

Report Vichy, Britain Sign Peace Treaty

English Troops Cease Firing In Syrian War

LONDON, Sunday, July 13. (AP) A Reuters, British news agency, dispatch today reported armistice documents between Britain and her Free French allies and the Vichy French were initiated late last night.

The Reuters dispatch, from Cairo, Palestine, said the initials were signed to the documents at 10:40 p. m. Saturday (2:40 p. m. C. S. T. Saturday).

CAIRO, July 12.—British troops ceased firing in Syria today and began to negotiate an armistice on British terms with the Vichy forces of high Commissioner General Henri Dentz.

Tonight, between hushed mattelins, the British-Free French and the Vichy military men were making satisfactory progress in their talks, a British Middle-Eastern communiqué said. Some details remained to be settled, it was stated. Meanwhile, hostilities continued suspended.

But within a few hours after Syrian hostilities ended, German bombers served explosive notice that Britain would have to fight to keep her Middle East foothold. A German raid on the vital Suez Canal route for American aid caused "some material damage," an Egyptian communiqué acknowledged.

REVIEWING THE BIG SPRING WEEK

BY JOE PICKLE

We wouldn't know how the armistice stack up, but when it comes to lying about stupendous victories, we venture that at long last German Propaganda Minister Joseph Goebbels has met his match.

Last year, during the chamber of commerce "Decision Week," someone suggested that there be a "driveway week." It was a good idea, but this is a bad year in which to effect it. For instance, by the time the bond and stamp drive had been shoved into high gear, along came the USO campaign. Now a drive for aluminum is in the offing. Maybe next it will be tickets for a rodeo, then the ABC motorcycle races, the Boy Scouts, Salvation Army, Red Cross, tuberculosis seals, etc.

Incidentally, the USO drive will over the top at last week. The figure then was about \$200 over the quota of \$1,470. This aluminum drive is one way almost everybody can help by hunting up scrap pieces of the metal and sacrificing them to the cause of defense where it is practical. That doesn't mean toss aside all your aluminum pots and pans and then go down and buy steel or some other kind. That's not helping much.

Edmund Notestine brings back mighty good news on the school district's sale of \$12,000 in bonds. The rate was three per cent but premiums make it the equivalent of 3.4, the lowest on record for a single issue. The district did get that rate on \$10,000 of a split issue earlier this year.

Opening of the U. S. navy recruiting post here should offer young men an even greater opportunity in enlisting in the nation's military. With only the army represented here through the recruiting post and selective service, no less than 275 Howard county men entered the armed services during the past six months.

In this connection, it might be mentioned that Sgt. Claud B. Reid, Abilene, will be here as recruiting officer for the U. S. Marines on Monday and Tuesday. He will be at the postoffice.

Adopting a budget last week, city commissioners indicated there might be more curtailment than listed in the documents if revenues do not hold up. They estimated \$18,000 would come in from delinquent paving accounts, but fervent letters last week got little results other than helping postal receipts.

The nation's cotton crop may be the smallest in 20 years, press dispatches said last week. Here we are looking for one of our biggest in that space of time. If they both work out according to schedule, cotton sales ought to lose lots of cash here in the autumn.

Aside from any other aspects of the case, it may be observed that if that walk-a-mile, ride-a-mile punishment dished out by Gen. Ben Lear last week for errant troopers was too much for them, then the general and lets more like him might get mad and stay mad until general physical condition of the army is such that a few miles hiking won't become page one news.

British Say Raids On Germany Exceed Any Made On England

LONDON, July 12 (AP)—The British air offensive against Germany has reached a point in tonnage of bombs dropped surpassing the heaviest German attacks upon England, it was stated authoritatively today, as the RAF continued its non-stop assaults on the continent.

During June, said a statement, the weight of British bombs dropped on Germany actually exceeded the tonnage dropped on England in April, which it is said the

Germans claim as their record month. Furthermore, the weight of bombs dropped on Germany in July "will be heavier still," it was said.

British air sources declared that the new air offensive had accounted for 216 German planes since June 22, and that the total German losses since the start of the war, on all fronts from the Arctic to equatorial Africa, have now risen to 8,000 aircraft and 20,000 airmen.

Senate Sentiment Leans To Overhauling New Draft Bill

School Bond Issue Sells

Big Spring Independent School district has sold its \$12,000 bond issue for Mexican and negro ward school improvements for what amounts to around two and three-quarters per cent.

Crummer and Co., Dallas, bought in the issue at three per cent, par and accrued interest, but paid a premium of \$425, Edmund Notestine, business manager for the schools, reported on his return from Austin.

In addition, the purchaser assumed the cost of printing of bonds, a factor that would further reduce the actual cost to the district.

Notestine had gone to the state board with a local offer of three per cent. Before he put the matter up to the board for action, the Crummer offer came through, and the state board waived.

It appeared that funds on the bonds would be delivered by Aug. 1. Meantime, the local board of trustees had instructed John H. Brown, architect, to sketch plans for three additional rooms for Kate Morrison Americanization school and for another room for the negro school. It is probable that bids will be asked at an early date in order to facilitate construction before start of the regular school term.

Food Prices Gain By 13.3 Percent

WASHINGTON, July 12. (AP)—A general advance in retail food prices from mid-May to mid-June boosted the housewife's marketing costs to a point 12.3 per cent above what it was before the war began in September 1939, the bureau of labor statistics reported today.

Price increases were reported from all parts of the country, the bureau said with the greatest increases in pork, lamb, lard, eggs, onions, potatoes and apples.

Uncle Sam Thanks High School Class

Uncle Sam has accepted, with thanks, the contribution to defense made by Big Spring high school seniors of 1941.

In May, as graduates pondered disposal of their class funds—totaling \$108.40 and accumulated from the class play and other activities—they hit upon the idea of giving Uncle Sam a lift with his defense financing, rather than putting the money into a gift for the school.

The check forthwith was dispatched to the U. S. treasury.

This past week, Chester O'Brien, Jr., secretary of the 1941 senior class, received this letter from

Phillips Will Case Settled

A judgment has been entered in 7th district court favoring O. A. Gilbreath and others, defendants, in a suit on a will brought against them by Mrs. J. T. Hardin Connell and others.

The suit involved the will of the late Mrs. Molly Phillips. The judgment found that she was capable of executing a will at the time of its writing, and upheld it in full. It ordered that the plaintiffs take nothing and that the defendants recover costs of suit.

It was understood, however, that private settlement was made between the parties in the suit prior to entered of the agreed judgment.

Rev. Bill Taggart Named Chaplain

The Rev. Bill Taggart, supply pastor of the First Baptist church, has been notified to report to Salt Lake City, Utah for service as chaplain in the U. S. Army.

His call, effective July 23, is subject to results of a physical examination he took recently.

He will enter the army with rank of lieutenant. When first notified of his appointment, he was assigned to San Antonio.

the treasury's division of bookkeeping and warrants.

"For the President receipt is acknowledged of your donation, in behalf of the senior class, of \$108.40 for use in connection with the defense program.

"I assure you that the fine spirit which prompted your action is deeply appreciated.

"The amount of \$108.40 has been deposited in the treasury of the United States in your name as a contribution for credit to miscellaneous receipts.

"Donations to the United States National Defense" as evidenced by the enclosed certificate of deposit."

Production Of Warplanes To Gain In Fall

American Fliers May Ferry Bombers Over Atlantic

WASHINGTON, July 12 (AP)—Official forecasts of greatly increased airplane production beginning in October were coupled today with indications in authoritative quarters that scores of young American pilots ultimately will engage in ferrying combat craft across the Atlantic to Britain.

For several months airplane production has moved forward at a relatively slow pace. But by October, defense officials say, tributary industries such as aluminum will begin to turn out needed supplies in quantities that will permit plane manufacturers to run huge new assembly plants at virtually full speed with emphasis on attaining the goal of 500 bombers a month.

At least half of these two and four-motor ships will be turned over to the British, it is expected, giving Britain's Aifero Corporation, which handles ferry deliveries, a task exceeding its present job.

While the eventual solution apparently may depend on the extent of American involvement in the war, several possible methods are beginning to be discussed here. All involve the increased use of United States fliers over the Atlantic, since British and Canadian airmen are required for combat service in England.

One possibility growing out of the recent occupation of Iceland is that the ferry command will turn over planes to the British in Iceland. Delivery to that point would reduce Aifero's ferrying job by about two thirds.

Marksmen Win Trips To Ohio

Jess Woody, Stanton, and George W. Hall, Big Spring, have received notice that their pistol shooting records have won them an expensive trip to national matches in Camp Perry, Ohio in September.

Woody is rated as a top state pistol shot and Hall as a runner-up.

This weekend they are in El Paso, participating in West Texas matches. Results of these matches, however, will not affect their trip to the national shoot.

Yoo-Hoo Okay By This General

EL PASO, July 12 (AP)—Attention, former Fort Bliss Commander Lt. Gen. Ben Lear.

First act of the El Paso country club's annual bathing beauty revue was a shadow show, featuring girls in bathing suits and shorts.

In the front row of the audience sat Major Gen. Innis P. Swift, Fort Bliss commander, one of the judges.

Up came the lights, revealing in silhouette the girls in bathing suits and shorts.

Lightning Kills Three Golf Caddies

LOUISVILLE, Ky., July 12 (AP)—Three golf caddies were killed by lightning here today and two others were knocked down as they accompanied players.

The dead were: Richard Cougler, 1; William L. Karger, 17, and Bob by Harding, 17. The injured were William Wild, 17, and Joseph Knight, Jr., 12.

Senatorial Election Probe Mentioned

PORT ARTHUR, July 12 (AP)—State Senator Allan Shivers tonight said he had found still more evidence indicating a need for an investigation into the recent Texas senatorial election.

He said he would present it to the general investigating committee, of which he is a member, in Austin Monday. He added that Rep. Martin Dies of Orange told him he would gladly appear before the committee and present records of his own campaign.

Cavalry To Get Gruelling Test

FORT ELIAS, July 12 (AP)—The cavalry, toughened by months of hard riding on the dusty, sunny border, sets out tomorrow to prove that horseflesh still has a place in modern warfare.

For two weeks the first cavalry division and the 56th cavalry brigade will test 17,000 troopers and their equipment in the most extensive mounted maneuvers of the current defense effort.

Vote For Raibe

DENVER, July 12 (AP)—The national convention of the Brotherhood of Locomotive Firemen and Enginemen voted unanimously today to stand firm on the demand of the rail brotherhood for a 50 per cent salary increase.

Nazis Say, Reds Deny Stalin Line Is Broken

RUSSIA PREPARES FOR GERMAN PUSH

By The Associated Press
Germany declared last night that Adolf Hitler's legions had broken the Stalin line "at all decisive points" but Soviet Russia maintained that stubborn fighting had produced no important change on the 2,000-mile front.

Nazi troops have thrust a spearhead more than 125 miles east of Minsk in the drive toward Moscow through the center of the front, the German high command asserted, and "signs of a break-up and dissolution are appearing among numerous enemy units."

Vitebsk, on the Dvina river 300 miles west of Moscow, was taken Friday, the high command said, Germans are advancing toward Leningrad east of Lake Peipus, on the Russian-Estonian frontier, and Nazi legions are "standing close before Kiev," the Ukraine capital.

A markedly different picture was painted in a midnight communique from the soviet information bureau in Moscow.

It declared stubborn fighting took place Saturday in the Pskov, Vitebsk and Novograd Volynski sectors, but that these engagements produced no important changes in the front.

In the Ukrainian operations, the German high command said "German and Rumanian armies moving out of Moldavia have thrown the enemy back to and over the Dneestr (river) on a broad front."

The Saturday communique of both Berlin and Moscow gave few details of the strategic situation.

Tass said that "the flames of a nationwide guerrilla war are enveloping the districts of soviet Byelo-Russia (white Russia) captured by German fascists. The agency gave numerous instances of these harassing tactics, notably in the region of Pinsk."

A Pravda dispatch from the front declared that that old Polish city, far behind the German front, still was in Russian hands.

Russian forces at Pinsk were said to be raiding the German rear, said to be raiding the German rear, said to be raiding the German rear.

Between the lines of the reports from Moscow one could read of intensive preparations for the German big drive toward Moscow was being cleared of children and the aged.

Deningrad was under heavy aerial assault. A Helsinki dispatch said great fires raged in the Russian base and industrial center after the latest German bombing. Railways and other transport and communication facilities of western Russia were under heavy harassment by the Luftwaffe.

Russia's readiness was illustrated by a section of the communique telling how German thrusts across two unidentified rivers had been smashed by air attack, artillery and finally infantry mop-up.

The trip will be made in a big cattle truck and two school buses, all starting from Sweetwater and picking up scouts enroute.

Scout leaders will leave from Sweetwater after a day and a half for a trek to Philtrum camp in the Cimarron canyon of northern New Mexico. They will return to Weed for another short haul with the rest of the scouts before camp breaks up.

The camp, known as Wahlinapay, is pitched in a pretty valley of Potato Canyon among a forest of white and Douglas fir, quivering aspen, ponderosa, sugar and other pine, and some spruce. Through the valley runs a small stream with water only a few degrees above the freezing point. Altitude of the camp is approximately 8,500 feet.

LUDOWICI, Ga., July 12 (AP)—Seventeen passengers of the Atlantic Coast Line Railroad's crack steamliner, the "Champion," were injured tonight when two engines and eight cars of the train were derailed after striking a cow.

Two of the seventeen persons hurt, Capt. Hubert L. Ketch, of the 132nd field artillery, Camp Blausling, Fla., and Miss Ethel Friedman, of Philadelphia, were taken to the post hospital at Camp Stewart, six miles from the scene of the accident at nearby Walthersville.

ASK PROHIBITION
ATLANTIC CITY, N. J., July 12 (AP)—The International Christian Endeavor Society convention called today for a return of prohibition "if the people of this country are to live together in sobriety and happiness."

Somewhere in Big Spring or vicinity there may be an honest and sympathetic person who can help a bereaved family very much by simply doing that which is right.

The person is the one who found a purse containing about \$40 in Big Spring Friday afternoon—probably across the street from the postoffice, somewhere near the curb.

This is the story: Thursday W. C. Boggan, farm laborer, was buried at Vealmoor, following an illness of several weeks that ended in his death Wednesday.

Friday his wife, his mother, Mrs. J. W. Harris, and other relatives came to Big Spring to pay some of the expenses accumulating during the emergency. They carried about \$50 in the money purse that had belonged to the late Mr. Boggan—a leather coin bag of old-fashioned type distributed a few years ago by local banks. It probably had the words "State National Bank" stamped on it, but the owners were not sure.

A few of the bills were paid, reducing the contents to something near \$40. Then the group stopping at the postoffice to mail letters to relatives. The purse was left in the car and while the group was in the postoffice it disappeared. They believe that the 15-month-old child of the Boggans threw it out the car window, and that it was picked up by a passerby. It is doubtful if the purse contained any identification.

The widowed woman directly needs the lost money. Perhaps the finder will read this item and return the lost purse and its contents to the owner, or to the sheriff or police.

Defense Contracts Draw Attention Of CC Directors

Chamber of commerce directors, convening in their regular semi-monthly session Monday at the Crawford hotel, likely will make a study of possibilities for cooperating with the OPM in national defense contracts.

Chamber officials said Saturday that there had been some response to appeals for manufacturers to list their production potentialities, types of products possible and machinery. However, the list was by no means complete.

In view of an Office of Production Management meeting this week in Abilene, leaders in the chamber were anxious to have a complete survey to ascertain if there is any way in which Big Spring can share in defense contracts.

Maginot Line Area Plowed For Crops

NEW YORK, July 12 (AP)—The Berlin radio announced tonight that the entire region of the French Maginot line had been plowed under and "is now again fruitful and productive farmland."

The broadcast, heard by NBC, said French farmers are being resettled in the Maginot region.

More Tax Needs Seen As Added Money Voted

WASHINGTON, July 12 (AP)—Mounting defense expenditures and controversies over tentatively approved new levies led today to capitol talk of further revision of the \$3,500,000,000 tax bill.

Ten days ago the house ways and means committee gave preliminary approval to legislation to raise \$5,044,400,000, but there were reports it might be revised materially and its presentation to the house delayed perhaps until Aug. 1.

Bill is designed to raise \$1,154,500,000 additional in individual income taxes, \$1,332,000,000 in corporation levies and almost another billion dollars in excise and miscellaneous taxes. It is in the hands of bill-drafting experts who expect to complete it next week.

Because of President Roosevelt's requests in the last two days for more than \$3,000,000,000 additional for defense, some committee members predicted an effort would be made to raise the tax bill's total now, rather than wait until later.

Boy Scouts Go To Camp This Week

Boy Scouts of Big Spring and other points in the Buffalo Trail council area will leave Thursday for 10 days of camping in the Sacramento Mountains near Weed, N. M.

Scout officials Saturday urged lads who have not yet sent in their camp applications to do so at once to insure a place and to guide authorities in supply purchases for the group.

Betty Grable And Don Ameche Teamed In Lavishly- Staged Musical Comedy

'Moon Over Miami' Produced In Technicolor

All the lavishness of "That Night In Rio," the melody of "Tin Pan Alley," and the eye-appeal of "Down Argentine Way" are said to have been brought together in the latest 20th Century-Fox Technicolor musical, "Moon Over Miami," which plays today and Monday at the Ritz theatre.

Framed against the lush tropical beauty of Miami, the glamour city of the South, "Moon Over Miami" features Don Ameche, Betty Grable, and Robert Cummings in their most delightful and entertaining roles. Charlotte Greenwood, Jack Haley, Carole Landis, and Cobina Wright, Jr. are other members of the star-studded cast.

This amusing film is the gay, tune-filled tale of how to invest an inheritance. Two sisters, Betty Grable and Carole Landis, induce their aunt, Charlotte Greenwood, to accompany them to Miami. All three have just inherited \$5,000, and Betty decides to invest it in clothes and a lavish suite at one of Miami's ritziest hotels. Her purpose is to hook a millionaire by

In Miami—That glamorous resort city is the setting for a musical revue in Technicolor, "Moon Over Miami" which graces the screen of the Ritz theatre today and Monday. Comely Betty Grable and Don Ameche are starred, with Carole Landis, Charlotte Greenwood and Jack Haley other featured players. Called one of the best of the new musical comedies, "Moon Over Miami" is lavish in color, songs and dazzling production numbers.

Tarzan Film Offered At The Queen

Guatemala Jungle Actual Setting For Adventure Story

That most popular of all fictional characters—Tarzan—is back on the screen, the result being a production called "The New Adventures Of Tarzan," which is offered today and Monday at the Queen theatre.

Herman Brix, world famous athlete and Olympic games champion, brings the title role to the screen in this new film. Others in the cast include Frank Baker, Ula Holt, Dale Walsh, Don Castello, Lew Sargent, Harry Ernest and the famous chimpanzee, Nkima.

The picture was filmed by the Ashton Darboott Expedition in Guatemala, Central America, and marks the first time in Tarzan history that an entire motion picture company with tons of freight and entire sound equipment trekked directly into the heart of the wilderness to make a picture.

The result combines all the thrills of action of the famous Tarzan stories with the realism of the actual jungle locale.

Wildcats In Area Attract Close Watch

SAN ANGELO, July 12.—Wildcatting attracted most attention in West Texas this week with locations staked for a deep test each in Pecos and Mitchell counties and for a Permian trio in western Crockett county, one east and two northwest of the Noelke field.

Another starter was between the South Sand Hills Ordovician field and a new producing area 4 1/2 miles southwest of it.

Completed producers from the Simpson, middle Ordovician, sand in the Abell field in northern Pecos county was increased to 12 and three other tests reached the pay.

The Snyder pool in Howard county was extended one-half mile northeast and the Walker pool in Pecos county one-half mile northwest.

The Snyder pool extension was effected by F. H. E. Oil Co. No. 1-B, D. H. Snyder, which pumped 182.04 barrels of 30 gravity net oil plus 10 per cent water in 24 hours, bottomed at 2,935 feet. It topped the pay at 2,620 feet, was shot with 710 quarts of nitroglycerin and treated with 2,000 gallons of acid. Location is 2 1/2 miles from the south, 467 feet from the west line of section 23-30-11-T&P.

Pure Oil Co. staked the Jacos wildcat, No. 1 T&P land Trust, etl, and others, 30 miles southwest of Fort Stockton. It will be 1,980 from the south, 660 feet from the west line of section 43-40-10-T&P. Drilling 8,500 feet is proposed.

Stumble started cellar and pits for a scheduled 8,500-foot wildcat in south central Mitchell county on the I. L. Ellwood estate ranch, 1,980 feet from the northeast and southeast lines of section 49-16-SP. Company rotary will be used. Humble has a block of approximately 30,000 acres.

Forest Development Corp. plans to start July 14 a projected 2,600-foot wildcat in western Crockett county on the J. M. Shannon estate ranch, 467 feet out of the southwest corner of lot 20, league 2, Archer county school land survey. The test will be about 1 1/2 miles north-northeast of McCandless & Gregory No. 1 Shannon, a 2,800-foot failure 2 1/4 miles east and one-half mile north of the discovery Soma-Schooler producer in the Noelke field.

Train Strikes Cow, Causing Derailment

JACKSONVILLE, Fla., July 12 (AP) — Atlantic Coast Line offices here said tonight that the two engines and first eight coaches of the railroad's streamliner "Champion" were derailed but remained upright at Walthourville, Ga., tonight when the train struck a cow, causing a switch to open.

The offices said first information was that no injuries were suffered by passengers or train crew.

'Midnight In Miami' Stage Revue At The Ritz On Wednesday

Program at the Ritz theatre is enlivened this week with a stage revue which is billed for one-day presentations, on Wednesday. Titled "Midnight In Miami," the 60-minute show includes comic acts, dancing, singing, wire artists and a chorus of ten dancing girls.

An hour-long program includes variety acts, featuring a bathing beauty revue. The troupe carries a six-piece swing band.

Entertainers will include Martin Boone, tap dancer de luxe; the Newman Brothers, knockout comedy artists who played a turn at the S. S. N. Francisco exposition; Kohn and Depinto, "hot and sweet" singers; McGrath and Deeda, a

comic team; and the Rosanna troupe, tight wire artists; the Miami Melody Men, and the 10-girl chorus.

Matinee and evening shows will be staged, and special prices will prevail. "Midnight In Miami," brings a change in film booking at the Ritz for the week. With the stage show, the screen attraction will be "Sweetheart Of The Campus," with Ruby Keeler and Harriet Hilliard. On Tuesday, for a one-day showing, the feature will be "They Meet Again."

Washington Traffic Cops Tighten Down On Wasteful Gasoline Users

WASHINGTON, July 12 (AP)—Fifty-two District of Columbia motorists received today a sample of what may be in store for automobile drivers throughout the east due to the shortage of gasoline in this area.

Their fuming exhausts indicated excessive use of the fuel. They were escorted to police headquarters, and there some of the drivers did a little personal fuming, while their cars were inspected.

A special testing device showed fifty of the automobiles were using excessive quantities of gasoline. "Red stickers" were issued against their operators and they were given ten days in which to make mechanical adjustments.

If the adjustment is not made in 10 days, the annual permit for operation of the car is suspended and the car barred from the road until it is fixed.

It was a part of a campaign by Interior Secretary Ickes, the defense petroleum coordinator, against waste of gasoline. He announced this week he would ask officials of eastern states and cit-

ies to arrest drivers for using what he described as "oil burner cars" and for making "jack rabbit" starts.

Ickes has also passed word around that unless gasoline consumption is extensively reduced, it may be necessary to issue ration cards for the fuel. Meanwhile, he instituted a conservation program here.

It calls for fewer stops by buses, less cruising by taxicabs, elimination of week-end deliveries by trucks, carrying home small packages to reduce store delivery operations, and sharing the car with others on regular trips such as to and from work.

The office of the petroleum coordinator also announced during the day the appointment of a series of committees throughout the country to advise on coordination of the petroleum conservation program. Members of the committees were nominated by the industry.

Philanthropist Of z Graham Succumbs

GRAHAM, July 12 (AP)—Malcolm K. Graham, 69, financier, philanthropist and author of several books on finance and economics, died at his home here today. He returned by ambulance plane Monday from an operation at Rochester, Minn.

As an individual and through the Graham Foundation, he had given large sums to many institutions and projects. Among his books were "Gold," "Continuous Prosperity," and "The Synthetic Wealth of Nations."

Bill McGraw May Enter Air Corps

DALLAS, July 12 (AP)—Former Texas Attorney General William McGraw said today he had received no notification as yet that he was to report for active duty as air corps reserve captain at Kelly Field, San Antonio.

Washington army orders earlier in the day included the former candidate for Texas governor who served overseas during the World war as lieutenant in a machine gun unit.

Markets At A Glance

NEW YORK, July 12 (AP)—The stock market today concluded its best week in more than a year with irregularly higher tendencies. Hopefulness over business persisted as a bidding incentive, brokers said. There was some trimming of accounts, however, as the nazis began a new and heavier smash at the reds. Fears of much bigger taxes than most had expected also was a restraining influence.

The Associated Press average of 80 stocks was up .1 of a point at 43.5 and on the week showed a net gain of 1.6 points, largest upturn for any similar period since June 1940. It was the third successive week's rise in this barometer.

Western Union, Greyhound, Newport Industries and Chesapeake Corp. posted new tops for the year. On the upside were crevice steel common and preferred, Chrysler, Sears Roebuck, Southern Pacific, Eastman Kodak, Kennecott and Texas Corp.

Grain

CHICAGO, July 12 (AP)—A fractionally lower trend of wheat prices today reflected hedging sales against limited quantities of grain going into commercial channels and the market's unsettled condition due to controversy over the quota penalty and congestion of receipts at terminals in the harvest area.

Losses were held to about 1-2 cent due to moderate support that came from mills and professional interests and wheat closed 1-8 to 3-8 lower than yesterday, July 12.04 7-5, September 12.06 1-2 to 5-8. Corn finished unchanged to 1-8 higher, July 73 5-8, September 75 7-8; oats 1-4 to 1-2 lower; soybeans 1-8 to 1 cent higher; rye 1-2 lower to 1-8 higher and lard 10-20 higher.

Senate Vote Canvass Due Monday Count Could Alter Result Of Election

AUSTIN, July 12 (AP)—Whether "hillbilly" Governor W. Lee O'Daniel or New Deal Congressmen Lyndon B. Johnson two weeks ap won the bitter battle for the U. S. senate seat of the late Morri Sheppard should be declared officially Monday.

Barring unforeseen development, the official returns from the special election of June 28 will be canvassed by the secretary of state in the presence of the governor and the attorney general, the tri being known as the state election board.

Unofficial tabulations by newspaper shortly after the election gave Governor O'Daniel a lead of 1,005 votes over Johnson, the nearest of approximately a score of opponents.

The governor had pulled ahead of Johnson, who had the blessing of President Roosevelt, in a last minute count of votes from the "forks of the creek," after lagging back of the representative for two days and generally being thought a loser.

So tight was the race the chance of only a few hundred votes in favor of Johnson and against O'Daniel might alter the result as shown by the unofficial. The possibilities of errors and corrections were conceded.

When the election board met at 9 a. m. in the office of the secretary of state, two investigating committees of the state senate likewise will be poised for possible inquiries into charges hurled variously since the election that state and federal statutes had been violated during the campaign.

Principal allegations were that candidates' expenses exceeded legal limitations and that the Hatch act prohibiting political activity by government employes was ignored.

It's there with an Extra Wallop in reserve

SOMETIMES in your automobile you want zip and ginger, sometimes thrift.

Just name your choice. In this high-stepping Buick straight-eight with Compound Carburetion you can have either, each in its proper place.

You can go about your business in easy, ordinary, everyday travel—and this frugal, two-carburetor system will keep you rolling smoothly with only the forward, thrift-size mixer on the job.

Yet any time you want life, lift, super-power it's there with an extra wallop in reserve—just step down on the treadle and you've got it.

That simple move sends

the second carburetor into action; steps up not only fuel supply but the air supply as well.

Thus you have your fun—and frugality too. Owners report mileage figures as much as 10% to 15% higher than on previous Buicks of the same size.

Which means, better go look at the engine that's both thrill-packed and thrifty too. You'll find it in a bigger, roomier, smarter-looking automobile that gives you more value per dollar than anything else you can buy.

Available at slight extra cost on Buick Special models, standard on all other Series.

Gulf Super Service Station Represents Newest In Field

Well, At Least She Is Frank About It

DES MOINES, Iowa, July 12 (AP)—Iowa Department of Public Safety employees received an apologetic letter from a young woman.

"I'm sorry to be so much bother," she wrote, "but will you change the address on my driver's license since the room rent is coming due and I have to move."

It's Another SUGGS JOB! ... that's the new **GULF SERVICE STATION** which observes **FORMAL OPENING TOMORROW** Corner Gregg & 4th

We are especially proud of this new structure... and take this occasion to join the management in extending to you an invitation to inspect this modern station Monday.

SUGGS Construction Co.

Ollie McDaniel Will Operate New Business

The modernistic beauty of the new Gulf Service Station at West Fourth and Gregg streets is more than skin deep.

Not only is the super-service station modern in appearance and architecture; it is also equipped with up-to-date accessories to provide fast and efficient service for customers.

Coupled with this assurance of proper attention for the automobile is the added recommendation that the station is being operated by Ollie McDaniel, a popular Big Spring man returned home again after two years in a neighboring city.

"You just can't stay away once you've lived in Big Spring for a while," said McDaniel. He came to the city in 1926 and was associated with his father in operation of the Big Spring Hardware company until leaving two years ago.

During that time he became acquainted with many residents of the city, and his reputation with them will contribute a lot to the warm reception his station is receiving. In fact, it is already getting that hearty reception and early business is exceeding McDaniel's original expectations.

McDaniel and his staff want their customers to turn their cars over to them for safekeeping, and promise to attend to everything the automobile needs, checking regularly on all lubrication and other service needs.

But whether the customer is a regular or a one-time caller, top-notch service is promised. "We believe our front service is going to outclass anything this town has seen," said McDaniel. He will have equipment handy and every car will get a servicing — including brushout, windshield wiping and other courtesies — that can't be beat.

There's little danger of clogged driveways inconveniencing customers at the Gulf Service Station. The

station has been built on a 100 by 100 foot lot and much of this space is devoted to driveway and parking places. There will be room for everyone.

Washing and greasing can be carried on with equal speed and efficiency in hot weather or cold, wet or dry, for washing and greasing racks are inside the big station. Rest rooms—there are three of them—are luxurious.

A line of accessories equal to that in any filling station will be on hand, along with U. S. Royal tires.

Many customers and visitors will want to drive into the beautiful new porcelain-enamel station for an inspection of the place, but those who are too busy to carry their autos there for greasing or other service may telephone and an attendant will pick up the car, service it, and deliver it back to the owner.

"Regardless of what is the matter with your car, call us and we'll attend to it or have it done," McDaniel promises.

On McDaniel's staff at the station is O. D. Hair, Bill Gage and Ollie Tom McDaniel.

Woman Gets Taxi Driving Job

AMARILLO, July 12 (AP)—Mrs. Gladys Wilmet, 24-year-old brown-haired mother with a ready smile and three daughters, donned a Black and White driver's cap, white blouse and black slacks and today was the Plains country's first bona fide city woman taxi driver.

Last week, she applied for a job at the Triple A Taxi company. Officials were startled. This week they not only decided to hire Mrs. Wilmet but begin training other women drivers.

Selective service, national defense employment and enlistment in armed services are making men drivers hard to secure, they explained.

Underpass Finished At Colorado City

COLORADO CITY, July 12 (Sp)—Work has been finished on an underpass at the east end of the Texas & Pacific railroad's Colorado river bridge in Colorado City. This underpass links the main section of town with the area immediately south of the railroad tracks. The oil mill and other enterprises are located in this area.

With completion of the gravel road and underpass, and with completion of the new Highway 101

underpass some distance to the east, all railroad crossings in the main section of town will have been eliminated.

R. L. Tollett Named To Place On Petroleum Defense Group

Appointment of Raymond L. Tollett as a member of a district committee on refining which will function with Harold L. Iokes in coordinating petroleum activities for the purpose of national defense was made public Saturday, with an interchange of telegrams.

Tollett, president of the Coedon Petroleum corporation, had been recommended for a place on the committee by a number of Texas and Oklahoma oil groups. Under the advisory setup, Petroleum Coordinator Iokes is naming four committees—one each for production, refining, transportation and marketing—in each of 12 areas of the nation. District 3 will include

the Southwestern states. Iokes telegram to Tollett read: "Pursuant to the president's letter of May 26 appointing me and defining my duties as petroleum coordinator for national defense I hereby designate and appoint you to serve as a member of the district refining committee of the petroleum industry for district 3, as such district was defined by me at the conference of the petroleum industry held in Washington, D. C., on June 19.

"Your appointment shall continue for such period as shall be deemed necessary or appropriate and in view of the unlimited national emergency proclaimed by the

president on May 27, I request that this service be provided without compensation. The duties of the committee shall be to advise and consult with me and with the deputy coordinator and local representatives to be designated on matters relating to the proper coordination of the activities of the petroleum industry for national defense as set forth in the president's letter of May 26 and in the same connection to assist in the performance of such specified recommendation or directions as may be issued. I shall appreciate by wire an early expression of your willingness to serve in this essential part of the national defense program."

Tollett wired an immediate acceptance in accordance with terms of the appointment. He told The Herald Saturday he had received no communications yet as to the next steps to be followed by his committee.

Visitors Win Amateur Hour Events Here

Out-of-town artists captured awards in the Friday amphitheatre program, termed by many as the best of the current series of community entertainments.

First prize went to Rosemary Watson, talented acrobatic dancer from Brownwood. Mrs. Anne Gibson Houser accompanied Miss Watson. Second place went to Vivian Giddens, Colorado City, whose spirited tap number was accompanied by Mrs. W. R. Martin of Lorraine. Shirley Ann Wheat, Coahoma, captured third place.

Hits were scored by the Colorado City male quartet composed of Pete Pickens, Elmer Pickens, Arlene Morris and Troy Methins, and by the instrumental trio made up of Walter Deata, Bertie Fallon and H. C. Burnett, Jr. Both groups were non-competitors.

Lex James injected a novelty into the program when he played one of his own piano compositions. Other numbers on the program were cheered generously by the audience, estimated up from 3,500.

Master of ceremonies for the evening was Cliff Wiley. Next program will be Friday evening in the city park stone bowl.

LINCOLN Custom V12
8-PASSENGER SEDAN

A Distinguished Luxury Car—

LINCOLN has this year created two remarkable Lincoln luxury cars, the Custom 8-passenger Sedan and Limousine, that are distinctive in appearance, moderate in price and unusual in design.

Engineered with complete freedom from excess weight, these modern Lincoln-Custom types, on 138-inch wheelbase, have more inside room than any Lincoln ever provided before. In the Sedan or Limousine, is ample seating capacity for eight passengers, with plenty of head

room, leg room and elbow room. There's no crowding even when your party is in evening dress. This beautiful, richly appointed Lincoln-Custom car has already established a new buying trend among motorists who want their cars to afford ample room for all occasions—yet to retain flashing performance and handling ease.

We will be glad to arrange a demonstration of either the Sedan or Limousine at your convenience, and without obligation of any kind.

Lobos Beat Hubbers 14-5

LUBBOCK, July 12 (Sp)—Drops of water eventually will wear away a rock, Lubbock's Hubbers learned at the unmerciful and persistent hands of the Lamesa Lobos here Friday night.

Hitting only twice out of 15 times extra bases, the Lobos swarmed over the Hubbers for a 14-5 win. Brown's double and Lang's triple were the only Lamesa hits out of the single class, but those bingles were well placed enough to make all but one count for a run. From the third when the Lobos exploded with four runs, Lubbock was never seriously in the ball game.

Fourteen Hits Give 14 Runs To Winners

PAMPA, July 12 — The Lobos hammered the Big Spring Bombers to a 14 to 6 defeat here tonight, mercifully pounding two pitchers. The defeat cut Big Spring's league lead to three games, as Berger won its game over Lamesa, 12 to 2.

In addition to getting 14 runs out of 14 hits, the Pampa team had 13 men die on base.

Bob Kohout allowed 10 hits for 7 runs in 4 and 2-3 innings. Reeves allowed 4 hits, 7 runs in 4 innings, and Ramsdell allowed none in 1-2 inning on the mound.

Left Handers Take Top Mound Honors

Left handers finished the first half of the West Texas-New Mexico league campaign with most of the top honors, but the Big Spring hurling corps, without a portside, sat on top of the stack when it came to winning averages.

Johnny McPartland, Pampa wrongsider, tacked up a 1.7 earned run average for the initial half of the chase to edge out big Charlie Wheelchel, Bomber righthander, who had 1.3.

Close behind him was Bob Kohout with a minute fraction over two earned runs a game against him.

Bombers Win 6 To 1 Over Wichita Falls

Big Spring's rampaging Bombers celebrated an "appreciation night" at Roberts field Friday by rallying behind Willard Ramsdell in his 15th victory of the current West Texas-New Mexico league season, stomped the Wichita Falls Spudders 6-1 in so doing and added a half game to their lead over rained-out Berger.

The Spudders got their lone tally of the evening before Ramsdell really got his chunkin' muscles loosened up. After Hernandez rolled out meekly, White worked Ramsdell for a walk, took second on a misplay by Greer, advanced on Haley's blow and came home on Hall's sacrifice to right. That was all for the night, for only in the eighth, when Poltras erred on Bolton's roller did a man reach third.

Trailing until the third, the Bombers got back into the game when J. L. Haney leaned quite too heavily on one of Lucas' corpulent offerings and planted it outside the park. Things rocked on in pitchers-duel fashion until the seventh when Pete Zaitrovich got his first hit of the evening and made the most of two successive Spudder errors to score.

Then in the next frame, Big Spring went to work in earnest after Reeves and Shillings had rolled out meekly. Poltras connected for two bases followed by Zaitrovich's sharp hit. Zmitrovich stole second to take advantage of Zigelman's single and circle around on Ramsdell's triple. Haney hit to shove Ramsdell across before Lindsey whiffed to end the damage.

Reds Defeat Brooklyn, 3-2

BROOKLYN, July 12 (AP)—Bucky Walters slowed up the red-hot Brooklyn Dodgers today by pitching a superlative six-inning to give the stumbling world champion Cincinnati Reds a nerve-tugging 3 to 2 victory.

In spite of the loss the league leaders retained 3 1-2 games ahead of the St. Louis Cardinals, who were beaten by the New York Giants.

The Reds had been blasted by Brooklyn bats for two days, but today Walters weakened in only one inning—the eighth—when the Dodgers pushed across their two tallies.

Warren Wright Nags Win Three Events

CHICAGO, July 12 (AP)—Warren Wright of Chicago, owner of famed Whirlaway, entered three two-year-olds in the rich Arlington Futurity today and won a clean sweep.

The winner was Sun Again, a sturdy son of Sun Teddy-Hug Again. Some Chance was second and Washbone third.

The Swing That Did It

AP Feature Service
Joe DiMaggio has probably the finest first 5-year record in baseball history.

He was a standout rookie as a great defensive center fielder, an accurate thrower, and a powerful hitter.

He led the American league in triples his first year and in home runs in his sophomore campaign with 46. He has been the batting champion for the past two years and among the leaders in runs batted in. He was the league's most valuable player in 1939.

Here's a catcher's eye of the powerful DiMaggio swing:

DiMaggio presents this picture as he steps into the box and watches the pitcher get set.

The ball on the way and DiMaggio's smooth swing is well under way to meet it.

Contact! And the ball is getting a ride. DiMaggio's powerful wrists are big batting help.

Joe follows through. In a split second he will be off for first, another hit to his credit.

Country Club Will Hold Labor Day Golf Tourney

Repair Work Won't Stop Annual Meet

Doubts that the Country Club would go on with its 11th annual golf tournament during the Labor Day holiday season were dispelled Saturday by Jimmy Gamewell, manager of the club.

No such thought is in mind by the Country Club heads, said Gamewell here Saturday.

He conceded that adjustments would have to be made in routing play entirely over nine holes, but he estimated that a field of 150 could be handled efficiently in 18-hole matches by doubling over the playable nine holes.

Incidentally, he declared that play would be over the grass greens of the front nine, although he anticipates no play on them for at least another week. This being the case, it will mark the first time in history of the Country Club event that play has been on grass greens.

Suggestions that a larger field might be handled by playing half on grass and half on sand greens were brushed aside by Gamewell as impractical. If the field is larger by far than 125—and he anticipated it would be—then some in the extreme lower flights may be asked to restrict play to nine holes the first day. After that the field will be whittled out.

First Week's Tennis Play Is Concluded

Week's results of amateur tennis matches being held at the city park in the semi-finals show Hask Jordan, Avery Falkner, J. O. Vineyard and Pete Kling as winners in their single divisions.

For the women, Mrs. Woodrow Campbell, Dorothy Bradley, Mrs. Tom Malaise and Mrs. Edmonds show as winners in their single matches.

Results: Jordan won 6-0, 6-2 over Leslie Christensen, and Falkner won by a default over Bob Ward. Vineyard and Jordan will be in the play-off.

Fred Stitzel and Snooky Donovan were scheduled for a match, the winner is to play Vineyard who won over George Bishop, 6-2, 6-1.

Jack Wallace and the Rev. C. Casper were to play and the winner to contest Pete Kling, who won over Eddie Shuck, 6-1, 6-0. George Tillinghast and Tom Malaise were scheduled to play and the winner is to take on the winner in the Cole and Kirk Simmons match.

Col-Tex Tops League At Colorado City

COLORADO CITY, July 12 (Sp)—Col-Tex moved into top place in the Mitchell county softball league this week by defeating Cuthbert 12-9. Both teams were unbeaten before the game.

The City National Bank team now shares second place with Cuthbert. The two teams will play Monday night to determine which stays in second place. Each has been defeated one time.

Army Calls Best Of Southwest Gridders

Associated Press Sports Writer
Southwest Conference football coaches have more than the usual quota of if's with another season less than two months away.

The usual ones are caused by the gaping holes left by graduation. But the big question right now is what's to happen to those dependables listed on 1941 rosters.

The University of Texas has long been favored to win its first title in a decade but opinion was somewhat shaken by happenings of the past week.

For instance Saturday found both of Texas' letterman at center—J. W. Goodwin and David Thayer—being inducted into the army as flying cadets. Also inducted were Jesse Hawthorne, Texas letterman end, and Doyle Hardy, a freshman star at left season.

And several more Longhorn first-stringers are on the border line of being taken by the army.

Just how hard his five other teams will be is problematical, although none is expected to lose in numbers as heavily as Texas. But its virtually certain that Texas A. and M., co-champion and winner of the 1941 Cotton Bowl game, will not be materially affected.

The Aggies are not due to see any of their juniors and seniors depart because they all are either taking or have applied for the advanced course in military science and tactics which automatically removes them from the draft.

But here's a birdseye view of the situation for the other six conference members at this time.

Southern Methodist, co-champion last year with A. and M.—eleven lettermen registered, one of them, E. L. Keeton, crack wingman, due to be called by Army. Three freshman prospects eligible to be drafted.

University of Texas—In addition to the three lettermen who have already entered the service, Coach D. X. Bible faces the prospects of losing three more—Fullback R. L. Harkins, End Mike Sweeney and Tackle Derwood Feveto—any day now and with more than that number in line for induction before September.

Baylor—Not so much the quantity as the quality. Big Jack Russell, all-conference end, is most likely to go before the training season opens. That, say Bear backers, would mean something like half of that good old Baylor line.

Texas—Twenty-five members of the squad have registered but only two, Otto Young, sophomore end, and Albert Kopert, junior tackle, are likely to be called before the season opens. However, Arkansas already has lost pretty heavily that with Harold Hamberg, last fall's passing ace, accepting an appointment to the United States naval academy; four top freshmen prospects either being called to the national guard or volunteering, and with Fullback Ogden Bohn joining the air corps.

Rice—Bob Brumley, great fullback and backbone of the Owl team; Marvin Dewdney and Wendell Garrett, ends, are believed close to the bugle call.

Texas Christian—Fifteen members of the squad have registered but none has been drafted as yet. Tackle Woodrow Adams appears most likely to be called.

SENIATORS 5, CHISOX 3
CHICAGO, July 12 (AP)—Washington ended the White Sox' three game winning streak by taking the finale of a three game set with the Chicagoans today, 5 to 3. Dutch Leonard allowed nine Sox hits, while the Senators bunched a similar number off Buck Ross.

Catcher Mike Tresh of Chicago was handled by Umpire George Figgars 7-5, to sweep their three-game series.

BOSTON WINS TWO
DETROIT, July 12 (AP)—Boston took both ends of a doubleheader with the Detroit Tigers today, Cecil (Tex) Hughson hurling the Red Sox to a 10 to 2 victory in the nightcap after another rookie, Heber Newsome, had pitched them to a 7 to 5 triumph in the opener.

PHILLY 4, INDIANS 3
CLEVELAND, July 11 (AP)—Philadelphia bunched their 11 hits when it counted today to take a four to two decision from the Cleveland Indians. Right spot was a fifth inning home run by Wally Moses who crossed the plate behind Al Brancato, and Lester McCarroll's five-hit pitching. Al Milnar gave the Athletics 10 hits in seven innings before he was replaced for a pinch hitter.

Nelson And Chezzi In Finals Of PGA

By BUSS NEWLAND
 CHERRY HILLS, Denver, July 12 (AP)—Broad-shouldered Byron Nelson, master of the iron shot, clamped a stronger hold on his Professional Golfers Association championship today when he bowled over doughty little Gene Sarazen 2 and 1 in a pair-hitting 50-hole semi-final match.

As a result the big fellow from Toledo, Ohio, who won the crown last year at Hershey, Pa., will defend it in 36-hole finals against Vic Ghezzi, Deal, N. J., who outlasted slim Lloyd Mangrum, Monterey Park, Calif., to win 1 up after being 4 up at the 24th.

Nelson had no snap in conquering 39-year-old Sarazen, possessor of the most illustrious career of the lot. The squire from Connecticut went down fighting and the applause of several thousand fans was not less for him than for the

man he congratulated with a hearty handshake on the 35th green.

The defending titleholder shattered par and the hopes of older Sarazen with a brilliant assortment of shots, mainly to the greens. He's the Deadeye Dick of the game in this respect.

When he finished, he was four strokes under par for the Cherry Hills course. Sarazen, who donned the robes of a PGA kingpin in 1922 for the first of three times, about the time Nelson was a 10-year-old boy, ended up three under par for the match.

Poloists Play Lamesa Today

Big Spring poloists, after a week's enforced lay-off, will essay to ride over the Lamesa Blacks in a game called for 3 p. m. today on the Lamesa field.

Due to be in the saddle for Big Spring are Dr. M. H. Bennett, Lloyd Wasson, Lewis Rix and Gus White, Jr. Lamesa youth who rides regularly with the Big Spring contingent.

Probably the Blacks' line-up will consist of Elmo Smith, Lynn Parkinson, Bryan Fulkerson and Sol Cleveland.

Last Sunday Lamesa sent its Whites here for a tilt on Bennett field and had a dashing rain not intervened, Big Spring might have absorbed a beating and a polo lesson at the same time. However, the game got through a mere three chukkers.

Lookin 'em Over

With Jack Douglas

Blessings on this hot weather, says Harold Akay, manager of the Myny golf course and swimming pool. Sunshine (excluding one blustery afternoon) last week had a beneficial effect on the golf crowd, but an even better result in drawing customers to the natorium. It was, said Bro. Akay, a pretty good week for the pool.

Added to the general public response was the presence of a fair-sized Red Cross life saving course and a class of swimming beginners. The latter group, under Walton Morrison, started with a small number but has steadily increased in size. It's good business, for these youngsters get enthusiastic about swimming when they learn.

Perhaps the answer to why Big Spring is on top and has managed to hold that place for so long many weeks in the W-T-NM loop may be seen in the averages of pitchers and the team fielding averages. Three of the "big four" hurlers are in the 700 series bracket. Teams fielding stand at 350, or 10 points better than the nearest team. And 10 points on a team basis is a pretty good margin. But what we started out to say was that the Bombers simply have been holding down opposition scoring to a point where a few hits and smart baseball can beat it. Apparently it works.

Jimmy Gamewell thinks there is good possibility that play on the Country Club front nine will be permitted in about a week. Currently a bearing is out of the mixer, preventing top dressing of the greens. When they get this added dressing, Gamewell plans to turn the golf-bunny clubhouse loose on the greens. Rain washed out some of his bent grass seed and it may take another sowing to overcome the predominance of bermuda.

Obie Bristow has been instigator of a foursome playing some sort of make-believe round over the club's front nine. With Herman Stewart, Shirley Robbins and Lib Coffee, he has been playing from tee to green with each taking two strokes automatically for puts. On the basis of his play, Bristow predicts that it won't be a difficult course unless eager dubs go wild from the tee. Then it will be plenty rough.

Into the sanctum of Prof. Jimmie Eason we went to learn of our feathered friends. "What kind of a dove and quail crop will we have this year," we asked. "Good," said the professor, without even shaking his clippers. "Best it's been in years." He went on to explain that rains have not drowned the young and now that they are up to a size sufficient for self-protection, they find an over-abundance of cover, water and food. And it's not a local condition. Both abound over the area.

Next year there ought to be some plenty good fishing at Moss Creek lake. The city has indicated it may be opened then to sportmen, and it should be a paradise. Heavily stocked, the lake has nothing but game fish unless some beautiful blue channel cat would be termed otherwise. Us catfish fishermen won't mind that. (Joe Pickle pinch-hitting for Jack Douglas).

Tulsa Places Most Men On All-Star Nine

DALLAS, July 12 (AP)—Tulsa's hustling Oilers, waging a merry battle with the Shreveport Sports for the runner-up slot in the Texas league race, placed the most men in the sixth annual all-star game scheduled Wednesday at Beaumont.

The Oilers came through with seven to lead the North squad while loop-leading Houston and Shreveport tied with six each to top the South selection.

Approximately 90,000 fans—40,000 in the North and 50,000 in the South—chose the squads.

Here are the two squads:
 North—pitchers, Henry Wyse, Tulsa; Sal Glatto, Dallas; Stan Goetz, Oklahoma City; Ed Greer, Fort Worth; Roy Davis, Tulsa. Catchers, Salvador Hernandez, Tulsa; James Hagan, Oklahoma City. First base, Ed Waitkus, Tulsa. Second base, Clyde McDowell, Fort Worth. Third base, Glenn Russell, Tulsa. Shortstop, Bill Skelly, Fort Worth. Left field, Nick Gregory, Dallas. Center field, Missel Fleet, Tulsa. Right field, Heston Becker, Dallas. Utility infielder, George Jansco, Dallas. Extra outfielder, Harry Oana, Fort Worth. Manager, Roy Johnson, Tulsa.

South—pitchers, Howard Pollat, Houston; Fred Martin, Houston; Leslie Mueller, Beaumont; Jack Brillheart, Shreveport; Ralph Hamner, Shreveport. Catchers, Sam Naron, Houston; Al Unser, Beaumont. First base, Murrell Jones, Shreveport. Second base, Joe Wasing, Beaumont. Third base, Joe Wood, Beaumont. Shortstop, Tony York, Shreveport. Left field, Willie Norman, Houston. Center field, Harold Epps, Houston. Right field, Vernon Washington, Shreveport. Utility infielder, Joe Vitter, Shreveport. Extra outfielder, Al White, San Antonio. Manager, Eddie Dye, Houston.

Borger Blasts Lamesa, 12-2

BORGER, July 12.—Blain's Bill Garland won his thirteenth victory of the season here tonight and ran his strikeout string to 173 as he pitched the Borger Gassers to an easy 12-2 victory in the series opener.

Garland never was in trouble as he scattered six Lobo hits and three fast doubleplays erased any threats that might have arisen.

Lang, Lobo shortstop, was the only Lamesa player to score. He got two hits, including a smashing homerun over the leftfield fence in the seventh, and scored two runs.

Blaine Peterson was the heavy hitter for Borger. He got two hits including a triple, and drove in five runs.

Staretor Shows His Stuff Again

LOS ANGELES, July 12 (AP)—Staretor strengthened his claim as one of the nation's outstanding three-year-olds today when he whipped seven rivals in the fourth running of the \$25,000 Hollywood Derby.

The Delaware-bred colt, owned by Hugh S. Nesbitt, of Los Angeles, flashed across the finish line three-quarters of a length in front of his arch foe, C. S. Howard's Forter's Cap, while the crowd of 25,000 which had installed him as a 6-5 favorite, cheered lustily.

A Glimpse Of The Future is provided in this view of the modernistic new Gulf Service station at West Fourth and Gregg streets, being operated by Otis McDaniel. Not only is the station modern in appearance, but in service. (Photo by Kelsey).

New Record Run Beats Our Boots

NEW YORK, July 12 (AP)—Our Boots, who once was Whirlaway's jinx and hopes to make the whammy work again, lost the Empire City Handicap today, but it took a new track record to beat him.

The winner in this 41-year old stake for three-year-olds, run off at the Yonkers track, was Mrs. Payne Whitney's Swing and Sway, husky son of Equipoise who came through on the inside of Our Boots at the head of the stretch and then fought him off all the way home to win by a head.

Arlington Downs Stables Wrecked

FORT WORTH, July 12 (AP)—Visitors' stables at Arlington Downs, Texas' most pretentious horse racing plant during the brief revival of the sport, were being torn down today.

"We are wrecking some of them, and we may tear down all of them," G. W. Turpin, manager of the W. T. Waggoner estate, said.

Chisox Manager's Suspension Lifted

CHICAGO, July 12 (AP)—William Harridge, president of the American league, tonight lifted his suspension of Jimmy Dykes, Chicago White Sox manager.

"We can get a good price for the lumber now," he added, "and by tearing them down we are riding ourselves of the constant maintenance expense."

Seixas, Vogt In Tennis Finals

PHILADELPHIA, July 12 (AP)—First seeded E. Victor Seixas of Philadelphia and fourth-ranked Bill Vogt of Pottstown, Pa., gained the finals of the National Intercollegiate Tennis championships today.

Seixas eliminated Richard Hart, Miami, Fla., 6-4, 6-1, while Vogt turned back Irvin Dorfman, De Witt Clinton high graduate of New York City, 6-3, 6-4, in the semifinal round at the Merion Cricket Club. Seixas and Vogt will meet for the title tomorrow.

Honeymoon Bound—or just making the most of a day at the races—these two are dressed for gaily. The girl—Brenda Marshall, Warner Brothers play—wears a powder blue crepe costume topped by a snug-fitting jacket, set off with a navy blue hat and accessories. The man wears a brown and beige sports outfit.

Miss Laneous Notes

The latest news from the Hollywood storm cellar is that Will Rogers life is to be filmed for the movies. That all sounds fine and dandy but it is our thought that it will have to be awfully good to get approval of the nation. First, there are going to be so many people who remember the fun-loving cowboy. And they are going to remember him as he was with them. There will be so many types of people, because Rogers knew everybody, who knew how he talked, what he said, and the jokes he drew.

Then, his friends, and that's what everybody counted themselves with him, are not going to like seeing portrayed any human frailties that the man undoubtedly had. But if the movies present a perfect character, that he won't seem real. 'Course those mighty moguls in their modernistic offices in Hollywood probably got these things all thought out. And no doubt they have the answers all figured out. But just between us folks, Mr. Producers, your picture is going to have to be plenty good to be good enough for Mr. and Mrs. John Public. They who laughed so many times with him via newspapers, radio and screen feel like they knew him too.

Get a Hobby and Ride It—From Chaucer To Donald Duck, Pitcher Collection Contains All Types Sizes, And Kinds

Few people except perhaps high school seniors, would attempt to put Geoffrey Chaucer and Donald Duck on the same level, but Mrs. Joe M. Corcoran does it, and very effectively, too.
Mrs. Corcoran has been collecting small pitchers for about a year now, and among her collection she has not only Chaucer's elfish face and Donald with everything except the quack, but more than fifty other pitchers.

When Mrs. Corcoran purchased several small pitchers last year, she didn't realize that they would grow in number from three to fifty-five and that they would come from Arizona, Nevada, France, Bermuda, New Mexico, Old Mexico, Utah and many cities in Texas.
Smallest of the personality pitchers is a green one from Fort Worth, not quite an inch tall. Largest are two Quaker men from Dallas whose

heights, complete with three-cornered hats are about four inches tall.
All of the small water jugs are unusual, but some have personality—plus. For instance the small in-chinch sterling silver or the purple swan which uses its neck as a handle. Perhaps the little corn cob, the little gold serving set, the clay pitcher with basin, or Ferdinand the bull would catch your fancy. In the group Mrs. Corcoran has two blown glass pitchers, two white antiques, a very unusual blue candle holder and five from Mexico.
Perhaps it's their value, which ranges from fifty-cents for the smallest, up and down to ten cents because they come from places like Old Mexico and Bermuda; or maybe it's just because they look so attractive on her two shelves but the small pitchers take up space in both the home and heart of Mrs. Corcoran.

It's About Time...

It's About Time to show a little intelligence about sunbathing. If you become too brown the beneficial rays cannot penetrate and do their good work and as if that isn't enough... over-tanning will ruin the texture of your skin.

Downtown Stroller

Living in rain washed West Texas (haw) is sort of a novelty. The other day Mrs. R. L. BEALE was all set for a garden party when the dust and rain descended. We think she deserves a word of praise for going ahead with the party although her outdoor plans were spoiled. It took a good sport to ignore the ruined party plans and still see that folks had fun. Which they did...

X. Y. Z. club members are proudly wearing their new pins which are small gold emblems with the initials of the club on them... Home from the army for a three day furlough are JOE ROBERT MYERS and JOHN T. MOORE who are stationed at Goodfield Field, San Angelo. The army seems to be agreeing with these boys as they are gaining weight and looking good... Don't know for sure, but will bet that BOB WARD'S knees are sort of shaky this weekend. He's going to take those wedding vows come Tuesday night to Miss EARLEEN POLK of Fort Worth... Out of all those people who live in Chicago, HELEN DULEY who is vacationing there with her mother, Mrs. F. J. DULEY and EDITH GAY, ran smack into her boss, R. L. TOLLETT and DOUGLAS ORME this weekend. Don't anybody say it, but it is a small world isn't it?...

Wiener Roast Held By Mary Marth Class At Park

A wiener roast was entertainment for the Wesley Memorial Mary Marth class when members met at the city park Friday. Mrs. Ocie Henson, Mrs. Clarence Whittington, Mrs. O. V. Whetstone and Mrs. Pauline Pierce were hostesses.

At Home—Mr. and Mrs. W. E. King, above, are at home at the King Apartments following their marriage June 29th, at 8 o'clock in Austin in the home of Mr. and Mrs. Bailey B. Ragdale. The Kings will leave August 1st for a three week wedding trip in northern and southern California. The ceremony was read by the Rev. George W. Woltrin, chaplain, house of representatives, 47th legislature. Mrs. King is the former Mrs. Helen Jones of Abilene. She wore a street length dress of embossed white chiffon with matching halo. Her accessories were navy blue. She carried a colonial bouquet of white iris, carnations and pink roses caught with blue maline. Her only jewelry was a three strand pearl necklace, gift of King, well known railroad man. Bailey B. Ragdale, son-in-law of Mrs. King, gave her in marriage. Henry Ragdale of Denison was best man. Matron of honor was Mrs. Clara Reichmuth of Mineral Wells, who wore a gown of Jacquill yellow net with picture hat to match. Her corsage was of blue delphinium, Mickey Bryant and Virginia Turpin, accompanied by Mrs. E. L. Templeton at the piano sang the pre-nuptial soles. A reception followed the ceremony with Claudette Ragdale and Phyllis Jane Holcomb, and Dolly Bryant assisting with the serving. Several intimate friends and relatives attended the ceremony. Editorial— Gloom Has No Place In City's Business

Rather disconcerting to those of us who like to smile are remarks too often heard around town these days that business is not what it ought to be and that the city is slipping.

There's no denying things have at times been better in Big Spring, but any one who will trouble to peep around the corner will find sufficient bright signs to save him from complete despondency, if not to give him promise of better things.

There will be no boom soon, unless something extraordinary and unexpected happens, but booms often bring unhealthy conditions. But beginning in September a good cotton and row crop harvest will hit the market. The spill-over from defense projects at other points is being favorably felt here. Ranch-

Hollywood Sights and Sounds— The Great DeMille Continues To Pace Movie Screwballs

By ROBBIN COONS
HOLLYWOOD—More about DeMille, the C. B. I.
Recorded here recently was a sample scene of the endless act that is DeMille, the man who is as much showman as director and has been for nearly 30 years, the man who, while making "Reap the Wild Wind," gives the impression that the movie is the only important thing in his life if not in the world.

The scene cited was a typical DeMille outburst, berating his actors, including remarks directed at his heroine, Pauline Goddard, to the effect that if necessary he would have to pound a certain point of acting into her skull.

Later I had opportunity to inquire of the lady herself how an actress feels when she is berated before a set full of co-workers.

"I don't mind," she said smiling. "There are three things I could have done in the circumstances. First, I could have become suddenly tired and gone to my dressing room to rest—and cost the studio about \$1,000 a minute. That would have been a small thing to do, and pointless. Or I could have burst into tears. That would have taken my mind off my work, and I had a scene to do. Finally, I could have taken it with my chin up, grinning. I did, and that's the only way. Afterward, everybody on the set came up and said they were for me, for the way I took it. And that's Mr. DeMille's apology. He said, 'Pat, ette, I've been doing this for 30 years now and I can't change, so you'll have to try to adjust yourself to my ways.'"

"And I understand him, too. I

Man About Manhattan— Hotel Business Improves As World's Fair Passes Away

NEW YORK—Those officers patrolling around the stage door of the Gaiety theatre, one of Broadway's most garish burlesque houses, aren't New York's finest. They're actors from "Arsenic and Old Lace," out for a bit of fresh air and the exhilaration that comes of watching a stripteuse in action. The stage doors of the two theatres are in close proximity and the companies of each attraction often pay visit back stage. Just good neighbors.

The other evening Ailyn Joselyn, who acts the dramatic critic in "Arsenic," was persuaded to go on with the Gaiety's comedians in a blackout skit. He was the stooge who gets squirted with the seltzer bottle. In return the burlesque comic made his "debut" on the legit stage as one of the 13 old men who take bows at the final curtain of "Arsenic and Old Lace."

While we're on the subject of squirting people with seltzer bottles, has anyone pointed out that Thelma Schnes has had almost as many immersions as an Aquacade gal? Miss Schnes is the young woman who plays the Cockney wench in the Ethel Barrymore play, and each night she gets doused with a glass of cold water to quill her tantrums. To date she has received 350 glasses squarely on the nose.

Not only did Mayor Maverick of San Antonio send Kay Kyaer a real maverick, he included a live hilly goat named "Stinky" in the package. THE SACRED DAGGER

by Rita Miller Nathan

Chapter 20
Midnight Meeting

Ann laughed and took a quick step towards him and he retreated a step with a shame-faced giggle. He knew she was teasing him, yet nevertheless he intended to take no chances.

With a quick move Mackey unrolled and pushed open the door. The young fellow was on him with a bound. They rolled on the earth and rose, facing each other. Sherwood had come to the door.

"Cut it out, Pete," he called sharply.

A guard from the big iron studded gate rushed across. Both natives seized Mackey.

Anne warned Sherwood as if he read her intention to interfere.

"We just wanted to talk to you a moment and give you the robe," she explained.

Sherwood spoke to his personal guard. He had discovered that the boy knew a smattering of Turki. The two natives conferred between themselves for a moment then said something to Sherwood. He spoke to Mackey.

"They say you can take the robe from Anne and give it to me. Then you must return to your tent and stay there." Anne handed Mackey the robe and asked Sherwood:

"Did they let you eat your noon lunch?"

"The guard and I ate it together. I'm not treated too badly."

He was pushed back and the door drawn shut by his guard, while the other led Mackey to the yurt.

Philip and Doddap returned and the gate was barred.

Anne looked out and apied the lama squatting beside the tent. She went and stood beside him. He rose.

"Have you been able to talk to Blaise?" she asked.

"I fed him supper and washed his face."

"That was good." She smiled at the picture he conjured up. "Do you know what the Nagaras intend to do with him?"

"They take him to the high priest. Then they say the sacred dagger will inflict vengeance as it has on every one who sees Shy-a-Nago without the right."

"The dagger I carry?" Anne exclaimed, putting her hand on the leather case.

"It has killed all the others."

"I'd like to destroy it," she said slowly.

"It is your protection. You would destroy yourself and the rest of us."

"If only we could help Blaise escape!"

"You wish to talk to him?"

"Could it be done?"

"I'll give the guard a deep sleep."

"With a club?" she asked humorously.

"With my magic." She stared at him a moment.

"All right, Doddap, if you can do it."

"Rest just inside the door until I call you."

Instead of joining the other girls at the back of the tent Anne did as the lama told her, wrapping herself in a handsome argali skin.

Philip roused and looked at her. "That's a drafty spot," he said.

"It closed his eyes and slept."

Explanation

Sometime past midnight Anne was awakened by the lama gently pulling her hair. She crept out quietly and they stole across the dark yard. He opened the door carefully and closed it behind her. She stood quiet to get her bearings. In a niche in the wall sat a sagger of fat with a ragwick burning in it. Otherwise the hut was bare except for the pile of felts upon which Sherwood lay, covered by the fur robe she had sent him, his duffle bag for a pillow.

His eyes were bright upon her and a smile quirked his mouth.

"You seem to be all right," she said, walking towards him. He moved over, kicking the robe down and she saw that his hands were bound to the belt at his waist.

"Sit beside me," he said. After a moment's hesitation she complied, examining the cords on his wrists.

"Do they hurt?"

"Only my free spirit. Will you take them off?"

"I guess we'd better let them be. It might make your guard suspicious if he discovered they'd been tampered with. I came to see if we could plan an escape for you."

"Who wants to escape?"

"Don't be silly," she said, "this may mean death."

"I know it, Anne," he agreed earnestly. "I have known all along that the Nagaras are not people to monkey with."

"Then why did you fly over their territory?"

"I had intended just to scout the border searching for those fool Russians. I saw a ruined village. Then I saw a high bare basin and a band of men riding across it. I mistook them for the Russians and landed in their line of travel. When the bullets began coming I left. But I had seen the hidden city. . . . O Anne! A look of awe and delight came into his face. "It is wonderful! It is unbelievable!" Moisture glistened in his eyes and he closed his lids. She watched him with quivering lips.

"And now you will never see it again unless you escape."

Dorothy Thompson Discusses— Some Military Aspects Of Nazi-Red War

By DOROTHY THOMPSON
In the year 1938, Colonel Braun, German strategical expert, writing in the military weekly, "Militar-Wochenblatt" gave the exact blueprint of the blitzkrieg, and described the prerequisites of its success. He said, "the attacker disregards international law and starts the offensive without and declaration of war. On the eve of the attack fast mechanical forces are deployed along the border. The attack starts at dawn, with driving fury, superior force, and tremendous speed, eliminating all existing border defenses within the first few hours, and penetrating deeply into the hinterland. Concurrently, the air force attacks a single all-important vital point in the interior, destroying it within a short space of time. Parachutists and air-borne infantry are landed at other strategic points in the interior, destroying all vital power stations, commercial centers, bridges and government headquarters. The blitzkrieg must show decisive results within two or three days, accomplishing all objectives and leaving mopping up operations to the infantry. Prerequisites of successful blitzkrieg are suitable terrain, absolutely assured surprise elements, overwhelmingly superior attacking forces, with enormous reserves in the background, coordination of all combat units, uninterrupted supplies, and favorable weather conditions. Its ultimate success depends on 100 per cent luck."

The model of the successful blitzkrieg was the campaign against France where all of Colonel Braun's conditions were fulfilled. The Nazis had swept through Holland and Belgium and penetrated into the hinterland through Sedan by May 15th—five days from the beginning of the onslaught. From first to last there was negligible loss of German lives. Within three days the morale of France was shattered, in five the battle of France was known to be lost by many military experts.

Let us now apply Colonel Braun's formula to Russia. The campaign began a fortnight ago, and two days later Hitler announced that a decision of world importance would be announced the next day. That decision has not occurred yet.

Colonel Braun's formula, which worked out in France, calls for "the elimination of all existing border defenses within the first few hours." The border defenses of the Soviet Union are the Stalin line, and they have certainly not been eliminated. The Germans claim to have penetrated it at certain points, but their despatches on Wednesday complained of "tricky defenses."

The defenses of the Stalin line are, indeed, tricky. They are not like the Maginot defenses, built in a more or less straight line, but are constructed like a maze. One series of fortifications will have another series behind it, and only partly overlapping linearly. Then a second series will be there, on the line of the first series, so that an attacking army having broken through number one, approaching number two, may find the defenses of number three in its rear. It is a come-on system.

How well acquainted the Germans are with the fortifications is not known, but it is certain that Nazi intelligence officials have not enjoyed the run of the place as they have in the simple-minded and trusting democracies. The secretiveness of Russia is fully as great as that of Germany.

The terrain is suitable enough to fulfill the colonel's prerequisites, but how "absolutely assured" was the "surprise element?" The Russians had been assembling on this frontier, perhaps, for the purpose of a diplomatic, not a military showdown with the Nazis. However they may have had some warning. But how "overwhelmingly superior" are the attacking forces? They are certainly greatly superior in material of all sorts, planes, tanks, and gun power.

But how superior are they in man power, at the spot, and in reserves?

Man Power—If it is willing to blitz—counts in modern war. It counted in Spain, for instance, where it took the fascists who were overwhelmingly superior in all technical and mechanical means four years to defeat the numerical-

ly superior and recklessly fighting loyalists. Incidentally, the Russians have the benefit of that campaign, with its highly effective guerrilla tactics.

"Favorable weather conditions" have not universally prevailed according to the Nazis, who claim to have been held back by snowstorms—in places, incidentally, where it has never been known to snow in July. Maybe they lied as an excuse, but they have got to get a decision by mid-September, when rain, mud and snow will be the Russian's most effective ally against mechanized forces.

Certainly the Germans are encountering in Russia very different conditions than in any previous campaign. The battle at the Stalin line is a battle, not a blitz. It is prolonged way beyond the essential schedule of Colonel Braun's formula. And this time the British are unceasingly pounding the rear with the Royal Air Force.

It is well to believe only those things in which German and Russian communiques agree. Both admit terrific loss of life. And here the Russians have a double advantage, physically and psychologically. They are biologically more fecund than the Germans, and there are more than three times as many Russians as there are Germans.

These facts influence the psychology of nations. The French, for instance, had a horror of loss of life, realizing their diminishing numbers. Also, the farther east one moves the greater human life becomes. The Germans are more reckless of life than the French, the Russians more reckless than the Germans.

What happens in Russia is also extremely important to German morale in the further course of the war. For the first time the Nazis are encountering an army of great numbers that fights and for the first time there is that terrific loss of life that the blitz is supposed to avoid. As German mothers receive the news of the death of their sons, the enthusiasm for another battle on the beaches of

en bridges that sagged and swayed at every step. The women were almost in hysterics by the time a halt was called for lunch. The trail ahead would be too difficult and dangerous for horses.

"Now we walk," said Anne, dropping down beside her. "Not me unless I'm pushed and pulled."

"That's probably the way it shall be," remarked Mackey, joining them. They had stopped in an open cove high up on the side of the gorge where a traverse cut into the canyon, its mouth filled with tumbled cliffs and boulders large as houses.

"They turn the horses loose here," he said, "and let them find their way home."

"Just the opportunity for Blaze," she declared, as they washed their food bowls at the spring and took a drink of water. "Maybe the lama will."

Fourth St. Revival To Open Today

A two weeks evangelistic campaign will be inaugurated with services today at the East Fourth Street Baptist church, with the pastor, Rev. R. Elmer Dunham, doing the preaching. Roy Lee Williams, choir director, will be in charge of music for the revival, and Mrs. Williams will be pianist. Services will be held at 3 p. m. and 8:15 p. m. each day during the revival, and Rev. Dunham is emphasizing that the church will be comfortably cool. A large air conditioning unit, delivering 10,800 cubic feet of most air every three minutes, will be ready for operation today and throughout the meeting. Preceding the evening worship, prayer meetings will be held every day of the revival, with a 25-minute period devoted to song, prayer and reports on visiting activities. Meetings will be by classes and departments; or, as the pastor says, "It will be Sunday school every night—an important part of our evangelistic campaign." For the day services, 500 copies of John's Epistles have been ordered and will be distributed for daily Bible readings. The pastor will preach from the three Epistles of John in the day services. Local forces are in charge of all phases of the revival, and the membership is mobilized for a full effort, Rev. Dunham said. He issued a cordial invitation for the public to attend all services.

On the Record

Continued From Page 10 England, with another great army that also intends to fight, may win. It is nothing to count on. Hitler once said, "The Germans endured Attila the Hun and the thirty years' war, and they can endure me." Just the same, if the Russians keep on as they are doing, this campaign may be the turning point of the war. The "hundred per cent luck" of Hitler is certainly not here. Seventy per cent, or sixty per cent, but not a hundred per cent. And, since the idea of invincibility is one of the greatest assets in his whole armory, this change of "luck" is important.
