GREENVILLE MAN IS ARRESTED IN ARSON CASE PROBE

Supervisor at Relief Warehouse Taken By Officers

FEELING HIGH

Prisoner Is Removed To Dallas After Warnings

GREENVILLE, Aug. 14—A Norman Baines, 50, commodities supervisor at a Texas relief commission warehouse here which was destroyed by a fire August 1 that took the lives of two firemen, was formally charged with arson Thursday.

E. W. Hagan, justice of the peace, docketed the complaint against Baines, who was held in the Dallas county jail. Baines had been a resident of Greenville for five years and was a relief client. He had advanced to the position of supervisor through a series of minor positions since the inception of the relief program.

W. R. Daugherty and Earl Jenkins, city firemen, were burned to death in the blaze which destroyed a large quantity of commodities intended for distribution to the needy. The firemen were trapped inside the structure after they had carried a hose line to the interior seeking the center of the blaze. Witnesses said there were two explosions which hurled smoking debris between them and the door through which they entered the building.

Daugherty and Jenkins burned to death near a barred window through which they were futilely attempting to break their way. Jason Jackson, a negro who entered the blazing structure with the firemen, told officers he had left the building at their request to provide slack for the hose, and saw fire spring from two widely separated points.

District Attorney Henry Pharr at Dallas today said no explosive was stored in the building.

Officers said Baines had been brought to Dallas to facilitate questioning and because high feeling existed at Greenville. He was arrested Wednesday night on a warrant, but formal charge was not entered until yesterday. Baines told officers he was born as a British subject in India.

Local officers and officials of the state fire insurance commission have been investigating the fire for two weeks.

TRENT RESIDENT, WIFE AND BROTHER HELD FOR MURDER

Hunt Body of Victim In Trent Area When Car Is Found

SWEETWATER, Aug. 14 (P)—Glarence Duncan of Trent, his wife Billie, and his brother, Winford of Stamford were charged with murder today while a posse scoured the country east of here on the theory that a shallow grave holds the body of G. H. Jones, 58, filling station operator of Trent, who disappeared Tuesday.

The arrests followed the discovery of Jones' car near Whitflat school.

VISITS BROTHER

'Buck Passing' Legal in Canada

That universal formula for getting out of tight spots, "passing the buck," has won formal recognition with introduction of \$1 prosperity certificates by the Alberta, Canada, Social Credit government. It's the same old game, but with a few new rules. Those holding the certificates each Wednesday (buck-passing day), must affix a 1 per cent stamp on each \$1 slip. After two years scrip is redeemable in good Canadian dollars. Mrs. Edith Gostick, member of the provincial legislature from Calgary, is shown buying groceries with one of the first certificates issued.

FORT WORTH MEN HERE IN INTEREST OF E. O. THOMPSON

Reelection Is Urged By Speakers For Commissioner

John C. McLean and Jerome C. Martin, Fort Worth, were in Midland yesterday in the interests of the candidacy of Ernest O. Thompson for Railroad Commissioner. McLean, member of a Fort Worth law firm, and Martin, candidate for congress in the July 25 primary election, are traveling in a sound-equipped car and are making speeches in most of the West Texas towns advocating Thompson's reelection.

The pair left Ft. Worth Monday and appeared in several Panhandle and South Plains towns, including Snyder, Lamesa, Lubbock and other towns.

From here the men went west, appearances being booked in Odessa, Pecos, Ft. Stockton, Alpine, McCamey and in San Angelo on their return trip.

Appreciation of the large margin given Thompson in this county in the primary election was expressed by the pair. So confident were they of the outcome in the next election that they deemed any speeches here unnecessary.

In an interview with a reporter, McLean expressed the importance of See (Fort Worth Men) Page 6

WASHINGTON FOUR REPEATS OLYMPIC VICTORY IN RACE

Italy Is Second And Great Britain Third

BERLIN, Aug. 14 (P)—The University of Washington, in a spurt finish, today won the Olympic eight-oared rowing championship, keeping unbroken American domination in this event. Italy was second and Great Britain third.

Gustav Schaefer, Germany, won the singles sculling championship in which Dan Barrow, United States, was third.

KIEFER WINNER OF 100 METER BACKSTROKE

BERLIN, Aug. 14 (P)—Adolf Kiefer, United States, won the 100 meter backstroke championship in the Olympic games here today. Holland won the women's 400 meter free style relay event, beating Germany and the United States in that order.

The United States won the Olympic basketball championship by defeating Canada.

ON VACATION

Mrs. Frances Stallworth will leave Saturday morning for a two weeks' trip to Houston and Ft. Worth, and other Texas cities.

HEAT LESSENS IN STATE AFTER 17 PERSONS KILLED

Wave Apparently Is Making Last Stand In Panhandle

COOLER HERE

93 Maximum Figure Recorded Up To 1:30 P. M.

By Associated Press. Texas heat, which has claimed 17 lives this week, lessened today, apparently making its last stand in the Panhandle.

Temperatures generally were from five to ten degrees lower than high levels earlier in the week.

The hottest temperatures in the state Thursday were recorded at Seymour, which had 120. Lubbock had 103. Amarillo's reading was still uncomfortably high at 102.3, but cloudy skies gave promise of relief. Cooling breezes were felt at Dallas, Corsicana, Fort Worth, Tyler, San Antonio, Austin, Wichita Falls, Palestine and Sherman.

Midland received the benefits of falling temperatures yesterday when a maximum of 102 was recorded. The high for the week was registered Wednesday when the mercury climbed to 107. The maximum figure up to 1:30 today was only 93, giving further indication that the excessive heat may be ended.

FIND U. S. MARSHAL DEAD: SITTING IN BEDROOM OF HOME

Pistol Is Discovered Near Body Of Dead Man

HOUSTON, Aug. 14 (P)—Officers today are working on a theory that Joseph Eugene Myers, deputy United States marshal, accidentally shot himself while cleaning his pistol. Justice of Peace Tom Maes withheld an inquest verdict but expressed an opinion that the death was accidental.

Myers was found shot in his apartment last night. Investigators said that his pistol was on the floor at his side and a magazine was several feet away.

HOUSTON, Aug. 14 (P)—J. E. (Gene) Myers, 32, chief deputy United States marshal here, was shot through the heart and killed tonight as he sat in the bedroom of his home.

A .38 caliber automatic pistol, with one shell fired, lay on the floor by his side. Justice Tom Maes began an inquest but had returned no verdict.

Doug Daugherty, 32-year-old former bell boy, was in the apartment with Myers when he was killed.

Daugherty had been helping Myers move from his former residence here.

"Myers told me to go take a bath, that he was going to bed," Daugherty said. "I went to the bathroom and closed the door. I didn't hear a thing, and when I finished bathing, I came out and yelled that I was going to turn in."

"The lights were out in the living room and the front bedroom, where Myers was. I walked to the See (U. S. Marshal) Page 6

Government Threatens Death to 700 Rebel Hostages in San Sebastian

Set for Speedy Action in U. S. War Games

This was a scene "somewhere near Camp Custer, Mich.," as the zero hour in U. S. war games brought a squadron of nearly 80 "enemy" war planes roaring down in power dives on a concentration of regular army troops and national guardsmen. Men above are swinging an electrically controlled anti-aircraft gun into action. Small groups to right and left are range-finding and communications details. Foreign military attaches are observing the maneuvers, which involve all branches of the army service.

Livestock Men Not To Favor Reducing Production Quotas

WASHINGTON, D. C., Aug. 14 (P)—Representatives of Texas livestock men informed the Agricultural Adjustment Administration today that they would disapprove any operation of a soil conservation act which would restrict livestock production. They said that they favored instead conservation which would be designed to restore depleted grazing lands.

FOREST FIRES IN MINNESOTA ARE UNDER CONTROL

Thousands Of Acres Are Burned Out By Flames

ST. PAUL, Minn., Aug. 14 (P)—Minnesota's principal forest fires were checked at least temporarily today as the winds subsided and the humidity rose.

A dispatch from Kabetogama lake said that flames had been "burned out" after blackening 30,000 acres. The fires at Grand Portage state forest and at Warroad were believed to be under control.

The forestry department estimated the burned area at 300,000 acres of forest and farm lands, including several farm residences.

Three men are known to have died fighting fires. Near Markham, Minn., fire fighters found the body of Andrew Leima, farmer who collapsed and died as he was running from the fire.

MRS. DONOVAN TO GET DEGREE

Mrs. Etal Holman Donovan, who has been attending Sul Ross College during the summer months, is listed among the candidates for the Bachelor of Science degree offered by that college in the summer session. Mrs. Donovan has for several years been a member of the faculty of the South Ward elementary school here, and plans to teach there again this year.

NEW HENDERSON WELL ON CRANE SIDE OF M'CAMERY DISTRICT FLOWS HEAVILY

Records Production of 142 Barrels In Four Hours After Second Acid Treatment

BY FRANK GARDNER

Production of 142 barrels pumping and flowing in four hours established R. H. Henderson and others No. 1 Cordova Union as one of the best wells in that area of the McCamey district in Crane-Upton. At the end of the first four hours of test, pumping, was halted to replace worn cups in both standing-valve and plunger.

The No. 1 Cordova Union is located 330 feet from the northeast and 2,310 feet from the northwest line of section 7, block 35, H. & T. C. survey. When bottomed at 2,030, it was shot with 40 quarts from 1,995 to total depth and pumped 66 barrels in a day. It was then given a 2,500-gallon acid treatment but not increased, pumping 60 barrels in 24 hours. Operators decided to deepen, drilling ahead to 2,048 after logging a new pay at 2,040. Before starting the latest test, it was acidized with 3,000 gallons with exceptional results.

One-half mile north of the No. 1 Cordova Union, another R. H. Henderson prospect, the No. 1-B Hughes in section 4, block R, G. C. & S. F. survey, is running tubing preparatory to acidizing. It is bottomed at 2,085 in pay topped at 2,070 and is said to indicate sizeable production.

Record East Sayre Well. Humble Oil & Refining company has completed one of the record wells on the east side of the Sayre pool in Winkler. No. 12 Howe, which flowed 1,166 barrels of oil on the 24-hour potential gauge. The well is 1,650 feet from the north and east lines of section 12, block 26, public school land. It was shot with 400 quarts from 2,836 to 3,000 feet the bottom of the hole.

In the O'Brien pool of Winkler, Gulf No. 71 O'Brien rated a potential of 608 barrels in 24 hours flowing through casing. It was shot with 200 quarts from 3,100 to 3,180, five feet off bottom and was delayed in gauging when bridge former after the shot, necessitating cleaning out. Sinclair-Prairie No. 5-B Walton Keyes pool well in Winkler, flowed 710 barrels of oil the first 16 hours after shooting with 230 quarts from 2,825 to 2,959, the total depth. It is located in section 24, block 26, public school land.

Pipe is being pulled preparatory to

Big Ward Producer

Gulf No. 3 Estes, northeast offset to the record sand-producing well of Sid Richardson No. 2 Hathaway in the southeast Ward field, showed for large potential by flowing 44 barrels in 15 minutes before being shut in for storage room. Bottomed at 2,572, it was shot with 230 quarts from 2,445 to 2,562 under a 20-foot gravel tann, and was then allowed to clean itself for 25 minutes before being turned into tanks. Gas volume is 5,000,000 cubic feet daily. The big Gulf well is in the north end of the field, 2,325 feet from the southeast and 330 feet from the southwest line of section 38, block 34, H. & T. C. survey.

Allan Hargrave and others No. 1 M. L. Coons (Skelly Oil company), closely-watched wildcat over two miles east of the Sid Richardson No. 2 Hathaway, is drilling below 2,750 feet in lime. It is in section 35.

Skelly Oil company No. 2 W. H. Martin started balling mud last night preparatory to drilling plug from 7-inch casing. Now bottomed at 2,451, it is rigging up standard tools while waiting for cement to set. Location is in section 40, block 34, H. & T. C. survey.

Foster Well Gauged

Twenty-four hour gauge on Broderick & Calvert No. 1 H. C. Foster, key well in the Foster pool of Ector county, recorded production of 424 barrels flowing by heads through casing. Oil flow declined after two See (New Henderson) Page 6

REPRISAL FOR THE BOMBARDMENT OF CITY BY FASCISTS

Seaboard Towns Are Under Fire Of Ships

FRANCE WORRIED

Asks Madrid to Grant German Demand Of Satisfaction

(By Associated Press) Scores of persons were seized by the government today as some 700 hostages incarcerated at San Sebastian were threatened with death by a firing squad in reprisal for the rebel bombardment of government-held towns on the northern seaboard.

The French government was understood in diplomatic circles to have urged Madrid to grant German demands for satisfaction in the alleged slaying of German nationals in Barcelona and confiscation of German airplanes since adherence of Germany to France's proposed general neutrality. Satisfaction apparently hinged on the settlement of the plane seizure.

Men and women fought side by side with antiquated rifles and ancient cannon to hold San Sebastian and Irun, the northern strip of greatest importance because of its command of the Bay of Biscay.

An air armada speeded to the attack on Seville, key city of the south held by fascists since the rebellion began more than three weeks ago, and to neighboring Cordoba and Badajoz.

Government warships again bombarded Algeciras.

The revolt, loyalists proclaimed, must be stamped out "within a few hours."

1,000 LOYALISTS ARE EXECUTED BY REBELS

LISBON, Portugal, Aug. 14 (P)—More than 1,000 government militiamen, including 100 women, were executed in a group by rebel forces at Almendralejo, a Portuguese newspaper correspondent reported today.

Lisbon heard that Badajoz was bombed by rebel planes with most of the victims being women, children and aged.

BODIES OF TWO ARE TAKEN FROM MINE

Gas Prevents Rescuers From Finding Four Other Persons

MOUNTAIN CITY, Nev., Aug. 14 (P)—The bodies of two men killed by gas in a copper mine were recovered today but fumes balked efforts to recover four others from the 500-foot level where all apparently perished yesterday.

PIPE LINE WORKERS HERE

Approximately 50 pipe line workers were moved to Midland yesterday from Fort Worth to begin work on the digging up of the Magnolia Pipe Line Company's line from the Crane oil field to the tank farm here.

As Loyalists Battle to Crush Spanish Rebellion

"PLAYTHINGS"

POLICE TO FRONT

FISTS IN SALUTE

CALL FOR TANKS

WAR BIRDS

DEATH ON WHEELS

DESTRUCTION

U. S. TO RESCUE

Spanish civilians, mustered in by the government to quell the Fascist rebellion, gingerly inspect their new "playthings," rifles issued for the defense of mountain passes leading to Madrid from the northwest.

For the battle in the mountains on which hangs the fate of the rebellion, even civil police of Madrid have been called to the colors. Throughout severe guerrilla fighting, the police have worn their distinctive hats.

Young government soldiers some of them not out of their teens, salute with clenched fists as they march in groups through Madrid streets to mountains to reinforce older comrades already entrenched there.

A government tank shifted the tide of a fierce street battle in Toledo, southern key to Madrid. Machine gunners in the tank and snipers riding the flanks of the "war horse" quickly repulsed surprise rebels.

Lacking in trained soldiers and officers, the government might have been a poor match for rebels but for the superiority in war planes. Here, a plane brings ammunition and supplies to government forces in the south.

For the decisive struggle in front of Madrid, government men have hauled artillery pieces high into the mountains. Without horses and tractors, the soldiers dragged many of the heavy guns up by hand.

Much of the historic city of Toledo is in ruins such as these as results of frequent bombardments. If the rebels capture Toledo, they will be within easy striking distance of Madrid, few miles to the north.

Froigners fleeing Spain provide thrilling and sometimes tragic sidelights to the war itself. This boatload of refugees is starting for a rescue ship in Valencia harbor. The U. S. flag flies from the ship's launch.

BEHIND THE SCENES IN WASHINGTON

By RODNEY DUTCHER Reporter-Telegram Washington Correspondent

WASHINGTON, Aug. 14 — Few politicians have any more doubt as to where the bulk of the labor vote is going.

The question most at issue is whether, when organized labor aligns itself rather solidly behind one presidential candidate, there won't be sufficient adverse reaction from farmers and other middle-class voters to offset the effect.

This was especially significant as the council includes but one mem-

ber of the Committee for Industrial Organization, whose leaders have been foremost in the pro-Roosevelt activities of Labor's Non-Partisan League.

The council, however, is practically certain to refrain from such endorsement. The big obstacle is the fact that President "Big Bill" Hatcher of the carpenters' union, one of the three or four most powerful members of the council, has threatened to take his union out of the A. F. of L. if the council comes out for Roosevelt.

Hatcher is the labor division. The other council member who opposes endorsement of Roose-

Side Glances by Clark

"I think he would have proposed last night, if it hadn't been for the mosquitoes."

Side-Show

Survey Reveals 'Couple Trade' Enriches 'Shady' Tourist Camps

velt is John Cofield, head of the plumbers' union.

Green For Roosevelt President William Green of the A. F. of L. is a lifelong Democrat and has declared personally for Roosevelt, as have 20 state federations of labor, with more to come.

The popularity of Calvin Coolidge after he received credit for breaking the Boston police strike is a case in point. Support of labor may lose Roosevelt many votes.

Lewis' Foes May Turn Possibility that some crafts union leaders may turn against Roosevelt because they believe he is too sympathetic to John Lewis and industrial unionism may or may not materialize.

Green himself flew off the handle at a press conference when a newspaperman, generally considered as well informed on labor questions as anyone in Washington, asked him who appointed the credentials committee at the A. F. of L. convention—the committee which will pass on eligibility of C. I. O. union delegates and a committee which under by-laws is appointed by Green himself.

"You know the answer to that," replied Green bitterly. "You're just trying to discredit me!" The correspondent said he wanted to apologize in case he had caused any embarrassment and then asked Green for an apology, which he didn't get.

Snubs for John L. Later that evening Lewis was sitting in Harvey's restaurant after dinner with two friends when four persons he knew came in.

Mrs. William Hutcheson passed by with her nose slightly tilted. President Dan Tracy of the electrical workers' union bowed. President Henry Bates of the bricklayers' masons' and plasterers' union greeted Lewis warmly. President Hutcheson of the carpenters' union, who was snubbed by Lewis at the last A. F. of L. convention, stared straight ahead.

Others in the dining room, recognizing all parties concerned, merely snickered.

Mint Director Countreiter

BELGRADE, (U.P.)—Milivoj Boskovic, former director of the Yugoslav State Mint, has been sentenced to 14 years hard labor for operating a private mint in his own home. Boskovic confessed that not only did he direct the State Mint but that he used the official stamps to mint coins in his own home. Altogether he minted 800,000 dinars, (\$20,000).

Dotting the country are thousands of tourist camps, such as sketched here by NEA Staff Artist Ed Gunder. The great majority of them are run on strictly legitimate business lines, but recent findings have shown that some present a growing social problem.

By NEA Service

The rows of neat, tree-shaded "tourist cabins" that fringe the roads outside almost every town are becoming a social problem, if conditions revealed in a recent survey by the sociology department of Southern Methodist University are at all typical.

The SMU survey shows that in "tourist camps" surrounding Dallas, Texas, nearly 75 per cent of the patrons are not tourists at all, but local couples who occupy the cabins for only an hour or two and then give place to others.

The investigators found that one cabin was rented 16 times in one day; another was rented 11 times. They found many proprietors of such camps who were quite frank in admitting that the "couple trade" was the mainstay of their business. Some admitted they actually discouraged the use of their camps by bona fide tourists.

Tourists stay all night or longer, thus tying up a cabin that might in the same period be rented several times to the "couple trade."

SHOWS CHANGED ATTITUDE

The SMU investigators presented their facts without comment except that "It is unquestionably true that the growth of these institutions and their toleration by the community are evidences of a changed public attitude toward non-marital intimacies.

Albert L. Hooker, presented in "Studies in Sociology" the results of the survey, which was conducted by Clyde Iron and a staff of student investigators. All the information was gathered at the camps some by renting cabins and observing what went on, some by inquiry among proprietors and patrons.

The investigators found a strange development of an institution that started out a few years ago to be just what the name implied—"tourist camps." The early ones, 10 years ago, were simply cleared camp sites, with common shelter house or store and water, cooking, and toilet facilities. Then the building of small cabins for rent followed. Now some of the camps are quite elaborate cabins, renting as high as \$4.

EASY TO HIDE IDENTITY Among the crowds of gypsying tourists, local couples find it easy to lose themselves and remain anonymous. Such camps are almost always located outside city limits, and thus beyond the supervision of city police or other authorities. The cabins generally are unconditionally available to anyone who has the price.

The Dallas investigators spent a night at one camp and noted that 13 couples left the camp before midnight and 12 afterward. "At one time two cars waited beside the office until there was a vacancy," they noted.

Four girls who came in late with different parties were in evening clothes. Some 20 cabins accommodated 45 couples that night, and 43 of them were from Dallas.

The records of one camp were made available to the investigators. They showed that in 10 weeks the camp was patronized by 254 couples, 120 of them from Dallas county, and 109 of these from Dallas itself. Of the 109 Dallas couples, only seven had given their right names, judging from a check of the license plates of their parked cars.

FROM "BEST HOMES" Using similar data, the investigators drew a map on which they marked the location of homes of 165 patrons of six camps. When this map was circulated in Dallas, the domestic disturbances that followed were of almost earthquake violence. The significant thing was that the patrons came almost entirely from the "better" parts of town. Almost no professional prostitutes were found to be operating in the camps. Some proprietors, however, supplemented their incomes by the illegal sale of contraceptives.

Texas Sweetheart Starward-Bound

Janice Jarratt, "Sweetheart of the Texas Centennial," will take another flight upward in her meteoric career Friday when she signs a long-term movie contract. J. Cheever Cowdin, chairman of the board of directors of Universal Pictures Corporation, shown above with the San Antonio beauty, will fly to Texas personally to place her under contract; and Governor James V. Allred, because of the Texas Sweetheart's official status as hostess for the State's Centennial Celebrations, has invited the Universal executive to hold the signing of the contract in the executive offices of the Capitol in Austin. Habitually ranked among the ten most beautiful women in America, Janice Jarratt will add new luster to Hollywood's constellation.

Pullman Wanderings Are Told of by Chief

CHICAGO, Ill., Aug. 14.—The wandering tale of a peripatetic Pullman car reads like a Jules Verne story.

According to Harry G. Taylor, Chairman of the Western Association of Railway Executives, one Pullman car traveled 149,784 miles in one year.

The moon is 238,840 miles from the earth, Pullmans in 1935 made each day a run equal to 4.1 round trips to that frigid sphere. Astronomers tell us the sun is distant 92 million miles. It's a long long trail, but Pullmans covered it 8.2 times last year.

Taking one sample car as a test of the miles covered by one unit, the Pullman Company found that it traveled very near from one end of the country to the other and endured almost every extreme of temperature.

In March, the car toured from Miami to Toronto, from New York to Los Angeles with temperatures ranging from 8 degrees below zero in Toronto to 96 degrees in Miami.

The workings of the Pullman car pool were explained in the report to the Executive Association. Requirements of the various railroads very enormously according to the season of the year, the report said. One road used only 24 cars daily in October, but required 104 daily in February. Another used 96 daily in August and 227 in March.

Another Western road got along nicely on 46 cars daily in March, but in August during the vacation season needed to call for 104 cars daily.

Thus the Pullman Company has a pool where cars are kept in reserve

in general throughout the country, and no reflection was made on many camps which are no doubt conducted in a manner beyond reproach. The study was a purely scientific survey of a condition in a single community.

JOIN The Midland County Motor Transport Association Help Us To Improve Freight Service

for the uses of the various railroads during their peak season. The typical Pullman car is in service about 309 days of the year with 59 days spent either in idleness or in the car shops. While this particular car was covering over 146,000 miles in one year, the average distance traveled by one of the cars was in the neighborhood of 116,500 miles.

In the early days of photography, the picture was focused directly on the surface to show the finished product.

The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything).

If I say it is going to rain it gets hot as—well, too darn hot. If I say it is going to get hot it tries to rain. Hereafter I am going to let the weather alone.

And this game of Knock, Knock is the silliest thing yet. Maybe the heat wave started it. Anyhow, something should be done to stop it.

Here is a classic example: "Knock, Knock." "Who's there?" "Tack." "Tack who?" "Tack me to a picture show."

A scientist offers a theory that man is descended from apes instead of frogs. Maybe that accounts for the constant hopping around of some persons.

Conversation overheard between a couple of strangers here: "I would be glad to move here

with my family if I could only find a place to live."

"H—, they are trying to evict me because someone else is offering them a lot more rent than I can afford to pay."

Such an attitude on the part of landlords should be severely criticized. They are entitled to a profit on their investment but to want to get rid of a good tenant just because someone else offers more money is the wrong attitude.

Neither is it right for a person to try to gain a house by using such methods.

Sooner or later Midland people are going to realize that it will be a money-making business for them to buy and build more homes here.

And they will never find a better time than now. Pretty soon the word is going to spread over the country that a place to live in is impossible to find in Midland and prospective residents are just going to settle in some other town.

Due to the fact that we have been established in Big Spring such a short time, and are utilizing a new method in treating the sick we are making each and everyone a liberal offer in order that we become better acquainted with the citizens of West Texas and give you an opportunity to learn just what Scientific Massage is.

We are Scientific Masseurs and thoroughly massage the muscles of the body, and in so doing we release all pressure from the nerves, free the circulation of the blood, which removes the cause for most bodily diseases and then nature can, and will go to work and heal your body.

We have been in this work for a long time and know our business. We have cured many cases when other methods failed.

We have a nice, large apartment house and are well prepared to care for patients coming from a distance.

Our treatment is painless and harmless. We treat most all diseases.

Now you people who are ailing are urged to give us an opportunity to relieve your suffering. Come and learn for yourself just how we can help you. Our charge is so small that nearly anyone can afford to take our treatments.

For cash we give 15 treatments for \$10.00 or 30 treatments for \$20.00.

Our office is located in our Apartment House at 1301 Scurry Street in Big Spring, Texas. Telephone 939.

The Only Masseurs in Big Spring, Texas

Tax Values in 46 Oil Producing Counties Hiked Half-Billion

Tax values assessed in forty-six Texas oil producing counties have increased more than a half-billion dollars in the last decade, according to facts just compiled by The Mid-Continent Oil and Gas Association of Texas. Assessed valuation of these currently important oil producing counties for 1935 aggregated \$1,176,747,000, compared with a total assessed by these counties in 1925 of \$636,777,000, a net gain in valuations for taxing purposes of \$539,970,000.

This huge increase is shown by analysis to be attributed almost solely to the discovery of oil fields within these respective counties, which have in the past ten years turned millions of acres of Texas farm and grazing lands into highly valuable mineral leases. Examination of county ad valorem tax rolls for the period under consideration shows that practically all of the increased values on which taxes were assessed were rendered by Texas oil operators to cover lease and fee mineral interest, equipment located on oil producing properties, and oil pipe lines. This has created substantial increases in county and state tax revenues, paid by the Texas oil industry, which have made possible the building of many fine new school houses, of county and other municipal buildings as well as thousands of miles of concrete highways.

Comparative data on tax values reported to the State Comptroller, at Austin, by the leading oil producing counties of Texas reveals some astounding increases over a decade ago. For example, Gregg county shows an increase of \$95,001,000; Rusk county, a gain of \$95,303,000; Montgomery county, a gain of \$55,437,000; Harris county, a gain of \$41,934,000; Pecos county, a gain of \$38,392,000; Gray county, a gain of \$34,578,000; Hutchinson county, a gain of \$18,989,000; Wharton county, a gain of \$18,876,000; Upshur county, a gain of \$17,034,000; Van Zandt county, a gain of \$15,208,000; Smith county, a gain of \$13,673,000; Fort Bend county, a gain of \$10,706,000. Thirty-four other oil producing counties of the State show increases

NOTICE OF SHERIFF'S SALE

By virtue of an order of sale issued out of the Honorable 70th Judicial District Court of Midland County, Texas on the 16th day of July, A. D. 1936, in the case of Texas Bitulithic Company, a corporation, vs. Mrs. Sallie Gray Anderson, and husband, A. Harry Anderson, Miss Fannie Bess Taylor, a feme sole, and J. M. DeArmond, Trustee in Bankruptcy of the Estate of Fannie Bess Taylor, a feme sole, numbered 2770, and to me, as sheriff, directed and delivered, I have levied upon this 28th day of July, A. D. 1936, and will, between the hours of 10 o'clock A. M. and 4 o'clock P. M. on the first Tuesday in September, A. D. 1936, it being the 1st day of said month, at the courthouse door of said Midland County, in the City of Midland, proceed to sell at public auction to the highest bidder, for cash in hand, all the right, title and interest which Mrs. Sallie Gray Anderson and husband, A. Harry Anderson, Miss Fannie Bess Taylor, a feme sole, J. M. DeArmond, Trustee in Bankruptcy of the Estate of Fannie Bess Taylor, a feme sole, had on the 12th day of November, A. D. 1929, or at any time thereafter, of, in and to the following described property, to-wit:

All that tract, piece or parcel of land lying and being situated in the City and County of Midland, State of Texas, being the Southwest one-fourth of Block 8, partly in O. T. Addition and partly in Homestead Addition in the City of Midland, Midland County, Texas.

Said property being levied on as the property of Mrs. Sallie Gray Anderson and husband, A. Harry Anderson, Miss Fannie Bess Taylor, a feme sole, and J. M. DeArmond, Trustee in Bankruptcy of the Estate of Fannie Bess Taylor, a feme sole, and will be sold to satisfy a judgment amounting to \$783.91, in favor of Texas Bitulithic Company, a corporation, and costs of court and the further costs of executing this writ.

Given under my hand this 28th day of July, A. D. 1936.

A. C. FRANCIS,
Sheriff of Midland County, Texas.
By FISHER POLLARD,
Deputy.

Off to Rehearse War Defense of Chicago

These Illinois national guardsmen were on their way "over, over there"—from Chicago to South Haven, Mich.—but no real fighting was in prospect. The men who embarked for the trip were among the 9000 soldiers of the 33d division assigned parts in the war games for the defense of Chicago, with scene of operations in the vicinity of Camp Custer, across Lake Michigan. High army officers attended to watch the largest concentration of troops in the midwest since the World War.

in valuations within this period of from \$137,000 to \$9,445,000.

In contrast with the substantial increases recorded in taxable valuations of these oil producing counties are facts to show that valuations actually declined in this same period in counties which had not as yet been added to the growing list of producers. A majority of the non-oil producing counties of the State either show decreases in valuations or practically no change from ten years ago. For example, Wise county shows a decline of \$3,039,000; Parker county, a decline of \$2,327,000; Uvalde county, a decline of \$2,010,000; Hamilton county, a decline of \$1,745,000; Val Verde county, a decline of \$1,129,000; Coryell county, a decline of \$1,078,000; Titus county, a decline of \$942,000; Cass

NOTICE OF SHERIFF'S SALE

By virtue of an order of sale issued out of the Honorable 70th Judicial District Court of Midland County, Texas, on the 16th day of July, A. D. 1936, in the case of West Texas Construction Company, a corporation, vs. W. G. Shirey and wife, Katie Shirey, and Mrs. Murrell Adams, being the same person as Mrs. Norrell Adams, and husband, C. D. Adams, No. 8139, and to me, as sheriff, directed and delivered, I have levied upon this 28th day of July, A. D. 1936, and will, between the hours of 10 o'clock A. M. and 4 o'clock P. M. on the first Tuesday in September, A. D. 1936, it being the first day of said month, at the courthouse door of said Midland County, in the City of Midland, proceed to sell at public auction, to the highest bidder for cash in hand, all the right, title, and interest which W. G. Shirey and wife, Katie Shirey, Mrs. Murrell Adams being the same person as Mrs. Norrell Adams, and husband, C. D. Adams, had on the 29th day of October, A. D. 1929, or at any time thereafter, of, in and to the following described property to-wit:

All that tract, piece or parcel of land lying and being situated in the City and County of Midland, State of Texas, being lots 7, 8 & 9, Block 156, Southern Addition to the City of Midland Midland County, Texas.

Said property being levied on as the property of W. G. Shirey and wife, Katie Shirey, and Mrs. Murrell Adams, being the same person as Mrs. Norrell Adams, and husband, C. D. Adams, and will be sold to satisfy a judgment amounting to \$473.94 in favor of West Texas Construction Company, a corporation, and costs of court and the further cost of executing this writ.

Given under my hand this 28th day of July, A. D. 1936.

A. C. FRANCIS,
Sheriff of Midland County, Texas.
By FISHER POLLARD,
Deputy.

Company to Make Film at Centennial

DALLAS—Before the end of August, Republic Pictures Corporation, a new and growing company in the film industry, will have officials in Dallas to make the first motion picture with an actual World's Fair as background.

Gene Autry, their leading man and star of many western films, is to have the lead in this picture, as yet unnamed. But Mr. Autry is the only actor to be brought into Texas for this film, according to Armando Schaefer, supervisor of Republic Pictures Corporation, who will direct the Centennial picture.

"We are a young company," Mr. Schaefer said, "and we're honestly looking for new talent. Moreover, we expect to find it in Texas. We are not conducting a contest of any sort, with an optional contract as a prize. We will need forty or fifty characters for the filming of the picture, which we will start around September first. Any person in Texas is eligible. Dramatic training or affiliation with a dramatic group is not necessary. Public audition will be held at the Dallas Little Theatre. I myself will choose the actor for his personality and dramatic ability, whether trained or untrained.

"Work in the picture will then start immediately. There will be no waiting a week. Those selected—and we must have about fifty—will be used immediately. And if out of this group we discover some unusual talent, we will, of course, take options on their services for Republic pictures."

Applicants throughout the state are invited to send in their pictures, names, ages, acting experience and training, if any. From this group the finalists will be selected for the

Back Again

Yeah—he's back! Joe E. Brown, as Alexander Bott's, world's greatest seaman! The guy who used dynamite to break down his customers' resistance! The screen's funniest man comes to the Yucca Theatre, Preview Saturday night Sunday, Monday and Tuesday in First National's "Earthworm Tractors" with June Travis and a comedy cast including Guy Kibbee, Dick Foran and Carol Hughes.

public auditions at the Dallas Little Theatre, the date to be announced within a few days. All material should be sent to "Republic Pictures," Dallas.

Those chosen for the final auditions must come to Dallas at their own expense, of course," Mr. Schaefer said. "This is an unusual opportunity for some new star to rise to fame out of the Lone Star State. It marks the first time any picture corporation has moved into Texas to choose a cast for a film. Ingenues and juveniles are badly needed. The picture will be completed before the end of September.

At Yucca

Marich Davis and Dick Powell, who have the romantic roles in what critics have acclaimed the gayest and most thrilling love story Miss Davis has ever made. "Hearts Divided," the Cosmopolitan picture now showing at the Yucca, also sing a new duet written especially for the production.

Plan Glider Flight From Mount Wilson

PASADENA, Cal. Aug. 14. (U.P.)—A glider flight at an altitude of 15,000 feet from the summit of Mount Wilson is planned by John Easterson, a member of the team who with their glider "Miss Pasadena," established a world's altitude record of 5,979 feet at the recent national glider competition at Elmira, N. Y.

Batterson is confident that the proposed altitude can be reached with his ship.

Eastern gliders, he says, have an entirely different technique from that used in the west, and now that

he is master of this he is confident he can exceed anything ever before accomplished.

Heretofore, Batterson explains, California gliders have relied only on the slope currents sweeping up a hill to lift them upward.

In the east, he found that gliders use the air currents in billowy white cloud banks, making possible a means of gliding called thermoflying.

Caught in one of these banks of cumulous clouds at Elmira, Batterson says he shot upward at the rate of 500 feet a minute and was obliged to point his glider nose downward in order to shoot out of the cloud.

In his coming test to attain a 15,000 foot altitude, he proposes to make use on purpose of these cumulous cloud banks.

By launching his glider from the summit of Mount Wilson, Batterson is confident that he can at once take advantage of the strong air and cloud currents there to get almost immediately into the banks of cumulous clouds, and after that he declares that the ceiling—of the cumulous clouds—will be the only limit.

Blind Men Hold Reunion

NEW BRITAIN, Conn. (U.P.)—Two blind men, Arthur Sullivan, local newspaperman, and Henry Istas, attorney from New Haven, held a reunion here. Each is the only blind man in his profession in the state and both have a common interest in their trained dogs which lead them everywhere.

Non-navigable rivers and small streams are the property of the persons through whose lands they flow.

THIS CURIOUS WORLD By William Ferguson

THE SNAKE-NECKED TERRAPIN
HAS A NECK LONGER THAN THE REST OF ITS BODY! ONLY BY LOOPING THE NECK SIDEWAYS CAN IT BE WITHDRAWN UNDER THE SHELL.

SKYLARKS
HAVE BEEN INTRODUCED INTO AMERICA ON SEVERAL OCCASIONS, WITHOUT SUCCESS!

LONDON, ENGLAND, GETS MUCH OF ITS WATER SUPPLY FROM ARTESIAN WELLS, SINCE THERE IS A GREAT SUPPLY OF WATER, UNDER PRESSURE, 200 FEET BELOW THE CITY.

IN 1887, a few skylarks imported from England made an effort to establish themselves on Long Island, in what now is the city of Brooklyn. One nest containing young was found in that vicinity, and another nest was found there almost 10 years later. There were reports of skylarks there as late as 1907, but, so far as is known, the species is now extinct in America.

county, a decline of \$969,000. Some of these and many other Texas counties are being actively developed for oil and are expected to show subsequent appreciation in taxable valuations. It is apparent from these facts that oil has undoubtedly contributed more to the prosperity of Texas than any other single economic force.

Mayor's Job Flaunted

WINNIPEG, Man. (U.P.)—L. St. George Stubbs, former Manitoba senior county judge, declined to run for mayor of Winnipeg because it is a "tea-drinking, cookie-eating job." "I wouldn't take the mayor's job on a platter," he said.

Red Lantern Causes Woe

SAN JOSE, Cal. (U.P.)—Oscar T. Adams, 29, salesman, feared he might be struck by an automobile as he was crossing the street at night. So he took a red lantern from a public works and waved it back and forth while negotiating the passage. He was placed in jail for two days as a means of immunity from autos.

NOTICE OF SHERIFF'S SALE

By virtue of an order of sale issued out of the Honorable 96th Judicial District Court of Tarrant County, Texas, on the 16th day of July, A. D. 1936, in the case of Texas Bitulithic Company, a corporation, vs. N. E. Lawrence, and wife, Anna Lawrence, No. 8360-A, and to me, as sheriff, directed and delivered, I have levied upon this 28th day of July, A. D. 1936, and will, between the hours of 10 o'clock A. M. and 4 o'clock P. M. on the first Tuesday in September, A. D. 1936, it being the first day of said month, at the courthouse door of said Midland County, in the City of Midland, proceed to sell at public auction, to the highest bidder for cash in hand, all the right, title and interest which N. E. Lawrence and wife, Anna Lawrence, had on the 12th day of November, A. D. 1929, and on the 29th day of November, A. D. 1929, or at any time thereafter, of, in and to the following described property, to-wit:

All that tract, piece or parcel of land lying and being situated in the City and County of Midland, State of Texas, being Lots 5 & 6, Block 64, Original Town Addition to said City.

Said property being levied on as the property of N. E. Lawrence and wife, Anna Lawrence, and will be sold to satisfy a judgment amounting to \$705.78, in favor of Texas Bitulithic Company, a corporation, and the costs of court and the further cost of executing this writ.

Given under my hand this 28th day of July, A. D. 1936.

A. C. FRANCIS,
Sheriff of Midland County, Texas.

CHEAP ELECTRICITY IS DOING GREAT THINGS FOR THIS FINE FAMILY...

THEY HAVE AN Electric REFRIGERATOR

PENNYWISE SAYS:

"You can't be too careful when it comes to your family's health—every family needs an electric refrigerator."

There's a food safety vault in the home of this typical Texas family—an electric refrigerator that watches after their food twenty-four hours a day, keeping it fresh and wholesome and free from harmful bacteria. Everything they eat at every meal is eaten with the assurance that it is just as it should be—and thanks to cheap electricity, all for only a few cents a day.

Bien Amigos Meets With Mrs. Chas. Mix Thursday Afternoon

The Bien Amigos club met Thursday in the home of Mrs. Charles Mix, 800 West Louisiana. There were two tables of bridge, high score going to Mrs. Carl Mitchell, and high cut to Mrs. Tom Weaver. The guests were: Mrs. Flood, A. two course luncheon Club members present were: Mrs. Mix, Mitchell, Flood, Fred Winger, Joe Haygood, H. Chaplin, Joe Chambers, and Joe Pyron. One guest attended, Mrs. F. E. Weaver.

Announcements

Saturday
The story hour will be held in the children's library Saturday morning at 10 o'clock with Mrs. J. R. Ashley in charge.

Mrs. Frank Horton of Bonham is here as the guest of her sister, Mrs. L. D. Bayless. She is accompanied by her daughter, Dorothy Jean. She will be here until Sept. 1.

Miss Bessie Dale left Thursday for Dallas, where she will visit the Centennial exhibition.

WHY PUT UP WITH PIMPLES, WRINKLES AND A SALLOW SKIN?

So many women throw their charm and beauty away—look years older than they are—because they neglect common constipation. They forget that badly balanced meals, over a period of years, can change how they look and feel. Often their menus lack the "bulk" needed for regular habits. Then constipation, the beauty-killer, sets in. Other effects may be headaches, listlessness, sleeplessness. Get "bulk" back into your meals with a delicious cereal: Kellogg's ALL-BRAN. It absorbs moisture within the body, forms a soft mass, gently cleanses the system. Just eat two tablespoons daily, either as a cereal or in cooked dishes. ALL-BRAN is guaranteed. Try it a week. If not satisfactory, your money will be refunded by the Kellogg Company. Sold by all grocers. Made by Kellogg in Battle Creek.

FEMININE FANCIES

By KATHLEEN EILAND

The eternal optimist is a person who will buy woolen blankets on days when the thermometer is passing the 100 mark.

"Women should learn to swish," declares Mrs. Price who says swishing is Rule No. 1 for 1936.

We are a little vague about what the term swishing actually implies. If Mrs. Price, who is a fashion consultant, means the swishing as of taffeta petticoats, we refuse to believe that swishing is necessary to style. If she means confident carriage plus a bit of dash, then we joyfully admit that such is an open door to chic, smartness, or whatever term denotes tops in the art of wearing clothes.

"Be sure you are right, then swish," she bids and some of her rules for being right include: "Have as few clothes as are compatible with your mode of life. Have these tops. Decide on a color scheme and stick to it. Don't economize on classics. To buy the wrong suit or coat is an expensive mistake."

Very sensible advice, this is. And the woman who makes a specialty of making women look smart adds a further word of wisdom: "Becoming smart doesn't just happen. If a woman has been dowdy for twenty years, it takes more than one season, or even three, to get her educated to the idea of choosing the right clothes and, what's more, knowing how to wear them."

And that rule, carefully read, holds hope for the woman who doesn't naturally swish and has to learn to do it. Mothers who have wrung their hands at the ingenuity of children in drawing all kinds of pictures on the walls should take heart. This may be simply a display of the ability of a prizewinner in the realm of wallpaper designing.

The newest thing is to have children design the wallpapers for children's rooms. If they insist on drawing houses which lead a double life as a face, with windows for eyes and door for mouth, why, that is what children like, so put them on the wallpaper. The same goes for red-spotted giraffes, daisies whose centers are faces, and similar works of art.

More and more this old earth comes to be a child's world. Next thing we know the witch's house of gingerbread with rock-candy windows will be put on the market.

New Love Role for Mary Astor

In the midst of a trial replete with "love triangle" testimony, where she is fighting Dr. Franklyn Thorpe for annulment of their marriage and custody of their child, Screen Actress Mary Astor is shown as she prepared to play a "tangled love" role in red life. In "Dodsworth," the film star is cast as a woman in love with another woman's husband, the latter being played by Walter Huston and the wife by Ruth Chatterton, who in private life is Miss Astor's best friend. Huston is seen above with Miss Astor.

Tall Iced Drinks Cool Summer Thirst In Appetizing Way

By MARY E. DAGUE
NEA Service Staff Writer

Too hot to eat? Too hot to cook? I feel that way some days—so perhaps you do, too. But, hot days or cold, our families must be fed. Moreover, I'm sure many hot weather ills can be avoided when food that is appetizing, nourishing but not too stimulating is set before the household.

I'll tell you what I do frequently on hot, breezy days. I serve a nourishing drink at noon with two or more kinds of sandwiches—and that's our luncheon.

It's easily prepared, satisfactory in every way and my young son, in particular, halls such meals with enthusiasm. To make these drinks, milk or milk and egg is used with the chosen syrup. Powdered, condensed or evaporated milks can be used if

One cup chilled pineapple, 1/2 cup chilled evaporated milk, 1 teaspoon lemon juice, chilled ice. Add pineapple juice to milk and shake hard. Or you can beat the mixture with a small dover beater. Add ice and lemon juice and shake again. This makes two servings. Any fruit juice can be used the same way.

PINEAPPLE SHAKE
One cup chilled pineapple, 1/2 cup chilled evaporated milk, 1 teaspoon lemon juice, chilled ice. Add pineapple juice to milk and shake hard. Or you can beat the mixture with a small dover beater. Add ice and lemon juice and shake again. This makes two servings. Any fruit juice can be used the same way.

MEN'S CLASS
Hotel Scharbauer

BEES.
WHILE GATHERING INGREDIENTS FOR ONE POUND OF HONEY, FLY A TOTAL DISTANCE EQUAL TO SEVERAL TRIPS AROUND THE EARTH!

THERE are many hundreds of plants which secrete nectar, but only about two dozen species furnish it in worthwhile quantities. All the flower gardens in one of our large cities would not maintain more than a few dozen bee colonies.

ed milk, 1 tablespoon sugar, few grains salt, crushed ice. Squeeze juice from oranges and grate rind. Add rind to juice and let stand while preparing other ingredients. Separate yolk from white of egg. Beat yolk with sugar and add strained juice. Beat thoroughly and fold in white of egg beaten until stiff. Be sure to chill oranges and egg as well as milk before mixing. Pour over crushed ice in tall glasses and serve. This rule makes two servings.

Three Fruit Foam
This drink is made with the whites of eggs. Two cups chilled grape juice, 1 cup grapefruit juice, 1 cup lemon juice, whites 3 eggs, crushed ice, 3/4 cup powdered sugar. Put fruit juices, unbeaten egg whites and sugar into a shaker and shake until frothy. Or the mixture can be beaten with a dover beater. Pour over crushed ice and serve with straws. This will make four large glasses.

Personals
R. M. Barron plans to leave today for Tincup, Colorado, to join Mrs. Barron and the children for a vacation.

Carl Blacey, of Brownwood was here Friday on business.

Mrs. H. S. Hinton of Odessa was in Midland yesterday.

Mr. and Mrs. Lonny Casey, of Monahan were here yesterday en route to Lubbock. They were joined in Midland by Mrs. Bud Estes.

W. H. Spaulding has just returned from a business trip to Abilene.

Mr. and Mrs. Paul Brown of Austin are visiting here. They arrived Thursday accompanied by Jack Carroll who had been in that city making arrangements to attend the University of Texas this winter.

Mrs. John Dublin, Mrs. Chas. Dublin, Mrs. Ola Dublin Haynes, and John Dublin Jr., returned today from a trip to California.

Mr. and Mrs. W. B. Harkrider have returned from Lubbock where they spent a few days.

J. R. Martin and family returned Thursday from Kansas City Missouri, where they visited relatives.

Mrs. Opal Elliott left today for her home at Oklahoma City after a two weeks visit in the home of Mrs. J. L. Rush.

\$7,500,000 Bridge for India
CALCUTTA, (U.P.)—A contract for construction of a \$7,500,000 bridge over the Hooghly River connecting Calcutta and Howrah has been granted to a British firm. With a main span of 1,500 feet, the new bridge will be one of the largest in the world. Among cantilever bridges it will come third in size to the Forth Bridge (three spans of 1,700 feet) and the Quebec Bridge (1,800 feet).

Convict Looks Back On Crime Crusader Role

HUNTSVILLE, Aug. 14. (U.P.)—C. Edgar Eskridge, 45, is convict No. 82677 today—last year he was pastor of the First Baptist church at Orange, Texas.

The big, gun-toting minister who thundered from the pulpit last year that "crime does not pay" is serving a five year sentence in the Texas state prison for the shotgun slaying of Police Chief Ed O'Reilly of Orange.

Eskridge hopes to be assigned a job in the prison library because he has studied that work in college.

"Whatever they give me I'll be a model prisoner," he said.

Eskridge said he wanted to forget his trial—but one phase of the testimony worried him. He did not want people to think he shot the officer in the back of the head.

"He was standing there talking to another man when I slowed my car," the crusading minister said.

"He was looking right at me. His hands were at his side then and he froze. I had to get my shotgun out through a window. He reached for his gun and his head turned just a little before I shot. I saw him fall. It looked like his hand froze to his gun."

STORIES IN STAMPS

By I. S. Klein

LINCOLN'S WAR SECRETARY

ABRAHAM LINCOLN is credited with having conducted the Civil War through its four years of bitter struggle. But it was Edwin McMasters Stanton, secretary of war in Lincoln's cabinet, who toiled alongside the famous president in that trying time.

Stanton, born in 1814, had lived an early life of almost constant hard work, and so was prepared for the grueling day and night job as war secretary. The eldest of four children, he became an orphan at 13, and clerked in a bookstore to help keep the family. He went to Kenyon College in Ohio, and took up the practice of law at Columbia and Pittsburgh.

His first wife, whom he had wed in 1836, died in 1844, and he married again in 1856. Soon afterward, President Buchanan appointed him attorney general, and he was in retirement only 10 months when President Lincoln made him his war secretary. Six years of hard work at this post, and Stanton's health was undermined. He resigned in 1868. Not long afterward, however, President Grant appointed him to the supreme court. It was a short-lived honor.

Four days after his confirmation by the Senate, in 1869, he died. One of the stamps, issued in 1870, bears his portrait.

Tri-State Fair Will Open At Amarillo on Monday, Sept. 21

AMARILLO, Aug. 14.—With increased cash premiums, more exhibit space, better amusement features and added departments, the Tri-State Fair will open its fourteenth annual exposition here, September 21.

"Interest in the 1936 exposition has started earlier than ever in the history of the association and there is every indication of a banner year for the Tri-State Fair," declared O. L. "Ted" Taylor, secretary-manager. Gene Howe—"Old Tack"—this year is president of the Tri-State Fair.

More than 4,000 catalogs, carrying a list of premiums amounting to approximately \$20,000 and all guaranteed for payment in full, have been mailed.

"The Tri-State Fair has the money in the bank right now to pay all the premiums offered," said Taylor.

Plus Betty Boop Vodvil News

Since the first catalogs were issued there has been a heavy demand for premium lists. Copies may be obtained by writing to the Tri-State Fair.

For the first time since 1932 the Tri-State Fair this year will have a full poultry department, arranged to meet the insistent demand of fanciers throughout the Southwest. Earl Curry of Amarillo will be superintendent of the department.

"To accommodate the ever-increasing crowds that attend the Tri-State Fair the association since last year's exposition has spent approximately \$35,000 in improvements," explained Mr. Taylor.

The expenditures were made principally to increase exhibit space.

"The new poultry department will have a building of its own—so will the agriculture exhibits, both county and individual," explained Mr. Taylor. "The automobile building has been remodeled entirely, providing more display space for domestic arts, domestic science and other departments."

On the amusement zone this year will be the United Shows of America, which will come direct from the Michigan State Fair at Detroit, making a \$4,000 railroad jump.

The fall meet of the Tri-State Fair races will begin Friday, September 18, at an improved plant. The races will continue throughout fair week.

Hix and Wife Return From Vacation Trip

John Hix and wife have returned from a two week's trip during which they visited Centennial celebrations in both Fort Worth, Dallas and visits in San Antonio, Corpus Christi and Monterey, Mexico.

Hix was awarded the trip for his insurance sales, this made the eleventh consecutive year in which he had been so honored.

After spending one day in Fort Worth and two days in Dallas, Hix and wife spent one day in San Antonio, leaving there to visit Hix's mother in Corpus Christi. After their visit there they journeyed to Monterey, staying there two days before returning home.

Klapproths Return From Mexico City

Judge Chas. Klapproth, Mrs. Klapproth, his sisters, Misses Theresa and Anna Mae Klapproth, and niece, Eddie Lou Sharp of Abilene, have returned from a motor trip to Mexico City.

The judge was enthusiastic in praising the trip and the fine weather prevailing in Mexico City, although it was hot on the return trip. The roads are as safe as ours here, he said, as drivers know they are in a foreign country and drive carefully.

The life of a single hair on a person's head is estimated to be six to 10 years.

All Hands, Salute! A Nazi Moment in Olympics

A sea of hands outstretched in the Nazi salute in acknowledgment of the arrival of Reichsfuehrer Adolf Hitler provided this striking view of a part of the throng of 110,000 attending the Olympic Games in Berlin. German spectators accorded Hitler this impressive salutation on each of his frequent visits to the scene of international games.

When Death Billowed Up in Great Forest Fire

Doom in the form of billowing clouds of black smoke, shot through with flames, hovered near the town of Hays, Mont., and its terrified watchers as this remarkable picture was snapped. Great gaps were burned by the fire that raged through the Lewis and Clark national forest in the Montana Little Rockies range, three men perishing in the flames. More than 1000 volunteers battled for days to bring the conflagration under control.

Butlers Leave Today On Vacation Trip

Mr. and Mrs. John P. Butler and her mother, Mrs. J. B. Wallace, will leave this afternoon on a two-weeks' fishing trip. They haven't announced any definite destination but say they will probably go to Colorado.

Before returning here, they will pick up their daughter, Jane, who is in a girls' camp near Santa Fe, N. M.

Stinson Ship Will Remain Overnight

A Stinson plane of the Baker Oil Tools company, with Pilot Hurlbut in command, arrived at Sloan Field today from Dallas. The flier will remain here overnight and go on to Corpus Christi Saturday.

Lieut. Reynolds, flying a P-12 from Dallas to El Paso, made the only other landing for the morning.

FATHER OF LOCAL MAN DIES

Curtis Bond and family left this morning for Lubbock after being informed that his father had died there last night. No details were learned other than that the parent had succumbed following an operation.

Eighty Children to Appear in Comedy

Eighty Midland children will appear tonight on the stage of the Yucca Theatre, some for the first time before the public, in one of scenes of the juvenile comedy, similar to Our Gang comedies of Hal Roach fame. Camera grinding will begin at 8:30 p. m. on an interior scene of the production. The plot deals with a small girl who is being held for ransom by band of kidnapers, and the setting for tonight's shooting will be the inside of the kidnapers' hut.

There will be two other scenes in the comedy, the first, to be taken at the home of Roy Parks, will show the kidnaping of the child. Gang scenes will be shot at Cloverdale Park. Filming of these scenes will take place Saturday and Sunday, and the finished production to be a two reel, all talking comedy, will be shown at the Yucca two weeks from today and tomorrow.

Another review will be staged at the Yucca Saturday afternoon, featuring Midland children in individual performances, particularly song and dance numbers. Judging from sounds coming from the Scharbauer Ballroom this morning, where fond parents for the past few days have been bringing their talented offsprings for rehearsals, the audience tomorrow will witness some fancy stepping and singing by the kiddies.

Melton Barker, representative of the Hollywood Film Company, and the Melton Barker Juvenile Productions, is in charge of the project. Prior to his arrival in Midland, he completed a similar production at Big Spring. He is carrying his search for talent to all the important cities of Texas.

Camera and sound equipment, owned by Barker arrived last night from Dallas, and Mr. Barker's assistants arrived this morning.

Budget Meeting For Trustees Announced

There will be a meeting of the board of trustees of the Midland Independent school district on Thursday, August 20. The meeting is called for the purpose of adopting a budget for the ensuing year. Any taxpayer of the district may be present and participate in the hearing. It will be held in the office of the president in the Thomas building.

MAYTAG

saving THE HEALTH AND CLOTHES OF THE FAMILY

When you send your clothes away to be washed, they may spend a part of their life where you, personally, would not want to spend an hour. They may be treated harshly and make contacts that are dangerous.

It is the height of wisdom, economy and good management to wash your clothes at home in a Maytag. Thousands of women have found it so, and thousands have found that Maytag offers greater value in quick, clean, careful, thorough washing service. The Maytag costs more to build, but costs less to own because of its fine construction and long-life service.

Complete your home laundry with the new Maytag Ironer.

Any model Maytag may be had equipped with the famous gasoline Multi-Motor.

YOUR DEALER WILL GLADLY DEMONSTRATE, AND EXPLAIN THE EASY PAYMENT PLAN.
