

House To Investigate Pension System To Lay Federal Building Cornerstone Thursday

Survive Strange Birth

The odds against baby Janice Guarino being born alive when it was discovered that she had developed within the abdominal cavity instead of a normally. A delicate one and one-half hour operation by anonymous surgeon brought the infant into the world alive and healthy.

FRESH DRIVE ON MADRID PLANNED BY NISURGENTS

Spanish insurgents began a fresh drive on Madrid today as the epic story of the rescued Alcazar fortress in Toledo was unfolded. In the last hours of the Toledo assault 600 Catholic priests supporting the rebellion were slaughtered by government forces, survivors said.

2 TRAINMEN ARE VICTIMS OF WRECK NEAR SHREVEPORT

SHREVEPORT, La., Sept. 29 (P)—Trainmen identified as J. T. Dempsey, Texarkana, and H. H. Vaught were killed and four other persons were injured in the derailment of a southbound Louisiana, Arkansas passenger train eight miles south of Winfield about midnight.

FALL MEETING OF AIME OPENS OCT. 8

The second fall meeting of the Petroleum Division, American Institute of Mining and Metallurgical Engineers will be held October 8 and 9, at the Blackstone Hotel, Fort Worth, Texas. Many prominent engineers and geologists are expected to attend this interesting two-day session which offers an unusual opportunity for study and discussion of technical developments and problems of the oil industry.

Visitor's Impression Of Our High School

MRS. CLAIRE F. POLLARD, Ex-County Supt. Matagorda Co., Texas Being interested in school work generally, we accepted Supt. W. W. Lackey's cordial invitation, and visited the Midland High School Tuesday, September 29. If life becomes dull and uninteresting and a general feeling of unrest and dissatisfaction pervades the soul, we know of nothing that will furnish a quicker inspirational reaction than the privilege of reviewing 300 "teen age" boys and girls engaged in high school activities.

Brazos and Little Rivers Continue Rampage

CONGRESSMAN R. E. THOMASON TO GIVE PRINCIPAL TALK

Construction of The Structure Going Forward

PLAN PROGRAM

Mayor Ulmer Is To Accept Edifice For City

Laying of the cornerstone of the Midland federal building has been scheduled for Thursday afternoon at 4 o'clock, with Congressman R. E. Thomason delivering the principal address. It was announced this morning by Postmaster John P. Howe.

A program has been worked out for the event, with music by the Midland high school band. Clarence Scharbauer, president of the chamber of commerce and close friend of the congressman, will introduce the speaker. Mayor M. C. Ulmer will accept the building on behalf of the people of Midland. R. W. Hamilton, county democratic chairman, will head the escort party accompanying the congressman to the building.

Foundation and sub-floor work of the building have been completed, with construction of the walls ready to be carried forward. The cornerstone laying will mark the "coming out of the ground" of the edifice which, including lot and fixtures, will cost the government \$100,000.

Congressman Thomason was instrumental in putting through the request which made Midland eligible for the building. He kept constantly in touch with the various departments through which the project passed, advising local citizens on its status at regular intervals. It was his watchfulness which made possible the appropriation, site purchase and contract letting as rapidly as was done. Local citizens said today that to have the cornerstone laying without the presence of Ewing Thomason would be out of place. An earlier date tentatively set for the cornerstone laying, was postponed because the congressman had a previous engagement.

Invitations to postmasters of several neighboring towns, as well as to citizens close to the administration, were sent out today by Postmaster John P. Howe.

Several musical selections, as well as a short street parade, will be presented by the band.

2 MEMBERS STATE HIGHWAY COMM. TO VISIT HERE TODAY

Hines, Martin Are On Business Tour Of West Texas

Chairman Harry Hines and Commissioner D. K. Martin of the Texas Highway Department will be guests at Midland this evening, according to a message to Clarence Scharbauer who will entertain them at the Governor's suite of his hotel.

TO BURY SIMS WITH ALL NAVAL HONORS

Burial of Admiral William S. Sims, 77, who died here yesterday.

The retired naval officer, who would have been 78 years old next October 15, underwent an operation in June and appeared to be regaining health. Mrs. Robert Hopkins, the daughter at whose home he died said he suffered a fatal heart attack Sunday but lingered until Monday.

Mr. and Mrs. J. F. Tillers and daughters of Omaha, Neb., are visiting Mr. and Mrs. J. A. McClurg.

Wins Chance

A contract to sing in opera has been signed by Betty Jane Schultz, 15, above, believed the youngest person ever to win that distinction. A sophomore in a Chicago girls' school, she was given an audition by the manager of the Chicago City Opera Company and the result was an engagement to sing during the coming season. She will be known as Betty Jaynes.

FOG ROLLS IN OVER FOREST FIRE AREA OF OREGON TODAY

Temporary Relief Is Given Residents In Fight

MANSFIELD, Ore., Sept. 29 (P)—A fog bank rolled in from the Pacific today over the fire-scarred southwestern Oregon timberlands, assuring 20,000 people at least temporary respite from forest fires which have destroyed one town and have taken nine lives.

With so many fires burning in a 400,000-acre area that forest officials both federal and state, said it was "impossible" to say how many acres had been damaged, residents of the fire-battled region placed their hope, as many put it, "in God."

Martial Law Placed On Palestine Today

LONDON, Sept. 29. (P)—Great Britain today clamped down martial law on Palestine to halt terrorism which Arabs have waged in the Holy Land for months against Jewish immigration.

Would You Like to Take a Trip? Fair Must Be Advertised Now or Never; All Requested to Aid in "Placardizing" Area

R. D. Scruggs, Chrysler-Plymouth dealer, announced this morning that he will take a delegation to Abilene, Wednesday, distributing Midland Downs advertising in all towns on the route.

Bill Collins, chamber of commerce secretary, will contact Odessa, Monahans and Pecos unless other citizens volunteer to do so late today.

It was pointed out, however, that several other places are in need of closer contacts on behalf of the fair and race meet.

Who wants to go to Abilene, Sweetwater, Colorado and Big Spring Wednesday?

Residents Flee From Lowlands; River Down at Waco

HEARNE, Sept. 29. (P)—The flooding Brazos and Little rivers continued to destroy millions of dollars worth of crops and property today but there was no loss of life reported as the lowland residents heeded warnings to evacuate.

The Brazos is falling steadily at Waco. The crest is expected to reach here today, and spread over farming lands. The Little river is rising at Cameron but there is no danger to the city.

The Little river sprawled out over thousands of acres of farm land and its crest was moving slowly through lower Milam county on its worst flood in recent years.

The Leon, which pours into the Little, was receding but three separate rises were reported coming down the river from its upper watershed. The Lampasas, second principal tributary to the Little was falling at Belton.

The crest of the Little river is expected at Cameron at midnight or soon thereafter. The Little joins the Brazos east of there.

A dozen streams in West Texas were on their second flood in ten days, and lowland residents were evacuating their homes.

Four were dead, refugees numbered thousands and damage soared into the millions as rivers and tributaries fed by early autumnal rains, poured through fields and towns.

Relief from further rainfall was sighted when skies cleared after arrival of the seasons first cool snap. Damage estimated at \$5,000,000 wrought in last week's disaster in the San Angelo area, will not be equalled, a survey revealed.

COCHRAN WILDCAT LOGS GAS AND OIL SHOWING AT 5,025

Honolulu - Cascade Test Drilling At 5,028

BY FRANK GARDNER Interest shifted to the northern part of the West Texas area today when it was reported that Honolulu Oil Corp., Ltd. and Cascade Petroleum Corp. No. 1 Duggan, Cochran county wildcat, had encountered an oil and gas showing. Gas estimated at 100,000 cubic feet together with a good showing of oil was struck at 5,025 feet in lime. Drilling had reached 5,028 at last reports. The showing in the Cochran test is the first it has found. Location is in the center of labour 13, league 55, Oldham county school land.

After setting 8-inch casing at 3,634 with 100 sacks of cement in the Terry county wildcat of Uscan and Illinois No. 1 Brownfield, operators found that gas believed originating in the Yates sand horizon near 3,150 was coming up around the pipe. It is not of sufficient volume to hinder operations, it was reported. Present total depth of the well is 3,650 in lime and anhydrite.

Foster Test Hits Gas Stanolind No. 2-B E. F. Cowden, wildcat a mile and a half northwest of production in the Foster pool of Ector county, struck 500,000 cubic feet of gas from 3,963 to 3,973, with oil showing from 3,968 to 3,973, and had tools blown up the hole by 2-1/2.

THOMASON WILL ADDRESS MASONS

Fest of The Tabernacle Observation Will Be Held Friday Night

Congressman R. E. Thomason of El Paso will be the guest speaker at the Feast of The Tabernacle, Masonic affair to be held here the night of October 1, officials said today.

Thomason will be principal speaker at the laying of the cornerstone for the Midland postoffice Thursday and will remain over for the banquet, he announced.

'Watch' Unions for Million a Year

Revelation that labor espionage has grown to be "big business" was made by officials of the Pinkerton National Detective Agency before the Senate Civil Liberties committee, when they stated that the company had collected \$1,000,000 in fees from large corporations last year. They testified that 200 of their undercover men were gathering information on union and radical activities. Shown here during the Washington hearing are Robert A. Pinkerton, agency president, left, and Asher Rossiter, vice president-general manager.

HUNDREDS VISIT FIRST NATIONAL REMODELED HOME

Crowds Continuing Investigation Of Site

Hundreds of customers, friends and interested spectators visited the newly remodeled home of The First National Bank of Midland Monday, the crowds continuing today, inspecting one of the most modern banking rooms in the state.

The occasion followed the removal over the weekend from their temporary quarters in the Nobles building which had been occupied for two months while the interior of the building was being refinished and new banking fixtures installed.

Officers and directors of the bank said today that they were deeply gratified over the interest shown by the general public. Floral offerings, telegrams and congratulatory letters, radio and newspaper greetings and other forms of tribute were paid along with the personal visitations.

No formal program was held in connection with showing the new quarters, but visitors were personally conducted by President Scharbauer, Cashier M. C. Ulmer, Assistant Cashier Jno. F. Butler and E. D. Richardson and other representatives of the bank. Uncle John Scharbauer, vice president and co-founder of the institution, greeted friends there throughout the day.

Fixtures of most modern type, rubber tile floor and novel ceiling and wall features have been installed in the banking room.

11 ARE CONVICTED FOR 'EXECUTION' OF CHARLES POOLE

Black Legion Group Found Guilty By Detroit Jury

DETROIT, Sept. 29 (P)—Nine men were convicted today by a circuit court jury in the Black Legion kidnaping and killing of Chas. A. Poole last May 12.

Seven of the defendants, including "Colonel" Harvey Davis, were convicted of first degree murder and two of second degree. The tenth defendant was acquitted.

Judge Joseph Moynihan later returned second degree murder convictions against two defendants who waived jury trial.

11 ARE DEAD FROM COLORADO STORM

Record Snowfall Grips State; Denver Is Hardest Hit

DENVER, Sept. 29 (P)—The death toll of Colorado's worst September snow storm today reached 11. Included among the victims was C. H. Childlaw, El Paso, pilot whose plane crashed.

Denver property damage alone was estimated to be near \$6,000,000.

New Postal Box Will Be Installed Here

According to postmaster John P. Howe, the Post Office department at Washington has notified that it will in the near future erect at the corner of Texas and Loraine streets, just on the north side of the new postoffice building, a new type mail box for the convenience of persons having mail to send off after the building will be closed at night.

The new type box will lean towards the street, thereby doing away with persons having to leave their cars to deposit mail in the box.

According to Howe, the box is the latest in construction and only a few so far have been installed in Texas.

ADMINISTRATION OF OFFICERS IS SUBJECT OF STUDY

'Impeachment' Talk Is Heard From Farmer

ALLRED PLAN UP

Suggests Borrowing \$3,000,000 from Highway Cash

AUSTIN, Sept. 29. (P)—The Texas house voted today, 80-48, to resolve itself into a committee of a whole to investigate the old age pension administration and to ascertain revenue needs for maintenance of the pension program.

The resolution was offered by Representative A. T. McKinney, Huntsville, who said that its primary purpose was to obtain facts to guide the legislature in levying pension taxes.

Representative Clarence Farmer, Fort Worth, supporting the resolution, charged the pension administration's "disregard" for the section of the law providing local pension authorities to determine the amounts of the grants was "worthy of impeachment."

A house committee investigation over "rumored" communist teaching in state colleges was proposed by Representative Joe Caldwell of Asherton.

Governor Allred said that many legislators had told him they favored his proposal that the pension fund borrow \$3,000,000 from the highway funds.

"I don't know where else we could get the pension fund which we must have before the money starts coming in from the new tax program, he said. Eating is more important than riding."

300 ARE ARRESTED ON NARCOTIC LAW VIOLATIONS IN U. S.

Illicit Stills Taken As Nation Clean Up Started

WASHINGTON, Sept. 29. (P)—Arrest of more than 300 persons on charges of violating narcotic laws and seizure of "several hundred" illicit stills were reported Monday by treasury agencies conducting a country-wide "clean-up" law enforcement drive.

The reports were preliminary, and the figures were expected to be pushed upward as additional field reports came in.

The treasury drive—one of its periodic broad offensives against narcotic and liquor law violators—got under way early this morning and was pushed vigorously throughout the day.

The largest number of narcotics arrests were reported in Texas, where 149 persons were taken into custody on narcotic peddling charges. A quantity of marijuana was seized at San Antonio, Texas, officers reported.

Among those arrested in Texas were two parole violators, officials said, while one parole violator was taken at Toledo, Ohio.

The narcotic war in Texas got under way simultaneously in Galveston, Beaumont, Houston, Dallas, Wichita Falls, San Angelo, the East Texas oil fields and in San Antonio.

Named in complaints in Dallas were Roy Hardin, Jim Hodge, D. B. Weber, H. W. Stone, A. C. Montgomery, Lonnie Cottle, Amos Grimley, and V. E. Sparks, all of Mount Pleasant; Clifford Humbird and Curley Crowder, both of Gladewater and G. J. Burnam, Lena Temple and Ruth Wilson of Tyler.

Week Opens Active In Cattle Trading

Cattle sales made early this week for immediate delivery were reported today as follows: Foy Proctor sold to Roy Adams of Tucson, Arizona, 300 head of heifer yearlings. Tom Nance sold to a buyer from Jackboro 100 head of steer yearlings. Foy Proctor sold to Henry Locklar 50 head of mixed calves. B. N. Aycock sold to Andrew Fasken 400 head of mixed calves.

RETURNS FROM VISIT

Mr. and Mrs. Bill Connor have returned from a vacation to Dallas and Fort Worth where they attended the Centennial exhibitions, and a visit with Mrs. Connor's people in Van Alstyne, her home. They also visited in Corsicana and Kilgore, and were gone for over a week.

## BOTH SIDES of the CAMPAIGN

Official views of the Republican and Democratic National Committees on leading issues of the campaign are presented by leaders of the two parties in this series of 12 articles, taking the place of Rodney Dutcher's Washington column during Dutcher's vacation. The Republican and Democratic arguments are presented on alternate days.

A hodge-podge, catch as catch can government has made it necessary for the new deal to create the most stupendous propaganda machine in the history of man.

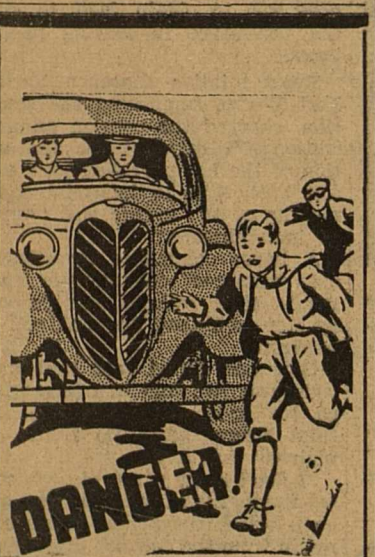

Employing nearly 7000 writers, research workers, and experienced newspapermen at an expense to the taxpayers running into millions of dollars a year, this huge machine is used by the new dealers to cover up their mistakes, to manufacture alibis for their president, and to defile their party in the eyes of the American electorate. Its entire purpose is political.

Governor Alf M. Landon, the republican standard-bearer, gave the reason for the machine's being when he declared, in his acceptance speech:

"Now is becomes our duty to examine the record as it stands. The record shows that these (new deal) measures did not fit together into any definite program of recovery. Many of them worked at cross-purposes and defeated themselves. Some developed into definite hindrances to recovery. They had the effect, generally, of extending control by Washington into the remotest corners of the country."

"The frequent and sudden change in the administration's policy caused a continual uneasiness. As a result, recovery has been set back again and again."

With the national debt at the highest peak in the country's history, with billions of dollars being spent in an attempt to provide relief, what justification can the

## Midland Steam Laundry

new dealers offer for dipping into the federal treasury and the relief funds themselves for the sole purpose of operating a machine to perpetuate the new deal in office? When voters realize the extent to which the new deal has gone they will all more understand why James A. Farley reported to President Roosevelt that only two million dollars in voluntary contributions to the new deal party's war chest would be required.

The taxpayers themselves are supplying the rest by supporting the propaganda machine, and they have no choice in the matter. The government simply collects the taxes from them. Whether they agree with the new deal or not they must submit to having the money spent on an organization which will tell them only favorable things about their government.

Use Many Agencies  
The new deal government propagandists utilize every avenue of publicity extant in putting across their story. They use the radio, moving pictures, billboards, posters, photographs, dioramas, exhibits, newspapers, and public speakers. The voting public is bombarded from every angle with the stuff.

The announcements issued within the Public Works Administration after three years' effort, completed "Techwood", its first government owned, low cost, slum clearance housing project in Atlanta, shows how the propagandists work. The PWA propagandists declared:

"Techwood means that former slum-dwelling families can move into fine, modern, well equipped homes."

The news release shows that the average rental per room in these homes will be \$7.39 a month. The PWA's own records show that slum dwellers who lived on the very site where Techwood is built could afford to pay no more than \$3.08 per room per month for the hovels they occupied.

The conclusion is inevitably reached that not only will no slum dwellers ever occupy Techwood, but that the government propagandists held out false hope to them from the start.

Army of Press Agents  
There are at least 1000 regular federal employes devoting their time to press agenticing the new deal to the voters.

A majority of these master propagandists are in Washington, where such organizations as the Resettlement Administration with 105 publicists, and the Social Security Board, with 75, grind out press releases, pamphlets, and sometimes even moving pictures.

They are selling the new deal to the voters at the voters' expense. Of all the new deal propaganda agencies, that of the Works Progress Administration, under Harry L. Hopkins, is the most comprehensive and efficient. Its personnel numbers at least 6000.

It spreads over the nation from administrative headquarters in Washington and has divisions and subdivisions in each of the 48 states. Under each state WPA administrator comes a WPA director of information, and under each information director is a director for the so-called WPA writers' projects.

The latter directors sometimes have as many as 100 reporters working for them.

Boost New Deal  
It is the duty of these propagandists, laboring in close contact with relief workers on WPA art, music, and theatrical projects, to produce material favorable to the new deal; to plant stories in newspapers and magazines; to publish pamphlets; produce radio programs build exhibits, and send out public speakers.

The new deal government has even provided them with a secretly distributed, 39-page manual, showing

## NEAR HALF-MILLION PERSONS VISIT 18 STATE PARKS LOCATED IN TEXAS

AUSTIN, Sept. 29.—Nearly 500,000 people, during the past three months, have taken advantage of recreation facilities in eighteen State Parks of Texas, where continued development is being carried on by the National Park Service and Texas State Parks Board in a combined area that aggregates in the neighborhood of 325,000 acres. Civilian Conservation Corps labor is being used.

During the same period, there have been 260,000 visitors at four Metropolitan Parks the National Park Service is developing, with the Bachman-Whitlock Park in Dallas leading. The attendance there has been 172,000. Lake Sweetwater ranked second among the metropolitan areas, with attendance of 88,000, and Lake Worth, in Fort Worth, with an attendance of 17,000 was third.

McKenzie State Park, near Lubbock led all State Parks in attendance, with over 237,000 visitors during the three-month period, ending September 1. Balmorhea was second with 27,000; and Bastrop 3rd with 24,000.

There is being carried to completion a chain of recreational areas that state officials believe will go a long way toward solving the problem of what people can do with their leisure. In this connection it is pointed out that in the two years the present development program has been under way, Texans have become "park conscious", and are taking advantage of these facilities in increased numbers each month.

One of the outstanding parks in the nation, both in area and natural scenery, is the Big Bend State Park in Southwest Texas. Covering over 250,000 acres, much of this vast wilderness was almost completely inaccessible when work was started on construction of roads and trails. A trail through rugged country to the south rim of the Chisos Mountains has unfolded a view that is somewhat comparable to the Grand Canyon—almost straight down 5,000 feet to the Rio Grande, and over mountain ranges into the Mexican States of Chihuahua and Coahuila.

The area now under development would form the nucleus of the proposed Big Bend National Park, whose establishment has been authorized by Congress after additional lands have been acquired by the State and ceded to the Federal Government. The ones of Dinosaurs, and other relics that have been uncovered will make this region, scientists say, one of the outstanding geological and archaeological classrooms of the world. The country has been described as being "alive" with various forms of wild life, including the Mexican cougar, Black bear, deer, antelope, badger, peccary, fox, beaver, and raccoon.

The 15,000-acre Palo Duro Canyon State Park, in the Texas Panhandle, is another of the unusual areas under development. Work has been completed on the Coronado Lodge, built into a ridge of the canyon so that its roof from the lower level of the park appears to form a portion of the canyon rim. Entrance roads have been constructed

ing them how to operate most efficiently every known method of propaganda.

This is propaganda raised to the nth power. The latest WPA propaganda scheme involves a contract for production of approximately 35 moving picture films at a cost of \$129,000 each, to be distributed among the states in the guise of newsreels. They will glorify, instead, the WPA projects, both the good and the bad.

Voters should ask themselves whether any government which has to resort to such tactics to present itself to the nation in a favorable light should long be continued in power.

NEXT: John Henry Bartlett, former republican member of the U. S. Civil Service Commission, tells of the civil service and "non-partisan" patronage under the Roosevelt administration.

grasses. Additional landscaping, including soil preparation and planting of trees shrubs, has been done over an area of forty acres. Two old and unsightly structures were razed, and the sites restored in a naturalistic manner.

A utility building of concrete foundation and frame construction has been completed. The facilities include, garage, shops, stalls for riding horses, sheds, and storage. This area has been enclosed with wire fencing on a concrete base.

Six drinking fountains of cut stone have been installed; a low-water crossing constructed, and eight fireplaces of cut stone placed in picnic areas.

Extensive developments at Garner and Mother Neff State Parks have made these areas particularly appealing to those seeking recreation in the out-of-doors. Garner Park, near Con Can, is named for the Vice-President. Mother Neff Park, near McGregor, is named in honor of the mother of former Governor Pat Neff, who is Chairman of the State Parks Board.

Other State Parks were development is being carried on are: Bonham, Lake Corpus Christi, Goliad, Fort Parker, Daingerfield, Lockhart, Cleburne, Tyler, Paris, and Kerrville.

A fourth Metropolitan Park, Tyrrell, is being developed at Beaufort. Improvements there have reached the stage where formal dedication ceremonies are scheduled for the near future, under auspices of the City Park Board.

### State Troopers Hailed; Capture Tame Bear

GROTON, Conn., Sept. 29 (UP)—State Troopers Roy Goodale and George Seidell are now the "big game hunters" of Connecticut's "finest." They went out bear hunting and brought a full-grown Bruin back alive.

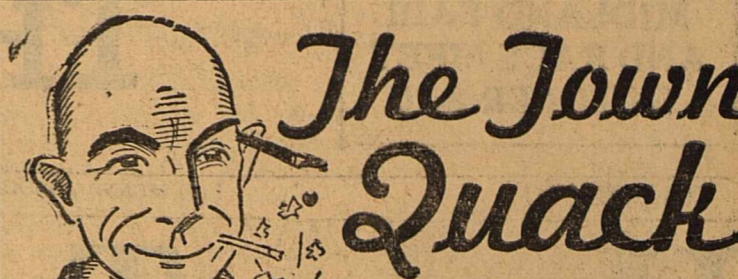

The bear, tired of maneuvering at the end of a chain, reared and dragged up the stake to which his bonds were attached. Leaving the Buddington game farm, the bear took to the woods. State Police were notified. Goodale and Seidell motored to the edge of the forest and with drawn guns penetrated the brush. A half hour later, the troopers emerged, their clothes torn from the brush and branches, leading the bear, who was fairly docile when approached.

### Reichsbank Building Largest in Berlin

BERLIN, Sept. 29 (UP)—The German Reichsbank is to be the largest building in Berlin.

When two extension buildings are completed within the next two years, the banking offices will enclose 600,000 cubic yards larger than the palatial new air ministry of 2,500 rooms.

The new Reichsbank also will surpass the Reichstag in size and will be more than twice as large as the former Kaiser's vast palace in Berlin. This palace occupies 320,000 cubic yards.

## The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything).

A preacher and a banker met on a train.

"So you're a preacher?" said the banker.

"Well, I must confess to you that I haven't been inside of a church since I started banking."

"You haven't anything on me. I haven't even been near a bank since I started preaching."

### Indian Village Ruins Are Found in North Carolina

CARRAWAY CREEK, N. C., Sept. 29 (UP)—Remnants of an ancient Indian village and burial ground have been discovered in a wheat field near here.

Archaeologists uncovered some crumbling skeletons and bits of bead ornaments in 35 burial pits. Post-holes in well-arranged lines traced the village stockade. Fire pits contained bits of pottery, animal bone and flint specimens.

The village is believed to be one described in old documents by a traveler who visited the section in 1701.

## Individual Program At Belle Bennett Circle Meeting

The Belle Bennett circle of the First Methodist church met at the home of Mrs. W. I. Pratt for one of the most unique programs of the year Monday afternoon at 3 o'clock.

In accordance with the course of study which is on racial understanding, it was arranged by the program committee for Miss Annae Mae Mathies, colored health nurse, to present the principal speech at the meeting.

Iota Jones, colored singer, sang "Take My Hand, Precious Lord," and "Singing In My Soul," selections by Thomas Dorsey.

Those who attended were Meses. M. V. Connor, Terry Elkin, George Glass, O. P. Hedrick, Joe Haygood, J. H. Rhoden, Rae Sindorf, J. M. Speed, M. Vaughan, Barney Grafa, Stacy Allen, and the hostess.

## WMU Begins Their 'Week of Prayer'

The WMU of the First Baptist church met at the church Monday afternoon at 3:30 and observed the first meeting of the "Week of Prayer" of the state missions.

Mrs. George Phillips was leader, and Mrs. J. M. White led the devotional. The subject of the meeting was, "Pioneers."

Mrs. Troy Eiland gave a talk on "The Purpose of the Week of Prayer," and Mrs. M. D. Cox talked on "First Fruits and Sketches of Pioneers," and Mrs. Eiland made another talk on the Butler Orphan's Home and the Baptist Hospital.

Approximately twenty women attended.

Joe Snyder of El Paso stopped for a brief visit with Mr. and Mrs. W. M. Schrock on their return trip home from Fort Worth.

## Top Hat and Tails

Top hat and tails, complete with mannish gold fob, for a lady to wear to luncheon and tea is Maggy Rouff's idea for novel smartness. It is a swallowtail suit in cypress green broadcloth with velvet bodice. Agnes' green felt hat with high crown tops it off. Whatever else may be said about it, it upsets the theory of cynics that this fall's clothes look just like last year's.

## McCamey Club Will Hear Watsons on Air

Miss Lydia Watson and Mrs. Ned Watson broadcasted from the Midland station, KRLH this afternoon at 4:30 to the women attending the formal opening of the McCamey Study Club.

From 4:10 to 4:20, Mrs. T. Y. Casey, president of the 8th district of the Texas Women's Federated Clubs, spoke from the Pecos Station, KIUN, to the McCamey club women.

It was the first time in the history of the club that such an interesting and unique program had ever been completed, and it was also a fine demonstration of cooperation on the part of the towns and respect for the work of the club.

Miss Watson is vice-president of the 8th District, which was formed from the 6th, one of the largest club district in the world until recently.

## Business Women Banquet at Hotel

The Business and Professional Women's club was entertained at a banquet in the private dining room of the Scharbauer Hotel Monday evening at 7:30. Miss Fannie Bess Taylor, president of the club, was hostess at the dinner.

Wallace Wimberly entertained after dinner with several piano selections.

The guests who were present at the dinner were Mrs. J. L. Rush, and Miss Elizabeth Riffie, who has recently moved to Midland from Kansas City, and Wallace Wimberly.

The members who attended were Misses Lotta Williams, Elma Graves, Lydia Watson, Maria Spenser, Laura Jesse, Bertha McGrew, Fannie Bess Taylor, Juanita Perkins, Virginia Loughlin, Eva Batchelder, and Mrs. Suzie G. Nobles, and Mrs. Iva Noyes.

## Fried Fish Divided To Settle Argument

MAYNARD, Mass., Sept. 29 (U.P.)—A fish caught here had to be divided equally before an argument among its owners could be settled.

John Zaniewski and Stanley Vodka were fishing in a lake when a fish grabbed both their hooks. Each claimed the fish.

They settled the argument by cooking the fish and each taking half.

## Rijnhart Circle Meets Monday

The Rijnhart circle met at the First Christian church Monday afternoon at 3:30. Mrs. George Ratliff taught the lesson which was taken from the first fourteen chapters of Jeremiah.

The following members attended: Meses. S. P. Hall, W. W. Brunson, Billy Varner, J. E. Pickering, F. P. Elkin, Jones, J. T. Ragsdale, B. W. Reecer, George Ratliff, John Crump, George L. Wright, B. W. Stevens, Snyder, and Wade Heath.

## Dr. Waldo Leggett On Health Program

The weekly health program will be presented over station KRLH Wednesday morning at 10 o'clock.

Dr. L. Waldo Leggett will speak on the subject of "Scarlet Fever, the Transmission, Care, and Prevention."

Two musical numbers will be presented by Mrs. George Bennett and Miss Jean Williams, accompanied by Mrs. Lee Cornelius.

Rev. E. P. Harrison O. M. I. will announce the program.

**Slacks Irk Diner**  
LONDON, Ont. (U.P.)—Declaring that the sight of a woman's "bare back" takes away his appetite, a London man demanded that Railway Commission officials here forbid women attired in slacks and halters from entering the London & Port Stanley cafeteria.

**ANNOUNCEMENT**  
Mrs. J. R. Leonard announces that her classes in piano and voice will open about the middle of October or the first of November at her home, 1209 West Indiana. She holds the Masters Degree in Piano, has had 20 years teaching experience, has studied with the leading teachers of Texas and has had special work in the University of Kansas. For further information phone 367.

## Attractive Program At Church Auxiliary

The Presbyterian Auxiliary met at the church Monday afternoon at 3:30. Mrs. S. S. Stinson was leader.

Mrs. Paul Young, Mrs. Arthur Stout, Mrs. W. L. Miller, Mrs. Helen Jameson, and Mrs. Jimmy Greene were on the program, which was on the subject, "Bringing the Bible or Religion to the Child and Youth."

Betty Jo Greene played an organ solo.

The attractive refreshment plate was served by the two hostesses, Mrs. J. Greene, and Mrs. J. P. West, to the following members: Meses. Doran, S. S. Stinson, J. G. Gossett, W. L. Miller, Harry Adams, Butler Hurley, O. L. Wood, Armstrong, Andrew Fasken, Jimmy Kendricks, Arthur Stout, Paul Young, Ruby Braden, J. M. Caldwell, H. O. Ward, O. C. Harper, B. L. Hoffer, John Perkins, R. J. Downey, A. P. Shirey, Tom Sealey, Lem Peters, Biggs, H. C. Wheeler, Duke Kimbrough, Hayden Miles, Orr Holzgrah, Fredregill, T. R. Wilson, Stookley, Judge Knowles, Laura Hitchcock and Helen Jameson.

## The Mary Scharbauer Circle Meets Monday

The Mary Scharbauer circle of the First Methodist church met at the home of Mrs. Lancaster Monday afternoon at 3 o'clock.

Mrs. Mary S. Ray opened the meeting with the devotional and the opening prayer was led by Mrs. M. J. Allen.

Mrs. L. L. Payne was in charge of the third lesson of the Mission Study Course now in progress in the club. Others who took part on the program were Meses. Jackson, J. M. Prothro, and M. J. Allen. Those divisions were, "The Contribution of the Negro," and "Some Portraits of Negro America."

Those who attended were Meses. W. A. Black, B. J. Voliva, Mary S. Ray, Pollard, L. L. Payne, Ellis Connor, Holt Jewell, M. J. Allen, Otis Ligon, C. C. Watson, J. M. Prothro, Jackson, and Lancaster.

It was announced at the business meeting that the circle would sponsor another bake sale at the Hokus Pokus next Saturday. The club will meet next Monday with Mrs. Ellis Connor.

## SYDNEY CELEBRATES BOOM

SYDNEY (U.P.)—Sydney is making no secret of the fact that it is out of the depression. In fact, it is celebrating the event. Cafe, restaurant and hotel keepers declare that champagne is now flowing more freely than before the war. The number and extent of parties exceeds all previous records.

Mr. and Mrs. Dick Brownfield of Brownfield, Texas are business visitors in Midland today.

# Lucky for You

## — It's a Light Smoke!

### Experienced smokers know why

Those who've been smoking for years and years—experienced smokers—they are the ones who know best of all why it's such a fine idea to stick to a light smoke... always! Actual smoking has shown to them the extra joy in a *Lucky Strike*... made from the choice center leaves of the finest tobacco that money can buy. And actual smoking has proved to them what Luckies' exclusive process, "It's Toasted," means in throat protection against irritation and cough. If you're not already smoking Luckies, buy a pack and try them. You'll discover why experienced smokers advise a light smoke—a Lucky.

★ ★ NEWS FLASH! ★ ★  
Over 6,500,000 "Sweepstakes" entries in one week!

More than 6,500,000 entries were received in one week of Your Lucky Strike "Sweepstakes." People all over the country are getting real fun out of this great national cigarette game. Thousands of others have been given employment as a direct result.

Have you entered yet? Have you won your delicious Lucky Strike? There's music on the air. Tune in "Your Hit Parade"—Wednesday and Saturday evenings. Listen, judge, and compare the tunes—then try Your Lucky Strike "Sweepstakes."

And if you're not already smoking Luckies, try them, too. Maybe you've been missing something. You'll appreciate the advantages of Luckies, a Light Smoke of rich, ripe-bodied tobacco.

PROTECTION AND PLEASURE... Enjoy both in a light smoke!

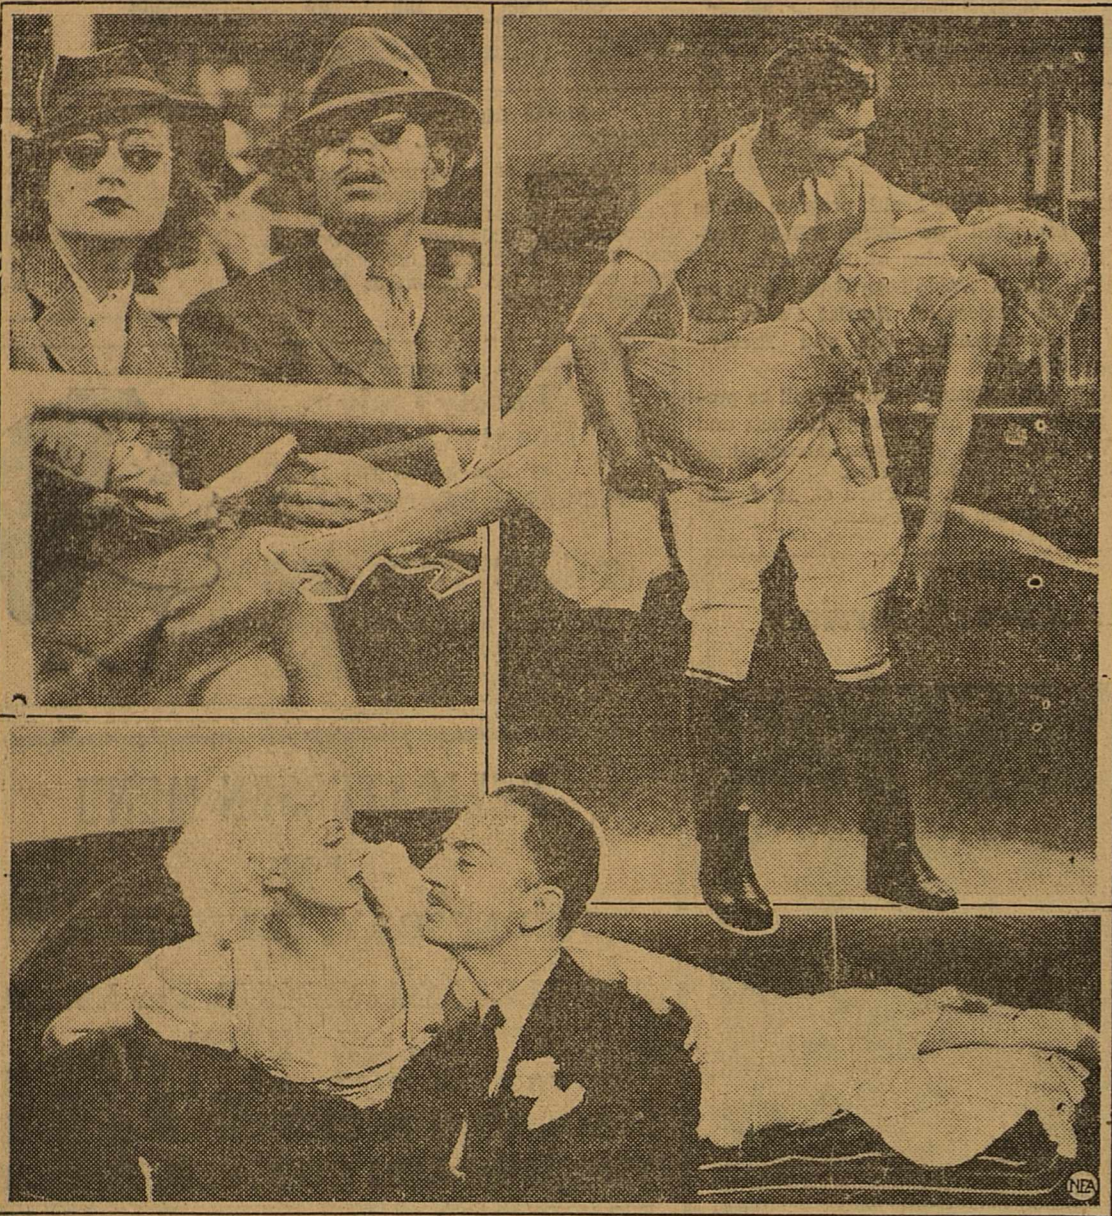

Good judgment—as well as good taste—suggests a light smoke. For remember... that famous Lucky Strike process, "It's Toasted," offers you throat protection against irritation, against cough.

# Luckies — a light smoke

OF RICH, RIPE-BODIED TOBACCO — "IT'S TOASTED"

Well, Just Who IS 'That Way' About Which?

Goodness, but love is confusing! Hollywood was sure there was no disguising that freshly blossomed romance between Carole Lombard and Clark Gable when they were seen behind dark glasses at the Los Angeles county fair the other day, as shown upper left. But film fans who had seen Gable co-starred with Jean Harlow last year had burned in their memories scenes like the one upper right. Truth is, though, that Jean's current heart interest is Carole's ex-husband, Bill Powell. This indicates that all might not have been histrionics when Clark Gable's present best girl's ex-husband enacted the love scene below with filmom's blond glamour girl.

Passes Campus Style Test

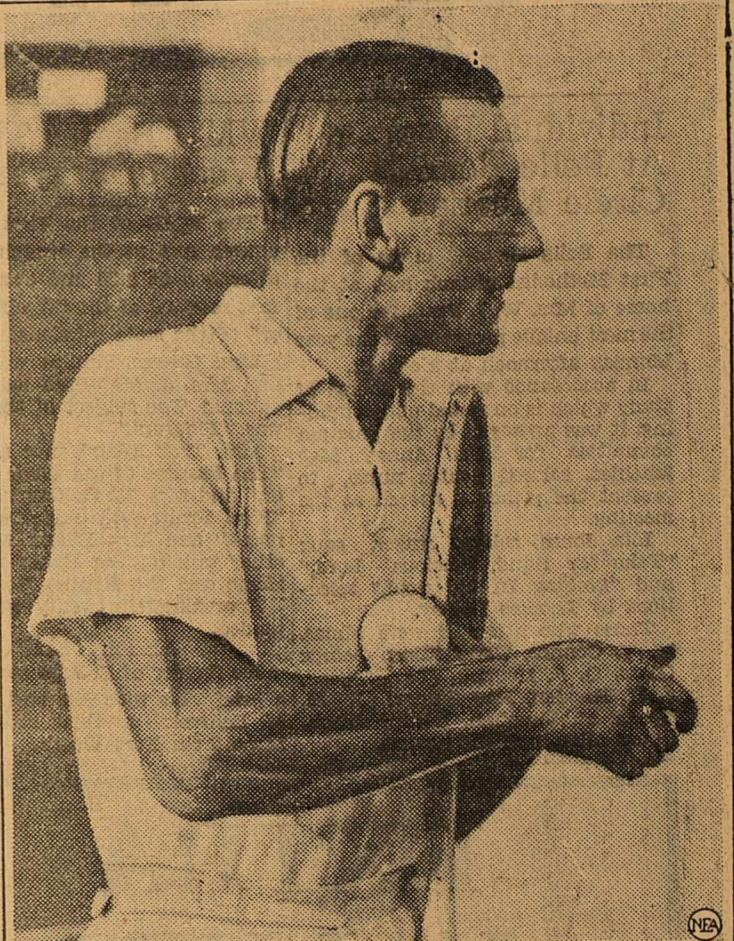

WHEN you look over the campus wardrobe possibilities it will be poor judgment to overlook this simple afternoon dress. Of rough silk crepe in suave black, it has shirred details on the shoulders and soft gores in the front of the skirt. Large turquoise stones, set in silver, make the neckline trimming and matching belt buckle.

Only Ex-Champion

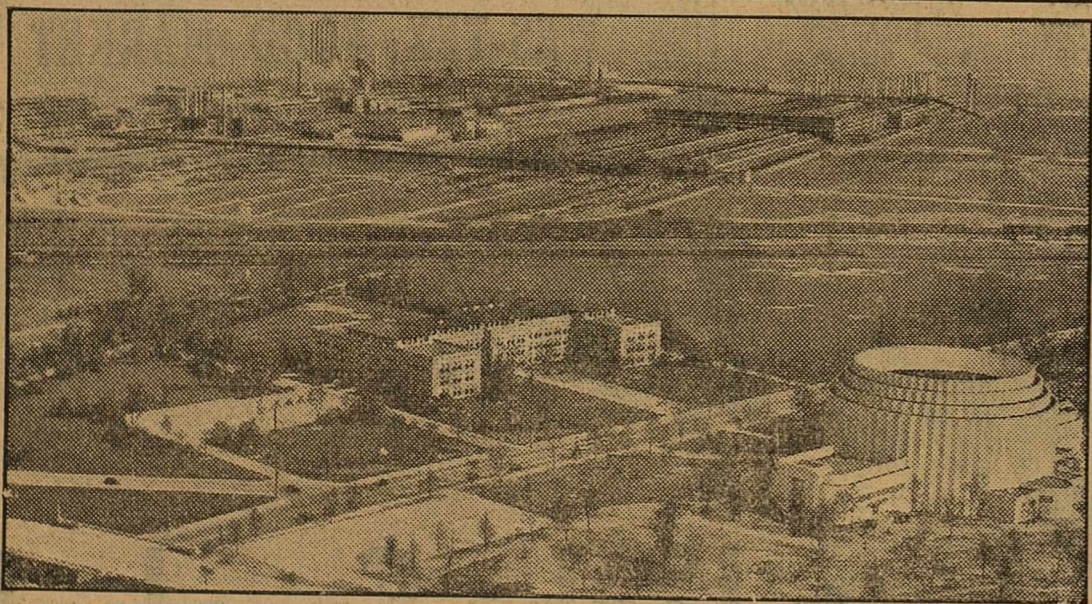

With Mrs. Glenna Collett Vane and Virginia Van Wie in retirement, Mrs. George Henry Stetson, above, of Abington, Pa., is the only former titleholder competing in the women's national amateur golf championship over the Canoe Brook Country Club course, Summit, N. J., Sept. 28-Oct. 3. Mrs. Stetson won the crown in 1926.

Forearmed Is Forewarned

No village smithy laboring under chestnut trees can boast of the powerful forearm development that Fred Perry, British tennis ace and world's No. 1 player, displays in the above photo. The secret of the Briton's amazing speed on the courts can be seen in the rippling cords flexed in the picture.

World's Largest Factory Seen From Air

THIS AERIAL PHOTOGRAPH gives an interesting view of the Ford Motor Company's vast enterprise in Dearborn, Michigan. In the right foreground is the beautiful new Ford Rotunda, built for the convenience of visitors. Since the Rotunda was opened May 16 last more than half a million people have passed through it. The Ford Administration Building is immediately across Schaefer Road from it. In the background is the Ford Rouge plant, largest industrial establishment in the world. The new steel mills are at the top right of the photograph. More than 70,000 men find employment in operating the Rouge plant at the usual production rate of 5,000 to 6,000 Ford V-8 units a day.

Off Record With Giants

Giants in odd moments—Frank Gabler autographing; Joe Moore reflected while shaving; Burgess Whitehead writing home; Carl Hubbell reading.

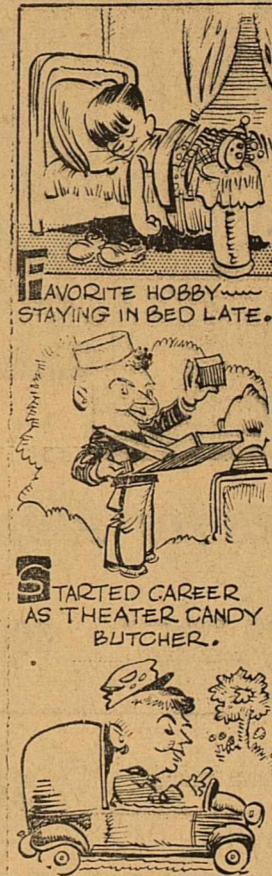

Lemke Cruising to Win Votes

A new kind of campaign "tour"—by boat down the Illinois and Mississippi rivers—is being tried by Representative William Lemke, Union party candidate for president. Lemke is seen at the rail of the packet, Golden Eagle, at Peoria, Ill., as the campaign cruise started. Stops will be made for speeches at river towns.

LITTLE GIRL GIVES "BIG HAND" TO AIR-CONDITIONED TRAINS

Baby Ruth Cameron, 6-months-old, is shown with her mother enjoying her specially prepared dinner on a Western dining car. Below she's seen ready for the sandman's visit to her cool Pullman berth.

Heat No Threat on Western Train

Chicago.—A 6-month-old baby's-eye view of a cross country trip on an air-conditioned western train! Recently a young mother, having returned with her baby from the west coast to her home in a large midwestern city, was delightfully impressed with the comfort which her tiny offspring enjoyed on the train while traveling through country that fairly blistered with heat. She wrote to Chairman Harry C. Taylor of the Western Association of Railway Executives suggesting that someone write the impressions of a baby traveling on a modern train.

A railroad man of modest writing pretensions has attempted this far-flung piece of imagination. Here's an excerpt from this unique diary: "End of second day: Mother says it's wonderful. Not a yell out of Toodles—that's me—since the trip began. I slept last night like a top. The man in the berth across the aisle is a crusty bachelor. I could

see when he looked at me at first that he expected I would cry most of the night. But I disappointed him. The air in the car was so cool and fresh, and the riding was so smooth in spite of the great speed, that I guess I just dropped off to sleep without knowing it and didn't wake up until morning. Mother, too, looks fresh as a daisy."

The introduction of air-conditioned equipment throughout the Western Railroads has had a decided influence on the travel habits of parents of young children. Many who, heretofore, have had to forego long vacation jaunts because Junior could not stand the hardships encountered by a train trip have found that youngsters thrive in the perfectly conditioned and cleansed atmosphere of today's trains.

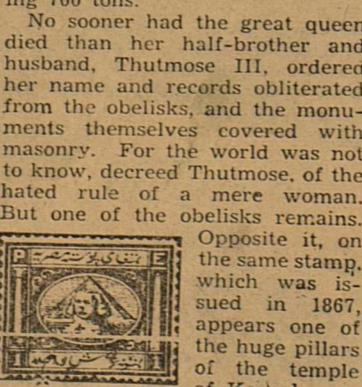

STORIES IN STAMPS

By I. S. Klein

OBELISKS BUILT BY A WOMAN

ON one of the earliest stamps of Egypt appear the great Sphinx and a Pyramid, known so well in history. But to the right of these, merely as an ornament, stands a great monument to Queen Hatshepsut, perhaps the first important woman in history. Queen Hatshepsut ruled Egypt about 3400 years ago. To leave a lasting mark of her fame to the world, she had two massive obelisks cut from the granite quarries of the Upper Nile, towed down-stream for 150 miles and set up in the court of the huge temple of Karnak at Thebes. Nearly 1000 slaves, in 30 boats, drew the barge on which lay these pillars, weighing 700 tons.

Spanish Masterpieces Go Up in Smoke

The dismaying loss of life in Spain's civil war is rivaled only by the tragic destruction of the priceless art treasures at the hands of anarchist vandals. Raiders stand complacently by while flames lick at a fortune in masterpieces stripped from churches in Barcelona.

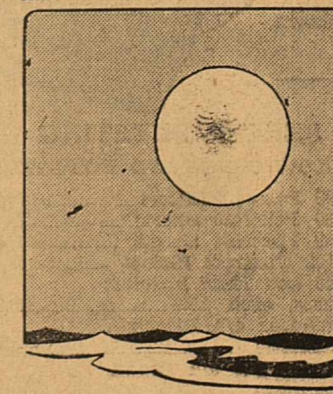

Wells Writes Own Obituary

H. G. Wells, famed English author, just turned 70, will die at 97, his fortune of \$1,000,000 gone—according to his obituary—written by himself and just made public in London. In whimsical vein, the noted writer discounted his accomplishments and expressed doubt that he would be long remembered.

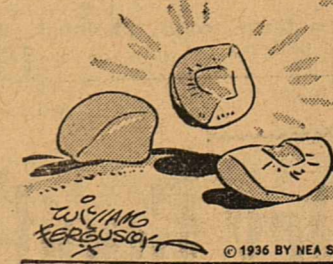

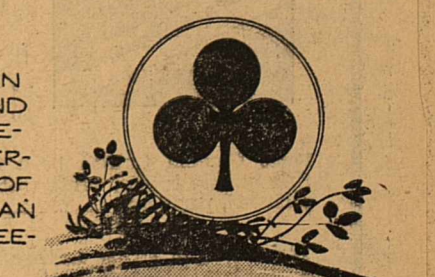

THIS CURIOUS WORLD

By William Fergusson

ALTHOUGH IT IS THE MOON THAT CAUSES THE TIDES, HIGH TIDE DOES NOT OCCUR WHEN THE MOON IS DIRECTLY OVERHEAD! THE TIDES LAG BEHIND, DUE TO INTERFERENCE FROM THE EARTH'S LAND AREAS.

THE WORD "CLOVER" COMES FROM THE LATIN WORD FOR "CLUB," AND REFERS TO THE THREE-HEADED CLUB OF HERCULES! THE CLUBS OF PLAYING CARDS ARE AN IMITATION OF A THREE-LEAFED CLOVER.

A JUMPING BEAN IS NOT A BEAN AT ALL! IT IS ONE OF THE THREE DIVISIONS OF THE FRUIT OF SPURGE, A PLANT OF MEXICO.

JUMPING beans jump because of the presence of a caterpillar on the inside. The caterpillar jumps in order to move the bean from sun-exposed spots to shaded places. The worm is able to guide the bean and if it realizes that it is going in the wrong direction, it immediately turns in the other direction.

**Oil News--**  
(Continued from Page 1)

200,000 cubic feet of gas from 3,973 to 3,975. Crew was reported going to cut the drilling-line preparatory to fishing out the stuck tools. The amount of gas in the No. 2-B is far greater than that ever developed by any of the tests in the main body of the pool and has thrown a favorable light upon the area under the extension test.

In the pool, York & Harper No. 1 Witcher, which encountered a small amount of sulphur water by drilling to 4,406 had not completely shut off the water by plugging back to 4,218 and was driving more lead work. The well will be plugged back to 4,200 unless a shut-off is secured below that depth. It will later shoot and probably be treated with acid.

Also in the Foster pool, Barnsdall No. 2 H. C. Foster is rigging up standard tools after setting 7-inch casing at 3,849 with 100 sacks of cement.

Sinclair-Prairie No. 1-A Johnson, wildcat five miles north of the Foster pool, is drilling at 4,210 feet in lime with no shows reported.

Gulf No. 8 Goldsmith tanked 608 barrels in 24 hours after shooting and treating with acid. Gas volume is 43,995,000 cubic feet, and operators will kill the well and try to cement off some of the gas flow.

York & Harper No. 1 Slater, wildcat well of the Goldsmith pool, is drilling at 3,860 feet in brown lime.

**North Winkler Wildcat**  
Fast drilling time reported from 3,120 to 3,140 in Bert Fields, A. W. Cherry et al No. 1 Lum Daugherty, closely-watched north Winkler wildcat, led operators to believe that the bit had penetrated a pay section. The well is being drilled in with heavy rotary mud, and the extent of the showings will not be known until hole has been unloaded and a test made. It previously reported gas at 2,945 and oil and gas at 3,050 to 3,055. Location is in section 3, block 73, public school land, two miles north of the Leck pool and two miles south and a mile east of the Eaves area in Lea county, N. M.

Potential gauge will probably start today on R. H. Henderson No. 1 Daugherty, new extension producer a half-mile northwest of previous production in the Henderson pool of Winkler. The new Henderson well, rated at 5,000 barrels or better after acidizing with 2,500 gallons, will force offsets by Sinclair-Prairie to the south, J. C. Maxwell to the north, and Usan Oil Co. to the east. Usan has already staked locations for its No. 1 Daugherty and is moving in to the No. 1, 330 feet from the east, and 2,310 from the north line of section 33, block 74, public school and, two locations east of the Henderson well.

**Visitors**

Continued From Page One

group who with grace, and with a firm hand, presided over the session; the students who made nominating speeches as they nominated candidates for the various offices, and above all the dignified behavior of the three hundred enthusiastic students who composed the audience.

The nominations concluded students and teachers fled to their respective rooms to take up the regular class work. A group of students co-operating with the principal will prepare stencils and print the ballots after which the balloting will be done in the respective home rooms.

What an effective manner of teaching government! We feel sure that the results of the elections will be announced in due course.

We cannot give the names of the faculty nor of the students, but we can not resist saying that Midland High School impresses us as being a thoroughly organized, smoothly functioning business—perhaps the biggest business of the town, as to departments of work and of finances involved in the management, to say nothing of the tremendous human equation concerned.

According to surveys, modern babies eat about four times as much food as did their parents when they were infants.

**Cole Bros. Circus Will Appear Here For One-Day Show**

The Cole Bros. circus, one of the largest of present day shows, will appear in Midland Tuesday, October 13, for a one-night stand.

The circus features Clyde Beatty, world's outstanding wild animal trainer, and his wife, Harriet, also an outstanding female trainer. The Beattys will have with them their large menagerie of trained animals.

The circus will come here directly from El Paso and lack of time will prevent them from presenting more than one show in the city.

A mammoth parade will be held on the streets of Midland at five p. m. the day of the showing. Hundreds of performers and animals will be in the parade through the city. Approximately 30 elephants are among the other animals of the company.

Boasting of a tent that will amply hold 10,000 people, directors of the show are confident of attracting great numbers of persons from the surrounding areas, they said.

Trapeze artists, clowns, trick riders and jumpers are among a few features of the company.

The show has appeared in all of the largest cities of both America and Europe, and this year is the first that it has ever made a tour of the western states.

**Michigan Will Trap And Transplant Moose**

HOUGHTON, Mich., Sept. 29 (U.P.)—The moose population in Michigan's upper peninsula will be boosted again this winter if plans of the Michigan State Conservation Department are approved by the National Parks Service.

Department officials are awaiting sanction to start a \$5,000 project for transplanting moose from heavily populated Isle Royale to Michigan mainland. The proposed program allows for the moving of 50 to 60 animals.

Trapping of live moose necessitates the isolation of a small cove on the island throughout the winter months. This crew sets the traps, takes care of the corrals, and feeds the captured animals. In early spring the moose are taken to the mainland and released.

**Showing at Ritz**

Gail Patrick and Lew Ayres are featured in "Murder With Pictures" baffling mystery story, showing today and tomorrow at the Ritz Theatre.

**BAIT HUNTED; PEARL FOUND**

FORT WORTH (U.P.)—R. A. Ryan of Fort Worth searched for fish bait and found a rare pearl. Digging near his home, Ryan uncovered a mussel. Out dropped a pear-shaped pink pearl. Jewelers declared the gem was valuable—how valuable depended upon their ability to find others matching it.

**McCLINTIC BROS.**

Authorized Fairbanks-Morse Dealers  
Moved to 310 West Texas  
Eclipse Windmills, Hammer Type Feed Mills, Water Systems, Electric Light Plants, Electric Refrigerators, Dexter Washers, Wagon and Stock Scales, The Z Engines, most dependable for all purposes.

**Aerial Photography Aids Check on Soil Program**

WASHINGTON, Sept. 29 (U.P.)—Aerial photography is being used by the Agricultural Adjustment Administration in checking whether farmers are complying with the government's soil conservation program.

Photographs taken from planes are used to check land measurements, thus eliminating tedious measuring on foot. Instruments used on the aerial photographs calibrate the measurements.

**UNDERGOES OPERATION**

Mervin Holcombe and daughter, Dorothy, returned Monday night from Lubbock where Mrs. Holcombe is recovering from effects of an operation sustained that morning.

**RETURNS HOME**

Mrs. Bill Collins, wife of the secretary of the chamber of commerce, returned Monday after a month's visit with relatives in Chicago.

**Constipated 30 Years**

"For thirty years I had stubborn constipation. Sometimes I did not go for four or five days. I also had awful gas bloating, headaches and pains in the back. Adierka helped right away. Now, I eat sausage, bananas, pie, anything I want and never feel better. I sleep soundly all night and enjoy life."—Mrs. Mabel Schott. Give your bowels a REAL cleansing with Adierka. Get rid of GAS.

**Fall Meeting--**

Continued From Page One

ishing Allowable per well, Acreage and Potential factors, Well Spacing, Ultimate Gas recovery per acre, estimation of Reserves and round table discussions on engineering education, cooperative education for the oil industry, employment of young engineers. **HUMBLE... like the farmers and ranchers of Texas... keeps step with the times**

Texas was wholly an agricultural and ranching country in the far off days of its beginnings, but its farms were few and scattered, its cattle half-wild. Since then, year after year, the plow and the branding iron have been twin symbols of Texas progress. Farm and ranch have done right well by Texas!

**LIKE THE TEXAS FARMER** and the Texas rancher, the Humble Company has never been satisfied to stand still. Every day, Humble technicians are on the alert to find some way to better the Humble products you use. With far-reaching resources of crude stocks to draw on, with the most modern refinery equipment at their disposal, they are able to furnish you with motor fuels and motor oils which are practically perfect for today's automobiles.

We promise you that you will always find Humble motor fuels and Humble motor oils second to none. We ask you to try them, to test them the sure way, in your car. We know you'll like them because we know—continuous improvement keeps Humble ahead.

**HUMBLE OIL & REFINING CO.**  
A TEXAS INSTITUTION MANNED BY TEXANS

1836 TEXAS 1936

At the Centennial Exposition, Dallas-Humble's Hall of Texas History

You are cordially invited to visit the Humble Exhibit at the Central Centennial Exposition in Dallas. Striking dioramas recreate dramatic moments and vivid episodes from Texas History. See the battle of the Alamo, the capture of Santa Anna, the prisoners of the Mier Expedition drawing the black beans, the battle of Sabine Pass, Colonel Goodnight treating with Comanche Quanah Parker. Then see and listen to the story told by the rocks of Texas, and how Texas oil is drawn from many thousands of feet under the ground. On your way to and from Dallas—stop for service where you see the Humble sign.
