## Cattle Trading Gaining As Result of Big Sudan Pastures in County Now

### Ultimate Purpose of Purchasers Is To Finish Stock On Home Grown Feed

Cattle trading, as result of abundant pastures of sudan, has been under way the past few days and reports indicate that there is demand for several hundred head of steer yearlings to be run on the crop. The ultimate purpose of the purchasers is to finish the cattle on home grown feed after the animals have been run on the sudan pasture.

Conner Bros. made the first purchase of fifty head of steer yearlings from Rosenbaum and Elkin. J. C. Miles bought 75 head from Paul Slater of Odessa. W. S. Hudson farming southeast of Midland, bought fifty head of mixed yearlings from Bob Preston.

The sudan, made since the rains early in July, has provided pasturage for many cattle. Prices for the yearlings have been from \$5.00 to \$8.00 per head less than spring prices, thereby creating a new seasonal market. It was expected that prices would be somewhat boosted by the demand for good quality yearlings.

Indications of good feed crops, to provide finishing rations, also have caused the purchase of cattle to be built up first on the sudan. T. E. Bizzell and several others already had strings of cattle which have been placed on the sudan pasture. Sudan, fed as pasturage, contains practically three times the protein as that which has been cut.

Mrs. Loro Thomas, Midland woman and first past president of the auxiliary at Big Spring, is the women's chairman of the program committee for the two day session of the West Texas Odd Fellow and Rebekah Association which opens here today. Mrs. Thomas joined the Rebekahs at Midland in 1907 and has been a member of the assembly since 1911. She has been active in the work, serving on various committees in the Rebekah assembly, and has been special and district deputy for 18 past presidents.

## GREECE IS PLACED UNDER TROOP RULE AS STRIKE CALLED

### Chamber of Deputies Is Abolished By New Order

## WIPE OUT POWER Move Erases Might Of Communist Majority

ATHENS, Aug. 5 (AP)—A "temporary" dictatorship was approved by King George today as he held Greece under martial law to ward off the danger of bloodshed in what the government described as a communist promoted general strike.

Premier John Metaxas proclaimed the dissolution of the chamber of deputies and decreed martial law. The chamber dissolution wiped out the power of the communists who hold the balance of power in the country.

A 24-hour general strike, called to begin at 12 last night, was called by leftist trade unions in protest against a recent law which fixed minimum wage scales and subjected workers' claims to obligatory arbitration.

The federation of conservative workers declared opposition to the strike in a manifesto.

## Texas Pays Tribute to Most Famous Native Son

### Vice-President And Wife Given Honors At Centennial

DALLAS, Aug. 5 (AP)—The Lone Star State paid tribute today to its outstanding native son, vice-president John Nance Garner. He and Mrs. Garner were to be entertained at separate luncheons and banquets.

Following the banquet Garner will speak at the Cotton Bowl at the Centennial Exposition and tomorrow he will dedicate the Centennial administration building and greet Governor Henry Horner of Illinois.

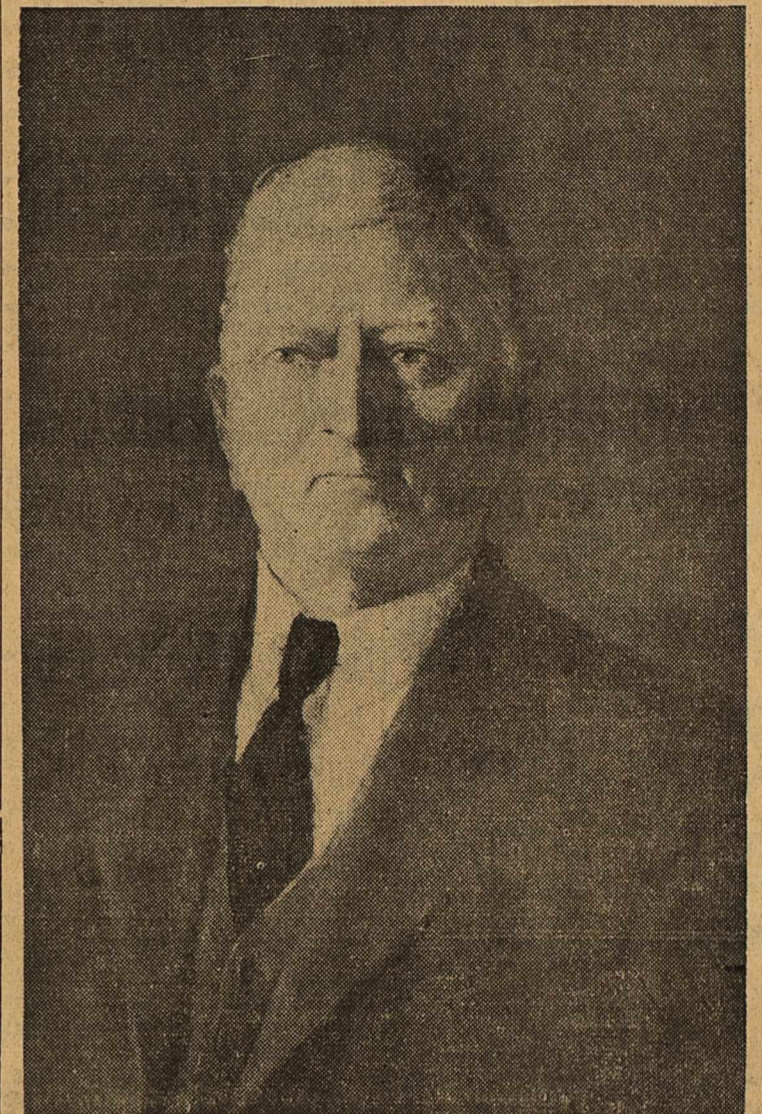

Later in the day tomorrow he will proceed to the Fort Worth Frontier Centennial show.

The Garners arrived by automobile shortly before noon, after spending the night as guests of Gov. and Mrs. James V. Allred in Austin. Their visit will last until some time Thursday, when they will go on to Fort Worth.

An important political aspect was given the Vice-President's visit when Roy Miller of Corpus Christi, head of the national democratic campaign organization in Texas, asked state party leaders to a conference with Garner this afternoon.

The politically minded will listen for every word the vice-president speaks here, for his public addresses are few and far between, and when he talks he usually has some thing to say. His principal address was at the Cotton Bowl at 8:30 this morning and he will also speak briefly at the public banquet at 6:15 p. m. at the Baker hotel.

## Exposition To Honor Great Texan

A special proclamation by Governor Allred has proclaimed today as John Nance Garner day, and the distinguished Vice-President is to be honored with a tumultuous demonstration at the Centennial Exposition in Dallas. Thousands have converged upon Dallas in probably the greatest public ovation ever accorded a citizen of the Lone Star State.

## EUROPE UNEASY Situation Closely Watched By The Continent

By Associated Press

Reports of fresh successes of the liberal forces punctuated Spain's civil strife today as Red Cross officials estimated that 35,000 persons had been killed and more than 100,000 wounded.

In Paris, the French government proposed a three-power non-intervention pact offered to other European nations on the suggestions of Britain, and Italy.

France looked to Moscow for support in maintaining a hands-off policy.

The Spanish government announced that numerous rebel strongholds could be captured "any day" but wished to force them to surrender with a minimum of bloodshed.

A radio message reported to have been sent by Burgos rebels was interpreted as picturing the insurgents' plight as desperate.

MONARCHISTS WANT BE ALLOWED IN SPAIN

BURGOS, Spain, Aug. 5 (AP)—Any member of Spain's royal family who sets foot on rebel territory will be jailed by General Emilio Mola, northern commander of the Fascist revolution, staff officers announced today. The general said that the rebellion was "national, not a monarchist movement."

## SPECIAL PROGRAM ON BOYS' WORK IS PRESENTED LIONS

### Will Hold Barbecue At Cloverdale Wednesday

A special program on boys' work was presented at the regular weekly luncheon of the Midland Lions Club in the assembly room of the county courthouse today noon. Lion Russell C. Conkling being in charge of the interesting program, which dealt mainly with Boy Scout work.

Billy Noble, local Boy Scout member, read a very interesting paper on "American Independence and World Peace," said paper being read at the Boy Scout camp on last July 4th. Pat McMullan, Scout member and knot specialist of Midland county, was presented in a knot tying speed contest, the local knot tying camp tying 27 knots in 2:20 minutes, a few seconds over his record time. McMullan exhibited 54 knots which he can tie with speed and accuracy. Buster Howard, scoutmaster of troop 64, and H. H. Kendrick, scoutmaster of troop 52, were in attendance at the meeting.

Scoutmaster Kendrick made a brief announcement proposing the purchase of the local privately owned swimming pool by the city if the local citizenry were in favor of such a move. Mr. Kendrick has made a thorough investigation of the cost of the project and believes that an agreeable purchase can be made by the city. The local scoutmaster believes that the boys and girls of Midland are in great need of such a city-owned pool, and is certain that it would be very popular with the local populace. The speaker stressed the value of swimming, and stated that it is the best exercise to be had. He exhibited an architect's drawing of what the pool and grounds might be if owned and operated by the city.

Barbecue Next Wednesday

The club members present voted to stage a barbecue at Cloverdale Park next Wednesday evening at 7:30 o'clock, said barbecue to replace the regular weekly luncheon of next week. The barbecue will be attended by Lions Club members, their wives, sweethearts and guests. Plans to make the barbecue one of the outstanding events of the year for the local service club are being perfected by the committees in charge. Lions Jim Goodman and Raymond Hughes compose the general committee in charge of the outing, while Frank Smith and Don Gabbert comprise the committee to transport the food to Cloverdale Park. Clint Myrick, Claude Crane and Ellis Conner will arrange for the drinks, paper plates and etc. Between 50 and 60 persons are expected to attend the barbecue.

Guests present at the Wednesday luncheon included Joe Mimms of Boston, Mass., and Lion Baker, who moved here recently from Mineral Wells. Lion Baker will transfer his membership to the local club.

The fried chicken luncheon was served by the ladies of the First Methodist church.

## Zipper Changes Mind Again, To Ask Re-Election

OLYMPIA, Wash., Aug. 5 (AP)—Washington's playboy congressman from the first district, Marion A. Zionscheck, filed for re-election here Tuesday. Two days ago he said he was withdrawing from politics because of the illness of his mother.

The inventor of the zipper cocktail would make no statement here, saying he was returning to Seattle immediately and would prepare one there.

He said too many erroneous statements had been made already, and he wanted to carefully prepare a statement before giving anything out.

His wife and three other persons accompanied Zionscheck to the secretary of state's office. His bride of only a few months filled in his declaration of candidacy on the typewriter for him.

Zionscheck's companions urged the congressman to make no comment until they had returned to Seattle.

## FOSTER TEST IS SHOWING SMALL AMOUNT OF OIL

### Broderick & Calvert Well Drills At 4,097

BY FRANK GARDNER

The latest test in the Foster pool in Ector to reach critical depth, Broderick & Calvert No. 1 H. C. Foster, is drilling below 4,097 feet in lime today with a small amount of free oil in the hole. It drilled a soft lime section showing oil from 4,075 to 4,090 which is believed to correspond with the pay top in the Barnsdall (York & Harper) discovery in the pool. The discovery found its first pay from 4,090 to 4,104. Gas volume in the Broderick & Calvert test is negligible. It is located 2,310 feet from the south and 330 feet from the east line of section 13, block 43, township 2 south, T. & P. survey.

York & Harper No. 1 Witcher, most recent test in the area to be spudded, is drilling ahead below surface pipe. It is located 660 feet out of the northwest corner of section 10, block 42, township 2 south, Sinclair-Pratt No. 1-A Johnson, interesting wildcat north of the Foster pool, located 440 feet from the north and 2,200 feet from the east line of section 42, block 42, township 1 south, T. & P. survey, topped anhydrite at 1,760 and is drilling below 1,906 feet this a.m.

The new half-mile north extension to the Emperor pool in southern Winkler county, Phillips No. 1 McCabe, encountered an oil increase in sand from 2,936 to 2,949, and is now swabbing at that depth, the last test showing 81 barrels of oil in 10 hours. It will be completed at total depth of 2,949. The first pay was also in sand, from 2,745 to 2,765. Location of the extension producer is 330 feet from the south and 990 feet from the east line of section 1, block B-12, public school land.

Another new producer for the Emperor pool was indicated when Emperor No. 3-C Walton, well in the Henderson pool of northern Winkler, flowed 358 barrels of oil in 4 hours after a 5,000 gallon acid treatment. It was drilled to a total depth of 3,113 feet in lime. Location is in section 34, block 74, public school land.

No Change At 5,102

The Gaines wildcat of Humble No. 1 Enbanks had cored to 5,102 feet in lime this morning, showing no oil, gas or water. Located in section 6, block AX, public school land, it is eight miles northwest of Landreth's No. 1 Kirk discovery. At its present depth, the Humble test is below any known surface water horizons in that part of the Basin. Lack of porosity in the lime is believed responsible for its failure to find better pay streaks.

Landreth No. 1 Kirk remaining shut down after testing water in approximately the same amount as before it was plugged back to 4,655 from 4,370. Standard tools will be rigged up before it is completed.

Humble No. 9 J. S. Meats, 1,982 feet from the north and 666 feet from the east line of section 22, block A-35, public school land, is drilling lime below 4,258 feet. It is an extension test, one mile south of present production in the Means pool of northern Andrews county.

## TWO UNDER ARREST IN TARRANT AFTER VOTE TAMPERING

### Attempted Stuffing Of Ballot Box Related

FORT WORTH, Aug. 5 (AP)—Two men are under arrest today in Tarrant county's election return tampering case while reports of attempted ballot box stuffing reached the district attorney's office.

One of the suspects is said to have confessed to election return tampering which, if successful would have made sheriff Carl Smith's vote 165 short of a majority.

Meanwhile a precinct presiding judge reported the man had asked him to insert marked ballots in the box.

WARD SHERIFF WINS ON RECOUNT OF VOTES

BARSTOW, Aug. 5 (AP)—A recount of votes cast at the Grandfalls box in the primary election, called by F. I. Dyer, sheriff of Ward county, showed Dyer with a lead of 57 votes over Luke Snelson instead of losing by 26 as first counted. The error was said to have been made in miscounting mutilated ballots at Grand falls in the primary election.

Dyer incumbent, is a cattle raiser as well as Snelson, who resides at Grandfalls.

## BISHOP ADMITS TELLING COUGHLIN TO CONFINE ALL TALKS TO RELIGION

### Announces Apology of Priest to FDR Was Made After Being Reprimanded

VATICAN CITY, Aug. 5 (UP)—Breaking a week's silence, Bishop Michael J. Gallagher of Detroit admitted Tuesday for the first time since he came to Italy that he had disciplined Father Charles E. Coughlin, American radio priest.

Earlier, persons close to Cardinal Pacelli, Papal Secretary of State, said the Holy See advised Bishop Gallagher to urge Father Coughlin, anti-new deal campaigner, to confine his speeches as far as possible to religious subjects, avoiding political controversies embarrassing to the church.

Bishop Gallagher Tuesday was confronted with persistent reports that the Vatican requested him to tone down Father Coughlin's speeches.

"I took care of all that before I left the United States," Bishop Gallagher said. "I told Father Coughlin I did not approve of his calling people liars, etc. As a result and as is known Father Coughlin apologized to President Roosevelt.

"That is all past history. I cannot see why we should do more."

Not in Touch With Coughlin

Bishop Gallagher, however, did not confirm that the Vatican asked him to ask Father Coughlin to confine his speeches to religious subjects. He remained unshaken in his previous statements that the Vatican in no way intervened in the case. But it was believed that his statement regarding his remonstrance with Father Coughlin was also his response to Vatican questions as to what was being done to soften the fiery character of Coughlin's speeches.

Bishop Gallagher said he was not in touch with Father Coughlin at present and that there is no communication between them.

WASHINGTON, Aug. 5 (AP)—The American Federation of Labor's executive council was said in usually informed quarters Tuesday to give John L. Lewis, president of the United Mine Workers, and his allies 30 more days to come to terms.

Unless they took that course, it was said, the 10 unions affiliated with Lewis' committee for industrial organization would be suspended automatically.

Barring a change of mind overnight by a majority of the council members, it was said William Green A. F. of L. president, would announce this decision tomorrow.

The terms the council would propose to the Lewis group, it was said, would include dissolution of the committee for industrial organization, set up last fall with the avowed purpose of bringing all the workers in each big industry into one big union.

## LORAIN MAN DIES IN CAR ACCIDENT

### Dewitt Carey Falls Out Of Moving Car When Door Comes Open

COLORADO, Aug. 5 (AP)—Dewitt Carey, 46, of Loraine, died in a local hospital late Tuesday afternoon, two hours after he was injured in an automobile mishap between Loraine and Roscoe.

Riding with two companions, he fell from the car when a door came open. Physicians who examined him here expressed opinion the machine passed over his body. His chest was crushed and there was a concussion of the brain.

For the past year, Mr. Carey had lived with his only daughter, Mrs. Eston Hardin, six miles west of Loraine. He had lived in Mitchell county 27 years and engaged in farming near Loraine.

From the scene of the accident, he was taken to a doctor's office at Loraine and from there was brought to the hospital in a Kiker ambulance sent from Colorado.

## Midland Sponsor Invited to Kids' Rodeo at El Paso

Receipt of an announcement of the annual Herald-Post kids' rodeo and El Paso rodeo to be held in the border city was received here today by the chamber of commerce.

The letter follows:

It's rodeo time again in El Paso! The plans are now in the making for the Fourth Annual Herald-Post Kids' Rodeo and El Paso Rodeo to be held on September 3, 4, 5, 6, and 7.

The selection of the rodeo queen is important in order to complete our program for these five big rodeo days. And, we wish to take this opportunity to invite you to join us in making this the most interesting feature of our program this year.

Last year, princesses from several of our neighboring cities and towns were selected in a contest conducted through their chambers of commerce. These princesses came to El Paso and competed in the contest for the "Queen of the Rodeo" and the princess selected, reigned supreme as queen throughout our five big days of celebration. We are extremely anxious to have Midland represented at our rodeo this year, and we feel that we can depend on you not to disappoint.

BEHIND THE SCENES IN WASHINGTON

By RODNEY DUTCHER Reporter-Telegram Washington Correspondent

WASHINGTON, Aug. 5.—The Social Security act will be a year old within a few days, though it was about six months before congress got around to giving the Social Security Board money with which to operate. The great systems of contributory old age pensions and unemployment insurance called for by the act are still in the offing, but the immediate phases of the program show some progress when compared with previous conditions. Fifteen states have passed unemployment compensation laws in line with the federal program. These states cover 7,500,000, or about 45 per cent, of the workers who are eligible for coverage by this part of the act. Thirty-six states have presented

This is the fourth and last of a series on the history of Spain.

By Willis Thornton NEA Service Staff Correspondent

The brief war which put an end to Spain's colonial empire and to her pretensions as a world power is more familiar to people of the United States than is the rest of Spanish history.

That is because it was the United States which administered the blow.

Older people today will remember the indignation that swept this country when tales of oppression and atrocities came up from Cuba, where "Butcher" Weyler, the Spanish commander used medieval methods in keeping the Cubans under subjection.

When the U. S. battleship Maine was blown up in Havana harbor, the United States demanded that Spain get out of Cuba. War followed, swift and decisive. Two Spanish fleets were destroyed—that of Montojo by Dewey at Manila, and that of Cervera by Schley and Sampson off Santiago. The American expeditionary forces took Manila and Havana.

Spain lost Cuba and the Philippines, and her foreign empire faded away. Well lost, too, many Spaniards felt, because it had been a drain rather than a resource. But there remained a tremendous war debt and a spirit of pessimism spread throughout the country. It was felt that Spain must begin again at the bottom.

ALPHONSO ON THRONE In 1902, Alfonso XIII came to age and took the throne, ending the regency of Queen Christina. Government became a continual series of ministerial crises, with radicalism of the most violent type growing in the great cities.

When the king was married to Princess Victoria Eugenia of Battenburg in 1906, an anarchist bomb-er killed 20 men. As early as 1909 there were anti-clerical and anarchist risings in Barcelona, suppressed only by bloodshed. By 1910, Alfonso was himself advocating in speeches the reduction of the power of the religious orders, which had continued to hold vast properties and to control education.

Republican elements opposing the monarchy were so badly divided that though their number increased, the king actually gained power. At the same time, he could make few

aided and average amounts paid show some big increases. In 1934 Michigan assisted 3,557 aged persons. Beginning last February, with federal aid, it paid pensions to 19,000 and his number is expected to be 35,000 within a couple of months. The average pension has increased in two years from \$9.99 to \$16.91.

Payments on Increase In Colorado the average amount received by the indigent aged has increased in the same period from \$9.74 to \$17.85 a month; in Idaho from \$6.74 to \$21.21; in Nebraska from \$1.22 to \$14.86, and in North Dakota from 69 cents to \$15.94.

About \$30,000,000 has gone from the federal treasury to the states for the aged; the states match the federal grant in each case. Five states, located in a geographical bloc, have no old age assistance laws and receive no federal money: Virginia, Tennessee, North Carolina, South Carolina, and Georgia.

Seven others have passed such laws, but haven't yet submitted them to Washington officials. Press Agents Galore Overworked Louis Resnick, chief of the Social Security Board's information section, was not impressed by a recent broadcast political attack which pictured his staff as one of 75 New Deal propagandists wasting the taxpayers' money.

There are more government press agents in this town than any government ought to need, including many second or third-rate ex-newspapermen whom other newspapermen have helped get their jobs.

The idea that this makes a huge effective propaganda machine is just funny to those who see it work. Also, when you add up all the employees in various federal information sections and call them New Deal press agents, you're exaggerating.

Take Resnick's section, for instance, which has the job of telling 12,000,000 people what the big social security program is all about.

Staff Keeps Busy The section has 65 persons on the payroll. There are five on the editorial staff, who write press releases, and other material. And a stenographic staff of 25.

Fifteen work in the board's library, the only social security library in the world. Ten or 12 are kept busy answering written inquiries about the act from the general public and six or eight an-

reforms. Half the voters were, and are today, unable to read or write.

WAR HELPS SPAIN During the World War, prosperity came again to Spain as one of the few prominent neutrals. Wealth poured in again, but was not better distributed than before. Food prices rose, and in the midst of the war "prosperity" there were bread riots.

Syndicalists, anarchists, and less violent radicals flourished. People began to move toward the two extremes of radicalism and conservatism. In 1920 there was a widespread general strike.

The very next year disaster came in Morocco. A large force of Spanish regulars in eastern Morocco were suddenly attacked by Abd-el-Krim, chief of the Rifis; 15,000 more Spanish soldiers lay dead in the Moroccan desert. The Moors advanced to the gates of Melilla, capital of Spanish Morocco.

It was a 1000-year flash back to the ancient conflict between Moor and Christian.

The prestige of the constitutional monarchy was so shaken by this disaster that it never recovered. For five years the Moroccan campaign dragged on before a joint offensive with the Rifis brought victory.

DI RIVERA RISES Rivera's revolt spread, and he was soon in a position to demand leadership of the government which Alfonso granted.

Rivera assumed all the cabinet posts himself, clamped down a censorship, and began to introduce efficiency and public works on the model of Fascist Italy.

Victory in Morocco brought Rivera's military directory into high public favor about 1925, but it failed to stay there. Rivera ignored all politicians, offended many officers in the army itself.

By 1927 there was open rebellion in Catalonia, and by 1930, Rivera

realized he was through. He resigned, went to Paris, and died only a few weeks later exhausted and defeated.

KING LEAVES COUNTRY Alfonso tried to re-establish constitutional monarchy, but it was too late. The country was hopelessly split into small minority parties and factions. General Berenguer as premier soon had to suppress a revolt at Jaca and Communists hoisted the red flag in Madrid.

The Second Republic was then established, and this is the one now fighting for existence against a Fascist revolt.

It inherited a set of problems which most other countries had already lived—vast feudal estates and a government closely allied with an entrenched church, which controlled education, social work and a good share of the budget, and whose priests were politically active.

COUNTRY NEAR CHAOS The budget was out of balance, and 11 political parties struggled in the Cortes for ascendancy. A million unemployed, 50 per cent of all children without schooling. Provincial ambitions for independence, and a rising Communist element gradually converting the individualistic anarchist radicals to political methods.

In 1932 there was an abortive monarchist revolt, in 1933 another by the anarchist-syndicalists, and in 1934 still another by the left-wing radicals. During all these, there was a continual beclum of strikes, riots and demonstrations.

President Manuel Azana, an able parliamentarian, was not able to dispose of the rebels. Army officers known to be disloyal to the republic were sent to the Canary or Balearic Isles, where they had plenty of opportunity to plot revolt.

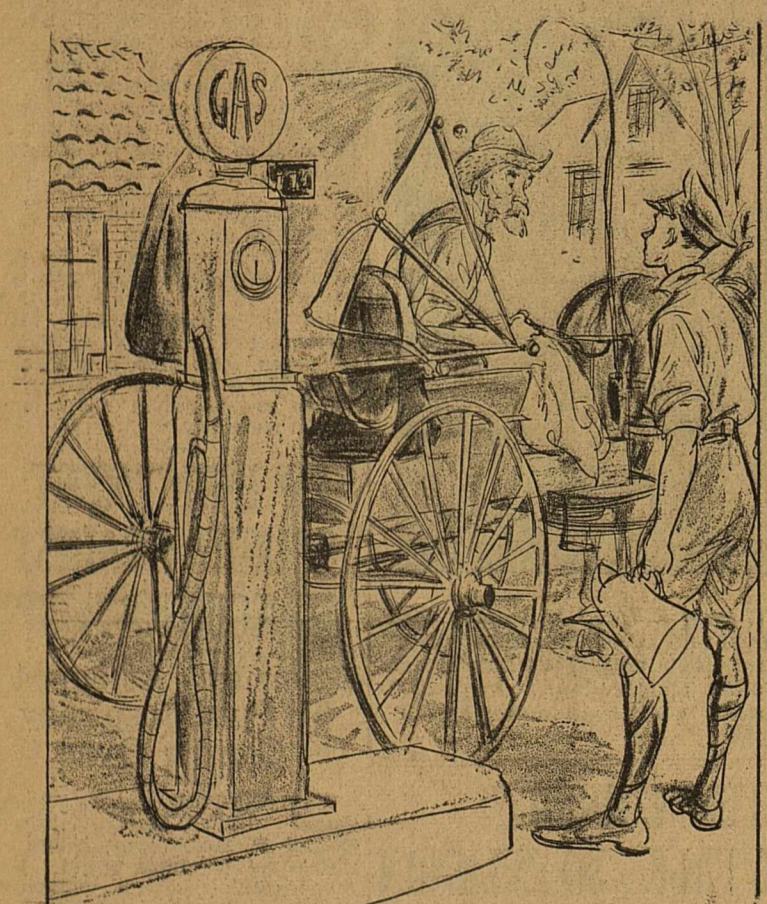

COMMUNISTS STAND READY Now the same people who were revolting in 1934 are defending the republic in the united popular front which triumphed at the last elections. The army officers, land-owners, priests and grandees are attempting to win Spain for Fascism.

Azana is in much the same position as Kerensky—if he saves the republic the Communists are ready to take it over.

So Spain, after 3000 years of blood and tears, comes to still another crossroad, and that already stained with the blood of brothers.

THE END.

Letters to the Editor

To the Editor: The ministers and messengers composing the West Providence Association held at the Peulah West Texas Primitive Baptist church at Midland, Texas, wish to express our gratitude and appreciation to those people in Midland for their assistance and contributions in making it possible for this meeting to be a success. We feel sure of the fact that every one who attended this series of meetings were benefited and enjoyed the preaching and singing. We appreciated your attendance and hope you visit our church often.

The approximate estimate of people who attended Saturday night was 1000.

The time of our regular meeting is the first Sunday and Saturday night in each month at 11 o'clock each day.

Elder C. E. Calloway is our pastor. D. S. Caswell, Indio, California.

Bootleggers in Clover SAINT JOHN, N. B. (U.P.)—New Brunswick bootleggers are enjoying a "boom" as a result of high prices of liquor in government stores. They are able to sell liquor three times cheaper than the government and have established businesses in every part of the province, it is reported.

It used to work until 10 or 11 o'clock at night, but now usually gets away by 7. Its propaganda consists chiefly of dull, dry releases about individual grants to states and mimeographing of speeches by members of the board.

More Counties Added To U. S. Drouth Area

WASHINGTON, Aug. 4 (SpI)—The Department of Agriculture Drouth Committee announced today that addition of 34 more counties in Missouri and Nebraska to the official drouth territory.

Today's designation brings the total number of emergency drouth counties to 726 in 18 States and increases the drouth areas in Missouri to 97 counties and in Nebraska to 40 counties.

The designation of drouth counties serves as a guide for Governmental agencies which are providing relief to distressed farmers in drouth regions. The application of reduced freight rates, and the livestock, feed and transportation loans of the Resettlement Administration in particular are restricted to the drouth counties.

The 22 counties in Missouri and the 12 counties in Nebraska certified by the Drouth Committee today are as follows:

MISSOURI: Barry, Barton, Caldwell, Carroll, Clay, Clinton, Davies, De Kalb, Geny, Harrison, Jackson, Jasper, Lafayette, Lawrence, McDonald, Macon, Mercer, Newton, Putnam, Ray, Worth.

NEBRASKA: Antelope, Burt, Cedar, Cuming, Douglas, Hamilton, Holt, Jefferson, Madison, Pierce, Sherman, Webster.

Hand Shot Into Water in Knife-Like Fashion Four Inches Below Surface

EDITOR'S NOTE: This is the fourth of 10 swimming lessons by the mother of the famous aquatic Hoerger girls.

By Mrs. Frances Hoerger, Nationally Known Swimming Instructor

Pupil stands in the water, waist deep, and bent over so he or she can stroke the arms.

I teach the complete pull shoulder and elbow lifted.

Pupil pulls toward the center of the body with a relaxed recovery.

The hand should be shot into the water in knife-like fashion to insure perfect planing and avoid sculling or a zig-zag motion.

When the arm is fully extended, the hand should be four inches below the surface of the water to obtain maximum results.

Arm movement in the crawl stroke is executed in the manner of a windmill. Standing in water about chest high, raise your right arm over your head, palm forward, leaving

sure perfect planing and avoid sculling or a zig-zag motion. When the arm is fully extended the hand should be four inches below the surface to obtain maximum results. Arm movement in the crawl stroke is executed in the manner of a windmill. Standing in water about chest high, raise your right arm over your head, palm forward, leaving

the left at your side, palm backward. Bend forward until your chest is in the water, keeping your head up. Lower the right arm forward and downward and then raise the left backward and upward.

Continue this for a few minutes, and you will note that you are making a large circular movement. This should be practiced about an hour, with perfect rhythm maintained.

Be sure that you roll your shoulder slightly under when the arm out of the water goes into the stroke.

NEXT: The complete stroke.

FEMININE FANCIES

By KATHLEEN EILAND

"All men are near-sighted when it comes to feminine beauty," writes a popular newspaper woman. "Your heart may be of sterling but its value won't be recognized if your nose is shiny."

Just what we've always been afraid of! It makes it just too bad for those of the daughters of Eve who simply received the scraps from Mother Nature's supply of beauty.

But then, there are worse things than to be homely—at least the older generation has always told us so. There have been times, when gazing upon the possessions of various sorts which beauty draws unto itself, that we've doubted it.

We heard a New Yorker describe the people here as "not being in a hurry to do anything." And after all Midland's pride in being a hustling little city town, too!

But then, we thought Los Angeles crowds were in a terrific hurry, too. And when we said so we were greeted by laughter. "You ought to see San Francisco. There people hurry. In Los Angeles they just ease along!"

There is a lot to be said for a difference in points of view.

We note that The Daily Texan at the state university has been put under protection of a faculty censorship. Shades of the radical ideas of those "days when" we were in college. The ultimate insult, budding journalists then would have thought to submit to censorship of a faculty member!

But perhaps censorship is needed. Who knows? We do know that we'd hate to be the faculty member who has the responsibility of being the active censor, will his ears burn, poor man!

Newest of the novelties in grocery packaging concerns those crystallized powders for making cooling drinks. Those to make orange drinks are sold in round holders which in shape and color and almost in texture resemble real oranges. Those for making lemon drinks come in pale yellow containers shaped like lemons. Each has a screw-on cap for easy access to the flavored grains.

Mary says the installment man was there, the wheel on the buggy is off, she's had a headache and for all he cares she could die and good riddance.

John, seething inside all day over the pettiness and nagging of the office manager, holding in because if he didn't Mary and the baby would starve, now turns on her and lets go the blast. An explosion is necessary to relieve his tortured feelings, so Mary being near and rubbing salt in the wound, although she doesn't guess, gets the broadside. Maybe it has to be this way. Character is one thing and limit of endurance another. Both are tired, each thinks the other does not give them credit; life is no bed of roses and looks as black as the bottom of a dry river bed.

Must Make Allowances But Mary should try to remember that John is pegging away at a distasteful job day after day to give her a certain security and independence. John, that Mary is

other hot, hard day, John, she thinks bitterly, has had a full night's sleep and off in that office thinks he's working when he adds up a few figures. He comes home at six, expects his dinner and then doesn't help with the dishes. He won't even take her to a movie.

When John goes to work, he has a feeling, however, that he has left Mary secure in a house fairly comfortable. She will have food and at least some conveniences. She will be busy, yes, and tired too, poor girl, but if she's desperately tired, the way he feels so much of the time, she can get her head on a pillow for a few minutes once in a while.

Maybe the work will have to wait, but once in a corner Mary can let it go that and get some rest. Moreover, she's her own boss. Nobody to crack a whip over her head or blame her for not getting an invoice out or to hint every other word that better men than he is are out of jobs.

Working Under Strain

Hours in the office facing a drab wall, the clack of typewriters and adding machines driving rivets into his brain. Sometimes he thinks he'll have to rush out, knock down a few pedestrians and then dive off the bridge. He needs to exercise and stretch his muscles. But by six he is so mentally and spiritually fogged a carpet beater, or even a dish cloth, irritates him further. Mary says the installment man was there, the wheel on the buggy is off, she's had a headache and for all he cares she could die and good riddance.

ULTIMATUM

By Helen Welshimer

THE first days didn't matter. Because I was so sure The absence that you asked for Could never quite endure.

BUT goldenrod and gentians Replace the daffodils. We found one April morning Sun-wakened on the hills.

POISE is a gift of autumn; To it my spirit yields. But old dreams flame an instant Where sumac burns the fields.

Midland Sponsor

Continued From Page One We would like to greatly enlarge the number of cities interested in sending princesses this year and therefore urge your cooperation.

The selection of the princess for your city can be easily and economically arranged by having either individuals or business establishments interested make a selection of a young lady of their choice as their contestant. Then, inaugurate a popularity or voting contest among those chosen in order to determine the princess who will represent your city. The selection might also be left to the decision of a set of three or five judges. In any event, the final selection should be made in either a theater, or some suitable public place where as much advertising benefit as possible may be obtained for the sponsors.

When your princess is elected, she will be entitled to participate in the "Queen of the Rodeo" event here in El Paso on September 3, 4, 5, 6, and 7. She will be the guest of the rodeo for the entire performance. The "Queen of the Rodeo" will be selected by popular applause on the opening night of the Kids' Rodeo, Thursday, September 3.

The "Queen of the Rodeo" will be awarded a beautiful crown and a gorgeous cape adorned in a manner befitting the spirit of the rodeo as the westerners know it.

The "Queen of the Rodeo" will lead each of the grand entries for the 7 performances following the opening night. She will have a court of ladies in waiting from El Paso who will attend her in each grand entry with the court immediately followed by all of the various princesses who have entered our rodeo contest.

Arrangements have been made with the Hotel Paso del Norte, Hotel Hilton, and Hotel Cortez to accommodate the princesses selected from every city free of charge, and every courtesy and consideration will be shown them.

Please let us hear from you at your earliest convenience, as we

Nero Wolfe Is on Screen in a Hit Comedy-Mystery

Rex Stout's famous sleepy sleuth comes to rib-cracking life on the screen in the greatest mirth-and-

murder movie in months! He's the favorite man-hunter of millions... the famous beer-loving, murder-solving amateur detective—Nero Wolfe! Movie audiences will meet him for the first time in "Meet Nero Wolfe," which will run at the Yucca Theatre now through Thursday.

With just a bottle—or two—of beer, Wolfe solves three baffling murders committed with a golf club as a needle—and a snake! He can make a four-flusher out of Philo Vance and a sissy out of Sherlock Holmes! As the old saying goes, it's fun to be fooled by Nero Wolfe!

"Diamond Jim" Edward Arnold enacts the role of Nero Wolfe with Lionel Stander as Archie Goodwin Wolfe's famous stooge. Others in the large cast are Victor Jory, Joan Perry, Nana Bryant, Dennis Moore, John Qualen, Russell Harris and Boyd Irwin. Sr. Herbert Biberman directed from a screen play by Bruce Manning and Howard J. Green, adapted from the novel, "Ferdinand" by Rex Stout.
