

# WRECK FATAL TO BELGIAN QUEEN

## Inaugural Flight of Mid-Continent Airlines Set for Sat.

### Fourteen Killed in Mexico Today in Political Clashes Situation Serious in Sonora

#### ARMED MEN RIDE INTO COYUTA AND OPEN FIRE, KILL 12

#### Group Defeated in Elections Is Blamed

MEXICO CITY, Aug. 29. (P)—Fourteen deaths from political clashes in two states were reported today, and a threatening situation was developing in Sonora. A group of armed men rode into Coyuta, Vera Cruz, opened fire on the residents and killed 12, reports from Jalapa said. The attacking men were members of the party defeated in the recent municipal elections. Tabasco dispatches said that followers of the exiled state dictator Tomas Garrido Canabal, had killed two men at Comalcalco and wounded six at Cardenas. Sonora students in the National University here sent a message to President Cardenas charging followers of Governor-elect Ramos with being armed to prevent any attempt to keep Ramos taking office Sunday. Student and worker organizations are in open opposition to Ramos.

#### BODY OF HAMILTON, AID OF DILLINGER, FOUND IN ILLINOIS

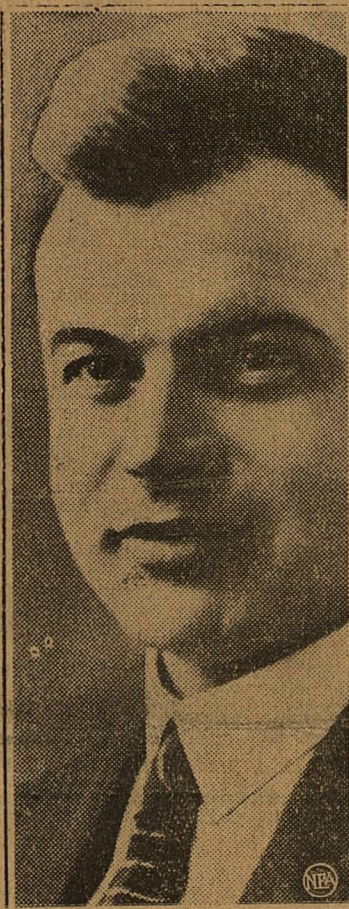

OSWEGO, Ill., Aug. 29. (P)—A coroner's jury today decided that the corpse dug up near here by "G-Men" yesterday was that of John Hamilton, but did not determine who shot the former Dillinger gangster. The verdict was that Hamilton died from gunshot wounds inflicted by persons unknown. Federal agents believe that Hamilton was shot while fleeing with Dillinger and Homer Van Meter through St. Paul, April 23, last year. Agents said "confidential information" led to the finding of the body.

OSWEGO, Ill., Aug. 29. (P)—The body of John Hamilton, bandit decomposed, was found in a shallow grave near a gravel pit half a mile north of Oswego Wednesday by three federal agents. The agents, who refused to give their names, said they identified the body of the Dillinger gang's machine-gunner from the teeth and expressed the opinion Hamilton was fatally wounded April 23, 1934, in a battle with officers at South St. Paul, Minn.

The announcement of the finding of the body was made in Washington by J. Edgar Hoover, chief of the Federal Bureau of Investigation, and was the first information that local authorities had of the discovery. Two hours after the Hoover announcement, Coroner F. M. Croner of Kendall County was given sketchy details of the find. He ordered the body be taken to a local undertaking concern for examination. He said an inquest would be held today and probably would be continued tomorrow. The body was lying, without any wrapping, in a trench about three feet deep on a grassy tract between the gravel pit and a county road. First examination disclosed no bullet wounds but agents pointed out that because of the condition of the body it would be difficult to discover such wounds without a thorough examination. The imprint of head, shoulders and legs was clearly pressed in the clay of the grave. Agents threw a striped white-and-orange sack over the body as a shroud until the arrival of the coroner.

In Chicago, Melvin H. Purvis, recently retired chief of the "G-men" there and who had played a major role in the decision of the Dillinger gang, said the finding of Hamilton's body "winds up the Dillinger gang." The agents refused to explain what led them to search for the outlaw's burying ground in this region. They said they had made their report to Washington and details would be released there. D. M. Ladd, Purvis' successor in the Bureau of Investigation's office at Chicago, said he had no information additional to that released in Washington. He indicated, however, that it was men from his office who had solved the months-old mystery of "what has become of John Hamilton?"

#### Labor Board Head

Chairman of the newly appointed Labor Relations Board is Joseph W. Madden (above), Pittsburgh law professor. He expects the board to be ready before mid-September to receive complaints of discrimination against union men and petitions for elections to determine who shall represent workers for collective bargaining.

#### Midland Fair to Be Advertised at El Paso Rodeo

Advertising the Midland Fair, October 19-23, Roy Parks, director of the organization, will leave early Friday to attend the El Paso rodeo which lasts for three days. Miss Jessie Lou Armstrong will be the cowgirl sponsor from Midland at the El Paso event. Programs of the races and rodeo events of the Midland Fair in pamphlet form, will be off the press tonight and will be distributed by Parks to contestants at El Paso. Posters advertising the fair also will be placed in conspicuous locations there and at intervening towns.

#### ROY MIDKIFF 30, DIES HERE TODAY

Funeral services for John Roy Midkiff who died at the home of his mother, 808 S. Pecos, at 6 o'clock this morning will be held at the chapel of the Ellis mortuary this afternoon at 4:30 o'clock. Rev. J. E. Pickering will officiate. Interment will be in Fairview cemetery. Midkiff, who was 30 years old, was the son of Mrs. Jeanie Midkiff and the late Will Midkiff of this place. He was born in Oklahoma but for years lived here. He had been in ill health for about three years and prior to his death had been living here with his mother. He is survived by his mother, two sisters, Mrs. Faye McCartney of Hawaii and Miss Eloise Midkiff of Victor, Colo., and a number of other relatives. He was a nephew of T. O. Midkiff. Pall bearers for the services this afternoon will be: E. Benedict, Dwight McDonald, T. R. Wilson, Dick Whitson, J. E. Beane, and five cousins, Tyson Midkiff, Frank Midkiff, Turner Midkiff, Sam Midkiff, and Lige Midkiff.

#### MIDLAND FEDERAL SAVINGS AND LOAN ASSOCIATION IN EXPANSION PROGRAM

Plans for expanding the operations of the Midland Federal Savings & Loan association, chartered last December, are under way here. Sam Strauss, representative of the Federal Home Loan Bank board, assisting. The organization, whose directors include J. R. Martin, John P. Butler, W. J. Sparks, D. H. Roetzler, L. E. Daniel, T. R. Wilson and Addison Hattiesburg, has loaned or approved a total of \$32,000 on Midland homes since its organization. Money invested by individuals in the association is insured by the Federal Savings and Loan Insurance Corporation up to \$5,000, individually. For each \$100 invested locally, the federal government invests \$3.00, all of which may be loaned on residence property here. Both Midland banks have endorsed the institution as a safe field of investment, both for the small investor who wants to make monthly payments on his savings account and for the person desiring to invest lump sum capital. No guarantee is made as to profits or return on the investment, but the principal itself is insured by the federal treasury. However, it was pointed out that the association, by act of its directors, charged 7 1/2 per cent simple interest, with moderate service charges on loans, and it has been customary for such institutions to pay not less than four per cent. One Midland banker said today that he believes the institution will grow into a large financial organization.

#### STRAUSS SPEAKER AT ROTARY CLUB

Sam Strauss, representative of the Federal Home Loan Bank Board, Washington, addressed the Rotary club briefly today, giving details of the operations of the Midland Federal Savings & Loan association which this week is launching an expansion campaign. Strauss was the principal speaker at the annual banquet of the Midland chamber of commerce last January. W. A. Yeager outlined the plans of the Rotary club's student loan fund, asking proposals from club members as to how the fund may be enlarged to give greater assistance to deserving college students. Reports were given to show the accomplishments of the club in the past in student loan work. Visitors at the luncheon, besides Strauss, were H. G. Bedford, Midland cattleman, and H. E. Howie, Big Spring Rotarian.

#### LONG OPPONENT WINNER IN MISS.

JACKSON, Miss., Aug. 29. (P)—Hugh L. White, wealthy Columbia lumberman, making his second bid for Mississippi's governorship, Wednesday held a lead of 14,392 votes over Paul B. Johnson. On the basis of unofficial returns Mr. White had 156,364 votes to 141,972 for Mr. Johnson, former Hattiesburg Congressman, in yesterday's Democratic run-off. The Democratic nomination in this state is equivalent to election. The bitter and hotly waged runoff campaign centered about the Huey Long issue. The Senator had vowed opposition to Mr. White but later announced from Washington that he was keeping out of the race because "neither candidate" supported his Share-the-Wealth program.

#### FIRST PLANE DUE TO REACH MIDLAND 11:20 IN MORNING

Route Is From Dallas To Midland, Return

Inaugural flight of the Mid-Continent Airlines, Inc., has been slated for Saturday, August 31, with the first plane to reach Midland at 11:20 a. m. R. H. Clement, president of the line, has announced. The route is from Dallas to Midland, and return, with the first eastbound ship to leave Midland at 2:30 p. m. Saturday. The complete schedule follows: Leaving Dallas, westbound, 7 a. m.; Fort Worth, 7:30 a. m.; Eastland, 8:30 a. m.; Breckenridge, 9:30 a. m.; Abilene, 9:30 a. m.; Sweetwater, 9:55 a. m.; Big Spring, 10:40 a. m., and arrival at Midland, 11:20 a. m. Leaving Midland, eastbound, 2:30 p. m.; Big Spring, 3 p. m.; Sweetwater, 3:45 p. m.; Abilene, 4:10 p. m.; Breckenridge, 4:50 p. m.; Eastland, 5:15 p. m.; Fort Worth, 6:15 p. m.; arriving Dallas, 6:45 p. m.

The fare is 5 1/2 cents per mile, a ticket from Midland to Dallas costing \$18.65 to Fort Worth, \$17.05. Tickets will be sold at the Midland airport and at the Scharbauer hotel. Two ships will make the inaugural run, with 18 seats available for the first day. Clement announced. One is a Stinson tri-motor, ten place, radio equipped for receiving weather reports, which will be on the regular schedule, and the other a Wasp powered Mercury, eight place. The pilots for the line are D. E. Irvin from Washington and John Adams from Dallas, both air veterans, and Clement himself as relief. Clement is a veteran of the World War 90th Aero Squadron. Until June 30, he was assistant manager of the Fourth Air navigation, United States department of commerce, with headquarters at Fort Worth for the last two years. He had charge of lighted airways and radio stations on intermediate landing fields.

#### 75 ATTEND FHA MEETING HERE ON WED. AFTERNOON

Approximately 75 persons interested in home building and in details of the insured mortgage plan of the federal housing act attended a meeting Wednesday afternoon, in the Crystal ball room of Hotel Scharbauer, and heard complete explanation of the program. R. E. Sikes, federal housing representative, and T. C. Mahaffey, chief of the Fort Worth underwriters office, showed blackboard illustrations to show from applications actually received at Midland how an insured mortgage loan works. The loans, he explained, under title 2 of the housing act may be obtained from qualifying lending institutions for the purpose of buying, building or refinancing a home. Two Midland banks and the bank at Odessa are qualified for such loans, they stated. The federal government does not advance the funds but insures the mortgage for the lending institution. Low interest, low cost of obtaining loan, reasonable service charges and liberal time in which to retire the amortized loan were described. Towns represented at the meeting besides Midland, were Odessa, Stamford, Monahans, Royalty, Crane, Andrews, Rankin, McCamey and Iraan.

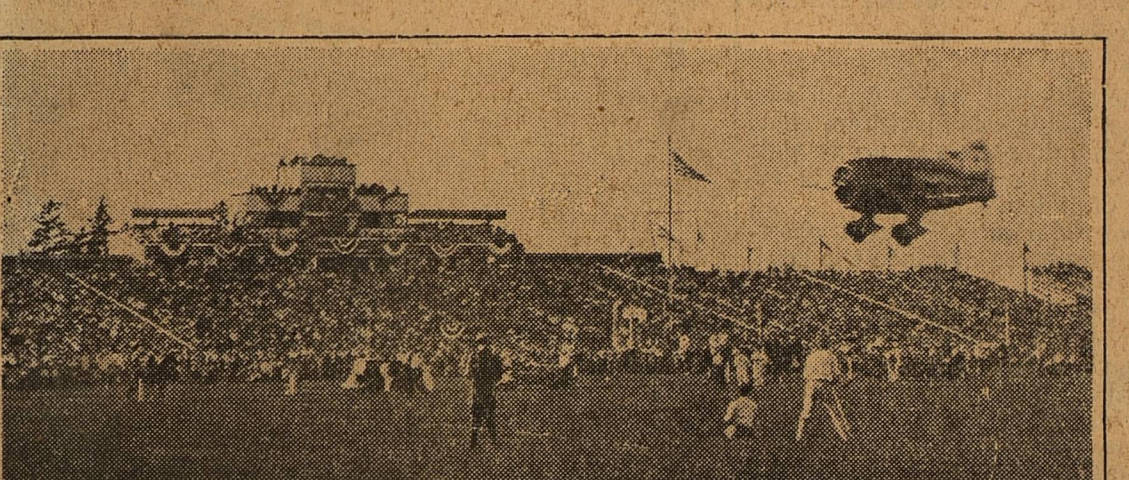

#### THREE DROWNED BY CLOUDBURST IN ARIZONA TODAY

DRAGON, Ariz., Aug. 29. (P)—An eight foot wall of water, caused by a cloudburst, drowned three persons and was believed to have swept two others to their death when it struck a bus waiting for the water to recede in a railroad underpass here early today. The bodies of the victims, a woman, girl and an elderly man, were brought here.

#### Announcement Opening of Warfield School Mon.

F. C. Stubbe, trustee for the Warfield school, stated today that the school will open Monday, September 2, with Mrs. Jamison as the teacher for the third time. All children of school age are requested to be present at the school house not later than 8:45 a. m. to register.

#### Women Fliers Get Chance To Compete in Air Races

CLEVELAND, Aug. 29.—Women will have their innings at last in the annual air classic, the National Air Races, to be held at the mile-square Cleveland airport during the four-day races from Aug. 30 to Sept. 2. Heretofore, the girls were limited to comparatively "safe" contests in the schedule of events. But their united howl was heard by Clifford Henderson, managing director, and he has cleared the way for them, not only by permitting high-speed races for women only, but opening up one of the most grueling of all the events to the feminine sex. That event is the Bendix cross-country flight from Los Angeles to Cleveland and on to New York, if possible. In this race, great fliers like Roscoe C. Turner, Earl Ortman, who set the Canada to Mexico record not long ago; Cecil A. Allen, trans-Pacific pilot, Vance Brees, and Howard Hughes, wealthy film producer, will compete with little but spunky, Jacqueline Cochran of Los Angeles—that is, if the men will let her, and there's a fair certainty that they will. POSSIBLE PURSE OF \$7000. Thus, on Aug. 30, a woman for the first time will try to beat around six or eight male flyers in a dangerous speed race for first place and \$4500 of a total \$10,000 purse, and an extra \$2500 if she goes on to New York and lowers the trans-continental record. But besides that distinction, eight women will participate in a closed course race of 45 miles sponsored by Amelia Earhart Putnam, most famous woman flyer in America. Mrs. Putnam has put up \$1250 in prize money for this contest. Woman also joined the men in a cross-country handicap flight by easy stages from Los Angeles to Cleveland, for a prize of \$1000 offered by Ruth Chatterton, the actress, herself a pilot. Finally, women will participate in parachute jumps and other stunts to give them all the freedom possible in the annual air races. The climax of the entire four-day schedule of races, stunts and exhibitions, in which army, navy, and marine squadrons will participate, still will be closed to women. That's the Thompson Trophy race which is to land planes what the great Schneider Cup race in England is to seaplanes for speed. SPEED PRIZE INCREASED. This year, the course has been lengthened from 100 to 150 miles and the prize money has been increased from the previous \$10,000 to \$15,000. Col. Roscoe C. Turner won that event last year, at the speed of 248.19 miles an hour. This year, for the first time since this race was inaugurated in 1930, the trophy holder will defend his title. Against Turner in this race will appear Howard Hughes, with a \$100,000 plane that he says will reach a speed of more than 360 miles an hour; Harold Neumann, piloting Ben O. Howard's "Mister Mulligan," which Howard will have flown previously in the Bendix; Keith-Rider, of Los Angeles; Lee Wallace, of Fort Worth, Texas, and others. That this race will have none but the best participating is assured by the fact that the qualifying speed has been placed at 225 miles an hour.

#### ITALY NOT TO STAND FOR SANCTIONS

Mussolini Warns the World Against Procedure. Premier Mussolini warned the world today that Italy would not stand for sanctions against her in her dispute with Ethiopia. His cabinet announced its determination to attack Ethiopia at the League of Nations council session and went ahead with fundamental economic decrees to finance the war with the African empire. British statesmen, reading Mussolini's warning that "sanctions may lead to serious complications," saw a sharp challenge to the British proposal for League action against Italy. The British Mediterranean fleet sailed today on its "second summer cruise" which is taking the ships to strategic positions around the Suez canal. Italian transports crowded one another for passage through the canal, carrying troops and munitions.

#### To Hold Services for Mrs. Connally Today

MARLIN, Aug. 29. (P)—Funeral services for Mrs. Tom Connally, wife of the junior Senator from Texas, will be held this afternoon at 5 o'clock at the First Methodist Church here. Rev. H. S. Munger, pastor of the church; Rev. S. D. Dollahite of the First Baptist Church and Rev. J. W. Bergin of Georgetown, a former pastor here, will officiate. Mrs. Connally died unexpectedly of a heart attack in the office of her husband Monday afternoon in Washington. The body is scheduled to arrive in Waco about 2:40 today. From there it will be brought overland to Marlin. On the train bringing it to Texas are the Senator; Congressman Luther Johnson of Corsicana; a longtime friend of the family, Edgar Witt, former lieutenant governor and now chairman of the United States-Mexico Claims Commission, and two of the Senator's secretaries. Ben Connally of Houston joined his father at St. Louis, as did Mr. and Mrs. F. M. Burkhead and Wal-

#### CAR OVERTURNS WHEN TREE HIT; KING IS INJURED

Chauffeur Is Hurt And May Not Live

KUSSNACHT, Switzerland, Aug. 29. (P)—Queen Astrid of Belgium was killed today when the automobile that her husband, King Leopold, was driving swerved off the highway and hit a tree. The Queen died within five minutes in the King's arms, with his lips on hers. The King was only slightly injured. The couple's chauffeur, riding in the rear seat, suffered broken legs and possible internal injuries. Physicians said that he might die. Afterward the King said, "I leaped over to look at a map which the Queen was holding—it could not have been more than a second—and when I looked again at the road the car was almost on top of the tree. The touring car swung out of the road, rammed the tree, then rolled into a shallow lake about eight feet from the road, throwing the occupants from the car. The Queen was thrown against the tree, fracturing her skull. The Queen was 29. King Leopold is 33.

#### KING CHRISTIAN TO ATTEND FUNERAL

COPENHAGEN, Aug. 29. (P)—King Christian is expected to go to Brussels for the funeral of Queen Astrid, his niece. The Queen was formerly princess Astrid of Sweden.

#### ROOSEVELT SIGNS FRAZIER-LEMKE MORATORIUM ACT

WASHINGTON, Aug. 29. (P)—President Roosevelt today signed the Frazier-Lemke three-year farm mortgage moratorium bill, designed to replace the law declared unconstitutional by the Supreme Court. The measure permits debt-burdened farmers to go into federal court, obtain moratoriums of as much as three years, and during that time their property, in effect, will be under court control.

#### MRS. PRESCOTT IN AIR DERBY LEAD

INDIANAPOLIS, Aug. 29. (P)—Mrs. Grace Prescott of San Diego, Calif., held her lead in the Ruth Chatterton transcontinental air derby as contestants landed their planes here late Wednesday. Relative positions of the other fliers who have covered 2,100 miles since the start from Los Angeles remained unchanged on the 220-mile hop from St. Louis here, although Shelly Sheely of Montana, Calif., made the fastest time. Miss Chatterton, acting as pathfinder, landed at Municipal airport at 5:15 p. m. (Central Standard time), and the other ships flew in a short time later. Warren Carey, general chairman of the derbyists as follows: Mrs. Prescott, 911.70; W. S. Woodson, Coronado, Calif., 894.44; Leland Hayward, Hollywood, 885.55; Cecil Hamilton, Los Angeles, 863.86; and Mrs. Sheely, 850.42. Earl Ricks of Hot Springs, Ark., was far behind, and his time was not checked. Hayward, former leader, lost the advantage today when engine trouble held him up at Springfield, Mo. The fliers took off today for Toledo, Ohio.

#### FLAPPER FANNY SAYS

A man is stony broke after buying an engine and ring.

#### Peneasco Cattle Are Shipped Here

Nine carloads of cows and calves were being unloaded by the Scharbauer Cattle Co. at Warfield today, shipped from their ranch at Peneasco, N. M., to be placed on pastures at Scharbauer No. 1, southwest of Midland. The cattle were moved from the Peneasco place because of increasing the herds of sheep there. The Scharbauers have 84 sections of that ranch fenced for sheep.

SURVEY SHOWS ROOM FOR IMPROVEMENT

Many a resident of a large midwestern city the other day undoubtedly read with a combination of doubt and shame some figures taken from a survey of the city made by the government with the aid of CWA and FERA work-relief people.

- The figures showed: THAT 8805 families in that city's metropolitan area are living in homes unfit for human beings to dwell in. THAT there are 29,258 families without tubs or shower baths. THAT 3867 families are without running water. THAT 5702 families still light their homes with kerosene lamps. THAT there are 14,108 families without the sanitary necessity of a private indoor toilet.

All this is no reflection on that city, which was Cleveland, Ohio. Official figures on conditions elsewhere show that there are many cities which do not stack up so well.

In fact, Cleveland is one of the better cities in regard to its general standard of living.

Of course there were also redeeming features, showing the efforts that are being made to advance the standard of living.

For instance, there are 88,151 wage-earners in the city who ride to work in automobiles. There are 57,201 families using electric refrigerators. There are 14,203 families with two or more automobiles.

It is not necessarily a black picture at all, for it shows clearly that many, many thousands of workers are living in a comfort that could scarcely be imagined by workers in any other country in the world.

Nevertheless, the inadequate standard available to even a small minority is a blot on any city and a danger. Surveys like this are the first step toward improving the conditions they expose. For unless we first get a clear picture of our shortcomings, it is hard to move toward better things.

Every city would do well to think about these statistics, for no city can afford to allow such conditions to exist without making a determined effort to better them.

Further, the potential domestic market for housing, plumbing, lighting, and similar improvements is clearly shown. It waits for the time when the people lacking those vital things get enough money to buy them.

Mussolini's intention to fly to Ethiopia and lead his men on to the attack must be an admission that his voice has weakened, or he could do it from Rome.

And don't think those new half-cent pieces won't come in handy as campaign contributions next year.

Scientists have discovered that cod liver oil is harmful to some animals. Your children might have told you this already.

If the United States gets into another war, a sure way for us to win it quick would be to call the other side strikers.

Before 20, says a former Spanish duke, European girls live secluded lives, and after 20 they're married. It's marvelous how Cupid gets in his work at times.

Ho, Hum!

HERLOCK 1935 NEA

Constitution Day Will Be Observed Tuesday, Sept. 17

NEW YORK, Aug. 28.—Plans for nationwide observance of Constitution Day on Tuesday, Sept. 17, are being pushed by patriotic, civic and social organizations throughout the country. A. B. Groux, chairman of the National Constitution Day Committee, central co-ordinating organization, announced today. More than 50 national organizations and their regional and local divisions are co-operating in the program of the committee.

Better understanding of the ideals of government which welded together the original thirteen colonies into a unified nation that in the short space of a century and a half has taken its place among the nations of the world, is certainly conducive to better citizenship," he said. "The philosophy of the American form of constitutional government, without parallel in any other nation in the world, is not difficult to understand, yet it is surprising how few persons have made an effort to become familiar with that distinctly American philosophy of government which has persisted while most of the other philosophies of government the world over have crumbled and fallen."

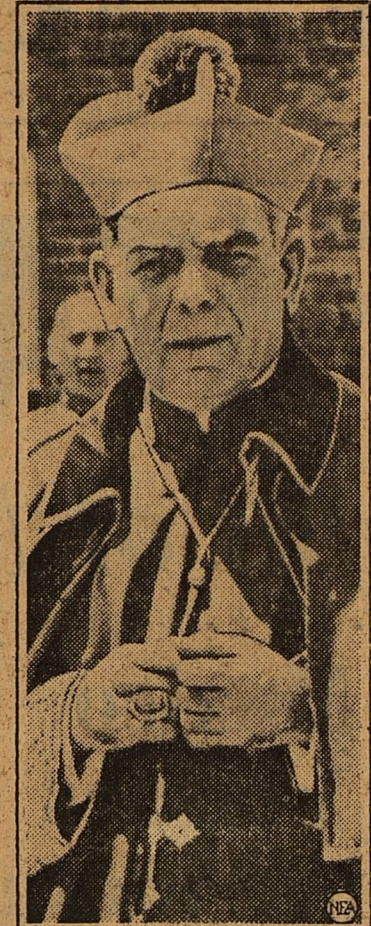

It is well that public attention has been focused on the Constitution and its underlying philosophy, for through open discussion will come a general crystallization of national ideals similar to that which took place in the new-born nation when the adoption of the Constitution was debated from end to end of the colonies that had just thrown off the shackles of tyranny and unjust taxation.

Let there be discussion, but let there be light. Any alteration in the form of constitutional government without thorough understanding by the general public of the motivating ideals might be disastrous to the nation. In a time of systems with small but powerful groups clamoring for change, it is doubly important that there be thorough understanding of fundamental constitutional principles. Our Constitution is not a contract to be put on or off at will, or remodeled on caprice—rather it is the soul and the life blood of the nation, and any change in it will affect in minute detail the life and affairs of every individual.

Last year the governors of many states and the mayors of hundreds of cities issued proclamations for the general observance of Constitution Day and Republic Day. This year, appropriate exercises were held in schools throughout the country in which several million children took part. Preliminary reports to the committee indicate that the school observance of the event will be even greater than last year. Some of the schools are planning pageants, debates, essay contests, flag raising exercises, etc.

The following organizations are participating in the program of the committee: American Bar Association, American Coalition, American Educational Association, American Legion, American Legion Auxiliary, American War Mothers, Citizens Committee of Lexington, Civitan International, The Crusaders, Dames of the Loyal Legion-Society of the State of Pennsylvania, Daughters of the American Revolution, Philadelphia Chapter, Daughters of Dependence, Mechanical Engineers, Descendants of the Continental Congress, Descendants of The Signers of the Declaration of Independence, General Society of Colonial Wars, General Society of Mayflower Descendants, General Society Sons of the Revolution, Junior Order, United American Mechanics, Civitan International, Knights of Columbus, Lions International, Military Order of Foreign Wars, Military Order of The Loyal Legion-Society of the State of Pennsylvania, Military Order of The World War, National Association of Manufacturers, National Society Daughters of the Revolution, National Society Daugh-

Noted Educator Bishop of Omaha

A leading figure in Roman Catholic educational circles for 25 years the Most Rev. James H. Ryan, Catholic University rector above has been named bishop of Omaha. Scholastic societies and foreign governments have honored the bishop on many occasions and he holds decorations from France, Italy and Yugoslavia. He is 49.

"Powder Puff" Pilot In 1937 Bendix Race For The First Time

CHICAGO.—For the first time in its history a powder puff pilot will compete in the Bendix Trophy Race, classic transcontinental aviation event of the year.

The young woman is Jacqueline Cochran of Los Angeles. An experienced pilot of many hundred hours of flying, many of them on speed jobs, and holder of a transport license, Miss Cochran will fly a Northrup Gamma from Los Angeles to Cleveland—and on to New York if she has time to break the present trans-continental record. The Northrup Gamma is a low-winged monoplane powered for speeds in excess of 250 miles an hour and sufficient gasoline capacity to permit the cross-country trip with only one or two landings.

Never before have women been permitted in the Bendix race, which

The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything).

And primal passions rage, They have a system sure and quick To cure the blight of age. For when a native's youth has fled And years have sapped his vim, They simply knock him in the head and put an end to him. But we in this enlightened age Are built of sterner stuff; And so we look with righteous rage Of deeds so harsh and rough, For when a man grows old and gray And weak and short of breath, We simply take his job away And let him starve to death. Big Sam and his bride were buying furniture for their new home. "Do you want twin beds?" the salesman asked the negro. "No," replied Big Sam. "Ah, thinks all we need is an ordinary bed. We'll let the Lawd and not you decide if it's to be twins."

is sponsored by Vincent Bendix, well known manufacturer of aviation and automotive equipment. The Bendix Trophy, which goes to the sponsor of the winner. In addition, the pilot who continues to New York after crossing the finish line in Cleveland and succeeds in breaking the transcontinental record will receive an additional \$2,500. The present record is held by Roscoe Turner, who crossed the continent last year in 10 hours, 2 minutes and 15 seconds. This amazing record was made on the day after Douglas Davis won the Bendix race from Los Angeles to Cleveland, but who hadn't made sufficient speed to make it wise for him to continue to New York. Turner received a special waiver to try for the cross-country prize a day later and set the record.

Here are the previous winners of the classic: 1931—Eastbound, James Doolittle, ship, Laird Super Solution, time to Cleveland, 9:10:21; transcontinental time, 11:16:00. 1932—Eastbound, James G. Haislip, ship, Wedell-Williams; time to Cleveland, 8:20:00; transcontinental time, 10:19:00. 1933—Westbound, Roscoe H. Turner, ship, Wedell-Williams; 11:30:00; transcontinental time, 11:30:00. 1934—Eastbound, Douglass Davis; ship, Wedell-Williams; time to Cleveland, 9:26:41. Roscoe H. Turner, (flew following Bendix Trophy Race with special waiver from Mr. Bendix and N.A.A.); ship, Wedell-Williams-Turner Special; transcontinental time, 10:45:51.

There are several new ships entered in the 1935 Bendix race besides that to be flown by Miss Cochran. One is a G-E Special job entered by Cecil Allen, a high powered little biplane that is said to be capable of 340 miles per hour on the straightaway at sea level. Another is a long distance ship named "Mr. Mulligan," entered and to be flown by Benny Howard, famous racing pilot. "Mr. Mulligan" is expected to make the cross-country hop without a single stop. James Worthen is expected to fly a Wedell-Williams job that cruises at 280 miles an hour. Turner will be in with new horses and new speed in his Wedell-Williams Turner Special. Howard Hughes, the movie millionaire who angled "Hell's Angels," has another entry, capable, it is said of 300 miles an hour. Other "dark Pegasus" are expected to be at the starting line on August 30 and everybody in aviation confidently expects the cross-country record to fall far below Turner's present mark of 10 hrs, 2 min., and 15 sec.

Suit to Enjoin Bees Filed

BOWLING GREEN, O. (U.P.)—Bees that enter houses and hover over yards and gardens are entirely too neighborly, nine of Henry E. Bond's neighbors in North Baltimore decided. So they went to court to have his 80 or 90 swarms enjoined.

Pictures proving that the South American vampire bat does not suck blood from its victim but laps it as it flows from the wound, are owned by Dr. Raymond Ditmars of the Bronx Zoo.

We Endorse as a field of safe investment The Midland Federal Savings & Loan Ass'n. It is a local community thrift and home financing institution. It is chartered and supervised by the Federal Government. Money invested in the institution is insured 100 cents on the dollar up to \$5,000, individually, by the Federal Savings and Loan Insurance Corporation. The United States Treasury invests \$3.00 in the local institution for every \$1.00 invested locally. Directors of the Midland Federal Savings & Loan Association are J. R. Martin, John P. Butler, D. Our Modern Homes

It seldom occurs to us that cheap Plumbing is high at any cost; we fail to see the point, for this trade is one that most people know little about, yet when sanitary engineers try to tell us what is best we feel that they just have something to sell, yet they have studied this profession as any one who has a profession in life and is the only man who can give you the complete health protection in your home from a sanitary standpoint. This man has to deal with very poisonous gases and these must be taken care of in the most perfect way; this man has to come in constant contact with the contaminated water and live germs that float along the systems and keep you from coming into contact with them. Thereby, he is laying himself liable in order that he may safeguard the lives of others. Yet this man as a rule is given credit for robbing the people and being a no-account so, there never was a greater mistake than this. The problem of combating the spread of germs today rests upon the shoulders of your family Physician and your Plumber. These men in their humble way try to safeguard your life and to make the world a more desirable place to live. Give these men the credit for the good they do and see to it that the Plumbing around and in your home is what it should be.

Consult your family Physician and Plumber today and keep a step ahead of the serious results from inferior Plumbing. When you want a Doctor you want the best—Your Plumber should be the best. "See that he is."

We carry State License and Cards, also City License and State Compliance Certificates. We hire only experienced men in all of our departments. Their experience has cost them plenty. "It costs you no more."

## Morning Coffee Held for Members Of Evangels Class

In observance of class day for this week, members of the Evangels Class of the Baptist Church were entertained with a morning coffee at the home of Mrs. W. D. Anderson, 101 Butler, this morning at 9 o'clock.

Two class groups, led by Mrs. Anderson and Mrs. Frank Lord, were hostesses.

During the service hour, Mrs. Joe Leonard presented piano selections. The coffee table was laid with a cloth of old Madeira and centered with a mirror reflecting a bowl of bright-hued zinnias. Mrs. Jimmy Day poured.

Mrs. Day's mother, Mrs. Johnson of San Angelo, was an out-of-town guest.

When all guests had been served, the identity of the "sunshine sisters" in the class was made known. Later, various games were played. Approximately 35 women were present.

## Mrs. Hubert Hoover Is Honoree at Shower Monday

Mrs. Hubert Hoover, who was Miss Phyllis Lowe, before her marriage recently, was honored with a miscellaneous shower at Cloverdale Monday evening.

Miss Ethel Robinson was hostess for the affair which took the form of a picnic and shower.

After refreshments had been served, Mrs. Hoover was presented with a blue and silver box heaped with gifts.

Present were: The honoree and Mr. Hoover, Misses Velma Winborne, Margaret White, Alice Richmond, Leah Rochelle of Dallas, La Vonya Boone, Rudy Lowe, and the hostess, Messrs. Eddie Flanery, Mike West of Dallas, Harvey Willingham, Junior Jones of Hollis, Okla., Valton Ponder, Jack Jones, Wallace Amick, Misses, and Messrs. Joe Fleming, Ollie Jones, Eddie Eubanks, Jimmie Hoover, Jene Roderick, E. A. Boch, Eddie Eldson, and Dorothy Jean Roderick.

300,000 MILES

SPRINGFIELD, Mo. (UP)—John Wesley, 96, Springfield physician, who traces his lineage to the original John Wesley, recently completed 300,000 miles in a Ford sedan which he has been driving six years.

**STEWARDESSES "STREAMLINED"**

New York. (UP)—Stewardesses on United Air Lines planes have to be "streamlined." Under a new rule, the company insists they must not weigh over 120 pounds, and be not over 5 feet 4 inches tall.

## Wool And Velvet

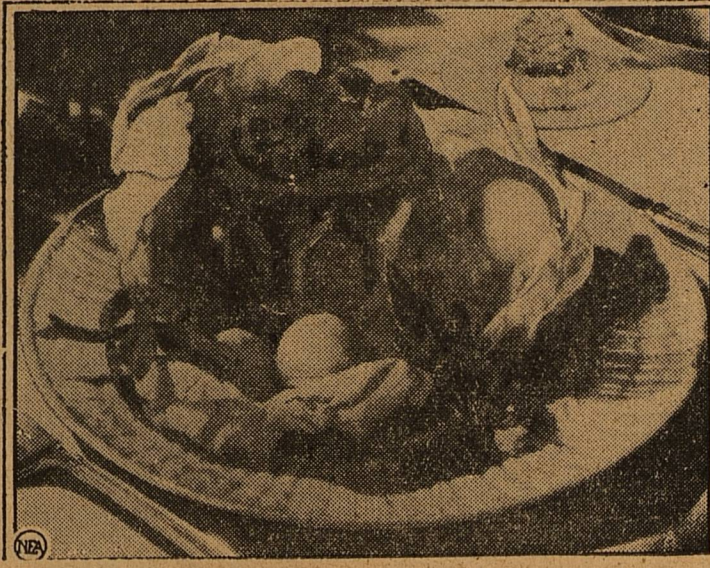

Black wool and velvet form this suit, by Marcel Rochas, with a cape-jacket having wide velvet revers in front and a velvet back.

The geographic center of Montana is in the kitchen sink of a doctor in Lewistown, according to Montana state surveyors.

Bee-keeping adds more wealth to the United States through flower pollination, than through the sale of honey and wax.

## Short Cuts Boon to Cook's Life During Sweltering Days of August

Minted honey dew is an unusual y attractive gelatin dessert or salad

By MARY E. DAGUE  
NEA Service Staff Writer

Don't be afraid to take short cuts in summer housekeeping. Anything that makes for pleasant living and cool working hours deserves a fair trial, at least.

A weekly schedule helps to keep the household machinery running smoothly in hot weather, but it should not be so iron-clad that it encourages clockwork. Major tasks, like laundry work and cleaning and canning must of course have special time provided. But baking, dishwashing and the innumerable odd-jobs that must be done every day should be taken care of at the most convenient times.

Speaking of dishwashing, it's seldom I do mine in the evening. They take only a few minutes longer with the breakfast dishes in the morning, so why not scrape them well when you clear the table, rinse everything under the hot water faucet, stack them and end the dinner work there?

**Serve Salads First**

For variety, switch your courses around and serve salad first instead of always between the main course and the desert. Certain types of salads make inviting beginnings for luncheons or dinners. First-course salads should be very cold. If you serve lobster salad as a first course, marinate the lobster first in French dressing and chill in the refrigerator. Also serve small portions.

Many spices make delightful first courses, using tomato juice, fruit juices or ginger ale as the basis of the jelly. In these jellies can be embedded any sea food, fruit, vegetable or highly seasoned appetizer. I make these quite small and perfectly molded and then serve them, cold and sparkling, on a bed of green with a piquant dressing. A chilled first course, a hot main course and a chilled dessert are an ideal combination for a summer dinner and easiest to prepare, too. Because chilled dishes are made in a stored in the refrigerator hours before you need them.

**Minted Honey Dew**

One package lime-flavored gelatin, 1 cup warm water, 1 tablespoon mint leaves, 1/2 cups finely chopped honey dew melon.

Dissolve gelatin in warm water. Add mint leaves and prepared melon. Let stand until cool and strain through a fine wire sieve. Turn into individual molds and chill. Unmold and serve on lettuce with a garnish of melon balls and frosted mint leaves. Pass mayonnaise in a separate sauce boat.

**Let Waffles Iron Out Your Dessert Problem Emergency**

By MARY E. DAGUE  
NEA Service Staff Writer

Do your friends just drop in about supper time Sundays? Ours do, and we enjoy them almost more than the ones we have days ahead because entertaining them is delightful informal, even to having them stay for supper.

If we have cake in the house, well and good. If not, we serve ice cream on hot waffles and nobody misses or wants the cake, of course.

These waffles I make differently than for breakfast.

**Dessert Waffles**

Two and one-half cups cake flour, 2 1/2 teaspoons baking powder, 1 teaspoon sugar, 2 eggs, 1 1/2 cups milk, 2-3 cup melted butter.

Beat whites and yolks of eggs separately. Beat yolks until thick and lemon colored. Sift flour once and measure. Mix and sift flour, salt and baking powder. Add beaten egg yolks, milk and melted butter and stir until smooth. Fold in whites of eggs beaten until stiff and dry on a platter with a wire whisk. Bake in a hot waffle iron. Serve with a mound of ice cream and sweetened fruit or other sauce.

Fresh peach sauce is good. To make it, allow one peach for each person to be served. Peel and cut in thin slices, dropping in sugar as you slice them. This prevents them from discoloring too rapidly. Be sure each slice is well coated with sugar. Cover and let stand half an hour. They will be deliciously syrupy when you want to serve them.

Berries always make a nice sauce, too. Crush them in sugar, and let stand fifteen or twenty minutes before serving.

Jellied meat salads keep well, so I often make one for possible weekend emergencies. Jellied ham salad is one of our favorites.

**Jellied Ham Salad**

Two cups finely chopped cold boiled ham, 1 1/2 tablespoons granulated gelatin, 4 chicken bouillon cubes, 3 cups boiling water, 1 tea-

## Weight Reducer Is Cause of Blindness

WASHINGTON.—Blindness from the use of dinitrophenol for reducing weight has not stopped the use of the drug in spite of repeated warning, says W. G. Campbell, Chief of the Federal Food and Drug Administration.

The eye cataracts observed in dinitrophenol poisoning develop with a rapidity and malignancy hitherto unknown, and result in total blindness within a comparatively short time. This drug may produce acute poisoning, the symptoms of which are nausea, stomach and intestinal distress, sweating, flushed skin, high fever, rapid breathing and muscular rigor, followed by death. The drug also damages the liver, kidneys, heart and sensory nerves. It produces agranulocytosis, a blood disorder also noted in cases of poisoning with antipyrene, a common ingredient of medicine for the relief of pain.

The Food and Drug Act, according to Mr. Campbell, is practically inoperative against this public hazard.

## Weight Reducer Is Cause of Blindness

ard. He says, "The only application of the law to these products is through some misstatement of fact or some false or fraudulent curative claim in the labeling. In any event, the law can be invoked only when the product has been transported across a State line."

"There is little doubt," continued Mr. Campbell, "that the cases of progressive blindness recently reported in California are the result of medication with dinitrophenol. It is to be regretted that the present Federal law is silent with respect to the control of dangerous drugs."

Of all the products containing dinitrophenol now on the market, only one has been confiscated under the Food and Drug Act, the Administration reports. That was "Slim," against which legal action was brought because of a label claim that it was "safe to use," whereas medical opinion is unanimous to the contrary. This proceeding was approved by Mr. Campbell, who states that in the absence of affirmative control over dangerous drugs, and to achieve one of the essential objects of the Food and Drug Act—the protection of public health—it is the purpose of the Administration to take advantage of any available legal technicality in proceeding against all products containing dinitrophenol. This, he points out, is contrary to the usual practice of the Administration in enforcing the Food and Drug Act.

Dinitrophenol is sold under many fanciful names, sometimes accompanied by statement of the presence of the drug itself. Some of the names under which it has been or is now being sold are reported by the Food and Drug Administration as follows: Nitromet, Dinitroloc, Nitra-Phen, Dinitriso, Formula 281, Dinitroso, Nox-Ben-Oil, Re Du, Al-dinol, Dinitral, Prescription No. 17, Slim, Dinitrole, Tabolin and Redulous.

"It is interesting to note," said Mr. Campbell, "that all the so-called 'diet' preparations on the market fall into three categories: first, laxatives that deny the body the benefit of its food intake, as the salts, crystals, and herb teas; second, obvious frauds that depend for effect upon the stringent diets prescribed as part of the 'treatment,' as 'Syl-Vette' and 'Stardom's Hollywood Diet'; and third, the unquestionably effective but dangerous articles containing thyroid or dinitrophenol, both of which act by speeding up the utilization of food. All of these are unwarranted impositions upon the public, which cannot evaluate claims made for the preparations, and cannot readily appreciate the harm that may result from careless use of the products."

## Petition

By Helen Welshimer

THE other time I broke my heart  
The mask I chose was gay.  
I wore it up and down the street  
The night love rode away.

BUT oh, my dear, a stronger warp  
Must fashion this disguise,  
Though all my threads are broken threads—  
Oh you, who are so wise,

WHO took away my little peace,  
My joy, my heart, my tears,  
Oh, won't you help me make a mask  
To brave the frightened years?

## FEMINE FANCIES

BY KATHLEEN EILAND

Haven't we remarked before on "city" ways in Midland? When we walked into a recently enlarged store yesterday and saw the candy counter equipped with mirrors and everything, we felt momentarily that we were in some of the big towns of the state, Fort Worth or Dallas, maybe, or Austin anyway. The entire store is much lighter and more attractive, and gives a feeling of greater spaciousness.

We have never seen so many inducements to cleanliness as are displayed this year. From the number and variety of soaps with colored comic pictures, soaps molded in the form of comic characters, or even the staid old duck (maybe it's a goose) in her sunbonnet, bath balls and such-like temptations to shiniest, we wonder if small boys aren't going to capitulate and submit to washing behind their ears without a murmur.

The ornate saddle that is to be awarded the girl who wins the sponsors' contest at the Midland Fair is a prize worth winning in our opinion.

Along with the many other things we've always wanted to be and have never been, is the wish to be a good rider. Not just a "riding school" rider but a good, plain cowboy rider who is not concerned specially with how the reins are held but rides with the grace of one born to the saddle. Cowboy riding is our idea of real riding.

If we were a real rider and IF we were a sponsor, we'd make a desperate effort to win this particular saddle.

Complete with carving, glittering conchas, and a white leather seat, it would be a source of pride to any girl who has the love of horses in her blood.

Those who criticize womankind should rejoice that many of them

## INSECTS IN HOUSE AND GARDEN

These August days are still deceptively hot. Here's a dessert that sounds appealing.

The fresh fruit plate for hot days is a feature of a number of metropolitan restaurants. To make it, arrange sections of orange or grapefruit, melon balls, wedges of fresh pineapple, berries of any kind and sliced peaches on a plate. Put a mound of powdered sugar in the center of the plate. Another fruit plate combination is prunes, apricots, dates and raisins with a handful of nuts.

# 80,000 EXPECTED TO SEE ALL-STARS AND BEARS PLAY TONIGHT

## COLLEGE MEN ARE READY FOR SECOND SHOT AT PRO TEAM

CHICAGO, Aug. 29. (AP)—The big bad Bears are going on a prowling rampage tonight. The Chicago Bears will battle a team of college all-stars, the pick of the nation at Soldier Field in what is certain to be a stirring football conflict. A crowd of 80,000 to 85,000 will tax the seating capacity to view the game.

The Bears, ready after 17 days of earnest preparation, are determined to wipe out the stigma of last year's scoreless tie.

The coaches predict a wide open battle.

Frank Thomas of Alabama, all-star coach, expressed gratification over the Bears' victory last week, bearing down in practice. He said they appeared confident they would win and "I believe they will do it."

"If I knew what defense the all-stars are going to use against our man in motion plays, and whether our line will out-charge the college boys I could give you the result of the game," said George Halas, owner-head coach of the Bears.

"We can win if our line charges them off the field. We've got to get a running game started. Forward passing won't do it alone."

The players' only concern was the starting lineup. Every member of the squad was anxious for a first crack at the collegians.

With almost every standout college star of 1934 available, Coach Thomas of the all-stars intends to shoot with what he believes to be his strongest combination. The backfield probably will be composed of Miller Munias of Pittsboro, a smart field general, excellent kicker and blocker; William Sheppard of Western Maryland, the nation's leading scorer last year; and Al Nichellini of St. Mary's as half-backs; and Stao Kotska Minnesota's besting ram at fullback.

Francis "Pug" Land of Minnesota and the touch-down twins of Purdue, Duane Purvis and Jimmy Carter, "Cotton" Warburton of Southern California, "Buz" Borjes of the Navy, George Melnikovich of Notre Dame and Bohn Hilliard of Texas, are other smashing ball-carriers ready to go into the game.

New rent books are: "Cornish of Scotland Yard" by G. W. Cornish; "In October (1933) Superintendent Cornish of Scotland Yard retired after nearly forty years' service. Since then he has been writing his memoirs, an able result is a book which must be unique among 'crime' books, for few detectives have handled such a succession of famous cases."  
"The Crystal Tree" by Louise Hancock: "Quail Ashby, a young business secretary, hunting new quarters, finds a delightful home and

## Air Current Vagaries Handicap to Quests

SAN ANTONIO, (AP)—Vagaries of upper air currents over southwest Texas and an unforeseen weakness in the balloons have handicapped stratosphere quests for cosmic ray data dispatched from Fort San Houston by Dr. Robert A. Millikan, renowned scientist from California Institute of Technology, his associate, Dr. H. Victor Neher, believes.

Leads that caused them to drop back to the earth before they had more than touched the lower regions of the stratosphere resulted in two of the balloons falling in wooded areas near San Antonio. Contrary to the expectations of Dr. Millikan—three others that ascended higher failed to reach westerly winds that were expected to cause them to drift eastward and descend over the more thickly populated areas in central Texas.

New 14 day books are: "The Tapestry Book" by Helen Churchill Candee: This book traces the complete history of tapestry from the modest beginnings in classic times through the glorious period of the Renaissance down to our own times.

"Early American Inns and Taverns" by Elise Lathrop: From every state in the Union, the author has gathered the romance and historic story of more than thirteen hundred American Inns and Taverns.  
"The Old Furniture Book," with a sketch of Past Days and Ways" by N. Hudson Moore: the contents give the key to this volume: "Old oak, old leather, Turkey work, etc.; Dutch furniture; Chippendale, Adams, Sheraton, Empire; Colonial and later periods; French Furniture; Musical Instruments; Clocks; Handles, Feet, Stuffs, etc."

## FOOTBALL PRACTICE STARTED THIS WEEK WITH 32 OUT FOR THE TEAM

Football practice started Monday for 32 would be members of the Midland High School Bulldogs this season.

Only five lettermen are returning to the squad this season but with eight squadmen and 19 other men reporting for their first time Coach Baumgarten has served warning to opposing teams that he will have one of the best teams that the local school has boasted in a long time.

The starting team for the first game of the season, which will be held here September 20 with Colorado, will average better than 160 pounds in the line while the backfield will come close to a 160 pound average. Collins, 130 pounds, brings the backfield average down in weight but not in ability as he is every pound a real football player.

The team this year will be built around Sam Midkiff, all-district back last season and Renfro Richman, all-district center in 1934. Besides these two Prothro and Adams, regular tackles and Collins in the backfield are holdovers from last season.

Squadmen who did not letter last year and who are back this year are: Reed, Bryant, Wright, Thomas, Lamar, Chandler and Wafford. "Those reporting for the first time

are: Cowden, Dorsey, Barber, Buffington, Hollingsworth, Lawson, Graham, Taylor, Reity, Lige Midkiff, Wimberley, English, Parker, Cowan, Rhoden, Ruple, Roundtree, McQuarters, Willis, Pace, Woods, Cook, Fuller and Vick.

The first practices have been composed of shifting, calisthenics, passing and kicking, handling of the ball, tackling and blocking, defense and offense, charging, running and timing of the ball and falling on the ball.

Two practices a day are held all this week, one session from 10 to 11 in the morning being devoted to skull practice and the afternoon practice from three to five, to drills on the field.

After this week two sessions will be held on the field daily until school starts. Starting next week the men will be divided into teams and a scrimmage will be held nearly every day.

## 82 Year Old Man Will Complete Education

JASPER, Texas, Aug. 29. (AP)— Columbus Bilbo, 82 year old Jasper County pioneer, has decided to complete his education which was interrupted 70 years ago when he had to go to work to help support the family.

Mr. Bilbo who lives at Buia has enrolled in the FERA adult educational classes and is considered an outstanding student by Mrs. W. D. McMillan, the teacher. His principal studies are reading and spelling.

Mr. Bilbo, who claims to be a third cousin of Senator Bilbo of Mississippi, says that unlike college students who go to school half their lives and spend the other half trying to find suitable jobs, he started work early, worked his allotted three score and ten years and now finding himself with good health and lots of time on his hands, intends to enjoy the remainder of his days in recreational education.

## SMITH'S MARKS 50TH YEAR

COLONY, Kan. (AP)—Progress has not driven Charles Whitacre, 69, blacksmith, out of business. He celebrated his 50th year in the shop, estimating he had shod more than 10,000 horses in that time.

## HAIL DEFLATES BOAST

MOOREHEAD, Minn. (AP)—Just as Axel Elenstrom, farmer, was telling Dr. Victor E. Verne, in Lone Beach, Cal., what wonderful corn he was going to have this year, a hailstorm destroyed his corn crop in 20 minutes.

Ethiopian version: "I'll Get the Blues When It Stops Raining."

## Flubbubs

BY JESS RODGERS

In case any of you look over the paper today you will probably see a story on football practice starting here last Monday. In case you would like to know why the story was not written sooner—Dutch Baumgarten is harder to catch than a fugitive from justice.

It is no trouble to get him to talk once you catch up with him but he sure is H-to catch.

Dutch says that he should have one of the best teams that the school here has boasted in several years, as he has weight, speed and ability among the members reporting, and that if he does not have an A-1 team it will be the fault of the men. He has never gotten over the Midland team getting on the field with the Peos 11 last year with such a case of swell head after defeating Wink the previous week that they were pushovers for the visitors.

There is none of the old time "xcmfwp" (blankety-blank) you do it this way" about his system. He not only tells the men how he wants things done but gets down and shows them. At times he whispers to the boys in a confidential tone of voice that cannot be heard more than a few feet away, laughs with them and jokes with them, but when he gives an order he leaves no doubt with anyone that he intends it to be carried out.

Here is hoping that Professor Lackey will not object overly much if we tell you that the football season will open for the Bulldogs here September 20 with Colorado furnishing the opposition. We do not want Professor to get angry because we are trying to use our womanly wiles on him and get him to build a press box.

It is hard enough to write up a football game without having to knock someone out of the way on every play. It is doubly tough when you only weigh 135, wringing wet, stands without a press box like a man without eggs, Huey Long without a bodyguard, or a woman not eating—it's unimagable.

## SOFTBALL SHORTS

The season cannot end any too soon as far as we are concerned. It has been a distinct failure this season and will not ever get started next season unless the managers agree to vigorous reorganization policy and stick to it.

There is finally a little hard feeling developing between some of the clubs. Maybe it will cause the play-off to be worth watching.

For one thing we are thankful.

## The clubs cannot pick up players from other teams during the play-off. At least that is a league rule.

Thanks; R. O. Smith, manager of the Western Union here, for a football schedule of 155 colleges throughout the country. Anyone desiring any information about date or whereabouts of games being played this fall just ask us—with the aid of that schedule we can darn near tell you.

## Just Flubbing

E. B. Estes and Roy Richter, members of the baseball teams here for the past several seasons, have decided they are tired of seeing "country ball" and heading for the east to see some real ball clubs play. They are planning on seeing the Giants, Cardinals, and Cubs in action in the next two weeks. Maybe some of the big league left-handed batters will convince E. B. that a left hand pitcher can be hit.

Henry McLemore, United Press sports writer, says that if Jack Doyle were not a stumble-bum he would not be fighting a push-over like Buddy Baer and vice-versa. Branch Rickey is undoubtedly a smart baseball man but we think he is over-confident in starting the sale of World Series tickets now. We still like the Giants.

The American League would have an interesting first place race this season if it were not for Detroit. The Yanks have shot their bolt and it is only a toss-up as to whether Cleveland, Boston, Chicago or the Yanks will end up in the runner-up position.

## 15 Minutes All That Was Needed To Find Owner of Package

EL CAMPO, Texas, Aug. 29. (AP)—The El Campo post office delivered recently an addressed package within fifteen minutes of its arrival. The only clue to the ownership was a snapshot enclosed with a letter that accompanied the package. The letter stated that the package of wearing apparel belonged to some woman of El Campo and the writer hoped the picture would be recognized.

The clothing was lost in an automobile accident Aug. 19 and found by Mrs. A. L. Kendrick of Yorktown who learned that the people in the automobile were from El Campo. No one in the post office knew of the accident but one clerk thought he recognized the picture and communicated with the mother of the young woman who identified both the picture and the clothing and the package was delivered without delay.

# HOW'S THIS FOR MILEAGE!

## COME IN AND SEE THIS FOOTPRINT EVIDENCE

These tread imprints are typical of scores we've taken from "G-3's" on local cars—after delivering record mileages. Note the sharp non-skid still remaining—proof that there is still thousands of miles of safety left in these treads.

Don't take chances on that Labor Day trip—put on new Goodyear "G-3" All-Weatherers. We can show you footprint records of "G-3's" driven right here in town that prove this famous tire will give you

### 43% LONGER NON-SKID MILEAGE—AT NO EXTRA COST!

Don't buy tires until you see how MUCH MORE VALUE—how MUCH MORE SAFETY—the world's largest tire manufacturer offers you at prices as low as any.

## ASK CCC EXTENSION

HEREFORD, (P)—An extension of time will be asked for the CCC workers at Hereford's State Park so that projects now under way may be completed. D. E. Colp, chairman of the State Parks Board, announces. The company is scheduled to move October 1. The community center building, locker rooms and bath house have not been finished. Colp said he would urge an extension from 60 to 90 days. Colp instructed the park architect to prepare plans for a concrete swimming pool and suggested that it be completed as a WPA project.

## BORGER, (P)—A two-day horse and wild west show is scheduled here Sept. 28-29 under auspices of the Borger Junior Chamber of Commerce.

Horses are expected from Amarillo, Lubbock, Pampa, Perryton and from points in Oklahoma. Special classes will be arranged for gaited horses, jumpers, and horses owned by high school students. The show will be the first of its kind held in Borger.

### LET KIDNEYS FLUSH OUT 3 LBS. A DAY

**Clean Out 15 Miles of Kidney Tubes**  
Nature put over 15 miles of tiny tubes and filters in your kidneys to strain the waste matter out of the blood. Kidneys should pass 3 pints a day and so get rid of more than 3 pounds of waste matter.

When the passing of water is scanty, with smarting and burning, the 15 miles of kidney tubes may need flushing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes and dizziness.

If kidneys don't empty 3 pints a day and so get rid of more than 3 pounds of waste matter, your body may take up some of these poisons causing serious trouble. Don't wait! Ask your druggist for Doan's Pills, which have been used successfully by millions of people for over 40 years. They give happy relief and help the kidneys to flush out 3 pounds a day. Insist on Doan's Pills.

There are more than 5270 moving picture theatres in Germany.

### Brent and Francis in New Picture at Yucca

The most dramatic, and the greatest in heart interest of all the Warner Bros. service stories, "Stranded," will show Friday and Saturday at the Yucca Theatre, with Kay Francis and George Brent in the leading roles.

"Stranded" is stark drama, although there is comedy relief here and there, just as there is humor in every walk of life.

It centers about the life of a worker of the Travelers Aid, who thinks only in terms of humanity. She is in love with a hard boiled engineer who is building the largest bridge in the world, and who considers human beings only as cogs in an industrial machine.

Kay Francis in the role of the Travelers Aid worker gives one of her greatest screen characterizations. George Brent is excellent as the unyielding engineer. He seems to live the role and some of the scenes give him the best chance of his screen career.

Patricia Ellis is wonderful as the villainess of the production. This is her first experience as a film menace, and definitely lifts her out of ingenue roles.

During the Boer War, bullets used in the defense of Kimberley were stamped with the words: "With C. J. Rhodes' compliments."

### "Rock Wool" Found In Brown County

ROCKWOOD, Texas, Aug. 29. (P) — A report upon undeveloped resources of Brown County by Charles Lawrence Baker, geologist of the bureau of economic geology of the University of Texas, admitted recently to the Brownwood Chamber of Commerce, pointed to this county as a potential source of "rock wool."

This product, Baker said, "is really a finely spun glass produced from silica mixed with some fluxing substance. The source of the silica in Brown County is mainly in sand and limestone. The main fluxing material at present is limestone although chemicals from underground water may ultimately be available, particularly soda ash (sodium sulphate). There are some sandy limestone and limy sandstones in Brown County which may possibly be suitable for mineral wool without the addition of other ingredients or by mixing of two of them in proper proportion."

Santa Anna, Coleman County, sand and Brown County limestone ought to be a good combination, the geologist said.

"It seems," Baker continued, "that no better insulating material at anywhere near the price has yet been developed. It is fireproof, verminproof and lasting which most other insulators, except the costly type, are not. A thin layer placed

### PERSONALS

Anne Lloyd, daughter of Russell Lloyd, geologist with the Superior Oil Company, is on her way home after spending the summer in the East. She has recently been visiting her aunt, Mrs. Minter Lloyd, and a cousin, Mrs. L. H. Carper, at Braxton, W. Va.

Leo Hendricks of the Sinclair Prairie Oil Company plans to leave tonight for Fort Worth and other places in that section of the state where he will spend his vacation. He will be gone more than two weeks.

Mrs. R. M. Barron and children, Marjorie and Dorothy, and Miss Lucille Storey of Dallas, left this morning for Lubbock. Charles Barron will spend the weekend at Clovis.

Mrs. E. H. Barron, A. O. Thomas, J. H. Goodman and T. Paul Barron left this morning for a weekend trip to Lubbock. Charles Barron will spend the weekend at Clovis.

P. O. Sill went to San Angelo to above the ceiling of a wooden shack will save its cost in fuel in a single winter.

At present the mineral wool available in Texas comes from Ohio, Indiana or Missouri, Baker said.

day. He was accompanied by Maxine Sill and Miss Read Thomas who will visit there for the weekend.

Dorothy Cummings has gone to San Antonio for a visit.

Mrs. J. B. Neal and children are leaving today for Winters to spend the weekend with her parents.

### by Harry GRAYSON

CLEVELAND — Directors of the Cleveland Baseball Company seek a playing manager for 1936.

They could do worse than try Anthony Michael Lazzari, of the New York Yankees.

Lazzari has all the qualifications of a capable field marshal, aspires to the post, and Col. Jacob Ruppert, having signed Joe McCarthy for two more campaigns, hardly would stand in the Italian's way.

Bucky Harris convinced Clark Griffith that a scrappy playing manager was the thing by taking the Washington club to its first pennants in 1924 and 1925. Harris' return to Washington this season as a bench boss might have been mandatory in the \$25,000 deal that switched Joe Cronin's activities from the Capital to Boston.

Anyway, there now is talk of Griffith returning to the player-manager plan next spring, with Buddy Myer the nominee.

Myer and Lazzari would be welcome additions to the ranks of pilots. They are the aggressive type. Like Mickey Cochrane, Frankie Frisch, Joe Cronin, Jimmy Dykes, and Jimmy Wilson.

shoulders. The outfits that charge next hardest in the American League are Boston and Chicago, directed by Cronin and Dykes, who never give up.

One of the biggest faults of the Yankees, led by the complacent Joe McCarthy, is that they lose too gracefully. This as much as the loss of Frank Chosetti seems likely to again cost them the flag.

The Cardinals are the most aggressive set of players in the game, which is chiefly to the credit of the ultra-aggressive Frisch.

Lazzari and Myer might fall as managers. Star players frequently do. Managing a major league club is not a soft assignment.

Lazzari and Myer were schooled under highly intelligent baseball men in the late Miller Huggins and Griffith, however, and one thing is certain. They'd never be fired for not trying.

NAVY PLANES HERE

Two navy fighter land planes made landings at the Midland Airport today, led by Pilot Wilcox.

SHOWERS EAST AND WEST

Bus drivers arriving here this morning reported that light showers had fallen all the way to Abilene on the east and to Pecos on the west. A light drizzle fell at Midland early this morning.

Shrimp Industry Thrives

MOBILE, Ala. (U.P.)—Two thousand barrels of shrimp—the largest catch recorded so early in the season—were brought into Bayou la Batre during the first week of the shrimping season. One boat reported a catch of 300 barrels on one trip.

### Hayner Reappointed To Banking Position

WASHINGTON.—Reappointment of F. M. Hayner, of Las Cruces, New Mexico, as a director of the Central Bank of Cooperatives was announced today by W. I. Myers, Governor of the Farm Credit Administration. Hayner has served in this position since the organization of the Central Bank in September 1933. His present term expires September 11 and his reappointment is for three years from that date.

In a recent election by the cooperative associations that are borrowers of the Central Bank, Hayner received a majority of the votes. Hayner is a director of the Southwestern Irrigated Cotton Growers Association of El Paso, Texas. He is well known throughout the cotton producing areas and is a prominent leader in the cooperative marketing of cotton.

Installation Buying Gains

CLEVELAND. (U.P.)—Business in Cleveland and Cuyahoga County—if installation plan buying is an indication—is on the upgrade. Merchants report a marked increase in buying on the deferred payment plan, which hitherto always has been a sure barometer.

Sometimes it seems that only a sensational murder trial can bring tourists to a city.
