Decisions On Reich Sought By Big Three

By JOHN HIGHTOWER Associated Press Staff NEW YORK, Sept. 14.—The big three foreign ministers drove toward basic decisions on western German political and security problems today, with apparently good prospects of agreement on these points:

Caspian Sturgeon Will Not Swallow Communist Line

WASHINGTON, Sept. 14.—The Voice of America is twitting Russia these days because Caspian Sea sturgeon won't swallow the Communist line.

Foreign listeners to the State Department broadcasts are told that prize "Russian" caviar, really comes from Persian sturgeon which swim in Iranian waters and warily steer clear of Soviet shores.

Jolson Arrives To Entertain GIs

TOKYO, Sept. 14.—Al Jolson arrived by plane today at his own expense to sing some songs for GIs in Japan and Korea.

Grant Andrew May Parole After Serving 8 Months

WASHINGTON, Sept. 14.—Former Rep. Andrew Jackson May (D-Ky.), convicted of accepting a bribe and joining in a conspiracy in connection with World War II munitions contracts, has been granted a parole.

Labor Party To Take Over Steel Industry

Churchill Promptly Says He Will Ask A Censure Motion

LONDON, Sept. 14. (AP)—The Labor Government announced today it will take over the British steel industry about Jan. 1.

Winston Churchill, the conservative leader, promptly declared he would ask the House of Commons to adopt a virtual motion of censure. The motion will be debated next Tuesday. If passed, it might lead Prime Minister Ailes to resign and ask for a new national election.

In view of its hairline majority in Commons—now only five votes—the Labor Government had been expected until recently to let the explosive steel issue lie dormant for at least a few months.

The bill placing the iron and steel industry under state ownership is effective Oct. 1. The government did not, however, have to set up a date for the actual takeover at that time.

But this afternoon, George Strauss, the minister of supply, announced that officers of the corporation will be named Oct. 2. Strauss, under whose department the industry will operate when nationalized, said it will be taken over on Jan. 1 "or as soon as practicable thereafter."

Churchill jumped up and said he will offer a motion "regretting that at this most critical period in our national safety and affairs abroad we should be by this act of the government plunged into the fiercest party controversy at home."

The debate and vote on Churchill's motion will keep the current emergency session of parliament called to discuss defense matters—in London an extra day. Members had expected to wind up on Monday.

LATE BULLETINS

WASHINGTON, Sept. 14.—The House shouted overwhelming approval today of a resolution calling on Congress not to adjourn until it has a chance to vote on a multi-billion dollar excess profits tax.

PHILADELPHIA, Sept. 14.—The discovery of tritium, the hydrogen bomb explosive, in water was announced today at the research Institute of Temple University. Tritium costs nearly a billion—\$500,000,000—per pound as it is made with atomic reactors.

This natural tritium is the rarest element in nature. There is one atom of tritium for every ordinary atom of hydrogen in ordinary water—the kind that comes out of your household faucets.

"Ovah", He Says, To Bill Number 1211

By ARTHUR L. EDSON Associated Press Staff WASHINGTON, Sept. 14.—President Truman being willing, George Washington is here to stay.

Navy Denies Any U. S. Ships Sunk

TOKYO, Friday, Sept. 15. (AP)—Heavy attacks by Allied warships and carrier planes on Korea's west coast—an apparent prelude to the promised big push—prompted the Reds last night to claim four U. S. landing craft and three destroyers were sunk.

The U. S. Navy in Washington said it had no report of any landing-type vessels being involved in the heaviest surface bombardment of the war by British and American ships in the vicinity of Inchon, west coast port for the Red-held capital city of Seoul.

The Navy said the Reds did inflict "superficial damage" on three U. S. destroyers during the Inchon bombardment yesterday.

With ground action relatively scanty and American commanders predicting future offensive operations against the North Koreans, Allied sources in Tokyo said it sounded as if the Reds were trying to manufacture a "victory" by implying that a landing effort had been repulsed.

Far East naval headquarters said earlier that Task Force 77 wrought damage along a 210-mile western strip, the main blows being at Inchon.

The attacks against troops, gun emplacements and airstrips were disclosed by the Navy Thursday.

Allied ground forces either held firm or gained on the beachhead perimeter 150 miles to the south-east.

Particularly active was the northern front—from the north west corner before Taegu to points north of the Taegu-Kyongju Highway eastward. The U. S. First Cavalry Division seized three heights north of Taegu. Comparatively small-scale fighting flared on the southern front.

On the east coast, an American battleship cruised up and down the Sea of Japan off Pohang port. One of its three escorting destroyers whipped into the Red-held harbor and exchanged fire with shore batteries.

The battleship didn't fire a shot. Attention was focused on the west coast by the two-day naval assault; however, islands flanking Inchon have been seized by South Korean commandos—both for a Pyongyang broadcast of the North Korean war communique harassing the Reds' seaborne supply and to prepare for a possible offensive.

On Sept. 13, the people's army, navy and coastal patrol units subjected United States naval craft invading the waters in the neighborhood of Inchon to gunfire and sank three small destroyers and four landing craft and damaged three other landing craft.

Islands flanking Inchon have been seized by South Korean Marines in commando raids. This served the double purpose of throwing a wrench in the Reds' seaborne supply lines to the battleship—and preparing a possible avenue for an offensive.

The U. S. Navy said American and British cruisers and destroyers blasted two whole days at Inchon, port for Seoul, which is 22 miles inland.

Carrier planes went after airstrips, troops and gun emplacements there and along a 210-mile western coastal strip.

The strikes were disclosed as allied ground forces, more than 150 miles to the southeast, either held or punched out gains on the beachhead perimeter.

U. S. naval power turned up also on the Sea of Japan side of the Peninsula, the east coast. An American battleship cruised off the coast from the ruins of Red-held Pohang, one-time No. 2 United Nations port.

The battleship didn't fire a shot, but one of three escorting destroyers zig-zagged into Pohang harbor and banged away under roiling shore batteries.

On the northern battlefield more than 150 miles southeast of the naval air strike—the Korean Republic Capitol Division pushed on against Reds dug in north and northwest of Kyongju. Kyongju is 15 miles southwest of the fire-blackened east coast port.

"HARRASSED" ENEMY Ko-Reds Must See US Tanks In Sleep

By JACK MACBETH Associated Press Staff WITH U. S. FIRST CAVALRY DIVISION, Korea, Sept. 14.—Enemy troops on the northern front must be seeing American tanks in their sleep.

They see them nearly every day. Big, lumbering steel monsters push their noses as far as three miles into enemy territory. Their job is to find and destroy the enemy.

That is what the U. S. Army calls "harrassing action in the enemy rear."

One tank commander who drew such an assignment is Capt. Carlos Fraser, Casper, Wyo.

How does it feel to be on such intimate terms with the enemy? "It makes you sweat a bit," Fraser said. "Especially those mechanical failures."

Fraser said a few of his tanks were damaged by enemy shell and mortar fire, but none was destroyed. Mechanical failures were his chief worry.

Once behind the enemy lines, Fraser said, "the shooting is good." He declared that in the last two days some tanks he led into Red territory on the Taegu front destroyed four machinegun nests, an ammunition dump and several artillery pieces.

Fraser, a thin man who wears glasses, said he actually feels as safe behind the enemy line in his tank as he does behind the American lines out of the tank.

He made the statement immediately after a heavy artillery bombardment.

Plans For Howard County Fair Move Into High Gear

Machinery for the annual Howard County Fair, Sept. 28-30, is being shifted into high gear.

Executive committee of the association met Thursday morning at the Settles, checking various details of arrangements.

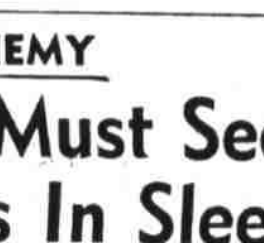

Boone Horne was announced as chairman of the commercial exhibits division, and rental of space by business concerns will be done through him. The price for inside space is the same as last year—\$3 per front foot. Outside space for farm implements, trucks, etc. goes for substantially less. Horne may

be reached at Hester's Supply. Placement of institutional space is in the hands of Mary Cantrell, county welfare officer. This space is allotted free of charge by the Fair for educational exhibits by organizations.

Prospective commercial and institutional exhibitors are asked to make contacts for space quickly because the amount available is limited.

Homemaking exhibits will be headed by Eugenia Butler, county home demonstration agent. General agricultural displays are in charge of D. W. Caldwell, Jr., Finance and concessions are the charge of M. C. Grigsby. Building and grounds will be directed by Harvey P. Woolen, general superintendent, and J. W. Purser. Officers on the executive committee are H. J. Morrison, R. V. Middleton, Rad Ware and Joe Pickle. Arrangements are being made with the T. J. Tidwell Shows for a carnival during Fair time. Gate charges were kept at 15 cents for adults and 10 cents for children.

Barnaby Ordered Back To Active Duty With Navy

Orders to report for active duty with the Civil Engineering Corps of the Navy have been received by Lt. Comdr. Neel Barnaby.

Barnaby is to leave within three days to report to San Francisco, for further assignment to A d a k, Alaska, where he is to be assistant officer on a naval construction project.

He was a chief warrant officer in the Navy's CES (Sea Bees) during World War II, serving for about three years. He since has been active in the Naval Reserve, and was promoted last year to lieutenant commander.

Barnaby has just returned from Galveston where, at the State American Legion convention, he was elected sergeant-at-arms for the state department.

Cost-Of-Living Wage Boost Pattern Is Still Moving Ahead; Bendix, UAW Sign

DETROIT, Sept. 14 (Sp)—The pattern of cost-of-living wage boosts still is making headway in the automobile industry.

New developments last night saw the five-year contract signed Labor Day by the Ford Motor Co. and the CIO United Auto Workers virtually assured approval and a new agreement worked out by the UAW and Bendix Corp.

The Ford pact—embodying an eight-cent hourly pay boost and a cost-of-living escalator clause—won the approval of the big UAW local 800 by a vote of about 3-2, the union announced.

That ratio, UAW spokesmen admitted, was "a lot closer than we expected." They had predicted "overwhelming" ratification.

But they said the count of 15,378 votes in favor of the contract and 12,224 against it undoubtedly would all the rank-and-file votes are in Local 800, representing 45,000 production workers at Ford's big Rouge plant here, has more members than the rest of the Ford locals combined. The company employs about 110,000 production workers.

Earlier the contract had been rejected by three good-sized locals—Highland Park Local 400, Lincoln Local 300, both in Detroit, and the Buffalo, N. Y., unit—all by fairly close margins.

There have been votes for ratification from locals in Waterford and Canton, O., and Dundee and Edgewater, N. J.

The contract boosted pay of Ford workers to an average of about \$1.75 an hour and skilled workers got an extra five cents hourly. However, a good segment of the UAW membership apparently objected to its five-year duration with no provision for reopening.

The new Bendix agreement will give a wage boost—its amount still unannounced—to 13,000 UAW employees in Detroit, South Bend, Ind., Teterboro, N. J., Elmira, N. Y., and North Hollywood, Calif.

It ends a six-day walkout 1,500 employees of Zenith Carburetor Division here and sends back to work 6,000 employees of the Bendix South Bend factory who struck yesterday. All the strikers were seeking wage increases.

PENTAGON DEPARTURES?

See Resignations Of Other Officials

By ELTON C. FAY
AP Military Affairs Reporter
WASHINGTON, Sept. 14. — Some of Secretary of Defense Louis Johnson's official Pentagon family are expected to depart soon as an aftermath of the cabinet officer's resignation.

Washington protocol calls for appointed officials of a department to offer their resignations when-

ever the department chief is replaced.

There was speculation that Asst. Defense Secy. Paul H. Griffith, long a Johnson associate, would be among the first to step out in what may develop into a general shift in the Pentagon secretariat.

All six members of that group are presidential appointees, with Senate approval.

The customary procedure is for these officials to proffer their resignations to the incoming secretary who may or may not forward them to the White House. If he wants an official to stay on, he holds up the resignation letter and asks the man to remain.

In addition to Griffith, these are the other two assistant defense secretaries and the three service secretaries:

Wilfred J. McNeil, assistant secretary in charge of fiscal and budgetary matters; Marc Leva, assistant secretary for legislative and legal matters and the chief liaison officer with Congress.

Army Secretary Frank Pace; Navy Secretary Francis P. Matthews; Air Force Secretary Thomas Finletter.

McNeil and Leva, veterans of the original unified military establishment setup, served as assistants for the late James Forrestal. There were guesses that Gen. George C. Marshall, chosen by President Truman as the new defense chief, might ask them to continue. Neither has indicated whether he would prefer to remain if asked.

There was also speculation as to whether Secretary Matthews would desire to continue or take this occasion to resign. Matthews, appointed to the Navy job after a quarrel between Johnson and John L. Sullivan resulted in the latter's resignation last year, recently was the center of a flurry over high policy.

In a public address, Matthews posed the question of preventive war to stop Russian aggression. For that he drew a formal State Department announcement — with White House approval — that his speech did not reflect American foreign policy. However, after a talk between Matthews and the President, Mr. Truman let it be known he considered the incident closed.

Army Secretary Pace, the most recent comer to the Pentagon family, reportedly was brought in from his former job as federal budget director at Johnson's request.

Air Secretary Finletter, who took over last April, appeared to have been primarily a choice of President Truman. Finletter succeeded W. Stuart Symington, whom Mr. Truman moved up to the chairmanship of the National Security Resources Board. There had been evidence of friction between Symington and Johnson during the former's tenure as air secretary.

Japanese-American Aviators Will Race

LOS ANGELES, Sept. 13. (AP) — Japanese-American aviators will race cross-country to Chicago late this month in the first such contest of its kind.

Henry Ohye, automobile dealer and sponsor of the trophy race, made the announcement today. He said five pilots of small planes are entered in the event.

"We hope to show that Japanese-Americans can fly," he said, "and overcome some of the prejudice which kept them out of the Air Force in the last war."

All the fliers, he said, were members of the much-decorated 442nd Central Postal Directory Team.

Ohye himself will fly with the group as sponsor. Trophies will be awarded for the best time and gas consumption figured according to each plane's passenger load.

Texas Baptists Get Good Return On Land

DALLAS, Sept. 14. — Texas Baptists have a return of about \$400,000 from last year's gift of 56,202 acres of New Mexico land. Dr. J. W. Bruner, Baptist General Convention official, announced.

Donors of the property were Arthur Wasson of Big Spring, Howard County rancher, and the late Mrs. Wasson.

Child Health Funds Greater For Texas

DALLAS, Sept. 14. — The Federal Security Agency's regional director here says Texas will receive about \$1,983,000 in federal funds for child health and welfare services.

The funds will be received during the 12 months starting next July 1, and will represent an increase of about \$332,000 over the present grant, says the FSA director, J. H. Bond.

NURSE TELLS HOW HADACOL WAS SO HELPFUL TO HER

She Suffered Deficiencies of Vitamins B1, B2, Iron and Niacin

Mrs. Jennie Lee Adele, 412 N. 27 St., East St. Louis, Ill., says being a nurse really lets her know when folks are sick. That is why when she tried all sorts of remedies and didn't get relief, she knew she was in bad shape. That was, of course, before she heard about HADACOL and before she found out she had a deficiency of Vitamins B1, B2, Niacin, and Iron.

Here is Mrs. Adele's own statement: "I have been a nurse for over 14 years. I had to stop working and went to the hospital. I was suffering all kinds of dizzy spells, weakness and growing weaker. I had pains in my chest, and I could hardly eat. My food never seemed to agree with me. I was terribly run down and growing worse. I had tried all kinds of remedies. Don't think I wasn't plenty scared—'cause I know, being a nurse, when folks are really in bad shape. . . . I heard one day how so many folks were being helped because of HADACOL. I tried it and after 3 bottles I could tell a big improvement. Now I eat anything I want—sleep well and I don't have dizzy spells any more—I am full of energy. The only thing about HADACOL is that I didn't find out about it sooner. Now I am going back to work at last, thanks to wonderful 'HADACOL.'"

This great new nutritional formula will help you if your system lacks Vitamins B1, B2, Iron, and Niacin?

What HADACOL did for Mrs. Adele, it can do for you if you're suffering fiendish torture and agony from neuritis aches and pains, nervous disorders, insomnia, stomach distress and a general run-down weakened condition due to such deficiencies.

So, what are you waiting for? Don't you see that HADACOL is the kind of product you need—the kind you should buy and the kind you should start taking immediately!

Sold On A Strict Money-Back Guarantee

HADACOL even helps build up the hemoglobin of red blood cells (when Iron is needed) to course through your body, carrying these great health building elements to every body organ—the liver, lungs, heart, kidneys—even to the nails, hair and eyes. No wonder HADACOL helps you feel wonderful!

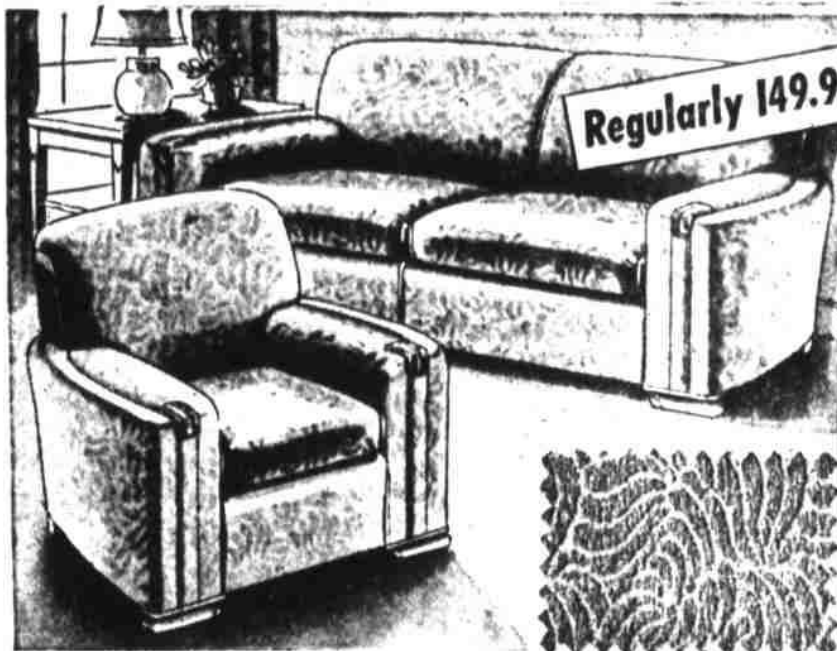

Be fair to yourself! Give yourself a break if you have such deficiencies! Why continue to drag yourself around—a burden to yourself and your family—when relief may be as close as hand as your nearest drugstore! This great HADACOL is inexpensive, too—costs only a small amount a day. Trial size, only \$1.25. Large family or hospital size, \$3.50.

Duties Of Parents Are Discussed At Meeting

The Kind of Parents Teachers Like" was the subject of a discussion led by Mrs. R. W. Thompson at the first fall meeting of the Child Study Club Wednesday.

Pre-school children should be taught cooperation, courtesy and respect for authority, according to Mrs. Thompson. Parents may also prepare them for school by reading to them, since this develops their attention. They should be allowed to develop independently.

She pointed out the responsibility of the parents in knowing the children's school and the importance of participating in a Parent-Teachers Association as a medium for this. Parents should not make unusual demands and not expect things to be the same as in their school days, she contends. They must spend time with their children and provide a quiet place

Sara Haislip And Leland Gibbons Are Married In Stanton Ceremony

STANTON, Sept. 13 (Sp) — Sara Haislip and Leland Gibbons were united in marriage at a double ring ceremony recently at the home of the bride's father, Harry Haislip, Stanton.

Rites were solemnized by the Rev. J. B. Stewart, pastor of the Ashbury Methodist church in Midland. A reception followed the ceremony. Mr. and Mrs. Gibbons will make their home in Odessa following a wedding trip to the Davis Mountain area.

Dee Carter, scoutmaster, is to meet with his Boy Scout troop Thursday evening at the Methodist church.

Take Off Ugly Fat With This Home Recipe

There is an inexpensive home recipe for taking off unattractive weight and helping to bring back youthful vitality and a good complexion. Just get your dose of 4-ounce boxes of **LIPTON'S** tea. Add enough water to make a quart of tea. Then just take two tablespoons twice a day. Wonderful results are obtained quickly. Now you may slim down and lose and lose pounds of ugly fat without back-breaking exercise or restriction. It is easy to make and easy to take. Nothing harmful. If the very best bottle doesn't show the simple way to lose bulky weight and bring back slender, more graceful curves, return the empty bottle and get your money back.

THE HOME OF GREATER VALUES

A Bible Thought For Today—

If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land.—II Chron. 7:14.

Inflation, With Rising Materiel Cost, Gets You Coming And Going

The nation's rearmament to achieve peace through strength is going to cost the American people just about all they can take and scrape, even if inflation is kept under control. If inflation isn't kept in hand, the cost of even a minimum program of defense may well break the back of the nation's economy.

Nobody pretends that the bill signed by the President a few days ago offers a secure basis for control of inflation. That a Congress will have to thresh out at a later session—and it had better not be too much later. Our Canadian cousins this week re-enacted wartime controls of installment buying, which is a start, but only a start.

Soaring prices affect not only the consumer, but the rearmament program in general. Few days ago Navy Secretary Matthews submitted to the Senate Armed Services "Watchdog Committee" a few samples of high-priced war goods. Navy costs, he said, had soared to "almost unbelievable heights," and in "current ne-

gulations many contractors are now requiring escalator clauses—rather than fixed-price contracts in order to take care of possible labor and material increases."

Here are some of the price boosts mentioned by Secretary Matthews: Crude rubber, up 300 percent; radials, training sets, 227 percent; fire hose, 61; surgical gloves, 48; fats, oils and glycerine, 60 wire-bound resistors, 25; precision resistors, 20; pork, 19; chicken, 22; ship's parts, 12; aviation gas, 9; medicine cabinets, 12; aluminum, 11.

The consumer who must dip deeper in his pockets to make up for rising cost-of-living items doesn't stop there; he also must dip deeper to pay for the rising cost-of-defense items too.

We have to eat, to wear clothes, to live in houses. We also have to build up our defenses or perish.

Congress owes it to the consumer and taxpayer to see that we get the maximum of defense for our money, inflation rights on the side of our enemies.

Way Will Be Cleared Quickly For Service Of Gen. George Marshall

Congress may be expected to act expeditiously on the President's request for a change in laws which will permit Gen. George Marshall to serve as defense secretary.

Louis Johnson at long last stepped out when the President finally had to choose between him and Dean Acheson, secretary of state, and when critics were anointing heavily. The President fell back on Gen. Marshall.

And well he might. Gen. Marshall is one of the really great men of our times. He is a staunch defender of due processes under a democratic system. He has been a foe of the philosophy which would permit the military to ride rough-shod over civilian rights in time of emergency.

He is a master strategist, an effective organizer, a smooth-working executive. His

record in the army and as secretary of state will attest to these points.

His appointment will be welcomed by those who hold that the department of defense should be manned always by a military man. The repeal of the law is probably wise in that it will remove the bars from service of the best possible men regardless of civilian or military status.

But as a matter of tradition, we may be embarking on a course from which it will be difficult to deviate. The position of defense secretary does not require military skill—the joint chiefs of staff and a host of experts from different branches supply that. It does require the ability to bring together the competitive and prideful components of the defense system under one effective operation. As a sustained policy, a disinterested civilian might better function in this capacity.

Will Marshall Have To Bear Criticism On China Policies?

WASHINGTON.—THIS WRITER HAS great respect for Gen. George C. Marshall as a man, as a citizen, as a soldier, and as a public servant.

So what follows here is not meant as a criticism of him. But his selection by President Truman to succeed Louis Johnson as secretary of defense raises one question at once:

Why, in a country of 150 million people, does one man, like General Marshall, have to serve in one critical job after another? Are no other men capable of filling critical jobs well?

Marshall was chief of staff during World War II. He retired in 1945, thinking that after his long Army career and world war duties he could get a well-earned rest. BUT THE SITUATION IN CHINA—between Chiang Kai-shek and the Communists—was so bad that Mr. Truman called the general out of retirement and sent him to China as the one man capable of mediating the dispute.

Then when Marshall finished that job, Mr. Truman asked him to be secretary of state. A good man was needed, Marshall was a good man. He served until ill health forced him to retire again to private life.

He's 69 years old. And now, with the nation in a dither over its defenses, Marshall once more is asked to help the country out. Granted that Marshall is one of the outstanding men of his time, it still is some kind of commentary on the other 150 million people that one man repeatedly has to be called on to bail his country out of trouble.

Then there's another question: How will Marshall make out if Congress approves his appointment as secretary of defense? Elections are coming in November. Few people are sacred in politics. Will he get a political kicking around?

UNTIL NOW THE REPUBLICANS have been blaming Secretary of State Dean Acheson for our China policy. That policy can be stated briefly:

Several years ago the Truman administration decided it was hopeless to keep pouring help into Chiang Kai-shek's government in its fight against the Chinese Communists on these grounds:

that it wouldn't take the steps at reform necessary to help itself, and that it could not win against the Communists so long as it persisted in not reforming.

As a result, American aid was withdrawn and eventually the Communists drove Chiang out.

Marshall had a big hand in shaping that policy. When Acheson succeeded him as secretary of state, the policy was continued, always, of course, with the approval of Mr. Truman, who was the connecting link between the two men.

But for many months now, with the Communists in control of China, Acheson has been condemned by the Republicans for our China policy. Senator McCarthy, Wisconsin Republican, even called him the "Red Dean."

IT SEEMS UNLIKELY THAT ANYONE would dare try to put any Red labels on Marshall but... Now we'll have to see whether Marshall is going to be criticized along with Acheson for the China policy. The latter until now has had to bear the brunt of the attacks almost alone.

In order for Marshall to take the job as secretary of defense, Congress must change a law which it passed only a couple of years ago. The law says no former regular officer can be secretary of defense unless 10 years have elapsed since he left the service.

Marshall retired from the Army only five years ago. So before he can be secretary of defense, Congress will have to change the law at least in his case. The purpose behind the present law, of course, was to preserve civilian control of the armed forces.

That's part of the American, Democratic tradition of keeping control of the country in civilian hands and out of the hands of military men.

SEVERAL MEMBERS OF CONGRESS, however, offered strange reasoning in explaining why they'll approve changing the law for Marshall.

They said they'd be against a military man as head of the armed forces in ordinary times, but these are unusual times and therefore it's all right to put in a military man.

That Chiang's government was corrupt like living in a wallet."

Nobody laughed. McDougall tried to inject the line into four scripts, but it was always tossed out. Finally he managed to slip it into "June Bride." "It got a big laugh," he added happily.

Many of his lines are taken from life. One day he returned home from work and was given a hug by his daughter. "You'd better take care of me," he said. Good daddies are hard to find."

"You weren't so hard to find," answered the girl. You will hear the line said by John Garfield's daughter in "The Breaking Point."

Another MacDougall favorite came in "Mildred Pierce." Eve Arden observed Jack Carson giving her an all-inclusive glance. "Leave something on me," she said. "I'll catch cold."

Share-Worry Mood Grips Senators As They Ponder Adjournment Plan

WASHINGTON—Reflecting a thoroughly morose view of the immediate future, Senate Democratic leaders are chewing over an adjournment plan that will bring them back to work immediately after election.

For one thing, they are not satisfied that the public will welcome home even the campaigners who are up for election without some prior assurance that one and all will get back on the job as soon as possible. Nor are they particularly happy about the voluntary controls and limited tax legislation with which they are beginning the new year effort.

The White House premise is that it takes time to get the mobilization machinery under way, so present moves are adequate. But the contrast between great plans now being made for the military and the tentative beginnings on the home front impresses experienced Senators.

They have been astonished at the calm with which the public has received such news as the contemplated doubling of the defense establishment which seemed so very hefty last January when it was to cost \$15,000,000,000.

Truman's Off-The-Record Talk About Tolerance In Wartime Was Historical

WASHINGTON—Sometimes the President's off-the-record remarks that never reach the papers are his best. Those present thought this was the case when Truman addressed the joint session of the AFL-CIO last week.

Speaking without notes and obviously straight from the heart, the President made a plea for tolerance in wartime.

To a considerable extent it was a historical speech. The President reviewed the different periods of hysteria which have gripped the country—the alien and sedition act in the early days of the republic, the Know-Nothing party, and Ku Klux Klanism.

He pointed out that the Know-Nothing party had been anti-Mason and referred to the fact that he, himself, was a Mason. The Klan, he recalled, was first against the Negro, then when revived in the 1920's, against the Jew and the Catholic.

These were evidences of intolerance which did not truly represent the American people, he said, and he was absolutely confident that the good judgment of the American people would always win out.

The President did not mention the Mundt-Nixon bill or the McCarran Bill, but it was obvious he had them in mind. For he referred to congressional witch-hunters who wave the American flag while persecuting alien immigrants and trampling on the rights of loyal Americans.

"This is the raw material of totalitarianism," he said. While fighting the intolerance of totalitarianism, he emphasized, we must not take on the methods of totalitarianism. Recalling that totalitarian regimes had persecuted labor unions, religious groups and fraternal organizations, he pointed out that under the alien and sedition act, naturalized citizens hardly dared say anything in public about the government for fear of being thrown in jail, and this, he inferred, might also happen under the Mundt-Nixon and McCarran bills.

FREE LOBBYING MAIL. There was at least one senator who, though agreeing with the

000,000. Nor do the new proposals for substantial increase in U. S. armed strength in Europe together with the arming of West German divisions for an international force seem to create much stir.

One astute and contemplative Senator said it was "giving me the shivers" to think of all the things he had been voting for in late plans to militarize the country beyond anything ever done in peacetime before, heavier taxes added to levies already high and wide delegations of power to the president in the economic field.

Not only does his mail from home not reflect anxiety over these moves, the general tenor seems to be that we must be sure we are doing enough. If all this indicates stern resolution on the part of the public, the Senator will naturally be happy. However, he has a latent fear that, when the shoe begins to pinch, the stars will be different.

In any case he will be glad to get home so he can put both ears to the ground and he'll be just as well pleased if he can

say at the same time that of course he will return to Washington to watch Harry Truman immediately after the election.

Speaker Rayburn is less nervous. He wants to adjourn now. It is doubtful if the Senators will agree, however.

Nothing they hear about prices and wage rises operates to soothe Senatorial nerves, either. All commodities are up—copper, wool, rubber—and reports emanate from downtown that food rises noted in the next cost-of-living index will be spectacular.

Actually not much more must legislation remain on the Senate calendar but each is a real headache. House advocates of an excess-profits tax are blocking approval of the tax bill. The President has said his word to veto the McCarran anti-subversive bill as unworkable and unconstitutional, which poses a rather mean question of overriding his veto. A southern threat to filibuster clouds the statehood bills.

It all adds up to a share-the-worry mood in the Senate.

Better Let The FBI Judge An Individual's Subversive Tieup

Let's say I called YOU a Communist.

Other people heard me accuse you of being a Red, including your employer.

Within a matter of minutes after hearing the "news," your employer tells you you're fired, not because he believes it, he says, but because the accusation makes you "controversial."

Anyway, it's still the same—you're fired.

You think this is a hypothetical case?

A prominent actress recently lost her well-paying job because of the above circumstances.

What in the world is this nation coming to? It seems now, that all you have to do to get rid of your enemies or to make life not worth living is to call him (or her) a Communist.

Our founding fathers would turn over in their graves if they knew the mass hysterics this country is having about Communism. While they may never have envisioned Communism in their day, they still took note of possible tyrannical rulers when they wrote the Constitution and the Bill of Rights.

Among the Rights all Americans have is trial by jury. Senseless and profless accusations should never be tolerated, at least not by a nation as mature and sensible as we are supposed to be.

As one columnist put it about the aforementioned actress:

"Without having her day in court (she) has paid all the penalties—loss of her job, earning power and reputation—which go without conviction."

Surely such "condemnation" or conviction, if you prefer, is unconstitutional and contrary to the basic concepts of a democracy.

When we Americans must convict a person without one iota of proof, simply

because of ugly rumors, then we stand ready to admit that the democratic form of government is not best.

A recent article in a national magazine tells how the FBI investigates charges of affiliation with subversive groups, tracking down any and all rumors before okaying a government worker. After reading this article, it is hard to understand why unverified charges are so easily believed by Americans.

The recent accusation by Sen. Chapman of Kansas against Oscar Chapman, so closely following the irresponsible tactics of Sen. McCarthy point out the hysteria existent in Washington and can be blamed, too, for the rash of brush accusations of other people.

It is also an admission, I fear, by the Republican party that they have nothing better to offer than the Democrats. Such should be the case, because after all we Americans, by majority vote decided the Democrats had the most and the best to offer us. Thus, the GOP should seek to assure the carrying out of the people's mandate to the Democratic party—not hinder it and cause us to lose faith in our government.

The charges of Sens. McCarthy and Schoepfel have caused many Americans to lose faith.

Too, a check-up on subversive elements should be left to the Federal Bureau of Investigation—not to irresponsible accusers who lack evidence. If any American has reason to believe he or she knows such subversive persons, simply report your findings to the FBI. Let them garner the proof or at least attempt to clear the person.

If such proof is not evident, you're seriously injuring a fellow American.

Think it over, because YOU may be called names, too!

South Africa Deprived Of Her Greatest Son By Smuts' Death

THE DEATH OF THAT GREAT WORLD figure, Field Marshal Jan Christian Smuts, removes the main link which has bound a wavering Union of South Africa to the British Commonwealth of Nations.

Thus it should cause no surprise if the union breaks away before long and, like southern Ireland, sets itself up in business as a republic. This is regarded as a distinct possibility by well informed observers. Official circles in London are said to be worried.

Smuts was leader of the United Party, which he founded largely to perpetuate the commonwealth. In fact he WAS the party. Opposed to his program has been the Nationalist Party which now is in power.

THE LEADER OF THE NATIONALISTS is Prime Minister Daniel F. Malan, a former clergyman, who advocates separation from the commonwealth. Dr. Malan is a rather provincial and solid figure who has lacked the colorful leadership of the dynamic Smuts. However, there are a lot of folk in South Africa who subscribe to Malan's policies.

There also have been some in Smuts' own party who, while clinging to him through loyalty and admiration, have had leanings to some of the National Party aids, including separation. It has been the field marshal himself who has held them in line.

Now this great man, who was one of the originators of the commonwealth idea, is gone and the United Party has lost its main element of cohesion. The way is open for striking developments in the Union of South Africa.

HOWEVER, WHILE THE QUESTION of separation is paramount, this isn't the

only great problem hanging over the country. There is the controversial policy of white supremacy and racial segregation maintained by the Malan government.

This racial issue is one of long standing, and its ramifications reach to far away India. The Union of South Africa has a large population of Indians who have fallen under the segregation ban. The result has been the creation of bitterness in India and the lodging of formal complaints by the New Delhi government with the United Nations. Thus far there has been no sign of any change of heart in South Africa on this point.

Whether Smuts' views ultimately prevail in his country, the British Commonwealth has lost one of its greatest figures, and the world one of the outstanding statesmen of generations. His achievements would fill volumes, but here are just a few:

NOT ONLY WAS HE ONE OF THE creators of the British Commonwealth of Nations, but he was known as the father of the Union of South Africa, and was the hero of the South African masses.

He was among the founders of the League of Nations, and I saw him at Versailles where he was a signer of the World War I treaty. He was one of the creators of the United Nations.

Throughout his political life he was numbered among the chief counsel of the British Empire and Commonwealth. When Britain faced its greatest crisis in World War I Smuts was summoned to London to become a member of the Imperial war cabinet, where he rendered invaluable service.

And now his beloved South Africa, as she faces a critical period in her history, is deprived of the guidance of her greatest son.

Don't Trouble GI Joe About His Writing Letters To You

MASSAN FRONT, KOREA—(P)—This problem isn't a correspondent's business. But so many of the soldiers fighting this war are worried about it that I'm going to put in a word to their wives and mothers:

Don't write Joe or Bill and ask him why he isn't sending you more letters.

He wants to. He tries to. But much of the time he just can't.

Red Cross men up front are getting dozens of letters from you, asking why your man hasn't written.

Probably even Joe himself has had a letter from you beeping because he hasn't written. Not an angry letter, or course. A little hurt.

HERE'S WHY HE DOESN'T WRITE very much, and maybe it won't make very sense by civilian standards.

He thinks about you a lot more than he ever did before. He remembers the way you smile one day, or the way the kids enjoyed going on that picnic.

But he's tired. Not the kind of tiredness that a good night's sleep fixes. Bone tired. Tired deep inside.

And there is always that terrible tension—the waiting.

They're always with him up there in the foxhole, with mines and wire around and pretty safe. But he doesn't want to write home that sudden death is around the corner.

Or maybe, Joe or Bill is back in a regimental command post, or an ordnance or service outfit. He's working hard. And then falling exhausted on his bed roll under a pup tent.

HE LOVES YOU, BUT HE'LL SLEEP till somebody shakes him awake. Then he'll go to work again.

Actually, he's probably written more letters than you got. He gives them to a guy going back to battalion headquarters, and maybe they get to the mail orderly. Maybe they don't. A lot of letters get lost in a war.

Above all, don't get perturbed and stop writing to HIM. Letters are wonderful to get.

Just remember that Joe or Bill hasn't changed. Don't trouble him by making him wonder if YOU have changed, by worrying him about mail.

Please?

Let's Consider Now The Life Of A Hollywood Screen Writer

HOLLYWOOD—(P)—Time now to give a few thoughts to that species of Hollywood life known as the screen writer.

Take Kanold MacDougall. He wears neat suits with white shirts and owns but one swimming pool. He is good-looking enough to be an actor, which he was until he discovered he could make more money with a typewriter.

Like actors who have their favorite performances, writers have pet wisecracks. MacDougall was telling me his favorite, which was born in Joan Crawford's house.

MacDougall, Producer Jerry Wald and Director Mike Curtiz were visiting the actress to discuss "Mildred Pierce." They were ushered into a beautiful den with halls and furniture of leather.

"Hmm," said the writer, "this must be

Newhouser, Raschi Clash In Vital Contest Today

By RALPH RODEN
Associated Press Staff
Two World Series veterans, Hal Newhouser and Vic Raschi, went to the firing line today as the Detroit Tigers and New York Yankees opened their three-game series in Detroit with the lead in the American League pennant fight at stake.

Newhouser, 29-year-old southpaw bellwether of the Tiger staff for years, was given the assignment to protect the Tigers' half-game lead over the defending world champions.

Manager Casey Stengel, of the Yankees figuring to get the jump in the vital series nominated his righthand ace winner of 19 games, Boston, the third member in the night stretch run, sought to prosper at the expense of the seventh-place St. Louis Browns.

The Red Sox opened a three-game series in St. Louis but discovered instead of pushovers, a team that is pushing back. The Browns have won seven straight, including four over the Cleveland Indians.

Here's the pennant picture:
Team W L Pct GB
Detroit 87 49 .640 18
New York 87 50 .635 17
Boston 86 51 .628 16 1/2
Newhouser, who has won 14 games, has beaten the Yanks only once and lost three times.

Raschi, who will be gunning for his sixth straight victory, has split four decisions with the Detroiters. The Tigers have treated the Yanks roughly so far in Briggs Stadium, winning six out of eight games.

The pitching plans for the final two games of the series probably will see Tiger-killer Tommy Byrne and young Ed Ford work for the Yanks against Art Houtteman and Dizzy Trout in that order.

Detroit and New York turned up with victories yesterday. The Tiger stopped the Washington Senators, 5-1, while the Yanks beat the Cleveland Indians, 10-3. The Red Sox were not scheduled.

Duck Hunting Will Begin On Nov. 3

By WILBUR MARTIN
Associated Press Staff
Duck hunting starts in Texas this year on Nov. 3 and lasts until sunset Dec. 17.

Secretary of Interior Oscar Chapman announced the new migratory waterfowl hunting rules for each of the four flyways in the United States.

Major change for Texas is the increase in the daily bag limit by one duck and in the possession limit by two ducks. You now can shoot five ducks a day and five geese. Your possession limit is ten ducks and five geese.

There are some special rules that apply to certain portions of Texas. For instance, in Shelby, Nacogdoches, Angelina, Trinity, San Jacinto, Liberty, Chambers, and all counties south and east thereof, the season for hunting woodcock is Dec. 23 to Jan. 21.

There will be long debates why the Frenchman didn't play it safe in the final round. All he had to do was stab at LaMotta's nearly-closed left eye and stay away. He would have won back for France the championship that LaMotta wrestled from an injured Cerdan in the same city 15 months ago.

Padres, Oilers Again Triumph In Playoffs

By The Associated Press
San Antonio and Tulsa had Beaumont and Fort Worth on the ropes today as the clubs changed stands in their first round Texas League play-off series.

San Antonio edged Beaumont 6-5 last night at Beaumont while Tulsa was beating Fort Worth 3-2 at Fort Worth.

They play three games at San Antonio and Tulsa starting tonight if that many are needed.

Beaumont will call on its 16-game winner, Rex Jones, tonight in an effort to break into the win column. San Antonio will start Pete Taylor, who won three and lost seven over the season route.

Fort Worth's pitcher will be Clarence Podbletan (5-8) with Jim Ayres (6-2) tolling for Tulsa.

San Antonio scored twice in the ninth to break a 4-4 tie and beat Beaumont last night. One of the tallies came on a balk by Art DeLuca. Ford Garrison homered for Beaumont in the last of the ninth but the Roughnecks couldn't make another run.

Tulsa got its three runs in the first four innings and then sat back and fought off the Cats Rudy Minarcin relieved Walker Cress in the eighth when Fort Worth had the tying run on third and got the Cats out. Cress received credit for the victory, however. Dee Fondy drove in both of the Fort Worth runs.

Longhorns Work Under Lights

The Big Spring Steers turned on the lights for a prolonged drill session last night in preparation for their season's opener Friday night with the Quasah Indians.

Coch Carl Coleman and his Longhorns have passed up few opportunities to get in practice leeks since Sept. 1, but they still were looking for more polish Thursday, especially for their offensive maneuvers.

Coleman had the squad running through plays during the night session drill period on the practice field, which followed a regular after-school session.

The Quasah team is the first of six foes the Steers will meet on the home gridiron this season. The Longhorns have four engagements on the road.

The Buffs will be playing without the services of Gober Schoultz, and who broke his leg in practice sessions this week. He will be out of the Forsan lineup for the rest of the season.

ROOKIE MAY GET ASSIGNMENT AGAINST ROSWELL TONIGHT

Pat Stasey, skipper of the Big Spring Broncs, may send either Lefty Tony Iglesias or Vince Amor to the mound against Roswell tonight at Steer park, as the Cayuses seek their fourth straight victory over the New Mexico club. The contest begins at 8:15 p. m.

A win would qualify the Steeds for a spot in the championship finals, which will be played next week.

Luis Gonzales is also available for mound duty this evening, and could be used in relief, in event Iglesias or Amor should falter.

Tom Jordan, the Roswell manager, is expected to send his ace, Frank Hill, back to the hill. Hill was belted by the Steeds in his only playoff start. He won 24 games during the regular season. He's filled in in the outfield and can hit a long ball.

Should Roswell win tonight, they will be no game Friday due to conflict with the football program. The clubs will resume action on Saturday here.

HUNTERS PLEASE!

THERE I WAS, SITTING ON A TELEPHONE WIRE, MINDING MY OWN BUSINESS, WHEN ALL AT ONCE A BLAST FROM A SHOTGUN KNOCKED ME RIGHT OFF MY PERCH

WELL, SIR, I CAME OUT PRETTY GOOD—ONLY A FEW TAIL FEATHERS MISSING—BUT THE HUNTER THAT MISSED ME CLIPPED A COUPLE OF TELEPHONE WIRES, ONE WAS MY FAVORITE ROOSTING PLACE, TOO.

THAT "ROOST" WAS ALSO CARRYING AN IMPORTANT LONG DISTANCE CALL, THAT'S WHY WE ASK HUNTERS: PLEASE DON'T SHOOT AT BIRDS ON TELEPHONE WIRES OR POLES. THANK YOU.

GIS KILLED IN WRECK

Military Honors For Train Dead

WILKES-BARRE, PA., Sept. 14 — Full military honors today awaited the 33 National Guardsmen killed in a troop train wreck shortly after they left for active duty with the Army.

The thirty-three, all members of the 109th Field Artillery Battalion of the federalized 28th Division, met death when their stalled troop train was struck by the Pennsylvania Railroad's "Spirit of St. Louis" at Coshocton, Ohio, in the early fog-shrouded hours of Monday morning.

A train bearing the bodies of the victims and their military escorts is due to arrive at 12:20 o'clock today in this mourning city of 85,000 in eastern Pennsylvania's anthracite region.

The seven-car train made a 37-minute stopover at Pittsburgh this morning. A 200-man army contingent presented arms as the train pulled into the station and two huge floral wreaths were placed aboard, one from the 28th Division Society and the other bearing the inscription "Pittsburgh's tribute." No civilians were permitted on the platform.

Army Chaplain Norman E. Kelly read the prayers for the dead of the Catholic, Protestant and Jewish faiths.

The flag-draped caskets will be loaded on 33 weapons carriers for the half-mile journey from the Wilkes-Barre Station to the Kingston Armory where relatives may claim the bodies.

Maj. Gen. Frank A. Weber, Pennsylvania adjutant general, said 28 of the families have requested full military burial for their soldier dead. The other five are expected to make the same request, he said.

A 33-gun salute, one for each of the victims, will be fired as the train pulls into the station.

PITTSBURGH, Sept. 14 (AP) — The Interstate Commerce Commission today weighed the possibility of punitive action against a 68-year-old engineer who testified he ran his passenger express through a stop signal just before striking the troop train last Monday near Coshocton, Ohio.

Eller also "guessed" his express train was running at about 50 miles per hour at the time of the crash in which 33 members of Pennsylvania's recently-federalized 28th Division were killed.

B. W. Johnson, a road foreman of engines, testified the recorded tape taken from Eller's smashed diesel indicated the train was running about 70 miles an hour shortly before the mishap and about 50 miles an hour "immediately before the crash."

The inquiry was conducted jointly by the ICC, the railroad, the Ohio Public Utility Commission and the Army.

Col. George W. Haley, representing the Department of Army Operations of Railroads, said he also will submit a report.

More "Friendship"

MEXICO CITY, Sept. 14 (AP) — Mexico City's municipal government is sending an official representative and its official orchestra to the "friendship week" celebration in San Antonio.

HIGHLIGHTS IN MARSHALL LIFE

WASHINGTON, Sept. 14 (AP) — Here are the highlights in the career of Gen. George C. Marshall, called out of retirement by President Truman to be secretary of defense.

Born in Uniontown, Pa., Dec. 31, 1880, he attended Virginia Military Institute, graduating in 1901.

He saw service in the Philippines and in the First World War was chief of staff of the 8th Army Corps and chief of operations of the First Army. From 1919 to 1924 he was aide to Gen. John J. Pershing.

After a 10-year field command he became chief of the war plans division of the general staff in 1938.

He was Army chief of staff from 1939 through the Second World War.

Then came a special mission to China for the President in late 1945. He was secretary of state from January, 1947 to January, 1949, when he resigned.

Skips Grades Into College

WACO, Sept. 14 (AP) — Joseph Frank Braun, 53, major in the U. S. Air Force, has managed something which will make him the envy of thousands of schoolboys.

Braun's formal public school education ended many years ago in the fourth grade of a rural school near Chicago. Since then Braun has married, reared a family of seven boys and spent 30 years with the Air Force. He was in World War II, serving in France and in this country was stationed at Kelly Field, Chanute Field, Brooks Field, Ellington Field and at Blackland Air Base. The airman liked this area, bought a home here and decided to renew his schooling. He took the general educational development admission test, made a good score and was admitted to Baylor University as a freshman.

Now, untroubled by the fact that he skipped the final grammar school classes, Braun is a happy freshman at Baylor. He even wears a green and gold cap with the lettering, "Slime Joe Braun."

HAIR OIL GOOD FOR EATING

LONDON, Sept. 14 (AP) — Sales of perfumed British hair oil — for internal use — are booming in Africa.

The United Africa Co. said today.

"The natives of the gold coast spread the hair dressing on bread and eat it with great relish. The reason for this is unknown."

WCTU CALLS FOR A BAN ON BEER FOR SOLDIERS

DENVER, Sept. 14 (AP) — There will be no beer for American fighting men in Korea if the Women's Christian Temperance Union has its way.

Mrs. D. Leigh Colvin, head of the WCTU — which opened its 76th annual convention here today — said last night.

"Most Americans see no reason for alcoholic beverages being given our soldiers. There are a great many reasons why any and all drinking in the military services should be outlawed."

She called for congressional action to "protect drafted youngsters against alcoholism."

Combat soldiers in Korea have been offered a can of free beer daily, paid for by the government from public funds. Recently there were protests from the folks back home and now, although the beer distribution continues, it will be paid for from such sources as post exchange profits.

Mrs. Colvin said the question of mixing beer and fighting will rank high on the convention's agenda. She made these specific statements:

1. Congress will be urged to outlaw sale of alcohol to men in uniform anywhere.
2. It's already illegal to sell beer on military reservations under a law passed in 1901 but the law has been "circumvented" ignored since the start of World War II.
3. The Army and the United States Brewers' Foundation has formed "a brazen tie-up" to get brew to the fighting men.
4. Drinking in the services during the last war caused "an unprecedented number of alcoholics and drunkards among veterans."

MacArthur Okays Beer For Fighters

TOKYO, Sept. 14 (AP) — U. S. doughboys will get a free can of beer every day at the front in Korea.

Gen. MacArthur ordered it today.

Front line troops had been getting a can of beer about every three days.

They set up a howl Tuesday when Washington outlawed all free beer for men at the front.

Beer for combat troops under the new plan will be paid for out of post exchange profits instead of taxpayer's money.

To keep the record straight, Maj. Gen. William A. Beiderlinden, assistant chief of staff to Gen. MacArthur, said the free beer will be for combat men only.

Rear echelon troops may buy their own at the PX.

Personal To Women With Naggng Backache

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slow down kidney function. This may lead many folks to complain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait, try Dian's Pills, a mild diuretic. Used successfully by millions for over 10 years. While these symptoms may often otherwise occur, it's amazing how many times Dian's give happy relief — help the 15 miles of kidney tubes and filters flush out waste. Get Dian's Pills today!

Los Angeles, Sept. 14 (AP) — Donald W. Douglas, Jr., 32, aircraft executive, is accused of wife-beating in affidavits filed by Mrs. Douglas in answer to his suit for custody of their two children.

He sued last week for custody, charging his wife, Molly, with "continued drunkenness." Yesterday she asked that he be restrained from molesting her and the children, and demanded an increase in support payments.

Jersey City, N. J., Sept. 14 (AP) — Bash Cruso, who served an attending valet and assistant steward to Presidents McKinley, Theodore Roosevelt, and Taft, died last night at 79.

Cruso, a Negro and native of Washington, ran a stove business here. He held patents on several gas heaters. Death was caused by a heart attack.

Thank God For Muscle-Rub!

Writes Ruth Chiat, Los Angeles

Advises every sufferer from Rheumatism - Arthritic - Sciatic - Neuritic Pains to try Muscle-Rub

Here's the true story of a woman who took treatments, used all kinds of remedies for her sciatic, neuritic pains without being helped in the slightest degree. Ruth Chiat, 1415 North Orange Grove Dr., Los Angeles, suffered agony from pains in her hip—knee—calf or leg. The pain at times was so bad that she couldn't sit down. She tried several different medicines, all of which did her no good. She couldn't work. Life was misery for her.

Then one day she saw an advertisement of Muscle-Rub—the doctor's prescription—and in desperation bought a bottle. She used it as directed and in 2 days the pains were relieved and Ruth Chiat was back on the job. No wonder she advises every rheumatic sufferer to try Muscle-Rub for fast pain relief. WEST POINT IMMORTAL

Ex-Football Star Is Korean Hero

GEN. GAR DAVIDSON

By BEM PRICE
Associated Press Staff
WITH U. S. 24th DIVISION, Korea, Sept. 14. — Gar Davidson, a West Point football immortal, emerged today as a hero of the allied Korean campaign.

The handsome 47-year-old Brig. Gen. Davidson commands a secret United Nations task force that closed a trap on 3,000 Red Koreans northwest of Kyongju.

Sealing off the enemy in that quarter was completed today.

Davidson, a right end at the military academy and head coach of the Cadets from 1933 to 1937, led the swift striking "Task Force Davidson" in a wide left end sweep south of Pohang port.

Davidson's name had been withheld on the Korean warfront previously for security reasons.

The northern entrance to the corridor, lying between deep flanking hills, already had been jammed shut by a South Korean column.

As a result of "Task Force Davidson's" left end run, the Reds must either infiltrate back in their own lines by scrambling over the peaks or face capture or death.

The Reds drove a wedge five miles deep and three miles wide into the United Nations line between Angang and Pohang, Davidson said in an interview.

"Last Friday and Saturday we watched the penetration and it gradually grew worse."

Maj. Gen. John H. Church, commander of the trail-blazing 24th Division, sent Davidson into the line-up to "correct the situation."

When the task force reached the Pohang perimeter, Davidson said it found the South Koreans had already seized the first of three ridges dominating the breach in the south.

Davidson then sent his force to seize the second hill, which it did easily, but ran into trouble taking the third and highest ridge.

Air support was called for and a flight of planes came over with fire bombs and machinegun fire.

"They did a magnificent job," Davidson said.

The South Koreans went up with relative ease. By yesterday the task force had squeezed 150 Communists, remnants of a group of 700, into a pocket from three sides.

When last seen the Reds were moving northwest in an effort to reach their own lines.

While Davidson was attacking the southern end of the penetration, the South Koreans sealed it at the top with a counterattack. It trapped the enemy.

Davidson's home address is Omaha. He was graduated from West Point in 1927.

The general, now 46, fought in the European theatre in World War II and won the Distinguished Service Medal and other decorations.

He was born in New York City, son of an official at the Metropolitan Museum of Art, and went to West Point in 1923.

He had two high school football letters, but failed to make the Army team during his first year. He came up fast as a third-classman, however, and in his final year got his second academy letter.

Better known in his playing days as "Gar" Davidson, he scored the first Army touchdown ever made in the academy's Michie Stadium.

After being graduated in 1927, he was called back as head coach in 1933 and led the Cadets for four years.

He was a major at the start of the war, and advanced quickly to brigadier general in 1943.

After the war, he became chief of staff of the Sixth Army.

He is married and has several children.

Aluminum Foil Works Wonders In The Kitchen

ALUMINUM FOIL may be used to store canapes, retaining flavor and freshness.

Science's most versatile gift to the cook in recent years is the roll of bright silver aluminum foil found in most groceries. Everyone knows that it makes distinctive wrapping for gifts for any occasion, and because it can be formed around any shape is very handy for wrapping odd-shaped leftovers for the ice box.

Almost everyone has a few "tricks" one of which is putting leftover stew, chili, vegetables, or even gravy on a sheet of foil, wrapping it securely with all edges turned in twice for storing in the ice box. To warm over, simply heat the whole package in boiling water, unwrap into a serving dish, and presto—no dirty pan, and no warmed-over flavor to the food. The fact that foil does not absorb flavor allows you to keep cut melons and cut onions—or even limburger in the refrigerator too. Just press a sheet of foil tightly against the cut side or wrap cheese tightly to keep the odors where they belong.

Use the foil and spare the dish-rag. Cook several small portions—especially handy for baby's meals—each in its own wrapping, in one pan of water. If you have wrapped carefully, no water will leak in and no vitamins will leak out. And if you seldom enjoy broiled fish because of the chore of cleaning the broiler, place the fish on a sheet of aluminum foil. Then place foil and fish on a platter, garnish with lemon quarters, and enjoy an attractive delicious meal with no difficult cleaning problem afterward.

A treat for gourmets is baked ham in aluminum foil. Trim most of the fat from a two inch slice of ham. Drain the juice from a can of crushed pineapple, and have ready 1/4 cup brown sugar and 1/2 teaspoon cloves. Unroll and place on a cookie sheet a piece of foil large enough to wrap the ham with several inches to spare. Mix the pineapple, sugar and cloves together in a small bowl and spread half the mixture on the foil, so the ham will not cover it.

Place the ham on top, then cover it with the rest of the mixture. Wrap securely so that it will not leak, and bake an hour and a half at 350-F. To serve, remove the whole package to a platter, so it can be opened at the table, with all the spicy aroma and flavor sealed in.

No Texas cook is without a treasured barbecue recipe, but even steaks taste better cooked in aluminum foil. Spread each steak lightly on both sides with your favorite sauce, then wrap each individually in a double thickness of foil. Bury them in a bed of coals for

Congeaed Salad Is Hearty Main Dish

Congeaed meat salad makes a hearty main dish to take the place of heavier foods many people like to shun during warm weather. Protein foods should be served at each meal in the day, even in the summertime.

Experiments show that more protein is assembled in the body when more evenly distributed through the three meals of the day. Left-over meat becomes a glamorous dish of food when used in attractive salads.

CONGEOLED MEAT SALAD
3/4 teaspoon gelatin
3 tablespoons cold water
1 cup hot broth from meat or poultry or canned consommé
1 cup chopped cooked meat or poultry
1/4 cup cooked or canned peas
2 tablespoons chopped celery
2 tablespoons sliced pimento
Salt to taste
1 tablespoon vinegar or lemon juice
1 teaspoon onion juice
Sprinkle gelatin on water and soak a few minutes. Dissolve in hot broth. Add onion juice, salt and vinegar or lemon juice and chill until thick enough to hold solid food in place. Stir in meat, peas, celery and pimento. Pour into small pan or individual molds and chill until firm.

Walker's Austex Company Observes 50th Anniversary

Growing out of a business that once included a spinach farm and a pickle factory Walker's Austex Chili Company is marking its Golden Anniversary this month, according to Fred W. Catterall, Jr., president. The Austin, Texas, firm is now the largest packer of chili and tamales in the South, and distributes its products in 47 states.

The original T. B. Walker Company started in Austin in 1900. It comprised a cotton gin, wholesale grocery house and canning plant as well as the farm and pickle works. The company came under its present ownership in 1944 and under the leadership of Fred W. Catterall, Sr., now chairman of the board, and W. F. Gohlke, general manager. Chili, tamales and chili powder were the only products packed by the firm at this time, but a series of expansions has enlarged the line to include chili without beans, Mexican style beans, sandwich spread, beef stew and spaghetti and meat balls.

During the last year the company packed millions of pounds of canned meat and vegetable stew for the Armed Forces, and was awarded the certificate of Meritorious Service by the Army Quartermaster Corps.

Thick Juicy Steaks Served Sizzling Hot Sure To Make Meal A Success

Serve a steak, a delicious juicy steak, and you can count on dinner being a success. Thick and tender, sizzling hot on the platter, there's nothing the man of the house loves better.

"Out-of-this-world" broiled steak starts with the meat itself. For best eating, steaks for broiling should be cut 1-1 1/2 to 2 inches thick and never thinner than 1 inch. There'll be no confusion as to quality if you always purchase steaks stamped with a well-known brand.

Expertly broiled steak, done just the way you like it is easy to prepare. Only tender meats are broiled, you know, so choose quality T-bone, porterhouse, sirloin, tenderloin or club steak to suit your personal preference and budget. In some markets the T-bone with the largest portion of tenderloin is called a porterhouse, but don't let that confuse you, as both cuts are top quality broiling meats. Remove the less tender flank or "tail" ends of both steaks for family service later, after long slow broiling.

Practice makes perfect in broiling steaks that are always cooked to perfection. First preheat the oven broiler according to directions

that accompany your range. Meanwhile slash the fatty edges of the steak in several places to prevent curling. Then place the meat on the broiling rack located so that the surface of the meat is about 3 to 5 inches from the heat source.

Steaks are juiciest and most tender when cooked to the rare or medium stage. The following schedule indicates broiling time for the degree of doneness you prefer:

Thickness	Minutes Per Side	Approximate
1 inch	5	Rare
1 1/2 in.	9	Medium
2 in.	15	Well Done

As soon as one side is brown, season and turn steak. Use tongs, or if you use a fork, be sure to stick it into the fat, to prevent the loss of any meat juices. Season when done and serve sizzling broiled steak on a heated platter, with garden green peas, buttered hominy or mashed potatoes. Toss a green salad and pass thick slices of crusty garlic bread. Some cooks like to perform little tricks with steaks, such as

rubbing them with cut garlic before broiling. Brushing steak with French dressing or rubbing a roquefort or blue cheese paste over the meat surface when almost done. Actually a fine broiled steak needs only a little salt for complete perfection.

For those who must have steak "a la something" here is the answer. A subtle lemon-butter sauce that points up the rich meat flavor, without masking its original goodness.

BUTTER SAUCE FOR STEAKS
Yield: 1-3 cup
1/4 cup butter or margarine
1 tablespoon finely chopped parsley
1/2 teaspoon salt
1 1/2 tablespoons lemon juice
Cream butter until soft. Beat in parsley, seasonings, and lemon juice. Spread over broiled steak and serve at once.

Martin Farmers Start Importing Mexico Braceros

Martin county farmers, already deep into the 1950 cotton harvest, have started importing Mexican nationals to assist in gathering the crop.

Seventy braceros, contracted for by the Tarzan Marketing association, reached Martin county fields Wednesday. Approximately 110 additional workers were expected to arrive from El Paso last night. Milton Fortson, local representative of the Texas Employment commission office, reported this morning.

Fortson spent Wednesday in Martin county conducting part of the needs. He reported that some 300 bales of Martin cotton had already been ginned at Lenora.

TEC's survey of area harvest labor. The Tarzan Marketing association has been approved by the Mexican consulate for a total of 3,000 braceros. If the entire group is brought here, some will be used to gather Dawson county cotton.

Martin county has an estimated 100,000 acres of cotton this year. Leon M. Kinney, local TEC manager, said. Production is expected to exceed a half bale to the acre, including that harvested in irrigated fields.

The Tarzan Marketing association secured its group of Mexican Nationals through the Bracero Recruiting station in El Paso.

Polio Cases Fall To 91 Over State

AUSTIN, Sept. 14. — Texas polio tumbled to 91 new cases last week—the lowest for a week since June 10.

The State Health Department reported the new cases from 49 counties, seven of them reporting their first polio of the year.

"Providing there is no relaxation in general sanitation, I think this thing will keep tapering off until it reaches negligible proportions," State Health Officer George W. Cox said.

The official noted the 131 cases during the week ending Aug. 12 as the apparent peak this year. It was the highest week of polio in state history.

The new cases last week brought the state's total for the year to 2,967, compared with 1,749 cases a year ago.

Newcomers to the polio list last week were Castro, Hansford, Houston, Jeff Davis, Parker, Parmer and Rusk Counties, each with a single case.

Other counties reported cases as follows: Dallas and Harris, 10 each; McLennan and Tarrant, 5; Hutchinson, Lubbock, Nueces, 3 each; Archer, Bexar, Cass, Childress, Scurry and Wheeler, 2 each; Burnet, Comanche, Crosby, Denton, Fannin, Foard, Fort Bend, Gaines, Gregg, Hale, Hall, Howard, Kaufman, Lamar, Lynn, McCulloch, Maverick, Ochiltree, Pottier, Refugio, Sutton, Swisher, Taylor, Travis, Upton, and Wichita, 1 each.

Meteor Alarms Most Residents; Not Astronomers

SAN FRANCISCO, Sept. 14. (AP)—A midnight meteor, visible 150 miles, alarmed residents throughout California's central valley—but drew a laconic "nothing spectacular" remark from astronomers.

Four commercial airline pilots each called the bright flash "the most terrific" they ever saw. Motorists, state highway patrolmen and other witnesses agreed.

One pilot reported the meteor streaked to earth near Mono Lake, in the Sierra south of Yosemite National Park.

But astronomer Olin Eggen at Lick Observatory, Mount Hamilton, said the meteor presumably burned itself out in the heavens—as do most meteors.

PHILADELPHIA, Sept. 14. (AP)—The U. S. Department of Justice today opened what it described as a full-scale investigation of racketeering in Philadelphia and nine eastern Pennsylvania counties.

Posse Plans Three Straight Sunday Breakfast Rides

The Big Spring Sheriff's Posse has scheduled breakfast rides for the next three Sunday mornings. Dr. M. H. Bennett, president, announced.

Bud Tucker and Thelma Howze

will be hosts for the ride and breakfast next Sunday. The ride is to start about 6:30 a. m. and breakfast will be served at the Posse clubhouse at 8 o'clock.

Thirty-five riders attended the breakfast last Sunday, hosted by Allan Hamilton and Doyle Vaughn. Posse members, their families and guests are invited to the Sunday morning rides.

Final Rites Set For J. N. Trice At Sparenburg Today

J. N. Trice, 43, Sparenburg farmer died Tuesday morning of a heart attack. Funeral services will be today at 3 o'clock at the Sparen-

Warren Credits New Citrus Code With Aiding Industry

HOUSTON, Sept. 14 (AP) — Gov. Fuller Warren of Florida credits a new citrus code and frozen concentrates as helping his state's citrus industry.

He told the Texas Citrus and Vegetable Growers Assn. yesterday that the code regulates shipment of inferior fruit.

HCJC Registration Over 325 Mark; May Go Higher

Howard County Junior College registration is beyond the 325 mark and may rise 25 to 50 before it is completed.

Numerically, this represents a slight decline from last year. On a semester-hour basis, however, there is a substantial increase.

A precursory check indicated a decline of about 100 in part-time students carrying class loads of about six semester hours. But there has been an increase of around 60 carrying a full time load of 15 semester hours.

Thus the net increase on semester hour load—the factor upon which the state bases its support—is up substantially.

Evening classes are to be held from 7 p.m. to 8:30 p.m. and from 8:30 p.m. to 10 p.m. Monday through Thursday. However, most students take three hours on Monday and Wednesday or on Tuesday and Thursday. Whichever pair of evenings they select leaves them a like pair in which to prepare lessons for the next class periods. Classwork started Wednesday. Other activities are gradually getting down to normal.

Friday morning at assembly, B. M. Keese, registrar, will nominate the temporary president of the student council. Then the student body will have a fortnight in which to nominate permanent officers and to conduct an election. Formerly, elections were held in the spring. However, it was found that graduation and other losses resulted in such a turnover that a majority of students were being deprived of a chance to ballot for their officers. So the constitution was changed.

'50 Grain Crop Begins To Move On Small Scale

Movement of the 1950 grain crop is beginning on a small scale, but it will be about two weeks yet before it hits full stride.

About two cars a day are being received at Tucker & McKinley elevator but about two-thirds of the volume is too high in moisture content.

Numbers of farmers are cutting, perhaps a little too early. Grain has been carrying from 15 to 18 per cent moisture according to tests. This is well in excess of the maximum of 13 allowed under the loan.

Only about one-third of that to loan, principally due to the moisture market so far has gone into the loan. More producers are either holding their combines from the field, or are stock piling grain until it loses some of its high moisture.

First Drama Show To Be "I Like It Here" Oct. 10

A season ticket sales campaign for the Civic Drama festival, which will be sponsored here during the fall and winter by the Big Spring Kiwanis club, is in full swing.

First presentation of the season here will be "I Like It Here," which

is scheduled for the night of Oct. 10 in the Municipal Auditorium.

Others booked for Big Spring include "Harvey," which will be presented Jan. 2, and "Born Yesterday," scheduled for March. All won "hit" ratings on Broadway.

Special sales committees have been organized by the Kiwanis club. They plan to contact as many local citizens as possible within the next few days. The season tickets also are on sale at the chamber of commerce office and at the Brooks Appliance Co. at 112 West Second street.

A season ticket, which entitles the purchaser to a seat at each of the three performances, sells for \$6, including Federal tax.

EFFECTIVE MONDAY

Installment Buying Will Now Require Higher Down Payment

Your credit is just as good as ever was, new federal regulations notwithstanding.

Henceforth, however, you may not be able to extend it quite so far.

Conventional 30-day charge accounts are not affected by the new regulations, Mrs. J. B. Apple, manager of the Retail Merchants Association, explained. Only installment buying and revolving accounts are affected.

Now if you want to purchase heavy consumer goods, there are at least three ways to go about it.

First, you can pay cash—if you have any left after rising expenses and taxes.

Second, you can put it on a regular 30-day charge account if the seller will load it. On a large item like a washing machine or refrigerator, the 30-day ride is little removed from the cash operation.

Third, you can buy it on the installment plan. Starting Monday, you will have to pay 15 per cent down on your new washing machine. At that time the credit manager will set up terms for maturing of the account within 18 months, Mrs. Apple said.

Many stores which sell on credit will not notice much difference in sales under the new regulations, she ventured, because they have been selling on about the same basis all along.

The regulation covers automobile installments, credits of \$5,000 and less and other installment credits of \$2,500 and less. Home improvement credits are now covered and terms tightened.

Limitations include: Down pay-

ments of at least one-third, and maximum maturities of 21 months for automobiles.

Down payments of at least 15 per cent and maximum maturities of 18 months for appliances, refrigerators, food freezers, radio or television sets, phonographs, cooking stoves, ranges, dishwashers, ironers, washing machines, clothes driers, sewing machines, suction cleaners, air conditioners and de-humidifiers.

Down payments of at least 10 per cent and 18 months maximum maturity on furniture and rugs.

Down payments of at least 10 per cent and 36 months maximum maturity for home repairs, alterations or improvements.

The new regulation does not con-

tain down payment requirements for articles costing less than \$100, but on these smaller purchases maturities also are limited. Installment loans for purchase of goods affected by the regulation are limited to 18 months maximum maturity just the same as installment sales.

Theory behind the credit restriction, said Mrs. Apple, was that it would reduce the potential number of bidders for items which might be in short supply during war conditions. In theory, then, this would relieve demand pressure and help control inflation.

Credit men have opposed the idea on the grounds it does not materially affect the demand for heavy consumer goods nor the general ability to buy. It does, in effect, they say, cut out the small but reliable account in favor of someone who can pay the higher down payments, but who might not be a good credit risk. Regardless, they are ready to go along with the new law when it becomes effective Monday.

Abruzzi Rye Comes Up On Two Farms

Abruzzi rye sowed before the rains last week is already coming up on the farms of Ed Martin and Dr. W. R. Hardy, district cooperators with the Martin-Howard Soil Conservation District. Martin planted 100 acres of rye on his farm in the R-Bar conservation group. Dr. Hardy has about 60 acres sowed to rye with 40 acres already up on his farm in the Morgan group. The rye on Dr. Hardy's farm was

broadcast in feed ahead of the last cultivation. The cover crops were planted to give protection against blowing and improve the soil. They will also be used for grazing.

D. C. Buchanan drilled 55 acres of Abruzzi rye and hairy vetch on his farm five miles northeast of Big Spring last week for a winter cover and soil improving crop. Among others who planted rye for protection against blowing and to improve the soil by adding organic matter were Amon Jackson in the Knott conservation group and J. L. White at Vealmoor. Jackson sowed 30 acres to rye on his farm a mile west and a half mile south of Knott. White drilled 15 acres on his farm 3 miles west and a mile south of Vealmoor.

The Wilson Brothers, rancher cooperators with the district on their ranch in the County Line group, planted 10 acres of Dixie Wonder peas last week. They inoculated the seed to insure good growth and production of nitrogen for soil improvement.

Ten acres of Dixie Wonder peas and 45 acres of rye will be planted on the Larry Shaw farm at Knott this month as a soil improving and cover crop. Shaw will inoculate the winter peas. The rye will also be used for fall and winter grazing.

J. W. Stuart and R. L. Gilliam, neighbors in the Lee's Store conservation group, made out plans for a soil and water conservation program on their farms last week. The plans were based on the needs of their land to keep their soil from blowing and washing and to improve the soil. Their coordinated soil and water conservation program will become a part of a cooperative agreement when approved by the supervisors.

Farmers in Zone 5 elected Morris Fatterson supervisor at a meeting held at Elbow last week. After the election the farmers made a tour of conservation measures on farms in the Elbow group. The supervisors approved plans on four farms and two ranches covering 18,123 acres in the district. Applications for assistance in planning and applying conservation measures were also approved on 6 farms and 2 ranches.

Tax Collections In August Down From '49 Figure

City tax collections in August amounted to \$1,834.50—down \$1,648 from the same month last year, Perry Johnson, assessor-collector, reported today.

Lower delinquent tax collections accounted for more than half the decrease, while lowered interest, penalties, and costs accounted for an additional 25 per cent of the decrease. Occupational taxes were down \$241.20 and taxicab-bus franchises down \$147.30.

Breakdown of August collections showed delinquent tax payments at \$693.51; interest, penalties, and costs, \$202.06; occupation taxes, \$751.50; dog taxes, \$3; tax certificates, \$18.50; taxi-bus franchises, \$155.33; and taxi-bus drivers licenses, \$10.

August collections brought the total for the current fiscal year to \$9,598.09.

Diplomats Think Johnson Ouster Boosts Acheson

By JOHN M. HIGHTOWER
AP STAFF

NEW YORK, Sept. 14—Defense Secretary Johnson's resignation was seen by U. S. and foreign diplomats at the big three meeting here today as a move strengthening Secretary of State Acheson in his drive to speed up the organization of a strong Atlantic alliance defense force in western Europe.

President Truman's decision to name former Secretary of State George Marshall to succeed Johnson reinforced the view that Acheson policies will now have full and vigorous support of the Truman cabinet without the frictions and delays which have been attributed to the so-called Johnson-Acheson feud.

Actually many insiders feel the importance of this feud's effects on policy has been considerably exaggerated, although there is evidence that it has hampered the ability of the State and Defense Departments to work together on grave international issues for a year or so.

News of Johnson's resignation and Marshall's impending appointment hit the big three conference like a bombshell. Late in the evening Acheson himself was given detailed press reports, but had nothing to say on the development.

His associates were obviously cheered, some had chafed for months under an Acheson-imposed rule which said in effect that if Johnson wanted to feud with him it was Johnson's business, but Acheson's aides were not to fight back. They were to keep their mouths shut.

Acheson, British Foreign Secretary Ernest Bevin and French Foreign Minister Robert Schuman began the second day of their talks. Germany, its political future and partial rearmament probably headed their agenda for the day. The key problem of this series of talks is how and when—or whether—to fit German soldiers into the developing western defense system.

Lions See Sample Program Presented By Toastmasters

Toastmasters put on a sample program for the Lions Wednesday, complete with a discussion topic, two speeches and an evaluation.

Harold P. Steck presented the program, introducing Graham Purcell and Jack Cook. Purcell, an attorney here, recounted experiences in command of colored troops during World War II. Cook, airport manager, took a look at what he considered the not-too-distant day when pilotless aircraft would fly at 2,500 mph. Dan Krause furnished the criticism of the two talks.

For a topic, Steck had raised the question of whether it was wise to repeal the law which would preclude a military man serving as head of the department defense. Most speaking to the topic thought so.

Now Many Wear FALSE TEETH With More Comfort

FASTEETH, a pleasant alkaline non-toxic powder, holds false teeth more firmly to eat and talk in more comfort. Just sprinkle a little FASTEETH on your plates. No gummy, gooey, pasty taste or feeling. Checks "pink color" denture breath. Get FASTEETH at any drug store.
