Premier Of Prussian State Removed; Van Papen In Charge

BERLIN, (49)-German govern ment moved with old-time military precision Wednesday to establish virtual dictatorship over Prussia, clamp down nartial law on the city of Berlin and the province of nburg.

The action followed critical pressure upon the government to stop olitical riots which have taken toll of more than a hundred livesand injured twelve hundred in the last three weeks.

Chancellor Franz von Papen. was appointed commissioner of Prussian affairs and Mayor Franz Bracht of Essen was named chancellor's assistant and given dictorial power in von Papen's name.

Chancellor Von Papen decided for the present to remove only Premier Braun and Karl Severing from the Prussian ministry, leaving the rest of the members of the state cabinet in office as his deputies. Government spokesmen said action was taken in view of establishing secretiy and order in Prussis, and was merely a passing measure.

ADVERTISING CREATES EMPLOYMENT

"We'll Re-Open the Factory in the Morning!"

UR advertising is beginning to click, Jones-orders are coming in, by the dozen, by the score. Call back one hundred men. . . We'll start the wheels rolling again in the morning!"

When business starts on the up-trend-as it certainly will-the artillery of advertising will move to the front and swing into action, clearing the way for industrial victory. Already, many of the big guns are heard booming in the distance. Owners of closed-down factories, tired of twiddling their thumbs, are meeting the challenge of depression with courage and action. They are launching vigorous campaigns of advertising. Consumers will respond, merchants will send in more orders, the wheels of industry will begin to hum again.

The result . . . thousands of men going back to work, drawing their weekly pay checks, mees ing old obligations, buying the things they have needed.

What advertising has done in the past to level out sales peaks and valleys, thus *eliminat ing seasonal unemployment, it will do on a vastly larger scale to turn the tide of depression.

Inducing people with money, to buy, is the best way possible to get other people employed. Stocks become depleted; retailers send in orders for more; manufacturers take on help to fill these orders. These laborers then have money and, themselves, become buyers.

Watch the vigorous new trend in advertising. It is one of the hopeful signs of returning

U.G. proves its case

Scientific tests upset claims of rival brands. Give verdict to Old Gold, as coolest, throat-easiest cigarette.

CLUB WOMEN INTERESTED IN CIGARETTE PURITY WITNESS OLD GOLD SCIENTIFIC VICTORY Mrs. Oliver C. Harriman, Mrs. Julian Gerard, and Mrs. William Thaw III, keen spectators of the Calorimeter test showing the greater coolness of OLD GOLD, in comparison with 3 other leading brands.

DROOF! . . . that's what you want in a cigarette advertisement. You can't smoke claims. You're entitled to evidence.

But do you get it . . . when an ad simply says: "My cigarette is better?"

OLD GOLD doesn't expect to win you by unsupported adjectives alone. But it does ask you to consider the findings of a great testing laboratory . . . as checked by scientists of two leading universities . . . then draw your own conclusions!

These laboratories made a "cool" test of 4 leading clearette brands . . . an accurate, impartial scientific test. They repeated it 75 times. And consistently, the smoke of an OLD GOLD was shown to be the coolest, and hence the throat-easiest.

Coolness is the clue to quality in a cigarette. Only the finest, smoothest, purest tobacco burns "cool." Only PURE tobacco burns cool. In establishing itself as the coolest smoke, OLD GOLD proves itself the cigarette of purest and choicest tobacco quality; utterly free of hot-burning artificial flavorings.
