FOUR KILLED IN FREIGHT WRECK

Cold Wave, Halted in Depression Area, Is Billed Again

MOST OF STATE IS INCLUDED

Panhandle Shudders Under Ice Coat Sunday

DALLAS, Nov. 23. (UP)—The cold wave, retarded over the week end by a low pressure area over New Mexico, was expected to sweep into Texas tonight.

Freezing weather was forecast for the entire northwest portion, East Texas, and all West Texas except the southeast portion.

Relief was expected today in the Panhandle which suffered from snow and sleet over the week end.

Temperature was 16 degrees in Amarillo Sunday. The area was covered with an ice coating. Communication lines which were damaged were being repaired today.

Air traffic was being resumed. Train Stalled ALAMOSA, Colo., Nov. 23. (UP)—A train carrying 11 travelers stalled in seven feet of snow atop the Cumbres Pass today.

Rescue trains were attempting to reach the scene.

Barney Smith Is To Lead Orchestra

Barney T. Smith has been named director of the orchestra of the Men's class at the Schorbarber-Smith, who is private secretary to W. R. Bowden, proration chief of this area, is recognized as an outstanding musician. He was one of the chief artists Sunday in a radio broadcast at San Angelo. He will assume charge of the Men's class orchestra next Sunday, and all men who attend are promised a good musical program, class officers said Monday.

Thieves Break Into Car; Steal Shotgun

Thieves broke into the automobile of J. L. McGrew, superintendent of the Gulf tank farm, Sunday night while the owner was at church and stole his shotgun.

The intruder took his time while rifling the car, picking out No. 4 shot from a shell box and leaving shells of smaller size shot on the floor.

When Death Turned the Tables

A slip... then death... This remarkable picture shows the actual scene as Carmelo Perez, a noted Mexican matador, was fatally gored by a bull in a ring in Spain recently.

SAFE CARTED AWAY FROM THE RITZ THEATRE

Thieves broke into the Ritz theatre some time Sunday night or Monday morning and carried the safe away with them.

Bill Blair, theatre manager, did not know how much money was taken.

"I have not finished the check," he said. "I had \$200 plus the box office receipts of two days in it."

He said the building was entered from the front and the safe carried out the same way. It appeared from a broken place in the stairway that the safe had been dropped while being carried out.

An attempt several months ago to open a safe at the Ritz was frustrated by the veggs' lack of knowledge in cracking it. At that time the safe was carried to the balcony of the theatre, but efforts to pry into it failed.

Midland Will Get Lowest R. R. Fares

December 1 will be an important date in the history of the Texas and Pacific railways, said Frank Jensen, general passenger agent. For the first time in the history of the railroads in this country, a daily one-way coach rate of one and three-fourths cents per mile will become effective between Texarkana, Fort Worth and intermediate stations on Trains 31 and 32, also between Dallas, Fort Worth and El Paso on Trains 6 and 7, and between Dallas, Fort Worth and Big Spring on Trains 3 and 4.

The basic rate per mile at the present time on all railroads throughout the United States is 3.6 cents per mile, and the action of the Texas and Pacific railway in experimenting with a daily one-way coach rate of one and three-fourths cents per mile (which is less than one-half of the regular rate) is being watched with interest by the passenger traffic fraternity of the railroads throughout the country.

There is no question, said Jensen, but that the rate is the cheapest means of transportation in the world today. It is impossible for anyone to use their automobile or any other means of transportation at so low a cost.

When you stop to consider that the world's finest transportation is now available at the lowest fares in history and that you can travel a distance of, say, forty miles for 70 cents, 100 miles for \$1.75, etc., and check 100 pounds of baggage free, also that one-half of these exceptionally low rates will apply for children five and under twelve years of age, it is bound to be apparent that the Texas and Pacific railway is making the strongest bid within its power for passenger travel.

Minister, Friend Cannot Decide Old Marksmanship Row

One would suspect the Rev. Winston F. Borum, pastor of the First Baptist church of intentionally keeping his deer-hunting contest with J. C. Wilson of Pecos deadlocked—in order that the two may continue their hunt each season.

Last week they went into the Balmorea country, around Cherry canyon, to see who would take a lead in their controversy, started last year when both dropped the only buck they saw. Each claimed the kill. Last week they saw a buck and fired, both shots took effect again. Wilson broke one of the animal's legs and Mr. Borum's shot took effect in the stomach.

The minister fired the maverick shot, however, and lays the better claim. They will take another year to decide their marksmanship controversy.

Jewelry Thieves Get \$10,000 Swag

WICHITA, Kans., Nov. 23. (UP)—Two bandits today robbed the Sheldon-Sway jewelry store of \$10,000 in cash and diamonds.

Jewelers were setting out the stock for display when the robbers entered.

Officers are seeking a woman who acted as spotter.

Thanksgiving Meal For Less Expense

FORT WORTH, Nov. 23. (UP)—Another enjoyment added to the eating of Thanksgiving dinner Thursday is the thought that it didn't cost as much this year as in 1930.

Miss Mary Powell, county home demonstration agent, has compiled an economical Thanksgiving dinner for a family of five at a cost of \$4.94. The same dinner would have cost \$6.72 last year, and the same meal will cost New Englanders this year \$7.09. Here is the meal:

- Three small grapefruit, 15 cents; three pounds of sweet potatoes, 6 cents; 4 pounds of white potatoes, 8 cents; one pint of oysters for stuffing, 35 cents; 4 pounds yellow turnips, 20 cents; 2 pounds cranberries, 25 cents; cauliflower, 25 cents; celery 20 cents; apples 10 cents; bananas 5 cents; grapes 5 cents; mixed nuts 30 cents; and 8 pounds dressed turkey \$2.40.

WELFARE MEETING

Officials and committeemen of the Midland Welfare association meet this afternoon at 4 o'clock to discuss matters of importance to the organization.

RETURNS FROM HUNT

J. Howard Hodge, manager of the Grand theatre, returned Saturday from a successful deer and turkey hunt in Kimble county. He was accompanied by a party of men from Abilene, Stamford, and Chillicothe.

DOG LIKES HIS PIPE

TIPTON, Ia. (UP)—Bubbles, 22-month-old dog, is a tobacco addict. It is not an unusual sight to see him trotting beside his master, George P. Craven, smoking a pipe, which Bubbles carries in his mouth.

DISTRICT COURT OPENS; DAMAGES ASKED OF GULF

District court convened this morning and the first case, Bud Young vs. Gulf Production company, went to bat.

Young asks damages of \$850 for the deaths of eight cows and 10 calves alleged to have been caused by drinking oil from slush pits maintained in Crane county by the defendants.

Attorneys for defendants are J. M. Caldwell, Midland, and David W. Stephens of Houston. Haag & Stubben represent the plaintiff.

Hughes Case Set

Consolidated cases of Hughes vs. Deiter will be tried beginning the third Monday of the term. J. Vincent Hughes, his wife and baby were riding in a car with Deiter near Midland April 2. The car turned over, the baby was killed and Hughes received permanent injuries. Two cases, each asking damages of \$10,000 were consolidated into one case asking \$20,000, after the case went to Federal court, which ruled it had no jurisdiction.

Banks Busily Opening Now

MALLEN, Texas. (UP)—A month after six banks in the Lower Rio Grande valley had closed, five of them had made plans to be re-opened or already had re-opened.

Two of the closed banks are combined into the New McAllen State bank which opened with deposits totaling \$141,000. A big whoopee carnival celebrated the bank's opening.

New officers for the re-organized First National bank of Mission have been elected and the bank is expected to open this week. W. W. Jones, prominent Corpus Christi business man and financier, is president, and Homer Pressnell, of Alice, vice president and cashier. The Mission's bank opening is awaiting word from the national banking department in Washington and will open with deposits of \$245,000.

The Security State bank of Weslaco, is expected to announce its opening date this week. Reorganization of the bank has been virtually completed.

The Valley State bank of Harlingen is under process of re-organization but no details concerning the movements of interested business men have been announced.

MASS MEET

A mass meeting of men of the First Baptist church tonight at 7:30 will mark the opening of a three-day lecture series on the book, "Our Lord and Our's."

The Rev. Winston Borum will deliver the lecture tonight, Tuesday and Friday.

At the same time, classes will be conducted for the senior, intermediate, junior and Peppy Partner B. Y. P. U.'s.

Officials of the campaign said today they expect every man of the church to be present.

COACH TO DALLAS

Assistant Coach Bryan Henderson of the high school went to Dallas over the weekend. He saw the Highland Park-Oak Cliff football game. The score was tied.

BANDITS FIRE ON 20 MEN

Only One Is Killed But Several Wounded

WASHINGTON, Nov. 23. (UP)—Five bandits today invaded the old Colonial tea room at Odensburg, Maryland, lined 20 men against the wall and opened fire with revolvers and sawed off shotguns.

G. Amick of Baltimore was killed. Four men and one woman were seriously injured.

The thugs first robbed the victims, obtaining \$1,500 in cash and jewels.

The leader, wearing a white mask, accused Charles Leavitt, 24, tea room proprietor, with "holding out." Leavitt denied this, and the bandit placed a revolver against his chest and fired. Leavitt was not killed.

Other bandits then opened fire indiscriminately. One of the wounded was identified as a member of a bandit gang.

PHILADELPHIA, Nov. 23. (UP)—Two men were arrested here today as suspects in the tea room murder and robbery near Washington.

The men were traced through a telephone call from a Maryland town in which the robbery was mentioned.

Victims were en route here to identify the bandits.

Every Member of Party Gets Buck

Out 12 hours, and every man of the hunting party killed his buck. That was the distinction of the group made up of G. W. Ellis, C. W. Weathered, Fred Truelove and S. J. McCandless. Their deer, of the black tail family, averaged 128 pounds.

The party broke camp 100 miles south of Alpine and proceeded to Nine-Point mountain. Every man got a shot at a running deer, and no one missed. They saw no more deer. Every animal was shot cleanly in the neck except for the one Truelove dropped. This buck was running up the almost vertical side of a mountain and, to quote the hunters, "was shot in a forefoot and through the head."

"No one but God knows where we hunted," Weathered said. "That's deer in them thar hills."

A six-point buck weighed 100 pounds, an eight-point buck weighed 126, a nine-point buck weighed 146 and a 13-point buck weighed 143.

Odessa Red Cross Roll Call Starts

ODESSA, Nov. 23.—The local committee of the Red Cross roll call has announced that starting today and lasting through Wednesday, an intensive drive will be staged to complete the roll call for the year. Mrs. R. T. Reid, local chairman, reports that active work has been started but the final call will start Monday. Local ministers will appeal to their respective congregations to answer the call and swell the membership list in Odessa. Headquarters for the committee are located in the downtown offices of the chamber of commerce.

Late News

WESTERN SPRINGS, Ill., Nov. 23. (UP)—Seven bandits battled their way through a \$5,000 robbery of the Western Springs State bank today after locking five employees in a vault.

The robbers escaped in a fusillade of bullets. None was hit.

OKLAHOMA CITY, Nov. 23. (UP)—H. Valdez, Mexican consul here, received an official notice from Mexico City today that he was being recalled. No reason was given.

Valdez figured prominently in the trial of two deputy sheriffs for the slaying of Mexican students. He was a former consul at Del Rio.

AUSTIN, Nov. 23. (UP)—Governor Sterling will leave tonight on a personal tour of inspection of the East Texas oil fields.

He will decide his itinerary upon reaching Kilgore in the morning. The trip is to last two days.

REASONS FOR FORECAST OF GREAT POTASH MINING IN MIDLAND SOON FOUND IN NEW REFINING METHODS

EDITOR'S NOTE: Early development of the vast deposits of potash which are known to exist in Midland and Ector counties is forecast by Dr. E. P. Schoch, director of the Bureau of Industrial Chemistry at the University of Texas as a result of a new and economical process for refining the potash mineral, which he has discovered. His discovery is regarded as being of tremendous commercial importance.

By DR. E. P. SCHOCH

Potash is found in western Texas, especially in Midland and Ector counties, in the form of polyhalite, a mineral composed of calcium sulphate, magnesium sulphate, potassium sulphate and water. This mineral is usually brick red in color—due to a very small amount of iron oxide. It is as hard as any halite. Even when it is finely divided, its soluble constituents dissolve so slowly as to require several days for their dissolution, and even in boiling water they require from four to six hours. Furthermore, the maximum concentration of potassium salts thus obtainable will not exceed 3 1-2 parts per hundred of water, and such a solution cannot be evaporated to dryness without involving a prohibitive cost of fuel per pound of potassium salt obtained. Hence it is seen that, although polyhalite is rich in potassium sulphate—it contains 25 per cent or more—yet extraction of the latter could not be accomplished until special processes were discovered.

Discovered in This County

Polyhalite had not been found anywhere in mineable quantities until it was discovered in 1926 in Midland county, through core drilling done by the Texas Potash corporation of Dallas on sites selected by Max Agnew of Dallas. With the discovery of these Texas deposits, the problem of refining this mineral became important. Public records show that the Texas Potash corporation's chemists, working under the writer's direction, worked out such a method during the summer of 1926, which was before the United States Bureau of Mines received an appropriation to core for potash and work out methods of refining. In the meanwhile, the United States Bureau of Mines published their bulletin, in which essentially the same method of refining was presented together with a detailed cost estimate. This cost estimate was found by the writer to be in essential agreement with his own previously arrived at.

Heating Process

The essential new operation which made this earlier refining method possible is the fact that when polyhalite is heated for one to two hours to a temperature above 500 degrees centigrade and preferably near 600 degrees centigrade, its molecules are broken up by the expulsion of the water, thus allowing the potassium sulphate and the magnesium sulphate to act as separate materials, and hence they dissolve readily in water.

Mixture Centrifuged

The ore is stirred up for five minutes with just enough lime and hot 3 per cent potassium sulphate solution to produce an 8 per cent to 10 per cent potassium sulphate solution. The mixture is then filtered. (See POTASH MINING page 4)

hot water to form concentrated solutions; while the calcium sulphate has been rendered insoluble by the heating, and does not dissolve during the time required to dissolve the other constituents and to filter the solution.

This operation of roasting the ore and extracting the roasted material with hot water is expensive both in equipment and in operation. Hence the writer has been steadily seeking for a method of extraction which would not require this operation. Furthermore, he realized that if the other parts of the ore could also be produced in the form of commercial products, that then the operation would be much more profitable. Fortunately, this was found to be possible quite a while ago, and this is the basis of the new method for refining polyhalite. This work also was done by the chemists of the Texas Potash corporation under the writer's direction. This new process of refining polyhalite depends upon the newly discovered fact that finely ground polyhalite reacts very rapidly with a hot solution of lime, yielding calcium sulphate and magnesium hydroxide, and at the same time, rapidly dissolving the potassium sulphate also present in this molecule.

New Catalytic Agent

The amount of lime used must be proportionate to the amount of magnesium sulphate, and the amount of water used must be such as to give the desired concentration of potassium sulphate. In hot water, the most concentrated solution obtainable or obtainable is one in which the potassium sulphate is at least 8 per cent of the total weight, but solutions as rich as 10 per cent have been obtained. In cold water, at 31.8 degrees centigrade, the most concentrated solution obtainable contains only 3.5 per cent of potassium sulphate. Hot solutions must be separated from their solid residues (calcium sulphate) as quickly as possible because the latter gradually takes potassium sulphate out of the solution. By allowing the two to remain together only five minutes, it has been possible to obtain 8 per cent to 10 per cent solutions, and this period of time is long enough for commercial operation.

In cold weather (room temperature) the solids in the mixture do not take potassium sulphate from the solution if its per cent in the solution is not above the 3.5 per cent limit mentioned above. Hence the materials may be stirred up together until all the potassium sulphate from the polyhalite has been dissolved. In cold water this requires about one hour. These facts are the basis of the following procedure for extracting all the potassium sulphate and obtaining all of it in the form of an 8 per cent (plus) solution:

Mixture Centrifuged

The ore is stirred up for five minutes with just enough lime and hot 3 per cent potassium sulphate solution to produce an 8 per cent to 10 per cent potassium sulphate solution. The mixture is then filtered. (See POTASH MINING page 4)

OTHERS MAY BE FOUND

Inestimable Number Of Show Horses Are Dead

WELLINGTON, Mo., Nov. 23. (UP)—Wrecking crews today cleared the debris from 24 freight cars, which were derailed near here last night while carrying a cargo of thoroughbred show horses from Kansas City to Chicago.

Four men were killed. Railroad officers expected to find at least three more bodies in the wreckage. Twenty-three were injured.

An undetermined number of horses worth thousands of dollars were killed.

CITY NOT ABLE TO GUARANTEE CHARITY FUNDS

Law prevents the city of Midland from taking care of charity cases, even if the city had the money, Mayor Leon Goodman said in an interview Monday.

The mayor referred to the many calls that come to the city to pay for operations, to guarantee hospital fees, to contribute to food funds, etc.

"If we had the money, we would like to care for charity cases. Probably every man on the city council would be willing to help if he were able, but we are not and consequently we can not individually take care of any more than our share of private charity.

"I, as mayor, and the council members have no more right to take the city's funds for operations and charity than any other person in Midland. It is a violation of the law to use the city's money for charity. Even if the city had funds, which it has not available for charity, we should be violating the law to pay this money for hospital bills, medical fees, etc.

"The city is frequently asked to appropriate money for charity, such as hospital cases. The city can not do this, no matter how much we should like to do it, and there is no use in making such requests. The city positively can not legally take care of charity cases," the mayor's statement concluded.

Mother of V. E. Jackson Is Dead

Mr. and Mrs. V. E. Jackson left Midland Sunday morning for Walnut Springs, Texas, following information that his mother had died.

Funeral services were to be held at Valley Mills, Texas, this afternoon.

Commits Suicide; Goes Over Falls

NIAGARA FALLS, Nov. 23. (UP)—M. J. Callins waded into the Niagara river today and was swept over the falls. Three men witnessed the suicide.

MENDING OUR WAYS

Charles A. Beard, the historian, declared in an article in Harpers Magazine the other day that the creed of individualism, revered in America since the first pioneer took his long rifle and his axe out into the shadows of the backwoods, is chiefly responsible for the fix in which we find ourselves today.

Whatever merits this creed may have had in the old days, he adds, it doesn't work today; instead, it is actually a menace to society. An age of technology and science needs careful planning and thorough-going co-operation; the old creed calls for action with each man taking care of himself and the devil taking the hindmost.

Beyond question, individualism is going to have to make some kind of compromise with the new conditions; and the kind of society in which our children and our grandchildren will live depends largely on how extensive a compromise may be necessary.

All kinds of things are possible. The conditions under which we live now represent one extreme; Soviet Russia represents the other. The America of the future will lie somewhere in between.

We hope that it will lie somewhere near its present position; when we get depressed we fear that perhaps it will lie uncomfortably far toward the other end; and meanwhile we fail utterly to realize that it will chiefly depend on the courage and intelligence with which we ourselves recognize the choice that confronts us.

For we shall make a choice—no doubt about that. We shall make it even if we don't realize that we are doing so.

If we insist that the old machine is practically perfect right now, needing nothing but a diet of optimistic speeches and a sit-tight philosophy to make it work as well as ever, we shall be helping to prepare a place somewhere down near the Russian end of the scale. If, on the other hand, we devote every energy to trying to find out what is wrong, if we discard our prejudices and insist that co-operation and planning are possible within the existing framework—then the America of the future will look very much like the America of today.

DREISER'S INVESTIGATION

The American public, very likely, would like to know whether there is any truth in the state of Kentucky's charges that Theodore Dreiser has been guilty of immoral conduct, criminal syndicalism, and so on. But first it would greatly prefer to learn whether there is any truth in Dreiser's charges against the Kentucky coal barons.

Dreiser charges flatly that striking miners' homes are dynamited and burned, that children in the coal fields are dying at the rate of seven or eight a week of undernourishment, that local officers regard themselves as agents of the mine owners and that the pay of the miners has been forced down to 80 cents a day.

Those charges are exceedingly serious. The public would like to know if any or all of them are true—and it is willing to let the counter-charges against Dreiser rest until it finds out.

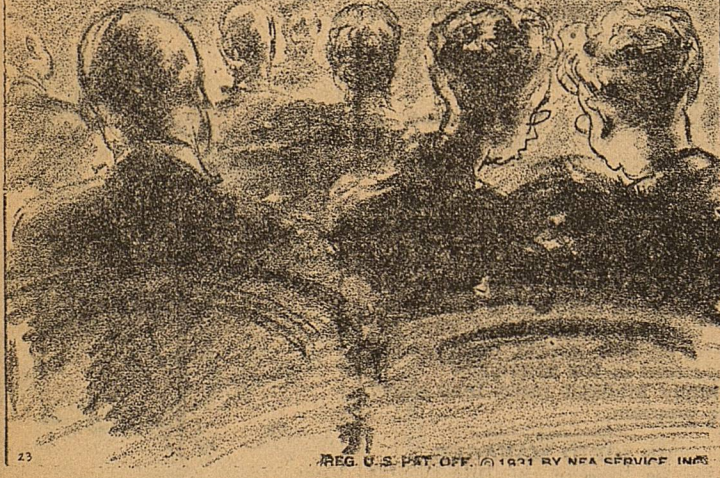

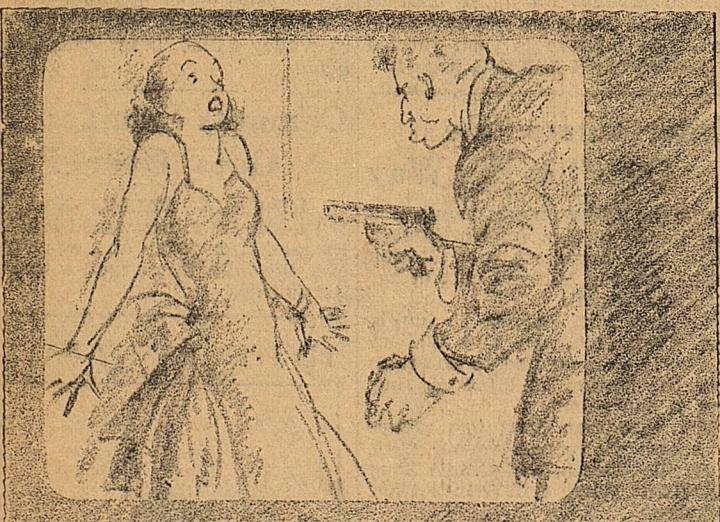

CANCER AND RACKETEERS

The Chicago specialist who characterized cancer cells as "racketeers" in the human body gave about as apt a description of the malady for the layman as could well be invented. Also, when you stop to think about it, he gave an exceedingly good description of the racketeer.

For if the cancer cells can be described as racketeers, the racketeers of real life can very well be described as cancers. They grow and spread in the municipal body at an alarming rate, they make the municipal body very sick, and—in a good many American cities—they have made a major operation as imperative necessity.

The specialist who thought of the comparison made a simile that works both ways.

Side Glances . . . . . by Clark

Personals

Mrs. J. Carroll Florey left Midland this morning for Dallas to visit her son, Dick Austin, and remain for the T. C. U.-S. M. U. game in Fort Worth Saturday.

Mr. and Mrs. Houston King and daughters of Corpus Christi were visitors here Sunday. They were en route to El Paso on a business trip.

Fred Bucks of Plainview returned to his home this morning after a business visit here.

Mrs. S. B. Cole and Mrs. J. J. Patterson of Pecos were in Midland visiting this morning.

J. P. Harper and Kenneth Work of Fort Worth arrived here yesterday to spend several days here transacting business.

Mrs. Carl Akin and daughters, Imogene and Onita Ruth, of Odessa, were in Midland Saturday afternoon.

Truman Hurlley of Amarillo is in Midland this week visiting in the home of his brother, Butler Hurlley, and other relatives.

David W. Stevens of Dallas is a business visitor here today.

Mr. and Mrs. D. W. Brunson have returned home from a trip to visit their daughters in Abilene and in Houston.

Charles McClintic made a trip to Sweetwater Sunday.

Miss Frankie Fernandes of Odessa was a visitor here Saturday afternoon.

Bill C. Dawson of the Dawson Commission company is here today from Amarillo.

Mrs. G. E. Brunley of Eunice and her granddaughter, who is a teacher in Hobbs, were here visiting Saturday.

Mrs. J. B. Wilkinson has returned to her home in Abilene after a business visit here.

Mrs. T. O. Rowden and Mrs. Robert Donne'l of Lamesa were visiting in Midland this morning.

Mrs. S. M. Wilkinson and daughter Cordella of Stanton were shoppers here Saturday afternoon.

Mr. and Mrs. Myrl Jowell returned today to their ranch near Kent after spending the week end in Midland.

Mrs. J. H. Barron returned yesterday from Clovis, N. M., where she had visited her daughter, Mrs. Herman Spaulding, for two weeks.

John Hilton of Kentucky is in Midland visiting his sister, Mrs. W. H. Spaulding. He is returning from a trip to the west coast.

Don't let your radiator freeze tonight. If Ever-Ready Auto Service prepares it, you will be safe. Phone 73. (Adv.)

STICKERS

By starting at the right letter and correctly tracing a continuous line through the above triangles, you can spell out an appropriate phrase?

SOCIETY

Original Play Presented at Union Program

A playlet, written by Miss Marjorie Ward, dealing with a conference between Drs. Ray, Lawrence and Brown, leaders of a Baptist campaign, was presented by representatives of the Peppy Partners union at the general program of unions Sunday evening.

Characters represented every phase of church, associational, home and foreign missions. Players and their roles included B. C. Driver, Dr. Ray; Lowell Webb, Dr. Brown; J. W. Jones, Dr. Lawrence; Laura Shelburne, foreign missions; Charlene Parrott, home missions; Dorothy Dunagan, associational missions; Dorothy Hines, state missions; Barbara Gann, Christian education and Felix Halton, representative of the Midland Baptist church.

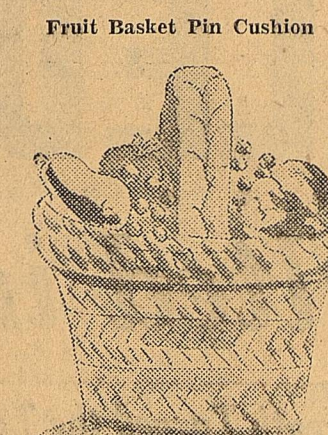

Screen Pictures Add Interest to League Programs

Screen songs and Biblical stories told on the screen furnished interesting and worthwhile programs at the general assembly of Epworth leagues and in the separate program of the Senior league Sunday evening.

The Rev. Edwin C. Calhoun conducted the songs at the assembly. The story of Ruth was on the screen at the Senior league. Approximately 80 young people attended meetings at the church on Sunday evening.

Santa Suggests

By LILLIAN

If you are in the mood to give baskets of fruit for Christmas this year, there is something brand new on the market that will delight your debutante sister or your college girl friend.

It is the new fruit basket pin cushion. The basket itself comes in two kinds, porcelain openwork baskets or in painted woven baskets. It is the fruit, however that is simply enchanting. Pears, grapes, peaches bloom in luscious colored silk design on the top of the basket. Each is stuffed properly and the basketful makes the newest addition to the modern dressing table. Pins are in again. Pin cushions are needed.

Let Ever-Ready's experts prepare your radiator for winter. Bring your car down today or call 73. (Adv.)

Marriage of Miss Wilmoth and Mr. Baker Is Held

Miss Ruth Wilmoth, daughter of Mr. and Mrs. F. W. Wilmoth and Mr. Bill Baker of Midland, were married in Carlsbad, N. M., Sunday evening.

The couple will return to Midland within the next few days to make their home. Mrs. Baker has lived here practically all of her life and for the past three and a half years has been connected with the Southwestern Bell Telephone company.

Mr. Baker, brother of A. P. Baker, former local merchant, has been employed by dry goods companies in Midland for several years. To compliment Mrs. Baker, employees of the telephone company and a number of other friends were guests at the home of Mrs. George T. Kesler at a miscellaneous shower Saturday afternoon.

Many lovely gifts were presented to the honoree in a large package carried by Camilla Jane Taylor and Joyce Bert Rosenbaum dressed in attractive black satin suits. The hostess served refreshments to 17 guests.

Childress has a landing field on the American Airways line which serves northwest Texas.

Just think! A dozen Photographs will solve a dozen of your Christmas Gift Problems! Special discount Nov. 16 to 28. Prothro Studio. (Adv.)

"Of course I smoke Luckies—I thought everybody did. They're kind to my throat—you don't hear them in the microphone. And that's a very neat little handle on your new Cellophane wrapper."

Ina Claire

Ina Claire wasn't content with being an acknowledged ruler of the American stage — now she's capturing Hollywood, too! Here she is in one of those stunning Chanel creations she wears in Samuel Goldwyn's production, "The Greeks Had A Word For It," a United Artists' picture. Don't miss that picture.

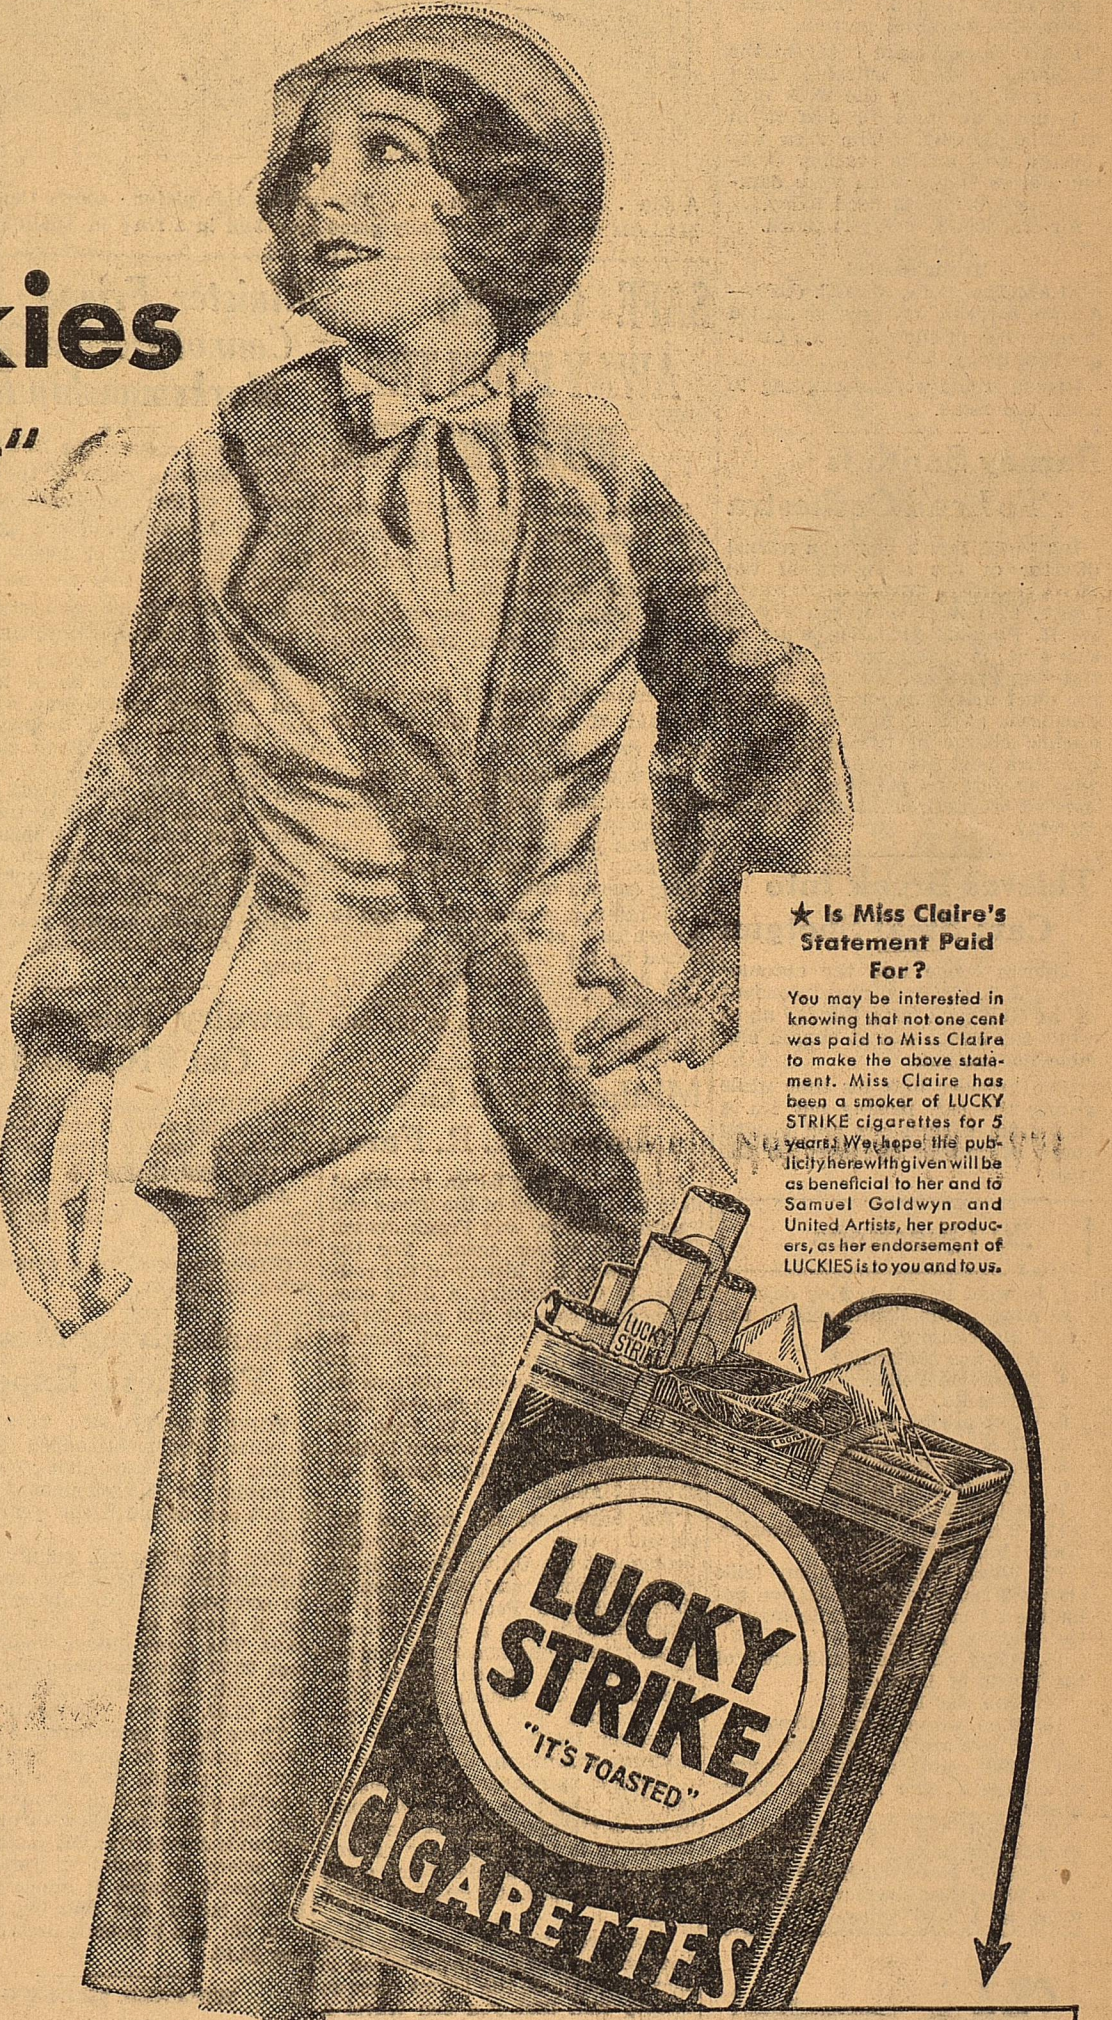

Made of the finest tobaccos — The Cream of many Crops — LUCKY STRIKE alone offers the throat protection of the exclusive "TOASTING" Process which includes the use of modern Ultra Violet Rays — the process that expels certain harsh, biting irritants naturally present in every tobacco leaf. These expelled irritants are not present in your LUCKY STRIKE. "They're out — so they can't be in!" No wonder LUCKIES are always kind to your throat.

"It's toasted"

Your Throat Protection — against irritation — against cough

And Moisture-Proof Cellophane Keeps that "Toasted" Flavor Ever Fresh

TUNE IN ON LUCKY STRIKE; 60 modern minutes with the world's finest dance orchestras, and Walter Winchell, whose gossip of today becomes the news of tomorrow, every Tuesday, Thursday and Saturday evening over N. B. C. networks.

★ Is Miss Claire's Statement Paid For?

You may be interested in knowing that not one cent was paid to Miss Claire to make the above statement. Miss Claire has been a smoker of LUCKY STRIKE cigarettes for 5 years! We hope the public hereafter will be as beneficial to her and to Samuel Goldwyn and United Artists, her producers, as her endorsement of LUCKIES is to you and to us.

MOISTURE-PROOF CELLOPHANE Sealed Tight—Ever Right The Unique Humidor Package Zip — And it's open!

See the new notched tab on the top of the package. Hold down one half with your thumb. Tear off the other half. Simple. Quick. Zip! That's all. Unique! Wrapped in dust-proof, moisture-proof, germ-proof Cellophane. Clean, protected, neat, FRESH! — what could be more modern than LUCKIES' improved Humidor package — so easy to open! Ladies — the LUCKY TAB is — your finger nail protection.

BOOTS AND HER BUDDIES

All About It!

By Martin

SO THE LITTLE LOVE SICK WHELP LIVES WITH HIS AUNT AND UNCLE, EH?

YES! AND I THINK YOU SHOULD TALK TO THEM ABOUT SPENCE! HE IS ENTIRELY TOO YOUNG TO BE THINKING OF LOVE

KITTY

SPENCE'S AUNT TURNED OUT TO BE NO OTHER THAN "KITTY COLLINS", AN OLD CHILDHOOD SWEETHEART OF STEVE'S

BUT, THIS WASN'T ANYTHING AT ALL, COMPARED WITH THE PICTURE AT SPENCE'S HOME, WHEN HIS UNCLE EDDIE, WHO IS INSANELY JEALOUS OF KITTY, RETURNED HOME UNEXPECTEDLY

YOO HOO BA-BEE !!!

AND THEN FOLLOWED A SERIES OF MOST PECULIAR CIRCUMSTANCES WHICH THREW KITTY AND THE PROFESSOR TOGETHER ALL TOO FREQUENTLY AND, NATURALLY, CAUSED A RATHER WELL DELICATE SITUATION AT THE TUTT HOME

WASH TUBBS

A Refuge!

By Crane

WASH IS HUNGRY. MISERABLY, HE PLODS ALONG THE MUDDY, DESERTED ROAD. IT IS ALMOST DECEMBER, AND A COLD DRIZZLE CHILLS HIM TO THE VERY BONE.

BR-R!

LOOKS LIKE A DESERTED CASTLE.

IT SEEMS AGES BEFORE HE COMES TO A BLEAK, LONELY PLACE BESIDE A RIVER.

NO, CAN'T BE DESERTED. THERE'S SMOKE.

WHEN HE HEARS LAUGHTER AND VOICES INSIDE. AND THE THOUGHT OF WARMTH AND FOOD OVERCOMES HIS TIMID FEARS.

SHOO! ANY OLD PORT IN A STORM.

HE HESITATES SEVERAL TIMES BEFORE APPROACHING. STRANGELY, SOMETHING HAS GIVEN HIM A WEIRD, CREEPY FEELING.

FRECKLES AND HIS FRIENDS

Pop's Serious!

By Blosser

WITH THIS 'BIG DOG OF FRECKLES' LUMBERING AROUND THE HOUSE AND KNOCKING THINGS OVER, EVERY TIME HE PASSES THROUGH A ROOM, POP'S JUST ABOUT AT THE BREAKING POINT....

LISTEN NOW, MOTHER... THAT LEAPING LENA THAT FRECKLES HAS IS A BIG NUISANCE, IF YOU ASK ME... HE'S GOT TO GET RID OF IT AT ONCE!!

WELL, WHY WORRY ME ABOUT IT? IF YOU DON'T WANT HIM TO HAVE IT, JUST GO AND TELL HIM TO TAKE IT AWAY!!

LOOK HERE, YOUNG MAN... WE'RE NOT RUNNING A MENAGERIE, OR CIRCUS HERE IN THIS HOUSE... YOU'LL HAVE TO GIVE THAT DOG BACK TO ITS OWNER!! I MEAN IT!!

OH, BUT POP! I DON'T KNOW WHO THE OWNER IS... AN' WE COULDN'T JUST PUT A POOR DOG OUT, WITHOUT A HOME OR PLACE TO SLEEP... GEE... THAT WOULDN'T BE HUMANE, WOULD IT, POP?

DON'T BE ABSURD... THAT DOG HAS AN OWNER SOMEWHERE... GET THE WANT AD SECTION OF THE PAPER AND LOOK THROUGH THE LOST AND FOUND COLUMN !!

GEE... POP WOULD THINK OF THAT !!

SALESMAN SAM

# TWENTY THOUSAND MAY SEE LUBBOCK AND AMARILLO TALK TURKEY

## LUBBOCK FAVORITE BUT AMARILLO HAS NEVER LOST ON BUTLER FIELD; SANDIES BEAR SCARS OF PAMPAANS

By HUBERT COLE  
United Press Correspondent  
AMARILLO, Tex., Nov. 23. (UP)—Between eighteen and twenty thousand people will witness the coming grid battle here Thanksgiving when Lubbock sends her high school warriors here to whip back Amarillo's threat to stay in the District One championship picture, advance tickets sales indicated today.

If such a crowd throngs to Butler field on that date, it will budge the sideboards to an all-time record and will be far the largest gallery ever to witness a high school game in the history of Texas football.

Intense interest has developed because three of the District One leading contenders are depending upon the outcome of the turkey-day game. Amarillo will make a desperate attempt to retain its four-year-old crown.

A block of 3,000 tickets to the game, placed on sale at 9 o'clock Tuesday morning, was quickly grabbed up by fans in two hours. Four thousand seats have been reserved for the Lubbock rooters. And Pampa, whose team got Amarillo in its present jam with an embarrassing score, also will be cared for.

Rumors that scalpers were snatching up tickets in large bunches with speculative interest were scoffed at by chamber of commerce officials. Other reports that ten men had procured 3,000 and four men 250 each were also denied.

Extra bleachers are being constructed on Butler field and several thousand more tickets will be available before the game starts, officials announced.

Wearing its Pampa scar, Amarillo to the majority will probably enter the game slight under-dogs, but hundreds of her staunch supporters still believe that the Golden Sandstorm will be nothing less than a ripping cyclone against the Hub City lads.

The fact that the Sandies have never lost a game on Butler field; that she has had her lesson over in the Gray county village, and that it's a rejuvenated team now were controlling factors argued by the Amarilloans.

### SIMMONS LOOKS FOR 8,000 TO BE AT HOMECOMING

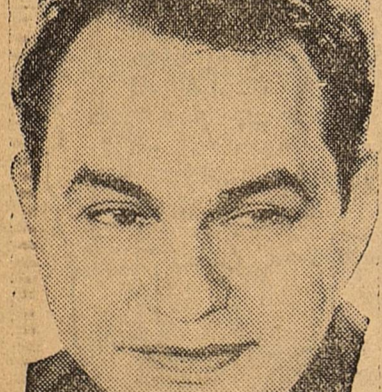

ABILENE, Nov. 23.—Annual homecoming of Simmons university alumni and ex-students will be held here Thursday, Nov. 26, with a football game between the Cowboys and Texas Tech scheduled as the main feature of the day.

The day's celebration will begin with class re-unions in the morning. The Cowboy band will play a concert at Mary Frances hall and registration will be made at that place. At noon an old time barbecue will be held for all students, exes, and friends. Preparations are being made by "Sandstorm" Charlie Brown, Clarence Cowden, and Lance Sears, cowmen, to feed 1,500 people at the barbecue.

Annual Dad's day exercises will also be held. The Dad's club will meet before noon to organize for the coming year. Bert E. Low of Abilene is now president.

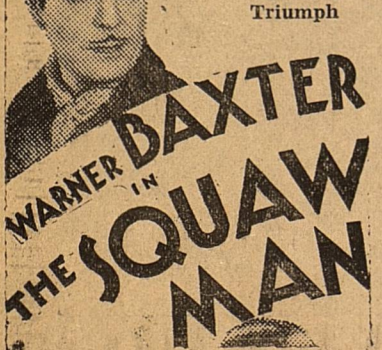

The annual Thanksgiving game between the Cowboys and the Matadors will begin at 2:30. Several hundred fans from Lubbock and the Matador band will make the trip here. Simmons is preparing for the biggest football crowd of the year, probably 8,000 people.

Your radiator will be safe tonight if Ever-Ready's experts service it for you today. Phone 73. (Adv.)

EDW. G. ROBINSON in "FIVE STAR FINAL" Not a Gangster Picture!

STARTING TOMORROW Cecil B. DeMille's Greatest Triumph

WARNER BAXTER in THE SQUAW MAN

## SPORTS REPORTS

By R. C. HANKINS  
To Frank Midkiff goes the credit of pulling the fastest one we've heard this season. Everyone who had not seen Joyce, Colorado's big tackle, got a good squint as, every time a Midland man fell, No. 17 piled on his head and stuck it in the ground. There was a lot of discontent in the Midland stands at the big Coloradoan's off-sport brand of play. Well, to go on with the story, he finally found Midkiff stretched on the ground and jumped amidst ships the little half, crushing him as flat as a pancake. After they had poured a few pints of water on him, Frank aroused. "Are you hurt?" Ham Pinnell asked. "I guess I am," Frank ripped out. "He stuck my nose in my navel!"

Should one care to investigate a peculiar transaction in making change, ask a group of Midland high school teachers who saw the Sweetwater-San Angelo game in the latter's village Saturday. Four comely misses walked up to the gate-keeper. They did not have tickets and needed identification that they were teachers and, therefore, entitled to the two-bit rate. Identification being lacking, the gate keeper decided to charge them the six-bit rate. Okeh, then, so the girls who hold authority by virtue of the ferule started laying down their money. One threw down six bits. Another gave a dollar and picked up a quarter the other had laid down. And the third teacher said she would pay for all four, so she gave a dollar and picked up the change, making all four go into the gate for six bits. We can't figure the thing out. The funny thing was: neither teacher knew she had slipped a fast one over the gate until they got to talking about the dumb look that came over the keeper's face. Then they checked and found that three quarters had paid for four admissions—or the equivalent of one fourth the price they were supposed to have paid. A little later Bob Scruggs walked up and the keeper recognized him as being from Midland. He started to run Bob through, probably thinking that otherwise the total receipts of the gate would show a tendency to show up under red typewriter ribbon.

"Ironhead" has left notes all over the office, asking whether Midland will play a charity game after regular season. That's a nice idea. But who to play? We'll take a chance on reminding you that San Angelo beat Midland only 7 points and that a post-season game with the Bobcats would draw in Midland. How would you feel about such a game, Coach Barry?

Down in Mineral Wells show up a trio of Midland men on the Reilene is now president.

The annual Thanksgiving game between the Cowboys and the Matadors will begin at 2:30. Several hundred fans from Lubbock and the Matador band will make the trip here. Simmons is preparing for the biggest football crowd of the year, probably 8,000 people.

Your radiator will be safe tonight if Ever-Ready's experts service it for you today. Phone 73. (Adv.)

### Potash Mining-- (Continued from page 1)

rapidly, or "centrifuged," and the solid residue is further extracted cold—for an hour—with enough water and lime so as to extract all the remaining potassium sulphate from the ore to produce a 3 per cent potassium sulphate solution. This is filtered and the 3 per cent potassium sulphate solution is then used—in turn—for the hot extraction.

The potassium sulphate is then merely to be evaporated to dryness to obtain this material in crystalline form. This evaporating can be carried out in the simplest manner possible—hence it is proposed to be done in such a way as not only to economize heat but also so as to produce power at an unusually low figure. Namely, the solution is first evaporated partly to produce steam for an engine, and the steam rejected by the engine, then to be used to evaporate the solution further and to dryness.

**Expensive By-Product**  
The solid residue left from the potassium sulphate extraction is composed of 90 per cent of gypsum and 10 per cent of magnesium hydroxide. The latter is readily removed by dissolving it in water saturated with carbon dioxide (from flue gas); the gypsum is then filtered off, and the solution containing the magnesium carbonate is then used as the condensing water for the last evaporator of the potassium sulphate solution; as this solution gets hot, it precipitates the magnesium carbonate as a white fluffy or bulky mass. The latter after being filtered and dried, is the material known as insulating magnesia—a very costly product used in boiler and pipe insulation.

**Process Advantageous**  
The first and most striking advantage of this new process is that it does away with the one to two hour roasting to which the former process subjected the ore, and the subsequent one hour leaching in sorter football team, Colbert Pope plays a tackle. A. Pope an end and James White a half's position. All figured strongly in Mineral Wells defeat last week of Fort Worth's W. C. Stripling high school, 20-0. White intercepted a pass that paved the way for a touchdown and converted two extra points after touchdown with his toe, and A. Pope caught a long pass and carried it to the Fort Worth 2-yard line. A touchdown resulted on the next play.

A head in one of the exchanges: "The Oklahoma Aggies May Not Be So Hot on Gridiron, But They're Hot Pappas." Six members are married, the captain included.

STICKER SOLUTION Starting from triangle "S," follow the line as indicated and you will spell out "sixteen triangles."

### "The Squaw Man" Coming to the Ritz

For those who like their thrills strong and with plenty of "pepper," it is said that Cecil B. DeMille's new talking picture, "The Squaw Man," which will open Tuesday at the Ritz theatre, is "just what the doctor ordered."

The famous tale, one of the three most successful stage plays ever written, shifts colorfully between England and Arizona for its geographical backgrounds. Warren Baxter plays the leading part, with Lupe Velez holding the Indian girl role.

### PARTY POSTPONED

The Wo Ho Mis club party to have been given tomorrow afternoon at the home of Mrs. Guy E. Bennett has been postponed until next week.

Somebody some where wants your Photograph. Special discount on all Photographs thru Nov. 28. Prothro Studio. (Adv.)

boiling water, and substitutes therefor a five minute stirring with a small amount of lime and enough water to produce a solution containing nine to ten parts of potassium sulphate per 100 parts of water. It is obvious that this secures a great saving in cost of equipment and of operation. Even the extra cost due to the lime is more than counter-balanced by the fact that in this process the magnesium is converted to a commercially more valuable form than that of the sulphate in which it was to be obtained in the former process.

The second great saving is due to the fact that the solution obtained contains essentially nothing but potassium sulphate; the amounts of calcium sulphate and common salt present amount to less than 10 per cent and hence the solution merely needs to be evaporated in any way to produce direct the commercial 90 per cent potassium sulphate, where previously fractional crystallization was necessary to separate the potassium sulphate from the magnesium sulphate. The saving in cost of installation and of operation obtained in this connection again is obvious.

**Great Saving**  
Finally, it should be realized that all of the potassium sulphate is extractable by this process while obtaining a residue from which basic carbonate of magnesia and wall plaster can be manufactured at costs much below those by which these products are now manufactured because these residues present the respective raw products with more than half of their regular manufacturing operation already spent on them. To be specific: In the regular manufacture of the light basic carbonate of magnesia, raw dolomite must be calcined and slaked, and then it presents a mixture for carbonation which contains over 60 per cent of lime, and which entails a waste of carbon dioxide for the removal of the latter, while the mixture here obtained presents only the magnesia for carbonation. In other words, the use of the above by-product from polyhalite saves the roasting and slaking and also does not entail the waste of carbon dioxide for removing the lime which the mixture obtained from dolomite entails.

**Development Likely**  
The other by-product, gypsum, is delivered as by-product in the form of a filter cake. Except for the cost of drying, this material is identical with the material in a gypsum plant after it has been quarried, brought to the plant, and finely ground. Hence it merely require dehydration to convert it to "setting" plaster.

It is evident that the complete conversion of the ore into salable products, and this by a simple cheap procedure, puts polyhalite into a wonderfully advantageous position. Furthermore, it must be realized that the potash is obtained in the form of the sulphate, the market value of which is now \$46.60 per ton at New York, while that of potassium chloride is only \$35.50 per ton. While the price of borax may come down, yet it is likely that the sulphate will always command a correspondingly higher price because there is always a distinct and large need of the sulphate in agriculture, and aside from the above proposed production of potassium sulphate from polyhalite, otherwise it is manufactured from the chloride and thus entails an extra cost over the chloride. For all these reasons, the splendid polyhalite layers in Texas are likely to be developed almost immediately.

Don't let your radiator freeze tonight. If Ever-Ready Auto Service prepares it, you will be safe. Phone 73. (Adv.)

New Ladies' hats daily at McMullan's.

BEWARE THE COUGH OR COLD THAT HANGS ON Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified crocote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs, crocote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to crocote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the crocote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist. (adv.)

### "Bob and Tom" Buy Former Dorsey Shop

Purchase of the former H. B. Dorsey boot shop by Bob Mills and Tom Jackson, operating under the name of Bob and Tom boot shop, was announced Sunday. The new owners, former employes of the Dorsey shop, bought the business from the bankruptcy court, consolidating with it the shop they had opened recently on Wall street. They will continue the business at the old Dorsey stand, 111 West Texas avenue.

### CHRISTIAN SCIENCE CHURCHES

The subject of the lesson-sermon was "Soul and Body" in all Churches of Christ, Scientist, Sunday, Nov. 22.

Psalms 104:1 furnished the golden text. "Bless the Lord, O my soul. O Lord my God, thou are very great; thou are clothed with honor and majesty." This passage from the Bible (II Corinthians 5:1) was included in the service: "For we know that if our earthly house of this tabernacle were dissolved, we have a building of God, an house not made with hands, eternal in the heavens." Embraced in the lesson-sermon were also the following citations from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy.

"Because Soul is immortal, it does not exist in mortality. Soul must be incorporated to be Spirit, for Spirit is not finite. Only by losing the false sense of Soul can we gain the eternal unfolding of life as immortally brought to light." (p. 335.) "Sooner or later we shall learn that the fetters of man's finite capacity are forged by the illusion that he lives in body instead of in Soul, in matter instead of in Spirit." (p. 223.)

**WARNS AGAINST FIRES**  
AUSTIN, Nov. 23. (UP)—A warning against Christmas fires was sounded here today by State Insurance Commissioner J. W. Deweese, in his annual pre-Christmas message.

Records compiled on last Christmas show that candles, fireworks, paper decorations and improper electric connections caused most of the Christmas fire losses.

**PULLET LAYS BIG EGG**  
BANDON, Ore. (UP)—C. E. Winter's prize pullet laid a freak egg which measured in circumference, approximately seven by nine inches. The egg was boiled hard, cut in half and revealed the presence of a normal egg in its interior.

Let Ever-Ready's experts prepare your radiator for winter. Bring your car down today or call 73. (Adv.)

### QUIET YOUR "NERVES"

This Delightful Way MRS. Alice Fischer (picture above) says she is "the happiest woman in the world." "I often used to wish I was dead. Couldn't sleep; couldn't enjoy myself. It seems as though I had tried every nerve medicine made, but without any benefit until I tried Dr. Miles' Efferescent Nerve Tablets. They certainly proved their worth for me. I am the happiest woman in the world and I don't mean maybe." Mrs. Alice Fischer If you are Nervous, Sleepless, Cranky, Blue, or have Nervous Headache, Nervous Indigestion, take Dr. Miles' Efferescent Nerve Tablets.

### AN IMMORTAL LULLABY

Here is an interesting story about a song which James Melton will sing in the "Voice of Firestone" program this evening. The song is Berceuse, or Lullaby, from the opera Jocelyn.

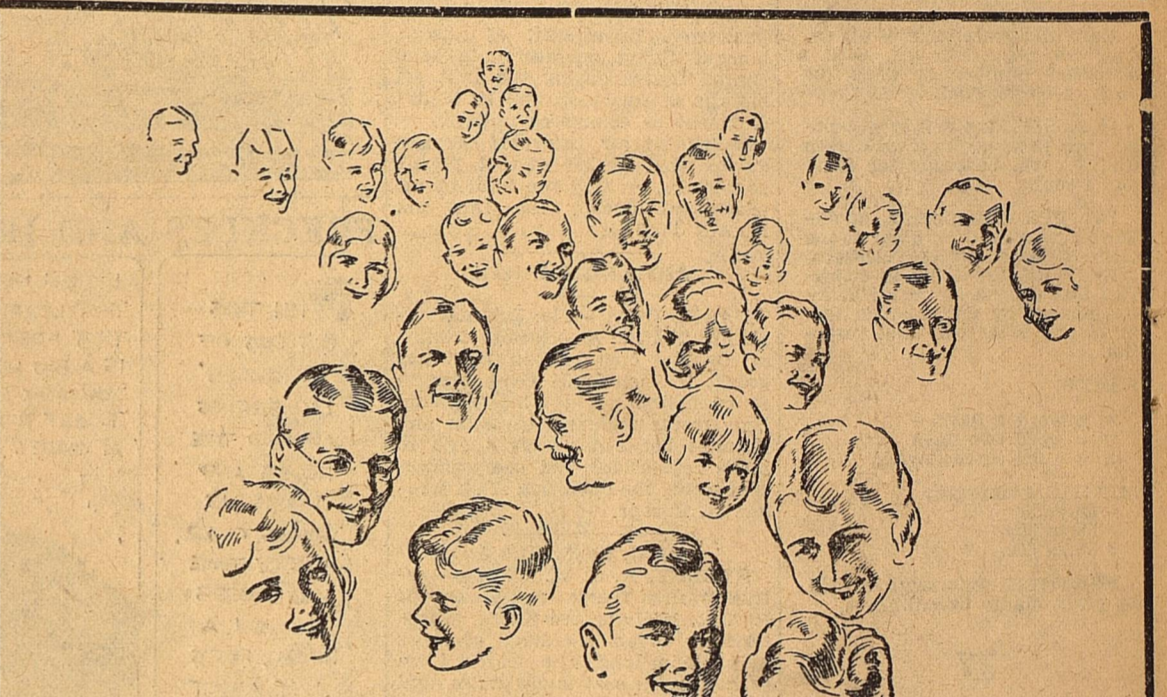

Benjamin Godard was the composer of Jocelyn. As a French student of music he strove very hard to win the Prix de Rome, but failed twice. It was his ambition to write great operas. In 1884 he brought out a grand opera, which was not successful, and followed it with two other operas, including Jocelyn, produced in Brussels in 1888.

Musical historians agree that Jocelyn would have been forgotten had it not been for Berceuse, which

was not even sung in the opera, but was instrumental score for violin, cello and harp. Godard's name is perpetuated by short works, songs and graceful and melodious calzon pieces for the piano, but chiefly by this simple melody which originally seemed so unimportant.

"We're Waiting for Your Christmas Gift Suggestions"

PROSPECTIVE Christmas shoppers, as a class, are open to suggestion. They literally beg to be told what to buy, and where to buy it. Why, then, do they turn to their daily newspaper for help? Because they know that there, they will find the information they are seeking in the most convenient, compact form. Will You Get Your Full Share Of Christmas Business?

Of the entire population of Midland and Midland county, it is estimated that 95 per cent will be guided largely in shopping for Christmas gifts by advertisements in the daily newspaper, The Reporter-Telegram. Such complete coverage demands your consideration. In the outlying trade territory, the paper reaches a fair per cent of the population. You are entitled to your fair share of the Christmas business and to receive it you are invited to give your gift suggestions to an eagerly awaiting public through The Reporter-Telegram.

GIFT SUGGESTIONS CHRISTMAS SHOPPERS ARE LOOKING FOR SUGGESTIONS IN The Reporter-Telegram
