Decries Attitude of Nations During The War

REPUBLIC HURT

Prieto Says Rebels Get Arms From 3 'Neutrals'

(By Associated Press) Indalecio Prieto, leader of the Spanish Parliamentary socialist party, denounced France and Britain today, saying that Spain had been deserted by the very countries which should be allies in a fight against the spread of European Fascism.

Fighting went on in Spain, loyalists announcing they had been victorious in a counter-offensive in the bay of Biscay, and that they were moving in on the rebel city of Oviedo. Rebels claimed they were about to capture the important southern Malaga seaport.

The United States warned that it will insist on freedom of the seas for American shipping, saying that Spain has no right to bar merchant vessels unless they apply an effective blockade.

NATIONS SEEKING TO TIGHTEN EMBARGO LONDON, Aug. 27. (P)—Great Britain and France sent a joint appeal to all European powers which have not placed embargoes on Spanish arms shipments to do so immediately today.

France is planning to form a committee of all interested powers to coordinate in the embargo measures and to deal with any further neutrality proposals.

Portugal, Germany, Russia, Italy have already joined in the move.

SCHACHT REASSURES ON HITLER'S AIMS PARIS, Aug. 27. (P)—Dr. Hjalmar Schacht, German economics minister, delivered assurance from Chancellor Adolf Hitler today that France had nothing to fear from the reich's increase in military service. He indicated that the German move was made because of an increase in the Russian armies.

SUDAN BANK HELD UP BY LONE THUG

Escape Completed After \$2,000 Taken In Robbery

SUDAN, Aug. 27. (P)—A lone bandit robbed the First National bank of \$2,000 here today and escaped, fleeing southward in an automobile. The bandit, forced L. L. Anthony, assistant cashier, to put the bank's money in a handbag for him.

Kin-Folks Might Be Just As Bad

Harvey Conger has had a bevy of skunks at his house, and he does not refer to kin-folks.

An iron door to a coal chute, used prior to the days of natural gas, fell from its hinges but was concealed by shrubs.

Five or six polecats, attracted by the cave-like entrance, made their home in the Conger basement. Meanwhile Conger had a crew of bricklayers to wall up the entrance.

Seeking exit, the skunks climbed up through the double walls of the house, exploring until they reached the attic. Their scratching noise aroused curiosity of the home owners, resulting in investigation from above which brought forth proof that the visitors were skunks.

Poison was used, causing all but one of the "varmints" to come out in the attic and die. R. B. (Bum) Cowden, who claims he can catch a skunk by the tail and pop his head off, after the manner of snake killing, has been called into consultation to capture and exterminate the last one.

Conger says that, due to the housing shortage, he and his family still live at the same address.

Unfazed By City

Broadway's bright lights are fascinating, but Mrs. Susan Frawley Eisele, adjudged the best rural newspaper correspondent in a national contest, says she is content with the kerosene lamps of her Blue Earth, Minn., farm home. Pictured with her infant son, whom she brought to New York on the trip financed by the contest sponsors, she said she was more interested in the metropolitan sights than night clubs.

KEEP COMMUNIST FROM VISITING IN UNITED STATES

Parliament Member Denied Entrance By Government

WASHINGTON, Aug. 27. (P)—William Gallagher, communist member of the British parliament, now traveling in Canada, was refused entrance into this country today by the United States government under the immigration act prohibiting members of a group having as an objective the overthrow of organized governments.

The state department said that Gallagher was a member of the central committee of the Communist International, with headquarters in Moscow.

Funeral Services Friday For Woman

Funeral services for Mrs. S. D. Hix, mother of John W. Hix and former Midland resident who died at Corpus Christi Wednesday, will be held at the First Christian church here Friday afternoon at 5 o'clock with Rev. W. J. Coleman officiating in the absence of Rev. J. E. Pickering, Christian pastor.

Interment will be in Fairview cemetery.

Mrs. Hix, who was 77 years old, had been in ill health for three years. Recently her condition became weaker and Tuesday pneumonia set up, death following at 4:30 o'clock yesterday morning.

Mrs. Hix and her family formerly lived at a farm two miles east of here and her children attended the Midland public schools. She had lived in South Texas for the past decade or more.

She is survived by seven children including: John W. Hix, Midland; E. H. Hix, Corpus Christi; B. C. Hix, Louisville, Ky.; Mrs. Girtha Vest, San Marcos; Irl Hix, Corpus Christi; Elza Hix, Alice; and Mrs. Stella Howe of Des Moines, Ia. Other survivors are a brother and a sister.

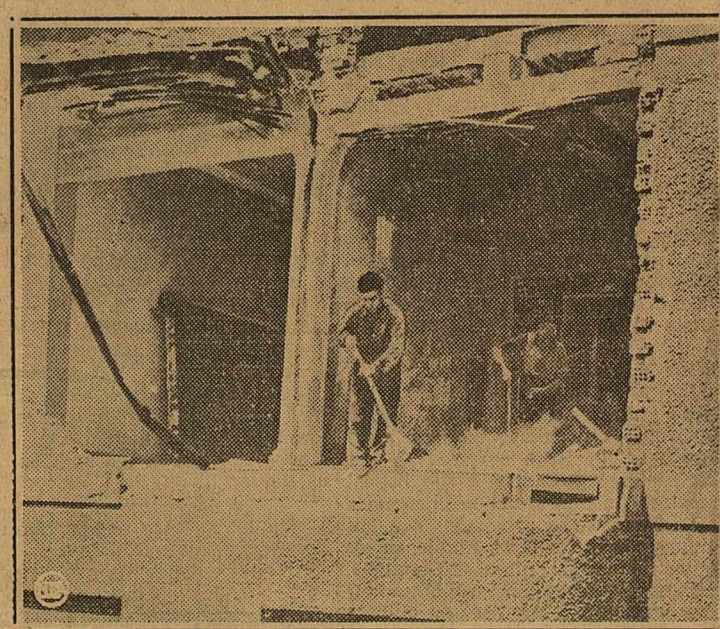

The body will arrive here Friday morning, accompanied by relatives from South Texas.

BRITON TREASURERS HIS PIPE

YARMOUTH, Eng. (U.P.)—It is classic that Englishmen love a pipe. Capt. Lester Newman, of the Cowes yacht Oceana, is an Englishman. During the recent gale, one wave washed him off his yacht, another washed him back on. His pipe made the round-trip without damage, firmly clenched in his teeth.

Bar Association Split on Policies of F. D. R.

After San Sebastian Bombardment

Ragged, gaping holes in walls, splintered woodwork and tangled masses of shattered furniture, streets piled with debris—the roar of cannon in Spain's civil war wrecks destruction as in the World War. Here men busily clean a wrecked upper story of a building at San Sebastian after a bombardment.

PRESIDENT SAYS PEACE PARLEY IS NOT IDEA OF U. S.

Issues Denial of All Reports Made In New York

ABOARD ROOSEVELT TRAIN ENROUTE TO BISMARCK N. D., Aug. 27. (P)—Secretary Wallace said after a talk with President Roosevelt Wednesday he had been authorized to say the United States government had initiated no conversations of any sort looking to a world peace and disarmament conference.

Wallace referred to published reports in New York saying the President was tentatively considering proposing a conference of major power rulers, in event he was re-elected, to consider peace steps.

Wallace said the President told him he could not deny a story he had not seen, but on the basis of what the secretary told him of the report, there had been no conversation of any sort looking toward such a meeting.

Asked what he meant by "conversations" Wallace said he believed the President meant "feelers thrown out by the state department."

Giving his own views, Wallace said the report seemed "utterly incredible," he added, in response to questions, he did not believe the President had anything of the kind "back in his mind."

PARTY POSTPONED

The Lucky Thirteen club party for which Mrs. J. T. Walker was to be hostess Friday evening has been postponed on account of illness.

OIL WELLS SUNK IN SEA

BAKU, U. S. S. R. (U.P.)—Sinking of oil wells in the sea has been organized with the aid of motor launches near the coast of the Apsheron Peninsula in the Caspian Sea.

Why Secretaries Are A Necessity

"Eloquism" might have been better spelled, but it took only twenty minutes for approximately fifty Rotarians to be "set down" on such fourth grade words as "perennial", "diphtheria", "accede", "supersede" and the like in a spelling match at which the "golds" were winners over the "blues" at the Rotary club today. Clint Lackey, captain of the blues, valiantly withstood the barrage of words given out by Tom Sealy, while four members of the golds still stood at the close of the contest.

Four members of the Ralls Rotary club made a good-will visit here today, including J. Edw. McLaughlin, banker; He Moore, hardware dealer; Jimmy Rankin, public education, and Lloyd Wicks, lawyer. J. W. Bateman of Abilene, Earl Hotchkiss of Dallas and Dr. Calvin M. Kessler of Midland also were guests.

CLUB TO MEET

The Garden club will meet at the courthouse Friday afternoon at 3 o'clock. All members are urged to be present.

Investigation Of Mooney Trial Denied

BOSTON, Aug. 27. (P)—The American Bar Association today defeated a resolution asking for an investigation of alleged "abuses" in the prosecution of Thomas Mooney and Warren Billings, serving life sentences for participation in the San Francisco Preparedness day bombings.

The association also defeated a proposal to request an investigation of the Black Legion and the arrest of strikers at the R. C. A. plant in Camden, New Jersey.

The members were split over a report on the policies of the Roosevelt administration.

The association reported criticisms of the activities of Governor Hoffman, Dr. John Condon, members of the jury and of the defense counsel in the Hauptmann case Wednesday.

SECOND WELL IN NEW CRANE PAY ENDS BIG GAUGE

No. 1 Cordova Union Tests 651 Bbls. In Day

BY FRANK GARDNER

The second well in the south end of the Crane side of the McCamey district to develop production from the deep pay, R. H. Henderson and associates (Fred T. Hogan and John Choate) No. 1 Cordova Union, pumped and flowed 651 barrels on the 24 hour potential test. Deepened from 4,039, it found the pay recently discovered by the same operators No. 1-B Hughes at 4,110 and stopped drilling at 4,139.

Location of the No. 1 Cordova Union is 2,310 feet from the northwest and 330 feet from the northeast lines of section 7, block 35, H. & T. C. survey, a half-mile south of the No. 1-B Hughes. It was given a 2,000 gallon acid injection before taking potential gauge.

Nearly a half-mile west of the No. 1-B Hughes, the operators' No. 1-C Hughes is drilling at 510 feet in red beds.

New Goldsmith Well

Flowing 1,014 barrels through casing in 24-hours, Gulf No. 7 Goldsmith became the largest well in the area northwest of the main body of the Goldsmith pool extended several months ago by W. H. Dunning, Jr. in his No. 1 Scharbauer. The well made its big flow after a two-stage 5,000-gallon acid treatment made early in the week. It flowed 60 1-2 barrels in one hour last week after shooting with 200 quarts of nitro from 4,145 to 4,225, five feet off bottom. Location is 2,256 feet from the east and 440 feet from the north line of section 4, block 44, township 1 south, T. & P. survey.

In the Dunning area, Amerada No. 1 Cummins, section 34, block 45, township 1 north, recovered drillstem after a twist-off at 4,163 feet in line, and is now drilling ahead.

West of the Goldsmith pool, York & Harper No. 1 Slater in section 26, block 45, township 1 south, is drilling red beds below 1,100 feet.

No Change in North Basin

Little change was reported today in the North Basin wildcats. In Yoakum, Lou Stogner and Elliott Roosevelt No. 1 Roosevelt in section 215, block D, John H. Gibson survey, is drilling hard gray lime at 5,125 feet with no shows reported.

Stanford No. 1 Dewey Davis, northwest of the Landreth discovery in Gaines, is drilling below 1,990 feet. Top of anhydrite was called by some at 1,955.

Humble No. 1 C. H. Eubanks, Gaines wildcat in section 6, block AX, public school land, was drilling below 5,900 feet in time.

The new Seminoles test, Amerada No. 1-A Averitt, 660 feet out of the northeast corner of section 228, block G, W. T. R. R. survey has completed cellar and pits. It is southwest of the Walsh & Adams No. 1 Averitt, 12,000,000-foot gasser drilled early this year.

Loving Test Changing Over On the Kyle ranch in Loving county about 20 miles up the Pecos river from the Wheat pool at Mentone, Mason No. 2 Kyle is moving in rotary. It reached a depth of 1,240 feet with cable tools, but hole sanded back up to 1,185. The test is located 2,310 feet from the north and east lines of section 20, block 55, township 1, T. & P. survey.

In Glasscock county, Floyd C. Dodson and others No. 1 Carter in section 8, block 35, township 3 south, T. & P. survey, is drilling anhydrite below 2,000 feet.

Secretary of War George Dern Dies

Secretary of War George H. Dern, 64, who died today from heart and other complications resulting from past influenza attacks. Dern has been ill for several weeks, and his life was despaired of within the last few days following a recurrence of his earlier illness.

TRIO LOSE LIVES AS HOUSE BURNS

Woman, Two Children Are Victims of Blaze Near Corsicana

CORSICANA, Aug. 27. (P)—Dixie Lorene Massey, 23, and Leonard Davis, four, and Johnny Davis, two, were fatally burned when fire destroyed a farm house in the Pursley community southwest of here late yesterday, it became known today. They were alone in the house at the time of the tragedy.

RICHMAN MAKING TEST WITH PLANE

Prepares To Leave Friday On Round Trip To London

BROOKLYN, Aug. 27. (P)—Dick Merrill and Harry Richman took off today on a non-stop west flight to New Foundland, preparing for a round-trip to London, starting Friday.

HAVE TONSIL OPERATIONS

Elsie Nora Schlosser, daughter of Mr. and Mrs. Paul A. Schlosser, who underwent a tonsil and adenoid operation in a Midland hospital today is reported to be doing well.

Late News

VATICAN CITY, Aug. 27. (P)—Prelates disclosed tonight that Pope Pius was so weakened from worry over the Spanish situation that he was hardly able to rise from the throne at the close of audiences. He may become so ill that he will have to be carried about the palace.

AUSTIN, Aug. 27. (P)—Attorney General McCraw was advised today that a three-judge federal court at Tyler had dismissed a suit in which the railroad commission oil well spacing regulations had been attacked. The suit sought to restrain production and the sale of oil on a Gregg county well.

WASHINGTON, Aug. 27. (P)—Lieutenant William Moffett, Jr., charged with losing confidential documents, has been court-martialed by the navy it was reported today. The findings of the court have not been disclosed.

QUARREL STOPPED BY KNIFE WOUND IN HEART OF BOY

Search Spreading To Other Towns For Slayer

BOYS WERE PALS

Youngster Flees As Officers Told Of Crime

All Midland county officers today are engaged in a hunt for Ramon Navarette, 16-year-old Mexican youth, who it is alleged, slew Juan Martinez, 17-year-old Mexican youth, Wednesday afternoon with a knife wound in the heart.

Reason for the crime has not been discovered as there was no witness present at the time of the killing, it was reported today. It was presumed by officers that the slaying was the result of boyish quarrel.

The two boys were working together heading maize on the Glenn Hudson farm about seven miles southeast of town at the time of the death. They were under contract to Joe Achoa, Mexican, who was in the same field at the time. Manuel Navarette, a brother of the hunted youth, was also in the field.

Manuel Navarette told officers that he was at the far end of the field at the time of the killing and was appraised of it when his brother called to him. He said that after his arrival at the side of the dead youth that he went up to a house nearby to call officers and that when he came back the boy was gone.

Achoa was reportedly the first to the scene of the crime and told officers that Ramon told him that he had killed Juan, and asked him what he should do.

The dead youth was stabbed only one time, the blade being driven directly into his heart. Manuel Navarette told officers that his brother had a long-bladed knife with a guard on it at the back end, the blade being especially sharpened to cut the maize stems.

Officers started a search for the missing youth immediately after being notified of the crime, but despite notices sent out to all towns and cities in this area bearing descriptions of the youth, early this afternoon had been unable to locate him.

HEAVY DOCKET ON BIG SPRING COURT

61 Cases Entered Since Ending of The Last Session There

BIG SPRING, Aug. 27. (Special)—A heavy docket for the September term of the 70th district court was forecast Wednesday on the eve of the deadline for filing this term.

Sixty-one cases had been entered on the court docket since the last docket was made up. Besides this number there will be several carry-over cases.

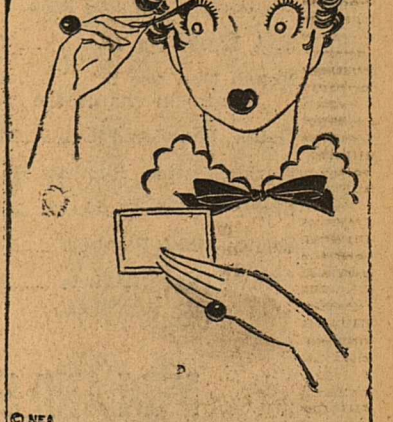

Of the number already filed, 38 are divorce petitions.

Judge Charles Klapproth, Midland will convene the court at 10 a. m., September 7. It is likely that he will then declare a recess until Thursday of that week due to the annual rodeo attraction starting on the day court officially opens.

MINUET DANCE SATURDAY

Mrs. R. W. Hamilton and Mrs. Paul Osborne will be hostess to the Minuet club with a dance at the Country club Saturday night. Thomas Brook's orchestra will play and the affair will be informal.

BRITAIN FIRST AFFECTED BY JAPAN'S NEW DRIVE FOR THE FAR EAST TRADE

TOKYO, Aug. 27. (U.P.)—Japan is pushing her trade expansion plans to the Southward, inviting the risk of collision with Great Britain's interests in the Far East.

Japanese ships and Japanese merchants are swarming into the islands Southeast of the Asiatic continent, into Siam, French Indo-China and even further west.

Britain meanwhile is improving its Singapore base speeding the completion of wharves, stores and equipment for provisioning warships. It is keeping an alert eye on its defenses in the South Seas, the Malay peninsula, Australia and New Zealand.

One of the reported Japanese projects toward the South is a proposed canal from the Gulf of Siam into the upper Indian Ocean, providing a much shorter route for ships which now must go around

to the southward by ways of Singapore. Other powers particularly Britain, are opposing the plan. It would give Japan an advantage comparable in a lesser degree to that of the United States with its Panama Canal. Japan is saying little about its intentions but its active trade enterprises, with economic missions busy in Siam, Persia and India, show a pressing desire to open that territory to increased sales of Japanese manufactured products.

Japan is now experiencing a reaction from the visit earlier this summer of Sir Frederick Leith-Ross economic adviser to the British government who came over from China for a well publicized series of conversations with Japanese statesmen.

Sir Frederick's discussions were reported only in well qualified generalities but the consensus was that he presented the British view that Japan should give only economic aid to China and should not concern itself with political matters. Split With Britain

Discussing the Leith-Ross visit, Yu Nakayama, of the intelligence bureau of the foreign office, asserted that developments are driving Japan and Great Britain apart.

"The situation is not encouraging," he wrote in a current magazine. "Great Britain, though it received bitter experience in the Italo-Ethiopian dispute, is gradually regaining its supremacy in European politics.

"Its diplomatic demarche has already resulted in a rapprochement with the Soviet union, better than at any time since 1917, and their naval agreement granted the Soviets' free naval building rights in Vladivostok. The British scheme for

a greater economic bloc embracing its dominions and possessions has caused the Australian government to exclude Japanese merchandise.

Isolate Japan
"The general situation is thus tending to antagonize each nation against the other, but, speaking comparatively, Great Britain is fast adding to its influence while Japan is being forced into a position of isolation."

After stating that Britain has amassed an enormous concentration of wealth in China to the detriment of Japan, the writer continues in aggressive vein:
"Whatever Japan advances that will upset the British advantage. It can offer hardly anything more than force of arms and the overwhelming will of the nation.

National Policy
"Culture, finance and military force have something common as instruments of national policy. Great Britain has employed the most advantageous of them, and Japan may use those which are serviceable for its purpose. The FINAL problem is that of whether or not Japan's strength in all these factors exceeds that of its competitor."

In another magazine article, Seigo Nakano, leader of the Pan-Asiatic movement, asserts:
"The foremost aim of Britain is to frustrate Japan's ascendancy in Asia."

Some quarters of Japanese thought look to Germany for friendship.
"In the light of the prevailing international situation," remarks the newspaper Hochze, editorially, "Japan and Germany are almost destined to come nearer."

Hail Germany
The German-Manchoukuo trade agreement was greeted as partial recognition of the new Manchurian regime.

"It should be no wonder if the great appreciation on the part of Germany toward Japan for the latter's break with the League of Nations may possibly extend to an alliance," say a writer in the "New Youth" magazine.

"It was Germany that sympathized most of all others with Japan's stand when the Manchurian incident broke out," the article continues.

"It is also Germany who has shown the most positive attitude and concluding a commercial treaty with her. It is undeniable that such factors have strengthened the friendship between Japan and Germany."

Watch Other Nations
Largely because of Japan's feeling of isolation since its withdrawal from the League, its statesmen have felt it necessary to keep in extremely close touch with developments in other nations. Japan participated in the Dardanelles conference at Montreux and all Japanese ambassadors in Europe have been asked to meet in Paris soon for a general discussion.

The revolution in Spain delayed the projects of conference and the interim is being used for the preparation of careful reports.
Instructions asking the Japanese ambassadors to stay at their assignments and conduct thorough investigations regarding general conditions have been dispatched by the foreign office.

DIES AGED 104
HONOLULU, (U.P.)—Hawaii has just lost its oldest American citizen. He was Francisco Costa de Jesus, aged 104. He was born in Portugal in 1832, and did not leave Hawaii during the 58 years of his residence here.

Business Is Booming In the Land Of the Famed Dionne Quintuplets

This is the last of a series of four stories written by Dr. Allan Roy Dafeo, physician to the quintuplets, exclusively for NEA Service and The Reporter-Telegram, telling of the program employed in "getting the quins through the summer." This series followed an introductory story by Willis Thornton, NEA staff writer, who writes a concluding story on how Callander's dream of a hospital will be realized and how the quins have brought prosperity to the district.

BY ALLAN R. DAFFEO
O. B. E., M. D.

Before making any comments at all about the individual characteristics of the quintuplets, I must say one thing clearly:

It is too early to make any reasonable predictions about the characteristics and abilities, or even the temperaments, that these little girls will have when they grow up. A lot of the stuff written on this subject simply doesn't mean anything.

Someone sees one of the girls exercising on our "gym" bars and immediately says, "Ah, she's going to be an athlete!" Another sees one sitting quietly and meditatively and says "Ah! She's spiritual! She will be a religious, or a scholar."

All this is unscientific and means nothing from the practical point of view. For if those observers could watch the little girls day in and day out they would see that the one who is athletic one day may be quiet the next and the one who seems so "spiritual" on Monday may be a regular "little terror" the next.

So when I set down here some of the little individual quirks and stunts of the girls you must remember that they are by no means to be taken as indicating permanent characteristics. It is too early for that as yet.

Marie Blossoms Out
One of the most interesting developments of the summer is the emergence of Marie from the position of being the "little one," or the quiet one, constantly pushed into the background.

Marie has been constantly closing

the physical gap between herself and the others, and has often shown signs of being a "little terror" behind an angelic appearance.

She has been a leader in a new and somewhat rowdy "game" that has been popular during the summer. Creeping up behind another unsuspecting quin, the player takes her light aluminum drinking cup and brings it down on the head of the victim with a resounding bop.

Needless to say, we don't encourage any such "game," and the nurses call a quick halt as soon as it begins, though of course there has been no harm done. The cups are light and it's all in good fun anyway.

But the odd part is that Marie, who was given credit early for being demure and spiritual, is about the most enthusiastic player and has more than evened any scores that may have accrued from her shy past.

Differ At Piano
Marie also likes to pound the piano, recklessly when she is given a chance at the keyboard, in marked contrast with Emilie, who will strike a single note and then listen intently.

Does this mean that Emilie is more inclined to music? I don't know, and it would be premature to guess.

Annette has a little trick that has proved vastly amusing to the nurses at meal times. We insist that the girls eat some of their vegetables before they get any soup, and then in turn that they must have eaten a respectable amount of soup before they may have any dessert.

Several times the nurses have caught Annette slyly pouring out some of her soup in the hope that she would be found ready for dessert that much earlier. Annette hums tunes very nicely, too, which I am told is some evidence of musical ability.

All the girls are quite strong, and climb the Swedish bars or "gym" which we have in the play yard with ease and no apparent fear whatever.

Each one is capable of hanging by her hands, supporting the weight

of her entire body, and I have seen Yvonne, for instance do it for as long as a half minute before dropping off.

Shows Loves of Music
Cecile seems to be especially fond of music, and the little French nursery song, "Savait Vous Plantez des Choux," which the nurses are teaching the children, attracts her very much.

She is a leader, too, in learning the little prayer-song which begins "Petit Jesu, Bon Jour," and in making the sign of the cross at their daily devotions.

The children are rapidly learning their daily devotions of kneeling before the holy picture over the nursery door, making the sign of the cross, and murmuring their little prayers.

Such physical differences as existed earlier among the little girls are rapidly disappearing. At the beginning of August there was a difference of only about three pounds between the weight of Marie, still the lightest, at 22 pounds, and Cecile the heaviest at 25.3 pounds. Emilie weighed 24, Yvonne and Annette 25.12 each.

In height, also, the children are very close. Marie and Emilie stand 30 1-2 inches, Cecile and Annette 32 inches, while Yvonne, contrary to general impressions, is 31 3-4 inches.

Marie, Annette and Yvonne have 16 teeth each, Cecile 15 and Emilie trails with 14.

They Match up Closely
So you see that physically the little girls are pretty close to being on a par, and whatever "handicap" Marie might have suffered in the earlier days from being the lightest amounts to practically nothing now.

Preferences as to clothes are beginning to arise, and Emilie shows a pronounced choice for yellow, which she invariably picks out if she sees the little dresses laid in a row.

The manual dexterity of the children is increasing amazingly, and their cleverness in devising amusements with their little wagons in the play yard is amazing at times. For instance, the other day this hap-

pened:
The little wagons won't hold more than two quins apiece, no matter how they pile in. But sometimes they all like to ride together. So in to the first wagon piled Yvonne and Cecile.

Cecile, at the rear of the first wagon, reached out over the tailboard and got a firm grip on the front of the second wagon, into which Annette and Emilie then piled.

Furnishing the motive power at the head of the "train" was no other than Marie, "the lightest one," whose delicacy had caused so much anxiety in the early days.

Bending to her task with a will, Marie got the "train" in motion and pulled it half way around the circular cement walk of the play yard before it went off the walk and piled up in a "wreck."

In that one little incident were illustrated the strength, the ingenuity and the mutual helpfulness of the quins as they come to the end of summer and point toward their third birthday.

NEXT: Willis Thornton tells how dreams of hospital will come true for Callander and how the quins have brought prosperity to the district surrounding their birthplace.

WAR BISCUIT SAVED 37 YEARS
CONCORD, N. H. (U.P.)—Preserved in a special box, William O. Scates keeps a souvenir of the Spanish-American War. It is an old biscuit, served to him when he was with the First New Hampshire regiment at Chocomauga, Ga. The names of three of his buddies are written on it.

Mrs. R. T. Bucy and children are moving to Lubbock today.

(Reserves the right to "quack" about everything without taking a stand on anything).

fool a pack of strange women when I can't decide my own wife.

Quaddy—Did you take your usual two weeks camping trip this year?
Eonest—No; we just left our house doors open, removed the window screens and got the same effect.

Mrs. Green—I want to open an account with your bank.
Cashier—How much do you want to deposit?
Mrs. Green—Why, nothing. I want to draw out \$30.

"We kept up appearances until we went broke."
"What are you doing now?"
"Keeping up appearances every time a creditor shows up."

Dorothy—What did the astrologer tell Mabel when she asked him about the best time to get married?
Helen—He looked at her for a moment and then told her to grab the first chance she got.

Friend—Did you get any replies to your advertisement that a lonely maiden sought light and warmth in her life?
Spinster—Yes, two from an electric company and one from the gas light people.

Miss Olga Trammell and her mother, Mrs. C. E. Trammell, have returned from Denton where Miss Trammell received her degree from Texas State College for Women.

SOVIET GAME ABUNDANT
STALINABAD, U. S. S. R. (U.P.)—An unprecedented abundance of game and beasts is observed this year in the Turkmenia. Last month 32 panthers, 121 wolves and over 1,700 foxes were killed by hunters.

Deaf Woman Now Hears on Telephone
"I have been hard of hearing for 8 years," writes Mrs. Sturdevant, of Mayville, N. Y. "I could not talk over the telephone. Last year I obtained OURINE. My hearing has improved so that I can talk over the phone as well as I ever could."

OURINE was originated by a Vienna ear specialist, for those who are hard of hearing, bothered by head noises, earache, ringing and buzzing in ears, stick with the dread of approaching deafness. Get quick relief with OURINE today. It's easy to use—costs only a few cents daily. Money back if not satisfied. Palace Drug Store. (Adv.)

THE NEW Firestone STANDARD
More tire for your Money

SINCE the startling announcement of this new tire sensation, Firestone Factories have been busy day and night in an effort to satisfy the big demand.

When you buy the new Firestone Standard, you save five ways—better raw materials, buying at source of supply, more efficient manufacturing, volume production and more economical distribution. Savings are passed on to you in the greatest tire value known.

Never before have you seen so much tire for the money and every tire carries the Firestone name and guarantee, which is your assurance of greater non-skid efficiency, greater blowout protection and longer mileage.

Don't delay. Get your new set of Firestone Standard Tires now—a fresh supply just received.

Waffle Breakfast Is Compliment To Miss Flakus

As a compliment to Miss Twyla Flakus who is soon to leave for her home in Grand Island, Nebraska, a waffle breakfast was given by Mrs. W. L. Miller and Mrs. J. H. Reagan sister of the honoree, at the Miller home, 707 W. Tennessee, Wednesday morning.

The guests were amused by drawing pictures of the honoree, thereby keeping score in a game played with small blocks bearing the letters of Miss Flakus' name. High score prize was awarded to Miss Adele Reiger and cut prize to Miss Freddie Fae Turner.

As a parting gift Miss Flakus was presented with a triple set of pictures painted by Mrs. Miller.

Places were laid for: The honoree, Dorothy Lou Speed, Jeanne Davis, La Moine Sindorf, Freddie Fae Turner, Mary Della Kendrick, Mary Beth Scruggs, Adele Reiger.

Announcements

FRIDAY

The Belmont Bible class will meet with Mrs. W. P. Collins, 110 South Weatherford, Friday afternoon at 4 o'clock.

The Lucky Thirteen club will meet with Mrs. J. T. Walker, 119 West Illinois, Friday evening at 8 o'clock. Husbands will be guests.

Mr. and Mrs. Percy Giums are entertaining as house guests Miss Bell of Fort Worth and Miss Littlejohn and Mr. Wilson of Tyler, who are returning from a tour of the western states.

FEMININE FANCIES

By KATHLEEN EILAND

Black velvet, aristocrat of fabrics, is in high favor in fall showings. One example of its appeal is in a simple frock with demure white lace collar and push-up sleeves with shirred cuffs.

Another is a cocktail dress, practical for the working girl, which combines a tailored coat with a low-cut dress for more formal wear.

Green is an apt color constituent for smart fall wardrobes. A sheer wool features it in a tailored all-around wear dress with Paisley scarf and three-quarters length sleeves.

If one grows tired of replacing the bowl of fruit (imitation or otherwise) on the table that doubles for dining and livingroom use, the shops have novelties that will appeal.

Decorative figures such as grandmother liked, in modernized versions, will provide the necessary touch of color and finish. For a dark room or one whose neutral colors need brightening there is a figure of a Russian girl bearing a candle wreathed with tiny flowers. Orange-red, chocolate brown, black and flower tones make this a good choice of ornament.

Or if you are Byrd-minded, there is a group of three penguins, one adult and two smaller ones, marching along like solemn wayfarers across your table or mantel.

Add to the "fan dance," the "bubble dance," and the "apple" dance, another of the same ilk "the palm frond dance." There is not much new under the sun—except names.

What we can't understand is why some enterprising danceuse has not invented a "sandstorm dance" in keeping with the spirit of West Texas. Certainly it would not be any more revealing than some of the other dances now making the headlines.

We've always fondly believed that man's brotherly regard for man grows as the years pass. But we have to admit that the citizens of Waterloo, Nebraska, reached a peak of neighborliness and thoughtfulness we've never seen equaled when, back in 1910, they passed this ordinance: "It shall be illegal for any barber in this town to eat onions between 7 a. m. and 7 p. m."

Of course it may have been hard on the barbers to follow the ordinance but for the general public it was doubtless a blessing.

James Smith has returned from Brady where he took part in the golf tournament winning a cup as medalist. He reached the semifinals of the contest.

A. E. Hors made a trip to Odesa Wednesday.

The observatory on the physics building will be open to the visitors the other three nights of the week, Tuesday, Thursday, and Saturday. The nine-inch telescope will be turned on the moon during the week since the moon is so bright that observation of anything else is almost impossible.

Last week Charles McDaniel, student director, pointed out the various constellations in the sky to visitors who were interested. He used a powerful flashlight for a pointer. The moon will be too bright for that this week, however.

The new slides show pictures of the various constellations of stars and other rare pictures such as exploding stars. This set of slides

replaces the set of pictures showing the meteor craters of the world. The planetarium which shows the star field as it is in the different seasons and also shows the movement and rotation of the planets will be demonstrated as a part of the show.

A telurium which shows by mechanical rotation day and night on the earth, months, moon phases, seasons, years, the zodiac, and other like points about the earth and sun is also shown. The telurium was lent to the centennial staff by a German sea captain who says that such instruments are common in the German schools.

4-H Girls' Club Is Entertained By Mrs. Hollingsworth

The Cotton Flat 4-H girls' club was entertained by Mrs. Lura Hollingsworth, county home demonstration agent, with a slumber party at her home Tuesday night. The entertainment was an award for being the club having the highest percent of its club work completed by July 1.

Each girl in the club completed her goal except the required canning of 30 quarts of leafy vegetables per member of the family which will be done this fall.

A picnic supper was served at Cloverdale and the girls were later taken on a theatre party to see Shirley Temple in "Poor Little Rich Girl."

Members attending were: Billie Frances Franklin, Eddie Louise Locklar, Thelma Jo Brown, and Dorothy McCullough.

The only club member not present was Pansy Lear.

Mr. and Mrs. T. O. Midkiff have returned from a motor trip through Oklahoma and Texas. They returned by way of Denton bringing home Miss Jewell Midkiff who received her degree at the summer commencement exercises.

Mrs. Elma Lee Yates and sons, Fred and John, left today for their home in Hamilton after visiting Mrs. Rea Sindorf and family here.

Mrs. Troy Eiland and children returned Wednesday from an eight-day trip to Mineral Wells, Cleburne, Breckenridge, and other towns en route.

Baptist Circle Has All-Day Meeting

Annie Barron circle of the Baptist missionary union held an all-day study meeting at the home of Mrs. M. R. Hill, 420 W. Missouri, Wednesday.

Mrs. J. M. White taught the book, "Search for Souls," by Dr. Lee Scarborough. The morning was devoted to lessons.

Luncheon was served at noon after which study was resumed for the afternoon.

Attending were: Mmes. White, W. P. Wyrick, Edna Watson, Martha Holloway, F. H. Lanham, A. W. Wyatt, and the hostess.

James Smith has returned from Brady where he took part in the golf tournament winning a cup as medalist. He reached the semifinals of the contest.

Dickie Jackson Has Birthday Party On Wednesday

Honoring her son, Dickie Jackson, on his fifth birthday, Mrs. Thelma Jackson was hostess to a party at Cloverdale Wednesday afternoon.

Guests gathered at the Jackson home, 907 W. College, at 5 o'clock. A birthday cake iced in orange with yellow candles was cut and refreshments were served.

The boys and girls were then taken to Cloverdale where outdoor games and amusements occupied the remainder of the afternoon.

Mr. and Mrs. T. O. Midkiff have returned from a motor trip through Oklahoma and Texas. They returned by way of Denton bringing home Miss Jewell Midkiff who received her degree at the summer commencement exercises.

Mrs. Elma Lee Yates and sons, Fred and John, left today for their home in Hamilton after visiting Mrs. Rea Sindorf and family here.

Mrs. Troy Eiland and children returned Wednesday from an eight-day trip to Mineral Wells, Cleburne, Breckenridge, and other towns en route.

Manufacturing Of Cloth Shown at Univ.

AUSTIN, Aug. 27—A display showing how viscose rayon is manufactured from wood fiber and cotton linters is now on exhibit in the division of botany in Gregory sym. main exhibit hall of the University Centennial Exposition.

The exhibit was lent by Dr. A. B. Cox of the University bureau of business research. Many business men of Texas are looking toward the manufacture of viscose rayon as one of the first steps in the industrialization of Texas.

The exhibit shows seven of the steps which the material goes through in being made into the finished cloth. The base material used is cellulose obtained from wood fiber or a mixture of wood fiber and cotton linters. This material is chemically treated, cooked, washed, screened, bleached, dried, and cut into sheets. This is in finished form of pulp sheets.

The sheets are then soaked in a caustic soda solution and the reaction forms a compound which is called soda cellulose. The excess soda is removed and the sheets are shredded and put in containers to be aged.

The aged shreds of the sheets are next treated with carbon bisulphide. The reaction forms a yellow-orange material which is known as xanthate.

The xanthate is dissolved into a viscous liquid known as viscose. After further treatment it is forced through minute holes of platinum nozzles into a chemical solution. This process forms the viscose into long, fine, filaments.

These filaments are gathered up and made into the rough yarn. This yarn is then bleached, mercerized, and otherwise treated to make threads. At last the yarn is ready for dyeing and then for weaving. Ordinary cotton cloth dye is used to dye the rayon.

When Girls Are Peddling Lavender

By Helen Welshimer

WHEN girls are peddling lavender, And English muffin men And organ grinders march the streets, I'll fall in love again.

A HANDSOME lad whose eyes are blue Will suddenly look down At me from out the twilight fog That wraps up London town.

"WHERE are you going, my pretty maid? To Piccadilly Square?" He'll ask. How could he ever know That I have trailed him there?

"IT'S nice to see you looking well," The lad will say to me. Then we'll have scones and marmalade, And lots of cups of tea.

PERHAPS when girls with lavender Are walking up and down the streets, HE'LL fall in love again!

Texas Population Is Growing Faster Than New Home Building in The State

Residential construction in last five years takes care of only 80.70 percent of population gain, despite 137.60 percent housing increase in 1935.

New homes built in eleven Texas cities in the five years prior to 1936 provided new housing for only 80.70 per cent of the estimated population gain in such cities, according to J. R. Ridgway, president of Investors Syndicate, of Minneapolis, in a national survey made public today.

This lag of new homes behind population increase took place despite the fact that Texas in each of these five years provided the 3rd largest amount of new housing in the entire nation.

"New houses are not going up as fast in the eleven Texas cities, if 1935 be excepted, as population is increasing," he said, "despite the fact that the residence supply last year, in point of persons furnished with new shelter, advanced 137.60 per cent. Furthermore, 1935 building activity was at its highest level since 1931."

Mr. Ridgway's report was based on a housing survey made by his company in 310 cities throughout the country and containing more than a third of the nation's population. These cities are located in forty-one states and the District of Columbia.

MECHANIC WHO BECAME A GREAT ARTIST

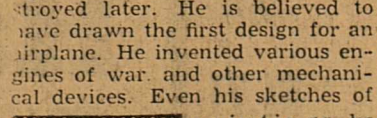

In the Louvre, in Paris, hangs the famous Mona Lisa, portrait of a woman whose mysteriously smiling lips and devilish eyes have mystified the art world. In the refectory of the Santa Maria della Grazia cathedral in Milan hangs another great painting, depicting "The Last Supper." Both masterpieces are the work of a man who believed himself a better mechanic than artist—Leonardo da Vinci.

This genius, who lived from 1452 to 1519, had an abundance of brilliant ideas, but few ever came to completion. Besides the two great paintings, his famed works included a remarkable equestrian statue, which was destroyed later. He is believed to have drawn the first design for an airplane. He invented various engines of war and other mechanical devices. Even his sketches of

paintings he never completed are considered masterpieces.

In tribute to Da Vinci's thoughts of flight, Italy in 1935 issued a set of air-mail stamps on one of which the great master is shown.

GET GULFLUBE—
It's "Stripped for action"!

A cheap, poorly refined motor oil is like an over-dressed wrestler. Such an oil is hampered by useless waste which should be removed by further refining. Such an oil, like the over-dressed wrestler, can't do a good job!

Most 25c oils, like this wrestler, are still somewhat hampered. Some of the useless waste has been removed, but not all of it. No refiner of 25c oils could afford to carry refining further than this until Gulf perfected the Multi-sol process.

GULFLUBE MOTOR OIL, like this wrestler, is stripped for action. Stripped of all useless waste by the Multi-sol process—the finest 25c oil in America—the only 25c oil equalling premium-priced oils! For better lubrication, cleaner motor, less than this until Gulf perfected the Multi-sol process—at the Sign of the Orange Disc.

SEVEN STATES WILL SOON BE READY TO RECEIVE SOCIAL SECURITY CASH

Texas Not Eligible To Gain All of The Benefits Offered By The Act

SAN ANTONIO, Aug. 27.—While Texas is now eligible for a number of the benefits under the Social Security Act, seven other states are, or shortly will be, eligible for all benefits, it is announced by Oscar M. Powell, regional director.

With the signing of the state's new unemployment compensation law by Governor Ross a few days ago, Idaho became the sixteenth state (including the District of Columbia) to enact such a law and the seventh state to have acquired for its citizens eligibility for all ten of the following listed benefits and public services created by the Social Security Act:

- Assistance to the needy aged;
- Aid to the needy blind;
- Aid to needy dependent children;
- Unemployment compensation;
- Maternal and child-health services;
- Services for crippled children;
- Child welfare services;
- Vocational rehabilitation;
- Public health services;
- Federal old-age benefits (to begin in 1937).

Though Texas is not eligible for unemployment compensation, aid to the needy blind, and aid to needy dependent children, the fact that the benefits for these states have already been very substantial is indicated by Powell in connection with the first anniversary of the Social Security Act which became a law last August. Powell pointed out that more than \$1,181,000 in allowances for public assistance has already come to Texas from the Social Security Board for the months of July and August. In addition, substantial sums have come to Texas from the several other federal departments administering other provisions of the act. The allowances made to the state by the Social Security Board, matched by funds provided by the state, have made possible aid to more than 60,000 men and women in the state who are 65 years of age and who are not living in public institutions.

President Roosevelt signed the bill carrying the first congressional appropriation to the Social Security Board on February 11 of this year. Three days later the Texas old-age assistance law, which was approved by Governor Allred, became effective. In the six months since, the United States treasury has, at the request of the Social Security Board, sent to Texas \$1,181,250 for aid to the needy aged.

It was pointed out by Powell that what the Social Security Act means to the individual in Texas is illustrated by the fact that prior to the passage of the Social Security Act by congress the aged in this state received no monthly benefits, while this year with the aid of federal funds the state has been able to give an average of

approximately \$16 per month to needy aged persons.

This substantial aid to those in distress in Texas is made possible by the fact that, under the Social Security Act, the federal government not only pays a large proportion of the cost of administering public assistance in those states whose plans conform with the Social Security Act, but also gives such states allowances in advance for each quarter year to cover one-half their expected expenditures for aid to the aged and aid to the blind, and one-third their expenditures for aid to dependent children.

The board makes such allowances to a state only where there is assurance:

- (a) that the public-assistance plan is in operation in all parts of the state.
- (b) that there is financial participation by the state (so that the entire local burden is not thrown on counties)
- (c) that the plan is either administered by or supervised by a single state agency.
- (d) that any person whose application for aid is refused has an opportunity for a fair hearing before the state agency, and
- (e) that the plan is efficiently administered.

If Texas should enact legislation to conform to the Social Security Act covering unemployment compensation, aid to the needy blind, and aid to needy dependent children, the Social Security Board will make grants to the state which will affect a large number of dependent children, blind, and unemployed persons in the state. Furthermore, in connection with an unemployment compensation law, the employers of the state will be able to deduct from their federal payroll tax—to the extent of 90 per cent of that tax—the amount of their contributions to the state unemployment compensation fund as provided in the Social Security Act.

The provisions of the Social Security Act which set up these four benefits—public assistance to the aged, to the blind, and to dependent children, and unemployment compensation—are administered by the Social Security Board, which has established a regional office at San Antonio to serve the states of Louisiana, New Mexico and Texas.

Texas is also receiving federal aid under the provisions of the act for the up-building of maternal and child health services, services to crippled children, and other child welfare services, which are administered by the Children's Bureau of the Department of Labor. The state is receiving further aid under the provisions of the Social Security Act for extension of public health services which are administered by the United States Public Health Service and under the provisions for vocational rehabilitation administered by the office of education in the Interior Department.

Sally Uses Palms

Sally Rand, glamorous and captivating dance star at the Fort Worth Frontier Centennial, discarded her famous fans, as a tribute to the fertility of the Rio Grande Valley, and introduced her latest creation, "The Palm Frond Dance," the movements of which depict the progress of the Magic Valley. The new dance has caused as much of a sensation as did Miss Rand's fan and bubble dances.

Westmoorland to Play Sul Ross at Marfa Fair Oct. 10

SAN ANTONIO, Aug. 27.—The Highland Fair at Marfa, official Texas centennial celebration of the Big Bend country, has been chosen the site of the football game to be played October 10 between Coach George A. Harris' Westmoorland Broncs and Sul Ross State Teachers college.

Harris, who disclosed this information recently, is somewhat afraid of the mile-high altitude at Marfa, but thinks his boys will give the teachers a run for their money. The Marfa game should be excellent conditioning for the local Broncs for their tentative contest with the National University of Mexico in Mexico City on November 23.

The only other game ever played between Sul Ross and Westmoorland was a 14-14 deadlock in 1934.

The complete Bronc schedule is as follows:

- September 25, Southwestern University, Georgetown.
- October 2, Victoria Junior College, Victoria.
- October 10, Sul Ross, Marfa.
- October 17, McMurry College, San Antonio.
- October 24, A. & I., Kingsville.
- October 31, Schreiner Institute, undecided.
- November 14, Randolph Field (tentative) San Antonio.
- November 20, Trinity University, undecided.
- November 28, National University of Mexico (tentative) Mexico City.

COUPLE WED IN SMALL BOAT

WEST HARTLEPOOL, Eng. (U.P.)—Miss Majken Carlson and Sven Brandt were married in a motor-boat launch three miles at sea. Because his leaves were too short, the bridegroom summoned the bride from Sweden, walked her to the motor-boat, and married her in international waters.

HAPPY RELIEF FROM PAINFUL BACKACHE

Caused by Tired Kidneys

Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way.

The kidneys are one of Nature's chief ways of taking acids and wastes out of the blood. A healthy person should pass about 3 pints a day and so get rid of more than 3 pounds of waste matter.

If the 15 miles of kidney tubes and filters don't work well, waste stays in the body and may become poisonous. It may start nagging backaches, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Don't let it lay you up.

Ask your druggist for Doan's Pills—used successfully by millions for over 40 years. They give happy relief and will help to flush out the 15 miles of kidney tubes. Get Doan's Pills.

Many Prizes for Person Who Makes Hole-In-One Shot

Winners of the "hole-in-one" tournament at the Country Club Sunday will be computed by measurement of the distance of the shot from the cup. Awards will be golf balls.

But the lucky golfer whose muscular and mental coordination is such that he actually makes the hole in one and sinks the ball in the cup will be the recipient of other prizes.

The following list of prizes for making the hole in one has been listed. New Fall Dobbs hat, Addison Wadley; Seth Thomas desk or boudoir clock, Dolle Roettger; Manhattan shirt to a man or Womans dress if the winner is feminine, J. C. Smith; \$1.50 barber job, M. D. "Jack" Johnson. Liano Barber shop; case of Blatz beer, W. J. Russell; choice of carton of cigarettes or box of cigars, Frank Fagg, Petroleum pharmacy.

Women may enter the contest if they wish.

Each entrant will make three shots at the new No. 3 110-yard hole.

The entrance fee will be 25 cents.

Big Spring Arena Much Improved by Additional Lights

BIG SPRING, Aug. 27 (Sp.)—Practice roping on the rodeo arena Tuesday evening proved the lighting system to be much improved over last season. Riders were able to follow movements of calves with greater ease and the action was clearly visible from every section of the grandstand and bleachers.

A hazard which troubled riders last year has been eliminated this season by painting poles and the stock pens at the east end of the field white. The red paint on the pens last year made it hard for performers to know when they were almost on the pens during night sessions.

An announcement Tuesday that school children would be admitted free to the rodeo on the afternoon of Sept. 9 was corrected today by rodeo officials. School children under 12 years of age will be admitted free, they declared.

Growing number of inquiries from rodeo performers from over a wide area have indicated a large field of talented participants in the third annual show here. Professionals will be permitted to rope this year but must carry a time penalty.

It has been estimated that the annual loss through soil erosion in the United States is \$400,000,000.

Firm Will Carry Stock of Paints

Announcement is being made today in this paper of the opening of a wholesale and retail paint, varnish, and enamel sale service at Kyle Sign Service, 115 E. Wall. Formal opening will be Friday.

A complete stock of paints, varnishes, and enamels representing three lines of these products will be carried, H. C. Kyle said today. A specialty will be delivery service on any amount of paint purchased.

The sign painting service, established two years ago, will be continued.

German Ship And Foreign Pilot Here

A German ship piloted by Lieut. Papanas, foreign flier, landed at Sloan Field this morning, leaving at 12:40 o'clock for El Paso. The ship was similar in make, airport staff members reported, to American ships of small size.

The pilot spoke English imperfectly and details of his mission were not learned.

A C-24, flown by Lieut. Wilson from Dallas to El Paso also landed. The plane carried one passenger.

Pilot King, in a Stinson, carrying two passengers, completed the trio of landings recorded for the morning.

LOGGERS USE TRACTORS

SACRAMENTO, Cal. (U.P.)—An old-time standby of logging camps—the donkey engine—apparently is doomed to pass out of existence. Tractors have been substituted in most of the far western logging areas in recent years.

Rain does not clear the air of impurities, according to tests made in 14 American industrial cities by the U. S. Public Health Service.

Save Handbills On Sale of Lots During Early Days of Towns.

AUSTIN, Aug. 27.—One case in the exhibit hall of the division of history of the University Centennial Exposition contains various size handbills announcing the sale of lots in early Texas towns and maps showing the planned layouts of various towns. There is one map of Austin as it was supposed to look in 1887.

One of the most interesting documents in the case is an announcement of the sale of lots in Marble Falls in 1887. The handbill states that great advantages will be received by the person who buys lots in this growing city. In the future, it reads, a university to be called Alliance University, to be operated under a new plan is to be started. Street cars were promised soon. The location of the Spanish Gold Mine near the town makes land an advantageous purchase, the circular concluded.
