ECTOR TO GET GASOLINE PLANT

Windstorms in Middle West Take 20 Lives Last Night

NEBRASKA IS WORST DAMAGED

Hundreds Homeless In Wake Tornadoes And Storms (United Press)

Twenty deaths were counted today in the wake of tornadoes and windstorms which left scores injured and hundreds homeless in devastated sections of seven mid-western states.

The region of the greatest damage was the Missouri river valley, centering in northeastern Nebraska.

Nebraska Hit Worst OMAHA, Neb., May 2. (P)—Six persons were killed and several score more were injured, many seriously, in a tornado that struck Tekamah, Neb. early tonight, and swept on to six other towns in Nebraska before cutting into Iowa.

Other Nebraska towns hit by the storm are Pender, Homer, Jackson, Winnebago, Bancroft, and Walthill, all of northeast Nebraska.

Three of the dead at Tekamah had been identified. They are Al Brinkley, John Houser, and the infant son of Hans C. Anderson.

The baby was killed in his mother's arms when the Anderson home was wrecked. Mrs. Anderson suffered a broken neck while Mr. Anderson's back was broken.

Storms in Seven States CHICAGO, May 2. (P)—Angry weather stormed through the middle west yesterday killing 20 persons and injuring many, destroying property valued at \$100,000.

Tornadoes struck Tekamah, Nebraska; Norborne, Missouri; West, Wisconsin, and there was loss of life in North Dakota, Minnesota, Illinois, and Iowa, due to electrical storms and high winds.

Deaths were attributed to storms in seven states, four persons being killed at Tekamah, and three drowned near Lake City, Minnesota, when a cloudburst sent water down a ravine on a stalled automobile.

Two women died when their automobile skidded near Duluth, Minnesota, and four died in Norborne in a tornado. Other deaths were scattered through Illinois, Wisconsin, and Iowa.

Adrift Four Days, Land At Matamoros BROWNSVILLE, May 2. (P)—Tossed four days in a life boat in the Gulf of Mexico, Captain E. E. Bailey, navigation officer, and Benjamin Jones of the motor vessel M. P., rested in Matamoros, across the international boundary, today.

They left six mates on the vessel Saturday night when the ship sprung a leak and started for aid. They landed yesterday near Washington Beach, Mexico.

Coast guardsmen from Galveston and Port Aransas have been searching for Bailey for two days. A passing boat towed the M. P. to Alvaro Obregon, Mexico.

Lindbergh Off From Nicaragua Today MIAMI, May 2. (UP)—Lindbergh resumed his flight to the United States with South American mail when he took off from Puerto Cabezas, Nicaragua, at 5:55 today, the Pan-American Airways radio station here advised.

NO AFTERNOON COURT No cases were slated to be tried this afternoon or Saturday in district court. The last week of the three-week term will begin Monday.

Chief of next week's cases appears to be the robbery with firearms charge against Joe Dunwoody, set for Wednesday.

Hoover Not Really "A Dry," Says Big Prohi. Official

WASHINGTON, May 2. (P)—A letter written by William Stayton, chairman of the board of the Association Against the Prohibition Amendment, placed in the records of the senate lobby committee today, said he knew that President Hoover is "not at heart a dry." The letter was read after the witness denied that the association bought liquor to be served at a celebration for the candidate for presidency in 1928. No name was

NORTH AND SOUTH AREAS GET RAINS THURSDAY NIGHT

Rain fell both south and north of Midland late Thursday, bus drivers reporting 20 minutes delay between McCamey and Rankin on account of mud and slick roads.

The bus driver from Lubbock and Lamesa reported this morning that bus service from Lubbock north to Amarillo was temporarily discontinued on account of muddy roads, and that the heavy rain extended as far south as Tahoka, with lighter rains down past Lamesa toward Stanton.

Evelyn Garlington Wins State Typing

Making an average of 68 1-2 words per minute in three 15-minute tests, Evelyn Garlington, local high school contestant in typing at the state interscholastic meet at Austin, won first place for the state, competing with girls and boys from all parts of Texas, it was learned shortly before 2 o'clock today from a telephone communication with Superintendent W. W. Lackey. The average was the best Evelyn made in an interscholastic contest this year and is the highest competitive mark set by the Midland girl.

Merwin Haag, Midland high school's only other contestant at Austin, was eliminated in the declamation finals, but was voted second place by one of the judges, and fourth place by another.

Court Official To Welcome Trippers R. W. Hamilton, president of the chamber of commerce at Stanton, and county attorney of Martin county, will deliver a brief address of welcome to Midland visitors Tuesday evening when the Midland good will motorcade goes to Stanton. The entire speaking program will last about 15 minutes.

C. A. McClintic and Thomas McGuire were the first to volunteer to take band members to Stanton. Several more autos are needed. Judging by the large number of people inquiring about the trip, between 200 and 300 Midland people will leave here at 5:15 the afternoon of May 6, next Tuesday. R. D. Scroggs, chairman of the auto and retail committee, of the chamber of commerce, estimates.

Fifty-Eighth Oil Operator Is Here George C. Kiskaddon, independent oil operator of California, has moved to Midland and will operate in this area with Midland as headquarters. A house was procured for the new oil man Thursday by the chamber of commerce. Mr. Kiskaddon formerly operated in Oklahoma. His wife and two children will arrive here this week, and later in the summer two other daughters will join the family here. He is the fifty-eighth oil operator to choose Midland as a location.

TURN IN CARDS— Golfers at country club who are in the 18-hole elimination contest are asked to turn in score cards at once, in preparation for the competition beginning Sunday afternoon at 1:30.

Naval Delegates Arrive Home

Above: This NEA Telephoto, rushed to The Reporter-Telegram, pictures the United States naval delegates as they arrived in New York aboard the steamship Leviathan upon return from the London naval limitation conference. Left to right, Secretary of State Henry L. Stimson, Senator Joseph T. Robinson and Ambassador Dwight W. Morrow. To right: Secretary of State Henry L. Stimson is shown in this telephoto signing the five power naval limitation treaty at London, England. Signatures were affixed in the historic Queen Anne drawing room of Ames palace.

SHELL-JONES NO. 1 INCREASES AFTER 120-QUART SHOT

A shot of 120 quarts between 3,675 to 3,705 feet in the Shell Jones No. 1, 330 feet from the south line and 440 from the east in the southeast corner of the southeast quarter of section 6, block 44, township 3-south, T. & P. railway survey increased the flow from 523 barrels a day to 45 barrels per hour, or 1,080 barrels.

Gulf No. 1 Kloh "G", section 5, block 44, township 2 south, is drilling in gray lime below 3,565; Skelly-Amerada No. 2 University, section 1 is drilling in lime below 3,450, and 6 5-8 casing has been cemented in the hole; Cosden University 2A, section 17 is drilling in lime below 3,595; T. P. Coal and Oil No. 1 McKenzie, section 28 is in brown lime and anhydrite below 3,410; Independent and Tidal No. 1 Scharbauer, section 6, is in white lime below 3,480; Humble et al No. 7D Kloh, section 7, is in lime below 3,685.

ANDREWS BARBECUE AND CELEBRATION EXTENDS INVITATION TO WEST TEXAS

West Texas is invited to Andrews May 14 and 15 to a big rodeo and barbecue. The Andrews chamber of commerce is staging a big two-day celebration in honor of Andrews' development as an oil field town. Rodeo stars from West Texas and Eastern New Mexico will enter the rodeo contests. A big barbecue will be prepared for visitors the second day as compliments of the people of Andrews. General plans are in charge of Secretary Frank Wilson of the Andrews chamber of commerce.

Andrews Newspaper Sold To B. W. Barnes B. W. Barnes is the new owner of the Andrews Driller, weekly newspaper published at Andrews. He bought the paper from Bruce Allingham. The paper was started about six months ago when Andrews began growing as an oil town. Barnes also publishes the Ward County Journal at Barstow, the Penwell News, and is associated in the publication of the Upton County Journal at Rankin and a paper at Eldorado, Ark. He is a specialist in oil field newspapers.

BROADCAST BAN LIFTED DALLAS, May 2. (P)—Representatives of Texas league baseball clubs voted to lift the ban on broadcasting baseball games, at a meeting today.

The only restriction was that games could not be broadcast when played within 100 miles of a broadcast station without the consent of owners of both clubs.

Population of Midland will probably show an increase of 300 per cent since 1920, according to figures of census enumerators. In order to register that increase Midland will have to count 5,500 within its boundaries. The first check was 5,051, but statements made by chamber of commerce officials say it appears likely that the figure sought will be achieved in the count now being made.

Have You Joined The Census Count

One colored man turned in eight names Friday in one family who had not been enumerated.

A waitress in a restaurant turned in all the employees of the establishment.

An attendant at the Thomas hospital turned in all the nurses in that institution.

Managers of business houses are requested to telephone the Midland Reporter-Telegram or the chamber of commerce if they know of anyone who has been missed.

Everybody who likes Midland can help Midland by reporting every case of everybody missed in the census, be he white, black or brown. Every boy, girl, baby, man and woman is needed to swell the total count.

Negress Uses Razor—Jealous of Hubby The right of a woman to change her mind when she sees the effect of a former declaration was demonstrated in police court when the wife of Tom B. Peoples, negro, testified to slashing Evelyn Wright, negress, after the latter had committed the unpardonable sin of talking to the defendant's husband.

The defendant when asked if she wielded a razor upon the face of the aforesaid mentioned Evelyn Wright replied she did not. Later, when asked several questions about the intimacy of her husband and the plaintiff, she admitted she had slashed the other negress across the eyes with a razor.

She paid \$15 of a \$27.50 fine.

Midland Woman's Mother Not Dead Mrs. W. P. Moore, wife of the mayor of Wellington, was still in a coma late Thursday afternoon. Mrs. Moore was pronounced dead by nurses Wednesday, but rallied.

A son, Eddie Moore of Fort Worth and a daughter, Mrs. Joe Hemphill of Midland, are at the bedside of the mother, in Wellington.

Gas Contracted The site is in the southwest quarter of section 6, the section on which the town of Penwell is located. Contracts have been made with practically all of the companies having production in the field, Kirk told John Scharbauer of Midland yesterday, to buy their gas for use in the natural gasoline plant, commonly referred to as a casing head gas plant.

Companies having production, or wells believed to be near production, are the Humble Oil and Refining company, Landreth Production company, Shell Petroleum corporation, Cosden Oil company, Skelly and Amerada, Gulf Production company, Tidal and Independent, Llano Oil company, and Texas-Pacific Coal and Oil company.

June 16-30 Is Set For Scout Camping Date for the scout camp to be established on the Concho, and to which Midland scouts will attend, has been set for June 16-30, according to A. C. Williamson, scout executive of this area of the Buffalo Trails council.

Fees entailed in staying at the camp are covered by the \$1-a-day arrangement already announced here by Williamson.

Several Midland scouts are planning to attend.

The camp is located 16 miles from San Angelo, on the Big Spring-San Angelo road.

Search For Girl

Private detectives are combing the country for Muriel Fox, 17-year-old daughter of Charles Donald Fox, publisher and motion picture director. The girl and her father have not been seen since she met him in the office of a friend in New York almost a week ago. Fox and his wife have been separated for three years, with Mrs. Fox having custody of the girl.

Midland Woman's Mother Not Dead Mrs. W. P. Moore, wife of the mayor of Wellington, was still in a coma late Thursday afternoon. Mrs. Moore was pronounced dead by nurses Wednesday, but rallied.

A son, Eddie Moore of Fort Worth and a daughter, Mrs. Joe Hemphill of Midland, are at the bedside of the mother, in Wellington.

WASHINGTON, May 2. (AP)—President Hoover called on congress today to make available quickly almost \$6,000,000 to cover deficiencies in government departments.

HAMLIN, May 2. (UP)—A \$45,000 loss was sustained here today when lightning struck an 80,000 barrel oil tank west of town. Over 3,500 barrels burned before the blaze was extinguished.

RICHMOND, May 2. (UP)—Leroy Hammons, convict sentenced from Dallas, was acquitted of killing Bill Lawler, another convict, on Imperial state prison farm last June. Hammons and C. E. Foster, another convict, were charged with killing Lawler because he refused to join an attempted prison farm break. The charge against Foster is expected to be dismissed.

MIAMI, Fla., May 2. (AP)—Colonel Charles Lindbergh landed in Havana at noon today after five hours and 55 minutes in the air from Nicaragua with seven-day airmail from South American points for the United States.

SAN ANTONIO, May 2. (AP)—A carefully plotted jail delivery involving the escape of a Florida convict held in the city jail pending the arrival of Florida authorities, was frustrated today by an unknown woman who gave details of the plan to police. The woman said three pals followed the man here, formulated an intricate plan for delivery at any cost.

PHILLIPS TO BUILD IN PENN AREA

\$1,750,000 Plant To Make Gasoline From Gas

Construction of a natural gasoline plant, to cost \$1,750,000, by the Phillips Petroleum corporation in the Penn, Ector county, oil field is expected to begin immediately, following negotiation Thursday for a 40-acre site.

The site was secured from Eli Jones by M. T. Kirk, representative of the Phillips, and he is negotiating also with Scharbauer and Eidson for a site for a loading rack, just north of the T. and P. tracks at Penwell.

The plant will be similar to the one operated by the Phillips Petroleum corporation at Crane, making gasoline from the gas which escapes from oil wells. The gas in the Penn area is now being burned as it comes from the wells.

Have Big Pay Roll Although the capacity of the plant was not stated, local oil men estimate that if the capacity is from 40,000 to 50,000 gallons daily, construction of the plant and laying of the pipe lines would require from 200 to 250 men a period of from six to eight months. This would represent an enormous pay roll during construction, as well as a substantial pay roll for regular employees thereafter.

Gas Contracted The site is in the southwest quarter of section 6, the section on which the town of Penwell is located. Contracts have been made with practically all of the companies having production in the field, Kirk told John Scharbauer of Midland yesterday, to buy their gas for use in the natural gasoline plant, commonly referred to as a casing head gas plant.

Companies having production, or wells believed to be near production, are the Humble Oil and Refining company, Landreth Production company, Shell Petroleum corporation, Cosden Oil company, Skelly and Amerada, Gulf Production company, Tidal and Independent, Llano Oil company, and Texas-Pacific Coal and Oil company.

MIDLAND COMES THROUGH

Midland has a unique record. A bond issue has never lost in the city or county. Any worthy fund, sponsored by the citizenship, has been raised, eventually if not immediately.

Take for instance the Boy Scout drive. Following closely on the heels of the chamber of commerce work of bringing the annual budget up to date, the quota of \$1,800 for Midland's part in the Buffalo Trails scout council work for the year was raised in a few hours when a group of aggressive young men went out on the job.

It was learned at the council meeting at Colorado that Midland is the only town in the council that had completed the quota.

Only a few days later, committees went out after \$2,500 for charity work for the year. Before noon, the amount was well over \$2,600. Midland does the job.

SMALL CITY ADVANTAGES

There are advantages of the small city as a place of residence which make it far more desirable than the big city. Good highways, railway networks, air transportation, electricity, gas and utilities of all kinds has lifted the small city from its former isolation and have destroyed reasons why people should go to the big cities to live.

"Industries are going back to the country and the small town. The cities have the greatest fight they ever had if they are to hold their places under the new order. The small place has advantages for industry that the city can hardly meet." The cities have got to make a readjustment, recognize a new force," Dr. Gus Dyer of Vanderbilt University, says.

As a prophet, Dr. Dyer may be less than infallible. His prophecy is interesting, just the same. We have been calmly assuming that the present drift of population toward the cities is going to continue indefinitely; what an upset if this flow is presently to be reversed!

His thesis does not sound unreasonable, either. A visit to any one of the half dozen largest cities in this land is about enough to convince any unprejudiced observer that a great city, in many ways, is not a very good place to live. Year by year the congestion grows more unbearable, the noise and dirt grow more oppressive, the time that must be spent in the mere process of getting to and from work lengthens and lengthens. New York is already giving indications that it is just a trifle too big for any earthly use. Chicago is beginning to display the same symptoms. And some other cities are not far behind.

After all, why not? We have gone just a little bit too far in our dedication of the big city. The genuine advantages that come from living in a smaller place tend to get overlooked.

If Dr. Dyer is right, and a wholesale splitting up of our cities is in prospect, we are in for some enormous, surprising changes.

THE ROAD TO PEACE

There may be a number of very good objections to ratification of the naval treaty recently concluded in London. But in considering them it will be well to bear in mind President Hoover's remark to the D. A. R.

"It is easy," said the president, "to preach the national duty of helping to preserve peace. It is easier to engage in invective and vindictive phrases and slogans which stir national selfishness and self-righteousness. And certainly the way of peace lies neither in the rattling of the scabbard nor the abandonment of defense."

It is precisely because it is so easy to do those things that so many people, who seem to have forgotten about everything that happened since 1914, continue to do them. But, as President Hoover points out, the road to world peace is not built by such actions. If we want peace we must work for it—even, perhaps, to the extent of throwing away a few battleships.

Daily Washington Letter

By Rodney Dutcher

A Year in Office Doesn't Seem to Have Made President Hoover Look Any Older Though His Hair Is Silvering—and His Office Itself A ctually Looks Younger

WASHINGTON, May 2.—Your correspondent has just taken a good close squint at President Hoover to confirm common belief that he has been looking much poorer and older after more than a year in office, what with all his troubles. Report: Not especially apparent, although his hair has grown quite silvery, an obvious change.

The executive offices, remodeled since the White House fire, are much handsomer. The most striking improvement is in the lighting fixtures, although there's a handsome new set of black leather furniture. The dozen wall lights in Hoover's private office now rest in large, upturned domes and are supported by long, scabbard-like pieces of highly polished nickel, matching the Hoover hair. The shining chandelier in the center is equally modernistic, with a flat frosted circular surface a yard in diameter through which the light filters.

Trimmings and suspensions are in nickel except for a large gold-

en eagle decorating the suspension about a foot above the chandelier itself. Beneath the frosted surface hangs a many-faceted crystal ball about three inches in diameter. The new cabinet room lighting is even more modern. Two ceiling light clusters are set against mirrors reflecting down on the crystal table and fringed with crystal tassels. Wall lights are set behind frosted circular panes inset into gilded frames featuring other golden eagles.

Well, somebody reads this stuff, anyway. And it turns out to be none other than the Hon. Cole L. Blease, senator from South Carolina, a fact which your correspondent acknowledges with pleased blushes. The mails brought this:

"Dear sir: I notice in the Columbia (S. C.) Record, of Tuesday, April 15th, an article on the front page, signed by you, in which you state, speaking of Senator E. D. Smith of South Carolina: 'He was the one Democratic senator who refused to vote for an increased duty on anything.' 'Will you please point out to me where I voted for any tariff on any article, either high or low? I will thank you for this information.' 'I shall with-hold my reply in the Senate to this article in the Columbia Record for a reasonable time, awaiting your reply. Very respectfully, Cole L. Blease.' 'Subsequent mails carried this reply: 'Dear Senator Blease: The only information I have concerning your votes for tariff increases is to be found on Page 4027 of the Congressional Record for Feb. 19. It appears that you voted for the Connally amendment to raise the duty on hides and for the Hayden amendment to raise the duty on dates in packages. Trusting that this is the information desired. Cordially yours...'

Anyway, Senator Blease came within two votes of matching the record of Senator Smith.

Midland Hi News

COWBOY BAND TO PLAY AT HIGH SCHOOL AUDITORIUM ON MONDAY, MAY 5

The famous Cowboy band of Simmons university, which will tour Europe this summer, will play at the high school auditorium on Monday, May 5 at 8:00. This band has made several extensive tours and has played on many important occasions, one of them being at the inauguration of President Hoover.

There are approximately fifty members, conducted by D. O. Wiley. Concert tours are under the management of G. B. Sandifer. Featured in the program are a cowboy brass quartet, a cowboy sax quartet, a baritone soloist, Kelly, and a trumpet soloist, Covington. The drum major is Y. P. Kuhn.

The proceeds of the concert will be used to buy a Sousaphone for the high school band. The instrument will cost \$290. It will be necessary to have such an instrument to enter the band in the high school band contest in Abilene.

Admission is 75c for adults and 50c for high school students. Tickets may be obtained from high school students.

The Cowboy band, representing in tradition, costumes and music, the immortal spirit of the Texas cowboy, will carry the fame of the Lone Star state on an eight-weeks' concert tour of Europe this summer.

It is considered very appropriate that the first musical organization to tour the Old World from Texas be a cowboy band. Added to this is the fact that the Simmons Cowboy band, with 100 expert musicians, is one of the finest concert organizations in the South, and the most widely traveled university band in the world.

Stirring marches, old southern melodies, cowboy tunes, and the classic masterpieces of the finest composers all go to make up the concert offerings.

THEY SAY THAT:

Conrad and Lloyd McKinney are very loving, especially in geometry class.

Lucille has the most piercing scream.

Glenn went fishing last week. We hope he caught a whale.

Avalyn and Mary Katherine are still in love.

Jean and Lloyd must have forgotten their little "tiff," but true love never runs smoothly.

The chemistry students made some very interesting pictures in laboratory this week.

Although his arm is broken, Maurice still smiles.

Merwin is still proud of his "San Angelo" suspenders.

Dennis is bashful.

Trene does not like to ride the "Lindy-loop" and that Velma takes first place in screaming.

Algerine is heartbroken. She hasn't received a letter since last week.

Some sophs don't know that it is against the law to ride on some new pavement. At least said sophs in a red Chevrolet heard a sermon on the subject last Friday.

John King does not like ice cream cones, because they detract from one's dignity, but Lucille thinks lolly pops add to one's dignity.

The meanings of I. W. W. contradict themselves.

THE STAFF THIS WEEK

"The Scribblers" set to work to write the news this week with Georgia McMullan, editor-in-chief; Marguerite Bivens, assistant editor; John King, sports editor; Ernestine Ziegler, society editor; Frank Midkiff, miscellaneuous; Herman Walker, Thyr Earley, Mary Katherine Hogsett, James White, Bertha Barrow, Avalyn Pogue, Floyd Face, Caridona Vann, Ulys Barber, and Hazel Marie Graham, reporters. The typists are Lloyd Long, Edythe Sundquist, and Irene Lord.

PERSONALS

Miss Allie Mae Stout received a letter from Mrs. Bishop on Monday, April 28. Mrs. Bishop sent greetings to the faculty, friends, and students of Midland. Mrs. Bishop is a former teacher in the Midland high school. She taught eleventh grade English and Latin last year in Midland high school.

Mrs. Paul T. Vickers, Miss Stella Mae Lanham, and Mr. W. S. Lanham accompanied Lucille McMullan to the oratorical contest in Fort Worth on Friday, April 25. They also visited in Dallas on their trip.

Mrs. J. B. Rippey, Miss Vera Hefner, and Misses Thelma Lee and Louise Rippey visited in Wink on Saturday, April 26. While they were there, they visited the new high school building and the \$40,000 gym, erected during the fall of 1929.

Mrs. H. E. Ziegler of Wink spent the past week in Midland visiting her daughter, Ernestine.

Theresa Brooks spent Saturday and Sunday in Odessa visiting her sister, Mrs. Frank Stretch.

Lucille McMullan read in Stanton Tuesday night at an Odd Fellows meeting.

Billie Manning spent last weekend with her sister in McCamey.

Mrs. Stockard and Miss Pawelek went to Odessa last Thursday to judge a local clothing contest.

Frank Midkiff left Tuesday for Robstown to visit his niece who is ill. He was accompanied by his mother and sister, Mrs. Ed Benedict.

CAN YOU IMAGINE—

Doing everything you want to do?

Velma never speaking of a certain football boy?

Reed hating Conklin?

John and Virginia in love?

Edythe being bold?

Mr. Cotner speaking for himself?

Mr. Barry never telling anything funny?

Ralph madly in love?

Why M. D. seems lonesome?

Herschel being sensible?

Ray with anyone but Imogene?

Frank being perfectly still?

Ulys doing as you wish him to do?

Receiving a demerit every time you glance out of a window?

Having only four more weeks of school?

Thyra creating a sensation?

Why several students are being called "Unconscious"?

Some say it is because they are in love.

What Miss Pawelek means when she speaks of "two-legged mice"?

John D. not wondering what you did?

Joe Beane not being interested in everything that occurs?

Ted following directions?

Where the new "lingo" which we hear on the school ground originated?

STERLING CITY CLASS VISITS HIGH SCHOOL

On Friday, April 30, members of the senior class of Sterling City, on their way to visit the Carlsbad Caverns, stopped and visited the high school. Teachers and pupils in the high school had met them at the Interscholastic league in San Angelo. Those in the party were: Misses Alta Longshore, Zula Cotton, Mable Lee Blackburn, Elizabeth Johnson, Annie Bade, Willie Key, Mozell Williams, Norine Merrell, Messrs. Homer Pierce, Felix Cox, Charley Bandy, and Robert Doffman.

FACES AND BOOKS

(An Editorial)

Isn't it queer that in a world of millions of people that no two people are exactly alike? God is indeed a super-human being, a higher being, to have created so many people with as many different characteristics.

One may walk along the streets of any city and see people of every type, every nationality; one may notice the many kinds of expressions which the various faces possess. This facial expression is an introduction to one's character.

I think that one's face may be compared to a book, a romantic comparison if you find pleasure in reading. By a first meeting we obtain an introduction to the person's character which I will call the plot—A book, a novel, a poem, everything must have a plot.—When we read the introduction, we can decide whether we wish to go further. If we do not like the introduction, we cast aside the book with a feeling of something lacking, something which is valuable in stirring interest. It may be an interesting book, a good book (good in the true sense of the word), an uninteresting book, or a book which displays many phases for criticism.

The person to whom the face belongs is the author of the book of which his face is an introduction. Thus we see that all of us may be authors although we do not have the ability to write with words. We write a beautiful book; we write a notice or association; or we write an average book which does no wrong, but which accomplishes nothing towards winning glory and praise.

Sometimes we even find that the content of the book is filled with more feeling and emotion than the introduction gave it credit for having, but nevertheless, the introduction or beginning of a book either gives you the desire to read every word or it gives you the desire to throw the book aside. Thus I have found the introduction to a person's character either gives me the desire to know this person as a friend or never to know him at all.

"THE TATTLER"

There may be some new couples added to some of the high school's already famous ones. G. B. was seen with Girtle Lou at the carnival which seems to be a place of many new scenes. Ada Belle and Moffett were also there.

We were quite surprised to see Jess Edith riding the "Lindy-loop" with Calvin, while Georgia and Theresa seemed to be enjoying a ride on the "merry mix-up" with-guess who?

Martha Louise and Thomas Lee were at the carnival last Friday night—but not together. Is it really a tragedy?

It's a long, long story, but a group decided to listen to the radio last Friday and hear Lucille broadcast, but as luck would have it, they had a flat and static. And twelve o'clock does make one sleepy.

Mr. Shifflett won a box of candy at the carnival. The question is: To whom did he give it?

It is very unusual for a girl to receive a telegram during school hours, especially from Odessa, but Pauline received one Monday morning. It must have been important, because she was supposed to "wire collect." He did not die, but merely wanted to come over Tuesday night.

We wonder if he did.

Doesn't it give one a thrill when you are mistaken to be younger than you really are? (This is usually after you reach the twenty mark.) Even so, Miss Lanham was thought to be the contestant from Midland who represented the San Angelo district in the oratorical finals at Fort Worth.

Doesn't this sound interesting?—Mr. Cotner keeps a diary! How I would like to read its contents!

SENIOR PLAY TO BE PRESENTED MAY 9

"The Picture Girl," the senior play, will be presented on Friday, May 9. It is the story of an Oklahoma farm girl who is trying to break into the movies. Rose Wiggins, played by Imogene Cox, is sweet and attractive, but lacking just a bit in education and wisdom. Her father, Mr. Wiggins (Archie Estes), has suddenly become rich. He has more money than business judgment. As a result, we find him in the hands of a smooth confidence man, T. Augustus Templeton (Ralph Hallman), promoting a gigantic motion picture swindle. Jim Hartley (C. W. Edwards), the clerk at Scaview Inn, is a likeable young fellow, brisk, breezy, and full of fun, who falls for the rich daughter, Rose. Jack Kenmore (Thomas Lee Speed), a college man from Ohio, trying to marry money, finds himself in love with Dorothy Darling (Mary Lou Throver), who is earning money to go to college by working as waitress in the inn. Flossie Flowers, the hotel stenographer (Mamie Dale), is slangy and uncultured, but lively. Henrietta McWhaffle (Lillian Dunaway), a pizza lady, is an old maid with movie ambitions. Hotfoot Jackson (Wright Cowden) the blackface comedian, has no ambition at all.

The scene is laid in the office and lounge room of Scaview Inn, near Hollywood, California. The play is lively and laughable, a farce comedy. Tickets will be available by Tuesday, May 6.

WHAT WOULD HAPPEN IF:

Janelle wouldn't look at the boys? Irene hurried?

Marguerite lost her voice? We didn't have our faculty? Anna Fay didn't giggle? Mike knew his history perfectly? The freshmen didn't make so much noise? You got 'stood up'?

There were no exams? Frank were serious? Dorothy fell down the stairs? G. B. spoke for himself? (John Alden).

Carlton had never driven the "charivvy"?

W. B. Osborn were reckless? The high school girls were to get a crush on junior high boys? Ama Belle knew her lessons? Jean W. had no Odessa friends? We had no "Uncle" David? James White were in love? Everyone were happy? Everyone were satisfied? Something did happen? Leland had a crush on Walter Fay?

C. G. were not so bashful? Gertie Lou were excited? Miss Rippey followed Miss Stout's example?

Everyone reached the goal he started to reach?

It were proper for girls to ask for "dates"?

We ask you, what would happen?

ANNUAL NEWS

The remainder of the proof on the 1930 "Catoico" has been received and returned to the Hill Printing company. All work has been completed on the annual except the collection for ads and subscriptions. The staff expects to receive the annuals by the last of next week. Collections on subscriptions have been started. The staff urges those who subscribed to pay their home room teachers as soon as possible.

MUSIC NEWS

"Practice" in the high school has been started on the Commencement music. A four-part chorus arrangement of "I Waited on the Lord" by Mendelssohn is being worked on. Other choruses will be selected later.

WHO'S WHO IN OUR FACULTY

Miss Stella Maye Lanham, our public speaking teacher, graduated from Slaton High school in 1924. She went to Montezuma college, Las Vegas, New Mexico, when a freshman. She went to Lubbock, at Texas Tech. She took her B. A. and B. E. degree from Baylor college at Belton.

HERE'S A PUZZLE—HEY NOW!

How can half of a girl's dress be on one side of a door and half on the other side with the door closed and locked and the girl still be in the dress? Solve the puzzle if you can. It actually happened on the third floor of the high school building, causing the said girl to be late to study-hall.

BAND NEWS

The band played in Odessa Wednesday evening. A saxophone solo was played by Lester Hawkins and a cornet solo by Jack Garlington. Several new members will be ready to take part in the contest at Abilene in May.

Lloyd: They are planning on making the periods ten minutes shorter.

Frank: That won't do. I'm not getting enough sleep as it is.

Lucille: Is she a nice girl? John: I'll say so! The other night when she dreamed of an auto, she walked in her sleep.

The Town Quack

Reserves the right to "quack" about everything without taking a stand on anything.

Every paper you pick up tells of efforts of towns to get a full count on population. Nobody is satisfied. Midland isn't. Big Spring isn't. Sweetwater isn't. Lubbock isn't. Amarillo isn't. All citizens of these and various other cities are putting forth final and strenuous effort to have 100 per cent enumeration, to have government census figures, but nearly as possible with the chamber of commerce figures. But it remains for the spirit of people like Reeder Webb to put the job over. Reeder, who is sheriff of Odessa, the town Midland is 20 miles east of, came over yesterday and took one of our negroes back with him, and now Odessa will get one more for the final census report and Midland will lose him.

The Town Quack desires to call attention of the public that he doesn't claim full credit for the announcement yesterday that con-

tract will be let in a few days for draining work in the east part of town. I am willing to divide honors with Abe Gates, also with E. mayors John Haley, J. M. Caldwell, W. A. Dawson, T. Paul Barron, B. Frank Haag and the present mayor, Leon Goodman. I am willing to share even a part with city councils all down the line.

Fred Turner and Malcolm Meek are offering together on the 6th floor of the Petroleum building. Fred's office hours are 15 minutes on the second Monday and 20 minutes on the third Thursday of each month, if convenient.

Well, if we wind up with not more than 5,500 people, we have the satisfaction of knowing, we ribbed ourselves up to the belief that we had 7,000 or 8,000 until we provided accommodations and advantages for a town of 20,000. You can't beat Midland in a radius of 300 miles. I'm quoting the editor himself, and his word goes with me. It has to be because I'm a hired hand.

TO VISIT HERE Mrs. George Elliott, Odessa, was expected to arrive in Midland today to be a guest of Mrs. S. R. Preston at luncheon. Mrs. Elliott is a long-time friend of Mrs. Robert Harwell, Ballinger, and Mrs. Charles Gibbs. San Angelo, house guests of Mrs. Preston.

An alligator takes 60 years to become fully grown.

KIDDIES FROM DAIRYLAND Storybook. An advertisement for a children's storybook featuring illustrations of children and a cow. Text includes: 'C' stands for Complexion—and Rosy cheeks you can command. Of this Dairyland MILK drink plenty—Be a man before you're twenty.'

## Friendly Builders Class Entertained At Social

The Friendly Builders class of the Methodist church was entertained Thursday afternoon at the home of Mrs. E. J. Vollva, Mmes. A. B. Stuckney, L. H. Pittman, Jess Monteith, and A. McCleskey were co-hostesses.

During a short business session, the chairman of the visiting committee reported 51 visits for the month of April.

Several games were played, one of the most interesting being a "picture game" in which each person was asked to draw a picture of the person to her right. Miss Jessie Lou Armstrong received a prize for the best picture. Awards in other games went to Mmes. C. C. Watson, C. H. Shepard, D. E. Holster, M. V. Coman, and Scott.

Refreshments of ice cream and cake, with red roses as plate favors were passed to the following:

Mmes. E. P. Eubanks, W. F. Prothro, Frank Smith Jr., D. E. Holster, J. L. Barber, A. W. Lester, C. F. Wechunt, B. Bennett, N. A. Mize, Wesley Williams, Neol Oates, Smith Umberson, I. G. Shelton, L. A. Boone, W. R. Harwick, C. H. Shepard, M. V. Coman, Scott, Buchanan, C. C. Watson, J. H. Smith, P. F. Barber, B. R. Young, F. B. Armstrong, J. H. Barton, Castleberry, Hollis Scarborough, J. M. Prothro, R. T. McAden, and Miss Jessie Lou Armstrong.

## Monthly Business Meeting of T. E. L. Class

Mmes. J. H. Barron, Brooks Pemberton, and D. W. Brunson were hostesses at the home of Mrs. Barron to members of the T. E. L. Sunday school class of the Baptist church Thursday afternoon at the regular monthly business and social meeting.

Mrs. Brunson, president, gave the devotional, and remainder of the afternoon was spent sewing on articles for a Christmas gift box, which the class maintains throughout the year.

The hostesses served refreshments to Mmes. J. G. Arnett, T. S. Patterson, Ella Youngblood, Newnie Ellis, Jekes, W. H. Spaulding, Brooks Frank Orson, J. V. Hobbs, J. H. Williamson, E. L. McGraw, C. Z. Wren, W. A. Holloway, W. W. Wimberly and Elliott Barron.

## Midland Visitors Honored At Social Functions

Honoring Mrs. Robert Harwell of Ballinger and Mrs. Charles Gibbs of San Angelo, house guests of Mrs. S. R. Preston. Mrs. W. L. Homsley entertained with an informal tea yesterday afternoon, having as guests Mrs. M. R. Hill, Mrs. Preston, Miss Lydie Watson, Mrs. Andrew Fasken, and the two honorees.

This morning, Mrs. M. R. Hill was hostess at a breakfast at the Hotel Scharbauer dining room honoring Mrs. Gibbs and Mrs. Harwell, with Mrs. Preston, Mrs. Homsley and Miss Watson as additional guests.

## Rainbow Club With Mrs. Grafa

Meeting in regular session, the Rainbow club was entertained Thursday afternoon at the home of Mrs. Walter Cowden, 111 North F street.

At the bridge tables, Mrs. Hugh Corrigan held high score for members, and Mrs. Frank Norwood for guests. Cut prize went to Mrs. B. C. Girdley.

Pretty party plates were passed to Mmes. B. G. Grafa, B. C. Girdley, Hugh Corrigan, R. A. Verdier, A. J. Gates, Frank Norwood, and R. L. March.

## Women To Make Good-Will Trips

Several Midland women have signed up to go to Stanton May 6 on the Midland good-will tour. The Midland delegation plans to leave here at 5:15 and be back by 7:30, those hours appealing to the women because they can be home in time for dinner. Several have also planned to go to Hobbs May 13.

## Country Club Members Entertained At Bridge Party

Six tables of players were sat when members of the Country Club met for bridge Thursday evening at 8:30.

Mrs. J. V. Stokes Jr. was high in the games, and received a set of goblets; Mrs. Bert Ross, second high, was awarded a string of rock crystal beads; Dr. W. G. Whitehouse, third, was given a kitchen set, and M. M. Seymour received a cigarette lighter for fourth high score.

## Program To Be Given At Baptist Church

The program observing National Music Week will be held in the First Baptist church at 3:30 Sunday, May 11. It was announced definitely today by sponsors of the affair. Members of the Fine Arts club, who are sponsoring the observance of Music Week, plan to combine a Mother's Day program with a musical program.

## WAR ACES ZOOM, ZIP AND ROMANCE IN AIR THRILLER

Men who laugh at death and dare everything for love people Paramount's thrilling drama of the war aces, "Young Eagles." Charles (Buddy) Rogers is the star, the same Buddy who provided most of the romance and thrills in the daring war aviation epic, "Wings," and William ("Wings") Wellman directed. "Young Eagles" will be the smash-hit entertainment at the Yucca theatre, for two days, starting Sunday next.

While "Wings" was, primarily, the story of friendship between brother pilots in the American air force, "Young Eagles" immortalizes the spirit of knight errantry which existed between the opposing pilots. These intrepid warriors of the skies battled ferociously and defied death daringly, yet they always insisted on a fair victory in a fair fight. There was a spirit of good-fellowship between the opposing aces, and this spirit "Young Eagles" has captured.

Buddy is the American ace who, in a thrilling air duel, brings down the redoubtable Paul Lukas within the American lines. Buddy is assigned to convey Lukas to Paris where the secret service agents believe they can worm military secrets from him. Buddy and Lukas become good friends on the journey. In Paris, Buddy meets and falls in love with Jean Arthur. She dupes him, however; aids Lukas' escape, and leaves with him. Embittered, Buddy returns to the front. Later he meets Lukas in the air and brings his plane down in flames. Lukas tells him that Jean was working under instructions from the American secret service in Paris.

Leo A. Taylor has been transferred from Breckenridge to Midland and will be associated with the Southern Ice and Utilities company here. Mrs. Taylor will be assistant to Miss Peggy Allison at the local Western Union office.

John Dunagan, manager of the Midland Bottling works, returned to his home yesterday from a business trip to McCamey.

## Mrs. Crump Entertains 1928 Bridge Club

Mrs. J. L. Crump, 1101 West Illinois street, was hostess to the 1928 Bridge club Thursday afternoon, entertaining two tables of members, and a table of other guests.

A decorative scheme of roses was carried out, with additional varieties of flowers adorning the house. An iced course served after the games, had ices moulded in the form of pink roses, served with green cake. Wrappings on the prize packages were pink and green.

Favors went to Mrs. Clarence Scharbauer for high score for club members, and to Mrs. Homer Rowe, for high guest score. Mrs. Frank Elkin cut high.

Playing were Mmes. Clarence Scharbauer, B. H. Blakney, J. D. Young, C. C. Duffy, Frank Elkin, Russell Lloyd, John B. Thomas, J. M. Caldwell, Harvey Sloan, Homer Rowe, Donald Hutt, and Miss Myrtle Green.

## Personals

Eugene English of Midland transacted business in Odessa Thursday afternoon.

Remember National Music Week.

J. O. Garlington, Andrews, is in Midland today transacting business.

James Noland, of the Barnsdall Oil company has returned to Midland after an extended business trip.

C. W. Alcorn, of the local Shell Petroleum offices in San Wink on business today.

Marcus Gist of Odessa spent several days in Midland this week recuperating from a knee injury received when a horse fell with him.

W. S. Schmidt has returned from a trip to El Paso.

R. R. Penn and Heath R. Robinson of Dallas are Midland business visitors today.

S. R. Cohagen, Fort Worth, is in Midland today.

Joe Ferneaux, Dallas, is the guest of Mayor Leon Goodman.

Mr. and Mrs. W. M. Story of Winston-Salem, North Carolina, are spending several days in Midland.

Mr. and Mrs. Floyd Senter and baby, of Pampa, are visiting in Midland today.

W. E. Whitcomb, San Antonio, is in Midland today.

## Weekly Sunday School Lesson

Text: Matt. 20:17-28

And Jesus going up to Jerusalem took the twelve disciples apart in the way, and said unto them,

Behold, we go up to Jerusalem; and the Son of man shall be betrayed unto the chief priests and unto the scribes, and they shall condemn him to death,

And shall deliver him to the Gentiles to mock, and to scourge, and to crucify him: and the third day he shall rise again.

Then came to him the mother of Zebedee's children with her sons, worshipping him, and desiring a certain thing of him.

And he said unto her, What wilt thou? She saith unto him, Grant that these my two sons may sit, the one on thy right hand, and the other on thy left, in thy kingdom.

But Jesus answered and said, Ye know not what ye ask. Are ye able to drink of the cup that I shall drink of, and to be baptized with the baptism that I am baptized with? They say unto him, We are able.

And he saith unto them, Ye shall drink indeed of my cup, and be baptized with the baptism that I am baptized with: but to sit on my right hand, and on my left, is not mine to give, but it shall be given to whom it is prepared of my Father.

And when the ten heard it, they were moved with indignation against the two brethren.

But Jesus called them unto him, and said, Ye know that the princes of the Gentiles exercise dominion over them, and they that are great exercise authority upon them.

But it shall not be so among you: but whosoever will be great among you, let him be your minister:

And whosoever will be chief among you, let him be your servant:

Even as the Son of man came not to be ministered unto, but to minister, and to give life to a ransom for many.

The International Uniform Sunday School Lesson for May 4, Christ's Standard of Greatness. Matt. 20:17-28.

By WM. E. GILROY, D. D. Editor of The Congregationalist

The essence of the teaching of Jesus was in his revelation of human values, and this revelation of human values was itself associated with the eternal.

Human values had their meaning because of the divine Fatherhood. Man's capacities spoke of man's origin, and man's origin, through the creative power of a Father of Love, determined the highest value of his early life.

The teaching of Jesus would probably be much less easily perceived and applied if Jesus had not enforced it by striking examples, some of which have been recorded for us in the New Testament in the narrated incidents and parables.

A Contrast in Standards

Here in our lesson we have a graphic and dramatic contrast between the standard of greatness that Jesus had and that force of personal ambition which is more in harmony with the standards that have prevailed in the world. Among the disciples whom Jesus called were two brothers, James and John. We do not know a great deal about them in detail, but we know a great deal concerning their general characteristics and the determining influences in their lives.

We have a clue to their character and temperament in the nickname that Jesus gave to them, Boanerges, or Sons of Thunder. Evidently it was

a playful reference to their intense and rather stormy nature. We know that they were the sons of Zebedee, but even more important than this is the fact that it is their mother, rather than Zebedee, that stands most conspicuously in the record.

Probably if we could look into the history of all great men, we should find that the outstanding hereditary and dominating factors often came from the mother rather than from the father. Our patriarchal type of society has tended largely to neglect the powerful factor of the mother's influence, for apart even from the element of heredity the mother more than the father has constituted the determining environment of the child. She has guided its early years.

Here in the incident of our lesson we have a striking presentation of the mother of James and John. So passionate was her ambition for her sons that in the kingdom which she believes Jesus had come to establish on earth, and in which she herself strongly believed, she aspired to see these sons in the chief places of preference, one on the right hand of Jesus and the other on the left.

One might have supposed that Jesus would have rebuked the woman for her ambition and that he would have given the two disciples a lecture upon their false ideals. The other ten disciples we are told were moved with indignation, and we can imagine something of the discord which the incident created.

But Jesus had called men to the inner circle of discipleship not for their perfection but because of their capabilities. He had chosen for the responsible task of supporting him and carrying on his work in the world not men who were free from blemish and whose qualities were mainly negative but men of strong and positive convictions. One could not build much upon the foundation of a weak and indifferent man, but if one found a man of natural strength of character, that character might be transformed and directed under the impulses of love and grace.

Thus it was that instead of rebuking the mother of Zebedee's children and her two sons, Jesus gave them a challenge to something even greater and better than sitting on either side of an earthly throne.

"Are ye able to drink of the cup that I shall drink, and be baptized?" Their response was unflinching, they were ready for any emergency.

But the emergency that came to them in the ultimate founding of Christianity was so different from anything that even they or their mother perceived. In deep measure it was given to them to share the cup of the Master. Concerning one we have no clear or definite knowledge. It was supposed that he suffered an early martyrdom.

An Expression of Love

Concerning the other we have the tradition of his mighty love, that this man who had drunk in ambition and the passion of dominate with his mother's milk became so filled with love of his fellowmen that he could express the supreme experience of a new religion in its power to save in no larger and more effective way than by saying, "We know that we have passed from death unto life because we love the brethren."

The two standards become one standard under the dominance of Christ. That is what ought to happen in all our lives and with all our standards of success. What we need above all else is so to learn about Christ that our ideals of suc-

cess will be transformed into ideals that make our lives worthy not only in the sight of men but worthy in the sight of God.

It is not enough to be good and to be strong, but we must be good for something, and we must be strong for the highest things of life.

## TALKING FILMS A THIRD ART, SAYS DE MILLE

Talking pictures should be motion pictures with dialogue, not photographed plays, is the belief of Cecil B. De Mille, veteran producer, who has been occupied a full year with "Dynamite," his first audible production, which will come tomorrow to the Ritz Theatre.

"In the rush to place talking pictures on the market," stated the director, "I note a tendency on the part of some to take the easiest way, and simply put on the screen stage plays exactly as they were done on the legitimate boards."

"This is not fair to the stories thus treated. Stage technique was evolved to fill the needs of direct contact with an audience, and to overcome the obstacles of the necessarily cramped physical confines of stage settings."

"Screen technique, on the other side, was built up to cover the lack of a direct audience, of direct physical contact with the players, and also to make the most of the greatest advantage of the screen, far greater facility in shifting from one scene to another, and back again."

"Talking pictures are a new, a third art, of dramatic expression. They will have a distinct technique all their own. But that technique will always have much in it that pertains to the screen, because talking pictures, like the silent screen, present personality without the player concerned being actually in the theatre, in the flesh. Photographed plays will leave out of the telling of a story much of the novelty and added charm possible to picture technique. Let us not handicap this new development by overlooking any possibilities."

De Mille, who made "Dynamite" as his first talking picture under his new affiliation with Metro-Goldwyn-Mayer, believes that a high school education will now be a minimum requirement for screen aspirants.

W. F. Hanigan returned to Midland this morning from a business trip to El Paso and points in New Mexico.

# 'CENTURY OF CENTURY' CULMINATES GEORGE SIMPSON SUCCESSES IN 1929

Editor's Note: This is the fourth in the series of eight articles on the life of George Simpson, the new fastest human, written by his friend, W. D. Griffith, director of the Ohio Relays.

By W. D. GRIFFITH  
Director of Ohio Relays

As a splendid overture to the epic race he was to run in June, George Simpson returned to outdoor competition in 1929, apparently recovered from his injury in the Olympic trials, and determined to wear the crown of college dash champion.

Forty-five thousand howling fans and a battery of news reel cameras saw the Simpson colors flash to victory in a 9.6 seconds hundred at the Penn Relays. Some of the same fans and cameras saw him race Pete Bowen of Pittsburgh and Jack Elder of Notre Dame into submission at the Ohio Relays a week later. And with the checking of the watches, the time was found to be 9.5 seconds, one of the three races on record that ever had been run in this time under legitimate conditions. This same Bowen forced Simpson to do 9.5 and 20.6 in the 100 and 220-yard dashes of a dual meet a few days later.

Eddie Tolan, of Michigan, running a brilliant 9.5 hundred, nosed Simpson out at the tape in the Big Ten outdoor championship. It was the Ohioan's first and only setback of the season. The same day, Simpson again did the feat, in 20.6 seconds to equal the existing world's record for the second time.

With the staging of the National Collegiate Championship at Chicago in June, the stage was set for the glowing picture Simpson was to paint on the white-lined cinders. Eight men were in the finals, three having 9.5 records, four credited with 9.6 seconds and another who had raced 9.7 seconds several times. There was Jack Elder of Notre Dame, the fastest starter among modern athletes. There was Tolino of Loyola, Hutson of Denison, Wilcox of Kansas and Cy Leland of Texas Christian who had been knocking at the door of greatness with times of 9.6 and 9.7. There also were Eddie Tolan and Claude Bracey, the only men who ever had shown their backs to Simpson in intercollegiate competition.

News reels of the race show a perfect start; they show Elder at the 15-yard mark with Tolino sec-

This photo shows the finish of the "century of the century," the fastest 100-yard dash on record. Left to right the runners are Tolan of Michigan, Hutson of Denison, Simpson, the new fastest human, Bracey of Rice and Cy Leland of Texas Christian U. Others in the race were Wilcox of Kansas, Tolino of Loyola and Elder of Notre Dame.

ond, Bracey third and Hutson fourth. They show Simpson, Bracey and Elder on even terms 40 yards from the tape and then, at the finish, they reveal the flashing figure with a half-stride edge on Tolan—George Simpson, 9.4 seconds dash man and undisputed champions of the world.

### THREAT IS EFFECTIVE

TEXARKANA, Tex. (AP)—Four men are being held under bonds totaling \$10,000 for action of the Bowie county grand jury in May, while officers are seeking leaders in a chicken theft "racket" which, they declare, has resulted in the loss of thousands of dollars to farmers near here during recent months.

County Attorney L. C. Boswell declares that three of the men, negroes, have stated they were paid a weekly salary by a group of white men to carry on hen house raids. The fourth man under bond is George Griffin, white. The negroes declared, according to Boswell, that they were told repeatedly that if they ever "squealed they would suddenly be missing and not come back."

Boswell declares that he believes his investigation will result in several white men being identified as leaders of the alleged theft ring.

### NEW DEFINITION

AUSTIN, Tex. (AP)—All social affairs at the University of Texas are "taboo" unless approved by the faculty committee on student social affairs under resolutions recently passed by that body. The authority of the faculty committee extends over all lines of student social activity including parties of mixed groups and especially "picnics and dinner parties."

The committee also has limited the territory in which students may hold parties and picnics to Austin and vicinity. The faculty committee also has

### KICKS OUT OF JAIL

ROCK SPRINGS, Wyo. (UP)—Becoming bored with his confinement in jail at Jackson Ray Roberts, 18, kicked a hole in the roof of his cell and deserted the place. The sheriff, not used to housing such active prisoners, made plans to coat the jail with tin to prevent a recurrence of the kicking stunt.

undertaken to establish just what constitutes a "social affair" and has decided that six or more persons makes a party. Foursomes and informal home parties may be held without the approval of the committee.

### WHAT? ANOTHER RECORD?

PERPIGNAN, France, (UP)—Jean Coussanes of this city believes he has broken the world's record for the greatest number of words written on the back of a postal card. Coussanes has written 5,151 words comprising 26,119 letters in 136 lines on the back of the postcard.

### NO SOUVENIRS HERE

PROVO, Utah, (UP)—Dropping off a sheer 35-foot embankment meant little to William Kayser. His car was almost completely demolished, but he crawled out of the wreckage without even a scratch to show his friends as a souvenir of his accident.

### Retain Your Good Looks

How frequently a woman thinks, "Am I still attractive?" How much thought and study she devotes to her looks! That's natural. A woman hates to think she is growing day by day less charming and attractive. DR. PIERCE'S FAVORITE PINK PILLS helps to preserve in a woman the charm and health of youth. It contains no harmful ingredient. This splendid herbal tonic is sold by all druggists in both fluid and tablets.

Write to Dr. Pierce's Invalids Hotel, Buffalo, N. Y., if you desire free medical advice. For 10c Dr. Pierce will send you a trial package of tablets.

### MOST TATTOOED MAN

ALGIERS, May 1. (UP)—The world's most expansive, if not most beautiful, display of tattooed art on a human background, is destined to remain shielded from the view of art lovers behind the prison walls of the Central Penitentiary for Ordinary Criminals, at Lamballe, on the edge of the desert.

Several Paris music halls have bid fancy prices for the services of the tattooed prisoner, declared to have the finest exhibition in the world. His parole has just been refused.

His entire body is tattooed from the fringe of his hair at the top of his forehead to his outermost toe. Among other things, the exhibition includes all the stations of the

cross, a complete novel, with illustrations, in 21 chapters, never printed except in this human edition, and a picture story of the world war, month by month.

It takes three hours to read the novel alone. The eastern two-thirds of New Guinea, the largest island in the world, is largely unexplored.

### MIDLAND AIRMAN ORGANIZED PLAN FOR SEARCH OF MISSING BOY FLYER, WOULD HAVE TAKEN OFF BUT FOR APPEARANCE

EL PASO, May 2. (AP)—Frank Goldsborough, 19, aviator, left here today for Los Angeles after temporary repairs had been made to his plane.

He hoped to reach his destination tonight, after fueling stops at Tucson, Ariz.

He expects to lower the 40-hour junior transcontinental flying record.

The part played by Field Manager H. M. Becherer of the Midland airport in plans for a search for Frank Goldsborough, young flyer who is trying to establish a junior transcontinental record, was told The Reporter-Telegram by a S-A-T pilot at the airport Thursday.

"Becherer had gone to the port at El Paso to take off for Midland," the pilot said. "He had read in the press of the disappearance of the young flyer and suggested that I fly my S-A-T plane over the Carlsbad road route while he flew the dangerous pipeline route over the mountains."

"We had agreed to do this when the ship of young Goldsborough was sighted."

Despite the damaging of a wing when he took off from a spot in the desert, 100 miles east of El Paso, where he spent Wednesday night, Frank Goldsborough, 19-year-old New York flyer, landed his Fleet bi-plane "American Boy" at the munic-

#### 2ND LUCKY BREAK, SAYS YOUNG AIRMAN

"I thought that I'd spin into the telephone line when the wing hit the post," said Frank Goldsborough, 19-year-old aviator, Thursday in describing his accident in taking off in the desert.

"It was the narrowest escape of my life and my second lucky break. Once when flying low along a New York river in a fog, I thought I'd better fly a little higher. I missed a big bridge by inches."

Goldsborough says he called his plane "The American Boy," because nearly all other ships have feminine names and he wanted to be different. He has no connection with the magazine of the name and, except for some help from the Richfield Oil Co., is financing the flight himself.

ipal airport at 7 a. m. Thursday, says the El Paso Post, which continues:

Goldsborough is attempting to lower the junior cross continent flying time of 40 hours set by Dick James. Goldsborough is the son of the navigator who lost his life in Frances Grayson's attempt to fly the Atlantic.

A new wing was ordered from Phoenix and Goldsborough hopes to hop for Los Angeles today. Arthur Johnson, airport manager, was to superintend repairs.

Telegraphs Mother —Goldsborough's first request was that his mother be notified of his safety. He had been unable to communicate with any one since leaving Midland.

"It was so darned dark about 8:30 Wednesday night that I decided to land in the desert rather than try to come on into El Paso," explained the young aviator.

"I noticed the lights of an oil field truck coming along the Paso-tex pipeline. When I circled around the truck stopped and I landed safely by its lights. There was no way of letting anyone know where I was. The pipeline telephone line went right by the place where I landed but I found today that I was 25 miles from a station.

"The driver of the truck was Bill Irving from Hobbs, N. M. There was another man with him named Cliff. They had lots of food and plenty of blankets. They gave me an old fashioned western welcome. We cooked food on a portable gasoline stove that they had and after talking about various things turned in and slept soundly.

"The accident came when I took off about 6 a. m. this morning. I got off the ground all right despite the bumps on the road along the pipeline but a gust of wind struck the ship when it was only a few feet in the air and it slide into one of the telephone poles. The lower left wing tip was bent back and a spar split. I knew there wasn't any use in landing again so I kept going. I really don't know how I made it."

Goldsborough said that the oil field workers opened nearly every can in their larder in his honor. There was spaghetti, potatoes, canned peaches, hard bread and crackers for the meal.

The young aviator slept in his flying suit.

He is a graduate of Flushing high school, Flushing, Long Island, and had been flying only since September, 1929, but has 84 hours to his credit. He appears to be an unassuming high school boy with curly blonde hair and a heavily sun burned face. He was wearing knickers and a sweater. Norman Kline, C. A. T. representative, took the flyer to breakfast and Hotel Hussmann, invited him to spend the night there.

### Drove 4 Miles Minus Gas Tank

Believe it or not, but there is a tale on the streets this morning that Booger Vaughan, employe on the Ad Neal ranch southeast of Midland, lost the gasoline tank off of his car while coming to town yesterday and drove four miles before the car stopped and he discovered the loss.

He was near the Collins place when the tank was lost, and was near the Proctor place when the car stopped.

L. C. Proctor went back with him four miles before the tank was found.

### LITTLE THEATRE NOTES

Sale of tickets for "Adam and Eva," three-act comedy of the little theatre will be started early next week, Miss Ruth Blakeney, in charge, says. These will be sold at the Midland Drug company as headquarters.

John Bonner, affable theatre manager, is proving to be a real "friend" as Mr. King in the production. Taking the role when D. H. Starling was suddenly transferred from Midland to Hobbs. Bonner came out to rehearsal the second night after taking the role and surprised the entire cast with his easy interpretation of character, graceful stage mannerisms and memory work. His is the "punch" the cast had been unconsciously waiting for.

Some idea of how Bonner bowls 'em over: a child was playing in the rear of the auditorium that first night Bonner made his appearance. When Bonner, on the stage, bellowed out instruction to an apparently indifferent telephone operator, the child screamed in fright and a casual sprinkling of critics and scattered groups of other players around the auditorium reacted more than to simply lift surprised eyebrows.

C. F. McCracken, remembered as an Indian physician in "The Call of the Banshee," will be seen again in the role of a doctor, this time as Dr. Delamater. "Mark" took the role late in the rehearsal period due to another actor having to miss rehearsals through continued absence from the city due to affairs of business.

Sets to be seen on the stage of the Yucca when "Adam and Eva" is produced will be somewhat different from others seen this year. The first outdoor set to be used will be a feature of the third act. If you don't believe a garden can be planted "between scenes" so that it will blossom during the next act—come on out and improve your education. Chickens and birds will be on the stage, too—something different.

The cast is working nightly and will hold morning rehearsals soon. The play is perfectly balanced from standpoint of cast—and indications point to a play that will crowd others of the season as regards popularity.

### Gist Herefords Go To Southern States

Sale of six bulls to the Texas and Pacific Railway company is reported by John M. Gist, registered Hereford breeder, the bulls having been shipped to Thibodaux, La., to improve herds there in line with policies of the Breeder-Feeder movement.

Gist also reports the sale of a bull for \$500 and a heifer for \$500 to Harvey Peltier at the same place; the sale of 250 yearlings to be put on feed, and order for 300 more yearlings, to R. A. Warriner of Thibodaux.

Gist has also shipped 25 cows and 50 yearlings to points in Louisiana, Mississippi and Alabama, where there is growing interest in the Breeder-Feeder campaign. He shipped five cars to those states last year.

### Errorgrams—CORRECTIONS

- (1) Chile is spelled incorrectly.
- (2) The man at the right should say, "crossed the Andes" instead of the Pyrenees, the latter being between Spain and France.
- (3) There is no side pocket on the coat of the man at the left.
- (4) The vest of the man at the right is buttoned across the wrong way.
- (5) The scrambled word is PILLOW.

The automotive industry in the United States used 47,000,000 yards of upholstery cloth in 1928.

### Fisher-Lowrie Test Is a Deep Wildcat

Drilling is continuing on one of New Mexico's deepest tests, the Fisher-Lowrie wildcat about 13 miles north of Hobbs in section 11, township 18 south, range 36 east. The well is estimated to be making from a half to a million cubic feet of gas and is below 4,830 feet. The company has not determined how deep the well will be drilled. The Honolulu Oil Co., associated with Fisher-Lowrie whose officers are at Midland, is drilling at 435 feet on a wildcat test on Tillman Walters survey No. 3, block 203, Pecos county.

There are about 520 muscles that have to do with the moving of the human body.

### TO SEE PASSION PLAY

Mr. and Mrs. T. Paul Barron and son, Charles Elliott, are leaving today for Amarillo where they will attend showing of the Passion Play. Mrs. Barron will remain several days as the guest of her sister-in-law, Mrs. Herman Spaulding.

### OIL MEN VISITORS

Bob Moore and W. B. Sutton of Houston and R. H. Woods of San Angelo, representatives of the Vacuum Oil company, are business visitors to Midland today. R. R. Penn of Dallas, oil operator and producer, is also in the city. Joe Edgar is here from San Angelo.

## BARB'S

With the temperature 250 degrees below zero on the new planet, be thankful you have only to keep your wife in wraps on this sphere.

The three Indian youths who held up a bank after they had been in a dance marathon may now have a chance to try out a new step—the lock-step.

The game warden in Nebraska showed he knew a thing or two about bass-relief when he padded the sides of a tank to keep black bass from injuring themselves.

A six-year-old Tennessee boy was brought to the hospital by his parents to be cured of the cigaret habit. But what's the use, he'll probably take to drink now.

Queen Mary's automobile has been equipped with a musical tooter. If a pedestrian were struck by the royal car he would be in an embarrassing position should the tooter play the national anthem.

The health commissioner in Chicago says that whistles used by Chicago policemen are nerve racking and suggests some kind of "musical tooting." What those boys need is a sort of snare drum.
