Last Witness Against Robison Heard McKenzie to Be Transferred From Prison, Fearing Violence

HEARING ON SANITY TO BE MONDAY

Moody Granted Stay Of Execution Last Night

HUNTSVILLE, June 18.—(P)—Fearing violence, Texas prison officials plan to take John McKenzie, saved from death at the prison here yesterday, to San Antonio to place him in the solitary death cell at the Bexar County jail, to await his sanity hearing Monday.

McKenzie, after three repleves, was slated to have died in the electric chair for the killing of Detective Chief Sam Street at San Antonio two years ago.

12 BAPTISED AT CLOSE SERVICE MONDAY NIGHT

By MATTHEW E. PERRY A large Monday night crowd greeted Dr. L. R. Scarborough, evangelist, who is conducting a revival in the First Baptist Church. This was the second Monday evening service of the campaign and the attendance was an evidence of the interest that has been growing since the first sermon delivered Sunday morning of the 9th.

At the close of the service last evening a baptismal service was held with twelve being baptised. The baptistry is possibly the most beautiful in this part of the country. No pains nor expense was spared in making it beautiful, impressive and lifelike. The picture at the rear of the baptistry is a reproduction of a kodak snapshot of the Jordan, using the exact spot as has been pointed out as the place where the Savior was baptized of John. Dripping water coming from the under edge of the canvass painting gives the impression of a water fall, the water tumbling over the vari-colored rocks that give a life-like scene. Lights control the entire pool, giving an evening, morning and noon day scene. As the candidate enters the pool the evening scene is used. Upon going into the water and brighter light is user, then as they come up out of the water a bright, noon day

WATCH FOR COURTYARD STORY WEDNESDAY

Midland county lays claim to having the best planned and most verdant courtlawn in this section of the state. More than 600 flowers and plants grow in profusion there. These are not scattered throughout the lawn as in some places, but are placed with due regard to beautiful effect. There are plants from semi-tropical regions, evergreens, delicate flowers, hardy flowers, all kinds of flowers — and most of them in full bloom. Watch tomorrow's issue of The Reporter-Telegram. All plants and flowers will be named. Women especially would be interested in going to the lawn and seeing for themselves why Midland county boasts of the yard and why no other county in this section disputes the right of the county to the place it claims.

Kills Girl Who Wooed Her Son

Because she objected to a love affair between her son and Bonnie Davis, above, Mrs. Ethel Brotherton, inset, daughter of Harry Crawford, rich Oklahoma Indian, shot and killed the 17-year-old girl at Baxter Springs, Kas., police say. Mrs. Brotherton first claimed the girl committed suicide but later admitted the shooting and now faces a murder charge.

CMTC TRAINS BOY FOR MANY THINGS, SAYS JUDGE HILL

Boys who wish to join the CMTC this summer have waited too late to be classified at Ft. Bliss, El Paso, according to Judge M. R. Hill, county chairman, but they may rush their applications and possibly get in at other camps.

Boys from Midland will go to the El Paso encampment, where they go into training July 25 and remain there until August 23. Judge Hill stoutly maintains that the camps are the finest influences in training of the young boy available.

In the camp a young man counts for what he is, not for what he has or was," the judge said today. "Each learns to obey and each is trained to lead. In the CMTC true democracy prevails. The young men live together in the same tents, work together in the same squads, are subjected to the same firm but fair discipline, and share everything in common. Among them there is absolutely no distinction of any sort except that distinction which each may earn for himself by his own character, his own ability, and his own work."

C. C. Committee Uses Over 3,000 Sheets a Month

More than 2,000 sheets of newspaper copy paper is used by the chamber of commerce publicity committee each month, checking records show. Considering correspondence, news copy, magazine articles and literature, the chamber uses more than 3,000 sheets each month. This is an average of 100 sheets used each day in advertising Midland.

FATHER MIDLAND MAN JUDGE IN A WEIRD MURDER

One Midland man is deeply interested in the trial of a youth in Kansas who has confessed to murdering the aged recluse, Louis Schlobohm, at his lonely home in Wellington, Kan. He watches every issue of the Wellington Daily News. For his father, a criminal lawyer, is judge pro tem in the trial.

The aged man was supposed to have hoarded money. The natural inclination of youth to find romance in proximity to mystery found outlet in an assault upon the hermit with intent of extorting information leading to the whereabouts of a supposed money cache. George Gross, boy being tried, admitted in a signed confession that he and a companion, after careful plotting and much fear, tried to force the recluse to tell them what they desired, and, this failing, tortured him by burning his hands and then striking him with a poker. Other punishment administered the man is expected to furnish background for one of the most sensational cases brought to trial in Kansas in years.

The judge is E. J. Taggart, father of Melvern Taggart, business manager of the Reporter-Telegram. Some idea of the sober surroundings of the case may be gleaned from the following excerpt taken from The Wellington Daily News: "The State of Kansas against George Gross," announced Judge Taggart in District Court this morning, and a young man sitting at the counsel table was noticed to add a little more paleness to a countenance already sallow from prison confinement. The strong arm of the law was about to legally avenge the supposed foul murder of the aged recluse, Louis Schlobohm. And possibly it will.

On the west side of the counsel table sat Louis Lundblade, assistant attorney general, and Bert Church, county attorney. On the east side George Gross, the accused, his mother, Mrs. Fannie McClanahan, and attorney, R. E. Angle. Two thirds of the seats in the court room were occupied by interested spectators.

Opening the proceedings the defense asked that the state be more specific in fixing the date of the crime, which the information alleges to have been "on or about February, 1927." The attorney thought twenty eight days a little too long for the commission of murder, but Judge Taggart ruled otherwise, the motion being denied. Several prospective jurors urged Judge Taggart to excise them from service, setting out the urgent need of growing crops just now, and these were allowed to retire.

The defendant, by his attorney, waived formal arraignment and entered a plea of "Not Guilty." Mrs. Plumb, the clerk, called a dozen men into the jury box and the battle was on. The monotonous droning of attorneys and jurors as questions were peated, repeated, and repeated, without end, in a supposed effort to learn what jurors are qualified to try the case continued until many auditors began to squirm in their seats, doubtless wondering why they did not wait until the afternoon session. But the job finally was done and the real work of the trial was begun.

Investment Man Visits Official Of This City

D. R. Gregory, West Texas manager of the Investor's Syndicate, has been in the city conferring with C. S. Hereford, district manager for his company. The two made an extensive trip over the district. Hereford was principal of the junior high school last school term. He will be back next term.

MIDLAND VISITOR HAILED AS CIVIC LEADER AT HOME

Ed S. Pritchard, who was Eastland county judge when the magnificent Eastland county courthouse was constructed was here this morning and talked with a reporter on the stronger civic spirit felt by a community as a result of expenditures making for beautiful public buildings.

"You will more deeply appreciate what I am saying when you have built your own proposed courthouse," he said.

The Eastland Telegram in a recent story praised Pritchard as having had an "eventful career."

The account runs: Memorial Day must have been one of the most memorable occasions in the eventful life of Ed S. Pritchard, who was county judge when the magnificent Eastland county courthouse was constructed.

To hear orator after orator pay glowing tribute to a massive building which one has helped to read and to hear a great throng applaud the glowing praise of the structure's beauty was the fortunate privilege of Judge Pritchard.

An ovation greeted him when he was introduced. In his eloquent speech, Judge Pritchard — with characteristic modesty — disclaimed credit for the building that other speakers had declared to be the most beautiful in West Texas and the former county judge said the success of the undertaking was due to the cooperation of the entire citizenship.

Judge Pritchard has had an unusual career. For 10 years, he was in the service of Eastland county — the last six years of that period as county judge. When he entered the judgeship, Eastland county was in the grip of the great slump that followed the oil boom. When he left office, the county's credit was in its most healthful condition — so much so that the courthouse bonds brought a premium. During his term of office, the county's highway program was completed and Eastland county leads West Texas with 120 miles of paved highways.

Many other constructive achievements marked his administration, the crowning act being the construction of the courthouse. Judge Pritchard was born in Eastland county and has spent his entire life in this county. His father died when Ed was a boy — the oldest son of the family — and he knew many hardships and struggles on the farm. Young Ed was ambitious however, and attained an education under difficulties: taught school in the county, then became a public official and served the county with a patient, diligent effort, with the sterling qualities of common sense, and gained recognition as one of the outstanding public officials in the state.

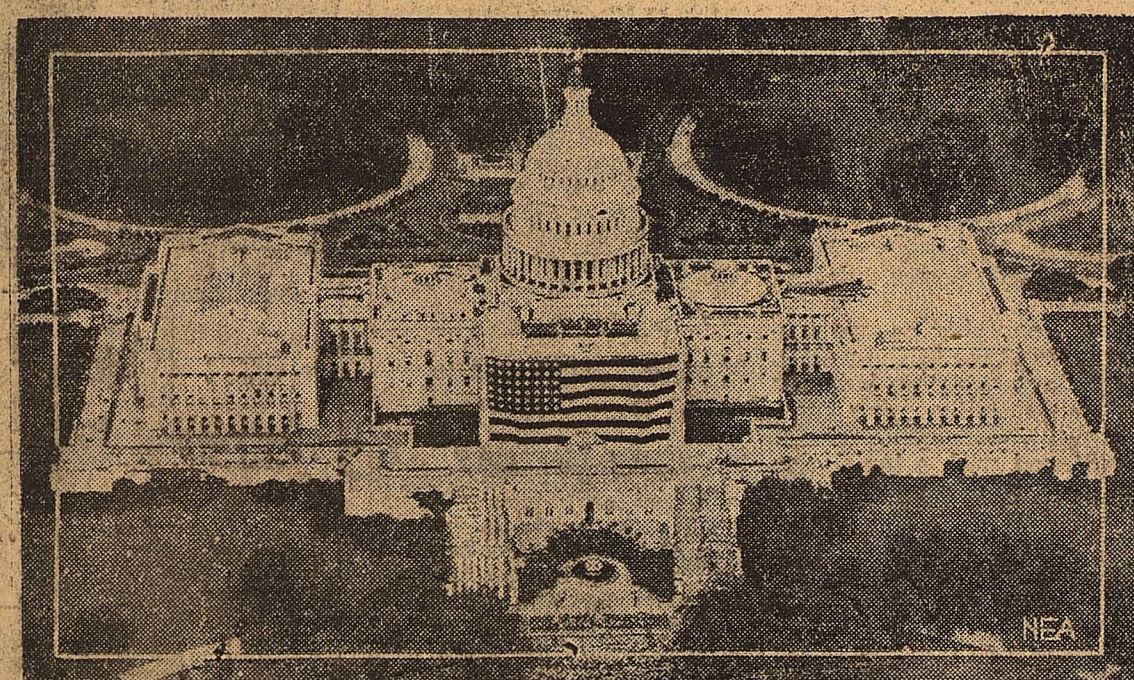

He has a hold upon the affections of the masses of the people that is perhaps unexcelled in the history of the county, but, after 10 years' public service, he returned to private life voluntarily despite the urging by numerous friends to allow his name to be placed before the people again.

More Midland In Farm Stories, Asks Former Farm Agent

Midland county will get much more valuable farm and ranch publicity in The Progressive Farmer as a result of a new series of articles called "Over West Texas," according to a letter from H. L. Atkins, Jr., former Midland county farm agent and now associate editor of the farm magazine.

Atkins called the attention to the feat of A. J. Florey topping the Fort Worth market with J. E. Hill Herefords, fed on West Texas feed, several weeks ago. "That sort of story will be the kind played up," he said in a letter to the chamber of commerce.

World's Largest Flag Drapes U. S. Capitol

One hundred fifty-two years ago the American flag was designed by Betsy Ross. At service commemorating the anniversary of the Stars and Stripes this year a huge flag weighing 640 pounds was draped from the side of the capitol. This airplane view of the capitol shows the enormous flag used in the ceremony. It is the largest in the world.

STOWAWAY FINDS NO WELCOME IN PARIS; IS SNUBBED BY ALL, EVEN AT THE AMERICAN EMBASSY MONDAY

PARIS, June 18.—(UP)—Laurent Eynac, minister of war, today awarded the Legion of Honor to Jean Assolant, Rene Lefevre and Armento Lotti, transatlantic flyers. Arthur Schreiber, stowaway, received no honor.

There has been no pretense of hospitality given the American boy who, report says, entered the French ship with at least one of the aviators knowing of the intrusion. The French, being a volatile race, were disappointed because, after a great length of time, three of their crack pilots failed to duplicate the feat of America's beloved Lindbergh, who made the trip to Le Bourget alone. From the moment the ship landed on the coast of Spain, near Comillas, the trio of flyers assailed the

boy who stowed away on their ship as being responsible for their failure to reach their objective, saying they had to dump precious fuel to offset the extra load, and that fuel would have allowed them to settle on the field in the heart of Paris. The stowaway, however, is pleased that he has suffered no more than he has. He stated to American reporters in Paris and Comillas that he expected to go to jail. Snubbing seems to have had no ill effects on him.

HAMILTON TO BE IN MIDLAND ON FOURTH OF JULY

W. B. Hamilton, Wichita Falls, said to be the biggest independent oil man in the country, will be in Midland on July 3-4 for the opening of the 12-story Petroleum building, according to J. D. Young, chairman of the July 3 committee. Young had just had a report of the distinguished speakers committee in charge of invitations.

Judge W. H. Estill, vice president and general attorney of the Magnolia Petroleum company, Dallas, will be here as a representative of the major oil companies of that section.

Investment Man Visits Official Of This City

D. R. Gregory, West Texas manager of the Investor's Syndicate, has been in the city conferring with C. S. Hereford, district manager for his company. The two made an extensive trip over the district. Hereford was principal of the junior high school last school term. He will be back next term.

Fallen Plane No Deterrent To This Big Spring Pilot

Mrs. G. H. Byrne, Big Spring, well known to Midland people thru a combination of interest, partly through the distribution of Mrs. Byrne and her husband of the Monocoupe and Monoprep airplanes and through the sensational escape of the two recently when their Monoprep fell from a height of thirty feet with them at the Big Spring port, hopped from Big Spring to Fort Worth in two hours Monday.

Just out of her hospital bed, Mrs. Byrne has not yet recovered her full strength. The fact that her plane fell one afternoon is not an event with her, it was just an accident that comes to the best pilots occasionally — just as it will to the automobile.

"I do not intend to let this accident disturb me in the least," Mrs. Byrne told a Reporter-Telegram staff member who visited her in the hospital three days after the accident. Her white face twitched from pain in a broken arm, but she was bravely trying not to let this show. At the time of the accident, Mr. and Mrs. Byrne were on their way on a short test flight. The air was choppy, a wind was brewing, and the ship was overloaded. The two had wired Reporter-Telegram members that they would be over for a visit the next afternoon. The visit had to be delayed, however, but, now that the plucky flyer is out of bed and hopping about the country in a small plane as usual, she may be expected to touch trucks to Sloan Field at any time.

AUTOMOBILE BOYS BEAT ANDREWS IN A SUNDAY GAME

Despite big scores, a fast game between The Cowden-Epley Motor company and the Andrews club was played Sunday, the Ford boys taking the shade in a 13-12 score.

The Cowden-Epley team has been organized only a short time. J. Homer Epley is manager, Locksley Hall, captain.

Vick Smith pitched against Andrews and Joe Roberson caught.

DRILLING AT THE STOKES WELL IS CONTINUED TODAY

Last reports from the Stokes well, in Midland County, were to the effect that drilling was in progress, the depth today being estimated at 4,020 feet.

Approximately 25 feet per day of new hole has been made since the cleaning out and fishing was completed, and the structure has not changed, according to advices received late yesterday.

The oil showing encountered at 3,915, which caused fluid to seep in progress, did not amount to big pay when the formation was penetrated; but drilling was resumed in the hope of finding bigger pay further down.

BIG PETROLEUM INDUSTRY TO BE LOCATED HERE

W. Edward Lee, Midland attorney, leaves for Austin tonight to seek articles of incorporation for a large petroleum industry whose home offices will be in Midland. Full details of the industry will not be available until Lee returns.

TRUEHEART ON STAND IN HOUSE

Testimony Is Similar To That of Moody And Pollard

AUSTIN, June 18.—(P)—C. W. Trueheart, former assistant attorney general, now of San Antonio, testified today in a short session of the House committee of the whole, hearing charges against J. T. Robison, land commissioner.

Trueheart's account of conferences with Robison, in a futile effort to get postponement of advanced sale of oil and gas royalties on University lands, was unfolded. The House, sitting as the committee will determine if it shall vote impeachment charges against the veteran official.

The testimony was almost a verbatim repetition of that given Saturday by Attorney General Pollard and Governor Moody.

Attorney for the proponents of the impeachment charges announced that Trueheart was their last witness.

HOUSE RESOLVES CONDEMNATION OF WHITE HOUSE TEA

AUSTIN, June 18.—(UP)—With Reno Eickenroht, sole Republican representative, voting affirmatively, the Texas House of Representatives today passed a resolution condemning the White House tea with a negro attending.

The vote was 99 to 10, the opponents declaring that they favored the first part of the resolution condemning the tea, but they were opposed to chiding Texas Democrats who voted for Hoover.

Reverend Forbes opposed criticism of Hoover voters, saying that the resolution was political propaganda of the Wets. Eickenroht was cheered when he said "As the son and grandson of Confederate Veterans," he was going to vote for the resolution.

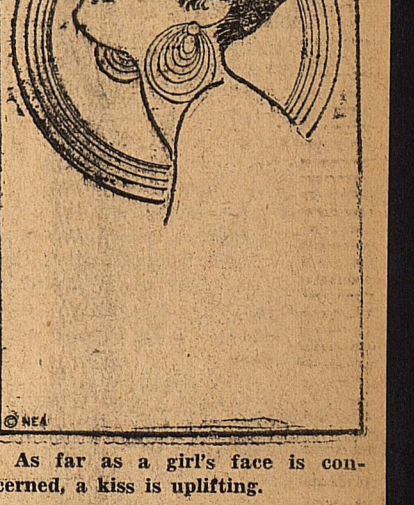

OKLA. CITY, June 18.—(UP)—The Oklahoma House was a storm center today as members debated a resolution to "condemn the attempt of the present White House occupants to destroy the social demarcation between the whites and the blacks."

TALLAHASSEE, Fla., June 18.—(UP)—The Florida House went on record today 71 to 13, condemning Washington negro entertaining.

SAN SABA, June 18.—(P)—W. D. Cowan, publisher of the San Saba Star, died at San Saba today.

FLAPPER FANNY SAYS

As far as a girl's face is concerned, a kiss is uplifting.

HARD NUTS TO CRACK

The American petroleum industry represents an investment of \$11,000,000,000. There are more petroleum states than cotton, steel, corn, wheat, or textile states.

This gigantic industry is to a large degree responsible for much of the social and industrial progress of recent years. Every American citizen and business has benefited from a steady supply of high grade oil products at a low price.

At the present time the industry is carrying on two progressive campaigns, both of first importance to the public. One is to prevent oil waste, through cooperation between producers. The other is to check the steadily rising gasoline tax.

The American motorist is threatened with a legislative attitude that apparently considers gasoline an easy mark for bringing funds into the public treasury.

The effort of the petroleum industry to correct exorbitant tax evils and effect conservation policies in the face of many obstacles, deserves helpful consideration.

MUD AND DUST MUST GO

Twenty-five years ago in this country a good road was the exception, rather than the rule. Now we have the greatest highway system in the world. The growth in use of the automobile was responsible for this development.

Money spent for improved roads is returned in social and industrial benefits. Highways are the foundation of community progress. Now a new phase of highway expansion is appearing, the building of secondary or feeder roads.

Roads are being extended into rural districts as never before since methods have been devised for using asphalt and road oils to give water proof hard surfaces at a minimum of expense.

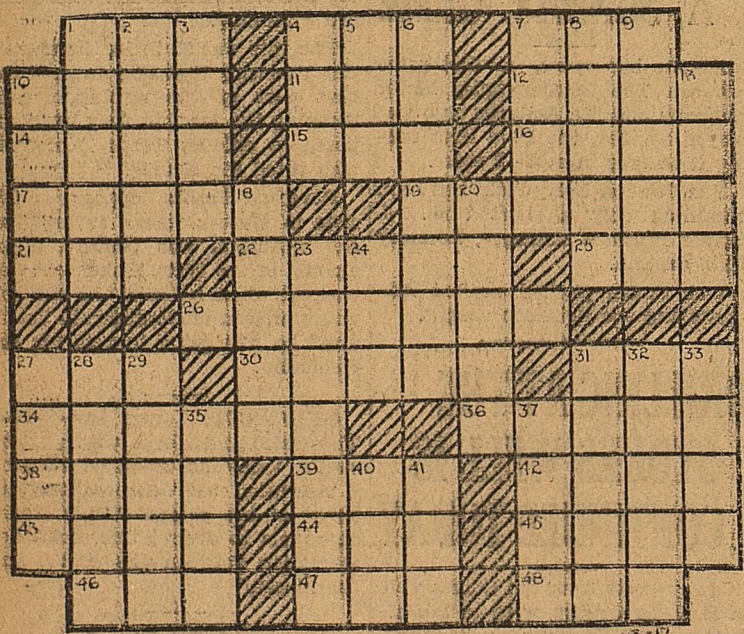

TELEPHONE ENTERPRISE ENCOURAGES PEACE

The great countries of the world are being brought closer together by a bond of telephone communication.

When a citizen in New York or San Francisco can, by raising a receiver, talk to a citizen of London or Berlin, it means that American telephone enterprise has provided a tremendous step forward in perfecting our understanding of other peoples and improving the business, social and governmental relations we have with them.

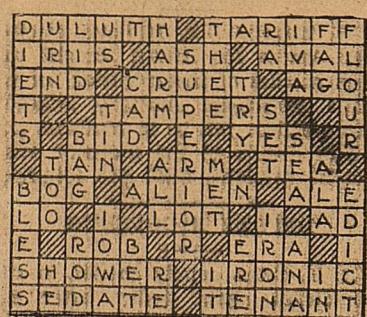

It is difficult to promote war and ignorance and national hatreds when a thin strip of wire will carry our voices around the world in a split second.

TODAY'S CROSS-WORD PUZZLE

- Horizontal
1. Door rug.
2. Unit of work or energy.

25. Sea eagle.

Yesterday's Solution

Daughter and Guest Honorees at Party at Smith Home

In celebration of her daughter Virginia's birthday and in honor of Margaret Holmes of Duncan, Okla., Mrs. D. V. Smith entertained a number of little friends at the Smith home Monday evening.

The playground for the party was in the patio of the home and it was colorfully decorated in balloons. Following a number of jolly games ice cream and cake with favors of novelty dolls for the girls and cap pistols for the boys were passed to the guests.

Mrs. Smith was assisted in entertaining by Mesdames Harvey Sloan, Joe Crump, and Kenneth Flint.

Many remembrances were brought to honorees by the little guests who were Bobby York, Leon York, Jerry and Jack Nobles, Jno. Dunlin, Jr., Doris Sue Miles, Mary Sue Cowden, Julian Anne Cowden, Nell Ruth, Anna Beth and Hillary Bedford, W. L. Russell, Man and Lady Rankin, Freda Fay Turner, Hugh Corrigan, Jr., and Billy Joyce Ackers.

Methodist Women Hold Successful Meeting Monday

The Woman's Missionary Society of the Methodist Church was entertained at the home of Mrs. Addison Wadley on Monday afternoon, with a social meeting and also a missionary program was given.

The subject of the lesson was, "Broken Homes Rebuilt." The leader of the devotional lesson was Mrs. Stanley Haver, who read the scripture telling of Jesus calling the disciples and she discussed Jesus' call to youth.

Mrs. J. D. Young read a paper on "Family Case Work in Social Science." "How Can We Help in Rebuilding Broken Homes?" was discussed by Mrs. M. J. Allen. Mrs. Stacy Allen gave an interesting resume of a paper on "Changing Family Life."

In a short business meeting held by the president, Mrs. Earl Moran, it was decided to have only one meeting of the society each month, the first Monday, combining the business and missionary programs, therefore there will be no Bible or Mission study classes during the summer. These meetings will be held in the homes and the hostesses will be asked not to plan any social entertainment.

On next Monday an executive will be held in the home of Mrs. Earl Moran, and all officers are asked to attend and to have their reports ready.

The society also voted to send a box to the Mexican social settlement in San Antonio and the ladies of the church are asked to bring donations to the primary room of the church and a box will be provided to take care of them. It will be necessary to have them at the church by Friday. Articles of clothing, new or old; clean white rags to be used in the clinic, safety pins, thread, buttons, toys and any other articles in good condition can be used in the box. Mrs. Luther Tidwell is able to give any other additional information concerning needs.

Appreciation was expressed to the society for the placement of awnings at the pastor's home. This new addition to the home adds comfort and attractiveness.

Following a business and program period the hostess, assisted by her daughter, Marion, served delightful refreshments to the group.

Many Midland Women Hear Dr. Scarborough

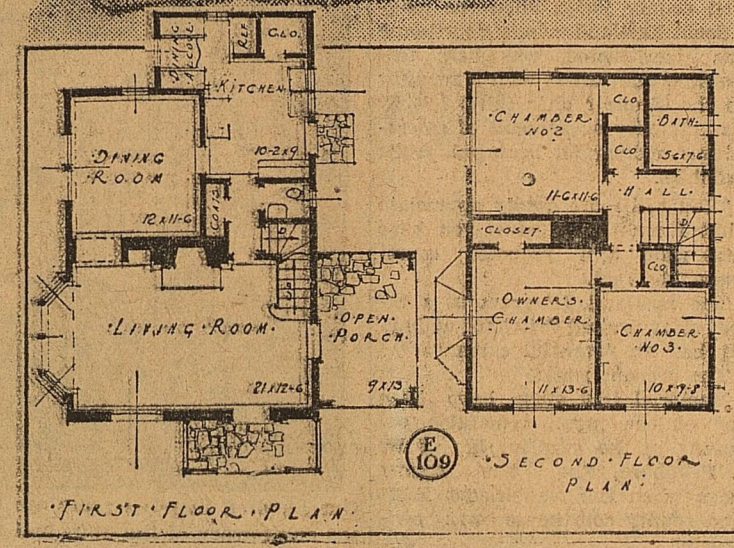

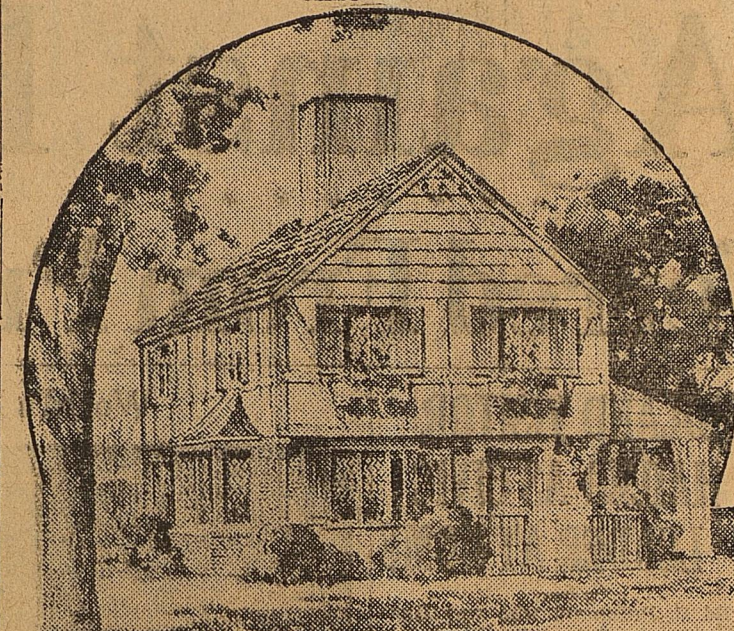

More than seventy Midland women heard Dr. L. R. Scarborough, who is in charge of a series of meetings at the Baptist Church, at a women's meeting at the church yesterday afternoon.

Dividing the subject, "Woman's Part in Christ's Plan," into two parts Dr. Scarborough based his discussions on numbers of scriptures taken from the Old and New Testaments. The first part was "Woman's Part in the Home." He told how the mother and wife, who is a Christian, takes "highest and sincerest interest in leading her family in a Christian life, as in her own." "The mother's Christian influence is the greatest factor in home life," he declared. He also paid high tributes to Christian mothers and wives.

"Ninety per cent of our conversions are made through the Sunday schools and a large majority of our Sunday school teachers are women," said Dr. Scarborough as he told of "Woman's Part in the Church." "The organized Women's Missionary Union is the greatest missionary force in the denomination," he added.

As a special musical feature for the program Mr. Mathew E. Perry sang and was accompanied at the piano by his wife. They are in charge of the music for the revival. Mrs. M. R. Hill presided during the afternoon.

UNIQUE CONSTRUCTION LENDS CHARM TO THIS WELL-PLANNED ENGLISH HOME

By CORA W WILSON

For NEA Service

Of English architecture, this little house with its pointed gable has a rare air of friendliness and charm. The leaded casement windows and oak door with half timber and white and interesting and distinctive features.

The house is of white stucco made with Portland cement. The roof is of shingles painted tobacco brown. Wooden shutters are green blue. Chimneys are of stucco. With the half timber effect the house stands out as a model in architecture.

Porch is Unusual

The visitor enters a small porch of brick with black iron hand rails and goes on into a living room that is small—21 by 12-2 feet—but ideal in every way. Here are a lovely English fireplace, three casement windows and four leaded casements in the bay.

Separated by an open archway into the dining room and by a swinging door into the kitchen, there is a dining nook. Every modern convenience has been placed in the kitchen.

The second floor is laid out admirably—three nice sized bed rooms, closets in every room, a large bath room and a small hall in which a linen closet is installed.

For additional information and cost estimate, write Mrs. Cora W. Wilson, 420 Madison Avenue, New York City, and be sure to enclose the clipping from this paper.

Dinner by Mrs. Holzgraf for Relatives

As a compliment to several relatives, Mrs. Chas. Holzgraf entertained with a delightful chicken dinner at her home Sunday.

Guest were Mr. R. L. Parks and daughter Margaret, Mr. and Mrs. R. L. Parks, Jr., and baby, Mr. and Mrs. Simpson, all of Stanton; Mr. and Mrs. R. D. Heatly and Mr. Holzgraf and children.

SOCIAL CALENDAR

Wednesday Mrs. Harry Roberts will entertain members of the Kongenial Kard Klub at her home—3:30.

Thursday Mrs. M. M. Meek will entertain Thursday club members at her home—3:00. Members of the Rainbow Club meet with Mrs. E. W. Cowden—3:00.

FRIDAY Miss Adelle Haag hosts to G. N. O. Club at her home.

PERSONALS

Mr. and Mrs. D. T. Ross and son Rodney returned Monday from El Paso where they attended a reunion of the Ross family. The occasion was in honor of the birthday of Mr. Ross' father.

W. F. Handegan of Roswell is in Midland from Roswell. He is connected with the Empire Fuel & Oil Company.

T. J. Miles has gone to Ft. Worth to meet his family and they will return to Midland in a few days.

Johnnie Ratliff of the Atlantic Oil Company has returned to Midland from Wink.

Kenneth Ambrose, manager of the Southern Ice & Utilities company, made a business trip to Odessa yesterday.

Miss Edith Cox of the home service department of the Southern Ice & Utilities Company will arrive in Midland tonight and will be here several days.

Mrs. Chas. Edwards and daughter, Miss Jerra, spent the weekend on the Edwards ranch at Sand Hills.

Bill Harvey of Eastland was a business visitor in Midland this morning. He is connected with an oil company and is doing work in this territory for several days.

P. L. Davis of the Shell Oil Company is here today. He is now stationed in Lamesa and is doing geographical work in Dawson County.

Joseph M. Wilson, oil man of Dallas, is in Midland on business today.

Mrs. G. W. Ball left this morning for Wichita, Kansas, where she will make her home.

Rae Sowell is in Ft. Worth this week on business for the Rector Oil Company. He will return to Midland late this week.

New Way To Improve Skin

A wonderful discovery is the new French process which gives MELLO-GLO Face Powder its unparalleled smoothness and makes it stay on longer. The purest powder made—its color is tested. Never gives a pasty or flaky look! Will not irritate or clog the pores. Its youthful bloom stays on longer. Remember the name—MELLO-GLO, Midland Drug Co.

People wondered then how she could ever hold a home together. "It's such a pity Helen is so helpless," they gossiped. "Her mother was always so capable, too!" But her husband proved to be a first class oak, so she clung and nothing crashed. He went with her to choose her clothes because she couldn't make up her own mind. He brought home the new cooks and bought the groceries, and that isn't half of it.

Left for a Rest

He got up at night with the babies, when they came, and played father and mother, too. He managed the heavy father business 25 years and then departed for a well earned rest.

Now she is a widow leaning very heavily on her two daughters—and depending on them almost for her very thoughts.

CHRISTIAN WOMEN HOLD MEETING WITH MRS. RATLIFF

The regular meeting of the Ladies Aid Society was held yesterday afternoon at the home of Mrs. Geo. Ratliff.

A sewing period took most of the time and a quilt was completed by the women.

No business hour was held because of the absence of the president and vice-president.

"CHINA BOUND" IS RIOTOUS COMEDY

George K. Arthur and Karl Dane become world travelers in their new funmaker for Metro-Goldwyn-Mayer, "China Bound," which comes tomorrow to the Grand theatre. They are on their way to the Far East, Karl as a stoker of a liner, and George as an unwitting but not unwilling stowaway.

Both their sweethearts are on the liner, but so is Angus McAlister, a Scotch antique dealer who is taking his daughter Joan (Josephine Dunn) and her maid Sarah, played by Polly Moran, with him on a buying trip to China—and away from George, to whose attentions he objects.

The laugh riot lands the party at a Chinese port just as bandits raid the town and rout the local garrison. But Karl and George are garbed as Chinese and the bandits think they belong to their gang, some of whom arrest Josephine and Polly. Angus too gets pinched with other American tourists, but Karl is an expert with the shovel and digs them all out of their prison as George too, plays the hero, winning at last, the approval of Angus, his ex-boss.

Transcontinental Lines Opened; Big Air Liners Plying

The start of America's first rail air-rail transcontinental line opened Friday afternoon by Universal Aviation Corporation in conjunction with the New York Central Lines and the Santa Fe Railroad was broadcast over a chain of 29 stations by the National Broadcasting Co. The Blue network was used with 18 stations added the ceremonies for the inaugural West bound trip were held in the Grand Central Terminal New York from 4:30 to 5:00 Friday the Southwest-ern Limited which covers the first leg of the Atlantic Pacific journey leaving at the latter hour. W. Averell Harriman chairman of the board of the aviation corporation was master of ceremonies. Short talks were made by Mayor James J. Walker of New York City, Graham B. Grosvenor, President of the Aviation Corporation, Dan W. Jones, President of Universal Aviation Corporation, P. E. Crowley, President of the New York Central, Mrs. Mabel Walker Willebrandt, and others. Mayor Walker and officials of the Railroad and of Universal and its parent organization, the Aviation Corporation, signed a large parchment scroll during the ceremonies. This scroll was carried to the coast to be signed en route by passengers, pilots, and officials at the chief cities on the line. Cities on the hook-up tentatively are New York, Boston, Baltimore, Springfield, Massachusetts, Rochester, Pittsburgh, Detroit, Cincinnati, Chicago, St. Louis, Kansas City, Salt Lake City, Denver, Los Angeles, San Francisco, Spokane, Seattle, Portland, Louisville, Nashville, Memphis, Birmingham, New Orleans, Hot Springs, Tulsa, Oklahoma City, Dallas, Houston, San Antonio.

According to announcement from the Braniff offices in Oklahoma City, all Braniff lines will directly tie into the Universal Transcontinental line by making connections at Kansas City twice daily.

FEDERAL PEARL FISHERIES

CARACAS, Venezuela, (UP)—Venezuela's pearl fisheries are hereafter to be operated by the government. With the close of a 2-year contract with one Salim Abouhamad, Minister of the Interior, Cardenas announced that the farming-out system would be dropped and direct exploitation tried out. The pearl-oyster beds are situated on Margarita Island, and their product has usually been shipped direct to London jewelers.

COLTS HERE TODAY FOR BALLINGER SERIES; LOST MONDAY, 7-6

RICE INSTITUTE DETERMINED TO UPSET CONFERENCE THIS YEAR

SAN ANGELO WILL BE HERE AFTER BALLINGER

Twice in that number of days has a home run shattered the hopes of Midland in Ballinger town. Yesterday, Kittrell, first man up in the thirteenth, hit one a mile over the fence, and Midland took the bus home after tasting a 7-6 defeat. Forney and Moore could not hold the Ballingerites. Kallina was charged on the books as losing the game, however.

Midland is home again, however, and the boys should get a better break on games with Ballinger, who has always been a thorn in the sides of the Equines.

Summary
Runs: Kittrell 2, Lynch 2, Bales 2, Vaughn, Kallina 2, King 2, Cheeves 2.

Errors: Kittrell 2, Mueller, Vaughn Crozier, Kallina, Van Landingham.

Two-base hits: Cheeves, Mueller, Kittrell, Vaughn, Lynch.

Home runs: Vaughn, Kittrell, Kallina, Crozier to Kallina, Cheeves to Van Landingham.

Stolen bases: King 2, Kallina, Stagner, Kittrell, Scaling, Mueller, Bales.

Sacrifices: Kittrell 2, Scaling, Bean, Dockery, Lynch, Cheeves, Stagner.

Hit by pitcher: Vaughn (by Kallina), Parker (Crozier).

Struck out: Kallina 2, Vaughn 7, Parker 1, Forney 3.

Losing pitcher: Kallina.
Winning pitcher: Parker.
Umpires, Allen and Carson.
Time 3:20.

BILL BOYD IN BEST ROLE OF HIS CAREER IN NEW SOUND FILM

Not since "The Volga Boatman" has William Boyd had as fine a stellar vehicle as he has in "The Leatherneck," a Pathe picture in dialogue and sound in which he is starred at the Ritz Theatre tomorrow. As a U. S. Marine private in this new Pathe picture, he has a role that will vastly enhance his vogue with fans.

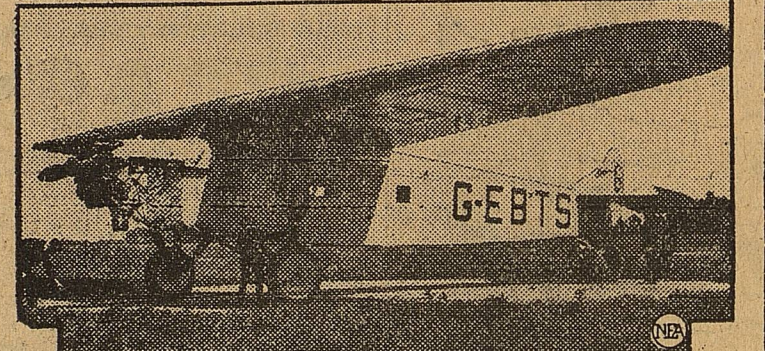

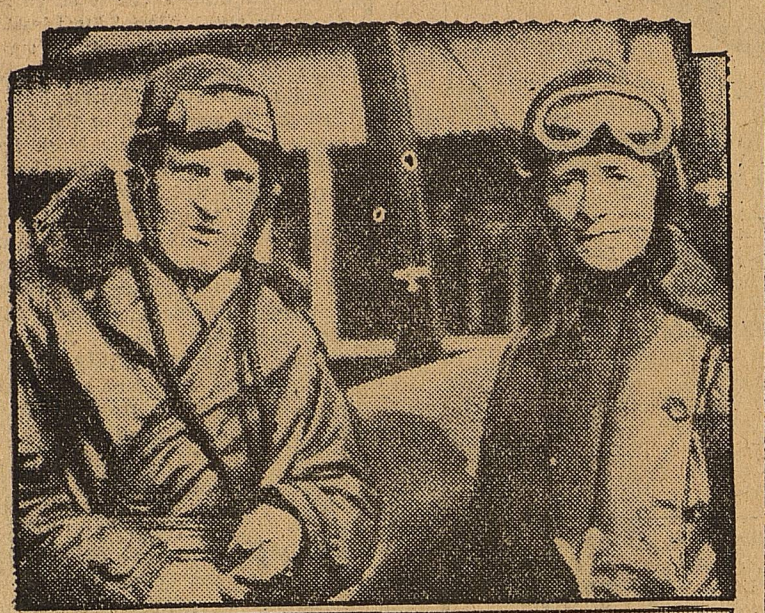

There is considerable romance and adventure suggested by the United States Marines and in "The Leatherneck" the producers have centered their drama on the human adventures of three "Devil Dogs." The result is screen entertainment that grips because of its drama, thrills because of the adventures through which its characters are carried and holds unusual interest because of its romance and the humorous situations woven into its plot.

Alan Hale has been seen with William Boyd so often that the friendship of the two on the screen is most convincing. They make a great duo and when you add Robert Armstrong you have a trio that carries something of the appeal of both "The Three Musketeers" and "Beau Geste." Diane Ellis, a newcomer to the films, plays opposite the star.

Boyd, Hale and Armstrong, "devil-dogs" are three of the most interesting characters ever seen on the screen. They are devoted to one another and when Boyd's bride is stolen from him, his comrades go to her rescue with tragic results.

The entire cast of "The Leatherneck" is imposing. Fred Kohler plays an important part and minor roles are enacted by Mitchell Lewis, Jules Cowles, Jimmy Aldine, Paul Weigel, Philo McCullough, Wade Boteler, Lee Shumway, Richard Neill and Jack Richardson. Howard Higgin directed.

BRITAIN'S FLYING DUCHESS, 64, TO ATTEMPT RECORD HOP TO INDIA

The 64-year-old flying Duchess of Bedford, right, and Captain C. D. Barnard are planning a speed flight from England to India in an attempt to break the present record of 50 hours. The Duchess' monoplane, pictured below, is a 450-horsepower Fokker-Jupiter.

By MILTON BRONNER NEA Service Writer

LONDON, June 17.—Germany gave the world the Flying Dutchman—but he was only a legend—while England has given to the world the Flying Duchess, the very active, very daring Duchess of Bedford, who, despite her 64 years, is going to try to break the record for a non-stop flight to India.

This flying business is only one of the many activities of this noblewoman, whose love match with her titled husband is one of the conspicuous successes of British society.

Both are keenly interested in natural history. The duke for many years has been President of the London Zoological society and he and the duchess have at their enormous place at Woburn Abbey one of the largest private zoos in the world. Both are keen shots and ardent fishermen. During the war the Duchess founded her own hospital near Woburn Abbey. She still maintains it and often works there herself, being an expert radiologist.

"Air-Minded" at 62
In 1927, at the age of 62, when most women are content to stay at home quietly or to take slow motor drives, she suddenly became interested in aviation and enlisted the services of a young aviator, Capt. C. D. Barnard, who had a distinguished record in the World War.

She bought a small Moth machine and was soon flying all over England, often taking the controls herself. At that stage she thought nothing of flying over to see the Grand National or the boat races.

FORMER COLT STILL LEADS TEXAS LEAGUE IN HOMERS, HAS TOTAL 16

DALLAS, June 18.—(AP)—Two catchers were setting the batting pace in the Texas League through games of Thursday, June 13, with Starr, Shreveport rookie, leading his veteran rival, Pete Lapan, Wichita Falls, by 27 points. Four of the 10 leading sluggers were Shreveport uniforms. The leaders:

Starr (St.) 400; Lapan (WF) 373; Bennett (WF) 366; Hanson (Bt) 365; Blackerby (WA) 364; Ran Moore (Ds) 360; Sullivan (WF) 351; Hutson (St.) 349; McClanahan (St.) 349; Langford (St.) 347.

Whelan of Shreveport clung to his lead in runs scored with a total of 55, followed by Blackerby with 51. Flaskamper, Del Urban and Eddie Moore, Fort Worth, Bennett, Wichita Falls, and Ballew, San Antonio, each has scored 50 times.

The Dallas siege gun, Randolph

LOOK WHAT EXPORTERS ARE DOING! OFFER FT. WORTH \$6,000 FOR WALKUP

BEAUMONT, Tex., June 18.—(AP)—When Rube Stuart, oil pipe line millionaire, last summer indicated his intention of giving his Beaumont Exporters a new \$100,000 plant and spending some important money for new players, there was a feeling in some quarters that the Shipper magnet had become philanthropic in his middle age.

The Exporters had been notoriously consistent losers for many years, and the city's fans had ta-

NEW COACH IS HOT IN TACTICS OF NOTRE DAME

HOUSTON, Tex., June 18.—(AP)—Jack Meagher, Rice Institute's new football coach, does not expect his 1929 entry to burn up the Southwest conference, but his eyes twinkle when he surveys the list of stars who will be available for his 1930 machine.

"My hair might turn snow white before the close of next season," he said recently, "but that 1930 team will turn it black again."

It is no state secret that Owl supporters at last are fed up on watching their team finish seventh year after year. Furthermore, they have decided to do something about it.

Obtaining Meagher's signature to a contract was the first step. In his years at St. Edward's University, Meagher gained a reputation as one of the trickiest, most capable coaches in the state. He knows the Notre Dame system backwards and is a skilled handler of young athletes.

The second step was to attract some of the state's stellar high school gridsters, most of whom had been seeking other schools for higher learning. They have been attracted, in numbers, and next year's Freshman class at Rice will contain a score or more of the outstanding prep stars of the state. Included is Seamon Squyres, great Cleburne fullback and punter, regarded by many as the greatest high school player of last season. There are a dozen others of almost equal calibre who will be available in 1930, providing, of course, that they are not thrown for a loss in the classroom.

Two years ago she started from the big lawn in front of Woburn Abbey and flew over Paris, Burgos, Madrid, Seville and over the Mediterranean to Tangier in Morocco and back. The 3,000 miles included visits and stops at various points, and were done in eight days.

She bought a giant blue and gold Fokker-Jupiter monoplane last year. With Barnard and another airman, she set forth in an effort to fly to India and back in eight days.

LETTERS to the EDITOR

Editor the Reporter-Telegram:

In your recent editorial "Better Watered Lawns" you remind your readers that they "have probably noticed that they get more watering done for less excess charge than in previous summers." You also observe, "many have said that they water bills are not as high as last summer." You conclude that the reason for this is "Cooperation of the city in allowing greater minimum amounts of water for the flat rate."

Since you choose to make comparisons of this summer with "previous summers" and "last summer," I take it that you mean to infer that the City Administration of "previous summers" and of "last summer" was not interested in "beautifying Midland lawns" and in "cooperating."

May I remind you that at this

horsehide arenas in the league, was ready for business, and the Exporters' line-up resembled not at all that of the previous year. When it faltered in the opening month of the season, Stuart untied his purse again and brought in more players, until the coast city boasts one of the most formidable entries in the race.

The Exporter boss is not through spending money. His pitching staff does not suit him, and the other day he offered Fort Worth \$6,000 for its crack southpaw, Jimmy Walkup. The Cats turned him down. But there is no longer the impression around the league that the Exporters are a step-child. They decidedly are in the respected citizen class.

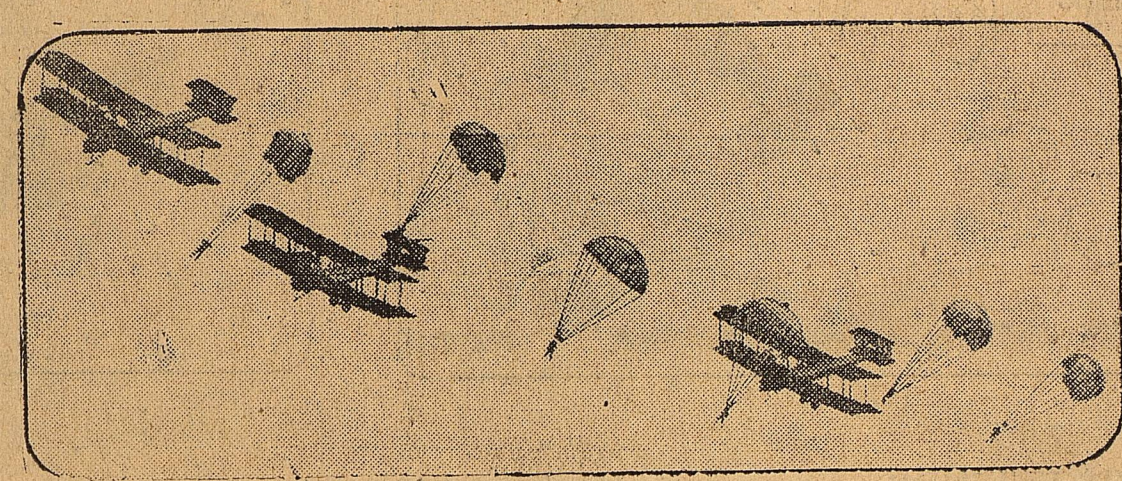

The response of Beaumont fans has been greater than Stuart anticipated. The season is only a little more than a fourth played, but already the Shippers have drawn more customers at home than they did in all of the 1928 race.

Ray Flaskamper, Dallas speed merchant, assumed the lead in base thefts, with 15, closely pursued by Eddie Moore, Fort Worth, with 14, Whelan, and Stewart, Shreveport, and Martin, Houston, each had pilfered 12.

Among the pitchers, Charlie Barnabe, Dallas southpaw, boasts the greatest winning percentage after winning nine of his first 11 starts.

When the 1929 season opened, Stuart Stadium, one of the niftiest

They're Just Six Jumps Ahead of the Circus

Maybe with the idea of practice makes perfect in mind, six British parachute jumpers are shown above leaving their planes simultaneously. It's merely a rehearsal of aerial circus stunts, a feature of the program above the airfield at Hendon, near London, England.

time last year at our old water plant it was impossible to produce more than 240,000 gallons of water each 24 hours, and we had a storage capacity of only 125,000 gallons, and our electric current was costing us practically 6 cents per kilowatt hour? Today our new water plant produces more than five hundred thousand gallons of water every day; and has capacity for producing one million gallons more; we have one and one-tenth million gallon storage; our electric current costs us now only two and one-fourth cents per kilowatt hour, and we have enjoyed this rate not only since April of this year but since September 1928.

Our water rate last summer and previous summers was \$1.50 for the first two thousand gallons and 40 cents for each thousand gallons in excess thereof. Our rate now is \$1.50 for the first three thousand gallons and 30 cents for each thousand gallons in excess thereof. This rate was made in February of the present year. At this rate I dare say that the city is realizing a gross income from its most excellent water system of more than forty thousand dollars per annum.

For this excellent system, for the reduction of water rates, and for the new possibility of "beautifying Midland lawns" you can give credit to the "Old Administration" which the people said by their votes they did not appreciate and did not want a continuance thereof.

B. FRANK HAAG,
Former Mayor.

12 Baptist—
(Continued from Page 1)

scene is given. In all it is the most impressive writer has been privileged to see.

Others that have come in during the meeting, also some that united with the church before the meeting, will be baptized at a later date. The public will be notified of this occasion so that all who wish may attend. With the interest that is now manifested in the campaign, and with the work that is being done by the church members, supervised by Mr. T. T. McCasland, Educational Director, there is every reason to believe that many more will be added to the church before the campaign closes.

Some fifty or sixty women heard Dr. Scarborough in his message of yesterday afternoon as he brought a stirring talk on Woman's place of service in the world.

It was a very impressive moment for all. Although it was the regular time for the women of the church to meet in their missionary work, they gave the entire time to the message of Dr. Scarborough, much to their profit and pleasure.

Tonight the message will be "Possibly the Only Little Boy Spoken of in the New Testament." Every boy of the city, together with their families, are asked and urged to be present.

ent. In keeping with other messages of the campaign, there is every reason to believe that this will be an hour never to be forgotten. With an increase in interest as the services progress, record breaking crowds are expected during the remaining days. Those who have attended thus far have been pleased with every part of the service. The nights are cool and

the house comfortable. The song services have been well supported, both by the choir and congregation. The old hymns predominate and all present can enter into the song service, whether they have books or not.

The morning service for Wednesday will be for the old, shut-ins of the city. A call was made this morning for all who knew of any old people to make an effort to get them out. Numbers present said they would see that their aged friends got to attend. Dr. Scarborough has held this kind of service in many of his campaigns during the past 34 years of his ministry, receiving great spiritual blessings himself, also seeing hundreds of others profited by them. It will be out of the ordinary and very interesting, to be sure. His subject will be "How to Grow Old."

Special prayer meetings are being held at 7:45, led by the evangelist. Young people's service at the same hour, held in the main auditorium. Chalk talking, choruses, etc., are given at this hour and is open for all. Come early. Regular song services for the evening sermon begins promptly at 8:15.

Distorted Evidence

No amount of statistical evidence, distorted in an effort to mislead the public, can disprove government figures showing the gain of **Lucky Strike** to be greater than the combined increase of all other cigarettes. The public will be served and this is proof, indeed, that regardless of price, you actually get more in **Lucky Strike** than any other cigarette can offer. Its perfect blend of fine tobaccos gives pure smoking delight. Its exclusive, secret toasting process guarantees the tobaccos free from irritants and impurities and, in the opinion of 20,679* physicians, makes **Lucky Strike** less irritating than other cigarettes.
