HUNGER AND REVOLT

When William Green reminded the American Federation of Labor the other day that "revolutions grow out of the depths of hunger," he touched on a simple truth which every student of history is familiar.

And yet that statement, by itself, is incomplete. Hunger does not breed revolutions until the ordinary man has lost all hope that his hunger will ever be appeased. Hunger must join hands with despair before it can result in violence.

That, probably, is why real revolutions are such rare events. There has always been hunger, since the first cave man had to poke around in last week's bone pile for something to gnaw on; and starvation has always been a real possibility to a certain percentage of the earth's population. But revolutions, all things considered, do not take place very often.

Perhaps that is the most surprising part of it all. The human race will stand a good deal of kicking around before it uses its fists. If the meek are to inherit the earth, the common man will surely come into riches some day, for meekness is one of his outstanding characteristics. The patience with which human beings will put up with hunger, privation and injustice is one of the most amazing things in all history.

There is something rather significant in this. Without knowing it, the ordinary person has a good streak of the doctrine of non-resistance in his heart. Gandhi, who cries that not even liberty is worth having if it must be fought for, knows more about human nature than the believers in strong armies realize.

Most of us have moments in which we are neither sure why we are here nor confident that anything worth getting lies ahead of us. But meanwhile we can make a go of it, if only we can contrive somehow to get enough to eat, a cozy place to call home and a little leisure for love and laughter. This goal may not be a very lofty one; yet the race as a whole clings to it with a fidelity that is astounding.

And hunger? Well, revolutions grow in its depths, as Mr. Green says; but it has to be hunger of an appalling intensity, coupled with a despair whose blackness blots out even this humble little dream of ours. Otherwise we shall simply complain a bit, think dark thoughts in private—and make the best of it.

THE GANGSTER PHENOMENON

The American public seems to have saved itself the unspeakable folly of making popular heroes out of its gangsters.

To be sure, children at play will often pretend they are underworld gunmen, and many a lad of eight or ten has been put on the spot, with cap pistols, on suburban street corners and vacant lots. But as a general thing the gangster is recognized for what he is.

Witness, for example, the fact that Al Capone was roundly booed when he visited a college football game the other day; booed so thoroughly, in fact, that even his tough hide was pierced, and he got up and walked out.

As long as we have the sanity to keep that attitude, there is plenty of hope for us. Capone got his start in an unspeakably vile trade, and the fact is remembered.

MORROW'S DEATH

Perhaps the saddest thing about Dwight Morrow's death is the fact that it came just when his real career seemed to be beginning.

Within the last half dozen years Mr. Morrow had become recognized as one of the United States' most valuable citizens. As a diplomat he has had few equals. The friendly relations that exist between the United States and Mexico, for instance, constitute one of the finest legacies any map has ever left to his country.

But his work had barely begun. No one doubts that Mr. Morrow would have come to occupy an exceptionally exalted position in the Senate, had he lived. There is no question but that his talent for diplomacy would have been called into play again and again. That he should go now, with so much work still to be done, is a very heavy loss to the entire nation.

Side Glances by Clark

"But I never have dates when I'm posing for a magazine cover. I can't hold that sweet, dumb expression more than eight hours."

WHY NOT BE FAIR TO THE UTILITIES?

(From Odessa News-Times)
In solemn conclave assembled the latter part of the week in Fort Worth the mayors, and others from many West Texas towns in a group passed resolutions which to the News-Times seems the most unjust and unfair thing we have encountered in years. Following is the verbatim report as it appeared in Saturday's Star-Telegram:

"While the Texas railroad commission is investigating rate rates charged by the pipe line companies beginning with those of the Lone Star Gas company, cities of Texas are urged by a resolution adopted at the gas meeting of the Texas League of Municipalities at The Texas yesterday to pass ordinances arbitrarily lowering existing consumer rates without investigation to determine their fairness.

"The purpose of the motion offered by Mayor Ernest Thompson of Amarillo, as explained by J. Boudin Rector, city attorney of Austin, and president of the league, is to swamp the utilities with litigation, forcing them to compromise and to give consumers the benefit of lower rates this winter pending settlement of the rate controversies."

"The News-Times holds no brief for the gas companies of the southwest—is not on their payroll—opens them nothing—and is not arguing as to whether or not gas rates to the consumer are too high. The News-Times does not know. It will not, however, countenance a proposition urging city councils over the state to 'pass ordinances arbitrarily lowering rates without investigation to determine their fairness.'"

"Public utilities are entitled to a square deal just as any individual or any corporation is entitled to a square deal. It is possible that in some instances rates for the services rendered by our gas, electric, telephone and other utilities are too high. The only way to determine that fact is by a survey of the properties investment, the operating expense and the net revenue of such companies in each particular instance. That can be done, and until it is done, no city has a right to demand lower rates or to pass local legislation which arbitrarily lowers the rates without regard to their justness or fairness."

"The method outlined above by Texas Municipalities league to my mind is comparable to blackmail. The big idea seems to be to either force the reduction in rates or tie the gas company up in so much litigation that it will cost them more than the reduction in rates would amount to. I'm glad that my home city didn't become a party to such unfair and unjust action."

"I have been engaged in a public business for many years and have taken an active part in community development projects of every kind all during that time. I have yet to find any utility company in any town where I have been that did not carry on its part of the community load of taxes, in support of the chamber of commerce, in donations to charities or in any other particular you can mention. Not only do they DO their part, they do it cheerfully, willingly, and wholeheartedly. I have never gone to them with a reasonable request that was not considered and granted. These same utilities have done more for my town than any other class of business and they are doing it today."

"Odessa would be only a wide place in the road, and a bad road at that, today if it were not for the building activities stimulated solely by our utilities. The T. & P. Railroad, the Texas Electric Service company, the West Texas Gas company, the Southwestern Bell Telephone company, the Western Union Telegraph company—take these away from Odessa and there wouldn't be much left."

"I hold the opinion that these utilities are entitled to a fair return on the investments they have in Odessa and Ector county. As a matter of fact I doubt if they are getting that under existing rates. I don't think Odessa is any worse off than the majority of towns represented at the Fort Worth meeting, and I believe the same thing will apply in most all of them."

"I want to see industry and commerce prosper in West Texas. I want our gas company to make money along with the balance of us. I'm going to stand flatly for a square deal for the public utility as well as the private individual. I'm in favor of paying for service rendered, whether it be gas or soap grease. When I find beyond a doubt that the rate is too high, I'll be strong in the demand that it be lowered, but once again, I'm strictly opposed to the passing of ordinances here or elsewhere to 'arbitrarily lower rates without investigation as to their fairness.'"

"E. L. Biggerstaff Jr., who has been here several days, returned to his home in Childress this morning. Mr. and Mrs. J. H. Winkle of Granite, Oklahoma, are in Midland for a few days visiting their daughter, Mrs. L. H. McBride. Jas. P. Harrison was a visitor in Stanton Sunday afternoon."

"George Darden, who has been riding in the horse races at Marfa, was in Midland this morning en route to his home in Abilene. Mr. and Mrs. J. H. Winkle of Granite, Oklahoma, are in Midland for a few days visiting their daughter, Mrs. L. H. McBride. Jas. P. Harrison was a visitor in Stanton Sunday afternoon."

The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything.)

What about those who want to move in? When Winston Borum got his stuff packed to come over from Pecos he couldn't find a moving van there. He put in a call for relief from here and the only one here had the tires off and the truck that pulls it is in East Texas. On last report there wasn't a van in Big Spring either. Whatta country!

"A watch is no stronger than its chain's weakest link," said Jim Harrison when he picked his time-piece up off the sidewalk. Jay Floyd and Pete Patterson have been Tomcatting around down about Rankin.

Al Capone is said to have looked over the jury said he didn't like the type. May have been too bold faced to suit him. Or maybe he saw they were not hand set. And then there was the absent-minded doctor who walked into his waiting room and waited an hour for himself, going home finally in disgust with the declaration that he would wait no longer.

Can you imagine Midland without a moving van. That shows that people have quit moving about, but

Getting the rain report today worked around to where it wasn't a matter of finding out what farms or what ranches received moisture, but what states were included in the downpour. When we had as nice a drouth breaker, just at the time it was needed the most, as the rain that fell yesterday, last night and this morning? The first farmer I talked to today, in spite of the fact that his field was white with open cotton, said the rain suited him. And wouldn't it be a funny question to ask a ranchman, whether or not the rain suited him?

This rain was worth so much of the Midland territory that it can almost be used for money, regardless of the status of the gold standard.

Can you imagine Midland without a moving van. That shows that people have quit moving about, but

Personals

E. W. Nicodemus of Fort Worth is a business visitor in Midland this week.

Miss Edith Hennessey, representative of the Red Cross, has been in Midland several days.

E. E. Biggs of Albuquerque is here for several days transacting business.

George Armstrong, who has been in Fort Worth several days, and Ray Hyatt, who has been in Dallas, returned home Sunday.

W. E. Grannis of San Angelo was here on business this morning.

Mrs. Bedford Taylor is expected to return tomorrow from Dallas and McKinney where she is visiting relatives and attending the state fair.

T. O. Midkiff has returned home from Fort Worth and Oklahoma where he made a business visit last week.

Miss Elizabeth Lomax returned Sunday evening from Anson where she spent the week end visiting friends.

George D. McCormick and R. J. Moore returned yesterday from Harlingen and other south Texas towns where they visited several days.

T. J. Stokes of Carrizosa, N. M., is in Midland visiting for a few days with his parents, Mr. and Mrs. J. V. Stokes.

H. Gilliam and Marvin Couey of Fort Worth were business visitors here yesterday.

Mrs. Ivy Lee Mitchell and Miss Stella Maye Latham returned Sunday afternoon from Dallas where they spent the week end attending the state fair.

Mrs. Clarence Seharbauer has returned from Dallas where she visited several days.

George Darden, who has been riding in the horse races at Marfa, was in Midland this morning en route to his home in Abilene.

E. L. Biggerstaff Jr., who has been here several days, returned to his home in Childress this morning.

Mr. and Mrs. J. H. Winkle of Granite, Oklahoma, are in Midland for a few days visiting their daughter, Mrs. L. H. McBride.

Jas. P. Harrison was a visitor in Stanton Sunday afternoon.

Mr. and Mrs. J. H. Winkle of Granite, Oklahoma, are in Midland for a few days visiting their daughter, Mrs. L. H. McBride.

Mr. and Mrs. J. H. Winkle of Granite, Oklahoma, are in Midland for a few days visiting their daughter, Mrs. L. H. McBride.

Mr. and Mrs. J. H. Winkle of Granite, Oklahoma, are in Midland for a few days visiting their daughter, Mrs. L. H. McBride.

Mr. and Mrs. J. H. Winkle of Granite, Oklahoma, are in Midland for a few days visiting their daughter, Mrs. L. H. McBride.

SOCIETY

Invitations Sent For Combined Meeting Tuesday

Invitations have been issued to members of the Senior Epworth league to attend a business meeting and social Tuesday evening at the First Methodist parsonage. Through the unified plan of church organizations, Live Wire class members are also to be entertained at the social. The business will be transacted at 8 o'clock and the party will follow.

Of Brief Interest to Women

The Mode in Carpets
If you are buying carpets, ask to see the plain patterns in mahogany, dark brown and very dark egg plant. These are the newest shades. Green with a deep bluish cast is still a favorite, closely followed by the turquoise blue, washed with neutral soap and ironed while still wet, they are guaranteed not to crack or to harden. They are offered in a variety of color-fast designs.

New Shower Curtains
A new line of shower bath curtains is on the market that repels water and is also mildew-proof. The substance is neither rubber or rubberized fabric. Washed with neutral soap and ironed while still wet, they are guaranteed not to crack or to harden. They are offered in a variety of color-fast designs.

Terrycloth Pajamas
Lounging pajamas of bright terrycloth have won the younger generation's heart. Introduced for beach wear last summer, these pajamas have been made up in plain and striped material for college wardrobes. Bath and lounging robes of terrycloth, corduroy and printed cottons are popular, cut on severely tailored lines.

Box for Morning Milk
A milk delivery box is now on the market which, installed on the back porch, keeps milk safely until the housewife is ready to use it. The box is in metal and has a hinged cover. It is large enough to hold three milk bottles. These boxes are available lined with an insulating material which protects the milk from heat and cold.

Couch-Bed Covers
Sateen and chintz in dark colorings make attractive covers for the couch-bed that serves as a couch by day and a bed by night. For the college dormitory room, these materials have been designed with college scenes and pennants. Others have patterns made up of old maps, colonial scenes or pictures of western history. The sturdy texture of these fabrics makes them excellent for a student's room.

Sponge Necklaces
PARIS. (UP)—Sponge necklaces, have made their appearance in Paris and are both beautiful and utilitarian. So artistically are they disguised that they can be worn, not only with bathing suits and beach outfits, but also with street costumes, and are excellent for traveling in case the wash cloth has been forgotten. The sponges are cut into odd shapes, like boxwood hedges, and tinted in attractive colors.

CIGAR RELIC FOUND
VIRGINIA CITY. (UP)—A striking relic of the old Comstock days was unearthed here by Albert Dressler of Berkeley, a souvenir hunter, when he found an imitation glass cigar five feet long that was used to advertise a famous cigar store 50 years ago. The device, forerunner of modern electric signs, was lighted with gas and is constructed of 15,000 to 20,000 glass prisms.

Shoes—Lowest prices at McMullan's.

Attention, Ladies!
Special For This Week
Free Hair Set with each Henna pack at 75c (regular \$1.50 pack), also rain water shampoo 35c, wave-set 25c, dry-set 35c, eye brow arch 35c, dyed 75c. Come in and let me tell you about removal of superfluous hair and scalp treatment. All work reasonable. Open evenings by appointment. Phone 734. Mrs. Elsie Hughes 407 N. Colorado

Doris June Bayless Is Honoree at Birthday Party

Mrs. Dorris Bayless entertained her daughter, Doris June, with a birthday party at Cloverdale Friday afternoon in honor of her fourth anniversary.

Games were played and pictures of the party were taken. Later cake and ice cream were served to the following guests:

Paul H. Jones, Wandell Jones, Mary Margaret Calhoun, Jack Jones, Frances Irene Palmer, Betty Jo Tate, Nina Marie Mitchell, J. C. Hejl, Mary Helen Walker, Mary Jo McCarter, Billy Catherine Jones, Jack Edwards, Norma Jean Stice, Camille Jane Taylor, and the hostess.

Mrs. Bayless was assisted with the entertainment by Mrs. T. A. Fannin, Mrs. J. R. Mitchell, Mrs. W. C. Jones, Mrs. Curtis Bond, Miss Mammie Jo Bayless, Miss Mary Wallace, and Mrs. Paul H. Jones.

Choice Cooks' Corner

Apple Butter
Three gallons sweet cider, 2 gallons 'snitz', 4 pounds of granulated sugar.

'Snitz' are apples which have been pared and cored and cut into very small pieces.

Boil cider for ten minutes and skim well. Add prepared apples and cook until tender. When apples become soft, stir to prevent burning. When mixture is smooth add sugar and cook until thick. Put into sterilized jars and seal. If spices are wanted the flavor is better if they are added just before serving. These proportions are for about 6 quarts of apple butter.

Apple Marmalade
Four pounds of sour apples, 3 pounds of granulated sugar, 2 lemons, 2 oranges, 1-2 cup water.

Pare and core apples and chop coarsely. Squeeze juice from orange and put rind through food chopper. Cut lemon in very thin slices, discarding seeds. Put water in preserving kettle. Add a layer of apple and sprinkle with sugar. Continue layer for layer of apple and sugar until all is used. Put over a slow fire and bring to the boiling point. Add remaining ingredients and cook until apples are soft and the mixture is thick. Stir to prevent burning. Pour into sterilized jars and seal while hot.

ALL FOR THE CAT
BRISTOL, Eng.—To save the life of a kitten which was trapped in a drain, the water level in Bristol's floating dock was lowered six inches by order of the harbormaster.

PEIPING. (UP)—Two hundred Chinese detectives in Peiping have successfully passed the tests for disguising themselves imposed by the Commissioner of Safety, Gen. Pao Yu-lin. They dressed as peddlers, water-carriers, peasants, and even as working women. One detective dressed as a garbage collector, snuffed so successfully that he was turned away from police headquarters.

SPORTS REPORTS

By R. C. HANKINS

At a meeting of the district committee at Big Spring Saturday morning the eligibility of two of McCamey's stars was questioned, and both were ruled out, temporarily at least. The district committee decided that until and unless further evidence was offered to the contrary by McCamey, Virgil Smith, fullback, had already participated in football four years and that Van Sullivan was over age. Prior to going into "official" executive session and dispensing with the presence of coaches in the sanctum sanctorum, Chairman McLain proposed that the committee draft a resolution condemning recruiting by fans and any attempts on the part of over-zealous fans to effect a winning football team by questionable methods. Coach Barry of Midland suggested that in view of the transfers that were already on the rosters at Sweetwater, San Angelo and Big Spring, that the committee insert the word "hereafter" into the resolution, in order not to make it a farce. The sum of the committee action was exoneration of school men in each town as regards responsibility for the recent violations of the spirit of the rules this year, on the grounds that they were not in control of the situation. It is very evident that the three new class A members of district four are coming out on the short end of the horn. Despite the fact that the three big teams of the district, San Angelo, Sweetwater and Big Spring, hold their margin of superiority over new members by virtue of so-called questionable transfers, the committee continues to work on McCamey. "To him that hath," etc. Too bad that Midland and Colorado do not have one or two good men who could be operated on by the Triple Alliance. We desire that not one of the Big Three has ever proposed to either of the other two that "if you leave us alone, we'll leave you alone" but there seems to be an unwritten, unspoken agreement to the effect that each will do some mutual back-scratching. So far, at least, the committee functions for higher and cleaner athletics, but general housecleaning has been confined to brushing off the back door steps instead of putting the vacuum cleaner to work in the living room.

Most of the time of the district committee was taken up discussing the case of one Reymund Crawford, a guard on the San Angelo team. In 1929 Crawford joined Harry Taylor's squad at Post, transferring from a nearby rural school. Last year Crawford followed Taylor to Colorado, his father being given the job as janitor in the Colorado school. Colorado was tried and convicted of recruiting Crawford and the Class B district committee recommended that Colorado be thrown out of the league for two years. Promises on the part of the Colorado school board to the district finally got Colorado back in the league. This year Mr. Crawford follows Harry Taylor to San Angelo, holding down a job as janitor in the San Angelo schools. Mr. Smith, the San Angelo superintendent, hired Crawford through the recommendation of a friend—assertedly not knowing that his son was a football player. When he heard the facts of the case, Smith, according to his statement to the district committee, asked the friend who had recommended Crawford for the janitor's job: "What did you say to me when you recommended this man?" The friend replied: "I WAS VERY CAREFUL WHAT I SAID." The district committee exonerated the San Angelo school man from

any blame in the matter of recruiting Crawford in order "to prevent embarrassing them in San Angelo."

If you're interested to read the rules on the matter, here they are: "To uphold the principle that high school football is worth while in the school as an educational force when properly controlled. Efforts on the part of any school official or local 'fan' to recruit players shall be considered a violation of this principle and shall subject the school at fault to disqualification. Disqualification may be made by the committee after the school concerned has been given an opportunity to be heard in its own defense. When a school is disqualified it shall remain on the disqualified list until the superintendent has convinced the committee that the errors complained of have been removed and that the superintendent can guarantee the proper conduct of football in his school."

All of the above is but another case of where the committee admits that the spirit, if not the letter of the rules, has been violated, but takes no action to remedy matters. Colorado had no hopes of winning a single district game. Mr. Watson, the superintendent, is interested in justifying his school in recruiting Crawford last year, and has voted, we understand, to give all questionable men a clean bill. Sweetwater, Big Spring, and San Angelo all have teams built up by questionable transfers. This leaves Midland and McCamey holding the sack, with McCamey getting the smallest end of the deal.

Two weeks ago Big Spring made 46 substitutions and aggregated 46 points. In the Friday game with Pecos, 61 changes in lineup were made and 61 points resulted. Can it be possible Bristow is playing a system against the boys of Class B? Two odd coincidences, to say the least.

Something from Marcos Williamson that sounds interesting, even if we see little in it:

"How is this for an idea? Sweetwater—will win from all teams.
Big Spring—defeat everything except Mustangs.
San Angelo—lose only to the Steers and Mustangs.
Midland—win from McCamey and Colorado.
Colorado—may win next year."

Incidentally, Marcos says the Big Spring Steers are four touchdowns better than Midland. He also said that Texas would defeat Rice. Sunday morning papers inform us Rice tossed the Texas players and Mr. Williamson's concrete statement both into the discard. As to the strength of the Steers, however, it must be said they loom powerfully. Taking comparative scores in the matter, Big Spring defeated Stanton 46-0; Midland was able to turn the trick only by a 14-0 decision. Going a bit farther, Big Spring knocked over Pecos, 61-0, and McCamey, rather a few weeks ago fourth in possibilities, third to some writers, beat Pecos only 14-6.

Williamson has a new rating to offer the customers. He picks the Steers to cop the district and the heretofore favorite Mustangs of Sweetwater third, slipping San Angelo into the breach. Midland comes next, with Colorado shifted from last to next-to-last, and McCamey bringing up as stragglers.

Blondy Cross picks the all-district backfield: Tack Dennis, Mike Hicks, Bill Flowers and Bill Harrison, the latter being from San Angelo.

And, last, the San Angelo Lions club has decided to give a beautiful cup to the winner of the district.

And Midland is grooming for the game here Friday with the Steers. A special train will bring the bulk of Big Spring's population.

When Coach Madison Bell's Texas Aggies take the field against the Texas Christian university Horned Frogs Saturday, Oct. 17 at Fort Worth, they will be fighting to break a "jinx" that has been growing bigger and bigger for the past six years. Although the Aggies hold a big all-time margin of victories over the Frogs, they have not been able to mark up a football victory over T. C. U. since 1924.

Records of the Aggie athletic office show that the Aggies and Frogs have met on the gridiron twenty-two times and that the Aggies have won fifteen, lost four and tied three.

TEETH INDEX TO BRAIN

Dr. E. Elliot Smith, famous professor of anatomy at a British college, expresses the belief that while brains grow, teeth rest, and man pays with weak and crooked teeth for a better brain.

PEP MARTIN JUST TRYING TO OBEY SIGNALS AT BAT

By WILLIAM BRAUCHER

Colorful writers have pictured the regular Saturday afternoon story hour at the county library were: "The Boy Who Was Good Natured"; "Snow Queen"; and the children sang "Toy Maker's Dream." The story of the "Boy and the Wolves" was dramatized by the children. Gladys Sadler gave two readings, "My Book" and "There Are Fairies." Norma Jean Stice told the story of the "Little Boy Going to Pick Strawberries."

Children present were: Sibyl Richman, Minnie Inez Abbott, Mary Martha Fuller, Imogene Franks, James Oliver Fuller, Myrtle Matilda Abbott, Mary Sue Shepard, Denis Wilson, Virginia Shepard, Katherine Beauchamp, Louise Motyle, Joyce Beauchamp, Lillie Louise Jones, Mary Margaret Calhoun, Johnette Schow, Mary Newton, Betty Sue Chapman, Marie Johnson, Virginia Harding, Ella Ann Tolbert, Norma Jean Stice, Alex Seymour, Beth Prothro, Nancy Lee Goodman, Marjorie Hall, Henry Beth Abbott, Wilbur Yeager, Geraldine Franks, Raymond Hundle, Charlene White, Imogene Miller, Eileen Elland, Edith Miller, T. R. Abbott Jr., James Miller, Charles Edward Jones, Bertha Flounders, Don Coffee, Lamoine Sindorf, Eugene Richman, Walter Wesson, Virginia Courtiss, James McCall Jr., Baker Wesson.

"Well," he answered, "if you want to go ahead and write that it will be all right with me."

He is quiet spoken.

Aside from a ten-gallon hat, which is unusual for a ball player, he dresses modestly and in good taste. He started to play ball with a church team at Temple, Oklahoma.

That doesn't sound just right when you have the picture of the man going head-first into second and coming up with half the dirt of the diamond spread over his form and features and 20,000 or 40,000 frenzied fans cheering him to the echo.

But the "Pepper" Martin of the diamond and the John Lester Martin you meet in a hotel room are two different people.

John Lester Martin is a quiet, little square-shouldered man with a family. With his wife and little daughter, Alyne, he is just "Daddy." He quietly impresses you that he is just a ball player doing a job in centerfield for the St. Louis Cardinals. He is just a hired hand.

But on the diamond this soft-spoken and quiet-looking chap becomes another person—a demon batter, a streak of human fire on the bases, ready to take any chance and most often getting away with it. As a result, millions now know his name.

And all this despite that 1931 was his first year in the majors. Connie Mack told me Martin was "inspired," implying that the young man who batted .290 in the National league and 566 during the first six games of the world series was playing a mite over his head.

There is no substantiation for this in Martin's demeanor.

After the sixth game, I asked him these questions:

"What are you hitting? Where did you learn to steal? To what do you attribute your success in the world series?"

His answer was:

"I'm just watching the ball and the signals. When Gabby Street showed enough confidence in me to move me up to the cleanup position, I tried to turn the trick for him."

"I see a good ball and I hit it. When I get the sign to steal a base or to go down on a hit and run, I do my best to get there."

"I am playing the best ball I ever played in my life. I am trying hard because it is a world series and I want the Cards to win it. Newspaper men have asked me a million questions that I simply can't answer. I just happen to be clicking, that's all."

"Earnshaw is tough to hit; all the major league pitchers are hard to hit," observed this young man from Oklahoma.

"But these major league pitchers are no different from a centerfielder. They had to come up the same way. It was a long, hard row to hoe. You know that."

"You can go ahead and say anything you want to about me. I am only one part of the ball team and I happen to be clicking."

Really, there isn't much you can say about "Pepper."

He doesn't grate like Grimes. He is quiet and he's modest, despite all those stories you may have heard.

He has to be seen to be appreciated.

In the clubhouse he puts on his uniform and folds his long, black hair under his cap. In these working clothes he goes out on the diamond and goes to work. He bats, catches flies, watches for signals, steals whenever he is assigned to steal and then—wonders about how he is going to get the dirt out of his uniform and get a bath so he can go home and play with little Alyne.

There isn't much more to be told. He was born on Feb. 29, 1904—a leap year baby. By 16, he was a pretty fair ball player. He worked in odd jobs in the oil fields—hard jobs—and so developed a pair of

MANY PATRONS VISIT SCHOOLS IN SEPTEMBER

Official reports from the four principals to the office of the superintendent of schools show that the superintendent made 160 visits to the various class rooms and that 515 visitations to the schools were made by patrons and friends of the schools during the month of September, which closed Friday, Oct. 2.

The number of visits by patrons to the various buildings was divided as follows: high school 150; junior high school 171; north ward 157; south ward 37. The lists, as reported, follow:

Senior High School

Mrs. D. W. Brunson, Mrs. W. O. Brunson, Rev. Edwin C. Calhoun, Mrs. Elliott Cowden, Mrs. Charles Edwards, Mrs. John Edwards, Mr. B. Frank Haag, Mr. John P. Howe, Mr. W. A. Yeager, Mr. T. Paul Barton, Mr. J. P. Harrison, Mr. Wilton Grist, Mr. J. E. Hill, Mr. John Upchurch, Mr. R. V. Lawrence, Miss Bernice Hill, Miss Emily Flanigan, Miss Bennie Sue Ratliff, Miss Ruby Kerby.

Miss Jess Edith Carlisle, Miss Edythe Sundquist, Mrs. Ivy Lee Mitchell, Rev. Howard W. Peters, Mr. Lynch King, Mr. J. W. Dorsey, Mrs. L. E. Hill, Mrs. J. H. Williams, Mrs. Paul T. Vickers, Miss Hella Mae Williams, Mrs. C. M. Goldsmith, Mrs. J. R. Harrison, Mrs. M. R. Hill, Mrs. Holt Howell, Miss Mollie B. Jangle, Miss Ida Beth Cowden, Miss Janelle Edwards, Miss Dorris Harrison, Miss Dorothy Bess Stanton, Miss Mary Caroline Sims, Mrs. Leon Goodman, Mr. J. H. Usher, Mrs. Helen Margaret Usher, Miss Lydia G. Watson, Mr. Ned Watson, Mr. Charles R. Griffin, Miss Lois Frazer.

Miss Elizabeth Lomax, Miss Violet Graves, Mrs. E. H. Hill, Miss Marie Hill, Miss Nancy Rankin, Mrs. E. Kannon, Mr. Barney T. Smith, Mrs. Barney T. Smith, Mr. Harwell Whitmore, Mr. Witzel Whitmore, Mr. Jay Strong, Mrs. J. B. Lovejoy, Miss Leona McCormick, Mrs. J. E. Hill, Mrs. A. B. Cooksey, Miss Irene Moore, Mr. Ralph Dalton, Mr. A. Dunn, Mr. S. E. Brown.

Junior High School

Mrs. A. B. Cooksey, Mrs. J. H. Ridenour, Mr. H. E. Allen, Mrs. J. A. Arrington, Mr. Glen Brunson, Mrs. Floyd Caywood, Mrs. M. E. Cole, Mrs. Claude Cowden, Mrs. Minnie Cowden, Mrs. J. P. Barber, Mrs. O. C. Bishop, Mr. Claude Crane, Mrs. C. V. Dale, Mrs. B. C. Eidson, Mrs. R. V. Hyatt, Mrs. D. M. Pinnell, Mrs. Porter Rankin, Mrs. J. E. Lucas, Mrs. M. R. Sticker Solution

"HUSED IS THE STILL AND SILENT" "PRICING EARS ARE KEEN TO LISTEN." "MEN WHO ENLIST MAKE NOBLE CHOICE." "SILK LIKE GOLD WILL GUSTEN." "SILENT," "LISTEN," "ENLIST," and "SILK" are the four missing words, all composed of the same letters.

QUIET YOUR NERVES

MRS. Alice Fischer (picture above) says she is "the happiest woman in the world."

"I often used to wish I was dead. Couldn't sleep; couldn't enjoy myself. It seems as though I had tried every nerve medicine made, but without any benefit until I tried Dr. Miles' Efferescent Nerve Tablets. They certainly proved their worth for me. I am the happiest woman in the world and I don't mean maybe."

Mrs. Alice Fischer

If you are Nervous, Sleepless, Cranky, Blue, if you have Nervous Headache, Nervous Indigestion, take Dr. Miles' Efferescent Nerve Tablets.

BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected

membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist. (adv.)

CHRISTIAN SCIENCE CHURCHES

The lesson-sermon subject was "Are Sin, Disease, and Death Real?" in all Churches of Christ, Scientist, Sunday, Oct. 11.

The golden text was from Psalms 67:1, 2: "God be merciful unto us, and bless us; and cause his face to shine upon us; that thy way may be known upon earth, thy saving health among all nations."

The service included the following passages from the Bible: "Art thou not from everlasting, O Lord my God, mine Holy One? we shall not die. Thou art of purer eyes than to behold evil; and canst not look on iniquity."—Habakkuk 1:12, 13.

These citations from the Christian Science textbook, "Science and Health with Key to the Scriptures", by Mary Baker Eddy, were also read (pp. 356, 357).

"God is of purer eyes than to behold evil." There is neither a present nor an eternal partnership between error and Truth, between flesh and Spirit. God is as incapable of producing sin, sickness, and death as He is of excruciating these errors."

JUST POSING

LONDON—Being one of the most photographed women in the world is not easy, declares Sybille Jones, who poses for nearly 500 photographs every year. In addition to irregular hours—her work is just as likely to begin at midnight or at 5 a. m.—she must as a mannequin, wear 40 to 50 dresses a day, and sometimes changes the style of her hair 14 times a day.

An aluminum ladder weighing four ounces recently supported a quarter-ton weight in England.
