### Dropping Temperatures Aid Flooded Sections

#### OFFICIALS COUNT 18 KNOWN DEAD IN CANADA AND U. S.

500 Families Flee in Wilkes Barre, Pa., Flood Waters

#### DAMAGE IS HIGH Estimate Total Will Be Millions of Dollars

By Associated Press  
Dropping temperatures in flood-stricken sections of the northeastern United States and Canada today helped retard ramaging rivers, while officials counted at least 18 deaths and millions of dollars worth of damages.

The Red Cross reported that 500 families had fled and that 1,500 more were ready to evacuate the flooded Wilkes Barre, Pennsylvania, region. Coast guard surf boats were sent to do rescue work.

From St. Tites des Caps, Quebec, came the report that four members of a family had been drowned when a frame dwelling was borne away on the flood crest of a brook.

The flooding Hudson river held five men prisoners on a newly formed island at Rensselaer, New York. At Toronto, colder weather stopped the mad rush of ice and water and receded from the water-logged buildings.

The known toll of dead included two in New Hampshire, two in Massachusetts, one each in Vermont, Maine, New York, New Jersey and Ontario, and five in Quebec.

Four persons were found dead in a flooded home in Kingston, across the Susquehanna river from Wilkes Barre.

#### HUMAN BONES ARE FOUND BY EDITOR

Officers Hunt Evidence To Convict Farmer Of Death of 4

TYLER, Mar. 13. (AP)—Discovery of bones in the farmyard of George Patton's home near Athens, Sparta, S. C., has led to an investigation of the alleged murder of J. W. McGehee, his wife and two children there in 1932.

Sitting among the remains of animal carcasses, Charles Ellis editor of the Tyler Morning Telegraph, said he found bones physicians identified as human. Sheriff Jess Sweeten joined the hunt and efforts were made to unearth McGehee's teeth, which a Tyler dentist said he could identify.

Patton is charged in four cases of murder in connection with the mysterious disappearance of the McGehee family from his home on Thanksgiving day. Thus far, in the investigation, there have been no bodies to substantiate a murder charge.

Sheriff Sweeten said Patton, in a written statement, admitted the disposal of the four bodies. The statement said McGehee killed the woman and children and that Patton then clubbed McGehee to death.

#### MRS. LEE ADDED TO FACULTY HERE

Snyder Teacher Accepts Clothing Position in High School

Mrs. S. M. Lee has accepted the clothing position in the high school home economics dept., and will report for duty Monday of next week. Mrs. Lee has the B. A. degree from Simmons-Hardin university, and B. S. degree from C. I. A., and a State Vocational Smith-Hughes H. E. certificate, and has had six years of successful teaching experience in the schools of Stamford and Snyder. She comes to Midland from the H. E. department of the Snyder high school where she has enrolled 80 girls in her department. Last year one of her girls won a place in the State dress contest at Corpus Christi.

Mrs. Lee is a widow. She drove over to Midland Thursday for a conference on the clothing position here and to look over the H. E. laboratories, expressing herself as being delighted with the Midland set up.

##### 'Baby' Senator?

If candidate John W. Bosworth above, is nominated and elected, West Virginia will send to Washington another Democratic "baby" senator, one who will have to wait longer to take his seat than did Senator Rush Holt. Bosworth, 28, won't reach 30, the age required of U. S. senators, until August, 1937. He lives near Senator Holt, and their dads have been close friends for years.

#### SERVICE SERIES TO OPEN SUNDAY IN CHURCH OF CHRIST

Evangelist Henry, Rev. Bass to Be Speakers

A series of evangelistic services is to begin Sunday, March 15, at the Church of Christ to continue for ten days or longer if the interest demands. Evangelist W. A. Henry, of Hobbs, New Mexico, is to do the preaching, assisted by the local minister, T. H. Bass.

"Evangelist Henry has been a very successful minister of the word of the Lord, and his efforts have been quite successful in winning men and women to Christ. He has a very pleasing personality, and is a very forceful speaker and his messages are delivered in such a way as to reach the hearts of the people. After having heard this man of God there is left within you a desire to hear him again. It is with great pleasure that the Church of Christ brings this messenger of the gospel to our people," Rev. Bass said.

"One feature of this meeting, will be the singing of old time gospel songs in that good old way as a congregation, and this part of the meeting will be conducted by home talent and we shall be glad to have you come and enjoy and assist in this part of the meeting. All singers are invited."

There will be two services each day, at 10 a. m. and 7:45 p. m.

#### FARM PROGRAM TO TAKE EFFECT IN COUNTRY MONDAY

Farmers Will Know How Much Money To Expect INCOMES TO RISE

Regional Leaders to Meet, Make Final Adjustments

CHICAGO, Mar. 13. (AP)—The administration's new farm program will be put into full operation next week. Agricultural Administrator, Chester C. Davis said Wednesday night.

The administrator said that by midweek the farmers would be told definitely for the first time how much money they could expect to receive under the soil conservation act, and just what they must do to get it.

The work of correlating the recommendations of farm leaders on how the program could best be carried out in different sections of the country will be started in Chicago tomorrow.

From four regional farm meetings—at Chicago, Memphis, Salt Lake City and New York—representatives of the United States department of agriculture will come here to meet Davis and begin dovetailing the sectional programs into a harmonizing whole.

Davis said the conferees would include M. L. Wilson, assistant secretary of agriculture; G. B. Thorne, of the livestock division of the department; Clyde Warburton, director of extension; Prew Savoy, of the legal staff, and Claude Wickard, director of the defunct AAA's corn-noys program.

Davis expressed pleasure at the response accorded the farm program which is designed to restrict crop production and increase farm incomes by paying farmers for rotating from soil depleting to soil conserving crops.

He said if the agriculture department attained its goal of increasing the nation's grassland from one fourth to one third of total acreage farm income would be increased by \$1,500,000,000 from 1935 to 1936.

Defending the program against charges it was an application of the "economics of scarcity," Davis credited it and its predecessor, the AAA, with starting industry's swing into reactivity.

#### C OF C COMMITTEE TO VISIT EXHIBIT

District Six Members to Visit Building Site in Ft. Worth

Chamber of commerce officials of district six met here last night and appointed a committee to go to Fort Worth next Monday to inspect the building site for this district in the West Texas Chamber of Commerce centennial exhibit to be placed in that city.

Tentative plans of the local organization called for only an exhibition of the cattle of this section, but since the exhibit is to be made a permanent affair, cotton, oil, other resources will be shown.

Those attending the meeting here were: S. A. Debnam, and Mrs. Salve Covington, Midland; Taylor White, Odessa; J. D. Dire, W. L. Marr and A. Bearden of Lamesa and W. T. Strange and Nat Schick of Big Spring.

Debnam will represent the Midland chamber of commerce as one of the committee that will inspect the exhibit site.

Furnishes Needed "Bulk" for Regular Habits

Your doctor will tell you that keeping healthy depends far more on proper diet than on drugs, that common constipation is usually due to insufficient "bulk" in meals, and that patent medicines give you only temporary relief.

Kellogg's ALL-BRAN supplies gently acting "bulk" which corrects the cause of common constipation. This "bulk" takes up moisture, forming a soft mass which helps to cleanse the system.

ALL-BRAN gives your body the regular internal exercise it needs to prevent sluggishness. ALL-BRAN also furnishes vitamin B and iron.

Studies on normal men and women have shown that this delicious cereal is perfectly satisfactory. Serve ALL-BRAN regularly for regularity, with milk or cream—or use in cooking.

Two tablespoonfuls daily are usually sufficient. Consult your doctor if you do not gain relief this way. ALL-BRAN is much more effective than part-bran products. Get ALL-BRAN at your grocer's. Made by Kellogg in Battle Creek.

## Tom Sealy Attend Sister's Wedding

Mr. and Mrs. Tom Sealy returned Wednesday afternoon from Santa Anna where they attended the wedding Tuesday evening of his sister, Miss Velma Sealy, to Lieutenant Kenneth Alward Knowles of the United States Navy.

Mr. Sealy served as best man while Mrs. Sealy was maid of honor in the wedding party.

The ceremony was read in the candle-lighted Methodist church at Santa Anna before an altar of blossoms and ferns. It was followed by a reception at the home of the bride's parents, Dr. and Mrs. T. Pichard Sealy. Symbolic of the navy, the three-tiered wedding cake, embossed with rosebuds, was topped with an anchor. The bride cut the cake with a sword in traditional style.

Mrs. Knowles is known in Midland where she has visited her brother. She and Lieut. Knowles left after the ceremony for Washington, D. C., from where they will go to Annapolis to make their home.

## 1928 Club Honored At St. Patrick Bridge Party

St. Patrick dominated playing appointments for the afternoon bridge with which Mrs. John B. Thomas was hostess to the 1928 club and guests at her home, 102 S. Colorado, Thursday. Jonquils were used in decorations.

Prizes in games went to Mrs. John House for high score among guests, to Mrs. E. B. Soper for high score in the club, and to Mrs. Roy Park for second high in the club.

Playing guests were: Mmes. Foy Proctor, O. B. Holt, R. C. Barbour, H. C. Wheeler, Jas. H. Chapple, John House and Geo. McEntire.

At the refreshment hour, tables were laid with green covers and shamrocks were presented as plate favors.

Club members present were: Mmes. J. M. Caldwell, C. M. Goldsmith, Roy Parks, Johnson Phillips, William Simpson, Don Sivalls, Harvey Sloan, E. B. Soper, M. C. Ulmer, and the hostess.

## Heavy Turtle Falls Victim to Fisherman

BEAUMONT, Texas. (P.)—A fresh water turtle weighing between 90 and 100 pounds fell victim to a light fly rod in the hands of E. R. Maxon of Port Arthur fishing in Conaway bay near Orange Sunday.

The jaws of the mammoth loggerhead closed over the live minnow bait and when Maxon dragged the turtle to the surface another member of the party, M. B. Word, crushed the head with an anchor and it was hauled aboard their boat with ropes.

It measured 52 1-2 inches long and 19 1-2 inches wide and was thought to be more than 100 years old.

## Mules Fall 85 Feet, Live

GRANTS PASS, Wash. (U.P.)—Two pack mules, frightened when one of their mates fell off a six-foot embankment and was killed, reared and plunged off an 85-foot cliff and escaped unhurt. The animals landed on mattresses packed on their backs.

## Prisoners Get "Last Dinner"

TOLEDO, (U.P.)—Officers arrived late at the state penitentiary with two gangsters beaming life terms. The prisoners persuaded their escorts to stop with them enroute "for one last, good spaghetti dinner."

They say there's a price to pay for everything. That is certainly proving to be so, in as far as learning to skate is concerned. We've tried it only once and we have a bruised wrist and a sore neck to show for it—and still we've not learned to skate.

Speaking of skating, a rink is a very good place to study human nature. One can see a sizeable cross-section of the citizenship of this our country most any night at a roller skating place.

Today is Friday, March the thirteenth. The date has an ominous sound but somehow we never could stand in fear and trembling before either Friday or the fateful number 13. About the only superstitions that worry us are first, the need to knock on wood when we boast lest bad luck befall us (it generally does, if we boast of anything), and fear of dreams.

As for today, we'll cross our fingers once and walk cautiously all day and let it go at that.

It was, we think, a group of clever hostesses who sent out invitations for a party tonight on shamrock-shaped cards outlined in green. The jinx should be offset surely by a good luck emblem and a good luck color.

## Young People Have Leap Year Party

The young people's department of the Baptist Sunday school was complimented with a Leap Year "Kid" party at the home of Miss Charline Parrott on Pecos street, Thursday evening.

Prizes were awarded for the best "kid" costume.

Games of 42 furnished amusement for the evening, after which refreshments were served to approximately 30 guests.

## We cure each tobacco in a Chesterfield the way that is best for that tobacco

... another reason why Chesterfields are milder and taste better

When we say that a tobacco is good enough for Chesterfield cigarettes, we mean just this—

- ... TOBACCO that is ripened in the sunshine, then picked, leaf by leaf, when fully ripe,
- ... TOBACCO that is cured just right by the farmer—flue-cured, air-cured or sun-cured to seal in its good aroma and flavor.

... TOBACCO that is aged and mellowed in hogsheads or bales for two years or more until free from harshness or bite.

That is the kind of tobacco we use for Chesterfields—mild, ripe tobacco, cured just right and aged for flavor and taste.

The Sports Horn

By JESS RODGERS

All hail Dutch Baumgarten! Dissatisfied with the quarterbacking he has been getting each season, he has decided to take a boy and teach him the game for the next decade and a half as he believes that at the end of that time he will have a field general that knows the difference between a punt and a prayer.

He has already shown one quality to insure his being a good quarterback. He has a voice that will make anyone nearby thoroughly conscious of his presence.

According to Dutch, the boy is probably the most perfect specimen that has been born in this country since Lincoln made his first sound.

Some fight manager looking for a "white hope" to defeat Joe Louis the youngsters now and start their training.

Mayor Ulmer is known as a conservative, but we'll bet you the mayor or will bet you that Barron Ulmer Kidd is able to take anything to pieces anywhere near his age and weight.

Before we forget this column should have some mention made of something else we'll leave the future greats with a hope they will be more able to promote a baseball team in this town when they are grown than this department has been able to do.

President Collins of the Permian Basin League informs us that he has called the final preliminary meeting for league members, asking directors from the cities to meet in McCamey Sunday afternoon.

It now appears doubtful if Midland will have any representative, excluding Collins because of his official position, at the meeting.

Big Spring also seems to be having its troubles in getting a team started. Tom Beasley reporting "It's easy to get people to promise to attend the baseball meeting, but few show up."

Midland Filly on Texas Derby List

ARLINGTON DOWNS.—Texas-owned thoroughbreds are prominent among the early nominations for the \$15,000 added Texas Derby, which will feature the 27-day spring meeting opening at Arlington Downs, March 26.

Outstanding of the Lone Star color breeders is Mrs. Ed Haughton's Black Highrow, an outstanding 2-year-old. The Dallas-owned son of Blackwood-Lady Highrow won 11 of his 30 starts as a juvenile, finishing second eight times and third twice for a total of \$12,460 in purses.

Black Highrow, however, will find the competition keen from his Texas relatives, as 10 other stables in addition to that of Mrs. Haughton are represented among the early nominations.

The Three D Stable, owned by Paul and Guy Waggoner, masters of Arlington Downs, will depend upon a pair of thoroughbreds in an effort to win the Derby for which they have not had an eligible in its three years.

Double Kerry, winner of the Texas Breeders' Futurity the past Fall, will be Irish Ford's running mate.

The Valgina Stock Farm of Sabinal, owned by E. F. Woodward of Houston, has nominated Sir Emerson, which won two of his eight starts as a 2-year-old.

Wichita Falls, has named Denver Lad, while the Cactus Stable of San Antonio, placed Slavonia among the eligibles.

Several of the Texas thoroughbreds are eligible for the Kentucky Derby and, no doubt, one or two of them will be starters in the Blue Grass classic.

Townsendites Asking Aid of Congressman

DALHART, Tex. (AP)—Northwest Texas farmers commend Congressman Marvin Jones for the AAA and his other farm and ranch programs while Townsendites tell him he must commit himself definitely to their plan or lose their support.

President Claude McDaniel of the Dalhart County Farmers' Protective Association, declared that, "we feel Jones' plan of intelligently controlled production and benefit payments, which are equivalent to a protective tariff, are just what the farmer has been looking for."

J. N. Johnson, Dalhart, official Townsend Club organizer for the north half of the 18th congressional district, represented by Jones, says: "We have written Jones our last letter to find out how he is standing on the Townsend Plan. If he does not support us we will find it necessary to endorse another candidate. His answer to our other letter has been shining examples of fence-straddling."

DUST BOWL FARMERS EXPECT TO HAVE "BLACK NORTHERS" AGAIN IN SPRING

AMARILLO, Texas. (AP)—In their most optimistic moments, farmers in the so-called "dust bowl" do not expect to escape the dust plague during the spring blowing season.

Having received a taste of the kind of dust storms that menaced crops, soil and health in 1935, residents of the Southwest are prepared for another siege this year.

Their belief is based on knowledge that fewer acres are exposed, moisture is heavier, and statements by weather observers and conservation experts.

Last year, the "dust bowl", embracing parts of five states, contained more than 2,500,000 acres of exposed land. H. H. Fennel, regional conservator for the Soil Conservation Service, says the erosion area now is about 1,500,000 acres.

For the 12 month period ending Feb. 1, 1936, Amarillo's total precipitation was 16.76 inches, for the preceding 12-month period the total was 14.99 inches.

Soil experts pointed out that the 12 percent increase in moisture, including five snows which soaked into the soil with little or no runoff, promoted the growth of vegetative cover crops and reduced the size of the "dust bowl."

"Judging by present conditions, there probably will be about one-third less dust storms this year than last," said H. T. Colman, meteorologist of the United States Weather Bureau.

Dust storms began in January last year. Eight occurred that month and 13 in February. Only one serious duster has swept the "dust bowl" region so far this year.

An intensive soil-saving program has been conducted by farmers in cooperation with the state extension service, the Soil Conservation Service, and the Resettlement Administration.

Maintenance of the adequate cover crop through moisture conservation and proper tillage methods is the ultimate aim of the Conservation Service.

The immediate problem is to protect fields that have been abandoned or where crops have failed or are too tight to resist eroding winds.

The Resettlement Administration recently entered the anti-dust fight with the announcement of a grant of 18 cents an acre for emergency listing of eroding lands.

With 14 conservation service projects in the five states area demonstrating to farmers the most effective means of eliminating erosion hazards, Fennel predicts continued progress toward checking the ravages of dust storms.

"Please Send Me Ten Cents Worth of Electricity"

... If you ordered electricity like you do potatoes ... if you figured each day how little 24 hours of electric service cost, you'd have a greater appreciation of what electricity does around the house.

But you don't have to order electricity every day, or even give it a thought. Your electric service is always ready at the snap of a switch to do the innumerable tasks around the home at which it excels.

By the end of a month, you may forget the many jobs that electricity performed, but a little reflection will recall to mind the many occasions and ways in which electric service added to the comfort, convenience and health of you and your family.

And when you add up the cost you find that electricity is one of the cheapest of household expenses ... only a few cents a day.

SEVERAL RESETTLEMENT PROJECTS TRANSFERRED TO AMARILLO OFFICE

Several land use adjustment, rural resettlement and other types of projects being developed under the Resettlement Administration's general program have been transferred to the regional office at Amarillo.

"Projects are to play a very important part in this region," stated Mr. Hauter, "for it will be through these projects that we will put into effect land use adjustment and development measures aimed not only to curb wind erosion and arid agricultural problems, but on which we expect to demonstrate the practicability of resettling distressed farm families now on unproductive land."

"The question is often raised—what do we propose to do with range and grazing lands that have been plowed up and on which it seems there is little hope of utilizing in a sound agricultural economy? In this connection I think it is important that we develop new thinking, squarely face the facts and deal in common sense terms."

"Our efforts will be directed to making grazing lands that have been unwisely plowed up and of returning them to the range or public domain. Tracts of such land will be included in some of our land use adjustment projects."

"We must have," continued Mr. Hauter, "fertile lands on which to resettle those whose distress is largely attributable to the land on which they have been living. Several resettlement projects are under way throughout this region, and on these we propose to rehabilitate, along cooperative lines, those eligible. I expect to have more to say on this phase of our work soon."

"Another type of project that is being established in the region is irrigation adjustment. In these undertakings we shall strive to establish the feasibility of irrigation systems best suited to local conditions."

Projects are administered by the project planning and development division in the regional office at Amarillo. This division functions through four sections; being, land use adjustment and development, administrative and specialist service, rural rehabilitation and management.

The following New Mexico land use adjustment and development projects have been transferred to Region Twelve: Taos County, Crater, and Mills.

Other New Mexico projects are: Hope Irrigation Adjustment, White Sands National Monument Extension, Southwestern New Mexico Resettlement, Mills Northern New Mexico Resettlement.

Colorado projects, within this region, will undoubtedly be transferred to this office according to Mr. Hauter.

The Minuteman Migratory Waterfowl Refuge is the only project of its kind transferred to this region. The following New Mexico Indian Projects will probably be under jurisdiction of this regional office: Ziz-Santa Fe, Laguna, Acoma, Jemez, Cochiti, San Domingo, Isleta, Tewa Basin, Zune, and Gallup-Two Wells.

Colorado projects, within this region, will undoubtedly be transferred to this office according to Mr. Hauter.

The Texas Tech Band, which will give a program at Midland High School Auditorium, March 17th, 10:00 a. m. is rapidly taking a place as one of the nation's finer school bands.

subscription. This rapid growth, both in number of investors and in total resources of this type of local thrift association, is explained by several factors:

1. Every investor in a Federal association is automatically insured against loss up to \$5,000.

2. The associations enjoy private, mutual ownership and management in making long-term home loans. Dividends currently paid range between 2 percent and 4 1/2 percent averaging over 3 percent.

3. The regulations governing Federal associations are a composite of the soundest home mortgage practices developed in the 48 states in more than a century of savings and loan experience.

4. The flexibility of the Federal share purchase plan meets the needs of small or large investors.

5. Close supervision of the Federal association's financial condition, management and actual lending operations, by the Federal Home Loan Bank of which it is a member.

6. The increasing extent to which Federal savings and loan associations are bringing their services before the people of their communities through informative advertising, largely in newspapers.

The various Federal associations, placed over a quarter of a million dollars in newspaper advertising in 1935. This sum seems likely to be more than doubled in 1936, as many of them are undertaking more extensive advertising programs to feature their home-loan facilities and the insurance safeguards which their shareholders automatically receive.

Texas Tech Band Will Make Appearance Here Tuesday March 17

The Los Angeles Times said, after a recent appearance of the Tech Band in that city, "The Texas Tech Band was a complete success and critics have been unanimous in their praise of the band, both as to the fine quality of performance, and that quality that is so hard to attain—personality."

The Midland High School Band is sponsoring the local appearance of the Tech Band, for the benefit of the Annual Fund, the high school yearbook.

Dallam County Tries To Get Rid of Rabbits

DALLHART, Texas. (AP)—Dallam county's drive to kill 10,000 jack-rabbits that were damaging wheat has the best prospect in four years of being realized, County Agent Frank Stubbs estimates.

Officially the drive closed Saturday night but the count will not be completed for several days. Commissioners donated a ton of poisoned grain to 151 farmers. Commissioners also offered a bounty of one cent for each pair of ears up to 10,000.

Farmers who reported for the bounty had an average of 64 pair of ears. Many rabbits were destroyed by hawks or could not be found after being poisoned, they said.

HERE OVERNIGHT Miers Johnson, manager of the La Caverna hotel, Carlsbad, N. M., spent Thursday night here.

VISITORS LEAVE Mrs. John Ralson and son, Hubert, of Sweetwater left for home today after a visit with her brother, John House.

Governors To Visit Opening Centennial Event At Fort Worth

FORT WORTH, Texas, March 13. (Sp.)—Fort Worth, center of the extensive southwestern cattle industry, will inaugurate its impressive Centennial year activities Friday night, March 13, with the opening rodeo-horse show performance of the Western Exposition and Fat stock show.

The cattle city's Centennial observance will extend through the exhibition and fat stock show, which closes March 22, and the elaborate Texas Frontier celebration to be presented from June 6 through December 1.

Governors of two states and the governor elect of a third are scheduled to attend the Friday night opening, heading a large group of distinguished guests who have been invited. The governors are Alred of Texas and Marland of Oklahoma. Richard W. Leche, governor elect of Louisiana, will be present.

The guest list includes Lieutenant Governor Walter F. Woodall of Texas, chairman of the commission of control for Texas Centennial celebrations, and members of the commission who are as follows:

Speaker Coke Stevenson, vice-chairman; John K. Beretta of San Antonio, James A. Elkins of Houston, Karl Hoblitzelle of Dallas, Gen. John A. Hulen of Fort Worth, Pat M. Neff of Waco, Wallace Perry of El Paso, and Joseph V. Vandenberg of Victoria.

Fort Worth and other West Texas cities plan various Centennial celebrations to be presented throughout the year which will center much of the Centennial year activity in that part of the state.

FROM SOUTH CAROLINA W. M. Storey, oil man from South Carolina, is the guest of a Midland hotel.
