So far the Republican party leaders have not been able to see that the vanishing of the meat producing industry is vital to more than the cattle ranges of Texas, and until a militant Democratic leadership is able to bring to the attention of the consuming public that the impoverishment of the American meat consuming public must depend, in the future, upon the Argentine republic, and other foreign nations, for its supply of beef, the Republicam party is likely to pay but little attention to the need of the cattlemen.

Every member of the Texas delegation is at work constantly trying to bring about pressure which might result in some relief to the cattle industry. It is expected that the half dozen or more candidates for the United States senate from Texas are going to say a whole lot about what they will do for the cattle industry. Hudspeth, Lucian W. Parrish, Marvin Jones, Fritz Lanham and John M. Garner, all of them from sections of Texas where the cattle industry is vital have been active from the first roll call of this Congress in this behalf, but the Republican leaders have turned a deaf ear. Once it looked as if there would be instant relief. Just before the departure of Governor W. P. G. Harding, of the Federal Reserve Bank, for his tour of Texas, there was a meeting of the National cabinet. Governor Harding attended it, and

# LITTLE THINGS THAT ADD TO XMAS TABLE

The housewife can indulge in these excursive imaginings,, however, only in the earliest of her preparations for the Christmas dinner, says Country Life in America. Soon she must closely consider the feast which will be suitable to her own household and purse. If she is a wise housewife, she will not make her festive overelaborate, whatever the size of her income. She will want something more than "wine and wafers and a rose," but she will find that, if she puts her own best efforts into the decorations, and caters with a thought for the tastes and fancies and little memories of those she is to serve, she will have a charming dinner whatever the number of its courses.

Much of the pleasure of the Christmas dinner depends upon small things. This is the occasion for the most choice of the jelly and pickles which have been stored up in the summer. Of course, there must be celery and cranberry sauce, and the housewife will, if possible, have some small thing that is new to her household-a little luxury that comes in glass, if the cost must not be heavy, or, if she need not think of that, some far-fetched dainty with the international interest of coming from Japan or from the Philippines.

Dessert allows ample opportunity for some pleasures and surprises. One can hardly believe a child's happiness complete without raisins and almonds to eat in tiny sandwiches and as philopenas. One always hopes to see the old-fashioned kinds of candy at Christmas-striped sticks and clear sticks, and barley sugar, chocolate creams, and gum-drops. ### DIZZINESS IS ANNOYING

As Many Midland People Know Too Well

When the kidneys are weak or dis-ordering, they fall behind in filtering the blood of poisons. As these pois-ons attack the nerves, the result is felt in spells of vertigo, just as drunk enness will 'make a man dizzy from the poisoning of alcohol. Dizziness, headache, backache and irregularity of the kidney secretions are all signs of weak or disordered kidneys and should not be neglected. Mrs. J. H. Shepherd, Baird St., says: "Quite a few years ago I had occasion to use Doan's Kidney Pills. I had a great deal of trouble with my kidneys and back. At times my back would feel so sore and lame, the least work would be drudgery. I would have headaches and on stooping over, I would get so dizzy everything in front of me would turn black.
