# Baruch Is **Favorable** To Senate

Speedy Approval Seen For Truman's Latest Appointee

WASHINGTON, March 19 (AP)-Pleased senators today forecast speedy approval of President Truman's appointment of Bernard M. Baruch - an old friend who has their confidence - as American representative on the United Nations atomic energy commission.

At the same time the president was reported to have sent word that interested legislators are going to be kept fully informed of progress in the attempt to set up international atomic controls.

This question has been worrying some senators who have insisted that the United States must not share the atomic bomb secret until sir-tight methods are found to prevent its secret manufacture by a potential aggressor.

Chairman Connally (D-Tex) said the foreign relations committee will vote tomorrow on the nomination of Baruch, who he said will take "go predisposed views" into his new job

Baruch, 75-year-old park bench statesman, announced in New York yesterday "I will accept." The new assignment added another to the long list which the financier and presidential adviser has undertaken at the behest of marshal the nation's might for two world wars he now is being given Five-Year Plan the government. Having helped world wars, he now is being given a role wherein he can help frame the controls to govern the postwar course of atomic energy developments.

The president's choice of Baruch, an adviser to the late Presi- Upens dent Roosevelt and long-time personal friend of Secretary of State

In his report to directors Monday, L. B. Edwards, chairman of the chamber of commerce civic and beautification committee, said an inspection of school grounds in the city indicates that much work must be accomplished to put them in a presentable condition. The Lions club has indicated that it will assume responsibility for beautification of one school as

an organization project. Edwards also reported that the city has agreed to furnish a tap from a main water line for an extension about five miles south of town in order that water will be available at a roadside park to be established by the state highway

department. Calling attention to what he called "an outstanding need" for yard beautification in the city, Edwards stated that a water shortage for the past two years has caused shrubbery and grass to deteriorate to such an extent that much work will be required to bring it back to former status. As a stimulus to Police today sought for clues that the program he proposed a yard would explain the fatal shooting beautification contest and anof Walter Thomas Fowler of Ama- nounced that a steering committee

# **Believes Stalin Did Not Know**

OTTAWA, March 18 (AP) Prime Minister W. L. Mackenzie King told parliament last night that his government was gravely concerned over Russian espionage acti-vities which he said had extended through the dominion into the US and Britain, but he frowned on the idea of an open break between Canada and Russia.

Voicing his belief that Generalissimo Stalin was ignorant of the espionage activities, King emphasized Canada's desire for "only the best of relations with the

He told parliament that documents seized in the espionage inquiry and accepted by the government as being of undoubted authenticity, "disclose among other things that Canada was being made a base to secure information on matters of very great and grave concern to the United States and also to Great Britain."

The prime minister said further that these documents showed "that information was being sought through agents here with respect to many matters that were of the utmost concern to Canada, the United States and the United Kingdom." He did not elaborate.

King said that operations conducted through the Soviet embassy in Ottawa went back as far as 1943 and 1944 and had created "as serious a situation as has existed in Canada at any time," having

He drew a distinction, however, between the poviet "I know," he said, "or have

who have been closely associated with him in the war, that which not countenance action of this kind on the part of his country." "We in Canada." he said, "want only the best of relations with the USSR, as we do with every other country, and we must not be too ready to judge until we know all the circumstances connected with the particular situation.

Despite this appeal, King made no effort to minimize what he considered the gravity of the case it-

### MULEOWNER MADE **FOURTH VICTIM**

DALLAS, March 19 (A)-Robert Smith, 42, Dallas, had reason . to reflect upon the temperament of mules today as he recovered from lacerations of the face and Smith took a mule to a black-

smith and offered to hold her while the blacksmith did the shoeing. "She's already sent three

blacksmiths to the hospital," he explained. When the blacksmith attempt-

ed to shoe her, the mule reared and pawed Smith, making him her fourth victim.

### Few Gifts Required For Red Cross Goal

A few substantial gifts to the Red Cross fund will carry the campaign over the top, H. D. Norris, roll call chairman, said today, Recent reports from residential canvass work have moved the total to within striking distance of the quota, Norris said, and it is

hoped that the drive can be reported complete to headquarters before the end of the week.

Make This Home Recipe

To Take Off Ugly Fat

It's simple. It's amazing, how bulky fat and help regain slender,

It's simple. It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your druggist and ask for four ounces of liquid Barcentrate (formerly called Barcel Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonsful twice a day. That's all there is to it.

If the very first bottle doesn't show the simple, easy way to lose

# Play Tickets Available At Several Stores

stage play "Kind Lady," a dramaby the Texas Players, may be had at other downtown locations.

Blocks of tickets were moved Tuesday to the Cunningham & Haberdashery. In addition, they are to be had at the Ritz theatre.

The play, a psychological melodrama by Edward Chodorov, is being presented here by the newly formed organization of young Texas dramatists who have completed work in the state's colleges and universities. Their work has been called of top professional calibre. Lawrence Carra, formerly of the University of Texas drama department, directs.

So successful has "Kind Lady" been on a current tour of smaller towns, that it will be staged in the larger Texas cities-Dallas, Houston. Fort Worth and San Antonio -said an announcement this week. The Texas Players started on tour a week ago, have been warmly received in Temple, Wichfia Falls and other places.

### A Vital Message To Men Who Feel Old

Why not regain the vim and vitality you once enjoyed?

If life apparently has lost its sest, you again may be able to enjoy life as you did in your youth. If added years have slowed down your wim, vitality and youthful pleasures, here is a simple method that may change your whole outlook on life. Just ask your druggist for CASELLA stimulating tablets. Take as directed on label. Don't feel old and worn out at 40, 60 or more. Take these tablets regularly until you feel that you have regained the pleasure of living you once enjoyed. Why be discouraged? Why not try CASELLA tablets and regain the verve and zest of a much younger man? There is nothing harmful in these tablets. They contain Celery seed, Thiamin Chloride, Passion Flower, Iron. Ask your sector or druggist about this formule.

cause you know you can always be

certain you will get the same extra

enjoyment from the same individual

Folger Flavor-it is worth waiting for.

So there really is no other choice.

that went into the bombardier school. " With the housing shortage and building complexities being what they are, the moving of these facilities and materials would be waste of the most shameful sort-waste of time and money in addition to the waste of badly needed lumber, etc.

Big Spring is certainly not the only town in need of housing accommodations. But, by the process of war, this town has become the site of a goodly supply of building materials that are needed right here.

It would seem reasonable to suppose that proper government authorities could be convinced of the validity of a request for such a solution to our local problem. It is one way in which we can start, at home, to meet our own situations. And certainly it will be up to us, as a community, to shoulder most of the load.

It is to be hoped that city administrators and others concerned will see fit to accept this committee report, and to pursue its recommendations to the final end.

### Efficiency—Lower Costs

One reduction in home and business expense that will become effective in April for Big Spring and other cities in West Texas is that of electrical service, result of a cut in rates recently announced by the Texas Electric Service company. The company's announcement says that the reduction will amount, for all users throughout its territory, to \$1,142,000 a year. Although the reduction in the individual bill may not seem

It's pretty easy to lambast the "big utility interests" and to accuse them of high-handed methods. But the fact remains that the electric service operating companies have, through the years, proved themselves efficient in technical development, in production and transmission of power and in maintaining good system in business methodsall of which efficiency pays off in lower costs. And the same companies have been satisfactorily consistent in passing on these lowered costs to the users of electricity.

### No Truman Road Folks back in Jackson county,

plants of some of our military Mo., usually are willing to go the planes. In the meantime, Germany, limit for any honor to their na-WASHINGTON, - In the fall Italy, and England, to mention on- tive son, Harry Truman. But a of 1918, the country was swamped by the leaders, had brought out recent proposal to change the name of Van Horn road, an important traffic artery named after an In one wartime month, this early county ploneer, met with a country produced more than 24,- storm of protest. Some of the 000 engines for military planes. In rural citizens balked at stealing January of this year, that same one person's tombstone to honor industry produced on order 23 another.

Van Horn road was named after conventional motors. Strikes pre-conventional motors. Strikes pre-col. R. T. Van Horn, who settled vented production of about 25 of in the county in 1855 when Kansas in the county in 1855 when Kansas City's population was about 455. He became mayor of Kansas City, was active in Missouri politics, and bought the county's first newspaper, later the Kansas City Journal, now defunct.

The move to honor the president was first suggested by a group of Kansas City negroes associated with 15th street political factions. They proposed that 15th street in Kansas City be renamed Truman road. Later Mayor Roger T. Sermon of Independence suggested that Van Horn road, which runs velopment until we fell way be- from the east city limits of Kansas City to Independence through a five-mile inter-city district, also be renamed in honor of the president. The road runs past the Truman home in Independence.

But businessmen along the road

This will account for an estimated half of the expected commercial plane expansion for those two years and there are, of course, still plenty of surplus motors left that can be sold and adapted for commercial use. As a matter of fact, according to industry estimates, War Assets Corporation will have about 72,000 surplus engines (all types) on its hands by June and at least a third of these will be salable.

What happens to the industry in the meantime? (Tomorrow: The Way Out)

# **CHART YOUR COURSE?**

ness-four things which largely control the destiny of any business, whether it be a farm, a factory or a store. They are Wages, Materials Costs, Prices, and Profits. Suppose these were pictures of what is going on in your own affairs. How would you chart your future course from these facts?

Using U.S. Bureau of Labor Statistics with 1941 prices equaling 100, prices of fare machinery in 1945 were only 104.9.

LITTLE CHANGE

### What about wages?

Wages have risen steadily for five years. Before the strike which began on January 21 in ten of our plants and which has choked off nearly all farm machinery production, earnings of employes of these plants averaged \$1.1516 an hour, not including any overtime. The Union demanded a 34 cents per hour increase and a Government board has now recommended a general increase of 18 cents an hour, which would make average earnings \$1.33 1/4 an hour. Weekly average would be \$53.40.

### What about materials?

No one seems to know how high materials costs will go. The Govarnment has increased steel prices as much as \$12.00 a ton, with an average increase for all grades of 8.2%. Steel is the most important material we buy, but prices on other materials are also increasing.

### What about prices?

There has been no general increase in our prices since they were frozen by the Government in early 1942. since then a few small increases have been allowed where particular machines were substantially changed in design.

### What about profits?

Risk is part of the American profit and loss system, so we do not, of sourse, sak either our customers or the Government to guarantee that we can be certain of profits each year. The chart tells the story of our profits during the war. Although Harvester produced more goods than ever before, it had no desire to get rich out of war. so our rate of profit has steadily gone down. What our 1946 profit will be is extremely uncertain.

### What is the next step?

As you can see, our present situation is that with frozen prices and declining profits, we are asked to pay higher materials costs and to make the biggest wage increase in the history of the Company. Can we do this?

Wages and materials consume all but a few cents of every dollar we take in. If our prices continue frozen, and cost of wages and

KANSAS CITY, Mo., March 19 Friday night in the open round of the National Collegiate Athletic association western regional bas-

to the tournament. Giant Bob Kurland led the Ag-

gies to their victory over Kansas here last night, pitching in 28

### Nearing Goal

# How would you

Pictured here are the records of four "life lines" of our busi-

# materials continues to rise, obviously our Company will begin to operate at a loss at some point. The exact point at which operating at a loss would start is a

ating at a loss would start is a matter of judgment. Government agencies and union leaders may have opinions as to where that point is. But if they turn out to be wrong, they can shrug their shoulders and say: "Well, it wasn't my responsibility. I didn't make the decision."

The management of this Company cannot and will not say that. It dares not gamble. It has to be sure. Continuation of our service to millions of customers, the future jobs of thousands of employes, and the safety of the investments of 39,000 stockholders depend on our making as correct as depend on our making as correct a decision as is humanly possible.

### What about future prices on farm machinery?

The judgment of Harvester's management now is that we cannot safely make the huge wage increase recommended by the Government recommended by the Government until the Government authorizes adequate increases in the prices of farm machinery to cover the

of farm machinery to cover the resulting increased costs.

That is not a judgment that makes us happy. The Company does not want to raise prices. We prefer to lower prices, when possible, and we know our customers prefer to have us do that. We have produced at 1942 prices, and hoped we could continue to do so. We have delayed seeking general price relief in the hope that it could be avoided. Now we are convinced that it cannot be avoided any longer. The price question must longer. The price question must be settled. Until it is settled we do not see how we can settle the wage question. Until the wage question is settled we do not see how we can resume production and begin turning out the farm machines which we know our

farmer customers need.

Because of the important stake which both farmers and city dwellers have in this controversy, we are bringing these matters to your attention. Through the cross cur-rents of today's conditions, we are trying to chart a course that is fair to our employes, to our farmer customers, and to our stockholders.

### OFFICERS TEXAS INDUSTRY HOMER R. MITCHELL . . . . . Chairman of the Board

The year 1945 was another record-breaking year for the Texas Employers' Insurance Association, Texas' largest writer of Workmen's Compensation Insurance. Premium Income went over the seven million dollar mark and assets increased nearly half a million dollars to seach an all-time high of \$9,536,746.84.

### 42,439 ACCIDENT CASES

During 1945, 42,439 accidents, 126 of which were death cases, were reported to the Association's 19 district offices in Texas, and in excess of four million dollars was paid out in settlement of workmen's compensation claims.

### DIVIDENDS TO POLICYHOLDERS

After paying policyholders \$1,377,185.34 in dividends and \$457,695.32 in guaranteed cost discounts, the Association closed the year with a surplus of \$2,692,212.50 and a contingent reserve of \$629,000.00, making a total of \$3,321,212.50 for the protection of policyholders.

### LOW OPERATING COSTS

The principal reason the Association is able to pay such subscantial dividends is its low cost of operation. Last year the Association used only 19.8 cents out of each premium dollar for operating expenses, which was less than half that allowed for expenses in the workmen's compensation rates in Texas.

### 19 SERVICE OFFICES

The Association maintains 19 district service offices in Texas for the convenience of policyholders. If you would like to take advantage of the better service facilities and savings offered by Texas' largest writer of Workmen's Compensation Insurance, call or write the district office nearest you.

# Stevenson Cannot Change Bread Law

AUSTIN, March 19. (A) -Gov. Coke Stevenson has said he could not change Texas' restrictions on the size of bread loaves, because such regulations were established by statute and could be altered only by the legislature.

The US Secretary of Agriculture today requested the governors of all states to eliminate restrictions on the size of bread loaves.

State Commissioner of Agriculture J. E. McDonald last week had originated in 1938. For three more pointed out that nothing less than | years the trails were operated bean act of the legislature could per- fore the war forced suspension, mit Texas bakers to follow a sug- and crowds climbed until 1941, gestion of President Truman's when 80,000 people drove over famine emergency committee that woodland roads cut through timthe loaf weight of bread be re- ber. Everything connected with duced 10 per cent.

According to Texas law, a loaf During the war M. A. Davey, Sr., must not vary more than one ounce Palestine oil man, bought land either way from a standard of one over which the routes traverse and pound, one and a half pounds, or any multiple of those weights. McDonald said the Department of Agriculture is charged with en-

forcing the law and has no authority to permit any deviation from Violators are subject to fine of not less than \$25 and not more

### No New Auto Models Planned For 1947

than \$200.

DETROIT, March 19. (P) -The nation's automobile industry, preparing for the biggest production drive in its history, does not plan to take time out this summer for model changes.

Having produced not more than 250,000 passenger automobiles in nearly nine months of reconversion effort it will press for volume during the remainder of the eurrent year with the models already in production.

First of the manufacturers def. initely to announce there would be no 1947 cars this year was the Ford Motor Co. In a statement Sunday, the company said any new models will have to wait until after the first of the year. This announcement is expected to be followed by disclosure of similar plans on the part of other car

### Italian Left-Wing Gains Narrow Lead

ROME, March 19 (AP)-Returns from 311 of 1,083 Italian communes which elected local councilmen last Sunday showed today that left-wing parties had gained a narrow lead over right and cen-

ard county citizens made 54 appli-

cations for adoption papers

During the first year of the war.

but seven adoptions were register-

ed. Since then, however, more and more foster children have found
