50 CONVICTS MUTINIOUS IN MINE

Crowds See Calles Off as He Retires to Seclusion

Rotary Convention Is Opened by Pres. Cardenas

MEXICO, D. F., June 18. (AP)—President Lazaro Cardenas opened the twenty-sixth convention of Rotary International Monday with a brief speech in which he asked the delegates to understand Mexico. Three thousand visitors heard the president discuss the economic and political conditions of the country. Flanked by generals and prominent political figures, Cardenas entered the palace through lines of soldiers, in dress uniform and with bayonets fixed.

Delegates enthusiastically applauded the president's speech, which was translated into English. The reply was made by Robert Hill of Columbia, Mo., president of Rotary International.

President Cardenas, fresh from a political triumph, told the visitors he was "glad you are here" because Mexico has nothing to hide or "to make her ashamed in the face of other nations of the world." Taking cognizance of criticism abroad of Mexico's social and economic program, Cardenas declared the country was proud of its laws, "which are looking for the salvation of the oppressed and the exploited" and is "proud of the educational system, which is designed for the benefits of most."

Cardenas said that the principal aim of his government is to eliminate social inequality and especially to aid the Indian classes. He praised Rotary's desire for international peace, which he said Mexico shared. Emilio Portes Gil, new president of the National Revolutionary Party, and other men prominent in political and military quarters escorted the president into the auditorium.

Jose Benitez, acting governor of the federal district, presented the Rotarians with the freedom of the city. Officials of the Mexican clubs delivered an address of welcome. Prince Purachatra, brother of former King Pradjadhipok of Siam, and Jose R. Carles of Barcelona, responded.

Hill, Rotary's president, said it was not impossible to reconstruct the world beneficially provided all individuals assumed responsibility. Paul P. Harris of Chicago, president emeritus of the convention, made a plea for international understanding. Approximately 5,000 delegates attended the convention.

BRITISH-GERMAN NAVY PACT MADE

LONDON, June 18. (AP)—Final agreement between Germany and Great Britain on all important points of the treaty to limit the British navy at 35 percent of the German navy at 35 percent of the United States navy was announced today. It was stated that this ratio "should in general apply to each category." It was understood that Germany would be allowed some latitude in the form of submarine warfare, larger than the British sea fleets, larger than the British.

SECRETARY BACK FROM CONVENTION

Mrs. Carl Covington, secretary of the Midland chamber of commerce, returned Monday from Brownsville where she attended the convention of the Texas Chamber of Commerce Managers association. She was accompanied to the convention by her husband, Carl Covington, and Mrs. Paul Chabas. They also attended a post-convention meeting in Monterrey, held to strengthen relations between Texas and Mexico.

Mrs. Covington was made a member of the resolutions committee and made a short talk on one of the programs.

The convention-school studied various problems of chamber of commerce work, and men and women who have made a success of civic leadership told the secret recruits not only how to carry through civic programs but how to avoid some of the common errors in community leadership.

Paul T. Vickers, retiring president, will serve another year as a member of the board of directors. Many of the secretaries believed the next meeting would be held at some point in West Texas. The Midland secretary was one of the six who were awarded an attendance prize for prompt attendance at every session of the convention.

Model Army Camp To Use HS Ground

Camp site facilities at the east part of the high school grounds have been granted for the use of the Fifth Corps area recruiting party to come here July 12. It was announced today. Permission was secured for members of the party to make of shower baths in the basement athletic room of the high school building. The recruiting party, which will pitch a model army camp for inspection of the public, will seek to enlist men from Midland in the army, for training in cavalry and field artillery detachments of the area. It is planned to recruit 1,000 men from this section of Texas if possible. Those having special aptitudes may enlist for quartermaster, medical, signal corps and other duties.

Rangers Seize Ag. Records

McDonald Welcomes Investigation of Department

AUSTIN, June 18. (AP)—Texas Rangers, acting under orders of the legislative investigating committee, today had in charge of the records of the state department of agriculture. J. E. McDonald, commissioner of agriculture, said Ranger Fred Holland came to his office last night accompanied by Representative E. E. Hunter of Cleburne and two representatives of the state auditor, and assumed charge of the records. McDonald, whose official conduct is under investigation by the house committee, said he welcomed the action of the Rangers, that he had nothing to conceal and they might "stay until Christmas" if they wished.

400 FEET OF OIL STANDING IN HOLE, HONOLULU-PARKER

By PAUL OSBORNE

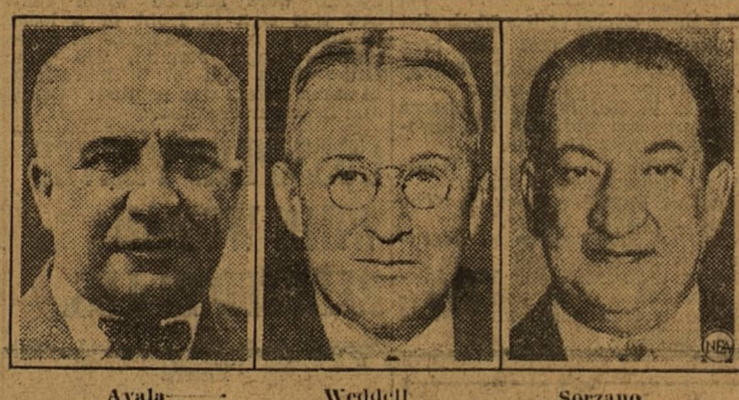

Reports at noon today credited Honolulu and Llanowr No. 1, B. Parker with having 400 feet of oil in the hole at total depth of 4,636 feet, where the Andrews county wildcat extension test is shut down preparatory to pulling pipe and deeper drilling.

The principal oil zone drilled so far was from 4,227 feet to 4,636 feet, the nine feet of hole requiring three and a half hours of drilling. Location of the Honolulu test is 440 feet from the north line and 1,650 feet from the east line of section 11, block A-45, public school land, about a half mile southwest of the same company's No. 1 Parker discovery prospect.

Close watch was being kept by Permian Basin oil operators today over Jeffery Oil company No. 1 B. Parker wildcat test drilling in the center of the northwest of the southwest of section 12-215-36, Lea county, which is reported running high.

A new fighting plane rears above him and sailors stand at salute. Thousands of spectators lined the shores to cheer as the ships moved in grand parade to their anchorage.

Where Truce Halted Deadly War

Peace has come to the shambles of the Gran Chaco, where the best blood of Bolivia and Paraguay has flowed in torrents for three years in the deadly struggle for the steaming tropical wilderness shown on the map. The shaded area shows the portion taken by Paraguay by force of arms. What part each combatant will hold will be determined at the peace parley. As truce came, Paraguay was smug toward Villa Montes, key to Bolivia's great petroleum district. Below are President Eusebio Ayala of Paraguay; Alexander Weddell, U. S. ambassador to Argentina, credited with saving the peace negotiations; and President Juan Luis Sorzano of Bolivia.

APPROPRIATIONS MADE FOR PROGRAM OF EXPANSION AT ARMY STATION HERE; NEW RADIO COMMUNICATIONS SETS FIRST

Appropriations for an expansion program at the army airdrome, Sloan field, have been made, calling for installation in the approaching fiscal year of two additional and larger radio communication systems. The station at present uses a 200-watt transmitter, with code system of communication. The new transmitters, to be constructed during the fiscal year of July 1, 1935, to July 1, 1936, will be as follows:

High frequency, Western Electric 14-A set, between 2,000 and 18,100 kilocycles, with power output of 400 watts; automatic control by voice operated in relays; Medium frequency transmitter, 150 to 550 kilocycles, power output 2,000 watts, on phone; remotely controlled telephone dial system, by voice operated in relays.

Part of the receivers already have been received here, it was announced. It was expected that the control sets and other equipment would be received here in the part of this year and will be installed by G. B. Brock and W. H. McCumber, radio operators at the station here. The transmitters will be installed in the present army building.

Additional appropriation of \$10,000 has been made for a construction program, to be carried on during the fiscal year from July 1, 1936 to 1937, it was announced. Plans call for a radio transmission building, the re-

Trip of 20 Odessa Students to New Orleans Described

Editor's Note: Superintendent Murry H. Fly of Odessa public schools, in the following article, recounts interesting experiences of twenty Odessa students to New Orleans recently. A system has been worked out whereby a trip of this nature, with expenses paid, will be made each year by twenty selected students.

The following students from the Odessa High School and their sponsors, Mr. and Mrs. Murry H. Fly, Mrs. J. T. Long and Mr. J. R. McCown, started their trip to New Orleans promptly at six o'clock May 30. Virginia Ruth Vickers, Lorraine Fly, Blake Jones, Annie Lula Peppers, Nellie Mae Norman, W. C. Harrison, Oleta Claiborn, Mary Edna McCown, Roy Vaughn, Mildred Thacker, Helen McLendon, Bill Midgagh, Marguerite Parker, Marie Christean, Floyd Burroughs, Dorothy Lee Kimes, Frances Middagh, Edna Moore, Willford Bond, and Robert Nash.

Well Done! All Ashore!

Superintendent and 11 Guards Held Hostages

Communications Cut To Surface; Are Partly Armed

LANSING, June 18. (AP)—Violence broke out in the Lansing prison coal mine today when a group of convict miners attempted to capture a gun cage manned by five prison officials on the 720 foot level.

The convicts, a part of the striking group which had held the mine since early today, were repulsed with gas guns. The attack on the cage came shortly after Superintendent Robert Murray returned after a four hour parley with the mutineers.

The gun cage, guarding the airshaft and the telephone, was the only communication between the mine and the surface.

LANSING, June 18. (AP). Three hundred eighty sullen convicts mutinied in the depths of the Kansas penitentiary coal mine here today, made hostages of 11 guards and definitely held out against prison authorities who sought to end the strike.

The mutineers virtually cut off all communications with the surface. Warden Lacey Simpson said he doubted that the convicts had firearms or weapons other than clubs, rocks and possibly a few knives.

The fate of the unarmed guards was unknown but prison officials expressed the belief that they would not be harmed seriously. Included among the hostages was the mine superintendent, Robert Murray, who went down the shaft after the mutiny became known and attempted to negotiate with the miners. Several hours later he still was missing.

Wild Man of L-7 Range Brought in; Continues Eastward

Rumors that a "wild man" was roaming the pastures of Bill Bryant and the L-7 ranch were dispelled yesterday when Sheriff A. C. Francis "picked up" a man who was walking about that vicinity, brought him to the railroad and routed him to the east.

The alleged "wild man", who had grown a heavy beard and was wearing somewhat tattered clothing, had alarmed some of the neighbors. When he saw the government coyote trapper, he fled into the brush. Sheriff Francis was notified and ran on to him in an automobile yesterday afternoon.

The man talked strangely, giving his name but no information which would identify him. He was told to keep walking when brought back to the railroad.

NRA to Watch for Unfair Practices

WASHINGTON, June 18. (AP)—President Roosevelt today directed the new NRA to examine closely any changes, occurring in labor contracts, which might result in unfair practices following abolition of codes. He proposed that this be done under supervision of an impartial committee, including representatives of labor and the member designated by the departments of commerce and labor. The purpose is for the gathering and publication of reliable information and to counteract any propaganda from private sources which may be designed to promote special interests.

Highway Trucker Killed at Pecos

PECOS, Tex., June 18. (AP)—Bud Galloway, a truck driver on a state highway contract job north of Pecos, was burned to death Monday when two trucks collided and burst into flames.

Roosevelt Forecasts Employment Pick-up, Orders Slowing Down of Projects Created to Increase Jobs

WASHINGTON, June 18. (AP)—Forecasting 1935 would begin "a pick up of the greater part of the unemployment," said a chief of state assistants, declared that the amount of federal funds to be available for each state would not be made public. They said rough estimates only, based on the \$19 to \$24 a month wage scale and with approximately the same allowances for materials and overhead, had been prepared.

Two other developments stood out in Hopkins' report to the president. He was named for the relief program in the April-May period which Hopkins attributed mainly "to improved business conditions and to seasonal increases in agricultural employment."

With Hopkins' warning at the opening of the conference that the next six months will "make or break" the works program, the state directors also heard the president reaffirm the principle that projects, though useful, must not cost too much, and that there must be no discrimination because of politics, race or religion.

Mr. Roosevelt explained the problem was strictly arithmetical—the employment of 3,600,000 men with four billion dollars.

He warned projects in all states must be of a nature giving average cost per man of \$1,100 to \$1,200, including all materials.

"That means, of course," the president said, "that there will be many heart-aches for people proposing expensive projects. Your difficulties and heart-burns in turning down these projects will be no more than I have myself."

As the president talked, Hopkins' assistants disclosed that the amount of federal funds to be available for each state would not be made public. They said rough estimates only, based on the \$19 to \$24 a month wage scale and with approximately the same allowances for materials and overhead, had been prepared.

Two other developments stood out in Hopkins' report to the president. He was named for the relief program in the April-May period which Hopkins attributed mainly "to improved business conditions and to seasonal increases in agricultural employment."

Gets Red Cross Life Saver Course

Robert Howe, life guard at Pagoda pool and for several years an outstanding record holder in Buffalo Trails boy scout council swimming meets, has been appointed to take the Red Cross course in life saving at Galveston next week.

He was named for the course by district Red Cross officials and will receive the week's training with expenses paid. Upon completion of the course, Howe will be qualified to serve as examiner in life saving work. He has served as life guard at Pagoda pool here for three summers.

'34 Certificates To Be Re-Issued

Cotton certificates carried over from last year were sent off by the county agent's office for reissuance yesterday. The certificates represented those of 184 producers and were for a total of 162,925 pounds of cotton.

Mrs. W. H. Sloan On Director Bd.

Mrs. W. H. Sloan received notification this week of her election to the Board of Directors of the Texas Tuberculosis association for a term of three years. Mrs. Sloan is chairman of the Midland County Public Health Board, which is affiliated with the above association and also with the National Tuberculosis association.

The objects of the Texas Tuberculosis association, as outlined in its by-laws, are: (1) Dissemination of knowledge concerning the cause, and methods of prevention of communicable diseases, especially tuberculosis; (2) investigation of the prevalence of such diseases in the State of Texas, and the collection and publishing of useful information; (3) securing proper legislation for the control of such diseases; (4) cooperation with state and local health organizations for the prevention and cure of such diseases; (5) enlisting the active interest of as many residents of Texas as possible in public health promotion; (6) encouraging adequate provision for consumptives and others who may be in need of institutional care for preventable diseases; by establishment of sanatoria, dispensaries, and otherwise.

The work of the association and its affiliated organizations is financed by the sale of Tuberculosis Christmas seals.

The Texas association raised approximately \$20,000 through the 1934 seal sale. Midland raised about \$475, forty per cent of which was sent to the state association, the remaining sixty per cent to be spent in local health work.

SPORTSMANSHIP BOOTS ONE

The case of Alabama Pitts is worth more than casual attention.

Alabama Pitts has just got out of Sing Sing prison, in New York, after serving some five years for a holdup. In prison he demonstrated that he is an able athlete; so, on his release, the Albany baseball team in the International League handed him a \$200-a-month contract.

Since everyone admits that the one great need of the ex-convict is a decent job that will enable him to go straight, this would seem to be an excellent move all around. But now a man named W. G. Bramham, president of the National Association of Professional Leagues, has ruled that Pitts can't play professional baseball because it would lower the tone of the sport.

What a ruling! The Albany fans want Pitts; the players want him; he wants the job, needs it pathetically. Is his chance to be denied him because some petty bureaucrat has baseball confused with some old maids' sewing circle?

Socialist leader speaks on subject, "Is America Ready for a Third Party?" Not until we get over our headaches from the other two.

If Huey keeps his promise to make us all kings, it may be possible to interest Miss Hutton in a "Wed-Americans-First" program.

Side Glances by Clark

"I had a nice, soft job here until you came along."

Crossword puzzle grid with clues for horizontal and vertical words. Includes clues like 'Who was the famous midget in the picture?' and 'Answer to Previous Puzzle'.

Portrait of a woman with a caption: 'Miss Ruth Marvel of Iowa who has been visiting in Midland has accepted a position with Dowell Incorporated.'

'Ten Commandments' Of Pre-Canning Season Listed

"Be ready for the rush of the canning season," advises Miss Myrtle Miller, county home demonstration agent. "When vegetables and fruits are ready to put in containers, it is no time to have to make repairs on canning equipment, when 'An hour from garden to can' is the slogan."

Miss Miller urges Midland county housewives who plan to do canning and preserving to go carefully over all canning equipment and see that it is in perfect condition before the time for its use arrives.

Here are the "10 commandments" to be followed in repairing equipment: 1. Check the registering of the pressure gauge. If there is any doubt as to its accuracy, test it by a new cooker with pressure set at the same amount.

2. Check placing of the lid. Never use a hammer to enforce its fitting.

See that lugs or other fastenings are in proper shape.

3. If cooker is warped, take it to the hardware store and have it treated with emery.

4. If cooker is warped, take it to the hardware store and have it treated with emery.

5. Examine the safety valve and its spring. The spring may be replaced at slight cost if worn out. The ball should be clean and bright. The safety valve is important. It should be cleaned after each day's canning.

6. The sealer should be oiled if it is the type that requires it. For the sake of maximum efficiency and long life, oil after each 100 cans have been sealed.

Some sealers are made with parts incased in oil so that no oiling is needed.

7. In any parts are worn, re-place them.

8. Check and clean all attachments and keep in a covered place.

9. If it is necessary to buy new canning equipment, investigate the different types before purchasing, so that you may secure the type best fitted to your needs.

10. If canning in glass, investigate the different types of covers, lids, and rubbers on the market. If canning in tin, acquaint yourself with types of tin cans and be informed as to which type is recommended by the Bureau of Home Economics for the vegetables you plan to put up, before going to the store to purchase containers. This information can be secured from the home demonstration office, hardware stores, or on the cartons of the better type cans.

For maximum speed and best results during the canning season, housewives are advised to follow religiously the "10 commandments" listed above.

Letters to the Editor

The Reporter-Telegram: I want to bring to your attention in this personal way the information in this advance copy of the program of the first National Jamboree of the Boy Scouts of America.

Circles of the Baptist missionary union held a joint meeting at the church Monday afternoon for Bible study.

Rev. Winston Borum taught the lesson from the second chapter of Romans.

Presiding at the meeting was Mrs. S. L. Alexander, president of the organization.

About 15 members were present.

PERSONALS

Addison Young has returned from a trip to cities in South and East Texas.

Mrs. M. D. Cox, Mrs. V. Z. Wren, and Mrs. W. A. Sherrod have returned from a 12-day trip to Oklahoma.

Miss Ruth Marvel of Iowa who has been visiting in Midland has accepted a position with Dowell Incorporated.

Curiosity Killed Cat NORTH ANDOVER, Mass. (U.P.)—Curiosity killed the cat. J. Lawrence Foster lifted the hood of his automobile to see what stopped his car so suddenly. He discovered that a cat had climbed up into the engine and had been exploring the fan.

Over-Zealous M. T. VERNON, Wash. (U.P.)—Frederick Sears trained his collie dog too well. He taught the animal to bring the evening paper in the house. The dog did it, then went outside and brought back several dozen papers belonging to neighbors.

As late as the 17th century, many persons of high intelligence believed that the barnacle goose originated as a ship barnacle.

Society and Clubs

Pleats and Flares for Style

An evening gown (left) of printed satin with short puff sleeves and a trim skirt that flares below the knees has the deep neckline in front. It's trimmed with thick silk cording. At right, a black, two-piece street dress with pleated skirt and slenderizing blouse is trimmed with interesting red frogs.

Methodist Circles Hold Social Meet At Glass Home

The three circles of the Methodist missionary society met with Mrs. Geo. Glass, 911 W. Texas, Monday afternoon for a social session.

Mrs. E. V. Guffey was in charge of the program and read the devotional from Acts 26:12-20.

"The Witness of Methodist Women" was the subject of study.

Mrs. Joe Capriota spoke on "The Life of Elizabeth Asbury." Mrs. Holt Jowell discussed "Methodist Women of Today."

During the social hour, Mrs. Jowell entertained with piano selections and refreshments were served to 20 members.

Announcements

Wednesday Chaparral troop Girl Scouts, will hold a swimming party and regular meeting at Pagoda Pool Wednesday morning at 10 o'clock. Each girl is requested to bring her swimming fees and her lunch.

Sans Souci club will meet with Mrs. J. G. Harper, 602 North Big Spring, Wednesday afternoon at 8 o'clock.

Play Readers club will meet with Mrs. E. Hazen Woods, 306 W. Ohio, Wednesday morning at 10 o'clock. Mrs. R. D. Scruugs will read.

Thursday The regular luncheon meeting of Rotary Annns scheduled for Thursday at noon has been postponed. Mrs. Percy Mims, president, announced. If no further announcement is made the meeting will be held on the fourth Thursday of the month.

Laf-a-Loi club will meet with Mrs. J. A. Tuttle, 1506 W. College, Thursday evening.

Friday The Escondido club will meet with Mrs. S. S. Stinson, 1805 W. Wall, Friday afternoon at 2:30 o'clock.

Belmont Bible class will meet with Mrs. Chauncey Garison 510 S. Colorado, Friday afternoon at the usual hour.

FEMININE FANCIES

BY KATHLEEN EILAND

Women are still in love with their age-old sport of hunting bargains. We found that out yesterday when a 1919 penny had a chance of bringing its possessor a whole dollar's worth of merchandise. We were right in the procession, of course, and after wasting half an hour from work, and wearing our patience thin standing in line, we found that 75 other women were ahead of us, and all our trouble was for nothing.

But we wouldn't let a little thing like that bother us. We'll get there earlier next bargain day!

Good acting can change the effect a character in a play will have upon the audience. Take for instance, the monster created by Frankenstein. Ordinarily such a creature with its clumsiness and inarticulateness, and fury would arouse hatred and disgust in those who saw its story depicted on the screen.

Yet such was the artistry of its portrayal that one, at least, who saw it saw the pitifulness of its loneliness and suffering, its blind groping toward better things more than the horror of it.

We have always said that no man, or woman either, is beaten so long as he can face the world and laugh. Helen Welshimer, who may be classified as a romantic but who, in our opinion, expresses a good many truths that will make practical every-day living better says of laughter:

When we count our blessings, as the old song tells us, we are inclined to run the gauntlet of food, clothing, shelter, eight hour working days, and other material measures. We seldom include sunshine, starlight, laughter.

It is only when people forget to laugh that their visions perish, their dreams die, their banners trail. Not merely the outward physical gesture of mirth but the quiet steady laughter that has its beginning in the heart.

If we take life, with its heart-breaks, its griefs, its joys, its plenary valuations and its occasional moments of sheer beauty, its rugged honesty if one digs deeply—if we take it all with laughter, realizing that the externals are only as important as we let them be—that internal reaction and pose are all that matter anyway—we would be happier.

Fair Warning

PUEBLO, Colo. (U.P.)—Citizens of Pueblo were amused when they saw this sign in front of a local church. It read: "Subject of Sunday evening's sermon, 'Do You Know What Hell Is?' Beneath it in small letters was printed: "Come and hear our organist."

GOSSIPERS PEEVED WHEN WOMAN REDUCED 21 LBS.

Never Felt So Good In 20 Years

Gossipers who tell you reducing is harmful or that you don't need to reduce (when your mirror tells you differently) probably wouldn't want to see you the slender woman you can be if you'll take a half teaspoonful of Kruschen Salts in a cup of hot water every morning—tastes fine with juice of half lemon added.

Kruschen can't harm you—it's a health treatment—physicians prescribe it. If one jar lasts 4 weeks and costs but a trifle) doesn't make you feel years younger and healthier.

Mrs. J. C. Bosham of Callaway, Va., writes: "I was too fat to have good health. I weighed 228 and after taking Kruschen for a month I lost 21 lbs. and feel better than I have for 20 yrs." For sale by City Drug Store, Petroleum Pharmacy or any drug store. (Adv.)

National Park For Big Bend Favored

FORT WORTH, June 17 (AP).—A plan to create a huge national park in the Big Bend area of Texas was outlined prior to the trip this week of Dr. and Mrs. W. M. Winton of Texas Christian University to the area for a conference with Government naturalists and on photographic expedition.

United States, the Government expects to obtain the co-operation of Mexico to set aside a similar park area across the Rio Grande. The area in the United States is in the southern tip of Brewster County.

From the park site, Dr. and Mrs. Winton planned to go to the Canadian Northwest for geological studies.

Senator Morris Sheppard has introduced a bill in the Senate to set aside 1,500,000 acres of the area and there is a companion bill in the house which has the support of Rep. R. E. Thompson of El Paso. The area would include the Chisos Mountains, which have pine-clad peaks 8000 feet high the last bit true Sonoran desert left undisturbed in the United States, and the Grand Canyon of St. Helena on the Rio Grande.

GULF, SOUTHERN ICE ARE VICTORS

Weakened by the absence of several regular players, Midland Hardware bowed to Gulf Refining company's soft ball team on the local diamond last night, taking the small end of an 11 to 13 score.

Because of the changed lineup for the Hardware, it was decided that last night's game would not be counted in the league standing.

Wright pitched for Hardware and Jimmy Adams was pitcher for the victors.

Southern Ice led Cox Motor company by a score of 24 to 8 in the other game of the evening. Bill Howard was pitcher for the winners and Bill McCumber for the Motor team. The latter team led the play until the beginning of the sixth inning. But a rally which resulted in seventeen scores in one inning gave the Ice a lead which led them out in first place.

Games for tonight are: Continental versus Hughes Tool, and Cox Motor company versus Midland Hardware.

Raft Starring in New Mystery, on Screen at Yucca

The drama of a political battle, the excitement of a murder mystery and the tenderness of romance are the elements from which are woven the engrossing story of Dashiell Hammett's "The Glass Key," now at the Yucca Theatre.

George Raft returns to the type of characterization which won him fame at the outset of his career in this picture.

Teamed with Edward Arner, he is the hard-fisted, tight-mouthed and loyal companion of the older man.

Frank Tuttle directed the picture which also features Claire Dodd, Charles Richman and Ray Milland.

Share-the-Wealth, Long's Plan Loses

WASHINGTON, June 18. (U.P.)—The Senate gave Huey P. Long a stunning rebuke Monday when it defeated his \$500,000,000 (billions) share-the-wealth plan, offered as a substitute for the administration's social security bill, without even the formality of a roll call vote or opposition by party leaders.

The action climaxed another day of desultory debate which virtually assured passage of the measure in the upper chamber Tuesday.

The Long plan died amid a thundering chorus of no a few moments after the Louisiana Democrat had taken his seat.

For nearly an hour he had read passages from the Bible, described the French Revolution and related instances of poverty in the United States in urging the adoption of his program.

Malicious Thieves

SALT LAKE CITY, Utah. (U.P.)—Adding insult to injury, thieves stole a bag of laundry from a parked laundry truck, and then released the brakes so the vehicle would roll down a hill.

Facts About New Securities Law

Editor's Note: This is the first of three articles explaining the new Texas Securities Law, published through courtesy of Gerald C. Mann, Secretary of State.

Who is he?
Can I depend upon his word?
Is he registered and licensed?
These are the questions that you should have answered to your complete satisfaction before buying stocks, bonds or leases, royalty or any other form of investment securities from a salesman—particularly when the salesman is a stranger. That's the advice of Secretary of State Gerald C. Mann, administrator and chief enforcement officer of Texas' new Securities Act.

Designed to curb the fraudulent and crooked seller of securities, the new law required every security dealer, agent and salesman to be registered with the State. Any citizen may determine for himself if the salesman is registered by writing to the Secretary of State. The records are open to the public.

The State does not propose to guarantee or endorse any stock, bond or other security. However, salesmen may be held strictly accountable for representations made in the sale of securities.

The important thing, according to Secretary Mann, is to BE SURE THE SALESMAN IS REGISTERED!

Acquit Crawford in Burglary Case

Jim Crawford of Seymour was acquitted in district court here late last night on charges of burglary which grew out of the alleged theft of clothing and other articles from two Midland county farm houses several months ago.

The case, on trial most of yesterday, went to the jury late in the afternoon and a verdict was returned at 11:30 o'clock last night.

James Burleson, negro charged with burglary of the McMullan store here, pleaded guilty and was given a two years suspended sentence.

The case of the state vs. Merrill, cattle theft, was continued to the next court term on account of the illness of a material witness.

Trial will begin Thursday morning of O. C. Kennedy, charged with rape. The case was transferred from Martin county after the district court case there last term resulted in a mistrial.

Big Spring Paper Man Goes to Pampa

BIG SPRING.—James L. Russell, Wichita, Kansas, experienced newspaper advertising man, assumed his new duties as manager of the advertising department of The Big Spring Herald Monday morning.

He succeeded Glenn D. Guilkey, who has accepted a position on the advertising staff of the Pampa Daily News. Guilkey has been with The Herald since 1931. He and Mrs. Guilkey were to leave Sunday morning by automobile for their new home.

Spirit of Competition

RICHMOND, Va. (U.P.)—A ban-tam hen owned by Dewey L. Wilkerson was prize winner in a poultry contest. To clinch her victory, she laid an egg while being judged.

Stories in STAMPS

ORIGINATOR OF THE POST CARD

WHEN the Universal Postal Union, which controls international postal affairs, celebrated its 50th birthday in 1924, Germany issued a stamp which paid tribute to the founder of its postal system and the inventor of the penny postcard—Heinrich von Stephan, who also was the chief inspiration of the U.P.U.

Von Stephan was only 33 when in 1836 he reorganized the postal services of Prussia's conquered duchies of Schleswig and Holstein, and in 1871 became postmaster general of Germany. As early as 1865, he suggested use of postcards. But Austria, not Germany, was first to adopt this form of mail.

To climax his career, Von Stephan organized a parcel post service for Germany, so that by 1883 that country handled 70,000,000 parcels as against 52,000,000 in all other countries of the world.

On the seven day shelf: Will James, In The Saddle With Uncle Bill.

Al Simmons, Tech Athlete, Drowned

LUBBOCK, Tex., June 18. (U.P.)—E. Clifford (Al) Simmons, 27, former Texas Technological college football player, was drowned Monday when he was overcome by fumes and fell into a tank full of fuel oil.

Simmons was attempting to adjust the burner of a pump in a laundry and had entered the underground oil storage tank when the accident occurred. Firemen recovered his body. He was a son of John Simmons, Santa Anna, Texas. After funeral services at 8 a. m. the body of Simmons was to be forwarded to Santa Anna for burial. Arrival at Santa Anna was scheduled about 4 p. m. today.

Brady Race Track Gets Relief Labor

BRADY, June 18.—Visitors to Brady's 32nd annual July jubilee and race meet will be greeted with notable improvement at the race track, in the moving, rearranging and reconstruction of the immense grandstand. The big double stand, which heretofore has been on the line of the outer edge of the race track home stretch has been moved back 30 feet, to provide a large open space in front for the overflow crowds at the races.

Incidentally, the stand has been anchored to solid concrete foundation posts, making for both safety and security. The narrow passage between the regular grandstand seats and the reserved seats has been widened by including in it the entire space formerly given over to the reserved seats. The new reserved seat section has been built immediately in front of the grandstand, each bay being enlarged to assure the comfortable seating of parties of six. The lowering of the boxes and the shifting of the stand further east assure full view of the entire race track, and in particular of the home stretch, to all occupants of the grandstand, without necessity of standing up in the seats.

Ticket office and entrance, which heretofore has been located at the east end, is now in the middle, between the two sections of the stand, enabling convenient entrance and exit. Seating capacity of the grandstand and reserved seat section totals 3,500.

Labor upon this project and for the cleaning and improvement of Richards Park grounds and the roadways is provided through the local relief office, an expenditure of \$1,957 for this work having last week been approved by the Texas relief office in Austin.

Observation Ships

Two observation ships, an 0-38 and an 0-43, made landings at the Midland airport today, a report at 1:30 o'clock this afternoon showed. Major Peterman piloted the 0-38 enroute from Fort Sill, Okla., to El Paso, while Capt. Kyle was flying the latter ship from San Antonio to Amarillo.

Dogs May Race in Norfolk

NORFOLK, Va. (U.P.)—Dog racing may be added to amusements at Virginia Beach this summer. Promoters, whose names carefully have been withheld, reportedly have obtained a lease on a race track site, and have completed plans for a grandstand.

Cotton Committee To Hold Hearing

A joint committee composed of five members of the House and five members of the Senate of which Representative F. E. Knetesch, of Seguin, is Chairman, will hold an open meeting and hearing in the Crystal Ball Room in the Baker Hotel in the City of Dallas beginning July 1, 1935, at 10 o'clock a. m., a letter to The Reporter-Telegram announced.

Members of the Committee are: Senators Tom DeBerry, Bogota; Will M. Martin, Hillsboro; Will D. Pace, Tyler; W. B. Collie, Eastland and John S. Redditt, Lufkin; and Representatives J. J. Olson, Yorkum; R. A. Fuchs, Brenham; W. E. Pope, Corpus Christi; A. B. Tarwater, Plainview; and F. E. Knetesch, Seguin.

The Committee urgently requests the attendance of all those who are engaged or interested in the growing, producing, ginning, compressing, transporting, shipping, market-

ing, buying, selling, processing, manufacturing, spinning, warehousing, or exporting of cotton, invitations to attend are extended to Mr. Henry A. Wallace, Secretary of Agriculture; Mr. C. A. Cobb, Head of the Cotton A. A. Program; Mr. J. E. McDonald, Commissioner of Agriculture; representatives of A & M. College, Texas Technological College and all agricultural colleges in Texas; representatives of all cooperative marketing associations, farmers, land owners, ginners, spinners; representatives of cotton compresses; and all transportation agencies engaged in shipping or transporting cotton; in fact, all interested in the textile industry, cotton buyers, merchants, manufacturers, and exporters.

The Committee recognizes that cotton is one of the world's greatest crops and is the South's greatest crop and that Texas is the greatest cotton producing State. The growth and handling of the cotton crop is one of the largest and most intricate businesses in the world and has become more complicated the past five years. It is generally con-

ceded that we have no permanent policy today from a government standpoint as to the cotton situation.

The Committee is, therefore, anxious to get all the information and light from all interested parties so that if possible a comprehensive program can be worked out. The Committee is not sponsoring or opposing any plan but is only interested in getting a cross section of the opinion of all interested parties and respectfully invites appearance and suggestions from everyone interested in this very important commodity.

The Committee suggests that where groups are represented they confer and select spokesmen for the group as it will be impossible for the Committee to hear each individual member of the various groups. The Committee will appreciate hearing from interested parties giving time requested before Committee.

For short distances, the top speed of a fast antelope has been estimated at 60 miles an hour.

Utah Literacy High
SALT LAKE CITY, Utah. (U.P.)—Utah is next to the lowest state in percentage of illiteracy for its population, being outranked only by Oregon. Only 1.2 per cent of Utah's population was classed as illiterate in 1930, while the national average was 4.3 per cent.

Girl, 10, to Enter High School
ALLEN TOWN, Pa. (U.P.)—Lehigh county has two of the youngest high school freshmen in history. They are Ruth M. Snyder, age 10, and Avna Crett, 11, who was graduated from grammar school and will enter high school next fall.

Relief Chisler Jailed
TIFFIN, O. (U.P.)—George McIntire had an idea of how to make some easy money, but it didn't work and he went to jail. McIntire went to relief administration headquarters, obtained a mattress and then attempted to sell it for \$2.

TIRES MAY LOOK ALIKE ON THE OUTSIDE ON THE INSIDE THEY ARE DIFFERENT

HEAT on the inside created by friction is the main cause of blowouts. Firestone Tires are different on the inside—they are built with the patented extra process of Gum-Dipping that soaks every cord and insulates every strand with pure liquid rubber, preventing internal friction and heat. No other make of tire is Gum-Dipped.

When you realize that there were 882,000 automobile accidents in 1934, injuring 954,000 people and killing 36,000, and that 43,000 of these accidents were caused by blowouts, punctures and skidding, you will be more interested in the make of tires you use on your car.

Firestone performance records again emphasize the undisputed evidence that Firestone Tires are not only blowout-proof, but give greatest protection against skidding. There are three questions and answers that will solve the problem of what tires to buy:

QUESTION 1—"Will the tread give me the greatest traction and protection against skidding?"

ANSWER—Recent tests by a leading University show that Firestone High Speed Non-Skid Tires stop a car 15% quicker than any other of the leading makes. For eight consecutive years Firestone Tires have been on the winning car in the dangerous Pike's Peak Race where a skid means death. This is undisputed evidence that Firestone gives car owners greatest protection against skidding.

QUESTION 2—"Are they blowout-proof?"

ANSWER—Firestone Gum-Dipped Tires have the most amazing records for being blowout-proof of any tires ever built. In the gruelling 500-Mile Race at Indianapolis, May 30th, every one of the 33 cars was equipped with Firestone Gum-Dipped Tires. Kelly Petillo won the race and broke the record over this 26-year-old rough brick track without tire trouble—in fact, not one of the 33 drivers had tire trouble of any kind.

Ab Jenkins drove his 5,000 pound car on Firestone Gum-Dipped Tires over the hot salt beds of Utah, 3,000 miles in 23½ hours, at an average speed of 127.2 miles per hour, with temperatures as high as 120°, without tire trouble of any kind. These are most amazing proofs of blowout protection ever known.

QUESTION 3—"Without sacrificing these two important safety features will they give me longer mileage, thus making them the most economical tires I can buy?"

ANSWER—Firestone High Speed Tires not only give you more than 50% longer wear, but also lowest cost per mile. This is made possible by the tough, wear-resisting tread built with higher shoulders and a wider, flatter contour. This thick, rugged, scientifically designed tread is held securely to the Gum-Dipped cord body by Firestone's patented construction of two extra layers of cords under the tread. This is a special construction feature not used in any other tire. Unequaled mileage records by thousands of car owners add undisputed evidence of the longer wear and greater economy of Firestone High Speed Tires.
