Mammoth Parade to Open Fair Mapped in Detail

200 HORSEBACK RIDERS; FLOATS; CARS IN LINE-UP

Exact Route of Long Procession to Be Known Soon

Planning the biggest and most colorful parade ever staged in Midland, the parade committee, with sub-committees, are taking care of various divisions, held meetings at the chamber of commerce Tuesday night and this morning to make final arrangements for the procession which will officially open the Midland Fair October 19.

The parade will be early in the afternoon, just before the opening program. As many as 200 people on horseback, including rodeo contestants, cowgirl sponsors, cowboys, old timers, kid riders and horsemen in general, will participate, according to J. E. Hill, W. B. Simpson and Marion Flynn, members of the general parade committee.

There will be decorated automobiles, merchants' floats, bands, clowns, oil supply floats and other entrants of various sorts.

Publication will be made soon of the exact route of the mammoth parade, so that spectators may arrange to park their cars at advantageous points and relieve traffic congestion. Local officers, aided by Boy Scouts and highway patrolmen, will police the route over which the parade will be staged.

Captains for the various divisions are being named by the committee, with some appointments yet to be made. Each captain will be responsible for building up and arranging his division. The parade as a whole will be in three divisions, with the three members of the general committee taking care of one each.

A division will be allotted to women's decorated cars and this is expected to be one of the most interesting non-advertising sections of the parade.

Committeemen especially urged cowboys and riders to get their action to preparing their favorite ponies for the parade, whether the cowboys will compete in the rodeo or not.

Manuel Quezon is Elected President of Philippines

First Philippine President

Manuel Quezon, who yesterday was elected as the first President of the new Philippine commonwealth. He has been a powerful political figure in his country for years and in the election polled far more votes than both his opponents combined. The above portrait was recently painted by Leon Gordon, noted painter.

OUTDISTANCES 2 OPPONENTS BY A LARGE MAJORITY

Election Is Marred By Violence in Sections

By THE ASSOCIATED PRESS
MANILA, Sept. 18.—Dapper, eloquent little Manuel Quezon will be the first president of the Philippine commonwealth, election returns indicated conclusively today.

Quezon, president of the senate and a powerful political figure for two decades, far outdistanced General Emilio Aguinaldo—leader of the insurrection against the United States—and Bishop Gregorio Aglipay in yesterday's balloting.

Incomplete returns from 32 of 50 provinces and other administrative divisions, including Manila complete, gave Quezon 121,502 votes; Aguinaldo 43,818 and Aglipay 18,426.

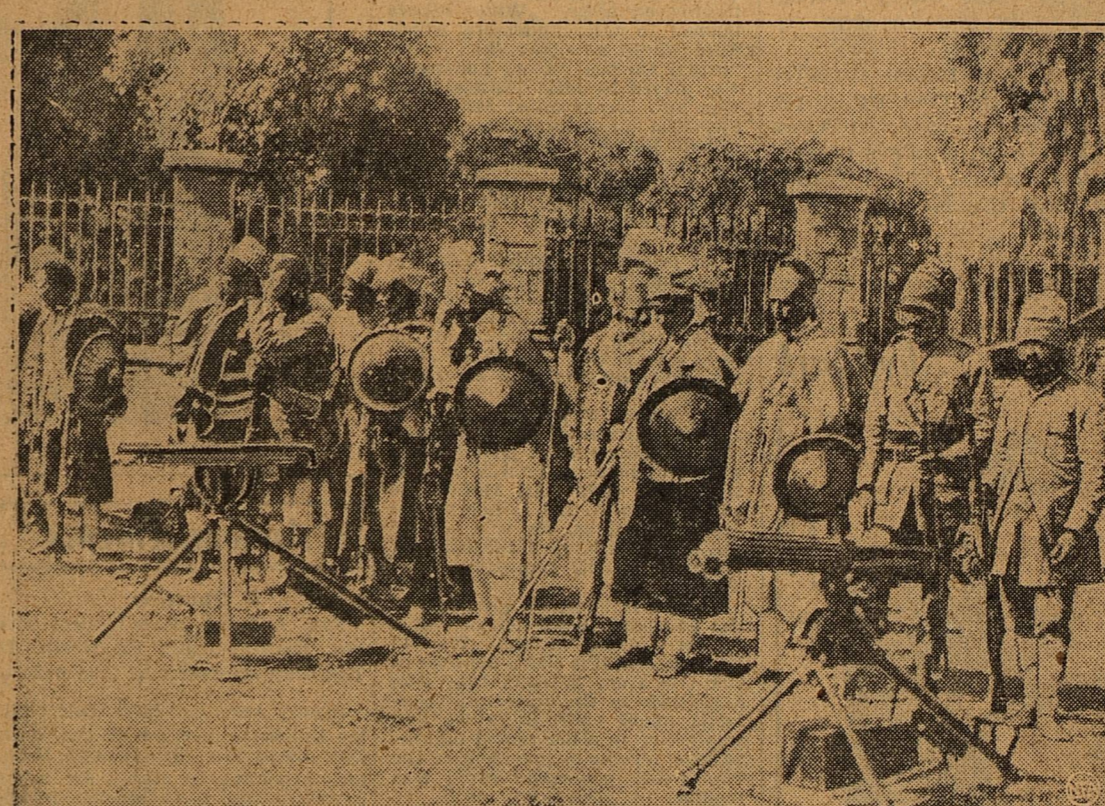

Violence marred the election in some sections following reported threats to assassinate Quezon and kill election officers. One man was slain outright and another hurt fatally fighting at Santa Barbara province of Pangasinan. Two others were reported dead at San Jose in Antique province.

Quezon, a familiar figure in the United States where he has gone on many an important mission, said he was "overwhelmed." He takes office Nov. 15. He will serve 6 years at \$15,000 annually.

The commonwealth government will be inaugurated when Quezon takes office as a 10 year prelude to complete freedom from the United States.

Benigno Osmena, veteran senator, will serve with Quezon as vice president.

Crudely Armed Ethiopians Study Machine Gunnery

Ethiopia's soldiers will be ready for any sort of fighting. Clinging to the shields and lances, wearing their tribal headresses and costumes, the primitive warriors are shown as they were introduced to the mysteries of modern warfare in the form of machine guns. Incongruous sights of this kind have been common in Addis Ababa as Emperor Haile Selassie prepared for war with Italy.

ALLRED SUBMITS NEW MEASURES IN SPECIAL MESSAGE

Treasury Deficit Control Is Asked

AUSTIN, Sept. 18, (P).—Governor Allred today threw open the whole field of revenue and tax legislation in a special message to the legislature. He also submitted old-age pensions and asked for means of meeting the added expense and the existing deficit in the treasury.

"The administration inherited a tremendous deficit," he said and the rural aid appropriation of \$2,000,000 and the centennial appropriation increased it \$3,000,000 more.

The Governor recommended an immediate enactment of a "real graduate tax." He urged a suburban tax, a tax on pipelines, a selective luxury tax and corrective measures in the franchise tax adopted last session.

He also submitted a number of local bills and a bill appropriating \$200,000 for the construction of a state courts building, conditioned on obtaining federal assistance. He said that it was the legislature's duty to determine what pension plan was the best.

"Chain store tax was a state party plank, local merchants are entitled to a fair chance of sustaining themselves and the tax can contribute a just and substantial contribution to the needed state revenues," he said.

He declared that the sulphur companies are amassing an astounding profit from a negligible investment and should make a far more substantial contribution to governmental cost.

The Senate confirmed a recess and appointments submitted by Allred, then speedily, 25-2, passed the bill to conform the Brazos river project act to a federal requirement for the allotment of \$90,500,000 for the project.

FOR QUICK SETTLEMENT

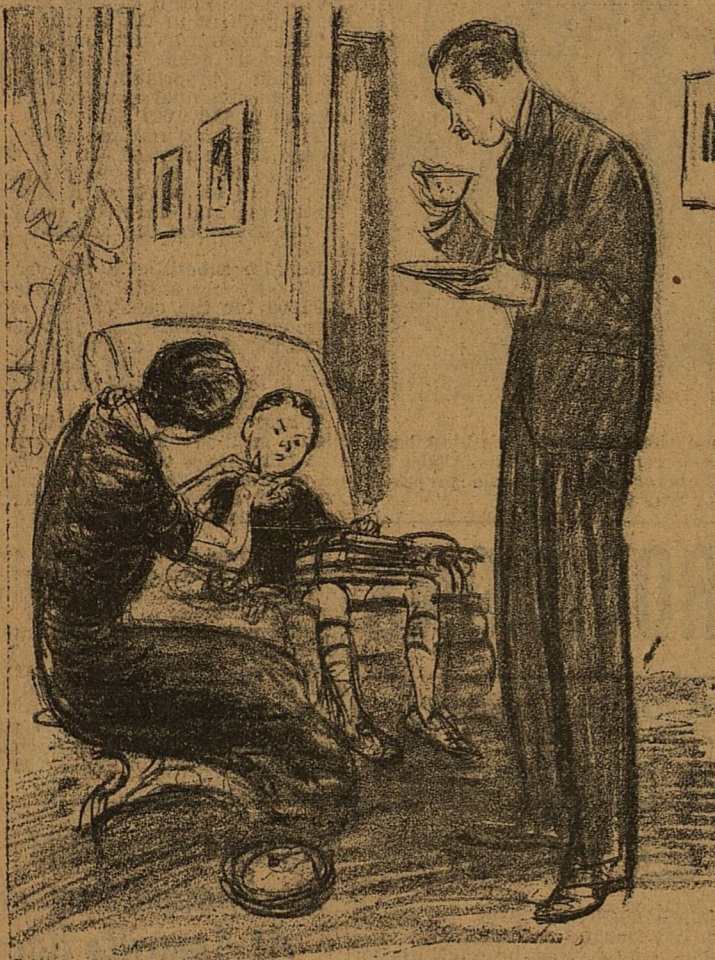

Senator Norris' proposal for a constitutional amendment to prevent five-to-four decisions by the U. S. Supreme Court on constitutional questions will provoke a great deal of debate, certainly; but there is one part of his plan which should meet wide acceptance, and that is his scheme for giving the supreme court original and exclusive jurisdiction in all lawsuits involving constitutional questions.

As things are now, if you wish to test the constitutionality of a law, you file suit in any federal district court. If that court feels the law to be unconstitutional, it can restrain enforcement of the law, and many months may elapse before the question finally reaches the supreme court.

Senator Norris would have the issue taken directly to the supreme court, without all these intervening steps, and his idea looks sensible. It might, in fact, be even more sensible to have the court decide on a law's constitutionality the moment it is passed, before any attempt at enforcement is made. Failing that, the Norris plan is at least a step in the right direction.

Most countries apply the word "backward" to Mexico. We believe the Southern Republic is in advance of most of the so-called "progressive nations" if a press report from Mexico City is true. It states that old cannons and surplus war material will be converted into 10,000 plows by order of President Lazaro Cardenas.

What a pity Senator Cardenas couldn't be present both of Italy and of Ethiopia for a few days!

Our Modern Homes

Since the assassination of Old Man Depression we have all bought ourselves new clothes, new shoes, new suits and dresses, new hats, and new everything except new homes. Now let's get down to where we live and do some new building and remodeling on our homes and make it all look alike. We don't want to look one sided and forget the thing that after all should look its best, too. In buying furnishings for the different rooms of the home don't overlook the bath. This room, the most essential of all, costs less to furnish than any; yet it is one that is most neglected. We are always too busy to notice the bath until it becomes a point of embarrassment to us, then we have to make excuses for it. Keep your bath room as up-to-date as you would your living room or your bed room. People notice them as much as any room. We all admire a pretty bath room. "Let us tell you how."

Missouri Mules 'Enlist' With Italy

The U. S. is determined to be neutral, but Missouri mules will be in the thick of the expected fighting in Ethiopia. Here is a truckload of them being started on their way from an Italian port to the East African front. Motorization and mechanization may be the new order of the day in conflict, but there still is a place for the mule, on difficult terrain where mechanized equipment can scarcely travel. Italian commanders plan to use thousands of them in Ethiopia if war comes.

COACH DRIVING BULLDOGS HARD FOR GAME WITH COLORADO FRIDAY NIGHT

With game time only two days off Coach Baumgarten is driving the Bulldogs hard for their first game of the season, Friday night with the Colorado Wolves.

With Adams, giant Bulldog tackle, out with injuries and unable to play in the game it is certain that the Bulldogs will be out-weighted when the game starts.

The Colorado club will start a team on the field that will average 161 pounds in the line and 162 in the backfield.

It is the consensus of opinion of those who have seen the Colorado boys in their daily workouts that they have a team that is 100 percent better than they had last season.

The Colorado club beat the Midlanders last season by a 12-0 score and with a team that is admittedly twice as good as they had last season they will undoubtedly enter the game here Friday night a two or three touchdown favorite to win the game.

Nine members of the team that played against the Bulldogs last season will again be seen in action in Friday night's game. One other man, Garret at tackle, played against Midland in 1933.

FLUBDUBS

O. K. then we are a liar. But is it our fault that the Port North team did not show up here yesterday?

Unless we are mistaken the Cats did the same thing last year. They were booked to appear in Wink one day after the season was over last season but failed to get there or to let anyone know that they would not be there.

Such barnstorming trips should be prohibited or else club officers should be held responsible for the failure of the teams to appear where they were booked. There was a people from several West Texas towns made a trip here yesterday under the impression that the Cats would be here.

After answering the telephone a few hundred times and telling inquiries that we did not know whether the game would be played we finally received word from a friend in Big Spring that Milstead, acting manager of the barnstorming team, reported they would not be in this section of the country for awhile.

The game was supposed to have been the gist of a conversation Monday between Milstead and Miller Harris, Big Spring manager. If that was the truth, and we certainly have no reason to doubt it, then it was damn unfair of Harris not to notify this department.

Enough of that—take it away. Well the finals are about to begin in the softball race and the town is positively not all a-twitter over it. League rules have not been enforced and the season is about to end in the poorest fashion of any year.

ADAMSON SHUTS OUT SOUTHERN ICE TO PUT GULF IN PLAY-OFF FINALS

One big inning, the first, in which the Gulf scored all their runs, enabled the Gulf Refining team to eliminate the Southern Ice from the softball championship this season and put them in the final play-off with the Hughes Tool club.

The Gulf, after having retired the Ice scoreless in its half of the first inning, lost no time in landing on Sherrod in the first inning and made six runs on three hits, two walks and two errors.

To start the inning Burris walked, Woods singled, Heath went out to the infield, Whitmire walked and two men scored when Stevens reached first on an infield error. Cook also reached first on an error and two more Gulfmen came in on the bobble. After Chandler flew out to left fielder came through with a long home run, scoring Cook ahead of him.

The Gulf threatened again in the second when they got two men on singles but Bill Howard went in for Sherrod and very effectively stopped the Gulf bats for the rest of the game. He gave up only one hit for the rest of the game but his pitching went for naught when the Ice were unable to get more than one hit per inning off Adamson.

The Ice got five hits off Adamson, two of them by Manning, but were never able to get a man past third as Adamson always had enough left to get out of a hole on the few occasions that he was in one.

A&M PLAYS FIRST GAME SATURDAY

COLLEGE STATION.—The test of nearly two weeks of solid drill will come for Coach Homer Norton's Texas Aggies here Saturday when they open their season against the Stephen F. Austin Lumberjacks.

Since their first scrimmage the past Saturday the Cadets have been definitely pointing towards their opener. The Lumberjacks, long doormats of the Lone Star Conference, began pulling for the top the past season and are reported as coming up with their best team of record.

Knocking the Lumbermen have Turner, rated as one of the best passers in the state, to toss passes and a quartet of veteran, long-armed wingmen to catch them, the Cadets are expected and preparing for an air raid.

Two full teams have been picked by Coach Norton to bear the brunt of the Aggie work, but all remaining members of the squad probably will see service if game progress justifies it. Seven of the Aggies' nine lettermen probably will be included in the first Cadet team on the field but the second probably will have ten sophomores listed.

These teams are: Aggie, Franklin, le; Selmer, Kirby, Amarillo, lt; Marion, Crow, Milford, lg; Charley DeWare, Brennan, c; Nick, Willis, San Antonio, rb; Martin, L. Dallas, rt; Johnny Morrow, Wortham, re; Doc Pinner, Denton, qb; Bob Nestra, Flatonia, lb; Percy Reid, Corpus Christi, rb; Les Cummings, Bryan, fb. All are lettermen except Reid, a squadman, and Lindsey, Morrow and Nestra, squadmen.

Warren Church, Colorado, lt; Virgil Jones, Sweetwater, lg; Stan Stach, Cameron, c; Walter Phytling, Fort Worth, re; Ed Ender, San Antonio, rb; Roy Young, Port Arthur, re; Dick Vitek, Granger, qb; Ed Wicker, Corpus Christi, lb; Bill Gilmer, El Paso, rb; Ed Ender, Schroeder, Lockhart, fb. All except Stach, a letterman, are sophomores.

WORLD SERIES TO OPEN OCTOBER 2

CHICAGO, Sept. 18. (P).—The 1935 World Series will open in either Detroit or New York Oct. 2, it was decided Tuesday at a meeting presided over by Kenesaw Mountain Landis, baseball commissioner.

It was decided that the series opener would be played in the city of the American League pennant winner. Detroit now holds a commanding lead over the second place New York Yankees.

National League officials waived the first game privilege, explaining that if St. Louis wins the pennant it would be impossible to accommodate the World Series crowds on that date, as a big convention will be in the city.

The following schedule for a seven-game series, if that many are necessary, was agreed upon: First two games, American League city; next three games, National League city; sixth and seventh games, American League city.

Official but we have heard from several that they will have a better team than they did last season despite the fact that they lost several of their key men by graduation.

"Front Page" Back to Ritz Today-Thursday

A ruthless behind-the-scenes picture of the metropolitan press is "The Front Page," which Edward Hughes, the youthful producer, is presenting at the Ritz today and tomorrow.

"The Front Page" is biting, cynical, humorous, and tense, with surprising situations that make even a hard-boiled reporter who has quit the game come back to it in order to land a scoop for a managing editor whom he hates like poison.

Pat O'Brien's place in the movies is secure as a result of his brilliant portrayal of the role of Hilly Johnson, the star reporter who tries to quit reporting and settle down to a quiet married life, but can't because he is so clever his paper won't allow him to escape from the maelstrom of "the front page."

Audiences are going to be surprised at Adolphe Menjou in the role of the suave, loveable, but hard managing editor—Walter Burns. Menjou, whose acting has been confined to the niceties of the drawing room in the past, proves himself a versatile and powerful trouper in this role—something completely different from anything he has ever essayed before.

Mary Brian has the role of the little girl who is going to marry a wild reporter and take him "away from it all." Others in the cast include Frank McHugh, Edward Everett Horton and Slim Summerville.

A weight of 188 pounds can be supported by silver wire 1/12th inch in diameter. It has been estimated that the largest Egyptian pyramids weigh 6,000,000 tons.

Cosmetic Advisor Is Now at Midland Drug

Mrs. Cora Chesnut, representative of the Krank cosmetic line, is now at the Midland Drug company where she will give free facials. She also advises on the blending of rouge, lipstick, and powder to achieve a harmonious makeup.

Landi and Cavanagh Star in Yucca Show

Adapted from the famous Broadway stage hit, "Interference," "Without Regret," Paramount's daring, romantic drama which comes today to the Yucca Theatre, has been translated to the screen with Elissa Landi, Paul Cavanagh, Frances Drake and Kent Taylor in the leading roles.

A highly involved piece of adult entertainment, "Without Regret" pictures the strange predicament in which a woman finds herself embroiled. Marriage to a dashing, disolute aviator in China after a one-day romantic adventure with him, leads her to regret her mad moment years later when, believing him dead, she marries a noted London doctor. About the time he is about to be given a title in recognition of his medical service, the old sweetheart of her first husband gives out the startling disclosure that the first husband is alive.

How she attempts to save her home, husband and baby from scandal, ruin and disgrace forms the basis of this gripping, sophisticated photoplay. Harold Young directed.

Tips Out for Those Visiting in Mexico

LAREDO. (P).—American tourists to Mexico no longer will have to obtain bonds for their cars, hire guides and give "tips" as all that has been abolished by the Mexican congress.

In place of the bonds and guides the Mexican immigration service will arrange for everything for the tourist entering Mexico and only the customary tourist card charge will be made.

The new law, about to be put into effect, also permits residents of Nuevo Laredo, Mexico, and other Mexican towns and cities on the Mexican side of the boundary line to buy an automobile in the United States and take it into Mexico without the payments of duty provided such residents live within twenty kilometers of the border and will keep the car there, should such a resident desire to take the car outside the limit permitted duty free he would have to pay the regular duties or obtain a 90 day permit.

The new regulations are expected to stimulate tourist travel into Mexico and save tourists much unnecessary expense.
