ATTEMPT TO GET PWA WORKMEN TO JOIN IN STRIKE

New York, Aug. 9. (AP)—Launching a strike movement which threatens to encompass other large cities, union representatives today made flying visits to call 10,000 to 15,000 skilled workers from the Works Progress Administration jobs in a protest against the government's security wage.

PWA administration officials said that about 700 workers were away from their jobs today. Union officials made no statement on the "striking tight" policy has been proclaimed by Hugh S. Johnson, New York administrator.

TO START PAVING ROADS IN HOWARD CO. THIS MONTH

BIG SPRING, Aug. 9.—Prospects for early surfacing of highways through Howard County were brightened Thursday by the announcement that contract would be let August 20 for construction of 11.01 miles of two course road east of Big Spring on No. 1.

The announcement followed close on the heels of a prediction Wednesday by District Highway Engineer W. A. French, Abilene, that No. 1 east and both ends of No. 9 would be surfaced soon.

Surfacing is to start at a point .59 miles east and will continue to a point approximately 2.1 miles east and a half east of Coahoma.

Bids will be accepted by the State highway department until 9 a. m. August 20 when they will be opened and contract let. Specifications may be had from S. C. Dougherty, highway engineer, Big Spring, or from the State highway department.

However, French's statement that contract would be let on No. 9 south soon was received here with even more satisfaction than the advertisement for bids on No. 1.

Contract will be let first on the No. 9 south road because plans are complete, he said. As soon as four and a half miles of grading on the north end of No. 9 is finished as a WPA project, bids will be taken for surfacing on that end through March County.

Both No. 9 projects are on the preferred list of the highway department and will be constructed out of Federal aid funds, French said. This means they will be started rapidly to completion.

All of No. 9 through Howard County will be finished long before No. 1 is completed, French predicted.

Workmen are still engaged in construction of an overpass over the T. & P. tracks six miles west of here on rerouted highway No. 1. Steel beams are going into place, rapidly giving the overpass shape. Surfacing of No. 1 east is to be done with state funds, French said.

Negro Convict Charged in Old El Paso Murder

EL PASO, Aug. 9. (AP)—A complaint charging John Henry Brown, negro convict in the Missouri penitentiary, with the murder of Miss Roberta Robinson on the night of Jan. 7, 1924, near the Smelter, was filed before Peace Justice M. V. Ward yesterday by Sheriff Chris P. Fox.

The complaint charged that Brown "did with malice aforethought kill Rowena Robinson by then and there choking and strangling her."

Justice Ward issued a warrant for Brown's arrest.

Brown is serving a sentence in the Missouri prison for a robbery charge.

A letter to the Police Department which was turned over to Sheriff Fox gave officers the first clue in the case which puzzled officers since the day when Miss Robinson's ravaged body was found stuffed into a culvert at the Smelter.

"The woman said that it couldn't be her son," Sheriff Fox said, "but she refused to say why it couldn't be her son."

The woman's husband told Sheriff Fox that his stepson was in the Missouri prison.

In an interview with Sheriff Fox in the prison, Brown "coursed and raved" when accused of the slaying and denied that he had done the killing.

The Sheriff failed to get a confession from Brown but placed a "hold" on him with the prison authorities.

Miss Robinson left her home on Sunday, Jan. 6, 1924, to attend a moving picture. That was the last time she was seen alive by members of her family. The family first grew alarmed when she failed to return by 8 p. m. that day.

Two smelter employees reported seeing her on a Smelter street car at 7:30 that evening.

Following a conference with Secretary of State Hull, a statement was issued pointing out that the government exercised no control over the press in the United States.

POLICE CLEAN-UP OF ALL AGITATION CENTERS ORDERED

Paris, Aug. 9. (AP)—The French government today ordered a police clean-up of agitation centers. Premier Pierre Laval ordered the prefects of France's 86 departments to confer with him immediately. It was the first conference of such a nature in the history of the French republic.

A somewhat easier attitude prevailed as government agents laborers at Toulon and Brest, and French line employees at Le Havre voted to end the strike, enabling the steamship Champlain to sail today, two days late.

Police threw a network over the scene of riots at Toulon last night. A house search today brought forty arrests and it was discovered that many were wounded.

Boy Scout Jamboree is Cancelled

Infantile Paralysis in Washington Area Is Cause

WASHINGTON, August 9. (AP)—Cancellation of the National Boy Scout Jamboree planned here August 21 was announced by President Roosevelt Thursday because of the prevalence of infantile paralysis in this section.

Mr. Roosevelt agreed to address the Boy Scouts and their leaders by radio in their respective camps throughout the country at 8 p. m. (EST), Wednesday, August 21.

The White House conference was preceded by a meeting at the surgeon general's office attended by health officers of Maryland, Virginia, North Carolina and this city.

Chuck Wagon Editor Gives Fair-a-Send-Off

Frank Reeves, in today's Chuck Wagon Gossip column of the Fort Worth Star Telegram, found room for comment on the approaching Midland Fair, after an interview with five Midland men who exploited the fair earlier in the week.

Conditions are very favorable for a successful show and cattle at Midland Oct. 19-23, inclusive. This will be the initial Fall fair and sale at that place. It was proposed to capitalize it at \$30,000 and the money has been subscribed. The site has been selected. A committee composed of Roy Proctor, president of the show; Clarence Scharbauer, A. C. Francis, sheriff of Midland County; Elliott P. Cowden and Roy Parks visited Fort Worth and secured five saddles offered as special prizes for the rodeo events, as well as a number of other prizes suitable for the girl sponsors who will participate in the show and parade.

"Fort Worth is 100 per cent behind our show and we are expecting a large delegation to attend," Parks said. "We come to the stock show and races at Fort Worth and we are glad to be able to invite our friends in Fort Worth to pay us a visit."

There will be four days of racing, three days of rodeo—the rodeo will be Oct. 19, 20, and 21. On Oct. 21 the cattle will be judged and on October 22, 2500 will be bred calves and yearlings will be sold at auction.

Court Order Clears Legal Barriers to Cotton Market

Houston, Aug. 9. (AP)—Legal barriers which threatened to prevent movement to market most of the Texas cotton were cleared away in Federal Court here Thursday.

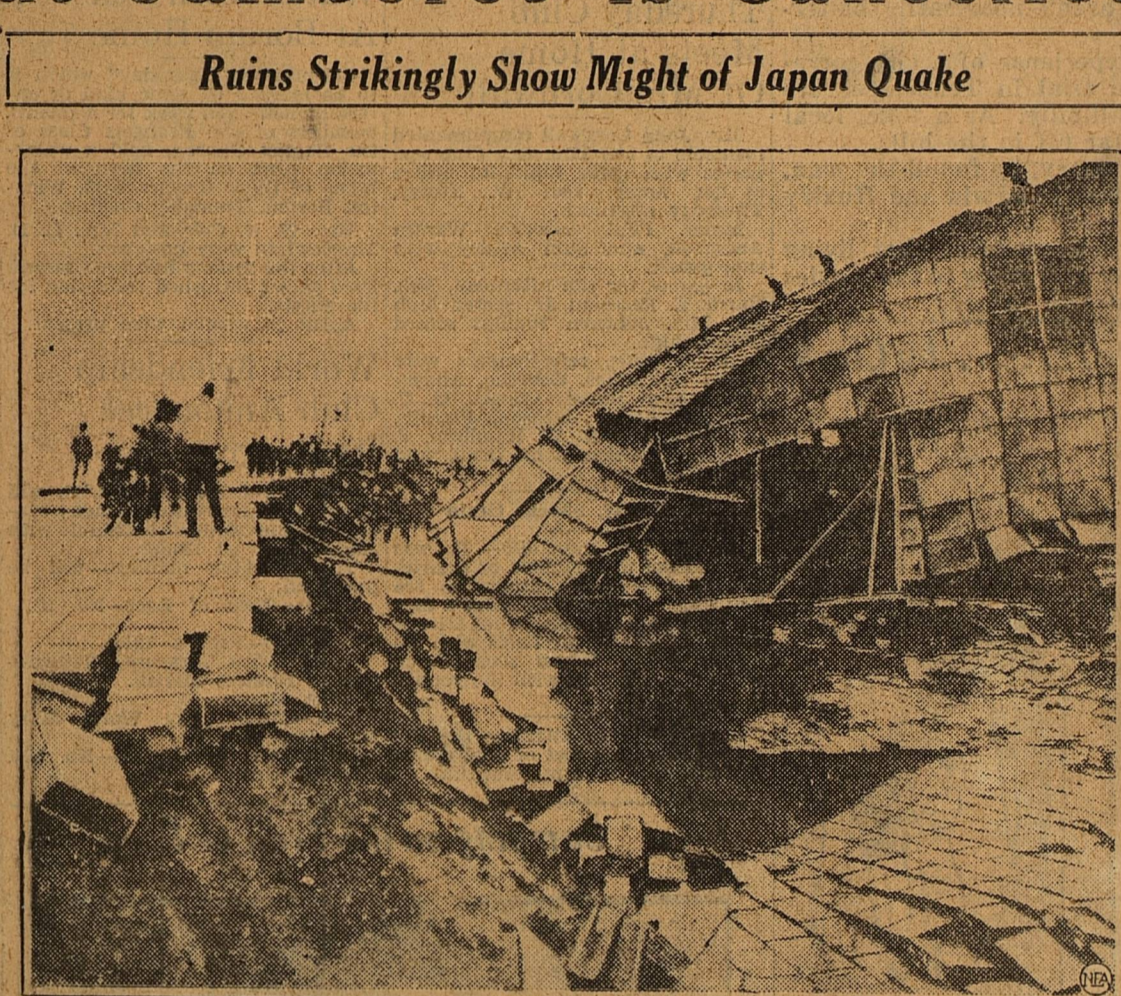

After a day of laborious conferences between attorneys, Judge T. M. Kennerly signed an order which in effect will enable the ginners to obtain bale tags under the Bankhead Act and to move their cotton to buyers.

Judge Kennerly held that a temporary injunction granted by Judge Randolph Bryant at Sherman on July 19 restraining government agencies from compelling cotton ginners to comply with the Bankhead Act was unenforceable. He ruled that plaintiffs who obtained the injunction had failed to post bond of \$10,000 fixed by Judge Bryant.

Committee Is Named.

The war department announced that General Fulois, on his own application, was granted leave of absence until December 22. At that time he will be 64 and automatically retired for age.

General Fulois, now on temporary leave, has had little direction of air corps activities since House Military Sub-Committee demanded that Secretary Dern remove him as chief because of charges of inefficiency, mis-statements made to an investigating committee and other accusations.

CITY BUMPKINS

Mrs. Mary Elizabeth Mahoney, that admirable "ridge-runner" and champion country correspondent of Oasis, Mo., held her own in all verbal tilts during her visit to New York. But one of her parting shots sank pretty deep. Mrs. Mahoney noted that among the New York newspapermen who interviewed her, one was surprised to find that "I knew more about literature than he did." Mrs. Mahoney reckoned that they didn't have much time to read in New York. There is some truth here. City people live faster and are more familiar with gadgets of thought and mechanics than country people. But they aren't necessarily better educated or even better read. Newspapermen recall the experience of a city correspondent covering the evolution trial in Tennessee. He wanted to interview a typical hill-billy. As a joke, local people directed him to a cabin far off in the hills. Arriving after a laborious journey, he found the man, who quoted the Greek testament and Darwin and Huxley with perfect familiarity. Mrs. Mahoney is just another reminder that living in a three-room walkup apartment and going to the movies three times a week is no guarantee of literacy.

THE integrity that was China's symbolized by the unique wall that lined its northern border. Today, both China's steadfastness and that wall, which has been called the "eighth wonder of the world," are pierced by Japanese imperialism. Once it had been started, in an effort to keep out marauding invaders from the north, the wall rose almost to completion of its 1500-mile length under the driving power of the Emperor Chin Shih Huang Ti about the third century B. C. It received its final addition, however, only 300 years ago. Some of the stamps of China, as shown below, give a clear picture of this wall, a line of masonry about 22 feet high and 20 feet wide, crossing valleys and mountains regardless of the difficult terrain.

A fellow just told me that the brain trust eventually will go the way of the chataqua. If I had been five years younger I wouldn't have known what he was talking about. Do you remember when the chataqua man (or woman) used to come around each year to sign up guarantors for the chataqua? Many a man has paid out from \$25 to \$50 a season on those jobs, besides buying tickets for his whole family, just to bring high class entertainment to a town. What saps! LITTLE ROCK, Ark. (AP)—A solid black walnut table made from a tree planted 60 years ago by the late father of a former governor has been placed in the executive study at the capitol.

Court Provides Coats

CHATTANOOGA, Tenn. (AP)—Judge L. D. Miller keeps a supply of old coats in his courtroom during hot weather. The coats are for lawyers who come to court in their shirt sleeves, forgetting an old regulation which requires lawyers and court officers to wear coats.

Town Trough to Go

AMES, Iowa. (AP)—Iowa ranks third in the nation among dairymen who test their herds for butterfat production, according to Floyd Johnston, extension dairyman at Iowa State College. Because of these tests in Iowa, the state leads all others in the number of herd sires proved during 1934.

1400-Year-Old Log Shown

SEQUOIA NATIONAL PARK, Cal. (AP)—One of the oldest passengers to make an ocean voyage sailed on the Italian steamer Felba. It was a section of the 1400-year-old Atwell Mill log, a giant Sequoia, which the National Park Service, at the request of the Italian ambassador, sent to Italy for exhibition purposes.

Hay Truck Spreads Fire

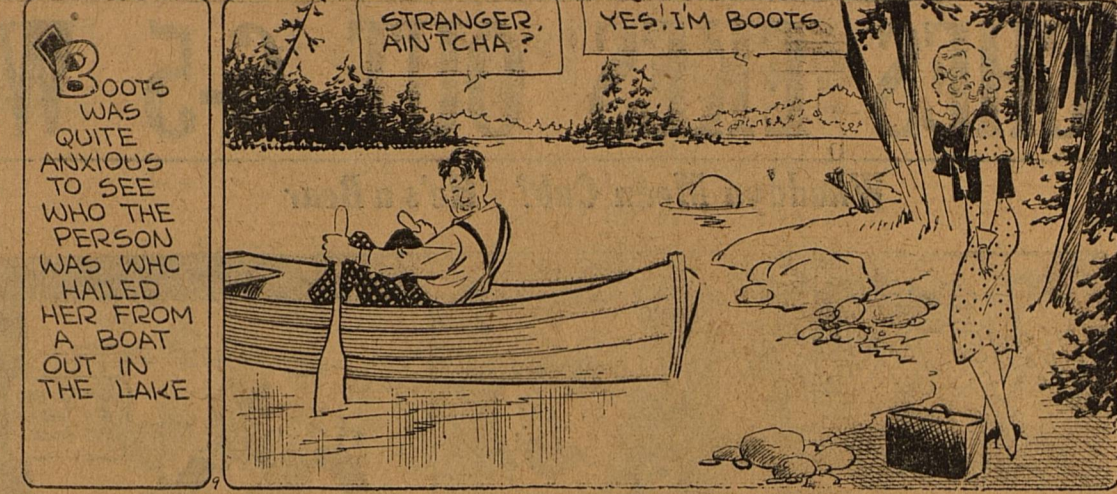

STEVENS POINT, Wis. (AP)—A. L. Laskowski was an unprofitable customer of a gasoline station here when he drove in with about a ton and a half of hay on his truck, tipped over a pump which ignited from short circuiting its electric wires. Hastening away Laskowski tipped over another pump which helped feed the fire.

It's Chicken Picking or Else

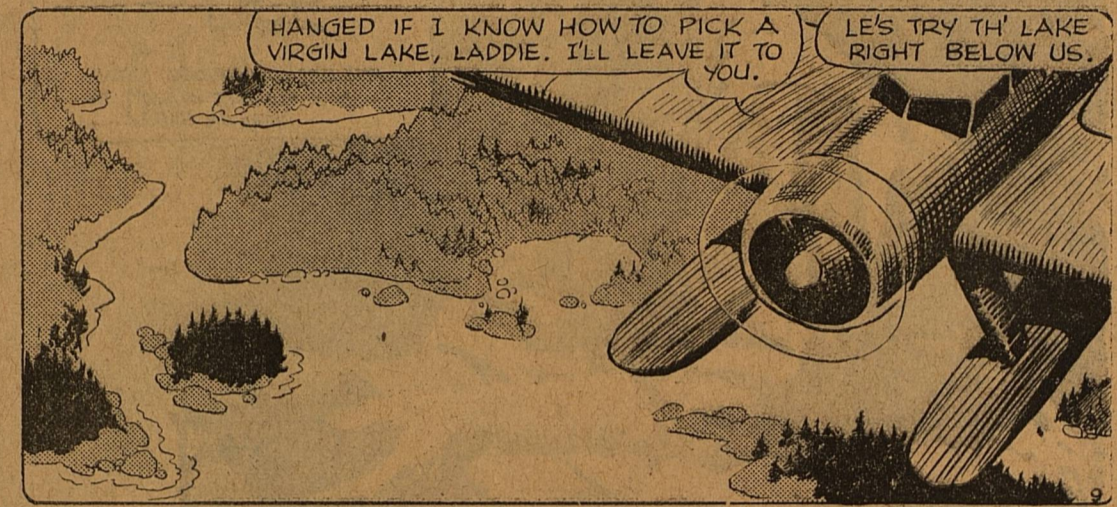

TIFFIN, Ohio. (AP)—Friends who testified a Tiffin man "couldn't stand" chicken feathers and it "hurt his hands" to pluck them couldn't get him back on the FERA rolls. County Relief Director H. P. Boulbouille dropped the man because he was "too busy working for the FERA" to take a \$12-a-week job as a chicken picker.

Tap Dance King in "Hooray for Love"

"Bojangles" Bill Robinson, the tap dancing king is one supremely happy individual. For "Bojangles" Bill likes motion pictures. And motion picture audiences like him.

Robinson is appearing in RKO Radio's new musical romance, "Hooray for Love," Sunday, Monday and Tuesday at the Ritz Theatre. As one of the cost supporting Ann Sothern and Gene Raymond, he does featured dancing in a big time revue incorporated in the story. He went into the "Hooray for Love" cast after scoring a decided hit with Shirley Temple in "The Little Colonel."

When "Bojangles" Bill was five, he was earning nickels and dimes by dancing in beer gardens. The public schools of his home town, Richmond, found him a department problem. As a result, his formal schooling ended when he was six years old. When he was eight, he left home and worked in a racing stable in Washington, D. C.

Robinson's first real dancing job brought him 5 dollars a week and

Some years, he was receiving \$2,000 a board.

a week as vaudeville headliner and star of musical comedy. Bill has given lessons to many great dancers, but has taken none himself.

Young, Boyer Star In Movie of China

The story of a man who dedicated his life to winning control of a financial empire, then threw away everything he had won for the sake of the woman he loved is that of Paramount's "Shanghai" which comes to the Yucca Theatre, preview Saturday night, Sunday, Monday and Tuesday.

Starring Loretta Young and Charles Boyer, "Shanghai" is an intensely dramatic picture of the rise of the new Western influence in the heart of the world's oldest empire.

The plot of the picture centers about the rise of Boyer, a mystery man, from the gutters of Shanghai to the very top of its financial pinnacle. Ruthless, determined, without mercy, he sweeps everything out of his path, conceals the secret of his ignominious birth, until he

meets the one woman.

The woman is Loretta Young, a beautiful American. Because he is overwhelmingly in love with her, James Flood directed the film which also features Warner Oland, Fred Keating, and Alison Skipworth.

Brady Jubilee Free of Debt; Grosses \$7,500

BRADY, Aug. 9.—Brady's July Jubilee is free of debt. Not only has the expense incurred through outstanding improvement during the current year, been liquidated, but the association has further been enabled to clean up the balance of the old debt, dating back to the 1931 celebration.

The record breaking attendance which featured the three day jubilee this year, is responsible for the excellent financial statement which the organization officials have been enabled to make.

Receipts for the 1935 Jubilee totaled \$7,550.23, while disbursements were \$7,182.51, leaving a balance of \$367.72. Except for one year, Ed Broad has been in charge of the Jubilee which is staged each summer.

HUGHES STAYS ON TOP OF LEAGUE BY VIRTUE OF WIN

The Southern Ice and Hughes teams combined to pick on the weak sisters of the league, Cox and Conoco, who the Ice defeated the Cox Club 13-5 and the Hughes team finally won a hard fought game on the cellar club, Conoco, by a six to five score.

After trailing the Cox club for two innings, the Ice tied it up in the third and from then on scored in every inning. They made three runs in each of the third and fourth innings and the fifth was good for four tallies.

The Cox team made one run in the first and three in the second to go ahead but did not stay that way long. While the Ice was building up their run total the Coxmen were unable to cross the plate again until the sixth when they made one run. Their final run came in the seventh.

After spotting the Conoco team one run in the first and four in the second the Hughes team had a hard time ever catching up and did not do so until the fifth when they finally went one run ahead and managed to hold it to the end, but they had a hard time of it.

Hurst, last hitter in the seventh for the Conoco, hit one far into right field for three bases but was out trying to stretch it into a home run which would have tied the score.

Both Newton and Lewellen pitched good ball, the former giving up six hits while the latter was allowing the Conoco team only five binges.

DISTRICT OFFICES SUPPLANT COUNTY RELIEF AGENCIES

AUSTIN, Aug. 9.—Location of the 38 district headquarters to administer relief in Texas, supplanting the county administrative offices, and the names of the district administrators were announced last week by the Texas Relief Commission at the conclusion of a three-day training period here for district staff members.

While the county administration of relief will be completely eliminated, county offices will continue to operate until they have been replaced by the district offices. It was emphasized. Moreover, case workers will be maintained in the counties after district administration is set up and clients will not have to go outside their own county to obtain relief.

Abolishment of the county administration of relief in Texas was announced last week by State Relief Director Adam R. Johnson, who explained that curtailment of administrative costs in line with the reduced program of the Federal Emergency Relief Administration, necessitated the business end of the 38 county administrative offices being taken over by district administrators, whose staffs will administer relief over a much wider area.

Under the new set-up, allocations will continue to be made to counties, but funds will be disbursed from the district offices. County relief boards will be continued as advisory bodies.

The 38 districts are outlined according to the pattern of the Works Progress Administration districts in the state, with each WPA district, with a few exceptions, divided into two FERA districts. One of these two FERA district administrator offices in each WPA district has been located when possible in the town where the latter office is now located. The other office was located in a town in the district adjudged the most convenient from all considerations. The town must furnish office and commodity storage space and pay the utility bills of the of-

About 200 persons attended the concert.

The district office for Midland county is located in Big Spring. The district administrator is C. W. Peuges.
