Pecos Turns Down Midland's Offer to Play Game Here

150 MINERS REPORTED TRAPPED IN OHIO COAL MINE BLAST

RESCUERS ARE BUSY AT SCENE

Ignition of Gas Is Believed to Be Responsible

ATHENS, Ohio, Nov. 5. (AP)—More than 150 miners were reported trapped today when an explosion and fire wrecked the shaft of the Sunday Creek Coal company at Millfield near here.

The day shift of 300 was at work in the mine. Approximately half of this number reached the surface. The remainder is reported to be trapped behind the wall of flame. Smoke and flames hampered rescuers.

It is believed the explosion was caused by the ignition of a gas pocket.

The miners were at the 200-foot level when the noise of the explosion was heard and gas and smoke volume head was seen at the mouth of the shaft.

Rescue equipment was summoned from nearby cities.

W. E. Titus, president of the mine, is listed among those trapped.

Yonge President Of Midland Lions

By Harry L. Haight
The Lions were today entertained by Horace Woodruff in two baritone selections and by Lion Walter Elkin on the saxophone in an old Irish song and the ever new "Love's old sweet song." Both were accompanied at the piano by Lillie B. the Lions sweetheart. Lion Marvin Ulmer gave a short and intelligent talk on the business depression which held the close attention of the members right to the end. Officers elected today, made necessary by the departure of Leslie Boone, were Charles Yonge, President, M. M. Seymour, First Vice-President, Harry L. Haight, Second Vice-President. The attendance today was again up to the standard. Several new projects will be brought before the club next week.

Potash Survey to Be Completed Soon

Early completion of a survey and report on potash in Midland and other counties in West Texas and Eastern New Mexico is promised by Burt C. Blanton, consulting engineer of Dallas, who was in Midland recently gathering data.

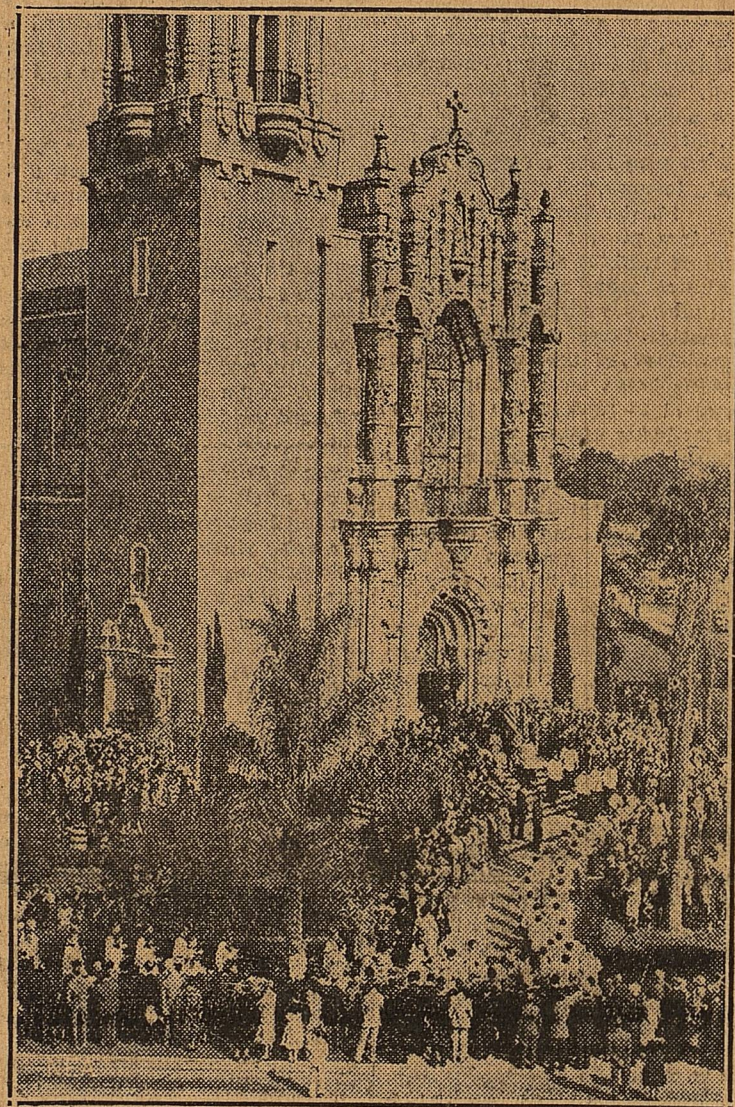

The account of Blanton's work as chronicled by the Dallas News follows:

A survey and report on the present status and commercial potentialities of the potash industry in West Texas and Southeast New Mexico, which is being made under contract for financial interests by Burt C. Blanton, consulting industrial engineer of Dallas, has been practically completed.

Mr. Blanton's investigations have embraced an extensive field, including present operations and development of the two enterprises now engaged in preliminary projects ultimately to result in the mining of potassium minerals in this region. These advanced projects are those of the United States Potash company, which is now sinking a shaft in the extreme east central portion of Eddy county, New Mexico; and diamond drill core tests, preliminary to a shaft location, which have been made in the southwestern portion of Midland county, Texas, by the Texas Potash corporation.

The survey and reports presents a complete resume of reconnaissance and exploitation work for potash, which has been conducted over the period of the last decade by public and private interests, together with (See POTASH page 6)

\$1,500,000 Church Is Consecrated

Erected at a cost of \$1,500,000, given by E. L. Doheny, multimillionaire oil magnate, the church of St. Vincent de Paul was consecrated in Los Angeles in what was considered the most elaborate ceremony of the Catholic church ever seen on the west coast. Cardinal Hayes of New York was in charge of the rites; this picture shows the overflow crowds about the front of the church during the ceremony.

Local News Briefs

NEW PHARMACIST
Marvin Senter of Plainview has joined the Red Cross pharmacy as prescription clerk. He was in Plainview for several years.

NEW MOTOR TRANSPORT
Motor transport service between all towns served by the Texas & Pacific became effective Sunday, according to Station Agent J. J. Hamlett. Hitherto the service has been given only between Midland and eastern stations.

POSTOFFICE FLOOR Poured
Pouring of the floor slab for the new postoffice is being done today, and the roof has been completed.

The building will be completed by Dec. 1, possibly sooner, Dr. John B. Thomas, who has a lease contract with the government, said.

THANKS SPORTSMANSHIP
Expressions of appreciation for the manner in which Midland treated Wink last Saturday when the Wink county town was here for a football game with the Midland high school have been received here from Supt. Lang of the Wink high school. He praised the Midland spirit and said that Wink feels defeat less when losing to a team of such patient sportsmanship.

NEGRO JAILED TODAY
Sonnie Sneed, negro, was released from jail today following his payment of a \$25 fine for beating a negro woman. It was reported the negro broke into her home and started a fight. The woman, it was reported, is a school teacher.

MOVES TO MIDLAND
John Thornton, GMAC representative of the El Paso zone, has moved with his wife and young child to Midland, where he will make his headquarters. He works a district that extends from Big Spring on the east to El Paso on the west.

FOOTBALL PARTY TONIGHT
Acceptances from the Midland, Odessa and Stanton football squads to see last year's All-American football teams play on the screen and how the Odessa and Midland squads fought at their last clash, have been received by Manager John Bonner, who is host to the boys tonight at the Ritz theatre at 7:45.

MIDLAND HORSE WINS
Foreign Relations, Midland horse that belongs to George Buchanan of the Buchanan-Bloss stables, won second in a six-furlong race at Arlington Downs yesterday, according to information received here. The horse, one of the fastest distance horses in the state, had a notable run of wins recently. Other horses of the Midland stables will be seen on the track during the racing season at the Downs.

Midland Broadcast
Between 11 and 12 o'clock tonight, Radio Station WBAP of the Fort Worth Star-Telegram and Record-Telegram, will broadcast Midland data. Many radio fans plan to listen in.

Williamson Speaks
"Coke" Williamson, brother of the assistant scout executive, Marcos J. Williamson, here, will address the two-day session of the West Texas seminar at San Angelo on "Publicity That Educates." The meeting begins on Saturday.

Sheriff Kills Cuckoo Gangster

ST. LOUIS, Nov. 5. (AP)—Sheriff Al Lill of St. Louis county shot and killed James Dormondy, 22, cuckoo gangster, after searching the gangster and taking a pistol from him which the gangster then attempted to retrieve. A scuffle followed, the gun being discharged.

WILL PAY MIDLAND HUNDRED

Lackey Offered Pecos \$400 to Meet on Local Field

Midland could not land the Armistice day football game with Pecos.

Midland will go to Pecos on that date, Superintendent W. W. Lackey telephoned at noon today from Pecos. He and Principal D. D. Shiflett went there this morning to continue negotiations started Monday morning by telephone.

"We offered Pecos \$400 to come here for the game," the superintendent said. "This was refused. Pecos offered us \$100 to come there. We asked that \$200 be paid us, or half the amount we would pay to get the Reeves county team to play in our grassy field. Neither proposal was accepted."

"Midland will go to Pecos and play that club for nothing if necessary. We offered Pecos four hundred dollars to come here because we knew it would cost a big sum to go so far from home to play, and because we realize Pecos could not afford to pay Midland as much to go there as Midland could pay Pecos to come here. The accommodations in the high school park at Midland are such as to draw a much larger crowd. Both clubs could have benefited much more by playing in Midland than in Pecos."

Since Monday, when it was learned that Midland would offer Pecos \$400 to come here, it was deemed fairly probable that the proposal would be accepted. The rejection today came as a distinct surprise.

Lead Cap Set as Fuhrman Plugs Back

Plugging back from the depth of 4,612-14 where water was encountered, the Fuhrman Petroleum Corporation No. 1 Ford, in southern Andrews county, is preparing to shoot within the next few days.

After plugging with lead and wool and setting a lead cap, the hole was balled testing for water, finding none, the well making 90 barrels of oil in six hours.

About 20 feet of cement will be set in the hole above the lead plug, it was reported here today, after which the hole will be shot to see if greater pay in a higher strata can be found.

Stanton Druggist Builds New Store

STANTON, Oct. 5.—J. L. Hall, pioneer druggist of Stanton, will erect a modern building to house his business after operating in the same location for 25 years.

The building will be near the Bankhead highway on St. Anne street. Hall, for years the leading figure in civic activities in Stanton, again comes to the front with the announcement of this new structure, which will help the employment situation here.

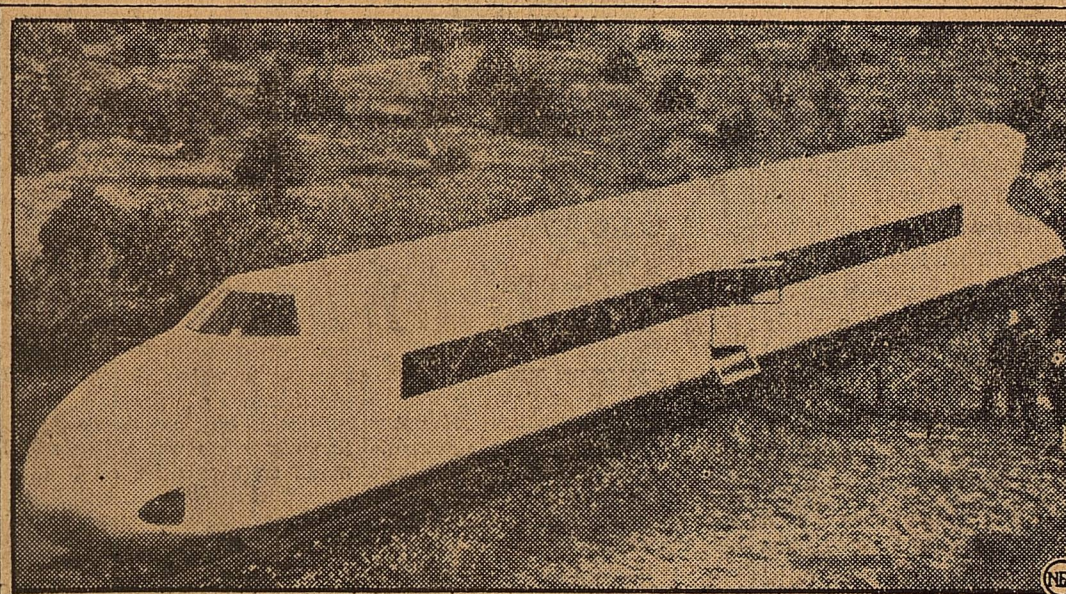

Concrete Contracts To Be Awarded

Contract for construction of concrete walks around the court yard will be let by the commissioners court this afternoon, according to County Judge M. R. Hill.

Contract for other concrete walks, specifically those that lead from the outside walks to the new court house, will be let Thursday. The walks are to be eight feet wide. Old walks were torn away a few weeks ago.

There will be three or four bidders for the contracts, the county judge said.

"Dirigible on Wheels"

The swiftest of railway vehicles, this whale-like "omnibus-dirigible"—driven by the propeller of an airplane motor—traveled 100 miles an hour in a test run over disused tracks near Hanover, Germany, recently. The inventors have pointed out that a fleet of these coaches, traveling fifteen minutes apart, would give passenger service equal to the slower steam and electric trains now in use and speed almost equal to air transportation. The strange, silver-gray car has both automobile and railway brakes, is 85 feet long, weighs 20 tons, and has room for 40 passengers in parlor car seats. Note that the entry vestibule is in the center. There is a smoking room, a non-smoking room and a baggage section.

NEW PASTOR OF METHODISTS MAY ARRIVE TONIGHT

The Reverend Edwin Calhoun, new pastor of the First Methodist church here, is expected to arrive any hour from Pearsall, his former residence, it was reported here today. It is announced that prayer meeting will be held tonight, W. I. Pratt leading, and that the pastor may be here for the service.

In a letter to The Reporter-Telegram, W. C. Fancher, editor of the Pearsall Leader, pays glowing tribute to Midland's new Methodist pastor. "Your good fortune is our misfortune," he wrote, "and you are getting one of the finest young pastors in the West Texas conference."

He describes Calhoun as being a "live wire, active in chamber of commerce, boy scout, lodge and general civic work."

Prior to his departure from Pearsall, the Rev. Calhoun was the honor guest of a chamber of commerce luncheon, being presented with a valuable gift, and of a similar honor from the Masonic lodge. "We commend Midland on having secured the services of a jam-up good Methodist preacher, a good worker for any cause that will benefit the town in which he lives, and an all-round bully good fellow—all wrapped up in one man," the Pearsall editor said in his latest paper.

Stanton Building Several Houses

STANTON, Nov. 5.—Two new residences are under construction here. The depression does not seem to affect the building of homes and rental property. Claud Houston is building a brick veneer home and Mrs. A. W. Keisinger is building a modern rent house in West Stanton.

Eckener Elected Head of Society

BERLIN, Nov. 5. (AP)—Dr. Hugo Eckener, famous zeppelin expert and builder of dirigibles, was elected president of the Aero Arctic society today.

Methodist Conference Meeting at Houston

HOUSTON, Nov. 5. (UP)—South and east Texas Methodist preachers went into the 91st annual conference at St. Paul's church here today.

Bishop H. A. Boaz took the chair and began his yearly survey of Methodism in the conference.

Interpretation of "Hike" a New One; Men to Cook Food

The scoutmasters' school here has given a new twist to the meaning of "overnight hikes."

The men leave Thursday evening at 5:30 for a "hike" to a place near Stanton. They will ride in automobiles.

But they will cook their own food and put cockle burrs in each other's beds, along with such things as putting chewing gum between each other's toes and other things that are calculated to teach boy scouts a good example in the elders.

Marcos J. Williamson, assistant scout executive, has asked that everyone be on time for the "footsores" hike, and for them to park their cars between the white lines before the city hall before 5:30.

FORMER CHIEF OF POLICE FILES APPEAL MOTION

Formal notice of appeal was given and bond made Tuesday by King Reed, former Midland chief of police, from a three-year sentence following conviction in the slaying of J. C. Holcombe, Midland night watchman.

The notice was filed after Reed's motion for a new trial was denied in district court by Judge Fritz R. Smith. Reed was convicted last week.

Sinclair Lewis Gets Nobel Award

STOCKHOLM, Sweden, Nov. 5. (AP)—Sinclair Lewis, American author, was voted the Nobel prize in literature for 1930.

The award this year is worth \$46,350.

DORNIER FLYING BOAT DO-X MAKES UNEVENTFUL FLIGHT ON FIRST LEG OF FLIGHT THAT ENDS IN THE U. S.

AMSTERDAM, Nov. 5. (AP)—The huge Dornier flying boat DO-X arrived at 11:50 this morning, eastern time, five hours and 23 minutes after leaving Alterheim, Switzerland, on the first leg of the projected trans-Atlantic flight to the United States via Lisbon, Portugal, and the Azores. The flight was uneventful.

INVESTIGATION OF OIL SUIT IS CONTINUED TODAY

AUSTIN, Nov. 5. (UP)—Investigation of the million dollar settlement of a suit of the University of Texas against the Reagan Purchasing company and others for an accounting on oil from wells on University land in Reagan county was continued today before the legislative committee here. The question was whether the wells had been sunk in the required time after issuance of exploration permits.

Two Join Army Personnel Here

Sgt. Tony Bauer and Private Ralph Snyder arrived at Sloan field this morning to join the army personnel there. Both are from Ft. Crockett.

Two other men, mechanics, will be detailed to Midland, Bauer said, making the total here seven. Bauer will be in charge of the army men. He is married and has one child, a seven-months-old girl.

Mules in Dreams Tatom's Weakness

Clate Tatom had worse than a nightmare a few nights ago, his friends accuse; he had a mule mare.

Tatom used to work on a ranch not far from Midland. He drove three red mules and a gray one. One of the mules, the off-colored mare, developed a habit of being stubborn. So keenly did Tatom resent this that, when he dreamed about the mule the other night, he decided to take a kick at the jaw of the stubborn one.

Now he is gingerly walking about with a toe wrapped in bandages, his friends say, and telling about how hard the corner of a door in his home is.

VOTE HERE TUESDAY IS APATHETIC

Precinct 2 Is Only Active Race in This County

DALLAS, Nov. 5. (AP)—Texas democrats yesterday elected all their candidates for state office by the usual overwhelming majority, retaining 17 congressional seats but failing in efforts to unseat Harry M. Wurzbach, of Seguin, Texas' only republican congressman.

Voters apparently endorsed all of the five constitutional amendments. The vote was the lightest since the general election in 1926. Texas election bureau officials estimated that no more than 300,000 votes were cast. Republicans did not obtain the 100,000 votes necessary to hold a primary two years hence.

Senator Morris Sheppard of Arkansas, author of the eighteenth amendment, was returned with a top-heavy majority. Hidalgo county elections were quiet, with state raters polling. Races were reported close between democrats and the good government league.

Stirling Easy Winner
The vote from 160 counties of the 253, with nine complete, showed for governor, Sterling 120,763, Talbot 25,952. The legislative term amendment, for 67,701, against 27,339. The legislative salaries amendment, for 62,474, against 34,732. The supreme court amendment, for 73,544, against 25,329. The university investment amendment for 65,900, against 31,409. The university land tax amendment, for 69,109, against 28,782. In the fourteenth congressional district, Wurzbach had 17,925 and Dellmann 13,112.

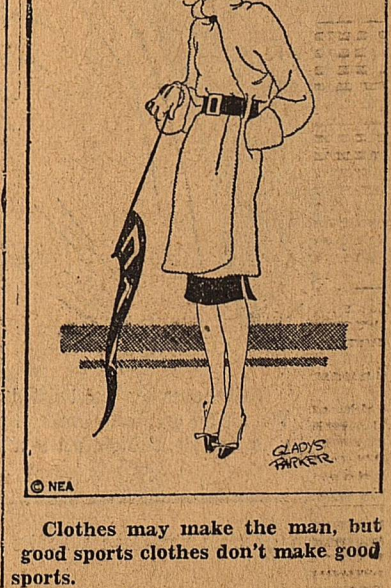

Vote Light Here
Although the total number of votes cast in precincts 2, 3 and 4, Midland county, had not been reported, it was found that only 371 voters went to the polls in precinct number one here yesterday in the general election.

Count on the total vote for the county will be taken Monday when the commissioners' court meets.

Election officials said today that Midland voters, for the most part, supported the state constitutional amendments.

The only heated race was in precinct number two where, it was reported here today, L. M. Estes, Democratic nominee, who received his nomination by the flip of a coin after he had been tied in the race by J. T. Bell, receiving 53 votes in the (See ELECTION page 6)

"NO ONE IS GOING TO FREEZE"

The executive director of the National Association of Community Chests and Councils makes the cheering prediction that "nobody is going to freeze or starve to death this winter."

One may say this without in any way criticizing the welfare agencies, for the depression has given them an exceedingly tough job, and they have done very well with it.

No one will freeze or starve. Well, what of it? This is not China. This is the world's richest and—we like to think—most progressive country.

In other words, this gentleman's remark—and this, undoubtedly, is the way he meant it—simply means that the groundwork has been done.

As a matter of fact, cold and hunger will cut a wide swath this winter. How many children will be weakened by under-nourishment? How many grown men and women will be worn into ill-health by poorly-heated homes and lack of sufficient food?

When you put down your answers to those questions you can begin to see how heavily those ancient curses, cold and hunger, are going to bear down on some sections of the American people during the next six months.

This is not said in criticism of the community chest welfare agency folk. On the contrary, it is said in the hope that American citizens will realize the seriousness of the problem which the business depression has created.

THE BEARS AND BULLS

The present agitation in favor of laws or other regulations which would curb the activities of short-sellers on the stock market is probably all to the good.

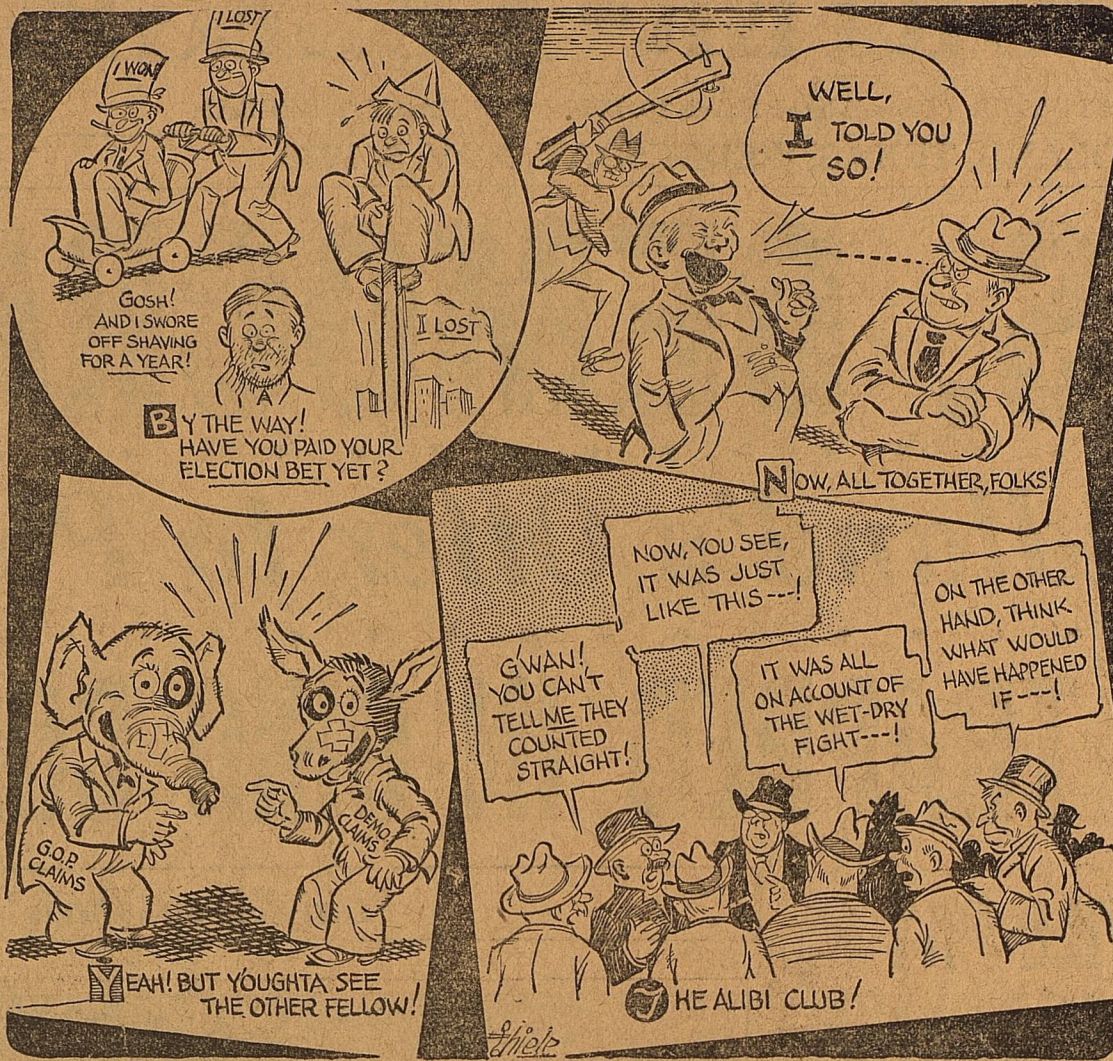

Last fall's stock market crash undoubtedly was hurried along by bears. But it will not do to lose sight of the fact that the crash came because stock prices had gone up out of all proportion to actual values.

STICKLERS

Post-Election-Mortems!

King of Abyssinia Reaches End of March to Power

By MILTON BRONNER NEA Service Writer

LONDON, Nov. 5.—On November 2 the Duke of Gloucester, representing King George of England, and delegations from other great European nations gathered in Addis Ababa, the capital of Abyssinia, to see the culminating point of a great historical, almost Biblical drama.

To say that the drama was almost Biblical is fitting, because the Queen of Sheba, who visited King Solomon in Palestine, is supposed to have been the monarch of Ethiopia or Abyssinia as it is variously called today.

Primitive in some ways, Abyssinia is nevertheless a country which has often impinged upon history. It is one of the oldest Christian countries in the world.

Modern Biblical Drama But the real modern Biblical drama began in September, 1916. Old King Menelik had died and had been succeeded to the throne by his grandson Lij Yasu. He was a scape-grace and he misruled his country.

Well Equipped Army But he kept his shrewd eyes open. He saw the beauties of machine guns and airplanes in case of trouble with any of the fractious

chiefs. Very quietly some of these inventions of the men of the west were shipped into Addis Ababa. Last March, Ras Tafari, once more back in his own country, ordered Ras Gugsa, the husband of the Empress, to suppress some rebellious mountain tribes near his territory.

Before the people of Abyssinia knew what was doing, he had marched a strong army into Gugsa's territory and gave that gentleman and his troops the surprise of their lives. They not only had to fight troops armed very much as they were themselves, but suddenly from the skies there swooped down on them airplanes piloted by Frenchmen who moved down the hostile forces by rapid machine gun fire.

Two days later the Empress died. Some whispered she had committed suicide. Others whispered Ras Tafari had had her put out of the way. The real truth seems to be that she was very ill of pneumonia and the news of her husband's misfortunes and death put the finishing touches to her.

At any rate, Ras Tafari at once acceded to the throne and at present at least there is none powerful enough to dispute his claims. The fact that a son of the great white King of England has come all the way to attend his coronation has added enormously to his prestige.

More Consumption Urged "All of this will result in consumption of more steel, copper, rubber, fabrics and materials of all kinds through greater use of automobiles, garages, roads, inns, camping paraphernalia and other things not numerous to mention.

DUCKHUNTERS DUCKED MIDDLETOWN, N. Y. (UP).—Three duck hunters at the Fallsburg Fishing and Boating Club were ducked in the lake when the recoil from a shotgun fired by one of them knocked them all overboard.

Daily Washington Letter By Rodney Dutcher

Five-Day Week Seems Probable as Democratic and Republican Leaders Join in Advocating Fewer Hours, Without Reduction in Wages, for Workingmen in America.

WASHINGTON, Nov. 5.—Aside from the political aspects of Mr. John J. Raskob's radio speech the other night, the most significant phase of the Democratic national chairman's utterances was that which found him lining up with Senator James Eli Watson of Indiana, the Senate's Republican floor leader, in favor of the five-day week.

The fact that a hard-headed capitalist of Raskob's type and a politician who admits he is a hard-boiled "reactionary" should come together on this important question might seem to indicate that the proposal of a five-day working week for American wage-earners need no longer be considered either radical or difficult of acceptance by industry.

Watson and Raskob each gave strong reasons for general adoption of the five-day week and each had a different reason, although primarily recommending it for the maintenance of prosperity and full employment.

"The five-day week, without reduction in wages, must become universal and permanent in America in order to prevent future business depressions and resulting unemployment," said Senator Watson. "Every man under the flag is entitled to a job. Government fails and falls unless all men have an equal opportunity to work."

Shorter Hours Needed Watson pointed to the displacement of 2,000,000 men by machines "within six years" and predicted that even after recovery from the present depression there would still be a great army of unemployed unless working hours were shortened.

Then along came Raskob with a national radio speech designed to meet the Republican contention that the Democrats had suggested no constructive program of their own to carry out in case they obtained control of Congress.

As his very first point he urged "the five-day week for workingmen, which means for all of us." Instead of dwelling on Watson's suggestion that shorter hours meant a wider distribution of jobs he development the theory of consumption of leisure which received considerable attention in the important report of the Committee on Recent Economic Changes.

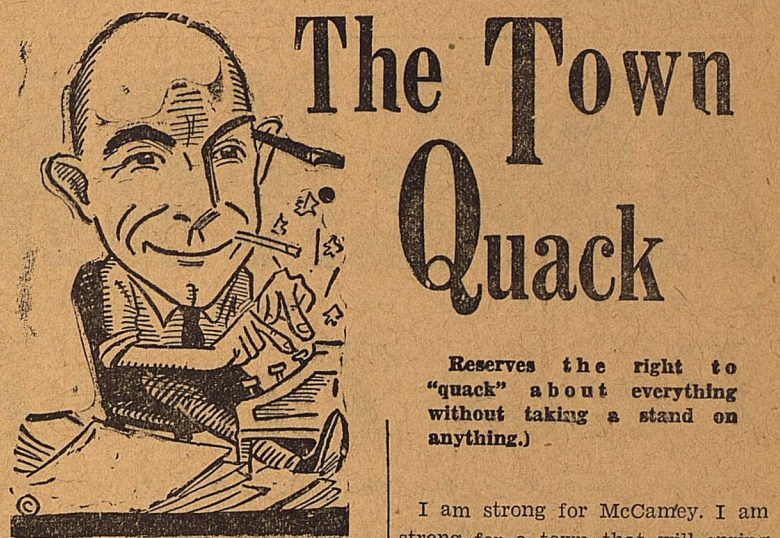

"The only way to increase production and provide work is to increase consumption," Raskob said. Given high wages and such facilities as installment selling, he explained, people had demonstrated that they would take advantage of opportunities to consume.

Leisure means recreation, he continued, and recreation means consumption. Recreational parties of all kinds would be organized as soon as the week's work was finished Friday afternoon. A man and his wife and kids would motor "to a watering place, the mountains or a camp" to enjoy the beauties of nature, God's sunlight, birds, trees, flowers, fish, healthy mental and physical development.

Leisure means recreation, he continued, and recreation means consumption. Recreational parties of all kinds would be organized as soon as the week's work was finished Friday afternoon. A man and his wife and kids would motor "to a watering place, the mountains or a camp" to enjoy the beauties of nature, God's sunlight, birds, trees, flowers, fish, healthy mental and physical development.

The Democratic party, he said, could advance general application of the five-day week by adopting it in government work and by declaring every Saturday a holiday.

Of course, Raskob, the ex-wizard of General Motors, still seems to be thinking in terms of automobiles. He might have added, as the Committee on Recent Economic Changes suggested, that increased leisure also increases the demand for books, sporting goods, bicycles, musical instruments, highball glasses, ice

Reserves the right to "quack" about everything without taking a stand on anything.

I am strong for McCamey. I am strong for a town that will spring up out of the alkali and build to a size that draws the admiration and envy of towns 50 years old all around it.

Now I want to say once and for all that I have a stand to take on something, in spite of my editorial or columnar policy and in spite of my reputation. I have formed an opinion. I'll admit I felt bad for a while but I am better now and am ready to voice it.

This McCamey ineligibility ruckus set me to thinking. You know a hit dog always howls and McCamey has been yelping plenty. On top of that the investigating or eligibility committee members were convinced that drastic action was necessary against McCamey and they took it.

cream and cake, swimming pools and plenty of other things that one can have without going to mountains or "watering places."

Nevertheless, the five-day week now seems a little nearer realization since Watson and Raskob have endorsed it—and the feature of the big week-end stressed by Raskob ought to help sell the idea.

GOLDEN SANDS

PANAMA CITY, R. P.—There's gold in them thar sands on the barren islands lying off the coast of Panama. The gold is in the form of guano, a fertilizer. The valuable commodity is found in huge quantities on these islands, and it is estimated that 200,000 tons of it are on the islands of Roncador and Serano. The guano deposits were discovered in 1869.

CHECKING PISA'S LEAN

ROME.—The celebrated Leaning Tower of Pisa is to stop its leaning. Engineers have found that it is increasing its inclining about a fourth of an inch every two years and plan to inject a hardening substance into the soil underneath it to arrest its top-tipping. In 1820 the tower leaned about 15 1-2 feet out of perpendicular. In 1910 this had increased to 16 1-2 feet.

The condition of the finger nails of tubercular patients is an index to the progress of the disease, according to a well-known physician. Pitted nails generally indicate the presence of the disease.

NAPOLEON SUFFERED FROM EPILEPSY

Many Of The World's Leaders Were Epileptics

New York, N. Y. The leading scientists and physicians have for sometime tried to discover the various causes and treatment of epilepsy.

During the recent world war a new method of treatment was used on thousands of sufferers with remarkable results. An interesting booklet describing this new treatment for epilepsy will be sent free to all people who are interested. It tells how fit attacks can be quickly stopped without resorting to harmful habit forming drugs. This booklet explains how this terrible affliction has at last been conquered.

Thousands of epileptics who have used the new treatment are once more living a normal life. Readers of this newspaper can get a copy of this interesting booklet by writing direct to the Educational Division Desk, 1320 509 Fifth Avenue, New York City. It's free for the asking.—Adv.

SOCIAL NEWS PAGE FOR WOMEN

St. Louis Visitor Is Complimented At Afternoon and Evening Parties; Mr. and Mrs. O. B. Holt Entertain

Afternoon and evening bridge socials were compliments to Mrs. Marshall Lusk of St. Louis, who is in Midland visiting in the home of her sister, Mrs. O. B. Holt Jr.

Mrs. Holt was hostess in the afternoon to members of the Enigma club and guests, and she was joined in the evening by Mr. Holt when they had as their guests members of the 1930 club.

Reception rooms were appointed for the parties in green and yellow shades and stressed the Thanksgiving scheme.

Birthdays in Midland

In Midland the following are celebrating their birthdays. Send them a greeting by mail, wire, phone or visit them, it will brighten their anniversary.

THURSDAY

Mrs. C. G. McCall, Beulah May Coleman, Gene Estes, R. J. Moore

Midland People Attend Stanton Conference

The Rev. and Mrs. George F. Brown, Mrs. A. M. Gantt and Misses Eula Gee and Alberta, Mrs. M. B. Robertson, Mrs. J. M. White and Mrs. Ella Youngblood were Midland delegates attending the Worker's Conference of the Big Spring Association in Stanton yesterday.

Kitchen Shower Is Given for Miss Wimberly

Among the pre-nuptial social courtesies complimenting Miss Pearl Wimberly, bride-elect, was the evening bridge party and kitchen shower given by Mrs. Carl W. Covington Tuesday evening.

The bridal motif of pink and white was stressed in tallies and score books and the floral decorations were of fall blooms.

Closing the games, Miss Ruth Norwood held high score and cut high and Miss Evelyn Scarborough scored low. Gifts received by them were presented to the honoree.

The hostess also complimented Miss Wimberly with an attractive gift.

Following tea time, Miss Norwood presented the honor guest with a large basket decorated in pink and white filled numbers of kitchen articles.

Evening guests were Misses Genavie Derryberry, Myrtle Whitnir, Otha Lee Gregory, Evelyn Scarborough, Mozelle Parker of Vernon, Ruth Norwood, Mmes. A. J. Florey, John Birdwell, Paul T. Vickers, J. M. Sides, S. M. Warren, A. E. Horst and Frank Orson.

Announcements

Thursday Mid Alpha Delphin chapter at the home of Mrs. W. M. Schrock at 3 o'clock. Mrs. E. W. Cowden leader.

Thursday club will be entertained at the home of Mrs. W. A. Yeager at 3 o'clock.

Mrs. C. A. Goldsmith will have as her guests members of the 1912 club at 2:30.

Semi-monthly country club party at the club house at 8 o'clock.

Friday Belmont Bible class will meet at the home of Mrs. A. B. Stokney, 1100 S. Loraine street at 3 o'clock.

Saturday City Federation of Women's clubs at the high school auditorium at 3 o'clock.

By JOAN SAVOY NEA Service Writer

Pajamas are the thing to wear this winter when you throw a five o'clock tea party for your friends.

They should be simply made, in the soft dress-maker tailored mode, to be chic for this time of day. Sumptuous material, of course, is in order, but there should be restraint in the making.

Velvet is one of the favorite media for five o'clock pajama suits. The very newest ones are made in simple one-piece mode, with the same moulded lines that the best gowns affect.

Nothing could be more charming or flattering than a two-color velvet suit—gleaming black velvet made with that soft tannish rose tone of velvet that is much easier to wear than pinky pink and looks so much more expensive.

This suit has a deep cowl neckline, with a scarf of the pink that throws over one shoulder and extends to hipline on the other, edged in black as are the rather restrained flowing sleeves.

The pink bodice blouses slightly and fits down over the hips, being appliqued onto the block trousers to keep that fitted look every one wants this season. Two little buttons, one cut jet and the other sparkling crystal, ornament the front of the blouse just at waistline, where a belt buckle would be. The flowing trousers are floor length.

Exciting Round-ups Are Features of "Wild and Wooly" Bridge Party

"Wild and Wooly Bridge"—the most exciting afternoon spent in many moons by members of the Edelweiss club when they were guests of Mrs. A. B. Cooksey Tuesday afternoon at the most cleverly planned party of the season.

During the afternoon, round-ups were held at Ranchos Rattlesnake, Golden Nugget, Grizzly Bear and Frozen Dog by tough young "ranchers" and their "fair ladies."

"Ranchers" participating in the round-ups were Tommie Tenderfoot, Alkali Pete, Dude-Wrangler Dan, Two-Gun Mike, Sage-Brush Sam, Half-Pint Pete, Dead-Eye Dick and One-Card Monte; young ladies were Golden Gulch Jennie, Straight Flush Sal, Shootin' Nell, Square Deal Essie, Keno Katie, Two-time Tessie, Loco Lucy and Round-up Sadie.

Rooms of the Cooksey home were decked with fall blossoms of yellow and green and at tea time tables were laid with yellow doilies and smaller individual covers for the service. Table centers were green crystal holders and yellow candles tied with flyty bows of green tulle. Plate favors were also of the chosen colors.

Mrs. John M. Shipley was a new member entertained at the party. For the afternoon "round-ups" Mrs. A. S. Legg scored high and received a lovely tray with English etching; Mrs. Shipley cut

high for a buidoir basket. Guests were Mmes. W. O. Pel-fry, R. A. Verdier, J. L. Crump, Hayden Miles, Tom Nance, Foy Proctor, Harvey Sloan, Henry Wolcott, J. M. Speed, Jno. Dublin, Roy Parks, Shipley, Misses Thelma White, Leona McCormick and Lois Patterson.

Local Housewives' Choice Recipes

One of the most nutritious foods on the market is cheese. Try some cheese biscuits for the family meal—a change is delightful. Maple tarts, too, will furnish a variety.

Maple Tarts 1 egg, 1 cup maple syrup, 2 tbsp. evaporated milk, 1 tsp. flour. Beat egg. Add syrup slowly to flour to form a smooth paste. Then combine with beaten egg and evaporated milk. Pour into pre-baked tart shells. Bake in a hot oven (425 degrees F.) 5 minutes, then reduce to slow oven (300 degrees F.) and continue baking until filling is set and pastry is browned.

Cheese Biscuits 3 cups flour, 4 1-2 tsp. baking powder, 1 1-2 tsp. salt, 1-4 cup fat, 1-4 cup grated cheese, 1-3 cup evaporated milk, 2-3 cup water. Sift flour, then measure. Resift with other dry ingredients into mixing bowl. Rub fat and cheese into flour with fingers until appearance is like coarse corn meal. Add milk, diluted with the water, and mix quickly with a fork. Stir until flour disappears then four or five times to smooth and slightly stiffen the dough. Turn onto a thoroughly floured board. Pat out or roll to 1-2 inch thickness. Cut and place on oiled tins. Bake in a hot oven (425 degrees F.) about 12 minutes.

Prairie Lee Boosters

Mr. and Mrs. H. Wrenn's daughters, Mrs. Eastman and Mrs. Wilson, ate dinner in the parental home Sunday. In the afternoon they all visited in Stokes Community and with Mr. Wrenn's mother in Stanton.

Mrs. Laceywell entertained the Intermediate B. Y. P. U. with a Halloween party at the school house Friday night.

Mr. Arthur Buckner gave a Halloween party for the young folks of Prairie Lee. Several young people from Midland were present.

Miss Anne Lee King entertained the Junior and Intermediate B. Y. P. U. with a Halloween social Friday night.

Mr. and Mrs. Fred Truelove spent Sunday with Mr. and Mrs. Clarence Douglas.

Miss Mona Harmon spent Sunday with Miss Oma Lee Flowers. Mona is attending the Midland high school this year.

School opened again Monday morning. Attendance was small. This attributed to the fact that as yet the farmers have been unable to get their cotton gathered. Friday night the teachers are asking all of the parents and friends of the school to meet at the school house for a short musical program, a discussion of the plans for the year, and a general get acquainted meeting. Mr. Hill and Miss Derryberry

are expected to make a short speech each. It is hoped everyone interested in the school will be present.

Red Bucher has recently sold out and expects to return to his former home in San Saba.

Sunday night the Greenwood B. Y. P. U. perfected their general organization. Bill Arnett was elected director general, Mr. King, assistant

director general, and Mrs. Flowers, secretary. Group No. 1 of the senior union will have charge of the opening exercises Sunday night.

Mr. and Mrs. A. L. Dawkins spent Sunday with Mr. and Mrs. C. V. Douglas.

Ector Thornton, of Germania, has recently had a visit from his daughter from Plainview, Texas.

M'CAMNEY 'OUT' FOR SEASON AS RECOMMENDATIONS ARE OKEYED

STATE FOOTBALL COMMITTEE HOLDS BADGERS VIOLATED ELIGIBILITY IN PLAYING SEVERAL MEN IN DISTRICT

No more this season will the dark cloud blow up from McCamey and cast gloom on the football hopes of Midland, Stanton and Marfa.

The Badgers are out of the race, the state interscholastic football committee having decreed this Monday afternoon in Austin.

The verdict came after a heated session in the office of Roy Henderson, and members of the district football committee and of the defending football aggregation were present.

McCamey was accused a few weeks ago by the district committee of playing ineligible. The charge was denied but the committee filed recommendations that the Badgers be suspended for a couple of years. This recommendation was later modified to one year.

Superintendent Gregg of Marfa, chairman of the district committee, and Superintendent Fly, secretary, were present in Austin to represent the plaintiff body, and McCamey's superintendent and coach were there to defend their school.

Resolutions Attest To Value of Boone

Following are resolutions passed by the Pastors association upon the moving from Midland of the Rev. Leslie A. Boone, who was pastor during the past church year of the First Methodist church.

"Whereas, the Rev. Leslie A. Boone has been appointed pastor of the First Methodist Church of Harlingen, and

"Whereas, his going from Midland is a cause of much regret on the part of all Christian people as well as his own church,

"Therefore, be it resolved by the Pastors association of Midland,

"That we record our warm affection for the Rev. Leslie A. Boone, our sincere regret that he is to leave

our body and that we give this expression to our sense of loss and our deep appreciation of his fellowship;

"Be it further resolved, that we commend for his Godly walk and conversation and for the fearless and zealous type of gospel ministry that he has performed in Midland and that we warmly commend him to the First Methodist church and the citizenship of Harlingen, and bid him God speed in his work;

"Also be it resolved that we record these resolutions in our minutes and send copies to the city newspapers and the church in Harlingen.

Rev. Thomas D. Murphy, Secretary, Midland Pastors Ass'n.

ALUMNI TO MEET

PORTWORTH, Nov. 5.—Members of the 1910 football team of Texas Christian University will hold a reunion at T. C. U. Nov. 15 when the Frogs play State. Bill Massie of Fort Worth was captain of the 1910 Frogs, and John Bateman, also of Fort Worth, was manager of the team.

This team of 20 years ago won two games and lost six.

Raw food is the secret of long life, according to a Continental scientist, who claims that our normal span of years might be easily become 140 instead of 70 if we ate all our food uncooked.

Lackey Goes to Pecos to Settle Armistice Day Plans

Market Report

Narrow price movements occurred on New York cotton exchange throughout morning dealings today with prices moving around initial levels almost fifty cents below Monday's close levels. Increased hedge selling commission house liquidation and some sympathetic western selling induced by weakness in grains caused easier tones.

Freezing temperatures reported in Arkansas and Oklahoma and more cold weather predicted for belt.

Election-

(Continued from Page 1)

Moody to Retire

AUSTIN, Nov. 5. (UP).—Governor Moody, whose successor was elected yesterday, is rounding out an even 10 years of public office and announced that he is through with politics. He said that he was going to make some money practicing law.

Murray Is Elected

OKLAHOMA CITY, Nov. 5. (UP).—William H. "Alfalfa" Bill Murray, democrat who hitch-hiked through a "shirt and suspender" campaign as a "candidate for impeachment" is Oklahoma's new governor.

Murray was conceded the election by his republican opponent, Ira Hill, former state senator.

Talbot Sends Greeting

DALLAS, Nov. 5. (AP).—Colonel William E. Talbot, Dallas, republican candidate for governor, today telegraphed his successful democratic opponent, Ross S. Sterling, "May I express sincere hope that you will enjoy good health and a profitable administration of our Texas."

Demos Threaten Congress

WASHINGTON, Nov. 5. (AP).—Turning with furious assault against the ancient foe, the democratic party raised republican strongholds from coast to coast, lifting its favorites to new glory as it rocked state governments and threw serious doubt into the political makeup of the new congress. Full extent was undetermined today.

New York and Illinois democratic strength assumed landslide proportions, Governor Franklin Roosevelt of New York attaining a plurality of 700,000 votes. Illinois returned James Hamilton Lewis, former senator, with thundering emphasis over his opponent, Congresswoman Ruth Hanna McCormick.

Oklahoma returned the blind democratic senator, T. P. Gore, after long political retirement.

Kansas defeated Senator Harry Allen, staunch Hoover supporter, electing his democratic opponent, George McGill.

Lions Club Makes New Charity Move

By Harry Livingston Haight

The Lions Club of Midland have established a bureau for the collection of periodicals to be distributed, through the chamber of commerce, to those living in rural sections of this county. The need for literature in the out-lying sections is most acute. It is earnestly urged that every one having magazines and other periodicals that it is desired to get rid of, except newspapers, bring them to the tailoring store of F. J. Middleton in the Scharbauer or notify him by phone, 30, and they will be called for and passed along by the chamber of commerce to those who find it inconvenient to get to town only at long intervals. This institution by the Lions is more educational than charitable, although it contains elements of both, and every organization in the city that will be good enough to do so is asked to join in this meritorious movement. The dreariness of long evenings at home, miles away from neighbors or of city amusements, can be made more bearable if there be a generous response to this request. One of the virtues of this enterprise is that it costs nothing apart from the time consumed in the gathering of literature that would otherwise be thrown away. Please save your periodicals for this purpose.

HOT TAMALES DELIVERY SPECIAL

We will deliver tamales any place in town from 8 a. m. to 11 p. m. A dozen at 35 cents; 2 dozen at 60 cents; over 2 dozen 25 cents a dozen.

PHONE 9545 Made from pure meats. Guaranteed. E. S. (Sam) Raglin

MIDLAND COTTON IS SUPERIOR TO OTHER COUNTIES

Cotton handled from the Midland receiving station by the Big Spring station of the Texas Co-operative Cotton association is the best that has been received over the district, Claude Holley, representative of the association, said this morning.

Cotton of staple measuring 1 1-16 inches was received from Frank Elkin, and there were several bales that had staple rated at 1 1-32 inch. "These bales brought premiums," Holley said. "Midland county's cotton is better than any other county's product we have handled. Six hundred bales have been handled in two weeks."

Holley said the long staple cotton shipped by Elkin was as good as irrigated cotton.

Potash-

(Continued from page 1)

the latest developments within the area embracing, Midland, Ector, Crane, Upton, Reagan, Crockett, Glasscock, Loving and Ward counties in West Texas, and Lea and Eddy counties in Southeast New Mexico.

Predicted on the engineer's report it is indicated that the United States Potash company, whose shaft in Eddy county, New Mexico, has now reached the 1,100-foot level, will begin mining and refining operations of potash from sylvite deposits early in the new year of 1931. The Texas Potash corporation's development in West Texas in the production of potassium minerals will be from polyhalite deposits.

The report shows that the majority of core tests for potash, together with wells drilled with standard equipment in the search for oil and gas, within this section of West Texas and Southeast New Mexico, have penetrated extensive salt deposits, especially true from the trans-Pecos region eastward to Nolan county, Texas. It is apparent that the potential commercial deposits of potash exist within a well-delineated area probably underlain by 1,000 feet or more of salt. This region, embracing a considerable portion of West Texas and Southeast New Mexico, lies within the vast permian salt basin, comprising an area of approximately 70,000 square miles, estimated to contain in excess of 50,000 billion tons of salt. Aside from the potentialities of the potash industry, Mr. Blanton directs attention to the stupendous salt resources of the area.

Name Committee to Probe Cannon Charge

ATHENS, Ala., Nov. 5. (AP).—Bishop W. N. Ainsworth, Methodist church south, today said that a committee had been appointed to investigate charges filed against Bishop James Cannon Jr. Names of the committee-men were withheld.

DAN SHOOT RATS

AUSTIN, (UP).—Governor Dan Moody is ridding the Texas executive mansion of rats.

Using a small airgun he kills them with the first shot. The old mansion, dating back to the time of Sam Houston, has many hiding places for the rodents.

Variety of Names; "Smith" Is Leading

PORT WORTH, Nov. 5.—The name "Smith" wins first place in the recently published student directory of Texas Christian university, with 18 students listing that cognomen.

"Miller" comes next with 11, and Jones, Johnson and Williams tie for third-place honors with 10 each.

The names in the directory go from "East" to "West," "Day" to "Knight," through both "Winters" and "Summers." There is a "Wood" where "Flowers" and "Chestnut" and "Beech" trees grow, three "Hills," two "Lanes," and a "Lea" and a "Brooks" to be found. A "House" has two "Kitchens," six "Halls," two "Sellers" and a "Teagarden." Six colors are also found, such as "Brown," "Black," "Lavendar," "Gray," "Greens" and "White." Royalty is represented by three "Kings," while two "Farmers" represent the common people. A "Hunter" and a "Hunter" are included. Two "Snows" and a "Flood" are listed.

There are 21 names beginning with the Scotch prefix "Mc," and five with the prefix "Van." Among the unusual names in the T. C. U. student body are, Wasenich, Varsholev, Riggenberg, Pfeiffer, Labovitz, Dunkelberg, Ealy, Campirano and Duhell.

STANTON WILL BE ENTERTAINERS OF ROSCOE ON 11TH

STANTON, Nov. 5.—Arrangements have been completed here for a visit from the Roscoe high school football team on Armistice. This will be one of the best Class B games in these parts on that date. The Plowboys were last year's bi-district champions and boast of a strong team this year. The Buffaloes are tied with Midland for the top position in this district, not having been defeated in the conference and losing only to the strong Snyder eleven which also has beaten the Roscoe team.

POOR DOGGY

CHICAGO.—The management of the hotel Mrs. Beatrice Smythe lived in refused to allow her dog in the guest elevator. Rather, the management said, the dog should ride in the servant's elevator. All of which aroused Mrs. Smythe's pride and she refused to pay \$645 back rent. The hotel sued.

REVAMPED AGGIE TEAM READY TO ENGAGE S. M. U.

COLLEGE STATION, Texas, Nov. 5.—Cheered by their 7-6 upset of the Centenary Gentlemen and inspired by a desire to score a conference victory, Coach Matty Bell's Texas Aggies Saturday will attempt to climb out of the cellar in the conference percentage table at the expense of the S.M.U. Mustangs of Coach Ray Morrison. The game will be played in Dallas at Owbny Stadium, the Ponies' own corral.

Conditions surrounding the Mustang game this season resemble closely those of 1928 when the Aggies last went to Dallas to meet an S.M.U. eleven. That year the A. & M. team, like the one of this year, had made two unsuccessful conference starts and was resting at the bottom of the conference heap. In a game with the Denton teachers the week preceding the S.M.U. tilt, the A. & M. coach placed a revamped eleven on the gridiron, the first real test of which was expected in the Mustang game.

The Ponies were strong favorites to win the conference title and were given a decided edge over the Maroon and White eleven, but from the opening gun it was evident that something more than ordinary football was going to be necessary to stop the boys from Aggie land. In the opening minute of play the Aggies had put across a touchdown and in the succeeding 59 minutes they scored twice more, running their total to 19 points. It was only by dint of a desperate comeback that the Mustangs were able to knot the count before the final gun was fired.

All in all, the coming game promises to present one of the most colorful scenes of the season, both on the field and in the stands where the leather lungs of the khaki clad A.

& M. cadets and the strains from the 100-piece A. & M. band will vie with the S.M.U. student body and band for routing honors. The S. M. U. game has been designated officially for corps trip by the Aggie cadets who will reach Dallas Saturday morning on three special trains and will parade immediately upon their arrival.

BABY NEEDS HAIRCUT

YUMA, Ariz. (UP).—Page Mr. Ripley!

Finest Don White, Jr., at one week old, cut four teeth, and was in need of a hair cut.

Finest, of course, is a model baby, and so early in life had recorded a mark that will be hard to break. Furthermore, the father boasts, there is not another White that has performed such antics at Finest's age.

EVER TRY THIS?

MELBOURNE, Australia.—When potato digging gets tiresome, a lad near Orepuki, Southland, New Zealand, has the following system to offer to farmers. He was sent out to dig potatoes on his father's farm recently. Because the work wasn't just what he liked, he took a couple of sticks of dynamite along with him, buried them in the potato field and set them off. Every potato in the field was unearthed all right, but he couldn't find anything except pieces of them.

HONEST ENOUGH

NORRISTOWN, Pa.—George Hobbs, of Bridgeport, is accommodating, even in the face of jail. When neighbors complained against him and he was arraigned in court here on a charge of selling home brew, the judge asked him if the charge was true. Hobbs said it was the absolute truth and went home and got nine bottles of home brew to prove it. He was temporarily released pending analysis of the brew.

BULLDOGS READY AS NEVER BEFORE

The boys most favored to win the District 8 champion, the Midland high school Bulldogs, are in the best shape of the year and are thinking little of whether they play in the eastern section of the district or the western, for east is east and west is Pecos to them—and all they want is Pecos.

The boys feel ready in every fibre for the Armistice game. For the second time during the season they are ready to go into a game without injuries. The same condition was felt before the Wink affair last week, and the men came out unscathed, a 39-0 verdict echoing in the stands.

Pecos beat Wink 7-6 two weeks ago, but those who saw the game believe Wink outplayed the Pecos team at every department except kicking the extra point. Stanton pulled an 18-6 coup on the lads from the Pecos. Midland is rated on paper at least four touchdowns better.

Superintendent Lackey went to Pecos this morning to attempt closing negotiations on where the game is to be played. The schedule allows Pecos to send out the invitations, but Midland is offering \$400 to get that game in Midland.

BROKEN ROMANCES

LONDON.—Thousands of hearts were broken in England since January, 1930, the office of marriage certificates reveals. Figures from this office show that more than 3,000 licenses were returned by fickle brides and bridegrooms since that date.
