

104 ACTS BECOME LAWS TODAY

FRANCE WARNED DICTATORSHIP IS NOT UNLIKELY

Laval Demands That His Program Be Upheld

PARIS, August 10. (AP)—Premier Laval warned today that a dictatorship in France was not unlikely if present measures fail in enforcement in his recovery decrees which have caused disorder and bloodshed.

Warnings, veiled but unmistakable, were contained in his insistent demands that his unpopular decrees be accepted.

Fears of further disorders subsided somewhat today as investigating officials blamed professional agitators for rioting at Toulon and Brest.

STATE OFFICIALS ENGAGE IN FIGHT IN MCDONALD QUIZ

AUSTIN, August 10. (AP)—C. A. McCormick, director of markets and warehouses in the department of agriculture, and C. L. West, member of the state auditor's staff, engaged in a fist fight during proceedings by the legislative committee investigating the official conduct of J. E. McDonald, commissioner of agriculture.

The word "lie" was passed while West was questioning McCormick and the two men tussled through the committee room to a corridor before being separated. Both agreed later that the altercation was due to a misunderstanding.

Mail Reminders of Press Convention

Urging newspapermen of West Texas to leave the "press of business" for the "business of the press," officers of the West Texas Press Association, also entertainment committees of the host city, have sent out reminders this week of the association's annual convention to be held at Big Spring Friday and Saturday.

Business sessions of the program are set for Friday morning and afternoon, and Saturday morning. Entertainment features are scheduled Friday night and Saturday afternoon.

Committees from Midland will invite the organization to hold its 1936 meeting at Midland.

Firearm Collection In Library Exhibit

Persons with a knowledge of ballistics and the development of the subject, but interested in the history of our country, will find much pleasure in viewing the collection of weapons now on exhibit at the County Library, led by J. C. Inman. Show case was lent by Wilson Dry Goods Co.

There are cap and ball pistols, derringers, rifles, and muskets, as follows:

- 44 calibre Remington, date about 1861.
- Handmade double barrel cap and ball.
- Allen and Wheeler, manufactured in 1885 for U. S. Navy. Only 500 of this model made. It is richly engraved with woodland scenes, stags, and rabbits.
- Colt's 36 calibre, manufactured about 1830.
- Colt's 36 calibre, made for U. S. Navy, May 18, 1815—known as the "initial D" on the handle.
- Single shot, Belgian made, derringer.
- Colt's 36 calibre, London made. Dated between 1835 and 1840.
- A Courtney Tennent rifle which was the first rifle model made after flintlocks.
- Primitive shooting guns were represented by the following:
- 2 Belgium pin-fires which date about 1845 to 1860. This model was never patented in the U. S. One of these guns is plain, the other elaborately decorated on its mounting.
- British Bulldog, manufactured about 1865 or 1875. Formerly used by Texas Rangers.

Perhaps the most interesting gun in the collection is a veteran of two wars. It was manufactured as a flintlock in which form it was used through the Revolutionary War. It was later converted into a cap and ball musket, in which form it did service through the Civil War.

Lead balls moulded by Mr. Inman, and percussion caps are shown. They are creating much interest as many of the present generation have never seen bullets except modern cartridges. There is also a Japanese dagger with hand-carved ivory handle and sheath.

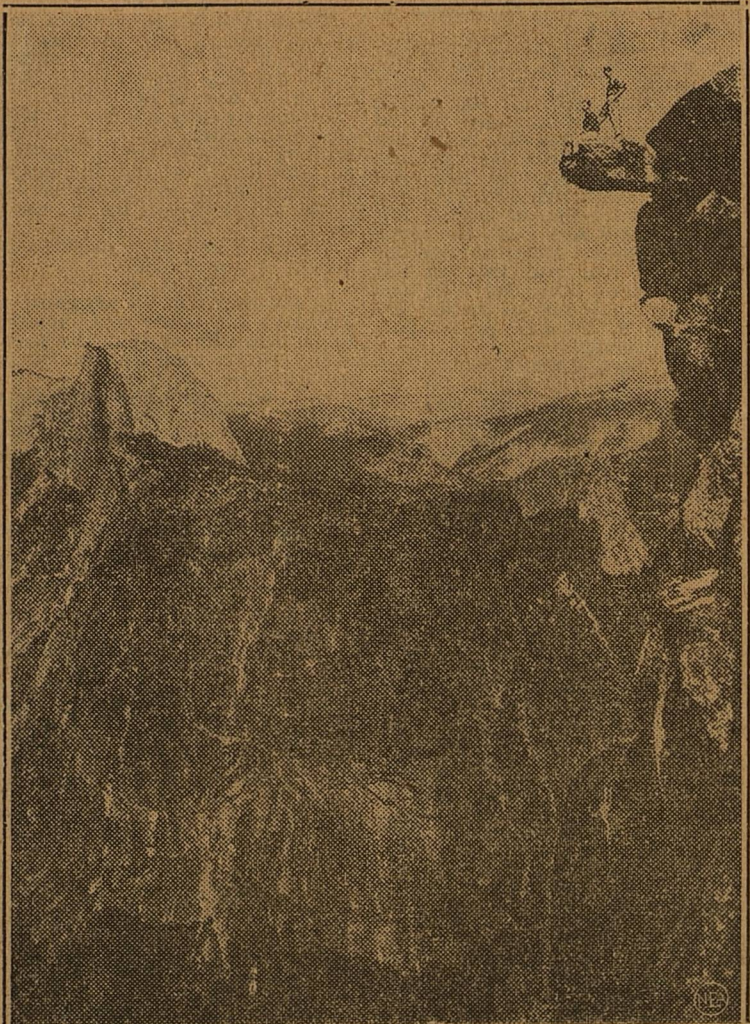

The collection of rifles now housed with the library grows as more people see it and realize that the history of our section of the country may be preserved NOW or it will be lost. As the instruments made and used in the old days are lost or destroyed. The Inman collection is a fine one and is a real addition to our "young" museum.

Mrs. Thelma Jackson Opens Modern Shop

Mrs. Thelma Jackson of Midland and Mrs. W. H. Abilene have opened The Modern Shop, a gift and children's furnishing shop, in the Petroleum building, the first door south of the Yucca theatre.

A formal opening will be held Wednesday, August 14, and gifts will be presented free to children.

'Brink of Death' for Pair

Trapped on narrow ledges 200 feet apart on the precipitous granite sides of Half Dome, shown here at left towering 2300 feet above the floor of Yosemite national park, a man and a woman clung on desperately as 10 forest rangers attempted rescue. Miss Elizabeth Lorimer, 23, of Chicopee, Mass., and Robert Pate, 35, of Inglewood, Calif., lost their way when they tried to descend from the summit, lighting brush fires to summon aid. Rescue from below was impossible, so rangers carried ropes to lower themselves down the peak in the effort to save the pair.

Wanted—Fight for Widow Gertrude

Pete Flanagan, local soda dispenser and amateur promoter, announces a fight against a Black Widow spider named Gertrude, that he will match against anything from a bulldog to a rattlesnake.

According to Flanagan, the spider is so vicious that he is having to keep it in a bottle made of unbreakable glass.

Pete is anxious to match the spider against any other spider, dirt dauber, wasp, tarantula or any other insect that might make an interesting fight.

Flanagan's challenge is meant not only for Midland but rather one that means "any man, any time."

Pete says that he will let Gertrude fight just for the love of it or he will accept any offers on small scale bets. He claims to have some of the monied men of the town convinced that Gertrude is unbeatable and newspapers have been named as Chancellor of the Exchequer.

INCOME TAXES ON 'LITTLE MAN' WILL BE RAISED SOON

WASHINGTON, August 10. (AP)—The Senate Finance Committee decided today to boost taxes on small income tax payers by lowering the existing exemptions and raise surtaxes in the lower brackets.

The committee officially announced that it is abandoning House inheritance levels in favor of increases in existing estate taxes.

The changes were estimated to boost the total revenue above \$400,000,000.

BUFFALO TRAILS SCOUTS WAIT FOR FURTHER NOTICE

Buffalo Trails Boy Scouts who had intended going to Washington August 21 for the National Jamboree will "sit tight" and wait for further notice, according to a letter from A. C. Williamson, council executive to the scouts and newspapers Saturday. His letter follows:

"You have doubtless by this time received word through the newspapers or otherwise of the cancellation of plans for the National Jamboree. This was done yesterday at a conference of Boy Scout leaders and public health authorities with President Roosevelt. The action was taken, you may be sure, only after very careful consideration of the infantile paralysis epidemic in the vicinity of Washington. Evidently, the situation is serious because they would not have called off the Jamboree unless it seemed the only thing to do.

"At this time I do not know what will be the final decision as to some future date or just what adjustment will be made on the fees paid in. All money paid in for transportation, eats, and from Washington to the jamboree, the \$25.00 Jamboree fee will be refunded in full. Whether or not the Jamboree fee, a good part of which has already been spent making the preparation for the jamboree, will be refunded in full we do not know but I can assure you that the National Organization will make adjustment as rapidly as possible.

"For the present we will just 'sit tight' and wait for some word to be received from the National Office. When more information is available I will pass it on to you.

"Needless to say, we are all terribly disappointed. But being good Scouts we can take our disappointment in a sporty way knowing that it is all for the best."

One Dead, Six Hurt When Car Overtakes

MARLOW, Okla., August 10. (AP)—Delbert B. Barnes of Owasso was killed and six other national guardsmen were injured when the truck in which 13 members of the Stillwater unit were moving to Fort Sill for the annual encampment of Oklahoma guardsmen overturned six miles north of here today.

South Texas Rains Bring Heat Relief

By Associated Press
Thunder showers brought South Texas relief today from the heat wave which yesterday set records for the year in many sections and was blamed for three deaths and five prostrations.

J. L. Cline, Dallas weather observer, predicted that the thermometer would drop seven or eight degrees Saturday evening and not rise above 93 any time Sunday.

A thunderstorm at Houston sent the mercury down to 72.

BUCHANAN DAM PURCHASE MADE

AUSTIN, August 10. (AP)—The Lower Colorado River Authority today completed the purchase of Buchanan Dam where thousands of acres of land will be submerged and permits on all power sites on the Colorado River at Llanos, Travis, and Burnett counties will be considered.

The sites were bought for \$1,600,000 from the Colorado River Company.

Pan-American Ship Completes Flight

HONOLULU, August 10. (AP)—The Pan-American clipper ship today completed without mishap and on schedule its third flight from Alameda, California.

The ship arrived over Honolulu at 9:03 Central Standard time. It left Alameda at five p. m., Central Standard time yesterday.

Ready For War

Smiling despite his arduous trip over rough paths while carrying three rifles and heavy field equipment, this Italian soldier of the 215th Blackshirt Legion had just arrived in the colony of Eritrea, bordering Ethiopia, when this first picture was taken.

Italian Troops Jeer African Foe

Their banners flaunting ridicule of the emperor of Ethiopia, Blackshirt troopers of the February division, commanded by General Terruzzi, are shown here massed beside troop trains in Rome, prepared to board them for the trip to the seaport and then to Africa. Despite strenuous efforts by European statesmen to avert conflict between Italy and Ethiopia, thousands of soldiers have been dispatched to Eritrea, bordering Ethiopia, by Dictator Mussolini, and thousands more are expected to follow in the next month.

WERE PASSED LAST BIENNIAL SESSION OF LEGISLATURE

Creation of A State Police System Effective

AUSTIN, August 10. (AP)—One hundred and four acts that the legislature passed at its biennial session became laws today.

They are 90 day bills including one for the creating of a Department of Public Safety. This Act merges the Ranger force and the State Highway Patrol into a new state police system.

Another of the new acts prescribes open season for dove and quail and setting of concurrent seasons for the two species in the southern zone.

ONE DIES AFTER EXCHANGE OF FIRE NEAR HARLINGEN

HARLINGEN, August 10. (AP)—George Dunlap, 18, was fatally shot and Mackey Chaudoin, Cameron County highway patrolman, was critically wounded in an exchange of gunfire today.

The shooting occurred when officers located a truck, reportedly stolen.

Two other men were arrested and later made statements saying that they had participated in several local robberies.

Dunlap died soon after he was shot. Physicians fear that Chaudoin's intestines were punctured.

COUNTY EXHIBITS TO BE A PART OF FAIR FARM SHOW

Counties of this section will be invited to send exhibits to Midland Fair October 19 to 23. It was decided Saturday afternoon at a meeting of the agricultural committee. Those attending were J. C. Miles, B. T. Graham, Carl Smith, Roy Tillman, S. A. Debnan and Homer W. Rowe.

Individual exhibits of all sorts of farm products grown in this area also will be staged, with prizes for both the individual lots and the community or county groups.

Number two was based on applications of 123 producers and included 37,735 pounds of cotton. Number three was from 36 producers, for 15,880 pounds.

Release Exemption Certificates Sat.

Reports numbers two and three on resuance of 1934 cotton tax exemption certificates were released Saturday by the County Agricultural agent's office.

Number two was based on applications of 123 producers and included 37,735 pounds of cotton. Number three was from 36 producers, for 15,880 pounds.

Four Landings at Airport Saturday

Four landings were reported at the Midland airport for Saturday, including a C-29 Douglas amphibian, piloted by Capt. McLellan from El Paso to Dallas; an F-11 fighter land plane flown by Lieut. Ring, enroute from Shreveport to Tucson, Ariz.; an O-25-A, an observation plane, under Private Ward, flying from El Paso on a round trip.

A BT2E1 flown by Lieut. Schlatter, from Randolph Field landed late Friday afternoon.

After you're connected with a party, a phone conversation may consist of disconnected phrases.

33 Locations Made in Week

Construction Work On Fair Park Going Rapidly Forward

Construction work at the Midland Fair Park proceeded rapidly during the past week, with grounds and buildings to the stage where the work hereafter will be largely "above the ground."

The agricultural exhibit building was nearing completion, insofar as framework was concerned. Mounted on a concrete foundation, the siding had been installed, the roof was practically completed Saturday morning and all was in readiness for interior finishing and pouring of the concrete floor. The building is 48 by 60 feet in size, faces east and west, and has a dozen windows, besides the large doors, to provide light and ventilation.

Situated just west and north of the grandstand, the agricultural exhibit building is planned to house the greater part of fair exhibits with the exception of livestock.

Foundation work was well under way for the livestock exhibit building, to house registered stock, poultry, pet stock and all animals except the carlot feeder cattle which will be in pens to the north and west of that structure.

Nearby is the well on which an electric force pump already is at work, furnishing ample water for all uses. A windmill has been installed at the number two well, on the east side, where the race horse stables are being built.

Work on the race track has been suspended until a sprinkler truck arrives the first of the week, after which sprinkling and rolling will be continued for several days. The rodeo arena, in front of the grandstand and inside the track, has been laid off and levelled.

The concrete piling for the steel grandstand was well above the ground, so that erection of the frame work could proceed at an early date. The seats will be of wood, and the entire structure will be roofed, facing east to the race track.

Lumber has been cut and sawed for all of the buildings, so that as soon as carpentry work is shifted from one to the other, rapid progress will be made.

Absence of dust throughout the five day affair, October 19 to 23, is promised by fair officials. A sprinkler will be used from now until the next, and each day during that time, so that the ground will have reached a hardened stage and will be kept damp on the surface.

Situated at the eastern city limits of Midland, the new fair park is expected to be one of the beauty spots and "show places" of this section of West Texas.

Completions in the Basin Number Seventeen

By PAUL OSBORNE
Locations sooted to a new peak number, higher than for some time, during the past week in the West Texas oil area, while wells put on the completion list remained about the same as for the past several weeks.

Of 33 new operations reported this week for the first time, 25 are field development wells while five more seek to extend the producing limits of fields and the other three test wildcat territory. Nine counties share the 17 finished wells, 11 of which are producers totaling 4,337 barrels daily potential output, three being failures, two abandoned locations, and one a well completed for its gas production.

The gasser completed is Humble No. 5 R. M. Means, field operation of the northern Andrews County Means field, which was drilled to a total depth of 3,211 feet and will be used for its two million cubic feet of gas daily production. Location is 654.3 feet from the south line and 67.2 feet from the west line of section 4, block C-45, public school land.

In northern Ector County, Landwell No. 1-A Blankney was completed at total depth of 4,225 feet for 637 barrels daily production after being shot, to extend the western limit of the north Cowden pool by three quarters of a mile. Location is 440 feet from the north and east lines of section 28, block 43, township 1 north, T. & P. Railway survey. The offset location was made this week, being Standline No. 22 J. M. Cowden, in the northwest corner of section 27. At the south end of the Cowden pool, Empire No. 2 Wright was located 440 feet from the north and west lines of section 2, block 43, township 1 south, same survey.

In the newest producing area of Ector County, the Goldsmith region, Phillips and Pure No. 2 Clyde Cowden, 440 feet from the south and west lines of section 23, block 44, township 1 south, T. & P. Railway survey, was completed at total depth of 4,120 feet for 167 barrels daily, and was offset to the west by Gulf No. 4 Goldsmith location, made this week 440 feet from the south and east lines of section 22, same block.

In the Connell pool, Texas completed No. 12 Connell for 305 barrels daily at total depth of 3,660 feet, location being 500 feet from the east line and 2,489 feet from the south line of section 2, block B-16, public school land.

As a culmination of a recently completed deal between Westbrock and Gulf, Ector County will receive a wildcat test, location for which was made during the week. Known as Westbrock Oil Corporation No. 1 Yarrowbrough et al, the test will be 440 feet from the north and west lines of section 26, block B-14, public school land, far southwest corner of the county.

Likewise will Winkler County receive a wildcat test, to be drilled by Sid Richardson on No. 1 B. F. Jenkins location, 440 feet from the south and east lines of section 13, block 77, public school land. This is some two miles north and slightly west of the Walton discovery producer, near which he also located

Homes, Jobs for Students Wanted

Efforts were continued Saturday to secure homes for boys and girls of rural families, who desire to attend Midland High School.

In some instances the students desire to work for room and board.

In others, it was believed they would be willing to pay a part of the expense where living quarters could be obtained.

Part-time work for such students in local business institutions also was wanted. Those wanting the services of students were asked to notify the chamber of commerce.

MISS WILSON RETURNS

Miss M. Elizabeth Wilson, county health nurse, returned from Los Angeles, where she studied in the university during the Summer. She announces that she will be back at work tomorrow.

Miss Wilson was accompanied by Miss Edna Marie Jones, Midland teacher.

Wilson Buyers, on Return, Optimistic

T. R. Wilson and wife and Mrs. Ruth Ramsel, buyers for the Wilson Dry Goods Company, returned Friday night from a market trip to Dallas and eastern points.

Wilson said merchants from all sections of the southwest apparently were buying heavily, anticipating good fall business. He said his store would be in position to handle a large volume of business, based on crop prospects, additional oil families and improvement of ranges and the cattle industry.

JOINS PHARMACY

W. A. Nance, Jr., formerly of Balinger, has moved to Midland to become pharmacist at the Petroleum Pharmacy.

BEAUTIFICATION FOR MIDLAND

A group of Midland women, for several months past, has spent untiring effort in an attempt to launch a city-wide and county-wide beautification program for Midland. The efforts have seen measured success. Much more success is imminent if the citizenship of Midland will awake to the advantages of a united beautification campaign and will cooperate more fully.

Many persons remark each week that the approach to Midland from the west is so much more attractive than that from the east. Such is the case, but steps are now under way to improve the situation radically. Already the triangular city park at the intersection of Front, Wall and Texas Streets is becoming one of the city's spots of attraction. Grass rapidly is covering the plot, trees are thriving and the constant care given by city employes is meeting with results.

The Midland Fair, by acquisition of the 100-acre tract just east of the city limits, will transpire a cotton patch into a well-engineered and substantially constructed fair park and race track, with steel grandstand, exhibit buildings, stables and other attributes common to such properties. Efforts are under way to obtain state aid in construction and maintenance of a park site there, along the highway, to carry out the State's beautification program, with highway maintenance funds expended.

On the west, the purchase and improvement of the city's new Crier Park makes possible even more beautification steps where new homes and improved residence plots provide a beautiful approach to Midland.

For three years, the West Texas Chamber of Commerce has conducted a city beautification contest. Towns competing enter early in the organization's fiscal year, the winner being decided late each Spring. The winners, since the contest was inaugurated by Houston Harte of San Angelo, have been Hamilton (1932-33), El Paso (1933-34) and Roswell (1934-35).

President Ray H. Nichols of the regional chamber sent out the following message to WTCC representatives in the various member towns:

"I feel that one of the most constructive items on our permanent work program is the annual beautification contest. This year, I want to stimulate more activity in this contest in the hope that next year at our Amarillo convention we may have far more entries in the contest than in the past. I have set as a goal having sixty towns in the contest this year.

"As you know, Houston Harte originated this contest several years ago when he was president in the hope of stimulating the planting of trees, shrubs, and flowers in West Texas. Already, the contest has resulted in changing the landscape of West Texas and with increased and continued activity, I feel that we soon can overcome the criticism of barrenness that is often made of our region.

"I am asking each director now to do his part in stimulating activity in his town in this contest. Have your chamber of commerce or one of your luncheon clubs organize it. Still better, get a woman's organization back of it. See that your town puts on a clean-up campaign. The rules which have governed the contest for the past few years are enclosed, which will give you more information about the work to be done.

"In the meanwhile, we shall address communications to all florists and nurserymen in West Texas, will work with the State Highway Department and Federal agencies in order to stimulate further activity. The activity, however, which counts most is that activity of the town itself and I know each director will do his part on this matter."

When the new mill and half-cent coins appear, you'll have no excuse for not tipping the waiter on a dime sandwich.

A combination sandwich, desk and liquor cabinet was shown in Chicago. The last is so that, when you want to play an old piece or write home, you can refresh your memory.

New York Governor

Horizontals and Verticals crossword puzzle with clues and a grid. Clues include: 1 Last Dutch governor of New York, 13 To propose, 14 Native metal, 15 Passport, 16 Indorsement, 17 Tiny ball of medicine, 19 To hurl, 21 Exclamation, 23 King of beasts, 25 To walk through water, 26 Italian river, 27 Opposite of lost, 28 Synopses, 31 Tribunal, 32 To rectify, 34 Cravat, 35 Small memorial, 37 To wander about, 38 Alley, 39 Female sheep, 41 Heart, 42 Three, 43 To unclose, 45 Laughter, 19 Stream obstruction, 20 He was New York to the English, 22 Man, 24 Insect's egg, 25 Grief, 26 Acha, 28 At no time, 30 Note in scale, 31 To proclaim loudly, 33 More modern, 36 To run away, 40 Watched, 41 To arrive, 42 Eagle's claw, 44 Nudge, 45 Derby, 49 To harden, 51 Reverence, 52 Era, 54 Southwest, 55 To exist, 56 Right, 57 Sound of pleasure, 58 Southeast, 59 Hour, 60 Father.

On the Horns of a Dilemma

Stark Appointed to Air Commerce Staff

Washington, D. C.—Howard C. Stark, well-known instrument flyer and instructor, has been appointed to the staff of the Bureau of Air Commerce, Department of Commerce, as an air line inspector. Eugene L. Vidal, director of Air Commerce, announced today.

Mr. Stark's examinations of air line pilots and aircraft will be concerned largely with instrument flying, and instead of being assigned to a particular section of the country, he will be given smaller wherever special attention to this phase of air line operation is desirable, Mr. Vidal explained. Much of his time will be given to smaller air lines which do not have full time instrument flying instructors.

In addition, Mr. Stark's knowledge and experience will be brought to bear on regulatory matters concerned with instrument flying such as revision of regulations and formulation of policies and procedures under existing regulations.

Mr. Stark has been flying since 1922, and holds Bureau of Air Commerce transport pilot's license No. 238.

His first five years of flying consisted of barnstorming. This, he explained, "was nearly always 'fair weather flying' and there was no need for flight instruments."

In 1927 he became an air mail pilot on the New York-Boston route and had to learn to fly in darkness and in poor weather. He then began the studies which later qualified him to instruct air line pilots in instrument flying.

Flying the mail between Cleveland and Chicago from 1928 to 1930, he continued these studies, and had his system well formulated by 1930 when he began flying for an American company which operated a route to South America.

In 1931 an air line operating on the East Coast retained him to instruct its pilots in instrument flying, and in 1934 he spent several months abroad advising a Dutch air line on instrument and night flying. Previous to his appointment to the Bureau of Air Commerce, he was blind flying instructor for another air line in the United States.

Mr. Stark's instrument flying system begins with the arrangement of the instruments themselves. By grouping them according to a logical plan and placing the instrument panel in a position where it can be

A. M. Coach School To Start August 18

College Station, Texas.—Previous attendance records are expected to be shattered when the sixth annual short course for coaches at Texas A. M. College, under the direction of Coach Homer Norton, opens its sessions on August 18 to continue through August 24.

Coach Norton will be assisted this year by his newly appointed staff, consisting of J. W. (Doug) Rollins, former head football and track coach at East Texas State Teachers College, Commerce; J. V. (Ski) Sikes, who was basketball and assistant football coach at the same school last year; H. R. McQuillan, former coach at John Stetson University, DeLand, Fla.; Bill James, former line coach at Texas University and Lil Dummitt, former Beaumont High School coach. W. L. Penberthy, of the physical education department, will instruct in physical education and intramural athletics. Blair Cherry, coach of Amarillo high school, state high school champions, will

Completions

the north and west lines of section 5, block 17, University land. In the northern Crane County Magnolia made location for No. 2 Edwards, 330 feet from the south and west lines of section 2, block B-22, public school land and Gulf located No. 11 Waddell, 1,320 feet from the north line and 1,322 feet from the east line of section 10, block 23, same survey. In the northern Crane County Magnolia made location for No. 116, center of the southwest quarter of section 197, for 608 barrels daily, and made locations for No. 117, 2,513 feet from the north line and 2,452 feet from the east line of section 199; No. 118, 2,640 feet from the north line and 2,513 feet from the west line of section 197; No. 119, 2,310 feet from the north line and 330 feet from the west line of section 195; and 120, 387 feet from the east line and 1,470 feet from the south line of section 200, all block F, C.C.S.D. & R.G.N.G. Railway survey.

also assist. Instruction will be given in the four major sports as well as the courses in physical education and intramural athletics. All courses will be available for those who desire to take the full instruction. Sunday, August 18, has been set aside as registration day with the classes to begin Monday morning. There is no tuition charge for the course. Dormitory space on the campus will be available at the flat rate of \$3 for the week. The attendance in 1934 numbered 211 coaches, breaking the mark set in 1932 when 206 attended.

White Groundhog Caught

BOLIVAR, O. (AP)—A pure white groundhog with pink eyes is the pet of Eugene Carpenter, farm hand living southeast of here. Carpenter caught the strange animal while cultivating corn. Few instances of albino groundhogs have come to the attention of science.

Approximately one half of the people now alive in the Soviet union are less than 20 years of age. The first orange trees to grow in this country were planted in Florida.

Someone has sent this in: "Are all the news cameramen here?"

The demure young bride, a bride of this modern age, her lips in a tremulous smile, slowly stepped down the long church aisle, clinging to the arm of her father.

Someone has sent this in: "What is your idea of civilization?" "It's a good idea," was the answer. "I hope it will be tried somewhere."

A preacher, at the close of one of his sermons said: "Let all who are paying their debts stand up." Instantly every man, woman and child, with one exception, rose. The preacher seated them, and said: "Now, every man not paying his debts, stand up." The exception noted a case-worn, hungry looking individual, clothed in last summer's suit, slowly assumed a perpendicular position.

"How is it, my friend," asked the minister, "that you are the only man not to meet his obligations?" "I run a weekly newspaper," he meekly answered, "and the brethren who stood up are my subscribers, and."

Let us pray," exclaimed the minister.

The Town Quack

Reserves the right to "quack" about everything without taking a stand on anything.

"Yes, your honor." "Lights, O. K.?" "Yes, your honor." "Sound, O. K.?" "Yes, your honor." "Good; then let justice take its course."

Someone has sent this in: "What is your idea of civilization?" "It's a good idea," was the answer. "I hope it will be tried somewhere."

A preacher, at the close of one of his sermons said: "Let all who are paying their debts stand up." Instantly every man, woman and child, with one exception, rose. The preacher seated them, and said: "Now, every man not paying his debts, stand up." The exception noted a case-worn, hungry looking individual, clothed in last summer's suit, slowly assumed a perpendicular position.

"How is it, my friend," asked the minister, "that you are the only man not to meet his obligations?" "I run a weekly newspaper," he meekly answered, "and the brethren who stood up are my subscribers, and."

Let us pray," exclaimed the minister.

White Groundhog Caught

BOLIVAR, O. (AP)—A pure white groundhog with pink eyes is the pet of Eugene Carpenter, farm hand living southeast of here. Carpenter caught the strange animal while cultivating corn. Few instances of albino groundhogs have come to the attention of science.

Approximately one half of the people now alive in the Soviet union are less than 20 years of age. The first orange trees to grow in this country were planted in Florida.

Someone has sent this in: "Are all the news cameramen here?"

The demure young bride, a bride of this modern age, her lips in a tremulous smile, slowly stepped down the long church aisle, clinging to the arm of her father.

WHAT HAPPENS TO YOUR BED LINENS

WHEN THEY LEAVE YOUR HOME?

Does science guard your laundry with fine chemicals and expert handling? In a modern plant?

LAUNDRY—is something so personal—especially the bed linens. Your body comes in contact with the pillow cases that touch your mouth, your eyes, and skin. If your laundry is such an intimate thing it deserves scientific caution in handling. It will get it if you have us handle it for you weekly. Why take chances; life and health are too expensive to trifle with.

Old Coin Unearthed

EASTHAM, Mass. (U.P.)—While plowing his garden, Arthur Morey unearthed a coin probably lost by some early pioneer. Dated 1720, it was inscribed with the words "Carlos IV." On the reverse side was the royal crest and the word "Hispaniola."

Flowers Rule Romance

GLARUS, Switzerland. (U.P.)—Flowers are the language of love in this Swiss canton. Lovers place a flower-pot containing a single rose on the window-sill of their sweetheart's room. If she takes the flower, a marriage is arranged at once. Should the girl let the flower fade, the suit is rejected.

Mountain Gets Phones

TIFLIS, U.S.S.R. (U.P.)—Telephones will be installed at various heights to accommodate the ever increasing number of alpinists, geographers, geologists and meteorologists who visit the 5,600-foot crater-shaped summit of Mt. Elbrus each summer.

1646 Church to Incorporate

ORLEANS, Mass. (U.P.)—The Orleans Congregational Church believed it about time to incorporate. Founded in 1646, the church has just named the Rev. Robert Devine, Mrs. Abbie Mitchell and Warren E. Clark as a committee to obtain a charter.

Wasps Blamed for Error

POPLAR BLUFF, Mo. (U.P.)—F. Hillis, centerfielder, chased a fly into a colony of wasps. One of the insects climbed up his trousers leg. Teammates formed a protective circle while Hillis danced out of his confining clothing. He did not catch the fly.

Announcements

Monday
Circles of the Baptist Women's Missionary Union will meet Monday afternoon as follows: Evangelists circle with Mrs. H. S. Collins, 609 S. Colorado, at 5 o'clock; Lucille Reagan circle in the north room at the church at 3:30 o'clock; Annie Barron circle with Mrs. A. W. Wyatt, 706 W. Storey, at 4 o'clock.

Wednesday
San Souci Club will meet with Mrs. J. S. Schow, 404 W. Illinois, Wednesday afternoon at 3 o'clock.
Garden Club will meet in the Children's Library Wednesday morning at 9:30 o'clock.

Miscellaneous Shower Courtesy to Bride-Elect, Miss Annie Laurie Hix

Appointments in silver and white marked the miscellaneous shower with which Mrs. W. M. Blevins, Miss Dorothy Ratliff, and Miss Bennie Sue Ratliff complimented Miss Annie Laurie Hix, bride-elect of Mr. Robert W. Tesh of Fort Worth, at the Ratliff home, 401 N. Marienfeld, Friday afternoon at 4 o'clock. In the house party were Mrs. Hugh West, Mrs. All Reese, and Mrs. Ralph Geisler.
Miss Jennie Elkin was at the piano as the guests arrived.
The tea table, to which guests were invited upon entering, was laid in white and silver and centered with baby breath held in

a silver bowl. White zinnias mingled with baby breath adorned the buffet.
Silver wish bones with small scrolls attached were distributed and each one present was asked to write a wish for the honoree.
Miss Bennie Sue Ratliff then presented a large silver wishbone which she declared was a "magic" wishbone to Miss Hix, wishing her happiness, and bestowing upon her also the wishes made by the guests.
Two silver baskets piled with gifts in various-colored wrappings were brought in by Mrs. Blevins and Miss Dorothy Ratliff and presented to the honoree.

Garden Club Will Present Program On Wednesday

The following program has been announced for the meeting of the Garden Club to be held in the Children's Library, Wednesday morning at 9:30 o'clock:
"To Grasp This Spry Scheme of things entire would not we shatter it to bits—and then remould it near to the heart's desire."
Leader—Miss Elma Graves.
Roll Call—Garden Suggestions.
1. Preparing the soil for Fall Planting—Mrs. J. E. Hill.
2. What to Plant now for Early Spring Flowers—Mrs. Jess Rhoden.
3. August Watering and Fertilizing—Mrs. Wade Heath.
Everyone interested in gardening is cordially invited to attend, officers of the club said.

Belmont Bible Class Party Compliments Mrs. Garrison
Mrs. Troy Eiland and Mrs. Herbert King were hostesses at a party for the Belmont Bible Class, complimenting Mrs. Chauncey Garrison who leaves today for California, at the Eiland home, 907 North D St., Friday afternoon.
During an afternoon of informal conversation, Mrs. Garrison was asked to pick up a spool of thread which, when wound up, led to a hidden package containing a lace fabric cover, the gift of her associates in the class.
Mrs. G. B. Brock assisted the hostesses in serving the party plates which were passed by Hazel King and Lois and Eiland Eiland. A pink and white color scheme was carried out in refreshments and napkins.
Members present included: Meses. A. W. Lester, J. B. Crawford, Hoyt Burrus, J. B. Vivian, Harmon Brock, C. E. Nolan, Roy McKee, W. P. Collins, R. L. Mitchell, J. M. King, the honoree, and the hostesses.

Miss Melba Lee Becomes Bride of Mr. Mark Caraway

The following account of the marriage of Miss Melba Lee, formerly of Midland, to Mr. Mark Caraway, August 7, was sent to the Reporter-Telegram by the bride's aunt, Mrs. L. E. Beyers of Hope, New Mexico.
Miss Melba Lee, niece of Mr. and Mrs. L. E. Beyers, of the Scharbauer Cattle Company, became the bride of Mark Caraway, only son of Mrs. Jack Hastie, in Carlsbad, Wednesday evening at six o'clock.
The impressive ring ceremony was read by Rev. C. E. Per Lee at the First Christian Church, in the presence of the groom's mother and two sisters, Mrs. Jack Hastie, Mrs. Charles Kimbrell and Mrs. Walter Douglas. The bride was attired in a smart white suit and wore a corsage of rose buds and baby breath.
Mrs. Caraway graduated from the Midland High School at Midland, Texas, with the class of 1935. Mr. Caraway graduated from the local high school with the class of 1932.
A wedding supper will be served at the home of Mr. and Mrs. Walter Douglas, this evening with only members of the immediate families present.
The newly weds will be at home at the Scharbauer ranch where Mr. Caraway has been employed for several months.
Mrs. Caraway was popular in high school circles here, taking an active part in musical and social affairs. She represented the Midland High School in musical contests and in declamations in the district contest where she was a winner among senior girl declaimers. She was a member of the high school girls' quartet.
She lived with her sister, Mrs. Ed Darnell, and Mr. Darnell while attending school here.
Loons can swim faster under water than on the surface.

Midland Couple Is Wed Here at Dawn Saturday

In an attractive ceremony read at dawn Saturday Miss Virginia Jackson of Midland, daughter of Mr. and Mrs. Marshall Jackson of Republic, Missouri, became the bride of Mr. Clem J. Buser, also of Midland.
Standing beneath an archway of ivy and morning glories on the lawn at the home of Dr. and Mrs. W. E. Ryan, 1306 S. Lorraine, the couple repeated the wedding vows read by Rev. Edw. P. Harrison, O. M. I., of St. George Church. The single ring ceremony was used.

The bride was accompanied by Miss Dorris Hilyer as maid of honor. The groom's best man was Mr. Thomas P. Carr of Fort Worth. Flower girls were Geraldine Fuller and Quirey Belle Ryan, who scattered persimmon blossoms before the bride.
Mrs. Wallace Wimberly played Loehring's "Wedding March" as a professional and also played "Indian Love Call" softly during the ceremony.
The bride wore a navy blue chiffon suit with finger tip length coat and trim of white organdy ruffling. A navy blue felt hat with harmonizing hose and shoes were worn and she carried cream colored roses.
Mrs. Hilyer wore navy blue crepe with a corsage of roses in pastel colors.
Dr. and Mrs. Ryan were hosts at a wedding breakfast immediately following the service.
The heart-shaped wedding cake which was baked in Denver, Colorado and shipped here was iced in white with decorations of tiny sprays of lilies of the valley and doves.
Mints were in white with decorations of doves, wedding rings, bells, and other appropriate symbols.
Hand-painted place cards made by Mrs. Josephine Lipon marked covers for nineteen including Mr. and Mrs. Caraway, Mr. and Mrs. J. W. Jordan, Father Harrison, the host and hostess and their children, Quirey Belle, Charles, and Billy Ryan.

During the serving of the two-course menu, Anna Beth Bedford entertained with a reading, "How to Handle a Husband."
Moving pictures of the marriage and wedding party were made by Dr. Ryan and Mr. Fryar.
After the breakfast, Mr. and Mrs. Buser left by motor for a trip to Fort Worth, Denton, Republic, Missouri, and Wichita, Kansas.

Mrs. Buser, who has been associated with the Midwest Hospital Clinic since September of last year, is a graduate of Scott and White's Sanitarium at Temple, Texas. She attended college at Springfield, Missouri, and has done graduate work at Baylor University at Dallas.
Mr. Buser is the son of Mr. and Mrs. C. A. Buser of Wichita, Kansas. He is associated with the production department of Sinclair Prairie Oil Company, having come to Midland in December, 1934.
They will make their home at 420 W. Indiana Street.

High School Group Entertained With Party Thursday
Doris Tidwell entertained with a party at her home, 316 S. Big Spring, Thursday evening.
Table games were played during the evening.
Attending were: Kathryn Beauchamp, Maurine Huff, Daphne Shafter, Freda Lou Barber, Besse Flournoy, Margaret Hoffman, Melba Nixon and two out-of-town visitors.

Lawrences Hosts At Lawn Picnic Friday Evening

Mr. and Mrs. R. V. Lawrence were hosts at a lawn picnic at their home, 937 N. Lorraine, Friday evening.
Present were: Supt. W.W. Lackey, Mr. and Mrs. Percy Mims, T. Paul Barron, J. E. Hill, Fred Wemple, Elliott Barron, Ralph Bucy, Liza Jane Lawrence, James and Margaret Mims, Edith, Allen, Ted, Lucille, and Evelyn Wemple, and Charles Barron.

Old Mill to Be Reopened

ROCKTON, Wis. (U.P.)—Reopening of an old mill built here before 1852 and idle for the past eight years will solve the poor relief and unemployment problems for this village. Electric motors have replaced the obsolete water-power equipment.

Farewell Party Is Courtesy Extended Chauncey Garisons

Honoring Mr. and Mrs. Chauncey Garison, who, with their two children, are leaving today for Los Angeles to make their home, Mr. and Mrs. H. S. Collins and Mr. and Mrs. T. B. Neely entertained with

Use of Canned Food Demonstrated By Miss Kimbrough

"Canned foods can be served in many ways and one should never tire of canned foods," said Miss Gladys Kimbrough at a demonstration given in cooperation with Mrs. Lura Hollingsworth, county home demonstration agent, before a group of housewives in the assembly room of the court house Saturday afternoon. Miss Kimbrough's demonstration was on "The Utilization of Canned Foods."
Canned string beans were served in a variety of ways, such as a hamburger, a salad, a vegetable soup, a chicken salad, and a sandwich.
The one-dish meal was made by using one can of vegetable soup mixture, combined with two tablespoons of melted butter, one tablespoon of chopped peppers, one cup meat, one teaspoon minced onions, and one cup buttered bread crumbs.
The soup mixture was placed in a casserole, seasoning was added and then the meat. All was mixed and covered with the bread crumbs, and placed in a moderate oven to brown (about 40 minutes).

Pleasant Valley

Mr. and Mrs. Bennie Heron and family have returned from a visit to East Texas.
J. Fred Cocco went to Stanton on business Friday and returned Saturday.
Farmers of the community are about through poisoning and the worms are not as bad as they were.
Sunday school is held at 2 o'clock every Sunday afternoon and singing at 8 o'clock Sunday night. Everyone is invited to attend, especially those who do not attend services elsewhere.
Canada consumed 141.3 pounds of meat per capita last year as compared with 136.99 in 1933.

PERSONALS

Miss Helen Milwhee of Dallas is the guest of Miss Kathleen Scruggs, Miss Milwhee's father is secretary of the American Medical Association.
Mr. and Mrs. Ed Watts will leave this week for California.
Mr. and Mrs. A. P. Shirey are spending the weekend at Ranger.
Marvin Fisher of Andrews visited in Midland Saturday.
Curtley Flynt is spending the weekend in Ballinger.
Miss Lois McWilliams is spending the weekend with her parents, Mr. and Mrs. R. E. McWilliams, at Ballinger.
Mrs. E. L. Whitaker and children, David and Donella, are spending the weekend here with their husband and father, E. L. Whitaker, who is employed in the printing department of The Reporter-Telegram.

PERSONALS

Odessa citizens here Saturday included S. R. McKinney, Paul Slater and J. D. Amburgy.
Mrs. Lawrence Beauchamp and son, Wayne Hill, are in Roscoe where they were called following the death of W. H. Ray, grandfather of Mrs. Beauchamp.
Mr. and Mrs. Frank E. Ingham are leaving soon for St. John, Ariz.
A. L. Ackers, division geologist of Fort Worth, formerly of Midland, was here a few days last week. Mrs. Ackers who has been visiting Mrs. O. C. Harper, returned to Ft. Worth with him.

Side Glances by Clark

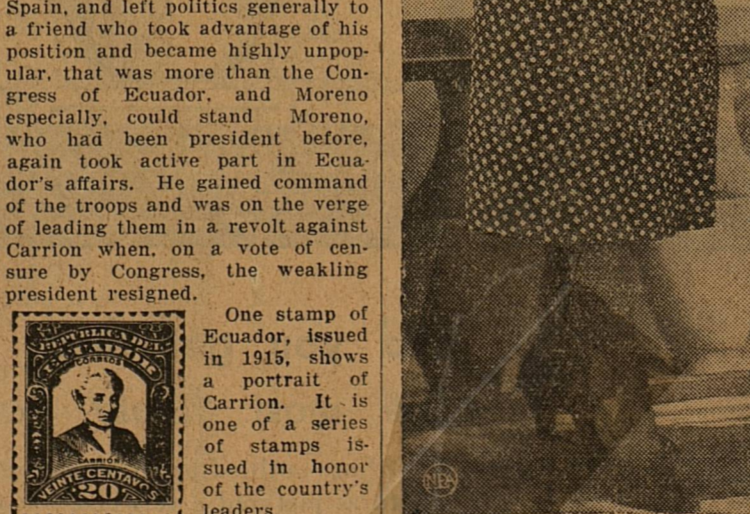

Stories in STAMPS

ONE of the few presidencies in South America that promised to continue unmolested by internal strife was that of Jeronimo Carrion of Ecuador. But his luck didn't last long. He crossed his "boss," politically powerful Gabriel Garcia Moreno, and had to resign.
Carrion didn't do very much from the time he took office in August, 1865, up to his resignation two years later. But when he dared to join with Chile and Peru in a defensive alliance against Spain, and left politics generally to a friend who took advantage of his position and became highly unpopular, that was more than the Congress of Ecuador and Moreno especially, could stand. Moreno, who had been president before, again took active part in Ecuador's affairs. He gained command of the troops and was on the verge of leading them in a revolt against Carrion when, on a vote of censure by Congress, the weakling president resigned.
One stamp of Ecuador, issued in 1915, shows a portrait of Carrion. It is one of a series of stamps issued in honor of the country's leaders.

ARE YOU A SAFE DRIVER?
... ask yourself these questions

1. Which requires greater caution—a curve to the right or a curve to the left—and why?
2. What is the safest way to handle your car on a highway curve—when do you use the brakes—when do you throw out the clutch—when do you accelerate?
3. In rounding a curve at high speed, is it safer to hold the steering wheel steady or "jiggle" it?
4. In passing another car on the road, is it safer to make a short, quick swing around, or a longer, more gradual one—and why?
5. On a slippery or icy road, your rear wheels suddenly start skidding. What is the way to bring the car out of the skid?
6. When is it safe to pass another car on a hill?

Even the most experienced drivers seldom know the correct answers to these questions. And there are several additional safety questions that every driver should be able to answer. Get them all, and get the right answers, from the nearest Hudson and Terraplane dealer. Come in today.

All models equipped with all-year ventilation

- Two only; Occasional Tables, night style, nice size; walnut finish; regular \$4.50 values. **\$3.45**

BARROW FURNITURE CO.

Wheat Flaunts Tiller

ELK HORN, Iowa, (U.P.)—George L. Jorgensen, Jr., Elk Horn farmer, has a two-acre wheat field which will yield 30 bushels an acre although the soil was neither plowed nor seeded.

Rural Enlightenment Sought

MADISON, Wis. (U.P.)—An enlightened rural population will do more to readjust America's economic and social problems than any other single movement. Dean Chris L. Christensen of the University of Wisconsin college of agriculture said in an address here.

Fire Trucks Padlocked

BENTON, Ill. (U.P.)—Padlocks on the gasoline tanks of Benton fire trucks have become a necessary part of the department's equipment. Chief Harry Durham placed them on all trucks after he found thieves had been helping themselves.

Mastodon Tooth Found

PALOMINAS, Ariz. (U.P.)—A huge tooth, believed to be that of a mastodon which roamed Arizona

thousands of years ago, was found in a well on the C. A. Stevens ranch near here. It was found at a depth of 30 feet in a red sandstone formation. Our government pension rolls still bear the names of 185,000 Spanish-American war veterans.

Heron's Wreck Live Wires

NORTH KINGSTON, R. I. (U.P.)—Electrocution of blue herons is proving costly to the South County Public Service Company. Eight birds have collided with huge power lines causing damage estimated at \$200 each time. All were killed outright and their wings were burned of feathers.

Mountain Moved in Day

GRAND COULEE DAM, Wash. (U.P.)—Mountain-movers might be the title awarded the Mason-Walsh-Archison-Kier company, Coulee dam contractors, following their record of moving 47,700 cubic yards of dirt 1 1/4 miles over an endless-belt conveyor system in one day.

There are more strange plants and animals in Australia than in any other country in the world.

PWA Affords Much Impetus for Schools

Fort Worth, Aug. 9.—The Public Works Administration under the guidance of Administrator Ickes is affording a great impetus to the construction of school buildings in Texas, states Julian Montgomery, Acting State Director. The time is approaching when the youth of Texas will turn their eyes toward school work. They will find waiting for them twenty-two new school buildings financed by PWA at a total cost of \$1,797,182.00.
The largest PWA building project in Texas is the main building at the University of Texas, which will be completed in about a year at a total cost of some \$2,000,000. On July 1, PWA had, through non-federal loans and grants, financed 1071 schools projects throughout the United States, costing \$184,875,000 and including both secondary projects and universities.
According to Mr. Montgomery, applications for new projects to be financed from the 1935 relief appropriation of \$4,800,000,000 consist mainly of school projects. "Of the

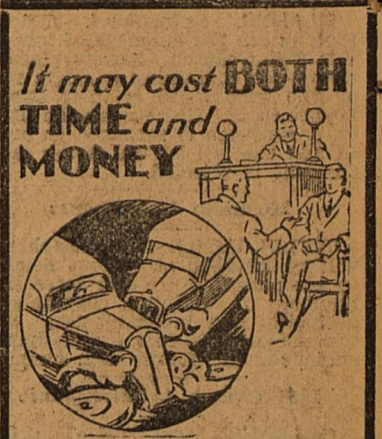

177 new applications.

Mr. Montgomery said, "125 are for school projects consisting of classrooms, buildings, dormitories or stadiums. The largest of the new school projects was submitted by Houston, requesting a grant of \$1,719,450. The total cost of the Houston school project will be approximately \$4,000,000. Compared to this, several applications for school projects costing as low as \$2,000 have been received. No discrimination is being made. We are glad to receive applications regardless of cost."
"The time required for servicing applications has been diminished nearly to the vanishing point, relatively speaking, provided the application is well prepared and no complications exist. It must be remembered, of course, that where approval can be given. Thus a slightly longer period is required to service loan and grant applications which offer revenue bonds as security for the loan.
When applications were first received under the old program, more than two years ago, months elapsed

before such applications could be serviced by the Fort Worth PWA office and also by the Washington PWA office. Today, the servicing time for ordinary applications, from the day they enter my office at Fort Worth until they leave the Washington PWA office to go before the Allotment Committee, is usually less than a month. This office began servicing applications July 4. During July some sixty (60) applications were forwarded from this office to Washington, and during the same period, the PWA office at Washington had cleared 25 of the new applications to the Allotment Committee, of which Administrator Ickes is chairman. The majority of this number were serviced by the Washington PWA office and forwarded to the Allotment Committee for approval in less than two week's time. It may be interesting to the various school officials over Texas to know that 21 of these 25 new applications which have been cleared to the Allotment Committee by PWA are school projects."
Director Montgomery stated that applications for projects should be submitted to the Public Works Ad-

ministration (PWA) without delay. "It is likely that the next 6 to 8 weeks will tell the story," he said. If applications have not been submitted during that interim, then there is danger that they will be too late. While no definite date has been set to quit receiving applications, public officials should not take the risk of delaying the filing of applications for projects which they desire to finance through PWA.

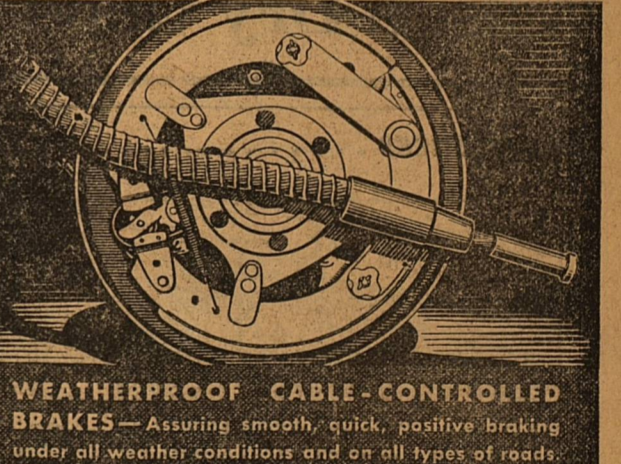

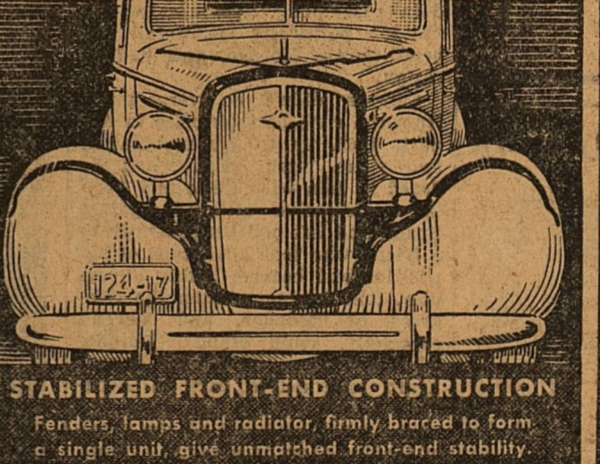

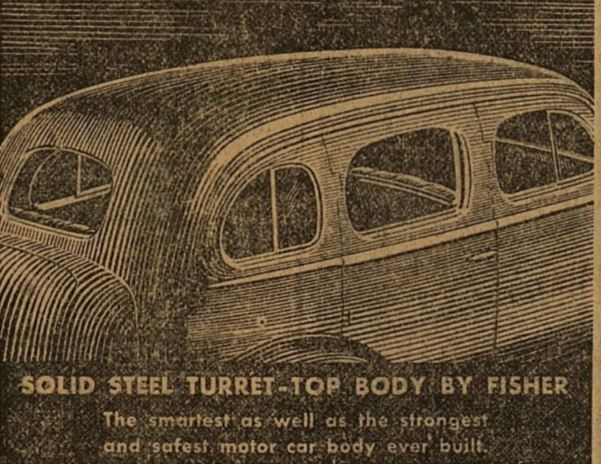

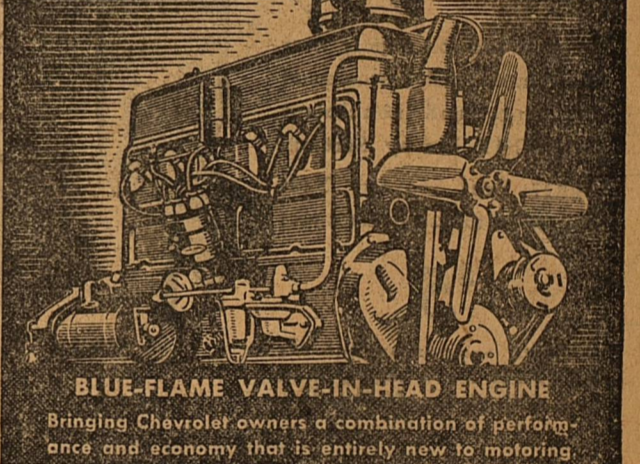

Golf Ball Explodes
LOGAN, Utah, (U.P.)—While removing the cover from a golf ball, Vern Weatherston, son of a deputy sheriff, received serious facial injuries when the ball exploded.

New Romantic Team for the Movies

Gentlemen and ladies who prefer blonds will delight in the blond starring team of Ann Southern and Gene Raymond, united for the first time in the romantic musical drama, "Hooray for Love."

in a show within a show in the story of Broadway. Dorothy Fields and Jimmy McHugh wrote the song numbers. Walter Lang directed. "Hooray for Love" is showing at the Ritz today for three days.

How Louis Stopped Levinsky

Mumbling in a confused manner to Referee Norm McGarrity, Kingfish Levinsky, changed from the boaster who said he'd knock out Louis in five rounds to a gibbering hulk by the fists of the Brown

Bomber, decided to call it a day after being floored four times in the first round of his Chicago fight. Here he is shown on the ropes in a corner, while the stolid, blinding Lou stands away waiting for the help of the

King to rise. Forty thousand spectators paid nearly \$200,000 to witness Louis score the 20th knockout in his career of 24 professional fights.

Two Starred

Charles Boyer and Loretta Young are starred in Walter Wanger's production for Paramount, "Shanghai." The picture is showing at the Yucca today for 3 days.

MIDLAND WOMEN BEAT WINK 28-2

The Midland women softball players showed the Wink women how the game really should be played Friday night, here, when they had no trouble at all in winning 28-2.

The Wink team was the first to score, making one run in the first half of the second inning, but the Midlanders came right back with three in their half and continued to score in every inning thereafter. They made three in the second, four in the third, three in the fourth, seven in the fifth, and eleven in the sixth.

Mrs. McBride pitched for the winning team and gave up only five hits to the Wink team while her mates were landing on 27. Wink pitcher, for 23 hits. The Wink team made nine errors while only two was made by the winners.

Mrs. Pierce and Mrs. Hurst hit home runs for the winners. Each also had a triple and a double.

Lamar Life Agents Return From Trip

Two Lamar Life Insurance Company representatives at Midland have returned from a agency convention and from a trip to the home office, the convention having been held in Biloxi, Miss. The home office is at Jackson, Miss.

John W. Hix made the trip by train, returning early last week. Roy McKee with his wife and daughter, made the trip by automobile. They returned by way of New Orleans and Homer, La., bringing Mrs. McKee's mother, Mrs. P. T. Owens, of Homer, here for a visit.

Both Midland agents qualified for the All-Star Club of the company, of which there were 32 members this year, and took \$100 cash in lieu of a trip to Miami, Fla.

More than 120,789,900 books were produced in this country during 1934; this was almost one book per capita of population.

by HARRY GRAYSON

The Southwestern Conference will be one of the fastest in America this fall.

Rice Institute will have one of the nation's three outstanding teams. Such a statement may sound rash, but you are privileged to see me if I'm wrong. I happen to know what the capable Jimmie Kitts has up the sleeve of his jersey. He has some very fine football players and plenty on the ball.

Ohio State, of the Big Ten, in my opinion, will be another of the three foremost creations in the country. I doubt that I will be accused of being giddy-headed for saying this. The Buckeyes were just about the best of the lot at the wire last November, and they're practically all back with four or five sophomores certain to crack the varsity wide open.

Francis Schmidt is my candidate to succeed the late Knute Rockne as the general public's conception of a gridiron magician. And you've never seen a harder driver than the intense Nebraska man who came up from Texas Christian to take charge at Columbus a year ago.

Notre Dame will have an armful in the Ohio State Stadium on Nov. 2, when more than 80,000 persons will sit in on one of the highlights of the campaign.

Wallace and McCauley But to get back to Rice, not the least reason why Houston and vicinity is already talking of filling the Rose Bowl with it is that its touchdown twins, Bill Wallace and Johnny McCauley, will be back. They are rangy triple-threat All-American prospects.

So dangerous was Wallace at returning punts last season that opposing coaches often ordered their kickers to boot the ball out of bounds rather than risk a long return.

It wasn't until last season that football at Rice was given the notice it deserves in the east. Kitts regrets that Rice hasn't a big game in New York this fall, and the institute wouldn't reject an invitation to make the trip in 1936.

The football enthusiasm of the southwest matches that of the south and California. Andy Anderson, sports editor of the Houston Press, informs me that Kitts has some exceptionally fine freshmen coming up, and insists that it isn't home town pride which prompts him to remind me gently that the Rice team of 1936 also will be nothing short of ignited infantry behind tanks.

Rice captured the championship of the Southwestern Conference last season, losing only to Texas Christian. The Owls early showed their caliber by repelling Purdue at Lafayette.

IT'S THE OLD HOOP GAME In addition to its pigskin prospects, Anderson is positive that Rice will show New Yorkers a thing or two when they play basketball at Madison Square Garden in February.

It is significant in these years of highly specialized forward and lateral passing that both Schmidt and Kitts were better and more highly regarded as basketball coaches before they accepted their current assignments last season.

Kitts wasn't considered an especially good football mentor when he came to Rice in 1933. He had coached at Athens, Texas, high school for 10 years, twice taking teams to the national interscholastic basketball championship. The Cage dodge was considered his forte.

But given the opportunity as head football coach when Jack Meagher, whom he assisted, went to Alabama Poly, Kitts showed the boys

WILL HOLD TENNIS TOURNAMENT HERE AGAIN THIS YEAR

By GEORGES VORBE

It has been decided to repeat this year the highly successful West Texas Invitational Tennis Tournament which was held here last year and attracted many fine players from throughout the State and which created much favorable comment from tennis fans within a wide radius.

As last year, the tournament will be limited to men's singles and men's doubles. The entrants in the singles will compete for the Andrew J. Pasken trophy, a handsome silver loving cup. The cup is held by the winner for a year until a time as it can be won by the same player three years in succession, giving him perpetual ownership of the trophy.

Trophies will also be presented to the winners of the doubles and to runners-up in both classes.

The tournament will be held here starting Friday, August 23, and extending through Sunday, the 25th. Drawings will be held Thursday evening, preceding opening day play, and all entries should reach Georges Vorbe, Box 758, Midland, Texas, chairman of the tournament committee, before the drawings, accompanying their entry with the entry fees, \$1.50 for singles contestants and \$2.00 per pair for doubles entries.

Players will be expected to furnish their own balls except for the semi-final and final matches, for which matches the balls will be furnished by the local club.

For the entertainment of the visiting competitors it is planned to hold a banquet and a theatre party. It is hoped that the merchants and citizens of Midland will recognize the value of the publicity that this annual tournament will give the city and support it to the full of their ability.

Requests for information regarding the tournament this year have already exceeded last year's entries and the day can be confidentially looked forward to when the Midland Invitational Tournament will be the best tournament between Ft. Worth and El Paso.

Both the Sand Belt and Cat Claw golf clubs will go to Hobbs today for League games.

Regardless of the outcome of the two games the Sand Belt entry will have finished in the league this season and the Cat Claw team has already clinched the north hall league championship. They will have a play off with the winner of the south hall at present undetermined, later this month.

Frank Johnson of Midland has a cinch on tying with Latson of Big Spring for individual high scores for the season if he wins his match today. In case he does win his match a play-off will be necessary between the two men for the trophy awarded to high scorer of the league.

The annual Sand Belt Round-up will be held in Big Spring next Sunday.

TRAINMEN INJURED As Train Dynamited

SPRINGFIELD, Ill., August 10. (AP)—The engineer, fireman and conductor were injured, the latter two seriously, when an Illinois Central freight train was dynamited three miles south of here today.

The blast derailed the engine and 10 of the 110 empty cars that it was pulling.

Officials said that they believed tangled affairs of the Illinois coal miners' dispute was behind the dynamiting. Members of the United Mine Workers and Progressive Mine workers organizations have been at "war" for several years.

PAMPA BASEBALL TOURNAMENT TO OPEN AUGUST 23

PAMPA, August 10.—Now that dates of the second annual Pampa Junior Chamber of Commerce baseball tournament have been determined, plans are under way to make it a bigger and better event than last year's Little World Series.

The tournament will open on August 23 and close on Labor Day, September 2. Again the Jaycees will guarantee the winning club \$1,000. And once again, teams winning games, but not placing in the "big money," first, second or third, will receive \$25 in cash for each game won. The money will be paid at the end of each game.

Tournament officials predict a 16-team entry with gate receipts reaching a new high. They hope to see the first place team receiving \$1,500 or more. The tournament, with the guaranteed first place money, will appeal to all outstanding clubs in the country. Already inquiries have been received from Dallas, Oklahoma City, Wichita, Kansas, several strong clubs in Oklahoma, and many teams in Texas.

Because of the early interest, tournament officials will reserve the right to accept or reject teams. Early entries, of course, will receive first consideration. All inquiries should be made to A. J. Johnson, chairman of the Junior Chamber of Commerce tournament committee.

Already, and it is nearly two weeks before the tournament gets under way, six strong clubs have entered. Other teams are waiting until they receive assurance that they can secure sleeping accommodations in the business city in the country. That hurdle was hopped when hotel room for 75 players was secured in a nearby town in case space is not available in Pampa. Prices for room and board will be so reasonable that a team of 16 players will be able to live for as little as \$25 a day. They can make that amount by winning a game.

The Jaycees will operate buses between the nearby towns and Pampa for the accommodation of teams unable to secure rooms in the tournament city. The nearby city will supply a practice field for teams to work out.

Pampa's \$15,000 stadium, equipped with giant lighting equipment, is being put in shape to accommodate large crowds. The present seating capacity is in excess of 2,000 and additional seats will be installed for the tournament. Many times this season the grandstand has been filled to overflowing.

Pampa and the immediate territory with a population of 25,000 to draw from, is really baseball minded. The Pampa Road Runners, defending champions, will be in the middle of things to defend their title, which at the present time is in a shaky condition. Other teams entered, or about to enter, have strengthened to such an extent that the battle for first honors will be wide open.

Teams already entered include the Road Runners, Coltexos of Lefors, Huber of Borger, Shamrocks of Amarillo, Phillips of Borger, and the Two-1 All Stars.

Hen Lays Initiated Egg WILBUR, Wash. (AP)—Farmer Jens Peterson shows an egg laid by one of his hens, which he initiated in his honor. The egg bears a well-defined "P" in a slightly darker shade of brown on the shell.

Brush Yields 627 Golf Balls CLINTON, Mass. (AP)—ERA workers, clearing brush from the woods near the Runaway Brook club at Bolton, discovered 627 golf balls. The balls, which filled a bushel basket, had been lost during the past 37 years that the club has been in existence.
