

BARSTOW BANK ROBBED TODAY

Daily Proration Allowable Set at 1,027, 363 Barrels

25,936 MORE PER DAY THAN AUGUST SCHEDULE RATING

Acreage as Factor Is Not Changed in Order

AUSTIN, Aug. 28. (AP)—The Texas Railroad Commission today set a daily allowable of 1,027,363 barrels for Texas oil fields effective September 1. It was 25,936 barrels more per day than the August schedule.

E. O. Thompson, commission chairman, said that the order did not change the basis of proration to include acreage as factors, which was demanded by major operators and bitterly opposed by small producers.

September allowables included: West Texas, 130,120 barrels, and Southwest Texas, 95,759.

ROOSEVELT GIVES APPROVAL TO OIL COMPACT

WASHINGTON, Aug. 28. (AP)—President Roosevelt gave final approval today to the Interstate Oil Compact designed to conserve oil and gas through prevention of physical waste.

The president signed the congressional resolution giving approval to the agreement drawn at Dallas last February by the petroleum producing states.

EXTRAORDINARY SESSION TO MEET ON SEPTEMBER 16

AUSTIN, Aug. 28. (AP)—Governor Allred today announced that the legislature would be called into an extraordinary session September 16 to consider liquor regulation and possibly other matters.

The governor said that members of the legislature with whom he had talked felt that there should be time to study the bills that have been proposed and learn what was being done in other states.

Man Killed When Hit By Bus at Big Spring

BIG SPRING, Aug. 28. (Sp.)—Ray N. Stokesberry, 35, was killed and a companion, Lawrence Gintner was injured when struck by a west-bound Greyhound bus, nine miles west of here Monday.

Stokesberry, a veteran and recently stationed at a CCC camp in Paso, lived about an hour after he was struck. He died of a broken neck.

His companion suffered only a painful bruise.

According to reports, the bus swung out to pass another automobile. The driver, George Narrell, Abilene, said he did not see the pair until he was almost upon them.

Next Session of Senate to Outlaw All Filibustering

WASHINGTON, Aug. 28. (AP)—Senator Robinson, Democratic leader, announced today that an amendment to the Senate rules would be presented next session, designed to end such filibusters as the one by which Senator Long of Louisiana, Monday night, which blocked the \$102,000,000 deficiency bill.

The bill carried funds for old age pensions, railway pensions and various other programs.

Robinson said that Long's one-man filibuster had "disturbed the Senate and the Country." What changes in the Senate rules will be made were not made known by Robinson.

Premier Laval Is Given Authority To Oppose League

PARIS, Aug. 28. (AP)—The French cabinet today empowered Premier Laval to oppose any applications for sanctions that will be made by the League of Nations against Italy in their conflict with Ethiopia.

The cabinet heard Laval's plan to induce the League council to regard the Italian war against Ethiopia as a "colonial" expedition and the ministers reportedly agreed that it was imperative for France to retain the friendship of both Italy and Britain, but felt that it was important to save the League from loss of prestige by attempting a program which French authorities thought impossible.

British Officers Kept in London

LONDON, Aug. 28. (AP)—The British war office, a military source stated today, has ordered all senior members of the army council to remain in the vicinity of London and to take no holidays until further notice.

Somali Troops Desert Italy Army for Hail

ADDIS ABABA, Aug. 28. (AP)—Reports of the desertion of several thousand Somali troops to the Ethiopian banner reached Addis Ababa Tuesday as Emperor Haile Selassie began quietly to pass out reserves of arms to his black warriors.

The reports said the Somali troops had fled to Ethiopia and some authorities had demanded return of their rifles.

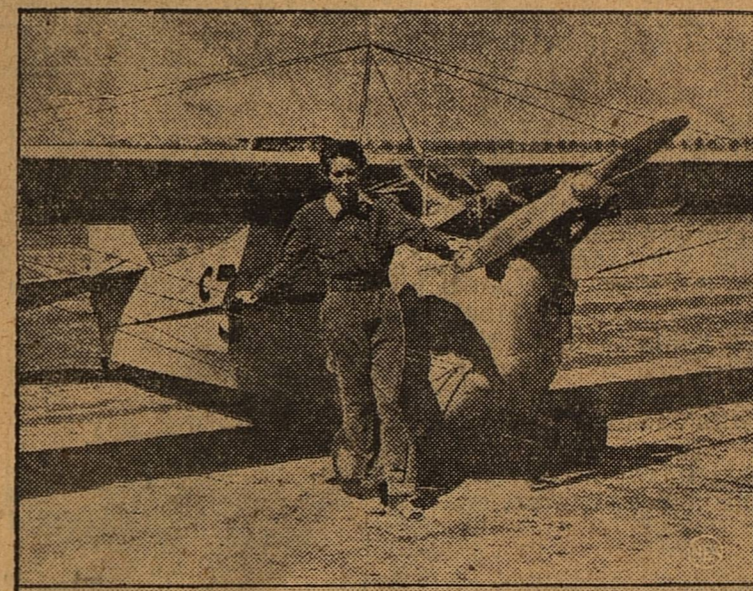

Some of Haile Selassie's munitions were drawn from secret underground caches built by Emperor Menelik II, uncle of Haile Selassie and victor over the Italians half a century ago.

Other supplies came from ancient Meitic churches in northern Ethiopia, built from solid rock. Although religious services are held in these quaint churches, priests see no harm in storing ammunition in the cellars because a war against Italy would be regarded by them as a "holy war."

Racers and Sponsor of Ruth Chatterton Air Derby

Boarding her own plane to fly with the six contestants in the air derby bearing her name, Ruth Chatterton, famed screen actress, is shown here. She flew a non-competitor in the \$1000 event with the purse going for safety and accuracy rather than speed.

Facing across the country from Los Angeles to Cleveland, Ohio, three men and three women competed for the \$1000 purse in the Ruth Chatterton Derby, one of the features of the National Air Races in Cleveland. Piloting a tiny plane with a cruising speed of only 70 miles an hour, Cecile Hamilton, 20-year-old Polo, Ill., brunet, in top photo above with her craft, held a place in the spotlight. Other contestants were Leland Hayward, New York and Hollywood actor's agent; Earl D. Ricks, Hot Springs, Ark.; Mrs. Edith Sheehy, noted southwestern aviator; W. S. Woodson, Coronado, Calif., realty man; and Mrs. Grace E. Prescott, San Diego, Cal. singer.

SHERWOOD O'NEAL GINS FIRST BALE HERE

HIGHEST BIDDER TO GET COTTON WHEN AUCTIONED THIS AFTERNOON

MIDLAND COUNTY'S first bale of cotton, brought in today by Sherwood O'Neal, was sold at auction this afternoon to Sprull's grocery for 14 cents a pound. The bale weighed 560 pounds and brought O'Neal \$78.40.

Midland county's first bale of 1935 cotton was on display at the intersection of Main and Wall streets today, having been brought in by Sherwood O'Neal, farming fourteen miles southeast of town, late Tuesday. It was ginned by the Farmers' Cooperative Gin.

The bale, weighing 560 pounds, was to be sold at auction this afternoon, on the downtown streets, with Capt. W. E. Wallace, according to time honored custom, serving as auctioneer.

Mrs. Monroe Dawson and has a good crop of early cotton and feed this season. The farm lies in the belt which has received heavy rainfall at intervals throughout the growing season.

Great Opportunity To Improve Cities Is Offered by WPA

SAN ANTONIO, Aug. 28. (Sp.)—Possibly the greatest opportunity that Texas counties and towns have ever enjoyed for the development of their public facilities is offered today by Works Progress Administration.

That hardly a city or county in the state is not in need of some type of public improvement is a statement which cannot well be denied. Works Progress Administration is prepared to provide funds for the employment of labor on scores of different types of projects. Equipped to handle thousands of project proposals promptly, the state and district WPA offices are at the service of every section of the state.

It is upon their own speed in submitting proposals and upon the care and design and planning exercised by Texas sponsors that each section of the state must depend for its participation in the benefits of WPA. Unfortunately, many sponsors failed to plan carefully the early projects which were submitted to the state WPA office, consequently impeding their own progress and that of the entire program. It is hoped and believed that this type of delay will be avoided in the future.

ROOSEVELT SIGNS GOLD CLAUSE BILL

WASHINGTON, Aug. 28. (AP)—President Roosevelt disclosed today that he had signed away rights of citizens to sue the government after next January first for any damages that might be charged to the dollar devaluation and nullification of the gold payment promises.

His signatures made a law of the compromise legislation which resulted from the administration request for an absolute ban against such suits.

Two N.M. Operations Reported Favorable

By PAUL OSBORNE
Two favorable reports from Lea county operations made the principal oil news here this morning, came of the Amerasia Andrews Monument area, and flow production of Texas-Pacific No. 1 State being the highlights.

The Amerasia well, drilling a mile south of their discovery well of the Monument area, encountered a favorable show of oil in drilling to 3,228 feet, where the well was shut down and acid treated, the result being a 95 barrels an hour flow the first hour after unloading, this dropping to 45 barrels an hour the fifth hour. Operators are now drilling ahead for lower and anticipated better pay zones.

The Texas-Pacific well, likewise an extension test, is located a half mile north of the recent Ohio No. 3 State McDonald discovery producer, being in the southeast quarter of the southwest quarter of section 9-22-36, two miles southeast of the Eunice pool. Reports here this morning credited the well with a 25 barrel hourly flow.

LONE GUNMAN HOLDS UP THE CASHIER; SON

Unofficial Report Links License Number Here

Officers from Midland, accompanying state highway patrolmen, rushed westward this afternoon to aid in the search for a lone gunman who, unmasked, walked into the Citizens State Bank of Barstow during the noon hour, held up cashier L. H. Nutt and his 18-year old son, Bob, at the point of a pistol and robbed the bank of an unannounced amount of money.

Dispatches from Barstow said the robbery occurred at approximately 12:45 o'clock this afternoon, when only the two men were in the bank. The gunman, after securing cash, ordered the two into the vault. He was unable to manipulate the lock but he cut the telephone wires and ordered them not to leave the vault until he was out of sight.

However, they rushed to the front as soon as they heard him drive away in a car which had been parked at the front and noticed that it was a black coupe. The couple did not tell whether there were other occupants in the car. The machine was driven three blocks south to the highway and it was not established whether the bandit turned east or west. Nutt and his son were quoted as saying they could not read the license numbers but an unofficial report here said the first three numbers resembled those of the Midland county series.

Carl Woodson, a Barstow resident, had given chase, dispatches early this afternoon said, and calls had been placed to sheriff's offices up and down the highway. Sheriff A. C. Francis, Deputy Fisher Pollard, Constable C. B. Ponder and two state police left here for the west.

GOOD RAINS FALL OVER RANGES AND FARMS NEAR HERE

Rainfall, although light at Midland Tuesday afternoon, fell heavily in some sections and aided greatly by the grass and feed crops which had been showing effects of the parching weather.

The Bill Bryant ranch had rain of from an inch to an inch and a half over about 30 sections. Donald Hutt had good rains over ten or twelve sections on the north side, some as heavy as two inches. A strip running from northeast to southwest, about twelve miles wide, received rains, south of Midland. The precipitation came as close as the Jess Miles and Doyle Rayburn farms three miles south of town before becoming light.

To the east, in the vicinity of the R. Porter and Percy Mims farms, the rain was light.

North and northeast of Midland a larger area apparently was soaked with rains varying from a half inch to two inches. George Glass had good rains at both the Gray place and the Moore place.

Stanton had two good rains during the afternoon, as did a wide area to the north, reports here said. The Orson ranch had heavy showers.

FLAPPER FANNY SAYS

Going to a summer resort for romance should be a girl's last resort.

JAMES MOFFETT RESIGNS AS FHA ADMINISTRATOR

WASHINGTON, Aug. 28. (AP)—The resignation of James A. Moffett, Federal Housing Administrator, was announced today by President Roosevelt.

Moffett has announced that he is returning to private business and will leave his position September 1.

Stewart McDonald, acting administrator, was believed to be in line for Moffett's position.

Swain Relatives Return to Homes

W. H. Swain of Sacramento, Cal., and two daughters, Mrs. Winnie Trinkle of Portland, Ore., and Miss Bertha Swain of Sacramento, left this morning for their homes after visiting Mr. Swain's son, D. L. Swain, and family here. Last week they attended a family reunion at the home of W. J. Swain, brother of the Midland man, at Munday, Texas. There were 61 present, including three generations of the Swain family. It was the first reunion in 25 years.

Cowgirl Sponsors To "Shoot Works" For Prize Saddle

Cowgirl sponsors from West Texas and New Mexico towns may well afford to "shoot the works" in an effort to win first prize at the Midland Fair, October 19-23.

The first prize to be awarded, a handsome saddle, bridle and breast plate, manufactured and donated by the Nobby Harness Co. of Fort Worth, and was on display in the lobby of Hotel Scharbauer.

The saddle is a full stamped tan leather job, with white quilled seat and black leather trimmings and silvered conchas. The tree is neatly shaped and light enough for women's use, although built sturdily enough for heavy work.

The breast plate, of leather to match and with silver conchas, fits neatly to the girth. The bridle is of the same leather and trimmings and has a nose band which may be used with a tie-down if desired.

Midland Fair committee members estimated the complete outfit to be valued at not less than \$125.

Second prize in the contest will be a complete riding habit, given by the Nobby Harness Co. of Fort Worth, and will cost approximately \$100. Third prize will be a handsome handbag and fourth a pair of decorative spurs.

Girls, to be designated by their home towns, will ride in parades, participate in riding contests and will be guests at various social events. The judging will be based on appearance of the girl, her ability to ride, appearance of horse and ability of the horse to handle.

IMPORTANT WPA MEETING CALLED

BIG SPRING, Aug. 28. (Sp.)—R. H. McNew, district WPA director, Tuesday called a conference of all county judges, commissioners, mayors, school superintendents and others to meet here Tuesday for an important conference concerning submission of applications.

He called the meeting Tuesday after he had been advised from Washington that all WPA applications must be in the district office not later than September 12, leaving little more than two weeks to complete this gigantic task.

McNew turned wired leading public officials in all thirteen counties of this district. The meeting, he said, would be held from the district court room Thursday 2 p. m.

"We are going to make a big effort to get in everything by September 12," he said.

Lunch Program Is Not to Be Resumed

AUSTIN, Aug. 28. (Sp.)—Sounding another reminder that the days of "relief business" in Texas are numbered, the Texas Relief Commission has informed district administration offices that the school lunch program which last year aided in providing lunches for 51,000 children weekly, will not be renewed this year.

Following up repeated suggestions that children look to their own resources, officials have urged that Parent Teacher Associations, men's and women's service clubs, church societies and other organizations continue the school lunch program in communities where it is still needed.

With our funds definitely limited, we would not be justified in making plans for a year's program for needy school children when we probably could not carry it out," Mrs. Val M. Keating, Director of Social Service, said in recommending that private, local organizations continue the lunch program.

Last year the Relief Commission sponsored projects in 94 schools, furnishing daily lunches for 9350 children a week, and jointly sponsored projects with local organizations in 721 other schools, furnishing lunches for 42,001 children a week.

HORST'S RETURN

Mr. and Mrs. A. E. Horst returned this morning from an extended trip to various parts of the state. While away they visited his people at Sanger and also visited in Dallas and Fort Worth.

Horst, who has been ill for some time, is reported improved, being able to walk but still weak.

HISTORY REPEATS SELF IN ETHIOPIAN AFFAIR

Just about the least effective way of meeting any great crisis in life is to throw up the hands in horror and declare that the whole business is shocking to the moral sensibilities.

So far, however, that seems to be about all that the statesmen of the earth have been able to do in the face of the pending war between Italy and Ethiopia.

To be sure, the whole proposition is shocking. There is something about this bold assertion that might make right, this unblushing preparation for the seizure by the strong of the weak's valuables, which sounds exactly like the conversation of some of the gas house gang as they get ready to go out to hold up a delicatessen store.

But the world's history is made up of an endless string of stories just like it, and it is hard to think of a single great nation whose people have a right to point their fingers in scorn.

The North American continent, while we're on the subject, used to belong to the Indians. They were a backward people, but they were happy in their homeland. How did we get here, anyway, if not in the same way that the Italians are preparing to get into Ethiopia?

What we did to the Indians, what the English did to the Boers, what France did to the North African tribesmen, what the Dutch did to the Javanese—that, and nothing more, is what Italy is going to do to the Ethiopians.

World peace cannot be preserved by pious expressions of horror from nations with such records. The Italian come-back is too apt.

It might help considerably if we would forget all about the "moral issues" in this and other wars and concentrate on the realities.

World civilization as at present constituted gives to each virile industrial nation certain pressing needs—needs for expanding markets, raw material sources, and the like. A modern nation must have those things if it is to avoid lapsing into a condition of slow decay. If it can't get them in any other way, it will fight for them.

That is why Japan went into Manchuria. It is why Italy is going into Africa. It is why Germany is restlessly looking for a weak place in the steel wall that surrounds it.

If we hope to keep the world at peace, it is utterly useless to keep saying that war is an evil thing. These nations need some sort of outlet, and if they can't get it in one way they will in another.

If the powers which have already grabbed their share of the loot will consent to some sort of divvying-up, or if all the powers will do something to rid the world of tariff barriers, preferential trade agreements and the like, we can have the basis for an enduring peace. If not—then no matter how it horrifies us, there are going to be more wars.

\$200,000 WPA Loan CIA Applies for a

DENTON.—Application for a \$200,000 loan and grant was made this week by Texas State College for Women (CIA) to the Federal Works Progress Administration. The fund is requested for a student activity building, for additional paving and sidewalks on the campus and for an outdoor swimming pool. Agitation for a student activity building has been under way for a number of years, with ex-students of the college as backers of the movement. Such a building will contain reading rooms, lounging rooms, meeting rooms for literary and other societies, banquet rooms, a new cafeteria and a ballroom, according to Dr. L. H. Hubbard, president. Preliminary plans call for a two-story brick structure. Four buildings are now under construction on the campus and four more were requested recently under a federal loan and grant. Other items in the recent request for a loan are an outdoor swimming pool, which has been considered before as an addition to the campus, and an extensive paving program on campus roads which are now made of gravel.

FEMININE FANCIES

BY KATHLEEN EILAND

Despite the fact that we didn't get to see Miss Cecile Hamilton, the keen-eyed plucky little English girl who is flying alone in a tiny low-powered ship in the Sportsman's Air Derby, we've garnered a few descriptions of her from those with whom she talked during her overnight stay here.

Miss Hamilton is small and young, 20, the press reports say. And she is brunette. Whether that last fact had anything to do with her popularity or not, we have been told on good authority that she is "the pet of the race" and that the other fliers try to take care of her. Because she is a girl and alone.

It leaves a warm feeling in our heart—that willingness on the part of the other contestants to help out the one who, singlehanded, is carrying on.

After all, the world can be a good old place. Even in this year of trial and tribulation.

Miss Hamilton, in talking to a well-known Midland aviator, told of the first test that a would-be pilot in England is given. (And having earned to fly in England she should be able to vouch for the authenticity of the custom.) It seems that each candidate for flying honors is taken up and the plane is promptly put into a tail-spin. When that is over, most of the mis-fits are eliminated (from the flying course, we mean). That is one way to avoid down air accidents caused by pilots who are really not equipped to fly. The English may be severe but they do have the right idea—sometimes.

One, in a blue moon we see something that is so delightfully right that we chortle with joy. That is what we did at sight of the bath balls in a downtown store.

These are huge balls of pure castile soap suspended upon a large soft white cord. One drops the cord around one's neck, steps into the tub or under the shower, and presto! the soap is always at hand when needed. No diving about to find it or having it slide treacherously away at a critical moment.

Even though we may go on groping for the soap, we still think the bath ball is one of the cleverest fads we've seen. It is featured in Vogue.

Personals

Miss Lydie G. Watson had as overnight guests Tuesday her cousin, Mrs. Young Foster of Hope, Ark., Miss Mabel Ethridge, also of Hope, Ark., and Mrs. Zena Lasater of Graham. The visitors were enroute home from California. Before leaving the Pacific state they attended the funeral of Will Rogers. They continued their journey this morning.

Mr. and Mrs. Ralph Lloyd and L. Brown of Winters and Mr. and Mrs. John Alexander of Brownwood were the guests of Mrs. Ruth Ramsel the past weekend. The group visited Carlsbad Cavern.

Miss Jerry Waldron has gone to Houston, Texas.

Odessa YWA Is Entertained by Midland Group

YWA girls entertained with a party and picnic at the Baptist annex Tuesday evening, honoring YWA girls of Odessa.

For the second time during the last few months, plans to entertain the Odessa group were awry because of rain. The picnic for last night had been scheduled for Cloverdale but was transferred to the annex because of the weather.

Following the picnic lunch, songs were sung and Mrs. J. M. White made an inspirational talk on "Service."

Games of "redbug" occupied the later evening after which ice-cream was served.

Visitors from Odessa were: Misses Estelle Aldridge, Maribel Henderson, Cleo Allsup, Ann Galbin, Mildred Thacker, Ruby Thacker, Josephine Crowley, Zella Allsup, Velma Lee Moore, Oleta Webb, and Mrs. Sprull, counselor.

Present from Midland were: Misses Edith Bizzell, Evelyn Adams, Dorothy Hines, Margaret White, Helen Shepherd, Luella Cobb, Nora Mae Bizzell, Laura Shelburne, Marjorie Ward, Olga Edwards, Margaret Scott, Davina Farrington, Mrs. Leo Booker, Mrs. Iris N. Boudas, Mrs. White, and Miss Obara Hines.

Hi League Holds Sing-song at Home of Lucille Guffey

The Hi League of the Methodist Church held its weekly sing-song at the home of Lucille Guffey, 723 W. Louisiana, Tuesday evening.

Melba Nixon led the song service, with the hostess playing the accompaniments.

After a lengthy singing, refreshments were served to approximately

28 boys and girls. Attending were: Melba Nixon, Maurine Huff, Darleen Vance, Dorothy McKee, Louise Elkin, Francis Guffey, Lois Guffey, Louise Guffey, Doris Tidwell, Cleo Tidwell, Helen Barber, Freddie Lou Barber, Josephine Barber, Lavonne Bales, Oleta Des Tate, Bertha Flournoy, Bessie Flournoy, Martha Taylor, Cora Etta Everett, Elbert Grennhill, Odell Ponder, Harold Bryant, Thurston Ruppel, V. T. Pylant, John Rhoden, Joel Weathered, Charles Patterson, Ray Gwyn, Marvin Douglas, Elmer Huff, Billie Harris, Jessie Lee Barber.

Littlefield Visitor Honor Guest at Evening Bridge

Entertaining for Miss Evelyn Carlington who is visiting here from Littlefield, Mrs. Ray Parker was hostess at three tables of bridge at the home of her mother, Mrs. M. D. Cox, 611 N. Colorado, Tuesday evening.

Mrs. Guy Bennett held high score and Mrs. Hayden Wilmoth cut high in games for the evening.

A pink and green color scheme was carried out in playing appointments and in the party plate served at the conclusion of play.

Present were: The honoree, Misses. Olen Fryar, Clint Creech, Hayden Wilmoth, John B. Mills, Guy Bennett, W. C. Maxwell, Misses Lucille McMullan, Marguerite Bivins, Annie Faye Dunagan, Maedeice Roberts and the hostess.

Friday The Belmont Bible Class will meet with Mrs. Cecil Rains, 1605 W. Wall, Friday afternoon at 4 o'clock.

The United States consumed 36,000,000,000 eggs during 1934.

The Town Quack (Reserves the right to "quack" about everything without taking a stand on anything).

However, there's no use in bringing that up. We don't have many citizens who won't do their part or more, and those who won't couldn't be jarred loose with a stick of dynamite.

These showers around the country ought to take the edge off of high tempered people. Some of us get griped about everything when the days are hot and dry, but we have rather good dispositions when it's cool and pleasant.

One local man says his wife is even tempered. She stays mad all the time.

I've always noticed that when a newspaper runs a correction to appease an irate subscriber, the newspaper has to tell some sort of lie.

Fred Wemple says he may be subject to flattery, but when someone tells him he is a good singer, he knows he is lying.

A local bill collector says some people seem to think it is an insult to be requested to return borrowed money.

I see by the paper where congress adjourned. That's news.

Midland has quite a reputation as a town where its citizens do things. However, there are citizens in any town who could be traded off without being missed. We have some who won't do anything progressive themselves and who make sneering remarks about those who are willing to go out in front and try to keep things moving.

The man who is comfortable in the knowledge that he has a good bank account, yet is unwilling to spend a little for the advancement of his town, doesn't do much to speed up progress.

alotabs BILIOUSNESS

Stones in STAMPS By I. S. Klein A PHYSICIAN WHO BECAME A GOD

RISEING 200 feet above the ancient cemetery at Gizeh, Egypt, is the oldest surviving building of stone masonry. It is the step-pyramid, tomb of King Zoser, who ruled almost 5000 years ago. This great wonder is the work of Imhotep, the Wise, who, renowned though he was as an architect, was even more famous as a physician.

So widely did this man's fame spread that he was accepted by the Egyptians as a god and finally was looked upon as Esculapius, the god of medicine, by the Greeks and Romans. Not only that, but he was revered as the god of learning, and protector of scribes, of artisans and builders, and of physicians.

What better subject, therefore, could Egypt have chosen than the picture of Imhotep, shown here, when that country issued a set of two stamps in connection with the International Medical Congress at Cairo in 1922, and on the centenary of the founding of the Faculty of Medicine there.

Next: What U. S. stamp commemorates an exploit of "Mad Anthony" Wayne?

TREASURY DEPARTMENT—Procurement Division—Public Works Branch—Washington, D. C., August 16, 1935.—Proposals are hereby solicited for a site for a Federal Building at Midland, Texas, to be opened publicly in the Office of the Postmaster at Midland, Texas, at 9 o'clock A. M., on September 6, 1935, for the sale, or donation, to the United States of a lot conveniently located—Approximate dimensions—Corner lots 125 foot frontage 180 foot depth. Interior lots 150 foot frontage 180 foot depth. Sites having different street frontage dimensions will be considered providing the area is approximately the same. In all cases where possible bids should be submitted by actual owners of properties and not by agents. Documentary evidence of agent's authority must be attached to proposals. Upon application, the Postmaster will supply prospective bidders with proposal blanks and a circular giving particulars as to requirements and instructions for preparation of bids and data to accompany same. E. J. Peoples, Director of Procurement. Aug. 26-28-30, Sept. 2-4, 1935

Welding... the best way to make a perfect union of two pieces of metal is by welding them together.

... and the best way to get a more pleasing flavor and a better taste in a cigarette is by welding together the different types of tobacco...

That is just what we do in making CHESTERFIELD Cigarettes—the three types of mild ripe home-grown tobaccos, that is tobaccos grown in this country, are welded together. Then they are welded with aromatic Turkish. When these tobaccos are welded together you get a combined flavor which is entirely different from any one type of tobacco.

It is this welding of the right amounts of the right kind of tobaccos that makes CHESTERFIELD a milder and better-tasting cigarette. Chesterfield... the cigarette that's Milder Chesterfield... the cigarette that TASTES BETTER

Lubbock Show To Give Prophets A Large Eye Full

LUBBOCK, August 27.—Rex Tugwell and others who prophesied the dust storms would soon turn the western plains into a barren waste would get an eye full should they visit the agricultural show at the Panhandle South Plains Fair here September 23 to 28.

The building will be doubled in size this year to accommodate the big agriculture show. County vocational, community and individual agricultural exhibitors will be competing for a thousand dollars in premiums and prizes.

King Cotton, Queen Wheat, Crown Prince Grain Sorghum, the Royal children of vegetables, fruits, hay, grain, corn, sudan grass, peanuts, alfalfa, and other agricultural products will be dressed in their best clothes and exhibited to the thousands of fair visitors who will trek through the Agricultural Building.

County exhibits from Bailey, Lamb, Hale, Cochran, Hockley, Crosby, Terry, Lynn, Garza, Gaines, Dawson and other counties will compete for honors and \$475.00 in prizes. First place will get \$75.00, second \$60.00, and so on down the line to the last prize of \$25.00 which is the minimum any county will get.

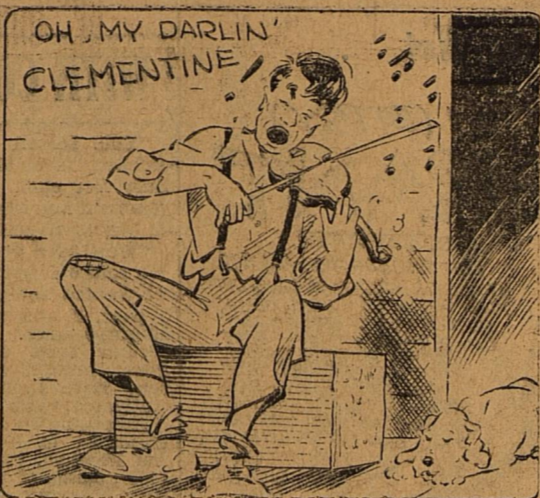

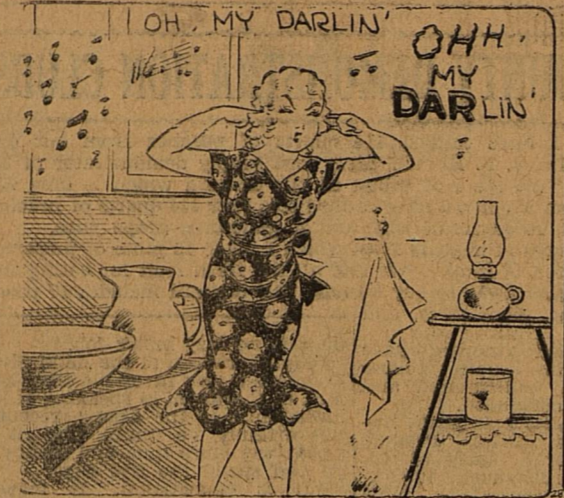

At least twenty vocational agricultural exhibits will be set up this year, competing for \$200.00 in prizes, the top getting \$25.00.

Lubbock County community exhibitors will compete for \$110.00, the top getting \$25.00 and individual exhibitors will compete for approximately \$200.00 in prizes on individual agricultural and vegetable crops.

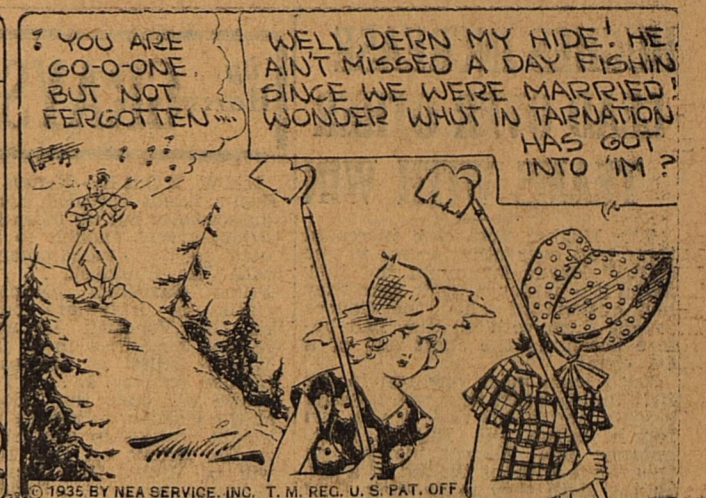

A new entertainment feature, the newly acquired Harley Sadler three-ring circus will play at the fair the last three days. Harley Sadler's circus is larger than any that has visited this section in several years.

More than \$3,000,000.00 was spent by the federal government last year in aiding the distressed by providing jobs, cash, and goods.

HUGHES INCREASE LEAD OVER OTHER TEAMS WITH WIN

The Hughes Tool club increased their lead over other teams in the softball league last night but they found it a harder struggle than they had anticipated when the Conoco fought them with all they had before accepting the short end of a 6-1 count.

Each team made one run in the first inning when they put together a walk and a hit and it was the fourth before the Hughes made another one. They made two in this frame without the aid of a hit.

The second game of the evening was a runaway for the Hardware team as they backed up Pylon's six hits with 20 raps of their own to defeat Cox 19-4.

Box scores: Hughes Tool AB R H E, Conoco AB R H E, Hardware AB R H E, Cox Motor AB R H E

NEW YORK—X-rays of Max Baer's hands revealed signs of old dislocations, but no indication of an injury recent enough to be attributed to the ex-champion's match with Jimmy Braddock.

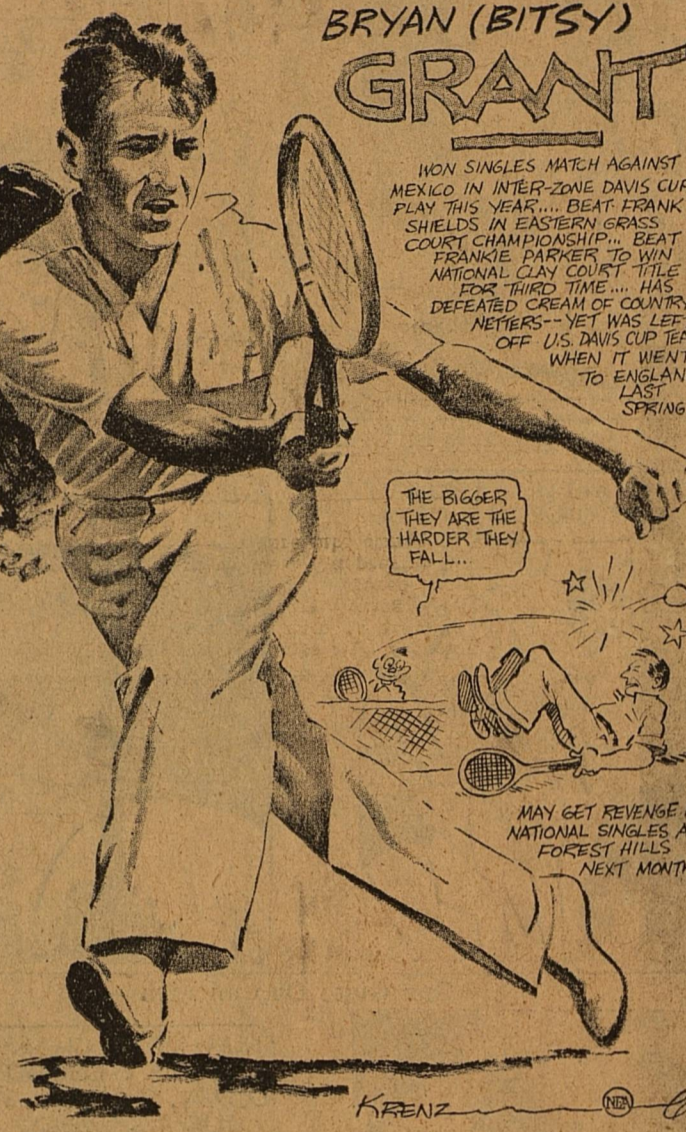

Primo Carnera's passport difficulties in Italy are circumvented, the Venetian Leviathan will resume hostilities in a fight with Walter Neusel at Madison Square Garden on Nov. 1.

Each time one misses a putt he cuts off a piece of a game in the hole of the miss. The player with the most string at the end of 18 holes is the winner.

Here's Something New: Softball Star Set Down. A player can be suspended in softball, too.

WITH COUNTY DEMONSTRATION CLUBS

"This season I have canned 114 quarts of peaches from our own orchard," said Mrs. J. L. Hundle, farm food supply demonstrator of the Busy Bee club.

"Our trees and vineyard have gone through the drought because they have been well-watered and cultivated," she concluded.

Mrs. Hundle also has a good garden from which she cans almost daily. She has just finished canning 90 No. 2 cans of field corn.

Opportunity-

of rock retaining walls on hill-country roads may be considered as typical road projects which will be welcomed by our examiners.

School houses in many smaller Texas towns are sadly in need of side walks, gutters and curbs are expected from small towns.

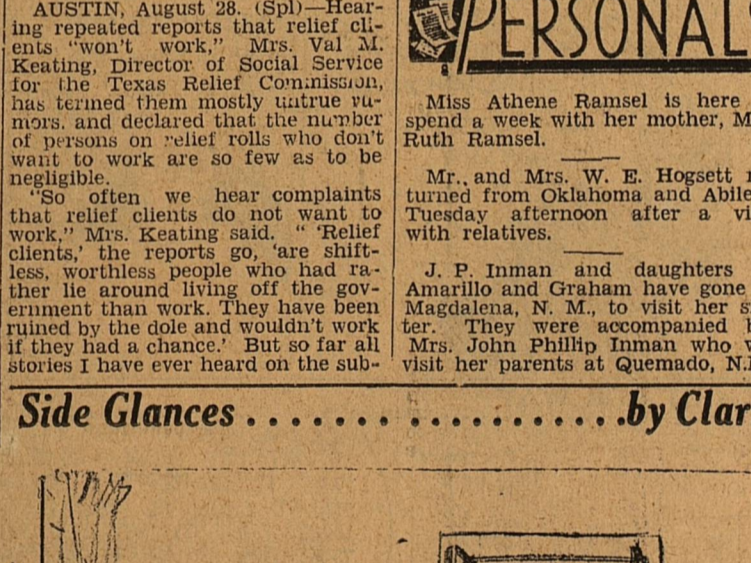

Useful surveys and research work providing jobs for white collar workers are acceptable but sponsors must do proper management and supervision in order to secure state approval.
