## SON BORN TO LINDY AND WIFE

### Born 3 Months After First Child's Body Is Found

ENGLEWOOD, Aug. 16. (UP)—A son was born to Colonel and Mrs. Charles Lindbergh at 7:30 this morning.

The mother and the child were reported "doing well" when the United Press telephoned the Morrow estate shortly after birth of the child and Colonel Lindbergh verified the report, chucking happily as he received congratulations.

The second son was born approximately three months after the first child, Charles Augustus, Junior, was found slain a few miles from the Lindbergh estate at Hopewell. The first son was kidnapped on the night of March 1. Shortly afterwards, it was learned that Mrs. Lindbergh was expecting another child. Mrs. Morrow revealed this in the hope that the kidnappers would relent and return the first born.

## Monday Rains Aid Scattered Sections

Rains falling over scattered sections of West Texas Sunday and Monday aided feed and cotton crops, also cattle and sheep ranges, and continued to drive away the withering heat experienced two weeks ago.

Midland had only .09 of an inch Monday, with a few sprinkles earlier, although some sections of the adjacent farm and ranch areas reported better precipitation.

A light shower was reported falling in Odessa this morning. No further precipitation had been received at Big Spring since yesterday. Colorado received 1.75 inches and Abilene the same amount.

Some of the heaviest rain reported. No rain was reported at Wink, Kermit, Fort Stockton or McCombs today.

## Friends of Burros Come to Their Aid

DALLAS (UP)—Four survivors of a once sizeable herd of donkeys bought by former Mayor J. Waddy Tate for the city of Dallas grazed contentedly in a small enclosure at the zoo today. Their demeanor is unchanged from that of a month ago, when in company with 31 of their fellows they were ordered fed to eight zoo lions.

Keeper L. E. Blondin said the donkeys would be fed to the lions unless sold or provision made for their food. If they could not be sold for \$7.50 or more, he said, it would be cheaper to feed them to the lions. Lion meat came pretty high.

For a time it seemed they were to shortly find themselves in the same predicament as Daniel of the old testament but without his saving miraculous powers.

Widely published newspaper and magazine articles told of the donkeys' plight, and Blondin received protests from humane societies and some individuals from as far east as New York and as far west as California.

"Don't do it, it's brutal," was the text of these various messages.

"You would have thought we were going to throw the donkeys into the lions' den," said Blondin.

Animal lovers from everywhere rallied to the cause. One Philadelphia man ordered two shipped to him by boat from Houston. He owned five Pennsylvania donkeys for the price he ultimately paid including transportation charges.

Nearly purchasers took most of the remainder. The last four were assured a happy life when a quantity of hay was recently donated to the zoo department.

Thus to an end came the Odyssey of Dallas donkeys. Keeper Blondin summed it all up in the terse sentence: "Public opinion was just too damn set against it."

## Reconstruction Work Is Started in Storm's Wake

### Divorce? Yes

HOUSTON, Aug. 16. (UP)—Order was restored in the hurricane-stricken Texas coastal region today as a humanitarian army moved into the zone hearing food, clothing and housing for the destitute and medical supplies for the injured.

The dead, now known to be 35, were buried as additional casualties were sought among the ruins in the flood waters. Hospitals held many who were not expected to live.

The Red Cross estimated that 2,000 were homeless and starving. Most of these are Mexicans and negro tenant farmers of Brazoria and Fort Bend counties.

Vandalism begins Water mains had been repaired at Angleton, cheering relief workers as shortage of water was the major problem. Families cooked in the open air and warm weather alleviated the discomfort of the night.

MIDLANDER SAFE News received by Judge J. M. Caldwell from his daughter, Mrs. W. W. Woodland, of Freeport, indicated that she and her family escaped either injury or serious property damage in the storm which struck the Gulf Coast Saturday.

Upon receipt of the storm warnings, Mr. and Mrs. Woodland and their small child made preparations for departure to Houston as soon as possible. Their residence was damaged only by water which blew under the shingles as the driving winds swept the city.

## Rest easier now, film fans, Ruth Chatterton is back from Europe.

Those present were appointed by Homer W. Rowe, county democratic chairman, to membership, and funds for promoting the Sterling cause were subscribed and offers made to represent his candidacy on the stump in surrounding counties.

Leon Goodman, district chairman of the Sterling campaign, presiding chairman of the meeting, explaining the purpose of the meeting, explaining that, with speakers going up and down the district working for the governor, Midland county supporters of Sterling should weld themselves into a compact organization and translate their support into enlisting strength among the public.

Mr. Goodman explained that a nominal amount of money would be needed to carry on the campaign.

Leon Goodman cited what he termed defects of the Ferguson administration and praised Sterling for a courageous and honest executive. He cited the road building program certain under continuance of Sterling in the governor's chair and spoke his belief such a road program would not follow the advent of the Ferguson to the highest office in the state.

Mr. Goodman stated that his financial condition resulted from the "times" and his devotion of time to the affairs of the people and not to his own personal business.

Jimmy Nolan spoke briefly on the failure of business men to enter politics and cited the necessity of their making a change in policy, saying furthermore that it is to their interest to get behind Sterling in the governor's chair and to abet the Sterling campaign.

Goodman spoke again, saying it was not the intention of any Sterling campaigner to replace any of the Ferguson men, but pointed out several instances where the Ferguson men have run afoul of trouble, and ended his statements with a plea for replacing an "honest man and a capable one" in the gubernatorial chair.

Other speakers who made brief remarks were A. Summerhilt, until lately superintendent of the Andrews public schools, W. W. Patrick, Charles A. McClintic, T. Paul Barron, Alvin Hix and Rowe.

water system was being repaired. Vandalism was reported at Angleton where youths were entering wrecked stores.

Brigadier General Jacob F. Wolters, commander of the Texas National Guard, sent several sentries to the stricken areas.

Reports of additional damage arrived constantly as communications were restored. Damage was expected to exceed \$3,000,000 with cotton, rice and corn the worst sufferers. South Texas penal farm buildings were damaged to the extent of \$100,000.

Red Cross Active The Red Cross had actively entered the scene.

In addition to participating in the donation of large quantities of food to the area, the local unit appealed for \$10,000 in relief contributions from the general public.

## BELL FILES NO PROTEST FOR OFFICE

### Thus Graham Listed Commissioner of Precinct 2

No appeal had been made by John T. Bell, recent candidate for commissioner of precinct No. 2, in the decision of the county democratic executive committee Thursday, giving the nomination to B. T. Graham when it was found that Bell had received four illegal votes, when the time limit expired Monday night.

Bell had received 58 votes in the democratic primary to 56 for Graham. Graham filed protest claiming that four ballots which were not legal had been cast for Bell.

Meeting of the democratic executive committee was held Thursday acting as a court, at which time the votes were canvassed, the committee finding Graham's claims correct and giving him the democratic nomination.

Had Bell appealed the verdict of the committee, the case would have been under jurisdiction of the district court.

## Cast of Murder Trial Is Mixed Many Characters

BY GILBERT SWAN

WINSTON-SALEM. The quiet-mannered, hospitable, untheatrical Blue Ridge foothill folk may well challenge Broadway to provide a better supporting cast of characters for the mystery drama which Lily Holman, throaty chanteuse of melancholy ballads, is starred.

Assembling this dramatic personnel of the Smith Reynolds death inquiry, you'll find, in order of their appearance:

## Nature Played A Mean Prank

SAN FRANCISCO. (UP)—After 10 years study, Ed Spellman admits he has not yet solved the mystery of why sea gulls have tall arches.

Spellman, ferry conductor on San Francisco Bay, contends that nature played a mean prank on the birds which loiter around the edge of the sea. The gulls were not provided knees.

"Man's knees to absorb the shock when he jumps," explained Spellman. "But when a gull lands he has to take the jolt in his arches."

"I've watched gulls light around the docks all day, and I'd go home at night with my feet aching from just watching them."

Gulls were provided with a calloused place on the rear of each foot to act as shock absorbers, according to Spellman. These "heel pads" soon wear off.

"Anybody can see that their feet hurt," Spellman declared. "I see gulls every day lean back on their heels and look around for a place to sit down. It's obvious their arches ache."

Spellman's interest in the foot troubles of the sea gulls has attracted the attention of many commuters, who ride his ferry daily, and the subject frequently comes in for "round table" discussion during the trip across the bay.

### Rally Carries Over Into the Fourth Hour Today

NEW YORK, Aug. 16. (UP)—Blus chips of the old bull market were performed in true 1928-29 style today. Their strength helped the stock list to maintain gains ranging to seven points in the face of profit taking.

Safe stocks, whose relative status was maintained despite sharp price reductions, were taken in large amounts early this afternoon.

Profit taking after the noon hour caused many stocks to drop moderately. The rise was resumed before the end of the third hour, the rally carrying over into the fourth hour.

## Employment Holds Own During July

AUSTIN—If improvement may be judged in terms of declines no larger than should normally be expected at this season of the year, employment in Texas held its own during July, according to the Bureau of Business Research of the University of Texas.

Reports to the Bureau of Business Research and the United States Bureau of Labor Statistics on the volume of employment showed that as of July 15 there were 46,274 workers on the payrolls of the 327 establishments cooperating on this project, a decline of 2.7 per cent from the number for the previous month," the Bureau's report said. "A drop at this time was in line with normal seasonal developments and the decrease was of about the usual proportions. As compared with the number of workers on payrolls a year ago, the number on July 15 was 17.3 per cent lower; but the total for July compared more favorably with the number for the corresponding month a year ago than in any other case since February.

"An impressive gain was made in the number of workers at saw mills which appears particularly significant in view of the fact that no marked seasonal gain is due in this industry at this time. Cotton oil mills made a sharp seasonal increase in employment at El Paso, Galveston, Houston, and Wichita Falls had more workers on payrolls on July 15 than on the same date at month earlier."

"Only three industries employed more than on July 15 a year ago, automobile and body works, cotton oil mills, and cotton textile mills, and Galveston was the only one of the ten cities listed to make a gain. "Average weekly wages per worker dropped about 50 cents to \$21.12 during July, as compared with \$21.63 a month earlier."

A STORY STRANGER THAN FICTION

The truth is not only stranger than fiction, now and then; it is often a whole lot more interesting. Novelists have written until their hands were cramped, trying to spin tales of eerie horror; but did they ever invent anything to beat that recent story from Natchez, Miss., about the filing of murder charges against Miss Octavia Dockery and Richard Dana?

Consider the elements in this story. First there were these two old estates, Glen Burne, home of Miss Jane Merrill, who was slain, and Glenwood, adjoining it, home of Dana. Once these were famous southern plantations. Now they are dilapidated, unkempt, weed-grown, their fine manor houses grown decrepit and gloomy, their imposing driveways bordered with rank grasses and undergrowth.

And the people themselves had trodden the same path. Forty years ago Miss Merrill, daughter of a former ambassador and one-time "belle of the south," had wealth, position and fame. So did Miss Dockery, daughter of a Confederate general, and Dana, nephew of the famous New York editor.

PINCHOT'S HUMAN MOVE

There is an especial obligation on public officials these days, especially on the lesser ones, to realize that times are not normal and that the letter of the law may have to be stretched every so often to avoid working an injustice.

THEY DESERVE A MEDAL

It is not hard to believe that Antoine and John Grohar, grocery store proprietors of Joliet, Ill., are among the smartest grocers in the land. You have probably heard how the brothers Grohar faced an emergency when the lease of their store expired. They had to move, but they lacked the capital; most of their trade was with mill workers, the mill workers were unemployed, and the brothers could not collect on their bills.

When the last trace of the sun has disappeared (in the belt of totality) and the moon's shadow has engulfed the spectator, the scene is awe-inspiring. Often the temperature drops, sometimes the dew falls and strange breezes spring up, seemingly different from the breezes of normal day or night.

# HARDWARE WINS OVER PHONES; ELECTRICIANS WIN A 20-3 AFFAIR

## REPORTER-TELEGRAM UNABLE TO GET TESCO OUT EVEN WHEN SLUGGERS IN JOVIAL MOOD CLOWN FOR THE CROWD

By HERB ROUNTREE

Midland Hardware and Texas Electric maintained their positions in the Nocturne league last night with wins over Bell Telephone and The Reporter-Telegram, respectively. Scores were 9-2, and 20-3.

The Hardware-Telephone game was fast and interesting despite Bell's tossing it away after taking an early lead and making several costly errors. Smith and Byron engaged in a pretty pitching duel, both employing good control and cutting down batsmen with runners thick on the paths.

Herb Jones once more hit each time he approached the plate, getting three for three, one of them a home run.

Texas Electric tried to stop the slow, uninteresting game with the Newsies, batting left handed and with the wrong end of the bat, the players jostling out of position, and others doing everything but tee the ball up for the News Devils to strike at—but nothing could help the club, which has fallen into a slump that allows of no hitting, no protection against base stealers or no defense in the field. R. Parrott and Red Hill, borrowed players, hit home runs.

United States District Court for the Northern District of Texas, Fort Worth Division. WHEREAS, by virtue of an execution issued out of the United States District Court for the Northern District of Texas, Fort Worth Division, on a judgment rendered in said Court on the 16th day of July, A. D. 1932, in Cause No. -999, entitled the United States vs. Samuel H. Bernstein et al, said judgment being in the sum of \$10,000.00 and against Samuel H. Bernstein, Harry H. Levinson, Rose Weinstein, and S. Rotsky, jointly and severally, and said execution directed to and commanding me to levy upon the goods, chattels, lands and tenements of said defendants, I did, on the 2nd day of August, A. D. 1932, at 11 o'clock A. M., levy upon the following described tracts and parcels of land and interests in land situate in the County of Midland State of Texas, to-wit: The defendant Rose Weinstein, to-wit:

Lots 1, 2, 3, and 4, in Block 58, original town of Midland, Midland County, Texas; 1-2 undivided interest in Lot 22, Block 67, original town of Midland, Midland County, Texas; said property standing in the name of Mrs. Sam Weinstein and Harry H. ### Indians Hope to Get Texon Game

Whether the Texon Oilers will give Midland a game this season is one thing and whether they won't is another, but the Texon club is getting much publicity and is being the strongest club in this section of the state. Dr. David M. Ellis, Indian skipper, has an engagement here soon with an Abilene club that beat Texon and figures a win might cause Snipes Conley, Oiler manager to give Midland a game. Speaking of the Texon team, Bill Parker, the P. scribe, has given the Conley corps a statewide ad. Parker comments:

"John Snipes" Conley, former Dallas manager and the winner of 19 consecutive games in the Texas League at the time Clarence Kraft was establishing a home run record of 55, is still carrying on. Conley is managing the Texon Oilers at Texon. He plays the outfield and infield, and if he goes getting tough he takes his spitter and pitches his club to victory.

Conley, along with Kraft, was one of the most popular of all Texas League stars. That he has a fine semi-pro aggregation is proven by the fact that this week Conley's boys won two of a three-game series from the El Paso Miners of the late Arizona-Texas league.

Conley's team, which is considered the fastest semi-pro team in Texas and boasts several former professional stars, has won 27 out of 30 played games. That proves Conley, who once steered the Dallas Steers to a Texas League pennant and a Dixie series only to lose his job the next season, still knows how to get the best out of a ball club.

SCOTT C. WHITE, United States Marshal, Western District of Texas. By E. G. DOTY, Deputy. Aug. 16-23-30-Sept. 6

### WORTHY CAST

Among the witnesses J. R. Shepherd is something of this town's dilettante. His art shop is decorated with one of those "come in and browse" signs. His family stem runs far back in town history. Had young Reynolds lived, Shepherd would have had the job of furnishing the period chairs and tables. He provided many of the luxurious appointments of the local Reynolds castle. He was, it is said, the last man to leave the party. Wire communications, briefly restored this morning, had gone out again. A recent list of dead was as follows: John Baggett, 24, farmer, Angleton; Edward (Lon) Hudgins, 6, son of Mr. and Mrs. Sam P. Hudgins, Oyster Creek; M. F. ### JAZZ AND SPEED IN YUCCA ATTRACTION

Jazz, sex and high speed in the whirl of the younger generations provide the dramatic motif of "New Morals for Old," opening today at the Yucca theatre with an imposing cast headed by Robert Young, Margaret Perry, Lewis Stone and Laura Hope Crewes. The plot concerns the attempt of modern children to live their own lives despite the opposition of parents who have lost sight of the "wild oats" of their own youth. The daughter defies her mother and enters into a clandestine romance with a married man; the son goes to Paris to study art and figures in the free life of the French capital. Eventually, they come to their senses through bitter experience. Adapted from Stage Hit The picture is an adaptation of John Van Druten's stage success, "After All," in which Margaret Perry scored in the role which she now plays in the motion picture version. The "New Morals for Old" cast also includes Myrna Loy, David Newell, Jean Hershot, Ruth Selwyn, Kathryn Crawford, Louise Clouser, Hale Mitchell Lewis, Elizabeth Patterson and Lillian Harmer. The picture was directed by Charles Brabin, also the director of

"Beast of the City" and "Sporting Blood." ENDS VACATION Jerry Phillips, who has spent the past two weeks in Dallas and other northeast Texas points, returned to Midland yesterday. He will resume his duties at the Ever-Ready Auto Service Thursday. HERE FROM FLOREY I. W. Young, who lives at the old Cook ranch near Florey, was here today on business. Young has teams at work on the Odessa-Andrews highway construction job. GROWS BIG EGG PLANTS Pat Bodine, Midland county farmer, is exhibiting in the display window of the chamber of commerce, a representative egg plant from a good crop. He has grown other good vegetable crops. BACK FROM AUSTIN Misses Rosie Pliska and Virginia Hawkins returned Monday from Austin, where they made arrangements for enrollment in Seton infirmary. They returned by way of Cleco and Abilene due to bad roads. They will return to Austin the first of September.
