OIL RIFT APPARENTLY PATCHED

N. R. A. Drive Officially Launched in Midland Tonight

MEETING WILL BE HELD AT 8 IN DIST. COURT

Code Sessions to Be Held Following The Parley

Midland business establishments expect to join the rush to hang out the blue eagle of the National Industrial Recovery act this evening...

Consumers cards and employers' agreement blanks were received here Sunday and the blanks were being placed in postoffice boxes.

The chamber of commerce received a message this morning from General Hugh B. Johnson, administrator of the N. R. A., asking that initiative in organization of an educational campaign committee along principles set forth in the industrial recovery act be taken by that body...

Practically every retail merchant of Midland has indicated his plan to attend the meeting tonight and his wish to cooperate with the president's plan to the limit.

It was pointed out by Postmaster John P. Howe that 36 establishments have their names on the honor roll already, the list reading up to 2:15 this afternoon as follows:

- Chamber of Commerce, Ellis Funeral Home, Scharbauer Barber Shop, Scharbauer Beauty Shop, El Campo Moderno, Magnolia Petroleum Sales, Ever-Ready Auto Service, Farmers Co-Operative Gin, West Texas Oil Co. Supply, Midland Drug Co., Perry Bros., Midland Variety Store, Liano Barber & Beauty Shop, The Texas Company Sales, Middleton Tailor Shop, Tommie's Electric Shop, "M" System No. 1, "M" System No. 2, Trans-Texas Oil Co., Silver Grill Cafe, Continental Oil Co., Sales, Petroleum Electric, Sparks & Barron, Stevens & Spaw, Texaco Authorized Station, A. C. Weyman, Sheriff and Tax Collector, County Judge, Captain Dry Goods Store, Big Cross Pharmacy, Barrow Furniture and Undertaking, Anderson Lumber Co., Carl Shoe Shop, Hokus Pokus, Addison Wadley Co., Midland Auto Supply, J. D. Young Co., Inc., Howe & Allen, The Reporter-Telegram, Yucca Theatre.

THE PROVISIONS IN A NUT SHELL

WASHINGTON, July 31.—Here is a simple and authoritative explanation by Recovery Administrator Hugh Johnson of just what every employer is asked to do to put in effect the voluntary agreement that is the basis of President Roosevelt's re-employment campaign:

You will receive in the mail an envelope with two pieces of paper and an addressed envelope in it. One piece of paper is the president's agreement. Sign that on the dotted lines and fill out the information called for. Put it in the addressed envelope and mail it. Then put it into effect at once.

On August 1 sign the other piece of paper which says that you have carried out your agreement. Turn it in to your postoffice. Then you will be given the blue eagle of N. R. A. on a poster or your shop or store and display it prominently. If you need more posters or stickers you can get them later from a dealer. If you want to use this symbol on your goods or automobiles or trucks or anywhere else in connection with your business, you are authorized to do so. But do not do this either now or later if you have not signed the agreement or do not have it in effect. It can only result in conflict with the president's request and may (See N. R. A., page 4)

Never Popped the Question

A picture of happiness... Elliott Roosevelt and his bride, the former Miss Ruth Gogins, on their honeymoon in the home of the bride's mother at Fort Worth, Tex.

Fannin and Ray Elected by Men

Cam L. Fannin, manager of Hotel Scharbauer, Sunday was elected by the Men's Class as vice president in charge of transient attendance. Earl Ray was elected as official barbeque manager. Mrs. De Lo Douglas played piano numbers and the class gave a good demonstration of its ability during the song service preceding the lesson. Paul T. Vickers, with the aid of a crutch, was able to address the class for the first time since his recent automobile accident.

Sterling Plans a Comeback in Oil

HOUSTON, Tex. (UP).—Ross S. Sterling, former governor of Texas and once one of the state's wealthiest men, has started a comeback as an oil millionaire, his friends here believe.

Sterling's name crept back into print recently when he was listed as manager of the Miramar Oil corporation, whose No. 1 Phoenix well in the Hull field, Liberty county, was completed as a producer.

It was one of the few times Sterling's name appeared in public since his defeat for governor by Mrs. Miriam A. Ferguson last summer sent him into seclusion.

It was on the flood of oil from the Humble field that Sterling, then a feed store operator, rose to wealth.

After he resigned as chairman of the Humble Oil & Refining company, which he helped found, and became governor, his fortune began to decline.

RETURNS TODAY

George D. McCormick returned today from Dallas and Fort Worth where he has been for several days to attend a Frigidare meeting.

UNFOUNDED TALE CAUSED BANK TO BE RESTRICTED

Bond Rumor Said the Motivating Cause By Officials

SAN ANTONIO, July 31. (UP).—Business operations of the Commercial National bank were restricted today and officials said it was the outgrowth of unfounded rumors growing out of the bank's purchase of \$500,000 worth of government bonds which had been stolen from the Continental Bank & Trust company of New York on November 29, 1932.

E. A. Baetz, vice president of the bank, was named conservator by the comptroller of the currency. Coincident announcement was made of the resignation of Z. D. Bonner as president.

Texas rangers, justice department agents and insurance detectives participated in an all night conference before decision was reached to accept deposits but cash no checks.

Excitement following news that the bonds were those stolen in New York caused a run. Officials said nine men were reported under arrest at St. Louis and Boston in connection with the theft. San Antonio was a focal point in the investigation after bonds were traced here after investigations at Kansas City, Chicago, St. Louis and eastern cities.

O'CONNELL IS RELEASED FOR \$40,000 SUM

ALBANY, N. Y., July 31.—John J. O'Connell Jr., 24-year-old son of the politically powerful O'Connell family of Albany, was released to an attorney by kidnappers upon payment of \$40,000 ransom.

Young O'Connell, who was kidnapped July 7, was uninjured but suffered from shock and nervous exhaustion.

An automobile carrying only young O'Connell and Louis Snyder, an attorney representing Manny Strelw, intermediary who effected the youth's release, climbed the steep mountain road to the O'Connell camp Sunday morning, and delivered him to his father, John J. (Solly), and his Uncle Dan. Ed, another uncle, the county democratic chairman, arrived at the camp later.

After holding O'Connell more than three weeks in an attempt to collect \$250,000 ransom, the kidnappers apparently became alarmed, possibly by the death sentence meted out in Missouri to Walter McGee, who kidnaped Mary McElroy, and hastened to restore the young Albany golfer and National Guard officer.

Last Monday the gang reduced the demand to \$75,000 and when the family offered \$40,000 and ignored other demands, the kidnappers finally agreed to accept less than one-sixth of their original demand.

In a brief statement given out for young O'Connell by one of his uncles, he was said to have had the impression that he was held in a comfortable New York City flat. He also believed, Dan O'Connell said, that four or five armed men snatched him, knocking him unconscious as he stepped from his motor car about 1:15 a. m., July 7. When he regained consciousness he was in the flat.

"I was not tied or ill treated," he said. "They gave me plenty of good food and shaved me twice."

"Some improvement in the district's business mortality rate along with the betterment in trade and industry occurred during the month. The amount of defaults and the amount of liabilities were not only smaller than in either May this year or June last year, but were lower than in any month in nearly three years."

Construction work showed a noticeable expansion during the past month. The valuation of building permits issued at principal cities was 92 per cent larger than in May and was 49 per cent greater than in June, 1932. Increasing activity was also noted in other industries, including textiles and lumber.

Eagle Calling to Its Mate

\$500,000 DAMAGE AT DALLAS

OPTIMISM FOR RECOVERY NOTE OF BUSINESS

By JOSEPH L. MYLER United Press Staff Correspondent

DALLAS, Tex., July 31. (UP).—Sustained activity in business and industry was noted for the eleventh Federal Reserve district in the monthly report issued today.

The report also noted "increasing optimism generated by the distinct rise in the price of the district's commodities such as cotton, wheat, corn, oats, wool, mohair and others of lesser importance."

"Department store sales," the report continued, "reflected a seasonal decline of 17 per cent from the previous month, and were slightly smaller than in the corresponding month last year."

"Wholesale distribution in a majority of lines, however, showed a further gain over the previous month, although recessions usually occur at this season, and sales in some lines exceeded those of a year ago by a substantial margin."

"Merchants are enlarging stocks to take care of the expanding consumer demand and in anticipation of the fall trade."

"Collections evidenced a further gain over the previous month. Reflecting the improvement in trade and industry, charges to depositors' accounts at banks in larger centers showed a further increase of 10 per cent over May, and exceeded those in the corresponding month last year by 3 per cent."

Storm Brings Death To Three; 14 Injured

DALLAS, July 31. (UP).—Rehabilitation of the tornado swept section of Oak Cliff, Dallas suburb, started as a check showed yesterday's storm, which brought death to three persons, did damage amounting to \$500,000.

T. G. Searcy, 21, was killed when his home collapsed. His mother, Mrs. H. C. Searcy, is not expected to live.

Thomas Henley, 70, died of heart failure. Mrs. Mary Stewart, 86, died of injuries.

A check showed that 14 persons are in hospitals today, with none injured critically.

The storm demolished about 10 houses as it swept from the southwest in a path less than a block wide, and nearly a mile long.

Accidents Decrease; Injured Toll up

NEW ORLEANS. (UP).—Accidents in New Orleans decreased the first six months of 1933, statistics showed, but the toll of injured was up.

During the last six months, 783 accidents were reported compared to 817 last year but the injury toll was 775 compared to 727 last year. Deaths numbered 31 in the 1933 period, compared to 30 in 1932.

MATTERN TELLS OF RIGORS OF WORLD FLIGHT

NEW YORK, July 31. (UP).—James Matern was greeted by Mayor O'Brien today after arrival here, completing his ill-fated attempt to fly around the world solo.

Matern was welcomed by 5,000 persons at the airport yesterday after his flight from Toronto.

"The Texan could not understand why all the enthusiasm," he said. He crashed at Anadyr, Siberia, because the Russian oil froze in his plane. He told a tale of hardships during his 19 days in the wilderness, many details of which he could not remember. He slept in the fuselage of his plane, used a cylinder of his motor as a stove, and lived in a hut of grass on a riverside.

Odd Fellows and Rebekahs to Meet

SWEETWATER.—The West Texas Odd Fellows and Rebekah association will meet in Sweetwater on Wednesday, August 2. Mrs. Martha Archibald, president of Abilene, has announced. She appealed for representation from all lodges in the jurisdiction.

Mrs. M. M. Madison of Sweetwater is chairman of the committee in charge of arrangements. Delegates and all others in attendance are directed to register at the city auditorium in Sweetwater.

A number of teams are registered for competitive work in the degree and there will also be several contests in charge.

Business of interest to members will be discussed and an unusually good morning program will be rendered. Special entertainment features have been arranged.

COOPERATION IN RECOVERY DRIVE PLEDGED TODAY

Resignation of Moffett Explained by Spokesman

WASHINGTON, July 31. (UP).—Walter Teagle, president of Standard Oil of New Jersey, apparently patched the rift in the oil industry in his statement promising the "highest cooperation in the President's recovery program."

Explaining the sudden resignation of James Moffett, senior vice president who left a \$100,000 a year job when offered a place on the NRA advisory board, Teagle said Moffett took the course inasmuch as he feared public opinion might not understand the presence of two Standard officials on the board, of which Teagle is also a member.

Howard Evanson, director of the Mellon controlled Pittsburgh Coal Company has resigned as the NRA's coal advisor after the submission of the coal code, which he disapproved.

Says Boy Scout Camp One of Best

The annual summer boy scout camp of the Buffalo Trail council which closed last Wednesday, July 26, was one of the best in the history of the council, according to Scout Executive A. C. Williamson, who has directed camps in this council the past four years.

"While not the largest in point of numbers, the camp was in some ways the best," said Williamson. "Every boy seemed to have a fine time and at the closing campfire Tuesday night a number of scouts who had attended two, three or more camps stated that this camp had been the best they had ever attended."

Health conditions were especially good during the entire two weeks for boys were in camp, there being no serious sickness of any nature, and not a single accident was reported.

The "eats", according to the boys, were the best ever. One outstanding attraction of the camp, both to scouts and to visitors, was the beautiful, crystal-clear water of the Nueces river. The boys never tired of swimming and in a part of the boys' time, that fish, and even minnows, could be clearly seen swimming about in 12 to 15 feet of water. The clearness of the water was an added safety factor in connection with swimming activities, it being possible to see every movement of a diver under water.

In addition to water activities, the boys worked on various scout projects, rifle shooting on the rifle range, leathercraft, baseball and other playground games, hiking and exploring caves—all under the supervision of adult leaders—trained in the boys' time. Each night all scouts and leaders gathered about a campfire to sing songs, tell stories, and enjoy stunts and contests of a varied nature.

One hundred scouts and 13 leaders were in camp the first week and 103 scouts and 13 leaders in the second week, from Sweetwater, Roscoe, Colorado, Big Spring, Midland, Odessa, Barstow, Pecos, and Wink.

CONDITION IMPROVES

Condition of Clarence Clark, son of Mr. and Mrs. T. N. Clark of Midland, continues to improve, according to a surgeon of Fort Bayard, N. M., where the boy was operated on several days ago for appendicitis. He is a member of the CCC reformation unit.

MOVE TO JAYTON

Mr. and Mrs. H. Spaw are moving to Jayton, where Spaw will overhaul machinery for a gin company. He has been manager here for the Williams-Miller Gin company.

FLAPPER FANNY SAYS

DIVORCE AND CHILD CRIME

A pertinent footnote to the never-ending controversy about divorce is contained in a survey of juvenile delinquents made recently by a sociology student at the University of Pittsburgh.

This survey showed that 50 per cent of all youngsters brought into court for theft, property destruction, immorality, etc., came from "broken homes." This is made more significant by the fact that only 18 per cent of the homes in Pittsburgh can be put into that classification.

When divorce is discussed we usually hear a great deal about the right of men and women to have freedom, their right to live their own lives, their right to quit one another legally, if they can no longer get along. Many of the arguments along these lines are perfectly sound. But somehow it is hard to forget this citation of juvenile delinquency.

The child is apt to be the chief sufferer in a divorce case; its whole life, indeed, can be ruined by the selfishness or the incompetence of its parents in the marriage relation. Those who talk too glibly about easier divorce might remember the fact.

Side Glances . . . . . by Clark

"I guess I'm just not ready for the responsibility of a husband and children."

The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything.)

A preacher very, very much opposed to drink heard that a member of his church had been on a terrible drunk the night before. The preacher was much distressed and he called at the member's home and found him in bed.

"Bill," he said, "you mustn't do such things. Why don't you stick to water? Why, it's the finest drink in the world."

The member looked and looked at the preacher. "I want to ask you a personal question," Bill finally said. "What is it?" the preacher asked back.

"Was you ever drunk?" "I never have been."

"Hell, preacher, you don't know nothing as to how good water really is."

Heard at the Rotary club: Percy Mims: "You know Ed Shumway?" John Howe: "What's his name?" Percy: "Who?"

Now wasn't that intelligent conversation for two members of the alleged brain trust?

One of Shorty Holster's hens laid an egg a day for 338 consecutive days. In justice to efforts of other layers to prevent overproduction, the hen should be forced to sign the code.

Frenchy is credited with this philosophy: "Better to have loved and lost—much better."

A married man, who asked that his name be withheld, sent this in: "A wife is one who stands by you."

Late Feed Crop Menu Suggested

COLLEGE STATION.—An attractive farm land menu of late feed crops to take the place of retired cotton acres and to make good what now appears to be a shortage of feed in Texas is suggested by E. A. Miller, agronomist in the Texas extension service. For plantings as late as the first of August he names the grain sorghums for grain and forage; sudan grass for grazing and hay; red top sorghum for hay or bunched forage; cowpeas for hay or grazing; millet for hay; and stock beets for succulent feed.

Except in Northeast Texas the grain sorghums have a good chance to make grain if planted by August first. In case of early frost they will provide good forage when harvested in bundles and cured in shock, or they can be put into silage. Hogard, dardo and sirocco kafir are well adapted for the eastern half of Texas, including blackland and South Texas. To save time, seed may be planted in cotton middles, even before cotton has been destroyed. From 3 to 5 pounds of seed is required per acre, and if moisture is scarce planting in 6-foot rows is recommended. Sudan planted in 3-foot rows at the rate of 10 pounds of seed per acre is suggested. This also may be done before cotton is destroyed. Red top sorghum may be planted for bunched stuff in 3-foot rows at the rate of 10 pounds of seed per

acre, or broadcast for hay at the rate of 60 to 75 pounds of seed per acre. Cowpeas should be included in late plantings, either for hay or grazing or to be plowed under for soil enrichment. From 20 to 30 pounds of seed are needed per acre. Good varieties are Brabham, Iron, Groff, New Era, Whipcrowswill, and Chinese Red, with Crowders and Blackeyes for table use.

German millet is a quick maturing hay crop that is fairly drought resistant. It should be sown broadcast at the rate of 30 pounds per acre. It is important to cut millet for hay right after blooming and it should not be allowed to go to seed, especially when fed to horses and mules.

Miller suggests that farmers give some thought to reserving a small acreage to be sown to alfalfa in September. He also speaks for reservations this fall for oats, barley, rye and other small grains for winter pasture.

CADETS RATE HIGH

SAN ANTONIO, Texas. (UP)—Highest scholastic standing of any graduating class in the history of Kelly field will be seen June 30 when 90 students complete the Air Corps Advanced Flying school here.

Sixty-six of the graduates hold college degrees. Four of them have master's degrees.

Another record has been set by the class. Five of the students became members of the Caterpillar club through forced parachute jumps from their planes.

Best Gunmen Blond And Have Blue Eyes

AMARILLO. (UP)—Fred Sutton, Kansas City, intimate friend of the old West's most notorious gunmen, as quoted in the Amarillo Globe rates John Wesley Hardin "the greatest gunman Texas ever knew."

In an account which touched on the history of such famous fighters as "Wild Bill" Hickok, Billy the Kid, Bill "Big Boy" Wyatt, Bat Masterson, Henry Starr and half a dozen others, Sutton said of Hardin: "The greatest gunman Texas ever produced was John Wesley Hardin, the son of fine parents whose father was a minister. 'Wes' was born May 26, 1853, and was killed August 20, 1882."

"During his 42 years of life he beat the record of Billy the Kid, who had killed 21 men by the time he was 21 years old."

"Hardin was a fancy hander of guns, which were always single action Colts 41, loaded with five loads and carried on an empty chamber for the sake of safety."

"He was arrested in Abilene, Kan., by Marshal 'Wild Bill' Hickok, who told him to hand over his guns. He handed them to the marshal, but first, and as the officer reached for them, Hardin gave them the 'double roll' by twirling them on his fingers and raising the hammer at the same time, made Bill unhook his belt and drop his gun to the ground, thereby becoming the only man to disarm an officer known as the world's fastest gun-fighter."

"Wes' Hardin was fast, accurate and never reached for his guns except to use them, which he could and did do with either or both hands. The story of his life by himself is a very accurate and a wonderful book."

Sutton, who once was a deputy United States marshal in the district known as Judge Parker's court in Arkansas, summed up his impressions of gun-fighters as follows: "I never saw the men we so often read of who could split a bullet on the edge of a playing card or knife, or drive the cork into a bottle without breaking it."

"I never saw a man who never missed what he shot at. I never saw a gun-fighter on the square who notched his gun unless the notches were concealed. I never saw a man who was worthy of being called a gunman that carried a gun with six loads in it, as the hammer should rest on an empty shell for safety."

"I never saw a gunman worthy of the name that was not a blond with blue eyes. History will bear me out in this statement. I have been closely associated with them the greater part of my life and found the greater part of them to be on the square and true and loyal friends or very earnest enemies."

Sea Hobo Depends On Acquaintances

STAMFORD, Conn. (UP)—Harold Thor Jensen, native of Denmark, but something of a world citizen because of his travels, now is en route on a trip by canoe from Montreal around Cape Horn to Vancouver.

Jensen stopped here recently to have his canoe repaired and to rest. He is without friends, but depends upon what he can pick up in various ports, and on the generosity of comrades of the sea, for enough to provide food.

Jensen started from Montreal in December, accompanied by another man. His companion became incapacitated through rheumatism, however, and after taking him back to Montreal, Jensen resumed his trip at Boston.

SOCIETY

Minuet Club Dance Is Held

The regular dance of the Minuet club was held Saturday night at the country club. Mmes. C. A. Mix and E. H. Shaw were hostesses.

Music was furnished by Gabe Hont and His Eleven Kings of Rhythm, of Abilene.

Attending were Mr. and Mrs. Sam Ashley, Percy Bridgewater, Harvey Conger, Clyde Cowden, Elliott Cowden, Joe Crump, I. E. Daniels, Algen Donnelly, T. B. Flood, Allan Hargrave, Gentry Kidd, Carl McAdams, Collin Reith, John Shipley, Harvey Sloan, E. B. Soper, Fred Wright, Mrs. A. N. Hendrickson, and Mr. and Mrs. Clingaman, and the hostesses.

Guests were Misses Ida Beth Cowden, Helen Margaret Ulmer, Messrs. Wright Cowden, Barron Kidd, and Mr. and Mrs. Ken Hartman, Jos. Ballanfonde, Don Sivals, Bob Smith, and J. H. Bush, Mr. Heasley and Mrs. Sparks.

Personals

Mmes. C. F. Barger, Joe W. Bickley and N. E. McRou of Rankin were today to meet the Rev. Joe W. Brickley of Rankin who will arrive here today after a revival tour which carried him over several points in West Texas.

Mrs. F. E. Rankin of Rankin returned today to her home.

Mrs. D. E. Cross and daughter, Meiba, of Stanton, were visitors in Midland today.

Mrs. Rube Reed of Odessa was here Saturday on business.

Jim Waddell and son were here from their ranch near Odessa Saturday.

A. B. Cooksey, Jr., is here for a few days to visit friends and relatives.

W. P. McBee of Dallas is a visitor in Midland.

Mr. and Mrs. Ed Darnell and children have gone to Dallas and Grand Saline to visit and spend a vacation.

Mrs. Alsie Newman has gone to Sulphur Springs to visit and spend a vacation.

Mrs. D. W. Brunson was here today.

Miss Ike Ethridge went to Odessa Saturday on business.

Miss Lorene Fine has gone to Colorado for a few days.

Chatterton Comes To Ritz Theatre

Following her brilliant success in "Frisco Jenny," which movie fans by their enthusiastic attendance proved that was the type of role they would like to see Ruth Chatterton in, the First National studio again cast her in a down-to-earth role.

This time she appears in the title role of "Lily Turner," which comes to the Ritz theatre Tuesday for three days.

Advance reports from Hollywood say that Miss Chatterton has even eclipsed her extraordinary fine work in "Frisco Jenny."

"Lily Turner," which has been adapted to the screen from the New York stage success, is a story of a beautiful girl, whose beauty and figure are used as a "come-on" for yokels, by the owner of a traveling health exhibit, which she joins after a hard checked career.

Playing the title role, Chatterton, who amazed Hollywood by actually doing a "couch" dance in tights instead of using a double, in the picture, is said to give a sublime characterization with her dramatic power, rising to great heights.

George Brent, for the first time since his marriage to Ruth Chatterton, appears with her in the same picture as the health exhibit's strong man.

All told, there are eleven splendid players who appear opposite Chatterton.

Experimental auto tops have been made from sheet copper to which fabric is held by adhesives. This type top makes an ideal radio aerial, it is claimed.

Midland Girl to Attend Second Period of Camp

Miss Elizabeth Payne, popular Midland high school student, has entered the second period of the Girl Scout camp near Roswell, N. M., which began Sunday, July 30.

This period will be a training course for both Girl Scouts and leaders.

The first two weeks was closed with a Mexican night program, when all campers were in costume. A Mexican supper was served and Mexican games played. A mock bull fight closed the program.

The Mary White camp will reach its capacity of 106 campers during this period of the course.

Naomi Class Elects Officers

At a regular meeting of the Naomi class Sunday, officers for the next six months were elected.

As a special number on the program, Mrs. Don Quarrells sang a solo, and Mrs. J. S. Schow played the offertory.

A lesson reading was discussed by Miss Clara Jesse and a devotional by Mrs. R. J. Walker.

The lesson study, "Gideon," was discussed by the teacher, Mrs. J. M. White.

Officers elected are as follows: President Mrs. A. E. Horst, First Vice president Mrs. Carl W. Covington, Second Vice president Mrs. S. M. Warren, Treasurer Mrs. J. M. White, Secretary Mrs. Neitie C. Romner, Treasurer Miss Mamie Bell McKee, Group Captains Mrs. Joe Robertson, Mrs. Don Quarrells, Mrs. Ed Darnell, Mrs. R. T. McAliden; Hostesses Miss Lottie Estes, Miss Hella Mae Williams; Building Manager Miss Clara Jesse, Pianist Mrs. Emily Kannon; assistant Mrs. O. H. Lamar; Song Director Mrs. J. S. Schow; assistant Mrs. A. P. Baker; Reporter Miss Celeste Hankins; Social Committee Mrs. Offie Walker, Mrs. E. T. Westerman, Miss Myrtle Miller; Welfare Committee Mrs. Butler Hurley, Mrs. Cam L. Fannin; Visiting Committee Mrs. R. J. Walker, Mrs. H. N. Thompson, Mrs. T. A. Cole; Flower Committee Mrs. J. A. Seymour, Miss Lucile Cole, Miss Hester Williams; Recreational Chairman Miss Laura Jesse.

Eighty Attend General Assembly

Eighty members of the BYPU attended the general assembly held Tuesday at 3 o'clock with Mrs. A. P. Baker, 1806 West Missouri street.

In the primary union, the subject discussed was "Noah and the Ark." Miss Obara Hines is in charge of the union.

Announcements

Tuesday The Bridgettes will meet Tuesday at 3 o'clock with Mrs. A. P. Baker, 1806 West Missouri street.

The Lucky 13 club will meet on Tuesday at 4 o'clock with Mrs. H. S. Collings, 609 S. Colorado.

Friday The Belmont Bible class will meet with Mrs. Earl Kelly, 607 B North Carrizo street at 4 o'clock.

## Elkhart Church Is 100 Years Old

ELKHART, Tex. (UP)—The Old Pilgrim church of "the regular Baptist faith and ordination," three miles southeast of here, was 100 years old July 26.

The church was organized in Crawford county, Ill., July 26, 1833, and transplanted to its present location in the following November. It now is housed in the third building erected on the site.

For 100 years members of the church have followed the original articles, which among other provisions specified that regular church conferences be held on the Saturday preceding the third Sunday of each month.

Anniversary ceremonies were held at the church Sunday, with Col. George A. Wright, first white person born in Anderson county, delivering the address.

## Old Adage Leads To Child's Body

COLUMBIA, S. C. (UP)—The colored folk of Dixie have a tradition that a bundle of fodder dropped in a river where a person was drowned will drift to the dead person's body.

The tradition was borne out recently when a 73-year-old negro dropped a big bundle of fodder into the Congaree river near here and it floated downstream for about five miles to an old boat landing where the body of 11-year-old A. J. Cunningham was found. Young Cunningham was drowned two days previously while attempting to swim the river.

The 20th meridian west of Greenwich is generally used as the official dividing line between the eastern and western hemispheres.

### MIDLAND DROPS 13-1 GAME TO CRANE SUNDAY

**By JESS RODGERS**

The baseball game between Crane City and the Indians was called at the end of the eighth inning yesterday but it was very little left to the locals as Crane had already piled up a 13-1 lead.

Crane started off with one run in the first inning and scored in each one thereafter except the second and the sixth. The sixth was the only inning they did not get a runner on base.

Meanwhile Brummett of the Cranemen pitched hitless ball for the first four innings and kept the locals from home plate until the sixth. In this inning the Indians combined a hit, one of their three of the day, two errors and a fielder's choice for their only tally. Ellis scored when the Crane catcher dropped the ball after tagging him out.

Brown struck out nine of the visitors while Brummett was whiffing six of the locals, but Crane gathered 17 hits to three for Midland.

Ernie Williams of the Indians each got a single for the only local base hits.

### MIDLAND WINS OVER ODESSA

Midland took a commanding lead in the eastern district tennis league Sunday by winning four matches against Odessa's one. One match was postponed after one set had been played, because of sand and rain.

Ed Nelson won over Dr. Woods of Odessa, 2-6, 6-3, 6-4; Louis Levinson of Midland defeated Turner in straight sets, 6-1, 8-6; Theo Ferguson of Midland won over Frame of Odessa, in straight sets, 7-5, 7-5; Charles James Walton and J. S. Schow appear to be certain members, and Willis, C. Levinson, P. H. Lanham, and Bill Pratt look like likely prospects. Playing for position will be held early this week.

It was hoped here that the seven cups and seven medals for finalists of the district might be ordered today. Orders have been pending regarding entrance fees of the various clubs.

### MIDLAND WINS OVER SWEETWATER

Midland Sand Belt association players partly redeemed themselves for miserable showings recently, by driving out a win here over the Sweetwater club, 24-16.

Through the win Midland has a better chance to cop second place in the final standings, and practically has third place "swept up."

C. L. Jackson lost to Southworth and Gentry Kidd won over Lovorn in the first foursome. Sweetwater winning the low ball match.

Elliott Miller and Billy Moran lost to Whitley and Ritter in the second foursome, but Midland copped the low ball match.

In the third foursome, Henry Shaw of Midland defeated F. Shaw of Sweetwater, and his team mate, Don Sivalk, beat Ditz. Midland won the low ball.

In the last foursome, De Lo Douglas won from Finley and Joe Chambers beat Powell, Midland winning low ball.

### TO HUNT DEER AGAIN

**SAN SABA (UP)**—H. R. Morrell, game warden for San Saba, McCulloch and Mill counties, has announced that after a three-year holiday deer hunting will again be permitted this year in San Saba county. The season will open Nov. 1.

Deer are reported plentiful after the holiday.

One million trucks in service in the United States are estimated to haul 1,400,000,000 tons of freight annually; 134,400,000 tons of this represents farm products.

### Brilliant Cast In "Hell Below"

"Hell Below" thriller of submarine warfare, with Robert Montgomery, Walter Huston, Madge Evans, Jimmy Durante, Eugene Pallette and Robert Young in the cast is at the Yucca theatre, as one of the most anticipated photoplays of the year. Based on Commander Edward Ellis' famous book, "Pigboats," the picture unfolds a terrifically moving romance set amid thrills under the sea, on the water and in the air, in a vivid narrative of fighting in the Mediterranean off the coast of Italy.

Montgomery was given his most difficult acting assignment in this picture in which he plays a lieutenant on a United States submarine who is at constant odds with his commander, Walter Huston, who recently received critical huzzahs for his work in "Gabriel over the White House," enacts the commander. His daughter, is played by Madge Evans. The riotous ship's cook, who is also a student of mail-order dentistry is played by Jimmy "Schmoozy" Durante himself. Eugene Pallette is the chief torpedo man and Robert Young, as Montgomery's pal, has a role even more effective than his own in "Today We Live."

### Election

(Continued from page 1)

The exemption did not affect home-owners in the counties of smaller political subdivisions which had been granted general state tax exemption. These exemptions had been granted in order to allow the issuance of improvement bonds for school issues. The amendment to be voted upon August 26 merely varies the existing condition so that the home-owners tax exemption can be claimed when the local governing body certifies that the general state tax remission no longer is required. The tax remissions have been granted chiefly along the Gulf coast and in the Lower Rio Grande valley for flood and storm protection works, and the amendment affects only those sections.

The estimate that 600,000 persons will vote in the election is based on the poll tax payments. Reports show that nearly 646,000 voters paid poll taxes in time to be qualified this year. Of course, all of them will not vote, but the non-voters probably will be offset by the number of persons exempt from the poll tax requirement because of youth or because of having passed 60 years.

An effort to open the vote to all who paid the poll tax before July 15 was made in the last legislature, but failed.

### Roosevelts

(Continued from page 1)

ins, debutante daughter of a well-known Fort Worth family.

Only a week later, young Roosevelt was on his way west. How far had the romance blossomed? Did the new sweethearts "say it with letters"? They answer such queries with smiles.

Two months later, Elliott Roosevelt returned to Fort Worth for some dental work, and remained two weeks. There were "oh, four or five dates," the bride confesses. When Roosevelt returned to his job with the Los Angeles Times, the Daily letters passed between the pair.

Before long, Elliott Roosevelt was establishing residence in Nevada mountains, and after the required time had passed, his divorce from Elizabeth Donner Roosevelt was granted in Minden, Nev.

The next day the big, amiable son of the president flew to Chicago where Miss Goggin was staying at the fashionable Windermere Hotel with her mother.

"We had a check of a time getting the relatives together in time for the wedding," the groom laughs.

A few more days in Fort Worth, and then the couple will drive to Los Angeles, where the groom hopes he still has a job with the airline.

### Tests Support Regular Air Service to S. A.

**BERLIN (UP)**—Regular air service from Europe to South America is feasible, the authorities of the German Lufthansa are convinced. They are determined to inaugurate such a service as early as possible. Their conviction is based on the tests conducted during June, with the former North German Lloyd steamer "Westfalen" as a floating aerodrome in mid-Atlantic.

The trial flights, including the landing on and taking off from the "Westfalen," proved successful, and further tests are necessary to establish the feasibility of a regular air-service across the South Atlantic. When this service actually will begin, the company, however, is unwilling to reveal. Nevertheless, it will be late in the autumn at the earliest.

At present the "Westfalen" is on her way home in order to refuel and provision the ship for a prolonged stay in the South Atlantic. While in her home port, the "Westfalen" also will undergo some minor repairs and changes of equipment, which it was found were advisable.

During the tests, one complete crossing, with intermediary landing on the "Westfalen" was made from Natal to Bathurst. The time for this flight, including the time spent aboard the "Westfalen" was 33 hours.

### Scientists Pedal Through Mexico

**CUERO, Texas (UP)**—Three young Texas scientists have chosen bicycles as the vehicles to carry them across Mexico's arid stretches to study the wild life of that country.

Cornelius Mueller, University of Texas botanist; Mary Mueller, his wife, biologist, and Parham Hadden, Houston taxidermist and collector, had reached Monterrey, according to word received here.

The bicycle trip involved a 150-mile stretch from Sardinia to Monterrey over a sparsely-inhabited highway with a mountain range about midway. After completing their explorations, they will pedal to Tampico and return by ship.

There are over 1500 foreign language newspapers in the United States.

### The New Deal in Pictures---No. 4

The administration's farm relief program provided for raising farm prices by allocating production, or by leasing lands and returning them from production, the program to be financed by imposing "processing" taxes on millers, meat-packers and other firms handling raw farm products.

The inflation section authorized issuance of \$3,000,000,000 in treasury notes if the president deems it necessary; backed solely by the credit of the U. S. These treasury notes were printed in the U. S. Bureau of Engraving.

### Brevities

There will be no ball games this evening, due to the NRA meeting at the court house.

The Midland Roosevelt Code club will meet Tuesday evening at 8 o'clock in the district court room of the court house.

**O'Connell**  
(Continued from page 1)

statements at this time must meet with the approval of the district attorney.

The district attorney did not approve of any statements.

"Johnnie did not recognize any of his captors. He was not tied or chained and he did not recognize his surroundings, although he had the impression he was in New York City. He remained in the one place until the negotiations were completed."

### Business

(Continued from page 1)

Coston exports from the ports of Houston and Galveston were in much greater volume than for the corresponding month last year and at Houston were in excess of those of a month earlier, contrary to usual seasonal trend.

Petroleum production for the district declined 5,649,000 barrels in June to 39,081,000 barrels from 44,730,000 barrels in May.

**NRA**  
(Continued from page 1)

cause you serious trouble.

"What does all this mean? It means that if you employ any factory or mechanical worker or artisan you will not pay him less than 40 cents an hour or work him more than 35 hours a week, except that if you were paying less than 40 cents for that kind of work on July 15, 1929, you can pay that rate now, but not less than 30 cents an hour.

"As to all other employes—those on a weekly rate—you will pay not less than \$15 a week if you live in a city of over 500,000 inhabitants, or \$14.50 a week in cities of between 250,000 and 500,000 inhabitants, or \$13 a week in cities of between 250,000 and 2,500. And \$12 in cities of less than 2,500, and you agree now to work this class of employes more than 40 hours a week.

"As to employes who now get a higher wage, you should not reduce their wages because you reduce their hours, and you should generally keep the usual pay difference as between lower and higher paid employes. And after August 31 you will not work children under 16 years of age."

### Harvest Completes Cycle of His Life

**ST. PAUL, Neb. (UP)**—When the harvest rolled north into Nebraska this year, Solomon Ricker, of St. Paul, was satisfied that he had completed another cycle of his amazing life.

Ricker celebrated his 112th birthday in February of this year. But he does not feel that he has completed a full period of his life until the wheat has been harvested.

Harvest has meant much to him. He lived on the Nebraska plains when the harvest, ground into meal in an old iron pot, was the difference between life and death.

Born in Pennsylvania in 1821, he saw his first grain harvested with scythe and cradle.

He did not know how old he was until a few years ago. Then a lawyer, tracing heirs to a small estate, chanced upon his birth record. To the lawyer's surprise, he found Ricker still alive here.

The General Sherman big tree in California's Sequoia National park is estimated to be 4000 years old.

### Texas Opera Plans For Fair Are Laid

Railroad preparations for Texans going to the World's fair for "Texas day," August 23, are going swiftly forward over the state, with a state-wide mobilization being effected to co-ordinate the trippers into a single delegation.

Texas' woman governor will head the delegation, which will leave Texas August 20 on the Texas opera specials proceeding in the fastest available train transit to Chicago for six days at the exposition.

Mrs. John Wesley Graham of Houston, who has been designated by L. E. Snavely, chairman of the Texas World's fair commission, as Texas World's fair music chairman and chairman for the official Texas train, announced that 49 big entertainment features have been secured for the trippers. These include many of the outstanding attractions of the exposition. Mrs. Graham said, and will go to the trippers without charge.

"The lowest train rates also have been secured," Mrs. Graham said, "and to insure the trippers of the greatest delights imaginable at the lowest possible costs, we have arranged to get meals served en route at very nominal prices, while a refreshment and light lunch car also will be available."

Pullmans will be converted into hotel quarters, with shower baths and electric fans, in Chicago, saving the trippers hotel expenses.

Registrations are being received by Mrs. Graham at the headquarters of the "Texas Opera Specials," San Jacinto hotel, Houston. Prospective trippers also may confer with agents of the Missouri Pacific lines, Wash or Texas & Pacific lines at St. Louis.

Maestro Vittorio Verze, noted for four successive seasons as co-director of the Metropolitan Opera house in New York, where he was in charge of preparing all Italian operas, will be conductor. Maestro Verze has extended the love of opera to thousands of American radio listeners. In New York for many weeks, he produced full grand opera presentations over national broadcast, using orchestras, chorus and principals. They were hailed as among the most popular programs of their kind ever staged.

Oelia Samoloff will sing the Aida role. It was in this role which Madame Samoloff sang in six successive performances on the gala occasion of the inaugural opening of the Royal Opera house at Rome, under auspices of Mussolini. She was engaged for this event by Mussolini immediately following her debut as the youngest prima donna ever to be presented by the Chicago Civic opera.

Dreda Aves, following her Metropolitan Opera house debut, won the distinction of being the first American singer to be presented at the famous state opera in Dresden. In that exclusive discriminating opera center, Miss Aves, won 33 curtain calls—an unprecedented reception according to the American press council. Miss Aves, a native of Texas will sing the charming Amneris role in the production of Soldier field. Joseph Wetzel has been credited by critics as being America's greatest portrayer of the Rhadamenes in Aida and is noted for principal tenor roles with various prominent opera companies of the United States. The sweetening power and compelling magic of his voice, his gifted dramatic ability and handsome stage presence have made him a popular idol of music lovers.

### Explorer's Sister Exploring Canada

**QUEBEC (UP)**—Kathleen Shackleton, sister of Sir Ernest Shackleton, the late great Antarctic explorer, is conducting investigations of her own in the Gaspé Peninsula district of Quebec this summer. Unlike her famous brother, however, Miss Shackleton is exploring with little equipment other than paints and pencils for she is doing a series of sketches for the Provincial government and incidentally devoting considerable time to study of the Dominion bird sanctuary at Perce Rock and Bonaventure Island in the Gulf of St. Lawrence.

More than 20,000 rare wild birds, including stormy petrels and murrelets, relatives of the extinct flightless auk inhabit the sanctuary.

### Royalty Member Takes to the Sky

**PARIS (UP)**—Prince Nicholas of Rumania, sportsman brother of King Carol, is abandoning automobile racing to become the world's traveling ambassador of the skies.

His plans include a voyage to New York and thence to fly through the North American skies to dozens of centers preaching good will.

Nicholas will visit American commercial and military flyers as one flyer to another. He will be piloted by Captain Obreis, of the military household of King Carol, and will fly the Prince's own machine. Upon his return to Rumania, he will draft a report for the reorganization of a modern scale of the Rumanian air force.

While preparing for the American voyage, Prince Nicholas is spending his time visiting the flying fields of France, Poland, Italy, Belgium, Holland and Great Britain. He is visiting airports and aviation factories.

Everywhere he goes, the Prince is received officially as the emissary of his brother. No military air secrets are bared, but each country's aviation industry is anxious to show its advantages for it is expected that Rumania is preparing to spend considerable money on the development of commercial and military flying.

### Are Farmers Back To Horse and Buggy?

**CLEBURNE (UP)**—The fact that his records show more than 400 fewer automobiles registered in this county this year than at the same time last year has caused E. O. Hoser, county tax collector, to wonder if farmers are going back to the horse and buggy. His records show decreases in registration of both passenger cars and trucks.

### Diamonds Found On Canyon Floor

**DENVER, Colo. (UP)**—Eight diamonds have been recovered from the bed of the Black Canyon at the site of the Boulder dam and sent to the Denver bureau of the United States reclamation service.

The diamonds were black carbon ones used ten years ago on the boring bit of a drill which the government engineers lost while testing foundation rock for the dam.

When the bedrock was exposed in the river channel, workmen found the old drill and the stones were sent to Denver to be reset into another bit and used again. The diamonds were valued at \$2,400.

### TO PRESENT OPERA

**SAN ANTONIO (UP)**—Rehearsals are being held nightly by the San Antonio Civic Opera company in preparation for the season's opening August 15 when Victor Herbert's operetta, "Sweethearts," will be presented.

Practically every language is in daily use in the United States.

### Artillery Unit Can Travel 80 M. P. H.

**AMARILLO (UP)**—Forty years ago when the caissons of Battery B, 131st Field artillery, Texas National guard, went "rolling along" they were drawn by horses who did well if they plodded 25 miles in a day.

Now the battery, given the highest rating at the federal inspection this year, uses motor trucks which if pushed could cover twice that distance in an hour.

Cumbersome iron wheels on pieces and caissons have been replaced by strong, light, steel wheels with pneumatic tires and puncture proof tubes. The limber, or ammunition carrier, has been dispensed with altogether, and shells are carried in trucks with the men.

The trucks are virtually "non-stoppable." They have eight gears forward, which means they will move so long as there is traction.

When completely motorized the unit will have ten trucks in addition to the five now in service.

The battery's history has been interesting. It was organized here in the 90's. In 1916 it was sent to the Mexican border for 11 months of duty. Later it was sent to Camp Bowie, Fort Worth, and there converted into Battery B, 132nd Field Artillery, which it remained until it was disbanded after the war. It was reorganized in 1922 under its present name.

### Describes Golfer's Ideal Caddy

**DEL MONTE, Calif. (UP)**—Charles Brown, popular head caddy master here has picked his ideal caddy.

The boy must be a young man, neatly dressed, with a quiet voice, polite and always attentive. He always should be loyal to his player and professionally indifferent to his opponent. He must be able to locate the ball after the widest slice with a nonchalance that makes the shot look "not so bad."

Advice must be given by the caddy only upon request. The driver must be traded for the putter before the player is conscious of leaving the green.
