ASSAIL TREATY

Franco-Soviet Pact Declared Reason For Action

LONDON. Mar. 19. (A)-The League of Nations council today con-demned Germany as a treaty break-er. Not counting votes of Germany, France and Belgium, parties to the dispute over the Locarno violation and occupation, the resolution was a

dopted unanimously.

The action came after Joachim
Von Robbentrop, Adolf Hitler's special ambassador to the conference, had argued that Germany had been "forced" to enter the Rhineland and denounce the treaty by the Franco-

Hitler's envoy, fresh from a nightlong session with Der Fuehrer, has-tened to a series of conferences. These culminated tonight when Anthony Eden, Britian's foreign secretary, met von Ribbentrop to try to convince him of the folly of further enraging the French.

Great Britain and Italy, embroil-

ed over the sanctions question, used different but equally effective meth-ods of opposing the idea of sanc-

ous of opposing the lates of salections against Germany.

It was authoritatively stated that a British proposal for a temporary joint demilitarized Rhineland zone probably would be dropped because of the violent French reaction.

THE PANHANDLE PROTESTS (An Editorial in the Amarillo Daily News)

The News believes it is expressing Panhandle-wide sentiment in protesting the decidedly unfair publicity given this territory recently by eastern newspapers. A deliberate lie is being carried beyond the point of justice and fairness.

Typical example is the Monday, March 9, issue of the Cincinnati Inquirer, one of the larger papers of the nation. carrying a page one picture of an old abandoned shed outhouse in the "49" ranch pasture northwest of Dalhart.
The caption over the picture is "Farm Ruined by Dust ington, Hotel Scharbauer, the Pe-Chicago to serve drinks to a group Storm". Below the picture is this enlightening information: "Recent 'Black Blizzards' or dust storms, in parts of Oklahoma, Texas, and New Mexico, have devastated and depopulated many farms." The picture shows how a ferred to as without a pull-bent are a great around former to a great around former dust storm laid waste a farm at Dalhart, Texas. The pic- home as a grubworm wearing rubber ture is credited to International News.

The truth is that the Dalhart country has had only two bad dust storms this year and a relatively few smaller waste of motion, but on March 28 cnes which have done little temporary damage. Wheat there will be turned on, on Broadlocks good in most every part of the Panhandle and with looks good in most every part of the Panhandle and with the usual seasonal rains expected in this country will make extends from 44th to 45th street, a fair crop this year. The lie spread by the picture and and chewing gum built it. It's the the untruth printed beneath it does an injustice to the entire Panhandle and especially in the Dalhart region, REPORTS FOR FOURTH SIX-WEEK which except for a sand hill area, is coming back with a

The abandoned ranch shed, fence and windmill photographed is in the heart of a very sandy region and was abandoned years before the dust storm menace ever attracted any publicity. Sensationalism may be necessary to certain agencies wishing to propagandize an unfortunate situation, but certainly downright fakery and deliberate falsehood is not to be condoned. The picture credited to International News of an abandoned ranch shed could be duplicated at almost any ranch headquarters in the Panhandle country, especially those old ranches where barns, sheds or houses were built on sandy soil or near wells where milling herds have been 20 or 40 years churning up the soil and "ruining" the land thereabouts.

Reports for the fourth six weeks of the Mid-land Public Schools show that 92 per cent of the pupils in school during that period passed in all of their work and that 487 won distinction in their studies. The reports for the fourth six weeks, H. R., Mar garet Hoffman, H. R., Genevia House ton, H. R., Jean Lewis, H. R., Mickey O'Neal, H. R., Mobert Payne, H. R., Mary Beth Scruggs, H. No one dust storm or sandstorm is going to ruin any farm or any part of the Panhandle. No one season of dust storms is going to ruin this country because it has a wonderful soil and if given half-decent treatment will bound back into its own in record time upsetting world wheat, corn and cattle markets.

About the most damaging thing the Panhandle region has to "put up with" are the deliberate lies told by tenderfoot easterners and spread by unprincipled and uninformed individuals or organizations who, seeing a swirl of dust of a weather beaten shed and corral, pull in their weak and yellow necks and yell at the top of their canary throats: "Wolf, Wolf!" If the whole thing wasn't so damaging and if there were not so many dumbbells who believed such lies, it would be one great round of laughter.

Speak So You Can Be Understood

Fat All Gone NeverFeltSo **Good Before**

It was so simple! I ate what I liked, took no strenuous exercises, did not weaken my body with drastic purgatives—yet day by day I felt my-self getting lighter, the fat seemed to slip away. Now I have a lovely, graceful figure — and I never felt better in my life!

better in my lite!

That, in brief, is what thousands of women who have reduced the Marmola way might well tell you. Four times a day they take a little tabletcontaining in exactly the right quantity a world-famous corrective for abnormal obesity.—A corrective prescribed by physicians everywhere and acknowledged to be the most effective known.

Since 1907, more than 20 million packages of Marmola have been purchased. Could any better recommendation be had?

Today—buy a package of Marmola, and start at once. Soon you will experience Marmola's benefits. When you have gone far enough, stop tak-ing Marmola. And you will bless the day you first discovered this marvel-ous reducing agent!

Marmola is on sale by dealers everywhere—from coast to coast.

A LIGHT SMOKE

OF RICH, RIPE-BODIED TOBACCO

Luckies are less acid. For hundreds of years, tobaccos were selected - and gradations in flavor secured-by the roughest sort of rule of thumb methods. Hence, one of the most important innovations made by the Research Department was provision for chemical analysis of selected tobacco samples before purchase: the resulting reports offer the professional buyer an accurate guide and reinforce his expert judgment based on the senses of sight, smell, and touch. Thus extreme variations toward acidity or alkalinity are precluded by such selection and subsequent blending.

By JESS RODGERS

Unless we are mistaken the Bulldog track team of this season has already set a record. They won a meet. It is possible that teams of other years have done so, but we do not recall the fact.

The Bulldogs went to Crane last Saturday and emerged with 64½. 14. Recreation—All swimming pools must comply with the Advisory Swimming Pool Standards of the State Department of Health.

The Bulldogs went to Crane last Saturday and emerged with 64½ points to lead Big Lake, Kermit and Crane. The Big Lake club was second with 38 points, Kermit third with 20½ and Crane trailed with tablishments on grounds for clean-liness, sanitary method of handling

Dave Waltord, outstanding Bulldog in three sports, football, basket ball and track, was high point man in the meet with 23 points. The big boy took four first places, shot put, discus, javelin and high jump and a second in the 100 and 220 yard dashes and picked up other points in the relay. Dutch took eight of the barrel storage tanks are being erectages to the meet and every one of boys to the meet and every one of the test. When scored points.

The team will go to Barnhart Saturday for an invitation meet being staged in that city. Dutch is especially anxious to cop that one, but the competition will be much stiffer than that met last week.

An invitation meet is planted for the test. When opened up nearly a week ago, it flow ed 315 barrels in four and a half hours with tools and line lost while cleaning out bridge still in the hole. The well is bottomed at 4,211, having been plugged back after water developed in drilling to 4,230. It is good.

An invitation meet is planned for here March 28, Wink, Kermit, Monahans, Odessa, Crane, Big Lake, McCamey, Stanton and Rankin being invited. The east offset to the Foster discovery, Barnsdall No. 1 Frank Foster, is preparing to drill plug from
