MEETING OPENS SUNDAY FOR **TWO WEEKS**

Beginning with the ten o'-clock service Sunday morning, a revival meeting will be started at the First Baptist Church, with Dr. R. L. Scarborough, president of the Southwestern Baptist Theological Seminary at Fort Worth preaching; and the meeting will continue thru June 23

Mathew E. Perry, of the Seminary, will also be here and will conduct the song services and be leader in the young peoples' work for the revival

Services will be held each day at 10 a. m., and 8 p. m., and the entire public is invited to take part, according to the Rev. George F. Brown, pastor of the church. Rev. Brown is enthusiastic over prospects for a great meeting which is the crying need of Midland at the present time, he says.

Dr. and Mrs. Scarborough will arrive in Midland Saturday afternoon,

Six houses were blown away at Flagg, and a number of automobiles were cast about on the prairie. Three Running Water houses were destroyed. Hail and rain followed Flagg's storm, damaging crops.

Midland Finds Dog's Master in Big Spring

When a dog is lost there is generally a systematic search instituted and then, first efforts failing, espionage.

A pedigreed dog was found by Harry L Haight, of the Scharbauer Cattle company yesterday. Haight called The Reporter-Telegram, saying that the dog wore a collar with a Lubbock tag on it.

The hospitality of Midland is not extended to the human visitor. A series of telephone calls were put the daily here were searched. A Lub

Dr. Scarborough needs no introduction to Midland people. He is recognized as one of the outstanding evangelists of the south, and has been a great aid in soul winning wherever he has held meetings. He has conducted revivals in Midland on several occasions, and has visited in Midland on several occasions and has visited in Midland intermittently for years. He has a host of friends who will be anxious to lend their efforts in making the revival

a great success.

latter part of the week, W. F. Scarborough said this morning.

MESDAMES EDWARDS, COWDEN AND MISS EDWARDS ENTERTAIN WITH GALA BRIDGE PARTIES

MUSIC

Morning and afternoon hours on Wednesday were found festive for many friends at the home of Mrs. Chas. Edwards, who entertained with her daughters, Mrs. Eugene Cowden of Kerrville and Miss Jerra Edwards. The scene for the bridge games was at the Edwards home on Indiana Street.

Early summertime shades of orchid and pink were reflected in the attractive party appointments, which were score books and tallies at the tables and vases of sweet peas in places about the playing rooms.

During the games iced mint and orange tea was passed to the guests.

In the morning awards went to Miss Fannie Bess Taylor, high score, and to Miss Quinnie Cordill, high cut; afternoon prizes went to Mrs. Clifford Hill, high score and to Miss Annie Frank Stout, high cut. The packages were made attractive by the clever pink and orchid crepe paper petals in which they were wrapped.

At tea time small pots of pink and orchid holding sweet peas went to guests and individual favors and an ice course was passed also reflecting the chosen shades. The guest list for these two festive

affairs included: Mesdames W. C. Cochran, Ed Cole,

P. Collins, Oran Collins, A. B. Cooksey, E. W. Cowden, E. P. Cowden, E. F. Cowden, Fred Cowden, Frank Cowden, Guy Cowden, Ellis Cowden, R. B. Collegiate Records Fell For Them

Track and field records toppled at the annual intercollegiate A. A. A. A. championships at Franklin Field, Philadelphia. It was a far western triumph, for Stanford University ahtletes won 43 3-8 points and Southern California was runner-up with 21. Philip Edwards, negro captain of New York University's track team, is pictured upper left as he smashed a 14-year-old collegiate record by running the half mile in 1 minute and 52 seconds. At the extreme right is Harlow Rothert, Stanford shot-putting ace, whose heave of 50 feet and 3 inches set another new collegiate mark. Three tied for first place in the pole vault, and they are shown above, set the first 25-foot broad jump record in collegiate history. Capt. Jimmy left to right: William of Southern California, Stardy of Yale, and Edmonds of Stanford. Below you see Collion Reid of Harvard is shown at the right as he retained his two mile title of National Air Transport, flew the of Brown University (second from left) winning the 120-yard high hurdles. Nichols of Stanford was second, McCoy of Pennsylvania, third; Smith of Stanford, fourth, and Stollwerck of Colgate, fifth.

Two record-breaking moments in the annual intercollegiate A. A. A. A. championships at Franklin Field, Philadelphia, are pictured here. At the motors, in the vane and penduthe left you see Jesse T. Hill of Southern California as he bounced off 'lum which brings the ships into an the take off beard and thrashed 25 feet 7-8 inches through the air to exact stable position almost at once. in a dazzling finish and set a new record of 9:22, breaking a mark of 10 N. A. T. ship fitted with the autoyears' standing. Cox of Penn State vas second.

AUTOMATIC PILOT SUCCESSFULLY TESTED BY THE N.A.T. AIR LINE

An important step in the fight speeded up still more than at preso overcome the handicaps to sched- en uled flying caused by bad weather conditions was taken at the Chicago Municipal Airport when "an automatic pilot" was successfully tested in a National Air Transport Douglas

mail and express plane. -The automatic pilot, developed by Otto W. Green of Elyria, Ohio, is a device installed in an airplane which keeps the ship in a stable position when fog and thick weath er forces the pilot to fly blind. In the tests at the Chicago airport the device operated the plane for thirty minutes without help from the pilot, other than a slight pressure on the rudder bar occasionally, which steers the plane in the same manner as a boat is steered.

The automatic pilot controls the ship by means of a vane supported on the upper wing of the plane. pcinting forward into the wind. A pendulum extends from the interior of the fuselage, and both vane and pendulum are connected to a control device actuating two motors one of which controls the ailerons and the other the elevators. The side motion, or forward motion, of the ship causes a like movement of the vane and pendulum which causes immediate response, through E. P. Lott, manager of operations matic control and said that its action was most satisfactory in keeping the plane in proper flying position.

Officials of N. A. T. are enthusiastic over the possibilities presented by the new automatic control apparatus and see in it, when the device is further perfected, another aid in the overcoming of bad weather conditions with the result that air mail and ar express will be

Dallas C. of C. **Opposes** State **Income Tax Law**

DALLAS, June 6.-(UP)-The Chamber of commerce Wednesday launched a movement designed to block passage by the legislature at Austin of the State Income Tax law, proposed by the governor in his address to the general assembly Tuesday.

The chief objection is it will drive small business from the state." The chamber here indicated that business interests all over the state will probably join the protest.

your measure" for a tire!

We sell tires differently here. Unless you're trading in your car soon and simply want one of the good low-price Goodyears, we first "take your measure." In other words, we ask you how far you're going to drive, the kind of roads you'll travel, the loads you'll carry, your usual driving speeds, etc. Then, after noting how the present tires have stood up on your particular car, from our experience we honestly advise you which one of the several types of Goodyear Tires will cost you LEAST TO BUY and give you THE TROUBLE-FREE MILEAGE YOU WANT.

WE POSITIVELY DO NOT TRY TO "WISH OFF" A BETTER TIRE THAN YOU NEED. We're in business to keep our friends. If a Goodyear Pathfinder or a Speedway at very low cost will answer your needs, we say sol We're equally frank when it's a regular, an oversize or a heavy duty Goodyear All-Weather that you require. This "Taking Your Measure" plan saves money for you and insures us another thoroughly satisfied Goodyear metomer.

Millions More People Ride On

ALL TYPES-ALL SIZES-ALL PRICES

Building millions more tires than any other company, Goodyear can produce for less. You benefit by getting higher quality tires without paying extra. In addition, you get our yearround service and on-the-ground attention to all your need-

THE REPORTER-TELEGRAM

Friday, June 7, 1929.

Big Spring-

(Continued from Page 1)

to be an excellent reader, and had his subject well in hand.

"Original Stuff", by Paul T. Vickers et al, provided fun for the entire crowd as he staged a Biblical examination in which C. T. Watson of Big Spring, George D. McCormick, Jim Finlayson and Kenneth Ambrose assisted.

Musical Feature

A spectacular musical skit was then given by Midland artists, entitled "A Journey Through Life in Music." Miss Leona McCormick, as reader, lead the number, with Mrs. Kenneth Ambrose at the piano and Miss Lillian Dunaway playing the violin, vocal solo parts by Mesdames, Ily Pratt and Jim Finlayson, and a cornet part by Jack Garlington. The part of music in the life from babyhood to old age was given.

Then came the "fire works." W. T. (Tanlac) Strange, president-elect of the Big Spring Rotary Club. addressed the crowd on "Home, the Bulwark of a Nation". Introduced by his former college chum, Aubrey Legg, it became necessary for the Big Spring speaker to defend himself and chastise the man who introduced him before proceeding with his speech. He declared Legg to be a human dynamo. "In fact," he said "everything Legg has on is charg-He added, "I admire Legg. There are very few that I do." The "Strange" Part

His address on "home" was divided into two parts, the first was a take off in which the modern lack of home life was played up in his remarkably humorous vein, and the second a stirring speech showing how the home is actually the greatest thing in cementing the foundation of the nation.

Among his humorous statements, he said, "Father eats at the club, mother at the ladies' tea, and the children at the cafeteria. There's nobody home but the cook, and she is in the strong arms of the law, especially since Frigidaires have reduced competition."

He said "Our friends used to drop in for a call. Now that call in for a drop." "Poor girls, they are born in a hospital, educated in a boarding school, married in a church, divorced at the courthouse and buried in a mortuary chapel. They never find time to get home." Strange told in an interesting way of how his old family used to get together in the parlor, lock at the family album, showing his bewhiskered ancestors,

which I am the sap."

Large Attendance Those who came over from Big Spring to attend the meeting were as follows: Mr. and Mrs. J. C. Douglas, W. C. Blankenship, Messrs, and Mesdames D. H. Heard, J. L. Thomas, J. W. Babb, Albert M. Fisher, Geo. L. Wilke, Hayes Stripling, Elmo Wasson, Bob Piner, C. W. Cunningham, E. B. Ribble, H. L. Rix, B. Reagan, W. B. Hardy, E. O. Ellington, F. C. Hopkins, E. E. Fahrenkamp, C. T. Watson, W. T. Strange, and Fred Keating, and Misses Jack-

No wonder the new Phoenix stockings are more shapely and flattering. First they are patterned after the measurements of legs which Ziegfeld says are the loveliest in America. Next they are woven with the aid of a new device, the Accurator, which produces perfect knitting. And lastly, the Phoenix colors are so delicate and subtle that they give both wearer and costume quantities of chic. Don't miss seeing the new Suntan, Sunburn and Complexion shades.

put your Lelephone on Half-pay during Vacation

You'll save money and spare yourself inconvenience when you return.

The Rumseys are going vacationing. The milk's been stopped, the ice man has been called off, and the Man Who Delivers the Newspaper has been instructed to bring no more until further notice.

But the telephone will be left at home, drawing full pay in an empty house! Something should be done about this!

Vacation rates for idle telephones One solution (provided you're planning a vacation of 30 days or more) is to place your telephone on vacation half-rates, while you are away.

It's a convenient way to save money. And-this to folks who sometimes have their telephones taken out-it spares you inconvenience on your return. That's because:

- 1. You pay just balf the regular rate.
- 2. Service is reconnected quickly after you return-usually within 24 hours after you notify us.
- 3. You keep your present telephone number. (You'd lose it if you had ... your telephone removed!)
- 4. Your name remains in the telephone book.

If you wish, while you are away we will refer your calls to another telephone -that of relatives, for instance.

Vacation rates are available for periods of more than 30 days, but not over four month.

Something should be done about this

To obtain them; mail the coupon of
