Majority Of Howard-Glasscock Operators Favor Four-Day Tests To Determine Potential Figure
Eighteen operators in Howard and Glasscock counties whose wells now register total daily potential of 82.84 barrels voted for four day tests of the 521 wells in the field to derive new potentials in mail ballots that have been submitted to R. D. Parker, chief supervisor of the oil and gas division of the Texas Railroad Commission.

Replies were received from 32 operators representing potentials of 65,724 barrels daily. This was over 90 per cent of the productive capacity of the field, there being 44 operators with total present official potentials of 72,931 barrels. An order from the railroad commission for the new gauges is expected soon. The wishes of the majority of the operators usually is followed if in accord with conservation rules.

Eight Want No Tests
Three of the 18 operators who voted in favor of the four-day tests specified special conditions. Eight operators whose wells now rate 12-618 barrels voted against any new tests. Six operators with potentials aggregating 10,271 barrels voted for miscellaneous plans, including two who advocated a general meeting of the operators.

Two operators, George H. McIntyre of the Continental and E. S. SoRelle of the Pure, suggested that four-day tests be taken... but that only the last two days' gauges be used. Mr. SoRelle further recommended that any operator who desired be permitted to increase the size of tubing in his well up to the 3-inch limit prescribed under the present order. George N. Moore, receiver for the Cosden Oil Co., favored a test for ten days and suggested that even the maximum of 2 per cent basic sediment and water allowed in pipe line oil be deducted from the potentials.

E. G. Allen of the Shell favored either a 12 or a 24-hour test and proposed that a railroad commission be designated to have personal charge and assume responsibility

for the tests for potentials. The latter suggestion was endorsed by C. W. Tomlinson of the Schermhorn Oil Co. at Ardmore, chairman of the general committee.

July Gauges Executive
Six-hour gauges taken early in July were rejected by a majority of the field representatives at Big Spring because an increase of about 30,000 barrels in the total potential of the field was indicated. This was accepted as proof that all basic sediment and water had not been separated from the oil immediately at the conclusion of the runs. Seven-day gauges were proposed but two of the four pipe lines serving the field advised that on account of the limitations of pipe line and storage capacities runs for a full week could not be handled and suggested four-day tests. Gauging of the wells for four days or for six hours again or for four days or the calling of a general meeting of the operators were the three proposals submitted by mail.

What's the Reason for this swing to Chesterfield

We believe it's **Mildness** and **Better Taste**

IF YOUR cigarette is mild—that is, not strong, not bitter, but smokes cool and smooth—then you'll like it and don't worry about how many you smoke.

If your cigarette tastes right; if it tastes better—that is, not oversweet; and if it has a pleasing aroma—then you enjoy it the more.

Everything known to Science is used to make

Chesterfield Cigarettes milder and taste better and to give them a pleasing aroma.

First, the right kind of ripe, sweet leaf tobacco—Domestic and Turkish. Then these tobaccos are blended and cross-blended to make sure that Chesterfields are milder and better-tasting. That's why "They Satisfy." Give Chesterfields a trial. They are certain to please you.

Pat Malone Beats Phils

Cubs 3 1/2 Games Ahead Of Dodgers; Pirates, Braves Win

CHICAGO—Big Pat Malone held Philadelphia to six hits Tuesday, beat them 5 to 1, and boosted the Chicago Cubs to a lead of three and one half games over the idle Brooklyn Dodgers in the National league pennant race.

Outside of a home run by Hal Lee in the seventh inning, Malone was so effective the slugging Phils spent the afternoon striking out or popping up. His strikeout and popup pitching worked so well the Cubs set a new National league record of only one assist in a nine-inning game. The achievement also equaled the major league record, by the Chicago White Sox in 1919 and the Cleveland Indians of 1924.

Ed Holley, a former Cub, started for the Phils and lasted seven innings, yielding six hits. He was jerked for a pinch batsman and Phil Collins hurried the other inning during which he gave up two hits and another run.

Polks Large Vote For Congress No. 3

JOSEPH W. BAILEY, JR.

Mr. Bailey is young, vigorous, and courageous. He is a clear thinker and an eloquent speaker who reminds his hearers of the old school political orators in Texas.

In his platform he advocates a return to the principle of state's rights and closer adherence by the democratic party the theories of government propounded by its founders.

mary. Eleven candidates were in the race, several of them widely known throughout the state. Mr. Bailey's lead over his nearest opponent was more than 77,000 votes. This, in itself, is a notable tribute to a man making his first race for public office, his supporters point out.

Mr. and Mrs. Roy Percifield have returned from a two weeks' visit to Los Angeles and other points in California.

SPORTS ON PARADE
By CURTIS BISHOP

To our right we have a letter from Friona, Texas, and the author is none other than Bill Stevens, Big Spring coach from '29 to '31. He reports that he is following the successes of the various Big Spring teams closely, and sends his congratulations and best wishes.

But the purpose of Stevens' letter was to comment upon a portion of Bobby Campbell's Breckenridge column which was quoted by the circulation some two or three days ago. Campbell said, in substance, that he has always received the blame for the tie between the Big Spring Bovines and the San Angelo Bobcats in 1931. Stevens comments:

"I noticed in your paper where Bobby Campbell popped off about the San Angelo game again. I still say that he caused the Bobcats to play the best game they played the whole season against us.

Bobby came out with an article about San Angelo being cold-shouldered and would not hit through fear. When we arrived in San Angelo we found big headlines across the sport page that said, "that quitting team is out're." You know and I know that this team would naturally fight under this kind of pressure. I told Bobby he was trying to get me beat and I still say he was."

Well, Bobby went east and Bill went north, and let's hope the twain don't meet. Not under the present circumstances at least.

Incidentally Stevens is well-pleased with his contract for next season at Friona, where he enjoyed a successful season in 1931. His choicest remembrances, he declares, of his stay in Big Spring are the college records of Buren Edwards, Buster Bell, Sloppy Smith, Tommy Hutto, Frank Fisherman, Bill Flowers, Ted Phillips, and several others who broke into athletics under his guidance.

That irrepressible red-head, Irish McGinty, who has proved a sensation in his earlier fights at the Casino, will have a worthy opponent in the ring with him Thursday night. The party of the second part is none other than Joe Rich, who battled hard and often before local crowds several years ago.

Considerable interest in being aroused in the battle, and Promotor Neal will probably find that he has uncovered a "natural." Rich has a strong following, while McGinty's last two performances have quite a number of fans raving about him. One of the most enthusiastic is Doc Hardy.

Rich is more of the careful, boxing type, but he packs a wallop in either glove. McGinty, we understand, digs both of his toes in the canvas, draws back, and lets 'em have it. His two opponents on earlier bills have not been exactly successful in dodging his onrushes.

Garland Orr, chubby bampine of the old West Texas league, and Danny Lynch, ex-Baylor shortstop, have been recruited by Mose Simms of the Abilene Oilers for this week-end's series with Snipe Conley's Texon team. Texon now leads in the series 3 to 2.

The municipal golf course will be formally opened by the playing public Thursday afternoon with a four-handed exhibition match between two San Angelo professionals, Henry Dobbs and Frank Tabor, and Shirley Robbins and another West Texas amateur, either Frank Hise or E. C. Nix. The foursome will start at 2 o'clock. Dobbs' latest outstanding feat is a 67 over the Glenmore course in San Angelo.

Enforcement - Not Repeal

What Is Mr. Rockefeller's Alternative?

"The defection of John D. Rockefeller, Jr., from the cause of prohibition, which he supported so ardently, but not so ardently as had been represented before his conversion to repeal, is likely to have a great deal more importance attached to it by people on both sides of the question than the circumstances warrant. It seems quite apparent to those who have made a careful study of the question that Mr. Rockefeller has been influenced principally by what he has seen in the papers, and any well-informed person knows that, for the most part, the metropolitan press has been dripping wet. Men of great wealth have not been inspiring leaders in our financial debacle, and there is no more reason for looking to them for the quickest conversion to repeal, but a sense of wisdom in so many-sided a matter as prohibition, is the comment of the Presbyterian Advance.

Jane Addams Disagrees

In similar vein Jane Addams, of the Hull House, Chicago, and, with Dr. Nicholas Murray Butler, winner of the 1931 Nobel prize, is reported to have said: "Mr. Rockefeller has expressed his honest opinion, but I must disagree with his premise that there has been more drinking and crime since the adoption of prohibition. There may be more drinking in certain classes, but my observation has been that among the working classes conditions most certainly are a great deal better than they were in the days of the saloon, the distilleries and the whiskey ring."

Does Mr. Rockefeller Desire To Re-establish Liquor Trade, Asks Methodist Board of Temperance

"It is most distressing to the American people that they destroy the prohibition amendment, without there having been laid before the people any alternative proposal whatever," declares the Methodist Board of Prohibition. "He simply presumes that something better will rush in to fill the vacuum created by the removal of the prohibition laws and this in the face of all human experience with the liquor traffic. The opponents of prohibition, it seems, are so bankrupt in statesmanship that they are able to propose nothing as a substitute for prohibition. They simply want the policy, which was established after every other policy had failed, to be wiped out. He proposes chaos—nothing else. We ask Mr. Rockefeller in all solemnity if in these times, when all over the world social institutions are trembling upon their foundations, he wishes to take the responsibility for recommending to America that it re-establish a legalized liquor trade. Does he forget the riots and the bloodshed, the bitter strikes of former periods of depression when the sale of liquor was legalized? Can he fail to have observed today the quiet and orderly patience of loyal Americans who are not only themselves without the necessities of life, but who are distressed by what they see in their own homes? Does he wish to see this situation complicated by the open and common sale of drink? It is the counsel of madness and we call on Mr. Rockefeller to turn once again to the sanity of judgment which has characterized his relations with the public for two decades."

any infraction of election laws in the recent Democratic primary. The Herald believes that good nature and custom may have allowed some illegal votes to be cast, and that this occurred not because of any intent by election officials to defraud but through hesitancy on the part of some to challenge voters, and also the fact that a good many persons who have always had poll tax receipts do not have them this year, but the election officials, knowing them personally, failed to enforce the law to the letter. Publication of the news story from which arose the above statement was as a matter of course, made timely because of widespread comment at this time over illegal voting in various parts of the state.

highway fund at Jan. 1, 1927, plus receipts from that date to June 23, 1932, amounted to \$217,942,861.83

Examination of the comptroller's records shows clearly the correct total of \$216,613,868.90. In this, then, Mr. Ferguson is wrong by \$1,328,992.95. In order to bring his comparison down to June 30, 1932, we should take the receipts from June 23, 1932 to June 30, 1932 in the amount of \$408,559.11, which still leaves Mr. Ferguson's figures wrong by \$290,433.84.

"In his calculations and statements Mr. Ferguson completely ignores the fact that in Sept. 1931, \$8,000 was transferred to a special fund as a loan to the pension and general revenue funds, and that at June 30, 1932, the comptroller's records show a cash balance of \$13,916,640.25 in the treasury to the credit of the state highway fund. Thus Mr. Ferguson is wrong again by \$16,916,640.25, which, added to his previous mistake, makes him wrong by \$17,837,074.08. In his statement of cash to be accounted for."

Bright Spots In Business

DALLAS (UP)—W. A. Tarver, chairman of the insurance commission of Texas, said here today Texas life, fire and accident insurance companies had weathered the depression successfully and told of a notable increase in the volume of life insurance. Latest statistics revealed \$2,500,000,000 of insurance is in force by the Texas companies.

DALLAS—Fred M. Jacks, southern district manager for Warner Brothers-First National Pictures, said here after a trip over his territory that "history books will tell us that July, 1932 was the turning point of the depression." He said reports to him showed a definite improvement in business.

Sherman—Eight new business concerns opened here this week including a woman's ready-to-wear store, a shoe store, a dry goods and notions store and other retail establishments.

NEW YORK—Ninety five textile mills reporting to the Commercial Investment Trust Corporation added 4,061 employees from July 1 to August 12, it was announced.

READING, Pa.—About 500 employees were called back to work by the Berkshire Knitting Mills and more were expected to be added in the next few weeks.

SHREVEPORT, La.—North Central Texas Oil Company reported net profit for the first half of 1932 was \$21,202, against \$5,616 in the first six months of the last year.

WILKESBARRE, Pa.—Five hundred men were recalled by the Delaware, Lackawanna and Western Railroad as one anthracite colliery was reopened after three months shut down and two others prepared for resumption.

CHICAGO—Illinois Central Railroad announced 100 clerks will be added to the Mississippi payroll on account of improvement in general conditions and movement of the state's cotton crop.

Big Spring, Texas, Aug. 20, 1932.
To Whom It May Concern:
I want to make this statement out of friendship for Mr. C. V. Terrell, who is in the run-off campaign against Mr. Lee Satterwhite, for Railroad Commissioner:
I have known Mr. Terrell all of my life, my family lived in Decatur, Wise County, and my father ran a hotel there when Mr. Terrell was elected County and District Attorney. My brother Walter Satterwhite was serving as Deputy Sheriff in Wise County, during his term. Mr. Terrell's fine record as County Attorney made him one of the outstanding figures for good government in that section of the country. I have followed his career since that time while he was serving as State Senator, State Treasurer and as Railroad Commissioner and I believe he is one of Texas' greatest statesmen. I know how he is regarded by the people who know him best, that is the people who have grown up with him and I am happy to count myself one of his warmest friends and greatest admirers.
His opponent has based his campaign on malicious propaganda charging him with being unfit for the office he now holds and is seeking re-election to. In spite of this the people gave him one hundred fifty thousand plurality in the July primary in which he carried 187 counties in the State, and I believe that as a reward for his fine service to the people of Texas they will give him an even greater majority next Saturday.
Yours very respectfully,
T. E. SATTERWHITE.

OLD GOLD CIGARETTES
NOT A COUGH IN A CARLOAD

THE VERDICT OF SCIENCE
This is to certify that in 75 repeated tests made of four leading cigarette brands... measuring the heat content of each cigarette by the Calorimeter method... it was shown that OLD GOLD is from 112 to 156 B. T. U.'s COOLER than the other brands. Careful measurement of the heat of the smoke further confirmed the fact that the smoke of OLD GOLD is definitely cooler.

NO MATTER how high you climb, or how far you go... you can't lose the cigarette ads.

Each brand never stops trailing you in its pleasant effort to win you over.

For our part, we say: "If you thoroughly enjoy the brand you're smoking, STICK TO IT. All modern cigarettes are good."

On the other hand, if you truly want to know the cigarette of finest inherent quality, let's dismiss the usual cigarette claims... and look for the actual evidence!

Here's the impartial testimony of Science:
In 75 laboratory cigarette tests, checked and verified by scientists of two leading universities, OLD GOLD was found to be the coolest and throat-easiest cigarette.

OLD GOLD won these tests because it is made of the PUREST and choicest tobacco... free of all hot-burning artificial flavorings. That's the "why" of "not a cough in a carload." That's the why of O. G.'s greater taste appeal, and throat-ease.
