PRODUCE TUITION FEE SPRINGFIELD, Mo. (UP)—

Drury College officials have announced they will trade college tuition and board at the common farm produce at market prices. To date, two students have entered college on the "garden terms."

One contracted to pay tuition in vegetables and the other in eggs.

History of State P.-T. A.

EDITOR'S NOTE: The following article on the history of the state P. T. A. and the plan for the realization of object was taken for the organization's handbook and prepared by members of the North Ward P.-T.A.

The Texas Congress of Mothers' and Parent-Teacher associations, chartered under the laws of the state, is a volunteer organization, actively engaged in child-welfare work and certain specific lines of educational work. It is a branch of the National Congress of Parents and Teachers, an organization of more than one and one-fourth million members, which is closely linked to all national educative agencies and is making its great educational force felt throughout the entire nation. Texas alone has 60,000 members represented in approximately 2,000 local associations.

Belle Bennett Circle Meets

The Belle Bennett circle of the Methodist auxiliary met Monday afternoon at the home of Mrs. C. L. Hafer, with Mrs. Lily Pratt, circle chairman, conducting a brief business session.

Officers' reports were given and a membership committee composed of Mrs. C. E. Smith, Terry Elkin, Phil Scharbauer and Johnnie Rauliff, and a social committee composed of Mrs. Pratt, Smith and P. O. Moore were appointed. Mrs. Pratt and Hafer were appointed chairmen of the class groups for a gift box contest. Mrs. Jess Prothro was made chairman of the luncheon committee.

A Bible study was conducted by Mrs. L. B. Hankins. Mrs. A. P. Baker will conduct the Bible study at the next meeting.

Attending were Mrs. Jemerson, Hankins, Fred Wemple, Rauliff, Smith, Prothro, Lowe, E. J. Voliva, Elkin, Moore, Scharbauer, Baker, Cowill and the hostess.

SWEDISH EMIGRATION DOWN

STOCKHOLM, (UP)—Emigration from Sweden has dwindled to practically nothing. Thus in July, eight men and 14 women emigrants sailed from Stockholm, Gothenburg, or Malmo, the three principal ports. During the first seven months of this year the figure was 174, compared to 204 in the same period of 1932, 430 in 1931, 2,377 in 1930, and 7,206 in 1929.

Out of the SCRUGGS DAIRY MILK BOTTLE

COMES FOOD VALUE

The United States Labor Department suggests that if the food budget is limited twenty-five, to thirty cents out of every dollar expended should go for milk or its equivalent. That is because milk contains practically every element necessary for health. And the milk should, for greatest return, be of the fine, unvarying quality in Scruggs Dairy milk.

they're among the best players of the east. Temple, Pop Warner's new citadel, and Columbia, reigned over by Lou Little, should be plenty tough. Stars are flashing over the campuses at Princeton, Harvard and Dartmouth. As for the others, Syracuse, Tech, West Virginia, Duquesne, Villanova, Lafayette, Holy Cross, Boston college and Manhattan—they're the standard required for winning over the best clubs, Yale, Penn State, Lehigh and Rutgers are looking forward to next year, rather than this.

Picked up here and there: Penn State's 1933 football squad is 100 per cent Pennsylvania, all candidates on the team being from that state. . . . Tiny Thornhill, grid coach of Stanford university, is said to edit every piece of publicity copy leaving the school commenting in any way on his team. . . . Looking over this schedule and that, how about Georgia's, which includes games with New-York university, Yale, Tulane and Southern California? . . . Furnam university, at Greenville, S. C., has five "Smiths" on its football coaching staff of four men, three of them former Notre Dame stars. The "Irish" are Rip Miller, head coach; Christy Flanagan, backfield, and Johnny O'Brien, line. . . . Purdue, in its last four years of football, has lost only three games.

Lombard Hit As a Female Jekyll-Hyde

Spirits that hurdle through the night, tables that rise mysteriously from the floor, trumpets floating strangely through dark rooms, voices speaking from the void—these and other miraculous phenomena make up part of the exciting action in the splendidly produced Paramount picture, "Supernatural." The picture shows today and tomorrow at the Ritz theatre.

The story, a sympathetic treatment of the physical phenomena brought to public attention by such world-famous figures as Sir Oliver Lodge and the late Sir Arthur Conan-Doyle, moves with rapidity as it depicts the strange complexities of a female "Dr. Jekyll and Mr. Hyde." Carole Lombard has the role of this occult personality and gives a splendid performance in the part. The producers, Victor and Edward Halperin, you will remember, were responsible for the eerie "White Zombie" that was so successful last year.

Chock-full of suspense, the picture reaches high moments during the exposes of the tricks of fake mediums through which so many anguished believers in spiritualistic reincarnations are mulcted each

Will Rogers Sure Hit in "Dr. Bull"

Those who read "The Last Adam," one of the Book of the Month selections, have looked forward to seeing its screen portrayal—but few of the admirers of the book expected to see the inimitable Will Rogers cast as the lead.

"Dr. Bull," screen name for the drama, gives an excellent characterization of the old veterinary-family doctor. Without the excellent cast, which is bolstered by Marian Nixon, Ralph Morgan and Andy Devine, Rogers' acting would make the picture a success.

The Yucca is completing the showing today. Those who like Will Rogers, or those who don't (if there be anyone of that class) will admire the quirks of the plot, the solidity of a typical New England setting, Rogers' wise cracks and the acting of the supporting cast.

Big crowds have been seeing the show, and Manager Hal Grady says it has been one of the Yucca's most definite hits of the season.

Canada in Position to Lead in Return Former Prosperity

MONTREAL (UP)—Canada stands in favorable position to lead the return to the prosperity of former years.

The Dominion has weathered the depression in a gratifying manner. Leaders in all departments of Canada's national life are in agreement with the Prime Minister, Right Hon. R. B. Bennett, regarding this.

Statement by bankers, industrialists, railway executives, etc., bearing on the Canadian economic situation, reflect the pronounced opinion of the Prime Minister that "the worst is over," that Canada "has survived the crisis," and that, while trials remain to be met, they will be successfully overcome.

Encouraging Facts Especially noteworthy and encouraging is the fact that during the last decade there has not been even a run on any Canadian chartered bank, much less a bank failure.

Canadian banks, though adhering to sound principles of banking, undoubtedly have saved the Dominion from serious financial disturbance. Which demonstrates the stability of the branch banking system in times of stress. Promising features in the pres-

ent economic outlook include the healthy condition of savings deposits, the strong technical position of Canadian manufacturers, and a prosperous gold mining industry.

Admirable Position The most difficult situation in Canada is that of agriculture. A revival of world trade and a return of profits to agriculture must precede any general return of prosperity to the Dominion; but Canada is in an admirable position to participate in the first material advance.

Word from Ottawa says that Canada has an eye on the National Industrial Recovery Act in the United States, and may soon adopt a recovery program of her own to lend impetus to the forward movement. The NRA has been definitely rejected by the Prime Minister, but this does not eliminate the possibility of the Canadian Government inaugurating a policy designed to remedy and stimulate business on this side of the border.

LIBEL CASE SETTLED

MONTREAL (UP)—Canada's first airplane libel case has been settled with a public apology. Arrested here on a charge of libel for flying his plane over the city with alleged libelous words against John de Kuyper, Canadian liquor magnate, and his business associates, painted on the wings, Lucien E. Neuenhauzen, youthful pilot, was freed after he read an apology in court.

FOOTBALL SKETCHES

A review of the recently completed tournament which is an annual drive for the Ellis Cowden trophy shows that the hardest match played by De Lo Douglas, trophy winner, was that with M. D. Johnson. Three strokes separated the two in the handicap rating, Johnson having a 10, Douglas a 7. The 18-hole match was played off in installments, nine holes on two consecutive days. At the end of the first nine, Douglas was 3-down, Johnson was giving the younger star a great lesson in golf. On the next afternoon, Johnson was a bit shaky, but still had his man down 3 holes on No. 14. Then Douglas exhibited the tenacity that was to carry him through the field to an ultimate win; he shot the next four holes in one under par, to take all of them. On No. 18, where he won, he was past the right trap and in the rough. His iron shot was as nearly perfect as any pro could wish, and he holed out for a birdie 3. Johnson, as usual, played his tee shot

down the middle, and came out with a par. On his match with Johnson, Douglas should have won 3-1, but he three-putted three greens. However, he made up for his erratic play on those greens by ramming down three long putts on other greens, on Nos. 6, 7 and 18. With characteristic frankness, Johnson said: "He beat me because he played better golf the second afternoon; if we had kept playing the first afternoon, I'd have won, I think. Anyway, we had lots of fun." During the same round, Bill Bailey, runner-up in the finals, did the unexpected. That he is able to shoot around par is not unknown to those who have played with him, but that he would shoot sub-par under unusual pressure was not expected. He was playing Pat Riley, who not only had shot two 38 rounds a few afternoons before, but who had advantage of one stroke in the handicap classification. Bailey shot a neat 35 on one of the rounds to put Riley out. That pass of Muller's in the California-Ohio game was really 70 yards, Charlie Mix informed the correspondent. There had been some doubt of the yardage expressed lo-

cally. Mix was in the stands when it happened. The long heave started as a triple pass. Ohio was predominately a passing team and California's grabbing of the Ohio thunder stunned the invaders. A fan writes in to ask about the football prospects in the east. We infer he refers to what clubs are strongest. Fordham and Colgate look better at the moment than most bit, as usual, there are several powerful teams in the east. Fordham has a new coach, Jimmy Crowley, one of the immortal "Four Horsemen of Notre Dame," a great coach, but also has a nightmare for a schedule. Colgate, much like last year, has somewhat of a setup for a schedule. Some of last year's most impressive clubs will have more difficulty this season. Army's coach, Lieut. Davidson, will have a rough time displacing Maj. Ralph Sasse. The Cadets lost only to Pitt last year, and every other club, apparently, is pointing for the West Pointers. The same condition faces Penn, Brown and Cornell. Jock Sutherland, Pitt coach, believes Navy will be the real pace setter. Rip Miller, Annapolis coach, is looking forward to his best year. Watch Bob Harbold, center, and Gordon Chung-Moon, halfback, for

When a feller needs a phone

IN OTHER WORDS, the telephone enables you to get in touch quickly with others...and they with you. You'd be surprised how much more convenient and pleasant everyday life becomes with a telephone at home. Try it... call the telephone business office now. Say, "I want a telephone."

THE First Lady of the Garden, of course, had a wide choice of fernery to convert into finery. But all of it was green . . . and that grew monotonous. So next we hear of her wearing furs! For women, it seems, just must have change. Everybody knows that a red hat will cure the blues! Most important of all, new clothes for Mother seem to have a cheering effect on the entire family. A successful little dress is worth a song before breakfast or a Grand Surprise Dessert at dinner-time. So Wise Men (otherwise referred to as good providers and model husbands) are falling in with feminine plans to buy some new clothes this winter . . . and here's why we say to act now, and save! The sweatshop, and the flashy little \$2.88 silk dresses, have passed out of

the picture together. There was no standard of value for the sweatshop worker. She toiled like a coolie for any wage she could get . . . sometimes was tricked into working without pay! Now, the NRA codes in the dress industry, as you know, have raised wages, shortened hours, eliminated child labor, and improved working conditions all around. This is a good thing for everyone concerned. For the truth is that the price of women's clothing had fallen so low that no one could make a decent living out of it. Wages went down and down . . . workmen were laid off . . . human hands and heads, and their products, too, seemed to have lost almost all their real value. That is what the NRA codes are for . . . to restore value to the common things of life . . . to make every-

one and everything worth something again. And it's working! Wages are up. Woolens have advanced 49%. Silk and rayon dress goods 35%. The price of women's garments is bound to go up. So good buys, right now, are ripe for picking, and prices won't even be lower, they say, at January sales. In fact, they will probably never again be as low as they are today! Now is the time to buy!

DO YOU KNOW?

That 19,957,684 letters went to the dead letter office last year?

That 100,000 letters go into the mail's yearly in blank envelopes?

That \$100,000 in cash is found annually in misdirected letters?

That only about 70 per cent of this can be delivered?

That \$20,000 worth of postage stamps is found in similar fashion?

That \$4,000,000 in checks, drafts and money orders go there every year?

That Uncle Sam collects about \$85,000 a year in postage for the return mail sent to the dead letter office?

That it costs Uncle Sam approximately \$2,000,000 yearly to look up addresses on misdirected mail?

That this vast sum could be saved and the dead letter office abolished if each piece of mail carried a return address, and if each parcel were wrapped in stout paper and tied with string cord?

Moral: Every person knows his own address if not that of his correspondent; put it in the upper left-hand corner.

The figures do not take into consideration the millions of post cards which are mailed annually without any address and which go into the wastebasket after a short period of time.

AGREEMENT FILED

HELENA, Mont. (UP).—For the first time in 20 years a prospector's grub stake agreement recently was filed in the county recorder's office here. The agreement was filed by John F. Frazier, of Helena, and was from J. A. Stroubridge, Portland, Ore., in return for \$40 and other valuable considerations.

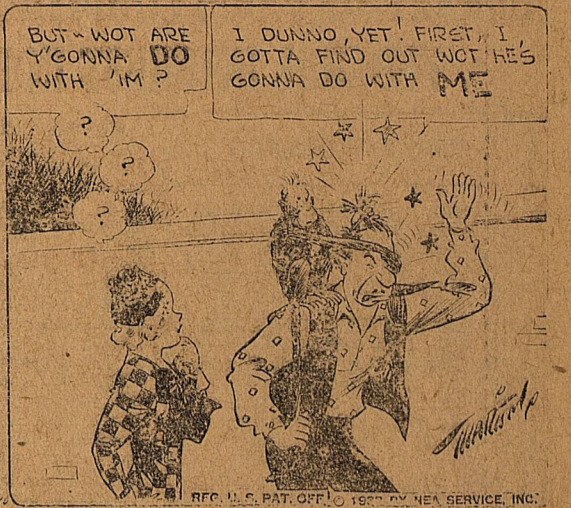

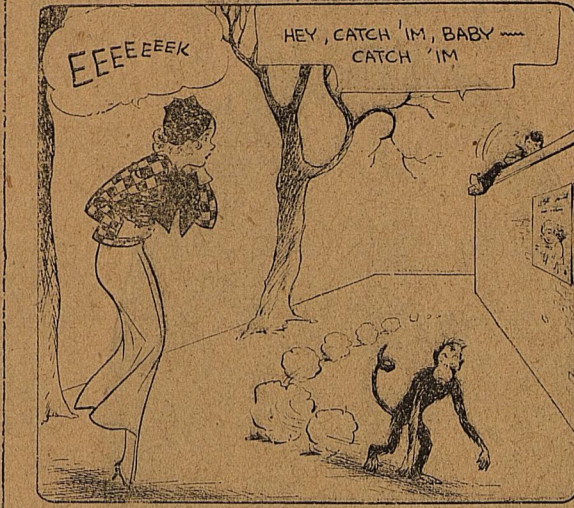

YEAR ROUND AIR SERVICE

MALMO, Sweden. (UP).—Year-round aerial passenger traffic will be started for the first time by the Swedish Aerotransport Company, whose head is Capt. Carl Florman. Compared with last year, the number of passengers on the lines between Malmo, Amsterdam, Paris and London showed an increase of 40 per cent in 1933.
