

ROOSEVELT SAYS U. S. NEUTRAL

Rogers and Kelly Released on Bond In Girl's Death

\$2500 BAIL MADE BY MEN BEING IN JAIL OVERNIGHT

Fingerprints on Gun May Give Clues To Death

WESTCHESTER, Pa., Sept. 13. (AP)—Henry H. Rogers, Jr., and William Kelly, arrested in connection with the fatal shooting of the torch-singing Evelyn Troy, were released under \$2,500 bond each today.

Rogers moaned in his cell as the law debated whether to charge him with the murder. "Give me a gun and I will kill myself, too," he cried when officers found the body of the girl in the bedroom of his farm home near here. Today he is near hysteria.

Fingerprints on the pistol may give an answer to how the girl died. Several officers are maintaining the suicide theory.

HOWARD HUGHES AND LAURA INGALLS IN SPEED RECORDS

Air speed records were toppled last night in two important divisions.

The land plane speed mark fell when Howard Hughes, former Texan movie magnate and oil well supply man, flew his \$120,000 mystery ship at the rate of 352 miles per hour in California. The old mark, 314 miles was set by a Frenchman, Raymond Denelle.

Laura Ingalls bettered by many hours Amelia Earhart's record of 17 hours, 7 minutes and 30 seconds for a woman's cross country hop when she landed in New York, just 13 hours, 34 minutes and five seconds after leaving Los Angeles.

HUGHES SETS MARK IN \$120,000 PLANE

SANTA ANA, Calif., Sept. 13. (AP)—Howard Hughes, wealthy oil man and film producer, was credited with an unofficial world's speed record for land planes of 352 miles per hour Thursday after he made four attempts to establish a new mark over a special course at the Irvine ranch near here.

The official land plane speed record of 314 miles per hour is held by a French flier, Raymond Denelle.

Announcement of the unofficial record was made by William R. Euyart of the department of commerce, Washington, who also is an official of the contest board of the N. A. A.

Hughes flew a ship specially built at a cost of \$120,000.

INGALLS' TIME FAR UNDER AMELIA EARHART'S

NEW YORK, Sept. 13. (AP)—Laura Ingalls, diminutive woman flier, landed at Floyd Bennett airport here last night at 11:34 (eastern daylight time) beating by a big margin the West-East transcontinental flight mark previously held by Amelia Earhart for women fliers.

Miss Ingalls' official time was announced as 13 hours, 34 minutes, 5 seconds, far under the 17 hour, 7 minutes and 3 second mark set by Miss Earhart.

The flight was figured to the time her ship appeared over the field, at 10:18:05 (eastern standard time). She left Los Angeles at 8:44 a. m. (eastern standard time) this morning and was unreported from the time she passed over Albuquerque, N. M., until her black monoplane flashed over Floyd Bennett field tonight.

She landed less than 16 minutes later, not immediately explaining why she did not come down sooner.

Miss Earhart set her record July 7, 1933.

Miss Ingalls made several unsuccessful efforts earlier in the year to beat the mark.

MINSTER TO SONORA

Rev. K. C. Minter of the First Methodist church left Thursday for Sonora where he will conduct a revival meeting. He will be gone 10 days.

OLD TIMERS' ADDRESSES WANTED

Please watch this column each day, fill in the names and addresses of all former Midland citizens you know, and deliver or mail them to the Chamber of Commerce. Invitations will be mailed them to attend the Old Timers' Reunion during the MIDLAND FAIR, October 19-23.

Midland Citizens Attending Big Spring Rodeo Bring Reports Of First Class Show, Attendance

Cult Head Defends Polygamy, but Denies Practice

Midland citizens attending the Cowboy Reunion at Big Spring Thursday afternoon and evening brought back reports of a first class show and of a good attendance.

Several of them said they freely recommended that others from Midland see the rodeos this afternoon and night, as well as Saturday. The afternoon shows open at 2 o'clock and the night at 8.

Brahma calves were so fast that many of the ropers were unable to reach them with their fast mounts before the calves turned back at the opposite end of the arena.

Particular praise was voiced by Midland fans for the skillful work of an 11-year-old calf roper, Debert Lee Reynolds, who on his fast Shetland roped and tied a small calf in slightly over 20 seconds.

A crowd estimated at 3,000 saw the rodeo start Thursday afternoon in the new \$10,000 plant recently installed. Times were slow for calf roping, since large Brahma calves were used but Jack Skipworth, Fort Sumner, took first place with 21.3. Ruel Stoker, Breckenridge, first with 14 flat in calf roping. Brown Todd, Water Valley, first in wild cow milking with 22 4/5 time. Vic Schwarz, Byers, was adjudged best steer rider for the afternoon and A. C. Wike, San Angelo, best bronco buster. J. Ellison Carroll, Big Lake; Noble Reed, Big Spring; Ory Spires, San Angelo and Jess Slaughter, Big Spring, are judges.

Well over 100 riders participated in the colorful grand entry. Delbert Lee Reynolds, 11-year-old Calumet lad, caught his calf in record time but was too small to throw him. John Lindsey, Byers, clomp kept the crowd to pony business in the south and his trained mule, "Hoover," so called because he "won't do a thing." The rodeo continues through Saturday with two daily performances.

La. to Ask for Federal Aid

WPA IS PLACED IN HANDS OF HOPKINS FOR NEXT 6 WEEKS

HYDE PARK, Sept. 13. (AP)—President Roosevelt today gave orders for the Works Progress Administration under Harry Hopkins to take over the works relief drive until a permanent public works program under Secretary Ickes has reached time.

The president said that the program was provided for six weeks with \$5,000,000 additional for direct relief. He added that the bulk of the \$1,250,000,000 to be spent in the next four months would go for temporary jobs, although consideration would be given to permanent projects.

He announced a policy of establishing a permanent civilian conservation with a reduced enrollment. For rural rehabilitation and housing he said that it was expected that corporate entities would be formed to provide for the repayment to the government of homes that will be built by the government.

Discontent of Long Followers Is Plain

BATON ROUGE, Sept. 13. (AP)—Leaderless lieutenants of Huey Long today were ready to part with the National Administration to smooth the troubled waters left by the dictator's death.

Many rumblings of discontent were heard among those close to Long and divergent interests and ambitions have created an impression that confusion is rife in the Long ranks. Foes seized the opportunity to begin their attack.

"Long is dead but Longism still lives," said Mrs. Hilda Hammond, chairman of the women's committee in Louisiana. She blamed the United States Senate for not investigating Long's rule. The committee has sought to have Senator John Overton unseated on the claim that he was elected through fraud inspired by the Long machine.

Governor Allen, titular head of the Long organization, declared that "Murder cannot annihilate principles."

PTA Asks Observe Traffic Regulation

The North Ward Parent-Teachers Association is making a plea for the observance of traffic rules which will insure the safety of the children who attend the school.

"At dismissal time," PTA officers said, "cars are being parked from one curb to the other and at all angles, making it hazardous for the children to go into the street as they must necessarily do. In case of fire, it would be impossible for the fire trucks to reach the fire plugs."

"It is requested that the car owners cooperate with the PTA by observing head-in parking at all times, thus insuring the life of their own children as well as the lives of others."

SENATOR McADOO TO MARRY AGAIN

SAN DIEGO, Sept. 13. (AP)—Senator William Gibbs McAdoo and Miss Doris Cross, 26, daughter of Mrs. Nellie Cross of San Diego, will be married tomorrow afternoon at the home of the Senator's daughter in Washington, Mrs. Cross said today.

The engagement was announced from the Senator's office in Washington. His associates said that he had been seen but seldom with Miss Cross, a public health nurse.

McAdoo has been married twice. His second wife, now divorced, was Eleanor Wilson, daughter of President Woodrow Wilson.

Nelson Accepts Job As State Prison Head

HOUSTON, Sept. 13. (AP)—Dave Nelson, Orange, informed W. A. Padlock, chairman of the Texas Prison Board, today that he would accept the management of the prison system.

Presbyterian Club Will Reorganize

An attendance of about 40 men is expected at the chicken dinner for the Fellowship club of the Presbyterian church which will be held in the church this evening at 7:30 o'clock.

A program of readings and songs will be presented and reorganization of the club will be effected.

Women of the church will serve the dinner.

First Lady Starts Slum Razing

Heralding the day when little Geraldine Walker and thousands of other Detroit Negro children will live in better homes, Mrs. Franklin D. Roosevelt here received a flower from her year-old admirer, on the First Lady's visit to the Michigan metropolis to inaugurate the \$6,000,000 slum clearance project. Mrs. Roosevelt's appearance was her first after a summer long absence from the public eye.

School Opening Exercises Receive Favorable Comment From Teachers

Comments on the opening exercises of the Midland high school, September 9, the opening morning, were especially fine. I consider it a great privilege to be in such a splendid school system and know that I will enjoy my work in Midland."—Elizabeth Wright, librarian.

"The assembly program last Monday was the most impressive high school opening that I have ever witnessed. The reading in unison demonstrated the most remarkable of careful, thorough training. Above all, the spirit of cooperation and good-will on the part of the students was manifested in perfect attention throughout the program."

"I am highly pleased to be a part of a school system so well organized and functioning so perfectly."—Ruth Carden, English department head.

"I am glad to get the opportunity to tell you frankly just what impressed me most."

"I was deeply impressed by listening to that wonderful reading in unison. The fact that it was the first day of school did not seem to affect the efficiency of the pupils. The singing was not short of anything. I thought was marvelous."

"The ex-students and the patrons exhibited the most remarkable enthusiasm that would naturally accompany such a program."—Roby Fagg, high school senior math.

"The attentiveness, the group reading of educational quotations and the singing of the student body school spirit I have ever seen. The attendance of the many patrons and ministers proved the wonderful cooperation of the churches and the community for which Midland is well known."—Phyllis Matlock, home economics.

Coyle's String of Race Horses Spend Night at Midland

G. H. Coyle, veteran horse trainer and dealer, spent last night and this morning here, stopping over with a string of six race horses, en route from Los Angeles to the Dallas Fair race meet which opens soon.

He was accompanied by Mrs. Coyle. They formerly lived at Midland where he had the most extensive horse business in the south and west, annually taking a shipment of choice mounts to Long Island where he had a ready market. The business is carried on now by his son, Carroll Coyle, at Cisco and Brownwood.

G. H. Coyle, who gives his attention now to flat racing, has in his van following:

- Indiana, chestnut filly, 4, by Trojan, which is run in five and a half and six furlong heats;
- Coaky B, chestnut gelding, 3, by Dozier out of Hide-And-Seek, winner of several races from six furlongs to a mile and a quarter;
- Velled, bay filly, 4, by Fair Play out of Mysterious Girl, known as a winner at Arlington Downs and other big meets;
- March Line, bay colt, 2, by Mr. Wislinski out of Evelyn Cole, a juvenile which already has thirty starts and a number of purses to his credit;
- Peacock Girl, chestnut filly, 4, by Mere Play out of Hazy Dawn, another consistent money getter;
- Viola C, gray filly, 3, by the Imported Kiev out of Marguerite El-dorica, a beautifully colored and proportioned iron gray animal which has been started in only a few races. She is a grand-daughter of the famous "The Great";
- Coyle said he may return to Midland for the races during the Midland Fair, October 19-23. He took with him a supply of race programs to be given to race horse owners and trainers at the Dallas meet where he will stable his string.

C Ranch Calves Reported Sold

Sale of the steer calf crop of the C Ranch was reported today to have been made by the manager, Hilroy G. Bedford, to Foy Proctor. Delivery was scheduled for November 1, it was reported.

George Ratliff sold to Roy Headrick of Sweetwater a car load of steer yearlings for immediate delivery.

MAKES THOROUGH ENDORSEMENT OF THE KELLOGG PACT

Asks Adherence by Other Nations To Treaty

By Associated Press

President Roosevelt today announced a thorough endorsement of Secretary Hull's appeal for adherence by quarreling countries overseas to the Kellogg peace pact and expressed concern over the situation. The President made it clear that America definitely will remain neutral in the event war is declared.

Hull's statement was received in Rome with the attitude that Ethiopia had already violated the Kellogg pact.

France's support of the League of Nations covenant and their attitude that financial and economic sanctions were necessary if Italy attacks Ethiopia were indicated in Paris and Geneva.

In a League speech, Premier Laval of France denouncing an enforcement of the covenants. French officials said that it meant that they would impose sanctions on the aggressor nation in case of war.

Italy continued its troop movements toward Ethiopia. Emperor Haile Selassie has ordered the mobilization of 75 per cent of government employes in Ethiopia.

Great Britain is continuing concentrating warships in the vicinity of the Suez canal.

Italian maneuvers in the Mediterranean have resulted in Greek representations that Italian warships have entered Greek waters without permission.

STOGNER SHOW OF GAS IS OIL FEATURE FOR PAST WEEK

By PAUL OSBORNE

Featured by the striking of gas in Stogner at No. 1 Mrs. Cora George, north central Andrews county wildcat, reports of weekly progress on the Basin outpost, showed several advancing to interesting depth.

At 3,070 feet, the Stogner well, located about five miles west of the means pool, encountered an estimated half million feet of gas which blew up the tools causing a fishing job. With tools now recovered, the well is reported drilling below 3,175 feet. Further west, Wahlenmaier No. 1 Cox is down to 1,849 feet in red rock, while in the northwest part of the county Gulf No. 1 Kelly is building rig and moving in.

Most advanced Basin Ector county wildcats are Eppenaar No. 1 Continental Wight, south of the north Cowden pool, which with total depth of 4,200 feet is cleaning out below 4,235 feet and flowing at an estimated 75 barrels daily. Continental No. 1 Wight, nearby, is still shut down at 4,050 feet waiting on machinery. In the far southwest part of the county, Westbrook No. 1 Yarborough is drilling salt below 2,275 feet.

In Winkler county, the Gulf Keystone area continues to hold principal interest. No. 2, with total depth of 3,702 feet, is cleaning out at 3,697 feet, having made 132 barrels in 48 hours on most recent test. No. 3 is drilling below 3,642 feet and flowing 60 barrels of oil and 133 of water daily. No. 4 is at total depth of 3,756 feet, waiting on a unit to clean out. No. 5 is drilling at 3,717 feet, a 48 hour flow gauging 433 barrels of oil and 13 of water. No. 6 is cleaning out at 3,500 feet, total depth being 3,676 feet, and flowing 204 barrels in 48 hours. No. 7, gauging 138 barrels in 48 hours, is standing at total depth of 3,652 feet. No. 8 has reached low to total.

(See OIL NEWS, page 6)

Recruiting Party Will Be Here Again

An army recruiting party from Fort Bliss at El Paso is scheduled to pass through the Petrolia in the near future. This party is scheduled to camp in Brownfield, Lubbock, P. A. in view, Childress, Sweetwater, Big Spring, Midland and McCamey. They are now in Roswell and should reach Brownfield on September 19th. They will camp a few days in each town and while there will visit all nearby towns.

The party consists of a dozen men from the Eighth Cavalry. They are canvassing for recruits for their own regiment and for other organizations at Fort Bliss.

Opens Telegraphic Broadcast Station

Installation was completed this week on a communicative broadcasting station by the Western Radio Telegraph Co., a subsidiary of the Phillips Petroleum Corporation, for the purpose of handling telegraphic traffic from oil fields or this section to its company's stations at St. Louis, Bartlesville, Oklahoma, Oklahoma City and Breckenridge. The personnel, according to company engineers, is trained in the handling of oil field traffic but also will handle public messages.

John Lewis, transferred here from Breckenridge, is in charge of the Midland office which is in the Petroleum Building.

IOOF WILL MEET

Odd Fellows will meet at the IOOF Hall, 205 E. Wall, this evening at 7:30 o'clock.

EUROPE PLAYING GAME OF BLUFF; "CALL" IS DUE

The international poker game will probably go on and on until at last one or another of the players decides to call somebody's bluff.

It is hard to avoid the feeling that everybody concerned has been doing a tremendous amount of bluffing of late. So far, few important bluffs have been called. The interesting question is what will happen when someone shoves a stack of blue chips out to the middle of the table and demands a look at the hands.

You might say that Adolf Hitler set the style when he announced that Germany was through with the military clauses of the Versailles treaty and would arm henceforth to suit herself. This was a bluff, pure and simple; Hitler wasn't ready to fight. But nobody had quite nerve enough to call him. Germany today is rearming as the result of having defied the world on a pair of jacks.

Then we come to the Japanese in the Far East. Japan announced that she was going to take over Manchuria and as much of China as she wished, and added that she would build as big a fleet as she pleased.

Everybody looked at the ceiling, scratched his head—and tossed in his cards. Maybe Japan was bluffing, maybe not; nobody tried to find out.

Next in line is Signor Mussolini. With many flourishes he declares that Italy is going to overrun Ethiopia. Will any European nations try to stop him? Then, he says, he will fight, no matter who his enemy may be.

This sounds more like a bluff than either of the other two cases. Italy's ability to finance a colonial expedition in Africa is in doubt; how much more doubtful must be her ability to finance a major European war! It is hard to escape the conclusion that Il Duce is running a magnificent bluff.

Lastly there is Great Britain; and if Mussolini's warlike attitude looks like a bluff, so, it must be admitted, does the arched-back pose of the British lion. Italian naval and air strength in the Mediterranean is greater than England's; furthermore, it has not for more than a century been England's custom to fight a major European power without first lining up one or two husky allies.

What can come out of a poker game of this kind is beyond guessing. The one inescapable conclusion seems to be that if you talk enough and act as if you had 'em, the world powers of today will believe you.

Statesmen are nervous and uncertain—and any poker player will tell you that a man in that shape is fairly begging to be bluffed.

Belgian paper-making industry is prospering. Which is understandable in view of the rate at which treaties are being turned into confetti.

Mussolini Plans Gas Attack on Ethiopia. Which confirms the rumor that Il Duce plans to fly to the front.

Max Baer to use crouch in his coming battle with Louis. After a couple of rounds, undoubtedly, a crouch will be substituted.

Mussolini, whose sons just left for the African "front," evidently believes in hair-conditioning.

German barbers are commanded to report any "subversive talk" among their customers. So there is a place barbers' patrons are able to get in a word.

Fashion experts predict that women's dresses will be short. Italian and Ethiopian troops may get some consolation from our traffic casualties.

At those parties reported given in Washington by lobbyists, a popular number undoubtedly is "My Bill."

Ohio education survey committee accuses colleges of making the educational process a "painless" one. So being spiked in a scrimmage is painless!

With regard to a third party, most Americans feel that two's a crowd, three's a catastrophe.

Side Glances by Clark

"Well, so long, son. Now study hard and all that sort of thing."

The Last Rose of Summer

French Foreign Policy Threatens To Be Torn Down By Mussolini's Affairs Policy

By MORRIS GILBERT NEA Service Staff Correspondent PARIS, Sept. 4.—The shattering of the French structure of foreign policy which Pierre Laval has so laboriously been constructing for a year faces the French premier as Benito Mussolini plunges into his Ethiopian adventure.

It is hard luck for the little "Baignat"—the "coal-and-wood-man" as French people sometimes call Laval—particularly as France is suffering for something that doesn't concern her in the slightest and which she didn't start and can't finish.

The partnership between France, Great Britain, and Italy which Laval—Europe's greatest contemporary "fixer"—had wrapped up in a pretty little contract with seals on is now pretty well bankrupt, and two of the partners hardly speak to one another.

"Collective security" was what Pierre Laval has been trying to organize for the benefit of France for many months. This is an extension of the old basic principle of security which has been the rock-bottom of French foreign policy ever since the American Senate renounced forthright participation in European affairs by rejecting membership in the League of Nations.

"Collective security" was the insurance policy which France, a nation with hardly more than half

the population of Germany, was trying hard to take out. With no ambitions for expansion, she nevertheless faces on her eastern border a stronger nation which had those ambitions. Naturally enough she wanted her frontiers and her peace underwritten.

It was no easy task for the hard-boiled, clear-headed little provincial lawyer, Laval. As foreign secretary, last autumn, he set about it. His first job was to go to Rome, where he and Mussolini—both ex-socialists—got along fine. Laval came back with the assurance of Italian backing in case Germany started to invade Austria.

Then Laval went to London. He returned with a pretty clearly drawn agreement that Britain, under certain conditions, would consider the Rhine her eastern frontier.

March 16, 1935, brought reduced worries to Pierre Laval. Hitler announced the final spurning of the military clauses of the Versailles Treaty and the commencement of a big army. Britain seemed to be back-sliding, weakening on the German arms question. Laval had to pack his grip again. And at Stresa he brought the two former allies together again on a program of consultation and mutual aid. Meanwhile, the little Foreign Secretary had been to Moscow and returned

with the beginnings of a very interesting mutual assistance agreement between Soviet Russia and France.

Dream Shattered For a few short weeks it looked as if the champion "fixer" had come through in the streets of Paris on Laval's account, just then, but the menace of danger in Central Europe was apparently fading, or at least getting off the front pages of the world press. "Collective security" had more meaning than it had ever had before.

Now all is changed. The Fascist battle-axe—symbol of Roman glory—has shattered the beautiful comradeship that lately existed between Benito Mussolini and his guardsman friend Captain Anthony Eden. And France, exactly like any average innocent bystander is unhappily fixed to take a pop on the chin that she doesn't deserve.

Centennial Farm and Home Contest on Air

COLLEGE STATION.—Progress in the Centennial Farm and Home Demonstration Contest being sponsored by the Texas Extension Service for which prizes were sponsored by the Dallas News and the Semi-Weekly Farm News will be broadcast each Thursday this fall over a Texas hook-up consisting of Stations WFAA, Dallas, WBAP, Fort Worth; KPRC, Houston, and WOAI, San Antonio.

Johnson County has been one of the most active counties in stimulating enrollment and in publicizing the contest. Representatives from local civic organizations met and organized the Johnson County Committee for the Farm and Home Demonstration Contest on Aug. 5 and immediately began mapping out programs for the winter. By Sept. 1, 99 contestants in this one county had been reported, and others are expected.

Immediate plans call for a quick completion of the sign-up. Tours with local committees will be in progress this month for the purpose of contacting and advising with entrants concerning their farm and home activities. At this time, questionnaires will be filled out for the purpose of recording individual demonstrations. Therefore, the committee will be in a position to keep in close contact with the follow-up phase of the program. Next spring questionnaires will be used again to determine accurately the accomplishments on each farm and home.

During colonial times, you could buy a 30-pound turkey for 25 cents in Boston. Pigeons were selling for a penny a dozen in those days.

Flight Checking of Chart Series Ended

The task of scanning the entire United States from the air, to make certain that charts for airmen correspond with what the airmen actually will see when he flies over the territory represented, has been completed, Eugene L. Vidal, director of Air Commerce, announced today. This flight checking operation was undertaken in connection with the series of 87 sectional aeronautical charts which are being published for airmen by the Bureau of Air Commerce, Department of Commerce. The charts are compiled and printed for the Bureau by the Coast and Geodetic Survey.

Eighty-eight of the charts now are in circulation. The preliminary drafts of the others are being corrected in accordance with the findings of the flight checks, and it is anticipated that all will have been printed and made available to airmen by the middle of November.

Under an allotment granted by the Public Works Administration to speed up the charting program and to complete the charts in advance of the time they would have been finished under the regular program, the Bureau of Air Commerce and the Coast and Geodetic Survey began work on a large scale in November, 1934. At that time 22 of the 87 sections had been completed.

The flight checking organization which flew over all the territory covered by the new maps consisted of nine crews, each comprised of a pilot and a mechanic assigned by the Bureau of Air Commerce and a flight check observer from the Coast and Geodetic Survey.

In checking the locations of airports, air navigation aids, geographical features, landmarks and major obstructions to air navigation as they appear on the preliminary compilations of the charts, the checking crews flew 3,922 hours, covering approximately 400,000 miles without accident. Since the charts cover all the United States, they had to fly over every type of terrain from deserts below sea level to the highest mountain ranges. In California a crew checked the mapping of Death Valley, 276 feet below sea level, and Mt. Whitney, the highest mountain in the United States.

The crews operated in 45 states and the District of Columbia and the only territory over which they did not fly was that which had been light checked before the assignment program was begun. Two hundred airports and landing fields were used at various times for temporary bases. In some regions where airports were far apart, operations had to extend as far as 200 miles from the field used as a base.

Each of the sectional aeronautical charts represents an area of 6 degrees longitude by 2 degrees latitude, or approximately 325 miles east-west and 150 miles north-south and is printed on a sheet about 40 by 20 inches in size. It shows political boundaries, cities and towns, geographical features, railroads, and highways in black and color, and such features as airports and air navigation aids, which are particularly significant to airmen are superimposed in red.

Because the successful candidate was illiterate, mayoral elections for Glanovats, southern Siberia, were twice annulled. The candidate learned to read and write and when elected the third time was permitted to take office.

The murderers' club of Sing Sing prison is one of the most unusual organizations on earth. Its members are twice annually selected from among the death row, but were saved by a commutation of sentence to life imprisonment.

A striking example of what education does to decrease crime is shown in a survey of Illinois prisoners. The figures show that less than 1 per cent of the inmates are high school graduates.

The Town Quack

(Reserve the right to "quack" about everything without taking a stand on anything).

Frank Fagg: "A Midland man who doesn't like to work, want to a doctor for a complete examination. The doctor looked at his eyes, made him stick out his tongue, thumped him on the chest and back, felt his pulse and examined his stomach. Then the doctor said, 'You have a serious case of pernicious inactivity. The Midland man is now writing his will, and instructing his wife how to rear the children.'"

Fish Pollard: "I understand that Gerald Bless has a scar on his head because he once was mistaken for a stump. He hadn't moved for two hours, and a woodsman came along and socked his ax down into Gerald's head."

Lum Daugherty, of Bear Lake: "People gad around so much that I wish the paper would print on Monday the names of the people who stayed at home on Sunday."

John Dorsey: "The most common mistake is the belief some people have that if a person has personally he doesn't have to have brains."

R. W. Castleberry: "Twice in his life every man gets publicity he doesn't see—when he is born and when he dies. By the way, they tell me I was an unusually pretty baby."

Fred Wemple: "During the World War a Midland man was arrested in France because he carried his wife's picture. She is so homely the French authorities thought the photo was a war map."

Ed Darnell: "I find that in most instances what is hard for me to believe is true."

Bill Hembre: "I know a woman so thin she takes a bath in a fountain pen."

Duke Kimbrough: "Giving advice is a luxury we all enjoy."

J. B. Hoskins: "Women capture men by keeping them guessing."

W. P. Dykema: "I never vote for a man who looks like me."

Carrier Pigeon Stops On Rifle Range And Halting All Firing

CAMP PERRY, O.—A carrier pigeon wheeled gracefully aloft and then side-slipped into a gentle landing on the big rifle range here at a hundred yards in front of the parking service rifles of the United States regulars. A shrill whistle blew. Firing ceased. The bird seemed grateful, for he sat down and calmly surveyed his surroundings.

Gently the pigeon was lifted and carried to a place of safety, where he was given food, water and a long rest. He appeared to be very tired, but his appetite was good. Attached to his leg was the symbol, H. G. U. 732. After several hours rest, the winged messenger was permitted to depart, and after circling aloft once or twice, bravely set out straight in a southeasterly direction. Firing of the National Rifle Matches was resumed.

Shooting has often stopped birds but this feathered visitor today stopped the shooting.

Watson School of Music Presents Student Recital

Summer students of the Watson school of music were presented in a recital at the studio, 210 W. Ohio, Thursday evening.

Colored lights strung over the lawn and baskets of flowers on the porch which served as a stage made an attractive setting for the well-rendered musical numbers. A good-sized crowd was present.

The following numbers were presented after a brief opening talk by Miss Lydia G. Watson:

Piano—The Cuckoo—Bilbro—Dorothy Barron; Violin—(a) Miss Arden (b) Johnnie Mousse—Bethie Jo Joplin; Piano—Trip on the Rocking Horse—Bilbro—Marjorie Barron; Violin—America—Reitha Mozelle Liles; Piano—(a) Go to Sleep—Dolly (b) Wake Up, Dolly—Bilbro—Eileen Eiland; Mandolin—Guitar duet—The Masqueraders, Goggin—Dora West and Mr. Ned Watson; Piano—(a) Gentle Night (b) The Three Clocks—Williams—Eloise Gabbert; Piano—A Rose in My Garden—Williams—Eloise Gabbert; Piano—White, and Blue—arr. Reinick—Frances Guffey; Piano—Fido and His Little Master—Bugbee—Elma Louise Echman; Spanish Guitar—Waltz—Don Santos—Vernon Liles; Piano duet—Intermezzo—Renard—Lois and Lucille Guffey; Clarinet—Old Folks at Home—R. O. Hamlin; Himes; Piano—At the Ball Game—Thompson—Alberta Smith; Violin—Mighty Lak a Rose—Smith—Jacquelin Campbell; Piano—Miss Jennie O. Jones—Orelia Flint; Mandolin and Guitar—Melody—Foden—Maxine and Francis Nell; Piano—Little Dutch Dance—Cram—Margaret Mims; Cornet—Consolation—Mendelssohn—orchestra arr.—Charles Smith; Piano—Second Valse Godard—Mildred Connor; Chorus—Hear the Cuckoo—Jordan—Ten girls; Piano—(a) Carnival of Venice (b) My First Polka—arr. by Presser—Dorothy Branch; Mandolin—Twelfth Street Rag—R. O. Hamlin; Piano—Little Mocking Bird—Adair—Liza Jane Lawrence; Violin—Clarinet—Piano—Flower—Queen—Steldt—Lois Francis, Lucille Guffey; Piano—Happy Day Waltz—Bugbee—Lucille Ford; Violin—Daisy Wolkie—Roy Collins; Piano—Zacatecas—Codianna Francis Burris; Hawaiian Guitar—selected—Mrs. D. Mitchell; Piano—in a Country Garden—Crain—Louise Bryan; Violin—Minuet in G—Beethoven—Lois Guffey; Piano—Moonlight Revels—Extravaganza—Andre—Jessa Lynn Taylor; Hawaiian Guitar—selected—Cecil Craft; Piano—Madrillon—Spanish Fantasia—Wach—Bertha Flournoy; Violin—The Old Refrain—Kreiser—Marjorie Orr; Piano—Valse Arabesque—Lack—Cornelia Campbell; Mandolin—Neonon—Bickford—Charles Smith; Cornet—Gathered a Rose—Lee—Fouchee Pollard; Piano—Farewell to the Piano—Beethoven—Imogen Moore; Piano—Le Harpe Eolienne—Smith—Sinley Ruth Jolly; Violin—(a) Hungarian Dance—5—Brahms (b) Swanee River—arr. by Watson—Margaret Hoffman; Piano—(a) Little White Donkey (b) Serenade in F Sharp Op. 15, No. 2—Chopin—Isabel McClintic; Gloriant Overture

FEMININE FANCIES

BY KATHLEEN EILAND

An El Paso store, we notice, is advertising leather scraps to be made into "scrap-o-leather" jackets. Such an ad should bring results if the El Paso mornings are as chilly as the Midland mornings now are.

We are pleased to see that newcomers notice the concert readings of the High School as an outstanding feature of the opening day program. Perhaps, not being musical and being decidedly addicted to the reading of poetry, we are prejudiced in our judgment. But it seems to us that the splendid readings are more unique even than the excellent singing of the students.

The pendulum is swinging backward. When our mothers were girls they wore long-sleeved nightgowns with modest high necks and by no stretch of the imagination could the match of which the gowns were made be called sheer.

Then came the period when the style of sleeping wear depended greatly on its scantiness and transparency.

Now nightgowns are beginning to wear little sleeves and to take on in many cases the appearance of a dress. The newest thing that we have seen advertised is the full length silk nightgown with Peter Pan collar and long sleeves.

Taking the advice which we have been handing out to others, we decided to buy some new gowns to while away the winter evenings. Now that we have them, we wonder how long it will take us to puzzle out the printed directions, so we'll be able to play them.

Plaids are a fashion favorite this year. Being part Scotch, we should be delighted and forthwith he us out and buy a dress. But as in many other cases, factors of importance prevent. We don't seriously object to being seen for 30 successive days in, say, a navy blue dress or a brown one, because people will not notice it much anyway. But if we should appear that many times in a yellow and green plaid, the combination with red hair might be too much.

The plaids are pretty but we think we'll leave them to girls who have more clothes than we do.

John Adams and John Quincy Adams were father and son; Benjamin Harrison was a grandson of William Harrison; James Madison and Zachary Taylor were second cousins; and Theodore and Franklin Roosevelt are descendants of Class Martensen van Rosenvelt.

Ninety-nine per cent of all bacteria in milk can be killed by forcing super sound waves through the fluid.

—Edward Hazel—Students' orchestra.

Miss McMullan Entertains for The Anti Club

Miss Lucille McMullan was hostess to the Anti club in its weekly bridge at her home, 700 N. Main, Thursday evening.

High score in games went to Mrs. Hayden Wilmoth and low score to Miss Marguerite Bivins.

Refreshments were served at the close of the evening.

Playing at the two tables of bridge were: Meses. Wilmoth, John B. Mills, Guy Bennett, Clint Creech, Misses Bivins, Annie Faye Dunagan, Maedele Roberts, and the hostess.

CHURCHES

CHRISTIAN SCIENCE CHURCH
Services will be held at 11 o'clock Sunday morning in the private dining room of the Hotel Scharbauer. A cordial welcome to attend is extended to all.

TRINITY CHAPEL
Protestant Episcopal
E. Walter Henckell, Minister
In Charge
9:45 a. m.—Sunday School
11:00 a. m.—Morning Prayer and sermon.
Holy communion on the third Sunday of each month.

MEN'S CLASS
Hotel Scharbauer
The Men's Class will meet at 9:45 a. m. in the Crystal ballroom. Judge Chas. L. Klapproth, teacher.

ST. GEORGE'S CHURCH
The Rev. Edw. F. Harrison, O. M. I.
Sunday morning mass for English speaking people at 10 o'clock and for Mexicans at 8 o'clock.
Sunday evening services at 7:30 o'clock.
Daily mass will be held at 8 o'clock.

FIRST PRESBYTERIAN CHURCH
W. J. Coleman, Pastor
J. L. Kendrick, Church School Supt.
Mrs. W. J. Coleman, Minister of Music
9:45 a. m.—Sunday school.
11:00 a. m.—Divine worship. The minister will bring a message on "Running from Reality."
8:00 p. m.—Evening worship and preaching by the minister.

FIRST BAPTIST CHURCH
Winston Borum, Pastor
9:45 a. m.—Sunday school.
11:00 a. m.—Morning worship. Preaching by the pastor. Subject, "Life's Journey."
7:00 p. m.—B.T.U. training service.
8:00 p. m.—Evening worship. "The Symbolic Cross" will be the subject of the pastor's sermon. A baptismal service will also be held.

FIRST METHODIST CHURCH
Kenneth C. Minter, Pastor
W. Hy Pratt, Supt.
Mrs. De Lo Douglas, Choir Director
9:45 a. m.—Sunday school
6:30 p. m.—World Friendship club meets at the church
7:00 p. m.—Senior and Hi Leagues
There will be no preaching services Sunday as the pastor is at Sonora conducting a meeting.

THE FIRST CHRISTIAN CHURCH
John E. Pickering, Pastor
H. G. Bedford, Supt. of Bible School
John Crump, Director of Music
9:45 a. m.—Bible school.
10:50 a. m.—Preparation for Lord's Supper
11:00 a. m.—Holy Communion. Worship. Sermon subject: "Heaven"
4:30 p. m.—Junior and Intermediate Endeavors
8:00 p. m.—Worship. Sermon by the Pastor
3:30 p. m.—Monday. Rijnhart Circle
7:00 p. m.—Wednesday. Services of Prayer.

CHURCH OF CHRIST
T. H. Bass, Minister
10 a. m.—Sunday morning Bible study
11 a. m.—Preaching and morning worship. Subject: Laying By in Store as the Lord Has Prospered Us.
7:30—The young people meet for Bible study
8:00 p. m.—Evening Service. Subject: Sin and the Second Death.
3:30 p. m.—Tuesday afternoon the Woman's Bible class meets.
8:00 p. m.—Wednesday mid-week Bible study and prayer service.

"ALL-BRAN FORMS MAJOR PORTION OF MY BREAKFAST"

Delicious Cereal Relieved His Constipation*

Read Mr. Huyghe's voluntary letter: "After suffering for years, I happened to notice in the grocery a box of ALL-BRAN. I determined to give it a fair trial.

"I cannot say enough for its effect as I am a man 58 years of age, at a time in life when one needs just what ALL-BRAN does for you."

—Mr. Robert A. Huyghe, 810 Union Street, New Orleans, La.

*Constipation due to insufficient "bulk" in meals.

Research shows that Kellogg's ALL-BRAN furnishes "bulk" to exercise the intestines. ALL-BRAN also supplies vitamin B and iron.

Two tablespoons daily are usually sufficient. With each meal, in serious cases. If not relieved this way, see your doctor.

The "bulk" in ALL-BRAN resists digestion better than the "bulk" in leafy vegetables. How much better to use this gentle food in place of patent medicines.

At all grocers in the red and green package. Made by Kellogg in Battle Creek.

PERSONALS

Mrs. J. W. Morfeet and Mrs. Colleson Mott of Stanton were visitors in Midland Thursday.

Mrs. Charles Christian of Odessa is here today.

Ralph Parrott is here from Wink to spend the weekend with his family.

Mr. and Mrs. Jim Tom were in town Thursday from Stanton.

Mrs. Herschel Anderson is visiting friends in Houston.

Miss Josephine Hill has come here from Breckenridge as stenographer for Phillips Petroleum company.

Miss Marie Forbian has moved to Midland from Big Spring. She will be office secretary for Dowell Incorporated.

I. J. Killingsworth and Jack Cecil have been transferred from Oklahoma City to the Midland plant of Hughes Tool company.

W. C. Maxwell has gone to San Antonio on business.

Miss Joyce Holman, who recently moved from Midland to San Angelo, has accepted a position here with the Indian Territory Illuminating Oil company. She will return to Midland Saturday.

Mr. and Mrs. F. E. Saze and their twin daughters of Abilene are here as the guests of Mr. and Mrs. H. H. Nicholson and Mr. and Mrs. Bill Moreland.

Mr. and Mrs. W. L. Thompson left Thursday morning for Albany.

A number of caterpillars were made defendants in a lawsuit for destroying a French vineyard in 1935. Between the 11th and 18th centuries, there were numerous instances of lawsuits being brought against insects and animals.

Although Zebulon Pike, in 1806, discovered the peak which bears his name, he was balked by snow, ice and hunger, in his attempt to scale the mountain. Major S. H. Long made the first ascent in 1819.

Special Program Planned for the Naomi Homecoming

A special program has been prepared by the Naomi class for its "homecoming" Sunday.

Mrs. R. Steele Johnston will read and Mrs. Lee Cornelius will present special piano numbers.

The lesson will be taught by Mr. Ralph Bucy.

All members and former members of the class are urged to attend this meeting of the class which will be held in the regular classroom.

Senior Epworth League Program Is Announced

The Senior Epworth League will present the following numbers at the Methodist church Sunday evening:

Song—Wonderful Words of Life
Offering
Scripture reading—Acts 8:26-31
Special announcements
Leaders introduction—Miss Annice Johnson
Talk—Reading about the Bible—Mr. Harvey Powledge
Talk—How this knowledge helps—Miss Estelline Chivers
Talk—Learning more about the Bible—Mr. Wesley Shull
Song—More about Jesus
League Benediction.

Buy Sparingly In Outfitting Boys, Girls for School

By OLIVE ROBERTS BARTON
Mothers who are sending sons and daughters away to school for the first time are busy preparing for the day.

The freshman usually arrives with everything new from trunk to garters, the big adventure taking on the nature of a world-cruise or a honeymoon. Natural of course.

But watch a senior. The senior begins to pack about an hour before train time, takes what he has, scuffed bags and all, and has none of the appearance of the innocent

Job Placed Above Wife

MT. BLANCHARD, O. (U.P.)—Charging that her social activities made it impossible for him to obtain a teaching position, Odis Clark sued his wife for divorce.

The curvatures of Chinese bridges is due to the belief that evil spirits can travel only in a straight line. This is the same reason for the extensive use of screens in China.

Letter that is almost sure to come due after thirty days, "Dear Mother, I need—"

Keep a girl's measurements. Discover her tastes. After all, it may be the rose velvet she needs—but by that time she will know.

However, it is well to see the new student equipped with as sensible an outfit as the purse will allow. The mistake many mothers make, I think—for I have made them—is in neglecting the necessities, and in not keeping a small reserve of the budget to be spent later as occasion demands.

For instance, the shopper may be tempted to overbuy on evening or afternoon gowns and accessories for the girl student; and her daughter may later write something like this: "Dear Mother: I need a heavy blue sweater and a light weight jersey of the same shade. Also four athletic shirts that don't pull up. You see, I'm working for crew. Also the regular uniform trunks and a certain type of socks and shoes, so please send check—etc., etc."

New Needs Arise
Then mother counts up and sighs. "I knew I shouldn't have bought that extra rose velvet, or the orchid satin robe. I wish I had waited, because daughter has not mentioned a single dance or tea yet."

The girl is busy getting into the life and spirit of the school, so expect the unexpected, mothers.

I was present a couple of years ago when a lady received a letter from her son. "Mother, please send all my old clothes," it went. "The master (it was a boy's prep school) asked me not to wear that plaid outfit." The violet plaid had not been her fault. Timothy himself had insisted on it, for he had based his idea of haberdashery on too many college movies.

SUMMER SPECIAL OF 35c SHAMPOO-SET DRIED, AND PERMANENTS TO CONTINUE THROUGH SEPTEMBER ONLY

Attention Faculty Members and Students:

Come in and see Mr. Boch about that new Fall hair cut and wave.

THE APPROVED I.E.S. BETTER SIGHT LAMP

- Wide opening at the top of the shade throws light to ceiling and eliminates shadows.
- Glass reflector softens light, prevents glare.
- Wide shade gives ample light over your work.
- Shade lining is white to reflect more light.
- Lamp is high enough to light a large working area.

IMPORTANT

Be sure to look for the authorized certification tag on lamp you buy. It isn't an I. E. S. Better Sight Lamp if it doesn't have this tag.

Drive away the frown of eyestrain with Better Light

A frown is the danger signal that your child may be reading in a poor light and perhaps is straining a pair of precious eyes. Children often do not complain when they must study or read without sufficient light, but they are weakening their eyes needlessly, and may suffer lasting damage to their vision.

Fortunately, new and scientifically correct reading and study lamps have been designed to provide just the right amount of glareless light for students and for others who read or sew. Protect the eyesight of your family with these modern lamps that meet the Better Sight requirements as explained in the cut-away sketch.

TEXAS ELECTRIC SERVICE COMPANY

R. L. MILLER, Manager

Flubdubs

BY JESS RODGERS

Congratulations are in order. Those nice men on the school board...

the season is over. The coach is planning on having Richman drop into the backfield...

Dutch and most of the members of the team will journey over to Big Spring tonight to see the Pecos team take on the Big Spring Steers...

Don't be surprised if you see Dutch wearing dark glasses, wig, false beard and gummed sole shoes...

Coach Hancock of the Junior High is working out a large number of youngsters each day but there is not more than three of them that are any bigger than a bottle of beer...

Here is what Dr. Thomas has to say about the loyalty of Midland football fans: "I hear that Big Spring has sold 900 reserve boxes so far, if they can sell that many we could have already sold 1000 if we had the boxes..."

Reports to the contrary, Brian Henderson will not be football coach at Stanton this year. We could have printed the story a day ahead of other papers had we so desired but we happened to know that "Heney" had not accepted the offer of the Stanton school board...

SOFTBALL. We were evidently wrong when we said that league games would be played last Tuesday night. We made the announcement without confirmation from the managers and evidently they had already decided otherwise...

Obie Bristow, a personification of the unique and sensational, conceived an official weighing-in at the high school Wednesday afternoon. "I want," said the great Bristow, "to be the first coach in the state to give honest weights. These weights must be official and I want plenty of witnesses..."

The coach purchased the scales (cheapest weight, and the weighing went ahead. It was found that the average was 163 pounds. The average of the starting line was 160 pounds and the starting backs 169 pounds. Very good weights for a high school team. Thirty boys, total number out for the Steer team, were weighed.

The whole procedure was official: "Before me the undersigned authority in and for Howard county, Texas, on this day personally appeared Tom Beasley, known to me to be the person whose name is subscribed hereto, and after being duly sworn says upon his oath that he personally witnessed this day the weighing of the above listed members of the Big Spring high school football team and that the weights above listed opposite the names of the respective members of said football team are the correct weights of said members—strip weights."

"Sworn to and subscribed before me this 11th day of September, A. D. 1935." (SEAL) CECIL COLLINGS, Notary Public, Howard County, Texas.

So long. See you in Big Spring tonight. New York's Battery Park aqueduct was originally Fort Clinton and was built in 1810. It was here that Jenny Lind, the "Swedish Nightingale," made her American debut.

A unique test of womanly virtue was used by the Bretons who lived in northern Europe centuries ago. Powdered agate was sprinkled in the beer of the doubted one, and if she couldn't hold it down, she was considered impure.

Taxicab drivers in Stockholm, Sweden, must be dressed in black. One driver was recently fined \$5 kronen because he appeared with beige stockings.

Wes Ferrell and Bob Grove can't be expected to carry on again next year the way they have this season, says Cronin. "It would be brutal to expect them to go out there and hurt winning big day in and day out only to see us fall to bat in enough runs for them to win—especially Grove."

Mack Paves Way For Blow-Off. "We need at least one great slugger and at least one other good hitter. Why, just the other afternoon we left 22 men on the bases in one game. Twenty-two! Imagine! Just think what a Fox, a Hank Greenberg, or a Lou Gehrig would have meant to us that day. It's been that way all season. We're in the market. We'll talk business with anybody."

Gehrig and Greenberg are not for sale at any price, but with the Athletics requiring ready cash and few in Philadelphia caring one way or the other, it is reasonable to expect that Yawkey, who is down to his last \$38,000,000, will purchase Fox. And in disposing of his home-run hitter, Yawkey will, as well as go all the way and get all he can for Cramer and Higgins, too.

Fox has repeatedly expressed a desire to escape from Shibe Park. Mack's statement that only two members of his 1935 team, Wally Moses and little Rabbit Warstler, hustled is taken by many as a warning intended to muffle, if possible, the cries of Philadelphia fans interested enough to complain when the barter is disclosed.

Fox and Higgins, the long range swatters, and Cramer, bidding for the batting championship, haven't been on their toes, according to the tactician. Any club with the price would like to have Fox, Higgins, and Cramer.

Fox and Warstler have been heard down, according to Mack. But Moses has a broken arm and Warstler would have a tough time landing another position in the majors if given his outright release.

A's Have Men Red Sox Need. The Red Sox have given up on Babe Dahlgren, who would be succeeded by Fox at first base. The Boston management has an idea that Bill Werber was a one-year wonder. He's been the way ceded by Higgins at third base. Fox and Higgins are the great sluggers of whom Cronin speaks, and Cramer the other good hitter. Terry seeks Camilli as a replacement for himself at first base for the Giants. It is expected to fill the shoes of Parmelee, who in recent weeks has been shelled from the hill as regularly as

Screen Sweeties

Joan Blondell and Ross Alexander are that way in the new Warner Bros. comedy, "We're In The Money," now at the Yucca Theatre.

by Harry GRAYSON

NEW YORK.—With the Athletics so deep in red ink that the grand old die-hard, Connie Mack, is dumping the American League in the interests of night baseball...

It is to Lyndon B. Johnson, youth state administrator for the National Youth Administration, and to A. A. (Pete) Jones, administrator of the U. S. Office of Education, that the credit for the work program in this state look for help.

Differentiating between the WPA education division and the NYA, Bullock explained that the NYA is located in Austin under Johnson. Bullock is headquartered with other WPA state division heads in San Antonio. Johnson has been commissioned by President Roosevelt to administer to the needs of young people being aided through college.

With projects still in the formative stage, Johnson has envisioned a program embracing 10,000 young people being aided through college. 5,000 more receiving help that will enable them to attend high schools. As many as possible of the remaining 5,000 will be placed on work projects and in private employment, Johnson stated.

Applications for college and high school aid must be made to the principal of the desired high school or to the president of the chosen college. The program is designed to help people seeking educational aid. For work project or private industry jobs, youngsters should apply to the nearest U. S. Office of Employment Service office.

In addition to the youths who may receive help through the combined efforts of the WPA educational division and the NYA, many jobless school teachers will be benefited, Johnson predicted.

Freshman colleges in many small towns are planned. Thus, a number of young people unable to afford college training may be grouped together and receive freshman instruction from an unemployed teacher selected by the sponsoring organization of its kind that can be turned to the key of the selection being played.

"Acid mouth" is found to be less prevalent among excitable persons than among those of calm natures. A Florida law makes barbers professional men and places them on a level with doctors and lawyers.

There are 8,000,000 tons of coke used annually in the United States for domestic heating. he formerly won. Critz has slowed down, but in late games has proved an improvement over Koenig, who practically stopped after getting off to a fine start.

Al Cucinello is slated to start the season at second base for the Giants in next spring. In face of his performances of 1933 and '34 and in the early going this year, Terry may be losing patience with Parmelee. Hit too soon. But the Giants' collapsible tendencies require desperate measures.

Tex.-Ark. Cooperate On State Centennial

DALLAS.—Texas and Arkansas will work hand in hand during 1936 to sell the commercial possibilities of the Southwest to the rest of the nation. It will be Centennial year for both states and the Arkansas Centennial committee and the officials of the Texas Centennial Exposition will cooperate in every way possible for their mutual benefit.

Harvey Couch of Pine Bluff, chairman of the executive committee in charge of the Arkansas Centennial celebration, recently visited Dallas for a conference with Walter D. Cline, managing director of the \$15,000,000 Exposition which opens next June. It was agreed that maps and literature issued by the Arkansas Centennial authorities should note Dallas as the Texas Centennial Exposition site and feature the highways of Texas leading to the Mexican border. In return, the Texas Centennial Exposition will, in its literature, comment on the Arkansas Centennial celebration and feature Arkansas as being on the logical route to Dallas and Texas from the North and West.

The Arkansas celebration is statewide during 1936 but will have no central exposition. Arkansas and Texas are bound together historically and commercially," says Walter D. Cline. "It will benefit both to co-ordinate their Centennial efforts."

Jobless Youth Hopes Rest on Efforts of 2. SAN ANTONIO.—Hopes of 123,000 jobless Texas youths today rested largely upon the efforts of two men.

It is to Lyndon B. Johnson, youth state administrator for the National Youth Administration, and to A. A. (Pete) Jones, administrator of the U. S. Office of Education, that the credit for the work program in this state look for help.

Differentiating between the WPA education division and the NYA, Bullock explained that the NYA is located in Austin under Johnson. Bullock is headquartered with other WPA state division heads in San Antonio. Johnson has been commissioned by President Roosevelt to administer to the needs of young people being aided through college.

Growth Conditions For Texas Crops In August Favorable

Except for cotton, growing conditions for Texas were generally favorable during August. In the western one-third of the state, crops deteriorated somewhat due to dry weather the first three weeks in the month, but in the remainder of the state moisture conditions were reasonably good.

During the last week in August, heavy local showers covered practically all of the plains area and moved southward toward the Gulf. Since the first of September, soaking rains have been received in nearly all sections of the state.

Farm pastures were reported at 63 per cent of normal, or the same as the 10-year average (1923-32) September 1 condition. Cattle and sheep ranges were in better than usual condition on the first of the month, and the condition of livestock was well above average for September 1. Prospects are excellent for fall and winter grazing, and an unusually heavy feed crop is virtually assured. The present very favorable livestock situation should show further improvement.

A 1935 cotton crop of 3,467,000 bales of 50 pounds gross weight is forecast for Texas, based on condition as of September 1. This represents a decrease of 384,000 bales from the forecast made on August 1. The new crop as now forecast is 1,061,000 bales larger than the small crop made in 1934, but 1,175,000 bales less than the 10-year average (1924-33).

The estimated corn crop for Texas is unchanged from the forecast for Texas, based on condition as of September 1. This represents a decrease of 384,000 bales from the forecast made on August 1. The new crop as now forecast is 1,061,000 bales larger than the small crop made in 1934, but 1,175,000 bales less than the 10-year average (1924-33).

Rice condition, at 90 per cent of normal on September 1, forecasts a yield of 56 bushels per acre and a total production of 9,072,000 bushels for Texas. This compares with 7,738,000 bushels produced in 1934. The 1935 forecast made on August 1 was 8,100,000 bushels.

Prospects for grain sorghums are less favorable than indicated a month ago due to dry weather in the plains area. A yield of 13.5 bushels per acre and a total production of 72,608,000 bushels is now forecast. Production a month ago was forecast at 86,048,000 bushels. Last year the crop was 17,928,000 bushels.

The preliminary estimate of Texas peanuts to be harvested for nuts is 190,000 acres, compared with 158,000 acres harvested a year ago. The condition at 70 per cent of normal indicates a yield of 550 pounds per acre and a total production of 104,500,000 pounds of nuts as against a yield of 225 pounds and a total production of 51,350,000 pounds in 1934.

College or university. Twin benefits of free college training in their home town for class members and a living wage for the instructor are forecast by this plan, Johnson declared.

Establishment of five training camps for unemployed young women is projected in the state, Johnson said.

1934. The yield of tame hay is forecast at 115 tons per acre and a total production of 626,000 tons, which compares with 379,000 tons harvested a year ago. Wild hay production is estimated at 243,000 tons or a slight increase over the indicated production of a month ago. Production last year was 120,000 tons.

Sweet potatoes, at 67 per cent of normal on September 1, promise a yield of 80 bushels per acre and a total production of 5,680,000 bushels, which compares with a harvested production of 3,300,000 bushels in 1934.

Due to a greatly increased acreage and a better prospective yield, the Texas broomcorn production is much in excess of a year ago. The September 1 condition indicates an output of 9,600 tons compared to 2,900 tons a year ago.

Apple condition is placed at 53 per cent of normal compared with 42 per cent a year ago. The forecast is for a production of 161,000 bushels compared with 134,000 bushels last year. Peaches are rated at 61 per cent of a full crop, or 1,891,000 bushels as against 1,287,000 bushels a year ago. Pears, at 67 per cent of normal, are expected to produce 429,000 bushels compared with 303,000 in 1934. Grapes are reported at 88 per cent of normal and indicate a production of 1,960 tons, compared with 1,600 tons last season.

Texas grapefruit is rated at 34 per cent of normal compared with 37 per cent on September 1, 1934. Oranges are reported at 42 per cent of normal, as against 38 per cent last year. Both grapefruit and oranges gained 1 point in condition during August. The outlook for pecan production in Texas is very favorable. The reported condition is 63 per cent of normal compared with 50 per cent a year ago. This compares with a condition of 36 per cent and a production of 13,900,000 pounds in 1934. This year's forecast production is above that of any year since the record production in 1926.

Swans have more than three times as many neck vertebrae as giraffes. Almost all animals have seven neck vertebrae, but there are a few exceptions. One of these is the swan. Swans have 25, geese 19, ducks about 16, and even the tiny humming bird has 14.

The cornwheel railway to the summit of Pike's Peak, Colo., was completed in 1891.

There is one additional feature which I should like to point out," said Judge Hopping, "and that is the fact that livestock finished and slaughtered in Texas can be shipped by water to the Atlantic seaboard at water rates. Here is an opportunity to coordinate agricultural and industry, and we should realize that this field has great possibilities."

"I am hopeful that Washington is going to help us in establishing these experimental grazing stations," concluded Judge Hopping. "These will put new life into our livestock industry."

tered because of an outbreak of smallpox or diphtheria. Parents in increasing number are having their children safeguarded against these diseases in the first year of life. Likewise, through child health conferences, for preschool children, more and more attention is being given to work on immunization against preventable diseases and to the correction of dental and other remediable physical defects. Such measures will go far toward assuring good health and regular attendance throughout the period of school life. See your physician about diphtheria and smallpox immunization.

Tex. Planning Board Meeting for Austin

Judge R. C. Hopping, member of the Texas Planning Board and chairman of the board's Land Use Committee, has called a meeting of his committee in Austin on September 13. Hopping's committee is interested in working out a land use policy for the State and, consequently, is vitally concerned with any type of land use, such as farming, forests, grazing, recreation, state parks, etc. The committee is working at present on three experimental grazing stations for Texas, viz. one in West Texas, one in the Panhandle, and one in the Gulf Coast section.

"We are concentrating on these grazing stations," said Judge Hopping, "because we firmly believe that Texas cattle should be raised, finished, and slaughtered in Texas. We have every facility, but at present we are shipping our cattle outside of the State to be finished and slaughtered, thereby depriving our State of a legitimate source of income. As proof of Texas ability to finish cattle, I point to the accomplishments of Texas Technological College at Lubbock. For four successive years Texas Technological cattle have taken first prize at the Fort Worth Fat Stock Show in competition with out of state cattle."

"Texas produces ample supplies of feed," continued Judge Hopping, "and we are concentrating on these grazing stations," said Judge Hopping, "and that is the fact that livestock finished and slaughtered in Texas can be shipped by water to the Atlantic seaboard at water rates. Here is an opportunity to coordinate agricultural and industry, and we should realize that this field has great possibilities."

"I am hopeful that Washington is going to help us in establishing these experimental grazing stations," concluded Judge Hopping. "These will put new life into our livestock industry."

DO YOU KNOW OF A BETTER PLACE FOR TREASURE HUNTING? WE WILL ADVERTISE THESE IN THE WANT ADS. AND THESE ATTIC STOW-AWAYS ARE AS GOOD AS OLD GOLD WHEN IT COMES TO BEING TURNED INTO CASH.

CASH Will Gladly Be Paid For Things You Don't Want. EVERY month... every year... every housecleaning... you've been putting something else aside in the family storeroom, intending to "get rid of it," or "give it away," or maybe sell it to someone in need. But you forget. And it keeps accumulating. And you have nothing but a crowded storeroom! We're asking you not to delay another minute! Sit down right now, with a copy of our Classified Columns Section, and see how many people want to BUY the things you've discarded. You'll be amazed to learn that you can convert all those things into IMMEDIATE CASH... or maybe exchange them for things you need. Use the Classified Columns because they spell MONEY for you... and if you don't see the opportunity you want—ADVERTISE.

Our Modern Homes. Did you know that according to actual survey that 60% of the way any mechanical work is done and the finish it has when work is completed depends upon the tools that are used and the working condition they are in? The other 40% is in the workman that uses the tool. No man can make a job finish up as it should without good tools and equipment. Our different departments are equipped with the best of tools and then there are experienced men to use them; therefore, our work is bound to please; our men do not cuss their tools—they work with them! Actual survey also shows that the man with poor tools to work with does 20% less work in the same time that the man with good tools will do; hence, you pay more. Why? Is it because you have never figured this out for yourself, or is it prestige? Well, at any rate you are entitled to what you pay for. But this can grow to be a big item—think it over—then save the difference. Cooperate 100% with Midland's Building Program. Neill's Plumbing-Sheet Metal Works. "BONDED ROOFERS". Pens Are Centennial Number One Exhibit

AUSTIN, (P)—Number one exhibit in the Texas memorial museum at the University of Texas, a Centennial project, will be four pens used in signing laws to provide \$1,275,000 for the enterprise.

Recent acquisition of the fourth, that with which President Roosevelt signed a bill appropriating \$300,000 for the museum, completed the exhibit. The pens ranged from a 10-cent staff to a pearl and gold fountain pen.

Number one pen will be the one used by President Roosevelt in signing the Connally-Patman Coinage Bill June 15, 1933, authorizing minting of 1,500,000 centennial half-dollars.

The American Legion has undertaken sale of the coins at \$1 each to realize \$750,000 for the structure. Next is the pen Governor Allred

used in approving May 6, 1935, the state appropriation of \$3,000,000 for the Centennial, which included \$225,000 for the museum.

The other pen is the one Vice President Garner used in signing a resolution calling for federal participation in the Centennial.

Representative Buchanan of Brantman supplied the pen the president used in signing the second deficiency appropriation bill, which provided the \$300,000. The president returned it to the congressman, who sent it to A. Garland Adair, chairman of the Legion Centennial Committee, for inclusion in the number one exhibit.

A cypress tree on the outskirts of the little town of Santa Maria del Tule, Mexico, is claimed to be the world's oldest living thing. It has been estimated to be at least 5000 years old and measures 127 feet in circumference at its base.

Eight of every 10 homes in America have at least one pet each.

BIG SPRING, PECOS TEAMS ARE READY FOR OPENING GAME

Mentors of both the Pecos and Big Spring football teams have announced that their clubs are ready for the opening game of the season at Big Spring tonight at eight o'clock.

The Big Spring team, district and bi-district winners last season, have a veteran team back and news from there indicates that they are already playing at mid-season form.

The Pecos line will average 160 pounds while the backfield will muster a 169 pound average. Ollie Cordill, giant halfback, is the spearhead of the Steers attack and Pecos will have to stop him to make an effective showing against the Class A club.

The Pecos line will average near 170 pounds per man but their backfield will not average more than about 140 pounds. The Pecos attack is built around Joe Bob Kelton, 125 pound bare-foot speed demon.

Broadway Gondolier

Powell and Blondell In New Novel Musical

"Broadway Gondolier," Warner Bros.' sensational new musical comedy, which reunites the popular stars of "Gold Diggers of 1933," Dick Powell and Joan Blondell, will be shown locally at the Yucca Theatre for the first time at the Preview Saturday night and Sunday, Monday and Tuesday.

The picture heralded as one of the most humorous, as well as romantic productions of the year, is based on a story by Sig Herzig, E. Y. Harburg and Hans Kraly. In the all star cast besides Dick Powell and Joan Blondell, are Adolph Menjou, Louie Fazenda, William Gargan, George Barbier and Grant Mitchell.

The story concerns the romance of a New York taxicab driver, who aspires to be a singer, and the secretary of a big broadcasting concern, who falls in love with him.

There are many novelty features in the picture. One is a complete broadcasting station in which Powell, Blondell and Menjou sing. The Four Mills Brothers also do their act and Ted Rio Rito and his famous orchestra play.

Bands From Far And Near to Appear For Tri-State Fair Sat.

AMARILLO, Sept. 13.—Bands by the score from far and near next week will come here for the Tri-State Fair, which opens Saturday.

Delegates already have been received by the exposition management from 19 delegations.

Sharnock's green-and-white clad band will be in the vanguard, arriving Monday to share the honors with the Amarillo High School Band.

Monday, Sept. 16, is Shamrock Day and Amarillo Day. Schools will be dismissed for children to attend the largest exposition in Texas.

And on Tuesday nobody but the city marshal will be left in Groom. That's the Groom slogan, J. W. Knopp reports.

Wednesday will be a banner day. Six bands are scheduled for that day—Plainview, Hereford, Claude, Happy Panhandle and Tulia.

This last year won top prize for bringing the largest delegation to the fair.

Six more bands will arrive Thursday. Perryton, Borger, McLean, White Deer, Dalhart and Hooker, Okla., will be represented by groups at the exposition.

Friday is New Mexico Day. From the Pecos Valley and other parts of the Sunshine State will come large delegations from the bands, Tucuman, Clovis, and Portales.

Gov. Clyde Tingley will be aboard the New Mexico special train from Tucuman.

Memphis, with its Gold Medal Band, selected last spring as the official band of the West Texas Chamber of Commerce, has selected the closing day, Saturday, Sept. 21, for its visit to the fair.

500 will be in the delegation, according to reports from Memphis.

Experiment Station Studies Effect of Food on Blindness

COLLEGE STATION, (AP)—Wanted: Blind animals of recent birth—calves, pigs, cats or dogs—by interested parties at least one of the Texas Agricultural Experiment Station.

This announcement by officials of the Station, does not herald the collection of a menagerie of sightless animals for an exhibition or museum. It seeks, instead, to make available various blind creatures for observation and study in connection with experiments by Station experts tending to show at least one cause of blindness in the lower animals and possibly human beings.

Lengthy experiments carried on by Fred Hale, chief of the swine husbandry divisions of the Station, have rather convincingly demonstrated that the cause is improper feeding of the dam during pregnancy, or maternal vitamin A deficiency in the ration prior to and while carrying the young.

Having demonstrated this experiment with swine begun early in 1932, the Station experts now are checking up with such experiments or blind animals from other sections of the state.

Many of these reports of young animals born blind have come from that section of the state where forage conditions were materially affected by recent drought.

Regardless of what section of the state they may be, the director of the Experiment Station at College Station has asked that owners of young animals known to be blind get in touch with the Station regarding the availability of such animals for study.

The experiments with swine conducted by Hale include observation of twelve litters of pigs farrowed over a period of more than three years. These litters were born

WOMEN SOFTBALL PLAYERS TO MEET COURTNEY TONIGHT

By JESS RODGERS
Reporter-Telegram Sports Editor

The Midland women's softball team will resume their inter-town campaign here tonight when they take on the females of Courtney. (Wherever that is).

The Midland women, dollies, females or what do you prefer—were undefeated this season in the three games that they have played. They beat the Wink team here by a track score, went to Wink and won by a nose and then practically made the Jal team give up the game for ever by the simple expedient of making them run themselves to death chasing Midland hits. The Midland score resembled a duffer's card after a particularly atrocious day on the golf course.

Mrs. McBride, she of the windmill wind-up and dazzling speed, will be the rubber for the home club when the festivities start at 8:30 or later. There are two female teams here, the Queens and Mermals, and the Midland team made up of players from both teams.

members of an Experiment Station herd from which no other blind pigs had come since it was established twenty years ago, discounting the possibility of hereditary blindness.

The experiments provided for feeding the mother vitamin-A-free ration before breeding and for that period of gestation during which science has shown the eye develops in the pig embryo. In all instances the ration was deficient in vitamin A, the pigs born were blind, some without eyeballs, some with eyes but without sight. The same dams when fed rations containing vitamin A farrowed pigs with normal eyesight. As a double check, blind dams and sires from the litters were bred and, having been under the microscope, vitamin A produced normal pigs.

So much interest was created in scientific circles over the results obtained that Hale was invited to address the Association for Research in Ophthalmology at its session at Atlantic City last June, his subject being "The Relation of Vitamin A to Anophthalmos (born without eyes) in Pigs."

Many inquiries regarding the experiments have been received from leading medical men of the country. Scientists reasoned that vitamin A deficiency in rations for pigs having caused blindness, similar deficiency in food for humans in instances might cause the same defect in human young.

It is in order to continue with other animals the experiments that have been carried out with swine that the Station has asked that it be advised of young blind animals that may be available for observation.

Plan "Inauguration" Party for Redditt

AUSTIN, (AP)—A plan is afoot to give John S. Redditt of Lufkin an "inauguration" party Sept. 12 when he becomes acting governor of Texas.

As president pro tempore ad interim of the Senate, Redditt will succeed to gubernatorial honors when Governor Allred and Lieut. Gov. Walter Woodul attend a conference of oil states in Oklahoma.

He will be the fourth governor Texas will have had in less than a year, others being Allred, Woodul and Sen. Ken Regan of Pecos. The last was chief executive a few hours last spring during the absence of Allred in Washington and Woodul in Oklahoma.

Senators gave an "inauguration" breakfast for Regan which still is talked about. Two former governors, William Pettus Hobby and James E. Ferguson, attended.

Battle to Prevent Erosion Being Waged

AMARILLO, (AP)—The battle to save Panhandle-Plains soil from the ravages of wind and water erosion is being waged on three broad fronts.

Eight 25,000-acre demonstration projects, the first of which was located in Dallam county, will seek to determine the best methods of combating erosion. Four of the remaining projects will be in the Panhandle—in Deaf Smith, Oldham, Sherman, and Ochiltree counties.

The Civilian Conservation Corps, with the cooperation of farmers, is at work on another front. Farm lands within a radius of 25 miles of CCC camps in Dawson, Hall, Lamb and Ochiltree counties will be eligible for work by CCC workers. A CCC camp in Potter county is at work on an experiment designed to prevent

Southern Pines Are Producing Much Seed

COLLEGE STATION, (AP)—Southern pines are producing a bumper crop of seed this fall, reports of the Forest Service, U. S. Department of Agriculture says.

Officials of the Forest Service say that natural reforestation is much cheaper. Longleaf pine seed germinates in the fall, but seeds from shortleaf and loblolly pines mature over winter and sprout in the spring. The wind will scatter some seed several hundred feet out from pine seed trees.

Pennsylvania Village Claims Paving Record

PARKSIDE, Pa., Sept. 11.—Parkside claims a paving record which it believes will stand for many years. During the 1935 season it has concreted 90 per cent of its streets. In making this record it anticipates another. In the next 20 years it expects to spend less on its streets than any other city, and still have first class streets.

This quiet suburban village has a population of only 374. In addition to Main St., which has been paved for years, and which is on the state highway system, there are nine other streets in the village.

When PWA funds were made available, it was decided to proceed with concreting, which has been adopted for street paving on relief projects.

The record it anticipates in 20 years is because of the small amount of money required to keep this new pavement in good condition. Parkside citizens expect their repair bill for the next 20 years will be less than they have spent in any one of the past several years to maintain unsatisfactory streets.
