

Snook Jury Completed Today

Graf Zeppelin Starting to America; Will Circle Earth

LEAVING ITS HANGARS TONIGHT

Hugo Eckener Gives Few Plans to Public

Friedrichshafen, Ger., July 31. — (UP) — Commander Hugo Eckener announced today that the Graf Zeppelin will start its flight to the United States at 3 a. m. tomorrow, preliminary to a voyage around the world. The start will be at 8 o'clock by Central time.

Encountered Failure
The giant dirigible, on its last attempt to reach America, ran afoul much trouble, and had to turn about and direct a course which would allow it to reach the shelter of its big hangar.

But adverse winds, further failure of motors, and the biggest craft had to put in at a military control ground in France for repair.

While there, friendship between the crew and French army officers and enlisted men did much to cement the rapidly growing respect of the Franks for the Teutons.

To Go Around World
Eckener says little to newspapermen about his contemplated trip around the world. He is positive that the day has come, however, when ships of the rigid type can negotiate with greater ease distances of this sort.

Dispatches failed to say when the liner is expected to reach New York.

FURNISHINGS FOR "THE STRATFORD" INSTALLED TODAY

Installation of draperies and furnishings in "The Stratford," the new English home to be opened to the public Sunday by Graf and Garlington, on North G Street in the west end addition, is being made today by the Home Furniture company.

The draperies, made and designed especially for the attractive home, harmonize beautifully with the color scheme and lighting fixtures of each room; and are of an elaborate type.

Furnishings for each room will be especially adapted to the six room brick home, and will even have a handsome Victrola along with the other articles of furniture supplied by the Home Furniture company.

Complete details of the home and its furnishings will be given in a special advertising section devoted to it Sunday morning.

Overloading Of "Vestris" Fatal, Inquiry Shows

LONDON, July 31. — (AP) — The Lamport and Hold liner "Vestris," when she set out on her fatal voyage from Hoboken last November 10, was overloaded and unfit to encounter the perils of her wintry trip, it was found by the Board of Trade in its inquiry into the sinking of the ship, with the loss of 112 lives.

The inquiry court, making its report today, also found that the S. O. S. warning was too long delayed, and should have been sent in six hours earlier.

Gets 75 Years In Assault Trial

DALLAS, July 31 (UP) — Convicted on a charge of criminally assaulting his 16-year-old daughter, Joe Ramshay, 40 years old, was sentenced to 75 years in the state penitentiary by a jury in criminal district court here last night.

The complaining witness, Ethel Ramshay, and her two sisters, testified against their father, saying that they had not reported his mistreatment sooner because they were ashamed to.

Non-Sinkable

This non-sinkable "kapok" suit which Lieut. Harold Bromley is getting into here was expected to prove a life-saver to him if his bullet-like plane had gone over the Pacific wastes the other day. Instead, he cracked up. He also carried a life raft, tinned food and a very pistol which shoots colored signal flares.

VISITORS REAL ENTERTAINERS AT LIONS LUNCHEON

J. S. Bonner, manager of the Grand theatre, Mrs. J. M. White, Mrs. Marion F. Peters, and Barney Grafa, Jr., visiting entertainers at the Lions club luncheon today, gave the hosts one of the most interesting mid-week sessions in the history of the organization.

Bonner, bringing the goodwill of the Rotary club to the Lions, spoke on "Fellowship and Vision." He was eloquent in showing the transformation of pioneering achievement into modern realization, "through the little known channels of fellowship such as Midland's two men's luncheon clubs."

Mrs. White pointed to the necessity of promoting civic betterment through building of a city as notable for its churches as for social, cultural, educational, aesthetic and economic factors.

Mrs. Peters, dressed in rustic garments, interpreted the troubles of a young girl in surroundings somewhat different to those known in Southwest Texas. Mrs. Peters has just recently moved to Midland from Ranger. She is an accomplished musician.

Barney Grafa, Jr., sang two songs, accompanied by Miss Lillie B. Williams at the piano. The boy is to be complimented as much for his selections as for his good voice. He sang as his first number a selection from "Desert Song."

Roy McKee, J. S. Bonner and A. C. Caswell were visitors.

While Tallwater Haight was eating his lunch from a tea wagon, to save himself from proximity with other members of the Lions, W. R. Smith, district attorney, and H. J. Boisford, superintendent of the West Texas Gas company, were taken into the club.

Ned Watson made a report on the Lions orchestra. He said the orchestra would probably play at next week's luncheon.

A challenge of Clarence Scharbauer of the Rotary club to race Harry McClintic of the Lions was read, the race to take effect at the next Lions picnic.

C. W. Post in a drawing received \$1 as a membership prize.

Frank Elkin and R. D. Scruggs were named as program committee for the luncheon two weeks ahead.

PURE MILK AND WATER TESTS ARE REGISTERED HERE

The fact that no more than two cases of typhoid in Midland exist is thought by the county health board to be attributed to two special factors and a third closely related one.

Midland water supply, milk supply and garbage disposal are rated by state health department officials as among the best in Texas. Dr. W. T. Ryan, county and city health officer, replied to questions asked today.

The Midland water supply has been twice tested recently, and in each case chemical analysis showed unusual purity.

"The officer here for the health department said the test showed freedom from noxious bacteria," Dr. Ryan said.

The milk supply was also said to be far purer than those supplies of many other larger cities of the state.

Garbage disposal is not what it might be, Dr. Ryan admitted, but efforts are being made to improve collection and disposal of wastes.

The chief fault lies with residents. It was explained, garbage and wastes are not placed conveniently in one place in the alley for the garbage man who makes periodical trips over the city each week.

"If the public will collect garbage, put it in a container, and place the container in a convenient place they will find that all waste will be removed regularly," the physician and health officer said.

The water of a west side swimming pool is to be tested within a few days. In former tests this has proved to be kept fresher than most of the pools of the entire southland.

CHICAGO MAN IS DEAD AFTER GUN FIGHT ON STREET

CHICAGO, July 31. — (AP) — James Snupe died today from bullet wounds received in a shooting affray last night in which two other men were wounded. Hospital officials expected momentarily the death of Thomas McNichols who is believed to have been a participant in the affray.

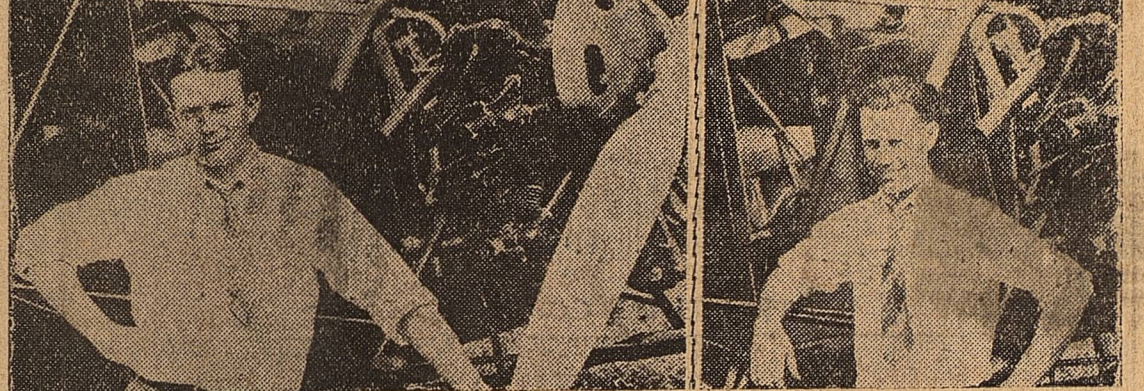

Police say in the shooting the possible renewal of beer wars, since Shupe, a former convict, is known to be engaged in the beer trade.

The duel is said to have been witnessed by hundreds. One woman drove a car carrying the man who is said to have started the shooting. She sat calmly in her car during the scrape, then drove the man to the hospital and left without giving her name.

Varsity Studes At Work in City

Four young collegians here today as representatives of the Butterick Publishing company are earning their way through colleges and universities by working in conjunction with pattern departments of stores. They bear letters from Everybody's in Midland.

"Sister Ship" To Midland Robin Lands So Fliers Can Attend Funeral; Up 420 Hours

Here they are—Dale Jackson, left, and Forrest O'Brine, right, pilots of the St. Louis Robin, holder of the world's record for endurance flight. They would have been up yet had it not been for the crash of their Minneapolis rivals who were killed. "We came down for the funeral," the famous airmen said over radio last night. Both said their ship could take the air as it was when it landed and continue for many more hours. The official time was 420 hours, 21 minutes and 39 seconds, 173 hours, 37 minutes and 58 seconds more than the record set by the Angeleno at Culver City, Calif. \$31,235 was made jointly by the fliers, besides contributions. They flew 25,200 miles, used 3,599 gallons of gasoline and 158 gallons of oil. The propeller is estimated to have turned over 32,000,000 times. 25,000 people saw the landing. The sister ship of the Robin is owned at Sloan Field here.

The water of a west side swimming pool is to be tested within a few days. In former tests this has proved to be kept fresher than most of the pools of the entire southland.

Dallas Widow Asks for Midland Man Says She Is So Impressed With Conditions In Midland That She Would Like to Live Here

Wanted: A big hearted lovely bachelor or widower!

That's the request that came thru the mails today from a Dallas widow to the Midland Chamber of Commerce. Interested swains may get the woman's address at the chamber office.

The woman thinks Midland is plenty hot, and Hotel Scharbauer—well, that hostelry is the snail's overshoe, the Dallas widow says.

But read her letter for yourself. Here it is verbatim and in toto:

Top-o-the-morning! Here's luck! May I come in? Thanks. Yes, sir, you are on the map. Had the pleasure of stopping in your lovely city twenty-four hours, and I was sold on the folks and their hospitality. It was in the very atmosphere. I have traveled some and have never had the pleasure of staying in a better hotel. The Bit-more Hotel at Los Angeles, The St. Catherine at Cataline Island, and The Mission Inn at Riverside, California, all have nothing on Hotel Scharbauer. Any one would note with interest the lovely service or this hotel.

I see you have had an opening of your new city park. Cloverdale. I believe that surely is an asset to your city. You also have a real live bunch of business men.

Your city impressed me so much I've not been content in my own home town since my return. I would like to go in business in Midland. Would there be a chance of doing well in a lady's exclusive ready-to-wear in the hotel? Could I get a space? If not—have you any big hearted, lonely bachelors or widowers who would take a chance with me for life? (No fooling).

Athlete, Formerly Here, Is Visiting

Cecil M. Jerden, son of Mr. and Mrs. Walter Jerden, who formerly lived in Midland, and a grandson of Mr. and Mrs. L. C. Creek, 702 North Main, visited his friends Tuesday.

He was looking for a linotype operation job in a newspaper office of this section of the state.

Do You Want Your Streets Paved?

Few petitions have been presented for street paving in Midland, Mayor Leon Goodman, back from an extended visit and business trip in northern cities, said today.

The city council wants to proceed in the near future to get the streets to be paved designated; therefore, those who would like to see their streets paved should circulate petitions at once and present these to the council when that body meets Tuesday.

A further discussion of the zoning ordinance will be another feature of the discussion to come up when the council meets. All interested persons are invited to be present at the meeting and take part in the discussion.

BOND REFUSED ONE PRO AGENT, GRANTED TO ONE

OKLAHOMA CITY, July 31. — (UP) — W. W. Thomason, federal prohibition agent was granted bond of \$15,000 on an amended application for release today.

At the same time, Jeff Harris, under cover agent, was refused bond by U. S. Judge Edgar Vaughn. Both are charged with murder in connection with the death of two Tecumseh, Oklahoma, farmers in a liquor raid which netted no liquor July 4.

Two Beville Men Killed In Wreck

MERCEDES, July 31. — (UP) — The bodies of J. W. McCollem and A. Eringer of Beville were recovered today after a small sedan in which they were riding plunged over the side of a bridge into a canal Thursday. C. D. Baskin, third occupant of the car, is in a local hospital suffering from wounds and internal injuries.

CHAIN CONCERN COMES HERE BUYING POPULAR VARIETY STORE

Sale of the Popular Variety Store, by Ernest McKinney and Paul L. Young to the Perry Bros. Corporation with headquarters at Lufkin, was completed this morning, the new owners having assumed its operation immediately.

R. L. Perry, senior member of the firm, has been here for several days negotiating the deal, accompanied by George H. Haltom, who is moving here from Nacogdoches to manage the Midland business.

Announcement is made by both Messrs. McKinney and Young that the sale of the business will not affect their residence here, both of them planning to remain citizens of Midland. Both own homes and other property in Midland. Mr. McKinney, who has been active manager of the Popular Variety Store, bespeaks for Perry Bros., Corporation the continued good will of Midland people.

The Perry Bros. Corporation is a Texas business, and owns and operates 49 variety stores in the state, being represented in some of the best cities and towns.

They plan to operate in Midland a high class business, as has been done in the past, making such improvements and changes as may be needed from time to time to keep up with the growth and development of Midland and its rapidly expanding territory.

Mr. Haltom, the new manager, states that he is highly pleased with his new location, and speaks highly of the progress and civic appearance of Midland. He has a record of efficient store management, as well as of high citizenship.

99 PERSONS HAVE BEEN EXAMINED

Queer Defense May Crop Out When Case Starts

COLUMBUS, O., July 31. — (AP) — After five days in which 99 persons were examined, the jury was completed at noon today to hear the first degree murder trial of Dr. James Snook, charged with the hammer slaying of Miss Theora Hix, Ohio State University co-ed. Eleven men and one woman compose the body. Dr. Snook appeared quite ill as he entered the court room today.

Attorneys for Dr. James H. Snook, deposed Ohio State University professor, indicated today they will attempt to show that the 49-year-old defendant killed Theora Hix, his 24 year old co-ed paramour, while mentally unbalanced by the influence of dangerous narcotics taken by him and the girl as "love potions."

Veiled suggestions produced by Snook's attorneys in examination of prospective jurors in the professor's trial on a charge of first degree murder, were that Miss Hix had given the professor narcotics, secretly at first in baked goods, and that later they experimented with them freely during their three years' period of illicit relationship.

Dr. Snook's confession of the killing was that the girl had threatened the life of his wife and child and believing his own life was in danger also, he hammered the co-ed to death during a quarrel and then slit her throat to end her suffering.

Three Ships at Sloan Field Today

Two ships landed and one passed over Sloan field today, according to reports from the port office this afternoon.

The landing were a Stinson Detroit, four place job from Los Angeles to Ft. Worth and a Travel-air, a six place job. The one passing over was a Robin.

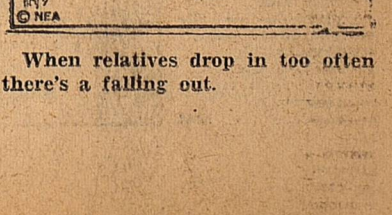

Two Trustees Escape Huntsville Prison

HUNTSVILLE, July 31. — (AP) — Raymond Gill and Bruce Fowler, trustees in the state penitentiary office, escaped today in a stolen automobile which was parked on the street. Both were serving two year sentences.

One Dead, Two Are Prostrated by Heat

HOUSTON, July 31. — (AP) — Curtis Waters, negro, was killed, and two white men were prostrated by heat here today. The negro was working in a yard when he was overcome.

SPEED ON THE ATLANTIC

By Bruce Catton

The Bremen crosses the Atlantic in less time than any passenger liner ever crossed it before. As it docks, announcement is made that American shipbuilders are preparing to lay the keels of two new ships that will be even faster than the Bremen.

Meanwhile, in Germany, a 100-passenger flying boat goes through its test flights and prepares for an eventual attempt to cross the Atlantic by air. And one is tempted to wonder; is that gigantic airplane the forerunner of a new type of ocean transport that will eventually make these great ocean liners as obsolete as the caravels of Columbus?

Thus far airplanes haven't exactly demonstrated their safety and dependability in trans-oceanic voyages. The flyers who have made the trip have only proved that they were very capable and brave; they haven't convinced us that the ocean liner is on its way to join the square rigged ship in the limbo of things that have been.

This, however, is an unpredictable world, and the new German seaplane is an amazing sort of device.

Imagine, if you can, an airplane with three decks, providing accommodations for 100 passengers, mounting a dozen motors and yet rising from the water as neatly and gracefully as a light scouting seaplane. To see a ferry boat take wings and sail off over the waterfront would hardly be more astounding. This new German plane, moreover, is essentially an experimental plane; what its descendants may be like is a matter for a gifted imagination.

Ever since men on the two sides of the Atlantic began to travel back and forth and ship cargoes to one another they have been obsessed by a desire for speed.

At the dawn of the last century the best ship could not get across in less than a month. Then the designers of Baltimore and Boston invented the clipper—a graceful, sharp-nosed sailing vessel that went like a race horse—and cut the time to a fortnight. Just as the clippers were being brought to perfection, the steamships elbowed them aside, cutting their time by hours and days. Before the 19th century ended the time had been brought under a week; and now the Bremen reduces it to less than five days.

But will that be low enough? Officials of the United States lines believe their projected liners will beat the Bremen's record; and you may be sure that the British builders will have some sort of answer, too.

And, meanwhile, an unbelievable, three-decked airplane sails over Friedrichshafen—and, if you are of a speculative turn of mind, you might give it a thought or two. It may do to the Bremen just what the steamers of 1850 and 1860 did to the Sovereign of the Seas.

To be sure, the chances are that it won't. But this is an era in which almost anything can happen.

"EMOTIONAL INSANITY"

An old familiar acquaintance—"emotional insanity"—is about to appear on the scene once more. This tried and true comrade of murderers is to constitute the chief defense of Dr. James H. Snook of Columbus, O., who is on trial for the murder of Miss Theora Hix.

Dr. Snook, it is said, will tell the jury that he does not remember just what did happen; and his lawyers will contend that this proves he was a victim of "emotional insanity" when the girl was killed, and hence is not to be held accountable for what he did.

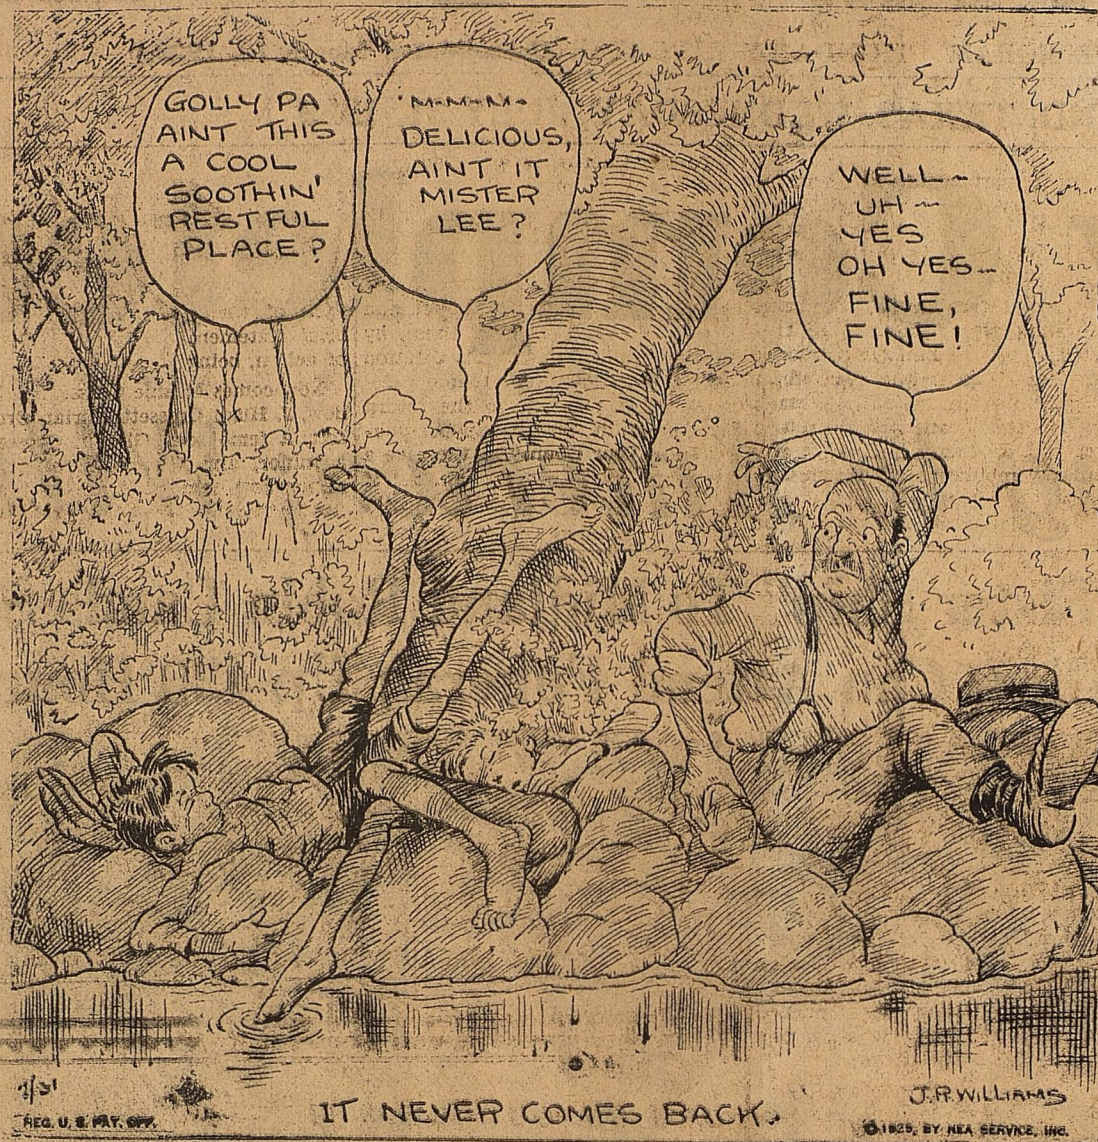

It happens that three alienists have already examined the former university professor and have found him sane. But will that make any difference? You know it won't. The whole question will be raised again, there will be new alienists to contradict the first three, and all of us will get additionally disgusted with the way our courts handle the whole subject of mental responsibility for crime.

Britain Builds Tiniest Cabin Plane

It's the tiniest "air sedan" in the world. Made and tested secretly at Walton-on-Thames, England, this smallest cabin plane has been designed for popular use. It'll fly 105 miles an hour, weighs only 415 pounds and costs but a half-cent a mile to operate. Note that the craft's wings are scarcely higher than a man's shoulders.

CHICAGO FRIEND ANSWERS SWENSON ON TEXAS DATA

F. E. Swenson, who returned a few days ago from his vacation trip to the east, took occasion to tell his friends in that section about the wonders of Texas. Knowing the oil situation in West Texas especially well, he told about the big production of the world's deepest wells, and other interesting features.

Imagine his surprise today when he received a letter from a friend in Chicago to whom he had talked of Texas, enclosing the following description of Texas:

Texas occupies all of the continent of North America except a small part set aside for the United States, Canada and Mexico. Texas owns the north half of the Rio Grande, one of the few rivers in the world with one bank wet and the other dry. Texas is bounded on the north by 25 or 30 states, on the east by all the oceans except the Pacific, on the south by the Gulf of Mexico and South America, and on the west by the Pacific Ocean and the rest of the world. Underneath Texas they have at this writing been down only 2,000 feet or so for oil, and up in the air Texas has in Guadalupe Peak, 9,500 feet above sea level, the highest hill in the United States east of the Rockies.

Texas is so big that the people in Brownsville call the Dallas people Yankees, and the citizens of El Paso speak of the residents of Texarkana as being "effete Easterners." It is farther from El Paso to Texarkana than it is from Chicago to New York, and Texarkana is closer to Milwaukee by airplane than it is to El Paso. (Try this on your Rand McNally.) The United States with Texas left out would look like a three-legged Boston terrier.

The chief occupation of the people of Texas is to try to keep from making all the money in the world, and at that the wealth of Texas increased 539 percent between 1900 and 1927. At one time Texas was so wild that not even the law of gravitation was obeyed, and the chief pursuit of the Texans was Indians and Mexicans, but now it is crop records and Democratic majorities. It is so healthful in Texas that out in Eastland a horned frog lived 30 years sealed in a cornerstone without food, air or water.

a slam at their State. If your front gate is not at least 18 miles from your front door, you do not belong to society as constituted in Texas. Down on the King ranch the front porch is 150 miles from the front porch and the owner is thinking of moving the house back so as not to be annoyed by passing automobiles. Other Texas landlords have whole mountain ranges on their ranches, and one Texan has 40 miles of navigable river on his farm. If the proportion of cultivated land in Texas were the same as in Illinois, the value of Texas crops would equal that of the other 47 states combined. If all the people of the United States were to move to Texas it still would be no more densely populated than is Massachusetts. Texas has land enough to supply every man, woman and child in the whole world with a tract 20 x 200 feet, and have enough left over for all the armies of the world to march around five abreast.

To move the Texas corn crop would take a string of box cars longer than the distance between New York and San Francisco. If the 1,500,000 tons of sulphur mined in Texas annually were in the hands of his Satanic Majesty, they would solve his fuel problem. If all the cotton grown in Texas were baled and built into a stairway, it would reach to the Pearly Gates. If the 213,765,000 barrels of oil produced in Texas last year were made into gasoline, it would run a well-known make of light car throughout eternity. If all the hogs of Texas were one hog, he could dig the Panama Canal in three roots and one grunt. If all the Texas steers were one steer, he could stand with his front feet in the Gulf of Mexico and his hind feet in Hudson Bay, and with his horns punch holes in the moon, and with his tail brush the mists off the Aurora Borealis.

DINA GRALLA IS NEW AND CHARMING STAR

Dina Gralla, the headliner in "The Prince and the Dancer," is a new star on the continent as well as in this country. She is both beautiful and vivacious.

In the production, which comes to the Grand Theatre today, she takes the part of a ballerina in the Royal Opera. She is suited to the part perfectly, inasmuch as she had long been trained in the very ballet which she represented.

CITATION BY PUBLICATION

THE STATE OF TEXAS.

To the Sheriff or any Constable of Midland County—Greeting:

You are hereby commanded to summon The Unknown Stockholders of the Midland Town Company, a defunct corporation, if living, and if not, then the unknown heirs and legal representatives of said unknown stockholders; N. R. Warwick if living and if not, then the unknown heirs and legal representatives of the said N. R. Warwick; Harry C. Hall and wife Sallie S. Hall if living and if not, then the unknown heirs and legal representatives of the said Harry C. Hall and wife Sallie S. Hall; H. C. Hall if living and if not then the unknown heirs and legal representatives of the said H. C. Hall by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Midland County, to be held at the Court House thereof, in Midland, Texas, on the First Monday in September A. D. 1929, the same being the 2nd day of September A. D. 1929, and there to answer a petition filed in said Court on the 30th day of July A. D. 1929, in a suit, numbered on the docket of said Court No. 2252, wherein The City of Midland is Plaintiff, and The Unknown Stockholders of The Midland Town Company, N. R. Warwick, Harry C. Hall and wife Sallie S. Hall, H. C. Hall, if living and if not, then their unknown heirs and legal representatives of each of them, and E. M. Whitaker are Defendants, and a brief statement of plaintiff's cause of action, being as follows: That Plaintiff is the owner in fee simple of all of the West One-half of Block Number Five (5), partly in the Original Town of Midland and partly in Homestead Addition to the City of Midland, Midland County, Texas; that when said property was conveyed by The Midland Town Company and in subsequent transfers and conveyances, there was a misdescription of said property in the deeds of conveyance which has the effect of casting a cloud upon the title to the said property and plaintiff prays that citation issue in terms of law to all defendants and that it have judgment correcting and reforming said deeds of conveyance, removing said cloud from title and forever quieting and establishing title in plaintiff; for all other relief, general and special, legal and equitable to which it may be entitled, and as in duty bound will ever pray.

Herein Fail Not but have before

Cavern Tour Starts At Marshall Thurs.

LAMESA, Tex., July 31.—(UP)—An All Texas Tour to Carlsbad Caverns and El Paso over the Dal-Paso Cavern Highway will leave Marshall tomorrow and traverse straight through the heart of Texas with its destination at Carlsbad, where the majority of the party is expected to go through the Caverns there, known frequently as the Eighth Wonder of the World.

The itinerary of the Motorcade includes: Marshall, Longview, Minnie, Terrell, Dallas, Fort Worth, Weatherford, Mineral Wells, Palo Pinto, Breckenridge, Albany, Anson, Roby, Snyder, Gail, Lamesa, Seminole, Hobbs, N. M., and Carlsbad. The trip will be concluded Aug. 5.

ECONOMY IN DAIRY PRODUCTION IS ESSENTIAL

COLLEGE STATION, Tex., July 31.—(UP)—Declaring that the promotion end of the dairy business is over in the South and that the job in hand is to learn to produce dairy products economically, J. H. McClain, United States Bureau of Dairy Industry pointed out at the general session at the Farmers short course here Wednesday, that volume of production should be the guiding principle in dairying as well as banking or merchandising.

Studios made in Tennessee show that cows producing 200 pounds of milk yearly did so at a feed cost of 35 cents a pound butterfat, whereas butterfat cost only 21 cents a pound for feed with cows producing 6000 pounds of milk yearly. That is what is meant by volume of production in the dairy business.

"The markets for dairy products which are applicable to the rank and file of farmers," Mr. McClain said, "are fixed by the law of supply and demand. The hope of profit for farmers who patronize most dairy markets is that they produce milk for about 18 or 20 cents a gallon and still make a profit. To do this a man can't quit farming and go into the dairy business, but he must farm for his cows. That means raising enough feed and pasture to furnish the bulk of the feed required."

"Success at handling cows in Texas must rest on the production of an adequate supply of hay and pastures, and on materially increasing the production of the average Texas cow."

Texas Weekly Industrial Review

El Paso—\$103,300 Firestone building at Texas and Octavia streets formally opened.

Tyler—\$325,000 bond issue approved to provide funds for erection of several school buildings and renovations and additions to present structures.

El Paso—Pign-Calf Barbecue plant opened for business in newly constructed building.

Rosenberg—Cotton platform being erected on Southern Pacific Right-of-way.

Yoakum—Plans under consideration for establishment of second National Bank in this place.

Carrizo Springs—Construction work started on stucco filling station for Humble Oil & Refining Company to cost approximately \$4,000.

San Marcos to receive direct air mail connection as result of daylight schedule of air-mail lines of National Air Transport Company.

Lamesa—Rapid progress being made on erection of Farm Bureau Cotton Association gin plant, which will cost \$45,000 when completed.

Crawford—Erection of building for Borden cooling station nearing completion.

Morgan—\$4,000 bond issue approved to provide funds for erecting addition to present school building.

Carrizo Springs—Erection of Stone Filling Station practically completed.

San Marcos—Southern Gas Company granted franchise to supply natural gas to this place by January 1, 1930.

Carrizo Springs—Contract awarded to Mayhew Lumber Company for erection of large warehouse for State Highway Department.

Yoakum—Work started on construction of new pumping plant of Texas-Louisiana Power Company located on Bushy Creek; total cost of this improvement will be approximately \$5,000.

Sabinal—Peters Bros. building repainted.

Karnes City—New office and ice station will be erected for Central Power & Light Company in near future.

Corpus Christi—Storage and garage building to be erected soon for Central Power & Light Company.

Carrizo Springs—City Council considering plans of paving streets from Highway No. 85 past Baptist Church to schoolhouse then east to

Hale's garage. Lamesa—\$3,000 bond issue voted upon to provide funds for erecting addition to brick school building for Joe Stokes Independent School District.

Waco—Borden Milk Plant opened in this place recently.

El Paso—Newman Investment Company erecting new building on North Stanton Street and will occupy new quarters about August 1st.

State Highway Department will award contracts for construction of about 23 miles of gravel base with asphalt topping on Highway No. 94 between Groveton and Neches River.

San Marcos—100-cow dairy established at Alvord farm three miles below here.

Donna—Construction work started on new telephone exchange.

Yoakum—Texas Tanning & Manufacturing Company, with capital stock of \$245,000, granted charter of incorporation.

El Paso—New Chemical plant will be constructed by Rathbun Company, Inc., at Fifth and Ochoa streets.

Midland—\$100,000 tourist camp established here and opened to travelers.

Canadian—Progress Laundry opened for business in old bank building on First Street.

New mining town will be established 14 miles southwest of Van Horn and 23 miles east of Sierra Blanca and will be known as Hot Wells.

Canadian—175 carloads of wheat shipped from here this season.

Fabens—Krauss Cleaning and Pressing plant installed new machinery.

Electra—Extensive oil drilling operations underway on field seven miles northeast of here.

Fabens—Road paved from Fabens Compress to Hansen Corner on Island.

Sierra Blanca—Southern Pacific Railroad Company to build footman's bridge across tracks at first crossing west of depot.

Canadian—Barton Produce Company moved to new location.

OVER 3,000 TEXAS TOWNS

DALLAS, Tex., July 31.—(UP)—There are 3,136 cities, towns and villages in Texas, with 92,500 business concerns of all kinds.

Junior League Has Has Picnic at Cloverdale Park

Tuesday evening furnished entertainment for members of the Junior Epworth League and their guests at Cloverdale city park.

A picnic supper was served to the group after which numbers of lively games were directed.

Accompanying the members as guests were Mr. and Mrs. M. D. Johnson, Mr. and Mrs. Ira Cole, Mesdames J. M. Porthro and Fred Barber, Misses Alta Mae Johnson, Lenora Patten, Annie Beth Bedford and Mr. James Killough.

Members attending were Clea D. Tate, Robert Prothro, Woodrow Gwyn, Alta and Helen Merrell, Annis Johnson, Marvelene Cole, Phillis and Evelyn Haag, Virginia Lee Smith, Rachel Morehead, Mary Francis, Joana, Helen and Freddie Lou Barber.

Attractive Party For Bien Amigos Club Tuesday

As a pretty compliment to members of the Bien Amigos Bridge club and their husbands, Mesdames F. W. Chapman and H. S. Collins entertained with bridge games at the Chapman home Tuesday evening.

In the party appointments and refreshment service white and green were emphasized.

For the games Mrs. Roy Stockard won high among the women and Mr. C. B. Goodman high among the men.

At tea time tables were centered with pretty shaded candles and salads were passed to Messrs and Mesdames R. J. Moore, J. D. Chambers, C. B. Goodman, C. D. Hodges, Frank Shields, Roy Stockard, H. S. Collins, F. W. Chapman, and Dr. and Mrs. D. M. Ellis.

Midland Women Can Make Living, Says Mrs. Forehand

"Women in Midland County can make a living for their whole family," says Mrs. W. T. Forehand, who lives at the Scharbauer place north of town.

This farm woman has kept an accurate check of her poultry flock and in the past seven months her half of the eggs has returned to her \$240 besides the eggs she used for the household and to set the hens. She has 200 hens and sometimes she has got as many as 720 eggs during a week from these hens.

Mrs. Forehand not only gets returns from her poultry flock but she has a cellar full of canned fruits taken from the trees on the Scharbauer place.

Mrs. Noyes New Member of Eastern Star Order

A call meeting of the Order of Eastern Star was held in the Masonic Building last evening. The meeting was called for the purpose of initiation services at which time Mrs. Iva Noyes became member of the order.

About thirty members attended the meeting and four were visitors from Odessa.

During the social hour refreshments were served to the group.

Contract Bridge Club at Willis Home for Games

Members of the Contract Bridge Club were guests of Mrs. Robin Willis at her new Spanish home on College Avenue, during yesterday.

The group met at the home at 11:00 in the morning for games and luncheon was served at 1:00 from a handsomely appointed Spanish table. The afternoon hours until 6:00 were enjoyed by the players.

Guests were Mrs. A. S. Legg, Misses Lois Patterson, Lula Elkin, Thelma White, Fannie Bess Taylor, and the hostess.

Miss Young Hostess To Pansy Class

Members and guests of the Pansy Sunday school class of Presbyterian church were entertained by Miss Retta Young in the church parlors Tuesday evening.

Snappy games and contests gave entertainment during the evening for the group.

At the social period ices were passed to the ten who were present.

Cowdens Leave for Wyoming Trip Today

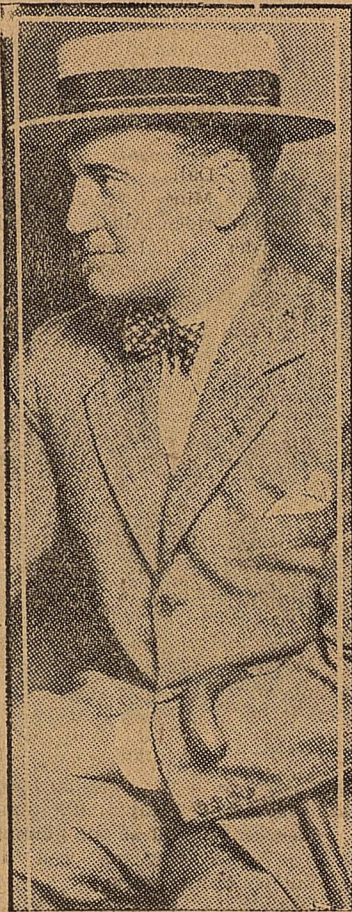

Mr. and Mrs. Elliott F. Cowden, Wright Cowden and Ida Beth Cowden left this morning for a vacation and business trip to Cheyenne, Wyoming, and other points. Mr. Cowden will visit the famous Wyoming Hereford Ranch, 6 miles from Cheyenne, with the idea of purchasing some cattle.

They will make stops at Colorado Springs, Denver and other points; and will probably go from Cheyenne to Yellowstone National Park.

MEN'S CANES TAKE NOVEL FORMS, WITH DOG'S HEAD HANDLES AND HIDDEN LIGHT BULBS

EDITOR'S NOTE: Here's the second of three articles on men's modes which Richard Dix, screen star, has written for The Reporter Telegram and NEA Service.

By RICHARD DIX
Written for NEA Service

Richard Dix . . . likes modish walking sticks

I wonder what there is about a walking stick that gives the average man a slightly "spruced up" feeling? It isn't just your man of "fashion" that you see today twirling his cane nappily about nor is the cane considered only the property of aging men and women, or those whose steps falter. It is the buoyant prop of men from 18 to 80—yes, and of proud youngsters who like to mimic their elders.

Malacca is still the favored wood in the best canes, whether for day or evening wear. As for handles there is the ever-popular crook handle and a new note is offered in one that resembles a golf putter. For the man who collects his canes, like meerscham pipes, there is the real rhinoceros-horn handle, resembling rock amber in color and cloudiness. This comes in either the crook handle, the "golf putter" or the straight top. Of course, one doesn't have to be quite so extravagant to have a good looking cane and these styles come with fine horn handles of other varieties, which are good substitutes for the rhino. And an ostrich or alligator hide handle isn't so bad, either.

For the sportsmen there are many novelties such as canes of snakewood with hide handle and hazelwood sticks with carved dogs' heads serving as handles.

When you start buying your cane for evening wear, you find an unlimited variety of handles to choose from; precious metal, such as silver and gold; genuine rhino or French horn. The ebony cane with the round silver top or ebony and ivory are popular combinations. An amusing novelty is an evening cane that has the crook handle of either metal or horn and at its tip a concealed electric bulb, which may be turned on or off by a simple twist of the ferrule, or band, that separates the handle from the main part of the stick. Not long ago I saw a chap sitting next to me at a theatre use his cane to read his theatre program.

A friend of mine who does quite a bit of traveling solved the problem of a cane for daytime and evening use by buying a detachable affair with two handles—one for regular wear and one for evening. The main part is of malacca, of course, and comes in three parts, then there is an alligator crook handle for afternoon, and the evening handle with its round, silver top. All five of these detachable parts are neatly packed in a small alligator traveling bag that fits into any suitcase.

NEXT: New modes in men's luggage.

Personals

Gus Edmondson, district manager of the Bell Telephone Company, made a business trip to Odessa yesterday afternoon.

Rev. and Mrs. Thos. D. Murphy and children accompanied Mr. R. T. Bucey to Wink on a business trip yesterday.

Mr. and Mrs. K. L. Denton and daughter of Corvallis, Ore., are guests in the home of his mother, Mrs. L. A. Denton and his sister Mrs. Chas. L. Klapproth. This party returned yesterday from a trip to the Carlsbad caves.

W. C. Driver of Odessa was in Midland this morning on business with local cattlemen.

W. W. Stewart is back in Midland after a month's stay in Dallas, Waco, Austin, San Antonio and Abilene. He expects to remain here henceforth.

Mrs. Allen Connell is here today from the ranch near Judkins.

Boone Hardin of Seminole, who recently underwent an operation for appendicitis at an El Paso sanitarium, is up again, according to letters received by relatives here.

John Reeves, 3-year old son of Mr. and Mrs. Carl Reeves of Midland, underwent an operation at an El Paso hospital early this week, removing an infection near his hip bone. The injury resulted from a fall from a swing some time ago, and he was said to be in bad condition before the operation. Reports to his father here indicate that he is doing nicely now.

18-Day Diet Brought by Midland Man

U. S. HEALTH SERVICE HAS DIFFERENT IDEA
And Woman from Motion Picture Land

When people of the Midland area go to the west coast, they, with few exceptions, expect to see the dainty Wampus stars, languid, exotic leading lady, virile male star or ludicrous comedian.

Mr. and Mrs. W. R. Lake, however, came back with something they think more rejuvenating than remembrance of all this galaxy of stars; they brought with them a chart on how to reduce.

So popular has the chart become among the motion picture stars that leading newspapers of the west and east have taken to publishing it in their columns. The list was compiled from an original by Louella O. Parsons, motion picture editor of Universal Service, who presented the following foreword:

This concerns a diet, and I am very glad to pass this along to everyone. The diet covers a time interval of 18 days. So many readers want to know what to do at the end of the period of dieting. Why, naturally, if you haven't lost the desired amount of weight, start in all over again and continue to diet until you have got down to a normal weight.

"And the method is being used," Bill Lake says. "I saw motion picture stars, directors, business men and others who gave testimony to the beauty of the whole is that one can eat and yet reduce. The system depends on the number of calories eaten."

The U. S. Public Health Service looks with doubt on the dieting period, however. In a release received this morning from United Press the general average, however, seems to be a loss of nine or ten pounds. Deleterious effects of the diet noticed in some cases include acidosis and an attack of boils.

following story explained the counter position:

Harm may result from the indiscriminate use by young girls and others of special diets without consulting a physician, the U. S. Public Health Service said today in commenting on the current 18-day diet fad.

"The best way to reduce," the service said, is to eat less of your regular diet without leaving out any of the essential items of body-building food. A simple reduction in the amount a person consumes will have effective results and can do no harm.

"In special dieting systems where certain essential foods are eliminated from the menu for a certain period, harm may result to persons who are not robust or who need a well-balanced and wholesome diet. Special diets should not be adopted without consulting a physician."

The origin of the ubiquitous "18-Day Diet" is in doubt. It has been claimed without any apparent justification that the regime was originated in Hollywood by a specialist called in to remove tonnage from a movie queen. There were other reports, later denied vehemently, that the diet was sponsored by Ethel Barrymore, by the celebrated Mayor Clinic, by a prominent Viennese physician.

There is a suspicion, too, that the diet is the work of an acute press agent for a citrus growers' organization. The frequency with which grapefruit and oranges appear accounts for this theory.

At any rate the results of the diet are at variance. Some dieters have lost as much as a pound a day; others have gained weight. The general average, however, seems to be a loss of nine or ten pounds. Deleterious effects of the diet noticed in some cases include acidosis and an attack of boils.

Several Versions
By now there are several versions of the diet, although all are basically the same.

And here is the diet itself:
First Day
Breakfast: One-half grapefruit, Melba toast, coffee (breakfast the same every day). Lunch: One-half grapefruit, one egg, six slices cucumber, one slice Melba toast, tea or coffee. Dinner: Two eggs, one tomato, one-half head lettuce, one-half grapefruit, coffee.

Second Day
Lunch: One orange, one egg, lettuce, one slice Melba toast, tea, Dinner: Broiled steak (plain), one-half lettuce, one tomato, one-half grapefruit, tea or coffee.

CITATION BY PUBLICATION

THE STATE OF TEXAS.

To the Sheriff or any Constable of Midland County—Greeting:

You are hereby commanded to summon W. A. Bell and W. A. Bell, if living, and if not the unknown legal representatives, heirs and descendants of the said W. A. Bell and W. A. Bell, and each of them, by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Midland County, to be holden at the Court House thereof, in Midland, Texas, on the first Monday in September A. D. 1929, the same being the 2nd day of September A. D. 1929, then and there to answer a petition filed in said Court on the 29th day of July A. D. 1929, in a suit, numbered on the docket of said Court No. 2254, wherein Minnie Crossett, a widow, J. Hugh Crossett, Miriam Crossett, a feme sole, Glorain Crossett, a mi-

nor, and Glendor Crossett, a minor, both feme soles, and both suing by their next friend, their mother, Minnie Crossett, a widow, Plaintiffs, and W. A. Bell and W. A. Bell, if living, and if not, the unknown legal representatives, heirs and descendants of the said W. A. Bell and W. A. Bell, and each of them, Defendants, and a brief statement of plaintiff's cause of action, being as follows:

Now comes Minnie Crossett, a widow, J. Hugh Crossett, Miriam Crossett, a feme sole, Glorain Crossett, a minor, and Glendor Crossett, a minor, both feme soles and both suing by their next friend, their mother, Minnie Crossett, a widow, who all reside in Atlanta, Georgia, hereinafter called plaintiffs, complaining of W. A. Bell and W. A. Bell, if living, and if not, the unknown legal representatives, heirs and descendants of the said W. A. Bell and W. A. Bell, and each of them, whose residences are unknown to plaintiffs herein, hereinafter styled defendants, and for cause of action, plaintiffs represent to the Court that on or about the first day of July, A. D. 1929, they were lawfully seized and possessed of the following described land and premises, situated in the City of Midland, County of

Midland, State of Texas, holding and claiming the same in fee simple, to-wit: All of Lots 10 and 11, Block 94, Original Town of Midland, Midland County, Texas.

That on the day and year last aforesaid defendants unlawfully entered upon said premises and ejected plaintiffs therefrom and unlawfully with hold from them and each of them the possession thereof to their damage in the sum of \$1,000.00.

That the reasonable annual rental value of said land and premises is \$250.00.

That this action is brought, as well to try title as for damages.

Plaintiffs state further that they claim the hereinabove described lands and premises under a deed, duly registered, and have had peaceable continuous and adverse possession of the land and tenements claimed herein, using and enjoying the same, and paying all taxes due thereon; for a period of more than five years next preceding the filing of this cause of action and before the commencement of this suit and said plaintiffs herein are lawfully seized and possessed of said land in fee simple and are the owners thereof. And own and hold the same by virtue of a continuous chain of title from the State of Tex-

as down to and in the plaintiffs herein.

The plaintiffs state and aver that they have had and held peaceably the lands and premises herein and adverse possession of same using and enjoying the same for a period of more than ten years next preceding the filing of this cause of action and before the commencement of this suit.

Wherefore, plaintiffs pray judgment of the court that defendants be cited to appear and answer this petition, and that plaintiffs have judgment for the title and possession of said above described land and premises and that writ of restitution issue and for their rents, damages and costs of suit, and such other and further relief, special and general, in law and in equity, that they may be justly entitled to and in duty bound will forever pray.

Herein Fail Not but have before said Court, at its next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Midland, Texas, On this 31 day of July A. D. 1929.

J. N. SHELBURNE, Clerk
District Court, Midland County, Tex.
124—July 31, Aug 7-14-21

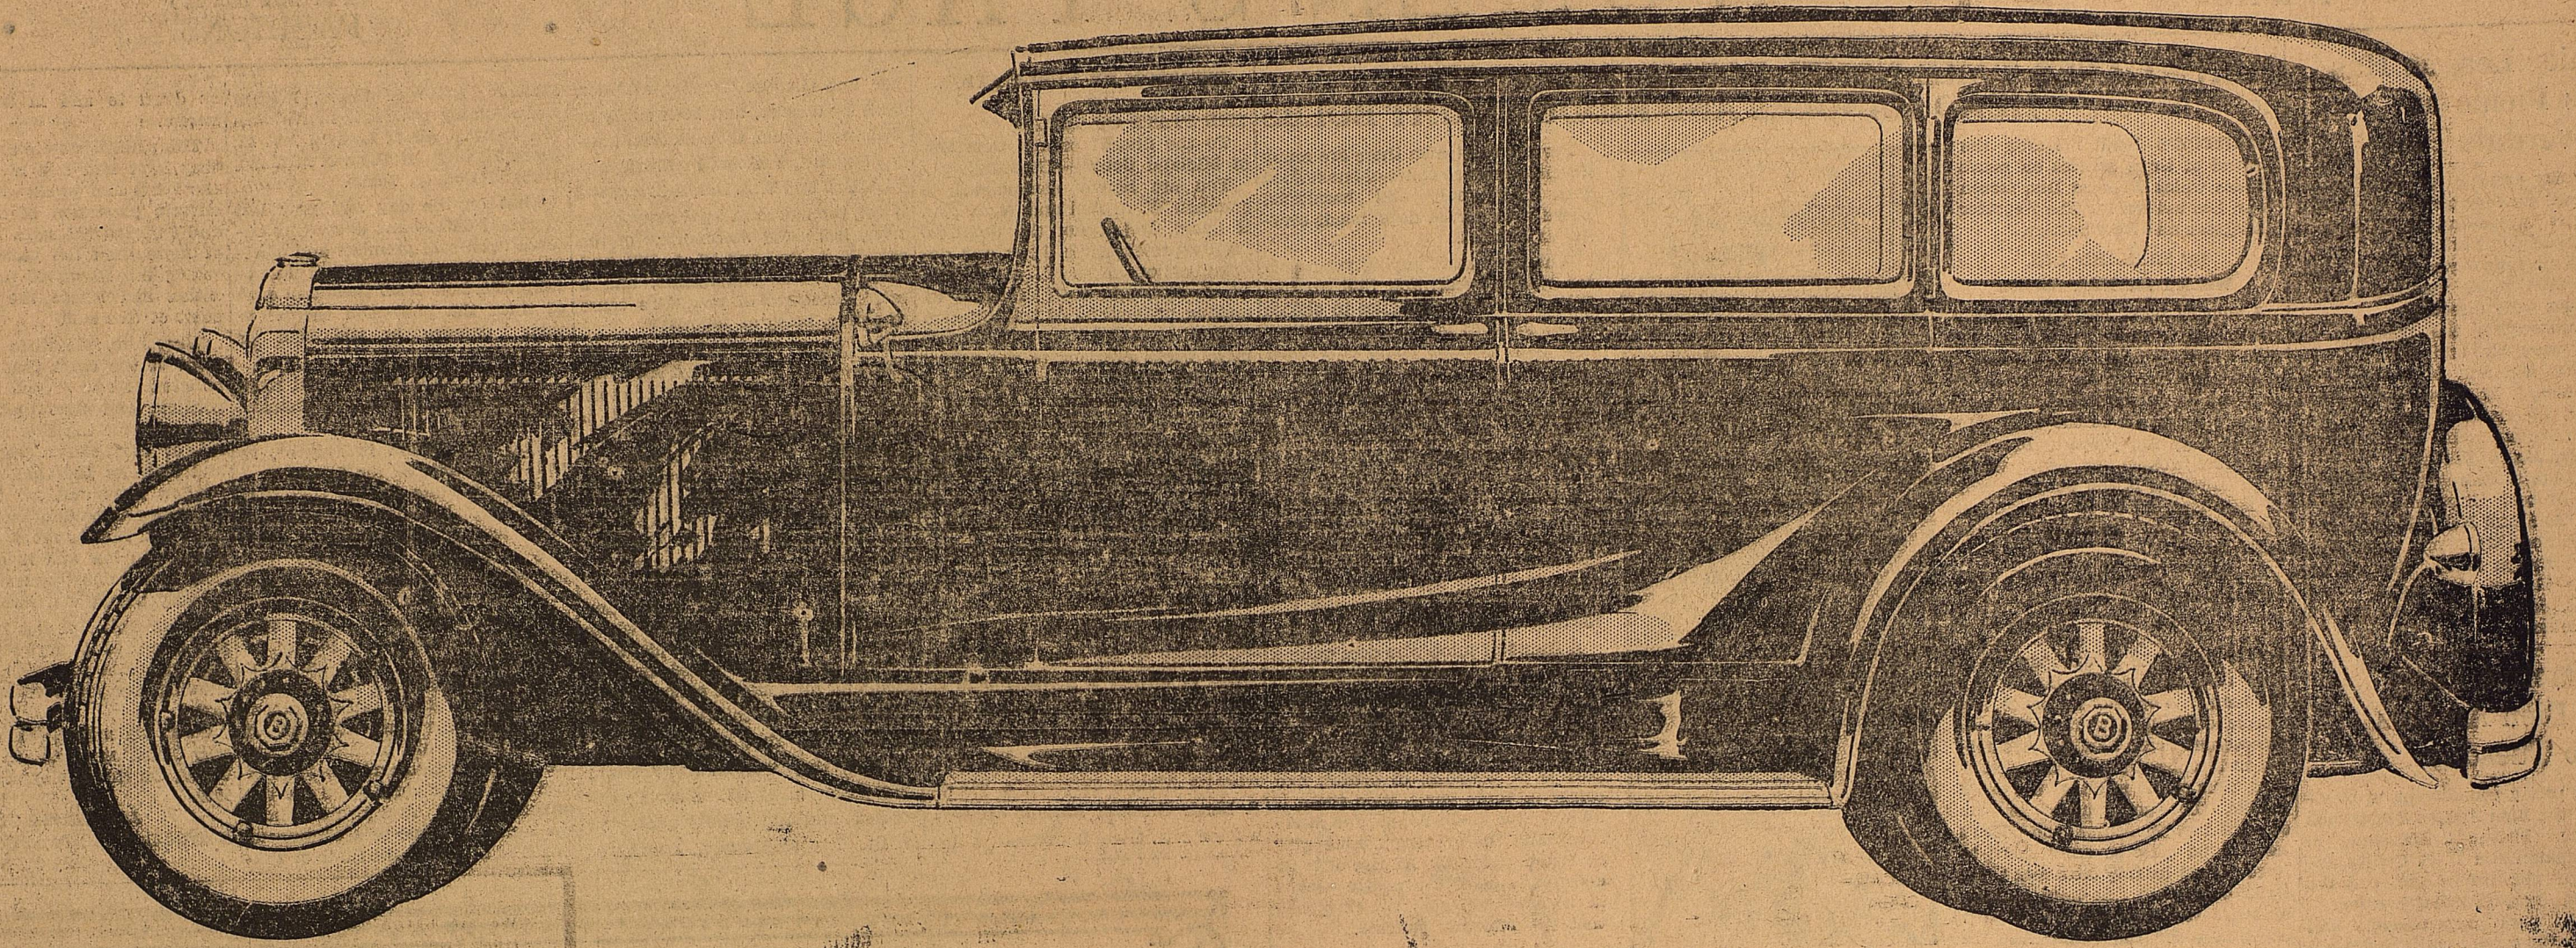

The Hotpoint Standard of Quality

BACK OF EACH Hotpoint Electric Range stands an experienced organization plus the power and the speed of gigantic machinery hourly turning out the finished product with faultless precision. Each range, built to an unvarying high standard of quality with mechanical accuracy, is the result of years of development in electric range construction.

Every step in the construction and assembly of Hotpoint Ranges is evidence of the carefully studied plans for standardization and unerring production which will withstand the keenest inspection. It is because of this factory efficiency that builds on a foundation of near perfection in design and engineering that Hotpoint is able to build the Best Electric Ranges in the World at prices within the reach of every purse. It is this unerring production that has made the Hotpoint Range the last word in Modern Cookery.

TEXAS ELECTRIC SERVICE

"Your Electrical Servant"

The New BUICK

NEW Fisher styling... **NEW** 99 Horsepower *Valve-in-Head* Engine*
NEW Controlled Servo Mechanical Brakes... **NEW** Steering Gear
NEW Road Shock Eliminator... **NEW** Double Acting Shock Absorbers
NEW Non Glare Windshield

New Controlled Servo Enclosed Mechanical Brakes

Buick's new controlled Servo mechanical brakes—the most effective braking system ever developed—not only are of the favored internal-expanding type but are fully protected against dust, dirt and moisture, and provide maximum braking under all road and weather conditions. These remarkable new brakes are self-energizing, which means that part of the braking effort is provided by the car's own motion—and they are fully controlled through the foot pedal, thus eliminating all possibility of "grabbing." A single test will prove Buick's new controlled Servo brakes the smoothest, most positive, and most easily operated ever developed for any motor car.

New Longer Springs—with New Double-Acting Lovejoy Hydraulic Shock Absorbers

The new Buick introduces an unparalleled comfort combination in its new, longer rear springs and new double-acting Lovejoy Hydraulic Shock Absorbers. These new rear springs give the car a free and easy cushioning motion, which is controlled in both directions by the double-acting shock absorbers—thus eliminating both bound and rebound under severe road conditions. Through the medium of these two wonderful new comfort factors, Buick has widened still further its decisive leadership in riding luxury.

New Road Shock Eliminator—New Steering Gear

Two vitally important features of the new Buick—a new steering gear and new road shock eliminator—mark the greatest contribution to handling ease and roadability achieved in recent years. The new steering gear, of worm and roller type, provides matchless steering ease throughout the entire turning range. The new road shock eliminator, built into the frame on the steering gear side, effectually absorbs road shocks and prevents their transmission to the steering wheel. The result of these twin features—found only in Buick—is unrivaled driving comfort at all speeds.

America has taken this new Buick to its heart. Millions have thronged to see it... tens of thousands have already placed orders... other thousands have requested demonstrations... and the reasons will be instantly apparent when you call at our showrooms and inspect the matchless array of new Buick models. **

The fact is that in the five major elements of motor car appeal—beauty, performance, comfort, safety, value—this new Buick with Body by Fisher strides far ahead of any other car in the entire quality field.

New Fisher Styling

The new Buick Bodies by Fisher are longer, lower, more luxurious. They reveal new Fisher styling—new beauty of line and appointment—new colors—which have won the outspoken admiration of all who have seen them. And in addition they introduce a host of new features of utility and convenience, including the new Fisher Non-Glare Windshield for safer night driving; new and richer upholstery; and new fittings and appointments of princely luxury.

Pacemaker of Performance

Moreover, Buick for 1930 reveals this same marked supremacy—this same increased leadership—in fleet, spirited behavior on the road. Its new and bigger Valve-in-Head engine—developing 99 horsepower—provides matchless new virility, pick-up, swiftness and flexibility. A single drive will prove it the *pacemaker of performance*. And the same drive will disclose marvelous new handling ease, comfort and safety, due to a new

and improved steering gear and new road shock eliminator; new double-acting shock absorbers which check both bound and rebound; and new controlled Servo enclosed mechanical brakes, the most effective braking system employed on any car in the world.

See, Drive and Own This New Buick

Bear in mind, this new Buick with its many advancements is offered at new low prices—in three new series and three new wheelbases, with only one standard of quality throughout—the finest in its field.

Visit our showrooms today. See the new Buicks and arrange to drive one. Among the 14 attractive body types is exactly the Buick for you.

** So great is public confidence in Buick that thousands of motorists placed their orders for new Buicks before ever the car was shown... Year after year, Buick sells more than 100,000 cars to Buick owners alone—more than the total output of the majority of cars in the Buick field.

New Peaks of Power in

The New Buick Valve-in-Head Engine
The wonderful new Buick Valve-in-Head engine—developing 99 horsepower—represents the splendid climax of 26 years of concentration on this one outstandingly efficient type. It is a bigger engine—a sturdier engine—and provides greater speed as well as a power reserve more than adequate to any need which may arise. Moreover, this great new power plant is smoother and quieter, as well as more powerful, and provides a measure of all-round performance without parallel in the Buick field.
*The new engine in the 132- and 124-inch wheelbase series develops 99 horsepower—the new engine in the 118-inch series, 80% horsepower. Also it achieves this additional performance without increased gasoline consumption.

The New Fisher

Non-Glare Windshield... a Vital Contribution to Motoring Safety
The new Fisher non-glare windshield—a vitally important feature exclusive to Buick-built cars—adds immeasurably to the safety, pleasure and comfort of night driving. This new windshield—tilted at an angle of 7 degrees—protects the driver against the annoying and frequently dangerous reflection of glare from other cars. Test the new Buick and experience the remarkable advantages of this new and exclusive feature.

NEW LOW PRICES—

118" WHEELBASE	4 Passenger Coupe, Model 58* \$1465.00
5 Passenger Two-door Sedan, Model 40 \$1235.00	132" WHEELBASE
4 Passenger Sport Roadster, Model 44 1275.00	7 Passenger Sedan, Model 60 1845.00
5 Passenger Phaeton, Model 45 1275.00	7 Passenger Limousine, Model 60-L 1995.00

Late Pullets Not Productive Layers

COLLEGE STATION, Tex., July 31—(UP)—“Late hatched and poorly developed pullets are certain to be unprofitable layers this fall,” according to Clyde Ingram, poultry specialist of the Louisiana Extension Service who spoke before the poultry section of the Farmers Short Course here yesterday. “I believe that 40 percent of our losses from poultry diseases and parasites could be controlled by starting with vigorous standard breeding stock, and keeping clean chicks, clean brooder house, clean feed and litter and clean range. “To get good growth and development with young pullets through the hot summer months,” he said, “it is necessary that plenty of range be provided, that tender, succulent green feed be abundant, and that cockerels and pullets be separated early in order to make room for the more promising pullets. The undesirable ones of both sexes should be fattened and marketed.

Shade is essential, and if not present should be provided artificially. Self feeders on the range will minimize labor and hasten maturity of growing stock.

“Successful poultry keeping depends upon the ability of the poultryman to produce pullets that are ready to go into the laying house in August or September free from such diseases as coccidiosis, intestinal parasites and paralysis.

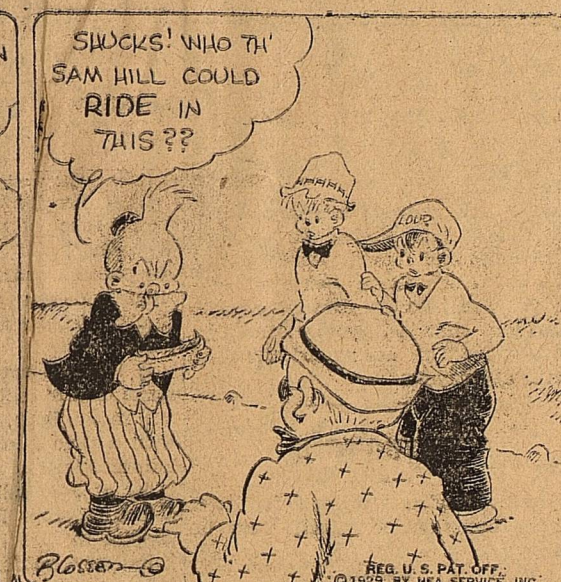

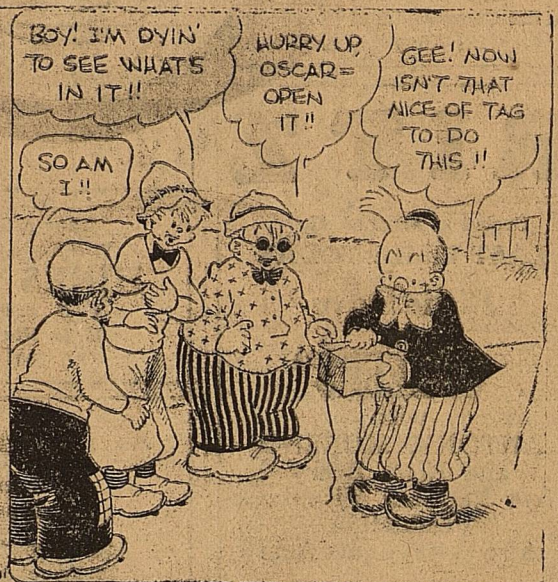

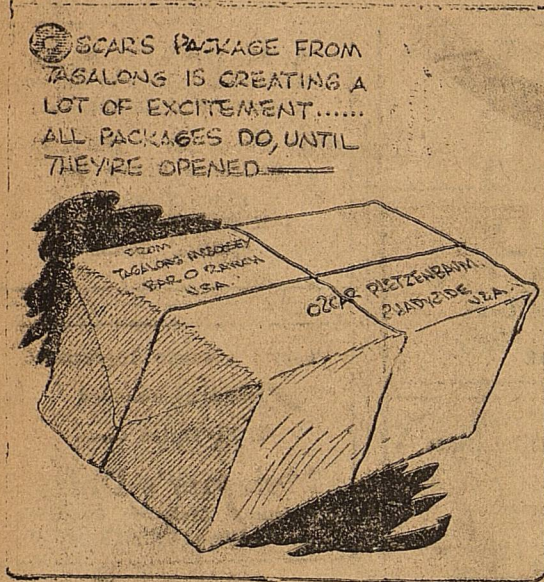

Paving Contract at Mexia Is Let Today

MEXIA, Tex., July 31—(UP)—Contract for paving of the last state highway strip in Consolidated Road District No. 4, Mexia to near Coolidge, will be let by the state highway commission at its meeting today and tomorrow. After work from Elm Creek to Mexia via Tehuacana is completed, which will also be allowed for by the highway commission the district will have about \$200,000 left for additional work.

MIDLAND FOURTH; ERROR BEATS TEAM IN NINTH

BALLINGER TAKES EIGHTH GAME IN ROW

Sounds like a bed-time story to other members of the West Texas league, the way Ballinger is monotonously socking everyone on the chin and climbing farther apart from the stragglers.

Midland lost yesterday by another 7-6 count, which Bokens made an error in the ninth that allowed Bean to score the winning run from first base. This win made the eighth in a row for the Ballinger team, the eighth in a row for Ballinger, and it tumbled Midland out of second place to fourth. The Colts now have an exact 500 per cent. Coleman a few days ago on the bottom, is resting in second position.

The box score:

MIDLAND	AB	H	O	A
Lewis, 3b	4	1	1	1
Flowers, cf	5	0	3	0
King, lf	3	1	3	0
Kallina, 1b	3	2	9	1
Cheeves, 2b	4	1	3	3
Boken, ss	3	0	0	3
Stagner, c	4	1	6	2

Umpire: Ballant.

GIRLS END 3-DAY CAMP

DALLAS, Tex., July 31.—(UP)—Approximately seventy Girl Reserves of the Dallas district Young Women's Christian Association ended a three day camp here today. The affair was a general get-together as the concluding program of the summer.

OIL LOCATION MADE

LAREDO, Tex., July 31.—(UP)—Four new locations were made in this oil region during the past week, which gives additional work for four new strings of tools. This last week has been pretty slow for the Laredo oil district with only one completion, a ten-barrel well made by the Humble Oil and Refining Co. in Inval county at a depth of 1812 feet.

RITZ SUN. MON. TUES.

3-STATE OPEN TO BE CARDED SOON IN AMARILLO

The second annual Tri-State Open Tennis Tournament will be held in Amarillo August 9, 10 and 11. Entrance will be open to all players in Texas, New Mexico and Oklahoma. Play will be in four divisions—championship singles, championship doubles, women's singles, and junior singles. Trophies will be given the winners and runners-up in the single events, and to the doubles winners. A consolation round for losers in the first matches of the championship singles.

The Tri-State Open held for the first time last summer, drew an entry list of 94 from the three states. Wilson McKirahan and Ed Lund, won the doubles championship, then McKirahan beat his own partner for the singles title.

The women's division is an addition to the contest playing schedule. Though one was requested for last year's tournament, it was postponed until this year when it could better be provided.

Boys and girls 16 years old and younger, may compete in the junior singles.

Final date for the registration of entries in the Tri-State Open has been set for August 7. Fees charged will be \$1 for entrance in the men's and women's events, and 50 cents in the junior singles.

The tournament will last three days, beginning Friday, August 9. Entries and fees should be mailed to the News-Globe sports department, Amarillo, as soon as possible in order that arrangements may be made for the accommodations of visiting players.

Personals

Allen Cowden is in for a few days from the Cowden ranch west of Midland.

Mrs. Clarence Hale is on her vacation from her position at Wadley Wilson this week.

Mr. and Mrs. Marshall Brown, Messrs. Kathryn Tanner, Daisy Lindsey; Messrs. David Blevins and Knute Ewejen have returned from a trip to the Carlsbad caves.

Mr. and Mrs. Harris Barnes and family have returned to their home in Clarkdale, Miss., after visiting her sister Mrs. Earl Moran for several days.

Mr. and Mrs. J. S. Fimon and children and Miss Kathryn Horn of Waco are guests in the home of Mrs. Fimon's sister, Mrs. I. K. Parker.

Jax Cowden, and son Jax, Jr., of San Angelo are visiting in Midland for a few days.

Pearl Bellard has returned from a business trip to San Antonio and other points in that territory.

Mr. and Mrs. H. B. Fuqua are here from their home in Ft. Worth. Mr. Fuqua is connected with the Gulf Production company.

Mrs. W. Edward Lee and little daughter, Jeanne Irwin will leave this week for Bowie where they will visit Mrs. Lee's brother. From there they will be accompanied by her brother's wife to points in Louisiana, Alabama, and Mississippi. They will return to Midland early in September.

W. L. Russell returned yesterday afternoon from a business trip to Abilene.

Miss Virginia Bohne is the new secretary for the Lee and Kim-brough law firm.

Crowd Watches Man Start Rolling Hoop

TEXAS CITY, July 31.—(UP)—"The biggest crowd since Labor Day" watched H. B. Williams bounce a hoop down the city hall steps today as he started rolling it toward New York. He hopes to reach there within the next three months.

Highway Commission Lets Contracts Today

AUSTIN, July 31.—(AP)—Contracts aggregating a million and a half dollars will be let by the State Highway Commission today. Tomorrow, another batch totalling two millions will be awarded. All kinds of road construction is included, as well as bridges, concrete pavements, grading and drainage structures.

Houston Oil Man Is Killed in Collision

HOUSTON, July 31.—(AP)—Harry Lee, 53 years old, widely known oil operator of Houston, was injured fatally near here last night when his auto ran into a truck and then slipped into a ditch.

RAINBOW BVALE IN VITAPHONE FIRST COLOR SECTACLE

An entire stage was built on which much of the action of "On With the Show" Warner Bros. first 100 percent natural color, talking, singing, dancing picture, coming to the Ritz Theatre Sunday next, takes place.

It is a set representing the first scene of a musical comedy, which is laid in the South, and it is complete with a Colonial mansion, the Mississippi River at a back drop, the prow of a steamer and bales of cotton as props. Handling the Mississippi in mid-inte was something new to movie stage experts, but results show that they solved the problem.

"On With the Show" is Warner Brothers' most ambitious effort. It was photographed by a new all-color process which brings out every shade in its true value. Alan Crosland directed, with Sally O'Neil, Arthur Lake, Betty Compson, William Bakedwell, Louis Fazenda, Sam Hardy, Joe E. Brown, Lee McEvoy, The Fairbanks Tans and others in the cast, and a dazzling beauty chorus of one hundred. Something brand new in the entertainment world. Again the Warner Bros. pioneer.

CITATION BY PUBLICATION

THE STATE OF TEXAS,
To the Sheriff or any Constable of Midland County—Greeting:

You are hereby commanded to summon J. M. McKenzie and wife, Mrs. S. G. McKenzie and wife, Mrs. S. G. McKenzie, if living, and if not, the unknown heirs of J. M. McKenzie and wife, Mrs. S. G. McKenzie; Nelson W. Willard and Charles Brown by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Midland County, to be held at the Court House hereof, in Midland, on the first Monday in September A. D. 1929, the same being the 2nd day of September A. D. 1929, then and there to answer a petition filed in said Court on the 31st day of July A. D. 1929, in a suit, numbered on the docket of said Court No. 2253, wherein Mrs. Helen White, a widow and Thelma White, a feme sole Plaintiff, and J. M. McKenzie and wife, Mrs. S. G. Mc-

Kenzie, if living, and if not, the unknown heirs of J. M. McKenzie and wife, Mrs. S. G. McKenzie; Nelson W. Willard and Charles Brown Defendants, and a brief statement of plaintiff's cause of action, being as follows:

That, on the day and year last foreclosed, defendants unlawfully entered upon said premises and ejected plaintiffs therefrom and unlawfully withheld from them the possession thereof to their damage in the sum of \$5,000.00; that the reasonable annual rental value of said land and premises is the sum of \$600.00.

Plaintiffs further show to the court that the defendants J. M. McKenzie and wife, Mrs. S. G. McKenzie by certain deeds, first deed dated August 30, 1895, of record in Book page 47, of the Deed Records of Midland County, Texas; and a deed dated July 11, 1891 and recorded in Book 7, page 377 of the Deed Records of Midland County, Texas, conveying said lands and premises to J. Tom White, but there is a defect in said conveyance in that of said parties did not properly join casts a cloud upon plaintiffs' title to said land and premises.

Plaintiffs further show that said land and premises has for a great number of years constituted the homestead of J. Tom White and his family and is now the homestead of the plaintiffs and has never been other than homestead property. That, J. Tom White and his family, up to the time of his death, used and occupied said land as the homestead for himself and family, and since his death the plaintiffs, Mrs. Helen White, widow of the said J. Tom White, has continued to use and occupy said land as her homestead.

That, defendant, Nelson W. Willard, filed in the judgment records of Midland County, Texas, a certain judgment against the said J. Tom White in cause No. 670, styled Nelson W. Willard vs. J. Tom White for the District Court of Games County, Texas, same being of record in Book 2, page 282 of the judgment records of Midland County, Texas. That said judgment never created a lien against said property by reason of the fact that said property was the homestead of the said J. Tom White and family and that same casts a cloud upon the title of said land, which they are entitled to have removed.

Plaintiffs further show that J. Tom White made, executed and delivered to M. W. Ellis and Charles Brown a certain deed or trust covering said property, dated July 14, 1923, and of record in Book 7, page 132 of the Deed of Trust Records of Midland County, Texas, and that said deed of trust is fraudulent and void in that it attempted to create a lien upon the plaintiffs' homestead and that same casts a cloud upon the title to said property.

The said Charles Brown has filed suit upon the said Deed of Trust and obtained judgment from the District Court of Midland County, Texas, foreclosing said purported mortgage and that said judgments cast a cloud upon said plaintiffs' title; said suit being numbered 1727, styles Charles Brown vs. J. Tom White, in the District Court of Midland County, Texas.

WHEREFORE, premises considered, plaintiffs pray that defendants be cited in terms of law to appear and answer herein, and that upon final hearing of this cause, plaintiffs have judgment for title and possession of all of the above described property, and that the said Deed of Trust and the two judgments be canceled and held for naught and the cloud cast upon plaintiffs' title by reason thereof, be in all things removed and the title to said land and premises in all things quieted in plaintiffs, and that a Writ of Restitution issue for costs of suit and for all other and further relief, general or special, legal or equitable, to which they are justly entitled.

Herein Fail Not but have before said Court, at its next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at its next regular term, Texas, On this 31 day of July A. D. 1929.

J. M. SHELburn, Clerk, District Court Midland County, Tex. 124—July 31, Aug 7-14-21
