# Second Producer in New Ector County Field Flowing

# WELL ATTRACTING **MUCH ATTENTION**

Test of the Well Is Expected This Afternoon

Starting to flow at 10 o'clock this morning, Stanolind Oil and Gas company's No. 1 Elliott F. Cowden, Ector county test in section 26, block 43, township 2 south, had become the center of West Texas oil interest and was attracting great crowds to the location, five miles west of Odessa. Oil and gas started showing

Thursday, the gas showing through the drilling fluid when swabbing was resumed at 1,400 feet and oil when the column had been lowered 2,200 feet.

Test of the well was expected to be made this afternoon. The Midland office of Stanolind had no definite information to report as to amount of flows made this morn-

Stanolind No. 1 Cowden is 1,320 feet from the west line and 330 from the south line of section 26 and is a north offset to L. C. Harrison et al. No. 1 Addis, the discovery well in Ector county's latest and third pool, about five miles west of Odessa.

The well had its best saturated

lime from 3,920 to 3,930 feet, but cores recovered at various intervals from as high as 3,820 feet contained oil showings.

In the northern part of Ector county Landreth Production company and the Texas Company No. 1 Holt, 2,025 feet from the east line and 660 from the south line of sec-tion 16, block 43, township 1 north, T. & P. Railway survey, is temporarily delayed at 1,495 feet, where casing was being set Thursday. The test is not due to reach the anhydrite series above 1,600 feet.

Tentative location has been made by Jack Loffland et al. for a test in the Tubbs area of Crane county,

tion company assigned the north half of section 9, Pure contributed the southwest quarter of section 2 and Continental the southeast quarter of section 2 for the test.

Cranfill & Reynolds and Gulf No. 1 | buster. Tubbs, which flowed heavily for a brief period at 4,301 feet, but failed the president's permission for reto encounter material increase in value of the gold dollar. drilling to 5,336 feet. No. 1 Tubbs was one of the first wells in the Permian basin to produce oil from below the first sulphur water hor-

# **TODAY LAST DATE** FOR QUALIFYING

This afternoon is the last time for qualifying for the Kat Klaw Golf league posted at country club, officials warned at noon

officials warned at noom
Only 13 qualifying scores have
been registered with officials, these
scores do not nearly reflect the
real strength of the B class. It
is hoped that all B golfers will turn
out this afternoon and turn in
qualifying scores over the 18-hole
route. Big Spring will be met at
the scenic city Sunday and the
best golfers will be needed.
The lowest score turned in is
that of Harry Adams, a 79, M. D.
Johnson's 81 is second.
The complete list as placed on the
ladder by Secretary James P. Harrison Thursday follows:
Harry Adams 79, M. D. Johnson
81, A. Wadley 89, Bill Simpson 90,
James P. Harrison 90, Felix Stonehocker 91, Pat Riley 91, R. C.
Hankins 93, C. A. Mix 94, C. N.
Swanson 94, Harvey Hardison 97,
E. Russell Lloyd 100, Jim Tuttle
105.

## Winters Cattleman A Business Visitor

Jack Wilkinson of Winters was a business visitor here today. He has just sold the last of 140 head of steer calves which he fed out for a period of 200 days. The cattle were weighed up at Abilene, average ing 1.010 pounds, and were shipped to Los Angeles markets. Wilkinson bought the calves from Bud Rat-

The Upsurge NEW YORK, Apr. 21, (UP).-

Stocks and commodities recovered from early profit taking and spurted upward again today. The most active bond turnover in three years was registered. Home-

stake mining reached a record high; railroads climbed one to four points and seventeen of twenty were at tops for the year.

Cotton climbed back a dollar a bale and grain climbed after a profit taking slump.

# TREMENDOUS BUYING REFLECTED THURSDAY

NEW YORK, April, 21.—Tumultuous buying swept through the financial markets vesterday carrying the general level of share values to new highs for 1933, in the most frenzled trading experienced in the stock exchange in nearly three years.

Commodities also swept forward along a broad front, and although headlong advance in both shares and staples was interrupted by heavy profit taking sales, billions were added to quoted values.

Funds even came from abroad, as speculators recalled that stocks in London went up relatively more sharply when England suspended gold payments in 1931, than the pound went down. Buying of dollars by foreign speculators to make purchases in American markets finally began to support the American currency, and it recovered substantially from its lowest levels of the day.

The ansurge in the stock ex-NEW YORK, April, 21 .- Tumul-

## ROOSEVELT LEADS THE WORLD

Most Americans, probably, get a thrill of pride out of the fact that their president is trying to lead the whole world back to prosperity. To have an American president inviting the rulers of nearly a score of nations to confer with him and with each other about ways of restoring good times, to know that the hopes of the world once with your work," he replied. more are centered about the White House-all of this is very gratifying to our self-esteem.

What we don't so quickly recognize is the fact that a very heavy weight of responsibility rests upon us, as individual citizens, in connection with this venture.

It is hardly going too far to say that one of the biggest obstacles in President Roosevelt's way as he moves toward this world economic conference, is made up of the prejudices, the misconceptions and the mistaken judg- In spite of the Income cut in two, In spite of the Stock that fails to ments of his own fellow citizens.

You can't get any where with a conference of this kind without being ready to make some sacrifices yourself. That goes without saying. But there has developed in this country since the war an iron-headed obstinacy In spite of the Gang and Racketquick to assert that we can make no concessions, that the Hell-fire whiskey and weak-kneed other side must do all the sacrificing and that we need not and must not relax any of our old creeds.

This finds expression in various ways. For example: There must be no cancellation of any part of the war

We must not make any agreement under which we shall-buy any goods of foreign manufacture. We cannot bind ourselves to co-operate with Euro-

pean nations for more than two weeks at a time. All American diplomats are helpless and innocent babes and all European diplomats are cunning and con- In spite of the wheat we've stored scienceless schemers, so that Uncle Sam is bound to lose

his shirt every time he sits in on international conference. Those are some of the most widely held planks in the In spite of the Hell we're passing platform on which some of us have been standing for a good many years. And if this world conference is to amount to anything at all, those are planks which we must It may be hard, but we'll find a night put on the blue coat and the God's People. be prepared to discard.

## HEALTH AND DEPRESSION

If you doubt that the scanty fare and poor living con- In spite of all the bombastic ditions caused by extreme poverty have undermined the health of poverty's victims, you might ponder over remarks made by Col. James P. Barney of the U.S. army after he had inspected the first group of 320 Conservation Corps recruits at Fort Knox, Ky.

Looking over the under-fed young chaps in the de tachment, Colonel Barney brooded:

They tell me I've got a couple of weeks to train these boys before they're assigned to some forest project, but two weeks isn't enough. It ought to be at least a month can't get one-tenth of the satisfac- etc, that after he was in bed and before they are fed enough and get their muscles used to

That blunt comment speaks volumes about the price which young bodies have been paying for the depression.

Mexico City says the first highway through from the Texas border will be completely rainproofed before the Mexican rains begin in June. The road will still be narrow, rough and hazardous in places, but a good motorist can negotiate it, and it is the certain promise of a better era ahead-when a run to Mexico City and an understanding of the Mexican people will be commonplaces among traveling Americans.

Californians have their own cool way of speaking of earthquakes such as the one that recently visited the Les Angeles area: nobody would have missed it for a million dollars-or give a nickel to go through another.

The up-to-the-minute small town can now be told at a glance by passing motorists. It is the one with the new Main Street hitching racks and watering trough.

"Is it my fault your life is monotonous? Can I help it that we're living in an unromantic age?"

A woman tiptoed into her hus-

observation, I have come to the conclusion that any woman who thinks she is becomingly dressed for an occasion is at least three-fourths hap jor, over his eyes and said, "Guess who disgusted with himself.

"Stop that foolishness and get on Men hate to dress for parties, dinners, weddings, funerals, and trips away from home, the very occasions that given women no greater pleasure than that of dressing. Time and again I have seen the principal purpose of an occasion most effectively smothered by the assembling of a In spite of the Hell we're passing wardrobe for it.

I am not saying, nor trying to intimate, that women are ridicullously unbalanced about appearances, as far as clothes control the appear ances. My second judgment leads me to suspect that the unbalance In spite of the Dividends gone of men is just as great. What I wish to protest against is the astounding and awkward divergence of emphasis on personal adornment between brother and sister human be-

It seems it should not have been difficult to arrange for a more equal distribution. Think how many pett squabbles at home and abroad could have been avoided. Think how many otherwise happy wives could have In spite of the Banks and Foreign been spared the agony of seeing hubby gloriously arrayed in a blue Frozen as hard as the Arctic shirt, green tie, tan suit, and purple

Several years ago I ran across a case that shows how awful a situation may arise. A husband had inadvertently purchased two suits of pajamas of identical material, model, and design; but the conservative little figure in one suit was blue There's still a fight in me and while in the other it was green. green trousers, or vice versa, and 7 p. actually slept in the excruciating school. It's bound to help if we grin and disharmony for the better part of week or longer.

When the truth finally came to Russians Try High junk From this and that pea-brained light, as truth will do, his wife wellnigh collapsed. Believe her, it was the most terrible holocaust their home had ever suffered, and she mourned loud and long for weeks. I can still get business in the Even today the memory oppresses her like a complex.

Disbelieve it or not, there's something missing in us men. We can buy clothes and wear them, but we can't get one-tenth of the satisfactive feet, that after he was in bed and the satisfactive feet, the satisfactive feet was a satisfactive feet, the satisfactive feet was a satisfactive feet, the satisfactive feet was a satisfactive feet which in the satisfactive feet was a satisfactive feet w buy clothes and wear them, but we with his distressing masculine naivtion from them our sister human covered up and the light out, the warfare between the blue and the green figures died down so he hard-

After 20 or 25 years of very close ly noticed it.

# 20 COCICTUM

Two Advanced Students of Wallace Wimberly Are Presented in Recital

A very artistic and beautifully rendered program was presented Thursday night at the high school auditorium by Anna Beth Bedford and Mary Beth Scruggs, piano students of Wallace Wimberly. The first number, Concerte Polonaise by Engelmann was given by Anna Beth Bedford. Her interpretation was very clear, very sure and

accurate and showed intellectual study. Mary Beth Scruggs then gave Quartet from "Rigoletto" by Verdi-Spindler. This was beautifully fingered and very expressively toned. Anna Beth gave Preludes Opus 28 by Chopin, Andantino in A Ma-Delicious Recollections Float py. I have also arrived at the cor- Like Perfume Through the Memollary conclusion that any man who ory," Molto Agitato in G. Minor band's office, clapped her hands suspects he is properly and fittingly "Revolution," all so different in inclothed is ill at ease, if not actually terpretation and yet so beautifully

> Mary Beth's expression was also very lovely in the contrasting Large C Minor, "A Funeral Procession" and Dostenuto-D Flat Major, "Rain-

drops. Anna Beth's reading of the Highwayman was unusually good. Her training is shown by her naturalness, poise, and clear resounding voice. Her rendition of Valse on A Major by Levitzski was lovely, airy and light

Mary Beth gave Echoes of Spring by Friml with much feeling. The climax of the evening Grande Valse Caprice by Engelmann. This was brilliant and inspiring. When one realizes the age

of the students, both in grammar school, they marvel at the intellec-tual study, technique and interpretation of such a difficult program. Conscientious work was shown by both the students and their teach er. They are all to be congratulated

# **TODAY'S RECIPE**

Cookie Torte

3 egg whites 1 cup granulated sugar tsp. vanilla

2 tsps. vinegar 2-3 cup crumbled butter cookies.

Beat egg whites until they stand up in peaks. Add sugar slowly, two tablespoons at a time. Add vanilla and vinegar and fold in crumbled cookies. Turn into buttered, loose bottomed cake pan and bake in a slow oven (300° F.) 50-60 minutes. Serve covered with canned fruit or

whipped cream. A German recipe easily adapted to seasonal fruits when they are in the market.

# Biologist Derides Birth Control Idea

NOTRE DAME, Ind. (UP)—The call for "fewer and better babies," by birth control advocates was derided by Dr. Regidiues Kaczmarek, Notre Dame university biologist, in

Notre Dame university blologist, in an address here.

"To cringe at the word 'reproduction' is prudery of the highest type," he said.

"Nothing gives as much happiness, health and longevity to a married woman as the bringing forth of children. Life is a rhythmical cycle and reproduction is the phase of it," he declared.

Men, women and children still use stilts daily to walk over the large areas of sandy marshlands.

Mr. Boch

Karl Schlemmer, duly certified ship's captain, is the only living person who knows where \$3,000,-000 in gold lies beneath the sea. Schlemmer receives financing from a woman, and with a deep sea diver. Steve McCreary, he gets a shpi and goes to hunt the sunken gold. The ship runs into a storm and McCreary and Schlemmer are the only true to escape in a shpi and goes to hunt the sunken gold. The ship runs into a storm and McCreary and Schlemmer are the only two to escape in a dory. During their aimless drifting, McCreary acquires one-half of the treasure chart. They are finally picked up by a passing ship. Three years later Schlemmer and McCreary are employed aboard a scientific expedition ship.

CHAPTER THREE

Before an audience of interested listeners, Dr. Chapman was lecturing on his anticipated trip into tropical waters to collect specimens. He illustrated his talk with a technicolor film of marine life.

said. "I wish you could be with us when we go down in our diving bell and see the world of color and beauty at the bottom of the sea. No words can adequately describe, no camera can truly record, the delicate blue green of the fish—the pink and orange, and lapis lazuli of the coral—the sea flowers, unearth, we resplendent, like some rare, under the sea flowers, unearth, we resplendent, like some rare, under the sea flowers, unearth, we will be thing. Schlemmer—gettin' rid of you."

The Captain was surprised. "Huh? What do you mean?"

"You know what I mean. There ain't enough money in the world to pay me for travelin' around with you much longer."

"What kind of talk is this between ly, resplendent, like some rare, un-known orchids. The incredible crea-tures of the sea are endless in their variety of form and color. Trichovariety of form and color. Trichocorixa reticulata—uca mordax, tamoya haplooema, phallinia nigra,
crustacea and aultera—that's how
they're tagged in our scientific reports. But here in the unreal world
of the sea bottom they are sunsets time—"
Straight talk. And you feel the
same way about it, only you haven't
got the guts to come out with it."
Steve leaned across the table in a
definite attitude of menace. "Now,
get this! There's a good chance
we'll pull up that chest of gold this crustacea and aultera—that's how they're tagged in our scientific reports. But here in the unreal world of the sea bottom they are sunsets with films and floating rainbows. And if variety is the spice of life, then the realm of Neptune is the spiciest place in the world. But there is more than beauty at the bottom of the sea—there is terro—as, for instance, our 'friend of the genus dibrachiate cephelopa, otherwise known as the octupus. This one is a comparatively small specimen. Members of the cuttlefish family, notably the giant squid, have been known to reach the vast bulk or ninety tons—as large as a whale—and I promise you that this time we'll bring back at least a picture of this monster of the deep.

"The film you have just seen gives you an idea of some of the results of our last expedition. We hope this time to bring back a far richer haul of the treasures to be found at the bottom of the sea. And now, I want you gentlemen of the press to know how fortunate we are in having secured, as captain of our ship, a skipper who has sailed the seven seas—a man so interested in the purpose of this journey that he actually offered his services gratis—and that is why we picked him from among the many applicants. I want you all to meet Captain Karl Schemmer."

There was applause as Schlemmer arose, bowed, and smiled.

"Denk you. I haff told the doctor about certain waters off the Bahamas where we can get vonderful specimens. But the best thing I haff been able to do for the expeditions so far is to get the services of a man—a personal friend of mime who will mean a great deal to the success of this trip, Mr. Stephen who vill mean a great deal to the success of this trip, Mr. Stephen who vill mean a great deal to the success of this trip, Mr. Stephen who vill mean a great deal to the success of this trip, the proposed and bowed. "Till never be able to get much better specimens at dat place." The propose and bowed. "Till never be able to get much better specimens at dat place." The propose and bowed. "Till never be ab

Amid applause, McCreary arose and bowed. "I'll never be able to get the hang of those tricowhatsis relicwhoosis that Dr. Chapman reeled off on us a while ago, but whatever they are, if they'll point them out I'll get 'em up.'

"Good heavens, man—what's all the rush about? We're not racing anybody, are we?"

"No, no. I'm sorry, Doctor. Excuse me," the Captain said hastily.

McCreary had overheard part of the conversation. "Karl—" he called (See BELOW THE SEA, page 4)

9:00 to 12 m. n.-Street dance.

Tides are caused by the attraction of the moon's gravity. As the earth turns around, the moon attracts the water in the ocean and raises bulge in it. This bulge is the tide.

# "HAD CONSTIPATION SINCE BIRTH OF MY FIRST CHILD

Then Mrs. King Discovered ALL-BRAN

We quote from her voluntary

"I have suffered from terrible constipation since the birth of my first child—9 years ago! I have tried everything and nothing had any lasting results. Very reluctantly I tried your 'ALL-BRAN' with no faith in it at all. Much to my surprise, I have not had to take any medicine since starting to use ALL-BRAN, 4 months ago."—Mrs. Doris Eyre King, 16 Abbey Road, Oxford, England.

Laboratory tests show ALL-BRAN contains two things which over-come constipation: "Bulk" to ex-ercise the intestines; vitamin B to help tone the intestinal tract.

The "bulk" in ALL-BRAN is much like that of leafy vegetables. Inside the body, it forms a soft mass, which gently clears the intestines

Certainly this is more natural often harmful. Two tablespoonfuls daily are usually sufficient. If not relieved this way, see your doctor.

ALL-BRAN also supplies iron for the blood. At all grocers. In the red-and-green package. Made by Kellogg in Battle Creek.

# Brought to Screen -Outstanding Film

The story of "Twenty Thousand Years in Sing Sing," a First National picture which comes to the Ritz theatre on Sunday and Monday with preview Saturday night was hailed by many crities as a sensational human document when it appeared in book form. It is said to have gained in sheer thrilling intensity in its dramatization for the

Inave gained in sheer thrilling intensity in its dramatization for the screen, as it presents the amazing story of a 1000 men without women and 1000 women without their men. Paradoxical as it may seem there are touches of humor, glowing romance and undying love in this story which deals with the pathos and the grim tragedy of life. There are sorrows that brings tears to the eyes, and touches of loyalty that renews the faith in human nature, even when considered misguided.

Spencer Tracy, who has portrayed the grimness of prison tragedy in "The Last Mile" and its touches of comedy in "Up The River," portrays the leading role of a convict who goes to the chair to save his sweetheart and to protect the warden which includes Bette Davis. Arthur Byron, Lyle Talbot, Grant Mitchell, Warren Hymer, Louis Calhern and Sheila Terry. The screen play was dramatized from Warden Lawes book by Wilson Mizner and Brown Holmes and adapted by Courtney Terret and Robert Lord. It was directed by Michael Curtiz.

And Chapter No. 4 "Lost Special"

# **TOURISTS SPEND** \$180,000 A YEAR WITH MIDLAND

AUSTIN, April 21.-Midland county's state highway brings \$180,-000 a year extra in pusiness to the the Texas Good Roads association has estimated from a survey of the state's last official traffic cen-

This business, the survey points out, does not include "natural" trade from local cars or those of adjoining counties, which obvious would increase with improved

roads. State checkers, from four days actual count, found the average daily traffic to be 1,000 motor cars

on Highway 1. Motor traffic in Texas is divided, the experts have found, in two almost equal classes. Roughly, half are local cars or from adjoining counties. The other half are from beyond the state, or from Texas points at least two counties distant The latter are genuine tourists.
"On this basis, some 500 outside

cars cross Midland county each day," the association's survey said, scattering their good American dollars among the restaurants, hotels, tourist camps, hot dog stands, garages, filling stations and stores along the important highways.

"If they spend as little as \$1 per vehicle within the borders of the county, then Midland county's road means \$15,000 in added business per month, or \$180,000 a year, exclusive of the convenience and saving jo her own 8,000 people, who operate

some 1500 cars themselves." without turning, and the Captain came over to him. "You pig-headed fool!" McCreary exclaimed in a low but vicious intonation. "Why don't you tell him what you're after an be done with it?"

Schlemmer was furious. "Dot verruckto esel drives me nuts mit his drifting along like this."

"You've got ants in your pants. What difference does it whether we get there now, or nouth from now??"

Colorado, Odessa, Pecos and Wink, and some towns had more than one session; Sweetwater and Big Spring as, was designed to show imports of roads to each community, thus arouse public opinion aga any further diversion of gas money, which would cripple highway program.

Williamson has received a letter from J. P. Fitch, regional scout executive, asking him to be in charge The survey, conducted by the as sociation for every county in Texas, was designed to show importance of roads to each community, and thus arouse public opinion against any further diversion of gas tax

# **TECH COACHING**

LUBBOCK.—Texas Tech's coachng school for the coming summer may eclipse in attendance and in portance the largely attended school held last summer, according to Head Coach Pete Cawthon. The dates are

July 31 to August 12.

The 1932 school had an enrollment of 473, and boasted such nationally known athletic coaches and authorities as "Pop" Warner, Hunk Anderson, Frank Carideo, Clipper Smith, Clyde Littlefield, "Phog" Al-len, and Claude Thornhill. Yet for

We've got him

back for you!

Stale perspiration curds, cause of body odor, reached by deep-pore cleansing, instantly removed!

TOEND

Chemists of an important research group now give you a new and positive way to end body odor. Millions have eagerly adopted it. Every specialist knows that objectionable body odor does not come from fresh perspiration but from stale perspiration deep in the pores. Stale perspiration contains calcium, salt and particles of fat. The thick and sticky lather of most ordinary toilet soaps is unsuited chemically to mix with this waste material and disperse it. Instead, it hardens into clogging curds!

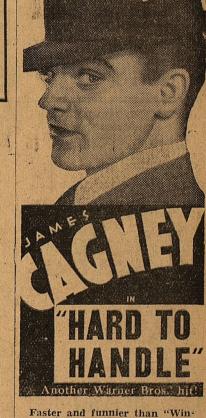

That's why deep-pore cleansing is needed to remove the objectionable curds-and it is a scientific fact that there is only one way to accomplish this. Kirk's Coco Castile-being a 100% pure vegetable oil soap -mixes with the particles of perspiration curds, loosens them, then rinses out completely. Thus it ends the cause of body odor instantly. Ordinary toilet soaps-even though

laden with offensive M.S. (medicine smell)—can merely hide the body odor; they cannot end it.

Try Kirk's Coco Castile today. Feel the invigorating effect of its deep-pore cleansing action. Experience the thrill of a clean, odorless body. The cake is half again larger, half again heavier than average toilet soaps-an exceptional bargain. It is a product of the largest soap makers in America. For safety's sake, be sure to ask for Kirk's by name.
