look at him.

Martin released Ed Donovan, one of his catchers, Thursday in order to make room for Crossley. Crossley played about 60 days with Albuquerque last year, then broke his leg, so he is still classified as a rookie. He hits left handed.

Martin said he may try to get Wichita Falls to come here for an exhibition game either Wednesday, April 14, or the following night.

Right now, the Steeds play only two more home exhibitions, the one with Midland Sunday and a Friday, April 16, outing with San Angelo.

Texan In Big Catch

TAMPOCO (AP)—Len Smith of Fort Stockton, Tex., yesterday landed a world record when he hauled in a 44-pound Palometa, or Bream. The Bream measured 45 inches long and 31 inches around the middle.

Cougars Seek Title

HOUSTON (AP) — University of Houston's track team goes to Lafayette, La., this weekend where the Cougars will defend their championship of the Southwestern Relays.

An Open Letter to the Folks of Big Spring and Surrounding Area
CHEVRON Finance Company
"Your Emblem of Friendly Service"
April 8, 1954
Dear Friends:
It was indeed gratifying to receive the big "welcome" that you gave us on our opening! You all did it up in true Big Spring style... first class... and we appreciate it. Doing business is one thing but having friends is just as important... in fact more important to us! It shall ever be our desire to merit your friendship and serve you in the most courteous, efficient manner possible.
We recognize our responsibility to the community and it is indeed an honor to be counted amongst its fine citizenry.
We further recognize our responsibility to each of you who feel that you would like to take advantage of our financial service. If at any time you need financial advice... or extra cash... or just want to visit... well just come see me at "Friendly Chevron Finance." You may rest assured that you'll be warmly received and you'll feel right at home.
Your patronage is helping us grow with Big Spring, is, of course, appreciated.
Yours truly,
Frank O. Franklin Resident Manager
P. S.—You folks at the base... needless to say... you're one of us! You belong here. Come see us!

MEN'S WEAR OF CHARACTER

H-Bomb Delay Nothing Sinister, Congressional AEC Head Finds

By RUSSELL BRINES
WASHINGTON (AP)—Rep. W. Sterling Cole says he knows of nothing sinister in the fact that high officials debated for months before deciding to press work on the hydrogen bomb, a weapon the government says is due for "greatly increased production."

Cole, New York Republican who heads the Senate-Atomic Energy Committee, recalled last night that full-scale work on the weapon was not decided upon until four months after Russia's first explosion in 1949 of an atomic bomb of the conventional type.

"This fact is not of itself sinister," he said, "nor does it imply that those who opposed the President's final decision were motivated by a desire to lessen our military strength."

He conceded that events have proved he was wrong in urging against the decision to go ahead with the superbomb.

Other present and former officials said they had no knowledge of any 18-month delay in the H-bomb project mentioned by Sen. McCarthy (R-Wis) on a nationwide television broadcast Tuesday night.

McCarthy said there was a deliberate delay, and he asked: "If there were no Communists in our government, why did we delay?"

President Eisenhower told his news conference he has never heard of such a delay.

Former President Truman, who made the decision to proceed with the H-bomb in early 1950, said in Kansas City, "The order was issued as soon as the scientists were ready to go to work." The first announced hydrogen explosion occurred 34 months later, in November 1952.

Sumner T. Pike, a member of the Atomic Energy Commission at the time, said in Augusta, Maine, he didn't know what McCarthy was talking about and he added of the senator: "I suppose as he frequently does he is just throwing mud and hoping some of it will stick." Pike is a Republican.

As for the current status of the H-bomb, AEC Chairman Lewis L. Strauss told a Senate Appropriations subcommittee yesterday that "greatly increased production of thermonuclear weapons"—those popularly called hydrogen bombs—account for increased spending in the next fiscal year.

Operating costs will rise by 427 million dollars to \$1,262,000,000, Strauss said, and he added:

"Virtually the entire increase occurs in the cost of producing uranium and of producing weapons and weapons materials."

Strauss said results of current tests in the Pacific "will play an important part in making the thermonuclear weapon a major instrument for the defense of the free world," but the commission also will seek for versatility through development of a "family of weapons."

AEC announced yesterday the third test of the current Pacific series, and Strauss said "information of great importance to national defense continues to be derived." The first two series blasts were described as thermonuclear. Presumably this one was too.

Rep. Cole did not mention McCarthy in his statement, but it obviously was prompted by the senator's broadcast.

"While it is true," he said, "that there was considerable discussion between September 1949 and January 1950 concerning the need of

developing the hydrogen bomb, this fact is not of itself sinister. . . .

"At the same time, we know that there is no security system which can guarantee to be 100 per cent effective against traitors."

"Therefore, we cannot exclude categorically the possibility that a person or persons in our program might have been motivated by a desire to lessen our military strength."

Cole said H-bomb development, first explored in 1942, was affected by the "general slowdown" after World War II but a "small research program" was maintained.

The Soviet A-bomb explosion of Sept. 23, 1949, prompted the first "major consideration" for developing H-weapons, he said, and created a top-level debate that lasted until Truman ordered all-out production Jan. 31, 1950.

Cole said a plan for "large-scale

and vigorous" development of the H-bomb was opposed by "a majority" of the Atomic Energy Commission, its general advisory committee of leading scientists and some members of the joint congressional committee.

The plan was supported, he said, by a majority of the congressional committee and by a special subcommittee of the National Security Council, the top military planning body.

Cole himself was among the congressional committee members who deplored Truman's decision, saying at the time the President had "muffed" a chance to take the lead in ending "the mad race . . . toward more and greater weapons of destruction." He also said Truman had usurped the authority of Congress and gone in the face of recommendations from the country's most competent authorities.

Isle Parents Due Quiz On Children's Actions

GALVESTON (AP)—Starting today, several hundred Galveston parents will be asked to answer questions about their children's activities.

Answers will be used to plan a set of questions to be asked all Galveston families in May in a full-scale survey by the city's youth study commission.

The commission is trying to find ways to combat juvenile delinquency.

Memories Of Lincoln Die With Woman, 103

ARTESIA, Calif. (AP)—A woman

whose fondest recollection was of being held on Abraham Lincoln's lap when she was a child is dead at the age of 103.

Mrs. Mary E. Bahn, born in Ottumwa, Iowa, resident of Artesia and nearby Long Beach for 47 years, died Tuesday.

RFC Investigation Figure's Perjury Conviction Upheld

WASHINGTON (AP)—The U.S. Court of Appeals today affirmed the perjury conviction of E. Merl Young, a key figure in the Senate's headline-making investigation of Reconstruction Finance Corp.

The court overturned the perjury conviction of Young's older brother, Herschel Young.

The brothers, tried separately, each received a sentence of four months to two years. Both have been at liberty on bond pending the outcome of their appeals.

Merl Young, 39, was convicted of swearing falsely four times before a grand jury

which returned the indictments.

The Appeals Court, however, dealt only with the one charge—involving Young's denial that while employed by the RFC he ever had anything to do with loan applications made by the Lustron Corp., a prefabricated housing venture. It held his conviction on that count to be "clearly valid."

The court said that since Young received four equal sentences to run concurrently it need concern itself with only one count of the indictment.

The story of Merl Young's rise from a \$25 a week RFC examiner was one of the highlights of the RFC investigation.

Another was the history of the \$9,450 pastel mink coat of his wife, Lauretta, a White House stenographer and previous to that on the staff of former President Truman when he was a senator.

Martin Sheriff To Head Posse Unit

STANTON (SC)—Sheriff Dan Saunders has been elected president of the Martin County Sheriff's Posse, and Bill McIlvain was elected vice president, at the posse's annual barbecue here.

Also elected were five directors: Hoot Leonard, Charlie Cravens, LeRoy Wood, Hoot Tom and T. Knox.

There are 75 members of the posse and efforts will be made, Saunders said, to provide uniforms for at least 25 members to be worn on special occasions and when attending rodeos and other events, as a group, elsewhere in West Texas.

The sheriff said he also plans to press these men into service as enforcement officers should an emergency ever create a need for their activity in this field, and that the possmen are studying the fundamentals of law enforcement as applied to emergencies and disasters.

Brazil In Furore On Argentine Treaty Understanding Talk

RIO DE JANEIRO, Brazil (AP)—President Getulio Vargas formally denied last night charges that he had a secret understanding with President Juan D. Peron of Argentina before the 1950 Brazilian election. The charges have stirred up a political furore in Brazil.

Vargas said "the President of the Republic never assumed nor pretended to assume, directly or indirectly, political or political-economic or military compromises of a secret character with countries of this continent or outside this continent."

The charges arose last month after copies of a speech allegedly made by Peron to the Argentine School of War were published here. Peron was quoted as saying that Vargas had agreed to sign an economic pact with Argentina similar to that signed between Argentina and Chile last year.

The Argentine embassy in Rio de Janeiro denounced Brazilian reports of the speech as "totally false."

San Antonio Man Charged In Death

SAN MARCOS, Tex. (AP)—Mariano Palomera, 36, of San Antonio has been charged with murder in the case of a body found in the burned ruins of a ranch barn near Wimberly.

Sheriff Jack Gary, who filed the charge, said it was believed the body was that of R. L. Rotter Palomera's business associate reported missing since Saturday. Police were looking for Palomera.

A Full Schedule

Carter Belew, manager of the Settles Hotel, points to the hotel's bulletin board which lists a schedule of some regular meetings held there. These sessions, along with various special events, help make hotels a hub of community activity. (Staff Photo by Keith McMillin).

City's Hotels Form Hub Of Community Activity

By CLIFTON LAWHORNE

Big Spring hotels are more than just a place for travelers to spend the night. The larger hotels here might be considered hubs of community activity.

A number of organizations slate meetings in the local hotels, and as a result, just about as many Big Spring citizens can be found in them as transients. This is especially true of the lobbies.

People gather at the hotels for social events, business sessions, club meetings, demonstrations, speeches, luncheons, and other functions of various types.

More than half the time of Settles Hotel employees is spent in duties connected with Big Spring functions, it has been estimated by Carter Belew, manager. He says that the average week has about 24 meetings scheduled—around five per day.

The Douglass Hotel and Crawford Hotel are not designed for so much social activity. However, both have their share of meetings. The smaller hotels here have a

large number of permanent residents and in many instances have "family gathering" type lobby visitations in the evenings.

In addition to the ballroom, the Settles Hotel has five other meeting rooms. Belew says that dinner parties can be given in the smaller rooms to accommodate from 15 to 100 persons. Around 350 can be seated for dinner in the ballroom.

There are 13 organizations which have regular dinner meetings at the Settles. Among them are the Lions, Rotary, Kiwanis, ABC, XYZ, etc.

The rooms used for such meetings are all off the mezzanine, Belew points out that a number of demonstrators set up shop in the rooms from time to time, as do oil companies and other businesses.

Lots of old timers stop at the hotels here to "shoot the breeze," managers point out. People desiring to meet others usually make appointments in one of the hotels. Farmers, business men, driflers, cattlemen, and others fall in this bracket.

Hotel desks are also information centers. Local residents as well as transients are liable to ask any question under the sun of the clerk on duty. A landslide business is transacted in the sale of stamps, too.

And speaking of business, all the larger hotels here have coffee shops. The Douglass, Crawford and Settles draw a number of merchants here at lunch time. Such things as hotel barber and beauty shops, drug stores, clothing stores, and package stores add to the local traffic in the hotels.

Switchboard operators in the Big Spring hotels also perform yeoman's duty. From the number of local calls going in and out of a hotel, a person would think there was no other business center in the city.

Switchboard operators also make a lot of morning calls to wake people in Big Spring residences who do not have alarm clocks. Since operators have to stay on duty all night, managers explain that it is not too much trouble for them.

Though one might think just the opposite, most business in hotels here is done during the week. The weekends are comparatively quiet, unless there is a convention in town such as the recent ABC or Dental conventions. Then activity is brisk.

With dances and parties in the Settles ballroom, Belew says there are quite a few breakfast servings made at midnight. "We've had as high as five luncheons going at once around here in addition to the coffee shop," he said.

The Settles finds that activity is so brisk that it is necessary to maintain a bulletin board in the lobby to direct people to the various meetings being held.

At the Douglass it is not so busy, but quite a few private parties and meetings are held in the hotel's Maverick Room. Every Tuesday night the local barbershop quartets meet there for a general singing.

The Douglass also gets quite a few calls from organizations holding parties elsewhere because of the catering service offered there.

The Elks Club has a regular meeting hall at the Crawford Hotel, and activity there is stimulated by the bus station in the building. A number of old-timers meet there, and The Book Stall adds to the traffic.

Deadline Approaches On Auto Inspections

If windshields of cars parked downtown Tuesday afternoon are true indicators, fewer than two-thirds of Big Spring auto owners are ready for the April 15 auto inspection deadline.

Of 93 cars parked in a four-block downtown section, only 60 had windshield stickers signifying they had passed the state safety inspection.

A few of the other 33 wore the faded old 1952 inspection stickers, but the majority of them had no safety emblem at all.

Only a week remains for motorists to have their vehicles inspected prior to passage of the deadline.

Highway Patrol officers here say they will "rigidly enforce" the auto inspection statute after April 15. Penalty for violation of the law through failure to have your car inspected is a fine up to \$200.

Only proof you need to show that your car has passed the safety inspection is the Texas-shaped windshield sticker, signed by an official at one of the authorized inspection stations.

The auto inspection has been greatly simplified since the controversial 1951 inspection law ran into so much static. Lights, horn, windshield wipers, brakes and steering mechanism gets the brunt of the mechanic's perusal now. Formerly, the exhaust system and virtually every other part of the car

was required to be in A-1 condition.

Operators of the vehicle inspection stations in Big Spring say the demand for inspections has increased only slightly in the past few days. One place reported cars were checked at the rate of about 70 per week.

There are 14 authorized inspection stations in Big Spring and Coahoma and there are more than 12,000 vehicles registered in the county.

If 4,000 haven't received their safety stickers, these inspection stations have their work cut out for them:

Fowler & Fowler Service, of Coahoma; and Clark Motor Company, Big Spring Motor Company, Lone Star Motor Company, Big Spring Hudson Company, Marvin Wood Pontiac Company, Shroyer Motor Company, S & S Wheel Alignment Company, Tidwell Chevrolet Company, Truman Jones Motor Company, Eason Brothers Garage, Jones Motor Company, and Driver Truck & Implement Company, all of Big Spring.

Inheritance is the cause of about half the blindness in the United States say the Better Vision Institute.

NOTICE OF SPECIAL STOCK MEMBERS MEETING

BIG SPRING COUNTRY CLUB Club Rooms

THURSDAY, APRIL 8, 1954, 7:30 P. M.

Notice is hereby given that a Special Meeting of the Stock Members of the Big Spring Country Club will be held on the above date for the purpose of adopting the re-organization plan voted by the Stock Members March 2, 1954 or substituting some other plan of operation, and/or any other business that might be submitted.

Stay degrees cooler topside. Crisply styled in sand or natural tones. The bands aren't too fancy either but JUST RIGHT.

We have a line the gals go for

(Have you seen our Spring Fashion Show?)

You can't fool the ladies when it comes to styling.

From clothes and hemlines, to cars and color schemes—they insist on a fresh new look and a fresh new change—and anything else won't do.

So it's easy to see why the gals—bless 'em!—have been going for Buick in a great big way—going for the glamorous modernity of these new-day automobiles ever since the first public showing a few short months ago.

From the beginning, they've been going for the sleeker, longer, lower lines—the

futuristic shaping of the new windshields—the stunning décor of the striking new fabrics—the clean simplicity of the new instrument panels.

But you ought to see how they go for the gay new car models in Buick's Spring Fashion Show! Fresh new Convertibles, Rivieras and Estate Wagons never before available—and in gorgeous new summer colors never shown before!

And you ought to see how they go—as

the men certainly do—for the thrilling new V8 power, the buoyant new ride, the superb new control, and the almost effortless handling ease that are all part and parcel of every new 1954 Buick.

Why not visit our Spring Fashion Show and see for yourself the fresh new tomorrow that's here now—in today's Buick? Then we can show you the prices that make this beauty the buy of the year.

BUICK
the beautiful buy

THE COMPLETE LINE-UP OF BUICK BEAUTIFUL FOR 1954 includes showing new all-steel Estate Wagons and "hardtop" Rivieras, as well as gay new Convertibles. In both the low-priced V8 Series Series and in the high-powered Century Series.

Prepare For Pastors

OKLAHOMA CITY (AP)—Oklahoma City University coeds have formed a club designed to help bring budding ministers to the altar—as husbands not preachers. They believe if they want to marry ministers they should be well trained for the job.

Riding THE GRUB LINE

With Franklin Reynolds

After Contractor Arlie Suggs had completed the addition to the Masonic Temple at Third and Main, the addition without any front windows upstairs, Poncho Nall, from his newsstand across the street, got a lot of fun calling attention of people to what he described as "the fact that Arlie forgot and left the windows out."

Now Poncho says he's really got in on Arlie, and that this time it's no joke. He says that Arlie has built a den on his home and actually forgot to put in a door. Since then Arlie has had to cut out a kitchen window to make a door so he can get into the den, all according to Poncho.

Poncho says that as soon as Arlie found out what he had done he threatened to fire any workman who let the word slip out to Poncho.

Poncho, being one of the Grub Line's undercover men, has passed the story on to us.

While visiting with Mr. I. H. Ramsey at his Westbrook store, he suddenly decided to do something about the troubles around his place, and invited us to go to Colorado City with him and find the solution for the problem.

That morning Mr. Ramsey's favorite hen had showed up with one new chicken. You've all heard of "the hen with one chicken." Well, Mr. Ramsey had her. That's one chicken was about to drive the hen crazy, and since she was his favorite hen he didn't want that to happen.

At Colorado City we found some chicks just hatched that morning and Mr. Ramsey bought 20 of them. He took them and shut the hen, with plenty of water and feed, up in a dark coop with the 21 baby chicks.

He explained that when he would uncover the flock in a day or so the hen wouldn't be able to tell the chick she hatched from any of the others and so she would adopt them all.

Well, at least he's gotten that hen's mind off one chick, and now he won't have to worry so much about the hen.

Mr. Monroe Steward took over the store and ran it while we were gone.

On the way to Colorado City and return we observed a field divided by a fence. On one side of the fence the land had been deep plowed to 24 inches. This deep plowed land was not blowing. On the other side of the fence it was a different story.

H. W. Pardue, heavy equipment operator on West Texas water pipe line construction jobs, came here from north Louisiana.

A few days ago he got a letter back from back home that told him the creeks were drying up back that way and had been for some time. Pardue says this may be an omen of a continuance of the drought, since these creeks are drying up a couple of months ahead of the usual time.

Pardue has a five-year-old son, Glenn. Not long ago Glenn found a silver dollar. He had never seen one before but he was certain it was money and spendable, but instead of taking it to a bank for identification he struck out for Tracy Roberts' grocery store.

"How much candy will that buy?" he asked Tracy plunking the silver cartwheel down on the counter.

Old-timers will probably appreciate the following story which was published in an out-of-state newspaper 50 years ago this week. It will

give them an opportunity to recall the changes that have taken place in many things.

Who, for example, would want to get drunk and break into a modern unattended dial system telephone exchange. We make mechanical progress at the expense of romance and glamour.

Anyway, this is what a country editor wrote just half a century ago:

"On Thursday night about 10 o'clock the alarm of fire was given. As usual hundreds of patrons rang up central to ask about the fire. Among those calling was Chief of Police C. T. Wilson. Not receiving an answer he left his home and went to the Engine House and rang up central and asked who was there. The two young ladies on duty asked what number he wanted. He replied that he would come to central. He went to central and took hold of the door to open it but it was locked, as one of the girls had already retired and the other was undressed. They told him they were undressed and could not open the door. He insisted that the door should be opened. Again they told him they were undressed. He then burst open the door, breaking a lower panel and tearing away a lock.

The above are in brief facts which have created a great sensation here. When one of the girls was asked if Mr. Wilson appeared to be drinking or was drunk she replied, "No more than usual." Harry Redding, local manager, who arrived on the scene while Mr. Wilson was still there, said he was "well loaded."

"The City Council has met in special session and demanded that Chief Wilson apologize to the young women. Legal proceedings will be taken against Mr. Wilson and his bondsmen by the young ladies."

Just what was the outcome of this particular case we don't know, but certainly it wasn't the end of Wilson's career as a peace officer. The Grub Line Rider knew him several years after this happened. Wilson had some of the first real

bloodhounds we ever saw. He and a pair of his hounds were killed on a railroad trestle while trailing a fugitive in one of the Southern States. A train caught them out in the middle of it. Some people claimed he was drinking when this happened.

Yes, times have changed. If dial telephones had been in use 50 years ago this thing would never have happened.

ONE WAY TO CASH CHECK

ARDMORE, Okla. (U.S.)—Cashier Opal Croxton wouldn't cash a check for a well-dressed young man.

"I'll swear the check's good," said the man, who was vacationing at the Lake Murray Lodge. He offered his Cadillac as security.

Miss Croxton told him sarcastically it would take the attorney general to get a check cashed at the lodge without identification.

The guest brought back Atty. Gen. Mac Q. Williamson, who happened to be spending an evening at the lodge.

James J. Blanton, vice president of the First National Bank of Pauls Valley, got his check cashed.

Victoria Man Named To Katy Line Board

DALLAS (U.S.)—Albert B. Alkek of Victoria, Tex., was elected to the board of directors of the Missouri-Kansas-Texas Railroad Co. of Texas, Katy president Donald Fraser announced after the annual meeting of stockholders today.

Alkek is a Victoria oil operator and investor.

Other directors and officers of the company were re-elected.

Pharaoh, the Philadelphia Zoo lion which wound up in eight feet of water in the moat surrounding his cage after a tussle with another lion Sunday, pays no attention to a baited box trap lowered Tuesday over the wall of the moat. The trap was dropped in hopes that meat inside the box would lure Pharaoh into the trap and it could be sprung and removed without danger. (AP Wirephoto).

McCarthy Discusses Proposal For Box Score On His Project

Miller's Role - Sen. Joseph McCarthy, in an interview with two top Associated Press reporters, was asked about his campaign to dig out Communists. There is an up-to-date statement of the senator's views.

By JACK BELL and KELMAN MORIN
WASHINGTON - Sen. Joseph McCarthy says "a stable number" of the 81 he listed in a Senate speech four years ago as Communists or fellow travelers in the State Department "have been removed."

Of 30 or more in defense plants who pleaded the Fifth Amendment before McCarthy's investigating committee, "they have all been either suspended or fired," the senator says.

The idea of a box score on the success of the committee has, he says, "a lot of merit."

"I think it could be useful," he told two questioners in an exclusive recorded interview. Roy M. Cohn, the committee's chief counsel, also sat in on the session. Here are the questions, and McCarthy's answers:

Q—Some of the chairman of investigating committees have published in the Congressional Record a box score of the results of what they have done. Do you plan anything similar to that in the near future?

McCarthy—It hadn't occurred to me. It might be a good idea.

Q—Would you consider keeping a running box score week by week or month by month, or something of that sort?

A—If any of the members of the committee wanted it, yes.

Q—I mean for your own personal use. You are always alluding to how many Communists were in such a position or in such a place. If you keep a box score, wouldn't you have it at your fingertips?

A—I think it is a good idea. In fact, it is a good idea for the speeches from now on.

Q—How would you break this down, such a box score, in categories? You have talked about Communists. You don't usually use the words "fellow traveler." You have said the "Communist associates." You have also said "Fifth Amendment Communists." Would you break that down into gradations of these people?

A—I suppose you would have to break it down because there is a difference between a man who has been named an espionage agent, a man who has been named as a spy in a high planning position, or the Communist who is, we will say, driving a truck in a defense plant. There is certainly no comparison between the two insofar as the damage they can do is concerned.

As I say, it is the first time that an idea of keeping a box score has been broached. I think it has a lot of merit. I think it could be useful. I think, Roy, you should give that some thought.

Q—What is your present figure for the number of Communists, Fifth Amendment Communists, and Communist associates, take those three categories, on which you claim you have turned up or your committee have turned up?

A—First, I suppose we will have to go back to the old figure of 81 that I gave to the Senate. A stable number of the 81 have been removed from week to week.

Q—Those are the 81 cases you cited in that Senate speech?

A—Yes. That included the 57 that

I mentioned over at Wheeling, W. Va. I think the most recent of those cases which is getting attention is the case of John Paton Davies.

(Davies is counselor to the U.S. Embassy at Lima, Peru. He was cleared seven times by State Department loyalty-security boards, and once by the top government loyalty review board under the Truman administration. Secretary of State Dulles has announced that Davies will go before a special security board to clear up "conflicting points" raised in a new investigation.)

What will be done about his case, I don't know. I frankly couldn't at this time give you a complete list of the 81 who have been removed from government. In the book that I wrote a short time ago—not a short time ago—two years ago we had a list, which is not up to date now. I have no way of following the list except by a personal investigation. Under the present rules, we cannot get that information from the government. In other words, whether they were discharged for security reasons, loyalty reasons or what.

As to defense plants, Roy, how many took the Fifth Amendment who were working in defense plants? Do you remember the figures?

Cohn—In public session it was something over 30 who were fired as a result of the investigation.

McCarthy—What is the figure of 81 that somebody gave me the other day?

Cohn—That is a composite figure.

McCarthy—That includes more than Fifth Amendment cases. Cohn—It includes Fifth Amendment cases but not all of them were currently employed at that time.

McCarthy—So as of now, Roy, you would say that over 30 who were in defense plants, which plants in turn were handling classified defense work, have appeared before the committee and refused to answer whether they were Communists on the grounds of self-incrimination; some of them even refused to answer whether they would sabotage the plant if they were ordered to do so by the Communist party, and they have all been either suspended or fired.

Cohn—That is conservative. McCarthy—I might say that General Electric, which does a lot of defense work, adopted the rule of removing Fifth Amendment Communists after we started our hearings. Then, of course, keep in mind also that at Ft. Monmouth, according to the news stories, some 32 individuals were suspended. That doesn't mean that they were all guilty. Some of them were rein-

stated because they were called before our committee and acquitted themselves very well, showed they had some Communist connection a number of years ago but convinced the Army authorities, who were listening, that they were not bad security risks. I don't know how many of the 30 odd have been reinstated because we have been tied up in other work recently.

Q—In connection with that—McCarthy—Can I state just one other thing? I think you ought to pick out some of the worst cases. You would take someone like Levine who was handling top secret, had been for 10 years, in tele-communications. They do top secret radar and electronic work, and "crypt." The day we served the subpoenas, on Dec. 13, she did say she was not an espionage agent but refused to tell whether or not she had been delivering secret material to espionage agents.

Q—L-E-V-A-N? Cohn—Ruth L-E-V-I-N-E. McCarthy—She was before the committee on the 16th, called on the 13th. Incidentally, the security officer over there I think has been doing a pretty good job, don't you, Roy?

Cohn—Yes. He is a former FBI man.

McCarthy—No matter how good a job they are doing keep in mind they can't put a witness under oath and swear them, subject them to indictment for perjury if they testify falsely. So the committee has quite an advantage in digging them out.

Q—I want to ask you in connection with that what is your attitude toward the people in government who you have said in the past, "think like a Communist." If you do those people figure in this whole supposedly espionage system which you are investigating?

McCarthy—I don't recall the phrase being used in connection with Communists. I think I was referring to teachers who act like, think like and do all the things that a Communist would do. You don't know whether they belong to the party or not.

Q—In your own mind are those people as guilty of acting against our government as a Communist himself, people who think like Communists?

A—Let's not talk about "thinking." Let's take the people who do all the things the Communists would do. If they are teaching school, if they would teach the way they would teach under Communist discipline, if they follow the Communist party line, if they are acting as a Communist is acting, if they are following a Communist line certainly anyone who is teaching conspiracy and treason should not have a captive audience in a school.

Plenty Water Expected For Lawns In City

Barring line breaks or other unforeseen difficulties, there should be plenty of water available for irrigating lawns in Big Spring this summer.

That is what E. V. Spence of the Colorado River Municipal Water District told members of the Chamber of Commerce civic beautification committee at its recent organizational meeting.

Spence told members of the committee that the water for Big Spring will soon be supplied by city wells in addition to the Martin water wells now used. Then the water will not be so hard, it was pointed out.

The softest water in Texas will be used in Big Spring starting in August, Spence added. That is when the city starts using water from Lake J. B. Thomas, the CRMWD lake.

Johnny Johansen, park superintendent, told those present that vegetation should not be sprinkled with the water now used. Instead the ground should be soaked, he said. The water contains chemi-

cals injurious to grass, shrubs and flowers, he said.

It was estimated that the change in water supply during the summer months will allow sprinkling as well as soaking.

Sam McComb, also on the committee, pointed out that blow-sand is not good for top soil in this area. He said the use of such sand should be discouraged. Commercial fertilizer, 16-20-0, was given as an example of the best type to use in West Texas.

The committee, with Mrs. Hayes Stripling as chairman, has as its purpose the fostering of civic pride by promoting beauty in the city's surroundings.

Those present for the organizational meeting included Mrs. J. E. Hogan, D. M. McKinney, Nat Shick, Mrs. Floyd Mays, Johansen, Spence, Joe Hayden, J. H. Greene, McComb, J. G. Lewis and Edith Gay.

McCarthy'll Make Speech, Cullen Says

HOUSTON (U.S.—Ollman Hugh Roy Cullen told Sen. Joseph McCarthy he hopes the senator will make such a fine San Jacinto Day speech that "even your severest enemies will have difficulty finding fault with it."

Cullen released his letter to the senator yesterday after two University of Texas students asked him to "reconsider" McCarthy's selection as speaker at the San Jacinto memorial April 21.

Cullen said the senator will make the speech he has been invited to make.

His callers said they represented more than a thousand University of Texas students who didn't like the idea of McCarthy's speaking at a shrine of Texas freedom.

FBI Arrests Dallas Man In Check Case

DALLAS (U.S.—The FBI has announced the arrest in Oklahoma of George Fugus, 32, Dallas, charged with embezzling a fraudulent \$19,142 check on a non-existent Oklahoma City bank. The check was passed on an Amarillo liquor dealer for a liquor purchase. Fugus had been sought since January and was arrested in a tourist cabin near Kingston, Okla., the FBI said.

Your hearing usually is keenest around 7 a.m. and dullest around 1 p.m.

MRS. J. R. HATCH AND THE BOYS
... Dickie (left) and Jay (right) get a preview of Easter by looking into their novelty eggs.

Give An Easter Party For Your Small Fry

By CECILY BROWNSTONE
Associated Press Food Editor
Jelly-bean eggs a-settin' in nests of green cellophane! Real eggs colored and decorated in glorious shades! Chocolate bunnies looking deliciously lifelike! Small fry home for the Easter holiday — a party is in order.

It's time to start thinking about the refreshments you'll serve. So here's something special. Bunny Biscuits and Kiddie Nog. Good to eat and drink, and also nutritious because these recipes call for non-fat dry milk powder. You've probably already discovered the virtues of this product, know how handy it is to keep on your kitchen shelf, and how economical.

When we taste-tested these Bunny Biscuits, we had only one young guest and so there were some left over. The next morning we split and toasted some of the biscuits under the broiler and enjoyed them with our coffee.

The Kiddie Nog is about the consistency of real egg nog. The amount of sugar its recipe calls for makes it quite sweet, so you can cut the sugar a bit if you like. In doing so, just remember there are three teaspoons in a tablespoon. If your small-fry guests are still in the piggish stage we suggest you sprinkle their Nog with a few grains of nutmeg before serving. But if your guests are teenagers, and you have a nutmeg grinder, do pass it and let the

BUNNY BISCUITS AND KIDDIE NOG

BUNNY BISCUITS

Ingredients:
2 cups sifted flour
3 teaspoons baking powder
1/4 teaspoon salt
1/4 cup nonfat dry milk powder,
1-3 cup shortening
2-3 cup orange juice

Method:
Sift together flour, baking powder, salt and nonfat dry milk powder. Cut in shortening with 2 knives or pastry blender until mixture resembles coarse corn meal. Turn out on lightly floured board and knead gently about 1/2 minute. Roll out to 1/4-inch thickness. Using bunny cutter, cut out biscuits and place on baking sheet. Bake in hot (425F) oven 10 to 12 minutes or until golden-brown. Serve hot with butter or margarine. Or serve cold and outline ears, eyes and tail with confectioners' sugar frosting. To make frosting, blend sifted confectioners' sugar with a little orange juice until it is of spreading consistency. Makes 24 biscuits.

KIDDIE NOG

Ingredients:
1 cup nonfat dry milk powder
3 tablespoons sugar
3 cups water
3 large eggs
1/4 teaspoon vanilla
Dash of salt
Nutmeg

Method:
Sprinkle nonfat dry milk powder and sugar over surface of water in mixing bowl. Beat with rotary beater until smooth. Add eggs, vanilla and dash of salt; continue to beat until quite frothy. Chill. Serve in mugs, if available, sprinkling surface of Nog with nutmeg; or pass nutmeg grinder. Makes 8 one-half cup (4-ounce) servings.
Note: Cinnamon may be used instead of nutmeg, if preferred.

Add Smoked Tongue To Cold Buffet

Smoked tongue, sliced thin and served cold, makes a fine addition to a cold buffet platter for a buffet supper. Be sure to cool the tongue in the liquid in which it was cooked if you want it to be moist and flavorful. Serve a big casserole of scalloped potatoes with the tongue and other cold meats; choose crisp vegetables to put in the go along salad for texture contrast.

may be placed in the refrigerator for several days.

A curved blade grapefruit knife may be used for loosening grapefruit segments from the rind. It also is handy when removing seed pods from green peppers and the stem cores from fresh tomatoes.

When a recipe calls for one cup of eggs, you'll usually need five medium sized eggs.

Soften one 8-ounce package American cheese with a fork; add one-half cup chopped nuts. Form into small round balls, roll in paprika and stick with whole clove. Makes 12.

The Only Enriched Macaroni Is SKINNER

Want Fancy Bread? Try Making This Tasty Brown Loaf

In the fancy bread department, brown bread is an easily prepared treat for the family.

Ingredients:
1 1/2 cups flour
1/2 teaspoon soda
1 teaspoon salt
1 1/2 cups corn meal
1 cup raisins (optional)
1/2 cup light molasses
2 cups buttermilk

Sift flour with soda and salt, add corn meal and raisins, if desired, and mix well. Combine molasses and buttermilk and add to dry mixture. Beat only enough to thoroughly moisten all ingredients. Half fill greased tin vegetable cans (No. 2) cover tightly and steam 3 hours on rack in covered container. Remove from steamer and place in moderate oven (350 degrees F.) for 15 minutes before removing from can.

Give It Character

When you are making a main dish salad that includes macaroni, give it extra character by marinating the macaroni in French dressing about twenty or thirty minutes before you mix it with the other foods.

Hatches Get Ready For Easter With Gay Cake

To get her boys in the mood for Easter (not that they need any coaxing) Mrs. J. R. Hatch concocts the dreamiest of cakes and decorates it in the gayest manner.

The boys, who are lucky enough to have a mother who whips up such a treat, are Jay and Dickie. Ginger, the Hatches' teen-age daughter probably doesn't miss out on the cake either.

Mrs. Hatch is dainty and auburn haired and doesn't look like the usual conception of the out-door type but she loves golf and complains that she doesn't have enough time to devote to it. Working in her yard is also a favorite activity. She is a member of the 1905 Hyperion.

Now for that recipe. Mrs. Hatch uses a white cake as the basis but she said any basic cake would do.

EASTER CAKE (White Cake)

Ingredients:
2 cups sifted cake flour
1 1/4 cups sugar
3 teaspoons baking powder
1 teaspoon salt
3/4 cup shortening
1 cup milk
1 teaspoon vanilla
1/4 teaspoon almond extract
1/4 teaspoon orange extract
3 egg whites (unbeaten)

Method:
Sift flour, sugar, baking powder and salt into mixing bowl.

Stir Up A Batch Of Hot Cross Buns For A Change

Hot cross buns can be made at home. One recipe makes 2 dozen buns.

HOT CROSS BUNS

Ingredients:
3/4 cup sugar
2 teaspoon salt
3 tablespoons butter
1 cup boiling water
1 package or cake yeast
1/4 cup warm, not hot, water (lukewarm for compressed yeast)
2 eggs
4 cups sifted flour
1/4 cup nonfat dry milk
1 teaspoon cinnamon
1 cup currants or raisins

Put sugar, salt and butter in mixing bowl. Add boiling water and stir until butter is melted. Cool until lukewarm. Sprinkle or crumble yeast in to the warm, not hot water and stir until dissolved. Stir into cooled sugar-shortening mixture with 1 whole egg plus 1 egg yolk. Save white to use later. Sift together flour, milk and cinnamon. Mix with currants or raisins; add half to yeast mixture and beat until smooth. Stir in remaining flour mixture. Place dough in a warm, lightly greased bowl. Cover bowl with a cloth and put in a warm place free from draft. Let rise until double in bulk, about 1 1/2 hours.

Turn out on lightly floured board and knead gently for about 1 minute. Roll out about 1 inch thick. Cut into 2-inch circles and place close together in two 9-inch round 1/4 inch deep cake pans lightly greased on bottoms only. Cut a

deep cross in each biscuit with a sharp knife or scissors. Brush tops with slightly beaten egg white. Put in warm place, free from draft and let rise until doubled in bulk, about 1 hour. Bake in moderate oven (375 degrees F.) until tops are deep golden brown and bottoms are golden brown and firm, about 15 to 20 minutes. Fill cross in tops of buns with confectioners' sugar frosting; using a toothpick or a cornucopia made of waxed paper.

FROSTING
1/4 cup sifted confectioners' sugar
1/2 teaspoon vanilla
Mix sugar and vanilla with enough of remaining egg white or water to make a good spreading consistency.

Pineapple Pudding Good Any Season

Ingredients:
1 cup pineapple chunks (drained)
1 cup chopped dates
1/4 cup sugar
1 teaspoon baking powder
1/2 cup walnuts
1/2 cup flour
1/2 teaspoon salt
1 teaspoon vanilla
2 egg whites, beaten separately

Combine pineapple, dates, and nuts. Add to sifted dry ingredients, egg yolks and vanilla. Fold in stiffly beaten egg whites. Bake in greased 8x13-inch baking pan 325 degrees F. for 35 minutes. Serve warm with pineapple sauce or cold with whipped cream.

Pancake Desserts Can Follow Supper

A pancake party with dessert served later in the evening might start one of the dessert pancakes mentioned in one of the following dessert ideas.

ICE CREAM ROLL-UPS

Place a spoonful of firm vanilla ice cream across the center of each baked pancake. Roll up. Serve with butterscotch sauce or a fruit sauce.

PANCAKE SHORTCAKE

Bake four extra-large pancakes using 1/2 cup batter for each pancake. Stack with fresh or frozen strawberries between each pancake. Top with whipped cream. Serve in pie-shaped wedges.

BLUEBERRY PANCAKES

Fold 1 cup fresh or frozen blueberries into batter before baking. Use 1 tablespoon of batter for each pancake to make them dollar size. Serve a "circle" of 7 or 8 little pancakes around a mound of whipped cream. Sprinkle with confectioners' sugar.

Expecting A Crowd? Make This Dessert

Here's a "dress-up" dessert that needs no cooking, can even be made the day before. It's grand for a crowd. Makes 10 servings.

Ingredients:
22 marshmallows (1/2 pound)
1/4 cup water
1/2 cup sweetened condensed milk
1/2 cup chopped nut meats
1/2 cup finely chopped dates
2 1/2 cups graham cracker crumbs (30)

Method:
Cut marshmallows in quarters and put in mixing bowl. Add water. Add condensed milk, nut meats and dates. Blend well. Add cracker crumbs and blend well. For into roll about 6 inches long and 3 inches in diameter. Cover with waxed paper. Chill in refrigerator 12 hours or longer. Cut in slices. Garnish with whipped cream, if desired.

Do You Know Your Mutton?

Lamb is defined as the flesh of young sheep, usually eight to twelve months old. About 90 per cent of the sheep in the country are marketed in the lamb stage. Lamb is distinguished from mutton by the break joint which in lamb exposes eight well-defined ridges on the end of the bone in both fore and hind legs. The break joint is not evident when the mutton stage is reached.

A Bible Thought For Today—

"Now faith is the assurance of things hoped for, the proving of things not seen." — Heb. 11:1. Faith has a creative quality. We should use it.

Get Hold Of Your Nerves, Boys, Coffee Has Soaring Fever Again

Coffee prices shot up again this week, with widespread predictions that a high of \$1.50 per pound is inevitable. These predictions were attributed to the coffee trade, processors and wholesalers, and they seemed to overlook one factor that might keep coffee from going to \$1.50 per pound: buyer resistance. If ten per cent of coffee drinkers would quit drinking coffee, the effect would be felt immediately. During World War I, we seem to remember, meatless days rather got the people out of the habit of eating so much meat, and it took years after to get the per capita meat consumption back to normal. Butter priced itself out of the market and opened the way for substitutes. It will take butter a long, long time to regain its former place in the market baskets of the country, if ever. There is no substitute for coffee entirely acceptable to the confirmed coffee hound, who is so dedicated to the cup that he had rather do without than accept a substitute. Remember the near-beer substitutes of early prohibition days? Almost every agency of government, the administration itself, and various committees of Congress, tried their hands at "solving" the coffee situation, and they didn't even slow down the rising prices. There really is a coffee shortage, present and prospective, and the only thing that could bring prices within reach of the average purse is pronounced abstinence. For low-wage-bracket families, a substitute will come perforce. For millions of families in the middle brackets, a reduction in consumption will be attractive. But unfortunately for many people the scarcer anything is, and the higher the price, the more they want it. If people do learn to get along without coffee, or within a minimum amount of it, very great harm could result to the industry in all its phases from grower to retailer. For that reason every effort should be made to keep the price from going through the roof, and in self-interest we imagine the coffee trade, aware of the danger, will strive in every way to hold the line.

Idea May Get Additional Relief For Hard Hit Victims Of Drought

An idea which originated in the Grub Line column of the Herald is catching on in places that may give the support necessary to get action. The idea is simply to liberalize FHA loans on living allowances. Reason for advancing the thesis was the apparent inability of farm and ranch families, burdened increasingly by persistent drought, to make the living allowance cover the entire field of subsistence. These allowances have been ample for basic food requirements and, through adroit manipulation, could be stretched to cover the ordinary contingencies. Anything out of the ordinary, however, simply throws the balance hopelessly out of kilter. For instance, any sort of illness with resulting doctor bills and medicines, would exhaust available funds all too soon. These people are in urgent need of adequate help. So long as it was possible, local sources of financing stood back of them. But, commensurate with safe practices of handling depositors' money, these well springs have about dried.

These Days—George Sokolsky

Fear Of New Weapons Has Put EDC Plan On Uncertain Ground

The dismissal of Marshal Juin de France because of his opposition to the European Defense Community, the opposition to Winston Churchill arising out of the horror in England over the hydrogen bomb tests, the increasing political difficulties in Italy, and the general trend toward neutralism in Europe ought not to be ignored by the American people. The heart of the American foreign policy in Europe is the European Defense Community. A year ago, Drew Middleton, a competent observer of European affairs, wrote: "... The new attitude has generally been described as a 'slow down,' a 'cut back' and a 'leveling off.' More accurately it is a change in direction. After feverishly seeking divisions, air squadrons and destroyer flotillas for three years, NATO turned, for various reasons, to perfecting the weapons it had on hand and expanding the logistical basis on which troops, planes and ships must operate." He explained: "... Some governments which had promised their people a return to normal conditions at home found that the promise could not be kept unless the rearmament schedules set at Lisbon were reduced. And the economies of some just could not stand increased diversion of civilian production to arms. But what happened in Paris was also an expression of what is happening throughout Western Europe—a change in the entire attitude toward the exigency of rearmament. This is a salient fact that must be grasped if President Eisenhower and Secretary of State Dulles are to give new life to European defense...." This warning may have been noted in the White House and the State Department, but most of our people seem unable to grasp the fact that it has become impossible for such allies as we have to go along with a program which is aimed at a defense against the rising power of the Soviet Universal State. Public opinion throughout the world is war weary, and while the American argument is that E.D.C. is a protective against war, we have not been able to convince

enough people in most countries that we are right. If such a defense cannot be brought into effective being, what are the alternatives for the United States? 1. The hydrogen bomb is obviously a weapon of desperation which both sides have developed with the object of producing fright. Such a weapon could not be used by either side without the peril of suicide. For instance, if it is true that one hydrogen bomb can destroy the whole of the British Isles or most of its area, who will use the bomb against the British? Or, conversely, if the British really fear the use of such a bomb, have they any alternative but to sidle up to both sides of the conflict to avoid being destroyed by either, or to the strongest of the moment, in the hope that he will not bomb them? Fear is the dominant motive in these considerations. A weapon of fear disarms every people because there is always the possibility that some country might use the hydrogen bomb in its own desperation—use it somewhere, if only once, to show what it can do. And the frightening question is—where? 2. The atom bomb, when we thought we had some advantage, before we knew that Dr. Klaus Fuchs and Julius Rosenberg had stolen our advantage, was guarded even from our Allies. The atom bomb is outmoded. The hydrogen bomb is no longer a secret. Apparently it is easier to make, less costly, and more readily understood. It seems senseless to keep any knowledge we may have from the British, if we are to hold their good will. They will not stay long with us, if we do not trust them in this matter, and that has been made clear in parliamentary debates. 3. The ideal solution would be in a complete and irrevocable abandonment by all nations of this most horrible weapon. The problem is to work out a formula which will eliminate deceit and trickery between nations which distrust each other. Perhaps fear will accomplish what logic never could. "Mass retaliation," a slogan if not a plan, is not the solution because it means that we shall all be killed anyhow. While "mass retaliation" may be sound from a military standpoint, it does not ally the fears of the people. With death upon all of mankind, perhaps the rule of self-preservation will indicate a course.

His Easter Bunny

HERITAGE DAYS

By MILLARD COPE

The good Texan naval vessel Invincible, after repairing its rigging, damaged in chasing the Mexican ship Montezuma ashore, put out from the harbor and put in with the brig Pocket, en route from New Orleans to Matamoros. The Texan victory, which included bringing the Pocket into Galveston, was reported by the Texan war department on April 8, 1836. The American-owned vessel, it was discovered, was sailing with a false manifest in favor of Lizardi and Company of New Orleans, carrying a contraband cargo. She was under contract to deliver flour, lard, rice and other supplies to the Mexican army at Matamoros; and, on its return, to transport Mexican troops to Copano.

that Santa Anna's objective was to capture the seaports. The plans included placing of 1,000 Mexican troops on Galveston Island. Santa Anna, on April 8, was marching along the river with four companies of infantry and 50 cavalrymen, in search of a crossing over which he could move his army.

Notebook—Hal Boyle

Keep Your Failures In Mind, Engineer Urges

NEW YORK (AP)—If you have met with repeated failure in trying to get something from life, do you try to forget your own mistakes? "Why not, instead, put your fizzle out in the open on a shelf—so you can keep learning from them?" This theory helped Lloyd Preston Gardner, an RCA electronics engineer, to develop the world's most powerful vacuum tube. It took him 10 stubborn years and 2,000 separate fizzes to fail his way to victory.

Cotton Exchange Head For Benson Price Peg Plans

HOUSTON (AP)—President W. L. Walker of the Houston cotton exchange urges cotton men to support the Eisenhower administration's proposed price support program. "All thinking people realize...we cannot long continue the present program of guaranteeing a 90 per cent of parity loan," Walker said. "The government would be swamped with cotton in a few years."

Pennsylvania Judge Asks Ban On Commies

WASHINGTON (AP)—Justice Michael A. Musmanno of the Pennsylvania Supreme Court appealed to Congress yesterday to outlaw the Communist party, asserting it "has no place in this land of God, or law, or decency and respect for one's fellow man."

Korean Youth Tour

SEOUL (AP)—Twenty-five Korean children left by plane today for a folk-singing and dancing tour of the United States to help the American-Korean Foundation campaign raise 10 million dollars.

Advertisement for Famous Words of Famous People, featuring a portrait of George G. Grey and the slogan 'YOU MAY FIRE WHEN READY, GEORGE!'

Special Red 'Switch'

HONG KONG (AP)—The Communist news agency carried a succession of stories about a new Moscow-Peking Express, a luxury limited which went into service between the two Communist capitals. The stories told everything about the train except how it managed to run on two different track gauges—Russia has wide gauge track, Manchuria and China medium gauge.

Around The Rim—The Herald Staff Nearly Anything Will Sell If It Can Be Attached To A Car

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald—Editor's Note.

Apparently anything you can tie, bolt or clip on an automobile will sell. Just take a look in the accessory stores. Or inspect one of those "loaded" buggies the used car men ballyhoo. The automobile has come a long way since the brass radiator and carbide lamp days. "Extras" on a "well equipped" car probably weigh more than the original vehicle without the trimmings. The cost of this "extra" burden probably amounts to a sizeable investment, too—60 cents and up at a whack. You can get extra back-up lights, clearance lights, parking lights, stop lights, emergency lights and probably some others at the dime or auto supply store. Put these on with chrome wheel fims, imitation wire wheel covers, curb finders, a new hood ornament (with or without lights), bumper guards, fender skirts, sun shields, chromium-plated window awnings, junk trays for the instrument panel, pot-metal rear fender fins, license plate frames, tag and bumper slugs, and a few other odds of "dress up" goods. And if you're not satisfied, complete the load with windshield washer (nearly standard equipment, now), headlamp shades, and air horns. Then arrange to have the spare taken out of the trunk's oblivion and mount it on the rear bumper. With a chromium-plated spare cover, and some three-pronged exhaust pipe extensions, you'll really be in business. All this weight makes the car's rear springs sag, like it's loaded with booze. If not, knked springs are available to give the auto that tall-down, rocket appearance, which is especially good for "main dragging" (with gutted muffler). No matter how snazzy the hood ornament or how tall the antenna, no car is "loaded" without the inevitable foxtail, however. All this adds up to a two-and-a-half-billion-dollar yearly auto accessory business in this country. Just find a bare spot for it, and nearly anything shiny will sell.

From The Capital—Thomas L. Stokes Florida Reaps Little Benefit From Its Offshore Oil Lands

WASHINGTON—Whatever happened about the offshore oil land law which was the first major measure brought forward by the Eisenhower Administration in the first session of this 83rd Congress? To refresh you—this law, enacted last summer, granted to coastal states ownership of marginal seas out to their "historic boundaries"—10.35 miles in the case of Texas—and confirmed the Federal Government's title to the continental shelf, so-called, beyond such boundaries. Recently, you may remember, the Supreme Court refused to consider a challenge of this law by Rhode Island and Alabama, though previously it had held that the Federal Government had paramount rights in all offshore lands beyond low tide. As for the Federal government, the Interior Department still has not issued rules and regulations about leases in the continental shelf over which the Federal Government has jurisdiction. They are expected soon. Thereafter, the government must pass on applications filed with the Interior Department to confirm 404 leases in the continental shelf previously granted by Texas and Louisiana when the states assumed they had jurisdiction in the continental shelf. About 75 companies, including the majors, are involved in the 404 leases, some in combinations. As for the states, Texas and Louisiana have proceeded with confirmation, and, in some cases, renewal of leases for offshore lands within their "historic boundaries" to some of our biggest oil companies, and have added to their revenues by "rent" for these lands. California is working out the problems of her offshore oil lands which are confined largely within state boundaries. But Florida is in a dilemma. It is now revealed by the enterprise of the Miami Herald and two staff reporters, Stephen Trumbull and John Kilgore, that the bulk of Florida's Gulf Coast, nearly 4 million acres stretching from Marco Island to Apalachicola, was leased to one company—Coastal Petroleum—back in 1944 for what it would be an exaggeration to call a "song." The company pays one cent an acre a year for offshore lands, two cents for intra-coastal lands and bay bottoms, and three cents for lake bottoms. That brings Florida the princely revenue of \$49,615.50 yearly.

Business Outlook—J. A. Livingston

The True Economic Impact Of Excise Tax Slashes Is Latent

On Tuesday, March 30, a buyer of a large Philadelphia department store was returning from a trip to the New York fur district. She was ecstatic. "I can't wait till Thursday. Sales will really soar." Congress had just passed the new excise tax bill. The retail tax on furs had been cut from 20 per cent to 10 per cent. All that was necessary, was President Eisenhower's signature. "Just think," she said, "a garment we sold for \$600 will now be only \$550. That's quite a saving—\$50 on a coat." "But will people buy furs just because the price is down?" I asked. "On your own figures, that's a saving of only 6 per cent."

She answered automatically: "Yes, it will stimulate sales. That's what everybody says in the fur trade." Such faith and enthusiasm are touching—almost infectious. Yet, the case for a speed-up in retail sales isn't that obvious. Consider the purchase of a fur coat. It's a high-ticket item—not something the average householder buys every year. It's not in the regular budget. In most homes, the wife and husband will talk the purchase over even more cautiously than they'd trade views on buying a new car or acquiring a dishwasher. A car in many households is a necessity; a dishwasher's a convenience. But a fur coat is a luxury. In short, the wife doesn't rush out to buy a fur coat because the price is down \$50. The \$500 tag is still a stopper. Hence, the reduction in the excise tax is not a direct sales booster. However, it's an influence. If the family had been hoarding its extra dollars intending to splurge on a fur coat, the price cut makes the purchase easier.

French Defender Has To Wait For Promotion Action

PARIS (AP)—Col. Christian de Castries, commander of French Union forces at beleaguered Dien Bien Phu will have to wait for the end of the siege for his scheduled promotion to brigadier general.

The French Defense Ministry recommended to the Cabinet last week that De Castries be advanced.

Emile Hugues, secretary of state for information, explained that, by French tradition, promotions cannot be made while a battle in which the officer is engaged is still to be won or lost.

President Eisenhower said in Washington March 24 that if he were field commander in Indochina he would give De Castries the stars of a general. Eisenhower also wrote a letter to French President Rene Coty commending the colonel's defense of Dien Bien Phu.

Wholesale Food Prices Show Drop

NEW YORK (AP)—Wholesale food costs as measured by the Dun & Bradstreet index declined slightly this week from the record high of a week ago.

The index stood at 87.40 compared with the record of 87.42 a week ago, the first decline in nine weeks. It remained 17.1 per cent above the figure of 86.32 in the corresponding week last year.

The index represents the total cost of a pound of each of 31 food items in common use.

Higher this week were rye, jelly, sugar, coffee, cottonseed oil, cocoa, steers, hogs and lambs. Lower were flour, wheat, corn, oats, barley, hams, butter, cheese and raisins.

An early Hindu law code made a person deaf from birth incapable of inheriting property.

Straw Hat Time is Dobbs Time

Friday April 9th is Straw Hat Day

It's time to do some cool calculating . . . time to change your felt hat to a breezy Dobbs Straw . . . choose from a wide selection of straws, styles and colors . . . all with colorful bands . . . 2 3/4 to 3 1/2 brims . . . regulars and long ovals.

Dobbs Panaires \$5.00 and \$7.50
Dobbs Milans \$10.00
Dobbs Panamas \$15.00

Dobbs leadership in "color in straws" is demonstrated once more by exclusive new colors as:	Capri Blue	Navy	Natural
	Hawaii Tan	Greenbrier	Sand
	Walnut	Cocoa	Vintage

Gasoline Prices Likely To Firm Up Soon, Oilmen Say

By SAM DAWSON
TULSA, Okla. (AP)—Gasoline prices at your filling station are likely to be firmer soon, oilmen say today.

But with gasoline stocks higher than they like and refinery capacity larger than civilian demand requires, oil producers have an uneasy eye on the course of business generally. They expect rising demand for their products, but they admit that any sharp drop in the economy would make their price structure shaky.

The oil industry also is sharply divided over how large a volume of imports of more cheaply produced foreign oil the United States should let come in now. Congressional debate on President Eisenhower's foreign trade program is likely to bring a new anti-import blast from the solely domestic producers, especially the smaller ones whose production rates

THE SPRINGBOARD

News From Webb Air Force Base
By JAMES F. KRUEGER

DINING HALL OF MONTH

Dining Hall "C" was chosen "Dining Hall of the Month" for March at Webb recently.

Col. Cleon Freeman, Wing Commander, presented a plaque in honor of the award to mess sergeant M-Sgt. Cecil N. Richards.

NCO CLUB PLANS BUILDUP

Part of a stepped-up program to improve the NCO Club was announced to all club members this week in a message from the board of governors.

In an effort to improve appearance of the club building exterior and landscape, volunteers have been solicited to assist in painting, landscaping, and other "handyman" jobs.

Physical layout of the club interior is being revamped to present a better appearance and more convenience to club members. The NCO Wives Club has redecorated the club lounge.

GS-4 SPOT OPEN

A position as Laboratory Technician, GS-4, with annual pay of \$3,185 is open at Webb AFB to civilian personnel.

Interested qualified applicants are urged to contact the Civilian Personnel Office, Building T-48.

OFFICERS' WIVES ELECT

Ladies of the Officers' Wives Club met last Thursday to elect new officers. They took office immediately for the six-month term.

New president of the club is Mrs. N. D. Hagins. She replaces Mrs. Sarah Fisher.

Other newly-elected ladies are Helen Greene, first vice president; Lucia Wallace, second vice president; Gerry Streeter, secretary; Betty Mesick, assistant secretary; Helen Blum, treasurer; and Landa Johnson, assistant treasurer.

NEW CHAPEL ALMOST FINISHED

Work on Webb's new base chapel is almost completed. First worship services in the new building have been tentatively set for May 2. The Army Corps of Engineers has supervised construction. The chapel will accommodate 200 people when completed.

AIRMEN RENT TV SET

Officers and airmen of Webb's Student Squadron recently chipped in to rent a TV set for Loretta Grant. Loretta, eight-year-old daughter of M-Sgt. Ebbie Grant who works in the link trainer department of the Pilot Training Squadron, broke her leg in a bicycle accident.

Though she admits "Crusader Rabbit" has a place on her list of favorite video shoes, the young miss can't be talked out of her ardent admiration for the "Amos 'n Andy" show.

Loretta likes the television set "gee, a lot" and thinks officers and airmen of the student squadron are "just wonderful" for renting the set.

SPORTS

Good weather this past week has been appreciated by everyone at Webb, but by no one more than members of the squadron softball teams. They've been out on Webb's diamond every night getting set for the coming softball season which begins next Monday evening.

The Wednesday Bowling League Turkeys bowled a 25-53 series to win all four of their games against the Orphans last week to increase their first place lead. Their season record is 68-35.

Small Boys took two out of three games from the Rotating Aces and the Try Hards made a clean sweep of their contest with Team No. 7. Red Dogs won three out of their four games with the Wing Shoe Clerks.

"abstract" print casual

"Abstract" . . . the season's smartest pattern that takes its motif from hand blocked Italian Imports. The sleeves and big rounded pockets are bordered with black linen. Waist-nipped by black patent belt. Black and white print on aqua, beige or cognac.

Sizes 12 to 18.

Stella Sea Lion Can't Help Love

CHESTER, England (AP)—Zoo director G. S. Mottershead said today it seems clear that Stella the sea lion just can't help loving that guy, even if it's suicide.

Stella's mate, Sammy, had killed three wives before the zoo men introduced him to Stella in January. He promptly bit her so badly they had to remove her to a pool 40 yards away to recuperate.

Recently Stella climbed over two intervening fences and set up housekeeping again with her murderous sweetheart.

Last night they found Stella badly bitten.

Stella's back in her private pool but her keeper says she still has that light in her eye.
