RECORD UPHELD BY ROOSEVELT IN CHARLOTTE TALK

Seven-State Rally Is Held Thursday By Party

'UPTURN' IS HERE

Cites Condition Of Business Over Country

WASHINGTON, Sept. 11. (P)—President Roosevelt today advocated advance preparation for a future day, when, through conversion and application of energy, "half the population can provide basic machine-made products necessary for the welfare of all."

The address was made before the third world power conference with representatives of 52 nations in attendance. The president said "we can conceive this would mean that people between 20 and 50 years of age would be able to produce basic commodities for themselves, also for others below and above their ages."

CHARLOTTE, N. C. Sept. 11. (P)

President Roosevelt Thursday told a seven-state "Green Pastures" rally here that "better conditions" exist on the farm and in the factory and home and that "these successful ends" had been attained without invading states' rights.

Facing a typical Southern throng in the WPA-constructed Municipal Stadium and adopting the "Green Pastures" and "Still Waters" of the 23rd Psalm as his text, the Chief Executive declared:

"I speak to you today as common sense American men and women. You will agree that from the material aspect, this nation's consuming power has been rapidly restored."

"I trust that you will likewise agree that better conditions on the farms, in the factories and in the homes of America are leading us to the spiritual figure of the Psalmist—green pastures and still waters."

The president did not mention the Supreme Court in his reference to states' rights. He did say, however, that "most thinking people" believed the NRA had accomplished as much in restoring prosperity as any federal law in the past century, and that his farm program, by controlling and reducing the surplus, had brought the South 12-cent cotton.

He said he was convinced before he entered the White House that farmers had to make a "decent living out of their main crops" before soil erosion control and flood prevention could start. He said:

"Today because of better prices for farm commodities, we are actually and actively engaged in taking these second steps."

"Not only have we aroused a public understanding and approval of the need of ending soil erosion and water run-off, but we have enabled the public, through a practical prosperity, to begin to pay their debts, to paint their homes, to buy farm tools and automobiles, to send more boys and girls through school, to college, to put some money in the bank and, incidentally, to know for the first time that the money in the bank is safe."

FIVE LOSE LIVES WHEN TRAIN CARS ARE DERAILED

Other Transients Feared Dead In Wreckage

ST. CHARLES, Mo., Sept. 11. (P)—Five men were killed when 18 freight and oil cars were derailed and destroyed by fire last night southwest of here.

Rescuers expressed fear that several other transients had perished. One of the dead was identified as Walter Bragg, Columbus, Ohio.

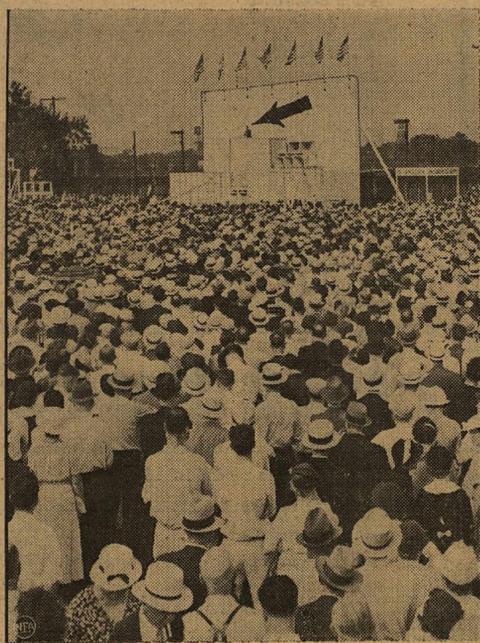

Peach Quarantine In State Foreseen

The public hearing to consider the advisability of quarantining the states of California, Colorado, New Mexico, Texas and Utah on account of the peach mosaic disease announced by the U. S. Department of Agriculture, to be held at Washington, D. C., on September 14, is being changed at the request of peach tree nurserymen and peach producers to some point nearer to the infected areas. To give time for the change to be duly advertised so that all interested parties may be advised, the date of this hearing is postponed one week and will be held on September 21 at Albuquerque, N. M. The meeting will be called at 10:00 a. m. in the chamber of commerce auditorium at 319 North Fourth Street.

AT CONVENTION

County Judge E. H. Barron today attended the convention of county judges being held in Big Spring.

As Coughlin Denied 'Crack Down'

A mere speck of clerical black outlined against the speaker's platform, the Rev. Charles E. Coughlin is indicated by the arrow as he addressed an estimated 100,000 persons in Chicago's Riverview Park. The radio priest labeled as "Infernal lies" Vatican reports of his being criticized by the Holy See.

OIL RISES 500 FEET IN 11 1-2 HOURS IN NORTHWEST DAWSON COUNTY PROSPECT

Ray Albaugh No. 1 Robinson Test Swabbed And Bailed Nearly To Total Depth

BY FRANK GARDNER
After a shut-down of several days, Dawson county's prospective oil opener, Ray Albaugh et al. No. 1 Robinson, leaped back into the news with the report that oil had risen in the hole 500 feet in 11 1/2 hours. From Wednesday night up to one o'clock yesterday afternoon operators swabbed and bailed down the column of fluid, the 2,300 feet in the hole at the start of operations being lowered nearly to bottom. The amount of water showing up with the oil is very small, even when the bailer is run to bottom. The well was allowed to stand from one p. m. Thursday until 12:30 a. m. today, at which time oil was found to have risen 500 feet. Operators are bailing to test again today.

The amount of oil now showing in the Dawson well indicates definitely that it has a chance to make a commercial producer. The small amount of water is believed to be either that which penetrated the formation during the long period the well stood idle or to be coming from behind the 5 1/2-inch pipe cemented at 4,768; it is not thought bottom-hole formation water.

While bottomed at 4,860, the Albaugh test was treated with 1,000 gallons of acid without result, and the oil now showing was encountered by deepening to 5,964, the present total depth. If further testing ascertains that water is exhausting, the well will probably be carried deeper.

The Dawson prospect is located in the northwest part of the county in section 46, block M. E. L. R. R. survey and has, by reason of its situation in "wildcat" territory, occasioned more interest by its performance than any test drilled in West Texas in recent years.

Tubb Well Deepened
Humble No. 1 Tubb, western Crane deep Permian test, reported no apparent increase in deepening from 4,373 to 4,410 feet. When bottomed at the shallower depth, it made a natural flow of 543 barrels in 12 hours through 3/4-inch choke on tubing. Operators will probably treat with acid. Location is 440 feet out of the southwest corner of section 10, block B-27, public school land.

Gulf No. 2 Tubb, record well for the area, remains shut in for storage after flowing 1,098 barrels in three hours. It was drilled to 4,391 feet and treated with 5,000 gallons of acid.

Gulf No. 2 McKnight, which had a slight show of oil at 3,125, encountered a gas increase to 300,000 cubic feet at 3,170, and is now drilling at 3,191 feet in hard brown lime.

Gulf No. 2 Waddell, Ordovician test in the area, is drilling below 5,937 feet in hard gray lime.
Flows 660 Barrels
In the Keyes pool of Winkler, Sinclair-Prairie No. B-6 Walton, section 24, block 26, public school land, flowed 660 barrels in 13 hours after shooting with 200 quarts from 2,845 to 2,961, the total depth.
In the southeast corner of Winkler county, Read & Duff No. 1 Sealey, "trend play" deep Permian test, set 10-inch casing at 1,500 feet and is drilling ahead. Contract depth is 4,000 feet. Location is in the northwest corner of section 8, block A, G. & M. M. B. & A. survey.

400 AIRPLANES ADD ARMY BACKGROUND TO NAZI CAMPAIGN

Demonstrations To Be Given Monday For Dictator

SOVIET FLAYED

Bolshevism Rapped By Agriculture Minister

NURNBERG, Germany, Sept. 11. (P)—Four hundred warplanes, preparing for demonstrations Monday, gave military background today to Nazi Germany's anti-bolshevist campaign launched at the national convention here, a crusade which observers believe is approaching an announcement on practical steps against bolshevism.

At congress itself, Hermann Reischle, Nazi agricultural leader, contrasted "ruthless exploitation of the soviet Russian peasants for the benefit of a clique of Jewish parasites" with what he said were Chancellor Hitler's constructive efforts on behalf of the German farmers.

Dr. Paul Joseph Goebbels, propaganda minister, characterized bolshevism as "the most crass terror and master of the world has ever seen. It is a dictatorship of the least worthy; it comes to power through lies and maintains itself in power through force. Almost exclusively, Jews sit in the soviet government."

TEXAN KIDNAPED, LETTER TO SPOUSE NEAR LUFKIN SAYS

\$1500 Ransom Asked By Men Holding Farmer

LUFKIN, Sept. 11. (P)—Mrs. W. G. Funderbuck, wife of a prominent farmer living west of Lufkin received a letter Thursday which said her husband was being held by two men who demanded \$1,500 for his release.

Mrs. Funderbuck said the letter was in her husband's handwriting. It was postmarked, Shreveport, La. The missive was turned over to Lufkin officers, who began an investigation. Mrs. Funderbuck said her husband left for Lufkin at 7:30 o'clock Monday morning and planned to return home by noon.

Officers said she reported his disappearance yesterday.

The letter read: "Dear wife, I was knocked in the head by two disguised men. What little money I had was taken off of me. They tore my clothes off. They say they are going to have \$1,500 before they let me go. I have had nothing to eat since I left home. I am about to starve to death. They say they are going to take me to Texarkana tonight. I don't know if I will live to get there or not."

"Your husband—but they won't let me sign my name. Ransom," Ranger Captain Hardy Purvis was called tonight to aid local officers in their investigation. Purvis said he had not yet notified federal authorities and would not do so pending further investigation.

Argentine Polo Ponies at Auction

G. H. Coyle, former Midland polo pony dealer and trainer, has written Jay H. Floyd, sending data on the auction sale of Argentine International polo horses to be conducted at Michel Field, Long Island, N. Y., soon.

The horses are being sold under the management of William Post & Son and the property of Luis Duggan, Enrique Alberdi, Diego Cavanagh, J. D. Nelson, Roberto Cavanagh, Manuel Andrada and Andres Gazzotti.

The horses include outstanding geldings and mares and, according to Coyle, play exceptionally well.

MAN IS SOUGHT

Relatives of John Beck, Gladeview, were in Midland today seeking the man to inform him of the severe illness of his daughter in Gladeview. Beck reportedly left the East Texas town to seek work in the oil fields of West Texas and it is believed that he is somewhere in this vicinity.

SOVIET IRRIGATION PLAN

MOSCOW (U.P.)—A vast irrigation plan whereunder the barren steppes of the Crimea will be irrigated from the Dnieper has been approved by the commissariat of agriculture. Some 320,000 hectares will be flooded.

TEACH INSPECTION

BERKELEY, Cal. (U.P.)—The first large scale attempt in the nation to train men for such jobs as meat inspection and rabies and parrot fever control has just been undertaken by the University of California.

2,000 Government Troops Reported Slain By Mallorca Island Rebels

'You're In!' Says 'The Sage of Potato Hill'

The race is as good as over and Governor Landon is "in", Ed Howe was telling the Republican presidential nominee when the two famous Kansans met at Howe's home in Atchison, as shown here. Howe, left, became nationally famous under the name of "The Sage of Potato Hill" because of his pithy comments on government and personal morality.

PRESSURE ON EAST TEXAS WELLS SAID TO BE DECLINING

Spacing Question Is Postponed By R. R. Comm.

AUSTIN, Sept. 11. (P)—Engineers reported at a monthly hearing of the railroad commission today that bottom-hole pressures in the East Texas oil field had declined on an average of three and one-half pounds per square inch in the last month.

Testimony on well-spacing regulations was postponed because data was not completed.

A report showed that pressure on September 10 had dropped to 1,183 pounds. The commission reported that 6,002 wells had been completed in the first eight months of the year.

FIRE ABOARD SHIP SAID DELIBERATE

Short Circuit Used To Start Flames On U. S. Boat

BROOKLYN, Sept. 11. (P)—Captain C. A. Dunn, manager of the Brooklyn navy yard, said today that a small fire discovered aboard the U. S. Indianapolis August 25 was "undoubtedly deliberate" but that "none is under suspicion at the present time."

Dunn said that the fire was due to a short circuit in the auxiliary power cables and that he found two nails in one circuit and one in another.

Australia Lets Down Barriers to Immigrants

CANBERRA, (U.P.)—The depression has been sufficiently overcome in Australia to permit lowering of barriers that were raised originally to prevent too great an influx of alien job seekers.

According to official sources, both economic conditions and employment on the island are normal.

With the lowering of the temporary barriers that had been raised, all aliens who desire to enter the island for permanent residence will be permitted to do so when the necessary permit is obtained.

Under the classifications governing the latter, preference will be accorded dependent relatives of persons already residing in Australia subject to a satisfactory guarantee of maintenance from the latter; other aliens nominated and guaranteed by persons in Australia; and who have assured work or 2500 landing money; aliens without guarantors in Australia who will engage in trades and occupations and who have \$1,000 landing money.

WORK CONNECTED WITH SURVEY OF ALL UNIVERSITY LANDS NEAR COMPLETION

AUSTIN, Texas, Sept. 11.—All of the field work connected with the survey of the 2,000,000 acres of land owned by The University of Texas will be completed some time this month, with the possible exception of a tract of 11,820 acres in El Paso county. It has not yet been determined by the Board of Regents whether the El Paso lands shall be embraced in the present survey, due to the fact that during the last few years there has been no demand for them for grazing purposes.

This reserve, as it should probably be designated, is the largest undertaking of its kind since the solid body of 3,000,000 acres of land in Northwest Texas, originally granted the Capitol Syndicate of Chicago in exchange for the construction of the State Capitol at Austin, was reserved some years ago. The Capitol Syndicate land reserve resulted in the discovery of an excess of 80,000 acres which reverted to the State.

The original survey of 2,000,000 acres of endowment lands of the University was necessarily roughly made due to the remoteness of the several tracts and the inadequacies of field equipment. It will not be determined for several months, perhaps, whether or not there were excesses or deficiencies in the original surveys. They will be shown when the field notes and other data of the survey have been worked out under the direction of land department of the University.

The reserve of these lands was started in 1929. In some respects it has been a stupendous job, due in some instances to the rough region in which some of the tracts were situated. The work is in charge of Frank Friend, special surveyor of the university, with headquarters at San Angelo. The surveying crews have just finished running the lines and placing the boundary monuments on the university's tract of 184,960 acres in Pecos county and has begun work on its 46,980-acre tract in Culberson county. The erection of boundary monuments on more than 2,000 square miles of university lands in Schleicher, Irion, Reagan, Crockett, Upton, Terrell and Pecos counties was recently completed. These permanent markers were designed by Mr. Friend. They are constructed on concrete and have a length of four feet. Embedded in the top of each monument is a brass plate representing four sections of land, each of 640 acres, with the numbers of the blocks and sections stenciled thereon.

The university lands, with the amount of its holdings in the respective counties of West Texas, are as follows: Andrews, 294,400 acres; Crane, 63,680 acres; Crockett, 356,450 acres; Ector, 6,600 acres; El Paso, 11,820 acres; Hudspeth, 453,120 acres; Culberson, 46,080 acres; Irion, 22,720 acres; Loving, 22,400 acres; Schleicher, 57,600 acres; Reagan, 194,560 acres; Upton, 77,440 acres; Ward, 80,640 acres; Winkler, 53,120 acres; and Martin, 14,080 acres.

While the book value of the 2,000,000 acres is placed at \$10,000,000 actual and potential values are matters that would be difficult to estimate. This is due in part to lack of positive knowledge as to the oil upon the lands. The necessity of a

TWO DIE AS PLANE CRASHES IN OHIO

Attempting To Climb Too Fast Proves Fatal To Californians

BELLAIRE, Ohio, Sept. 11. (P)—Fred A. Herit, 27, Ballejo, California, and William G. Fournier, 22, San Diego, California, died today in a plane crash shortly after taking off from the airport here.

The ship went into a tail spin trying to climb too fast. Fournier was instantly killed and Herit died on the way to a hospital.

ONE-DAY REPRIEVE GIVEN HALL TODAY

Washington Convict To Die Tonight For Slayings

WALLA WALLA, Wash. Sept. 11. (P)—Leo Bernard Hall, condemned to hang in the sextuple killing at Erland Point in 1934, was granted 21 hours to live today by Warden J. M. McCauley of the state penitentiary so that his mother might see him before the execution. It was the second delay for Hall.

LANDS AT AIRPORT
Lieutenant Haugen, piloting an O-40 plane, landed at the airport today. He was en route from Brooks Field to El Paso.

OVIEDO BOMBED BY LOYALISTS; MANY ALLEGED VICTIMS

Claims Are Denied By Insurgents In The City

TENSION GROWS

France Studying New Agitation In Its Colonies

By Associated Press
The rebel Junta today announced that 2,000 government troops had been slaughtered in an attack on the island of Mallorca. At the same time fascist rebels and socialist government sources reported a new engagement at the besieged rebel city of Oviedo where, Madrid announced, administrative buildings and a convent had been fired by government bombers as rebels tried in vain to flee from the city.

Rebels, however, said that the Oviedo garrison had driven the government attackers back, taking many prisoners.

International worries over whether or not the Spanish war will stay where it belongs were reflected at a conference of administrators of French territories in northern Africa at Paris, a colonial authorities saying they suspected a net work of native runners were spreading secret agitation connected with Spanish troubles among Mohammedans.

A heavy artillery bombardment Thursday night shattered the 48-hour unofficial armistice on the San Sebastian front.

Rebel war lords, it was understood, insisted on unconditional surrender of the city and when this was refused, renewed their bombardment. Previous truce negotiations had failed on the same point the demands of the government defenders that they be granted amnesty if they surrendered.

TRUCKMEN ATTEND ODESSA MEETING

Organization President Honored By West Texas Men

The truck and bus operators from all parts of West Texas gathered in Odessa, Sept. 10, to honor Henry English of Lufkin, newly elected president of Texas Motor Transportation Association.

The association's county chapter in Midland, Ector, Ward, Howard, Loving and Winkler counties sponsored this district assembly. Every truck and bus operator in West Texas was invited to take part in the celebration.

Outstanding speakers who appeared on the program were Tilden L. Childs, district director of the Bureau of Motor Carriers, Interstate Commerce Commission; Mark Marshall, director of the Motor Transportation Division of the Texas Railroad Commission; President English and B. F. Johnson, manager of Texas Motor Transportation Association. The afternoon session was also honored with a speech from Senator-elect H. L. Winfield of Ft. Stockton.

A big barbecue was also enjoyed in the evening by more than 300 Permian Basin truckmen, supply men, oil operators and their wives.

RETURNED HOME

Mr. and Mrs. Charles Edwards, Jr., have returned to their home at Lupton. They have been the house guests of Mr. and Mrs. J. R. Harrison, and Mrs. Charles Edwards.

Eddie Blanche Cowden Becomes Bride of Odessa Oil Man

Is Wedded to Billy Smith, Son of Well Known Cattleman, Tuesday at Carlsbad

Miss Eddie Blanche Cowden, the daughter of Mrs. Maide Cowden, and Mr. Billy Smith, son of Mr. and Mrs. Cal Smith, of Odessa, were married Wednesday morning in the Methodist-Episcopal church of Carlsbad, N. M. The Rev. H. W. Jordan performed the single ring ceremony. Mrs. Smith who is a member of a prominent West Texas family, was graduated from the Midland High School in 1935. She was one of the most popular students in the high school, receiving and attaining some of the highest honors of the school. She was an outstanding member of the One Act Play cast for three years, and associate editor of the Catoico, school annual, and of the school news staff. She was also elected "Queen of the Catoico", and ranked high in scholastic ability throughout her high school career. She attended school at Texas State College for Women at Denton, Central City Commercial college at Waco.

Mr. Smith, who is also a member of a well known West Texas family, was graduated from the Odessa high school, where he was an outstanding member of the basketball team. He is a student at Texas Technological College at Lubbock, where he is a member of the College Club. He has been associated with the Gulf Oil Company in Odessa during the summer.

Mr. and Mrs. Smith will live in Lubbock where Mr. Smith will continue going to school.

ANNOUNCEMENT
Mrs. J. B. Leonard announces that her classes in piano and voice will open about the middle of October or the first of November at her home, 1296 West Indiana. She holds the Masters Degree in Piano, has had 20 years teaching experience, has studied with the leading teachers of Texas and has had special work in the University of Kansas. For further information phone 367.

Bridge-Luncheon In Gay Spanish Theme Honors Bien Amigos

The Bien Amigos club was entertained at a bridge-luncheon by Mrs. F. Ed F. Winger at her residence, 911 W Louisiana, at ten o'clock Thursday morning.

A gay and vivid Spanish theme predominated in the room decorations, table appointments, and in the two course luncheon plate served to the guests.

Mrs. Joe Pyron won high, Mrs. C. A. Mix table cut, Mrs. Carl Mitchell, table cut, and Mrs. James H. Chapple, table cut.

The members who attended were: Mmes. Thomas B. Flood, Preston Bridgewater, Joe Ballanfont, Joe D. Chambers, J. M. Haygood, Carl Mitchell, C. A. Mix, Joe Pyron, John House, James H. Chapple, S. E. Weaver and the hostess, Mrs. D. C. Hensell was a guest.

Ruth Class Extends Invitation To Girls

The Ruth class of the First Baptist church (a Business Girls class) is entertaining with a tea at the home of their teacher, Mrs. J. M. White, 702 West Storey, Saturday afternoon from four to six to welcome back their old members who have been away for the summer. All members, prospective members and friends of the class are cordially invited to attend.

Announcement

Saturday
Story Hour will be held at the Junior Library at ten o'clock.

Marries Wednesday

Miss Eddie Blanche Cowden, member of well known West Texas ranch family, who married Billy Smith, son of Cal Smith of Odessa, in Carlsbad, New Mexico, Wednesday.

Sauces Add Zest to Vegetable Platter; Colorful Foods Tempt Eye and Appetite

By NEA Service
There's no denying that foods that are colorful and attractively served spur the appetite. Vegetables top the list of colorful foods and just now, with so many to choose from, it's no trick at all to arrange a vegetable dinner that for eye-appeal is absolutely unrivaled.

Imagine a platter piled with luscious broccoli, mushrooms, green peas, brilliant diced beets, string beans and corn saute with a snowy head of cauliflower in the center. They should all, of course, be cooked to exactly the proper degree, seasoned expertly, and served with a zesty sauce. Here, surely, is a meal to please even the most discriminating of diners!

Since the sauce is important, you can, if you wish, serve three different kinds: French dressing, Hollandaise sauce and Polonaise sauce are all delicious with vegetables. The recipe for Hollandaise sauce was published in this column not long ago. Of course you know how to make French dressing, but Polonaise sauce may be new to you.

Polonaise Sauce
One-fourth pound sweet butter, 1 hard-cooked egg, 1-2 cup bread crumbs, 1-2 teaspoon salt, few grains pepper, 1 teaspoon chopped parsley. One-fourth pound of butter 1/2 cup. If you can't get sweet butter, wash salted butter to remove the salt, though you won't have quite the same results because sweet butter is made with sweet cream.

Melt butter in flat sauce pan and saute until brown. Add bread crumbs and mix thoroughly. Saute until crumbs are brown. Add finely chopped egg with seasoning, heat thoroughly and sprinkle parsley over top. Serve at once.
Mix chopped green pepper and pimento with corn cut from cob and

saute in butter. Season with salt and pepper and arrange on the platter between piles of asparagus and green beans.

A fruit salad served in banana boats is suggested with this dinner. For dessert, hot chocolate cup cakes are delicious with whipped cream chilled almost to freezing as a garnish.

Fruit Salad in Banana Boats
Two bananas, 1/2 cup seeded white grapes, 1/2 cup diced pineapple, 1/2 cup diced peaches, blackberries.

Cut bananas in half lengthwise without peeling. Take out the pulp in dice and drop in lemon juice. Cut grapes in halves and take out seeds. Drain bananas from lemon juice and mix with other fruit. Fill banana boats and place on a bed of lettuce. Top with salad dressing and garnish with blackberries.

PLANK ROAD UNCOVERED

OSHKOSH, Wis. (U.P.)—Past eras in the progress of transportation were recalled vividly here when excavation for a sewage project uncovered remnants of dirt road, a log and plank highway, sand and wood blocks, and street car tracks. Motorized traffic has replaced virtually all of the vehicles which frequented the excavated highways.

CITIES FUSS OVER GARBAGE

SAN FRANCISCO (U.P.)—A new international situation has developed on the Pacific Coast. San Francisco blames Oakland for the fact that all of its garbage is washed over to San Francisco's beach. Oakland says it is the fault of the Japanese current. The Japanese, it is understood, refuse to accept any responsibility.

After the middle of the 14th century, artificially waved hair was deemed a vanity and frowned upon by church dignitaries, making it practically taboo.

Add Calories To Subtract Poundage

BY ALICIA HART
NEA Service Staff Writer
Experts agree that a woman needs about 2200 calories of food per day. Naturally, if she wishes to lose weight, she must see that her daily diet does not furnish this number of calories.
When you decide to diet, don't go in for strange, starvation menus. They are likely to make you lose not only weight, but your health as well. You can eat the same type of food that you are used to, but count the calories in one portion of each and then cut down the portion to conform with the number of calories you intend to have per day while on the diet.
Starchy, sweet foods are rich in calories. If you include many of these, in no time at all you will use up the calories you have allotted yourself and will still be hungry. It is better to eat bulky, low-caloried foods during the dieting period.
For instance, 1 roll, 1 thick slice of bread, 4 crackers, 1-2 cups of dry cereal, 2 small cookies and 1-4 piece of pie contain 100 calories each. If you have limited yourself to 1600 calories per day (a good figure for reducers to remember), and you go ahead and eat two pieces of bread and one of pie, you have used up 3000 calories and will probably still be hungry.
On the other hand if you eat 1 broiled lamb chop (100 calories), 2 ears of green corn (100 calories) and 2 large tomatoes (100 calories), you will be within the 300 mark and will also have had a satisfactory meal.
Three-quarters of a glass of milk, 1-2 or a large grapefruit, 2 apples, 3 reaches, 1 eight-ounce glass of orange juice, 1-2 cup of rice pudding and 21 stalks of asparagus are other health-giving and satisfying dishes that contain only 100 calories each. Incidentally, you might keep in mind that 1-4 cup of ice cream contains 100. And 225 calories are contained in one pint of beer.

HELPING YOUTHS TO CHOOSE A COURSE

Midland high school's new "diversified occupational" course should go a long way to train the boys and girls who cannot attend college in work which should fit them for becoming useful in chosen vocations.

Through the new course, the student selects the occupation in which he is interested and desires training. The school's coordinator aids him in finding half-time employment, without remuneration, in such industry, the other half of his course being in school classes giving information related to that occupation.

Thus he is doubly trained, part at the actual occupation, the other part in technical subjects which more fully acquaint him with the possibilities of that occupation. He has more than "hard knock" schooling and he has more than "book" schooling. He gets both, systematically coordinated.

One big obstacle to the success of the venture is the selection of a vocation by the student. His inexperience with various industries or professions does not fit him for selecting his course. Often what looks to him as an attractive occupation may turn out to be one in which he is not interested. Statistics show that fifty per cent of the college trained men are "mis-fits", departing later from the work in which they have been educated.

Business men, professional men and industrial leaders may aid the youth of their communities greatly by disseminating information concerning the various vocations, enabling the boys and girls to determine what they like and for what they are fitted. To attempt to select a vocation for a youth may be disastrous. To guide him through acquainting him with various vocations will be beneficial. Business and professional men should lose no opportunity to give youths the benefit of their knowledge of their own vocations.

BEHIND THE SCENES IN WASHINGTON

By RODNEY DUTCHER Reporter-Telegram Washington Correspondent

NEW YORK, Sept. 11.—The Wall Street industrial-financial community is still lined up almost solidly against the re-election of Franklin D. Roosevelt, but with certain exceptions, a few mental reservations and a fairly general tendency to fear the worst.

Governor Landon is not a hero in the Wall Street area. That may be partly because of a feeling that he hasn't yet fully demonstrated his capacity to straighten out the nation's affairs. But it is certainly in part due to the fact that he has refused to take an outright conservative position and insists on demonstrating certain liberal leanings.

Landon conspicuously refused, on his eastern trip, to rub noses with Old Guard leaders in New York state with whom Wall Street is on excellent terms. His declaration of repudiation of the undivided corporate surplus tax appealed to many financiers and big business men and his previous stand on labor was popular among conservatives. But there are other factors which tend to make him somewhat less than an idol.

The president of one of the largest corporations in America went west awhile ago laden with advice to see Landon. He came back reporting that no one in the Landon camp at Topeka was in the least interested in his ideas, although some interest was displayed in the amount of money he might contribute.

Contributions Slowed Up Reports from Chicago that contributions, especially from New York aren't coming in to the Republican treasury quite as rapidly as anticipated may reflect the fact that Wall Street is nowhere as sure

Roosevelt can be beaten as it was a few months ago.

One hears of wealthy men who practically had pen in hand and then, hearing reports through private sources of a muddle at Republican national headquarters, put their check books back, pending more encouraging assurances. Chairman John D. M. Hamilton is reported to be straightening out that situation.

In any event everyone who knows anything about it seems to be sure the G. O. P. will have far more campaign money to spend than will the Democrats.

Congress Another Worry Although the bitterness which the upper and near-upper crust in New York feels toward Roosevelt hasn't abated and shouldn't be minimized, one no longer hears many complaints of what to expect under Roosevelt.

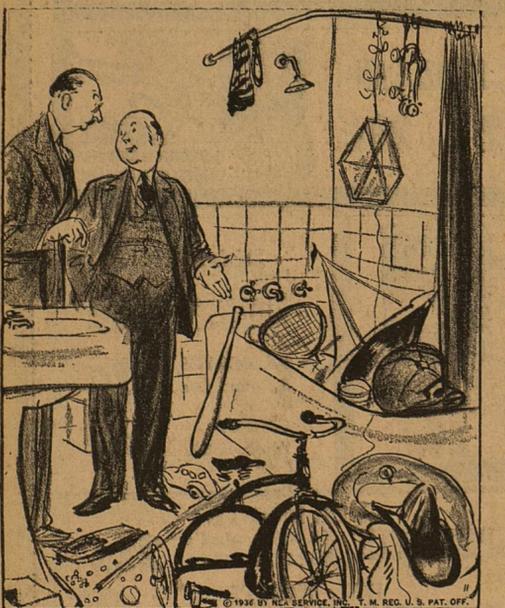

Whether the president's assurance that new taxes won't be sought if he is still in the White House after December have had much to do with that is doubtful.

"Big Business" operators have assimilated the fact that the next Congress will be Democratic, certainly in the Senate and by all odds of probability in the House as well. And that still leaves "uncertainty" as an element to face, regardless of who's elected.

Without honing into the issues between Wall Street and the president, it may be said that some of the relatively big figures in downtown New York have some lurid personal testimonials of experiences in Washington.

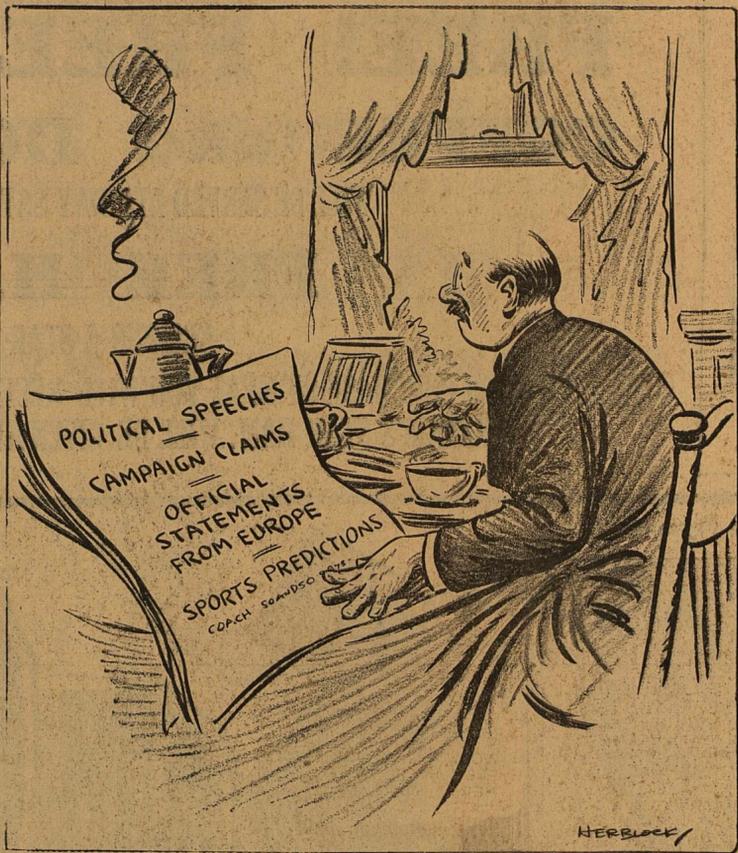

Some of them have been pushed around by underlings—and very of-

Side Glances by Clark

"And this will be your bathroom—which you will share with junior."

'Pass The Salt, Please'

HERBLOCK

ten to the wrong places—in a manner different from anything to which they are accustomed.

Pained by Prestige Loss

Nevertheless, some of the boys a couple of steps removed from the top are willing to admit that what really bites the captains of Wall Street and industry hardest is the fact that they have lost rather than regained prestige and power under the New Deal.

As an erstwhile "ruling class," they have been challenged by Roosevelt and his followers, as well as by Congress.

New York may not now be ruled from Washington, but Washington certainly is not ruled from New York and New York can no longer get whatever it wants from Washington.

Dividend Flood if F. R. Wins

The Street, meanwhile, is anticipating a big outburst of dividend payments in December if Roosevelt is re-elected. Some estimates say corporate disbursements might rise as high as \$4,000,000,000 for the year nearly two-thirds of an anticipated

No. 2868 THE STATE OF TEXAS

To the sheriff or any constable of Midland county—Greeting: You are hereby commanded to summon C. C. Hayes and, if dead, the unknown heirs of C. C. Hayes, deceased, their heirs and legal representatives, and Mrs. C. C. Hayes, deceased, their heirs and legal representatives, to appear at the next regular term of the district court of Midland county, Texas, to be held at the courthouse thereof in the city of Midland on the 1st Monday in October, 1936, being the 5th day of October, 1936, then and there to answer a petition filed in said court on the 4th day of September, 1936, the file number of which is 2868, in which suit H. H. Conger and wife, Ruth Conger, are plaintiffs and C. C. Hayes, and, if dead, the unknown heirs of C. C. Hayes, deceased, their heirs and legal representatives, and Mrs. C. C. Hayes, deceased, their heirs and legal representatives, and Mary E. Bivins, a feme sole, Miles G. Bivins, and Julian L. Bivins, are defendants, the cause of action being as follows:

Plaintiffs sue in trespass to try title to recover the title and possession of all lots Nos. One (1) and two (2), in block forty-three (43), West End Addition to the town of Midland, in Midland county, Texas, according to the map or plat of said addition of record in volume 17, pages 614-615, Deed Records of Midland county, Texas, together with damages, costs of suit and such other relief to which they may show themselves entitled.

You are commanded to so summon the defendants, and to serve this citation by making publication of such citation once in each week for four consecutive weeks previous to the return day hereof, in a newspaper published in your county.

Herein fail not, but have you before said court on the first day of the next term thereof this writ with your return thereon showing how you have executed the same.

Witness, Nettie C. Romer, Clerk of the District Court of Midland county, Texas, Issued this the 4th day of September, 1936.

Count Is Cowboy In 'My American Wife'

The role of foreign Count who wants to swap a title as long as him arm for the nickname "Spitfire," and who discards his braid and spangles in favor of chaps and a ten-gallon hat, is given Francis Lederer in the romantic Paramount picture, "My American Wife," which will be showing at the Yuca today and tomorrow.

"My American Wife" co-stars the charming star of "One Rainy Afternoon" with Ann Southern, and carries a list of supporting players drawn from the top names of seasoned troupers. Fred Stone appears as an Arizona pioneer, grandfather of the girl Lederer marries who resents the title and gentlemanly bearing of his new grandson-in-law but finally is forced to admire him.

Billie Burke is cast as the social-minded mother of Lederer's American wife; Ernest Cossart, peerless "gentleman's gentleman" of films, is the Count's valet, and Grant Mitchell appears as one of the banker sons of the pioneer.

Directed by Robert Young, "My American Wife," is kept moving at a light, rapid pace, suited to the romantic nature of its plot and principals. Lederer, through the story's development, is given a chance to demonstrate his screen charm to the utmost.

No. 2892 THE STATE OF TEXAS To the sheriff or any constable of Midland county—Greeting: You are hereby commanded to summon H. H. Taylor and, if dead, the unknown heirs of H. H. Taylor, deceased, their heirs and legal representatives, and J. E. Taylor, and, if dead, the unknown heirs of J. E. Taylor, deceased, their heirs and legal representatives, to appear at the next regular term of the district court of Midland county, Texas, to be held at the courthouse thereof in the city of Midland on the 1st Monday in October, 1936, being the 5th day of October, 1936, then and there to answer a petition filed in said court on the 4th day of September, 1936, the file number of which is 2892, in which suit H. H. Taylor and wife, Ruth Taylor, are plaintiffs and H. H. Taylor, and, if dead, the unknown heirs of H. H. Taylor, deceased, their heirs and legal representatives, and J. E. Taylor, and, if dead, the unknown heirs of J. E. Taylor, deceased, their heirs and legal representatives, are defendants, the cause of action being as follows:

Plaintiff sues in trespass to try title to recover the title and possession of all lots 4, 5, 6, 7, 8 and 9, in block 31 West End Addition to the town of Midland, Midland county, Texas, said lots constituting the west one-half (W 1/2) of said block, together with damages, costs of suit and such other relief, either at law or in equity, to which plaintiff may show herself entitled.

You are commanded to summon the defendants, and to serve this citation by making publication of such citation once in each week for four consecutive weeks previous to the return day hereof, in a newspaper published in your county.

Herein fail not, but have you before said court on the first day of the next term thereof this writ with your return thereon showing how you have executed the same.

Raft and Barrymore Co-Stars In Picture

George Raft and Dolores Costello Barrymore are co-starred in "Yours for the Asking," comedy-romance of a gambler who decides to learn the ways of society, coming Sunday and Monday and Tuesday to the Ritz Theater. The picture boasts a supporting cast of such screen favorites as Ida Lupino, Reginald Owen, James Gleason, Lynne Overman, Richard "Skeets" Gallagher and Edgar Kennedy.

Gleason, Overman and Kennedy appear as the right-hand men of Raft in his gambling operations. The star meets Miss Barrymore, a society girl, decides to make his gambling place "an upper-crust layout," and gets her assistance. The trio of henchmen begin to fear that their boss is falling for Miss Barrymore. To prevent such an eventual, they arrange to have Ida Lupino, beautiful adventuress try to win him.

She succeeds, for a time; so well that Raft, who believes her a member of the Four Hundred, begins taking Emily Post lessons from Miss Barrymore.

Comedy situations are built up by the three aides, Miss Lupino and a wandering salesman of ten-cent gadgets, Owen, who poses as Miss Lupino's aristocratic uncle for purposes of the plot.

"Yours for the Asking" places Raft in a story similar in some respects to that of one of his greatest hits, "Night after Night." It marks his return to the type of role which the movie public likes best for him; the tough egg with a smooth manner.

Miss Barrymore, who stepped immediately back into her former leading place in filmdom after a five-year absence in "The Lord Fauntleroy" is also given a role exceptionally suited to her unusual talents.

CITATION BY PUBLICATION No. 2884

The State of Texas, To the sheriff or any constable of Midland county—Greeting: You are hereby commanded, that you summon by making publication of this citation in some newspaper published in the county of Midland if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, once in each week for four consecutive weeks previous to the return day hereof, William P. Baker whose residence is unknown, to be and appear before the Honorable District Court at the next regular term thereof, to be held in the county of Midland on the first Monday in October, A. D. 1936, the same being the 5th day of October, A. D. 1936 at the court house thereof in Midland, Texas, then and there to answer a petition filed in said court, on the 5th day of August, A. D. 1936, in a suit numbered on the docket of said court No. 2884, wherein Ruth Long Baker is plaintiff and William P. Baker is defendant. The nature of the plaintiff's demand being as follows, to-wit:

Plaintiff asks for divorce on grounds of cruel treatment, and asks that her maiden name of Ruth Long be restored to her and prays for such relief.

Herein fail not, and have you before said court, on the said first day of the next term thereof, this writ with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said court and issued at office in Midland, Texas, this, the 4th day of September, A. D. 1936.

NETTIE C. ROMER, Clerk District Court Midland County, Texas (Sept. 4, 11, 18, 25)

The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything).

As a local business man said this morning, one good town is built by every oil field. Midland is the business center of the largest oil field in the world and has the best chance to be the big town. If we let the chance get away, it's our fault.

Houses can be rented at a highly remunerative figure, but they don't have to be rented. They can be sold to people wanting homes the big need being for someone to invest capital to make the building possible.

When I think of how much space I've wasted trying to get people to cut weeds when I might have been wasting the same amount of time and effort trying to get people to build houses it makes me ashamed of myself. If you're going to waste time, you ought to waste time at something big, not little.

Better, Too

Iowan Is Appointed To University Job

AUSTIN, Texas, Sept. 11.—Alexander Moffit, 34-year old native Iowan, has been appointed associate librarian at The University of Texas. Donald Conroy, head librarian, has announced the creation of this new position has been necessitated by the rapid expansion of the University Library and the accumulation of administrative details connected with its operation.

Mr. Moffit holds the bachelor of science degree from the University of Iowa, having been graduated in 1926, and the degrees of bachelor of science and of master of science of library science from the University of Illinois. He has had varied experience in library duties at the University of Iowa, having worked in connection with exchanges, documents and reference departments, as well as in the chemistry library. He is engaged in writing a monograph of the history of printing in Iowa.

In addition to his library training and work, Mr. Moffit has had business experience as well. He assumed his new duties at The University of Texas September 1.

1816 BUILDING RESTORED

GREEN BAY, Wis. (U.P.)—The "W" wing of Fort Howard Hospital built in 1816, is being restored as nearly as possible to a semblance of its original state for a storehouse of antiques connected with personalities prominent in the 300-year history of the white man's occupation of this region. Fort Howard once was the center of military social and civic affairs for a wide area here.

All hospitals of importance employ air conditioning in their operating rooms.

RECORD FOR PUNCTUALITY

LONDON (U.P.)—The London Midland & Scottish Railway has just set an enviable record for punctuality. A return issued at Euston showed that out of a total of 274,088 express and local passenger trains run within a recent four-week period 262,968, or 96 per cent, arrived at their destinations on time.

PANIC LAWS VIOLATED

HARRISBURG, Pa. (U.P.)—Violations of Pennsylvania labor, fire and panic laws were revealed in almost one-third of the firms inspected during a special statewide investigation by WPA workers under direction of the bureau of inspection. Law infractions were found in 66,024 or 209,448 places inspected.

BRIDGE FOR STAKES BARRED SANTA CRUZ, Cal., Sept. 10 (U.P.)—Police authorities have decided to close down on all "games for keeps". Among the heretofore unmentioned are bridge for stakes, bingo and the souvenir winning games.

Insurance companies offer policies covering damage by cyclones because cyclones are matters of chance and do not often strike in the same place.

By HEARN

By Harry Grayson

This is the first of five articles on Bernie Bierman, football's foremost coach—by himself.

MINNEAPOLIS, Sept. 11.—As I look back over my years of coaching, the one thing that gives me a tremendous kick is to recall the many fine players I have had under my wing, and to think of the splendid spirit that they showed day in and day out through their three years of competition.

My coaching career has been intensely interesting, starting at Butte Mont. High School in 1936 and taking me from there to Dixie, and thence back to the Minnesota campus.

When I am asked whether the grind of football really is worth it, my answer is to ask the boys themselves. They say as I do, as a player myself, that those days of success and failure on the gridiron were the happiest of their lives. Here and there, we'll find some who will not make such an admission, but they don't get out of it all the game had to offer.

Nebraska Game of 1936 Greatest. Minnesota is about to start another season with the eyes of the nation on our squad as it tries to stretch its unbeaten record through a fourth year. It doesn't seem possible, but that's what many thought about the 1935 team. I'll have my fingers crossed all the way, but it's well to keep in mind that these players are only human.

I know from experience with most of the current Minnesota players that whatever array beats them will know that it has been in a battle.

A question that has been popped at me so much since the close of the 1935 season is what game stands out in my mind over all others during our three years without a licking. That's easy. It was the Nebraska game that we won in Lincoln last fall by an eyelash. I'll always take my hat off to the boys who played that day. No team ever put forth more effort and showed me more honest-to-goodness fight under most trying conditions than the Gophers did that warm afternoon.

Many believe that I'll say that Pittsburgh struggle of 1934. That was quite a battle, but for two weeks

prior to the game I could see that performance coming up. Those boys had the stuff and they only had to be forced to play up to their normal ability to win. Of course, it was hard fought and we had to come from behind, but it's well to keep in mind that it's only really great teams that can win those uphill battles, especially in the second half.

Biggest Change in Defensive Play
Has football changed any since I was playing at Minnesota? Many say that it has, but to me it's pretty much the same old game.

Squads today are much larger. Head coaches have more and better help from their assistants. It's no longer a one-man job. The boys get better coaching in high school. Football has a stronger hold on the youth of the land. As a result, we get better material because we have more to work with and not all of it is of the raw variety.

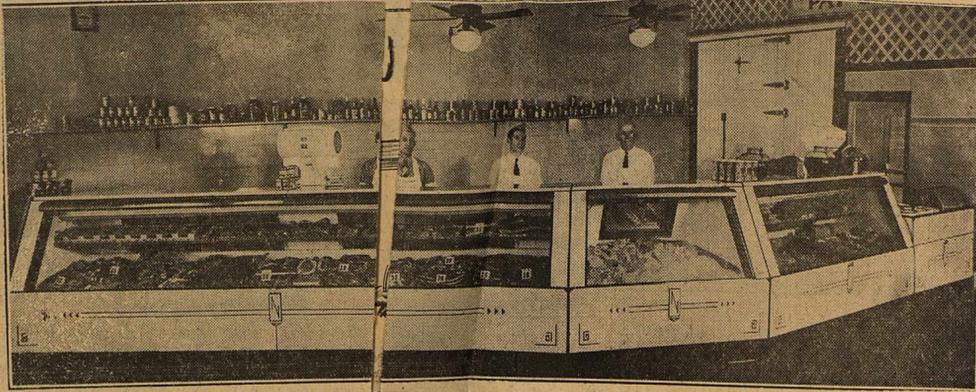

The greatest difference between football today and 20 years ago, it seems to me, is in defensive play. There is a greater variety of defenses. I have in mind frequent changes in defensive assignments with more shifts in men to meet new and different situations. But on the whole, I guess it's just the same old game and personally it's o. k. if it stays that way. The boys seem to master it quite readily and judging by attendance at all of our games the public likes it. Why change?

NEXT: "Skinny Bierman can't make the freshman team in high school."

WILD COW
NEW BRITAIN, Conn. (U.P.)—Benjamin Smith recently killed a wild cow in his backyard. The beast had been roaming wild for five months since escaping from the municipal slaughter house last spring, and had caused extensive damage to farmers' crops.

BARK REMOVED
EYDNEY, N. S. W. (U.P.)—A "de-parking" operation has been performed on several dogs here following noise protests from a Sydney hospital. Owners did not wish to lose their dogs, so they had them operated upon.

Most Modern Market Equipment Bought By Wes-Tex Food Market

The above picture shows the super-market equipment installed this week at the Wes-Tex Food Market in Midland. This equipment was sold to the local store by Harry L. Hussman, Jr. of the Southwestern Refrigerator Co. of El Paso and was installed under the personal supervision of A. W. Hawkins, the refrigerator company's representative. The market has 34 running feet of meat fish and delicatessen display and is said to be one of the most up-to-date in Texas.

Army Exercises Will Test Ability of Troops to Repel Mythical Invasions

FORT SAM HOUSTON, Texas, Sept. 11.—The army exercises at Fort Sam Houston during the month of September include the eighth corps area mobilization test and the third army command post exercise. Both are based upon the mythical invasion of an enemy army. More than 250 regular army and reserve officers are connected with the mobilization phase of the command post exercise. They began work September 10 and will continue until September 30. Officers assigned to the tactical phase of the command post exercise will report at Fort Sam Houston prior to September 17, 1936.

While the supply set-up and the recruiting and replacement installations of the eighth corps area are being tested, the fourth corps area is undergoing a similar test, with operations centered at the fourth corps area headquarters at Atlanta, Georgia.

Major General Frank Parker, commanding the third army and the eighth corps area, is directing all phases of the exercise. He has named Brigadier General Charles F. Humphrey, who commands Fort Francis E. Warren, Wyoming, to command the eighth corps area during the actual play of the command post exercise. General Humphrey serves as the director-umpire for the mobilization test in the eighth corps area.

The purpose of the mobilization test is to provide training of regular army, national guard and reserve officers in the positions they would hold in the event of an actual mobilization of war by actually functioning in these assignments in an assumed exercise.

The four major items of preparedness to be tested are:
1. Test of the functioning of the corps area service installations for recruiting, training, replacement and

supply in the initial stages of a mobilization under an assumed "black" invasion.

2. To determine the relationship of the corps area service command in the early stages of mobilization to meet an emergency and recruiting to war strength during early phases of third army operations.

3. Test of the flexibility of the corps area mobilization plans in effecting the charges in general mobilization plans brought about by locating the theater of operations in the eighth corps area.

4. To show the relationship between the corps area service command, the organization for recruiting, training, replacement and supply, and the third army command during the stage of active operations in a war.

Each installation at eighth corps area headquarters and various other points in the field will solve practical problems in connection with the mobilization and supply of the third army. As an example of this test, the corps area commander will actually issue orders for the entertainment of all third army units mobilized in the eighth corps area

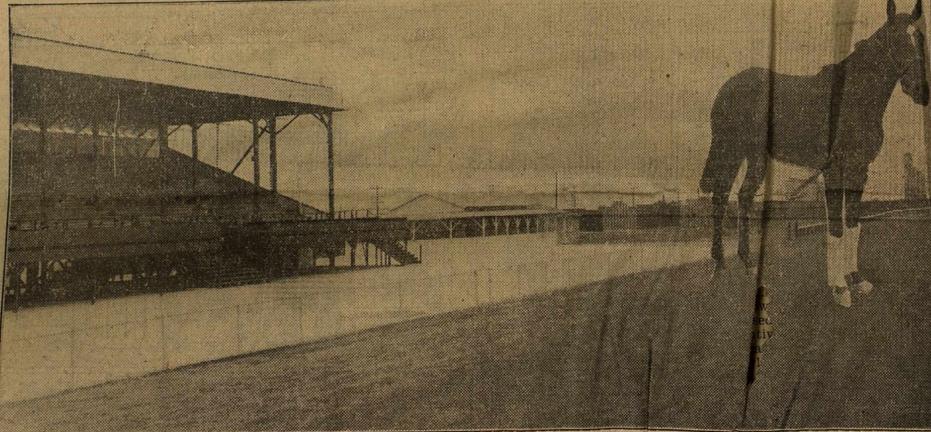

for assumed service. Plans will be prepared and orders issued providing for the supply of all units up to the time it is assumed that the third army is so organized that it can supply its own units in the theater of operations.

The testing of supply installations for all branches of the service will be conducted at Fort Sam Houston. The test of several of the principal mobilization centers within the eighth corps area also will be conducted at Fort Sam Houston.

The San Antonio recruiting and reception district and the Houston district will be tested at Fort Sam Houston. The El Paso recruiting district and the Phoenix, Arizona district will be tested at Fort Bliss, Texas; the Dallas district at Dallas, Texas; the Wichita Falls, Texas, and Oklahoma City district at Oklahoma City; and the Pueblo, Colorado district at Fort Logan, Colorado. The Air Corps training installations will be tested at Randolph Field, Texas.

From 25 to 100 carefully selected and blended components are contained in expensive perfumes.

Thoroughbreds To Run On New Amarillo Track

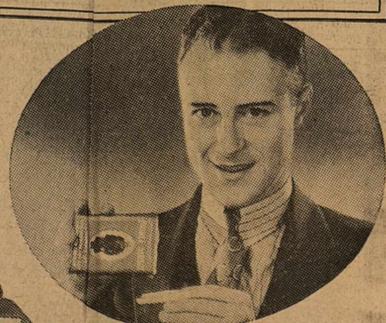

Pictured above is a view of the beautiful, newly remodeled Tri-State Fair Racing Plant at Amarillo. A part of the huge grandstand, some of the stables, the paddock, and the paved runway in front of the stands are shown. Inset is the picture of a proud thoroughbred, Polly Shaw, one of the early arrivals at the Tri-State Stables. The thoroughbred looms large on the picture, for, after all, as great as any plant may be, it is the thoroughbred that makes or breaks a race meeting. The Tri-State is noted throughout the entire country for the class of thoroughbreds it attracts to its meeting. The fall meeting will be held Sept. 18 through Sept. 26.

"ROLLS RIGHT—TASTES RIGHT," SAYS THIS "ROLL-YOUR-OWNER"

A FELLOW GETS A LONGER, COOLER SMOKE WITH P.A. 'MAKIN'S'

"I'VE BEEN ROLLING my own cigarettes for 11 years," says Johnnie Williams, "and believe me I'll have nothing but Prince Albert. It's so easy to make smokes with—it's 'crimp cut.' Yes, sir, I stick to P.A."

ROBERT BROME gives his verdict on Prince Albert, as follows: "P.A. is chuck full of flavor from rich, ripe tobaccos," he says. "It's mild and mellow." Roll P.A. yourself and hit the high road of smoke contentment! P.A. is a princely pipe tobacco too.

You favor Prince Albert or you've smoked 30 cigarettes on us

Roll yourself 30 swell cigarettes from Prince Albert. If you don't find them the finest, tastiest roll-your-own cigarettes you ever smoked, return the pocket tin with the rest of the tobacco in it to us at any

time within a month from this date, and we will refund full purchase price, plus postage. (Signed) R. J. REYNOLDS TOBACCO COMPANY Winston-Salem, North Carolina
