

# The Big Spring Herald

Big Spring, Texas, Friday, September 21, 1928

By T. E. Jordan

## Oil Showing Encountered At 440 Foot Depth

It is possible that some of the companies now operating in the oil field south of Big Spring may be fortunate enough to secure a commercial well right at the grass roots.

The Louisiana Oil & Refining Company encountered a nice showing of oil at a depth of 440 feet in their test well on section 3, block 32, township 2-South, about twelve miles south of Big Spring Wednesday.

This is the shallowest oil showing yet reported in the oil development in our county.

With commercial wells secured from so many different depths in our county it will not be surprising if some drilling does not find pay at a very shallow depth.

## S. C. Lamar Buys Feed Business

Sam C. Lamar recently purchased Leo Nalls' interest in the Feed Business of Nail and Lamar and is now sole owner and proprietor of this business and ready to supply all needs for the best of everything in the feed line.

The warehouse at the corner of East Third and Johnson Street recently damaged by fire, has been repaired and a complete new stock of feed has been received. Sam Lamar has been connected with this business the past fifteen years so he needs no introduction or recommendation. All are assured of getting a square deal at this feed store.

It will be located at the same old stand with the same phone number, 271, so remember the name and place when in need of feed.

## Free Airplane Rides To Be Given Sunday

F. R. King is going to give the employees of the Big Spring Laundry Company a free ride in his plane Sunday. Mr. King has planned to treat them last Sunday but his plane failed to arrive in this city on time. The pleasure will be theirs the coming Sunday.

At 4 o'clock the pilot of the plane will do some solo stunt flying to thrill the crowd and to demonstrate the sturdiness of the plane.

This plane which is manned by a dependable pilot, is at the service of all men or anyone desiring to use it.

## Switchman Killed At Houston Today

HOUSTON, Sept. 20 (AP).—J. E. Johnson a switchman employed by the Southern Pacific Railway was instantly killed here today when he fell from a box car and his body badly mangled by the wheels of a train.

Mrs. Joe M. Faucett has returned from a visit in Marshall, Texas. While there, the piano from the home of her parents who are deceased, was donated to the First Methodist church, South, of that city, of which they were both devout members, as a memorial, also the erection of a double monument was erected over their graves.

## E. Hooks New Mgr. Telephone Company

E. Hooks is manager of the Southwestern Bell Telephone Company in this city, succeeding F. C. Cayton, who has been transferred to the oil fields west of Big Spring. This change became effective Monday, September 17.

Mr. Hooks comes to Big Spring from Amarillo, where he has been in the employ of the telephone company. He states that he is going to do everything within his power to give Big Spring the best telephone service she has ever had, and they are working on the system now, to assure the customers first class service.

## EX-COWBOY SENTENCED TO 30 YEARS IN STANTON ORGY, LOSES HOPE

Les Smith, ex-cowboy, sentenced to 30 years in the state penitentiary at Huntsville by a jury at Baird for his alleged participation in the slaying of two Mexicans at Stanton December 23, last, in a "framed" holdup, will likely begin his term soon. Smith was denied additional privileges to perfect an appeal by Judge Milburn S. Long, yesterday in 42nd district court.

Smith was convicted at Baird after a trial in Abilene resulted in a hung jury. After the Baird trial he gave notice of appeal and was allowed 90 days.

## Parking Law To Be Effective After Friday

The Ordinance Defining Parking Zone To Be Published In Weekly Herald Friday

**Let Us All Cooperate**

Parking Time Limit To Be Stenciled On Curb So All May Be Warned

With the publication of the City Ordinance designating the time limit parking zone in Big Spring and prescribing penalty for violation thereof, in the weekly issue of the Big Spring Herald Friday September 21st, the ordinance will become effective immediately thereafter.

The work of stenciling the time limit permitted for parking on various streets will be stenciled on the curb so all may be advised of the time they are allowed to park on that particular street.

It will be to your interest to read and study this ordinance as there are other provisions contained therein.

Parking cars on the streets from midnight to 8 a. m. in violation of this ordinance. Parking in a reserved space in front of the post office is also prohibited.

## Pre-School Exams At North Ward

Thirty pupils of pre-school age, were given examinations at the North Ward school yesterday afternoon by the doctors of the city, assisted by the public health nurse. Of this number twenty-four of the pupils were found to have one or more defects.

The following results were noted: Twenty-one had one or more cavities in teeth. Seven, malocclusion. Seventeen enlarged or infected tonsils. Five adenoids. One chronic ear trouble. Two heart cases. Two poor posture. Two eye trouble. One skin infection. Four underweight, 10 per cent or more. One anemic. Eight enlarged glands of the neck.

In this group of pupils, teeth and tonsils were the outstanding defects.

The pupils of the South Ward school of pre-school age will be given examinations tomorrow afternoon.

## 22 Rattlesnakes Killed In 30 Days

22 rattlesnakes in 30 days, is a record made by workers on the Big Spring Pipe Line Company, who are working south of Big Spring. The 22nd snake was killed this morning by R. E. Beall, gauger for the Big Spring Pipe Line Company. The snake was a monster, with 13 rattles and a button. Striking Mr. Beall on the heel of the boot, the snake attracted his attention in time to keep him from being bitten. He killed the snake. This record averages almost a snake a day and we think that's lots of snakes.

## ANOTHER TOURIST PARK

It is rumored that a \$60,000 Auto Tourist Camp, one of a national chain system, is to be erected on the Bankhead Highway in the western part of the city in the near future.

## DEEPL BOCK WILL SPUD NEW TEST IN ANDREWS

Deep Rock Oil Company second Andrews County test will be spudded by Oct. 1. The water well is completed. The new test will be on the southeast quarter of section 20, block A-48, public school lands, Andrews County. The new hole is one and a quarter miles southeast of Deep Rock No. 1.

Deep Rock No. 1 is gasping and showing some oil, but is shut down for engine repairs.

## Death Toll of 300 From Sunday's Hurricane in Fla

WEST PALM BEACH, Sept. 20 (AP)—The known death toll from Sunday's hurricane has mounted above 300 lives today. A. G. Parker, City Manager of West Palm Beach said the official check showed thirty-five white persons and two hundred and fifty negroes had been buried here.

While the search for additional dead and a count of the injured and homeless from Florida's most destructive hurricane went forward in the storm area today, additional relief was speeding to the district from every direction. Food, clothing, medical supplies and building material, were hauled into the stricken Lake Okechobee area by train and boats, while trucks and other conveyances continued their mission of mercy to the injured and sick or brought the dead out for burial.

Estimates of the dead continued to vary between 325 and 400.

The majority of those killed were negroes who were employed as laborers on farms. Red Cross officials placed the number of homeless at 1,500.

## Aviators Can Identify City

"Big Spring" in letters as big as a box car will soon be displayed on the roof of the El Paso Compress and Fumigation Company's big warehouse so aviators can identify our city from their planes.

The special paint is expected to be received next Wednesday and the work completed at once.

Frank R. King, local aviator, after a thorough inspection and study of the city from the air said the sign on the roof of the compress warehouse would prove the best spot by long odds.

## RAIL LINE ASKS PERMIT TO ISSUE SINGLE BOND IN SUM OF \$9,000,000

WASHINGTON, Sept. 20 (AP)—Permission to issue a single 8 per cent bond in the total sum of \$9,000,000 was asked of the Interstate Commerce Commission Wednesday by the Panhandle & Santa Fe Railroad. The company is a subsidiary of the Atchison, Topeka & Santa Fe system and it proposed to deliver the \$9,000,000 bond to the parent corporation in payment of money advances which it has received during recent years.

## 15 INCH RAIN IN S. C.

FLORENCE, S. C.—Worst storm in history. No mail trains in or out last 36 hours. Damage to cotton and other crops eastern Carolina run into millions. Twelve inches rainfall between 8 o'clock Monday evening and 8 o'clock Wednesday evening. All highways and railroads tied up for indefinite period account washouts and highwater.

## DETROIT, Sept. 20 (AP)—The Packard Motor Company today announced successful completion of test flights with an airplane powered by an oil burning motor, the first Diesel type aircraft engine ever built.

## Mrs. A. A. Barnett, Jr., after a two weeks visit in this city with relatives and friends plans to leave in the morning for her home in Mesquite, N. M. Her mother-in-law, Mrs. A. A. Barnett and Bryan Barnett will accompany her to Mesquite for a visit.

## Dr. W. E. Hardy leaves in the morning for Sweetwater, where he will attend the West Texas Dental Association and to take some work in post-graduate courses.

## Mrs. Louise Pistole left last night for a visit with relatives and friends at Bryan.

## R. L. Sanderson has returned from an extended visit through points of interest in California.

## Dr. E. H. Hoppel plans to leave in the morning for Sweetwater, where he will attend the West Texas Dental Association and to take some post-graduate work.

## Herald want ads get results.

## Architects For Addition To Crawford Hotel

Peters, Haynes and Strange Are Selected to Prepare Plans for Addition to Crawford Hotel

**100 Room Addition**

Contract to Be Let As Soon As Architects Can Complete Plans and Specifications

Peters, Haynes and Strange, architects of Big Spring and Lubbock, have been awarded the assignment to prepare plans and specifications for the new addition to the Crawford Hotel.

This firm has secured the job of preparing plans for specifications for the six story office building to be erected in Big Spring; for Drs. Hall and Bennett hospital now under construction and their work is meeting with the approval of our citizens.

A. J. Crawford, owner of the hotel made the selection after most careful consideration.

In addition to one hundred guest rooms, there will be a large lobby, mezzanine floor, banquet hall, dining room, etc.

Nothing is to be overlooked to make this one of the finest hotels in the West and a credit to a city of 100,000.

Mr. Crawford is very anxious to get started on this hotel at the earliest possible date as his present 150-room hotel cannot meet the demand for hotel accommodations at the present time.

## Piggly Wiggly No. 2 To Open Saturday

Piggly Wiggly No. 2 will have its formal opening in Big Spring on Saturday. A big celebration is being planned for this date and favors and prizes will be given to all who visit the new store on the opening day.

The new fixtures have arrived for the grocery and market and are installed and everything is in readiness for the big opening. Le Roy Merrick will be checker at Piggly Wiggly No. 2 and Wayne Mims will also work here.

The new store is located on the Lamesa highway, across the street from Ruekert Bros. on the north side of the track. Remember the date and attend the opening.

## GASOLINE STOCKS CHANGE BUT LITTLE; SHIPMENTS GROW

TULSA, Sept. 19.—Gasoline stocks at Midcontinent refineries reporting weekly operations to National Petroleum News were virtually unchanged for the week ended Sept. 14.

Gasoline shipments increased 2,400,000 gallons during the week while production increased almost 2,000,000 gallons. Crude charges to still were higher by 9,584 barrels daily average. Kerosene stocks were reduced 192,000 gallons.

## Winkler's Daily Output To Be Cut 25,000 Barrels On October 1

FORT WORTH, Sept. 20 (AP)—Proration order now in effect in the Winkler county field will be extended for an additional six months when the first six months order expires on November 5. Chairman Gilmore of the Texas Railroad Commission announced at the conclusion of a special hearing in Fort Worth Wednesday.

The hearing was called and held on the question of reducing the present production allowance from Winkler county from 175,000 barrels per day to 150,000 barrels per day as recommended by the operators advisory committee.

After a conference with his colleague at the hearing Commissioner Terrell, Chairman Gilmore also announced that the 25,000 barrel cut would also be ordered, effective October 1. Extension of the general proration order, which allows changes in the amount of production allowed as circumstances indicate from time to time, was unanimously urged by all the operators in attendance at the hearing.

## DEEP ROCK WILL SPUD NEW TEST IN ANDREWS

Deep Rock Oil Company second Andrews County test will be spudded by Oct. 1. The water well is completed. The new test will be on the southeast quarter of section 20, block A-48, public school lands, Andrews County. The new hole is one and a quarter miles southeast of Deep Rock No. 1.

Deep Rock No. 1 is gasping and showing some oil, but is shut down for engine repairs.

## Enrollment In Schools Reaches 1748

Unders Will Be Taken Care of In Central Ward School. Except Those Enrolled in the North Ward

Crowded conditions continue to prevail in the Big Spring schools. Total enrollment has reached 1748, and new ones are continuing to come in daily.

Crowded conditions in the High school warrant another teacher. This place has been filled by Miss Kitty Wingo, who will teach the seventh and eighth grade mathematics and English.

All "unders" will be taken care of at the Central Ward school, except those enrolled at the North Ward school. Some 60 "unders" have been enrolled. There will be a teacher added to take care of the overflow in the schools. A special primary teacher will be assigned to take care of the "unders" and she will teach no other classes. In all probabilities the "unders" will only attend school one-half day.

"Unders" will not start to school until Monday morning. Next Monday morning all unders are asked to report to the Central Ward school at 9 o'clock. The North Ward unders will be taken care of at the North Ward school, where they are now enrolled.

Enrollment of the Big Spring schools, on the second day is as follows:

Mexican school	44
North Ward	106
South Ward	287
Central Ward	373
Senior High	315
Seventh Grade	194
Senior High	432
Grand Total	1748

## No Poison Is Found In Body Of Dead Girl

WACO, Sept. 20 (AP)—Dr. W. V. Gooch, chemist of the Baylor University, reported today he had not found definite proof of any poison in the viscera of Adeline Frazier, aged seventeen years, who died at Mexia, Tex., last Friday from what officers described as a strange illness. Mrs. Willie Frazier, the step-mother of the girl has been held in jail at Greenville on a complaint charging her with murder.

The death of Adeline occurred three months after her sister, Calje, aged fifteen died under similar circumstances at Texarkana.

## Splendid Football Spirit Is Shown In District Court

The last criminal case for this term of District Court was completed with the hearing of the State of Texas vs. J. L. Mixon, charged with assault with intent to murder. The case was given over to the jury Wednesday afternoon. After inability to agree upon a verdict the jury was discharged this morning.

The men, who were chemists for the company, were conducting an experiment dealing with cooling gasoline with liquid air when the explosion occurred.

## Two Burned When Gasoline Explodes

HOUSTON, Sept. 20 (AP).—J. Von Henstet was burned severely and C. H. Davidson was slightly burned in an explosion at the Gulf Refining Company's laboratory here today. The blast blew out all the windows in the laboratory. The men, who were chemists for the company, were conducting an experiment dealing with cooling gasoline with liquid air when the explosion occurred.

## WEATHER FORECAST

Louisiana—Generally fair tonight warmer in west and north portion. Partly cloudy Friday warmer.

Arkansas—Partly cloudy tonight warmer. Unsettled Friday, showers in northwest portion warmer in the east portion.

Oklahoma—Mostly cloudy local showers warmer in southeast tonight. Cooler in west and north portions Friday.

East Texas—Partly cloudy warmer tonight in east and south portions. Showers Friday in northwest portion.

West Texas—Partly cloudy in south, local showers in north portion. Cooler in Panhandle tonight and in north portion Friday.

## RESESS BRING HIGH PRICES

A sixty acre tract of land was leased by an oil company at a price of \$50 an acre while another one hundred and sixty acre tract brought \$40. This land is approximately two miles from the test well drilled by the Marland Oil Company on the John Guitar ranch and which test was rated as a non-producer.

From the price these leases brought it is evident that a dry hole does not condemn a very large area in our county.

Mrs. Manly Cook and son return this morning from a visit with relatives and friends in McKinney, Texas.

C. S. Holmes left this morning for a visit with his daughter, Mrs. Allen J. Moore in Liberty, Mo.

## Jitney Line To Have Regular Schedule On 3rd

Sixteen Passenger Bus to Maintain Regular Schedule On Bankhead Highway In City.

**A 10 Cent Rate**

Will Run From City Limit On East To City Limit on West

A cross-town bus line is the next new innovation for Big Spring. J. F. Garrison of Ralls, Texas, after making a thorough survey of the proposition is thoroughly convinced that our city needs just such a convenience.

Mr. Garrison has secured a franchise to operate the bus line. A charge of ten-cents per passenger is to be maintained.

Mr. Garrison is to operate a sixteen passenger bus, and will make stops at every street crossing to pick up or discharge passengers.

The bus will run from the city limits on the east to the city limits on the west. An effort will be made to have a forty-five minute schedule.

Mr. Garrison plans to start this service Friday, September 21st.

## Crank Asks \$100,000 In Threat Letters From John Raskob

PHILADELPHIA, Pa. Sept. 20 (AP).—A man aged about sixty-five years and giving Philadelphia as his home was today held in \$100,000 bail on a charge of threatening to blow up the home of John Raskob, Democratic National Chairman, unless he was paid \$100,000. He gave the name of Frank Mooney. The threats were contained in three letters sent through the mails according to private detectives.

Mooney admitted the charge and was arrested when he called for a letter from Mrs. Raskob at the post office here.

## Governor Smith Speaks at 7:30 P M At Oklahoma City

OKLAHOMA CITY, Sept. 20 (AP)—Arriving here today, Governor Smith immediately found himself the center of a monster Statewide demonstration. A great crowd which had waited since early morning sent up a tremendous shout as the Democratic presidential nominee's special train pulled into the depot at 10 a. m. The train was one hour late.

Governor Smith will make his second speech on his campaign in the West, tonight in the coliseum of the State Capitol. By working late last night, while his train moved through South Kansas, he had assembled a rough draft of his address, which is expected to be one of the most important of the series of six to be delivered in the middle and far West.

The address starting at 7:30 p. m. will be broadcast over thirty-four radio broadcasting stations.

## \$5,000,000 Damage By Severe Storm In Old Mexico

MEXICO CITY, Sept. 20 (AP).—Property loss exceeding \$5,000,000 and extensive damage to crops is described in newspaper dispatches from Tampico, as a result of a heavy storm which has been ranging in the region between San Geronimo and Tuxpan for several days.

The petroleum companies operating in that region have suffered great property losses.

## Jury Returns Verdict Of Guilty

A jury in the case of the State of Texas vs. R. S. McDonald charged with the murder of Johnnie Jones of Stanton on trial in district court at Midland this week, returned a verdict of guilty and assessed punishment at five years in the penitentiary. The shooting occurred near Grand Falls and was transferred from Ward County to Midland. Notice of appeal has been filed by defendant.

## Maryland Suffers Storm Damage

BALTIMORE, Sept. 20 (AP).—With three known dead and property damage which will mount into thousands of dollars, the full force of the severe wind and rain storm which swept eastern Maryland had spent its force this morning and in its wake were swollen rivers and flattened crops. There is a possibility that the storm damage would be augmented by flood conditions.

## Coolidge Now Hope For Rail Settlement

CHICAGO, Sept. 19. (AP).—Representatives of 55 Western railroads and 70,000 trainmen and conductors now look to President Coolidge to expedite a settlement of wage differences between them.

The Federal Board of Mediation, which has been attempting to reconcile opposing demands of the unions and railway officials for the past week, announced Tuesday that no adjustment of wages and the working rule had been reached.

No definite official action can be taken for two months, officials explained, although the trainmen and conductors have voted in favor of a strike. If President Coolidge should intervene and appoint a fact-finding commission, under the railway labor act, the special board would have 30 days to investigate and report. If such a report were made, the unions would be compelled to wait another 30 days before acting. If the President should decide to refrain from taking a hand, the unions might act at once.

## Governor Smith Speaks at 7:30 P M At Oklahoma City

OKLAHOMA CITY, Sept. 20 (AP)—Arriving here today, Governor Smith immediately found himself the center of a monster Statewide demonstration. There is a possibility that the storm damage would be augmented by flood conditions.

## Need More Hotel Accommodations

The Lumbermen's Convention which was scheduled to be held in Big Spring in November has been transferred to Sweetwater.

Lack of hotel accommodations was responsible for changing the meeting place.

## Need More Hotel Accommodations

The Lumbermen's Convention which was scheduled to be held in Big Spring in November has been transferred to Sweetwater.

Lack of hotel accommodations was responsible for changing the meeting place.

## Need More Hotel Accommodations

The Lumbermen's Convention which was scheduled to be held in Big Spring in November has been transferred to Sweetwater.

Lack of hotel accommodations was responsible for changing the meeting place.

Sheriff Frank House returned Monday from Vernon where he had gone to bring to this city Price Martin Boyce who was wanted on charges of forgery.

EL PASO WOMAN DONATES TO CEMETERY ASSOCIATION J. F. Wolcott reports a donation of \$5 to the Cemetery Association by Mrs. Kate Farnham of El Paso.

### Schools Open Big Enrollment

Many Visitors Attend Opening Exercises At Ward Schools; No Opening Exercises At High School

### Big Increase Noted

Teachers And Pupils Seem Most Optimistic on Opening Day; Look Forward to Good Year

The school bell rang this morning calling the pupils away from play, back to their books and studies. The Big Spring schools show a decided increase over last year's enrollment and it was a difficult task to find places for the many pupils that filled the different school buildings this morning. Of course it will take time to make adjustments, and to get the students properly enrolled and classified but when this is done everything will be in fine running order and will be in fine shape. This afternoon an accurate total of the number to enroll in the various schools could not be obtained but we will give a report of the total enrollments at the various schools tomorrow.

All of the teachers and pupils were in a most optimistic mood this morning and all seemed happy that school was starting again. Many of the mothers accompanied the children to school and there were plenty of visitors.

Everyone made the most of the situation and the crowded conditions did not put teachers, nor pupil in a flurry. Superintendent Blankenship was about the busiest man in town this morning. He made a visit to the various schools, to note the conditions and he plans to give us a report of the opening of the different schools and enrollment just as soon as this information can be obtained.

The outlook for the year is bright. With the strong corps of teachers working hand in hand with Mr. Blankenship and their principals, we are sure to have wonderful results and much good work accomplished.

### Buick Coupe Runs Off Embankment

A 1928 model Buick coupe was badly damaged Saturday night when it ran off an embankment, one and one half miles west of the city. We were unable to learn the name of the owner of the car.

D. C. Maupin left Sunday for Christoval where he will visit with Mrs. Maupin, who is in Christoval drinking those famous health giving waters.

### Howard County Advisory Com. and Umpire Chat

Dowley Well Has Water at Total Depth of 2,940 Feet, Louisiana Begins Drilling Today

### New Proration Period

F. H. E. and Moody's No. 3-E, Roberts Finds Formation 50 Feet Higher Than in Cosden's No. 1

NEW DRUMRIGHT, Glasscock County, Texas, Sept. 15.—The Howard-Glasscock field will have a daily production allowance of 25,000 barrels, from September 15 to October 15, according to recommendations made today by the Howard County Advisory Committee to the State Railroad Commission.

The Howard County Advisory Committee, with Umpire E. E. Andrews, set in a hearing this morning at 10 o'clock at the Crawford Hotel at Big Spring with the operators of this field and it was decided that the production conditions of the field warranted the increase. R. T. Piner, vice-president of the West Texas National Bank is chairman of the committee and presided at the meeting.

After a discussion with a number of the producers, the committee recommended to the umpire that all wells that have been given the 24-hour test during the past 30 day period and are now on the pump should be given a 24-hour pumping test to establish their proration during the 30-day period beginning today. New wells that have not been on production will be given a test by swabbing if the producer so desires. This is allowed so that the well may be properly cleaned and the producing horizon properly opened.

A resolution was also adopted by the committee recommending that should a well be completed which showed a production gauge of 300 barrels daily or less that such a well be allowed to produce its full amount and not be required to meet the percentage on proration.

The work of the Umpire, E. E. Andrews, it was indicated at the meeting, has been such that all the operators are well pleased with his fairness in the handling of the many naughty problems that he has been required to work out as umpire prorating the oil and establishing the daily potential production of each well for this field.

The pipe line outlet for the field will be approximately 20,000 barrels daily by the end of this week. The Shell line handling 15,000 barrels daily; the Magnolia runs their own production which has been 3,399 barrels daily; the Big Spring Pipe Line Company announced that beginning with Wednesday or Thursday they will be ready to run 2,500 barrels daily. The Big Spring Pipe Line Company's line will have a capacity of 3,000 barrels daily. The Humble line, it is reported, will not be ready to take oil from the field for nearly 10 days yet.

Dowley Gets Water The Dowley, No. 1 Chalk, located in the southwest corner of the northeast quarter of section 127, is reported with bottom water at a total depth of 2,940 feet. This test adds some history to the northeast side of the deep lime field.

The Magnolia's No. 9 Roberts has the six inch cemented at 2980 feet. The rotary has been moved off and cable tool being rigged up to drill in with. This is an offset south to the first deep producer of the F. H. E. The No. 3-E, Roberts of the F. H. E. and Moody, offsetting Cosden & Company's No. 1 Roberts, is drilling at 2,980 feet. The six inch will be set at 3,000 feet. The formation in this test is reported as running 50 feet higher than in the Cosden No. 1.

At six o'clock this evening the Taylor-Link test in the southeast corner of the southwest quarter of section 2, block 32-2-south, was drilling at 1275 feet. They had picked up a sand at this depth with a small showing and were preparing to make a core test. Apparently the formations are running level with the Henshaw as the showings seem to be similar from the same depth. The first real marker, however, will be the top of the lime. The Henshaw topped the lime at 1,560 feet. In the southwest corner of the northeast quarter of this same section the Louisiana Oil & Refining Company began drilling this afternoon. Glasscock Brothers have the contract for drilling his test.

Coyle & Concord, No. 1, Roberts, in the northeast corner of the east half of the northwest quarter of section 136, drilling at 2,410 feet. Merrick & Bristol, No. 2, Roberts offsetting Coyle on the north is drilling at 1,370 feet.

Rev. D. B. Doak, presiding elder of the Lubbock district of the M. E. church, South, was greeting friends here today. Rev. Doak says it don't seem like the same Big Spring, since he used to know most everyone he met on our streets but now the majority of the people one meets are strangers.

W. A. Mathis of El Paso, formerly a conductor on the T. and P. Ry. is visiting old time friends in the city.

### Radford Lets Contract For Business Block

At Abilene, Texas, at 2 o'clock Saturday afternoon, J. M. Radford awarded to a Mr. Belefons a contractor of Abilene, the contract for the erection of a fireproof business block 100 by 130 feet at the corner of First and Rannels streets in Big Spring. A. P. Kasch of Big Spring was awarded the plumbing contract.

The structure is expected to cost approximately \$30,000. It will be located opposite the J. M. Radford wholesale grocery warehouse there and will consist of a garage, filling station and three store spaces. It will be one story in height and will cover ground space measuring 130 by 130 feet.

### Foundry And Machine Shops May Move Here

H. O. Lown of San Angelo, owner of the San Angelo Foundry & Machine Company is a visitor in Big Spring, looking over oil development in this territory.

In addition to the big plant at San Angelo Mr. Lown and his two sons own another large plant at Smackover, Ark. and the present visit of Mr. Lown is to consider the advisability of moving the Smackover plant to Big Spring. In addition to doing all classes of oil field work the Lown plants handle structural steel and there is going to be a big field for same, as a big field for same as oil development is going to insure a wonderful growth in West Texas for years to come. Mr. Lown is favorably impressed as being a splendid location for a manufacturing plant of this character.

### Cold Storage And Ice Plant To Be Started

A Modern Ice Factory and Cold Storage Plant To Be Erected On East Third Street

Cost Around \$100,000

Will Buy Cream, Eggs and Other Products in a Radius of Fifty Miles of Big Spring

Work will be started this week on a modern ice factory and cold storage plant on East Third street and once started the work will be rushed to completion. E. L. Ashcroft and E. R. Brinker of Sulphur Springs, after a visit to many portions of West Texas, selected Big Spring as the logical location of an industry of this character. The modern plant, they will establish here will cost in the neighborhood of \$100,000.

They will have an ice plant with a daily capacity of forty tons and the cold storage department will be ample to take care of the needs of our city. It is the plan of the owners of the plant to send wagons out over the territory for a radius of fifty miles to buy cream, eggs and other products of the farm. Such an arrangement will prove a wonderful aid to the farmers in the Big Spring territory and it will encourage more of our people to keep milk cows and poultry since they can market cream and other products right at their door, and have a regular cash income.

We are indeed pleased to note the establishment of this cold storage department and Messrs. Ashcroft and Brinker should be given every aid and encouragement to expand same.

### Clarence Saunders No. 2 To Open Soon

Clarence Saunders Store No. 2 will soon be opened in Big Spring. Ralph Linck proprietor of Clarence Saunders No. 1 will own the new store which is to be opened in the new Mitchell building at the corner of East Third and Scurry St. Snowwhite enamel fixtures costing \$4,000 will be installed in the new building just as soon as it is completed. Mr. Linck hopes to open the Clarence Saunders Store No. 2 in about one week.

### Division Engineer To Attend Austin Session

J. B. Early, supervising engineer of the Abilene division of the state highway department, will leave today for Austin to attend a quarterly meeting of state division engineers. Maintenance and construction problems are to be discussed.

Miss Ethery Dean of Lorraine is the guest of Mrs. Sherman Smith in this city. Mrs. Smith and Miss Dean are college friends. Mrs. Smith was a teacher in the Sul Ross State Teachers College the past summer at Alpine where Miss Dean attended school.

### Paved Highways Are Favored For Our County

The Commissioners Court Will Be With Majority in Favoring Permanent Highways

### Large Bond Issue

Will Be Required To Carry Out The Program To Be Decided Upon

The majority of the citizens of the county realizing the value of good roads, will be in favor of concrete highways to replace the present two State Highways across Howard County and a permanent road out through the northeast portion of the county and such construction on a number of lateral roads in our county.

The problem will have to be worked out by the Commissioners Court and representatives of the State Highway Department before an estimate of the bond issue to complete this program can be estimated.

We have long since learned it does not pay to build gravel roads in our county; and it would have been better for us had we decided to build concrete roads when we voted our first bond issue for road construction.

We take it for granted that the entire road building program, after being planned, will be explained to the citizenship before the bond election date is set. We believe our folks ought to be acquainted with all the facts in the case so there will be no misunderstandings.

Permanent highways are a good investment and save more than their cost.

So its time to begin thinking and talking of permanent highways so Howard county can fall in line. This offer of the State Highway Department to put two dollars in for every one Howard county expends on building concrete roads in designated State highways is too good to last forever and if we refuse it now we may have to wait a long spell before it is again offered. Its an opportunity we can hardly refuse to grasp.

It looks right good to see cotton beginning to roll to the cotton gins in our county. The price to be received is more important now than the amount a man is going to produce. With the government's estimate and the speculators the price of cotton today is much lower than the crop justifies.

### 6 New Tests For Howard County

New oil development in West Texas is showing no let up, as evidenced by seventeen locations for new tests made last week in four counties in the Permian Basin, 8 in Winkler county, six in Howard County, two in Pecos and one in Loving County. This total was six less than during the preceding week, but increased the number for the last fourteen weeks to 256. Two locations in Howard County were made by Mariand Production Company; No. 2-0 Clay, section 126, block 29, and No. 9-A Clay, section 129, block 29.

Magnolia Petroleum Company made two locations in Howard County in section 157, block 29; No. 14 Dora Roberts and No. 15 Dora Roberts, Sprague Oil Company made a location for No. 2 Dora Roberts section 156, block 29. Green Oil and Refining Company made a location for its No. 3 Clay, section 127, block 29.

### Meriwether Test To Be Abandoned

After drilling to a depth of 100 feet without encountering any formation, it was decided by the Meriwether company to abandon their test near the old General Store south of Big Spring. The officers of the company now considering a new test near the old General Store. The L. S. McDowell No. 1, 100 foot depth where a small amount was secured. They also are able to make another test of 3780 foot oil sand east of No. 4.

Mrs. Otera Lloyd of the Hat Shoppe in this city, who was formerly in the business in Big Spring, has pleased to meet her mother and serve them at the Hat Shoppe. D. E. Forehand, physician of the Garden City visitor in Big Spring.

You Want a Fine Suit. You Find it here at \$35.00

We have suits at other prices, but we feature \$35 for the reason that in this cost lies our strongest opportunity to make you a wearer of Michaels-Stern clothing.

You'll see fabrics at \$35 that will amaze you and models that will allure you--and after a thorough investigation of the entire suit, you'll agree that \$35 never did a greater piece of apparel engineering.

### THE WORLD HAS A NEW AND FINER MOTOR CAR

It was a twin-ignition motor that carried Lindbergh over the Atlantic, Goebel over the Pacific, Byrd over the Pole!

In history-making flights Lindbergh, Byrd, Goebel and a host of others have established dramatically and conclusively the superiority and reliability of twin ignition, high compression, valve-in-head motor performance. And all three principles are combined in the great new Nash Twin Ignition Motor which powers every Nash "400" Special and Advanced Six model. The Nash Twin Ignition Motor, with two ignition coils instead of one, two spark plugs (airplane type) to each cylinder instead of one, 360 sparks a second instead of 180, at top speed, burns the highly compressed gases more thoroughly and economically. The result is more power from less gasoline, and ordinary gasoline at that. No special, high priced fuels are required for the Twin Ignition Motor. Once you drive the great new Nash "400", you are certain never to be contented with the performance of older types of motors.

**NASH "400"**

### Status of Some Big Projects Reported Upon

**Projects Discussed**  
Plans For Office Building Are Due For Delivery The First Of Coming Week  
There was a good attendance at the Luncheon club today to enjoy an especially fine luncheon and hear matters of interest to our community discussed. The program committee failed to have a program arranged so an impromptu one was carried out.  
Chairman Willard Sullivan said the paved road proposition was one that needed some backing up and then there was the office building and other propositions that we might get a little report upon.  
He stated that the Snowwhite Creamery was now getting in machinery and would be ready to start a part of the creamery department by the tenth of next month.  
W. M. Williams of Dallas a representative of the American Air Transport Company stated his company expected to start an air passenger and express line to West Texas in the near future and expected to make Big Spring one of the stopping points as soon as we provided a suitable airport.  
Announcement was made that H. F. Taylor was now prospecting for water on his land west of the city and if he secured an adequate supply he would establish an airport.  
A drawing of the office building to be erected by Dr. G. T. Hall and others at the corner of Second and Scurry Street was on display and strange architect, stated the plans and specifications should be ready by the first of the coming week. He gave a brief outline describing the building. He said the owners were very anxious to get construction work started and would be making excavations while the contractors were estimating the cost of construction of the main building.  
The discussion of the bond issue was indulged in by a number of speakers. Some favored voting the bond issue with the question as to where the roads should be built while others contended we had a right to know where these roads were to be located before we voted a bond issue.  
It was suggested that as the time was too short to go into the discussion that James T. Brooks and C. T. Watson be heard from. They were appointed by the Commissioners Court to map out the proposed road improvement program.  
The following were appointed to arrange the program for next week J. P. Wolcott, E. A. Kelley and Rev. R. L. Owen

### Jack Rhotan Under Treatment Abilene

Jack Rhotan is under the care of Dr. Grubbs in Abilene, for sinus trouble, from which he has been suffering the past week.  
His mother, Mrs. D. A. Rhotan, is in Abilene with him, and Mrs. Rhotan writes that the doctor says it will be necessary for Jack to undergo an operation the latter part of the week.  
His many friends in this city hope for him a speedy recovery.

### Prominent Presbyterian Layman To Speak

### The Great West Refinery And Pipe Line Co.

Stockholders Complete Organization And Elect Officers At Fort Worth Meeting  
**Capital \$200,000**  
Reece Allen To Be President; Wm. Fleming Vice President, Virgil Hick, Secretary  
By S. F. BALENTINE  
NEW DRUMRIGHT, Glasscock County, Texas, Sept. 19.—The stockholders of the Great West Pipe Line Company and the Great West Refining Company held their first meeting in Fort Worth yesterday, and elected a board of directors for each corporation.  
Both are Texas corporations and were organized by Reece S. Allen of Wichita Falls, for the purpose of constructing and operating a pipe line from the Howard-Glasscock field to serve a refinery which will be located three miles east of Big Spring.  
The Great West Pipe Line Co. is capitalized at \$100,000 and the officers elected at the organization meeting are: Reece S. Allen, president; Wm. Fleming, president of the P. H. E. Oil Company, vice president; Virgil Hick, of the Laurel Oil and Gas Co. treasurer; and Gordon West, secretary.  
In addition to the above directors are M. L. Smith of the Moody Corporation and A. G. Reed, vice president and general manager of Couden and Co. This company has a six inch line under construction which should be ready to run within the next 60 days.  
The Great West Refining Company is organized with a capital of \$200,000 with the same personnel, with the exception that J. C. Starns will be the acting treasurer, but not a member of the board. The refinery will have a capacity of 6,000 barrels daily and is located just east of the Couden site, three miles east of Big Spring on the T. and P. tracts.  
The refinery will be constructed in two 3,000 barrel units of the pipe-still type and a duplicate of Reece S. Allen's plant at Pampa, Texas. The unique feature will be that no steam will be used in the plant. All pumps and power being supplied by electricity. Contracts have been let for construction with the completion date set for February 1, 1929.

### Carter Bros. Builders, Average Contract Day

Contractors and builders in Big Spring are about the busiest people you can find in the city—and the future of their business looks good, since many new houses are needed here and the contracts for new ones are being awarded day by day.  
Carter Bros. local contractors and builders, have made an enviable record this month. For the past ten days they have received a contract per day, for a building in Big Spring. At the present time they have \$40,000 worth of houses under construction.  
Carter Bros. are newcomers in Big Spring, having moved here from Abilene in January this year. Because of the good workmanship, they have enjoyed a thriving business since locating in this city.

### Chain Gang May Be An Aid

We do not know whether or not the starting of the chain gang is responsible for the let-up in the crime wave in our county, but the number of crimes reported the past ten days have been much smaller than in the past.  
The arrests for drunkenness have also been less.  
Abilene, Anson, Eastland are reporting an increase in crime.  
Most crooks fear the chain gang and especially the finger print feature, as many of them are wanted at other places and it is easy to identify them by means of finger prints.

### First Arrest In Oil Town Of Glasscock Co

NEW DRUMRIGHT, Glasscock County, Texas, Sept. 18.—Sunday afternoon the citizens of this place were furnished with the first excitement that usually goes with an oil field town, when deputy sheriff Jack Degraftenroed arrested a man who gave his name as "Dee" for drunkenness and disorderly conduct, and placed him in the county jail at Garden City. Monday morning "Dee" was fined and told to leave the country. In the roundup Sunday officer Degraftenroed also captured a quantity of bootleg liquor but could find no one who claimed it. The liquor, eight-pint jars, was taken to Garden City. This is the first arrest that has been made in this new oil field town.  
The law of both Howard and Glasscock counties have been keeping a diligent watch of the respective oil field towns so that the lawless element will not make a hangout of these places. A respectable oil field town can be built if the officers will not allow the lawless element to get a start.  
Two of the Texas Ranger force visited Big Spring yesterday and it is reported that they made a trip of inspection through the oil field towns. Sergeant Warren Smith accompanied by Ranger W. E. Young with headquarters at Fort Stockton were the visitors here, both being officers of a very high class type.  
The new county road from the heart of the oil field, west to Drumright is practically completed and already has developed a heavy traffic. The road is now under construction from Drumright west to the Garden City Big Spring highway. This new county road

### Further Cut In Winkler Asked

AUSTIN, Sept. 18 (AP).—A proposal to reduce daily proration of the Winkler county oil field from 175,000 to 150,000 barrels will be brought before the railroad commission in an emergency hearing today at Fort Worth.  
The advisory committee of the field appeared before the commission here Monday to urge the reduction effective October 1.  
Water encroachment in the field which might be combated by reduction in the daily flow was given as the reason for the proposal. Decreased production would cause greater back pressure on the water it was said.  
A member of the proration advisory committee stated that the Winkler field would continue for ten years if the Texas Railroad Commission will continue its system of regulation and compel all operators to follow it. It is likely the field will be extended north-westerly soon, but unless pro rata orders are issued and followed the field would give out quickly with little benefit to anyone.

### Federal Board And Rail Men Unable Agree

CHICAGO, Sept. 18 (AP).—The federal board of mediation this afternoon announced it had terminated its efforts toward bringing about an agreement between the western railroads and the trainmen and conductors unions.  
Samuel E. Winslow chairman of the federal board issued the following statement:  
"In behalf of the board, the mediation proceedings have been terminated for the reason that the carriers and the employees' organization were unable to reach an agreement."  
E. P. Curtis, president of the Order of Railway Conductors and A. F. Whitney, head of the Brotherhood of Railroad Trainmen, said no immediate action on the strike vote could be taken and indicated the next move should come from the government. They promised an official statement shortly of labor's position in the wage controversy.  
J. W. Higgins, chairman of the board of railway managers had no statement to make concerning the carriers' attitude.  
B. F. Wills of Van Horn enroute home from a business trip to Ft. Worth was greeting friends here Monday.  
crosses highway No. 9 at Drumright.

### District Court On Windup Of A Busy Term

District Court is now on the last week of the present term of District Court and though a busy session has been in order it is found that there are a number of cases yet to be disposed of.  
Judge Fritz R. Smith has practically decided to call a special term of court in November in order to clean up the docket.  
The following cases have been disposed of this week:  
State of Texas vs Ben Owens, charged with burglary, jury returns verdict of guilty and assesses punishment of two years in the penitentiary.  
State of Texas vs Geo. Wright charged with theft of auto jury returns verdict of guilty and assesses penalty of 3 years in penitentiary with the recommendation of suspension of the sentence.  
State of Texas vs Clifton Ames, charged with burglary, jury returns a verdict of guilty and assesses penalty of three years in the penitentiary with a recommendation for suspension of the sentence.  
State of Texas vs C. B. Boyce charged with forgery; the jury returned a verdict of guilty and assessed punishment at two years in penitentiary.  
The State of Texas vs J. L. Mison charged with assault with attempt to murder has been occupying the attention of the court today.  
The grand jury after completing their deliberations Tuesday afternoon, adjourned for the term. They returned fourteen indictments during the two days they were in session this week. They returned 27 indictments during the present term of court, 26 being felonies.  
The following were appointed as Jury Commissioners: P. F. Cantrell, W. W. Lay and W. R. Purser

### Pre-School Conferences Started Monday Aft.

Pupils Entering School For First Time Given Examinations; 64 Completed Records Made  
**39 With Defects**  
Enlarged Tonsils, Decayed Teeth Ear, and Eye Infections Found Bad Posture Outstanding  
Pre-school conferences for children entering school for the first time, were begun yesterday afternoon, at the Central Ward school. Doctors and dentists of the city, assisted by the public health nurse, held these examinations.  
Two sections of first grade students were examined, and sixty-four records for the pupils were completed.  
Of the 64 examined, 39 were found to have one or more defects. We list them as follows:  
Six were habitual mouth breathers.  
Twenty-one had enlarged tonsils.  
Eighteen had decayed teeth or some that needed extraction.  
Three had ear conditions needing attention.  
Three had skin infections.  
One enlarged glands of the neck.  
Three with slight irritation of the eyelids.  
Seven were 10 percent or more underweight.  
One with bad scalp condition.  
Three with bad heart conditions.  
One with spinal curvature and wry neck.  
Bad posture seemed to be the outstanding defect in the pupils. Seven were bad enough to be considered a real defect.  
The weights ran about as usual for this age group.  
The percentage of bad tonsils and teeth were large, and few corrections had been made.  
Pupils at the South Ward school are being examined this afternoon and about the same number of pre-school pupils will undergo examination.  
Pre-school examinations will be given at the North Ward school tomorrow afternoon.

### Representatives Crowded Pupils Enroll

In Interest Of 1200  
Pupils Enroll On Opening Day  
Expect To Have Six Planes  
Operation By First Of Y  
W. M. Williams of Dallas, representative of the American Air Transport Company is in our city, establishing an air passenger and express line to serve West Texas.  
With headquarters at Dallas the planes will make a 1200 mile circuit, stopping at Fort Worth, Wichita Falls, Amarillo, Lubbock, Midland, San Angelo and Abilene. They expect to start two planes within ninety days and have six in the year. They plan to make a rate of ten cents per mile for carrying passengers.  
Mr. Williams plans to be here a few days to confer with the citizens and explain his company's plan to all who may be interested.

California Co. To Make Location

The California Company is to soon make a location for their sixth test well on the Foster ranch just over the line in Mitchell county. This company has 5 producing wells on section 6 block 29 township 1 South.

The five wells produce approximately 335 barrels of oil per day on the pump.

Big Enrollment At Schools in Oil Fields

That the oil fields have need of the schools which have been created therein was shown this week when the present session of school started.

At the new school at Forsan sixty seven pupils applied for admission while fifty-four pupils are enrolled in the Chalk school.

The search is now on for cotton pickers and if favorable weather continues cotton will soon be rolling in at a steady gait.

Mr. and Mrs. R. E. Dunnagan spent Sunday in Lorraine visiting relatives and friends.

An ordinance placing a time limit upon the parking of vehicles in certain street areas, prohibiting the parking of vehicles in certain places, prohibiting the painting of advertising signs relative to parking regulations, and declaring as emergency.

BE IT ORDAINED BY THE CITY COMMISSIONERS OF THE CITY OF BIG SPRING:

SECTION ONE. It shall be unlawful for the owner or operator of any automobile or other vehicle, to allow said vehicle to remain parked in one place for more than one hour, continuously, within the following named street areas, to-wit: (a) Both sides of Main street between First and Third streets.

SECTION TWO. It shall be unlawful for the owner or operator of any automobile or other vehicle, to allow said vehicle to remain parked in one place for more than two hours continuously, within the following named street areas, to-wit: (a) Both sides of Rannels street between Third and First streets.

SECTION THREE. The shifting of an automobile or other vehicle from one place to another nearby place, for the purpose of evading either Section One or Section Two hereof, shall nevertheless be deemed a violation of this ordinance.

SECTION FOUR. Sections One, Two and Three of this ordinance shall be effective only between the hours of seven o'clock a. m., and seven o'clock p. m.

SECTION FIVE. The following described space is hereby reserved for the use of the postoffice, and it shall be unlawful for the driver or operator of any vehicle not engaged in official business for said postoffice to park therein.

SECTION SIX. It shall be unlawful for the driver or operator of any automobile or other vehicle to park said vehicle at the north end of Main street, at the intersection of said Main street with First street in said City of Big Spring.

SECTION SEVEN. It shall be unlawful for the driver or operator of any automobile or other vehicle to park said vehicle at the north end of Rannels street, at the intersection of said Rannels street with First street.

SECTION EIGHT. It shall be unlawful for any person, firm or corporation to paint, or cause to be painted, or place, or cause to be placed, any sign upon any sidewalk, curb or street, reserving, or attempting to reserve, parking space for any purpose, which said reservation has not been authorized by the City Commission or the Police Department of said City of Big Spring.

SECTION NINE. Any person, firm or corporation, found guilty of violating any provision of this ordinance, shall be fined not less than One Dollar or more than Fifty Dollars for each such violation.

PASSED AND APPROVED at regular meeting of the City Commission, this the 11th day of September, A. D. 1925.

McCAMEY NEWS

C. H. Amaker secretary manager of the Chamber of Commerce, is busy this week getting signers to the petition asking that 5th St. from Burleson avenue to Monroe be paved.

McCamey can boast of one of the best schools in Texas. Mr. and Mrs. George Forney returned to their home in Crane Wednesday, after several days visit with Mrs. Forney's mother.

Death of Infant Baby. The grim reaper death, cast in his cycle and severed from the walks of men, the infant twin daughter of Mr. and Mrs. Seburn Cline, living near the ice plant.

Mrs. E. C. Coleman of Alpine was in McCamey this week on business. Several of our young people are attending school in Big Spring this year.

Misses Ruth and Viola Johnson have returned to their home in McCamey from Alpine where they have been attending Sul Ross.

A lovely bridge luncheon was given Tuesday afternoon by Mrs. Earl Young, honoring Mrs. Ethel Smith, Mrs. Bonny Morris and Mrs. Geo. Forney of Alpine, Texas.

High score went to Mrs. Geo. Worthington, second high to Mrs. E. C. Coleman and low to Mrs. Roy Graham. All enjoyed this wonderful affair.

A crowd of young folks enjoyed a wintner and marshmallow roast last Thursday night at the new bridge. Those participating in the evening of fun were: Misses Pauline Sharkey, Minnie Ray Wisler, Duffy Marrow, Mr. Bryant Harris and Ernest Shockey.

Work on the building for use as new quarters for the Big Spring postoffice is to be rushed. It is believed the building will be completed in ample time to enable the postoffice to be moved by December 1st.

Work on the Radford business block at the corner of East Third and Rannels streets is to be started at once and the contractor, the A. W. Balfanz Construction Co. of Abilene, has 120 days in which to complete the building.

The Big Spring Baptist Association Sunday School Convention will be held at the Knott Baptist church Sunday, September 30th.

NOTES FROM SALEM

Cotton picking is beginning to open up in full way, if the dry, hot weather continues the remainder of September, practically all the crop can be gathered in a month's time.

Claud Miller and Carl Robinson attended the Dixie series of ball games played between Houston and Wichita Falls Wednesday and Thursday of last week.

W. H. Robinson returned home Friday evening from Glenrose, where he went to leave his wife under the care of doctors there.

Mr. and Mrs. K. B. Hopper returned Saturday from a visit with relatives on the Plains near Little Field. They report fine feed crops on the plains.

Mr. and Mrs. A. J. Wilson were shopping in Coahoma Saturday. Mr. and Mrs. Roy Wilson and family were Sunday visitors with Mr. and Mrs. Virgil McGregory and family of Coahoma.

Mr. and Mrs. Earl Hull and family accompanied by Mrs. S. L. Hull motored out to Courtney, where they spent Thursday night and Friday with their brother and son and family.

Owing to the baptizing at Centertop last Sunday afternoon our singing at Salem was set up for the fourth Sunday afternoon at 3:30. There will be preaching at the church Sunday morning and night by Rev. Wood of Abilene.

Miss Louise Rogers is spending a few days with her brother and wife, Mr. and Mrs. Allen Rogers of Coahoma.

Work on the Radford business block at the corner of East Third and Rannels streets is to be started at once and the contractor, the A. W. Balfanz Construction Co. of Abilene, has 120 days in which to complete the building.

The Big Spring Baptist Association Sunday School Convention will be held at the Knott Baptist church Sunday, September 30th.

The securing of our new Post Office building in time to take care of the big Christmas rush is going to be appreciated. The force at the postoffice would have been swamped had they been compelled to handle this business in the present building.

VINCENT ITEMS

September 13, 1925. Rev. E. J. Richbourg filled his regular appointment here Sunday. Mr. and Mrs. John Whitaker of Big Spring visited the former's mother, Mrs. J. M. Whitaker here last week end.

Miss Arvie Bishop of Abilene is visiting here this week. Mr. and Mrs. Glen Brown of Rising Star are visiting relatives here this week.

Miss Pearl Richbourg of Big Spring spent Saturday night with Miss Wilks Teston. The Christian services were well attended Sunday afternoon. Rev. Harvey of Colorado delivered the sermon.

Miss Ruth Richards left last Thursday for Abilene where she will attend school. Mr. and Mrs. Cleve Sandler of Grapeland, Texas, visited Mr. and Mrs. Hugh Richards and family last week.

Mr. and Mrs. George McCorkle entertained the young people with a fruit supper at their home last Wednesday evening.

All Howard County teachers will go to Colorado the week of October 29 to attend Institute. A splendid program will be arranged for this year's meeting.

Work on the Radford business block at the corner of East Third and Rannels streets is to be started at once and the contractor, the A. W. Balfanz Construction Co. of Abilene, has 120 days in which to complete the building.

The Big Spring Baptist Association Sunday School Convention will be held at the Knott Baptist church Sunday, September 30th.

The 100-room addition to the Crawford Hotel, the six-story office building, the \$70,000 hospital of Drs. Hall and Bennett; the \$140,000 viaduct, the J. M. Radford business block, the three refineries, are a few of the buildings coming along to keep the building program marching forward.

The securing of our new Post Office building in time to take care of the big Christmas rush is going to be appreciated. The force at the postoffice would have been swamped had they been compelled to handle this business in the present building.

Miss Birdie Collins, sister of our local attorney, has arrived in Big Spring, where she has accepted a position as teacher of Spanish

Proceedings In District Court

Judge Fritz R. Smith has been very busy during the past two weeks as will be noted by the number of cases disposed of.

The following civil cases were disposed of: Freddie Hodnett et al vs City of Big Spring, damage suit, judgment for plaintiff.

B. B. Free vs J. A. Berry bill of exchange, judgment for plaintiff. H. Clay Read vs Geo. L. Gary, judgment for plaintiff.

E. O. Ellington vs J. A. Fletcher et al judgment for plaintiff. Mexican vs T. A. F. Railway, damages agreed, judgment.

Allen Reed, administration vs. T. & P. Railway, damages agreed, judgment. The following divorce cases were disposed of: Arminia King vs Herbert King, divorce granted.

Margaret Curlee vs Ted C. Curlee, divorce granted. Lena McCullough vs W. R. McCullough, divorce granted.

Sara B. Peterson vs William Peterson, divorce granted. Eunice Burroughs vs Herman Burroughs, divorce granted.

Mabel Pierce vs Forrest Pierce, divorce granted. Pearl Bascom vs C. E. Bascom, divorce granted.

W. T. Boodle vs Edna Boodle, divorce granted. Clara Lee Smith vs Weldon Smith, divorce granted.

R. W. Holbrook vs Clara Irene Holbrook, divorce granted. J. S. Stephens vs Willie Stephens, divorce granted.

Rose Everhart vs S. L. Everhart, divorce granted. Eulis Bussey vs Charles Bussey, divorce granted.

SCORES AGAIN

Everyone has been watching for our offspring. No. Two, Saturday has been set aside for its Christening. We issue a cordial invitation to all our old customers to visit us in our new store as well as every man and woman in Big Spring.

\$5.00 IN GOLD will be given to the person guessing the nearest number of customers in store on opening day. \$3.00 will be given to the person guessing second nearest. \$2.00 will be given to the person guessing third nearest.

Table listing various goods and prices: Guaranteed 48 lbs. Flour extra high pat. \$1.86; SUGAR 5 lb. Cloth Bag 39c; Guaranteed 24 lbs. Flour extra high pat. \$1 18; SUGAR 10 lb. Cloth bag 73c; Guaranteed 12 lbs. Flour extra high pat. 64c; SUGAR 25 lb. Cloth bag \$1.60; 24 lbs MEAL; 5 lbs. MEAL 23c; MOUNTAIN BRAND Pickles, qt. Jar sour 27c; COFFEE Pure Santos Peaberry, pound pkg. 36c; CRACKER JACKS 6 pkgs. for 29c; SUGAR CURED BACON By strip 32c Cut per lb. 30c; PORK SHOULDER Whole 20c Cut per lb. 20c; CREAMERY BUTTER 59c Per lb.; MALT EXTRACTS All Kinds 63c; Delicia Sandwich Spread 15c The World Over.

GIVEN AWAY FOR SATURDAY ONLY

With each 2 1-2 pound Canova Coffee, One 35c Jar Canova Peanut Butter. With each One Pound Can Coffee, One 15c Jar Canova Peanut Butter.

COFFEE ON REGULAR PRICES BIG SPRINGS LEADING STORES

PIGGLY WIGGLY NO. TWO—located on Lamesa Highway across from Reuchart Garage.

EXPRESSION OF THANKS

We wish to take this method of extending our sincere thanks to our dear friends and neighbors for the many loving deeds of kindness and expressions of sympathy when we were called upon to suffer the loss of our loved one, K. K. Boyce.

Mrs. K. K. Boyce and son Mr. and Mrs. A. A. Boyce. Mrs. C. B. Weaver, family. Mr. and Mrs. C. A. Coffman and family.

W. B. Adkinson and family. I. E. Boyce. Julia Boyce. W. N. Spears and family.

This is H. B. Arnold Speaking

Tune in. In our youth I expect we heard "Mary had a little lamb." I am not in the lamb business, but have a nice stock of tanks and storage tanks, and still selling aeromotor windmills.

FEEL YOURSELF SLIPPING

Tired feeling, sour stomach, gas, ambition gone, despondent not sick, but slipping fast. Young's Stomach Powder will restore your health.

New P. O. Building Before Christmas

Work on the building for use as new quarters for the Big Spring postoffice is to be rushed. It is believed the building will be completed in ample time to enable the postoffice to be moved by December 1st.

Damaged Plane, Repaired, Left Sunday

Airplane No. 7529 which was accompanying the Class A. Transcon. tinental Air Racers to Los Angeles and was compelled to make a forced landing three miles east of Big Spring Saturday, September 8th.

To Build An Air Port Just West Of City

H. F. Taylor has practically decided to establish an airport on his farm just west of Big Spring and expects to begin the erection of a hangar capable of housing several planes.

Baptist Association To Meet At Knott On September 30

The Big Spring Baptist Association Sunday School Convention will be held at the Knott Baptist church Sunday, September 30th.

Sell Material For 50 Room Hotel

The Markham-Jones Lumber Company have sold the lumber for the erection of a fifty-room hotel at the corner of East Third and Gollad streets.

Work On Radford Business Block Is To Start At Once

Work on the Radford business block at the corner of East Third and Rannels streets is to be started at once and the contractor, the A. W. Balfanz Construction Co. of Abilene, has 120 days in which to complete the building.

to the County
towards the

House Demonstration agent's work
Miss Helen Swift supervisor of
extension work for the A. and M.
College in forty counties in West
Texas met with the court to urge
a sufficient appropriation to secure
experienced workers.
We realize the worth of having
these trained workers to aid those
of our citizens who desire to avail
themselves of their services and
they will earn many times worth
of their salary if we accord them
our whole hearted support and co-
operation. They will be here to
work for the good of every citizen
in the country and will not at-
tempt to force their services or ad-
vice on anyone.
Other counties have found the
work of county agents and home
demonstration agents well worth
while and continue to employ them
year after year.
WORLD SERIES TO
START ON OCT. 4
NEW YORK, Sept. 17.—The world
series of 1928 will start on Thurs-
day, Oct. 4 in the park of the club
winning the American League
championship, Commissioner Land-
is announced here Monday.
The date was chosen in prefer-
ence to Oct. 3 because of the close
race in both leagues and the neces-
sity of handling vast numbers of
tickets on short notice.

Gov. Smith
Bids For Farm
Vote At Omaha
Pledges To Work For Quick
Relief If Elected
Thrusts At G. O. P.
Present Condition Needs Remedy
at Once, He Declares
OMAHA, Neb., Sept. 18.—Gov.
Alfred E. Smith endorsed the Mc-
Nary-Haugen farm relief bill in
principle without limiting himself
to the exact mechanics of that con-
troversial measure twice passed by
Congress and twice vetoed by
President Coolidge in the opening
speech of his presidential cam-
paign here Tuesday night.
"Various people have attempted
to misrepresent and confuse my
attitude with respect to the Mc-
Nary-Haugen bill. I do not propose
to leave the slightest doubt in any-
body's mind on that subject," Smith
declared.
"As I read the McNary-Haugen
bill, its fundamental purpose is to
establish an effective control of the
sale of exportable surplus with the
cost imposed upon the commodity
benefited. For that principle the
Democratic platform squarely
stands, and for that principle I
squarely stand. Mr. Hoover stands
squarely opposed to this principle
by which the farmer could get the
benefit of the tariff. What re-
mains of the McNary-Haugen bill
is a mere matter of method, and
I do not limit myself to the ex-
act mechanism and methods em-
bodied in that bill.
Clean-Cut Issue
"Here is a clean-cut issue which
the farmers and the voters of this
country must decide. It remains
but to work out the details by
which the principle shall be put
into effect and I have pledged my-
self to name a nonpartisan com-
mission of farm leaders and stu-
dents of the problem to work out
these details.
"I shall make that appointment,
if I am elected, not when I take
the oath of office as President, but
immediately after election, and I
pledge to the farmers and to the
people of this country that no stone
will be left unturned to give im-
mediate and adequate farm relief
by legislation carrying into prac-
tice this definite principle for
which my party and I stand.
"This course alone gives promise
of rescuing the farmers of this
country from the complete ruin
which threatens them today.
The Democratic candidate's bold
pronouncement in favor of the Mc-
Nary-Haugen bill came somewhat
as a surprise to the audience of
farmers and those whose liveli-
hood depends upon farming, who
packed the city auditorium here to
hear him in his first campaign bid
for the farm vote. He had indicat-
ed he would not go so far in this
speech.
Every corner of the auditorium,
which accommodates 10,000 was
filled, several thousand others
stood outside, and Smith spoke in-
to a microphone that carried his
voice to the far corners of the
country on an extensive radio hook
up.
Waves Derby, Gets Welcome
The enthusiastic reception ac-
corded him in his first campaign
speech came as a climax to a boi-
sterous welcome by thousands, not
only from Omaha, but from sever-
al surrounding States, whenever
he appeared and waved his brown
derby.
The Democratic candidate devoted
a considerable portion of his
speech to an attack upon the Re-
publican administration, which he
declared had done nothing effec-
tive in aid of agriculture, and specifi-
cally upon the program offered by
Herbert Hoover, the Republican
candidate.
He called as witness of the Re-
publican failure to aid agriculture
two Nebraska leaders, Senator
George Norris (Rep.) and Gov.
Adam McMullen (Rep.).
"Mr. Hoover's tariff, Mr. Hoover
said, "is not effective as to the
basic cash crops without a
supplemental device to make it
work.
"Mr. Hoover's inland waterways
are very good. The Democratic party
is in favor of inland waterways,
just as strongly as the Republican
party, but it thinks it is only fair
to say that nobody would offer
that as an immediate remedy."
Remedy Needed Now
"The present condition needs a
remedy at once, and not at a time
far distant, when the improvement
of the inland waterways could be
an accomplished fact. At best, were
it with us today, they would not
exert sufficient influence to solve
the problem.
"Mr. Hoover offers stabilization cor-
porations. Stabilization corporations
made up of voluntary associations
of producers can no more stabil-
ize agriculture than the banks of
the country were able to voluntar-
ily stabilize our financial system
without the intervention of Gov-
ernment in forming the Federal
Reserve System.
"Mr. Hoover suggests aid to co-operatives
I strongly believe in co-operative

marketing. It is clearly all right—
as far as it goes. I have encourag-
ed it in my own state. In New
York today we have over 1,000 co-
operative marketing associations.
With our major cash crops and
with a device for taking care of
the surplus at the cost of the com-
modity benefited, co-operatives
would be given a great opportu-
nity for development.
G. O. P. Field Limited
"Their field is limited however,
without such a device, for the reason
that when the membership
alone is compelled to pay the en-
tire cost of the attempt at stabiliza-
tion those outside the member-
ship receive the benefits of the in-
creased prices without hearing any
of the burdens incident thereto
and the attempt at stabilization is
in large measure impaired by the
activities of the nonmembers.
"The fundamental fact is that
none of these methods can func-
tion with respect to the major cash
crops unless they are coupled with
the control of the exportable sur-
plus with the cost of lifting it out
of the domestic market assessed
back on the crop benefited."
Smith then concluded his speech
which was lengthy and detailed,
with his statement upon the Mc-
Nary-Haugen bill, which has as
the principal part of its machinery
the much discussed equalization fee.
The fee was not mentioned by
the Governor. Farm relief leaders call
it "the heart" of the measure. He
merely left this question open by
saying he is not limited by the
bill's mechanics.
"Here in Omaha tonight, in the
center of one of the great farming
regions of this country I propose
to discuss that Republican re-
cord of over seven years and a half
on the important question of
farm relief," Smith declared.
Scores Administration
"I challenge the statement that
there has been courage or leader-
ship or constructive action on farm
relief. I assert that there is not the
slightest basis upon which the Re-
publican party can indulge in any
degree of self satisfaction, in look-
ing back over its record of seven
and a half years, on the question
of agriculture.
"On the contrary I charge that
they violated their platform prom-
ises that they deceived the farmer,
that they did nothing whatever to
contribute in the slightest degree
to relieve the distress or promote
the welfare of the farmers of this
country.
"Poising for decades as the
friends of the farmer, the Republi-
can leaders have by their betray-
al of the confidence which the
farmers imposed in them, forfeit-
ed every right to the allegiance or
support of the agriculturists of the
country. They have sown the wind
and should reap the whirlwind."
The Republican party, the Dem-
ocratic candidate said, recognized
the "deep distress" of agriculture
in its 1924 platform and again in
1928.
"Mr. Hoover's tariff, Mr. Hoover
said, "is not effective as to the
basic cash crops without a
supplemental device to make it
work.
"Mr. Hoover's inland waterways
are very good. The Democratic party
is in favor of inland waterways,
just as strongly as the Republican
party, but it thinks it is only fair
to say that nobody would offer
that as an immediate remedy."
Remedy Needed Now
"The present condition needs a
remedy at once, and not at a time
far distant, when the improvement
of the inland waterways could be
an accomplished fact. At best, were
it with us today, they would not
exert sufficient influence to solve
the problem.
"Mr. Hoover offers stabilization cor-
porations. Stabilization corporations
made up of voluntary associations
of producers can no more stabil-
ize agriculture than the banks of
the country were able to voluntar-
ily stabilize our financial system
without the intervention of Gov-
ernment in forming the Federal
Reserve System.
"Mr. Hoover suggests aid to co-operatives
I strongly believe in co-operative

problem of our Nation today is agri-
cultural.
"An adequate tariff is the founda-
tion of farm relief."
"Mr. Hoover's tariff, Mr. Hoover
said, "is not effective as to the
basic cash crops without a
supplemental device to make it
work.
"Mr. Hoover's inland waterways
are very good. The Democratic party
is in favor of inland waterways,

made up of voluntary associations
of producers can no more stabil-
ize agriculture than the banks of
the country were able to voluntar-
ily stabilize our financial system
without the intervention of Gov-
ernment in forming the Federal
Reserve System.
"Mr. Hoover suggests aid to co-operatives
I strongly believe in co-operative

can spell only one thing out of
that. He wants to drive enough
farmers out of business to pull
down the surplus crops.
"The way he wants to relieve the
farmer is to destroy him.
"Again in 1925 he said:
"The fundamental need is a
balancing of agricultural produc-
tion to our home demand."
"Is that the solution of the farm
problem; to starve the farmer to
death? To drive his prices down
so low that he can have no produc-
tion for his energy? Is the sweat
of his brow to go for nothing and
is he to be eventually driven out
of agricultural pursuits?
"Is the balancing of the agricul-
tural production to our home de-
mand, that would not be a good
thing, to my way of thinking, even
if you could do it. But that it
cannot be done is best shown by a
report from the Bureau of Agricul-
ture Economics which says:
"During the last twenty years
95 per cent of the changes in spring
wheat production were due to dif-
ferences in yields. As a whole, per-
haps three quarters of the natural
variation in crop production is due
to yield variances and lies beyond
human control through acreage
adjustments."
"That is in effect to say the solu-
tion of disposing of the surplus
advanced by Mr. Hoover, is im-
possible and is beyond the power
of human control."
To Speak Frankly
Smith told his audience in open-
ing his campaign here that he ex-
pected to speak frankly on the is-
sues before the people as he has
done in the New York State cam-
paigns which resulted in his elec-
tion as Governor four times.
"New York," he said, "for the
major part of the time in the last
thirty years was a strong Republi-
can State. That in four of those
campaigns I led to victory is no
small part due to the fact that I
talked frankly to the people of
that State in very plain and un-
derstandable language. Beginning
here and continuing through the
national campaign I propose to
continue that policy."
The State Highway Department
no longer approves the building of
gravel roads and will not give state
aid for the construction of same.
They plan to build only roads that
will be in use for years to come.

CLASSIFIED ADS

problem of our Nation today is agri-
cultural.
"An adequate tariff is the founda-
tion of farm relief."
"Mr. Hoover's tariff, Mr. Hoover
said, "is not effective as to the
basic cash crops without a
supplemental device to make it
work.
"Mr. Hoover's inland waterways
are very good. The Democratic party
is in favor of inland waterways,
just as strongly as the Republican
party, but it thinks it is only fair
to say that nobody would offer
that as an immediate remedy."
Remedy Needed Now
"The present condition needs a
remedy at once, and not at a time
far distant, when the improvement
of the inland waterways could be
an accomplished fact. At best, were
it with us today, they would not
exert sufficient influence to solve
the problem.
"Mr. Hoover offers stabilization cor-
porations. Stabilization corporations
made up of voluntary associations
of producers can no more stabil-
ize agriculture than the banks of
the country were able to voluntar-
ily stabilize our financial system
without the intervention of Gov-
ernment in forming the Federal
Reserve System.
"Mr. Hoover suggests aid to co-operatives
I strongly believe in co-operative

### City Planning Engineer Will Arrive Sept. 26.

E. A. Wood of Dallas, city planning engineer will be the guest of Big Spring on Wednesday, September 26.

Arrangements are being made to have him address a large number of our citizens at the regular session of the Wednesday Luncheon Club on that date.

Any and all those who believe our city would profit from the adoption of a zoning system and city planning worked out by competent engineers should make arrangements to hear Mr. Wood's address.

See C. T. Watson, secretary of the Chamber of Commerce and let him know you are interested in this proposition.

### Laurel Oil Company Drilling Below 3800

The Laurel Oil Company is now drilling below 3800 feet in their test well on the C. D. Read ranch 6 miles north of Coahoma. A showing of gas the second encountered in this test was found just above the 3800 foot mark. With a hole full of water it was not possible to determine the value of the showing.

The test is to be drilled to the 4,000 foot depth.

### Calls For Teachers Continue To Come In

AUSTIN Texas Sept. 18.—Calls for teachers for the coming year are still being received by the Teachers Appointment Committee of the University of Texas, according to Miss Miriam Dozier, secretary of the committee.

For the fifty calls received during the last two weeks, with a few possible exceptions, applicants have been recommended. The demand for teachers came principally from high schools and some from colleges. Very few calls came from grade schools said Miss Dozier.

### The Lone Star Cafe Opens In This City

The Lone Star Cafe on West Second St. adjoining the City Hotel, just one block west of the postoffice, opened for business in this city yesterday morning. A Byland is proprietor of this new eating house.

Counter service is being given now, but later on tables will be installed. All kinds of short orders will be filled and regular meals will also be served.

The best of eats can be had here at all times, and everyone is invited to come and give the Lone Star Cafe a trial.

### Herbert Hoover Makes Address At Newark N. J.

Republican Candidate For President Discusses Issues Of The Campaign

#### Labor Prominent

Large Audience Hears Speaker And Speech Broadcast Over Radio

Herbert Hoover, Republican candidate for president spoke at Newark N. J. Monday evening. Here are some excerpts from his talk:

Real wages and standards of living of our labor have improved more during the past seven and a half years of Republican rule than history of this or any other country.

When I speak of wages I refer both to those who work at the bench and those who work at the desk. Nor is this addressed to men alone. More than ten million women march to work every morning side by side with the men. Steadily the importance of women is gaining not only in the routine task of industry but in executive responsibility. I include also the woman who stays at home as the guardian of the welfare of the family. She is a partner in the job and the wages. Women constitute a part of our industrial achievement.

I wish to lay down the proposition that the very prerequisite, the very foundation, of economic progress to our industrial and business employees is full and stable employment. A continued surplus of unemployed workers means decreasing wages, increasing hours and fear for the future. To protect labor, to maintain its prosperity, to abolish poverty, we must organize our economic system so as to provide a job for all who have the will to work. Full employment depends not only upon a strong and progressive economic system but upon the sound policies of and the vigorous co-operation by the government to promote economic welfare. Labor in its collective efforts has contributed greatly to the maintenance of proper wages and to improved conditions of labor. But collective bargaining cannot overcome the forces that make for unemployment. I, for one, am willing to trust the proved ability of employees to take care of their rights if there is any employment to be had. And our workers as citizens at the ballot box have a large part in the determination of these economic policies. The problem of insuring full work all the time is a problem of national concern. It is one to which government must give its attention. It is one to which government may contribute to solve.

The first of our policies which have given security and expansion of employment has been the enactment of the protective tariff. The protective tariff has been a fundamental policy of the Republican party ever since the party was founded. Against it the Democratic Party has battled for these same twenty years. Two months ago their platform hinted that they thought we might be right. However, they declared for a tariff that would maintain effective competition. That must mean a tariff which will maintain effective competition of foreign against American goods. That is not protection. That this is the meaning is borne out by references to the Underwood Tariff of the last Democratic administration as the ideal. The re-enactment of that tariff would let in a flood of foreign goods, destroy employment and lower wages and demoralize our farmers all over the United States. I would suggest that the employees of industries in New Jersey and the country should directly investigate as to what would happen to their employment with lowered tariffs.

The Republican Administration imposed restrictions upon immigration down the flow of those seeking relief from the poverty of Europe would create a herd of job hunters around every employment office and every industrial gate in the United States. The pressure of this flood would break our wages toward the level of Europe.

No one places a higher worth upon the foreign born citizen than I do. He brings many elements of great value in our cultural development. We welcome his help in building our new civilization. The immigration laws should be amended to remedy the hardships to families. I have urged before that this be done. In my Acceptance Speech I stated my opposition to any increase in immigration. The restriction upon immigration is a boon not only to those of my hearers who were born on American soil but to those who have come from the old countries, for every one would suffer equally by the lowering of our wages and standards of living.

In my speech of acceptance I outlined our national programs of prospective public works, including the development of water resources, public roads, and the construction of public buildings.

In that speech I pointed out that these projects would require upwards of one billion dollars within the next four years. I there recommended that, so far as practicable this work should be carried on in such a way as to take up the slack of occasional unemployment. While the judicious arrangement of government construction work can aid in wiping out unemployment caused by seasonal variations in business activity, the Federal Government can do more. The Department of Labor should be authorized to undertake the collection of regular statistics upon seasonal and other unemployment. We must have this fundamental information for further attack upon this problem. From the further solution of which will come still greater stability and prosperity in the world of employer and employee.

It is idle to argue that there are no longer any conflicts of interest between employer and employee. But there are wide areas of activity in which their interest should coincide, and it is the part of statesmanship to organize and increase this identity of interest in order to limit the area of conflict. Conflict diminishes and common purpose flourishes only in proportion to work in an encouraging atmosphere of sound governmental policies.

At such a time as this a change in national policies involves not—as some may lightly think—only a choice between different roads by either of which we may go forward, but a question also as to whether we may not be taking the wrong road and moving backward. The measure of our national prosperity, of our stability of our hope for further progress at this time, is the measure of what we may risk through a change in present policies. More than once in our national history a change in policies in a time of advancement has been quickly followed by a turn toward disaster.

Our economic system has abuses; it has grave faults in its operation. But we can build toward perfection only upon a foundation of prosperity. Poverty is not the cause of progress. Enduring national life cannot be built upon the bowed and sweating backs of oppressed and embittered men and women. It must be uplifted and upheld by the willing and eager hands of the whole people. They will uphold it if our economic life be built for the whole people, not for any special group.

To assure this sort of progress our first necessity is to assure the ability and character of our leadership. It requires that we secure into its ranks all of the intelligence and character of our race—that it be sympathetic with the life and aims of the whole of our 23,000,000 homes. At no time have we had more able leaders in economic life than today. At no time have we been more certain that the fiber and intelligence of our people furnishes a vast reservoir of such leadership adequate to the future. But able administrators, skilled workers, professional and moral leaders cannot be made by birth or money. They cannot be selected by divine right or through bureaucracy. Nor can their ranks be filled from a limited class. Our leadership can be found and it will be sympathetic to our ideals if we maintain the decency and dignity of family life through a stable economic system; if we maintain free and universal education and thus provide them the open stair to leadership; if we maintain for every individual an equality of opportunity to attain that position in the community to which his character and his ability entitle him. Then our supply of leadership will stream forward of its own impulse. It is in this insistence upon an equal chance and a free road to rise in leadership that our great American experiment has departed from those of history. It is our sure guarantee of the future. In its vast possibilities is the hope of every mother for her boys and her girls.

Under such leadership replenished constantly from the great mass of our people we can aspire to a democracy which will express a common purpose for the common good. We can build a civilization where national conscience is alert to protect the rights of all, curtail selfish economic power, and hold to the ideal of distributed contentment among the whole people.

struction of public buildings. In that speech I pointed out that these projects would require upwards of one billion dollars within the next four years. I there recommended that, so far as practicable this work should be carried on in such a way as to take up the slack of occasional unemployment. ### Consider Needed Improvements At Court House

County Judge H. R. Debenport is now busy endeavoring to work out the most practicable program of improvements which are scheduled to be made at the court-house.

Steam heat for the court house and jail is one of the improvements which has been decided upon. The furnace is already in place, five arranged for but the boiler is yet to be installed. The space in the basement of the court house now housing the toilet will be used for the boiler or furnace room if the toilet can be arranged underneath the west end of the court house.

Judge Debenport is conferring with contractors to determine if this can be done at a price not too high.

More room for the county officers is the biggest problem to solve and unless the court can purchase the present City Hall it looks as though the county will be compelled to build an addition to the present building.

### LAUNDRY OWNERS TO MEET IN SWEETWATER IN 1929

SWEETWATER, Texas September 17.—Laundry owners of West Texas selected Sweetwater as their convention city in 1929 in a meeting at El Paso last Saturday. C. R. Simmons, local laundry operator and a member of the West Texas Laundry Owners Club, made a spirited fight for the convention with Mineral Wells acting as his chief opponents. Mr. Simmons is secretary of the Laundry Owners Club.

The convention will last for two days and will include two business sessions and a varied program of entertainment in which will be included a golf tournament. A banquet will end the festivities on the second day. About one hundred persons are expected to attend the meeting which is to be held here at a date yet to be determined.

### Coahoma Seeks Water Supply

The City of Coahoma plans to get busy on securing an adequate water supply just as soon as they can sell the \$22,000 bonds voted in a recent election.

### 46,785 Barrels Total Flush Production Field

This Amount of Oil Is Secured From Completed Wells In Howard-Glasscock County.

#### Seven Wells Due In

Important Wildcat Test of Zoch-McCamey Is Attracting Attention of Oil Men.

BY S. F. BALENTINE

NEW DRUMRIGHT, Glasscock County, Tex., Sept. 18.—The Howard-Glasscock field has, up until last evening, shown a total daily potential production of 46,785 barrels from a total of 24 wells that have been given the 24-hour production test. Of this number 17 are producers from the 2000 foot horizon, with a total flush of 41,938 barrels daily, while seven are from the 2500 foot horizon showing a total of 4847 barrels daily. The production average of the 17 new producers is 2467 barrels daily and 653 barrels daily for the 2500 foot stuff.

This total is arrived at by taking the 24-hour gauge for the first test of each well down to last evening. Cosden & Company's No. 3 Roberts, is on production test today. The recent completions on production tests for the first time are: Sun Company's No. 1 Settles, showing 1658 barrels from the 2500 foot pay, this is the largest producer from this horizon in the field; same company's No. 2 Settles, from the 2000 pay 2660 barrels; Magnolia's No. 4 Roberts, 3122 barrels, the same company's No. 8 Roberts, swabbed 1485 barrels.

The Texon's No. A-1 Settles, offsetting Magnolia's No. 4, to the west, is fishing for tools at 2740 feet. Taylor-Link in the west extension area, drilling at 1340 feet. The White Eagle Oil Company, No. 1 Cox, in section 29, block 33-4 South, Glasscock county, three miles south of Garden City, drilling and underreaming the eight and a quarter at 2290 yesterday.

An important wildcat test that is attracting quite a lot of attention among the oil men, is the Zoch-McCamey et al, about five miles east and a little south of the Cushing ranch, in the center of the north line of section 15, block 30, W. & N. W. Sterling county. This test has the eight inch set at 2183 feet and yesterday was drilling in sandy lime at 2360 feet. The hole is dry and in good shape to go on down.

The surface elevation at this location is given at 3547 feet. The test is being drilled with cable tools.

### East Third St. Baptist Church

The East Third Street Church has one of the best records of attendance and cooperation according to most any church of its kind in the state.

Sunday was a great day for the Center Point Community and for our beloved pastor, Rev. S. B. Hughes of East Third St. church. Also Rev. Smith who assisted in the baptism of 43 at Centerpoint, of which 1000 persons witnessed the scene.

East Third is launching a campaign which the church has taken vital interest in. The campaign will consist of cottage prayer meetings, of which there is appointed band leaders to each community and volunteers to help the leaders. You are cordially asked to invite these leaders to your home for prayer meetings, which do a great work for Christ.

The leaders and their sections of town are Bro. Arthur Travis who has charge of Cole and Strayhorn part. Bro. Cecil Floyd who has the southwest part; Miss Timmie Hill has section north of tracks, Miss Pauline Morrison is centrally located including Jones Valley and James Morrison has from town east including Coleman Camp. Wednesday night at 7:30 we have our conference at the church, Rev. Hughes who will lecture on "Winning Souls for Christ." This is merely a preliminary for the big campaign which starts Sunday evening.

We extend our hearty welcome to all to assist in this great work if you cannot do that just come and listen to us; we need you greatly.

### AN ANNOUNCEMENT RELATIVE TO 'UNDERS'

Superintendent W. C. Blankenship of the city schools, wishes to make the following announcement in regard to children under the school age, entering the public schools:

"Unders will be enrolled, conditionally, in the various schools, and will be taken care of so far as conditions permit. The schools are crowded, and it will be impossible to take care of all the 'unders' desiring to enter school this year. The law says that we must first take care of those students between the ages of 7 and 17 years."

Arrests for drunkenness leads the list in Howard County. Thirty three drunks arrested so far this month. Vagrants come next with 17 arrested.
