SAFE-GUARDING CHILDREN'S LIVES
At this time there is in Midland especial need for caution in driving. This editorial has no reference to a recent tragedy in which life was lost but bears specifically upon the reckless driving which, during recent months, has become prevalent on city streets.

A LESSON IN POISE
James Kemp, 63, is an example of supreme poise. He is a steeplejack who was working at the top of a 150-foot chimney in Rochester, N. Y., when the scaffolding broke.

GREAT SERVICE WELL DONE
Two Chicago men, mail carriers for 40 years, and intimate friends, retired from service on pensions the other day. Each one had walked 120,000 miles, according to an estimate.

COMPANIONSHIP NECESSARY
Charles Hardenberg, who has lived alone on Little Watts Island, about 10 miles from Crisfield, Md., for the last 23 years has finally found the mystery of life, it would appear.

THINKING OUR WAY OUT
Labor day proved one thing. The country is thinking about unemployment. We may be at the bottom of our worst national depression, but we have at least progressed to the point where we face facts.

Washington Letter
By Rodney Dutcher
Hoover Commissions Are Assaulted in Proportion to Their Importance and It's a Safe Bet That Walter S. Gifford's Unemployment Board Will Get Plenty of Relief.

WASHINGTON.—Even if Walter S. Gifford and the new unemployment relief committee do a very good job they can hardly be guaranteed against criticism and attack. These Hoover commissions nearly always encounter trouble, great or small, sooner or later.

EVERYBODY took a kick at the Wickersham commission after its prohibition report, but since then, in report after report, the commission has been taking kicks at everybody else.

THE EMERGENCY Committee on Employment struggled along for months in an almost complete lack of authority to do anything at all and then its chairman, Colonel Arthur Woods, walked out along with several members.

THE FEDERAL POWER Commission is usually referred to as a "Hoover" commission because it has been organized and Hoover has appointed its members.

THE HOOPER Tariff Commission has been getting along by keeping quiet and not upsetting any apple carts but Henry P. Fletcher is quitting the chairmanship because, one hears, he is rather bored.

NOTICE
The trustees of Warfield School District Number 6, Midland County, will receive sealed bids for the sale of the old school house at Warfield, Texas, until 10 o'clock A. M. Saturday, September 19, 1931.

RESULTS, THOUGH
BENTON, Tenn.—Sheriff Biggs gets results even if they are not the right ones. He recently got word to watch out for an automobile stolen from Etowah.

The Opening of the "Hunting" Season!

Wounded Vet, In Country Since Baby, to Be Deported

BY PAUL HARRISON
NEA Service Writer

BOSTON, Mass.—Amadeo Alorace came to America when he was three months old, grew up in it, fought for it through 13 battles of the World war as a Yankee Division machine gunner.

HE SPOKE only English, and hasn't the faintest recollection of the Italy which legally is still his native land. He married an American girl and has a 5-year-old American daughter.

THE CHARGE is moral turpitude, and there is no question of his guilt. Alorace has served prison terms of one and two years for offenses involving his relations with women.

Makes a Strange Tangle
The result, according to immigration authorities here, is one of the strangest tangles in the history of their department.

ALORACE had been at the detention station for six months, friendless, before the circumstances of his case became known. Now, however, his defense is being headed by General Charles E. Cole, president of the Yankee Division Veterans' association, and State Commander Richard F. Paul of the American Legion.

Other commissions have been razed for recommendations, reports or acts—or just for alleged sins of omission. It's a puny one that hasn't found opposition in some quarter.

According to Samuel Rice, one of the attorneys for Alorace, the federal court had absolutely no discretion in ordering the man's deportation, for the law is specific.

"However, we took an appeal," said Rice. "Frankly, when the case goes to the Circuit Court of Appeals in October, we expect the deportation order will be upheld. We have no illusions about the efficacy of moral arguments connected with the unusual aspects of the case.

"We have some slight hope in Article 8 of the amendments to the Constitution of the United States which forbids 'cruel or unusual punishments.' We can contend that deportation would be exile and a cruel punishment for a man who has spent all of his active life in this country, and who has no knowledge of his native land. But it's a very slim chance."

As far as this government is concerned, then, the cause of the 31-year-old war veteran seems almost hopeless. But there is still another loophole in the maze of technicalities connected with his destiny.

The answer is that Italy apparently will refuse to accept him. "During the confinement of Alorace, repeated requests have been made to the Italian consul for the passport which must be issued before the man can be deported," Rice said.

Amadeo Alorace... is facing deportation on a charge of moral turpitude... although he has lived in the United States since his babyhood... and was a machine gunner with the Yankee Division overseas.

HE FOUGHT THROUGH THIRTEEN BATTLES IN THE WORLD WAR.

defendant. Certainly public sympathy is strongly in his favor.

"The Consul-General offers no explanation, but neither does he offer any passports. Frank S. Abercrombie, the assistant commissioner of immigration here, has said that after the deportation order is affirmed, if it is, one more request will be issued for a passport. If it is not forthcoming he then will recommend the release of Alorace on the ground that it would be inhuman to confine him any longer."

Alorace himself is jubilant over the support that has been rallied in his behalf. He has heard from General Cole that appeals will be made directly to Senators Walsh and Coolidge if other defense plans fail. He has been assured of half a dozen jobs that would allow him to earn an honest living. He has written his wife, who is working in New York to support their daughter, that he will send for them soon.

So if all these dreams are to come true, Amadeo doesn't mind being temporarily a man without a country.

OLDEST DOC
LONDON.—Dr. Henry Salter, just turned 90, claims to be the oldest practicing medical officer in England. For 65 years he has been the family doctor for every household in Witham, and is also medical doctor of health for the district. He has brought more than 7000 children into the world.

BETTER HOUSEKEEPER
LOS ANGELES.—As a housekeeper, Mrs. Agnes F. Bennett is a wisp but as a wife, Albert Austin Bennett couldn't go her. Mrs. Bennett is 52, and was housekeeper for her husband for years before she married him. She received a divorce and will keep on keeping the house and receive \$50 a month alimony from him.

The cities of Sydney and Brisbane, in Australia, have been linked by plane service.

Buy School Supplies at McMullan's.

The Town Quack
(Reserves the right to "quack" about everything without taking a stand on anything.)

of those noises that make people homesick.

Although a new city ordinance in El Paso will prohibit goats from barking, dogs from barking and cats from yowling in residence and apartment districts, the city attorney says, he will not include a clause to prevent roosters from crowing at the rising of the sun.

What do people expect from dumb animals anyway? Most of us came off the farm and if the truth were known it makes us homesick to hear the Baa of a calf or the bleat of a goat or the crow of a rooster. Why then, just because we have moved to town, should we be so anxious to legislate against the very noises that give us pleasure?

There's one man in our office who declares that nothing gives him more of a thrill than to hear coyotes yelping shortly before daybreak. It's a weird sound, but to a fellow who heard it in his boyhood it is one

merely a mental relaxation. Too much attention to the 19th hole, and six hours of dissipation after a heavy dinner may undo all of the good effects of the 18 holes or actual play in the afternoon. The oldest aphorism in personal hygiene is a plea for moderation in all things. A healthful life requires, of course, play, rest and sleep, but even these must be in moderation.

SOCIAL NEWS PAGE FOR WOMEN

Song Urges Parents Of School Children To Enlist for Work

With activities of the Parent-Teacher association beginning this week, an appropriate song urging mothers to "get to work" is published by request of officials of the P. T. A.

The song, which is sung to the tune of "Over There", follows: Meakin' You Mothers get to work, get to work, get to work.

Fathers don't you shirk, don't you shirk, don't you shirk; Down to business join today, Gotta know us right away.

Parents to the fore, from the home and the store, Make the kiddies shout for joy, P. T. A.'s the thing, Oh, Boy!

Society Begins Work of Fall Season

St. Ann's Altar society held its first meeting of the fall season with Mrs. Harry Johnson Tuesday afternoon.

Father Strouts addressed the women and outlined for them a course of study for the year. At a business session, Mrs. Sam Cummings was elected president of the organization, succeeding Mrs. G. W. Tom.

ETHEL

—by Hays Social and Program Enjoyed by Women of Christian Society

Combining a program and social meeting, members of the Women's Missionary society of the First Christian church were guests at the home of Mrs. Frank Ingham Monday afternoon.

Announcements

Friday Community Bible class will meet with Mrs. Jess Barber for a study of Moses at 4 o'clock.

Belmont Bible class meets at the home of Mrs. Herbert King, the first house west of the Midland hatchery, at 3:30. The study will be Luke 10.

Saturday

Children's Story hour at the county library from 2:30 until 3:30.

Personals

The Rev. and Mrs. Winston Borum of Pecos were visitors here Monday afternoon. The Rev. Borum has been called to the pastorate of the First Baptist church here.

G. C. Hollingsworth of the Empire Oil & Gas company is here today from his home in San Angelo.

Misses Jessie Ree Bristow and Mary Helena Price of Stanton were visitors here Tuesday afternoon.

J. Lynne McClelland of Lubbock is here for a few days on business.

John Scharbauer is a business visitor today, having come out from Fort Worth to look after his cattle interests. He made the trip by airplane.

Herman Spaulding spent Tuesday night here, visiting his parents, Mr. and Mrs. W. H. Spaulding. He is moving his stock of hardware from Crane to Clovis where he is opening a new store this month.

Choice Cooks' Corner

Pork is always delicious but its savory succulence is enjoyed especially when the days grow crisp and cool.

Pork Chops with Spinach Purchase six shoulder pork chops. Dredge with flour and season with salt and pepper. Sear both sides; reduce the heat and cook 30 minutes.

Baked Pork Chops 6 rib chops 1 cup fine bread crumbs 4 tablespoons minced celery 1 tablespoon butter 1 tablespoon minced onion 1 tablespoon minced parsley 1-8 teaspoon poultry seasoning 1-4 teaspoon salt

REMOVE DOG'S TONSILS

EVANSVILLE, Ind.—"Tiny Tod" Pomerian dog owned by Frank Schwegman, recently underwent an actual operation for the removal of her tonsils. The operation was performed by a surgeon, and in the operating rooms of a local hospital.

JUST LIKE THIS

FORT WORTH.—T. A. Lindsey, Dallas, and Fannie Hines, Fort Worth, met in a furniture store with a preacher here and were married in one of the most unusual ceremonies ever staged.

MARS MARBLES?

CINCINNATI.—Geologists and meteorologists are deeply puzzled over a handful of marble-like stones which recently fell in this vicinity. Some of them resemble hard opaque stones, while others are like frosted crystals and are so hard they will cut glass and scratch hard steel.

SOME ANIMAL

NEW HAVEN, Conn.—There has been assembled in the Peabody museum of Yale a skeleton of a prehistoric Brontosaurus, an animal believed to have lived 120,000,000 years ago. The bones of the beast were discovered in Wyoming 50 years ago and they have just been put together into the form of an animal.

AUTO LOANS plenty of money

to loan on Autos. Quick Service. W. C. Hamilton Second Floor Midland Mercantile Bldg.

"NOW WE ARE THREE!"

KATHERINE AND BILL—what fun it is to know them! They seem to get so much out of living. You met them just a little over a year ago—the week before they were married.

And today you got another card, headed "Now we are three!" Bill's signature comes first, then Katherine's, and then—the guided, chubby scrawl of the newcomer, Jeremy.

You happen to know that although he is in line for an important promotion, Bill's present salary isn't large. Most other young couples would consider themselves "up against it" if they had to manage on so little.

You know how they do it, for Katherine has told you. They budget all expenditures. And when they decide a purchase is to be made, whether it is a new shades for the reading lamp, or a suit for Bill, or shoes for Katherine, they study the advertisements until they find just what they want for the price they can pay.

It's a wise baby that picks parents like these. Take advantage of the advertisements in this paper. They are your guide to profitable buying.

Jew, Will Speak On Catholicism In Big Spring Thurs.

Several Midland people are planning to hear a free lecture in Big Spring Thursday evening on "The Catholic Religion," delivered by Mr. Goldstein, a converted Jew.

The address will be given on the court house plaza and the public is invited. Mr. Goldstein is a nationally known lecturer and a large crowd is expected to hear him.

Helpful Health Suggestions

By Martha Bredemeier

Blindness Prevention is Public Health Problem

Much of the blindness that we have about us today is the result of diseases and accidents that are entirely preventable.

He outlined twelve points for the prevention of blindness, declaring that blindness is a public health problem as important as the prevention of tuberculosis. The points follow:

- A. At birth, a solution of silver nitrate should be dropped into every baby's eyes.
B. Infants who are older than six months should be vaccinated against smallpox.
C. After the tenth month, a child should be given diphtheria toxin-antitoxin.
D. Special care should be given to the eyes during cases of measles, scarlet fever and other diseases.
E. Every injury, however slight, should receive the attention of an oculist.
F. Excessive tears denote an inflammation of the eye to which care should be given.
G. The sight should be examined when a child enters school. Defects should be corrected by glasses.
H. Headaches, red eyes, itching, or blurring of vision bring reason to consult an oculist. One should always have an oculist's statement that glasses are not needed if the child does not wear them.
I. Middle age changes the eyes; they need an examination and possibly glasses even if they have been in good condition previously.
J. Syphilis and gonorrhea can be prevented. Persons who are infected with these diseases should be under the care of a physician in order to avoid spreading the infection and causing blindness to others as well as themselves.

Goggles are needed in all industrial and agricultural work in which there may be splinters or flying objects to strike the eyes. It is always wise to guard against any person who has a secretion from the eyes; it is wiser still to cultivate habits of sanitation in regard to the eyes. —Hygeia.

HEALTHABET

- A for adding to our health each day.
B for brushing our teeth, we'll say.
C for coffee, to drink it is wrong.
D for dumbbells that make us so strong.
E for exercise out under the sun.
F for fruit; each day let's eat some.
G for games that lots of fun.
H for health that helps us to run.
I for illness, makes every one sad.
J for fruit juice that make a strong lad.
K for keeping windows open at night.
L for leaving the covers on tight.
M for melons, all people like.
N for neatness, keep everything bright.
O for oranges that are good to eat.
P for pineapple that is so sweet.
Q for quart of milk we drink each day.
R for rye bread spread with butter—yellow as flowers in May.
S for sleep that makes us all healthy.
T for thrift that makes us all wealthy.
U for understanding what you are told.
V for vegetables; eat lots till you're old.
W for wash every morning and night.
X for Xmas, the children's delight.
Y for yeast that brings us all health.
Z for zeal that will bring us all wealth.
—By Pupils of Room 5 Flynn Park School, St. Louis.

SCRUGGSMEN PUNCH OUT WIN; LAST GAME SLATED FOR THURSDAY

NEWSIES GRAB OFF SHUTOUT, SECOND OF SEASON

Although the regular playing season of the Candlelight feather ball league was concluded last night, the league, when it comes to having been decided for once and anon, is in just as much of a muddle as it was yesterday. Texas Electric, given a fair chance of romping in a winner at the wire, pulled three runs to the good in the seventh, only to see the Buicks of Bob Scruggs come back to beat them in the last frame, 10-9.

However, the Buicks must face the hardware first—and must win in order to meet TESCO without the formalities of a preceding playoff with the Reporter-Telegram.

Getting the Jump on His Opponent

Congratulations weren't delayed when Frederick J. Perry, the English ace, conquered Andre Merlin of France in the international tennis matches at Germantown, Pa. Here you see Merlin leaping over the net and Perry advancing to meet him with outstretched hand. The score was 6-1, 7-5.

SPORTS REPORTS

By R. C. HANKINS
Our old friend Blondie Cross of San Angelo, who knocks out innuendo by the book and thereby earns his daily bread and beer, gives an interesting account of McCamey's first football game.

"Harry Taylor was a witness to the 52-9 football massacre of Marfa Saturday in McCamey by the McCamey high school eleven, San Angelo's first district opponent of the year. The Badgers came to the Concho gridiron for the opener Oct. 17.

Taylor was somewhat impressed by the buy of the Badgers and the backfield brilliance of a big fellow named Jordan. Triple threat performance of Colby, also, caused the Bobcat mentor to start worrying.

"Smoky Brothers was among those present on the McCamey sidelines. He says Frank Perry, Brian tackle who suited out with the Bobcats not so long ago and was announced as a candidate, bobbed up in a McCamey uniform Saturday. Brothers says Perry told it around McCamey that the Badgers would have little trouble beating the San Angelo team.

"Coach Clyde Park isn't allowing his club to loaf. The Badgers will have played at least five exhibition games by the time they land on the Bobcat field for the district opener. McCamey has the next four week-ends filled, has October 10 open and likely they will fill this date. The Badgers play at Crane next Saturday. Fort Stockton is at McCamey Sept. 19 and Odessa plays at McCamey Sept. 25. Then comes a tough game. The Badgers are to be hosts to the strong Stanton squad Oct. 3.

"Little Cotton Baldwin, halfback with the Kittens last year, got into the game with McCamey Saturday. Baldwin looked pretty good. He went in with the second string ciew but looked better than several of the first stringers."

And over in Stanton we hear more and more about the championship possibilities of the Bison herd. Lamme is having a word or two about his own chances. The buzzing is starting. In Big Spring, we understand Bristow has four ex-captains of Oklahoma high schools in his lineup. That would indicate more strength for the Spenic drive city than we had calculated.

G. B. Shelburne Jr., sports writer for the Stanton Reporter, makes his demise this week. We take it he's on his way to Old Whatsis. We trust he will enjoy his year in school, but we have our doubts about our sensations when reading his ascription of ponied.

What we cannot understand is why there is so much aversion to running two-year-olds here. As for us, that is the keenest race of the meet. Fillies and colts, if they are maidens have much interest. They're likely to do anything, especially if they are bloodstock and have not been trained carefully. You cannot force juvenile bloodstock to run at the jockey's whim.

No one seems to know just how the Nance and the Davis stables will enter their horses this afternoon—nor is anyone expected to know whether Ayleshire will run against Scotty or Marie Dressler until they are sent to the post. All we have been able to learn is that there will be two races, one over the half and the other over the three-eighths. The welfare association will get the proceeds of the gate. Admission 50 cents.

Marcos Williamson must be a busy man. He did not write his column Monday. Maybe Editor Beddy will jockey him around under restraint, but we've a sneaking idea he may have to do some vigorous hand riding. Here we are wanting some news on the Big Spring football squad without having to give away tips on our own—and Williamson dates the best looking Big Spring girls and lets his column exist only as a theory!

The national boxing association's heavyweight rankings for September reveal several important changes from the last previous list. Jack Sharkey of Boston, despite his draw with Mickey Walker, is accorded the position of leading contender, replacing W. L. Stripling, Jr., who was dropped to sixth place as a result of his technical knockout at the hands of Max Schmeling at Cleveland, July 3.

Tommy Loughran, Philadelphia, is moved up from fifth place to second place. Ernie Schaaf, Boston, is ranked No. 3, whereas he was No. 7 a few months ago. Mickey Walker, on the strength of his draw with Sharkey, is given fourth place. He was not ranked at all in the previous list. There are two newcomers on the list—Charlie Retzlaff, hard-hitting Duluth, Minn., farmer, and Steve Hamas, former Penn State athlete. Retzlaff is given eighth place and Hamas tenth. Three heavyweights have been dropped from the first ten: They are George Godfrey, giant negro; Max Baer, young Californian, and Larry Johnson, Chicago negro. The champions recognized in the other divisions by the N. B. A. are: Light heavyweight, open; middleweight, open; welterweight, Jack Thompson, junior welterweight, Ton Canzoneri; light weight, Tony Canzoneri; junior lightweight, Chris Chocolate; featherweight, Christopher Battalino; bantamweight, Brown; flyweight, Frankie Genaro.

HAVE moved my laundry from 606 South Baird to 201 South Big Spring. Mrs. Carr. 157-1P

## COULDN'T HELP SELF

FORT WORTH, Tex.—Assistant U. S. District Attorney Arnold Davis was pleading in court—but he was pleading for himself instead of some client. He was charged with violating a traffic ordinance and claimed probation on the grounds of it being the first time he was ever arrested. But the judge fined him \$2 and costs the same as an ordinary person.

## NAVY TELESCOPE

WASHINGTON—The Naval Observatory, is to have a new super-telescope. It is being constructed under the supervision of Prof. G. W. Ritchey. It will be a 40-inch unit, of the reflecting type, and is expected to penetrate at least sixty sextillion miles of space.

## FOOT DISEASE SPREADS

PHILADELPHIA—Athlete's foot, that disease which, by reason of its itchy irritation, causes many people in the United States discomfort, is growing rapidly in the country. It is reported that the disease has increased more than 400 per cent since the World War.

## CLASSIFIEDS SAVE MONEY

MIDLAND LODGE No. 623 A. F. & A. M. Stated communications 2nd and 4th Thursday night in each month. All members and visiting Masons invited.

Henry Butler, W. M. Claude O. Crane, Secy.

## BOOTS AND HER BUDDIES

BOOTS IS HAVING A GOBS OF FUN, SINCE HER RETURN HOME... JUST FITTING INTO THE OLD SCHEME OF THINGS! BUT, SOMEHOW, SHE SIMPLY CAN'T PICK UP WHERE SHE LEFT OFF! THERE IS A CERTAIN RESTLESSNESS, AND A YEAN TO DO THINGS! PERHAPS THAT TALK SHE HAD WITH BILL HAS SOMETHING TO DO WITH IT.

### THREE KILLED, THREE HURT IN POWDER BLAST

BENTON, Ill., Sept. 9. (UP).—Three men were killed and six were injured, two critically, when an explosion and fire razed a powder house mining company here today.

The dead are Carl Moonyham, 20, Herbert Smith, 19 and Joseph Haskins.

**"Hello" Used Most on Phone**  
CHICAGO. (UP).—"Hello," "Operator," "Number, please," and "Yes," may not represent an entire telephone conversation, but they are words uttered most frequently into the transmitter of Chicago telephones.

The estimate made in New York recently that 737 words represents the average telephone vocabulary is a trifle high for Chicago according to Everett Friganza, an official of the Illinois Bell Telephone company.

"The most used word probably is 'yes' or one of its corruptions," Friganza said. "It signifies 'I hear you' or 'I understand,' and very often is the only thing a man is able to say to his wife."

"Good morning," "good bye," "number, please," "thank you," and "hello" follow in close order, but "hello" is not so popular as it used to be because most companies ask their employees to answer with the name of the firm."

A. G. Pasby, Bell company traffic engineer, opined that "number, please" and "operator" were the most widely used words. An operator in a Loop hotel, on the other hand, said that "Guess who this is," "Oh, yea," and "Well, can you beat that?" seemed to be the favorites, at least in hotel conversations.

#### WELL AGAIN

PHILADELPHIA.—Happy birthday! And indeed it was, for Martin Costello Jr. When he was three years old, Martin fell and injured his spine. For nearly four years thereafter, spent in various hospitals, he was in continual pain. Recently he began to improve, and upon his seventh birthday was able to go home nearly cured to be greeted by rejoicing parents and relatives and a big birthday dinner.

### Wampas Stars Ready for Reel Careers

This baker's dozen of beauties will supply the feminine interest in the coming season. They are the 1931 Wampas Baby Stars, and are shown here at Hollywood. Left to right, front row: Constance Cummings, Anita Louise, Joan Marsh, Sidney Fox and Rochelle Hudson. Rear, left to right: Joan Blondell, Frances Dee, Frances Dade, Marlon Schilling, Karon Morley, Barbara Weeks, Marian Marsh and Judith Wood.

### Insect Plagues Recorded in 872

PHILADELPHIA. (UP).—Farmers in the western sections of the country, mourning the destruction of their crops by grasshopper hordes, may at least comfort themselves with the knowledge that their experience is not new.

According to history, insect plagues of far more devastating nature were by no means unusual in olden days. Various instances of such phenomena were gathered in 1865 by Frank Cowan, of Greensburg, Pa., and published by the Academy of Natural Sciences here.

Gowan describes the locust plagues of the Roman era, visitations of pests in France in 872, when locusts ate 140 acres a day, again in the same country in 1613, when they flew from the coast of Africa and died by the thousands in the sea.

#### GREATEST AIR ROUTES

LONDON.—England maintains the longest air routes in the world. By the end of this year England will possess air service covering more than 40,000 miles. The majority of these miles are outside the country itself, extending to Egypt, Persia, India, and South Africa. Recently the Indian route was extended to include service between Karachi and Port Darwin, in Australia.

### Temple Freshmen To Get a Break

PHILADELPHIA. (UP).—No longer "poor frosh."

At least, these traditional words will have no significance at Temple university, as plans for the reception of incoming classes indicate that the hitherto harassed freshman will get the best of everything.

A welcome with open arms awaits them. Hazing has been abolished as undignified and the "frosh" may roam about the campus secure in the knowledge that they will not have to supply the "sops" with cigarettes, or their shoe laces.

#### NEVER ON LAND

LONDON.—Maid of Orleans, the cross-channel steamer, has a mascot that has never set foot on land. It is "Ginger," a cat that has been a passenger on the boat for more than 50,000 miles. French regulations will not allow the cat to land, and neither will the English. "Ginger" is destined to spend the rest of his life on the water.

#### CAN'T HAVE HUBBIES

McALLEN, Tex., Sept. 9. (UP).—Women teachers here can't have jobs and husbands too. A resolution was adopted by the school board providing for immediate resignation of any woman teacher who marries.

#### SNAKE FARM RUN BY SCIENCE

PORT ELIZABETH, S. A.—A huge snake farm, run by science for the collection of snake venom for the treatment of diseases, is being maintained here. All sorts of poisonous snakes, from cobras to asps, are confined within the large area of the snake farm. These reptiles periodically are captured and the venom extracted from their fangs.

It is not the crude venom which is applied to treat epilepsy, chorea and individual cases of hysteria, neurasthenia, rheumatism and neuritis. It is a specially prepared venom that must come from healthy snakes. For this reason, the snakes on the farm are netted and pampered and kept under hygienic conditions. The mouths of the reptiles are examined carefully at frequent intervals, and always before venom is drawn.

**MIDNIGHT RIDE**  
NEW YORK.—Paul Revere may have been good, but a scout for several speakases here had a tougher time tipping them off than Paul had in tipping off the patriots. He rode around in a taxicab for several hours tipping off bootleggers that prohibition men were on a raid. Despite his warning, officials raided more than 40 places and took more than 100 prisoners.

### MASQUERADER OF DEAD MAN TAKEN TODAY BY POLICE

CORPUS CHRISTI, Sept. 9. (UP).—Still wearing the shoes of a dead man, V. Don Carlis, 30, was in jail today charged with the murder of Al Steinbach, Cincinnati, whose skeleton was found on a bluff near here.

Carlis admitted that he saw Steinbach shot and clubbed to death several months ago but denied the killing. He named two other men.

### Religious Sect to Trek into Mexico

EL PASO, Sept. 9. (UP).—Sixteen thousand Doukhobors, members of a pacifist religious sect, plan to emigrate from Canada to Mexico this winter by way of El Paso. Mexican government officials who at first opposed the trek have withdrawn their objections.

The Doukhobors want to leave Canada because of conflicts with dominion officials regarding World War military service, registration of births and deaths, and compulsory school attendance.

Peter P. Verigin, son of the man of the same name who headed the Doukhobors before they left Russia 30 years ago, is present ruler. He has inspected 600,000 acres of land which the group expects to purchase and occupy. About 150 trains will be required to move the colonists, their cattle, implements and household belongings. Transportation will cost approximately \$1,500,000.

Some 5,000 persons plan to make the trip and it will be as great if not greater migration than that of the Mennonites from Canada to Mexico a few years ago.

Light enough to supply the entire United States continuously for 176 years could be produced from the coal burned in the country in a year.

### 787-Pounder and Tiny Bride

Henry A. Rohwer, who tips the scales at 787 pounds, and Mrs. Merelda Caswell, weight 110 pounds, seen here, have announced plans for their marriage at Los Angeles. Both are circus people. They will go to Honolulu on their honeymoon.

More than 42,000 motorcycles are in operation in Switzerland. Americans smoked 115,379,197,000 cigarettes in 1930.

**RESIST this temptation!**

With the first cool whiff of Fall weather, many well-intending folk begin to economize on ice. This is false economy of the most treacherous sort. First, because ice is needed more than ever during the changing seasons to keep refrigerators at a safe, even temperature. Second, because outside weather is the most inconsistent and unreliable refrigerant ever known. Third, because the negligible cost of ice is *nothing* compared to the health and well-being of you and your family. To obtain the many advantages of ice refrigeration, use ice freely the whole year 'round. Don't take a chance for the sake of a few cents.

**Southern Ice AND UTILITIES COMPANY**

*"They speak my language!"*

**... and it's no "namby-pamby" talk, —either!**

Words can mean lots of things—but you can always trust your taste. If a cigarette *tastes* right, if it satisfies you right down to the ground, then it is right.

There are all kinds of tobaccos—some good, some not so good. And there's the Chesterfield kind—the best Turkish and the best Domestic that grows. Full-ripe, sun-cured, aged in Nature's thoroughgoing way—and as mild and smooth and sweet as sun-ripened fruit. Chesterfields taste right

—because they are right. And something you *can't* taste—that's important too! The finest cigarette paper—so pure it burns *without* taste or odor!

And behind this unchanging good taste, all the resources of a great organization—men, money, science, experience. It takes them all to make a great cigarette, and they're all behind Chesterfield.

Your taste is dead right. Chesterfields do satisfy.

**GOOD . . . they've got to be good!**
