## Drought Relief Controversy May Cause Special Session

## CHARGES OIL REPORT HELD TO PREVENT OFFICIAL ACTION

### WILBUR MAKES DEMAND

#### May Probe Sen. Kelly Charge of Gov't Favoritism

WASHINGTON, Jan. 31. (AP)—Complaint against the delay in the report by the tariff commission on its inquiry into oil prices was voiced today by Senator Thomas, democrat of Oklahoma, before the senate commerce committee at a hearing on measures to restrict foreign oil imports.

Thomas charged that an effort was being made to delay the report until too late for congressional action this session.

Investigations Demanded  
WASHINGTON, Jan. 31. (AP)—Secretary Wilbur today demanded before the senate public lands committee a full investigation of charges by Ralph S. Kelley that the government had favored large oil companies in disposing of oil shale lands in Colorado.

Senator Glenn, republican of Illinois, immediately asked that a subpoena be issued for the publisher of the New York World or whoever on the paper was responsible for printing the charges made by Kelley, former interior department official.

#### Bond of Pair Set At \$500 Each

R. S. Hunter and J. G. Rush of Lamesa were each admitted to \$500 bail at examining trials held Saturday before County Judge M. R. Hill.

The men were charged with illegal possession of intoxicating liquor.

#### Conference Meets At Baptist Church

The Workers conference of the Big Spring association will meet at the First Baptist church Tuesday, when the following program will be presented at the hours named: 10:00—Song service.

#### Two Ministers, Families Return

Two ministers of the city and their families returned the latter part of the week from death beds and sick beds of relatives.

### Up to the Public

(An Editorial)

Do Midland citizens want a clean town? And do Midland citizens want to provide labor for unemployed people who are willing to work for \$1.50 a day?

If such is the community desire, it has not been expressed sufficiently during the past week.

With officers and committees of the City Federation of Women's clubs and of the welfare association giving almost full time for a week, the city-wide clean-up campaign has made progress but has not found the cooperation that is needed to accomplish its dual purpose.

Almost each morning, from Monday to Saturday inclusive, there have been as many as 100 men wanting work at the very low price of \$1.50 a day. About 75 of these were white men, more than 20 were Mexicans and there were even a few women who registered for any kind of work they were able to do.

Mrs. J. A. Haley and Miss Lois Patterson, assisted by committee women, have worked hard to bring property owners and laborers together in this campaign. Miss Patterson has been at her office at the city hall as early as 8 o'clock each morning, putting in long hours at the job.

While a number of women have contributed time to the campaign, more have been needed to put the big task over as it should be done.

However, where the cooperation is needed is seen in the fact that within the entire week only 42 clean-up jobs have been reported, calling for laborers from the 100 per day reporting for work.

In addition, patriotic citizens who will lend tools for use of laborers on pieces of property not financed by property owners can give much help. Some tools have been provided but more are needed.

The clean-up, disappointing as it was last week, is not over. The women who have given their time and efforts do not want to quit. They plan to try it one more day to see if the public wants the clean-up. The campaign now rests solely with the public. If you have property to clean up, call the city hall, number 565, and ask for the number of laborers you will need, early Monday morning.

### TRANSFER NEGRO TO ESCAPE FROM REPORTED MOB

MT. PLEASANT, Jan. 31. (UP).—Harvey Riley, negro, was transferred to the death cell in the county jail today as a precaution against mob violence. He was arrested in connection with the death of Willie Stewart, 21, farmer who died from a blow over the head by a hammer.

### HOUSTON HOST TO LEGISLATORS ON WEEK END JAUNT

HOUSTON, Jan. 31. (AP)—The Texas legislature, almost to a man, arrived here today to be guests of Governor Ross S. Sterling and J. M. West, to attend the annual salesmanship club gridiron dinner here tonight. Both houses adjourned at Austin yesterday to Monday. A reception committee headed by Mayor Monteith welcomed the delegation.

### Advocates Ad Plan For Wheat Products

HEREFORD, Jan. 31. (UP).—David Warren, general manager of the Nunn-Warren Publishing company, today advocated a national newspaper advertising campaign for wheat products. Warren said people are on eating fads and that women eat potatoes but not wheat. He added that wheat consumption has declined in millions of homes.

### Phillips Gas Plant Destroyed by Fire

BORGER, Jan. 31. (UP).—Fire of undetermined origin destroyed the Phillips Petroleum company gasoline plant here early today.

### DEAD-LOCK APPARENTLY WILL HOLD

#### House Republicans Will Not Sway From Stand

WASHINGTON, Jan. 31. (P)—Drought relief seemed headed tonight toward an extra session. Senate administration leaders confessed they were unable to see a middle ground between the relief program of the democrats and the stand against it by the republicans in the house.

It looks like an extra session if the democrats insist upon it, said Senator Watson, Indiana republican leader. He made the statement after the house republican leaders sent word that they would not retreat from the position the house assumed yesterday in rejecting the senate proposal to give \$25,000,000 of governmental money to the needy.

### DO-X SAFELY ON CANARY AIRDROME AFTER FIRST LEG

LAS PALMAS, Canary Islands, Jan. 31. (P)—Carrying 19 men and much mail, the Dornier DO-X, the largest airship in the world, today completed the first leg of its flight from Lisbon to New York by way of South America.

The ship left the Tagus harbor at 8 o'clock this morning and arrived here at 3 o'clock this afternoon after an uneventful voyage during which a fog made it necessary to abandon the plan to drop a mail bag at Funchal in the Madeira islands.

Preparations were begun immediately after arrival for the next stage of the flight to Cape Verde 845 miles away.

Tomorrow the ship flies to Porto Cape Verde islands. Then after a 36-hour halt will attempt the longest, Noronha, Brazil. Thence a series of flights, 1,230 miles to Fernando Do of hops will be made northward to New York.

Captain Christiansen commanded the plane with Clarence Schilbauer, American, second pilot.

### APARTMENT FIRE FATAL TO THREE; OTHERS INJURED

BALTIMORE, Md., Jan. 31. (AP)—Mrs. Arthur Tucker, Miss Alberta Claggett and D. Howard were burned to death; Miss Marcella Roberts is missing, and Arthur Tucker and M. Long are in a critical condition from jumping from a burning four-story apartment house here early today. The building was destroyed. The first started on the third floor, quickly enveloping the structure.

### Oklahoma Officer Charged in Murder

MEMPHIS, Tex., Jan. 31. (UP).—Murder charges were on file today against Bill Guess, Ardmore, Oklahoma, deputy sheriff, in connection with the fatal shooting at Estelline of Albert Hall, Oklahoma fugitive.

### LION CHASES BICYCLIST

HOVE, Eng. (UP).—A lion chased Miss Muriel Paynter, missionary nurse in Africa, more than half a mile while she was riding over a jungle road on a bicycle, she wrote her mother here.

### Vanderbilt Guarded Result Butler-Mussolini Warfare

PHOENIX, Ariz., Jan. 31. (AP).—The silence Cornelius Vanderbilt Jr., has maintained over the remark attributed to him in which Premier Mussolini of Italy was pictured as a hit-run driver was broken today in denial of the statement of the Italian foreign office that he had never met Mussolini.

Vanderbilt said he had an interview with Mussolini that was copyrighted in 1926 and that the story repeated by Major Butler was found therein.

PHOENIX, Ariz., Jan. 31. (UP).—Cornelius Vanderbilt Jr. retained legal counsel today to make clear that he will remain silent until "circumstances change" in the "Butler-Mussolini" incident.

Vanderbilt remained within his home, guarded by deputy sheriffs as a consequence of threats allegedly made against his life.

Judge Frank Smith issued a statement commanding him for remaining silent.

Formal Charges  
Formal charges upon which Major Butler must face court martial were expected to be in the hands of Secretary of the Navy Adams either this afternoon or Monday.

While the charges were not revealed, it was considered certain to be either conduct not becoming an officer and gentleman or conduct prejudicial to good order and discipline.

Time or place of the trial was not determined.

### CADETS LAND IN 12 ARMY PLANES EN ROUTE KELLY

Twelve army pursuit planes flown by cadets under Commanding Officer Lieut. J. B. Burwell landed at Sloan field Saturday, en route to their Kelly field base from El Paso.

The flight was through Midland last week on its way to Kelly field via El Paso, Dryden and Marfa. It was held up in El Paso several days because of unfavorable weather, however, and decided to fly back via Midland. The take-off was soon after the landing and the squadron struck a cross country route for San Antonio.

### 40 Rabbits for The Needy Here

Will you have meat on your table at lunch today? If not, there are 40 rabbits, jacks and cotton-tails, at the Southern Ice & Utilities corporation plant. You may go by and get what you need.

An average of 15 rabbits a day has been turned in by hunters for poor relief, and all of this has been claimed, Manager K. E. Ambrose reports.

### Ex-Texas Studes Get Out Publicity

Letters went out Saturday to school superintendents in all surrounding towns telling them about the Texas-Ex banquet to be given in Midland March 2 and asking them to notify all former students of the University of Texas in their faculties to make their reservations by Feb. 28 if they expected to attend the banquet. The notices were sent out by the publicity committee of the Ex-students association, on suggestion of Homer W. Rowe, committee member.

### Completes First Leg in Safety

The great Dornier flying boat, DO-X, bound for New York from Lisbon, landed at the Canaries safely Saturday, on its first leg. The great boat is being used as a commercial experiment, to test the value of multi-motored craft on regular Atlantic flights.

The review cited a 50 per cent increase in department store sales. Excellent crop prospects were forecast, with more grain planted but a reduction in cotton acreage.

### BUSINESS BETTER IN FUTURE IS PREDICTION OF FEDERAL RESERVE BANK; SALES ON LARGE INCREASE

DALLAS, Jan. 31. (UP).—A more optimistic prediction than has been heard for the last eighteen months was sounded today in a business review issued by the Federal Reserve bank of Dallas.

### Negro Jailed After Attempted Assault

Rumor of mob rule Saturday following the arrest of Oscar Houston, negro, as a suspect in the attempted assault of a white woman failed to materialize.

Chief of Police Lee Haynes made the arrest, and rushed the prisoner to jail immediately.

Definite identification of the prisoner had not been made Saturday afternoon, it was understood.

### Local Cattlemen Back from Sale

B. N. Aycock and Jim Waddell returned yesterday from Hereford where they attended the Deaf Smith County Hereford association's auction sale. About fifty animals were consigned and sold in the sale, the Midland ranchmen reported. They complimented the class of cattle sold in the Hereford auction.

### Pythian Knights Go To Abilene Meeting

Several Midland Knights of Pythias were in Abilene Saturday night for witnessing of rank work and taking of oaths on the famous Rathbone Bible, that used in the first ceremonies of the order.

### TWENTY CRIMINAL CASES UP

#### A Possibility of Four Murder Cases Is Seen

Twenty criminal and 54 civil cases are on the docket for trial during the February term of district court, which opens Monday.

It is believed indictments will be returned in several other cases. The grand jury will be impeached Monday morning. Three men have been bound over to its action on charges growing out of recent deaths. It is believed fairly certain that indictments will be returned in at least two of these cases.

The most recent killing here was that of Weldon L. Russell, Abilene real estate man. Buck Jones, who claims to be an actor, faces a murder charge growing of his fatal shooting a week ago today at a party in West Midland.

Murder Case Up  
It is believed the grand jury will take up investigation of this case early in the week.

One of the murder charges resulted from the killing of a negro, Sonnie Sneed, hotel proprietor, by another negro.

A laborer was bound over to the grand jury through action of an examining trial several weeks ago growing out of charges that a Midland county farmer was murdered. A coroner's verdict previously rendered gave self-destruction as the cause of death.

Leah Bailey Case Up  
The murder case of Leah Bailey, continued from Dec. 3 on the motion of the district attorney, is the only important criminal case that has been set for trial. This case is expected to come up Feb. 9, at 10 o'clock. She is charged with murder.

Cases on the criminal docket are: State vs. J. W. Scott, charged with possession of a forged instrument.

State vs. J. W. Scott, charged with theft, continued from September.

State vs. Richard Tucker, charged with felony theft.

State vs. C. J. Dunn, charged with operating a gambling house.

Other Cases  
State vs. C. J. Dunn, charged with running gambling house.

State vs. Spot Aldredge, charged with running a gambling house.

State vs. O. K. Goodrum, charged with operating a gambling house.

State vs. Leah Bailey, charged with murder, continued from Dec. 3.

State vs. Tom Flood and Jack (See DISTRICT COURT page 8)

IMPORTANCE OF BIRTH REGISTRATION

Texas is one of only two states to remain excluded from the federal registration area. Failure to make prompt and complete reports on vital statistics is the reason for this exclusion.

The responsibility of pulling Texas out of this stage of lethargy rests on towns and counties. In Midland there is a registrar of vital statistics. He finds better response in the reporting of deaths than of births.

Other communities are having the same trouble. Until the entire state comes to a realization that births, deaths and vital statistics must be registered, Texas will remain "back woods" in this respect.

Unless a certain per cent of vital statistics are compiled when the federal bureau makes its next survey Texas will continue to be excluded from the registration area.

As a general rule deaths are reported promptly. Under the law undertakers are required to file certificates of death with the registrar.

Importance of birth registration cannot be over-estimated. Parents should make it their duty to learn if the attending physician has filed the required certificate of birth.

NATIONAL ADVERTISING OF FOODS

The idea advanced yesterday by David Warren, Panhandle newspaperman, that a national newspaper advertising campaign for wheat products should be launched is of interest. Warren declared that people are on "eating fads."

Warren's idea is constructive. It applies not only to wheat but is a good idea also for the beef business. There was never a more important industry more sadly in need of an advertising campaign than beef.

Every ranchman in Midland would be in better financial condition, strong as they are even now, if some national cattle organization was carrying on an educational advertising campaign similar to those of prune growers, orange growers and tomato growers.

Many a person eats canned meat or a salad when he would rather have a good broiled steak. Why doesn't he eat the steak? Is it because of the price? Not always. He just doesn't think of it.

The price of meat to the consumer should be cheaper and the price paid the producer better if the volume of meat consumption could be increased. A national advertising campaign would do the job. It would do the same thing for the wheat industry.

SAFEGUARDING THE PUBLIC'S HEALTH

Midland county took a forward step when it employed a public health nurse. The public health board, now in process of mapping out a constructive year's work in cooperation with the new official, has a busy task.

Already, inspection of school children is under way and even this early in the program beneficial results are being seen.

Work of the public health nurse applies to efforts of a graduate nurse, taking part in organized community service, to promote the health of the individual, the family and the community; to prevent disease by teaching the principles of health, hygiene and sanitation.

The best way to safeguard the community's health is not to call a doctor after disease starts but to prevent, through educational work and inspections, possibilities of outbreaks.

The county health nurse, as a county official, will be able to advance the general health conditions of the city and the county alike.

It behooves every citizen of the county to become familiar with this important phase of community work and to lend cooperation in every way possible.

QUININE IS MAKER OF HISTORY

Drug Is Heralded As Savior of Civilization Through Its Control of DREAD MALARIA

Just as malaria has been responsible for changing the history of the world (indeed the fall of the civilization of Greece and Rome is attributed to this cause), so also has quinine been responsible in this connection, since it serves to control malaria.

The year 1930 witnessed the 300th anniversary of this drug. In an exposition held in England, samples of the bark of the cinchona tree, from which the quinine is made, were exhibited, including specimens brought to Spain from Peru in 1777.

The story of quinine, like the story of many other great medical substances, is reflected in the histories of all nations. One nation is credited with the discovery, another with the publication of the secret, another with the popularization of the drug, and another with its development. It grows only on certain soils and in certain climates.

The yellow bark of the cinchona tree of Java and Bolivia contains more quinine than that of any other cinchona. Quinine is the active substance of cinchona and is probably primarily responsible for its effects.

Malaria is caused by the plasmodium which gets into the blood. There was a time when the disease was extremely frequent in practically every country in the world. Seventy-five years ago it was one of the most important diseases in New England, Maryland, Ohio, and southern Illinois. Cases are now so rare in these places as to be almost medical curiosities.

The control of this disease has been brought about by the discovery of the method of transmission through the mosquito and the elimination of the mosquito from the vicinity, and also through the active treatment of patients by the use of quinine. When scientific medicine establishes facts as certain as these, the road to elimination of disease is open.

AMERICAN EDUCATION

WASHINGTON.—The enrollment in elementary schools of the United States during 1930 was about 21,370,000, according to the Federal Office of Education. Other figures from the department show that the number of pupils enrolled in high schools was 4,030,000, and the number in private and parochial elementary and secondary schools was 2,704,000.

STICKERS

A man had a circular metal disc which he wanted to cut down to a smaller circle which would contain just half the material in the original disc. Can you figure out how he did it?

The Town Quack

Reserves the right to "quack" about everything without taking a stand on anything.

Old Tack, in the Amarillo News, tells about a couple of cowboys who went to the city for the first time. They saw a Jew standing on a street corner gesticulating wildly as he conversed with a friend.

"What's the matter with that hombre?" one asked. "Don't know unless his mother was frightened by a windmill," was the other's reply.

Here's contrast for you. The Gainesville Register says the modern flapper is the girl who prefers a business course to a baby. The San Angelo Standard says love is what makes a girl leave a good laundry job at eighteen dollars a week to stand over some stranger's wash-tub for nothing.

I heard today that there were two follow up stories on the crack I took about Jim Finlayson's partnerships the other day. Harvey Sloan, it is reported, took exception to his alleged connection with Jim and wants to know whom to sue about it. Jack Hazeltine is reported to have formed a new partnership with Jim Finlayson under the name "Midland Cleaning Company." The company will not engage in the cleaning and pressing business but will clean yards at \$1.50 a day. The incorporators plan to begin at their own homes.

Sooner or later the facts will come out on a fellow. Here's the latest dope I've uncovered. Malcolm Meek was born in Arkansas.

Another interest fact: Ralph Barron was born at Mount Sylvan. Reward offered for location.

Look's like the stock in the wheelbarrow ride may take a drop. The newsies basketball team got beat by the narrow margin of 35 to 34 Friday night. Aubrey Legg may want to push Dr. Thomas around the block before this is over. Anyway, we will wait and see. You can't tell who is winner until the season's over.

They say congress has a committee working on plans to make paper money last longer. What I'm interested in is how to make it go farther.

A Commonplace Man

But he achieved what many of his better dressed, seemingly more prosperous associates could never have secured.

A True Story

He had worked for years in a commonplace job without thought of opportunity for any great advancement. Quiet, unassuming, minding his own business, dependable—some people would have called him just a commonplace man.

a little apprehensive about the cost, but her worried look was quickly answered by the same friendly assurance as was given her by the milkman, the grocer, the department store.

Then the accident! Terrifying, swift! A speeding automobile suddenly appearing out of the blinding rain! And from the oblivion of pain he awoke to face weeks in a hospital—unexpected expenses!

They knew their man. A quick check-up through the Retail Merchants' Association told them the whole story. "Dependable, hard-working—not a big earner, but with a record of always paying his bills in full each month or according to agreement." Some people would have called him a commonplace man, but he secured what some of the so-called better class people could never have secured—help when he needed it most.

Only a few hours had passed when his wife came to see him bedside a letter from his banker, "Don't worry, we will honor your checks." A few days later when his wife came to see him she stopped at the hospital office,

January Closes with Informal Affairs For Out-of-Town Guests; Martha Fidelis Sunday School Class and 1930 Members

With the introduction of February, which provides many entertaining features for the hostess, the coming week will be one of the most gala of the early spring. Lincoln and Washington birthdays and the Valentine day furnish many attractive notes for the parties which are announced.

Closing the January season, a few informal parties marked the week end with a bridge luncheon given at the home of Mrs. Tom Bergin holding interest for out-of-town guests and Midland friends.

Soft shades of yellow were reflected in the pretty party arrangement with the theme predominating in the table appointments. Dainty bunches of sweet peas were table centers at luncheon time.

Following lunch, the hostess laid tables for the bridge games. Mrs. Frank Brahaney of Wink received high score trophy and Miss Dora Wall was presented with a gift for low score. Mrs. A. W. Thomas cut high for a favor.

Guests were Meses. Earl Cramer, Frank Brahaney, Joe Yoho and Frank, all of Wink and Meses. William Simpson, Tom Flood, F. F. Winger, A. C. Neal, A. W. Thomas, W. E. Wallace, W. R. Bowden, Carl Swanson, Don Davis, Dave Finley and Miss Dora Wall.

Mrs. Walker and Mrs. Davis Entertain

A large group of the Martha Fidelis class was entertained at the home of Mrs. J. T. Walker Thursday afternoon with Mrs. Bill Davis assisting with the party program.

The Valentine motif was stressed in the house decoration and the games. A grab box furnished entertainment when each guest drew for a gift which was brought by another member.

Materials for the Dutch girl quilt were given to the women who will furnish the quilt at the next social meeting and put it on sale.

Pretty refreshment plates were passed to Meses. E. D. Keaton, J. A. McClurg, C. G. Stanley, Dean Tucker, W. B. Rucker, George Halton, W. E. Collier, Harry Roberts, C. P. Pope, C. B. Ligon, T. E. Neely, Ronald Morgan, D. M. Ellis, W. E. Anderson, F. W. Chapman, C. C. Muzzlewhite, J. M. Creech, C. C. Hiett, George F. Brown, T. B. Mize, J. C. Hudman, and R. C. Osborn.

Mr. and Mrs. Cole Give Party for 1930 Club

An evening party at the home of Mr. and Mrs. M. E. Cole Thursday was in honor of the 1930 club members who found entertainment in bridge games.

Game prizes were given to Mrs. Henry Wolcott, high for club women; Mr. O. B. Holt, high for club men. Mrs. Bill Wyche, high guest and Mr. Foy Proctor, high cut.

Delicious salad courses were served to Meses. and Meses. Clyde Cowden, Clifford Hill, Bill Wyche, Geo. Glass, Henry Wolcott, Foy Proctor, R. B. Cowden and Mr. O. B. Holt.

Program at Prairie Includes Music, Reading and Debate

The third meeting of the year was held by the Prairie Lee Literary society at the school building Friday evening. The program was composed of novelty numbers, musical selections and an entertaining debate.

Miss Gladys Mills read the declamation which she will use to enter the state contest this spring.

Mr. Ned Watson, accompanied at the piano by Miss Marguerite Carpenter, gave a splendid musical program. The first number was a mandolin duet which was followed by several other selections.

The debate subject "Resolved that an Automobile is a Necessity" was argued by Mr. John King and Miss Carpenter, negative and Mr. Leslie Floyd and Mr. Laceywell, affirmative. The affirmative received the majority vote.

Bible Lesson Taught by Mrs. Noland at Meeting

Mrs. James S. Noland taught the Bible study from Colossians at the meeting of the Belmont Bible class with Mrs. C. E. Nolan Friday afternoon.

Mrs. L. C. Monday was added as a new member to the club roll. Ten members were present at the Friday class.

PARTY POSTPONED

The Joi De Vie party which was to have been held at the home of Mrs. J. D. Young, February 6, will be given on February 13.

WILL ROGERS IN MIDLAND TODAY AND ALL HAVE CHANCE TO SEE HIM

Ruth Warren, J. M. Kerrigan and Will Rogers in a humorous scene from the Fox Movietone, "Lightnin'".

Will Rogers is to be in Midland today.

Will does not land from a plane and go on the speaking platform for the benefit of the poor; Midland, fortunately, was not economically reduced to that exigency; but comes over several thousand feet of celluloid, in all the brilliant simplicity that characterizes him.

And he comes in "Lightnin'," that favorite drama of the simple folk. Will loves so well. The play broke all records on Broadway several years ago for the number of consecutive nights it ran, and under Johnnie Golden's regime was boosted to one of the greatest box office attractions known to legitimate state history.

But it takes the masterful touch of Will Rogers to fan the possibilities of the play into full life. Take it from one who has seen the play repeatedly — there is no one in America to take the lead except the inimitable Will.

It is Midland's good fortune to be able, despite the fact the actor missed us in person, to see Will Rogers at his best. His personal appearance over the country now are not calculated to show persons the side of Will Rogers we laugh at. His being is saddened at the misery and suffering over the country. Can he wise-crack at his best while studying such conditions and viewing them at his elbows?

He can not. But you can see Will Rogers at the Ritz today and Tuesday—the real Will Rogers—and in "Lightnin'". —R.C.H.

With County Women During 1930

Editor's Note: Notes taken from the annual report of 1930 written by the county demonstration agent are appearing in this column. Reports from every department of the work, which show the splendid progress of the club, are stressed.

So much time has been spent on other work, that the food preparation department has not functioned actively.

The 4-H girls have completed the required food preparations and their mothers have been letting them help prepare the meals, which is a requirement.

Demonstrations were given in each club by Mrs. Delbridge, home service representative of the Southern Ice & Utilities company. These involved the preparation of salads, desserts, puddings and other dishes.

From cottage cheese sales to local stores, Mrs. S. H. Gwyn has made a profit of \$185.

City League Union Announces Program For Friday Evening

Meeting for the first program since the new year, members of the City League union, an organization composed of all young people of the city, will gather at the First Christian church Friday night at 7:30 as guests of the Christian young people.

Recreation periods and a program will be presented by the hosts. The invitation committee requests the presence of all young people who are interested in such an organization.

Economics Meeting

Home Economics girls will hold their regular monthly meeting in the department suite in the high school Tuesday afternoon at 3:30.

Routine matters will be included on the business program, according to Miss Theresa Pawelek, sponsor.

Twenty-five Women Attend All-Day Mission Study

"The Field Is the World" was the foreign mission book reviewed by more than 22 members of the Woman's Auxiliary of the Presbyterian church who met in an all-day session at the church Friday.

Mrs. Andrew Fasken presided during the study which was based on the great missionary fundamentals, the task, vision, motive, dynamic and the challenge. Excellent reviews were given on each topic.

Lunch was served in the dining room cafeteria style.

Chapel Program at Junior High School Features Students

Students in expression and dancing of the Vickers studio appeared on a varied program at the Cowden Junior high school at chapel during the past week.

Readers were John B. Thomas and Billy Estes. Tap dancers were Paul Hyatt, John Journeyake and C. A. Goldsmith. Audrey Jackson, student of North Ward, one of the best acrobatic dancers in the city, presented several numbers. Mrs. Ben Cowden played accompaniments at the piano.

W. C. T. U. Will Hold Important Business Meeting

Financial matters, plans for future meetings, the 1931 program and general business conditions of the union will constitute the meeting of the Woman's Christian Temperance Union at the First Methodist church Thursday afternoon at 3:30. The president makes a special request for the entire membership of the union to be present as important business will be transacted.

H. H. Payne of the Chevrolet company of El Paso was here yesterday transacting business.

R. L. Graces of Swift & company was here from his home in Abilene yesterday.

Mrs. O. B. Holt and baby boy returned last night from Dallas where he has been recuperating after an illness. He is reported to be completely recovered.

## Iowa Brothers Set New Mark

Iowa state officials and civic leaders witnessed the establishment of a new world's non-motor, non-wheel stop automobile endurance record recently, when Ralph and Rolland Davis, brothers, brought their Model A Ford to a halt at the east entrance of the state capitol in Des Moines after 2,775 hours and 46 minutes of continuous driving.

When Governor Hammill, standing with Walter Ferrell, executive secretary of the Iowa chapter of the American Automobile Association, gave the signal to stop, the Ford had travelled a total of 47,138.3 miles over all sorts of roads in all sorts of weather since Aug. 1, and had exceeded by 33,680 miles and more than 2,361 hours the American non-stop endurance record which, theretofore officially recognized, was made by a much heavier car under almost ideal conditions on the Indianapolis speedway last year. In the course of the endurance run, the car, known as "The City of Des Moines," covered practically the entire state of Iowa.

Engineers who examined the Ford at the conclusion of the run asserted that neither engine nor chassis showed evidence of the gruelling strains to which they were subjected during the nearly 140 days of continuous driving and both apparently, according to the engineers, would have been good for another 50,000 miles or more if the Davis brothers had attempted to make good their original intention to drive the car "until it fell apart."

Aside from the folding cot on which the boys slept and a radio

receiving set, the only special equipment in or on the car was an extra emergency brake which with a travelling jack or "dolly" enabled one of the pair to change a tire or remove a wheel when necessary while the car was in motion.

In addition to eleven tire changes forced by punctures, the only repairs made during the entire record-breaking run, according to an affidavit executed by the brothers, were one replacement of spark plugs when the car passed 30,000 miles, the replacement of the generator brushes and the replacement of a nut on the petcock drain of the crankcase.

During the first 2000 hours of the run, the boys never left the car except as one of them was forced to run alongside in changing a tire or wheel, and they secured their only exercise atop the car. Later each boy spent a portion of his "relax" dog-trotting at the side of the car.

## Oil Influence Is Seen in Election

Influence of oil in the life of Midland was seen at the annual election of officers of the chamber of commerce and the appointment of committees this week. The new president Malcolm M. Meek, is an oil man. Two other directors, James S. Noland, and W. A. Yeager are on committees, and a fourth director, Harvey Sloan, is an independent operator. Twelve of the directors, several of whom are cattlemen, are owners of valuable leases or royalties.

## HOSPITAL SITE CHANGED

LAWRENCE, Kas. (UP).—The

site for the proposed \$150,000 University of Kansas student hospital has been changed from the highest point on the university campus to a plot between the Journalism building and the Blake Hall of Meteorological Sciences at the southeast end of the campus, according to the Board of Regents.

## PETRIFIED SEAL FOUND

WEIDMAN, (UP).—A petrified carcass found near here recently by Walter Schultz, while he was clearing new land, is believed to be that of a seal. It was found on muck ground and is marked similar to a seal.

# CLINIC GIVES HYPO TO REPORTER-TELEGRAM, WINNING GAME 35-34

## Ellis Cowden and C. L. Jackson to Play Hagen and Kirkwood Tuesday

### ELECTRIC CO. IS ONLY DANGER LEFT

Clinic and Texas Electric Service company appear to have the second half between them and the deep blue sea in the Industrial league.

Clinic won the most exciting game of the season in knocking off the newspaper aspirants Friday night, 35-34. Texas Electric and the Clinic doctors have won three games each, and no defeats.

It had been thought by most of the fans that Clinic doctors have won three games each, and no defeats.

It had been thought by most of the fans that Clinic was due for a fall in riding against the scarlet team of the newspaper Friday evening, but the game see-sawed back and forth for four periods, finally ending one point to the good for the boys from the Thomas building.

**WHO SHOWED UP**  
"Friday night's game was by far the best of the season," Bob Blevins, official scorer, said Saturday. "A check-up of the records fails to show any other game anywhere close to the Clinic-Reporter-Telegram game when it comes to genuine thrills. Who showed up best during the night? Here they are: Wilmesmeier, Smith, Clayton, Curtin, Osborne, L. Whitmire, French, R. Whitmire, Warren, Mills and Williamson. These were the men who got into the game—all of them."

To say the game was fast, furious, exciting and crowded with interest would be to state foregone conclusions. A look at the box score below and a remembrance of the tight games these two clubs have played on two other meetings this year would be enough to prove the game could have been nothing but good.

For the first time this season, possibly, one could not pick out men on the two clubs for individual mention. Only one man on each club failed to get into the scoring column; only one man on each club

made as many as three personal fouls; every man played a smart passing and defensive game. In fact, nothing about the game could have been better to the spectators, unless there were some who would have rather seen the one-point margin go to the newspaper. There were plenty of rooters for each club.

The game was somewhat rough at spots, but clean throughout. Fifteen personal fouls were committed, but almost equally divided as to club—Clinic getting eight, the newspaper seven.

As a result of the game, the newspaper is in third place, the first time during the season it has been below second place. The Scarlets won the first half in a wild play-off game with Clinic, a game that gave them the half without showing which club was the better. Possibly Friday night's game, decided as it was by one point, further created doubt in the minds of the fans as to which is the better club. Such games as those played between the newspaper and Clinic have made for popularity in the league this season.

Texas Electric, one of the best clubs in the loop, may or may not

be able to combat the high-powered men from the hospital. The two clubs play Feb. 6—and the greatest crowd of the season will, no doubt, be on hand to see the evil work

done. Afterward the electricians will have to meet the newspaper in the last game of the season—a game that will do one thing, if nothing else—decide who will push the other around the block in a wheelbarrow, Aubrey Legg, district manager of the power company club, or T. Paul Barron, publisher of the newspaper.

Lots of things can happen in the next few weeks.

### MATCH BEGINS AT 1:30; CROWD EXPECTED

Ellis Cowden and C. L. Jackson will meet Walter Hagen and Joe Kirkwood Tuesday afternoon at country club in an 18-hole exhibition match, it was announced.

The match will not be a match between famous golfers on one team and a couple of dubs on the other—far from it. Rather, the match will be between famous golfers and the best of the locals. Cowden and Jackson have repeatedly broken par on the course here, Cowden having shot as low as 33 on four occasions. Par of the nine-hole course is 36.

Again, the match will resolve itself into play of men who have been practicing 12 months a year and those who play golf only during the summer and early fall. Cowden and Jackson play for exercise, Hagen and Kirkwood as a business. Admission to the special match will be \$1.50. Anyone who wishes to attend may do so. Following the match, Kirkwood, world's premier trick shot artist, will give a demonstration of some of the famous "impossible" shots he is in the habit of making, and Hagen will lecture.

The match will begin at 1:30 o'clock. The sports-greens committee of the club announced Saturday that the greens and fairways are in good condition for the game.

### OUTDOOR BALL OPENS IN CITY; JUNIORS WIN

**By FRED WRIGHT**

The juniors and sophomores of the high school opened the local indoor baseball "outdoors" season Friday when the sophomores went down under a barrage of hits from the bats of the juniors. To take the short end of a 29-4 score. The game went along smoothly enough, until the opening of the fourth stanza when Gilbow, lanky shortstop for the upper-classes, started things off with a Texas leaguer into right field; and following his example, the next five men up connected with the horse-hide safely and when the smoke cleared away at the end of the inning the sophs found they had a six-run lead to overcome.

However, when the juniors came to bat again in the fifth they showed that they still had their eyes on the ball and slammed the offerings tossed over to them for eight more tallies. In the lucky seventh the lofty ones duplicated their performance of the fifth and raced around the bags for eight more. Estes accounted for three of these by a hefty sock into right field which turned into a home run when the pill, relayed in, went wide of the home plate.

In the remaining two innings the cohorts of Capt. Bull McCall contented themselves with a single run in each inning. The sophomores led by their captain, A. B. Cooksey, managed to collect 21 bingles but due to the fielding they were up against could not convert them into more than four runs.

The box score:	
Juniors.....	120 682 811—29 32

### Woman Convicted on Manslaughter Count

INDIANAPOLIS, Ind., Jan. 31.—(AP)—Miss Dorothy Jacobs, alleged slayer of her common law husband, Robert Morrison, was convicted here today of involuntary manslaughter. She pleaded self defense.

### Past Week Warm; Mercury Climbs

The week past, although cloudy and misty at times, was one of the most pleasant experienced in Midland this winter.

Average maximum temperature was 59, average minimum 41.

Weather Observer Buster Howard's records show the following list for high and low temperatures:

Day	Max.	Min.
Sunday	58	40
Monday	56	38
Tuesday	58	38
Wednesday	54	40
Thursday	58	43
Friday	64	44
Saturday	68	44

Another week or two of the same temperatures would almost result in the trees budding, several old-timers have remarked.

### RADIO OPERATOR, HERO DEAD FROM VOLTAGE CONTACT

OKLAHOMA CITY, Jan. 31.—(AP)—Clifford T. Paulson, radio operator credited with saving many lives when the steamer San Juan sank in a collision off the Pacific coast August 31, 1929, was found dead by a radio transmitting set of the Transcontinental and Western Air, Inc., this morning.

Paulson apparently was electrocuted during the night. His hands were burned from apparent contact with a 2,000 volt conductor nearby.

### New C.C. Members Now Total 57

W. M. Pyle, prominent Midland ranchman, joined the chamber of commerce Saturday bringing the total new memberships up to 57, which makes a grand total of about 350 members. Directors who have cards will make their final reports Monday morning. Practically every business house, cattleman, professional man, many oil men and others are now members of the chamber.

### Frye Business Is Purchased by Day

Purchase of the business known for the past three years as the Frye Rubber company by F. H. Day was announced Saturday.

Day had been manager of the company for several months, coming here from Amarillo.

The company deals in tires and general automobile service and is located at the corner of Wall and Baird streets.

### END OF BLIZZARD CAUSE OF JOY TO N. Y. UNEMPLOYED

NEW YORK, Jan. 31.—(AP)—Thousands of jobless rejoiced today as they began the task of lifting the thick snow blanket from many eastern states. To the employed the snow was not so welcome.

The rail bus service was hampered, plows were marooned and the farmers were snowbound in New England. The snowfall ranged from a thin layer to several inches. Two feet were recorded at Utica. New York city escaped the snow.

### Exemplify Reason Why Never Hungry

Here's why some farmers never get hungry.

I. C. Graham had finished his cotton picking, and thought he had the field clean. He disc-harrowed the land.

The thrifty Mr. Graham noticed the harrow and knocked out some cotton from what had appeared to be clean picked stalks, and had dug some cotton up which sand had covered.

He and his helpers gathered this cotton and sold it for 7 cents a pound. Graham is a prosperous farmer living about 16 miles southeast of Midland. He lives well and is relatively prosperous.

He uses brains and brawn and thrift, his friends say. Not too much cotton, plenty of feed, chickens, vegetables, cows. Graham works instead of "gripes," as another farmer explained.

In the Stokes community lives C. B. Collier. He owed \$900 four years ago. He planted only six acres of cotton per year. He has lived reasonably well, owns a car, and now owes only \$42 on the old \$900 debt. Collier says 100 hens and a few cows, and only six acres of cotton not only kept him out of debt, but enabled him to pay his main debt.

These two farmers, their friends say, use their heads to think instead of to cuss the government and cuss conditions. Consequently, they live reasonably well, don't have to ask for help, send their children to school and pay their debts.

### 83 Children at Story Telling Hour

When it was observed that the 83 children present at the library story-telling hour Saturday a large per cent had not been present the week before, those in charge of the hour decided to try for the largest attendance of the year next Saturday, reasoning that those present the week before added to those present Saturday would make almost 100.

Mrs. Marion F. Peters, who relates stories to the children each Saturday afternoon, told Swedish folk tales, a few of the old favorites, a circus story and morality tales. A get-together song led off the program.

Several rural children were present. It is being planned that more of these children be present each week.

Those present were: Wendell Coffee, Wayne Coffee, Vernell and James Murray Howell, Jackie Noland Kenney, Phyllis Richmond, Longdon Tinnin, Mary Louise Cowden, Dorothy Caswell, Geneva Henkel, Christine Johnson, Regman, Schrieder, Mary Elizabeth Newman, Doris Bedford, Ruby Patton, Erin Cox, Annie Ruth Bledsoe, Louise Patton, Buddy Bledsoe, Mary Zula Bledsoe, Jim Ray Brown, Jane Hill, Dorothy Nell McKee, John Dublin Jr., Billy Zimmerman, Nina Mae Brock, Zelma Zimmerman, Dorothy Hawkins, Emma Blake, Matilda Abbott, Billie Joyce Ackers, Minnie Inez Abbott, Henry Beth Abbott, Peter Williams, Mary Williams.

Alex Seymour, Nancy Goodman, George Wallace, Jerry Wallace, Joe Barber, Emily Jane Lamar, Walter Boyd Preston Jr., Mary Lee Schriener, Gloria Faye Moore, Maudine Chandler, Dorothy Miles, Edyth Fay Dublin, Elsie Fay Zinn, Tommy Walch, James Young, Russell Wright, Jewell Monteth, Goodrich Heil, J. C. Heil, Wayne Lanham, Nell Ruth Bedford, H. G. Bedford Jr., Charlotte Keimie, Rosemary Johnson, Duvane Shafer, Emma Mae Richmond, Raymond Patton, Reba Mae Mooney, Charles Clarke, Billy Brown, Louise Cox, Elwanda Hayes, Maxine Hayes, Gloria Swanson, Virginia Lee Smith, Jo Ann Dozier, Beth Prothro, Porter Rankin, Billy Banell, Charles Post, John Ed Post, Jack Nobles, Virginia Mae, Rosa Lee and Bettie Lon Banell, Doris and Damell McGuire, and Mr. H. G. Bedford.

### Health Nurse to Inspect Students

Further inspection of children in the public schools of Midland will be carried on this week by County Health Nurse Miss Martha Bredemier, who will carry on general inspection work at south ward, such as that done last week at north ward.

Other schools will receive inspections also during the week, and the nurse has announced her daily routine hours for the week:

8:45 to 9:15 north ward.  
9:30-10 junior high.  
10-10:30 south ward

Her office hours are from 8 to 8:30 daily except Saturday, when her hours are from 8 a. m. until 4 p. m.

Work this week will essentially deal with inspection of children's vision, teeth, ears and throat, with special emphasis placed upon daily weighing of the children. These reports will be incorporated in reports sent out by teachers periodically.

Several children have been found almost sightless in one eye, bad teeth have been reported and recommendations have been made to parents.

Parents of children enrolled in schools where the county health nurse is to make inspection are welcome to watch the inspections, Miss Bredemier says.

"These are not doctors' examinations, but just inspections," she said. "But parents who desire to know about their children may do so profitably at the inspections."

The regular first-Monday-night-in-each-month meeting of the Midland County Health board is to be held, beginning at 7 o'clock Monday night in the commissioners court room, when the first move to adapt national findings to the local situation is made.

Work in the rural schools of the county will begin sometime during the week, the health nurse said. She expects to spend most of the week in the south ward school, following which she intends to make a thorough inspection of every county school.

### District Court-- (Continued from page 1)

Walker, charged with robbery with firearms, continued. In September the case was continued on motion of the district attorney, due to absence of state witnesses.

State vs. Lowell Currie, charged with forgery and passing of forged instruments, continued from September.

State vs. Lowell Currie, charged with forgery and attempting to pass forged instruments, continued from September.

State vs. John Kress, charged with possession of liquor for sale, possession of a still, etc., for manufacture of liquor. In the December term of district court the jury was unable to agree and the case was continued.

State vs. Tom Flood, charged with transportation of liquor.

State vs. M. H. Hogan, charged with theft of a saddle (Two cases).

District Judge Charles L. Klaproth will deliver the first charge to a grand jury in the new courthouse Monday morning.

### Sale Shows People Are Buying Much

An expression of coming business normalcy was seen Saturday in the trade volume of the Home Furniture company sale.

Manager Seymour says the firm did more business in a given day than it has within 12 months.

Big crowds attended the sale all day. Only two large purchases were made, the others being normal buyers, the manager said.

### Midland Clean-up Interests Graham

Graham wants to know about the successful clean-up and unemployment campaign conducted in Midland by the Federated Women's clubs.

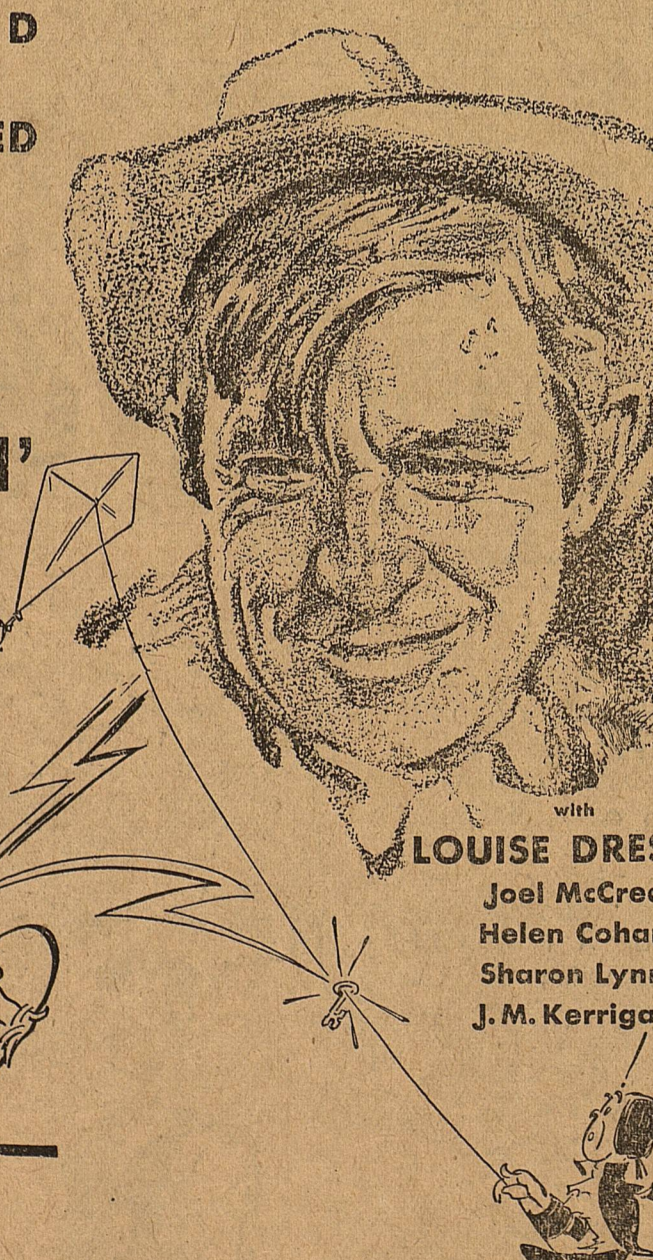

One of the leading club women of the city wrote Mrs. J. A. Haley, president of the Midland Federated group asking the plans used here. The graham leader had read about the success at Midland in the newspapers.
