#### Small Farming Pays

The Denton Record Chronical tells ow J. P. Sitz and wife, living a few miles out of Denton, make farming \*\*\*\* pay well on 40 acre farm. Mr. Sitz says 40 acres is enough for a farmer to work to make money. He plants no cotton; he has an orchard of an acre or so, he milks eight cows, he has 100 or 125 hens, he grows sweet and irish potatoes and other vegetables enough to sell; he raises hogs; he fertilizes his land; he pays cash for what he buys; he works. Briefly told that is the secret of farm success.

Tidying Up for Summer A statement in the San Marcos Record that the new Borger Park is being planted to trees and beautified in a way to make it "a park in reality," is referred to as a reminder to other Texas towns that expect to profit by the large tourist business Texas is sure to have next summer to begin getting ready for that business. Automobiles will simply not stop in unattractive places longer than they have to stay. They are more and more seeking beauty, and certainly entitled to comfort. Every Texas town and village could be made a resort, at least in a small way and without large expense.

### **Stop That Lion** What's Doing In West Texas

The West Texas Chamber of Commerce is maintaining an linformaional and legislative bureau in Austin during the session of the Legislature with manager Homer D. Wade in charge. This bureau is located at 218-219 Littlefield Building and is at the service of all West Texans. Those desiring information on legislative matters or desiring service of the West Texas Chamber of Commerce in legislative matters are inited to write the bureau concerning their needs. Manager Wade is issuing each week

legislative letter concerning actiities in the state legislature. He will keep West Texans informed of the matters of legislation concerning West Texas, and will undertake to give a weekly digest of the proceedings in Austin. This letter will go to all Chamber of Commerce sec retaries in West Texas, will go to all officers and directors and unit diectors of West Texas Chamber of Commerce, and will be sent to all members of the West Texas Chamber of Commerce who will write to the general offices at Stamford, Texas, that they would like to receive same. There will, of course, be no charge or the service.

West Texas fored well in the organization of the legislature and in committee assignments for the past week. Hon. R. L. Bobbitt of Laredo was elected speaker without opposition. Another West Texan, Carl P. Phinney of Brownwood, was selected as chief clerk of the House. West Texas was signally honored by the appointment of committee chairmen. Dewey Young of Wellington becomes chairman of the committee on revenue and taxation. Lee Satterwhite of Amarillo chairman of the Penitentiary Committee, Cecil Storey of Vernon is chairman of the Oil and Gas Mines Committee. Chairmanship of the Committee on Municipal and private Corporations fell to E. S. Cummings of Abilene; George Kemble of Fort Worth was made chairma nof the insurance committee; Grady Woodruff of Decatur was appointed chairman of the Committee on Eleemosnary Institutions. The Committee on Criminal Jurisprudence will be headed by Alfred Petsch of Fredericksburg. The Chairmanship of the WAI Committee on Commerce goes to H. M. Hagaman of Ranger.

# The Competitive Significance of Chrysler's Rise to 4th Place

27th-18th-then 9th-and now fourth place in volume in the industry.

Such is the sensational three year advance of Chrysler on and upward to new heights of success.

Public preference for Chrysler products has thus been unmistakably expressed.

The public has endorsed Chrysler in the four great quality fields of the automobile market with its record breaking patronage-

-First, because of Chrysler engineering and manufacturing genius.

-Second, because of Chrysler performance, beauty, riding comfort, value and long life.

-Third, because of the soundness of Chrysler Standardized Quality line of 36 body styles, priced from \$750 to \$3595, enabling Chrysler dealers to dominate the four great quality car markets.

It all happens deep in the wilderness under Tonto Rim where stage coaches still rumble along over roads and nature still rules in her proud wild beauty. Hither rides Lucy Watson, friendless but with courage high. are reputed to be there is more interest being taken in the religious phase of life in Midland at present than has been manifested for a long time.

In fact Midland has secured many active church workers among the new people who have moved here since the oil development started in this vicinity, and there has been no tearing down of morale.

As long as the town can grow and prosper and still look out for the spiritual side of life, there will be no better towns than Midland. If prosperity causes the people to forget their religion look out for the downfall.

#### BOOSTER STATION 0---0

With the coming in of oil wells, pipe lines and like, Midland people have added several new words to their vocabularies. One of these is "booster station."

Machinery for a booster station was hauled out of here this week to be located somewhere on the Gulf's pipe line, to force the oil to the tanks where gravity will not carry it.

Midland has had a booster station all the time, according to one citizen. It seems that he had confused "booster station" with the Chamber of Commerce. At any rate, the Chamber of Commerce has served as a booster station.

However, since it is the present, "A luxury is something the neighthe Chamber of Commerce may have Minutes
