975,200 Barrels Is Reduced Limit For Texas

BY UNITED PRESS

The Stanoind Oil company ushered in federal supervision of the industry today by boosting the crude price fifteen cents per barrel, paying 97 cents for forty gravity oil in Oklahoma and Kansas and a top of 92 cents in East Texas.

The national allowable was placed at 2,409,700 barrels in an effort to lift prices. Texas was placed under a federal allowable of 975,200 barrels by the state railroad commission's order for a 25 per cent proration reduction.

#### Interpretation of Sheriff's Grunt Is **Bothering Vendors**

Plans for selling beer at 12:01 o'clock next Friday morning, one minute after the new law goes into effect in Texas, may be knocked in to a cocked hat here.

In order to begin sales that early, it would be necessary for the tax collector's office to open at midnight, or immediately thereafter, for issuance of licenses—and Sheriff A. C. Francis had only an enigmatic grunt for questioners.

One place, particularly, has made rather elaborate preparations for dispensing suds, both lager and bottled; with the definite idea of starting sales directly after midnight. The proprietor is awaiting some interpretation of the sheriff's grunt.

The law provides establishments which serve beer only as a sidelingmay sell it at any hour; places devoted exclusively to the sale of beer must observe definite hours, from 7 o'clock in the morning until midnight. HERE NETS \$100

They generally go away less inclined to complain that their toast was burnt at breakfast and their shees hurt.

Here are the exquisite methods of torture which ingenious man has the control of the control o Oscar Wilde, for instance, might devised through the ages. Upon entering, the visitor finds a creature chained to a chair, wearing iron boots, while into the boots a backet figure pours maltan land.

Oscar Wilde, for instance, might have a tough time landing a job as a gag writer in Hollywood now-adays, DeSylva suggests, although he was rated the foremost wit and phrase coiner of his time.

"No modern wisecracker would dare spring a gag such as Wilde did once," DeSlyva says. "He was at a stoday dinner party and that iron boots, while into the boots a heoded figure pours molten lead. The Scotch thought up this trick in the sixteenth century. The figures are all life-sized and animated, with sound effects.

Next there is the rack, England's contribution to the happiness of the world. Here two more hooded executioners pull a hapless soul limb. at a stodgy dinner party and the men were sitting about uncom-fortably, waiting for the women to leave so they might smoke. "The hostess suddenly saw some-

There has been a remarkable raily in the passenger traffic of late; as official statistics revealed, but this will not have an appreciable effect. official statistics revealed, but this will not have an appreciable effect on the receipts of 1933, which will close, it is expected, with a deficit approximating 650 million lire.

During the budget debate Count Costanzo Ciano, Minister of Communications, explained that apart from the prevailing business depression, the shrinkage of traffic and consequently of revenue was due to the worldwide phenomenon of road.

the worldwide phenomenon of road traffic competition. Special interest was attached to Minister Clano's statement on the electrification of railroads. "In a country lacking coal," he said, "the desirability of this measure cannot be judged exclusively by comparing the relative cost of steam and electricity."

"If at the present time reduced traffic and exceptionally low price of coal makes the former undoubtedly the less expensive form of traction, it must be remembered that the shrinkage of traffic is a passing and contingent phenomenon, and that not so many years ago coal, now costing 100 lire per metric tor, cost as much as 780 lire, while the difficulty of securing it at any price caused grave anxiety to those re

sponsible for the railway services at a time when they were essen-

tial to national defense."

GRAVEYARD RACKET

EL PASO (UP) -A counterfeit Minister Caino concluded with the gravestone racket has been brought Minister Caino concluded with the information that when the plans now in hand are completed, 6,605 kilometers of trunk line will be electrified. In other words, 41 per cent of the whole normal guage system which carries no less than 60 per cent of the total traffic of the country.

Twenty per cent of the timber cut in all the world is wasted in the sawdust.

gravestone racket has been brought to light here with the theft of a marble stone valued at \$85 from Concordia cemetery. Fred O. Narically, manager of a monument company, said the thieves made plaster of paris casts of the stone and sold them to poor persons who were unable to purchase real Italian marble stones. He said a few weeks after the theft models of stone "began to appear all over the cemetery." cemetery.
