FEAR MISSING MEN MURDERED

Backers Propose Furnishing Mattern a New Airplane

MESSAGE FROM MOSCOW TELLS OF PRIVATIONS

Rifle Saved Angelo Airmen When He Needed Food

CHICAGO, July 10. (UP)—The backers of Jimmy Mattern, Texas round the world flyer who is stranded at Anadir, Siberia, were planning today to provide him a new plane in which to continue his trip and be the first aviator to circle the globe alone.

In the mean time a party of New Yorkers planned to leave for Juneau, Alaska, in a plane to bring Mattern home.

Advices from Moscow said the plane was wrecked beyond repair and told of long wandering in the wilderness in which a rifle given Mattern by Russians at Khabarovsk when he took off for Nome saved the Texan's life. He shot birds and roamed them over a fire, living on them for three weeks in the frozen country along the Anadir river. He finally was rescued by coast guardsmen moving up the river from the Siberian coast.

Mrs. Joe M. Haygood Undergoes Operation

Mrs. Joe M. Haygood underwent a major operation at King's Daughters hospital at Temple Wednesday morning and is improving steadily, according to a letter received by friends here.

Mr. and Mrs. Haygood and son left Midland Saturday, July 1, for a visit with friends at Fort Worth, where they were advised to go to Temple as soon as possible.

Funeral Services for Mexican Child Today

Funeral services were held at St. Ann's Catholic church this morning for Katherine Regalado, 10-year-old daughter of Dimingo and Concha Regalado, who died Sunday at 10 o'clock after a lingering illness.

She is survived by her parents and three brothers and sisters.

Hunt Planned for Orient Panther

The residents of Orient who sought refuge from the heat Friday afternoon in the comforts of sleep, found the screams of a drouth-stricken panther an alarm clock that sent some after guns and some further under the cover of their beds. Its screams lasted for more than an hour and aroused the whole community.

It was this visitor, the first seen in the section in many years that gave out intermittent screams like cries of a woman in distress. Elmer Allen, who first saw the animal, had nothing more than a pocket knife and when the panther showed a disposition to fight he retreated.

Outlaw Horses to Mertzon Rodeo-Show

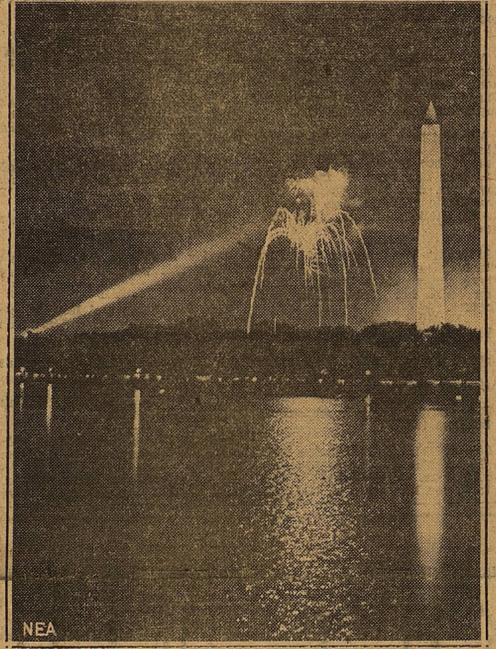

MERTZON—Two of the most famous collections of outlaw animals in West Texas, the Eldorado string of bad horses under the management of Don McCormick and Gaston Brock's group of unmanageable Brahma steers will make the rodeo to be held at the park here Friday, July 14, one of the most brilliant in the state. In addition to bronco riding, steer riding, there will be cat roping, wild cow milking, and goat roping, and a baseball game, it is announced by W. B. Burke, general chairman of the rodeo, and R. M. Lasater, secretary. A free barbecue will be served under the shade of the liveoaks, from 11:30 to 12:30 at noon. There will be a dance on Thursday and Friday nights, admission \$1.50. The admission to the grounds will be 75 cents to the rodeo with children 7 to 14 admitted for 25 cents.

Temperature Climbs To Higher Reading

Maximum temperature in Midland Sunday reached 94 degrees, army meteorologists at Sloan field said today. Minimum reading for the day was 68 degrees.

Work on West Segment of Highway Will Be Ordered

Capital Observes Fourth

Cool (70 degrees)—quiet (no parades) but far from colorless, was the Fourth of July celebration at the nation's capital. This was the picturesque scene during the brilliant display of fireworks near Washington monument.

39 MASONS GO TO CASTLE GAP FOR CEREMONY

Thirty-nine Midland Masons were in the assembly of nearly 600 that gathered Friday night as guests of the Crane lodge at the fourth annual outdoor ceremony on Mystic mountain, in the Castle Gap range.

Rep. R. E. Thomason of El Paso was one of the principal speakers. He and "Deacon" J. H. Williams of Midland renewed acquaintance that began in boyhood. A. W. Whitaker of El Paso was another speaker.

Degree work was given by the three masters of El Paso lodges. A great barbecue was served by the Crane lodge, assisted by the mother lodge at McCamey.

So famous has this annual event become that the Folgers Coffee company, after having found out the Crane lodge had paid for a large order of its coffee, refunded the money, and the McCleary ranch furnished the beef, with merchants of Crane and McCamey supplying a great part of the other food.

Bread Price Hike Draws Attention

Rising bread prices resulted today in the hike of wheat prices and the imposition of the government's processing tax, it was reported throughout the nation. The average retail increase was two cents per pound.

Attorney General Cummings warned the department of justice to investigate with a view to prosecuting cases if there are conspiracies to boost bread prices above normal levels, it conditions warrant.

PATIENTS IMPROVE

Most of Midland hospital cases were reported improved today. Misses Dorris Harrison and Louise Wolcott, who recently underwent appendicitis operations, are improving steadily. Mrs. Wilson underwent an appendix operation Sunday and is resting well.

MIDLAND TENNIS CLUB IS WINNER OVER ODESSANS

Players from the City of Midland Tennis association defeated Odessa four matches to two at Odessa Sunday.

Louis Levinson, No. 1 man of the Midland club, defeated Turner, the Odessa No. 1 man, 16-14, 1-6, 6-3. The first set was the most strongly contested of the season.

Midland's No. 2 man, Kenneth Johnson, lost to Dr. Woods of Odessa, 7-5, 6-3.

James Walton of Midland, playing as No. 2 man, defeated Frame of Odessa, 6-8, 6-1, 6-2.

Wills of Midland, playing as No. 4, won from Corder, 6-3, 6-4.

NEW SCORING SYSTEM FOR LEAGUE ADOPTED

Method of scoring tennis play in the new eight-member league association has been adopted, according to Theo Ferguson, Midland captain, and Dr. Woods of Crane.

No. 1 and 2 players are accredited with four points, No. 3 and 4 with three points. In doubles, the same plan works, the first rank doubles team being rated at four points, the second of three. This serves as a handicap for the low ranking players, giving them more chance in case a No. 3 or 4 man plays a No. 1 or 2 man in the finals, and makes lower men work harder to advance on the ladder.

May Have First 1933 Cotton Bale

BIG SPRING—W. L. Burns, farming on the Bug place two miles northwest of here, believes he will gin the first bale of cotton here this season.

TEXTILE CODE GIVEN OKEH BY FDR TODAY

Will Aid Unemployment and Set Work Week

WASHINGTON, July 10. (UP)—The cotton textile code, effective July 17, the first from a major industry under the recovery act, was approved by President Roosevelt today.

It provides a forty hour maximum work week and is calculated to bring employment to 527,000 persons, with minimum wages of \$12 in the south and \$15 in the north, an average increase of thirty per cent. The code forbids employment of children under sixteen and limits operation of machines to eighty hours a week to prevent over production.

Allen Holder Does Well on Horse He Bought from Floyd

Allen Holder, Rankin roper, is celebrating his fortieth year, and his eighteenth in rodeo competition by winning more money in the last six weeks. He gives credit to his new horse, seven-year-old animal he bought from B. W. Floyd of Midland. The new mount lacks the attractiveness of his old Con Dog, a dun horse known all over the southwest, a death victim after a cut received in an accident. He rode Con Dog six years.

Holder is one of the big time ropers—he trains in the western rodeos in the summer and then in the fall makes Boston, Chicago, Cleveland, New York and other points. The cowhands make money in the big rodeos, he said, with Jake McClure perhaps cleaning up around \$4000 net last year. In addition to Holder other cowboys to go to the northern rodeos will be Carl Wolf, arena director of Junction, the town that produces the tallest men in the state; Bob Crosby of Abilene, Elmer Bennett, Jake McClure, Howard Westfall, Homer Wood.

Purses in the rodeos of the southwest this year are somewhat lighter than in previous years but they have not been dropped in the Rankin section as in other parts. Prescott, Arizona cut purses deep. Holder did well in recent competition in Tucson, Arizona, and after making \$1000 there he dropped in the Rankin section as in other parts.

Holder thinks the best bronc rider in the world is Pete Knight of Calgary, Canada; though Buster Brown of Houston is a top worker.

The best ropers seem to come from this country. "The trouble with most ropers," he says, "is they are afoot and don't know it."

Miss Graves Named To Postal Office

Miss Elma Graves was elected to a second vice presidency of the National Association of Postal Supervisors, in a meeting of the association at Dallas last week.

Already chairman of the auditing committee, member of the executive board, her election to office marks much progress since she joined the association three years ago.

There are 300 members of the association in Texas. A picture of Miss Graves, taken with Silliam Evans, assistant attorney general, appeared in the home edition of The Dallas News.

Late News

HOUSTON, July 10. (UP)—Thomas Barton, former adjutant general for Texas, was sworn in today as prohibition administrator for the new Texas-Louisiana district.

NORTH HAVEN, Me., July 10. (UP)—Col. and Mrs. Charles A. Lindeberg, blasting a new air trail from New York to Greenland, landed here today to visit their eleven months old son before continuing to Halifax, the next stop.

HOUSTON, July 10. (UP)—Capt. J. F. Lucey of Dallas was elected chairman of a meeting here today to organize a Texas petroleum council to aid the state in regulating the industry.

LONDON, July 10. (UP)—James M. Cox today was made chairman of a committee appointed to draft an agenda to meet the wishes of gold and non-gold standard countries at the economic conference.

AUSTIN, July 10. (UP)—Employment in Texas for June increased considerably, according to the bureau of business research of Texas university. The figures showed a gain over the preceding month and the same month in 1932.

TWO INJURED AS CAR TURNS OVER, WRECKS

Seriously Injured Sunday Afternoon When a Tire Blew out and a Car in Which they were riding overturned.

Virgil C. Ray of Midland, and J. A. Sacre of El Paso are suffering from chest and pelvic bone injuries in a Midland hospital. Another man, Ed Ardoin of El Paso, escaped with minor bruises.

Both Ray and Sacre are believed to have sustained serious internal injuries. Ray has head cuts, a closed right eye and numerous cuts and bruises over his body.

Mrs. Sacre arrived in Midland early today to watch at the bedside of her husband.

Ray, who buys and sells cattle on a commission basis, and the El Paso men, who are associated with a packing establishment, were driving north of Odessa. The El Paso men were sleeping, according to a report, when the tire blew out, awakening just as Ray used his brakes in an effort to keep the car on the road. The machine rolled over, throwing the occupants out, Sacre going through the top.

Ardoin has returned to El Paso.

Poor Visibility Holds up Armada

REYKJAVIK, July 10. (UP)—The Italian air armada flying to the world's fair at Chicago, was delayed here again today by bad weather.

An early morning takeoff of the Italian air armada flying to the world's fair at Chicago, was delayed here again today by bad weather.

General Balbo, commander of the Crocero has ordered two submarines and the auxiliary ships stationed along the Atlantic to be ready for the takeoff of the seaplane squadron. If the weather does not change suddenly, the seaplanes will leave Reykjavik early in the morning for the longest and most difficult leg of their westward flight.

West Texas Burros In Eastern Polo

SONORA—"Miss Sonora," a young lady of the long-eared tribe native to these western parts, will represent this city in a series of polo matches played at Chicago, New York, St. Louis and other cities of the East and Middle-west during the summer.

A group of American Legionnaires, headed by C. C. Swancey of Gorman, is collecting a score or more of West Texas burros to take to the World's fair for a series of polo matches, also showing them in other cities.

Mr. Swancey, accompanied by G. H. S. Cozzy, DeLeon, was in Sonora recently making arrangements for the use of a burro owned by F. M. Faulkner.

"She" will be exhibited through the east under a blanket bearing the name of the home town, together with the slogan, "Capital of the Ranchman's Paradise." The word stockman was changed to ranchman in the slogan in order that the easterners would not confuse the West Texas style of stockman with the Wall Street variety.

Classes Held for Jobless Persons

LUFKIN, Tex. (UP)—When jobs do come into being for the unemployed, Lufkin they will find plenty of skill waiting to be applied to them.

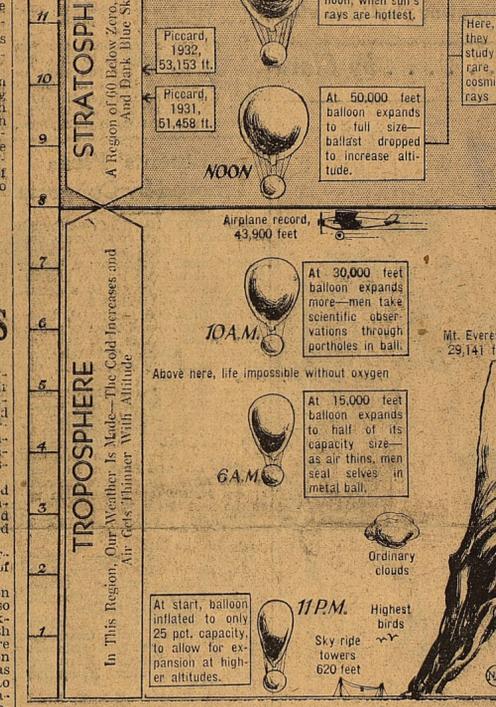

Under the supervision of Supt. I. A. Costan classes for jobless persons are being conducted at the Lufkin high school.

Among subjects taught are typing and shorthand, machine shop mathematics, blueprint reading, elementary drawing, automobile mechanics, and beauty parlor work.

Mapping Picard-Settle Flight

ABOVE THE STRATOSPHERE, which extends to about 20 miles up, is the great void, never penetrated except by unmanned weather balloons carrying instruments to about 22 1/2 miles.

As altitude increases, temperature again goes up and at 25 miles it approximates that of ground level, while at 35 miles it is believed to reach 212 degrees, the boiling point of water.

This graphic sketch shows how thin upper atmosphere and under the heat of the sun's rays. The sketch also shows relative altitudes of clouds and the world's highest mountain peak, and the altitudes attained by Prof. Auguste Picard, brother of Jean Picard, in his two European ascensions into the stratosphere—a record that Jean Picard and Commander Settle hope to beat.

SAILORS SAVED AFTER DRIFTING SINCE THURSDAY

PORT ISABEL, July 10. (UP)—Cerry Dinan, Charles Hallberg, Henry Nelson and Lawrence Anson, four of six crew members of the fishing schooner Patty, were in a hospital here today for treatment of broken bones and deep cuts received when the hurricane struck the vessel sixty miles off here last Thursday.

The men were rescued by coast guardsmen yesterday after days in the crippled boat, subsisting on coffee and bacon only. They were injured in the first lurch of the boat which tore loose big iron ballast which fell on the men.

Fishing Record Set By Big Spring Man

BIG SPRING—It was reported a few days ago from Goose Creek, Tex., that E. L. (Gene) Kennedy of Big Spring was walking the streets there with an air nothing short of regal.

T. L. Supple of the News-Tribune of that city agreed the attitude was entirely justified because Kennedy had won the honor of the largest catch of fish for the season. On a fishing trip a week ago Saturday, Kennedy landed 35 fish. The largest was a catfish weighing 56 pounds, which was landed after a pole had been broken and quite a fight had been offered. The smallest fish in Kennedy's catch weighed two pounds.

Kennedy was visiting in Goose Creek in the home of his brother-in-law, City Commissioner G. L. Keene.

Classes Held for "Package Library" Gains Popularity

AUSTIN, (UP)—A "package library" established at the University of Texas in 1914 has become so popular that for the year just closed it sent out 55,871 packages. The packages are made up of books and clippings on 5,000 topics. They include 375,316 clippings and pamphlets, 13,324 plays, 7,749 club outlines and 4,910 books. Total circulation since establishment has been more than 250,000 packages.

CLOTHING OF MEN FOUND IN SMALL STREAM

Relatives Identify Clothing; Bodies Of Men Sought

FT. WORTH, July 10. (UP)—Police today sought explanation of blood stained and tattered clothing found in a basket in a small stream near here.

The names of J. B. Rutherford of Dallas and Itasca, Jack Sturdivant of Dallas and Clyde and another whose name was blurred were found in the clothing.

Officers believed the men were murdered, and were seeking the bodies. No motive was known.

The missing men whose bloody clothing was found here were identified later by relatives as Jack Sturdivant, 24, of Eula; J. B. Rutherford, 30, of Dallas, and Harry Rutherford, 28, of Abilene. The clothing indicated they had been killed by a knife and bullets.

Midland Expects to Enter Tournament

BIG SPRING—The annual Sand Belt Tennis tournament will be held here July 28 and 29 on the new clay courts now under construction in the City park.

A junior and senior division will be included with beautiful trophies to winners in both sections. The entrance fee will be the lowest in years. Players must file their intentions of entering the meet by Tuesday, the 25th.

Seventy-five cents will be assessed each single entry or one dollar if the player wishes to enter both singles and doubles. Any junior player (under 18 years) may enter all divisions for one dollar. If they wish to enter only the junior division: singles 25c, doubles 25c, or both for 50c.

Dan Steakley of Sweetwater will be the defending champion in the singles senior section, while two home boys, Curtis Bishop and George Gabney hold the senior doubles title.

Joe Davis will defend his junior title and pair with Bill Savage to keep their junior double crown.

Harry Jordan, co-holder of district and bi-district championship, is expected to compete and show great strength in the junior division.

Jimmie Jones, one of the members of the high school team, will be another junior threat. So will Felton Smith, a tennis league dark horse.

In the senior division, strong entries are expected from Sweetwater, Colorado, Roby, Stanton and Midland. Theo Ferguson, one of the strongest participants in this section, would have been favored to carry off a tourney honors if not for a cut arm that put him out for the season.

Harold Harvey, co-holder of the doubles championship of the San Angelo Knights of Zoach, is expected to do some excellent work.

Oldest School to Hold Centenary

MEXICO CITY. (UP)—The medical school of the national university will celebrate its centenary in October.

The building occupied by the school once served as the Holy Office of the Inquisition in Mexico. Many of its rooms were used as cells for inmates condemned to death.

The national university, now at almost 400 years old, is the oldest in the western hemisphere.

FLAPPER FANNY SAYS

ABOLISH CHILD LABOR

It is the best sort of good tidings that the cotton textile code provides for the end of child labor in that industry.

Before we rejoice too much, though, we might look at some statistics.

There are in the United States more than 660,000 children between the ages of 10 and 15 who are listed by the census as "gainfully employed." Only some 20,000 of these are employed in the textile industry.

Furthermore, all of these industrial codes are designed as emergency measures only. We have no guarantee they will be in effect four years from now.

We might just as well do the job right and ratify the child labor amendment. That would affect all industries—and it would be permanent.

There is more than a mile of wire in the interior of an ordinary piano. No wonder a little piano playing so often seems to go a long way.

Side Glances by Clark

"I can't understand you, Winnie. My first wife would have been awfully happy with all this."

The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything.)

And we can. A combined effort this week by the merchants of Midland will put crowds on the streets next Thursday, Friday and Saturday and will put money in the coffers.

The Tuesday issue of The Reporter-Telegram will look like old times, we hope. It is going out to residents of the area surrounding Midland. If you haven't prepared to have your firm represented, get in touch with The Reporter-Telegram's ad force at once.

A pastor remarked that liberalism is hitting the churches everywhere except in the collection plates.

When R. C. Crabb finished nine holes and asked the caddy how he liked his game the caddy said, "It's all right, but I still prefer golf."

When a local man complained that his car made so much noise he could not hear what his wife said he had three men to make him offers on the machine.

Just before Shorty Holster left on his vacation there was an explosion in his poultry yard. Neighbors who investigated said Shorty fed his chickens some "Lay or Bust" feed, and one of the roosters got hold of some of it.

Constituents' Pleas Ignored by Congress

WASHINGTON, D. C.—Although thousands of their constituents protested the imposition of an additional federal gasoline tax of 1/4c per gallon, the tax was written into the industrial recovery act by a Senate vote of 35 to 46 on June 9.

More than 500 industrial, trade, motoring, farm, and other organizations protested this new tax, and telegrams, letters, and telephone calls flooded the senators in volume.

However, the senate finance committee, which in May had recommended that gasoline taxation be left to the states beginning June 30, 1934, voted eight to nine to include this 15-year levy in the industrial recovery act, and Senator Harrison, of Mississippi, chairman of the committee, argued for its inclusion upon the floor of the Senate.

Following is the senate vote on the tax:

Against the tax: Barbour, New Jersey; Black, Idaho; Borah, Idaho; Bulow, South Dakota; Byrd, Virginia; Capper, Kansas; Carey, Wyoming; Connally, Texas; Cutting, New Mexico. For the tax: Davis, Pennsylvania; Goldsborough, Maryland; Gore, Oklahoma; Hale, Maine; Hastings, Delaware; Hatfield, West Virginia; Kean, New Jersey; Keyes, New Hampshire; King, Utah; McGill, Kansas; Metcalf, Rhode Island; Nye, North Dakota; Patterson, Missouri; Pope, Idaho; Reed, Pennsylvania; Robinson, Indiana; Russell, Georgia; Shipstead, Minnesota.

Stelwer, Oregon; Thomas, Oklahoma; Townsend, Delaware; Trammell, Florida; Tydings, Maryland; Vandenberg, Michigan; Walcott, Connecticut; and White, Maine. Total 35 votes.

For the tax: Adams, Colorado; Ashurst, Arizona; Austin, Vermont; Bachman, Tennessee; Bankhead, Alabama; Barkley, Kentucky; Bone, Washington; Bratton, New Mexico; Brown, New Hampshire; Bulky, Ohio; Eynes, South Carolina; Clark, Missouri; Coolidge, Massachusetts; Copeland, New York; Costigan, Colorado; Dickinson, Iowa; Dietrich, Illinois; Dill, Washington; Duffy, Wisconsin; Erickson, Montana; Frazier, North Dakota; George, Georgia; Harrison, Mississippi; Hayden, Arizona; Johnson, California; Kendrick, Wyoming; LaFollette, Wisconsin;

TODAY'S RECIPE

Chicks 1/2 cup hot milk 1 cup crumbled soda crackers 1 1/2 cups cooked chopped chicken salt and pepper 1/4 tsp. poultry seasoning 6 strips of bacon

Pour hot milk over crumbled crackers and beat until smooth. Combine with remaining ingredients except bacon. Shape into 6 small rolls and chill. Wrap one strip of bacon around each and fasten with a toothpick. Place in a baking dish and serve with currant jelly if desired. Six portions.

When making egg custard pies, always heat the milk to the boiling point before mixing with the eggs. In this way the undercrust will be crisp.

SOCIETY

Ninety-Six Attend Baptist Unions

Seventy-eight members and 18 visitors attended Baptist B. Y. P. U. unions at the church Sunday evening.

An impromptu debate on "God, a Human Being," took place of the regular program in the Loyal Workers union. Plans were made for a special musical program to be presented next Sunday and for a swimming party and picnic Friday evening.

Sixteen members were present at the Primary union meeting. Louise Cox and Eileen Eiland told stories and Louise played a piano selection. The remainder of the hour was spent practicing band numbers.

Regular programs were held in other unions.

Happy Birthday

TODAY Mrs. Hugh Corrigan Clifford Gene Kerby Thomas McGuire TOMORROW Fred Wemple

She has visited here for several weeks.

Jesse Rhoden, son of Mr. and Mrs. J. H. Rhoden, is visiting his grandmother, Mrs. W. F. Rhoden, of Lubbock.

Mrs. Paul T. Vickers left this morning for Spur, where she will visit for several days with her father. She will also visit at Munday.

Trombone, Piano Duet Feature of Naomi Program

Miss Kathryn Cosper and Mr. Conrad Dunagan were guests artists on the Naomi class program Sunday morning in the Yuca theatre, playing a piano and trombone duet.

Immediately preceding the lesson taught by Mrs. J. M. White, Mrs. Joe Roberson read the lesson reading and Mrs. Otis Kelly the devotional.

Plans are being made by the class to present a series of attractive programs during the remainder of the summer. These will be announced later.

Announcements

Tuesday The Baptist Women's Missionary society will meet Tuesday afternoon at 3:30 at the church for Bible study. Mrs. Winston Borum will conduct the lesson.

Regular meeting of the Order of Eastern Star Tuesday evening at 8 o'clock. All members are urged to attend as special plans for work are to be made.

Church of Christ Bible class Tuesday afternoon at 3:30 at the church.

Mrs. Bill Van Huss will be hostess to the Bridgites club Tuesday afternoon at 3 o'clock.

Thursday Mrs. R. E. Kinsey will be hostess Thursday afternoon at 2:30 to the members of the Bien Amigos club.

Friday Meeting of the Belmont Bible class Friday afternoon at 4 o'clock at the home of Mrs. Herbert King.

been in Midland visiting her sister, Mrs. Barney Grafa, left Sunday for the World's fair at Chicago.

UPSIDE DOWN EGGS

SMITH CENTER, Kan. (UP)—Farmer Rogers' hens are true layers, even if they have to stand on their heads to do it. During a recent whistling, one of Rogers' hens was pinned in a wrecked chicken house, her feet hanging from the debris. This, however, failed to dampen her ardor for laying eggs and she "came through with flying colors," Rogers said.

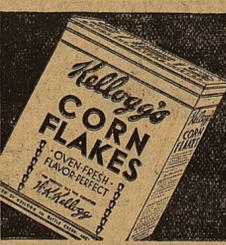

Locomotives of the express type use about two tons of coal to every 100 miles.

LADY SCIENTIST

Crossword puzzle grid with numbers and a small portrait of a man.

Texans Find Cave Mummies

WASHINGTON, (UP)—Prehistoric cave dwellers of Texas appear to have been such a hardy race that they could fall off 150-cliffs and still live to recover from broken arms and legs.

Reporting on a recent acquisition of skeletons of these people, the Smithsonian Institution says: "Nearly all skeletons showed evidence of fractured legs or arms that had healed without being set. The cave in which the skeletons were found is in the side of an almost perpendicular cliff, approximately 150 feet above the flood plain of the river, and the fractures indicate that the ancient people not infrequently tumbled over the edge."

The cave was discovered by Dr. Frank M. Setzler, in the canyon of the Pecos river. One of the specimens he found was an almost perfectly preserved mummy.

"The body was buried in an upright position in a deep deposit of wood ashes," the report said. "It was wrapped in a rabbit skin robe

with a basket over the head. When the mummy was dug up the face had an almost lifelike expression, with the hands crossed in a peculiar fashion under the head."

Six other similarly preserved bodies were found, one of which was lying in a prone position with the bones articulated.

From the bodies and accompanying relics, Smithsonian scientists hope to learn much about the life and culture of Texas cave dwellers.

Policeman Afraid Of Being Arrested

TOPEKA, Kans. (UP)—Harry Hudson, a policeman, is afraid of being arrested.

In a baseball game between the policemen and firemen, the cops' manager figured Hudson was their weakest player and loaned him to the firemen who were short one necessary player. Hudson knocked out the single that won the game for the firemen. Fellow officers say they're simply waiting until Hudson violates some local ordinance.

Briggs Holds Midland, Odessa Hammers out 14-0 Win

SWEETWATER AND BIG SPRING HALVED

Midland gained four points on the Sand Belt Golf association leaders Sweetwater and Big Spring, Sunday afternoon, when Midland won at Snyder, 24-16, and the leaders halved a match at Big Spring, 20-20.

The results show the leaders have a total of 236 points for 10 matches, and Midland is second with 229 for nine games, or 14 points behind.

Colorado clear-swept Stanton at Colorado, 32-8, to climb into a threatening position. Results of the Odessa-Lamesa match had not been learned this morning.

C. L. Jackson won over Roberts and Gentry Kidd lost to Fish in the first foursome, Midland losing low ball. This match was the first Kidd has lost this season. C. L. Jackson set the pace, stroking the round-in-one over par.

In the second foursome, Frank Day won over Williams, and Miller a consistent winner before, lost to Wagoner. Midland lost low ball on the 20th hole.

Henry Shaw lost to Hill, and Bill Moran won over Boren in the third foursome. Midland winning low ball.

In the fourth foursome, De Lo Douglas won from Farmer, and Joe D. Chambers won from Moore, Midland winning low ball.

Several accompanied the club to Snyder, among them Amos Shaw, Day, Douglas, Miller and Arch Thomas.

DOUGLAS LEADING IN POINTS NOW

With 32, De Lo Douglas is leading his Midland mates in points won in match play in the Sand Belt this year. Gentry Kidd, who has lost only one match, but who did not join the club until several matches had been played, is second with 30. Joe D. Chambers, Frank Day and C. L. Jackson third with 26, and Elliott Miller fourth with 25.

Miriam Hopkins Plays Title Role

"The Story of Temple Drake," the screen adaptation of a novel by William Faulkner, has been booked for the Ritz theatre, where it will open tomorrow for three days. Miriam Hopkins plays the title role, with Jack LaRue, William Gargan, William Collier, Jr., Irving Pichel and Sir Guy Standing at the head of the supporting cast.

"The Story of Temple Drake" is the story of a Southern girl, a cut-throat mixture of the sedate and the wild. A drunken ride with a college boy ends up in a wreck outside a bootlegger's house, and when the boy is shipped off back to town she is held behind by a sinister, menacing big-city gangster, Trigger, who kills the one man who tries to protect her; drags her off to a tawdry rooming house in the city and keeps her there.

Blame for the murder is placed on another man, and a young lawyer who is in love with Temple is assigned to defend him. The lawyer traces Trigger, and finds Temple with him. The picture reaches a startling climax in the events that follow.

The American Automobile Association, conducting road tests with cars using 10 per cent alcohol blended with gasoline, reports that general use of this type of fuel would result in an increase of \$600,000,000 to the annual motor fuel bill of the United States.

High Prices Bring Farmer out Slough

By WINSTON COPELAND
United Press Staff Correspondent
FORT WORTH, (UP)—Wheat prices have brought the Texas farmer out of the slough of business despondency and set him on the high road to business stability.

This applies not only to the wheat farmer, but to all farmers as well with other farm commodities, led by wheat, soaring toward pre-depression levels.

Such is the firm belief of many farmers and grain dealers, according to G. E. Blewett, secretary-treasurer of the Texas Grain Dealers' association and one of the foremost authorities in Texas on grain.

"Texas farmers today heard the jingle of added dollars in their pockets, vast monetary benefits, hundreds of thousands of dollars, of two weeks of \$1 a bushel wheat. They scanned jubilantly the horizon of a brighter future and increasing purchasing power, long considered the backbone of American business prosperity.

Belief that wheat is to stay above the \$1 level and may even go higher is evinced by the way farmers are holding their crop this year.

It is estimated by those in close touch with the situation that the farmers have marketed less than one fourth of the crop. A large amount of wheat coming into Fort Worth is being stored by the farmers who produced it.

The exact monetary return to the wheat farmer from the increased price this year is hard to determine. Grain dealers and farmers alike see a net return to farmers of a much larger amount than last year's bumper crop. Some estimate the benefit at \$3,000,000 to \$4,000,000 above last year's returns.

This is in spite of the drought that has reduced the output of this year to around 15,000,000 bushels of Texas, about half of last year's crop.

At this time last year the farmer received around 27 cents to 30 cents a bushel. On basis of the price level of the first two weeks, he is receiving upward of 80 to 85 cents a bushel. His share of the profit rises in greater proportion than the grain dealer's as the price climbs higher.

Perhaps the only Texas wheat farmers who will not benefit by the hike are those in the Panhandle area north of Amarillo, where the crop has been reduced to virtually nothing by the drought.

The returns from wheat have enveloped other grains, some of the gains even in greater proportion.

Last year No. 2 red oats sold at nine and ten cents a bushel, and this year they are around 40 cents, four times as much, with farmers showing little interest in marketing their oats.

"An even stronger position maintains milo and kafir," Blewett pointed out. "Last winter milo and kafir sold as low as 17 cents a hundred to the farmers, whereas today the farmer is receiving about \$1 a hundred."

The crop has been greatly reduced by the drought.

The material monetary benefit, however, is but one factor in the new ascendancy.

"There has been a noticeable change in the morale, as well as the attitude of farmers and grain dealers, since President Roosevelt was inaugurated in the White House.

"The grain dealers are just as happy over the big advance in grain value, for while it takes more money to handle this same amount of grain than in former years, they find a much better feeling and a more optimistic spirit prevailing which permits and encourages trading.

"The grain trade, as well as the farmers with whom I have talked, feel that recovery is on the road and the depression is ended."

The boost in prices, he said, are from natural causes.

"The action of the grain, as well as the cotton market the past few months, should dispel any doubt as to the influence that supply and demand exert over the value of grain and cotton," he said.

"Nature has done in a few months what the Republican farm board tried for three years to do.

"The big advance in the value of farm products the past four months was caused directly by crop and climatic conditions, supported and abetted by the confidence of the people and the unrestrained and unhindered markets which permitted the trading.

"Since speculators are always bullish, they seized the opportunity and caused a sharp advance in all values of farm products, some of which are selling at over 300 per cent increase since March 1."

Under the Dome Of the Capital

By GORDON K. SHEARER
United Press Staff Correspondent
AUSTIN, (UP)—Efforts of the federal government to prevent stock sale swindles recall the path of similar legislation in the Texas legislature. Ten years ago Rep. S. E. Johnson of Johnson City set out quietly to stop the promiscuous sale of stocks in Texas. He was in a hurry, for the oil stock sales, Johnson puttered around until he got the inside information on how the deals were handled and introduced the now famous state "Blue Sky Law."

All was going well with it until Johnson was taken sick. Friends led the bill rest until near the end of the session, hoping he would be back to handle it. Finally an effort, then was made to bring the bill up in his absence. One member objected.

Johnson's friends, unfamiliar with the strength he had worked up for the bill, were afraid to push it to a vote. By the time Johnson returned to push the bill, it was too late.

Finding out what had happened to it, he went to the member who had objected.

"Why wouldn't you let my bill come up? What's the matter with it?" Johnson asked.

"I am against all these blue laws," was the reply.

Shortly after Gov. Pat M. Neff called a special session. He submitted the topic and the Blue Sky bill was passed with little opposition.

Senator Pat Patton is greatly elated over his defeat for congress in the race to elect a successor to the late Congressman Clay Stone Priggs.

Patton is happy because he says Congressman-elect Thompson was elected only by the large Galveston vote, and Galveston will not be in the district when the regular term race comes around next year.

A bitter says with the exception of Galveston he carried the other counties, excepting Anderson county, and will be a candidate for the regular term. The difference in the district counties is due to the redistricting bill passed at the recent session of the Texas legislature.

Under the act providing a method of ratification or rejection of federal constitutional amendments, the wet and dry convention chairmen must file their lists of delegates and alternates with the secretary of state.

Then all will be in readiness for the campaign rallies, stump speeches and election advertisements.

August 26, John Citizen will have his say.

In the general election that day he will receive a ballot. The ballot will have two perpendicular columns of the same width. One will be headed, "For repeal of the 18th amendment," and below it the names of the list of 31 delegates and 31 alternates pledged to vote that way.

The other column will be headed "Against repeal of the 18th amendment," and below it will be the rival list of delegates and alternates. The voter will scratch out the names of the candidates he opposes.

Thanks to the new unofficial election returns law the practical result of the vote likely will be known by the night of the election. Official returns will be canvassed 30 days afterward by Secretary of State W. Heath in the presence of Gov. Miriam A. Ferguson and Attorney General James V. Allred.

Sixty days later, Nov. 24, the delegates declared elected will meet in Austin and formally cast the vote of Texas for or against repeal. The secretary of this November 24 election will certify the action to Secretary of State Heath and the secretary of state of the United States. Heath also will certify to the United States secretary of state.

SALES INCREASING

Sales of household electric refrigerators in Texas in May registered a tremendous increase over those of April, and the corresponding month a year ago, according to the Electric Refrigeration bureau of the Edison Electric institute. May sales through all retail outlets are estimated at \$113 units, compared to 5191 in the preceding month and 3,994 in May, 1932.

May sales in the entire United States in May set a new record for a single month, the total being estimated at 212,770 units. The previous record was reached in April, 1931, when the total was 156,248.

Statistics show that 50 per cent of the male students of our colleges and 25 per cent of the female students are working their way through school.

Curiosity Made Man Cross the States

BELLINGHAM, Wash. (UP)—For no other reason than curiosity, Maurice Fitzgerald, came all the way from Bellingham, Mass., recently to see if the city of Bellingham, Wash., was similar to his home town.

He was met by local police who detained him until the next day and then requested him to leave as soon as possible. He said he had spent nearly all his life in the Massachusetts city, but always had a desire to see its Pacific coast namesake.

AT THE LIBRARY

The Book-of-the-Month for July is now in: "Anthony Adverse" by Hervey Allen. The swing and gaiety of "Anthony Adverse" its all-inclusiveness, and the rich characterizations Hervey Allen has implanted into this story, mark it as the culmination of the trend toward novels wherein adventure, romance, danger, glamor and all the other soul-stirring situations are used for the making of a lush story that makes blood race gayly through the reader's veins... the man who relies on Anthony Adverse for his summer reading has a friend and companion who can never be forgotten.—Harry Emerson Wildes in The Philadelphia Ledger.

An amphibian plane, with a wing spread of 100 feet, has been built for the Colombian government by an American company.

NINE ERRORS HURT CHANCES OF INDIANS

Not satisfied with the solid brocade grown in Ector county, Odessa's baseball club yesterday finished its noon meal and came over to Midland for duck soup.

Out of the complexity of reasons why Odessa won a 14-0 fiasco over the down-trodden Midland ball club may be found the presence of Lefty Briggs on the Odessa mound, the steady fielding and hard hitting of the Ector county club, and Midland's inability to either hit or field.

In justice to both the club and to the Odessa manager, the Indians were not supposed to do much hitting against Briggs, the best pitcher they have faced this season, and one well known here from his days when he played with Midland in the West Texas league. However, nine Indian errors reflect the fact the local hurlers, Brown and Timmons, cannot be charged with sole responsibility for the reversal. Odessa made only one bobble, yet made only four earned runs.

Ridley, Odessa catcher, led the batting with three hits out of four trips. Dameron, Odessa third baseman, hit two for three and Cook, center fielder, hit three for five.

Cook, of Midland, first baseman, was the only Midland man to get more than one hit, hitting two for four. Odessa outhit Midland 13-5.

The game was the first of the new hall for both clubs, and marked Odessa's 15th victim this season, having added the Hobbs club to the growing list Saturday.

"Dryest June" on Record Is Report

NEW YORK, July 10. (UP)—The cotton exchange today reported one of the driest Junes on record for the cotton belt.

The average rainfall for June in Texas was 72 inch against 8.05 inches last year and a normal of 3.20.

Life Saved Because Man Couldn't Sleep

ALBUQUERQUE, N. M. (UP)—Frank Welter owes his life to the fact that he could not sleep, so he got out of bed and went to visit a friend.

A few minutes after Welter left his cottage a bolt of lightning struck it, went through the roof, struck the post of the bed in which he had been sleeping, and set the mattress afire.

Some 45,000 communities in the United States are accessible only by highways.

JULY 28 OPENS ENCAMPMENT OF BAPTIST CHURCH

The thirteenth annual session of the Paisano Baptist encampment will be held July 28 to August 6. The Reporter-Telegram was advised Saturday in a letter from the Rev. L. E. Millean of El Paso, former Midland pastor.

Paisano encampment is a place where religious leaders gather each year for 10 days of worship and recreation. Speakers to be found on the program this year include Dr. George W. Truett of Dallas, Dr. C. Roy Angle of San Antonio, Dr. W. R. White of Fort Worth, Dr. J. B. Tidwell of Baylor university, Mr. Robert Jolly of Houston, Mrs. Carter Wright of Roanoke, Alabama, G. S. Hopkins of Dallas, Miss Grace Conn of Dallas, Sec. J. How-

ard Williams of Dallas, and others. The location of the gathering is in the Davis mountains, in the heart of the famous Big Bend country. The grounds cover a thousand acres. There are many places that can be visited during one's stay at the encampment. Guides will be provided for special trips to such places as the Scenic drive, Mire Peak park, the Grand canyon of the Rio Grande, Fort Leaton, and other points of interest.

The summer climate in this location is cool, sometimes cold enough at night for a fire.

Paisano encampment is mid-way between Marfa and Alpine. It can be reached by train or bus.

There are 20 cottages for sale or rent. The cottages on the grounds are privately owned. A limited number of tents and cots are available. Anyone wishing to rent a tent or cot should write the Rev. J. M. Garner, Marfa. The price of tents for the period of the encampment is \$5, and for the cots seventy-five cents.

Meals will be served cafeteria style under a large shed, as usual; however those wishing to do their

County to Exhibit Old Covered Bridge

CROWN POINT, Ind. (UP)—Covered bridges, fast disappearing, will not be forgotten in Lake county, William Whitaker, auditor, decided.

On Whitaker's suggestion the county purchased one of the wooden structures for \$20 and will place it on exhibition in the county fair grounds. The bridge is 80 feet long and 17 feet wide.

Amarillo to Have Tri-State Fair

AMARILLO.—Horse racing and boxing will figure in the amusement program of the Amarillo Tri-State fair this fall.

The annual exposition, which features a free gate, will open Saturday, September 23, and run for eight days, through September 30. The fair in former years has been open for six days. The day will be devoted to churches of the Panhandle, according to Bill Lampeke, president.

Lampeke said the exposition grounds are being reconitioned during the summer months. One new building is being constructed, the others are being improved and repaired, additional acreage has been taken into the already spacious grounds, railings—and concrete

EVERYBODY INVITED

To A June Bride-- Now That You're "At Home" Think of Your Home

"At Home" means many busy days for the bride. Groups of friends for luncheons, casual visitors at odd hours and dinner parties in the evenings—every hour of the day packed with things to do.

Electricity can do a surprising amount of the work that goes with these first "at home" days. An electric range or cooker will cook all of the meals—an electric refrigerator will make the deserts—an electric cleaner will keep the new home spotless—a radio will furnish the music and entertainment—a mixer will help a great deal in preparing the meals—and so on, saving many hours and much hard work for the busy bride.

Think of your home (and yourself, too)—let electrical appliances do the work.

Electric Ranges

An electric range, with automatic time and temperature controls that require no watching, will do all of your cooking and keep your kitchen cool, clean and comfortable. Your first thought should be of your kitchen—and an electric range.

\$114.50 and up

Electric Refrigeration

Electric refrigeration is most important—and with new, full-sized electric refrigerators selling at less than \$100, every bride can start her new home off right with the machine of her choice.

TEXAS ELECTRIC SERVICE
