

Validity Of New State Truck Law Is Upheld

Principal change in the complexion of the oil industry in the past two weeks has been a different attitude by major concerns toward acquiring wildcat acreage; the broker and wildcatter, hardest hit for the longest time, may see better days soon. It is conceded Oklahoma's flush has passed and that state's production is definitely downward. In Texas the new flush, held in that eastern section of the state is beginning to show signs that point to the beginning of a definite decline in a comparatively short time.

And the opinion of the best observers of conditions in that West Texas will again be looked to for development of new production that the larger companies are certain to want in a few months.

The Glascock, Sterling and Tom Green country certainly looks fresh again the heavy rains of last week. San Angelo men declare the rains were a real tonic to business outlook and the general attitude of the people down there.

Plenty of cotton pickers ought to be available here now. We passed not less than 200 of them on highway 3 between Big Spring and San Angelo yesterday, all headed northward.

And making that trip always makes us ashamed. You make a dozen or more sharp turns, drive over narrow, rough stretches, etc., as long as you're in Howard county. Then, we are freed from such stuff and enjoy a smooth highway across Sterling and Tom Green.

Some time ago we asked Blondy Cross, the notorious sport writer of the San Angelo newspapers when he was going to pay a visit to Big Spring.

"I'm never coming. Your road's too rough," he replied. However, that was before Big Spring high school acquired a football team that is expected to at least be an even bet to defeat San Angelo here Thanksgiving Day. So, Blondy'll be here, if he has to fly.

We are in receipt of a letter from H. H. Wilkinson, president of the Continental National bank, Fort Worth, who operates a fine ranch west of town.

Referring to a news story recently printed in the Herald which told of creep feeding operations on the Wilkinson ranch the owner says: "It is our purpose to continue creep feeding another season, whereas this year we did not get our creep built until July. Another year we will feed our calves from the time they come until they are weaned. I believe it to be a very practical and profitable system.

County Agent, Mr. Bush, has been very helpful to us in this and other matters, and I think Howard county is fortunate in its selection of a County Agent."

It begins to appear that those who, with good reason, had decided Al Capone never would be imprisoned, were wrong. Thanks to a smart, courageous district attorney, said to have acted on special instructions from the President, and, equally important, a federal judge who would not tolerate "trades" between the government and the defendant to make certain a light sentence. The once mighty and deadly underworld capitalist, a product of the Brooklyn slums and sidewalk who is said to have fought in the world war as a member of the famous "Lost Battalion," is about to be started to Leavenworth.

It has been a mighty nasty note on the face of the nation, this Chicago business. But, it has always seemed to us that Capone's imprisonment was certain sooner or later. After all, the American people believe in the law and enforcement of it.

Public opinion convicted Capone.

Federal Court Delays Hearing On Suit To Close Free Bridge As Murray Returns Troops To Scene

MUSKOGEE, Okla., Oct. 26 (AP)—The federal court hearing on the petition for an injunction closing the Denison-Durant free bridge was postponed from today until November 2 after Governor William H. Murray had ordered troops to the scene to keep the bridge open if the injunction was granted. Federal Judge John C. Pollock telephoned from Kansas City that he had been confused on the time of the hearing. Murray telegraphed instructions to send troops as a train stopped at Atoka while he was returning from Dallas, where he spoke last night.

Toll bridge receivers had asked for the closing of the free bridge and damages in the amount of \$7,500. The fee bridge had been technically under martial law since the troops were first sent, but the toll bridge had been allowed to operate recently. Guardsmen arrived and pitched camp shortly after daybreak today.

The Debut of a Deb

In the midst of calls, bridge parties and dances, Jean Woodson, capital debutante, finds time to take notes and write her impression of capital society life.

EDITOR'S NOTE: This is the seventh of a series of eight articles written by Jean Woodson, Washington debutante, describing capital society. By JEAN WOODSON

formal affair that I attended with mother. But to see that stately splendor with Mrs. Hoover, gracious and charming as hostess, was enough.

I was all eyes, never missing a trick—the gold eagle in the floor of the reception room, the rose garden which is Mrs. Hoover's special pride, the scarlet-coated marine band—and as the line moved toward the First Lady, I was certainly thrilled.

I wonder if the marine band ever plays jazz like Sidney's Mayflower orchestra. All the debs like that. They say last year when Allan Hoover gave his party every one was standing around rather uncertain-like and he stepped up to the orchestra, brought in especially for the occasion, and said to the leader, "Make it snappy, Sidney!"

Maybe you think that didn't make a hit with everyone. The debs this year are a grand lot of girls, cordial and unaffected. Some of them of course have more money than others but it doesn't seem to make any difference.

Two of the debs, Theresa Saul and Sidney Thompson, belong to what is known as the cave-dwellers' set. That means families who have lived right in Washington for several generations.

What some of these older cave dwellers—erect and aristocratic in their velvets and satins—say pretty much sets the pace for social Washington.

Then there's the official set, the senatorial and the army and navy. There will be debs this year from each circle. Anne Wyant is the daughter of the representative from Pennsylvania, and Sarah Louise Snell the daughter of the representative from New York. The deb dates are piling up so fast there's scarcely a leading hotel that isn't booked solid for parties. I'm glad mother arranged for my Christmas debut almost a year ago.

(Tomorrow Miss Woodson tells what a deb thinks about.)

WASHINGTON—I've just had my first glimpse of the white house. It wasn't a deb party, just an infamous T-Bar ranch.

COLDS THAT DEVELOP INTO PNEUMONIA

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist. (adv.)

Facts.. FACE-UP
Let's talk Straight from the Shoulder
WHAT you want in a cigarette is taste. You want mildness... smoothness...and satisfying pleasure when you smoke. All right then... get this straight. CHESTERFIELD pays top prices... yes, and a premium for the ripest, mellowest, sweetest-tasting leaf that grows. The curing and conditioning is done by specialists... men carefully trained in handling these fine tobaccos. IN BLENDING, also, Chesterfields are different. Instead of merely mixing the tobaccos together... we cross-blend them. It's like making a new and better-tasting kind of tobacco. That's how we get that Chesterfield flavor. Milder...and a more pleasing aroma. Cigarette paper? Only the purest that's made is good enough for Chesterfield. PICK UP a package. Note its clean appearance... free from heavy inks. It's moisture-proof, too. And three big factories as Richmond, Durham and San Francisco—operating under the strictest sanitary standards—rush them fresh to you. Good... they've got to be good. Because they're made that way. And most important of all... you can taste this goodness in the cigarette. You can tell it in the smoke. Light up, Mister! Try Chesterfield. Let the cigarette do its own talking. You'll get the whole thrilling story, in just two words... "They Satisfy!"

"Yes Sir - Mild yet they Satisfy"
