WOMEN DOING MEN'S WORK

The women fliers who stopped at Midland Thursday, competing in the national women's air derby, were a tense, tired, serious group. There was a tinge of sadness in the expressions on their faces, although each one wore a brave smile and had a hearty greeting when spoken to.

This trans-continental race is a hard job for a man and when women brave such hardships, they are doing

In the humble opinion of The Reporter-Telegram editor, although a staunch supporter of aviation and of pioneering in any field, these women are going up against a harder job than they should.

However, progress is brought about by brave people, and in undergoing hardships these women fliers are fos-

and in undergoing hardships these women fliers are fostering an industry which is becoming the world's greatest, ad.' and are paving the way for making easier air trips across the continent.

RESPECT FOR THE COURTS

Newton D. Baker, defending a Cleveland editor from a today is going to be borne charge of contempt of court, declared that a court can best out with a most pungent ilinspire respect and admiration, not by punishing those who lustration of what I mean. criticise it, but by gaining a reputation for wisdom, fair-

That is a point that is worth emphasizing. The power of a judge to punish for contempt of court is often used to make a judge's actions immune from criticism. And the judge who abuses his power in that regard is doing far more to bring his own court into contempt than the man who ventured to argue with him.

wise to suggest. As Mr. Baker points out; if a man be a judge, and another man thinks him an improper person to be a judge, the judge does not become proper by restraining the man who ent with monster words re- a great shout, when they praised beginning, but for 16 years the work thinks him improper from expressing his opinion.

Bridge and Picnic Given by Miss Addilese Haag

Miss Addilese Haag was hostess to umber of her friends at a picnic supper and bridge party at Cloverdale City Park Thursday evening. Early in the evening supper was

served on the lawn and following the group found pleasant hour at bridge games. Miss Jean Verdier held high score and was given as a trophy bath salts and Miss Walter Faye Cowden who cut high was presented with bath powders.

The hostess assisted by her mother served iced watermelon at the close of the games to Misses Dorothy Bess Stanley, Annie Faye Runagan, Ruth Evans of Wortham, Mary Belle Pratt, Imogene Cox, Walter Faye Cowden and Jean Verdier.

Misses Majors Married in Dallas Tuesday Evening

News has reached Midland of the marriage of Misses Frances Evelyn is in sandwiches. These hearty week. Many Midland friends will be porch or garden. interested in this wedding since

Miss Katherine Majors was direct the butter and filling. tor of religious education in the El Paso Presbytery and has made numbers of trips to Midland recently in interest of this work. In July she conducted the Daily Bible Church school for the Presbyterian church and was also here from the El Paso Presbyterial in May.

The following is a clipping taken from the Dallas News of the double

A double wedding of unusual interest took place Tuesday evening at Oak Cliff Presbyterian Church when Miss Frances Evelyn Majors became the bride of Dr. Claude Linwood Neale of Washington, D. C. and her sister, Miss Katherine Elizabeth Majors was married to the Rev. George Frazer Patterson of Atlanta, Ga. The brides, who are daughters of Mrs. L. C. Majors, 125 Montreal street, were given in marriage by two of their uncles, Robert McLane of Cameron and E. A. Camp of Rockdale. The ceremony was performed by the Rev. Thomas F. Fallaher, pastor of the church.

THE NEW EMBLEM DEDI-CATED TO BETTER MOTORING

What the

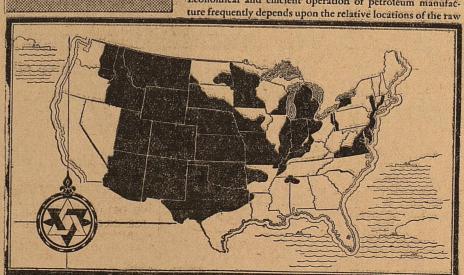

MARLAND CONTINENTAL Merger MEANS TO MOTORISTS THE consolidation of the resources and facilities of the Marland Companies and the Continental Oil Company, nate in that its eight modern manufacturing plants are well under the latter's name, is more than a corporate merger.

It is a happy union of well balanced production, manufacturing and marketing operations from which will come a host of unusual advantages to the millions of customers and thousands of distributors.

Wide Field for Crude Selection

Out of a total area of more than two and one quarter million acres in eight states, Continental selects the crudes best suited for its manufactured products. Raw materials for oils, greases and gasolines may often come from widely separated regions. Continental controls its own crude supply and chooses the best for each refining operation and thus assures a standard uniform output from year to year.

Strategic Location of Eight Refineries Economical and efficient operation of petroleum manufac-

placed to afford prompt and economical delivery both before and after refinement. These properties are located at Baltimore, Maryland; Ponca City and Sapulpa, Oklahoma; Artesia and Farmington, New Mexico; Wichita Falls, Texas; Florence, Colorado; and Glenrock, Wyoming.

Exclusive Processes Insure High Quality

Continental refinery engineers enjoy a national reputation in the oil business. Not only have they adopted the newest and most efficient mechanical equipment for these big refineries but they have designed machinery and developed processes which are exclusive to this company. Under centralized control, these facilities now are made available in the manufacture of petroleum products of exceptional quality.

Conocoland Covers Tremendous Area More than forty years marketing experience has spread

the distribution of Conoco products over an area which reaches from the western slope of the Rockies, far east to the Mississippi River. Practically half of the United States is dotted so closely with Conoco Stations that a motorist may drive anywhere in that tremendous area without introducing other than Conoco products to his car. The outposts of Conocoland range from the Pacific Northwest to the shores of the Great Lakes and from the Atlantic Seaboard to the California boundary.

Prestige Established in Foreign Lands

The Continental coastwise and export fleet operate from terminals at Texas City, Texas; Newark, New Jersey; Baltimore, Maryland; and Norfolk, Virginia; to a dozen foreign countries. Petrol pumps deliver Conoco gasoline to automobilists in the shires of England and Conoco motor oils lubricate industrial plants in north Europe, South America

In brief, the joined forces of these two great companies afford greater, better service to the users of motor fuels and lubricants wherever the sign of the Red Triangle is displayed.

off of the winners of the first and second halves. His ac-

count follows: Should the two teams close the campaign all square, an additional RESULTSseries would be necessary in order to determine the winner of the second half, which would then play Coleman, first champion, for the league pennant.

Ponies Thump Turner Abilene opened at Midland yesterday with Kellus Turner in the oox. Turner has been murdered all scason by the Colts and yesterday no exception. The Mustangs landed on him from the start and by the end of the fourth frame had scored thirteen runs. He stayed in all the way however, and was plastered, 15 to 9.

Ballinger, playing at home with the Big Spring Cowboys as guests, hung up their fourth consecutive victory by a score of 5 to 2. The Bearkats kept their knack of getting a maximum of runs on a minimum of base hits. Ballinger collected only seven safeties off Manager Nick Carter, while Big Spring touched Brendt

Coleman socked a 7-3 defeat against San Angelo and so kept the Sheep Herders two full games away from Abilene's fourth place in the league standings.

Midland pounded Turner's deliv- Ballinger ery to all parts of the field yesterday to defeat the Aces 15 to 9. Kallina hit his 42nd and 43d home runs the last one of which was one of the longest hits seen in Midland this year. Four home runs and 12 twobaggers featured the game.

NEW SUBSCRIBERS IN 9 DAYS

That is the record of The Reporter-Telegram up to Wednesday night. These 90 new subscribers represent about 450 readers. In the past two months, approximately 250 subscribers, or 1,250 readers, have been added. No high pressure methods have been used. This is just constructive growth. Midland is 95 per cent covered by The Reporter-Telegram, a recent survey shows.
