FAVORITES COME THROUGH TO WIN FOR THE PAY-OFFS

Long-Shot Backers At Mutuels Suffer Losses

BETTING HEAVY Large 'Handle' For The Afternoon Is Reported

With approximately 3,000 persons in the stands and on the grounds, the second day of the Midland Downs race meet was completed Saturday.

The crowd was only about one-half as large as that of opening day, but reasons for this were numerous. Practically all stores closed up the opening day and that, combined with a free gate and football game scheduled for Friday night, served to draw hundreds to the races.

Mutual windows reported handling more than \$13,000. With perfect weather and track conditions, favorites in practically all the races came in first. Small rewards were reaped by those who played long shots, only one horse paying backers more than \$8.20 for a first place finish.

The \$500 handicap, feature race of the day, was captured by Cornelia Powell, brown six-year-old mare of the C. N. Brewer stables, with jockey G. Napier. Cornelia Powell got away from the post well toward the front and held a challenging position until the stretch was reached. At the head of the stretch Napier let her out and she passed Time Ball and romped home easily a couple of lengths ahead of the field.

Time Ball finished second and Miss Contrary was third. The time, 1:15, was the fastest recorded for that distance during the day and was only three-fifths of a second slower than the track record for the distance, set in 1935 by Wittora.

The daily double paid only \$21.90 to those who picked Cheers and Whisk Win as winners of the second and third races, compared to a better than \$200 prize opening day.

The eighth race of the day paid off better than any other when Light Breeze, an outsider, came through to win over the favored Ball Home, Lady Emily and others. Lady Emily finished second and Humalong was third. Possessors of tickets on Light Breeze received \$24.30, \$5.20 and \$4.60.

With continued fair weather officials are confidentially predicting attendance marks for the eight days that will last for a long period.

Results of the Saturday races follow: First race—Purse \$100. Four furlongs. Rim Fire, Orange Bell, Ginger. Paid \$8.20, \$6.10, \$4.20. Time 49.

Second race—Purse \$100. Four and one-half furlongs. Cheers, Tangalo, Little Dude. Paid \$8.20, \$8.20, \$3.40. Time 54.

Third race—Purse \$100. Four furlongs. Whisk Win, Dr. Swingloose, Sweetheart. Paid \$3.80, \$2.90, \$2.70. Daily double paid \$21.90.

Fourth race—Purse \$100. Four furlongs. Buddy Nile, Bill Wade, Walter K. Paid \$3.80, \$2.30, \$2.30. Time 47.2.

Fifth race—Purse \$500. Six furlongs. Cornelia Powell, Time Ball, Miss Contrary. Paid \$300, \$230, \$33.20. Time 1:15.

Sixth race—Purse \$100. Six furlongs. Poco, More Power, Teclote. Paid \$11.30, \$6.90, \$4.10. Time 1:17.

Seventh race—Purse \$100. Six furlongs. Mike Reynolds, Fair Romance, Kieva Girl. Paid \$4.50, \$4.00, \$3.00. Time 1:16.

Eighth race—Purse \$125. One mile. Light Breeze, Lady Emily, Humalong. Paid \$24.30, \$5.20, \$4.60.

Yanks Beat Giants, 2-1, to Go Game Ahead

Golf's Beauty Ace

Although eliminated from the U. S. women's golf tournament at Summit, N. J. Helen Buck of Abington, Pa., is the envy of many of the more successful ladies of the mashie and niblick, for she was accorded the very unofficial beauty championship of the contest by admiring galleries.

Gehrig, Ripple Hit For Home Runs In Game

NEW YORK, Oct. 3. (AP)—With the greatest crowd in World Series history in the stands, approximately 70,000, the New York Yankees took a one game lead over their rivals, New York Giants when they defeated them Saturday by a score of two to one.

The Giants outhit the Yanks, 11 to 4, but were unable to bunch their hits for score. Their lone tally came in the fifth inning when Jimmy Ripple blasted one of Bump Hadley's pitches over the fence for a home run.

Gehrig hit a couple foul into the stands and then drove the old horsehide 407 feet and over a 20-foot sign board for one of the longest hits of the year and the first home run and score of the game.

Dickey walked, Mancuso argued with the umpire, a new ball was put into play. Selkirk fouled out to Mancuso. Powell hit into a double play, Bartel to Whitehead to Terry, retiring the inning. 1 hit, 1 score, no errors.

THIRD INNING Lazzari took Jackson's grounder for the first out. Fitzsimmons went out swinging. Moore hit to Selkirk to retire the inning. No runs, no hits, no errors.

Lazzari swung out as Fitzsimmons started bearing down on the ball. Hadley flew out to Ott. Crossetti went out swinging. No runs, no hits, no errors.

FOURTH INNING Bartel fouled out to Rolfe. Terry was out when Crossetti took his line. Ott fouled out to Rolfe. No hits, no runs, no errors.

Rolfe hit to Terry for the first out. After fouling a couple of times and getting a 2-2 count Di Maggio hit a double. Gehrig fouled a couple of times and then flew out to Ott. Dickey hit to Terry to retire the inning. 1 hit, no runs, no errors.

FIFTH INNING Ripple came to the plate and fouled three times and then drove one into the stands for the Giant's first score and the second home run of the game. Mancuso singled to left. Whitehead hit to short and Mancuso was out at second on fielder's choice. Dickey threw Whitehead out when he tried to steal second. Jackson walked. Fitzsimmons hit to third and Jackson was out. Moore bounded out to Hadley. 2 hits, 1 run, no errors.

Selkirk fanned as Fitzsimmons began bearing down on the ball. Powell called out on strike. Lazzari flew out to Moore to retire the inning. No hits, no runs, no errors.

SIXTH INNING Bartel fouled out; Terry was out when Di Maggio took his fly in center field. Ott singled to right. Ripple struck out retiring the inning. 1 hit, no runs, no errors.

Hadley struck out as Fitzsimmons fed fast benders about his knees. Crossetti flew out to Ripple. Ripple moved toward the right after Rolfe fouled a couple of times, and then took Rolfe's fly without hardly moving out of his tracks. No hits, no runs, no errors.

Mancuso bounded out to Hadley. Whitehead bunted and was thrown out at first. Fitzsimmons hit a pretty well hit fly without hardly moving out of his tracks. 1 hit, no runs, no errors.

Joe Moore took Di Maggio's fly for the first out. Gehrig hit to Ott for the second out. Dickey bounded a fast one over Fitzsimmons' head. Whitehead made one of the prettiest plays of the day when he took the ball on the bound and threw from a running position to retire the runner and the inning. No hits, no runs, no errors.

EIGHTH INNING Bartel singled and started what might have been a rally had Terry hit a hard one instead of trying to sacrifice. Bartel was thrown out at second. Ott singled to left field. See BASEBALL on Page Six

War 'Orphans' Go on Rations In Madrid

These Spanish children, left in Madrid when their parents went to the front, felt the grip of the civil war tighter about them—as they were placed on rations at a volunteer food center in the capital. Madrid was put under a food ration card system in a desperate effort to check food hoarding after rebel forces cut off communication with south and west.

HENDERSON POOL WELL IN WINKLER IS GAUGED SATURDAY AT 1,480 BARRELS

Flows Average of 191 Barrels an Hour For First Three Hours, Then Is Pinched In

By FRANK GARDNER After averaging 191 barrels an hour through 1-inch choke on 2-inch tubing the first three hours of potential test, R. H. Henderson No. 1 Lum Daugherty was pinched down to a 25-64-inch opening, and at the termination of the 24-hour period, had produced 1,480 barrels of oil. Gas ratio is 470 to 1, one of the lowest ratios in the field.

The Henderson well is located 2,310 feet from the north and 1,650 feet from the east line of section 33, block 74, public school land. It gave the Henderson pool of Winkler an extension to the northwest.

Another Henderson pool well, Atlantic No. 4-A Leck, 990 feet from the south and west lines of section 34, made a natural flow of 1,638 barrels in 24 hours through open 2 1/2 inch tubing. It topped pay at 3,020 and reached a total depth of 3,085 feet.

Sinclair-Prairie No. 2-A Leck in section 33 is drilling below 2,740 feet in lime.

Gaines Well Shot Landreth Production Co., No. 1 Kirk, only producer yet drilled in Gaines county, was shot late this week with 560 quarts from 4,694 to 4,842. The well had been swabbed down preparatory to shooting, and two hours after the shot oil had risen 3,500 feet in the hole. An hour later the well headed, and at the end of another hour it made one more head, then bridged. Operators are now cleaning out. Originally drilled into sulphur water at 4,970, the No. 1 Kirk was plugged back to 4,825, but failed to secure a shut-off of water, and plug was drilled out to 4,850 before the nitro shot was run. At one time it swabbed 107 barrels in 24 hours after treating with acid. It is located in the southwest corner of section 22, block A-21, public school land.

A mile and a quarter to the northwest, Standstill Oil & Gas Co. No. 1 Dewey Davis in section 18, block A-21, was scheduled to start drilling plug from 7-inch casing cemented at 4,255. It reached its present depth of 4,265 with rotary and rigged up standard tools after setting the pipe.

On the Seminole structure, Amerada No. 1-A Averitt, 660 feet out of the northeast corner of section 228, block G. W. T. R. R. survey, was to drill plug from 9 5/8 inch casing set at 2,882. Its present depth is 2,890. The test is a short distance southwest of the Walsh and Adams No. 1 Averitt, a 12,000,000 foot gasser drilled last spring on the structure.

Cochran Strike Shut Down The Cochran county discovery, Honolulu Oil Corp., Ltd., Cascade Petroleum Corp., and Devonian Oil Co., No. 1 E. B. Duggan, is shut down pending delivery of a mill shipment of 7-inch casing from Memphis. Gas flow of the well is said to have subsided, probably because of a sand plug.

See OIL NEWS, Page Six

DIRECTOR TELLS HOUSE MONEY WILL NOT BE TENDERED

Group Worried Over How Funds Will Be Raised

NO LAWS PASSED

Continue Study On Enactments To Be Made

AUSTIN, Oct. 3. (AP)—Frank Bane, Director of the National Social Security Board, told the House of Representatives today that Texas could not expect a loan from the federal government to meet the old age pension needs this quarter.

One of the most troublesome problems facing the Legislature was how to support the pension program between now and January the first. The revenue from the next tax measures, if they should be enacted, were not expected to start flowing until next year.

Bane expressed the opinion that his board would grant only \$750,000 at this time which later in the quarter would match only the funds actually in the state treasury. The state now has approximately \$750,000.

Orville S. Carpenter, state pension director, answered questions of Representatives for the third successive day and Oscar M. Powell, of San Antonio, regional director of the national social security board, outlined his relations with the state organization.

Carpenter repeated that the federal board indicated it would not match Texas funds unless the state organization completed with certain personnel qualifications and instituted a merit rating of employees.

LOYALISTS TAKE COAST CITY AFTER SURPRISE ATTACK

Rebels Continue To Drop Bombs Upon Madrid

By Associated Press Spanish government troops, seizing the offensive Saturday captured part of Ondarrea on the coast line, fleeing refugees to France, said.

Insurgent planes, however, bombed Madrid twice where the police seized three hundred alleged insurgent spies.

General Francisco Franco, Dictator-Designate, reorganized the staff for a final onslaught on Madrid. Authoritative but unofficial Vatican City surveys stated that more than five hundred priests and nuns had been killed in the war.

ARREST SUSPECT IN MYSTERY DEATH OF KILGORE WOMAN

Man Held After The Body of Victim Is Found

KILGORE, Oct. 3. (AP)—Police Chief, Bob Goss, said Saturday that they had arrested a Kilgore man for questioning after a woman identified as Mrs. Sidney Enrie, 40, WFA sewing room worker, whose body was found by a motorist Saturday.

The woman was discovered shot through the head, and the police said they believed she had been thrown from an automobile. She had been dead about an hour when they found her.

BIG SPRING DAY AT FAIR MONDAY

Date Postponed From Saturday to Aid Delegation

Big Spring Day at Midland Downs was yesterday postponed from Saturday until Monday, in order to better accommodate Big Spring citizens, and W. T. (Tanke) Strange, manager of the Big Spring chamber of commerce, has notified officials of the fair association that Big Spring will have an exceptionally large delegation here for the races on that day.

ROSE BOWL SAFEGUARDED PASADENA, Cal., Oct. 3. (AP)—The installation of the city's new water supply will not be allowed to interfere with the New Year's Rose Bowl football game. The ordinance governing the installation of new conduits in the Rose Bowl area was revised so that the adjacent ground necessary for parking would not be torn up at game time.

POSSES CLOSING ON ESCAPED CONVICTS; NEGRO CAPTURED

Five Negroes, Two Whites Escaped Prison Farms

HUNTSVILLE, Oct. 3. (AP)—Bloodhounds were closing on the trail today of Francisco Garcia of Beville, and Remigio Escobar of Houston, who escaped from the Blueridge Prison farm late Friday.

One of the six negroes who escaped from the Darrington Farm early Saturday was captured, according to Captain H. J. Jackson. The other negroes were believed to be not far in advance of the posses.

Negro Youth Jailed After Girl Injured

John Wesley Sneed, 15, negro youth, is in jail today after having allegedly shot a Mexican girl in the head Saturday morning with a small caliber rifle.

According to officers, Sneed fired as the girl raised a window of her house to repeat former warnings to Sneed to quit firing near the house. The bullet struck the girl in the forehead.

The girl was given treatment by a local physician and her condition reported as not serious.

7 Killed When Train, Bus Are Wrecked

ROME, Oct. 3. (AP)—Seven persons were killed and forty-five were injured Saturday in a collision between a freight train and a motor coach near Rome.

FLOOD DESTROYS RICE CROP IN WIDE AREA

Colorado River Does Little Damage To Navasota Harvest

WHARTON, Oct. 3. (AP)—The Colorado river flood reached its crest at Wharton Saturday and receded after completely destroying the rice crop in a wide area.

Authorities estimated that five hundred acres of farmland near Navasota was flooded, but little damage was done as the crops had been harvested before the disaster.

Odessa Schools Put Up Huge Water Tank

ODESSA, Texas, Oct. 3. (Spl.)—A 10,000 gallon red-wood tank on a sixty-foot steel tower is being erected back of the Odessa High School building. The purpose of the tank is to supply more water pressure.

A Pamona pump, which will produce forty gallons of water a minute, will be used in the place of the Fairbanks-Morse which is used at the present time.

Fast Race Programs, Cattle Show Will Add Luster To Midland Fair This Week

Going into the big week at Midland Downs, fast race programs are scheduled for each of the six remaining days. Cattlemen will hold sway during the middle of the week, with Wednesday and Thursday dedicated to them during the feeder calf show and sale and the meeting here of the executive committee of the Texas & Southwestern Cattle Raisers' Association.

Monday will be McCamey, Crane, Iran and Rankin day, with sizeable delegations indicated from the towns south and southwest.

Tuesday has been designated Andrews, Seminole and Lea County. N. M. day. Intensive advertising of the event has been done in those places and it is expected that a big response will be accorded the Downs management.

Wednesday, besides being the day of the feeder calf show, will honor visitors from Fort Worth, El Paso and Amarillo. Letters to the Downs publicity department have indicated much interest, with possibility of good crowds from all three cities.

Thursday, when the cattle raisers meet, also has been named for Lubbock, Lamesa and Brownfield.

Friday is Kermit, Wink, Grand Falls and Fort Stockton day. The Kermit high school football team comes here for a night engagement, and it is expected that many Winkler county citizens will come early for the afternoon's races.

Saturday will be the big day of the meet. The outstanding distance horses will be run over the mile route for the \$1,000 added Midland Merchants Handicap purse, and a full program of other races will wind up the eight day meet. Towns honored on that day include Abilene, Colorado and Sweetwater.

BOTH SIDES of the CAMPAIGN

Official views of the Republican and Democratic National Committees on leading issues of the campaign are presented by leaders of the two parties in this series of 12 articles, taking the place of Rodney Dutcher's Washington column during Dutcher's vacation. The Republican and Democratic arguments are presented on alternate days.

By J. F. T. O'CONNOR

Comptroller of the Currency

suspended operations.

Failures of these banks resulted in a tie-up of some five and one-half billion dollars in deposits and disbursements to millions of depositors and stockholders. Such a disastrous condition indicated a strong need for changes in

our entire banking structure if the remaining banks were to survive. Many times during the last three years causes for these numerous bank failures have been sought. It should be remembered that out of the total of 11,457 bank failures in the years 1921 to 1933, 5093, or 44 per cent, of these failures occurred prior to the depression years—in other words, they occurred between 1921 and 1929.

I bring out this fact so that it may be better understood that the cause responsible for these innumerable failures was existent over the country for many years preceding the depression.

Further, the factors which prevailed so largely in pre-depression failures were also responsible for the mass of such failures during the depression years.

They differed only in the fact that in the latter years any possibility of retrenchment, which might have saved some of these banks from insolvency, was gone.

First, and possibly the most important of all these causes, was a badly over-banked condition over the country, brought about by a reckless and uncalculating issuance of charters, which led to establishment of many banks which were not needed and which were doomed to failure from the start.

Second, and largely because of the ease with which charters were obtained, was the entrance into the banking field of individuals totally inexperienced in this highly specialized profession.

Third, the wholesale granting of loans based on inflated values.

Fourth, a prevailing spirit of speculation which led to the sacrifice of safety for high yield in the purchase of investment securities.

These are the main factors and all are inseparably linked together as the huge disintegration of banks over this 12 year period is concerned.

Lose Confidence in Banks

The climax was reached in the closing days of the previous administration, namely, in January and February, 1933. By that time the people's confidence in the banks had reached such a low ebb that

another provision broadened powers of the Federal Reserve Banks to enable the making of loans to member banks on securities, mortgages, and other sound assets, which prior thereto had been ineligible for discount.

Still another provision empowered banks to issue preferred stock, notes, and debentures, and granted authority to the Reconstruction Finance Corporation to purchase the same. Here, then, are three important contributions to the program of safer banking.

First, insurance of deposits. Second, a wider latitude on loans to member banks by the Federal Reserve Banks.

Third, the right by banks to issue preferred stock, notes, and debentures, and the purchase thereof by the Reconstruction Finance Corporation, which made possible the repair of capital structures of those banks which were in need of it.

Break Frozen Loan Jam. The program did not stop here. The banks were still loaded with thousands of frozen industrial, agricultural, and home loans. Relief from this situation was necessary to both banks and borrowers.

The federal government met this by broadening powers of the Farm Credit program and the Home Owners Loan Corporation, and granting new powers to the Federal Reserve banks and to the Reconstruction Finance Corporation to make loans to private industry.

In short, the plan was to liquify the banks by the simple expedient of extending and expanding the lending agencies of the government so the banks might be relieved of these thousands of frozen loans.

The great benefits of this program, to both the banks and the people, are too well recognized to require comment here.

Let me refer back to the statement made about a badly over-banked condition brought on by

he extremely heavy withdrawals of deposits for hoarding purposes threatened the entire banking structure of the nation.

Conditions became so acute in a number of states as to necessitate prompt action and several governors declared holidays to avoid complete collapse.

This was the situation which faced the new administration on March 4, 1933. One of the first acts of President Roosevelt was the closing by proclamation of all banks of the nation under what has become known as the "Banking Holiday of March, 1933."

The reason for this constructive move becomes more apparent when it is understood that during this period of the banking holiday an exhaustive check was made of the condition of each bank and only those found to be solvent were permitted to reopen.

Thus, at one stroke, and within the short period of 10 days, was accomplished a wedding out of all insolvent banks, a process which theretofore had been going on intermittently for 12 years.

This was the first step in the program of rehabilitation of the banking structure. Had it stopped at this point no lasting good would have been accomplished.

New Program Necessary

Having relicensed those banks which were found solvent, it followed that confidence in the banks had to be restored. The mere physical act of closing the banks by declaration of a banking holiday was not sufficient, nor did it, restore that confidence.

The people were looking for a definite program from the new administration and that program was forthcoming. It is necessary to review only briefly some of the provisions of the "Banking Act of 1933" which quickly restored to the people of the nation confidence in their banks, and almost entirely banished bank failures over the country.

Most important of its provisions was the formation, or creation, of the Federal Deposit Insurance Corporation, through which deposits of banks, on a specified basis, were insured.

Another provision broadened powers of the Federal Reserve Banks to enable the making of loans to member banks on securities, mortgages, and other sound assets, which prior thereto had been ineligible for discount.

Still another provision empowered banks to issue preferred stock, notes, and debentures, and granted authority to the Reconstruction Finance Corporation to purchase the same. Here, then, are three important contributions to the program of safer banking.

First, insurance of deposits. Second, a wider latitude on loans to member banks by the Federal Reserve Banks.

Third, the right by banks to issue preferred stock, notes, and debentures, and the purchase thereof by the Reconstruction Finance Corporation, which made possible the repair of capital structures of those banks which were in need of it.

Break Frozen Loan Jam. The program did not stop here. The banks were still loaded with thousands of frozen industrial, agricultural, and home loans. Relief from this situation was necessary to both banks and borrowers.

The federal government met this by broadening powers of the Farm Credit program and the Home Owners Loan Corporation, and granting new powers to the Federal Reserve banks and to the Reconstruction Finance Corporation to make loans to private industry.

In short, the plan was to liquify the banks by the simple expedient of extending and expanding the lending agencies of the government so the banks might be relieved of these thousands of frozen loans.

The great benefits of this program, to both the banks and the people, are too well recognized to require comment here.

Let me refer back to the statement made about a badly over-banked condition brought on by

The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything).

and I believe this meet is going to get it. I think from now on all Midland Downs will need is reasonably good weather, and the fans will come from hundreds of miles.

I you want to see what these ranchmen are producing in the way of range bred Herefords, go down to the cattle sale Wednesday morning and see about 40 or 50 carloads of calves and yearlings which will go through the auction ring. These feeder calves are just a few of the 20,000 available on ranches around Midland this fall. The good part is that since the ranchers signed up to put their calves in the show, there have been good rains here and where the buyers come from. Where the home boys thought they were about to get some choice calves go cheap, they should bring much better prices than was indicated at that time.

And that's the secret of a good fair, race meet or rodeo. If you plan to have one which the world will depend on, put it on in good times or bad. The profit and patronage will average up better than if a few bad seasons are missed. It takes men with plenty of intestinal fortitude to do the job that way, but if we don't have 'em at Midland, I'd hate to start out to find such a bunch.

A \$80,000 plant is something, and three big shows a year for the entertainment of this part of the country is something else. It can't be done without liberal patronage.

I haven't heard whether the mutual pay-off was sufficient to take care of the purses and expenses the opening day or not. I hope it was but doubt it. At any rate, the public should appreciate the big party given by the fair management and should not mind supporting the races right on through.

A \$80,000 plant is something, and three big shows a year for the entertainment of this part of the country is something else. It can't be done without liberal patronage.

If a lot of those spectators who saw the races because of the free gate Friday didn't enjoy them enough to go back and pay the 40 cents admission, I'll be surprised. I never saw a crowd enjoy an afternoon more than those who helped open the fall meet.

Congressman R. E. Thomason, who stayed over an extra day to see the races, knew he had done the right thing when he cashed a \$12.20 ticket after the first race.

I haven't heard whether the mutual pay-off was sufficient to take care of the purses and expenses the opening day or not. I hope it was but doubt it. At any rate, the public should appreciate the big party given by the fair management and should not mind supporting the races right on through.

issuance of charters without regard to the need for new banks—with the consequent entrance into the banking field of inexperienced would-be bankers.

To my mind the elimination of these two causes for bank failures was accomplished solely by the determination of a proper administrative policy, and the sticking to it.

It is the policy of the comptroller's office not to grant charters for national banks except where economic necessity is apparent. The record of new state bank charters would indicate that state banking commissioners are taking the same attitude.

It is a safe and sane policy to pursue, a policy that will contribute much to a mere safe, sound banking structure in the hands of experienced bankers.

Investments Safeguarded. A word about investment securities. The attitude of this office has always been toward a conservative policy by bankers in the matter of such investments, realizing just how important this is from the standpoint of a sensible investment of funds entrusted to banks by depositors.

Recent issuance of new and somewhat more pointed regulations designed to remove the speculative feature from such investments has been well received.

Today, as a result of the various measures taken by the present administration, in the application of which the bankers themselves gave their whole hearted cooperation, the banking structure is safer than at any other time in its history.

Confidence in banks has been restored and bank failures are almost a thing of the past. More than 11 months have passed without a national bank failure and comparatively few state banks have failed. Deposits in banks have risen from \$38,000,000,000 in 1932 to more than \$57,000,000,000 in 1936, and to a great extent the banks of the nation are again prosperous.

I repeat that the banking structure is safer now than at any other time in its history, and depositors have every reason to be confident as to the safety of their deposits.

It is a striking reversal of feeling to that which existed over the country three short years ago.

THE END

"Weaving Drivers" May Go PASADENA, Cal. (U.P.)—The California Safety Council has recommended drastic punishment for menacing motorists, especially the "weaving" drivers. Other recommendations include the re-examination of all motorists every two years to weed out the unfit; an annual re-examination of all motorists past 60; and the jailing of road hogs.

Existing type trainers are capable of only 140 m. p. h.

Rose Bowl Safeguarded PASADENA, Cal. (U.P.)—The installation of the city's new water supply will not be allowed to interfere with the New Year's Rose Bowl football game. The ordinance governing the installation of new conduits in the Rose Bowl area was revised so that the adjacent ground necessary for parking would not be torn up at game time.

Wheels of Progress

It's a short drive now over paved roads from Midland to Seminole over the route once covered with one trip per day by the mail and passenger car above.

The mail line carried many prospectors from Midland to Andrews and Seminole during the famous land boom of 1910. Many settlers at that time have now "cashed in" from the sale of mineral properties, because of oil developments of the past two years.

An automobile of 10 years ago is now considered antiquated, so rapid have been the Wheels of Progress. In the same way gas has taken the place of coal and wood. Natural Gas, free from hydrogen sulphide, is the Modern Fuel and is Economical, Efficient and Convenient.

Natural Gas is the lowest in cost of all practicable fuels. It is especially true in Midland where the low rate fixed by the Railroad Commission is in effect.

PRAYER IN COURT

SPRINGFIELD, Mo., Oct. 3 (AP)—The plea of C. A. Smith, "old-fashioned Methodist minister," for divine intervention was head in justice court here. Smith was allowed to offer a prayer in which he asked a blessing on all present. Then the court ordered a \$66.40 judgment against him for his mother's unpaid grocery bill.

UP TO YESTERDAY IT
WAS GOOD ENOUGH
Hold on there a minute! Why this sudden determination to discard a mattress which yesterday was good enough to use? Yes, we know you have been complaining for some time that it had lost its resiliency; but, Sake's Alive! it can be renovated and restored to its original usefulness. Give it a chance to come back. At least, don't you pass judgment. Let us who are qualified decide.

BOOTS AND HER BUDDIES

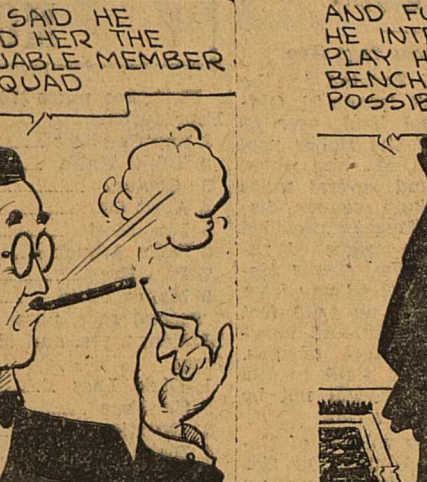

OH! BOOTS DIDN'T SIT WITH YOU AT THE GAME, THEN? NO, SHE SAT DOWN ON THE FIELD, WITH THE PLAYERS. WHOOPEE! AND FURTHERMORE, HE INTENDS TO PLAY HER ON THE BENCH WHENEVER POSSIBLE. OH, I SEE! YOU MEAN AS AN INSPIRATION TO OUR BOYS? NOT ONLY THAT! HE HAS THE FIGURES AND EVERY TIME BOOTS HAS SAT ON THE SIDELINE, OUR OPPONENTS HAVE AVERAGED TWENTY ODD FUMBLES PER GAME.

WASH TUBBS

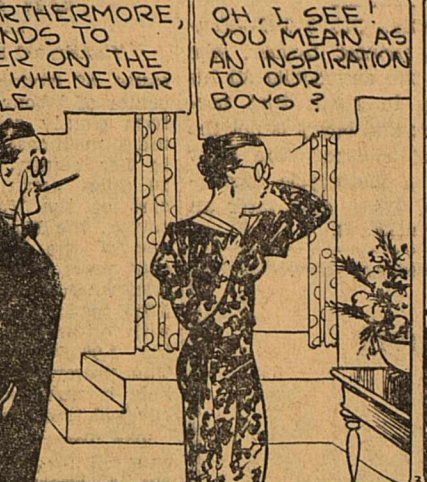

JUNIOR DIDN'T REALLY MEAN TO FLY. HE JUST PULLED BACK THE STICK ON EASY'S PLANE, AND THERE HE WAS. GEE WHISKERS! YOU'LL CRASH, YOU FOOL! YOU'LL KILL YOURSELF! EASY IS FIT TO BE TIED.

Poor Junior

AND EVEN JUNIOR IS A TRIFLE WORRIED. I WONDER HOW YA KEEP THIS THING RIGHT SIDE UP. HE DECIDES THAT HED BETTER LAND. HE LL LOOKS AROUND FOR THE AIRPORT, AND... IT'S GONE! BAW!

ALLEY OOP

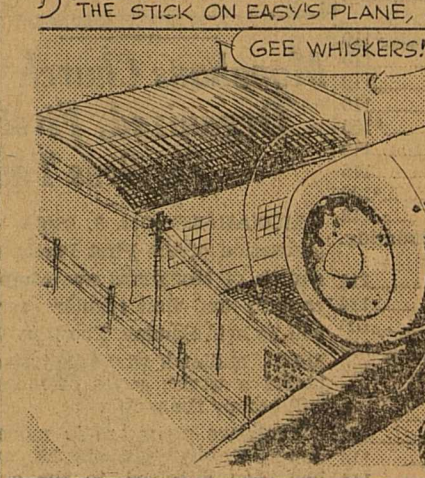

DO YOU THINK WELL, LOO—THAT'S KINDA YOUR HUSBAND! HARD T'SAY-TH' CAN DO ANY- OL' BOY DOES HAVE HIS THING TO HELP US, QUEEN UMPATEEDLE? WHAT'LL WE DO, GIMME TIME TO THINK A BIT—SURELY ON SUMPIN' WE CAN HIT! MY, MY! I NEVER DID SEE SO MANY DINOSAURS!! Y' BETTER KEEP AN EYE ON HER—ANY THING CAN HAPPEN, WHEN SHE'S AROUND. OKAY, BUDDY— SHE DOES ACT KINDA CRAZY. NOW, IF WE COULD GIT WORD THROUGH, SOME WAY, TO ALLEY OOP. OOP'S TH' BOY WHO COULD SAVE TH' DAY—BUT TO GET HIM WORD—THERE MUST BE A WAY— EEEK! NOW WHAT'S GONE WRONG? GOOD GOSH— MY WOOTIE! SHE'S GONE!

MYRA NORTH, SPECIAL NURSE

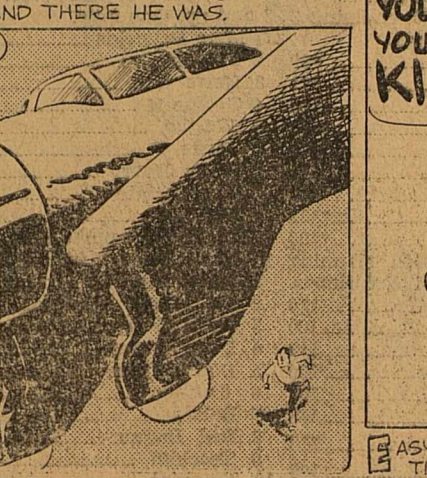

JACK—HERE'S THE PREFECT, IN ANSWER TO YOUR CALL— SPLNDIF! YOU'LL FIND YOUR PRISONER SCREECHING IN THE DUMB-WAITER, CAPTAIN—AND IF YOU ASK ME, MISS NORTH DESERVES A MEDAL FOR BREAKING THIS CASE! A THOUSAND THANKS, BUT WE'VE BEEN SCOURING ALL OVER FOR YOU, MONSIEUR LANE... AN URGENT MESSAGE FROM YOUR GOVERNMENT! JACK! WHAT IS IT? IT'S FROM OUR INTELLIGENCE DEPARTMENT—I'VE BEEN DRAFTED FOR EMERGENCY SERVICE IN EUROPE! LET'S GO! I'M TO PROCEED TO PARIS FOR ORDERS, AT ONCE! AND YOU KEPT REMINDING ME THIS WAS A VACATION!

FRECKLES AND HIS FRIENDS

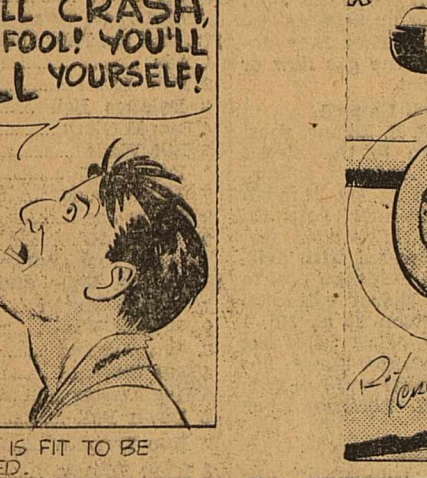

I WANTED TO GET A STORY FOR MY PAPER ABOUT FRECKLES, BUT IT SEEMS HIS HEAD IS DEVELOPING A SEVERE CASE OF SWELLING! A LOT OF FOLKS HAVE FILLED HIM FULL OF STORIES OF HIS OWN ABILITY AND HE'S CARRIED AWAY BY THEM! HERE HE COMES, NOW...WITH HIS STOOGES! MAYBE SOME OF YOU GUYS THINK I'M KIDDING WHEN I SAY FRECK IS GOOD! HE CARRIED THE KICKOFF BACK EIGHTY-FIVE YARDS, LAST YEAR, AGAINST KINGSTON! NUTTY, I DON'T LIKE TO CONTRADICT YOU, BUT I'M AFRAID YOU'RE WRONG ABOUT THAT! PERHAPS WE WERE MISTAKEN ABOUT THE BOY! IT WAS NINETY-FIVE YARDS!!

OUR BOARDING HOUSE

OKAY, WINNER TAKES ALL— THE FIRST ONE TO DATE UP THE NEW BOARDER NABS THE POT! AND I'M OUT TO CLEAN YOU TWO LOTHARIOS LIKE A VACUUM DOES A RUG! LISTEN, YOU DEAF— AND DUMMIES— THAT NIFTY DOESN'T MAKE A HABIT OF COLLECTING STRANGE HAIRCUTS—I'M BETTIN' MY PAY-PAPER THAT SHE WOULDN'T WASTE A NOD ON EITHER ONE OF YOU RAIL-BIRDS! BETTING FOOLS=

OUT OUR WAY

THESE BIG COMPANIES ARE KINDA DUMB—SEE THERE— WHEN A GUY'S GOT A BIG CUT GOIN', AN' NOTHIN' TO DO FER HOURS, WHY HE GOES TO BROODIN' OVER HIS TROUBLES— BUT, IF THEY'D LET HIM READ, SMOKE, PLAY SOLITAIRE, ER TAKE A NAP, WHY THEY'D HAVE A HAPPY MAN— YEH, AN' MAKE FIFTY UNHAPPY MEN— AS OLD AS I AM, AND AS MUCH SENSE AS I SHOULD HAVE, I WOULDN'T WANT TO BE MOPPIN' DECKS AROUND A BUNCH OF GUYS LAYIN' IN DECK CHAIRS.

CLUB WOMAN HITCH HIKES
BILLINGS, Mont., Oct. 3 (U.P.)—Mrs. Ethlyn Atkinson, president of the Fort Peck Mothers' Club, claims the distinction of having been able to hitch-hike her way to attend the biennial convention of the Montana Federation of Women's clubs here. Otherwise, she admitted, she would not have been able to attend.

PIONEER IS MOTOR SHY
EUGENE, Ore., Oct. 3 (U.P.)—Henry Mathews, pioneer farmer, who has spurred the automobile all his life, is ready to admit that perhaps the horse and buggy is not the best mode of transportation after all. Recently a motorcycle damaged his buggy. Three days later an automobile wrecked it.

Oil News--

Continued From Page One

cause of savings. Located in the center of labour 13, league 55, Oldham county school land, over 60 miles northeast of the Hobbs pool in Lea county, N. M., and about 26 miles north and several miles east of the Yoakum county discovery, the No. 1 Duggan provided one of the major strikes of recent years in the West Texas district when it encountered pay from 5,025 to 5,038, filling up 1,000 feet with oil in nine hours and blowing 1,000,000 cubic feet of gas. The present level of fluid in the hole is unknown and will not be checked until casing is run.

The Terry county wildcat of Us-can Oil Co. and Illinois Oil Co., No. 1 Brownfield is rigging up standard tools. It set 8-inch casing at 3,534, bottomed at 3,650. After setting pipe, operators discovered that gas from the Yates sand horizon was coming up between the 8-inch and 10-inch. They may decide to bradenhead the gas flow or kill it with cement.

Means Well Gauged
Humble No. 10 J. S. Means, short southeast extension to the Means pool in northern Andrews county, flowed 814 barrels of oil through tubing on the 24-hour potential test. The well drilled to 4,525 feet in lime and was treated with acid. Southwest of the Fuhrman pool in Andrews, a semi-wildcat extension test, R. H. Henderson et al., No. 1 Parker, is drilling below 3,855 feet in lime. It encountered strong gas flow in the Yates zone and has been fighting a blowout. Location is on the Parker strip.

New Winkler Well
Mid-Continent completed another good-sized producer on its leases in the Keyes pool in Winkler when the No. 6 Walton flowed 1,354 barrels in 24 hours after shot. The well, located 990 feet from the north and 2,310 feet from the west line of section 24, block 26, public school land, topped the sand pay at 2,800 and stopped drilling at 2,950 to shoot with 150 quarts of nitro.

In the Sayre pool several miles to the north, Gulf No. 8 Daugherty flowed 21 barrels in four hours

Kansas Colt Ties Track Record Here

Billy The Kid, three year old chestnut gelding which tied the track record for the half mile at Midland Downs Friday, with time of 47 seconds flat, is owned by Bert E. Hobson, Wichita, Kans., hotel operator.

Hobson is here with his two horses the other being Doctor Swing Loose which got third money Friday and second money Saturday. The trainer is Bill Haley, Hobson's colt also set a track record for a half mile and 70 yards on a Kansas track before coming to Texas. He will be taken to Florida after the Midland meet.

Billy Te Kid is sired by Prince Pan, out of Fay King, she by Jack Hayes.

American Lass, Waggoner filly, made the first 47 seconds record at the opening day of last year's fall meet, the time never having been met until Friday.

Rangers organization.

Governor Tingley was enlisted to play a part in the picture by Vidor when the huge location company moved into the desert near Santa Fe for the more than two months required to make the film. He has a few brief "lines" to deliver, in a sequence in which the members of the Rangers sit down to a luncheon.

Governor James Alford of Texas directed the opening scene of the picture by long-distance telephone, through special line strung, into the desert location for the occasion.

Two riders carried messages of warning to Lexington April 18, 1775. Paul Revere carried the oral message, and William Dawes the written one. They took different routes so that, if one were stopped, the other might get through.

Reorganization and enlargement of the Japanese military air force has made it a virtually independent arm of service.

At the present time there are said to be 131 serviceable planes in the U. S. naval service.

ANNOUNCEMENT
Mrs. J. B. Leonard announces that her classes in piano and voice will open about the middle of October or the first of November at her home, 1209 West Indiana. She holds the Masters Degree in Piano, has had 20 years teaching experience, has studied with the leading teachers of Texas and has had special work in the University of Kansas. For further information phone 367.

Coring Line
Gulf No. 2 Waddell, Ordovician prospect in western Crane county, is coring below 6,297 feet in lime and shale. It showed oil on two successive drill-stem tests at shallower depths.

After recovering a bailer lost at 3,833 feet, Gulf No. 2 McKnight in Crane is drilling ahead in sand and lime. It tested two barrels of oil and one of water per hour.

Loffland No. 2 Tubb, discoverer of a pay two hundred feet below the regular "Tubb pay," is shut in at 4,628 feet after heading oil. Storage is being erected.

Juvenile Journalist Cartoonist on Staff Of Jamboree Journal

Billy Noble, son of Mrs. Suzie G. Noble, has been appointed representative of the Buffalo Trail Council on the National Jamboree Journal staff to be held in Washington early next summer.

He will be in charge of the staff news for the council on the Jamboree Journal, and do special work on the cartooning staff. He will also take care of the publicity for the Midland district on Jamboree activities between now and then.

Billy, who is a member of Troop 54, has been outstanding for his journalistic and artistic talent, writing stories and drawing cartoons, since he was in the "cradle row."

It is said that in the comparatively near future Great Britain will carry all first class mail by air.

An odd looking plane recently tested resembles a huge pancake, and its circular compound wing is said to make tailspins or sideslips impossible.

The German dirigible Hindenburg is powered by four Diesel engines, which propel the giant ship at a top speed of 90 miles an hour.

The round trip fare on the maiden voyage of the Dindenberg, newest German dirigible was \$720.

Baseball--

Continued From Page One
Ripple bounded out to Lazzeri. Mancuso flied out to Powell to retire the last chance the Giants had. 2 hits, no runs, no errors.

Selkirk singled to right to start the rally; Powell was walked. Lazzeri sacrificed to advance Selkirk to third. Ruffing was put in as a pinch hitter for Hadley. Jackson took Ruffing's offering and threw Selkirk out at the plate. Roy Johnson runs for Ruffing. Crosetti singled to score Powell. Rolfe was thrown out at first to retire the inning. 1 run, 2 hits, no errors.

The brilliant Pat Malone went to the mound where he did his stuff as a relief hurler, striking out Whitehead, the first man up. Koenig was put in as a pinch hitter but he grounded out to short. Leslie went to the plate and ruined a number of Malone's offerings by fouling and finally singled to center. Davis ran for Leslie. Moore hit to Corsetti for the third out and retired the game. 1 hit, no runs, no errors.

Summary:
Yankees: 2 runs, 4 hits, no errors.
Giants: 1 run, 11 hits, no errors.
