## Bad Crop Year Reflected In Area Banks

### Both Deposits, Loans 'Lag' In Entire Area

Severe crop losses in the area have apparently affected the eight banks surrounding Muleshoe, as they reflect a growth of \$354,534 during the past year. Deposits on December 31, 1989 in the banks was \$245,488,057, compared to \$245,133,523 for the same time in 1988.

At the same time, loans at the same banks grew by nearly \$3 million.

Loans closing out 1989 were \$114,895,179, an increase of \$2,811,799 over the \$112,083,380 of a year ago.

Locally, Muleshoe State Bank and First Bank of Muleshoe, combined with First Bank of Bovina, showed deposits totaling \$81,674,000 closing out December, 1989. This is down \$1,354,000 from the \$83,028,000 shown on deposit on December 31, 1988.

Loans at the same three banks rose by \$1,103,000 for the same period. Loans on December 31, 1988 were \$45,292,000, and had increased to \$46,395,000 to end 1989.

Both deposits and loans show a decrease at Muleshoe State Bank during the past year. Deposits were \$34,667,000 at the end of 1988 and had decreased by \$940,000 to \$33,727,000 on December 31, 1989.

Loans were \$21,741,000 at the end of 1989, down by \$696,000 from the \$22,437,000 reported on December 31, 1988.

For First Bank of Muleshoe, combined with First Bank of Bovina, deposits decreased during the past year, but loans were increased.

Deposits were down \$414,000, with total deposits of \$47,947,000 shown for December 31, 1989, compared to last year's ending total of \$48,361,000.

Loans for the two banks increased by \$1,799,000 during the year, with December 31, 1989 totals showing \$24,654,000, compared to the \$22,855,000 at the Cont. Page 6, Col. 4

### Journals, PPA To Give Scholarships

As *The Muleshoe Journal* and *Bailey County Journal* meet all state and federal requirements as required to be a legally recognized "newspaper," certain benefits go along with the designation.

For one thing, *The Journals* are eligible to be members of professional journalism organizations.

In conjunction with these organizations, area youth can thus benefit through several scholarships offered each year.

*The Journals* and the Panhandle Press Association are now accepting applications from graduating seniors for a \$500 scholarship.

The graduate must major in newspaper journalism at any college. Last year, three area young people benefitted from the PPA scholarships.

Now in its fifth year, the scholarship is paid at \$250 in each of the first two semesters of the college freshman's first year.

Selection of the recipient will be based on the following criteria:

1. Contribution to school and/or community publications.
2. Academic accomplishment. A minimum GPA of 85 is required.
3. Interest in and commitment to majoring in newspaper journalism in college.
4. Financial need to be classified great, average or slight by the nominating community newspaper publisher/editor.
5. Citizenship and character.
6. Determination to succeed, as shown by qualities such as dedication, a positive approach, a willingness to go beyond what is expected.

Any graduating senior in the area is eligible. Contact *The Journal* or your high school counselor for an application form which must be returned to PPA by *The Journals* before April 1.

ALL REGION BAND MEMBERS FOR 1990--Last weekend, members of the Muleshoe Mighty 'M Band traveled to Lubbock to tryout for the All-Region Band. The students shown were chosen. They will be in concert this weekend in Lubbock. From left, standing are Amanda Ashford, Brenda Mudgord, Jenny Bennett, Michelle Finney, Sharla Evins, Kelly Conklin and Ronnie Gail Barrett. Kneeling from left are Jeremy Bruns, Blain Ferris and Jimmy Johnson. (Journal Photo)

## Lambert's Grandson Participated In Recent Panama Invasion

(Editor's note: Major Joe Bob Stuka, a pilot with the 317th Tactical Airlift Wing, Pope AFB, N.C., was a part of the recent Panamanian invasion. He is the grandson of Bill and Edith Lambert of Muleshoe, and a Muleshoe native. Below are some of his comments taken from various publications, including *The Air Force Times* following the Panama invasion.)

"To members of the 317th Tactical Airlift Wing at Pope Air Force Base, the heavy ground

fire looked like "fireflies" and the "Fourth of July" in Tuesday night's drop of 82nd Airborne Division paratroopers in Panama.

"They had some bullets coming up," said Maj. Joe Bob Stuka, a pilot with the 317th Tactical Airlift Wing from Muleshoe, Texas. "Everybody has been to a Fourth of July. Just realize that some of the things at the end of those flashes can hurt you. You just try to stay away from them."

"A number of the 317th's C-130 Hercules transports were

hit by ground fire, including Major Stuka's plane and a plane flown by Maj. William J. Viherok of the 39th Tactical Airlift Squadron.

## Drought Act May Cause Tax Problems

Payments under the 1989 Drought Assistance Act may be taxable, according to Dr. Wayne Hayenga, a management economist with the Texas Agricultural Extension Service.

Hayenga said a cash-method farmer can elect to defer reporting the receipt of crop insurance and certain federal disaster proceeds from the year in which the crops are destroyed or damaged until the following year, under Code Sec. 451(d).

"In regard to federal disaster proceeds, Code Sec. 45(d) specifies that it relates only to payments received under the Agriculture Act of '49 or Title II of the Disaster Assistance Act of '88," Hayenga said.

But what about the Disaster Assistance Act of '89? Since a literal reading of Code Sec. 451(d) would exclude payments under this provision from the year-end deferral rule, it seems improbable that IRS would allow payments under the '89 Act which are actually received in '89 to be deferred until '90, Hayenga said.

The economist said following the enactment of the Drought Assistance Act of '88, Congress amended Code Sec. 451(d) to make it applicable to Title II of the '88 Act. The '89 Revenue Reconciliation Act as approved by the Senate Finance Committee would have amended Code Sec. 451(d) to make it also apply to the Disaster Assistance Act of '89.

However, this provision was knocked out on the Senate floor prior to final passage of the tax bill, Hayenga said.

"No amount is payable under the Drought Assistance Act of '89 until an application is filed and approved. Farmers have until March 31, 1990 to file applications," Hayenga said.

He said it is unclear whether IRS will try to apply the doctrine of "constructive receipt."

"In other words, IRS might Cont. Page 6, Col. 1

## Muleshoe Drops Back In Sales Tax Rebate

State Comptroller Bob Bullock said Friday that strong retail sales in November resulted in a 10 percent increase over last January's sales tax rebates to cities and counties.

"Texans continue to be optimistic about the state's economy and this month's healthy payments are proof of that consumer confidence," Bullock said.

January's payments to cities totaled \$70 million, almost 10 percent more than last year's figure of \$64 million at this time,

Bullock said.

However, Muleshoe did not share in that increase, instead, reflecting a decrease of 6.41 percent in the first check for 1990. They received a net payment this period of \$15,442.82, compared to the 1989 payment of \$16,500.74.

Morton shows a 'hefty' 29.69 percent increase over last year's payment. They received \$3,695.05 in January last year, and this was increased to \$4,792.29 this year.

For Littlefield, the increase was 3.24 percent. They received \$15,402.74 for their current payment, compared to the \$14,918.85 of a year ago.

From Friona, is the report that they had an increase of 0.87 percent in their sales tax rebate check. They received \$7,214.50 for the current payment, compared to \$7,151.94 received for the same period a year ago.

Houston received \$11 million, the state's largest payment and an increase of more than 10 percent over last January's amount. Dallas received the state's second largest payment of \$7.7 million. San Antonio received \$4.1 million and Austin received \$3.2 million.

Payments to counties totaled \$7.2 million this month, compared to \$6.1 million last January. The 18 percent jump over last January's payments is partly due to the increased number of counties collecting sales tax now, Bullock said.

Merchants collect the state, city and county sales taxes and send them to the Comptroller's office with their tax returns. The state keeps its six percent share Cont. Page 6, Col. 3

\*\*\*  
*The Anchor Bros. Band* of Sudan will be joining other gospel groups at 7:00 p.m. Sunday in the Ag Center at Littlefield for a "Praise Gathering."

There will be no admission to attend the gospel singing group at Littlefield.

\*\*\*  
Educator of the Week at Watson Junior High School is Mike Richardson, who teaches computer literacy and English.

Receiving the principal awards at WJHS were Kelly Railsback, sixth grade; Rashad Kirven, seventh grade and Stancie Dale, eighth grade.

\*\*\*  
Robert A. Berry, Jr. completed the aviation maintenance technician program at the National Education Center/Spartan School of Aeronautics, Tulsa, OK.

Robert is the son of Barbara Berry, Muleshoe.

\*\*\*  
Pvt. Ramon Garcia has completed basic training at Fort Jackson, S.C.

During the training, students received instruction in drill and ceremonies, weapons, map reading, tactics, military courtesy, military justice, first aid, and Army history and traditions.

He is the son of Raul and Delia Garcia, Muleshoe; and is a 1988 graduate of Muleshoe High School.

\*\*\*  
It was a triumphant night for the Lady Mules when they defeated the Floydada Lady Whirlwinds on their home court by a score of 66-51.

Leading all the way in the game, the Lady Mules held a 17-8 lead at the end of the first; and it was 30-22 at the half. By the time the third quarter rolled through, the score had narrowed to 40-35. Strong defensive playing by the Lady Mules widened the final score to 66-51.

Amy Harrison had seven rebounds in the game. The Lady Mules 'hit' 51 percent from the field and were 74 percent on free throws. Heather Hutton was 10-10 with her free throws.

Leading scorer was Heather Hutton, with 21; Wendy Green, 13; Brenna Matthews, nine; Tory Matthews, eight; Amy Harrison, six; Monica Swint, four and Amber Green, two points.

UNDERGROUND WATER DISCUSSED BY EARTH SCIENCE CLASSES--On Thursday, Carmon McCain, information/education director for the High Plains Underground Water District, Lubbock, was in Sandi Chitwood's Earth Science classes all day to present "Underground Water" to the students. He spoke specifically on the Ogallala Aquifer system, and its effect on irrigation, water conservation, use of the ground water, the hydrologic cycle, water quality, and water inventories. Pictured with him from left are Leah Bruns, Carlos Guerra, McCain and Kelli Caldwell. (Journal Photo)

INDIAN VISITS WATSON JUNIOR HIGH SCHOOL--Leo and Francis Garcia, from the Tigua Tribe visited Barbara Mutschler's seventh grade classes at Watson Junior High School on Thursday. They are the parents of Eva Doyle, wife of Mike Doyle, pastor of the Spanish Assembly of God Church. Garcia told the seventh graders the history of the Tigua Tribe and their place in Texas history. (Journal Photo)

# Independent Cattlemen Group Calls For 'Gas' Investigation

The Independent Cattlemen's Association (ICA) today called for federal investigations into rapid and unexplainable price increases for two fuels vital to agriculture. ICA said prices over the last 30 days have risen 100 percent for propane and 50 percent for diesel.

ICA President Bob Nunley of Sabinal asked U.S. Senators Lloyd Bentsen (D-TX) and Phil Gramm (R-TX) to seek congressional investigations into the price increases. He said the investigations may show that price increases were nothing more than price gouging by oil and gas producers in response to high demands for fuel during the frigid weather that enveloped most of the United States last December.

Nunley also asked that if the investigations show that profiteering by oil and gas middlemen exists, that they be required to rebate the price increases to their customers. "Although the prices for the two fuels have increased exorbitantly, we have seen no corresponding price increase at the wellhead," Nunley said. "This fact leads us to conclude that this is a case of middlemen gouging their customers in times of emergency. It is also possible that oil and gas producers are acting in collusion to take advantage of their consumers during times of need."

ICA member David Gisler of Victoria, who also owns Independent Propane, Inc., a distributing company for lique-

fied petroleum, said he has been told by his suppliers that Texans would have to pay inflated prices for propane because their customers up north were suffering shortages and were buying supplies at vastly increased prices. Gisler said he expected a 10-to15-cent per gallon increase, but instead was hit with a 50-cent increase in a span of 30 days.

"Most of my customers are rural residents who use propane for heating fuel," Gisler said. "The price increase frustrated them."

Gisler said he wrote off 10 cents to 15 cents of the increase to spare his customers from the excessive financial burden. He also had to allow several customers to pay their bills out over a couple of months.

Nunley said ranchers in South Texas, an area hard hit by drought for several years, also witnessed increased costs in feeding their cattle during summer months. Ranchers normally use propane pear burners to scorch the thorns off prickly pear cactus during dry

and winter months so cattle can eat them. In late November, the costs of burning pear averaged \$19 per head per month. After the propane price increases, this figure doubled to \$38 per head per month.

Nunley said producers were also being hit with higher freight costs to ship their products to market. Diesel has increased by 50 percent, increasing the cost of shipping cattle to feedlots by 15 cents a mile.

"Agriculture in Texas is still suffering from hard times," Nunley said. "Higher fuel prices place an additional burden on agriculture. Such price increases are damaging an industry vital to both the national and state economy at the worst possible time."

Nunley said ICA was seeking an immediate investigation into the situation by federal authorities. He said swift action was needed to prevent the short-term price increases from having long lasting effects on producers.

## Uptown Tamales: New Approach To Old Favorite

(AUSTIN)—Tamales are not solely a Mexican legacy. In South America there are as many kinds as there are countries. Most are made with hominy masa and sweet or savory fillings of meat, shellfish, vegetables, nuts or fruit. They often contain less fat than traditional Mexican tamales.

Some of Texas' creative chefs are turning out tamales to rival the South American versions in variety and ingredients. "These tamales reflect the regional foods of Texas and other parts of the Southwest," said Texas Department of Agriculture home economist Carol Guthrie. "Masa harina is used for the dough, but it's often combined with other ingredients."

For example, diners at Routh Street Cafe and Baby Routh in Dallas can order tamales of fresh corn, masa and blue cornmeal filled with spicy sausage and sweet potato. Or fresh corn, masa, and yellow cornmeal tamales topped with a mixture of shellfish, peppers, corn and heavy cream.

bind the tamale dough. The tamales are eaten as appetizers, main dish accompaniments and entrees. The following recipe yields an unfilled tamale seasoned with cayenne pepper, ground comino seeds and chicken stock—great for parties and dinners during the holidays or any time of year.

### STEPHAN PYLES' FRESH CORN TAMALES

- 1 1/2 C. fresh corn kernels
- 10 T. vegetable shortening at room temperature
- 1 2 C. masa harina
- 3 4 C. blue cornmeal or stone-ground yellow cornmeal
- 1 2 tsp. salt
- 1 2 tsp. ground cayenne pepper
- 1 2 tsp. ground comino seeds
- 1 2 C. chicken stock
- 28 large corn husks, soaked in hot water 30 minutes

In food processor, "grind" corn kernels until smooth, about 3 minutes. Remove from processor and set aside. Place shortening in processor and process until light and fluffy. Scrape down sides of work bowl as necessary. Gradually add combined dry ingredients and continue to process until smooth. Add ground corn kernels and process for 1 minute. Add stock gradually in two additions to allow masa to absorb more liquid. Set tamale dough aside. Drain and pat corn husks dry. Tear 24 1/4-inch strips from four husks to make ties. Spread about 2 tablespoons masa onto middle of each husk, leaving about 2 inches at each end uncovered and 1/2

inch at both sides. Slightly overlap sides of husks loosely, allowing for expansion when they are steamed. Turn up pointed end of each tamale, then fold broader part over it. Tie each tamale across top flap. Line steamer or deep pot with moist husks and damp towel. Pour small amount of water over tamales; cover tightly. Steam tamales until cooked thoroughly, approximately 25-35 minutes. Remove from heat. Serve warm. Makes 24 tamales.

### Who Knows?

1. Where is Pikes Peak?
2. What is graphology?
3. Define a la carte?
4. Name the oldest U.S. city.
5. Who said, "I'd rather be right than president"?

### Answers:

1. Colorado.
2. The study of handwriting to indicate character, etc.
3. French, with a separate price for each item on the menu.
4. Saint Augustine, Florida.
5. Henry Clay.

### Enochs News by: Mrs. J.D. Bayless

The Baptist Church dismissed Church Sunday night to go to Three Way Baptist Church to see the film of Billy Graham, "An Adventure in a New Beginning". Those going from Enochs were Rev. and Mrs. David Graves and children, Mr. and Mrs. Bill Key, Mrs. Bobby Adams, Mr. and Mrs. Susie Claunch and Jason and Inez Sanders.

Elwood Autry and daughter, JoAnn took his wife out to eat for her 69th birthday.

Mr. and Mrs. Homer Howard of Littlefield visited in the home of her brother, Mr. and Mrs. Bill Key Monday afternoon.

Guests in the home of Mr. and Mrs. J.E. Layton for lunch Sunday were their sons, Jarrod and family Keith and family, Mrs. Etta Layton, Mrs. Oleta Burris, Mrs. Ellen Bayless, Mr. and Mrs. Cleo Hall. In the afternoon Robert Layton and sister, Mrs. Mark Derrington and three sons visited with them.

Mr. and Mrs. Dale Nichols met their children, Mr. and Mrs. Jerry Nichols and children, Donnie Nichols and children and a friend, JoAnna in Muleshoe Sunday and ate Mexican food then visited in the home of Jerry and family.

Clyde Price was a patient in the hospital in Littlefield Sunday till Friday. Mrs. Price is ill again with the flu. Get well soon.

Leta and Cleo Hall left for home Monday morning.

# Creative Living

by: Sheryl Borden

Information on how to freeze in glass, making some odds 'n ends, and how a PR/ad agency operates will be the featured topics on "Creative Living" on Tuesday, January 30 at 12 noon and Saturday, February 3 at 2 p.m. (All times are Mountain.)

Susan Hovey, a certified Home Economist with Glashaus/Week Home Canning Products in Arlington Heights, IL, will discuss freezing fruits and vegetables in glass and demonstrate the freezing basics. Actually freezing is not much different from other food preservation techniques, and it's not nearly as much work.

Connie Moyers, Marketing Home Economist with Southwestern Public Service Co. in Clovis, N.M. will show how to make a salt substitute, summer squash pickles, wine jelly and other odds 'n ends. Most of these quick and easy ideas make use of either the microwave oven or other small appliances that are energy efficient to operate.

Diane Creston, head of her own successful public relations and advertising agency in New York city, will tell the "ins and outs" of what goes on in a typical PR/ad agency. She will discuss some of her accounts and tell what types of courses an interested person might like to check into before embarking on such a career.

On Tuesday, January 30 at 9:30 p.m. and repeated on Thursday, February 1 at 12 noon, "Creative Living" will present information on the characteristics of baby food, turning old, used, common items into works of art, and will show how to make your food beautiful.

Amy Riley, associate nutritionist with Gerber Products in Fremont, Michigan will discuss the different textures of baby food and explain why different products are introduced at different stages in a baby's development.

Carolyn Jabs, author and spokesperson for the American Paper Institute in New York, has the ability to take old, used items around the house and turn them into works of art or even

functional and attractive decorative items. She will show several interesting examples.

Marlene Brown, food stylist, food writer, consultant, and owner of "Marlene's Cuisine" in Los Angeles CA, will talk about garnishing ideas for foods that may be for everyday meals or for special occasions. The emphasis though is on easy ideas anyone can tackle. Marlene will show us some examples of what some other professional food stylists have done with different foods.

"Creative Living" is produced and hosted by Sheryl Borden. The show is carried on more than 100 PBS stations in the United States, Canada, Guam, Puerto Rico, and is distributed by Pacific Mountain Network, Denver, CO. Viewers can request copies of materials offered on the show by sending one 25 cent stamp for each handout requested. Send the stamps, along with your name, address and booklets requested to:

### LOW-CHOLESTEROL EGG SUBSTITUTE

For one egg:  
1 tablespoon non-fat dry milk powder  
4 drops yellow food coloring  
2 egg whites from large eggs  
In small bowl, sprinkle powder over whites; beat with fork until smooth. Add coloring. Beat until well blended. Nutrients: 8 cal., 3 g carbo., 0 g fat, 1 mg chol., 124 mg sodium

### SUGARLESS FRUIT SPREAD

2 cans (8 ounces each) unsweetened crushed pineapple  
1 cup pitted dates, chopped  
1/4 cup dried apricot or peach halves, chopped  
2 to 3 tablespoons lemon juice  
Drain pineapple. Combine all ingredients in blender; process until smooth. Store in refrigerator. Makes 1 1/2 cups. NOTE: Pre-chopped dates have sugar added.

### MICROWAVE PINEAPPLE-WALNUT JAM

1 can (20 ounces) crushed pineapple  
3/4 cups sugar  
3 tablespoons lemon juice  
1 package (3 ounces) liquid fruit pectin  
1 cup walnuts, chopped  
Combine pineapple, sugar, lemon juice, and pectin in a 2-quart batter bowl. Microwave 12 to 15 minutes on high or until pineapple is no longer crisp, stirring after 6 minutes. Add walnuts and stir until it starts to thicken. Pour into jars. Refrigerate.

As a rule, the bigger the talker the smaller the brain.

It is surprising how people can be manipulated by the dollar.

Nothing upsets a person's work schedule like the idea of a vacation.

**HELPING GREAT GRANDDAD CELEBRATE**--Cory Hunt, son of Mr. and Mrs. Mike Hunt, was on hand Thursday afternoon to help his great grandfather, Floss Baldwin, celebrate his birthday. The Needmore Community Club hosted a birthday party in the honor of five residents of Muleshoe Area Health Care Center. Mr. and Mrs. J. C. Shanks provided the music and Decorators Floral and Gift provided the flowers. Baldwin was born January 23, 1912. Others celebrating birthdays were: Cora Duncan was born Jan. 2, 1901; Bernice Amerson, Jan. 27, 1902; Irvin Smith, Jan. 6, 1920 and Margaret Atchison, Jan. 27, 1910. (Journal Photo)

**JANUARY BIRTHDAYS CELEBRATED**--Cora Duncan was one of five residents of Muleshoe Area Health Care Center who celebrated birthdays in January. The Needmore Community Club hosted a party in their honor Thursday afternoon. Mr. and Mrs. J. C. Shanks provided the music and Decorators Floral provided the flowers. Mrs. Duncan's husband, Gordon, was on hand to help her celebrate her birthday. She was born January 2, 1901. (Journal Photo)

## Flu Season Hard On Unvaccinated Elderly

The full brunt of the flu season is just weeks away, and it could be hard on the elderly.

Dr. W. Paul Glezen, an epidemiologist at the nation's Influenza Research Center at Baylor College of Medicine in Houston, warns that influenza A, particularly the A-Shanghai strain, will be raging across the country by mid-February.

That could be difficult for unvaccinated elderly people, Glezen said, because they tend to have more underlying health problems and thus are more susceptible to life-threatening complications, such as pneumonia.

"The best time to have gotten a flu shot was before Thanksgiving," Glezen said, "but people in the high-risk groups may still want to consider inoculation. They should consult their physicians."

Because the flu vaccine does not provide protection for about two weeks, it is possible to contact the flu even after getting a shot, Glezen said, but that can be minimized by also taking the drug amantadine.

Available only by prescription from a physician, amantadine usually lessens the severity and length of the attack, but only if taken within 48 hours of the onset of flu symptoms, Glezen said.

The elderly are not the only ones who should guard against the flu, Glezen said. Other high-risk groups are:

- People with heart and lung disease, including asthma and chronic bronchitis.
- People with diabetes, chronic kidney disease and chronic anemia, including sickle cell anemia.
- People, such as health-care workers, likely to come into

contact with those in any of the other high-risk groups.

Influenza usually strikes suddenly and produces symptoms such as fever, generalized muscle pain, weakness and a dry, hacking cough.

Victims of the flu should get plenty of rest and drink lots of liquids.

Adults may take aspirin or an aspirin substitute to reduce fever and pain, but people younger than 21 should use only aspirin-free pain relievers. Aspirin has been associated with Reye's syndrome, a complication of flu and chicken pox that can cause vomiting, convulsions, brain damage and death in children.

The course of history is a complete mystery to many people who like to tell us what we must do.

## Tops Club

TOPS chapter No. 34 met Thursday, January 25 at 6 p.m. at the Heritage Thrift Shop.

Laverne James led the group in the TOPS Pledge, fellowship song and a prayer.

Orvid Burris called the roll with 17 members responding with the amount they had lost or gained. One visitor, Marian Wilson, was welcomed.

Minutes of the previous meeting were read and approved.

It was reported that Nan Gatlin fell and broke her ankle. "Sorry to hear that we hope she gets better real soon and be back with us at TOPS" said Aurora Mata.

Laverne James read a letter from Mona Spencer. There will be an executive meeting next week at 4:30 p.m.

A new contest, "Valentine" contest was started and will continue through the month of February. The contest is called "Put Your Heart Back Into TOPS".

"Our thanks to Clea Robertson, our contest coordinator, she always presents the 'cutest' contests" said Mrs. Mata.

Best loser for the week was Evelene Harris. First runner-up was Laverne James and Ruth Clements was second runner-up.

The meeting was adjourned with the goodnight song.

**MIDGET RACE CAR RACER** Jerd Vinson, son of Mr. and Mrs. B. C. Vinson, ranked sixth in the nation in the 1989 Midget racing season. For this honor, he received a trophy and certificate. He placed second in the region which includes Texas, New Mexico and Kansas. He also came in first in Amarillo. For placing in these two races, he received jackets and certificates. This was his second year to race in the Midget races, driving a car powered by a 250cc twin cylinder Rotax engine from Austria. (Journal Photo)

**Mule Plex Plan Summer Show**

The Executive Board of the MulePlex Production Company met on Thursday, January 18, to lay groundwork for future meetings and workshops.

**Jennyslippers**

**Meet In Regular**

**Session Tuesday**

Muleshoe Jennyslippers began their new year with their first regular meeting being held at noon Tuesday at the library. Pat Langfitt called the meeting to order. Minutes of the previous meeting were read by Bobbie Harrison and Norma Bruce gave a treasurer's report.

Mrs. Langfitt introduced a new member, Marsha Lewis, who is with Muleshoe Area Medical Center. Ms. Langfitt also announced that Katheryn Taylor is in the hospital at Lubbock, following a heart attack.

A discussion was held on the by-laws concerning the Jennyslippers two Junior Volunteers, April Franklin and Stacey Langfitt.

Billy Downing reported that plans for the Scholarship Seminar are well underway. Colleges have been contacted and the Jennyslippers will be in contact with the students in the near future. The date for the seminar has been set for Monday, Feb. 12.

It was also reported that the annual Easter Egg hunt has been set for Saturday, April 7. More information will be published at a later date.

Nelda Merriott reported on the Texas Toast, scheduled Friday, March 2. Everyone across the state of Texas is ask to toast Texas at 2 p.m., with a glass of fresh spring water, celebrating 154 years.

Dates to remember include: Feb. 12, Scholarship Seminar; Feb. 13, General Membership Meeting at Old Depot; Feb. 27, General Membership Meeting at Library (Brown Bag); March 24, Walk-A-Thon; April 7, Easter Egg Hunt; and the Chamber of Commerce Banquet set for April. April 10, is the Jennyslipper quarterly meeting and March 2, Texas Toast.

Kerry Moore presented his plans for a Theater Workshop to be held in March for everyone who is interested in any area of the theater. A date will soon be set and made known.

"Everyone was excited about the possibility of a huge turnout for the workshop," said Nelda Merriott, publicity. "Mr. Moore also said that the high school auditorium now has a great new lighting system."

Another comedy has been selected for production this year, "The Man Who Came to Dinner." It promises to be a real crowd pleaser. The number of characters can vary, with all ages being incorporated. Probably at least 15.

Friday, April 27, has been set for try-outs with rehearsals beginning June 1. Dates for the production are Friday and Saturday, June 29th and 30th.

The same format will be used as last year, with variety acts, candy sales and the play.

Proving that "stars get in your eyes," the cast from last year's hit show have all shown an interest in returning this year.

Many ideas were discussed, with the possibility of helping in some area or capacity with Mule Days.

A general meeting will be called in the near future and the executive board of MulePlex Production Company is looking for an even greater participation than last year.

The MulePlex Production Company has an exciting future. Make plans to be a part of it!

**LAZBUDDIE JUNIOR HIGH**--(From Left) Rachelle Rice, Jon Colby Miller, Matthew Elliott, Belynda Waddell and JoAnna Gallman, all seventh graders at Lazbuddie Junior High, who took the SAT college entrance test recently. (Guest Photo)

**Students Take College Entrance Exam**

Five seventh grade students from Lazbuddie Junior High took the SAT college entrance exam on Saturday, January 28. They were named to participate in the Talent Identification Program (TOP) at Duke University, Durham, North Carolina.

The students are Rachelle Rice, daughter of Doug and Linda Rice; Jon Colby Miller, son of Mike and Pam Miller; Matthew Elliott, son of Ronald and Linda Elliott; Belynda Waddell, daughter of Doyce and Betty Waddell; and JoAnna Gallman, daughter of Robert and Ellen Gallman.

According to Mrs. Anne Farris, Principal and Counselor, the objectives of the Duke University program are to identify the very bright at an early age and to follow their talents through high school. She said that the program was founded on the premise "that the future of this nation depends upon the fullest development of our best intellectual resources."

The TIP program seeks out the gifted and talented individuals in seventh grade classes across the nation and works toward placement of those students in colleges and universities "that have programs of a quality that matches the student's potential."

The SAT college entrance exam, designed for college bound high school students, measures verbal, mathematical, and general reasoning ability of highly capable seventh graders who are selected to participate in the program. "While far too difficult for the average seventh grader, these bright seventh

graders scoring at or above the 98th percentile on other standardized achievement or aptitude tests." Mrs. Farris expressed her congratulations to these students, and praised their academic achievements which assure their selection for inclusion in this very prestigious program.

A smile can do more than money, work or words on many occasions.

## Lambert's Grandson

Cont. From Page 1

"Maj. Stuka, during a news conference Thursday, tried to describe what it felt like as bullets fired by Panamanian Defense Forces were hitting his aircraft.

"It's probably like, for those of you who do boats, like a lot of slapping of small waves against the bottom of the boat," he said.

"Maj. Stuka said the crews had been briefed to expect heavy ground fire from the Panamanians, and all the crewmembers at the news conference said they would have no problem flying again in the face of such hostile fire.

"Maj. Stuka had one reservation, however.

"This is a plug for bigger engines," he said. "The C-130 is not known for setting any speed records."

From *The Air Force Times*:

"Maj. Joe Bob Stuka did not know he was following two of the Air Force's secret F-117A stealth fighters, but as his C-130 Hercules transport full of Army Ranger equipment neared the Panamanian coast, two large explosions lit up the night about two miles and a minute's flying time ahead.

"Stuka, tactics officer for the 317th Tactical Airlift Wing at Pope AFB, N. C., and Capt. Paul Montgomery, the lead navigator, earlier had been listening through satellite communications as the pilots of at least two fighters completed an aerial refueling and then prepared to attack.

"Stuka and Montgomery were concerned because Tactical Air Command's planes were running late, which had put the transport pilots about 30 seconds behind their intended 1:03 a.m. time

### Drought...

Cont. From Page 1

argue that since the payment was there for the asking in '89 (by filing an earlier application), it ought to be taxable in '89," Hayenga said.

He emphasized that at this point it's not at all clear whether IRS would make such an argument, or make the argument successfully if it did.

over the target, Montgomery said.

"Stuka and other airmen of the 39th and 40th Tactical Airlift squadrons believed the fighters accomplished their task of destroying the fixed anti-aircraft site because it (Rio Hato) never fired during the attack.

"However, as Stuka approached from the south over the Gulf of Panama, a mobile, two-barreled, large-caliber anti-aircraft gun - about midway down the left side of the field - opened up.

"Red tracers began raking the single-file train of C-130s and the Rangers who already were dropping by parachute onto the field from the 13 aircraft ahead of him.

"Even more dangerous was the unseen fire from scores of handheld automatic weapons wielded by Panamanian troops brought to full alert by the two bomb blasts, Stuka said.

"The aircraft began to vibrate with a 'chink, chink' from small arms fire hitting it, he said, and from one of the lead aircraft, a paratrooper went down with a bullet in one leg.

"Planners like Stuka had studied the lessons of the 1983 invasion of Grenada, where communications were fragmented and chaotic. This time they could talk to all the major Air Force commands, as well as to the Army, he said.

"We did a lot better," Stuka said.

"For seven hours, the formation flew south in perfect radio silence, Stuka said.

"Some crews lost communications during frequent radio frequency changes, but they remained silent and 'just hung in there,' Montgomery said. "The discipline was incredible."

"The biggest problems caused by damage from groundfire were holes in the wing fuel tanks, Stuka said. As the aircraft taxied after landing at Howard AFB, Panama, he saw that several were losing fuel as if faucets had been turned on.

"The hero of this episode was a Howard-based sergeant who specialized in battle repair but has yet to be identified by officials at Pope. The sergeant moved a ladder from bullet hole

to bullet hole, standing in a constant shower of fuel, until they all were plugged with a special putty, Stuka said.

"For three hours the sergeant worked, stopping only to be hosed down every 15 minutes by a fire truck, he said.

"The Rangers took over the field so quickly that the C-130 crews heard occasional shots and only a single ricochet hit one of the craft, Stuka said.

"President Bush called the commander of Fort Bragg troops in Panama on Wednesday night to congratulate the soldiers and voice commitment to "Operation Just Cause," an Army spokesman said Thursday.

"Mr. Bush's telephone call to Lt. Gen. Carl W. Stiner during the military strike against Gen. Manuel Antonio Noriega's regime may be an unprecedented gesture by a U. S. president, Maj. Donald M. Sensing said during a press conference at Fort Bragg.

"We feel proud that we have been doing what the president directed us to do," Maj. Sensing said."

### Rebate...

Cont. From Page 1

and each month sends cities and counties their portion of the sales tax.

This month's checks reflect taxes collected on November sales and reported in December by businesses filing monthly tax returns.

All local sales taxes must be approved by local voters and may be used for any legal city or county expenses. Most areas put the money in their General Fund and use it for normal operations like fire fighting, maintaining roads and law enforcement, Bullock said.

Make friends whenever you have the opportunity; your enemies will make themselves.

It's a pleasant life if you have enough money to pay your bills and a little bit left over.

### Banks...

Cont. From Page 1

same time a year ago.

From Cochran County, First State Bank of Morton reports an increase in deposits during 1989. Deposits were \$37,143,091 at the end of 1988, and increased by \$1,673,028 to the \$38,816,119 shown on December 31, 1989.

At the same time, loans had a very slight increase. Loans were \$15,671,660 ending 1988, increasing by \$4,080 to the \$15,675,740 shown at the end of 1989.

Security State Bank, Farwell had increases in both deposits and loans during the past year. Deposits closing out 1989 were \$44,317,666, an increase of \$1,747,643 over the figure of \$42,570,023 of a year ago.

Loans on December 31, 1988 were \$4,698,384, and increased by \$439,127 to \$5,137,511 on December 31, 1989.

First State Bank of Dimmitt, Earth Branch, had a decrease in both deposits and loans during the past year. Deposits decreased \$1,850,107 during 1989. Deposits were \$14,900,409 at the end of 1988, and showed to be \$13,050,302 closing out 1989.

Loans were down by \$4.5 million for the year. Loans were \$5,824,113 on December 31, 1989, a decrease of \$4,550,223 from the \$10,374,336 a year ago.

Friena State Bank reflected a \$710,542 increase in deposits in 1989, with \$59,085,542 shown on deposit on December 31, 1989, compared to the \$58,375,000 on deposit at the end of 1988.

Loans for the bank increased by \$5.75 million during the year, with \$37,550,115 shown at the end of December, 1989, an increase of \$5,768,115 over the \$31,782,000 shown closing out 1988.

From Sudan, First National Bank shows a decrease in deposits and a small increase in loans during the past year. Deposits were \$8,544,428 on December 31, 1989, down \$572,572 from the \$9,117,000 reported at the end of 1988.

At the same time, loans were \$4,312,780 closing out 1989, up \$47,780 from the \$4,265,000 shown on December 31, 1988.

## Texas Hospital Closings Continue To Lead Nation

For the fourth consecutive year, Texas led the nation in the number of hospital closures, with 15 hospitals closing in 1989, according to the Texas Hospital Association, the industry's state trade association. In 1989, three Texas hospitals re-opened, including two that closed earlier in the year.

Eleven of the 15 hospital closures were located in rural areas, which the hospital association defines as a county that is not part of a metropolitan statistical area. Only two of the 15 closed hospitals had more than 100 beds. Ownership of the closed hospitals was evenly divided among investor-owned, non-profit and public.

Since 1980, Texas has lost 105 hospitals, and slightly more than half (56) were in rural areas. Only 10 had 100 beds or more. By ownership, 58 were investor-owned, 25 were non-profit, 20 were public, one was federal and one was state. Since 1980, 10 hospitals have re-opened, and two of these subsequently closed again.

"While the closure rate moderated in 1989, the problems affecting hospitals have not abated," said Jim Houdek, senior vice president of health care finance. "The pressures caused by inadequate payment from Medicare and Medicaid are going to be more intense in 1990, due to federal budget cuts."

Texas hospitals lost an average of \$619 per Medicare patient during the third quarter of 1989, according to DataPulse, an information collection and reporting program implemented by THA in 1989. Urban hospitals reported a loss of \$645 while rural hospitals showed an average loss of \$574 per Medicare patient.

Medicaid, the joint state and federal insurance program for the poor, also paid Texas hospitals less than the cost of treating its beneficiaries. On average, Texas hospitals lost \$601 per Medicaid patient, with urban hospitals showing a loss of \$655, and rural hospitals, \$289, for the

third quarter of 1989. "In addition, Texas hospitals provide a tremendous amount of uncompensated care. DataPulse indicates that on average, uncompensated care represents more than 10 percent of the hospital's total patient load. That means that one out of every 10 patients cannot pay for his/her care."

In addition to the financial problems, many Texas hospitals are adversely affected by a shortage of personnel, including nurses, various therapists and pharmacists. Rural Texas hospitals often find it difficult to recruit and retain physicians, Houdek noted.

Based in Austin, the Texas Hospital Association represents the collective interests of its members regarding public policy and serves as the advocate for legislative and regulatory issues affecting the health care industry. The THA represents more than 85 percent of the state's hospitals.

### Measles Deaths Up

ATLANTA--The measles explosion of 1989, involving unvaccinated preschoolers and schoolchildren whose shots didn't work, has resulted in the most measles deaths in 18 years, federal health officials said.

### Key Gene Pinpointed

CAMBRIDGE, Mass.-- Scientists believe they have found the master builder of the immune system, a gene that allows disease-fighting blood cells to recognize and remember a changing menagerie of germs.

### Releases POW's

NICOSIA, Cyprus--Iran released 50 ailing or disabled Iraqi prisoners of war to Red Cross representatives as a gesture of good will, Tehran radio reported.

### Syria, Egypt to End Rift

DAMASCUS, Syria--Syria and Egypt both agreed to restore diplomatic relations after a 12-year split, when Syria broke ties with Egypt late in the year of 1977.

# Texas Anti-Litter Campaign Recognized

Two highly acclaimed Texas programs created to protect the environment, "Don't Mess With Texas" and the "Adopt-a-Highway" program, ended the '80's in a blaze of glory. Two national awards and a regional recognition were added to a long list of accolades garnered by the highway department for these programs.

"We are pleased that the department's efforts have been recognized, but we are even more pleased that Texas is now a cleaner state. These programs have changed Texans' behavior and made littering unacceptable," said J. Don Clark, director of the Travel and Information Division.

The programs, well-matched wings of the high-flying antilitter campaign administered by the department, recently received top honors from both Keep America Beautiful and the Federal Highway Administration. They recognized the department at awards ceremonies in Washington, D.C., on Dec. 8.

The department's achievement of a 64 percent decrease in roadside litter in only four years qualified the programs as champs in the battle against litter. The department was named the state agency "showing the most progress in the prevention and collection of litter."

Also in December, Don't Mess with Texas was named one of the Best Ad Campaigns of the Decade in the Southwest edition of *Adweek* magazine. This campaign, initiated in 1986, introduced the most popular slogan ever to come out of the Southwest, one that has taken on a life of its own.

The department's major advances in the fight against litter garnered six additional awards of national distinction in the last three years.

## Mary Ellen Lee Graveside Services Set Here Monday

Former longtime Baileyboro resident, Mary Ellen Lee, 71, died at 8:37 a.m. on Friday, January 26, in Palo Duro Canyon Hospital.

A resident of Jonesboro, TX, since 1967, she formerly lived in the Baileyboro Community.

Graveside services will be conducted at 2 p.m. Monday, January 29, at Muleshoe Memorial Park with Rev. Richard Edwards, pastor of the First United Methodist Church of Muleshoe, officiating. Interment will be under direction of Ellis Funeral Home of Muleshoe.

A homemaker, she was born March 22, 1918 at Hopkins, TX. She was married to J. R. Lee on September 4, 1943 in Lubbock. She was a Presbyterian.

Her survivors include her husband, J. R.; two sons, Jerry Lee, Mertzon, TX and Johnny Lee, Casper, WY; a daughter, Nancy Plumlee, Amarillo; one sister, Alice Craft, Sulphur Springs, TX; two brothers, Arlon McFarlin, Mt. Pleasant, TX and Jessie McFarlin, Pickton, TX; and one grandchild.

Five came in 1987, including the U.S. Department of Interior's Take Pride in America Award. A radio commercial featuring the Fabulous Thunderbirds gleaned a National Addy from the American Advertising Federation. Also in 1987, the American Association of State Highway and Transportation Official's honored the Texas antilitter program with its Scoop Award, and the department acquired the Gold Effie from the American Marketing Association of New York. Then the Hollywood Radio and Television Society proclaimed the commercial featuring boxer Mike Williams as one of the world's best, giving it the International Broadcasting Award.

Closer to home, in 1989, the Dallas Advertising League Acknowledged the department's contributions to a cleaner environment with the Pro Bono "public good" award had gone "public good" award had gone to national and international corporations, never to a public entity.

But that's only the beginning. If duplication is the highest form of acclaim, then Texas is truly being applauded as 39 states copy its Adopt-a-Highway program. This activity solicits volunteers in a variety of organizations to "adopt" and clean two miles of roadsides in their community.

Not one to rest on its laurels, the highway department enters the '90s with another new program. The "Great American Trash-Off" challenges organizations across the nation. The pilot project for this interstate enterprise is set for March 31, when

## Multiple Sclerosis

### Selects High

### Priority Issues

The six Texas Multiple Sclerosis chapters of the National Multiple Sclerosis Society formed a legislative coalition at meetings held January 11-12, 1990 in Austin. Members of the coalition selected three issues of the highest priority: the in-home and family support program, respite care and increased funding for Medicaid programs.

Fredricka Gens, chapter services coordinator of the Panhandle chapter and a member of the newly formed Coalition, said, "Texas consistently ranks last among states in drawing down federal spending. For every one dollar Texans pay in federal income taxes, only sixty-three cents is returned to the state. In comparison, for every one dollar paid in federal income taxes in New York, \$1.33 is returned to that state."

Gens also said that the coalition will work closely with state agencies to provide a better quality of life for people with MS. There are nearly 10,000 men and women in Texas who have the disease, with over 500 of the total living in the Panhandle area.

Multiple sclerosis is a chronic, often disabling disorder of the central nervous system affecting over 250,000 Americans. The cause and cure are still unknown.

volunteers from other Gulf states, Arizona, and California will join Texas to clean adopted roadsides and beaches.

The concept that swept the nation, leaving a cleaner environment and a better-informed public in its wake, now is beginning to dust off the rest of the world. Australia, Brazil, Canada, and Great Britain are among the countries that have sought information on how to duplicate Texas' program.

## SCAC Chooses Robert Montgomery January 'Citizen'

By: Kendra Wilson

The Student Community Action Club met on Monday, January 15 in the home of Amy Montgomery. Kendra Wilson opened the meeting with a prayer.

A treasurer's report was given and the minutes were read.

SCAC members were reminded that they need to be willing to work shifts in the upcoming basketball concession stand. The sign-up sheet will be outside Mrs. Allison's door. This is a good money making project and we need everyone's help.

Robert Montgomery was honored as January Citizen of the Month. He was introduced by his daughter and club member, Amy Montgomery.

Mr. Montgomery is the Executive Vice President of Muleshoe State Bank. He is the president of our local Chamber of Commerce and Agriculture and also is a member of the Kiwanis.

Robert is very active in the community and discussed with the club the attributes his positions allowed him to contribute to the community.

He thanked SCAC for playing a visible and vital role in our community. He expressed the importance of being involved and active.

We thank Robert Montgomery for setting an example for the future leaders to follow.

The next Student Community Action Club meeting will be held at Brett Pylant's house on February 19 at 7:30 p.m. All members are encouraged to attend.

## Kiwanis News

By R.A. Bradley

Sixteen Kiwanians, two honorary Kiwanians, Ryan Clapp and Chad Johnson, Sweetheart Amy Montgomery, and five guests met the only Friday, January 26th of 1990 at the Old Corral. Amy it is good to have you and thank you for getting your Dad out, even if he denies that you had anything to do with it. We know better don't we.

President Jim Lutz called the meeting to order and J.O. Parker led the club in the pledge to the flag.

Lonnie Merriott gave the invocation. Keith Turner gave the friendship to "Who" or Hugh Young, I'm not sure how Keith spelled it.

Jim reported that he attended a district 33 council meeting at Hereford and reported that every club in the Texas-Oklahoma District of Kiwanis took part of the hungry Friday for youth and over 3800.00 was collected. Be sure and go out to the race tracks at the Old High School Gym Saturday 27th at 1 p.m. for the Cub Scouts Pine Wood Derby. See these Hot Rods and young men at their best.

Our guest Friday morning

were Bob Stovall, a member of the MAIF. Bob told of some of the work that they had done in trying to get industry to settle in Muleshoe. Bob introduced Walter Schmidt, general chairman of the Almeria Inc and Richard W. "Dick" Clickaman, president of the Almeria Inc. Walter told about some of the planning that went into the end results of settling in Muleshoe. Started planning in Spain, then about two years ago in Austin and lots of looking before landing in Muleshoe. The Almeria Inc will be growing organic grown vegetables. This is not a green house operation. It will be organic (compost) with chemical-induce-climate controlled building with heat pipes underground to control the temperature, pressurized buildings to filter out insects with carbon dioxide induced at the proper amount to make plants grow at their best, they will be using drip irrigation. Walter stated that one reason for coming to Muleshoe is because of the sunshine. The clean environment. They will start off with about 45-48 people in their construction.

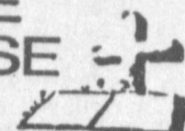

Dick Clickeman gave some of the operations. Some of the survey that went into the kind of vegetables, where to sell them and when. The Almeria Inc will be their own distributors. They will start out with about 8.8 acres under roof with over five acres agriculture and the rest will be roadway. Their plans is to have

more than 16.5 acres under roof. These will be low buildings with the peaks not over 10 ft. tall. This way they don't have to heat or cool space that is not needed. Walter stated that something like 1.5 million will be introduced into the Muleshoe economy. Walter also stated that in Spain, now, they have over 35,000 acres under roofs with an 18 wheeler leaving the docks every 20 seconds.

We welcome this cooperation to Muleshoe and these gentlemen stated they wanted to be a part of this community. They are Muleshoite!! Walter and his family live at 903 West 7th while Dick Clickman and family live at 1722 West Ave D. Gentlemen, Welcome.

Other guest were Leon Warren and Larry Parker. We thank all our guest for being present. Jerry Hutton was in charge of the program. Jerry, real good. Thank You.

## BIBLE VERSE

"All things therefore whatsoever ye would that men should do unto you, even so do ye also unto them."

1. Who was the author of this saying?

2. By what name is it known?

3. Of what discourse is it a part?

Answers:

1. Jesus.

2. The Golden Rule.

3. The Sermon on the Mount.

## Notice To All Taxpayers

Pursuant to Section 31.02 of the Texas Property Code, all 1989 taxes will become delinquent on February 1, 1990. Additional penalty and interest will be added if not paid by this date.

## Experience — We consider it money in the bank.

A face lined by dry, hot summer days, harsh winter, and seven-day work weeks. But there is sparkle, too, remembering warm spring sun or gentle rains and acres of cotton.

Back when he started farming, a man's labor represented the majority of his investment in the farm. Over the years, when he's had to invest in land and equipment, he's turned to his Land Bank Association for competitive, long-term financing. At the Land Bank we not only place value on a man's farm, but his experience, too.

So, if you need help growing, talk to a neighbor you can bank on —

**KNOWLEDGE**

Man has been seeking the answer to many questions since the beginning of time. Volumes of books, and encyclopedias have been filled with facts in answer to this quest for knowledge. Even with all of this wealth of information, there is much to be learned, and man will never know all of the answers. However in spiritual matters, God has provided us with a book, filled with valuable information. This book is man's guide to his relationship with God. For a better understanding of God's word and his will for your life attend church, so that others may help you in this search.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

 Sheriff of Bailey County, Texas. B20-2s-3tc  
**What Is Your Used Car Worth?**  
 Have you ever wondered what the current market value of your automobile really is? Whether you are buying or selling a used car, or are simply curious, pinpointing a fair market value can be somewhat confusing.  
 A dealer might suggest one price while newspaper ads might suggest a range of others. And although high and low book values are obtainable by the general public, the available sources are limited and inconvenient (e.g. the reference section of the library, some banks and credit unions, a savings and loan).  
 To alleviate the problem, a state-of-the-art computerized system has been introduced nationwide by National Automobile Data Service, Inc. which makes information on current used auto and truck values readily accessible. You simply dial 1-900-999-CARS (2277) on any touchtone phone to activate the AUTO PRICELINE service, follow the simple instructions and, within an average of four minutes, you can obtain the current high and low values (that is, the wholesale and retail values) of autos and trucks from 1975 to the present. The data is systematically updated so it is always current, and the service includes a list of applicable vehicle options.  
 The fee for this fingertip service is \$1.75 for the first minute and 75 cents for each additional minute. There are no additional long-distance toll charges. If a caller experiences any difficulty with the AUTO PRICELINE, a customer service extension is available.
