SOUTH AND WEST IN THE SADDLE

It is never easy to analyze a great historical movement while it is in progress. It has to be seen in perspective, usually, to be gauged properly. Nevertheless, it is fairly evident that some far-reaching shift is now taking place in the political alignments of the Democratic party.

Traditionally, the party was a party of farmers and the people of the small towns. Its strength lay in the south and west; it distrusted industrialism, big business, high finance, it was ready to embrace such panaceas as the free silver movement, it tried to fit antique Jeffersonianism to an industrialized democracy.

In recent years, however, it has included another wing; the proletariat, so to speak, of the big cities. Since the close of the Wilson administration it has been torn by a conflict between its two groups, with the south and west allied against the industrial east.

In 1920, 1924 and 1928 the industrial east triumphed. Cox went into the 1920 campaign with the approval of Tammany, Davis, in 1924, was highly acceptable to the east, Smith, in 1928, was the very prototype of the city man, the darling of the eastern sidewalks.

Now the pendulum has swung the other way. Roosevelt rises to power through the support of the opposite wing. Tammany is out in the cold. The men whom the eastern wing most wanted are in the same position. The west and south are in the saddle again.

It would be interesting to know whether this new ascendancy is to be permanent. Probably only the seventh son of a seventh son could say; meanwhile, however, it is just possible that a lasting realignment of forces is beginning that will include both parties in its effect.

For one party cannot change its complexion without causing a similar shift in the other party. The Republicans have their rural and industrial wings just as the Democrats have. Will there, eventually, be a fusion that makes the division between the two parties far shaper and clearer than it has been during the past decade?

It is too early to tell, just now. The coming campaign probably will give at least part of the answer. The vote in November will help decide.

GOOD VACATION NEWS

It may be that the depression is not quite as far-reaching in its effects as we had supposed. At any rate, it is currently reported that the summer of 1932 will see only a very small reduction in the amount of vacation traveling done in the United States; and it is pointed out that tourist expenditures in 1931 and 1930 were not very far below the average.

Regardless of what this fact may mean about business conditions generally, however, it is good news for two reasons. For one thing, it means that the millions of dollars invested in summer resorts, hotels and the like will get a fair chance to make a decent return this year; for another, it means that a great many Americans are going to get the physical and mental rejuvenation which a vacation trip always brings.

THE BUDGET CUT

The federal government seems to have met its budget-balancing problem fairly successfully. It is a little early to tell whether or not the new taxes will yield all they are supposed to yield, but it is probable that early estimates will not be very far off. At any rate, the problem raised by the deficit was met and met decisively.

There remains, however, one point on which the taxpayer is entitled to feel a bit of a grudge. The deficit was met largely by increasing taxation and not by decreasing expenditures. The economy bill shaved hardly more than \$160,000,000 from the costs of the federal government.

Perhaps it is a little late to cry over spilt milk. Nevertheless, the next Congress would be well advised if it insisted on a far more drastic cut in government expenditures than the current bill calls for.

McAdoo Returns as King-Maker and Garner Is 'In'

McAdoo returns and plain "Jack" Garner, farmer speaker shown at left, was nominated vice president of the democratic party. Garner is shown working on his ranch, harvesting. In the inset, the Garner of 30 years ago is shown from a picture on his campaign button when, as a young farmer, he rode out of the champaign down in South Texas to campaign for a seat in congress. Below is Garner (left) conferring with McAdoo, wartime secretary of the treasury, who directed Garner's campaign at Chicago for the presidential nomination. Garner's spacious farm home at Uvalde is pictured in the upper right.

LETTERS to the EDITOR

H. R. 11267

This is not a state's prison number. It could be an still not leave much to the imagination. It designates an act showing how, but not why, the government at Washington pays its help. Personally I would rather know "how" than "why". The "whys" are pretty important these days. They save money. The "hows" don't in a private business it is the "whys" that counts when it comes to economy. If private business doesn't do any business it don't hire any help. It fires all but the watchman. But the government, looks for a few extra hands during bad times. But on July 5, the day after the celebration, the house, for the fourth time, refused to pay for the killing of the grasshopper. Has turned down a meritorious bill, one that would save crops for the hard pressed farmer, and has retained salaries, many of which appear to be in proportion amounting to \$118,500.00 in one department alone, that of Secretary of the Senate. There are many other departments each costing millions of dollars more, and that is what is keeping all of us on the anxious seat. Anxious because our governmental expenses are not brought down to where we can handle them and where we have to spend a lot of time trying to understand what the majority of them mean. Our governing expenses are one of the things that we should be looking at. Just look at some of them—"chief clerk who shall perform the duties of reading clerk, \$5,000.00 and \$1,000.00 additional so long as the position is held by the present incumbent."—financial clerk, \$5,000.00 and \$1,000.00 additional so long as the position is held by the present incumbent." And so on through page after page of this bill which carries the euphemistic state's prison number 11267. The Senate and the House spend a lot of time in expending millions of dollars to their clerks whose services are not worth what they get and will turn around and back-heel a bill four times that price for the killing of grasshoppers that destroy millions of dollars worth of eatables. It would be better for the country if the grasshoppers could be taught to run the government and the officeholders turned out to eat the grass. There is just as much sense to that idea as there is to the plan to pay stenographers to committees \$7,000.00 a year and official reporters of the proceedings and debates of the House, \$7,500.00 a year. \$8,000.00 per year seems to be the highest pay and \$1,400.00 the lowest, but how the bulk of the figures hang around \$2,360.00 to \$3,300.00. That, as I understand it, means by the year, but with only about six months or possibly eight months actual working time. The rest of the time can be devoted to going fishing if the humble incumbent of the job deems that is the best way to keep in good and healthy condition. Another little thing that comes to the top of one's understanding is the apparent number of clerks that do a little of each other's work. Sort o' double up on each other. Take a private concern handling this kind of work apart from this treatise, runs rife; it's all over the place. It spoils patriotism and ruins up the work. Further, it makes the even tenor of our country by producing a condition that is not immune to graft, and let anyone get his or her hands on government accounts, led by any other kind of work. It strikes in and it sticks unscathed but once it gets in the blood. In the majority of cases, it takes dynamic to blast it out. In this part of the country we do not know just how these many cases are handled but one thing we do know and that is our business men have accounts. They are the abnormal cost of doing a big business where the work is so largely a matter of duplication. It is duplication here and there and there and duplication everywhere until it is not surprising that the government has to get out a digest of jobs and costs of jobs in order to find out how much it is paying for. It is not surprising that the government has to get out a digest of jobs and costs of jobs in order to find out how much it is paying for.

Round of Entertainment Honors Sterling City Visitor of Miss Martha L. Nobles; Six Parties Given Over the Week Ending

Honoring her guest, Miss Virginia McIntyre of Sterling City, Miss Martha Louise Nobles entertained with a three-table bridge party at the home of her parents Thursday afternoon.

A color scheme of pink and white was carried out in decorations and refreshments.

Miss McIntyre received high cut prize and was given a guest prize. School mates of Miss Nobles were included in the guest list.

Swimming and Picnic Supper

Pagoda pool was an animated scene Friday afternoon when Miss Nobles entertained with a swimming party for Miss McIntyre.

After the party the guests returned to the Nobles home for a picnic supper and informal party.

Honor Guest at Scharbauer Dance

Miss McIntyre was honor guest at a dance given by Miss Nobles at Hotel Scharbauer Friday evening.

The ballroom was decorated with cut flowers and ferns. The Prairie Nightingales furnished the music.

Miss Nobles' guests were her school mates and their dates. Fifty young people attended.

Chaperones were Messers, and Misses Elliott Cowden, M. C. Ulmer, Clarence Scharbauer, Homer Rowe, Clifford Hill and Miss Nobles' parents, Mr. and Mrs. John M. Nobles.

The wedding will be solemnized at the home of the bride's parents on Friday evening, July 22.

Methodist Women Attend Zone Meeting Friday

Members of the women's auxiliary of the First Methodist church presented a play at the zone meeting which was held in Big Lake Friday.

Characters in the play, "Modernizing the Young Mrs. Patton," were Misses J. S. Noland, Jess Rhoden, Otis Ligon, Harvey Powledge, L. B. Hankins and C. L. Hafer. The Rev. Edwin C. Calhoun also attended the session.

Heart Drama Work Of Famed Novelist

It is an axiom among motion picture producers that a Fannie Hurst story is sure box-office material.

Certainly, it is true that her books attain a circulation into the hundreds of thousands and that the films made from these achieve a high order of artistic merit.

Miss Hurst rarely writes directly for the screen, contenting herself with her own particular medium—the novel. However, she considered a recent story idea of hers so well adapted for the screen that she wrote it especially for that purpose.

This story is RKO-Radio Pictures' "Symphony of Six Million," now showing at the Grand theatre with Ricardo Cortez and Irene Dunne co-featured.

An Intimate Drama

Like her rivals the film is an intimate, almost clinical insight into the hopes and disillusionments, the pains and joys of a great slice of the American people. It tells the story of an East Side New York youth who becomes fired with the zeal to heal the mental and physical wounds of his people.

He becomes a doctor who devotes his great talents to ministering to his people without any pay until the stress of economics and an ambitious family drive him to rich Park Avenue. A beautiful romance with a teacher in the Ghetto gives the picture the fine feeling prevalent in all works by this author.

In support of Miss Dunne and Cortez appears one of the most distinguished casts seen in pictures. Anna Appel, for thirteen years a star of the Yiddish Art Theatre, plays the role of Cortez' mother and the father is portrayed by Gregory Ratoff, himself a distinguished Yiddish Art Theatre star.

The son and sister are played by Noel Madison and Lita Chevrel, while Helen Freeman, plays the part of a nurse.

When Sun Shines, So Do the Stars

HOLLYWOOD—When the last scene has been shot and Hollywood faces the sun instead of the camera, she doesn't sacrifice any of her style. The stars are going outdoors, and doing it in costumes that are every bit as striking and glamorous as those that they wear when they are pretending they are somebody else.

There is a certain debonair charm and dash about their play clothes that give plenty of room for action without hampering their style in the least.

Estelle Taylor knows that dark hair and eyes say twice as much when they have a bright color to add a lively sports touch. She lounges around the beach, or sits on the deck in brief black trunks that are topped by a huge bandana handkerchief that fastens around her neck.

Simplicity for the Links

Lines that are so simple they are almost severe are Irene Dunne's choice for golf clothes. She goes around very effectively in white sports skirt, worn with a dark sweater that is belted, and a knitted beret that matches, looking quite like any co-ed might on any campus.

There is a little more drama to the beach togs that are preferred by Betty Boyd and Maxine Cantway. Betty wears a glorified pair of pajamas which have a long slit in the right trouser that doesn't interfere with any race she may enter along the western beaches. There is a dot so huge and so gray that it would be too startling for anything but a pair of pajamas. The suit, made with a bodice ef-

Helpful Health Suggestions

TYPHOID FEVER—A National disgrace and an unnecessary evil. July marks the beginning of the "open season" for typhoid fever. Seventy-five per cent of all typhoid comes in the last six months of the year.

Typhoid fever is a communicable disease, spread through the careless disposal of wastes from the human body.

Compared with other communicable diseases, typhoid fever is readily preventable. Yet practically every year there are from one to five typhoid fever epidemics in Texas, involving five to fifty cases and there are always some deaths.

The economic loss annually due to typhoid in the United States is estimated to be more than one hundred million dollars.

Ordinarily the typhoid germ does not grow and multiply outside the human body.

In water, soil, sewage, or liquid wastes in outdoor tanks or cesspools, the typhoid germs do not multiply but tend to die out after a few days or weeks. They may survive as long as a year, however, so mere time should not be depended upon for sterilization.

Milk, in contrast to most substances, allows typhoid germs to multiply rapidly. For this reason, great care should be exercised in handling milk.

Typhoid germs, as compared with other disease germs, are easy to kill. Boiling will kill any typhoid germs contained in water, while heating milk as in pasteurization to 145 degrees F. and holding at that temperature for thirty minutes will kill typhoid germs, if present in the milk. Freezing, on the other hand, will not kill them.

Prevention of typhoid depends upon (1) increasing the individual's resistance, (2) disposing of human wastes properly, (3) protecting our food and drink.

These measures will be discussed in a second article on typhoid fever.

"Letty Lynton," Ultra-Modern Drama with Crawford, Montgomery at Yucca Today

ROBERT MONTGOMERY AND JOAN CRAWFORD in "LETTY LYNTON"

"Letty Lynton," sensational drama of modern society and its reckless diversions, with Joan Crawford and Robert Montgomery teamed in the principal roles, is the attraction opening today at the Yucca theatre. Adapted from Marie Belloc Lowndes' famous novel, the film presents an amazing picture of modern life. Its locales range from the colorful trop-

ics charm of South America to the night life of New York with a spectacular sequence played on a great ocean liner.

The stars are supported by a strong cast including Nils Asther, remembered for his work opposite Greta Garbo in silent films; the popular character actor, Lewis Stone and others.

CAMERA PIERCES FOG LONDON—London's famous fog, the bane of pedestrians and motorists, has finally been seen through by a camera. By the manufacturer of photographic plates sensitive to infra-red rays, pictures have been taken through this fog that are remarkable for detail.

**"—I Am a Member of the '400' ..
the Elite of the Merchandising World ..
A NATIONALLY ADVERTISED PRODUCT!"**

LOTS OF PEOPLE think it is easy to become—and remain—a nationally advertised product. It is easy enough to become a nationally advertised product, but it is hard to remain one. Your performance has to be absolutely above reproach, if you stand up under the pitiless spotlight of publicity. Even if my manufacturer wanted to skimp on the cost of my production, he couldn't afford to do it. When he set my label up in the focus of the advertising searchlight, he automatically put his name up as sponsor for what I would and could do.

"If I should fall down in performance, the good name of my maker as well as my own trade name would suffer. I have to measure up to the demands of my most critical user.

"There is a certain satisfaction in being met by smiles of welcome and recognition from every shopper that passes my shelf, counter or display space, but there is a decided price that my manufacturer has to pay for this prestige.

"Not only while in the display case, but after I have gone home with the shopper, I must be ever mindful of my responsibility. I must do my work so well that the shopper will be more eager than ever to secure a duplicate

package of me when I have finished my service. If I fail, then the very advertising which built for me such prestige will prove my undoing.

"Sometimes I almost envy the little off-brand products . . . would-be 'climbers' in the shopping world . . . that try to sneak in among the nationally advertised products and look like they 'belonged' and were one of us. Their smirking packages and labels try to hide the fact that they are conscious of their own brazenness . . . but to no avail. If they stopped to think a moment they would realize that there were no labels or package goods until advertising came in to create the nobility of the merchandising world. Before that time, everything was bought and sold in bulk.

"These tawdry make-shifts have no proud heritage like mine. They are industrial waifs and foundlings, packed and prepared in unknown factories. Their maker is probably just as happy that he is unknown. He can thereby dodge responsibility in case of failure. No wonder he doesn't advertise them. As I said before, 'It is easy to become a nationally advertised product but it is hard to remain one.'

"The very fact, of course, that these snides are seen in our company reflects a little of our prestige on them, and occasionally they go home

with some less discriminating shopper. They don't stay long. They can't live up to the standards which we nationally advertised products have installed. The shopper discovers the penalty of her carelessness, to her sorrow. I feel so sorry for those shoppers. If they had only stopped to think a moment they would never have permitted the wool to be pulled over their eyes in that manner.

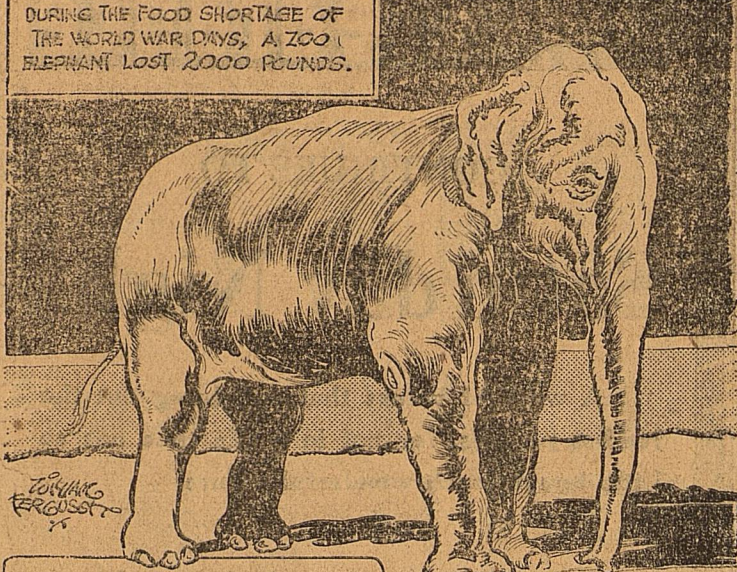

"Sometimes we hear an unconscientious salesman make the statement: 'This unknown is just as good, and it's cheaper.' When he says 'just as good,' he admits that the highest yardstick by which these little fakers can be measured is the nationally advertised product, and I am surprised that the shopper does not resent the implication that she would be satisfied with anything but the best. As for being 'cheaper,' how can you tell whether a thing is cheap, if you do not know what it is, who made it or what it will do?

"Sometimes, as I said, I get provoked at seeing good friends of mine duped by these substitutes, but I, at least, have the satisfaction of knowing that it will only be a short time until they come back for me, sold more strongly than ever that national advertising is the shoppers' best guarantee of satisfaction."

COULD LOSE GAMES THIS WEEK TO UNITED MONDAY AND ELECTRICIANS THURSDAY AND STILL COP PENNANT

With only two remaining soft ball games on its schedule for the first half, Midland Hardware stands no mathematical chance of losing its pretty orange shirts to any other club—even if it drops those two games.

Both games are hoped to be tests, however. The boys of Luke Tidwell have not cracked this season, having dropped but a single game, but anyone will admit that a club having to play both the United and Texas Electric boys in the same week is not riding a gravy train.

The United club will play the Nail Sackers Monday night, and the hard hitting Electricians bump into the leaders Thursday. The Hardware will be out plenty safe in the lead for first-half honors—whatever happens.

The showing of the Hardware has been one of the principal surprises of the season. Strong at the bat, yet having less power there than the Texas Electric, the club simply wins with monotonous ease on its almost perfect defensive game, good pitching of Joe Pyron, and general heads-up ball game is not to get the idea the club cannot hit—far from it; but it does not consistently throw such a fright into rival pitchers as does the Electric club of Andy Northington.

Balance is the secret, if there's a single secret outstanding, of the Hardware performance. The infield works as smoothly as though it were mechanical, and the outfield is fast and rangy and airtight. Pyron hurls steadily this season and has not allowed his well known temperament to explode in the form of throwing umpires and sportswriters off the diamond. Despite the mechanical play of his infield and outfield, he gets all the verbal support possible behind him. This esprit de corps has reflected itself in his turning in two shut-out games this season.

Remarkably different is this Hardware club from last year's winners. In the first half of the past year, Texas Electric had no trouble in winning games. It was only an average club save for its pitcher—the phenomenal Mr. Leon Chewing. This young man had only to step into the pitcher's box to win a game. What he put on the ball must have been what Lucrezia Borgia put in the wine of her victims, for batsmen were mowed down as fast as Chewing wanted to throw the ball. His delivery was nearly perfect—fast, the ball rising or dropping or curving, just as he liked—and the ut-

most control at all moments. Scruggs Buick company used him the last half, and the Electric dropped out of the picture, just as Scruggs had the first half without him.

This year it is totally different. Several clubs have got to the Hardware pitcher, not enough to hurt him or even scare him badly, it's true, but have found him lacking in invincibility at any rate. But the polished infield and outfield of the Tidwell boys has been so unsurpassingly great in comparison with all other clubs, and the hitting has been so uniform, that Hardware has shown itself as a whole a much greater club than any ever to take the field in the Nocturne league since its organization.

So—whatever United Dry Goods or Texas Electric does this week—if they win two games each and Hardware drops two, there will still be a margin of one game for Hardware, a testimonial, when all things are considered, to some mighty good ball playing.

TESCO AND UNITED CROWD SECOND RUNG; ELECTRICS, HOKUS WIN GOES FRIDAY NIGHT; ERRORS PLAY PARTS

Hokus-Pokus leads the second division in the Nocturne league over the week-end by virtue of its win Friday evening over Petroleum Drug, which had been deadlocked with the Merchants for the place. The score was 6-5.

Seven errors cost the decision for the Druggists, their opposition making only one.

Texas Electric went once more into a tie for second place, by taking a 7-5 decision over Bell Telephone. It shares the crowded rung with United Dry Goods company. Errors turned the tide in this game, also, the Phonemen making five.

Stevens and Heath hit for the circuit in the last game. Hokus-Pokus and the Druggists were tied up until the last of the seventh, when Lewellen hit to center field and utility tried to throw him out at third, musing up the play and allowing the fast baserunner to score the winning run on an error.

Ball Player and Girl Who Shot Him

Like the good infielder that he is, Bill Jurgis, shortstop for the Chicago Cubs, made a couple of spectacular stops of bullets, but the error of the play was he charged to Miss Violet Popovich, 21-year-old Chicago brunet. Disappointed at Jurgis' lack of response to her affection for him, Miss Popovich went to his hotel room intent on suicide. Jurgis intervened and was shot. He is shown above on a hospital bed. The girl is at the right.

Soviet Passes Protection Law

MOSCOW, (UP).—Two years in prison will be imposed here upon persons wilfully killing, or maiming, horses, under a law just promulgated. The disablement, or killing, of horses has been a favorite form of sabotage with official policies. In some regions, where horse meat is the traditional food, peasants and slaughter horses for food, despite the need for draught animals. The law is calculated to overcome both these tendencies.

Hoover City Is A Box Car Town

HOUSTON (UP)—Hoover City has come into being on the outskirts of Houston and will remain there until a switch engine comes along and removes it. Hoover City, consisting of some 15 or 20 freight cars in an off-shoot of the Ship Channel railroad yards, was established, named, and is run by jobless seamen. They picked out the best looking box car and designated it the city hall. On the side they lettered "Hoover City, Welcome. Free beds for all but no food, thanks to Hoover." John Jones, an able-bodied seaman has been "on the beach" for months as mayor. Milton Stafford is treasurer, although the Hoover City council has nothing to treasurer. Mayor Jones said the occupation of all residents is the same: looking for work.

NEWLYWEDS RETURN

Mr. and Mrs. Delo Douglas returned from Tyler late Friday to make their home here after their marriage Tuesday morning at Tyler.

TICKET WINNERS

Home run hitters for the past week, each of whom will receive a free pass to the Yucca theatre through the courtesy of John Bonner, manager, were announced Saturday by Scorer Rountree as: Joe Pierce, Cecil Pope, Leslie Stevens and Wade Heath. They were the only ones to connect for the circuit last week. Rountree will tabulate the 10 leading batters for the week in Monday's paper. Bonner also gives a pass to these four clubs.

READY FOR BLOWOUT

EL PASO—Nicolas Nevarez was planning a big party when he got back to the United States. He filled two spare tires with 47 pint bottles of liquor. Only the keen eyes of Luis de la Rosa, Juarez customs officer, prevent the whiskey reaching the United States. He noticed the suspicious bulge in Nicolas' tires as the car started across a border bridge.

Trim new-comer to the trans-Atlantic sea lanes, the White Star Line's 27,000-ton passenger ship Georgic is pictured above in New York harbor at the end of her maiden voyage from England. She's Britain's largest cabin liner, with accommodations for 1636 passengers.

BUSHERS TAKE PENWELL HERE; 2 CLUBS LEAVE

The Busher ball club plays Penwell at the Mexican diamond in East Side this afternoon, beginning at 3 o'clock.

Sam Warren, heavy hitting first baseman of the town club, will be missed, but Cook will play first in his stead. Joe Pyron also will be missed. Girdley is back, however, and will give support where it is needed.

Penwell beat Midland 8-4 in the last meeting of the two clubs.

Both the other Midland clubs, the Mexicans and the Farmers, will go to Big Spring for games.

CROWD EXPECTED

"Everybody ought to have it, who does not have sewerage." That is a statement many persons have made since seeing the model of the sanitary pit toilet being exhibited by Miss Martha Bredemeier in the chamber of commerce window. A large crowd is expected Thursday to see a demonstration construction of the model toilet.

The demonstration model will be built at a point about 12 blocks east of the depot and a half block south of the railroad. It will be built on land owned by Clarence Schrabauer, who is financing construction. Where farmers and ranchers have scrap lumber, the sanitary pit toilet can be built for less than \$5. The only necessary cash outlay would be for cement.

Building of these toilets at all homes in the town or country where sewer system connection is not available might prevent a scourge in Midland county, the health nurse says.

RETURNS FROM N. M.

Otis Palm returned Friday from a month's visit to Albuquerque.

Transportation of Congress members is said to cost the United States about \$175,000 annually.
